Trademarks Journal

Vol. 71 No. 3622

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 01

(1) Chemicals for use in industry and science, namely, chemical additives for engine cooling systems, chemicals for use in the oil refining industry; solidified gases for industrial purposes; unprocessed artificial and synthetic resins

Class 03

(2) Chemical cleaning preparations for electric and electronic apparatus, equipment, instruments and installations, namely, all purpose cleaning preparations

Class 06

(3) Non-electric cables and wires of common metal; high-pressure vessels for power generation

Class 07

(4) Installations and apparatus for the production of energy, namely power plants with gas and steam turbines, wind and hydropower plants; centrifugal machines, namely, centrifugal compressors, centrifugal pumps, centrifugal separators; electric generators; electric motors for machines and their parts, not for land vehicles; electric azimuth thruster engines for ships; generators of electricity and power for ships fitted with electric azimuth thruster engines; diesel engines for ships fitted with electric azimuth thruster engines; mechanical equipment for oil and gas extraction, and mining extraction, namely, pumps for the extraction of gases, rare gases extracting machines, drills for the mining industry, oil-well pumping machines; pumps, namely, centrifugal pumps, circulating pumps, compressed air pumps, engine fuel pumps, hydraulic pumps, lubricating pumps, pumps being parts of machines, motors and engines, compressors,

namely, centrifugal compressors, electric compressors, rotary compressors, compressors as parts of machines, motors and engines and blowers, namely, axial flow blowers, rotary blowers; machines and machine tools for the generation and distribution of energy, namely, electricity generators, engines and motors for the generation of electricity, mobile generators of electricity, turbines for generation of electricity; internal combustion motors for power generation, other than for land vehicles; turbines for generation of electricity; equipment and machines, namely, industrial robots for automatic handling of machine tools and workpieces for the metalworking industry; steam engine boilers

Class 09

(5) Electronic control systems and units, namely, power controllers for electricity generators, electrical charge controllers; electronic meters, namely, electricity meters, frequency meters, flow meters, vibration meters, sound level meters, energy meters for tracking and monitoring energy usage; data recording, processing, switching, data storage and output apparatus, in particular universal computers, central processing units, personal computers, work stations comprised of computer hardware, computer peripherals, namely, computer display screens; downloadable data processing programs, in particular communications software to enable the electronic transmission of voice, audio, video and text files, and network software in the nature of computer programs for network management; downloadable artificial intelligence and machine learning software for use in the field of energy production, transmission and distribution; downloadable webapplication and server software, in particular software for monitoring, analysing, controlling and operating physical world operations, namely, for monitoring, analysing, controlling and operating industrial machinery in electric power generation, transmission and distribution facilities and the use of sustainable energy in industrial operations; electric and electronic apparatus and installations for process control engineering, namely, process controllers being signal conditioning and communication devices for industrial process control in the fields of electric power generation, transmission and distribution and industrial automation; service apparatus and machines for power stations, namely pipe checking apparatus in the nature of a pipe inspection camera; devices for the non-destructive examination of materials in power plants, namely, electronic testers for testing compression, strength, hardness and tensile characteristics of industrial materials, eddy current testers, ultrasonic testing apparatus in the nature of ultrasonic flaw detectors, electrical leak detection hardware with embedded operating system software; apparatus for process engineering, namely, flow meters, pressure gauges, voltage regulators, electric valve actuators; electric and electronic apparatus for use in analysis, namely, operational analysis, chromatography and X-ray analysis, namely, industrial x-ray apparatus; high-voltage, medium-voltage and low-voltage circuit-breakers and switchgear; electrical switch cabinets, namely, junction boxes; high-voltage direct current transmission installations, namely, high-voltage transmission systems comprised of apparatus and instruments for distributing electric current in the nature of power distributing boxes, power distribution panels, circuitbreakers, switchgears, electronic monitors and monitor modules for monitoring electrical current; electric current rectifiers; electricity inverters; control engineering apparatus and equipment for switchgear and network control engineering, namely, electrical controllers; electricity transformers; power cables and lines; electronic power and torque measuring devices, namely, digital torque gauges; electronic load indicating devices, namely, electric sensors, electronic monitors, and monitor modules for monitoring electric current; solar collectors for electricity generation; emergency power supply apparatus, namely, uninterruptible power supplies, electrotechnical and electronic control parts, namely, ceramic fuses and their fittings, electric batteries; fuel cells; electric accumulators for vehicles; solar cells; sensors, namely, gas sensors, liquid level sensors, optical sensors; installations for the storage, distributing and transmission of energy comprised of electrical resistors for distributing electric current, electric

current switches, current converters, current transformers, fuel cells, electrical storage batteries, electric capacitors; electrolyzers in the nature of fuel cells; recorded content, namely, downloadable audio recordings, downloadable video recordings, downloadable performance data being images, statistical performance data of industrial machinery in electric power generation, transmission and distribution facilities, stored on computer hardware in the field of electricity production, management and consumption; electrotechnical and electronic measuring, signalling, counting, recording, monitoring, controlling, regulating and commutating apparatus, namely, clamp meters for measuring electricity, electricity distribution consoles, electricity conduits, electricity limiter, electricity meters; apparatus and instruments for electricity regulation, accumulation and storage, namely, capacitors, electricity conduits, electricity distribution consoles, electricity limiter, electrical relays, voltage regulators; computer hardware and downloadable computer software for use in the operation of commercial and industrial plants and infrastructure installations, namely, software for use in process optimization, production optimization and service optimization of the industrial process, equipment and production systems in the industrial automation industry and electrical energy generation and distribution industry

Class 11

(6) Steam boilers, other than parts of machines; gas boilers

Class 17

(7) Seals in the nature of cylinder jointings, silicone sealants and expansion joint fillers; insulation and barrier articles and materials, namely, electrical insulators made of rubber, electrical insulations, fiberglass insulation, foam sheeting for use as building insulation, pipe insulators, insulators for electrical cables, electrical ceramic insulators, fiberglass insulation; expansion joint fillers for insulating

Services**Class 35**

(1) Business management consultancy and advisory services

Class 36

(2) Financing and funding services, namely, financial consulting relating to loans, venture capital financing services, real estate financing services, project financing, financing of purchases, providing educational scholarships; real estate management.

The logo for Edna's is written in a bold, black, cursive script. The letters are thick and have a fluid, interconnected quality. The 'E' is particularly large and stylized, with a long horizontal stroke that curves under the 'd'. The 'd' is also large and has a prominent vertical stem. The 'n' and 'a' are smaller but still maintain the cursive style. The 's' at the end is a simple, curved flourish. The entire logo is set against a plain white background.
