### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(4) Radio transmitters, radio telephones, radio receivers, television receivers and remote control units therefor, FM stereo converters, tuners, radio frequency amplifiers, audio amplifiers, pre-amplifiers, phonographs, turntables, tape decks and tape recorders, electronic Morse code keyers, code practice oscillators, public address equipment, loud speakers systems, headphones, and specially adapted parts and cabinets for the foregoing and toolkits and testing equipment of such items being micrometers, multimeters, digital signal processors, oscilloscopes, audio analyzers, transistor testers, magnifying loupes for soldering, radio frequency meters; marine electronic apparatus, namely, depth sounders, direction finders, fish spotters, water temperature meters, fog-horn-hailers, fuel vapor detectors, toolkits and testing equipment of such items being micrometers, multimeters, digital signal processors, oscilloscopes, audio analyzers, transistor testers, magnifying loupes for soldering, radio frequency meters; automotive maintenance equipment, namely, ignition analyzers, battery chargers, timing lights tachometers and tune-up meters and toolkits and testing equipment of such items being micrometers, multimeters, digital signal processors, oscilloscopes, audio analyzers, transistor testers, magnifying loupes for soldering, radio frequency meters; electric appliances and control equipment, namely, electric power converters, radiation detectors, metal locators, radio control equipment for models and model raceways, electronic laboratory ovens, photo timers and spectrophotometers and toolkits and testing equipment of such items being micrometers, multimeters, digital signal processors, oscilloscopes, audio analyzers, transistor testers, magnifying loupes for soldering, radio frequency

meters; electronic training materials and equipment, namely, catalogues, instruction assembly and operating manuals, training manuals, technical and non-technical drawings; electronic educational construction kits consisting of AM radio receivers, audio generator meter buffer boards, radio transmitters, radio transceivers, and radio display dials

(5) Electrical Resistance meters, impedance monitoring modules to ensure electrical efficiency, frequency meters, and radio-frequency power meters; audio and radio signal distortion analyzers, multimeter test probes, radio tube checkers, radio transistor and diode testers, electronic current switches, audio and radio frequency intermodulation analyzers, audio and radio frequency spectrum analyzers, radio signal monitors, radio-frequency transmitter dummy loads, crystal calibrators for tuning radio receivers, electric resistor and electric capacitor substitution boxes; musical instruments, namely, metronomes and distortion boosters; data processing equipment, namely, computers and calculators

(6) Electronic test equipment, including testing equipment and tool kits for testing and repairing electronic equipment being micrometers, multimeters, digital signal processors, oscilloscopes, audio analyzers, transistor testers, magnifying loops for soldering, radio frequency meters; laboratory robots and laboratory robotic arms; radio transmitters, receivers, transverters, and transceivers and software-defined and software enabled electronic radios, televisions, radio and television antennas, identity and security cameras, radio receivers, radio transmitters; remote radio control systems, audio and radio amplifiers, preamplifiers and speaker systems, audio recorders and radio-frequency signal recorders; additive manufacturing and subtractive manufacturing equipment, namely, 3-D printers; computing and communications devices designed for apparel, namely, smart glasses, smart watches, smart bracelets, smart rings, wearable activity trackers, wearable cameras; computerized, data-networked, and wirelessly data networked electronic radios incorporating clocks; audio sequencers and metronomes for live musical performance and for recording music, and audio, electronic and computer monitoring and playback equipment being stereo mixers, channel audio mixers, audio speakers, audio amplifiers, and parts therefor; computerized electronic image capture, processing, storage, and transfer devices being digital cameras, video recorders, computer hard drives; computer display monitors for monitored data, wirelessly-networked and computer-networked data, and status and security information; electronic security equipment being temperature sensors, proximity sensors, pressure sensors, optical sensors, motion sensors, heat sensors, humidity sensors, fire sensors, audio monitors, video monitors, computer monitors, display monitors, fire detectors, flame detectors, heat detectors, humidity detectors, motion detectors, radar detectors, seismic detectors, smoke detectors, voltage detectors, alerting systems being emergency signal transmitters and portable emergency interoms, display systems being emergency warning lights and graphical security status computer displays, remote communication systems being computer networks, radio transceivers, optical transceivers; energy capture and power storage equipment, namely, accumulators being electrical storage batteries, capacitors and supercapacitors for energy storage; computer monitoring hardware and software for the management of electric power distribution units, solar power distribution units, electric power switches, power transformers, high-voltage power supplies, power amplifiers, power modules for sequential control, power relays, and power delivery systems being solar power towers, electric power distribution units, solar power distribution units, electric power switches, power transformers, high-voltage power supplies, power amplifiers, power modules for sequential control, power relays; electronic equipment for emergency and rescue purposes being personal emergency response systems (PERS), emergency signal transmitters, emergency warning lights, emergency position-indicating radio beacons, electronic flashing rescue flares; computers, computing peripherals and equipment, and parts therefor including computer networking, wireless networking, and telecommunications

equipment being speakers, computer mice, computer mouse pads, computer keyboards, computer monitors, computer printers, computer scanners, modems, hard drives, central processing units, computer motherboards, computer daughterboards, computer graphics boards, computer expansion boards, circuit boards, cables for electrical and optical signal transmission, computer display monitors, BIOS [basic input/output system] software, input/output solid state channel strips, computer network servers, computer network hubs, switches and routers; educational training equipment for science, technology, math, and engineering training purposes being electronics educational trainer stations and modules, user-assembled electronic kits with embedded instruction electronics; weather monitoring and remote reporting equipment being digital weather stations, wireless weather stations; navigational position monitoring, tracking, predicting, and reporting equipment, namely, dead-reckoning systems, inertial navigation systems, ultrasonic navigation systems, computer vision navigation systems, radio direction finding navigation systems, car navigation computers, electronic directional compasses, global navigation satellite system (GNSS) antennas, loran navigation machines, satellite navigation systems; personal fitness and health monitoring, data storage, local display, communications, and remote reporting and monitoring devices being wearable activity trackers; telecommunications equipment, including equipment for telephony, telegraphy, teletype, and digital data transmission being digital television transceivers, analog television transceivers, digital data radio transceivers, telephones, cellular phones, smart phones, telegraphs, facsimile machines, teleprinters, teletypewriters and parts therefor

(7) Downloadable electronic publications in the nature of catalogs, operating manuals, training manuals, in the field of computers, electronics, hardware, software, telecommunication apparatuses, equipment and instruments

(8) Video and computer monitors, printers, computer peripherals being speakers, computer mice, computer mouse pads, computer keyboards, computer monitors, computer printers, computer scanners, modems, hard drives, central processing units, computer motherboards, computer daughterboards, computer graphics boards, computer expansion boards, circuit boards, cables for electrical and optical signal transmission, computer display monitors, BIOS [basic input/output system] software, input/output solid state channel strips, computer network servers, computer network hubs, switches and routers, terminals, tape and disc drives, modems, multimedia speakers, oscilloscopes, multimeters, information displays being display monitors; radio and audio antennas and radio and audio-transmission measurement and management equipment being electronic computer hardware and electronic devices for use in training computer hardware repair, and teaching basic and advanced electronics principles, design, and diagnosis

(9) Computers, video monitors, computer printers, computer peripherals being speakers, computer mice, computer mouse pads, computer keyboards, computer monitors, computer printers, computer scanners, modems, hard drives, central processing units, computer motherboards, computer daughterboards, computer graphics boards, computer expansion boards, circuit boards, cables for electrical and optical signal transmission, computer display monitors, BIOS [basic input/output system] software, input/output solid state channel strips, computer network servers, computer network hubs, switches and routers, terminals, tape and disc drives, modems, multimedia speakers, oscilloscopes, multimeters; electronic computer hardware and computer software featuring training in the fields of electronics repair, computer repair, electronics, and communications for computer based training; pre-recorded video tapes and digital media content being videos featuring training in the fields of electronics repair, computer repair, electronics, and communications

(10) Computer software for accessing, monitoring and reporting weather information; downloadable software for accessing, monitoring and reporting weather information; mobile

applications for accessing, monitoring and reporting weather information; computer based training software applications featuring instruction in the field of electronics repair, electronics, communications, and computer repair; mobile application computer based training software featuring instruction in the field of electronics repair and computer repair, electronics, and communications; pre-recorded video tapes and digital media content being videos featuring training in the fields of electronics repair, computer repair, electronics, and communications; computer software, downloadable software, and mobile applications for communication testing systems equipment featuring probes for testing integrated circuits, electric continuity testers, electric resistance testers, voltage testers and multimeters; home automation devices being downloadable software for the home automation of electric control systems for lighting, downloadable software for the home automation of electric control systems for kitchen appliances, downloadable software for the home automation of electric control systems for home security systems, downloadable software for the home automation of electric control systems for electrical power switches, home computer network servers; computer operating system software; radio hardware security being computer hardware featuring encryption software for the encryption of radio frequency signals; operating system computer software for programming and operating cluster and distributed computing; computer software for human interface applications, namely computer firmware and drivers software; computer software for controlling AC and DC power supplies; computer software, downloadable software, and mobile applications for controlling radio-frequency (RF) communications electronics, being radios, transmitters, transceivers, impedance matchers, signal monitoring apparatus, system health and status monitoring, performance monitoring and measurement; computer software, downloadable software, and mobile applications for computer equipment controlling music and audio processing devices; computer software, downloadable software, and mobile applications for clocks; computer software, downloadable software, and mobile applications for information notification devices; computer software for accessing educational system web portals; computer software for user sport and health monitoring, analysis and reporting; computer software, downloadable software, and mobile applications for computer networking; computer based software featuring integrated development environments for running development programs in a common development environment; computer software, downloadable software, and mobile applications for artificial intelligence systems, tools, and devices, namely, artificial intelligence software for autonomous vehicles, downloadable computer software and mobile application software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence, humanoid robots with artificial intelligence, software to reason about and manage electronics systems health and status, software to reason about and manage radio transmission and communication systems, software to reason about and manage electronic test equipment; Computer software, downloadable software, and mobile applications for robotics and remote controls being remote controls for radios, remote controls for stereos, remote controls for televisions, downloadable computer software for accessing, viewing, and controlling remote computers and computer networks, electronic key fobs being remote control apparatus, firmware for remote monitoring of hardware, radio receivers for remote controls, radio transmitters for remote controls, remote control starters for vehicles, remote controls for opening and closing doors, remote controls for operating alarm systems; computer software, downloadable software, and mobile applications for human-user interaction being software for the design and use of computer technology that focuses on the interfaces between human users and computers; computer software, downloadable software, and mobile applications for entertainment systems and multimedia being televisions, stereos, computers, audio speakers, radios, cassette decks, video cassette recorders, record players, digital and streaming multimedia content; computer software, downloadable software, and mobile applications for data management; computer software, downloadable software, and mobile

applications for telecommunications and propagation systems being computer software for systems that measure, reason about, identify communications paths for, and manage telecommunications using terrestrial and satellite networks and ground-wave, sky-wave, and line-of-sight communications; computer software for computer operation performance optimization and computer operation monitoring; computer based software in the field of software development for embedded and wearable computing; computer software, downloadable software, and mobile applications for power and utility systems being software to measure, monitor, and manage electric power distribution units, electrical power distribution blocks; computer software, downloadable software, and mobile applications for emergency communications and emergency response being software to measure, monitor, and manage emergency signal receivers, transmitters and transceivers; computer software, downloadable software, and mobile applications for manufacturing of design tools and systems being software for 2D and 3D CAD design systems, computer-aided manufacturing (CAM) systems, and software for managing and monitoring CNC systems, machining, and additive and subtractive manufacturing equipment

(11) Home protection systems, namely, intrusion, smoke and fire alarms

(12) Radio transmitters, radio receivers, radio telephones, tuners, radio frequency amplifiers, preamplifiers and loud speaker systems, tape recorders, record players, combination of such items and parts thereof; intercoms and parts thereof; public address equipment; electrical power converters

#### **Class 12**

(13) Motorized trail bicycles

#### **Class 14**

(14) Computerized, data-networked, and wirelessly data networked electronic clocks and watches

#### **Class 15**

(15) Musical instruments, namely, organs

(16) Musical instruments being including electronic keyboards, synthesizers, drum-machines for live musical performance and for live musical recording and parts therefor

#### **Class 16**

(17) Printed electrotechnics and electronic educational instruction packages namely, teaching and instructional material comprising illustrative programs and audio-visual aids, being books and electrical diagram charts for electronics assembly

(18) Printed catalogs, printed instruction and assembly books, monographs, and manuals for electronic devices and operating manuals; and technical and non-technical drawings

(19) Chart recorders

(20) Instruction and assembly sheets containing technical and nontechnical drawings in the field of computers, electronics, computer hardware, computer software development, telecommunication apparatuses, equipment and instruments in the field of teletypewriters, facsimile machines, smart phones, telephones, cellular phones, Morse code keys

#### **Services**

#### **Class 37**

(1) Repair and maintenance services for consumer electronics and electrical systems

#### **Class 41**

(2) Providing educational information via a website in the fields of electrical engineering, software engineering, computer engineering and radio communication engineering

#### Class 07

(1) Apparatus and equipment for automation engineering, namely, industrial robots and parts of industrial robots for injection molding machines; tools for industrial robots for handling material, mouldings and workpieces, namely, injection molds for plastic, injection molds for ceramic and injection molds for metal; IML in-mould labelling systems, CNC computerized numerical control robots and sprue pickers

(2) Installations, equipment, apparatus and devices for the exploitation and processing of materials for plastic processing, namely material conveying, dosing and drying machines, filling and feeding machines, mills [machines], grinding mills and granulating machines; auxiliary and peripheral equipment, apparatus and devices for plastic processing machines, namely, automatic material handling systems comprised of material conveyors, material hoppers, receiving containers [parts of machines], material flow separator and dosing machines, hot air and dry air generators for drying of plastics, drying bins [machine parts], hopper dryers, mold temperature control devices [machine parts], granulators, mills [machines] and grinding mills; equipment, apparatus and devices for the dosing technology, namely, blenders and material mixers for plastic processing machines; equipment, apparatus and devices for mold temperature regulation technology, namely, flow regulators [machine parts], temperature controllers [machine parts], chillers, and hot runner systems comprised of heated manifolds and nozzles; heating and cooling installations being parts of plastic processing machines

(3) Plastic processing machines, namely, plastic injection molding machines, extrusion machines, blow molding machines, compression molding machines, film casting machines and foaming machines; parts and accessories of plastic injection molding machines, namely, granulators, nozzles, heater bands, mold clamps, plastic gate cutters, molded part conveyors and separators, mold circulators, material handling equipment, material mixing equipment, granulator regrind loaders

#### Class 09

(4) Electrical and electronic measuring, control and regulating installations for industrial robots and for plastic processing machines; volumetric and gravimetric measuring and dosing apparatus; sensors, electronic feedback controllers, surface pyrometers, granulator catch bin magnets, hopper magnets, dew point meters and monitors, tie bar strain testing gauges, molded part weighing scales, voltage testers, and process timers; thermocouples; software and firmware for industrial robots and for plastic processing machines; software for conveying, dosing, drying, heating and cooling, filling and feeding machines, mills and granulating machines

**Class 11**

(5) Drying apparatus and installations, in particular industrial drying apparatus and installations for plastics and raw materials; hopper dryers and plastic drying ovens for drying plastic resins; installations for dehumidifying

(6) Temperature controllers and chillers; heating and cooling apparatus and installations, in particular industrial heating and cooling apparatus and installations for industrial robots and for plastic processing machines

#### Class 01

(1) cannabinoids for use in the manufacture of food products, not medicinal

#### Class 03

(2) cannabinoid oil for cosmetic purposes; cannabinoid oil for toiletry purposes; cosmetics containing cannabinoids; hemp-based CBD oils for cosmetic purposes; non-medicated skin care and toiletry preparations containing cannabinoids, namely, oils, ointments, and creams

#### Class 05

(3) pharmaceutical dosage forms containing marijuana and marijuana extracts, namely pills, capsules, skin patches, sublingual doses, and mucous membrane doses; food protein powders for meal replacement for use as a dietary supplement; medicinal preparations containing cannabinoids for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely, inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; pharmaceutical preparations containing cannabinoids for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; marijuana concentrates containing cannabinoids; marijuana concentrates containing terpenes; cannabinoid oil for medical purposes; cannabinoid oil for the treatment of cancer; protein powders for meal replacement for use as a dietary supplement; medicinal preparations containing cannabinoids for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue

diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; pharmaceutical preparations containing cannabinoids for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; cannabis concentrates containing cannabinoids; cannabis concentrates containing terpenes; cannabinoid oil for medical purposes; cannabinoid oil for the treatment of cancer; pharmaceutical preparations for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; natural health supplements for general health and well-being; nutritional supplements for general health and wellbeing; botanical supplements for general health and well-being; dietary supplements for general health and well-being; herbal supplements for general health and well-being; herbal supplements for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and antiinflammatories; dietary supplements for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; botanical supplements for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; botanical and botanically derived extracts for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; botanical and botanically derived extracts containing cannabinoids, cannabidiol or tetrahydrocannabinol in the form of pills, capsules, skin patches, sublingual doses, mucous membrane doses, concentrates, pastes, creams, ointments and oils; medicinal preparations for the treatment of nausea, vomiting, pain, loss of appetite, muscle tension, muscle spasms, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia and inflammation, namely inflammatory bowel disease, inflammatory connective tissue diseases, inflammatory pelvic diseases, inflammatory muscle diseases and anti-inflammatories; hemp oil for the treatment of cancer

(4) hemp seed for medicinal purposes; tetrahydrocannabinol [THC] oil for medical purposes; cannabidiol (CBD) derived from hemp for medicinal purposes; cannabidiol [CBD] oil for medical purposes; cannabidiol for medical purposes; cannabinoid oil for medicinal purposes; cannabis concentrates for temporary relief of seizures; cannabis concentrates for the relief of nausea

caused by chemotherapy; cannabis concentrates for the relief of nerve pain; dietary supplements for humans containing cannabinoids for medicinal purposes; dietary supplements for humans containing cannabinoids for recreational purposes ; hemp oil for medicinal purposes; hemp seed oil for medicinal purposes; meal replacement bars adapted for use as a dietary supplement; meal replacement bars for weight loss purposes; medicated cosmetics containing cannabinoids; medicated skin care and toiletry preparations containing cannabinoids, namely, oils, ointments, serums, salves, balms, creams, lotions, gels, toners, cleaners, peels, and roll-on sticks; medicinal cannabis; medicinal marijuana; nutritional supplement meal replacement bars containing vitamins and minerals; nutritional supplement meal replacement bars for boosting energy; nutritional supplemental meal replacement bars containing cannabinoids; nutritional supplemental meal replacement bars containing cannabis; nutritional supplemental meal replacement bars containing cannabis derivatives; nutritional supplemental meal replacement bars containing marijuana; nutritional supplemental meal replacement bars containing marijuana derivatives ; nutritional supplements containing cannabinoids for medicinal purposes; nutritional supplements containing cannabinoids for recreational purposes; nutritional supplements containing cannabinoids, namely, oral sprays, tinctures, gummies, and recovery shots for medicinal purposes; nutritional supplements containing cannabinoids, namely, oral sprays, tinctures, gummies, and recovery shots for recreational purposes; synthetic cannabinoids for medical purposes; tetrahydrocannabinol for medical purposes

#### **Class 10**

(5) medical apparatus for facilitating the inhalation and administration of pharmaceutical preparations, and parts and fittings therefor

(6) medical vaporizers

#### **Class 29**

(7) prepared hemp seeds; hemp milk; cannabinoid oil for food; cannabinoid oil for human consumption; edible oils containing cannabinoids; fruit bars; fruit-based meal replacement bars; fruit-based snack food containing cannabinoids; gluten-free snack food containing cannabinoids; hemp oil for food; hemp seed oil for food; jams containing cannabinoids; nut-based snack food containing cannabinoids; vegetable-based snack food containing cannabinoids

#### **Class 30**

(8) derivative products of marijuana, namely food products containing cannabinoids, namely cookies, cakes, pastries, brownies, candies, cereal-based bars, chocolate, chocolate bars, energy bars, food energy bars, granola-based snack bars, marijuana-based snack bars, cannabis-based snack bars, marijuana-based food bars, cannabis-based food bars, teas; hemp flour, hemp-based snack foods, hemp cereal; Derivative products of cannabis, namely food products containing cannabinoids, namely cookies, cakes, pastries, brownies, candies, cereal-based bars, chocolate, chocolate bars, energy bars, food energy bars, fruit bars, granola-based snack bars, marijuana-based snack bars, cannabis-based snack bars, marijuana-based food bars, cannabis-based food bars, teas; hemp-based snack foods, hemp cereal; cereal-based snack foods containing cannabinoids ; chocolate confectionery containing cannabinoids; chocolate containing cannabinoids; corn-based snack foods containing cannabinoids; energy bars containing cannabinoids; flour containing cannabinoids; grain-based snack foods containing cannabinoids; granola-based snack foods containing cannabinoids; honey infused with cannabinoids; rice-based snack foods containing cannabinoids; sugar confectionery containing cannabinoids; tea-based beverages containing cannabinoids; wheat-based snack foods containing cannabinoids

#### **Class 31**

(9) hemp seed for agricultural purposes; live marijuana plants; live cannabis plants

### **Class 32**

(10) smoothies, fruit beverages, fruit juices, carbonated soft drinks, energy drinks; energy drinks containing cannabinoids; fruit beverages and fruit juices containing cannabinoids; fruitbased beverages containing cannabinoids; smoothies containing cannabinoids; vegetable-based beverages containing cannabinoids

### **Class 34**

(11) herbs for smoking

(12) cannabidiol (CBD) derived from hemp for smoking purposes; cannabidiol (CBD) oil for oral vaporizers for smoking; cannabidiol [CBD] oil for electronic cigarettes; cannabinoid oil for electronic cigarettes; cannabinoid oil for oral vaporizers for smoking; dried cannabis; dried marijuana; electronic cigarette liquid (e-liquid) comprised of flavorings in liquid form containing cannabinoids; electronic cigarettes containing oil infused with cannabinoids; oral vaporizer cartridges sold filled with electronic cigarette liquid (e-liquid) flavorings containing cannabinoids; oral vaporizers for smokers; oral vaporizers for smoking purposes; vaping pens for smoking purposes containing cannabinoids; marijuana and cannabis paraphernalia, namely rolling papers, smoking pipes; smokeless vaporizer pipes; apparatus for use of cannabis and marijuana, namely rolling papers, smoking pipes; cannabis oil for oral vaporizers for smoking; tetrahydrocannabinol [THC] oil for oral vaporizers for smoking; cannabinoid oil for electronic cigarettes; cannabinoid oil for oral vaporizers for smoking; hemp oil for electronic cigarettes; hemp oil for oral vaporizers for smoking; tetrahydrocannabinol [THC] oil for electronic cigarettes; tetrahydrocannabinol [THC] oil for medical purposes; tetrahydrocannabinol [THC] oil for oral vaporizers for smoking; tetrahydrocannabinol [THC] oil for electronic cigarettes; tetrahydrocannabinol [THC] oil for oral vaporizers for smoking

### **Services**

### **Class 35**

(1) marketing and advertising of treatment of diseases or conditions using cannabis for others, and marketing and advertising of products used in the administration or use of cannabis for others; selling, retail, and wholesale sales of marijuana and derivative products of marijuana, namely food products, extracts, natural health products, medicinal preparations, pharmaceutical preparations, concentrates, pastes, namely pastes, creams and ointments, and oils; marketing and advertising of treatment of diseases or conditions using marijuana for others, and marketing and advertising of products used in the administration or use of marijuana for others; retail sale and wholesale selling of cannabis and derivative products of cannabis, namely food products, extracts, natural health products, medicinal preparations, pharmaceutical preparations, concentrates, pastes, namely pastes, creams and ointments, and oils; retail sale and wholesale selling of marijuana and cannabis paraphernalia, namely rolling papers, pipes, vaporizers, medical equipment, and parts and fittings therefor; retail sale and wholesale selling of apparatus for use of cannabis and marijuana, namely rolling papers, pipes, vaporizers, medical equipment, and parts and fittings therefor

### Trademark Description

The mark consists of a design and the positioning of a sign. The design is applied to the front and back of a three dimensional rectangular shaped pouch, as shown in the visual representations, with one representation showing the design applied to the front of the pouch and the other representation showing the design applied to the back of the pouch. The rectangular shaped pouch shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of a sign. For the design applied to the front of the pouch, the front in the lower half is divided by a green arch separating a yellow green field from a gray field that includes lighter gray squares in the background. Over the gray squares are the words in black with 'disposable' above the words 'fly trap,' in larger font, over the words 'add water. subtract flies.' Above the 'p' in 'trap' is a stylized image of a fly with red eyes. In the upper half above the gray and green field is a cross hatch design. At the top of the design is a half circle in a dotted line with three images of a scissors. The design applied to the back of the pouch is a mirror image of the design applied to the front of the pouch with the exception that the design applied to the back does not have the green field and yellow elements. Instead, there is small centered rectangle in yellow green below the cross hatch design with arrow on each side of the words 'fill line' separated by a black dot from the words 'linea indicadora.' Below it is an illustration with images numbered 1 through 8 illustrating instructions on use of the goods that includes scissors, hands, and water pitcher.

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) green, yellow, red, gray, black are claimed as a feature of the mark. The mark consists of a design applied to the front and back of a three dimensional rectangular shaped pouch. For the design applied to the front of the pouch, the front in the lower half is divided by a green arch separating a yellow green field from a gray field that includes lighter gray squares in the background. Over the gray squares are the words in black with 'disposable' above the words 'fly trap,' in larger font, over the words 'add water. subtract flies.' Above the 'p' in 'trap' is a stylized image of a fly with red eyes and green body. In the upper half above the gray and green field is a cross hatch design. For the design applied to the back of the pouch, there is small centered rectangle in yellow green below the cross hatch design with arrow on each side of the words 'fill line' separated by a black dot from the words 'linea indicadora.' Below it is an illustration with images numbered 1 through 8, with numbers 1, 3 and 4 in green circles and 2, 7 and 8 in yellow circles, illustrating instructions on use of the goods that includes scissors, hands, the goods, and water pitchers.

### Foreign Character Translation

(1) Electrical, electronic, optical, measuring, signaling, control apparatus and instruments, namely, high stability lasers for scientific satellites, lasers for use in telecommunication, earth observation, geolocation, and security surveillance, lasers for LIDAR (light detection and ranging), space satellite electric propulsion systems, microwave transmitters for satellite radar systems, microwave systems for satellites used to transmit radar and composed of TTC transponders, solid-state power amplifiers, traveling wave tube amplifiers, satellite hardware, filters for radio or microwave interference suppression, and microwave switches; apparatus for space satellites for recording, transmission, processing and reproduction of sound, images or data for global or local telecommunication; mass memories to record and store data for application in scientific, telecommunication or earth observation satellites; electronic or optical apparatus, namely, high stability lasers for scientific satellites, lasers for use in telecommunication, earth observation, geolocation, and security surveillance, lasers for LIDAR, space satellite electric propulsion systems, satellite navigation systems, microwave transmission for satellite radar systems comprised of TTC transponders, radio-frequency modulators for data transmission, amplifiers and filters for data transmission and radio or microwave interference suppression, and filters for radar signals; data processing equipment, namely, data processors, namely, equipment aboard satellites that regenerates data from an analog input signal, demodulators, radio frequency modulators, network routers, and computers; microwave switches, dc converters, laser transmitting and receiving equipment, electronic amplifiers, namely, laser communication terminals, microwave transmitting and receiving equipment, namely, radio frequency receivers, radio frequency repeaters, radio frequency amplifiers, and radio frequency transmitters; satellite transmission receiving device and for analog and digital signals, namely, radio-frequency receivers and radio-frequency antennas for use in receiving satellite analog and digital signal transmissions;

communication systems and systems for receiving and reproduction of terrestrial signals and satellite signals, consisting of electrical and electronic apparatus and instruments for communication, namely, communication systems and systems for receiving and reproduction of signals and satellite signals, namely, electrical and electronic apparatus and instruments for communication, namely, analog and digital signal transmitters, analog and digital signal receivers, optical receivers, optical transmitters, radio frequency amplifiers, radio frequency filter switches, multiplexers, radio frequency converters, radio frequency modulators, demodulators, communication network equipment, namely, wide area network (WAN) routers, wireless routers, broadband routers, network routers, communication modems, and computer network switches, control equipment, namely, computer hardware and software for controlling satellite radio frequency communication systems and processing telemetry signals and remote control signals for satellites, optical communication terminals, namely, laser sensors and detectors for use in satellite telecommunication; data carriers for computer programs, sounds and images, namely, hard disks, hard drives, CDs, DVDs, CD-ROMs, all featuring topics related to computer programs, videos and images, all in the field of aerospace, security and defense, and satellite based telecommunication; computers and their peripherals, namely, hard drives for computers, external computer hard drives, scanners, and monitors; computer keyboards; computer printers; computer programs that provide real-time, multimedia, multi-user communication over computer networks, namely, computer communication software for real-time multi-user communication over computer networks; microwave power modules [MPM]; power amplifier, in particular solid-state power amplifiers; radio frequency channel amplifier; traveling wave tube amplifier [TWTA]; multiplexer; diplexer; circulators, namely, microwave circulators, radio frequency circulators; fibre optic couplers; radio frequency couplers; radio frequency filter; radio frequency modulators; radio frequency transmitters; TTC transponder; hardware for data processing, namely, computer hardware for receiving, processing, transmitting, and displaying data sent from or to satellites for telecommunication, earth observation, geolocation, and security surveillance, and lasers for LIDAR (light detection and ranging); computer; downloadable computer software for processing of data transmitted via a satellite for telecommunication or for control of satellite lasers, satellite microwave and satellite radar transmitters, filters, adaptors, amplifiers, modulators, demodulators, receivers, and connectors; laser communication terminals; radar amplifiers; transmit receive modules for radar antennas; electronic equipment for thruster controls, namely, power supplies and high-voltage components for power supplies for electric thrusters for satellites; optical data carriers, namely, fiber optic cables, optical fiber cables, fiber optic connectors, fiber optic couplers, fiber optic couplings, optical fiber telecommunications apparatus, optical fibers, optical fibers for the transmission of sounds and images, protective sheaths for fiber optical cables; compact discs, DVDs and other digital recording media, namely, compact discs, pre-recorded DVDs, USBs, and external hard drives, all containing data and information in the fields of satellite telecommunication, aerospace, avionics, and defense and security; compact discs containing audio visual data and information in the fields of satellite telecommunication, aerospace, avionics, and defense and security; magnetic data media, namely, data storage devices being magnetic tapes; optical data media, namely, optical discs and optical disk drives containing information in the fields of satellite telecommunication, aerospace, avionics, and defense and security; telecommunications transmission satellites.

### **Class 12**

(2) Aircraft; spacecraft; transport equipment adapted to the transport of satellites, namely, stands and racks to support and handle aerospace satellites, and containers to safely transport aerospace

satellites; earth observation systems comprising space stations that are equipped with optical and signal equipment and instruments; carrier rockets, namely, rockets used to launch a spacecraft or satellite into orbit or space; space craft for in-orbit operations.

### **Class 16**

(3) Printed matter, namely, handbooks and manuals in the field of aerospace, defense and security, books, journals (periodicals), magazines, newspapers, circulars, newsletters, brochures, booklets, leaflets; photographs; instructional and teaching materials in the field of aerospace, defense and security.

### **Services**

### **Class 38**

(1) Telecommunication services, namely, telephone carrier services provided by means of fibre optic cables, radio and microwave transmission, and satellite transmission, telecommunications access services featuring access to platforms and portals on the internet, namely, providing access to Internet platforms for the purpose of exchanging digital photographs and providing access to a web, mail and news portal, providing telecommunications access services, namely, providing access to websites featuring electronic information, communication and transaction platforms on the internet, telecommunications access services, namely, providing access to on-line websites, operation of telecommunication systems, namely, operation of a cellular phone network, telecommunication services, namely the carrying, distributing, transmitting, and broadcasting of messages, programs, data and information by means of radio waves, satellite, coaxial cable, fiber optic cable, whether encrypted or not to the public for the reception thereof, rental of equipment for telecommunication, especially for radio and television, namely, rental of radio and television transmitters and receivers; cellular text messaging services, digital text messaging services, providing access to on-line platforms for transmission of messages among computer users, providing access to online forums for the transmission of messages, comments and multimedia content among users, satellite transmission of messages and data for personal communication, transmission of messages by telephone; providing mailboxes; telecommunication services, namely, transmission of voice, images, graphics, audio, video, and multimedia by means of wired and wireless networks, providing access to Internet platforms for the purpose of exchanging digital photographs and videos, as well as audio and written messages; operation of telecommunication online services to collect, deliver and distribute messages, namely, providing access to a platform for real-time multimedia communications via a website on the internet; electronic mail services through wired and wireless access, and wireless digital messaging services, providing access to a web and electronic mail portal, providing access to Internet chat rooms, providing access to Internet chatrooms, providing access to Internet forums, providing access to internet platforms, providing access to online forums for communication on topics of general interest; rental of telecommunication equipment, namely, rental of satellites, rental of apparatus for satellites, rental of computer networking equipment, rental of television broadcasting equipment, rental of access time to global computer networks, rental of modems, rental of mobile telephones, rental of smartphones, rental of mobile phones, rental of video conferencing equipment; providing access to platforms and portals on the internet; provision of on-line forums; database services, namely leasing access time to online databases.

### **Class 42**

(2) Design and programming of software programs for data processing; database services, namely, operation of databases and collecting and providing data, news and information, namely, design of computer databases, hosting computer databases, cloud hosting of electronic databases, providing temporary use of non-downloadable computer software for use in database

management in the field of news and current events, providing temporary use of non-downloadable computer software for use in database management in the aerospace field, software as a service (SaaS) provider featuring computer software development programs for creating and developing computer databases for others to be used on cloud-based servers, software as a service (SaaS) services featuring software for use in database management; rental of data processing equipment and computers, namely, rental of software for data processing, computer rental, rental of computers, rental of computer hardware and computer peripherals, rental of computer systems; design and planning of facilities for telecommunications; industrial analysis and research and design services in the fields of aerospace, telecommunications, avionics, satellites, and defense and security; design and development of computer hardware and software; services of engineers concerned with evaluations, estimates, research and reports in the field of science and technology, namely, engineering services in the fields of aerospace engineering, aeronautical engineering, avionics engineering, computer hardware engineering, computer software design engineering, electrical engineering, telecommunications and data networking engineering, telecommunications hardware engineering, telecommunications software engineering, and wireless communications network engineering.

### Visual Representation

### Trademark Description

The mark consists of a design and the positioning of a sign. The design is applied to the front and back of a three dimensional rectangular shaped pouch, as shown in the visual representations with one representation showing the design applied to the front of the pouch and the other representation showing the design applied to the back of the pouch. The rectangular shaped pouch shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of a sign. For the design applied to the front of the pouch, the lower half is in green with a yellow horizontal band containing the words 'fly trap' and 'trampa para moscas'. Below the yellow band is a black band that extends half the length of the yellow band. At the top center of the green field is a yellow oval containing the words 'disposable' and 'desechable.' In the left corner of the green field is a large stylized image of a fly. In the upper half above the green field is a cross hatch design with four smaller stylized images of a fly in approximately the same height. Above the four flies are two images of a same stylized fly. At the top of the image is a half circle in a dotted line with three images of scissors. The design applied to the back of the pouch is a mirror image of the design applied to the front with the exception that the back image does not have the green field and yellow elements. Instead, there is small centered rectangle in yellow below the cross hatch design with arrow on each side of the words 'fill line' separated by a black dot from the words 'linea indicadora.' Below it is an illustration with images numbered 1, 2, 3, 4, 7 and 8 illustrating instructions on use of the goods that includes scissors, hands, and water pitcher.

**Colour Claim**

Colour is claimed as a feature of the trademark. The color(s) black, white, green, and yellow are claimed as a feature of the mark. The mark consists of a design applied to the front and back of a three dimensional rectangular shaped pouch. For the design applied to the front of the pouch, the lower half is in green with a yellow horizontal band containing the words 'fly trap' and 'trampa para moscas'. Below the yellow band is a black band that extends half the length of the yellow band. At the top center of the green filled is a yellow oval containing the words 'disposable' and 'desechable.' For the design applied to the back of the pouch, there is small centered rectangle in yellow below the cross hatch design with arrow on each side of the words 'fill line' separated by a black dot from the words 'linea indicadora.'

**Foreign Character Translation**

The translation provided by the applicant of DESECHABLE is "disposable", the English translation of TRAMPA PARA MOSCAS is "fly trap", and the English translation of LINEA INDICADORA is "fill line".

### Visual Representation

### Trademark Description

The mark consists of a design and the positioning of a sign. The design is applied to two sides of a three dimensional box, as shown in the visual representation. The three dimensional box shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of a sign. The portion of the design applied to the bigger side of the box consists of a dark green band at the bottom that fades from black to green from left to right. Above the band is a white rectangle that fades from white at the bottom to yellow at the top. Above the yellow is a large green rectangle and in the upper left corner of that rectangle is a small yellow field containing stylized drawings of a wasp, hornet and yellowjacket. Above the green rectangle is another green rectangle with a light green semicircle and the words REUSABLE and TRAP in white letters. Off to the right, applied to the smaller side of the box, and partially overlapping the above described design is a rectangle with a green band at the bottom above which is a yellow field containing stylized images of a wasp, hornet and yellowjacket. Above the designs is a green rectangle with a light green semicircle and the words REUSABLE and TRAP in white.

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) dark green, light green, yellow, red, white and black are claimed as a feature of the mark. The mark consists of a design applied to two sides of a three dimensional box. The portion of the design applied to the bigger side of the box consists of a dark green band at the bottom that fades from black to green from left to right. Above

the band is a white rectangle that fades from white at the bottom to yellow at the top. Above the yellow is a large green rectangle and in the upper left corner of that rectangle is a small yellow field containing stylized drawings of a wasp in black and yellow, a hornet in black, yellow and red, and a yellowjacket in black and yellow. Above the green rectangle is another green rectangle with a light green semicircle and the words REUSABLE and TRAP in white letters. Off to the right and partially overlapping the above described design is a rectangle with a green band at the bottom above which is a yellow field containing stylized images of a wasp, hornet and yellowjacket. Above the designs is a green rectangle with a light green semicircle and the words REUSABLE and TRAP in white.

### Visual Representation

### Trademark Description

The mark consists of a design and the positioning of a sign. The design is applied to the front of a three dimensional rectangular shaped pouch, as shown in the visual representation. The rectangular shaped pouch shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of the design. The design consists of a green arch separating a lower yellow green field from the upper gray field that includes white squares and rectangles in the background. The lower yellow green field is stippled with fine white dots. Over the gray squares are the words 'REUSABLE' in black with gray edging above the predominant term 'POP!' in black with gray edging above the words 'FLY TRAP' in black with gray edging in larger font, over the words 'Add Water. Subtract Flies.' in black. Above the '!' in 'POP!' is a black and white stylized fly image.

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) 'green, yellow green, gray, black and white' are claimed as a feature of the mark. The mark consists of a design applied to the front of a three dimensional rectangular shaped pouch. The design consists of a green arch separating a lower yellow green field from the upper gray field that includes white squares and rectangles in the

background. The lower yellow green field is stippled with fine white dots. Over the gray squares are the words 'REUSABLE' in black with gray edging above the predominant term 'POP!' in black with gray edging above the words 'FLY TRAP' in black with gray edging in larger font, over the words 'Add Water. #### Class 07

(1) Condensing installations, namely air condensers, air-cooled condensers, axial fan condensers, steam condensers being parts of machines, refrigeration condensers; steam engines; pumps as parts of machines, motors and engines, pumps for heating installations, pumps for use in refrigeration machines; vacuum pumps, centrifugal pumps, lubricating pumps, refrigerant recovery pumps; pressure regulating valves being parts of machines; heat exchangers being parts of machines; compressors, in particular refrigerant compressors for heating installations; refrigerant compressors for cooling installations, compressors for refrigerators, compressors for recovering and recycling refrigerant gases; heat sinks for use in machines; cooling radiators for motors and engines;

#### Class 09

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution of electricity namely, electric conductors for transformers, electric conductors for electric motors, electric current switches, electric transformers, electric accumulators for vehicles, voltage regulators, electrical charge controllers, electronic power controllers for use with power converters; apparatus and instruments for regulating and controlling pressure, temperature, fan speed, noise or water, namely, pressure gauges, pressure meters,

pressure relief valves, pressure sensors, pressure switches, pressure transmitters, pressure-to-current converters, remote temperature sensors, sensors for determining temperature, temperature alarms, temperature gauges, temperature indicators, electronic speed controllers, fitted noise reduction holed plates for control valves used in regulating the flow of liquids, noise level meters; electronic control circuits for electric fans; electronic control circuits for electric valves namely thermostatic control valves for machines, automatic electronic control valves for regulating the flow of gases and liquids; computer software, computer programs, computer application software and sensors for the automation of electric control of home, commercial and industrial HVAC systems; electrical connectors; plasma display panels; electric installations for the remote control of industrial operations, namely cooling, refrigeration, air conditioning, operations; sensors, namely coolant-temperature sensors, pressure sensors, heat sensors, humidity sensors, optical sensors, photoelectric sensors, remote temperature sensors, vibration sensors; refrigerant meters; refrigerant scales; electrical control systems for heating and air conditioning systems and air purifiers; electrical control systems for lighting systems; electrical controls for heating, ventilation and air conditioning systems; programmable logic controllers; central processing unit coolers; electronic controllers for furnaces; electronic controllers for HVAC systems; electronic controllers for refrigerators;

### **Class 11**

(3) Apparatus for heating, steam generating, refrigerating, drying, ventilating and water supply purposes; namely, central heating boilers, central heating radiators, electric heating fans, electric radiators for heating buildings, heat regenerators, heating boilers, heating elements, heating furnaces for industrial purposes, heating radiators, radiators, for heating buildings, steam accumulators, steam boilers, steam generating installations, steam superheaters for industrial purposes, steam vaporizers for adding humidity to the air, air coolers, evaporative air coolers, freezers, refrigerators, refrigerating chambers, ventilating fans, ventilation hoods, ventilation being air-conditioning installations for buildings, water cooling towers; heat exchangers not being parts of machines, in particular lamellar heat exchangers, plate heat exchangers, tubular heat exchangers,; fittings for heat exchangers; cooling installations and machines, namely, oil coolers, glycol dry coolers, water dry coolers, water cooling towers; refrigerant gas condensers; freezers; shock frosters; electric fans with evaporative cooling devices; refrigerating machines; refrigerating containers; chilling chambers, coolers for furnaces; ice dispensing machines; ice making machines; freezers; water coolers; industrial chillers; air dryers; air driers for refrigeration systems; heat recovery ventilators; fans for air conditioning units; filters for air conditioning; air-conditioning units; air conditioners and parts thereof; HVAC systems for commercial buildings; air conditioning panels for use in walk-in coolers; air space heaters; water heaters for industrial purposes; evaporators, namely, cooling evaporators, evaporative air coolers and heat pump evaporators; industrial furnaces for central heating; gas boilers; gas condensers, others than parts of machines; level controlling valves in tanks; regulating and safety valves and gauges for water heaters and water cooler; heat regenerators; heat accumulators; electric radiators, heat pumps, heat sinks for use in cooling apparatus; heat sinks for use in ventilating apparatus; heat sinks for use in heating apparatus; air exchangers for cleaning and purifying air, air cleaning units, germicidal lamps for purifying air and water filtering installations; air filtering units for removing dust, smoke and allergens from the air; air filters for air cleaning units; air cooling apparatus; condenser and evaporator for heat pumps;

### **Services**

### **Class 35**

(1) Arranging of collective buying; commercial evaluation services; auction services; commercial information agency services relating to industrial and commercial, industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and heat exchanger technology; providing information in the field of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems and heat exchanger technology; online ordering services of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and parts and fitting therefore; retail sale, wholesale, online sale, mail order sales of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and parts and fitting therefore; consultancy and advisory services in the field industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems and heat exchanger technology;

#### **Class 37**

(2) Installation, cleaning, repair, refurbishment and maintenance of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, refrigerating machines, heat exchangers, pumps, condensers, air filtering and purifying installations, water cooling towers and parts of these goods; construction project management services; installation, maintenance and repair of radio, namely interference suppression equipment; construction consultancy in the field of industrial and commercial building; rental of air and water cooling units and installations, refrigerating apparatus and installations, refrigerating machines, heat exchangers, air and water heating units and installations, pumps, condensers, air conditioning apparatus and installations, air filtering and purifying installations, and water cooling towers;

#### **Class 40**

(3) Recycling, in particular of heat exchangers and packaging material.

#### **Class 42**

(4) Industrial analysis, testing and research services relating to industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and heat exchanger technology; material testing, technical testing, in particular technical testing of heat exchangers for recyclability, corrosion, material fatigue, wear, fracturing and leak tightness; technical testing and measurement services in relation to performance and energy consumption of heat exchangers; design, development, installation planning and civil engineering services of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and heat exchanger technology; research and development and engineering services of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and heat exchanger technology; architectural and urban

planning services and correspondent consultancy services; design and development of computer software; information technology [IT] consultancy services, namely development, programming and implementation of software; consulting services in the field of cloud computing; hosting of computer sites (websites); consulting services in the field of software as a service (SaaS); monitoring of computer systems by remote access; authentication services namely, quality certification in the field of computer and data security; technological consultation services in the field of industrial and commercial refrigeration units and installations, air and water cooling units and installations, air conditioning units and installations, air purifying units and installations, air and water heating units and installations, HVAC systems, and heat exchanger technology; providing technical advice relating to energy-saving measures; consultancy relating to energy use and energy efficiency; advisory services relating to industrial engineering;

### Colour Claim

Colour is claimed as a feature of the trademark. The colors white, blue, yellow, green, red and grey are being claimed as a feature of the mark. The word "MAC'S" is written in dark yellow italics on the left side of the logo. In the center there is a light blue dish that contains prepared food that is yellow in colour and features a leafy garnish that is green. Adjacent to the dish on the upper right-hand side is a light blue banner with the word "FAMOUS" written in white italics. On the right-hand side of the logo, the numbers "444" are written in red on a light yellow background. The numbers are in a framed design with a dark yellow border around it. The whole logo is on a dark blue background, framed by concentric rectangles that are light blue (innermost), white, and grey (outermost).
