Trademarks Journal

2024-04-24 — Vol. 71 No. 3626

Trademarks Journal

Vol. 71 No. 3626

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

consumer affairs and current events, fashion and design, arts and literature, architecture, celebrities, motion picture films and television programs, history, poetry, video games, board games, sports, business and financial management, financial planning, politics and government, health and physical fitness, weather, science and technology, travel, personal lifestyle management and personal growth, vehicles and transportation, education and child development, real estate, food and cooking, home decorating, music, medicine and law on the Internet, other global computer and communications networks; software for formatting and converting content, text, visual works, audiovisual works, data, files and electronic works into a format compatible with portable electronic devices and computers; software enabling content, namely text, photographs, digital images, movies, television shows, video games, music, audio books, books, magazines, periodicals, comic books, journals, computer graphics, personal file collections, electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, and electronic catalogues to be downloaded to and accessed on a computer and other portable consumer electronic device; apparatus for changing record player needles; cabinets for loudspeakers; cleaning apparatus for sound recording discs; computer keyboards; eyeglass cases; eyeglass chains; eyeglass cords; eyeglass frames; stands for photographic equipment; computer application software for organizing, transmitting, manipulating, processing, streaming, playing and reviewing text, audio clips, video clips, digital images, movies, television shows, music, audio books, and photographs on digital electronic devices, namely computer hardware, digital music players, MP3 players, MP4 players, tablet computers, personal computers, mobile phones, smart phones, cellular phones, personal digital assistants, televisions, set-top boxes, digital video players, electronic personal organizers, and electronic book readers; computer application software that enables users to generate customized recommendations of videos, television programs, and motion pictures based on user preferences; computer application software for use in sharing, researching, commenting on, and rating videos, television programs, motion pictures, celebrities, and other information about the entertainment industry, namely documentaries, video games, news, sports and music; computer application software for use with mobile, portable and handheld devices that allow users to purchase movie tickets for movies, to view movie trailers, videos, movie reviews, to view and edit information about movies, show times, theater locations, and other entertainment events, and to share the foregoing information among other users; computer application software for accessing, searching, browsing, displaying, reporting, reading, recommending, sharing, posting in social media, organizing, tracking, and streaming entertainment events, namely movie and television awards shows, film festivals and comic conventions, and information and news content related to the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; computer software for streaming, broadcasting, transmitting, distributing, reproducing, organizing and sharing music, audio clips, video clips, video games, movies, television shows, entertainment news, and documentaries via a global communications network; computer software for use in authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, viewing, storing and organizing text, computer graphics, digital images, audio clips and video clips, music, movies, television shows, entertainment news, documentaries and video games; computer software to enable users to view or listen to audio clips, music, video clips, text, movies, television shows, documentaries, entertainment news and video games; computer software for creating and authorizing user access to searchable databases of information and data; search engine software; computer software for facilitating electronic payments and online e-commerce transactions made by mobile phones, smart phones, tablet computers, electronic book readers, personal digital assistants, and smart watches; computer software for use in disseminating advertising material for others via the Internet; computer software for use in sharing information about consumer products, services, and deals via the Internet; computer software for electronic storage of data, namely

computer utility file storage programs; computer software for image and speech recognition; computer software for home automation, namely computer software to allow users to operate, control and monitor home automation systems; computer software for purchasing, accessing and viewing movies, TV shows, digital videos, music, dramatic performances, comedy and spoken word performances, audio books, and video games; internet browser software; downloadable music files; downloadable audiovisual recordings and digital multimedia recordings containing fiction and non-fiction stories on a variety of topics provided via a video-on-demand service; downloadable motion pictures and television shows featuring fiction and non-fiction stories on a variety of topics, and audio and video recordings featuring fiction and non-fiction stories on a variety of topics; downloadable digital audio recordings, digital multimedia recordings, digital text files, electronic written documents, and digital videos all containing fiction and non-fiction content on a variety of topics in the field of consumer affairs and current events, fashion and design, arts and literature, architecture, celebrities, motion picture films and television programs, history, poetry, video games, board games, sports, business and finance, politics and government, health and physical fitness, weather, science and technology, travel, personal lifestyle management and personal growth, vehicles and transportation, education and child development, real estate, food and cooking, home decorating, music, medicine and law; downloadable mobile applications to enable users access to music, dramatic performances, comedy and spoken word performances, audio books, digital videos, video games, movies, entertainment news and television programs; digital media streaming devices, namely computer hardware, MP3 players, MP4 players, tablet computers, personal computers, electronic book readers, mobile phones, smart phones, cellular phones, personal digital assistants, televisions, and set-top boxes; set-top boxes; portable and handheld electronic computer hardware for transmitting, storing, manipulating, recording, and reviewing text, images, audio, video and data, including via global computer networks, wireless networks, and electronic communications networks and electronic and mechanical parts and fittings thereof; computers, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, personal digital assistants, and global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices, and electronic and mechanical parts and fittings thereof; computer monitors, computer display screens, electric wires, computer cables, modems, computer printers, disk drives for computers, computer network adapters, computer card adapters, cable connectors, plug-in connectors, electrical power connectors, computer hardware drivers, and docking stations for mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants; battery chargers for mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants; battery packs for mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants; flash memory cards and memory card readers; headphones and earphones; speakers, microphones, and headsets; cases, covers, and stands for computers and portable and handheld electronic devices, namely mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants for transmitting, storing, manipulating, recording, and reviewing text, images, audio, video and data, including via global computer networks, wireless networks, and electronic communications networks; remote controls for computers and portable and handheld electronic devices, namely mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book

readers, and personal digital assistants; magnetically encoded gift cards; computer software for the collection, organizing, modifying, book marking, transmission, storage, and sharing of data and information, namely movies, television shows, music, entertainment news, video games and digital videos; software for the electronic transmission and display of text files, images and sound files in the field of movies, television shows, music, entertainment news, video games and digital videos; computer software for online shopping; computer hardware; computer chips; general purpose batteries; batteries for mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants; handheld devices for controlling televisions, speakers, amplifiers, stereo systems, and entertainment systems; computer software for personal information management, namely, computer software to enable users to manage their personal file collections, notes, address books, task lists, calendars, reminders, e-mail and instant message archives, and voicemail messages; database synchronization software; computer programs for accessing, browsing, and searching online databases; software for the synchronization of user generated data between a remote station or device, namely electronic book readers, CD players, DVD players, MP3 players, laptops, tablet computers, smart phones, digital cameras, personal digital assistants (PDAs), and global positioning system (GPS) electronics navigation devices consisting of computers, computer software, transmitters, receivers, and network interface devices and a fixed or remote station or device, namely, computers, computer hardware, electronic book readers, CD players, DVD players, MP3 players, laptops, tablet computers, smart phones, digital cameras, personal digital assistants (PDAs), and global positioning system (GPS) electronics navigation devices consisting of computers, computer software, transmitters, receivers, and network interface devices; software for telecommunication and communication via local and global communications networks namely, software for the transmission of data between two points comprising of text messages, e-mails, internet access and streaming of television shows, movies, digital video recordings and music; software for telecommunication and communication via local and global communications networks, namely software for upload, storage, retrieval, download, transmission and delivery of digital content, namely television shows, movies, digital video recordings and music; software for telecommunication and communication via local and global communications networks, namely software for communicating audio, video and data between computers via local and global computer networks; software for telecommunication and communication via local and global communications networks, namely software for accessing the internet, intranets, extranets, mobile communications networks, cellular and satellite networks; software for access to communications networks namely the Internet; software for analyzing and recovering information stored in databases and data warehouses; software for computer system backup; radios, radio transmitters, and receivers; media players, namely CD players, DVD players, optical disk players, record players, and universal disc players; audio speakers; audio components and accessories, namely earphones, headphones, microphones, radio transmitters, radio receivers, audio amplifiers, audio receivers, and audio decoders; telephones; mobile phones; audio amplifiers and receivers; sound effects pedals for musical instruments; electronic tone generators for use with musical instruments; electronic components for use with musical instruments, namely amplifiers; audio speakers, telephones, global positioning system (GPS) receivers, global positioning system (GPS) transmitters, and computers for use in motor vehicles; digital voice recorders and voice recognition apparatus, namely smart audio speakers and computer hardware with virtual personal assistant and home automation capabilities; network communication apparatus, namely, wired and wireless routers, wired and wireless modems, computer network hubs, computer network switches, satellite transmitters and receivers, computer network adapters, computer network switches, computer network bridges, computer network servers, and network interface cards; electronic

communication equipment and instruments, namely, mobile and wearable computers for sending and receiving of text, data, audio, image, and video files; cameras; camcorders; cinematographic cameras; cases especially made for photographic equipment; centering apparatus for photographic transparencies; close-up lenses; projection screens; projection apparatus, namely home theatre projectors, motion picture projectors, overhead projectors, photographic projectors, picture projectors, projection screens, slide projectors, sound projectors, and video projectors; televisions; television receivers; television monitors; home stereo systems, home theater systems, and home entertainment systems comprised of televisions, audio speakers, DVD players, video disc players, set-top boxes, and audio-video receivers; application development software; computer software used in developing other software applications; computer operating system software; computer software for configuring, operating and controlling smart phones, cellular phones, tablet computers, electronic personal organizers, electronic book readers, personal digital assistants, wearable activity trackers, wearable cameras, wearable speakers, wearable video display monitors, smart glasses, mobile phones, computers, computer monitors, computer display screens, modems, computer printers, digital music players, MP3 players, MP4 players, and digital video players; computer software for creating searchable databases of information and data for peer-to-peer social networking databases; computer game software; downloadable electronic books, magazines, periodicals, newsletters, newspapers, journals and other downloadable electronic publications, namely books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; downloadable ring tones for mobile phones; downloadable animated cartoons; pre-recorded video cassettes, digital video discs, digital versatile discs, DVDs, and high definition digital discs featuring animated cartoons; intercommunication apparatus, namely wireless radio transmitters and receivers; intercommunication apparatus, namely, computer hardware and software to communicate, control, and check the status of security alarm systems, automated environmental systems, networked kitchen appliances, electronic doorbells, and cameras in homes and other buildings; smartphones; portable telephones; telephone receivers; telephone transmitters; video telephones; phonograph records; video cassettes; video game cartridges; videotapes; computer memory devices, namely computer memory expansion modules, flash memory card adapters, flash memory expansion modules, memory boards, random access memory cards, and secure digital (SD) memory cards; microprocessors; modems; 3D spectacles; straps, armbands, lanyards and clips for portable and handheld digital electronic devices for recording organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files, namely mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants; bags and cases adapted or shaped to contain digital music players, digital video players, hand held computers, personal digital assistants, electronic organizers and electronic notepads; user manuals in electronically readable, machine readable or computer readable form for use with, and sold as a unit with, the aforesaid goods.

Services

Class 35

(1) Providing an on-line commercial information directory on the Internet; dissemination of advertising for others via an on-line electronic communications network on the Internet; providing a searchable on-line advertising guide featuring the goods and services of others; database management services; on-line ordering services featuring movies, motion pictures, documentaries, films, television programs, graphics, animation and multimedia presentations, downloadable digital videos and DVDs containing movies and television shows; providing online business directory information, namely, providing information regarding the location/addresses of movie theaters;

computerized on-line ordering service featuring movies, motion pictures, documentaries, films, television programs, graphics, animation and multimedia presentations, video games and sportscasts in the form of videocassettes, compact disks, DVDs, digital downloads and direct digital transmission; providing a searchable online advertising guide featuring the goods of other vendors, namely movies, motion pictures, entertainment news, documentaries, films, television programs, graphics, animation and multimedia presentations, video games and sportscasts in the form of videocassettes, compact disks, DVDs, digital downloads and direct digital transmission, on the Internet; promoting the business interests of entrepreneurs provided by an association for its members, namely providing opportunities for exchange of information and conversation regarding a wide variety of topics by means of product reviews; auction services; auctioneering; automated and computerized retail and wholesale services featuring streamed and downloadable pre-recorded audio, video and audiovisual content, namely movies, television shows, music and videos; automated and computerized retail and wholesale services featuring streamed and downloadable pre-recorded audio, video and audiovisual content, namely computer software, video games, and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; automated and computerized retail and wholesale services featuring computer hardware and consumer electronics; automated and computerized online trading services in which seller posts products to be auctioned and bidding is done via the Internet; directory services to help locate people, places, organizations, phone numbers, network home pages, and electronic mail addresses; providing employment and career opportunities and employment information about professions via an online searchable database; providing movie, motion picture and television talent casting employment opportunities and talent casting employment information via an online searchable database; providing business and professional networking services via online computer databases and online searchable databases; providing online career networking services and information in the fields of employment, recruitment, job resources, and job listings; providing networking opportunities for individuals seeking employment; on-line professional networking opportunities, namely career networking services; online retail store services featuring streamed and downloadable pre-recorded audio, video and audiovisual content, namely movies, television shows, music and videos; online retail store services featuring streamed and downloadable pre-recorded audio, video and audiovisual content, namely computer software, video games, and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; compiling of information into computer databases; comparison shopping services namely, promoting the goods and services of others; computerized database and file management; creating indexes of information, sites and other resources available on global computer networks and other electronic and communications networks for others, namely web indexes for commercial or advertising purposes; order fulfillment services namely, services relating to administrative processing of purchase orders; promoting the goods and services of others by providing, searching, browsing and retrieving information, sites, and other resources available on global computer networks, electronic communications networks, and mobile communications networks for others.

Class 38

(2) Telecommunications, namely, communication by portable electronic devices, portable media players, and portable digital devices, namely mobile phones, smart phones, cellular phones, tablet computers, digital music players, MP3 players, MP4 players, digital video players, electronic personal organizers, electronic book readers, and personal digital assistants, and computers for electronically transmitting, accessing, receiving, uploading, downloading, encoding, decoding, streaming, displaying, storing, caching, and transferring voice messages, audio books, music,

digital images, books, photos, digital video recordings, text messages, e-mails, movies, television shows, video games, literary works, personal file collections, and other electronic works, namely periodicals, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals, and catalogues via the Internet; electronic communication services, namely, transmission of information in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games, and music by electronic communications networks; electronic transmission of data, namely electronic transmission of information regarding lists of cast and crew members, movie release dates and box office information, plot summaries, entertainment news on a variety of topics and actor and director biographies via a global computer network; electronic transmission of audio, video, and audio /video files namely, movie and television show trailers, celebrity interviews, music, video games, entertainment news, movie and television show podcasts; wireless broadband communications services, namely providing Internet access via wireless broadband networks; broadcasting services, namely, radio and television broadcasting; video communication services, namely broadcasting, streaming, and transmitting non-downloadable digital videos, digital images, music audio, text, photographs, audio clips, animation, computer graphics, video clips, movies, television shows, and video games over the Internet and mobile communications networks; consultancy and advisory services relating to telecommunications services, namely consulting and advisory services in the field of radio and television broadcasting, providing access to databases, podcasting of music, podcasting of news shows, podcasting of religious radio programs, transmission of podcast novels, transmission of political podcasts, and streaming of audio and video via the Internet featuring music, movies, news, television programs, video games and sports; computer services, namely, providing multiple-user access to computer networks for the electronic transmission of various data, communications, documents and personal and professional information; providing access to an interactive computer database featuring automatically updating address book, personal planner, date reminder, travel planner, and alumni and professional group links, via a global computer network; providing access to an Internet discussion web site that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share content, text, visual works, audio works, audiovisual works, literary works, photos, videos, data, files, documents, images and other electronic works; providing access to a news portal featuring an on-line link to current events and reference material relating to movies, motion pictures, documentaries, films, television programs, graphics, animational and multimedia presentations, videos and DVDs and other audiovisual works; provision of electronic access to email newsletters and digital magazines via the Internet; SMS messaging; transmission of podcasts, namely transmission of radio podcasts, transmission of podcast novels, transmission of television programs and movies podcasts, and transmission of political podcasts; video-on-demand transmission; Internet protocol television (IPTV) transmission services; electronic transmission of streamed and downloadable audio and video files via computer and other communications networks featuring music, audio books, movies, television shows, news, celebrities, sports, and video games; electronic transmission and streaming of digital media entertainment and educational content for others via global and local computer networks, namely digital format audio books, music, digital images, books, photos, digital format videos, movies, television shows, video games, and literary works; telecommunication services, namely, transmission and streaming of voice, images, films, television programs, comedy and spoken word performances, music, audio books, video games, sportscasts and news programs, and information related thereto by means of telecommunications networks, wireless communication networks, and the internet; streaming of audio, video and audiovisual material, namely movies, television shows, music, entertainment news, sports and audio books on the Internet, communications networks and wireless telecommunications networks; streaming of music, films, movies, TV shows and video

games on the Internet; broadcasting of cinematographic films and audiovisual programs; subscription-based audio and video broadcasting services over the Internet, namely subscription television broadcasting; provision of telecommunication access to and broadcasting of films, television programs, radio programs, music performances, news programs, sports, podcasts, webcasts and information related thereto, provided via a video-on-demand service; Internet radio broadcasting services; telecommunication services, namely, transmission of fashion show webcasts, news webcasts, radio and television webcasts, and sports webcasts via the Internet; electronic transmission of digital content, namely movies, television shows, sports events, entertainment news, and music performances by computer networks, the Internet, DSL, cable networks, digital download, digital streaming, video-on-demand, near-video-on-demand, TV, free-to-air TV, pay-per-view TV, satellite, cable, telephone or mobile telephone; electronic transmission of digital photo files among Internet users; providing telecommunication access to online directories, databases, websites, music, video programs, and reference materials, all in the field of TV shows, movies, music, entertainment news, musical variety shows, musical concerts, comedy and spoken word performances, audio books, digital video recordings, video games, digital images, books, photos, and literary works; electronic transmission of news programs via the Internet; delivery of messages by electronic transmission, namely wireless digital messaging services; electronic transmission of mail and messages, namely providing electronic mail and instant messaging services; podcasting of music, audio books, movies, television shows, comedy shows, sportscasts, and news programs; providing on-line chat rooms for social networking; providing an on-line forum for transmission of messages among computer users and the transmission of photos, videos, text, data, images and sound; telecommunications services, namely, providing online electronic bulletin boards for the transmission of messages among computer users concerning entertainment; providing telecommunication connectivity services for the transfer of images, voice and text messages, audio recordings, visual images, audiovisual recordings and multimedia presentations containing music, picture and digital audio files among mobile phones, smartphones, portable electronic devices, portable digital devices, tablets, or computers; transmission of television and movie guides; provision of access time to global computer networks in order to view multimedia materials on the Internet; provision of telecommunications connections to computer databases, namely providing access to databases; electronic transmission of data by audio-visual apparatus controlled by data processing apparatus or computers, namely transmission and processing of personal information, text messages, electronic mail, audio files, video files, multimedia files, music files, calendar and contact information, news, weather, financial information, map and direction information, spreadsheets, computer graphics, still images, moving pictures, books, magazines, periodicals, newsletters, and journals; telecommunications routing and junction services; rental of access time to global computer networks; transmission of greeting cards online; rental of message sending apparatus, namely, computers, telephones, facsimile machines, pagers, tablet computers, and mobile phones; rental of modems; rental of telecommunication equipment, namely rental of radio and television transmitters and receivers, rental of smartwatches, rental of telephone booths, and rental of video conferencing equipment; providing an online interactive electronic bulletin board for the transmission of messages among computer users in the field of entertainment and the entertainment industry; entertainment services, namely, providing access to an Internet discussion website featuring virtual communities in which users can interact for recreational, leisure or entertainment purposes.

Class 41

(3) Education, namely, providing information, news, and commentary in the field of current events, celebrity news, television shows, video games, cultural events, sports, physical fitness, arts and

literature, education, music and cinema, history; entertainment, namely, continuing programs in the fields of comedy, drama, horror, reality programming, action, variety, adventure, sports, musicals, video games, current events and entertainment news, documentary and animation accessible by means of television, satellite, audio, video, web-based applications, mobile phone applications, and computer networks; organizing community team and individual sporting events of all types, and organizing community cultural events, namely community festivals and music festivals; entertainment services in the nature of a video program, featuring reviews, news, and information in the field of motion picture films, television programs, celebrities, entertainment industry and entertainment-related topics in the field of documentaries, video games, music, movie and television awards shows, film festivals, and comic conventions, namely, an ongoing video program accessible by television, cable, the Internet and wireless communications networks; providing an online non-downloadable video program featuring reviews, news, and information in the field of motion picture films, television programs, celebrities, entertainment industry and entertainment-related topics in the field of documentaries, video games, music, movie and television awards shows, film festivals, and comic conventions; providing information via a global computer network in the field of entertainment and entertainment-related topics, namely movies, television shows, celebrities, sports, documentaries, video games, movie and television awards shows, film festivals, and comic conventions; providing information on motion picture films, television programs, celebrities, entertainment industry and entertainment-related topics in the field of documentaries, video games, music, movie and television awards shows, film festivals, and comic conventions via social networks; television schedule information services; providing reviews, news, information and content in the field motion picture films, television programs, celebrities, entertainment industry and entertainment-related topics in the field of documentaries, video games, music, movie and television awards shows, film festivals, and comic conventions via an online computer database; movie schedule information services; entertainment in the nature of conducting contests, competitions and online computer game competitions in the field of entertainment, namely motion picture films, television programs, celebrities, documentaries, video games, and music; entertainment services, namely, publishing journals and blogs featuring information and opinions in the field of entertainment; providing on-line newsletters featuring reviews, news and information in the field of motion picture films, television programs, celebrities, and entertainment industry and entertainment-related topics in the field of documentaries, video games, music, movie and television awards shows, film festivals, and comic conventions; providing information in the fields of motion pictures, television shows, celebrities, entertainment industry and entertainment-related topics in the field of documentaries, video games, music, movie and television awards shows, film festivals, and comic conventions via a website; entertainment services, namely providing non-downloadable videos featuring information in the fields of motion pictures, television shows, celebrities, entertainment industry and entertainment-related topics via a website; providing information in the field of movies, motion pictures, documentaries, films, television programs, computer graphics, animation and multimedia audiovisual presentations, digital videos and dvds containing movies and television shows, video games, celebrities and the entertainment industry; providing movie rankings via a website; providing a ranking system measuring popularity of celebrities and identifying trends in public perception and awareness of movie personalities via a website; providing entertainment trivia in the field of movies, television shows, celebrities, sports, current events, documentaries, video games, music, movie and television award shows, film festivals, and comic conventions via a website; providing movie, motion picture and television casting and production information via a web site; arranging for ticket reservations for film screenings, festival events, shows and other entertainment events; online entertainment ticket agency services for film screenings, festival events, shows and other entertainment events; booking agency services for cinema tickets; booking of entertainment events, namely film

screenings, film festivals, movie and television award shows, and comic conventions; booking of seats for shows; booking agency services for cinemas, film festivals and entertainment events; consulting services for film producers in the field of representing and acquiring feature films, movies, motion pictures, documentaries, films, television programs, computer graphics, animational and multimedia audiovisual presentations, downloadable digital videos and DVDs containing movies and television shows; film production consultancy; consulting services in the field of film distribution for theatrical films of all genres and lengths; consulting services in the field of packaging theatrical films of all genres and lengths, namely providing consulting services to talent agencies regarding the creation of film projects using the writers, directors and actors represented by that agency; consulting services in the field of film production, namely consulting services regarding the use of international co-production partners for theatrical films of all genres and lengths; consulting services in the field film festival strategy, namely consulting services for developing a strategy for submission to and attendance at film festivals for producers of theatrical films of all genres and lengths; film exhibition services; hosting and organizing awards relating to films; production of podcasts and vodcasts; providing on-line computer games and on-line interactive stories; publication of film reviews, reviews of entertainment products namely television programmes, radio programmes, podcasts, vodcasts and computer games; entertainment services, namely, providing interactive educational and entertainment quizzes and online video gaming services; rental of electronic publications namely books; interactive educational services in the nature of computer-based and computer-assisted instruction on games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion, and multimedia presentations accessible via the internet or other computer on communications networks; providing non-downloadable audio, video and audiovisual content, namely recordings featuring movies, TV shows, videos and music via a website; entertainment services, namely, providing temporary use of online non-downloadable audio-visual content in the nature of videos via a website; provision of non-downloadable videos featuring programs on a wide variety of entertainment topics via a video-on-demand service; provision of non-downloadable films, movies and television shows via a video-on-demand service; distribution and rental of entertainment content, namely computerized on-line searching and ordering service featuring movies, motion pictures, documentaries, films, television programs, computer graphics, animation and multimedia audiovisual presentations, and video games in the form of digital downloads and direct digital transmission viewable over computer networks and global communication networks; film and video rental services; rental of audio-visual works, specifically, motion pictures, television programming, videos, music videos, and music; film, movie, TV show and video production and distribution; creating and developing concepts for movies and television programs; audio and video recording services; providing audio, video and audiovisual content through the Internet, telecommunications networks and wireless telecommunications networks in the field of movies, TV shows, digital videos and music via a searchable database; providing online radio programming, namely production and distribution of radio programs; digital audio and video publishing services; digital multimedia publishing of newspapers, periodicals, newsletters, guides, quizzes, tests, journals, manuals, and television entertainment; entertainment services, namely, providing non-downloadable prerecorded music and audio programs featuring fiction and non-fiction stories on a variety of topics, and information in the field of music, and commentary and articles about music, all on-line via a global computer network; entertainment services, namely, live visual and audio performances, featuring musical, variety, news, dramatic and comedy shows; entertainment services, namely, providing the ratings and reviews of television, movies, videos, music, screenplays, scripts, books and video game content via a website; providing entertainment information in the fields of movies, television shows, music, audio books, comedy shows, sports, and video games; arranging of trivia contests in the field of motion picture films, television

programs, celebrities, documentaries, video games, sports and music; sweepstake services; sweepstake services provided over a global computer network hosting online sweepstakes and contests for others; publishing of books, magazines, periodicals, literary works, art prints, art pictures, digital prints, photographs, music, spoken word poetry recordings, and audio books; presenting live musical concerts, live comedy performances, live dramatic performances, and live theatrical performances; music production services; music publishing services; entertainment services, namely, profiling of musicians, artists and bands by providing non-downloadable video clips of musical performances over a global computer network; providing non-downloadable interactive resource, namely programming guides for searching, selecting, managing, and viewing audiovisual content in the nature of recordings featuring movies, TV shows, videos and music; providing online newsletters in the field of television, movies, and digital videos via e-mail; translation and interpretation services; providing online electronic publications, not downloadable, in the nature of books, magazines, newspapers, periodicals, newsletters, journals and manuals; publication of texts, other than publicity texts, namely publication of magazines, books, journals, newspapers, newsletters, manuals, textbooks, and periodicals; writing of texts, other than publicity texts, namely, screenplay writing and speech writing for non-advertising reasons; rental of audio equipment; movie theatre presentations; arranging and conducting of concerts; entertainment, amusements, namely interactive amusement arcades; game services provided on-line from a computer network; rental of computer gaming equipment; providing karaoke services; rental of movie projectors and accessories; movie studios; music composition services; organization of shows, namely organizing musical and theatrical performances; radio entertainment, namely production of radio programs; rental of radio and television sets; production of radio and television programmes; rental of sound recordings; subtitling; television entertainment, namely, production of motion pictures, television shows, and multimedia entertainment content for viewing on television; theatre productions; organization of team and individual sports competitions; organization of interactive fan exhibitions in the fields of television, movies, and music for cultural or educational purposes; recording studio services; videotape editing; videotaping; providing educational information in the field of television programming and film production; religious education; providing information in the field of TV shows, movies, entertainment news, music, musical variety shows, musical performances, comedy and spoken word performances, audio books, digital video recordings, video games, digital images, books, photos, and literary works via an online blog; providing non-downloadable audio, video and audiovisual content namely videos in the field of online social networking available through the Internet, telecommunications networks and wireless telecommunications networks via a searchable database.

Class 42

(4) Design and development of computer hardware and software; non-downloadable software for streaming audio and video featuring music, movies, television shows, news, video games, and sports on mobile phones, tablets, personal computers, and televisions; cloud storage services, namely, providing electronic data storage accessible via the internet of electronic media, namely, audio and video content; providing use of on-line non-downloadable software for analyzing media data, namely data relating to movie and television show titles, television show episodes, cast and crew information, and user ratings and votes for television shows and movies; hosting databases and on-line bulletin and message boards featuring general news and information regarding movies, motion pictures, documentaries, films, television programs, graphics, animational and multimedia presentations, videos and DVDs, and other audiovisual works; computer programming; providing online non-downloadable computer software for database aggregation and integration; medical research; hosting an interactive computer database featuring automatically updating address book, personal planner, date reminder, travel planner, and alumni and professional group

links, via a global computer network; providing on-line non-downloadable interactive computer software for managing, viewing and editing information such as event scheduling, address books, and other personal contact information; providing temporary use of non-downloadable computer software for organizing, transmitting, manipulating, processing, streaming, playing and reviewing text, audio clips, video clips, digital images, movies, television shows, music, audio books, video games and photographs on computers, and televisions, and digital electronic devices, namely computer hardware, digital music players, MP3 players, MP4 players, tablet computers, personal computers, mobile phones, smart phones, cellular phones, personal digital assistants, televisions, set-top boxes, digital video players, electronic personal organizers, and electronic book readers; providing use of non-downloadable computer software for generating customized recommendations of videos, television programs, and motion pictures based on user preferences; providing use of non-downloadable computer software for use in sharing, researching, commenting on, and rating videos, television programs, motion pictures, celebrities, and other information about the entertainment industry, namely information in the field of sports, documentaries, video games and music; providing use of non-downloadable computer software for use with mobile, portable and handheld devices that allow users to purchase movie tickets for movies, to view movie trailers, videos, movie reviews, to view and manipulate information about movies, show times, theater locations, and other entertainment events, and to share the foregoing information among other users; providing use of non-downloadable computer software for accessing, searching, browsing, displaying, reporting, reading, recommending, sharing, posting in social media, organizing, tracking, and streaming entertainment events, namely movie and television award shows, film festivals and comic conventions and information and news content related to the entertainment industry, namely motion picture films, television programs, celebrities, sports, current events, documentaries, video games and music; providing search engines for obtaining data about the entertainment industry via electronic communications networks; computer services, namely, creating an on-line community for registered users to participate in discussions, share information and resources, and engage in social, business and community networking in the field of motion picture films, television programs, celebrities, sports, current events, documentaries, video games, and music; providing temporary use of non-downloadable software enabling users to search, locate and communicate with others via electronic communications networks to network and track online references to job opportunities and business topics via a website; computer services in the nature of creating customized web pages featuring user-defined information, personal profiles, audio and images; application service provider (ASP) featuring software for use in database management; application service provider (ASP) featuring application programming interface (API) software including such software for the streaming, storage, and sharing of video games, content, data and information, namely, photographs, illustrations, digital audio files, videos, digital text files, movies, television shows, and music; application service provider, namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of personal productivity, wireless digital messaging services communication, and mobile information access; cloud computing featuring software for use in database management; computer hardware, software, application, and network consulting services; computer services, namely hosting an online database featuring a wide range of general interest information via the internet; computer services, namely, cloud hosting provider services; computer services, namely, hosting on-line web facilities for others for organizing and conducting online meetings, gatherings, and interactive discussions; computer services, namely, creating computer network-based indexes of information, websites and resources to advertise the goods and services of others; computer software development in the field of mobile applications; creating electronically stored web pages for on-line services and the Internet; design and development of computer game software, telephones, mobile phones, videophones, cameras, monitors for television receiver, television

receivers [TV sets] and television transmitters, remote controllers for television receiver [TV set], electronic notepads, magnetic data carriers, radio receivers, radio transmitters, video cameras and set-top boxes; design and development of camera systems; design and development of computer hardware and software; design and development of data storage systems, namely hard drives and cloud computing software; designing, managing and monitoring online forums for discussion; developing and maintaining character recognition, electronic mail and messaging software; developing and maintaining computer application software and embedded computer application software for handheld electronic devices in the nature of mobile phones, smart phones and tablet devices; developing computer programs for accessing, browsing and searching online databases; cloud computing provider services for general storage of electronic data; electronic storage of digital music; electronic storage of photographic and digital images; electronic storage of digital videos; hosting a website for the electronic storage of data, audio files, images, and videos; hosting of web sites featuring digital content on global computer networks, wireless networks, and electronic communications networks; hosting of web sites featuring third party content, photos, videos, text, data, images, web sites and other electronic works; hosting an interactive website that allows the analysis of a user's personal preferences regarding third-party products and services, and providing the ability to generate product and service recommendations based on that user's preferences; hosting a website that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking; technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; providing temporary use of on-line non-downloadable software and applications for accessing streaming music, spoken word, audio books, movies, television shows, games, social networks, text files and multimedia files combining video, animation and sound; providing temporary use of non-downloadable computer software for wireless content delivery of voice recordings, digital images, music, comedy and spoken word performances, audio books, digital video recordings, video games, movies, and television shows; providing temporary use of non-downloadable computer software for streaming, broadcasting, transmitting, distributing, reproducing, organizing and sharing music, audio clips, video clips, games, movies, television shows, and documentaries; providing temporary use of non-downloadable computer software for purchasing, accessing and viewing movies, TV shows, digital videos, music, comedy and spoken word performances, podcasts, webcasts, audio books, and video games; hosting of web sites featuring digital content on the Internet; file sharing services, namely, providing non-downloadable software for enabling users to upload and download electronic files via a website; providing temporary use of non-downloadable computer software for accessing online information in the field of online retail store department store services, and in the fields of consumer affairs and current events, fashion and design, arts and literature, architecture, celebrities, motion picture films and television programs, history, poetry, video games, board games, sports, business and financial management, financial planning, politics and government, health and physical fitness, weather, science and technology, travel, personal lifestyle management and personal growth, vehicles and transportation, education and child development, real estate, food and cooking, home decorating, music, medicine and law.

Class 44

(5) Hygienic services, namely, dental hygienist services, and public bath services for hygiene purposes; beauty care, namely beauty salon services, aesthetician services, electrolysis and depilatory services, hair salon services, cosmetician services, and nail salon services.

Class 45

(6) Legal services; security services for the physical protection of tangible property and individuals; personal and social services rendered by others to meet the needs of individuals, namely, online social networking and introduction services; Internet based social introduction and online social networking services; online social networking services; online social networking services in the field of entertainment; social networking services in the field of entertainment provided via a website and communications networks; providing information in the field of social networking via online computer databases and on-line searchable databases; providing a social networking website for entertainment purposes.

Goods

Class 07

(1) Lottery ticket vending machines.

Class 09

(2) Computer software for games of chance; gaming software that generates or displays wager outcomes; computer game software for casino type games and sports betting; interactive video game software for casino type games; computer software platforms to engage in social networking and for providing social casino gaming; computer software platforms for providing lottery games and sports betting; computer games; computer games featuring card games, slot games, video games, gaming, gambling, casino, bingo, instant win games, lottery and betting activities; computer hardware for playing games, card games, slot games and video games; computer hardware for gaming, gambling, casino, bingo, instant win games, lottery and betting activities; computer software to enable searching, browsing and retrieving information and websites available on global computer networks for others in the fields of games, gaming, gambling, casinos, bingo, instant win games, lottery and betting; downloadable online game software and game related applications, namely, downloadable computer game programs and downloadable electronic game programs; interactive video game programs; computer software for conducting and administration of online games in the fields of slots, casino, bingo, instant win games, lottery and betting games, social games, games of chance, games of mixed skill and chance and competitions, namely gaming competitions and gambling competitions; computer game software for playing video lottery terminals; electronic lottery training simulators; electronic point of sale lottery game terminals, namely, terminals providing win and loss status for online and instant lottery tickets; computer hardware for processing lottery transactions and selling lottery tickets, namely, electronic terminals for generating lottery tickets; computer software for operating terminals for generating lottery

tickets that is used for processing lottery transactions and for selling lottery tickets; computer printers used in connection with lottery games; television monitors and controllers used in operation of lottery games; computer games; computer software for use in conducting lottery games; computer terminals used in operation of lottery and gaming systems; computer software for conducting lottery games, receiving and displaying lottery game results; computer games for use on video lottery terminals; computer hardware and software for the gaming industry for slot machine accounting, patron management, gaming machine accounting, management of cage accounting, visual evaluation of slot machine performance, and determining bonus games for machines; downloadable computer software containing player identification, marketing information, tracking, and maintaining player statistics, all in the field of gaming; computer software and firmware for playing games of chance on video-based slot machines.

Class 28

(3) Lottery tickets; lottery cards; scratch cards for playing lottery games; raffle tickets; gaming machines, namely, slot machines with or without video output or video lottery terminals; coin operated electronic and mechanical gaming and amusement machines; gaming machines, namely, devices which accept a wager; reconfigurable casino and lottery gaming equipment, namely, gaming machines; games and playthings, namely, slot machines; scratch card lottery games; playing cards; electronic or electrotechnical gaming apparatus, namely, gaming machines; machines for playing games of chance, namely gaming machines; games involving gambling, namely, slot machines and gaming machines; slot machines operated by coins, tokens, banknotes and tickets; video lottery terminals; lottery game terminals, namely, terminals for validation of keno games; computerized wagering terminals; computer gaming terminals which accept wagers; gaming machines, namely, devices which accept a wager; lottery game terminals for playing lottery games.

Services

Class 35

(1) Providing lottery subscriptions services for others; subscriptions to lottery games; marketing services, namely, providing customized communication programs to obtain consumer insights and develop branding strategies; business consulting services that provide strategies for responsible gaming practices; online catalog services featuring lottery games; inventory management in the field of sale and distribution of lottery and instant lottery tickets; administration of customer loyalty programs featuring free lottery tickets, merchandise, event tickets, and cash prizes for registered or frequent lottery players.

Class 37

(2) Maintenance and installation of computer network hardware for use with lottery and gaming systems; maintenance, installation, and repair of computer networking hardware for use in the operation of public gaming systems; installation, maintenance, and repair of communications network hardware.

Class 38

(3) Wireless communication services, namely, transmission of lottery graphics to mobile telephones; providing access to an Internet website portal featuring information on software development of computer lottery games.

Class 40

(4) Custom printing of lottery tickets.

Class 41

(5) Entertainment services, namely, providing mobile and online computer games for players of play-for-fun and real money games; entertainment services, namely, providing lottery games and sports betting via global computer networks, social networking, mobile phones, personal electronic devices, and electronic terminals; lottery services; raffle services; operating lotteries; organizing lotteries; conducting lotteries; administration of lotteries for others; lottery services provided over a global computer network; online lottery services; online interactive lottery services; providing online computer games and online lottery games; providing online lottery games via electronic communication networks which facilitate social networking; educational services, namely, providing internships in the field of lottery management; providing entertainment in the nature of online lottery games and video games via an online portal; providing online computer games and video games; educational services, namely, providing computer laboratories for after-school programs; entertainment in the nature of casino gaming services; providing casino gaming services online; providing casino facilities; entertainment services, namely, casino gaming; entertainment, namely, conducting horse races; entertainment, namely, live music concerts; providing casino services featuring a casino players rewards program.

Class 42

(6) Customization, implementation, and maintenance of software for printing security features on lottery tickets; software as a service (SaaS) services featuring software for use in generating random numbers in the gaming and lottery field; custom design of computer hardware and computer software used for lottery and casino gaming systems and consulting services related thereto; maintenance and installation of software for use with lottery and casino gaming systems; custom design of computer hardware and computer software used for public lottery and casino gaming systems; consulting services in the fields of public lottery and casino gaming systems; design of lottery game software and computer hardware; software as a service (SaaS) featuring software that enables users to manage, coordinate, control, and monitor lotteries; software as a service (SaaS) featuring software that enables users to create reports and bills, and to audit in-game purchases; software as a service (SaaS) featuring software that enables users to analyze data and create reports in the field of lotteries; software as a service (SaaS) featuring software that enables users to control, manage and analyze inventory and create reports, all in the field of lotteries; software as a service (SaaS) services for managing, processing, and scheduling payments of lottery winnings; computer software design; computer services, namely, providing maintenance of computer software in the field of lottery and casino games of chance; consulting services in the field of computers and computer software for database management that creates indexes of information and sites available on computer networks; design, creation, hosting and maintenance of websites for others; consulting services and providing technical assistance in the fields of designing, creating, hosting, maintaining, operating, and managing of websites on a global computer network; computer programming services for others; computer rental services; and computer software rental services; providing temporary use of non-downloadable computer software containing player identification, marketing information, tracking and maintaining player statistics, all in the field of gaming.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trade-mark. The word 'GUACAMOLITO' in red/rose capital letters. Above the word GUACAMOLITO is a curved line in red/rose. In the middle is a picture of a so called 'molcajete' (recipient to smash ingredients) with avocado pulp in green, dark green and grey and two tortilla chips in yellow. To the left and right of the molcajete are two butterflies in red/orange with black outline and two halves of an avocado in green with a brown seed in the centre, facing outward. Underneath the butterflies and avocado halves are two curly cue designs in green.

Foreign Character Translation

The translation provided by the applicant of the word(s) GUACAMOLITO is GUACAMOLE.

Goods

Class 29

Avocado pulp.

Services

Class 40

(1) Rental of fluid separation and aeration equipment for the separation and filtration of liquids and gases; rental of particulate separation equipment for the separation and filtration of particulate from liquids and gases.

Class 42

(2) Chemical engineering services; rental of laboratory instruments; technological consultancy in the field of mechanical separation technology; Engineering services, namely evaluation of existing filtration processes, separation processes and mass transfer, and providing retrofit solutions and design recommendations in the field of liquid, oil and gas separation and filtration; Design of environmental control systems, namely oil and gas filtration and separation systems and parts therefor; Design of environmental control systems, namely liquid filtration and separation systems and parts therefor

Class 09

Computer software for the collection, editing, organizing, modifying, bookmarking, transmission, storage and sharing of data and information in the fields of advertising, marketing, software development, and web and mobile application analytics; database management software; data synchronization software, namely, computer software for synchronizing data between hand-held or portable computers and host computers; computer search engine software; optical character recognition software; image recognition software; voice recognition software; software for enhancing the quality of images, video, audio, and digital multimedia content being images, photos, videos, music audios, self-created pictures, movies, and home videos; software for accessing, browsing and searching online databases; network management computer software for connecting computers to one another and enabling activities via the internet; computer operating system software for managing existing systems, software and processes in an information environment; computer software for administration of computer networks, management of computer applications and computer hardware, and computer application distribution; Computer hardware; computer hardware for use in machine learning, learning algorithms and data analysis; data processing and machine learning systems, namely computers and computer hardware; Computer software development programs for website development; computer software development tools for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Computer software for monitoring, logging, analyzing, and reporting operational statistics and performance of software, platforms, and mobile applications; computer software for evaluating and optimizing the performance of software, platforms, and mobile applications; computer software used to enhance the capabilities and features of other software, mobile applications, platform, and non-downloadable online software; computer software for optimizing and de-bugging software; computer software for facilitating the deployment of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container

management solutions; computer software for the integration of artificial intelligence and machine learning in the field of Big Data to process information using data integration, data analysis and data management; computer software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Computer software for machine learning and deep learning algorithms and processes; computer software for using machine learning and deep learning algorithms and processes; computer software for designing and developing machine learning and deep learning algorithms and processes; data analysis software for use in designing and developing machine learning algorithms and deep neural networks; computer software for developing machine learning workflows; computer software for automating, scheduling, and sharing machine learning pipelines; Computer software for training data models using machine learning and deep learning processes; software for using trained data models to determine and predict patterns in data; computer software for integrating data models with server, cloud and data infrastructure; computer software for monitoring and evaluating the performance and impact of data models; Computer operating system software for facilitating interaction and communication between humans and machines; software for converting natural language into machine executable commands; Computer software for data query and data analysis; computer software for data mining; computer software for determining and predicting patterns in data; computer software for statistical modeling; computer software for time series modeling; computer software for information and data integration, analysis, and management; Computer software for collecting, manipulating, analyzing, storing, processing, and interacting with large data sets; computer software for collecting and analyzing data from software and mobile applications; computer software for sharing data, creating data visualizations, data processing and data analyzing; Computer software for retrieving, managing, storing, synchronizing, manipulating, generating, sharing, visualizing, processing, mining and analyzing data for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Computer software libraries; computer software libraries for use in designing and developing machine learning algorithms and deep neural networks; computer software libraries for analyzing programming code; Computer operating systems software; computer operating systems software runtime systems; systems comprised of computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing; systems comprised of computer software libraries for building models for use in general purpose computation of large datasets, manipulation of collections of user-defined data, converting user-defined data from one computer format to another, input/output communications between computers and users, communications between computers, graphics display, modeling and testing for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Computer software for use as an application programming interface (API) for gathering and analyzing market data, for image content analysis, for use in the field of virtualization, for use in database integration and database management; downloadable computer software for use as an application programming interface (API) that supports interaction between computer applications with data from application programming interfaces (APIs), digital databases and digital files; computer software for use as an application programming interface

(API) for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; application programming interface (API) for use in building software applications; application programming interface (API) software for enabling the sharing of computer programming code with other computer software; application programming interface (API) for third-party software to support the interaction between the software applications with data from the application programming interface (APIs), digital databases and digital files; application programming interface (API) software for data retrieval, upload, download, access and management; Computer software for collecting information and data in the field of social media user preferences; computer software for analyzing preferences of social media users; computer software for machine learning and deep learning algorithms and processes to analyze preferences of social media users; computer software developing and generating customized recommendations of content based on preferences of social media users; computer software for modeling behaviour of social media users; Computer software for monitoring, analyzing and understanding content shared on social media software, platforms and networks; computer software for machine learning and deep learning in the fields of social media software, platforms and networks; computer software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management in the fields of social media software, platforms, and networks; Computer software used to enhance the capabilities and features of other software, mobile applications, platforms, and non-downloadable online software in the field of social networking;

Services

Class 35

(1) Collection and compilation of statistical information; statistical analysis and reporting services for business purposes; preparing business reports in the fields of customer behavior, engagement and profitability; providing business information in the field of social media; database management; business consulting services in the fields of advertising, marketing, software development, web and mobile application analytics, artificial intelligence, and machine learning;

Class 41

(2) Education services, namely, conducting seminars, classes, workshops, online courses, and conferences in the fields of computer hardware, computer software, social networking, technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing blogs and non-downloadable publications in the fields of computer hardware, computer software, social networking, technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management via a website;

Class 42

(3) Computer services, namely remote hosting of operating systems and computer applications allowing users to monitor location and operating status and parameters of remote assets; Design and development of computer software; design and development of computer hardware; design

and development of mobile applications; design and development of software platforms; design and development of application program interfaces (APIs); design and development of computer systems; design and development of computer software libraries and abstractions; design and development of computer software development tools; Building a machine learning platform; building a deep learning platform; building feature extraction, transformation and serving infrastructure in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Computer programming; computer software integration services namely, computer systems integration services; installation, maintenance, implementation, and updating of computer software and mobile applications; testing of computer software and mobile applications; Search engine optimization for searching and retrieving information on computer networks for others; Technical support services in the form of troubleshooting of computer hardware and software problems; Research in the fields of computer software, computer hardware, mobile applications, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Product development services; product development services in the fields of software, platforms and mobile applications; advisory services in the field of product development and quality improvement of software, platforms and mobile applications; Providing non-downloadable computer software for database management and business data mining; infrastructure as a service (IaaS) services featuring software for database management and business data mining; mobile back end as a service (MbaaS) featuring software for database management and business data mining; Application services provider (ASP) services featuring software for database management and business data mining; application services provides (ASP) services, namely, hosting computer software applications for others; application services provider (ASP) services featuring artificial intelligence software; application services provider (ASP) services featuring computer software for machine learning; application services provider (ASP) services featuring computer software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Software as a service (SaaS) services featuring software for database management and business data mining; Software as a service (SaaS) services featuring artificial intelligence software namely, providing temporary use of non downloadable software applications for the integration of artificial intelligence and machine learning in the field of Big Data; Software as a service (SaaS) services featuring computer software for machine learning; Software as a service (SaaS) services featuring computer software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Platform as a service (PaaS) services featuring software for database management and business data mining; platform as a service (PaaS) featuring virtual access to computer hardware and software; ; platform as a service (PaaS) featuring artificial intelligence software platforms; ; platform as a service (PaaS) featuring computer software platforms for machine learning; ; platform as a service (PaaS) featuring computer software platforms for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image

content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing non-downloadable database management software; providing non-downloadable data synchronization software; providing non-downloadable computer search engine software; providing non-downloadable character recognition software; providing non-downloadable image recognition software; providing non-downloadable voice recognition software; providing non-downloadable software for enhancing the quality of images, video, audio, and multimedia content; providing non-downloadable software for accessing, browsing and searching online databases; providing non-downloadable network management computer software for connecting computers to one another and enabling activities via the internet; providing non-downloadable computer software for managing existing systems, software and processes in an information environment; providing non-downloadable computer software for administration of computer networks, management of computer applications and computer hardware, and computer application distribution; Providing non-downloadable computer software development tools; Providing non-downloadable computer software development tools for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing non-downloadable computer software for monitoring, logging, analyzing, and reporting operational statistics and performance of software, platforms, and mobile applications; Providing non-downloadable computer software for evaluating and optimizing the performance of software, platforms, and mobile applications; Providing non-downloadable computer software used to enhance the capabilities and features of other software, mobile applications, platform, and non-downloadable online software; Providing non-downloadable computer software for optimizing and de-bugging software; providing non-downloadable computer software for facilitating the deployment of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management solutions; Providing non-downloadable artificial intelligence software, namely, providing temporary use of non-downloadable software applications for the integration of artificial intelligence and machine learning in the field of Big Data; Providing non-downloadable computer software for machine learning; Providing non-downloadable computer software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing non-downloadable computer software for machine learning and deep learning algorithms and processes; Providing non-downloadable computer software for using machine learning and deep learning algorithms and processes; Providing non-downloadable computer software for designing and developing machine learning and deep learning algorithms and processes; Providing non-downloadable data analysis software for use in designing and developing machine learning algorithms and deep neural networks; Providing non-downloadable computer software for developing machine learning workflows; Providing non-downloadable computer software for automating, scheduling, and sharing machine learning pipelines; Providing non-downloadable computer software for training data models using machine learning and deep learning processes; Providing non-downloadable software for using trained data models to determine and predict patterns in data; providing online non-downloadable computer software for integrating data models with server, cloud and data infrastructure; providing online non-downloadable computer software for monitoring and evaluating the performance and impact of data models; Providing non-downloadable computer software for facilitating interaction and

communication between humans and machines; Providing non-downloadable software for converting natural language into machine executable commands; Providing non-downloadable computer software for data query and data analysis; Providing non-downloadable computer software for data mining; Providing non-downloadable computer software for determining and predicting patterns in data; Providing non-downloadable computer software for statistical modeling; Providing non-downloadable computer software for time series modeling; Providing non-downloadable computer software for information and data integration, analysis, and management; Providing non-downloadable computer software for collecting, manipulating, analyzing, storing, processing, and interacting with large data sets; Providing non-downloadable computer software for collecting and analyzing data from software and mobile applications; Providing non-downloadable computer software for sharing data, creating data visualizations, data processing and data analyzing; Providing non-downloadable computer software for retrieving, managing, storing, synchronizing, manipulating, generating, sharing, visualizing, processing, mining and analyzing data for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing non-downloadable computer software libraries; Providing non-downloadable computer software libraries for use in designing and developing machine learning algorithms and deep neural networks; Providing non-downloadable computer software libraries for analyzing programming code; Providing non-downloadable computer operating system software; Providing non-downloadable computer operating system software for runtime systems; Providing systems comprised of computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing; Providing systems comprised of computer software libraries for building models for use in general purpose computation of large datasets, manipulation of collections of user-defined data, converting user-defined data from one computer format to another, input/output communications between computers and users, communications between computers, graphics display, modeling and testing for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing non-downloadable computer operating programs for use as an application programming interface (API); Providing non-downloadable computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing non-downloadable application programming interface (API) for use in building software applications; Providing non-downloadable application programming interface (API) software for enabling the sharing of computer programming code with other computer software; Providing non-downloadable application programming interface (API) for third-party software; Providing non-downloadable application programming interface (API) software for data retrieval, upload, download, access and management; Application service provider featuring computer operating programs for use as an application programming interface (API); application service provider featuring computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech

recognition, analytics and data mining, internet of things, and container management; application service provider featuring application programming interface (API) for use in building software applications; application service provider featuring application programming interface (API) software for enabling the sharing of computer programming code with other computer software; application service provider featuring application programming interface (API) for third-party software; application service provider featuring application programming interface (API) software for data retrieval, upload, download, access and management; Providing non-downloadable computer software for collecting information and data in the field of social media user preferences; Providing non-downloadable computer software for analyzing preferences of social media users; Providing non-downloadable computer software for machine learning and deep learning algorithms and processes to analyze preferences of social media users; Providing non-downloadable computer software developing and generating customized recommendations of content based on preferences of social media users; Providing non-downloadable computer software for modeling behaviour of social media users; Providing non-downloadable computer software for monitoring, analyzing and understanding content shared on social media software, platforms and networks; Providing non-downloadable computer software for machine learning and deep learning in the fields of social media software, platforms and networks; Providing non-downloadable computer software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management in the fields of social media software, platforms, and networks; Providing non-downloadable computer software used to enhance the capabilities and features of other software, mobile applications, platforms, and non-downloadable online software in the field of social networking; Computer software consultancy; computer programming consultancy; computer security consultancy; consultancy in the design and development of computer software; consultancy in the design and development of computer hardware; consultancy in the design and development of mobile applications; consultancy in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management; Providing technical solutions in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtualization, cluster computing, natural language processing, image content analysis, speech recognition, analytics and data mining, internet of things, and container management;

(4) Cloud computing services, namely cloud hosting provider services and consulting in the field of cloud computing; cloud computing services, namely, providing virtual computer systems, virtual computer environments, and virtual storage through cloud computing; electronic data storage services for archiving business, corporate, and personal records; Providing a real-time dashboard in the form of online non-downloadable computer software for collecting, tracking, monitoring, processing and analyzing data in the field of business database management;

Design

Visual Representation

The logo for TUFLINE is rendered in a bold, black, sans-serif font. The letters 'T', 'U', and 'F' are significantly larger and more prominent than the letters 'L', 'I', 'N', and 'E'. A horizontal line is drawn through the middle of the letters 'L', 'I', and 'N', creating a stylized, continuous look across the word.

Colour Claim

Colour is claimed as a feature of the trademark. The bottle cap is black and bears the inscription "GLEN TURNER" in gold on its circumference. Underneath the inscription, the words "HIGHLANDS SCOTLAND" appear in gold on a black background. "GLEN TURNER" is additionally embossed on the neck of the bottle. Under this there is a gold and brown oval label that reads "GLEN TURNER" in a stylized white font. Under this mention, the words "SINGLE MALT SCOTCH WHISKY" appear in stylized gold characters and the words "DOUBLE CASK" appear in stylized white characters. A gold border around the oval indicates "DISTILLED AND MATURED IN THE HIGHLANDS" and "GLEN TURNER COMPANY LTD". "SCOTLAND" in brown stylized characters. A gold pattern representing a house is positioned above "GLEN TURNER". Stylized gold leaves form the right and left sides of the oval border. Under the oval, a white square displays the word "HERITAGE" in stylized black characters and the words "DOUBLE CASK" in stylized red characters. The rest of the white square displays the words "A FINE SINGLE MALT SCOTCH WHISKY WITH THE BOLD CHARACTER", "OF OAK AND THE DEPTH AND RICH FLAVOUR OF PORT WOOD" and "PORT CASK FINISH" in stylized black letters. There is also a

gold pattern representing a double cask and a black emblem surrounded by an inscription indicating "GLEN TURNER DISTILLED IN THE HIGHLANDS PRODUCT OF SCOTLAND".
