Trademarks Journal

2024-10-02 — Vol. 71 No. 3649

Trademarks Journal

Vol. 71 No. 3649

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Downloadable instruction manuals sold with computer programs; Software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; Computer system software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; Downloadable computer software and mobile application software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence; Software for the integration of artificial intelligence and machine learning in the field of big data; Software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; Software for use in the evaluation and analysis of data utilizing machine learning; Machine learning software used in e-mail filtering programs; Machine learning software used in computer intrusion networks detection programs; Machine learning software used in computer speech analysis programs; Software for use in the evaluation and analysis of data utilizing computational linguistics; Computer software being an intelligent personal assistant for natural language processing; Computer software for use as an application programming interface (API) for use in the fields of natural language processing; Software for sharing data sets for the purpose of delivering automated decision support, data modeling, machine learning, predictive analytics, automated reasoning, diagnostics, optimization and recommendation services; software for use in cognitive computing which utilizes digital information for information management over on-premises and off-premises networks for business-tobusiness integration, analytics, cloud services, archive services, business process management, content management, search, and messaging; software for use in connecting disparate computer networks and systems, servers and storage devices, namely, hard drives, flash drives, USBs, USB-connected peripheral devices, optical drives and cloud storage; software for cognitive computing technologies that provide multimodal natural language processing, generation, reasoning and machine learning for contextual analysis and natural interaction; software for reporting, processing, online analytical processing, analytics, data mining, business performance management, benchmarking, text mining, cognitive computing, and predictive analytics all in the field of information management; software that provides real-time, integrated cognitive predictive analytics

management intelligence by combining information and data and presenting it in an easy-to-understand user interface; software to manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display business data and business information of business entities, government agencies, educational institutions, professional service firms and entities; software to manage, monitor, track and organize business data used in connection with predictive intelligence software; software for use in cognitive computing intelligence analytics, modeling, planning, forecasting, reporting, interactive visualization, and predictive analysis; software for data mining, data query, data analysis, and narrative generation used in the field of information, data and content management of business entities, government agencies, educational institutions, professional service firms and entities; software and software tools for building and deploying intelligent assistants, electronic advisors, and digital workers, in the field of cognitive computing; software for machine learning and statistical analysis; software for data analysis, machine learning, data processing, analysis and storage, cognitive computing and predictive analytics related to structured and unstructured data, namely, software for use in the evaluation and analysis of data utilizing machine learning, software development for searching structured and unstructured data in the field of data analytics, software that stores and analyzes time series data from commercial processes to provide predictive analytics, cognitive self-learning software that mimics human thinking, while processing big data; cognitive computing hardware and software that provide for machine-to-machine (M2M) interactions, communications and collaborative cognition; cognitive computing hardware and software that provide for human-to-machine interactions, communications and collaborative cognition; cognitive computing hardware and software that provide for cognitive automation and cognitive automation systems for messaging; cognitive computing hardware and software and systems to support machine-to-machine (M2M) interactions, communications, remote data collection and process control; Hardware and interface design software to support natural user interface systems; cognitive computing hardware and software to enhance the automation of infrastructure operations across computers, networks and storage devices, namely, hard drives, flash drives, USBs, USB-connected peripheral devices, optical drives and cloud storage; cognitive computing technologies, namely, artificial intelligence (AI) and machine learning (ML) to support cognitive automation capabilities of business IT infrastructure and services; cognitive computing technologies, namely, artificial intelligence (AI) and machine learning (ML) to support the automation of business production systems; Software to automate and augment business processes and functions; cognitive computing hardware and software namely, artificial intelligence (AI) and machine learning (ML) to accelerate and scale business operations and management; cognitive computing hardware and software namely, artificial intelligence (AI) and machine learning (ML) and systems that provide for cognitive enhancement in respect of experience and productivity, accelerating processes, automation and autonomy; cognitive computing hardware and software namely, artificial intelligence (AI) and machine learning (ML) that support immersive cognitive systems; cognitive computing hardware and software and systems that provide for digital virtual agents, predictive analytics, process automation, visual computing applications, knowledge virtualization, integrated robotic process automation, automated software development operations, automated software application testing, automated IT infrastructure management, and automated data center operations; cognitive computing hardware and software which enables machine learning, natural language processing, learning algorithms, semantic ontologies, pattern recognition and knowledge modelling technologies; software for developing and running portable, scalable cognitive systems based on self-organizing incremental neural network (SOINN); software that collects, analyzes, stores, retrieves, filters, processes, reproduces and transmits machine-to-machine (M2M) data from connected devices and integrates machine-to-machine (M2M) data with online and mobile application software data; software for developing, installing, configuring, monitoring and managing

machine-to-machine (M2M) applications; software for machine-to-machine (M2M) networks for data connectivity and integration, device management, configuration, provisioning, management, and control; software for controlling, viewing, accessing, browsing and utilizing global computer and communication networks and for business-process optimization; software for supporting a natural user interface to an operating system relating to compilers, programming languages, databases, networking and communications, artificial intelligence, and brain and body characteristics; Predictive analytics software for collecting and analyzing business information, business data and business content to facilitate its management; Software for the integration of artificial intelligence (AI) and machine learning (ML) in the field of big data that provides for predictive data analytics, data processing, analysis and visualization, and data mining from disparate data sources and for providing automated solutions to enable organizations to integrate disparate data; Software for the integration of artificial intelligence (AI) and machine learning (ML) in the field of big data for use in data analytics, namely, for storing, managing and analyzing structured, semi-structured and unstructured data and for performing advanced analysis and modeling of diverse multistructured data, building data software applications, and performing complex large scale analytics on data; Software for the integration of artificial intelligence (AI) and machine learning (ML) in the field of big data for searching, identifying, collecting, aggregating, filtering, ranking, processing, merging, visualizing, storing, sharing, managing, reporting and analyzing business data in batch mode or real time, and for enabling users to access, view, analyze, share and report business data from multiple sources; Software for the integration of artificial intelligence (AI) and machine learning (ML) in the field of big data for storing, querying, and sharing functionality for management of multi-dimensional data sets, predictive models, facts and dimensions, and digital traces; Software for the integration of artificial intelligence (AI) and machine learning (ML) in the field of big data for managing machine-to-machine (M2M) and internet of things (IoT) communications and interactions; Software for providing machine-to-machine (M2M) and internet of things (IoT) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication technology to facilitate M2M and IoT communication via web based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices, namely, desktop computers, laptop computers, smartphones, and touch screen devices; Software, namely, business automation software for the secure operation and integration of network based business computer applications of others hosted on public and private virtual servers; Software, namely, factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; Software, namely, embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; Software, namely, downloadable software application that applies artificial intelligence programming for use in automation of machines for building construction; Software, namely, software for cloud infrastructure management and automation; Software, namely, design and development of automated computer software for use in the industrial sector; Software, namely, design, development and programming of software for use in automated manufacturing; software designed for use in construction and automated manufacturing; Software, namely, computer software to automate data warehousing; Software, namely, downloadable business automation software for the secure operation and integration of network based mobile applications of others hosted on cloud-based virtual servers; Software, namely, downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; Software, namely, downloadable software and downloadable mobile application software for the automation of electric control systems for lighting; Software, namely, downloadable software application that applies artificial intelligence programming for use in automation of machines for building construction; Software,

namely, downloadable software for the home automation of electric control systems for electrical power switches; Software, namely, downloadable software for the home automation of electric control systems for home security systems; Software, namely, downloadable software for the home automation of electric control systems for HVAC; Software, namely, downloadable software for the home automation of electric control systems for kitchen appliances; Software, namely, downloadable software for the home automation of electric control systems for lighting; Software, namely, electronic devices for mounting in vehicles and having sensors for tracking operation of advanced driving automation systems; Software, namely, embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; Software, namely, factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; recorded computer software for managing automated directional steering control in oil and gas drilling rig equipment; Software, namely, software for cloud infrastructure management and automation; Software, namely, application service provider featuring application programming interface (API) Software, namely, software for home and environmental monitoring, control, and automation; Software for the management of enterprise content, business data, business digital assets, business documents, business records and business information; Software for developing business content, business data, business digital assets, business documents, business records, and business information; Software for accessing, analyzing, automating, displaying, distributing editing identifying, indexing, integrating, linking, modifying, organizing, processing, retrieving, searching, sharing, storing, transferring, transmitting and viewing enterprise content, business data, business digital assets, business documents, business records and business information; Software for document management, business data management, business project management, business organization management, enterprise content management, and enterprise knowledge management, search and collaboration among enterprise users; Software for use in the field of enterprise knowledge management to host computer application software for creating searchable databases of enterprise information and data and for searching and retrieving enterprise information from databases and computer networks; Software for facilitating collaboration, namely, communication software for connecting computer network users to facilitate collaboration, software for facilitating collaboration among users, and for visualization, synchronization, reconciliation, access, and control of enterprise content, data, digital assets, documents, records and information; Software for providing a retrieval system for enterprise documents and business data and a management system for enterprise documents and business data; Software for document and business data storage, business data organization and business data retrieval; Software to enable sharing information via computer, mobile phones and tablets and to enable communication between users; Software for archiving, aggregating and classifying enterprise content, databases, images, business digital assets, documents, and records, in the field of Big Data. Email monitoring management software; Records management software; Software to facilitate compliance with laws, regulations, and governance requirements for enterprises; Software for the electronic transfer and transport of enterprise files, information, content, documents and messages; Software for sending and receiving electronic mail, facilitating enterprise document collaboration, editing enterprise data and documents, and viewing and organizing digital enterprise content; Software for website content management and website creation; Software for enterprise content life cycle management; Software for providing terminal sessions from personal computers and workstations to host computers and related enterprise documentation, namely, instructional user guides, release notes, programming guides, and in-product help instructions; Software for terminal emulation connection to enterprise hosts; Software for analyzing communication networks and for monitoring and managing electrical charging stations and networks; PC-to-host software solutions, namely, terminal emulator software; PC-to-host software solutions, namely, downloadable

software that provides access to enterprise data and applications residing on enterprise and legacy system hosts; Software to automate data warehousing; Software to process enterprise documents; Software for facilitating the integration, transmission, retrieval and storage of electronic business content, business data, documents, text and images; Software for business and social networking, creating and administrating online communities and groups, creating and maintaining blogs, and sharing of digital content; Software to manage email marketing campaigns; Software for file sharing, social networking and collaboration; Software for searching, compiling, sorting, organizing and interfacing data, information and documents in the field of legal discovery; Software for search and enterprise content analytics; Omni-channel commerce software to provide businesses with the means to create a seamless buying experience; Multichannel commerce software to enable businesses to manage their online sales and operations across multiple digital channels; Software to enable the design, execution, and measurement of multipart communications across a variety of channels, namely, websites, portals, email, mobile devices, and direct mail pieces; Software for enterprise document output management and customer communications management (CCM); Software for business management, business process management, decision-making processes, business intelligence, business process improvement and business process automation; Software for delivering and managing e-learning training for professional development; Software for providing access to online training, tracking completion of courses, maintaining a database of information about users, and for use in the development of educational content and interactive educational content; Software for use in the development of educational software and web-based learning and instructional software, software applications used to schedule, deliver, coordinate, and manage educational content; Software for creating, delivering, and managing employee training, education, educational compliance and certification, continuing education, and other educational instruction, courses, lectures and demonstrations; Software for delivering and managing online education and distributing educational materials; Software application development tool programs for assisting developers in creating program code for use in multiple application programs and software for running development programs and application programs in a common development environment; Software for assisting developers in developing software applications for the management of business data, digital assets, documents, records, and information; Software for assisting developers to develop software applications for use in the management of business data, digital assets, documents, records, and information; Software for assisting developers in developing other software and software applications; Software for use in enterprise content management, enterprise content integration and business records management; Software to gather, analyze, and manage enterprise data for use in enterprise information management, legal e-discovery, legal and regulatory compliance for enterprises and enterprise search applications;

Class 16

(2) Instruction manuals sold with computer programs;

Services**Class 35**

(1) Business management consultancy services; business consulting services for businesses and institutions relating to cognitive computing and data-driven analytics; business development consulting; market research studies; Data processing consulting services, namely, business data analysis for the compilation of big data for use in machine learning and business data curation for artificial intelligence (AI) development, and business management services relating to information and data compiling and analyzing; Commercial consultancy and analysis relating to business management; Data and document management services, namely, data compiling and analyzing

relating to business management, and document indexing for others; Business consulting services in the fields of business workflows, business process management and business data management;

Class 38

(2) Electronic mail and facsimile transmission services; Electronic transmission and retrieval of facsimile communications and data of business entities, government agencies, educational institutions, professional service firms and entities; Electronic communications and transmission of messages via a cloud-based data exchange interface; Electronic data interchange (EDI) services; Electronic mail, facsimile, text, audio transmission services; Electronic transmission of audio, enterprise data, facsimiles, digital images and enterprise content in the field of business; Providing machine-to-machine (M2M) and Internet of Things (IoT) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication technology to facilitate M2M and IoT communication via web based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices, namely, desktop computers, laptop computers, smartphones, and touch screen devices;

Class 41

(3) Online training services in the fields of computer systems management, enterprise content management, information management and business collaboration; Training services in the fields of implementation of software and managing computer systems content; Training in the use and operation of software; Providing online training for: software, software applications, software for management of enterprise content, data, digital assets, documents, records and information, software for developing business content, data, digital assets, documents, records, and information, software for accessing, analyzing, automating, bookmarking, collecting, displaying, distributing, editing, identifying, indexing, integrating, linking, modifying, organizing, processing, retrieving, searching, sharing, storing, transferring, transmitting and viewing enterprise content, data, digital assets, documents, records and information, software for document management, data management, project management, organizational management, enterprise content management, and knowledge management, search and collaboration among users, software for use in the field of knowledge management to host computer application software for creating searchable databases of information and data and for searching and retrieving information from databases and computer networks, software for facilitating collaboration, namely, communication software for connecting computer network users to facilitate collaboration, software for facilitating collaboration among users, and for visualization, synchronization, reconciliation, access, and control of content, data, digital assets, documents, records and information, software for providing a document and data retrieval system and a document and data management system, software for document and data storage, organization and retrieval, software for sharing communications between community members, providing online training for: software for archiving, aggregating and classifying enterprise content, data, databases, images, digital assets, documents, records, information and Big Data, email monitoring management software, records management software, software to facilitate compliance with laws, regulations, and governance requirements for enterprises; Providing online training for: software for the electronic transfer and transport of files, information, content, documents and messages, software for sending and receiving electronic mail, facilitating document collaboration, editing enterprise data and documents, and viewing and organizing digital content, software for enterprise content management and website creation, software for enterprise content life cycle management, software for providing terminal sessions from personal computers and workstations to host computers and related documentation in the nature of instructional user guides, release notes, programming_ guides, and inproduct help

instructions, software for terminal emulation connection to enterprise hosts, network communication software, PC-to-host software solutions, namely, downloadable software for terminal emulation and software recorded on CDs for terminal emulation, PC-to-host software solutions, namely, downloadable software that provides access to data and applications residing on enterprise and legacy system hosts, software to automate data warehousing; Providing online training for: document processing software, software for facilitating the integration, transmission, retrieval and storage of electronic enterprise content, data, documents, text and images; Providing online training for: software for business and social networking, creating and administrating online communities and groups, creating and maintaining blogs, and sharing of digital content, software for the management of email marketing campaigns, software for file sharing among users, social networking and collaboration among users; Providing online training for discovery software, namely, software for use in the field of searching, compiling, sorting, organizing and interfacing data, information and documents, software for search and enterprise content analytics; Providing online training for: Software for omni-channel experience and multi-channel experience, software to enable the design, execution, and measurement of multipart communications across a variety of channels, namely, websites, portals, email, mobile devices, and direct mail pieces, software for document output management and customer communications management; Providing online training for: Software for business management, business process management, decision-making processes, business intelligence business process improvement and business process automation; Providing online training for: e-learning software for professional development, software for e-learning, namely, software for providing access to online training, tracking completion of courses, maintaining a database of information about users, and for use in the development of educational content and interactive educational content, namely, for use in the development of educational software and web-based learning and instructional software, software applications used to schedule, deliver, coordinate, and manage educational content, software for creating, delivering, and managing employee training, education, educational compliance and certification, continuing education, and other educational instruction, courses, lectures and demonstrations, software for delivering online education and managing and distributing educational materials; Providing online training for: software for business-to-business transactions and business-to-business integration, software for business-to-business information exchange, software for electronic file transfer and messaging, software for enterprise file, data, content, image and document storage, transfer, and sharing, software for data exchange, software for assembling, processing, managing, transmitting, receiving and archiving facsimiles, software for facilitating the integration of facsimile functionality with email systems, customer relation management (CRM), enterprise resource planning (ERP), document management systems, enterprise content management systems, database systems, scanning, copying, and printing systems, and computer legacy systems, software for facsimile transmission and retrieval via facsimile devices, email and global computer networks, software for delivery of electronic enterprise documents, voice signals, data, facsimiles, images and information, software for programming facsimile machines; Providing online training for: software application development tool programs, software for developing software applications for the management of business data, digital assets, documents, records, and information, software to enable users to develop software applications for use in business data, digital assets, documents, records, and information management, computer programming software and computer development software, namely, software development tools for assisting developers in the creation of software applications, software for assisting developers in developing other software and software applications;

Class 42

(4) Cloud computing featuring software for use in enterprise content management, enterprise content integration, business records management and business data curation; Consulting services relating to computer software and cloud computing; installing, testing, updating and maintaining of software for others; software design services; computer programming services; Cloud computing featuring software for use in the collection, integration, curation, evaluation, and analysis of business data; Cloud computing featuring software for the integration of artificial intelligence and machine learning in the field of big data; Cloud computing featuring software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; Cloud computing featuring software for use in the evaluation and analysis of data utilizing machine learning; Cloud computing featuring software for use in the evaluation and analysis of data utilizing computational linguistics; Cloud computing featuring intelligent personal assistant software for natural language processing; Cloud computing featuring software for use in the evaluation and analysis of data utilizing computational modelling of natural language; Cloud computing featuring software for information retrieval across a computer network; Cloud computing featuring software for the integration of artificial intelligence and machine learning in the field of Big Data for business data analytics and user behavior analytics and for searching structured and unstructured data in the field of data analytics; Cloud computing featuring machine learning software; Cloud computing featuring software for the curation of business data; Cloud computing featuring software for cognitive computing and data-driven analytics in the field of Big Data; Cloud computing featuring software for cognitive computing, namely, machine learning software used in computer speech analysis programs and intelligent personal assistant for natural language processing; Cloud computing featuring software for data-driven analytics, namely, software for searching structured and unstructured data for enterprise data analytics; Cloud computing featuring software for use in data analytics and machine learning tools for acquiring, processing, sorting and analyzing information, data and content in the field of Big Data, namely, software for the integration of artificial intelligence and machine learning in the field of Big Data, software for searching structured and unstructured data in the field of data analytics; Cloud computing featuring software for use in cognitive computing; cloud computing featuring software for sharing data sets for the purpose of delivering automated decision support, data modeling, machine learning, predictive analytics, automated reasoning, diagnostics, optimization and recommendation services; cloud computing featuring software for use in cognitive computing which utilizes digital information for information management over on-premises and off-premises networks for business-to-business integration, analytics, cloud services, archive services, business process management, content management, search, and messaging; cloud computing featuring software for connecting computer networks and systems, servers and storage devices, namely, hard drives, flash drives, USBs, USB-connected peripheral devices, optical drives and cloud storage; cloud computing featuring software for cognitive computing technologies that provide multi-modal natural language processing, generation, reasoning and machine learning for contextual analysis and natural interaction; cloud computing featuring software for reporting, processing, online analytical processing, analytics, data mining, business performance management, benchmarking, text mining, cognitive computing, and predictive analytics all in the field of information management; cloud computing featuring software that provides real-time, integrated cognitive predictive analytics management intelligence by combining information and data and presenting it in an easy-to-understand user interface; cloud computing featuring software to manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display enterprise data and information from computer databases, applications and the internet; cloud computing featuring software to manage, monitor, track and organize enterprise content used in connection with predictive intelligence software; cloud computing featuring software for use in cognitive computing intelligence analytics, modeling,

planning, forecasting, reporting, interactive visualization, and predictive analysis; cloud computing featuring software for data mining, data query, data analysis, and narrative generation used in the field of information, data and content management; cloud computing featuring software and software tools for building and deploying intelligent assistants, electronic advisors, and digital workers, in the field of cognitive computing; cloud computing featuring software for machine learning and statistical analysis; Cloud computing feature software for searching structured and unstructured data for enterprises in the field of data analytics; Cloud computing featuring software for cognitive computing technologies that provide for machine-to-machine (M2M) interactions, communications and collaborative cognition; cloud computing featuring software for cognitive computing technologies that provide for human-to-machine interactions, communications and collaborative cognition; cloud computing featuring software for cognitive computing technologies that provide for cognitive automation and cognitive automation systems for messaging; cloud computing featuring software for cognitive computing technologies and systems to support machine-to-machine (M2M) interactions, communications, remote data collection and process control; Cloud computing featuring software to support natural user interface (NUI) solutions, namely, touch-screen interface, gesture recognition, speech recognition and brain-machine interfaces; Cloud computing featuring software for cognitive computing technologies to enhance the automation of infrastructure operations across computers, networks and storage devices, namely, hard drives, flash drives, USBs, USB-connected peripheral devices, optical drives and cloud storage; Cloud computing featuring software for cognitive automation of IT infrastructures; Cloud computing featuring software for cognitive automation of production systems across industries, namely, aerospace, aeronautics, aviation, agriculture, automotive, cleantech, consumer products, electronics and computer technology, energy, oil and gas, financial services, food and beverage, internet, digital, media and ecommerce, medical devices, pharmaceuticals and biologics, railways, robotics, telecommunications and commercial and industrial manufacturing; Cloud computing featuring software that supports immersive cognitive systems, namely, immersive virtual reality; Cloud computing featuring software for cognitive computing technologies and systems that provide for digital virtual agents, predictive analytics, cognitive process automation, visual computing applications, knowledge virtualization, integrated robotic process automation, automated software development operations, automated software testing, automated IT infrastructure management, and automated data center operations; Cloud computing featuring software for cognitive computing technologies and systems namely, artificial intelligence (AI) and machine learning (ML) which enable, natural language processing, learning algorithms, semantic ontologies, pattern recognition and knowledge modelling technologies; Cloud computing featuring software for developing and running portable, scalable cognitive systems based on self-organizing incremental neural network (SOINN); Cloud computing featuring software that collects, analyzes, stores, retrieves, filters, processes, reproduces and transmits machine-to-machine (m2m) data from connected devices and integrates machine-to-machine (M2M) data with online and mobile application software data; cloud computing featuring software for developing, installing, configuring, monitoring and managing machine-to-machine (M2M) applications; cloud computing featuring software for machine-to-machine (M2M) networks for data connectivity and integration, device management, configuration, provisioning, management, and control; cloud computing featuring software for controlling, viewing, accessing, browsing and utilizing global computer and communication networks and for business process optimization; cloud computing featuring software for supporting a natural user interface to an operating system relating to compilers, programming languages, databases, networking and communications, artificial intelligence, and brain and body characteristics; Cloud computing featuring software for collecting and analyzing enterprise content to facilitate business information, business data and enterprise content management; Cloud computing featuring software for predictive data analytics, data processing,

analysis and visualization, and data mining of enterprise content, and for the integration of disparate enterprise content; Cloud computing featuring software for use in data analytics, namely, for storing, managing and analyzing structured, semi-structured and unstructured enterprise content and for analyzing and modeling multi-structured data, building data software applications, and performing large scale analytics on enterprise content; Cloud computing featuring software for searching, identifying, collecting, aggregating, filtering, ranking, processing, merging, visualizing, storing, sharing, managing, reporting and analyzing enterprise content in batch mode and in real time, and for enabling users to access, view, analyze, share and report enterprise content; Cloud computing featuring software for storing, querying, and managing enterprise content, machine learning algorithms, predictive models, facts and dimensions, and digital traces; Cloud computing featuring artificial intelligence (AI) software for managing machine-to-machine (M2M) and Internet of Things (IoT) communications and interactions; Cloud computing featuring software for providing machine-to-machine (M2M) and Internet of Things (IoT) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication technology to facilitate M2M and IoT communication via web based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices, namely, desktop computers, laptop computers, smartphones, and touch screen devices; Software consulting; Software customization services; Computer software design, development and updating; Providing information in the field of software design, development, and updating; Providing software analysis, deployment, implementation, installation, business integration, maintenance, business management, programming and updating services; Technical support services, namely, troubleshooting of computer software problems; Computer services, namely, remote and on-site management of software applications of others; Cloud computing featuring software for the integration of artificial intelligence and machine learning in the field of big data; Cloud computing featuring software for use in converting user-defined data from one computer format to another in the field of machine learning; Cloud computing featuring software for use in modeling in the field of machine learning; Cloud computing featuring software for use in testing in the field of machine learning; Cloud computing featuring software for the development of machine learning in the field of computer technology; Cloud computing featuring software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence; Cloud computing featuring software for use in enterprise content management, enterprise content integration and business records management; Cloud computing featuring software development tools in the field of machine learning; Cloud computing featuring software for machine learning; Cloud computing featuring software for use in converting user-defined data from one computer format to another in the field of machine learning; Cloud computing featuring software for use in modeling in the field of machine learning; Cloud computing featuring software for use in testing in the field of machine learning; Cloud computing featuring software for the development of machine learning in the field of computer technology; Cloud computing featuring software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence; Cloud computing featuring machine learning software used in e-mail filtering programs; Cloud computing featuring machine learning software used in computer intrusion networks detection programs; Cloud computing featuring machine learning software used in computer speech analysis programs; Cloud computing featuring software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence; Cloud computing featuring software for use as an application programming interface (API) for use in the fields of natural language processing; Cloud computing featuring software for use in converting user-defined data from one computer format to another in the field of artificial intelligence; Cloud computing featuring software for the development and creation of computer programs for data processing; Cloud computing featuring

software to train software to predict user behaviour in the field of learning models and artificial intelligence; Software as a service services [SaaS] featuring software for machine learning; Cloud hosting provider services; Consulting services in the field of cloud computing and software as a service; Updating and maintaining cloud-based software through on-line updates, enhancements and patches; Cloud computing featuring software for use in enterprise content management;; Cloud computing featuring software for use in enterprise content development; Cloud computing featuring software for use in accessing, analyzing, automating, bookmarking, collecting, displaying, distributing, editing, identifying, indexing, integrating, linking, modifying, organizing, processing, retrieving, searching, sharing, storing, transferring, transmitting and viewing business enterprise content, business data, business digital assets, business documents, business records and business information; Cloud computing featuring software for use in enterprise content management, enterprise content integration and business records management; Cloud computing featuring software for use in the field of business knowledge management, host computer application software for creating searchable databases of enterprise information and data and for searching and retrieving enterprise information from enterprise databases and computer networks; Cloud computing featuring software for use in facilitating enterprise collaboration, namely, communication software for connecting computer network users to facilitate collaboration, software for facilitating collaboration among users, and for visualization, synchronization, reconciliation, access, control, and auditing; Cloud computing featuring business data and document retrieval software and enterprise content management software; Cloud computing featuring software for use in document and business data storage, organization and retrieval; Cloud computing featuring software for archiving, aggregating and classifying enterprise content, data, databases, images, digital assets, namely, audio, videos, slide presentations, spreadsheets and websites, documents, records, business information in the field of Big Data; Cloud computing featuring email management software; Cloud computing featuring software for use in records management; Cloud computing featuring software for use in facilitating compliance with laws, regulations and governance requirements for enterprises; Cloud computing featuring software for conducting enterprise risk management evaluations; Cloud computing featuring software for use in the electronic transfer and transport of enterprise files, information, content, documents and messages; Cloud computing featuring software for use in sending and receiving electronic mail, document collaboration, editing of enterprise data and documents, and viewing and organizing digital enterprise content; Cloud computing featuring software for use in web enterprise content management and website creation; Cloud computing featuring software for use in enterprise content life cycle management; Cloud computing featuring software for use in providing terminal sessions from personal computers and workstations to host computers and related enterprise documentation, namely, instructional user guides, release notes, programming guides, and in-product help instructions; Cloud computing featuring software for use in terminal emulation connection to enterprise hosts; Cloud computing featuring network communication software; Web-to-host software solutions, namely, non-downloadable software for terminal emulation; Web-to-host software solution, namely, non-downloadable software that provides access to enterprise content and applications residing on enterprise and legacy system hosts; Cloud computing featuring software to automate data warehousing; Cloud computing featuring software to process enterprise documents; Cloud computing featuring software to facilitate the integration, transmission, retrieval and storage of enterprise content, documents, text and images; Computer services, namely, creating an online community for registered users to participate in discussions, blogs, share enterprise content, recommendations, share files, get feedback from their peers, from virtual communities and engage in business and social networking; Cloud computing featuring software to manage emails and email marketing campaigns; Computer services, namely, creating an online community for registered users to participate in discussions, share recommendations,

share files, get feedback from their peers, from virtual communities and engage in business and social networking; Cloud computing featuring software for enabling members of an online community to communicate; Cloud computing featuring software to search, compile, sort, organize and interface enterprise content and documents; Cloud computing featuring software for multiparty communications across a variety of channels, namely, websites, portals, email, mobile devices, and direct mail pieces; Cloud computing featuring omni-channel commerce software to provide businesses with the means to create a seamless buying experience; Cloud computing featuring multi-channel commerce software to enable businesses to manage their online sales and operations across multiple digital channels; Cloud computing featuring software to enable the design, execution, and measurement of multipart communications across a variety of channels, namely, websites, portals, email, mobile devices, and direct mail pieces; Cloud computing featuring software for use in enterprise document output management and customer communications management (CCM); Cloud computing featuring software for use in the management of business processes, business intelligence, project management, decision-making processes, and business process improvement; Development of learning management software for delivering and managing e-learning; Cloud computing featuring software for use in collaborative learning, and collaboration among users; Cloud computing featuring learning management software for delivering and managing elearning; Cloud computing featuring software for use in business-to-business transactions, business-to-business content integration, business-to-business information exchange and business-to-business electronic messaging; Cloud computing featuring software for use in electronic file transfer and electronic messaging; Cloud computing featuring software for the exchange of enterprise content; Cloud computing featuring software for messaging and for enterprise content, image and document storage, transfer, and sharing; Cloud computing services for use in online document collaboration, for use in developing and testing new software applications, and for use in integrating and aggregating an enterprise's existing online services. Cloud computing featuring software for assembling, processing, managing, transmitting, receiving and archiving of facsimiles; Cloud computing featuring software for facilitating integration of facsimile functionality with email systems, software for use in customer relation management (CRM), enterprise resource planning (ERP), document management systems, enterprise content management, database systems, scanning, copying, and printing systems; Providing temporary use of online non-downloadable middleware for providing an interface between software applications and legacy systems; Cloud computing featuring software for facsimile transmission and retrieval via facsimile devices and email and global computer networks; Cloud computing featuring software for delivery of electronic business documents, digital voice signals, facsimiles, images and enterprise content; Cloud computing featuring software for programming facsimile machines; Cloud computing featuring software for hosting facsimile services; Creating an online community for software developers; Hosting an online community website; Providing online non-downloadable software for building enterprise software applications; Providing online non-downloadable software development programs for creating software applications; Cloud computing featuring software for assisting developers in creating program code for use in multiple application programs and software for running development programs and application programs in a common development environment;

Class 45

(5) Licensing of software and intellectual property; Providing an online community for software and software application developers; Online social networking services, namely, facilitating interaction among software developers;

Colour Claim

Colour is claimed as a feature of the trademark. The colours red, blue and orange are claimed as a feature of the mark. The mark consists of three curved elements which together form a sphere. The curved element in the upper part of the sphere is red, the curved vertical element is dark blue, and the element in the lower part is light blue. The sections appearing inside the sphere are represented in orange. The word TOTAL appears on the right and is red.

Goods

Class 04

(1) Crude oil, refined oil; electrical energy, namely electrical energy from renewable and non-renewable sources; products derived from petroleum and petroleum-based preparations, namely olefins, paraffins, naphtha, gas oil, gas, gasoline; combustible fuels derived from crude oil; biomass fuels; fuels for motors and engines and biofuel; fuel oils; natural gas and petroleum gas; industrial lubricants, automotive lubricants and all-purpose lubricants, industrial oils and greases; mineral oils; non-chemical additives for use in industry, namely non-chemical additives for fuels, non-chemical additives for lubricants, non-chemical additives for processing combustible fuels, asphalt, kerosene, gasoline and non-chemical additives for gasoline; non-chemical additives for insecticides, herbicides and fungicides; insulating greases.

Class 07

(2) Apparatus and installations for the generation of energy, namely electricity generators, generators for land vehicles, generators for wind turbines, diesel motors for electricity generators, diesel motors for industrial machinery, diesel motors for land vehicles, gas turbines, steam turbines, hydraulic turbines, turbines for the generation of energy, wind turbines, turbines for the

generation of electricity, combustion motors for the generation of energy, other than for land vehicles, steam boilers for the generation of energy, other than for land vehicles, motors for the generation of electricity; electricity and gas generators; wind turbines and their constituent parts; oil refining machines; electric generators for vehicles; fuel pumps for service stations.

Class 09

(3) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely electric accumulators, electric capacitors, electric conductors for transformers, electric circuit closers, inverters for power supply, current transformers, electric voltage transformers, electromechanical controls for thermostats, electrical power distribution blocks, electric relays; electric cables and wires; current collectors, namely electric signal transducers; electricity meters; gas meters; apparatus and instruments for controlling, measuring and managing energy, namely energy meters for tracking and controlling energy consumption, electrical energy utilization meters, power distributing boxes; power converters; voltage regulators for electrical energy; batteries, namely rechargeable primary batteries, lithium batteries, nickel batteries, Ni-Cd batteries for the oil and gas industry, lithium batteries for aviation and aerospace, all-purpose batteries, electric batteries for powering buildings and plants, electric batteries for emergency power backup for buildings, electric batteries for medical equipment and devices, electric batteries for portable computers, electric batteries for smartphones, batteries for vehicles, lithium batteries for marine transport, lithium batteries for car racing, batteries made of nickel and batteries made of lithium for railway infrastructure, fuel cells, solar cells, alkaline, salt cells, rechargeable lithium cells; solar energy battery and cell chargers, vehicle battery chargers and chargers for general purpose batteries; solar-powered apparatus and installations for the generation of electricity, namely solar panels and solar energy collectors for the generation of electricity, photovoltaic installations for the generation of solar electricity; photovoltaic cells and modules; solar panels; accumulators for photovoltaic energy; safety and automation apparatus for buildings and houses, namely security cameras, security and fire alarms, personal security alarms; home automation servers; frequency converters, voltage converters; electric storage batteries and apparatus for recharging electric storage batteries; charging stations for electric vehicles; safety clothing for protection against accidents and injuries; vehicle breakdown warning triangles; eyeglasses and eyeglass cases; loudspeakers, wireless speakers, audio speakers; information processing equipment, namely computers; downloadable software in the form of a mobile application for testing and analyzing chemical and petroleum products, managing databases, managing customer relationships, accessing, viewing, modelling and monitoring information in the field of energy generation and consumption, recording and analyzing energy generation and consumption, creating mobile Internet applications and client interfaces; encoded magnetic cards, magnetically encoded identification cards, magnetic identification cards; transmitters, magnetic identification cards and badges enabling access to road and highway networks; electric battery and vehicle charging terminals and stations; batteries for vehicles.

Services

Class 37

(1) Natural resource extraction services, namely oil and gas extraction; vehicle fuelling services; service stations; maintenance, washing and repair of vehicles and vehicle parts; automotive oil change services; vehicle breakdown repair services; greasing, lubrication and tune-up of motors; tire inflation, repair and fitting; construction and maintenance of roads; maintenance and repair of heating installations, repair and maintenance of generators and turbines for the generation of electricity, and electrical repair and installation of motors; rental of drilling rigs and platforms; drilling of wells; construction, installation and maintenance of pipelines, oil pipelines and gas

pipelines; charging of vehicle batteries; charging of batteries for electric vehicles; installation, repair, maintenance of energy supply and recharging terminals and stations for batteries and vehicles.

Class 40

(2) Energy generation services, namely electrical, wind turbine, solar, photovoltaic, thermal, hydraulic, geothermal, underwater turbine, hydro-electric, petroleum, bio-energy, renewable source, biomass, solar, gas; transformation services of natural resources, namely sun, water, wind, tides, into energy; recycling of waste, disposal of waste, composting services; oil refining; purification and decontamination of the air, water and soil; decontamination, depollution and sanitation of industrial facilities and sites, equipment and apparatus in the field of the generation of energy; information related to the management of energy generation infrastructure; rental of apparatus and installations for the generation of energy, in particular solar, wind, hydraulic, geothermal, and provision of related information; lubricant mixing service for the benefit of others.

Colour Claim

Colour is claimed as a feature of the trademark. The letter C of the word CUERVO and the first letter S of the word SOBRINOS are burgundy. The rest of the verbal elements are black. The drawing above consists of a shield with the letters C and S in light beige and the letter Y in black on a burgundy background. The design with the knots above the shield is light beige.

Foreign Character Translation

The French translation provided by the applicant for the Spanish word "sobrinos" is "neveux".

Trademark Description

The mark consists of a vertical line and 3 curved vertical lines indicating noise followed by the term DYSPHONIA in capital letter with the term INTERNATIONAL in smaller capital letter beneath it.

Services

Class 35

(1) Promoting public awareness of spasmodic dysphonia and related voice conditions; promoting education by providing information relevant to spasmodic dysphonia and related voice conditions; public advocacy to promote awareness, access to healthcare services and research for the needs of those affected by spasmodic dysphonia and related voice conditions; Promoting the services of others for those affected by spasmodic dysphonia and related voice conditions.

Class 36

(2) Charitable fundraising services for promoting research, education, support, awareness and other activities relating to spasmodic dysphonia and related voice conditions; providing project and research grants for scientific and medical research.

Class 42

(3) Providing medical and scientific research information in the field of spasmodic dysphonia and related voice conditions.

Class 44

(4) Providing medical information related to diagnosis and treatment of spasmodic dysphonia and related voice disorders and diseases; acting as patient advocate to help with the needs of those affected by spasmodic dysphonia and related voice conditions.

(1) Fuels, illuminants, namely, light oils, combustible compositions, namely, fuel oil, butane fuel, natural gas, propane and combustible briquettes; fuels, namely, lamp fuels, motor fuels, sustainable aviation fuel, jet fuels, fuel for lighters, and fuel for ships; hydrocarbon fuels, namely, propane, gasoline, kerosene and diesel; fuel gas; gas and gaseous fuels, namely, lamp gas and gaseous fuels, motor gas and gaseous fuels, sustainable aviation gas and gaseous fuel, jet gas and gaseous fuels, gas and gaseous fuel for lighters, and gas and gaseous fuel for ships; industrial oils and greases, namely, industrial lubricating oils, industrial oil for batteries, industrial automotive oil, mineral oils and greases for industrial purposes, lubricating oils for industrial purposes, non-mineral oils for industrial purposes, raw coconut oil for industrial use, peanut oils for industrial purposes, perilla oils for industrial purposes, palm kernel oil for industrial use, linseed oils for industrial purposes; all-purpose lubricants.

Class 09

(2) Scientific, electronic, photographic, cinematographic apparatus and instruments, namely, cameras, computers, bariatric scales, medical scales, lever scales, laboratory scales and balances; optical inspection, weighing, electricity and energy measuring apparatus and instruments, namely, microscopes, optical microscopes for scientific purposes, optical microscopes for materials testing, cameras, photographic lenses, camera filters, photometers, slide projectors, telescopes, eyeglasses and sunglasses, magnifying glasses, video monitors, video tape players, video tape recorders; electric apparatus, namely, apparatus for conducting, switching, transforming, accumulating, regulating or controlling electricity; scientific apparatus and instruments for measuring electricity and energy use, transmitting electrical signals, checking electrical signals and energy use; apparatus for recording, transmission and reproduction of sound and images, namely, computers, computer screens, computer keyboards, computer printers, cell phones, fixed location telephones, telecopiers, televisions; blank magnetic data carriers and blank recording disks, namely, blank magnetic computer tapes, blank floppy disks, blank audio compact disks, blank digital audio disks, blank compact discs, blank hard disks, blank laser disks, blank digital versatile disks; calculating machines and data processing apparatus, namely, calculators,

computers and printers for use with computers; apparatus for monitoring domestic or industrial consumption of electrical energy, gas, heat and water; apparatus for analysing electricity signals, current and voltage; electrical apparatus and instruments for processing, storing, transmitting, distributing and receiving data, namely, computers, computer screens, computer keyboards, computer printers, cell phones, fixed location telephones, telecopiers, televisions; instruments and installations for encoding, decoding, transcoding, encrypting, deciphering, recording, transmitting, reproducing and amplifying sound, images and information, namely, card readers for magnetically encoded cards, electronic devices for reading, encoding and programming transponder keys. encoded integrated circuit cards, electronic encryption units, television decoders, decoder software, computer software for editing images, sound, and video, optical amplifiers, audio amplifiers, electric and electronic video surveillance installations; computer communication, office automation, home automation and building automation terminals; blank magnetic or optical data media, computer interfaces, data reading devices for data processing, optical disk drive, microprocessors, computer central processing units, downloadable software for the management, tracking, and monitoring of the generation, use, and consumption of utilities in the nature of electricity, water, and natural gas for use in the field of the provision, supply and generation of energy, energy use and consumption, downloadable software packages for the management, tracking, and monitoring of the generation, use, and consumption of utilities in the nature of electricity, water, and natural gas for use in the field of the provision, supply and generation of energy, energy use and consumption; downloadable and recorded data banks in the field of the provision, supply and generation of energy, energy use and consumption and database management systems consisting of recorded and downloadable software; electrical and electronic apparatus and instruments for use in the generation and distribution of power, gas, water or electricity and telecommunications, namely, solar panels and solar energy collectors for the production of electricity, radio frequency generators for supplying radio-frequency energy, fuel cell power generation modules for automobiles; batteries, namely, batteries for utility-scale energy storage, batteries for behind-the-meter backup energy storage; circuit breakers, electric control panels, electric rotary switches for commutation, electricity distribution boxes, consoles and boards, electric branch boxes, junction boxes, electric converters, electric transformers; electrical branch and distribution boxes, junction boxes, electric converters, electric transformers, electrical cables, conductors, conduits, connectors and switches; insulated electrical connectors; insulation resistance electricity and frequency metres; insulation resistance testers; electric door bells, fire and burglar alarms; fuses and fuse wires; electric locks, namely, electric locks for vehicles, electromagnetic locks; sheaths for electric cables; protective clothing to protect against fire and accidents; safety apparatus and instruments, namely, safety glasses, safety goggles, safety helmets; intercommunication apparatus, namely, telephones, receivers; telecommunications apparatus and instruments, namely, telephones, receivers; electronic and infrared remote control devices for controlling gas, electricity and energy usage; remote control apparatus for use in control of electricity, gas, heat, water and energy supplies; remote electricity switching apparatus and instruments, namely, lighting controls panels, light switches, electric light dimmers, remote circuit breaker control switch operators, power switches; power generation monitoring apparatus, namely, computer monitors, light-emitting diode [LED] monitors, temperature monitors for household purposes, energy meters for tracking and monitoring energy usage, alternating electrical current monitor modules, voltage monitoring units, clamp meters for measuring electricity, power system meters, data meters, electricity meters, electric current meters, exposure meters, gas flow meters, pressure meters, LED position sensors, Infrared sensors, sensors for determining temperature, thermal sensors, temperature sensors; downloadable computer software for use in the generation and distribution of power, gas, water and electricity for home energy management purposes via the Internet; solar panels for electricity generation; fuel meters; fuel

measuring apparatus and instruments, namely, fuel gauges, gasoline gauges, liquid-level gauges, flow gauges; fuel distribution equipment, namely, electric fuel-level gauges, control valves for regulating gas flow and fuel lines; electronic control, monitoring, regulating, and measuring devices for heating, cooling and ventilating systems; lighting controls; external power supplies, namely, uninterruptible power supplies, high-voltage power supplies, low-voltage power supplies, computer power supplies, voltage stabilizing power supply, AC/DC power supplies; devices for monitoring, controlling, and regulating energy use; devices for tracking energy use; solar photovoltaic cells; energy regulators; energy control devices; thermal energy measuring apparatus; solar energy collectors for electricity generation; electric current control devices for energy management.

Services

Class 35

(1) Energy management services, namely, retail energy provider services that allows commercial and residential customers to purchase electricity, natural gas and renewable energy as part of a competitive retail energy market; energy consumption and usage conservation analytical and advisory services for commercial and residential customers in order to improve energy efficiency; business administration, namely, organization, operation and supervision of incentive and loyalty schemes in the nature of providing incentive award programs through issuance and processing of loyalty points for purchase of a company's goods and services and to promote the goods and services of others; business administration, namely, operation and supervision of an incentive scheme through the issuance and processing of loyalty points for on-line purchase of a company's goods and services for the purpose of reducing levels of carbon dioxide or other greenhouse gases; compilation of business and financial data as to energy usage namely, compilation of information into databases; market research and market research studies in the field of energy and environmental protection; business consultation services in the field of electricity cost management and business analysis of electricity, gas and energy prices and markets; provision of business information in the field of cost management and electricity, gas, and energy prices and markets; invoicing services in the field of energy; auditing energy consumption of buildings.

Class 36

(2) Financial consultancy in the energy sector; brokerage of financial investments in energy companies; brokerage in the field of energy; commodity brokerage of raw materials, namely, gas, coal, hydrocarbons, electricity and water; financial advice, and providing stock exchange quotations and stock exchange information in the field of energy; stock exchange quotations in the field of energy; financial analysis of raw materials market prices fluctuations and trends measuring services; actuary agent services; debt recovery services in the field of energy; financial services, namely, raising equity capital for others and investment of capital in the field of energy; charitable fund raising services in the field of renewable energy and sustainable development; financial services relating to the use of energy efficient gas and electric services and appliances, namely, financial consultation and financial analysis; providing grants to energy and utility providers and consumer users for the use of energy efficient gas and electric services and appliances; brokerage of carbon offsets; brokerage of carbon credits.

Class 42

(3) Advisory, information and consultancy services relating to energy use, energy conservation and energy efficiency; scientific, technical, and technological monitoring of energy use, energy conservation and energy efficiency, not for business purposes; energy auditing; programming of energy management software; development of energy and power management systems; research in the field of energy; technical advice and consultancy in connection with energy efficiency measures; technical advice and consultancy in connection with energy conservation measures;

preparation of scientific, technical, and technological reports on energy consumption of buildings; auditing of energy conservation and of efficiency of operation of appliances and safety checking of appliances and pipework; testing of gas and electricity generating plants, gas and electric appliances, pipework, transmission lines and apparatus and instruments utilising gas and electricity; prospecting and exploitation analysis and research of natural, fossil and nuclear fuel resources; provision of scientific information, advice and consultancy in relation to carbon offsetting; development and technological implementation of processes which are intended to reduce levels of greenhouse gases in the atmosphere; research and consultancy, all relating to the aforesaid services; geological surveys; industrial design services; preparation of technical, technological, and scientific reports; engineering services, namely, electrical engineering, mechanical engineering, structural engineering, geotechnical engineering, environmental engineering, water management engineering, engineering in the field of solar energy projects; scientific studies in research on environmental conservation, natural resources and sustainable development; research in the field of energy, research on energy and renewable energy; industrial research in the field of the provision, supply and generation of energy, energy use and consumption; scientific and feasibility studies and consulting on the environment, ecology and sustainable development; research on energy and renewable energy; scientific consultation services, namely, expert evaluation in the fields of the environment, energy, including new energies, natural resources and sustainable development; technical study and technological and scientific advice concerning the distribution of energy consumption; technical evaluation and estimate services concerning energy consumption; technological and scientific research and monitoring services for collecting information from remote energy consumption calculators; technological information, technological advice, and technological consultancy in relation to technology transfer services, and in particular to the transfer of technical and/or professional know-how in the field of the provision, supply and generation of energy, energy use and consumption, relating to all the foregoing.

Trademark Description

The mark consists of a red stylised "S", crossed by a white straight line, under which there are the wordings "ESSE CAFFÈ", "ESPRESSO IN ITALY" both in grey.

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, grey and red are claimed. The main component of the mark, which is a stylised "S" is red (PANTONE* 186 C) and it is crossed by a white (PANTONE* 000 C) straight line. The wordings "ESSE CAFFÈ" and "ESPRESSO IN ITALY" are grey (PANTONE* 432 C). *PANTONE is a registered trademark.

Disclaimer

The right to the exclusive use of the words "CAFFÈ", "ESPRESSO", "ITALY" is disclaimed apart from the trademark.

Goods

Class 11

(1) Coffee roasters; electric coffee urns; electric coffee filters; electric coffee percolators; espresso coffee machines; electric water heaters for preparing beverages; beverage dispensing machines; electric beverage warmers; electric portable beverage coolers; electric beverage urns; temperature-controlled beverage dispensers, and components thereof.

Class 30

(2) Coffee; artificial coffee; coffee flavourings; coffee-based beverages; coffee based drinks; coffee-based beverage containing milk; coffee-based aerated beverages; ice beverages with a coffee base; snack food seasonings; cakes flavourings; chocolate coffee; malt coffee; flavoured coffee; decaffeinated coffee; coffee beverages with milk; iced coffee; coffee in whole-bean form; ground coffee; coffee in brewed form; freeze-dried coffee; prepared coffee and coffee-based beverages; instant coffee; coffee [roasted, powdered, granulated, or in drinks]; ground coffee beans; roasted coffee beans; coffee concentrates; coffee essences; coffee extracts; malt coffee extracts; extracts of coffee for use as flavours in beverages; extracts of coffee for use as flavours in foodstuffs; coffee extracts for use as substitutes for coffee; coffee capsules, filled; sugar; brown sugar; chocolate-based beverages; drinking chocolate; chocolate beverages with milk; tea-based beverages; tea; instant tea; theine-free tea; tea infusions; herbal infusions; chamomile; barley for use as a coffee substitute; ginseng for use as a coffee substitute

Services

Class 35

(1) Business administration; business management; assistance in franchised commercial business management, namely, assistance for opening and/or management of restaurants, bar-restaurants, coffee bar and snack bar; wholesale and retail services of products in the field of coffee, tea, cocoa, ready and canned foods; retailing services of take-away foodstuffs and beverages; business management advisory services relating to franchising of coffee bar, bar-restaurants, snack bar and other business establishments and commercial suppliers of foodstuffs and beverage for their consumption; business advice and consultancy relating to franchising of vending machines, retailing services and on-line retailing services of electric and non-electric coffee makers, coffee pots, coffee, coffee extracts and coffee preparations for use in making beverages, tea, cocoa, artificial coffee; advertising the goods and services of others; sponsorship search for entertainment, sporting and cultural activities; management of coffee bars, bar-restaurants, snack bars and other business establishments and commercial suppliers of foodstuffs and beverages for their consumption

Class 43

(2) Restaurant services; cafeterias; snack-bar services; bar services; food and drink catering; provision of coffee for offices; catering services; consulting services in the field of meal preparation

footstools, tabourets and occasional tables of natural and synthetic materials; cushion covers of natural and synthetic fibers, paper, wood, leather.

Class 25

(3) Clothing, namely, jerseys, shirts, t-shirts, tank tops, blouses, polo shirts, sweaters, cardigan sweaters, pullovers, hoodies, sweatshirts, pants, jeans, shorts, dresses, skirts, suits, blazers, jackets, coats, overcoats, casual clothing, footwear, namely, shoes, boots, sandals and slippers, headgear, namely hats and caps; clothing for children; outerwear jackets; formal wear; casual wear; leisurewear; sportswear; waterproof jackets and pants; rainwear; suits, waistcoats, coats, overcoats, parkas, jackets, vests, windbreakers, tops for wear, blouses, shirts, t-shirts, polo shirts, sweatshirts, sport shirts, golf shirts, rugby shirts, tunics, camisoles, jogging suits, snow suits, knit bottoms, knit dresses, knit jackets, knit shirts, knit skirts, knit sweaters, knit tops, knit shorts, jerseys (clothing), sweaters, pullovers, cardigans, trousers, jeans, pants, slacks, sweat pants, shorts, dresses, skirts, culottes, socks, leggings, stockings, tights; sleepwear, pyjamas, nightshirts, nightgowns, dressing gowns; bathrobes; swim wear, bathing suits, bathing trunks, bathing drawers, beach clothes; hosiery; women's lingerie, brassieres, panties, slips; underwear; suits; school uniforms and sports uniforms; smocks; scarves, pelerines, shawls; hats, caps, toques, sun visors; ear-muffs; neckties; gloves (clothing); belts (clothing); sweat bands, headbands (clothing), wristbands in the nature of wristlets and wrist cuffs; trouser straps; footwear for ordinary use and for use in sport, boots, sneakers, loafers, shoes, leisure shoes, sandals, slippers; shoes and footwear for golf.

Services

Class 35

Advertising the goods and services of others; business management; business administration; office functions in the field of marketing; retail services, wholesaling services and on-line retailing in respect of clothing, footwear, headgear, bags, handbags, travelling bags, luggage, perfumes, cosmetics, toiletries, personal hygiene products, personal care and beauty products, sanitary preparations, dentifrices, substances for laundry use, cleaning, polishing and abrasive preparations; retail services, wholesaling services and on-line retailing in respect of eyewear, optical goods, household electrical appliances, audio-visual apparatus and accessories, audio and visual recordings on all data carriers, communications equipment, computers, computer products and accessories; retail services, wholesaling services and on-line retailing in respect of jewellery, horological and chronometric instruments, precious stones, stationery, writing instruments, paper, printed matter, gift wrapping materials and ribbons, bags, trunks and travelling bags, umbrellas, textiles and textile goods, fabrics for household furniture, household linen, bedding; retail services, wholesaling services and on-line retailing in respect of clothing and fashion accessories, footwear, headgear; marketing services, namely marketing services in the field of website traffic optimization, marketing services in the nature of promotion of third party goods and services by brand ambassadors, direct marketing services of the goods and services of others; advertising agency services; dissemination of advertising matter for others; direct mail advertising of the goods and services of others; demonstration of goods, namely product demonstrations of clothing, headwear, footwear, bags; distribution of samples for others for publicity purposes; shop window dressing; organising product displays, namely retail shop window display arrangement services; promotions and exhibitions for advertising purposes, namely fashion show exhibitions for advertising purposes; photocopying; providing business information in the fields of marketing and business via a website; business research services and conducting marketing studies; provision of business statistical information, namely, marketing survey services for others; arranging of publication of publicity texts; arranging of newspaper subscription for others; business appraisal,

business management assistance; business management and organisation consulting; import-export agency services; industrial management assistance; personnel management consulting; public relations; production of advertising matter for others, creating and updating advertising material for others; rental of advertising space; telephone answering services and message handling services; business consultancy services relating to franchising; auctioneering; cost price analysis; compilation and rental of mailing lists; business research investigation.

Goods

Class 09

Apparatus and instruments for the conduction, distribution, conversion, storage, regulation and management of electricity, namely, autotransformers, battery monitors, solar panels for production of electricity, automatic transfer switches, electric control panels, distribution boxes for electrical power, electric cables, electric relays; apparatus and instruments for accumulating and storing electricity, namely, accumulators being electrical storage batteries; apparatus and instruments for controlling electricity, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; photovoltaic installations for generating solar electricity; electric cables and wires; electrical adapter cords, splitter cords, electrical power inlets and wireboxes; measuring, detecting, monitoring and controlling devices, namely, current meters, electricity meters, voltage detectors, electrical charging station meters for electrical monitoring, energy meters for tracking and monitoring energy usage; electricity measuring instruments, namely, electricity meters; controllers and regulators, namely, electrical charge controllers and voltage regulators; sensors, detectors and monitoring instruments, namely, electricity sensors, detector and monitors; solar charge controllers; USB dongles being wireless network adapters; autotransformers; galvanic isolators; solar home systems for electricity generation; inverters for power supply; photovoltaic inverters; electrical inverters; dc/ac inverters; ac/dc inverters; inverters for power supply; inverters used in solar power generation; isolation transformers; chargers for general purpose batteries; current collectors; current transformers; current meters; current limiters; current converters; current shunts; current breakers; current rectifiers; current testers; fault current breakers; alternating current adaptors; electric current adaptors; current overload protectors; direct current converters; dc-dc converters; electric current sensors; ac current sensors; energy meters, namely, electric current meters; electric current transformers; high voltage transformers; voltage stabilizers; voltage regulators; voltage dividers; voltage meters; voltage limiters; voltage detectors; voltage testers; high voltage transformers; voltage monitor modules; induction voltage regulators; voltage surge suppressors; static voltage regulators; maximum power point trackers; electric current switches; electric current rectifiers; fuses for electric current; electric current control devices; instruments for distributing electric

current, namely, electrical distribution boxes and power distribution panels; voltage converters; voltage multipliers; voltage-to-current converters; voltage stabilizing power supply; voltage regulators for vehicles; high voltage power supplies; low voltage power supplies; distribution amplifiers; distribution transformers; electrical power distribution boards; electricity distribution boards; electricity distribution consoles; electric power distribution units; panels for the distribution of electricity; power line conditioners; power modules for photovoltaic power generation; power connectors; power adapters, namely, ac adapters; electrical power distribution systems; power amplifiers; power controllers, namely, solar charge controllers; power capacitors; power switches; electrical power analyzers; power testers, namely, current testers and voltage testers; power stabilisers, namely, voltage stabilizers; power system meters; power cables; power banks; power wires; electric power distribution units; power units, namely, electrical transformers; automotive battery power packs; electrical power plug adaptors; power units, namely, electric batteries for powering electric vehicles; power line protectors, namely, surge protectors and voltage surge protectors; power line conditioners; static power convertors; battery power packs for electrical transformers; electric power analyzers; power distributing boxes; electronic power controllers for solar panels; outdoor power relays; electronic power transformers; underwater power cables; power regulating apparatus, namely, voltage regulators for electric power; low power microcontrollers; electric power converters; electrical power distributors; electrical distributing busbars; high current distributors; switching power supply apparatus, namely, power switches; electrical power distribution blocks; electric power supply sockets; electrical power outlet boxes; electric mains power units, namely, AC power supply units; power-line transmission apparatus, namely, insulating sleeves for electric power lines; electrical power extension cords; power transformers for amplification; ac/dc power supplies; dc input power supplies; high-voltage power supplies; low voltage power supplies; accumulators for photovoltaic power; solar-powered battery chargers; solar powered rechargeable batteries; distribution boxes for electrical power; voltage regulators for electric power; high-frequency switching power supplies; uninterruptible power supply apparatus [battery]; modules for photovoltaic power generation; apparatus for improving power efficiency, namely, low voltage converter, low and medium voltage circuit breakers; crystalline silicon solar power cells; portable power supplies, namely, rechargeable batteries for electric vehicles; apparatus for diagnosing electrical power installations, namely, multimeters, voltage detectors, voltage testers, circuit testers, hipot testers, current testers, electrical power testers; electric batteries for powering electric vehicles; measurement apparatus, namely, meters for measuring electrical resistance, meters for measuring electric current and meters for measuring electrical voltage; data loggers and recorders; computer networking and data communications equipment, namely, computer network hubs, switches and routers, computer network server; controller area network (CAN) bus, namely, a communication system comprised of network interface hardware and microcontrollers; computer networks comprised of network servers and routers; electrical and mechanical data processing equipment and accessories, namely, computers, network servers, computer routers; sensors, namely, acceleration sensors, camera sensors, distance sensors, motion sensors, temperature sensors and pressure sensors; temperature sensor controllers; electronic sensors for measuring electricity; infrared sensors; voltage detectors; electric monitoring apparatus, namely, voltage monitoring units; electric voltage monitoring units; voltage monitoring units; electronic measurement sensors; electric monitoring control apparatus, namely, bidirectional meters for electricity monitoring and direct electrical current monitoring modules; electric control panels for the control of electricity; electric control panels for energy management; electronic apparatus for the remote control of signals; computer software for controlling and managing electricity; apparatus and instruments for controlling the use of electricity, namely, electricity limiter; wireless controllers to remotely monitor and control the function and status of electrical, electronic, and mechanical devices and systems, namely, voltage

regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; remote controls for controlling voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; programmable controls, namely, programmable control panels for solar panels; microprocessor controls; electrical controls for solar panels; remote controllers for solar panels; multiport electrical charge controllers; power inverter controllers; programmable logic controllers; electrical charge controllers; energy control devices, namely, energy meters for tracking and monitoring energy usage; electronic control systems consisting of control panels, meters, sensors, timers, relays, transformers, transmitters, transducers, data loggers, controllers, signal conditioners and data recorders for use in the management of electricity; dual terminal studs and terminal studs (electric connectors); automatic control apparatus, namely, automatic time switches; electric control panels; electric control apparatus, namely, electric control panels and electric current control devices; process controlling software, namely, downloadable computer software for process control; electric power controllers, namely, electrical charge controllers; software for operating and managing integrated circuit components; auxiliary battery packs for automobiles; automatic transfer switches; dc distribution systems, namely, power distribution panels; battery adapters for electric vehicles; battery booster cables; battery boxes; battery cables; battery cases; battery chargers, namely, automotive battery chargers, battery chargers for mobile phones, battery chargers for smartphones and battery chargers for laptop computers; battery charging devices for motor vehicles; battery charging equipment, namely, battery jump starters and battery clamps; battery compensation chargers, namely, automotive battery chargers; battery jars; battery jump starters; battery leads, namely, jump leads for batteries; battery packs for automobiles; automotive battery preheaters; battery separators; battery starters; battery terminals; battery management systems; battery terminal protectors; battery isolators; battery connectors; battery switches; software for use with voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters for the conduction, distribution, conversion, storage, regulation and management of electricity; software for monitoring, analysing, controlling and running physical world operations, namely, for monitoring, analysing, controlling and running machines in the power generation industry; electrical engineering software for computer aided design (CAD), electrical engineering software for the monitoring and operation of electrical power grids; networking software, namely, computer software for administration of computer networks; computer network hardware; computer bus network, namely, LAN (local operating network) hardware; network management apparatus, namely, computers for network management; network management computer software; network communication apparatus, namely, computer network hubs, switches and routers; software for remote diagnostics of computers, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; diagnostic apparatus, not for medical purposes, computer utility programs for providing diagnostic details on devices installed in a computer system; testing apparatus for diagnostic purposes [other than medical], namely, battery testers, circuit testers, current testers and voltage testers; cellular modem; cellular network modem; gps receivers; automatic solar tracking sensors; electronic sensors for measuring solar radiation; solar energy collectors for electricity generation; photovoltaic apparatus and installations for generating solar electricity, namely, solar cells and panels for electricity generation; photovoltaic apparatus for converting solar radiation to electrical energy, namely, solar panels; battery monitors; computer monitor screens; tablet monitors; touchscreen monitors; monitoring instruments, namely, voltage monitoring units; monitoring apparatus and instruments, namely, computer hardware for monitoring the conduction, distribution, conversion, storage, regulation and management of electricity; temperature monitors for industrial purposes; temperature monitors for household purposes; non intrusive load monitoring [nilm] apparatus, namely, electricity load monitors; apparatus for monitoring electrical energy

consumption, namely, electricity meters; monitoring apparatus, other than for medical purposes, namely, bidirectional meters for electricity monitoring; software for electricity meters for measuring, monitoring and analyzing electricity consumption; power relays; midi fuses, namely, bolt-down electrical fuses for heavy currents; mega fuses, namely, bolt-down electrical fuses for heavy currents; field effect transistors (fet); buck-boost converters, namely, DC to DC converters; solar cells; photovoltaic solar modules; load break isolators, namely, electrical disconnect switches; electric transformers; electric voltage transformers; uninterruptible electronic power supplies; electric power dividers, namely, voltage dividers; regulated power supply apparatus, namely, voltage regulators for electric power; battery balancers, namely, voltage regulators; battery combiners for connecting multiple power banks for the purpose of sharing a charging voltage between the power banks; software for monitoring and controlling the operation of battery monitors; software for monitoring power inverters; software for monitoring electric power inverters.

Colour Claim

Colour is claimed as a feature of the trademark. Red is the main color of the logo; used in the head of the rooster, its tail, as well as in the lettering of the company name namely, with the "P" and the "i" shaped like a pepper using this color.; yellow serves as an accent color in the rooster design and as a frame for the text "rotisserie & grill"; green is used for the rooster's tail and to color the Piri in the letters "r" and "i". Black is for the text "rotisserie & grill" as well as to add detail to the peppers that serve as "i"s.

Goods

Class 29

(1) beef; chicken; pork ribs; prepared salads; tofu; vegetable salads

Class 30

(2) barbecue sauce; brown sauce; chili sauce; hot sauce; hot sauces; salad dressings; sauces for barbecued meat; sauces for meat; spice mixes; spice rubs; steak sauce

Services

Class 35

(1) administration of the business affairs of franchises; advice in the running of establishments as franchises; business advice relating to franchising; business management advisory services relating to franchising; consulting, supervising and assisting in the establishment and operation of restaurants including take-out and catering services; offering technical assistance in the establishment and operation of restaurant franchises; on-line ordering services in the field of restaurant take-out and delivery; online ordering services in the field of restaurant take-out and delivery; providing marketing assistance relating to the operation of franchises; providing on-line consumer information concerning the location of mobile restaurants; providing technical assistance in the establishment and operation of restaurant franchises; restaurant franchising

Class 43

(2) bar and restaurant services; cafe and restaurant services; cafe-restaurants; carry-out restaurants; catering; dining and restaurant services; eat-in and take-out restaurant services; fast food restaurant services; fast food restaurants; online ordering services for the ordering and home delivery of restaurant meals; providing information about restaurant services; providing restaurant services; restaurant and catering services; restaurant reservation services; restaurant services featuring home delivery; restaurant services featuring take-out services; restaurant services for the provision of fast food; restaurant services, fast food restaurant services, carry out restaurant services, catering services; restaurant services, including eat-in, take-out, delivery and catering services; restaurant services, take-out restaurant services; restaurant services, take-out services and catering services; restaurant, bar and cafe services; restaurant, bar and catering services; restaurant, bar and cocktail lounge services; restaurant, bar and lounge services; restaurants; restaurants and restaurant services; restaurants featuring home delivery; self service restaurants; self-service restaurant services; services for restaurants featuring pick-up counter, ordering and home delivery services; sit-down restaurant services; snack-bars; take out restaurant services; take-away restaurant services; take-out restaurant services

TRADEMARK DETAILS

Trademark Type

Design

Visual Representation

Trademark Description

The mark consists of a lower case letter "a" with a cutout in the upper right hand corner.

Goods

Class 01

(1) Chemicals, namely, buffer and standard solutions used in analytical chemistry; cell culture reagents for scientific or research purposes; preservatives in sample containers for use in the environmental testing field, namely, control samples for quality control testing of water.

Class 09

(2) Scientific and electrical apparatuses and weighing, measuring, monitoring and process control instruments all in the nature of laboratory equipment, namely, bottles, dishes, vials, tubes, measuring glassware, flask for laboratory use, beakers, cylinders, tubing, connectors, clamp meters for measuring electrical current, fluid leak detectors, fluid leak sensors, funnels, gloves for laboratory use, filters, pressure gauges, sensors for measuring liquid levels, sensors for measuring gas levels, sensors for measuring pressure, flow controllers, level switches, level indicators,

sampling containers, rubber septums, dessicators, homogenizers, cuvettes for laboratory use, calibration devices for thermometers, calibration devices for laboratory evaporators, calibration devices for rotators, calibration devices for scales and balances, digital ph meters and temperature indicators, electrochemical oxygen monitors and sensors for laboratory use, sensors for measuring ph, sensors for measuring dissolved oxygen content in laboratory samples, sensors for measuring conductivity, spectrophotometers for use in identifying and measuring colors, fluorimeters, dissolved oxygen meters for laboratory use, chromatography apparatus for laboratory use, portable and bench dissolved oxygen meters for laboratory use, conductivity meters, portable and bench conductivity meters, conductivity cells in the nature of electrical conductivity sensors, photometers for laboratory use, flame photometers, ph meters, portable and bench ph meters, ph meter components in the nature of ph electrodes, combined ph and conductivity meters, colorimeters, humidity meters, flowmeters for measuring gas, air, and water for industrial or laboratory use, digital and thermocouple thermometers, thermocouple probes, thermistor probes, resistance temperature device (rtd) probes, thermocouple meters, infrared temperature measuring devices, luxometers, instruments for testing gas, liquids, and solids, instruments for measuring properties of light, instruments for measuring pressure, pressure meters, carbon dioxide meters, manometers, barometers, tachometers, instruments for measuring rotational speed of objects in the fields of science, calibration, research, quality control, industry, manufacturing and maintenance of equipment, meters for measuring sound level, weather stations comprised of thermometers and barometers, instruments and equipment for measuring weather conditions, including temperature, barometric pressure, humidity, wind speed, wind direction and precipitation, udometers, pluviometers, ombrometers, instruments for measuring magnitude of precipitation, stroboscopes, accelerometers, instruments for measuring vibration, timers, countdown timers, micrometers, instruments for measuring small distances or dimensions, protractors, durometers, instruments for measuring hardness in polymers, elastomers and rubbers, electronic torque wrenches, electronic tools for applying torque to fasteners, tools for measuring the amount of torque applied to fasteners, gauges for measuring thickness of coatings, thickness gauges, gauges for measuring torque or force, torque gauges, hydrometers, refractometers, thermal imaging and displace devices, temperature transmitters and panel meters, temperature data logger and recorders, thermostats and other temperature switches, instruments for measuring total dissolved solids, pipettes and tips therefor, pipettors, pipets for laboratory use, electric motor driven stirrers and mixers primarily for laboratory use, count-down timers, ultrasonic cleaners in the nature of sterilizers for laboratory use, water baths, thermal immersion circulators, calibration baths, fluidized bath heater, cell culture stirrers, stirrers, ovens, incubators, heating blocks, furnaces, dry block heaters, nucleic acid sequencing instruments, dna analysis instruments, vortex mixers, mixers incubators, flask shakers, rollers, roller mixers, rockers, platform rockers and rockers providing a gyratory motion, orbital shaker incubators, temperature controlled shaking water baths, orbital shakers and reciprocating shakers and platforms therefor, equipment for measuring the melting points of products and heating blocks therefor, handheld tally counters, colony counters and digital counters for measuring bacteria and mold colonies, electrical heating equipment and apparatus for laboratory and scientific use in the nature of heating mantles, heating tapes, armored heater, water, air, and histological baths, apparatus for soxhlet and kjeldahl tests, solid phase extraction (spe) cartridges for laboratory use, testing sample collection equipment, namely, wipes and swabs for use in diagnostic testing, air monitoring, sampling, and testing devices, namely, indoor and outdoor air quality sampling cassettes, digestion vessels for determining metal content in samples for environmental testing purposes, test tubes, test tube heaters, heating panels and pads, cellulose extraction thimbles, specimen cups not for medical purposes, electronic controllers for laboratory apparatus, pyrometers and energy regulators for control of such apparatus and equipment; downloadable computer software for mobile phones and

mobile computing devices, namely, software for controlling, measuring, monitoring, and evaluating laboratory measuring instruments and laboratory equipment from a remote location, namely, weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing; downloadable mobile application software for mobile phones and mobile computing devices, namely, software for accessing, storing, retrieving, and measuring data from weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing; downloadable cloud-based software for controlling, measuring, monitoring, and evaluating laboratory measuring instruments and laboratory equipment, namely, weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing; downloadable cloud-based software for accessing, storing, and retrieving measurement data from weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing.

Class 11

(3) Refrigerators, freezers, ventilation hoods.

Services

Class 42

Calibration services in the field of scientific equipment and instrumentation used for research, namely, laboratory measuring instruments and laboratory equipment, namely, weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing; providing temporary use of non-downloadable software that allows users to control, measure, monitor, and evaluate laboratory measuring instruments and laboratory equipment from a remote location, namely, weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing via a website; providing temporary use of non-downloadable software that allows users to access, store, and retrieve measurement data from weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing via a website; providing temporary use of non-downloadable software that allows users to control, measure, monitor, and evaluate laboratory measuring instruments and laboratory equipment, namely, weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing; providing temporary use of non-downloadable software that allows users to access, store, and retrieve measurement data from weighing, measuring, monitoring and process control instruments for use in fluid management, calibration, analysis, laboratory research, engineering development and manufacturing.

Class 01

(1) Agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for genetic research use ; diagnostic reagents and preparations for medical research and scientific research; kits containing reagents and a protocol for use thereof for genetic research and scientific purposes; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for genetic scientific and research use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, agriculture, forensics, food safety, genetic testing, and genetics; kits comprising nucleotides, reagents, enzymes, agents, assays, buffers, chemical preparations, or biological preparations for genetic scientific and research use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics.

Class 05

(2) Agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical genetic testing; diagnostic reagents and preparations for medical use; kits containing reagents and a protocol for use thereof for medical genetic testing purposes; kits comprising nucleotides, reagents, enzymes, agents, assays, buffers, chemical preparations, or biological preparations for medical genetic testing and medical diagnostic purposes; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical genetic testing purposes in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics.

Class 09

(3) Apparatus and instruments for medical research and scientific research in laboratories, namely, genetic sequencers; laboratory devices for detecting genetic sequences; diagnostic biomolecule and genetic sequence apparatus for the detection of pathogens for laboratory or scientific research use; medical research and scientific research apparatus and instruments for use in genetic analysis, namely computer hardware and software for scientific analysis of genetic sequences; apparatus for DNA and RNA testing for research purposes, namely diagnostic biomolecule and genetic sequence detection; scientific apparatus and instruments for measuring relative DNA, RNA and protein and parts and fittings therefor, namely diagnostic biomolecule and DNA and RNA sequence detection and measurement devices and parts and fittings therefor; medical laboratory research instruments for the analysis and detection of DNA and RNA in a biological sample for research analysis; computer hardware; computer hardware for use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; data processing apparatus; scientific and research apparatus and instruments for scientific analysis of genetic sequences, namely, nucleic acid sequencers, arrays, scanners, electronic imaging devices and analyzers, testing sample collection equipment, sample quality control instruments, sequencing reagent cartridges and trays, and test sample preparation equipment, for laboratory use including in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; computer hardware and software for scientific analysis of genetic sequences, namely next-generation sequencing (NGS) bioinformatics data processor; downloadable computer software for scientific analysis of genetic sequences; embedded software sold as a component of genetic sequencing devices for scientific analysis of genetic sequences; downloadable computer software for storing, organizing, and creating a searchable library of genetic data for use in sequence detection, and disease detection and diagnosis; downloadable computer software for database management and for storage of electronic bioinformatics data; downloadable computer software for creating searchable databases of information and data ; downloadable computer software for use in connection with databases in the field of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; downloadable computer software for use in connection with medical and scientific research services in the field of genotyping, diagnostics, molecular pathology, molecular diagnostics, laboratory medicine, and oncology; downloadable computer software for use in connection with DNA sequencing, screening, and analysis services for medical and scientific research purposes; downloadable computer software for use in connection with nucleic acid sequencing, screening, and analysis services for medical and scientific research purposes; downloadable computer software for use in connection with genomic sequencing, screening, and analysis services for medical research purposes; downloadable computer software for use in connection with genetic analysis and reporting services for medical and scientific research purposes; downloadable computer software for use in connection with next-generation sequencing (NGS) bioinformatics data processor in the fields of nucleic acid sequencing, genotyping, genetic testing, and genetics; downloadable computer software for compressing and decompressing genomic data files; downloadable computer software, namely, software to receive and store DNA, RNA and genetic records, and to authorize medical and research personnel to use records

Class 10

(4) Clinical or medical diagnostic apparatus and instruments, namely, nucleic acid sequencers and analyzers; medical diagnostic apparatus and instruments for the amplification and analysis of nucleic acids and the preparation of nucleic acid libraries sold; medical equipment, namely, devices for analyzing nucleic acids and for DNA sequencing for the purpose of rendering medical treatment and diagnosis; apparatus for DNA and RNA testing for medical purposes, namely diagnostic biomolecule and dna sequence readers of biomolecule and dna sequence testing results for clinical medical use; medical diagnostic instruments for the analysis of body fluids, namely body fluids analyzer for medical purpose; proteomic sample preparation device for medical diagnostic uses; medical diagnostic apparatus for testing DNA and RNA samples, namely diagnostic biomolecule and dna sequence detection devices for clinical medical purposes.

Services

Class 42

Medical and scientific research in the field of genome sequence analysis and reporting; DNA screening for medical and scientific research purposes; design and development of laboratory apparatus, instruments and computer systems for use in testing DNA and RNA samples; product development, namely, developing equipment for use in preparing, detecting, analyzing, and sequencing nucleic acids and other biological molecules; clinical laboratory services in preparing, amplifying, labeling, detecting, analyzing, and sequencing nucleic acids and other biological molecules from human beings or animals for scientific and medical research purposes; design and development of medical diagnostic apparatus and instruments for use in genetic sequencing; scientific consulting and research services and clinical laboratory testing services in the fields of amplification, detection, sequencing, and analysis of nucleic acids and the preparation of nucleic acid libraries; nucleic acid sequencing services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for scientific analysis of genetic sequences; providing temporary use of non-downloadable computer software for storing, organizing, and creating a searchable library of genetic data for use in sequence detection, and disease detection and diagnosis; providing temporary use of non-downloadable computer software for database management and for storage of electronic bioinformatics data; providing temporary use of non-downloadable computer software for creating searchable databases of information and data ; providing temporary use of non-downloadable computer software for use in connection with databases in the field of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; providing temporary use of non-downloadable computer software for use in connection with medical research services in the field of genotyping, diagnostics, molecular pathology, molecular diagnostics, laboratory medicine, and oncology; providing temporary use of non-downloadable computer software for use in connection with DNA sequencing, screening, and analysis services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with nucleic acid sequencing, screening, and analysis services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with genomic sequencing, screening, and analysis services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with genetic analysis and reporting services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with next-generation sequencing (NGS) bioinformatics data processor in the fields of nucleic acid sequencing, genotyping, genetic testing, and genetics; providing temporary use of non-downloadable computer software for compressing and decompressing genomic data files; providing temporary use of non-downloadable computer

software, namely, software to receive and store DNA, RNA and genetic records, and to authorize medical and research personnel to use records.
