Trademarks Journal

2021-05-05 — Vol. 68 No. 3471

Trademarks Journal

Vol. 68 No. 3471

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

TRADEMARK DETAILS**Trademark Type**

Design

Visual Representation**Colour Claim**

Colour is claimed as a feature of the trademark. The colors black, yellow and white are claimed as a feature of the mark. The mark consists of a representation of a firefly appearing on a black background; however, no color claim is made to the background. The portion of the firefly body that is not covered by the two wings is yellow in color towards the bottom of the body, and the color lightens and brightens towards the top of the body. The portion of the firefly body visible above the wings, together with the antennae, are white. The wings of the firefly are black in color; however, that portion of the wings that overlaps with the body of the firefly appears somewhat translucent, making the yellow body of the firefly visible through the semitransparent black wings.

Goods**Class 09**

Computer software for mobile delivery of images, photographs, graphics, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows,

video games, digital videos and text messages; computer hardware; portable and handheld electronic computer hardware for electronically transmitting, storing, manipulating, recording, displaying, and reviewing text messages, images, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos, graphics and photographs via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet, and electronic and mechanical structural parts and fittings therefor; computers, tablet computers, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices, and electronic and mechanical structural parts and fittings therefor; application development computer software programs for social networking, customer relationship management (CRM), electronic mail and messaging, e-commerce transactions, character recognition, telephone call management, development of computer software applications, playing electronic games, book and desktop publishing, and enabling content, namely text messages, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, literary works, graphics, files, documents and electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues, to be downloaded to and accessed on a computer, smart phone and e-reader; application development computer software programs for personal information management, namely, software to enable users to manage their personal file collections, notes, address books, task lists, calendars, reminders, e-mail and instant message archives, and voicemail messages; application development computer software programs for data management in the fields of social networking, customer relationship management (CRM), personal information, electronic mail and messaging, e-commerce transaction, character recognition, telephony, software application development, electronic games, and publishing; computer software development kit consisting of computer software code that can be used for third party development of and the programming and synchronization of audio, visual, and audio-visual recordings for personal and handheld computers and mobile digital electronic devices, namely smart phones, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices, provided via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet; software for developing and publishing software applications for interactive use with personal and handheld computers, smart phone, e-reader and mobile digital electronic devices, namely audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; computer software and hardware for social networking via the Internet; computer software and hardware for customer relationship management (CRM); computer software and hardware for personal information management namely, computer software and hardware to enable users to manage their personal file collections, notes, address books, task lists, calendars, reminders, e-mail and instant message archives, and voicemail messages; computer software and hardware for data management in the fields of social networking, customer relationship management (CRM), personal information, electronic mail and messaging, e-commerce transactions, character recognition, telephony, software application development, electronic games, and publishing; computer software and hardware for electronic mail and messaging; computer software and hardware enabling e-commerce transactions between parties; computer software and hardware for character recognition; computer software and hardware for telephone call management; computer software enabling content, namely text messages, photographs, images, graphics, music, audio books, natural soundscapes, recordings

of live events, spoken word recitations, movies, television shows, video games, videos, literary works, files, documents and electronic works to be downloaded to and accessed on a computer and other portable consumer electronic device namely tablet computers, electronic book readers, digital format audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; image scanning software, namely software that enables users to scan images of items and products, and uses visual recognition to provide information about the visually recognizable item or product; wearable computer peripherals, namely microphones, earphones, headphones, headsets and smart watches, for activity tracking, electronic games, and management and communication; user interface device software, namely computer user interface software, computer tablet user interface software, handheld mobile device user interface software, graphical user interface software and UPI (universal peripheral interface) software for use in connection with computers, tablets, and handheld mobile devices, and computer peripherals, all for performing audio and visual recognition of items and products by enabling users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and to obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer hardware for capturing and recording human activity information, namely heartrate, distance travelled, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer hardware for audio and visual recognition of items and products, which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer peripherals, namely cameras for capturing and recording human activity information, namely heartrate, distance travelled, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer peripherals, namely cameras for audio and visual recognition of items and products, which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer software for capturing and recording human activity information, namely heartrate, distance travelled, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer software for audio and visual recognition of items and products, namely software which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; virtual and holographic touchscreens for computers, tablet computers, smart phones, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; holographic projection system and apparatus comprising computer hardware, software and peripheral devices, namely display screens, all for displaying three dimensional images; computer hardware and software for enabling real-time user interaction with three dimensional images on holographic displays and screens, namely computer hardware and software that enables users to view and manipulate three dimensional images on holographic displays and screens for their own education and entertainment; portable and handheld electronic device accessories, namely, computer, retina display, touchscreen and voice display monitors, keyboards, computer mouse, cable connectors, plug-in connectors, electrical power connectors, computer and electronic docking stations, all specially adapted for use with cell phones, mobile computers, tablet computers, and electronic book readers; battery chargers for cell phones, mobile computers, tablet computers, and electronic

book readers; battery packs for cell phones, mobile computers, tablet computers, and electronic book readers; Secure Digital memory cards, compact flash memory cards and electronic memory card readers; cases, covers, and stands, all specially adapted for use with cell phones, mobile computers, tablet computers, and electronic book readers; headphones and earphones, speakers, microphones, and headsets; accessories namely, monitors, displays, keyboards, mouse, wires, cables, modems, disk drives, computer network adapters, computer network adapter cards, cable connectors, plug-in connectors, electrical power connectors, docking stations, charging stations, drives, battery chargers, battery packs, blank computer memory cards, blank Secure Digital memory cards, blank compact flash memory cards and memory card readers, cases, covers, and stands, all for computers and portable and handheld electronic devices, namely cell phones, mobile computers, tablet computers, and electronic book readers; computer hardware and peripherals, namely headsets for remotely accessing and transmitting data to facilitate integrated telephone communication with computerized global information networks; optical character recognition software; digital image recognition and matching software

Services

Class 35

(1) On-line retail department store services featuring a wide variety of consumer goods of others and electronic publications, music, movies, and periodicals; providing an on-line commercial information directory featuring a wide variety of consumer goods of others on the Internet; dissemination of advertising for others via the Internet; providing a searchable on-line advertising guide featuring the goods and services of others; computerized database management services; on-line ordering services featuring a wide variety of consumer goods of others, namely car audio electronics, home entertainment electronics, computer hardware, e-readers, tablets, phones, set-top boxes, cameras, electronic home automation systems, office supplies, CDs, DVDs, computer software, books, automotive supplies, industrial cleaning supplies, industrial abrasives, welding equipment, jewelry, clothing, shoes, games, toys, sporting goods, hand tools, power tools, garden supplies, household cleaning supplies, general purpose batteries, toilet paper, paper towels, laundry detergent, laundry baskets, food storage containers, baby goods, beauty supplies, over the counter medications, feminine care products, first aid products, heart rate monitors, bathroom scales, groceries, pet supplies, art, art and craft supplies, home furnishings, bed and bath linens, pillows, bathroom accessories, lighting fixtures, kitchen and bath fixtures, and electronic publications, music, movies, and periodicals

Class 38

(2) Communication services, namely, facilitating transmitting, receiving, streaming, and broadcasting, text messages, digital images, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, digital videos and computer graphics via global communications networks to users of e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices, namely digital format audio and video players, electronic personal organizers, personal digital assistants, tablets, computers, TVs, TV receivers, computer game machines, and of global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; streaming of audio, visual and audiovisual material, namely music, movies, television shows, music videos, news and sports webcasts via wired and wireless networks for others; online chat rooms and online communities for the transmission of messages among computer users featuring subject matter on a wide range of topics of general interest, as selected by users; providing access to online directories, databases, current events websites and blogs, and on-line reference materials featuring subject matter on a wide range of topics of general

interest, as selected by users; providing access to electronic devices in the nature of providing telecommunication connectivity services for the transfer of digital still images and moving pictures, text messages, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, digital videos and computer graphics, amongst users of e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices, namely digital format audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices, tablets, computers, TVs, TV receivers, and computer game machines, all via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet; providing online chat rooms, internet forums and online communities for the transmission of photos, digital videos, text messages, computer graphics, and digital still images; transmission of podcasts via the Internet in the field education and entertainment, namely, movies, television shows, video games, music, audio books, spoken word recitations, natural soundscapes, books, theatrical works, literary works, sporting events, recreational activities, arts and crafts, cooking, gardening, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; transmission of webcasts via the Internet in the field of education and entertainment, namely, movies, television shows, video games, music, audio books, spoken word recitations, natural soundscapes, books, theatrical works, literary works, sporting events, recreational activities, arts and crafts, cooking, gardening, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; Internet and wireless broadcasting services of audio and video programming on a variety of topics in the fields of education and entertainment, namely, movies, television shows, video games, music, audio books, spoken word recitations, natural soundscapes, books, theatrical works, literary works, sporting events, recreational activities, arts and crafts, cooking, gardening, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; providing access to social networking services in the field of consumer products, reviews and ratings via a global computer network

Class 41

(3) Entertainment services, namely, providing temporary use of non-downloadable video games, music, digital videos, TV, photographs, and movies to users of computers, televisions (TVs), TV receivers, computer game machines, and portable electronic devices via wired and wireless networks; education and entertainment services, namely, providing on-line portals and a website featuring online non-downloadable content in the field of education and entertainment, namely, movies, television shows, video games, music, audio books, spoken word recitations, natural soundscapes, books, theatrical works, literary works, sporting events, recreational activities, arts and crafts, cooking, gardening, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, fashion shows, and multimedia presentations; providing information, news and commentary in the field of current events topics of general interest

Class 42

(4) Cloud computing video hosting web sites; cloud computing web hosting services; Application service provider (ASP), namely, online hosting of computer software applications of others; online hosting of third party content, namely photos, videos, text, data, images, and web sites; online hosting of digital content on global computer networks, wireless networks, and electronic communications networks; providing temporary use of on-line non-downloadable software for mobile delivery of images, photographs, graphics, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, digital videos and text messages; providing temporary use of on-line non-downloadable software for image recognition, and for real-time user interaction with digital content on holographic displays and screens; Software as a Service (SaaS) namely software for use in connection with audio, video and digital content, namely software for social networking, customer relationship management (CRM), personal information management, personal data management, electronic mail and messaging, facilitating e-commerce transactions, character recognition, telephony management, development of computer software applications, playing electronic games, book and desktop publishing, and enabling content, namely text messages, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, literary works, graphics, files, documents and electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues to be downloaded to and accessed on a computer and other portable consumer electronic device, namely smart phones, tablet computers, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; hosting a website and portal that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share their own content, namely text, digital images, photographs, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, digital videos, literary works, computer graphics, documents and electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues; providing temporary use of on-line non-downloadable software featuring on-line network services that enable users to access, publish, and share text, digital images, photographs, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, digital videos, literary works, computer graphics, documents and electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues; computer services, namely, creating an on-line community featuring technology that enables users to communicate and interact with others, participate in discussions, and share their own content, namely photos, videos, text, computer graphics, digital still images, and other electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues, and to engage in social networking; creating an online community for users to participate in discussions, obtain feedback, and form virtual communities; maintenance and updating of software and hardware in the field of computer, Internet and password security; design and development of computer software; computer software installation and maintenance; computer software, application, and network consulting services; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; providing technical information in the field of computer software and hardware via a website; computer hardware, software, application, and network consulting services; computer consulting in the field of configuration management for portable and handheld electronic devices; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; and computer programming; electronic storage of electronic media, namely, images, text, video, and audio data; monitoring of data and computer

systems and networks for others for security purposes, namely to detect the occurrence of, and the possibility of, unauthorized access or data breaches

Class 45

(5) Introduction, personal relationship, and social networking services; on-line social networking services, namely, facilitating social introductions or interactions among individuals; on-line social networking services designed for people with a common desire to meet other people with similar interests; operation of on-line computer databases and on-line searchable databases in the field of social networking; providing an online social networking website for entertainment purposes via a website; operation of searchable databases in the field of social networking

Visual Representation

Goods

Class 06

(1) Decorative keys of metal, with and without lights, carabiners namely metal clips for holding keys; engraved ID tags of metal; metal luggage locks

Class 09

(2) Crystallized sunglasses; Lanyards for holding sunglasses; Measuring cups and spoons; MP3 players; Ear buds headphones; digital mobile media players, namely, mobile phones, MP3 players, CD players, DVD players, portable computers, digital video players, digital music players; blank compact disks; audio speakers, digital cameras; recording devices, namely blank audiotapes, cassettes, musical tapes, USB keys, videotapes and videocassettes; radios; learning games, namely electronic video games; Computer screens

Class 11

(3) Ceiling fan blade covers

Class 14

(4) Clocks; Key chains and key chain candy dispensers.

Class 16

(5) Storage, namely cardboard storage boxes; Book covers, notebooks, highlighters, note pads, pencil pouches, pens and rulers; stickers; Paper flags; Writing instruments, namely pens, pencils, marking pens, markers, highlighters, crayons, candy dispenser pens and pens with scented ink; Clips, namely letter and money clips; Tableware and décor, namely framed pictures, bookends; Calendars; Crafts, namely crafts and play sets used for drawing, coloring and painting

Class 18

(6) Bags, namely tote bags, lunch bags, fanny packs, duffle bags and backpacks; luggage; luggage straps and tags; Wallets; Backpack accessories, namely clip-on purses, name tags and key chains to affix to backpacks; pet costumes

Class 19

(7) Ornaments for lawns namely garden ornaments of stone, marble and concrete

Class 20

(8) Furniture and décor, namely children's wood bedroom furniture, indoor furniture and outdoor lawn and garden patio furniture and plush chairs, chalkboards and activity tables, folding tables and chair sets, namely vinyl, metal and plastic folding tables and chair sets, storage, namely plastic storage containers; Spray fan misters; Tableware and décor, namely photo frames, hampers; pillows; shower rings; Picture frames; Decorative table top coverings, namely glass, porcelain and paper table decorations depicting fanciful characters and action figures used in connection with festive occasions; Room décor, namely bedroom and locker accessories, namely mirrors, magnets and organizers for affixation to lockers and walls

Class 21

(9) Kitchen décor, namely cookie jars, salt and pepper shakers, spoon rests and bakeware; glassware, namely tea glasses, tumblers and mugs; oven mitts; spatula; cookie cutter; flipper, namely egg flipper; bowls; soap dispensers; soap dish; canister sets; and plates; Nutcrackers; Electronic and non-electronic savings banks; stained glass ornaments for windows

Class 24

(10) Cloth flags, cloth for making holiday costumes and festive cloth decorations, fabric for making holiday costumes and festive fabric decorations; Bedding, namely comforters, shams, skirts, sheets, bed-in-a-bag, fleece throws, pillows and towels, namely beach towels, kitchen towels and bathroom towels; tableware and décor, namely shower curtains and decorative throws; blankets; shower curtains; kitchen towels; hot pad set

Class 25

(11) Dresses; men's, women's and children's clothing, namely, t-shirts, skirts, sleepwear, denim and knits, namely t-shirts, lounge pants, shirts and jerseys; fleece, namely hoodies, lounge pants and shirts; hospital uniforms; headwear, namely hats, headbands and caps; Footwear, namely, beach footwear, sandals, slippers, slipper socks, running shoes, tennis shoes and athletic shoes; Shoe decorations; Swimwear, namely bathing suits, swim trunks, bikinis and tankinis for men, women, youth and children; Beachwear, namely apparel designed to be worn over swimsuits, namely beach and swim cover-ups, dresses, ponchos, skirts, sarongs and shorts; Aprons

Class 26

(12) Clips, namely hair clips; Phone charms

Class 27

(13) Wall decorative coverings, namely wall hangings, tile appliqués, wall borders and contact liners, namely wallpaper borders and drawer contact liners; Tableware and décor, namely decorative rugs; bath rugs

Class 28

(14) Christmas ornaments; Christmas stockings and Christmas stocking holders; Christmas tree skirts; Christmas light sets and covers, namely individual lights and sets of lights with covers depicting fanciful characters and ornaments placed over the lights; artificial Christmas garlands; Christmas wall decorative coverings, namely wall hangings and wall paper; Mini Christmas trees with ornaments, namely artificial mini Christmas trees covered with festive ornaments; waterballs, namely clear and snow globes inside of which fanciful characters and action figures are depicted used in connection with festive occasions; Toy candy dispensers; toy vending machines; toy sculptures; bean bag toys; vinyl inflatable toys, namely, inflatable toy furniture; stuffed toys; Collectible dolls, figures and themed scene sets namely, play sets, namely action figures and related accessories and toy vehicles; plush toys; role play toys and related toy accessories for use in connection with role play toys namely, toy tools, toy dress-up kits and dress-up costumes, namely Halloween costumes, costumes for role playing games and related costume accessories, namely related costume accessories sold as a unit with the costumes; interactive toys namely, electronic toys; travel toys, namely electronic action toys and educational toys; learning games, namely puzzles, 3-D puzzles, board games, card games and word games

Class 29

(15) Sandwich spreads

Class 30

(16) Confectionery, namely, chocolate, candy; Frozen confectionery, namely, ice cream, sherberts and sorbets; frozen desserts, namely baked and frozen desserts, namely, cakes, pies, cheesecakes, eclairs, cupcakes, puddings, gelatins, dessert mixes, sauces, namely chocolate sauces, toppings, icing and pie fillings; Cookies, biscuits and cakes; Fruit candy; dessert toppings, namely, syrups, sauces, namely chocolate sauces, crushed chocolate, sugar and peanut confectionery

Services

Class 35

Advertising services, market analysis, market research and promotion of the goods and services of others in the field of candy products through the administration of promotional contests and incentive schemes and the distribution of related printed material; sponsorship of charity events and arranging of contests, namely, promoting the sale of goods and services through promotional contests and distribution of related printed material

Goods

Class 09

(1) computer software for measuring the presence of electromagnetic radiation and converting electromagnetic radiation into electricity, data processing equipment, namely central processing units for processing information, data, sounds and images; software for retrieval of information in relation to the presence of and conversion of electro-magnetic radiation into electricity by telephone; devices for measuring the presence of electromagnetic radiation and converting electromagnetic radiation into electricity; telecommunications apparatus and instruments, namely, smart phones; portable computer devices, namely, wearable computers namely smart watches and fitness trackers, mobile telephones, smartphones, personal digital assistants, laptops and tablet computers, video display monitors, payment bands and activity trackers, for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto, namely, software for measuring electromagnetic radiation and converting the same into electricity; Radio Frequency Identification (RFID) tags and associated software namely, software that permits computers and smart phones to communicate with the RFID tags and receive location data from such tags; electronic apparatus

containing computer hardware, circuit boards, electrical circuit boards, electronic circuit boards, circuit boards provided with integrated circuits, electronic integrated circuits, integrated circuit modules, and integrated circuits namely smartphones, electronic payment cards, and electronic identification cards, for wireless reception, storage and transmission of data, comprising wireless receivers, wireless transmitters, and wireless local area network devices, wireless power detector and receiver that detects the presence of electro-magnetic radiation and converts such radiation into electricity; wireless charging apparatus and wireless energy scavenging apparatus, namely wireless power receiver for converting electro-magnetic radiation into electricity and wireless power receiver for harvesting electro-magnetic radiation and converting the same into electricity, wireless energy transfer devices, namely inductive power transfer transmitters and receivers, and radio frequency transmitters and receivers; wearable electronic devices capable of wireless communication, namely, wearable computers, namely smart watches and fitness trackers; mobile telephones, smartphones, personal digital assistants, video display monitors, payment bands and activity trackers wearable on the body, as eyeglasses, watches, wristbands, armbands, patches, and badges, and integrated with wearable goods such as footwear, headwear, belts, gloves, and clothing that is internet connected and capable of running mobile software applications

(2) data processing equipment, namely computer hardware, electronic payment terminals, point-of-sale terminals, mobile phones; computer hardware for telephone-based information retrieval in the field of electromagnetic radiation; magnetic cards, namely, credit cards, magnetically encoded debit cards, magnetically encoded bank cards, magnetically encoded gift cards, magnetically encoded phone cards, magnetically encoded cards for loyalty programs; wireless charging apparatus, namely, wireless charging pads for cars, wireless charging stations for electric vehicles, wireless charging phone cases, wireless charging smartphone, point-of-sale terminals that provide radio frequency field for power transmission; databases for customer reward and incentive programs and related database management software; computers, computer terminals, and software for facilitating secure payment transactions by electronic means; software for enabling electronic and online identity verification and fraud prevention; mobile application software for enabling online banking; software for facilitating banking services by means of the Internet, and via on-line and interactive computer services; computer software for facilitating debit and credit card transactions; computer software that enables users to manage their debit and credit card accounts and process debit and credit card transactions; computer software for facilitating payment transactions by electronic means and recording financial operations; integrated chip cards, namely, encoded electronic chip cards for identifying particular users of computers and cell phones; encoded electronic chip cards for identifying particular users of computers and mobile phones, identification cards with embedded chips, identification cards with embedded chips for loyalty programs; pre-recorded magnetic discs and tapes featuring information in the field of banking services and financial analysis and research services, financial analysis consultation services, financial clearinghouse services, and financial planning and investment advisory services; wearable electronic devices capable of wireless communication, namely, wearable computers namely smart watches and fitness trackers; mobile telephones, smartphones, personal digital assistants, video display monitors, payment bands and activity trackers wearable on the body such as glasses, watches, wristbands, armbands, patches, and badges; wearable electronic devices capable of wireless communication, namely, wearable computers namely smart watches and fitness trackers; mobile telephones, smartphones, personal digital assistants, video display monitors, payment bands and activity trackers wearable on the body such as glasses, watches, wristbands, armbands, patches, and badges integrated with wearable goods such as footwear, headwear, belts, gloves, and clothing; electronic wireless communication devices, namely digital cellular phones, satellite phones, biometric bank cards, biometric gift cards, biometric phone cards and biometric cards for loyalty programs, employing energy harvesting and wireless energy

transfer devices namely point of sale terminals and contactless readers enabling the provision of wireless electronic services, namely financial transactions in the field of customer reward programs, data collection and storage, data retrieval, location and time monitoring, and promotional and advertising services in the field of customer reward programs; computers and computer software integrated in a global computer network enabling customer reward program members to accumulate reward points as a function of the distance and time travelled by the member, dependent on the emissions produced by the member's selected mode of transportation

Services

Class 36

(1) Financial analysis and research services;

Class 42

(2) Scientific and technological research and design of products using as their power source the conversion of electro-magnetic radiation into electricity; development of products that convert electro-magnetic radiation into electricity; development of products using as their power source the conversion of electro - magnetic radiation into electricity; industrial analysis and research services in the field of wireless energy harvesting and wireless energy transfer; design and development of computer hardware and software; software as a service (SAAS) services featuring software in the field of financial payment transactions for the operation of products, namely bank cards, credit cards, mobile phones, smartphones, wearable devices such as watches, payment bands, smart clothing, enhanced passports, magnetic encoded government identifying cards and bracelets, and encoded electronic government identifying cards and bracelets using as their power source the conversion of electromagnetic radiation into electricity; maintaining websites for others; application services provider (ASP) providing computer-based services, namely receiving, transmitting, and displaying financial payment transactions in the field of customer reward programs, data collection and storage, data retrieval, location and time monitoring, and promotional and advertising services in the field of customer reward programs to customers over a network, namely access to a particular software application, featuring software for the operation of products, namely bank cards, credit cards, mobile phones, smartphones, wearable payment devices such as watches, payment bands, enhanced passports, magnetic encoded government identifying cards and bracelets, and encoded electronic government identifying cards and bracelets using as their power source the conversion of electro-magnetic radiation into electricity

(3) Scientific and technological research and design in the field of electromagnetic radiation and conversion of electromagnetic radiation into electricity; industrial analysis in the field of electromagnetic radiation and conversion of electromagnetic radiation into electricity; medical research services; design and development of computer hardware and software; software as a service in the field of financial payment transactions namely debit card, credit card, mobile telephone and smartphone enabled payment transactions; maintaining websites; application services provider (ASP) featuring software for receiving, transmitting and displaying vouchers and receiving and transmitting data for the purchase of goods and services in the field of financial payment transactions namely debit card, credit card, mobile telephone and smartphone enabled payment transactions; application services provider (ASP) featuring software for providing consumers with information regarding discounts, vouchers and special offers for the goods or services of others; application service provider services regarding social networking software; provision of an Internet platform for social networking services, namely the design, development, maintenance and hosting of a website for social networking services; hosting websites on the internet; hosting (providing) a website that features technology that enables the donation of money and gifts to charitable organizations; environment surveys; environmental advisory services;

environmental research and technical consultancy information, consultancy and advisory services for all the aforesaid services;

Services

Class 35

(1) Promoting the sale of goods and services of others by the issue and redemption of tokens, vouchers and points, including those accumulated on loyalty cards and discount cards.

Class 36

(2) Prepaid card services, namely, making payment for adding airtime to prepaid or pay-as-you-go wireless telecommunications services; prepaid phone card and phone card services, namely, providing prepaid minutes for use on a cell phone abroad; issuing prepaid telecommunications calling cards.

(3) Money transfer services via a mobile device; providing temporary loans and temporary credit in purchase agreements for the purchase of telecommunications equipment; credit card services; charge card services; insurance services; insurance administration services; insurance consultation services; insurance brokerage services; providing insurance information for the damage, loss or malfunction of communications equipment; providing finance-related information in the fields of electronic payments, money transfers, and remittance services; financial sponsorship of sporting events and programs in the fields of soccer, cricket, netball, track and field, football, rugby, golf, and sports teams for the Special Olympics; financial sponsorship of entertainment programs and events, namely, music and cultural festivals; financial sponsorship of educational programs and events, namely, clinics and training programs in the field of youth sports development; charitable fundraising services; financial guarantee and surety services relating to communications equipment; electronic commerce services, namely, electronic debit and credit card processing services, funds transfer and payment processing services.

Class 38

(4) Telecommunications, namely, communications via multinational telecommunication networks, local and long distance transmission of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions

(5) Telephone telecommunications services provided via prepaid telephone calling cards.

Class 42

(6) Providing temporary use of on-line non-downloadable software for processing electronic payments; providing temporary use of on-line non-downloadable authentication software for controlling access to and communications with computers and computer networks

Goods

Class 09

Computer software for use in management, support, services and training relating to the installation and operation of software solutions, generated in house, for the monitoring of industrial and manufacturing equipment, machinery and inventory; computer software, generated in house, for use in training, and for use in the management of health and safety, in the field of monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory; computer software, generated in house, for the management of the administration of business workflows in the field of monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory; computer software, generated in house, for the digitisation of forms and the capture, manipulation and publication of data input into digital forms; computer software, generated in house, for use in the management, support, service, monitoring and maintenance relating to the installation and operation of industrial and manufacturing equipment, machinery and inventory; ccomputer software, generated in house, for use in connection with stock control, tracking EHS (environmental health and safety) events and site inductions, managing contractors, audits, risk assessments, reporting and storage of data associated with the monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory

Services

Class 41

(1) Education services in the field of designing, installing and using in-house developed computer software, training in the operation of in-house developed software systems, training in the field of designing, installing and using in-house developed to computer software, training services in the field of designing, installing and using in-house developed computer software, all of the foregoing

being in the fields of software solutions for the monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory; Health and safety training in the fields of management of industrial and manufacturing equipment, machinery and inventory, administration of business workflows, digitisation of forms and data input into digital forms, stock control, site inductions, contractor management or, risk assessment, or in the fields of audits, reporting and storage of data

Class 42

(2) Computer software consultancy services; In-house developed computer software advisory services; Inhouse developed computer software integration; In-house developed computer software installation; Technical support services in the form of monitoring and troubleshooting to diagnose problems for in-house developed computer software; In-house developed computer software development; In-house developed configuration of computer software; Creating, maintaining, and updating In-house developed computer software; Providing temporary use of web-based software for use in management, support, services and training relating to the installation and operation of software solutions, generated in house, for the monitoring of industrial and manufacturing equipment, machinery and inventory, for use in training and in the management of health and safety in the field of monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory; Providing temporary use of non-downloadable software for use in the management, support and service of industrial and manufacturing equipment, machinery and inventory; Providing temporary use of non-downloadable software for use in connection with stock control, tracking EHS (environmental health and safety) events and site inductions, managing contractors, audits, risk assessments, reporting and storage of data collected from the monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory; Software as a service [SaaS], namely, software for use in management, support, services and training relating to the installation and operation of software solutions, generated in house, for the monitoring of industrial and manufacturing equipment, machinery and inventory, for use in the management of health and safety in the field of monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory, for the management of the administration of business workflows in the field of monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory, for the digitisation of forms and the capture, manipulation and publication of data input into digital forms, for use in the management, support, service, monitoring and maintenance relating to the installation and operation of industrial and manufacturing equipment, machinery and inventory, for use in connection with stock control, tracking EHS (environmental health and safety) events and site inductions, managing contractors, audits, risk assessments, reporting and storage of data associated with the monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory; computer software updating; Software installation; Technical consultancy relating to the installation and maintenance of In-house developed computer software; Technical consultancy relating to the application and use of computer software; IT project management, all of the foregoing being in the fields of software solutions for the monitoring, management and maintenance of industrial and manufacturing equipment, machinery and inventory, health and safety and training for people associated with the management of industrial and manufacturing equipment, machinery and inventory, administration of business workflows, digitisation of forms and data input into digital forms, stock control, site inductions, contractor management or risk assessment, or in the fields of audits, reporting and storage of data relating to the foregoing, namely computer software project management services

Colour Claim

Colour is claimed as a feature of the trademark. The word oerlikon appears in the colour red.

Goods

Class 01

(1) Chemicals industry and science, being powders or dispersions for generative manufacture of parts, prototypes, models, moulds and tools, in particular by means of laser sintering, laser melting, electron beam sintering and electron beam melting; Chemicals, namely coating materials in the nature of paints and thin layers of organic and non-organic materials in the nature of paints for applying a coating to substrates, including metal, glass, ceramic, plastic; Coating materials in the nature of paints, namely pure metal coating powder, alloyed coating powder, coating powder mixtures, solid coating materials in the form of wires or panels, consisting of pure metal or metal alloys

Class 06

(2) Powders of metal, alloys of metal and dispersions principally of metals, mixtures of metals, alloys and mixtures comprising metals or alloys, all for generative manufacture of parts, prototypes, models, moulds and tools, namely by means of laser sintering, laser melting, electron beam sintering and electron beam melting; Common metals and metal alloys and dispersions and layers and layer sequences consisting thereof, all for use in further manufacturing, namely, for use in manufacturing the surface layers on workpieces, tools and parts of machines; Common metal powders and alloys of common metals in powder form and mixtures thereof, all for use in further manufacturing, namely, in manufacturing the surface layers on workpieces, tools, and parts of machines; Wires and panels consisting of pure common metals and alloys of common metals, all for use in manufacturing the surface layers on workpieces, tools, and parts of machines.

Services

Class 40

Custom heat coating for others of workpieces, prefabricated parts, material webs, tools and parts of machines of metal, ceramics, plastics, fibre-reinforced plastics, in particular applying heated layers of materials of metal, of ceramic materials, of plastic and composites of two or more of these materials; Custom manufacture and preparation for others of parts, prototypes, models, moulds and tools and other kinds of three-dimensional objects, namely, by means of a generative manufacturing process; Custom manufacture for others of powders for generative manufacturing of three-dimensional objects, in particular by means of laser sintering, laser melting, electron beam sintering and electron beam melting; Custom treatment of materials for others by means of applying of functional protective layers to workpieces, prefabricated parts, material webs, tools and parts of machines

(3) test electrodes not for medical use, namely welding electrodes

Class 09

(1) scientific and measuring apparatus and instruments, namely, bioelectrical impedance instruments for body composition analysis; mobile telephones; data processing apparatus, namely computer hardware, video processors, graphics processing units, digital signal processors, computer microprocessors; computers; non-medical meters for measuring electrical current through humans, namely digital panel meters, ammeters, electric current meters, voltmeters, meters for measuring body mass, meters for measuring body density, meters for measuring human tissue density, meters for measuring the presence of fluid in human bodies, meters for measuring the presence of fluid in body parts, meters for measuring the presence of fluid in body segments; spectrometers; non-medical devices for scientific use in measuring the composition of body fluids, namely mass spectrometers, pH meters, meters for measuring fluid density, viscometers; data processing equipment, namely, interface cards for data processing equipment in the form of printed circuits and computer hardware in the nature of central processing units; computer programs and software for data measurement, data transformation, data storage, patient tracking, results interpretation, results analysis, and results display for application to bioimpedance readings generated by a bioimpedance analysis instrument and bioimpedance spectroscopy instrument; scientific and measuring instruments, namely bioelectrical impedance instruments for measuring and recording hydration, fluid density and retention in humans and animals; scientific and measuring apparatus and instruments for measuring and recording fluid levels in humans, animals, namely, extracellular fluid in human limbs; remote controls and software for remote control and operation of scientific and measuring apparatus and instruments, namely blood pressure measuring apparatus, arterial blood pressure measuring apparatus, electromagnetic measuring detectors, heartbeat measuring apparatus, pulse measuring devices; remote controls and software for remote control and operation of bioelectrical impedance instruments for body composition analysis; test electrodes not for medical use, namely electrodes for laboratory research, graphite electrodes; wearable activity trackers for recording activity of human and animal hearts, lungs, bodily organs, cells, glands, lymph glands, namely, to record fluid levels and retention in human and animal hearts, lungs, bodily organs, cells, glands, lymph glands, tissues,

namely pedometers, accelerometers, stretch sensors, bioimpedance monitors, muscle activity monitors, skin impedance monitors; bioelectrical impedance instruments for recording size and performance of human and animal hearts, lungs, bodily organs, cells, glands, lymph glands, namely, to record fluid levels and retention in human and animal hearts, lungs, bodily organs, cells, glands, lymph glands, tissues; computer programs, computer software, and downloadable computer applications software for bioelectrical impedance measuring and recording, to operate bioimpedance analysis instruments and bioimpedance spectroscopy instruments, to record bodily functions, heart rate, biomass, body composition, cell composition and to record and process bioimpedance data; bioelectrical impedance instruments for use in testing, namely, research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids

Class 10

(2) medical and veterinary apparatus and instruments, namely, bioelectrical impedance instruments for body composition analysis; bioelectrical impedance analysis and bioimpedance spectroscopy instruments for medical purposes; medical spectrometers; meters for body fluids for medical use, namely blood glucose meters, concentration meters, spirometers, blood pressure monitors, thermometers; medical and veterinary meters for measuring electrical current passing through humans and animals, namely pulse meters, meters for measuring body mass, meters for measuring body density, meters for measuring human tissue density, meters for measuring the presence of fluid in human bodies, meters for measuring the presence of fluid in body parts, meters for measuring the presence of fluid in body segments; devices for medical and veterinary use, namely veterinary and surgical instruments for use in clinical applications for determining body composition, segmental body composition, fluid level measurements, lymphedema assessment, detection and measurement, unilateral and bilateral, measurement, all in human or animal subjects; devices for medical and veterinary use, namely veterinary and surgical instruments for use in clinical applications for determining hydration, measuring and recording fluid in humans, animals, namely, extracellular fluid in human limbs; consumable electrodes for medical use, electrodes for medical purposes, electrodes for picking up biological parameters for medical use, electrodes for use with medical apparatus, electrophysiology electrodes for medical use; medical electrodes; medical instruments for general examination for recording activity, size and performance of human and animal heart, lungs, bodily organs, cells, glands, lymph glands, to record fluid levels and retention in human and animal heart, lungs, bodily organs, cells, glands, tissues, lymph glands; veterinary instruments for recording activity, size and performance of human and animal heart, lungs, bodily organs, cells, glands, lymph glands, to record fluid levels and retention in human and animal heart, lungs, bodily organs, cells, glands, tissues, lymph glands; medical instruments for general examination and surgical instruments for bioelectrical impedance measuring and recording apparatus and instruments for estimating the composition of living matter therefor, namely, medical and instruments for general examination and surgical instruments for measuring body fat and body mass index

Services

Class 41

(2) publishing and issuing scientific papers in relation to medical technology

Class 42

(3) medical services, namely medical research laboratory services, medical research services; providing medical and scientific research information in the fields of pharmaceuticals and clinical trials

Class 44

(1) medical services, namely medical diagnostic services, analysing body composition of humans for medical purposes, medical and surgical diagnostic services, genetic testing for medical purposes, medical laboratory services for the analysis of blood samples taken from patients, medical analysis services for the diagnostic and treatment purposes provided by medical laboratories, medical services in the fields of diabetes, radiology, chronic pain; veterinary services; veterinary services, namely analysing body composition of animals for veterinary purposes; medical diagnostic testing and analysis services; bioimpedance testing of human or animal subjects in the nature of medical testing for diagnostic or treatment purposes; testing and analysis of segmental body composition, hydration, fluid level measurements, lymphedema assessment, detection and measurement, unilateral and bilateral, namely, in human or animal subjects and particularly using bioimpedance in the nature of medical testing for diagnostic or treatment purposes; medical testing services, namely, fitness evaluation; health assessment services, namely health risk assessment, psychological assessment, fitness health assessment; medical blood testing services; analyzing body composition in human and animal subjects, namely, medical body composition analysis services; providing medical advice in the field of geriatrics; providing medical information in the field of weight loss; veterinary information services provided via the Internet; providing information via the Internet in the fields of diabetes, cancer and nutrition; pharmaceutical consultancy and advisory services; nutrition consultancy; medical consultancy relating to chronic pain, cancer and diabetes; health care consultancy in the fields of occupational therapy and fitness; consultancy services in the field of nutrition; consultancy services in the field of veterinary medicine; consultancy services in the field of surgery; advisory services relating to weight loss and weigh control; nutritional advisory services; consultancy and advisory services in the fields of veterinary medicine and surgery

Colour Claim

Colour is claimed as a feature of the trademark. The logo is designed in an oval shape, with another oval shape inside. The internal frame of the upper oval and the outline of the internal oval are blue. Both divided by the white color, which forms the background of the entire interior of the oval, where in the center it is widely written SV and at the bottom, it is written SALUMIFICIO F. ROTA. In the middle of the oval, the letter "S" is written in white with a blue shadow on its left, the letter "V" is written in blue and the words "SALUMIFICIO F. ROTA" are written in blue. The upper edge of the oval, which forms the highest part of the sign is of three colors: the upper left part is in green, the upper center part is in white and the upper part in right is red, to symbolize the colors of the "Italian flag".

Foreign Character Translation

As provided by the applicant, the English translation of the Italian word Salumificio is Salami factory.

Colour Claim

Colour is claimed as a feature of the trademark. The words PEEKABOO are in dark blue. The words CHILD CARE CENTRE are in smaller black text. The children images are, (a) on the left, a male child with yellow hair with a tan face, (b) in the center a female child with brown hair, two red bows in her hair and a tan face, (c) on the right, a male child with black hair and a brown face. The children images are above stylized red bricks where the brick shape is separated by black lines. The mark has a yellow background being slightly darker yellow at the outside and transitioning to lighter yellow with the center about the letters 'ek' of PEEKABOO.

Goods

Class 09

(1) Computer software for use in on-line, real time video chat communications that permit others the delivery of pre-school educational programming and tutoring

Class 16

(2) Printed matter, namely, newsletters, teaching manuals, educational books

Class 18

(3) Bags, namely, book bags, tote bags, and knap sacks

Class 25

(4) Clothing, namely, t-shirt, sweat shirts, jacket, caps;

Services

Class 41

(1) Educational services, namely, providing primary and elementary education to children; Operation of a kindergarten; Education services, namely, providing seminars, classes and workshops in the field of parenting, child development and special needs education; Organization of educational activities for summer camps; Providing entertainment services at holiday camps; Providing entertainment and educational day camp services; Educational programs in the fields of dance, music, storytelling and puppet shows; Providing information relating to childhood education services, namely, providing assistance to children to enhance educational skills in the areas of reading, writing, mathematics, test preparation, homework and studying; Providing information relating to childhood education services, namely, providing assistance to children to enhance educational skills in the areas of reading, writing, mathematics, test preparation, homework and studying, via a website; Providing information relating to childhood educational services, namely, providing access to expert services in the areas of childhood nutrition, speech pathology, physiotherapy, and mental health; Operation of schools, namely, a community based early learning and care facility with an age appropriate curriculum in each classroom, nutritionally certified menus, fully qualified staff and advanced learning options for children ages six to twelve years; Providing information relating to childhood educational services, namely, entertainment activities and family programs to enhance educational skills in the areas of reading, writing, mathematics, test preparation, homework and studying, via a website.

Goods

Class 01

(1) Chemicals used in industry and science, being powders or dispersions for generative manufacture of parts, prototypes, models, moulds and tools, in particular by means of laser sintering, laser melting, electron beam sintering and electron beam melting; Chemicals, namely coating materials in the nature of paints and thin layers of organic and non-organic materials in the nature of paints for applying a coating to substrates, including metal, glass, ceramic, plastic; Coating materials in the nature of paints, in particular pure metal coating powder, alloyed coating powder, coating powder mixtures, solid coating materials in the form of wires or panels, consisting of pure metal or metal alloys

Class 02

(2) Protective coatings comprising organic and non-organic materials, namely coatings comprised of polymers, polyurethanes, paints, glass, preservatives, resins, acrylics, elastomeric, epoxies, and aluminum for additive manufacturing of protective coatings, clear coats, anti-corrosive coatings, fire retarding coatings, and decorative coatings, especially by means of VAT photopolymerisation, material jetting, binder jetting, material extrusion, powder bed fusion namely laser sintering, laser melting, electron beam sintering, heat sintering and electron beam melting, sheet lamination and directed energy deposition

Class 06

(3) Metal powders for 3D printers, powders of metal, alloys of metal and dispersions principally of metals, mixtures of metals, alloys and mixtures comprising metals or alloys, all for generative manufacture of parts, prototypes, models, moulds and tools in particular by means of laser sintering, laser melting, electron beam sintering and electron beam melting; Common metals and metal alloys and dispersions and layers and layer sequences consisting thereof, all for use in further manufacturing, namely, for use in manufacturing the surface layers on workpieces, tools and parts of machines; Common metal powders and alloys of common metals in powder form and mixtures thereof, all for use in further manufacturing, namely, in manufacturing the surface layers on workpieces, tools, and parts of machines; Wires and panels consisting of pure common metals and alloys of common metals, all for use in manufacturing the surface layers on workpieces, tools,

and parts of machines; Metal wires for additive manufacturing especially by means of VAT photopolymerisation, material jetting, binder jetting, material extrusion, powder bed fusion namely laser sintering, laser melting, electron beam sintering, heat sintering and electron beam melting, sheet lamination and directed energy deposition

Class 07

(4) 3D printers; machines for additive manufacturing, namely VAT photopolymerisation machines, material jetting machines, binder jetting machines, material extrusion machines, powder bed fusion machines, sheet lamination machines and directed energy deposition machines; Machine parts for additive manufacturing machines, namely blades, bearings, bushings, cylinders, gear drives, bus interfaces, shafts, couplings, moulds, nozzles, fasteners, regulators, spindles, pulleys, cams, wheels, and wire brushes

Services

Class 40

3D printing for others; Material machining, namely machining services for others by means of 3D printing; Rental of 3D printers; Custom additive manufacturing for others of parts, workpieces, prototypes, models, shapes, tools and other kinds of three-dimensional objects from powders, wires and dispersions, especially by means of VAT photopolymerisation, material jetting, binder jetting, material extrusion, powder bed fusion namely laser sintering, laser melting, electron beam sintering, heat sintering and electron beam melting, sheet lamination and directed energy deposition; Custom manufacturing and assembly for others of 3D printing machines; Custom heat coating for others of workpieces, prefabricated parts, material webs, tools and parts of machines of metal, ceramics, plastics, fibre-reinforced plastics, in particular applying heated layers of materials of metal, of ceramic materials, of plastic and composites of two or more of these materials; Custom manufacture and preparation for others of parts, prototypes, models, moulds and tools and other kinds of three-dimensional objects by means of a generative manufacturing process; Custom manufacture for others of powders for generative manufacturing of three-dimensional objects, in particular by means of laser sintering, laser melting, electron beam sintering and electron beam melting; Custom treatment of materials for others by means of applying of functional protective layers to workpieces, prefabricated parts, material webs, tools and parts of machines

Class 05

(1) Marijuana and cannabis derivatives for medical use, namely cannabis oils, cannabis concentrates and tinctures containing cannabis for the relief of pain, improved digestion, decreasing anxiety, reducing inflammation, relieving joint pain and improving muscle recovery; cannabis and marijuana extracts for medical use, namely budders, waxes, resins and shatters for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety and for relieving depression

(2) Marijuana and cannabis based products, namely topical applications infused with cannabis for medicinal use, namely creams, balms and ointments for the relief of pain, improved digestion, decreasing anxiety, reducing inflammation, relieving joint pain and improving muscle recovery; marijuana and cannabis based products, namely tablets and capsules for oral ingestion containing cannabis and derivatives of cannabis for medical use, namely the relief of pain, improved digestion, decreasing anxiety, reducing inflammation, relieving joint pain and improving muscle recovery

Class 09

(3) Equipment and accessories for the preparation, use and storage of cannabis and marijuana, namely scales

Class 25

(4) Clothing, namely casual clothing including t-shirts and caps

Class 29

(5) Marijuana and cannabis-based edibles, namely oils

Class 30

(6) Marijuana and cannabis-based edibles, namely chocolates, pastries, muffins, brownies, cookies

Class 31

(7) Marijuana and cannabis related products for recreational use, namely live cannabis plants, cannabis leaves, cannabis flowers and plant seeds, namely cannabis seeds for the production of cannabis plants

Class 34

(8) Equipment and accessories for the preparation, use and storage of cannabis and marijuana, namely bongs, pipes, vaporizers, rollers, rolling paper, lighters, grinders, pipe cleaners, pipe filters and ashtrays

(9) Marijuana and cannabis related products for recreational use, namely dried cannabis

Services**Class 35**

(1) retail and wholesale sale of medical marijuana, medical cannabis, marijuana, cannabis

(2) Retail and wholesale store services provided via a website in the field of medical marijuana, medical cannabis, marijuana, cannabis and marijuana and cannabis related products, namely marijuana and cannabis based edibles, namely chocolates, pastries, muffins, brownies, cookies; Retail and wholesale store services provided via a website in the field of marijuana and cannabis related products, namely equipment and accessories for the preparation, use and storage of medical cannabis, namely bongs, pipes, vaporizers, rollers, rolling paper, lighters, grinders, scales, pipe cleaners, pipe filters and ashtrays

(3) Retail and online sale of equipment and accessories for the preparation, use and storage of medical cannabis, namely bongs, pipes, vaporizers, rollers, rolling paper, lighters, grinders, scales, pipe cleaners, pipe filters and ashtrays; franchising services, namely offering business management assistance in the establishment and operation of marijuana and cannabis dispensaries

(4) Membership services, namely the operation and maintenance of a membership organization in the field of medical marijuana, medical cannabis, marijuana and cannabis that provides participants with access to benefits based on purchases, namely rewards, bonus points, and discount programs

Class 41

(5) Educational services in the fields of medical marijuana, medical cannabis, marijuana and cannabis

Class 44

(6) Operation of marijuana, cannabis dispensaries

(7) Providing information on medical marijuana, medical cannabis, marijuana and cannabis via a website, namely the benefits of medical marijuana, medical cannabis, marijuana and cannabis and research related to medical marijuana, medical cannabis, marijuana and cannabis

(8) Production of cannabis and medical marijuana for recreational and medical purposes, namely growing live cannabis and marijuana plants, cannabis leaves, cannabis flowers and plant seeds, namely cannabis seeds; Consulting services in the field of in the field of medical marijuana, medical cannabis, marijuana, cannabis

Goods

Class 07

(1) Rail-laying machines; machines and machine tools for installing and replacing railway sleepers; welding machines; rail power saws; grinding machines for use in connection with railway tracks; drilling machines for railway tracks; ballast tamping machines; rail reprofiling machines; rail polishing machines; machines for installing, removing, tightening and loosening rail fastenings and bolted components; lifting apparatus and machines for railway tracks; electric jacks [machines]; lifting apparatus, namely lifting attachments for the handling of railway goods; conveyors; hydraulic tools for building or construction of railways, namely railway fastening, clipping and de-clipping devices and attachments, power units, grinders, weld shears, rail saws, drills, spike pullers and drivers, impact wrenches, tampers, clip applicators and bridge jacks; engines (except engines for land vehicles) for industrial machinery used in railway construction, repair and maintenance applications; machine engine parts, namely couplings for machines and drive belts (except for land vehicles) for machines; welding machines; parts, fittings and accessories for the aforesaid goods, namely brackets, grapple claws, rotors, gauges, rail fastening, clipping and de-clipping devices and attachments, power units, grinders, weld shears, drills, spike pullers and drivers, impact wrenches, tampers, clip applicators and bridge jacks.

Class 08

(2) Hand tools for maintenance and handling work on railway tracks.

Class 09

(3) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely connectors, converters, inductors, inverters, adapters, transformers, resistors, grounding, conductors; electronic apparatus and instruments for the electrification of railway lines; electric railway profiles; electric cables; protective clothing, namely, clothing for protection against fire, electricity and accidents; electronic measuring and monitoring goods for the railway industry, namely sensing apparatus for measuring and analysing pressure, tension, temperature, movement and speed of railway vehicles; condition monitoring equipment for the railway industry, namely electronic monitors and monitor modules, computer hardware and

recorded software system for remotely monitoring railway and train conditions; railway stress gauges; rail temperature monitors; remote condition monitoring equipment for the railway industry, namely sensing apparatus for measuring pressure, tension, temperature, movement and speed; data processing equipment for processing and transmitting data relating to railway track and train condition monitoring, namely sensors for detecting acceleration, velocity, temperature, tension, pressure, weight, motion, vibration, electric current, hunting oscillation and measuring rail and bridge strain and ground disturbance; software for use in connection with railway and train condition monitoring; railway signalling equipment; railway safety condition monitoring devices; parts, fittings and accessories for electric conductor rails, namely, insulators, brackets, anchors, expansion joints, coextruded rail, covers and cable terminals.

Class 17

(4) Insulators for railway track; rail pads, namely padding materials of rubber or plastic for railway tracks; Insulating materials, namely, expansion joint fillers, plastic and rubber pads, pads for insulating and preventing shock (not of metal), insulators and pads made of rubber and plastic for railway tracks, rubber elements for supporting track, clamping elements of rubber, rail pads for insulating and preventing shocks; expansion joint fillers.

Class 19

(5) Railroad ties not of metal; non-metallic railway sleepers; plastic and rubber railway fastenings; ballast for railways; non-metallic building materials for the construction of railways, namely non-metallic stress relief materials; non-metallic structural elements, namely, plastic insulators, rubber pads, rubber wedges and toe insulators, reinforcing bars and casings, base plates, top plates and shoulder plates.

Services

Class 37

(1) Installation, commissioning, repair, maintenance and servicing of railways and railway equipment; consultancy and advisory services in relation to railway system construction, condition monitoring, servicing, maintenance and repair.

Class 40

(2) Treatment of materials, namely, heat treatment of metals; welding; rail grinding services; welding services.

Class 42

(3) Technical data analysis and reporting relating to railway and train condition monitoring; data management and analysis relating to railway and train condition monitoring; design and development of computer software for railway and train condition monitoring; provision of non-downloadable software in the field of railway and train condition monitoring; calibration of monitoring and measuring equipment for use in the rail industry.

Trademark Description

The mark consists of a bottle with a narrow neck which has a blue and white neck label with white geese imprinted on a blue band on the bottom of the neck label. Centered on the front of the bottle is a silhouette of a large goose with a white neck and head, black eye, black outline around the beak, a blue body and several smaller white geese with black outlines behind and in front of the larger goose. These white geese with black outlines appear to be flying over a mountainous lake design which is generally blue with some white for shading purposes. There is a flock of white flying geese above the lake that is blue and grey. The mountains in the mark are blue and grey with white shading. Below the mark is a rectangle comprising a blue portion on the left, a red portion on the right, and a white portion in the middle. The broken lines depicting the shape of the bottle indicate placement of the mark on the goods and are not part of the mark.

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) blue, red, white, black, and grey is /are claimed as a feature of the mark. The mark consists of a bottle with a narrow neck which has a blue and white neck label with white geese imprinted on a blue band on the bottom of the neck label. Centered on the front of the bottle is a silhouette of a large goose with a white neck and

head, black eye, black outline around the beak, a blue body and several smaller white geese with black outlines behind and in front of the larger goose. These white geese with black outlines appear to be flying over a mountainous lake design which is generally blue with some white for shading purposes. There is a flock of white flying geese above the lake that is blue and grey. The mountains in the mark are blue and grey with white shading. Below the mark is a rectangle comprising a blue portion on the left, a red portion on the right, and a white portion in the middle.

Goods

Class 09

downloadable software featuring software for use in the design and development of artificial intelligence applications; computer software for the controlling of artificial intelligence applications in the field of cognitive computing technologies that provide multi-modal natural language processing, reasoning, and machine learning for contextual analysis and natural interaction; computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software for use in connecting disparate computer networks and systems, servers and storage devices; computer operating system software; computer software for linking together computers and for enabling computing across a globally accessible network; computer software for managing and operating computer hardware, computer software and processes that exist within an information technology infrastructure in the field of business management environment, namely, workflow automation and knowledge management, and instructional manuals sold as a unit therewith; all of the above in the field of cognitive computing technologies that provide multi-modal natural language processing, generation, reasoning and machine learning for contextual analysis and natural interaction

Services

Class 35

(1) business management consultancy; business information services in the field of augmented intelligence solutions for enterprises to improve workflows, efficiency, knowledge management, and decision making; business management consulting services and business management and consulting services relating to a computer that integrates Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; business strategy development services; data processing services and cloud-based business services, namely, business management consultation services via cloud computing networks; arranging and conducting trade show exhibitions in the field of computers, computer services, information technology, namely, computer systems software and computer hardware configuration and electronic business transactions via a global computer network, and a computer that integrates Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR)

and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; all of the above in the field of cognitive computing technologies that provide multi-modal natural language processing, generation, reasoning and machine learning for contextual analysis and natural interaction

Class 42

(2) software as a service (SAAS) services, namely, software for use by others for design and development of artificial intelligence applications; software as a service (SAAS) services, namely, software for use by others for the controlling of artificial intelligence applications in the field of cognitive computing technologies that provide multi-modal natural language processing, reasoning, and machine learning for contextual analysis and natural interaction; design and development of computer software for artificial intelligence applications; computer programming; design, updating and maintenance of computer software; computer software and hardware design for others; consultation services in the field of computers, namely, computer technology consulting; computer services, namely, technology support services, namely, troubleshooting in the nature of diagnosing of computer hardware and computer software problems for a computer that integrates Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; computer systems analysis, integration of computer systems and networks, computer programming for others all for use in commercial interactions over global computer networks; computer software and hardware testing services; computer system analysis services in the nature of providing technical project studies in the field of computer hardware and software, namely, computer system analysis studies; consultancy in the field of computer hardware, namely, computer technology consultancy regarding computer research and development; scientific and industrial research, namely, research and development of new products, biological research, computer technology consulting services, namely, technical research in the field of computer technology that integrates Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses, and scientific research for medical purpose; computer systems integration services; computer consultation services, namely, computer software consulting services; technology consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; computer systems design services for others; interconnection of computer hardware and software, namely, integration of computer systems and networks; computer software and hardware testing services, namely, testing of computer software, computers and servers; installation, updating and maintenance of computer software; computer programming for others; all of the above in the field of cognitive computing technologies that provide multi-modal natural language processing, generation, reasoning and machine learning for contextual analysis and natural interaction

Colour Claim

Colour is claimed as a feature of the trademark. The colours black, grey, white, red, gold and pink are claimed as features of the trademark. Starting from the outside of the design and moving inward, the first, outer-most border is black, the second, thinner border is pink, the third border is black, the fourth border, comprised of slanted lines, is grey, the fifth boarder is black, and the sixth border is grey. The inner circular region of the design has a black background with a grey waffle pattern appearing therein. The words VECCHIA ROMAGNA and ETICHETTA NERA are white. The face and head covering are yellow and black and the number 1820 is red. The curved line appearing under the words ETICHETTA NERA is black.

Foreign Character Translation

The translation provided by the applicant of the Italian words VECCHIA" and "ETICHETTA NERA" is "Old" and "black label" respectively.

Colour Claim

Colour is claimed as a feature of the trademark. The word GREENIES is green with a taupe border. The toothbrush shaped item in the dog's mouth is green. The leaf behind the dog is green. The dog's nose and border around its mouth are black. The dog's teeth are white. The dog's tongue is red with black lines within it. The dog's eyeballs have a black border and the three circles (including its pupil) from the outside going inward are: light brown, dark brown and white. The fur on the dog is white with varying shade of brown. Specifically, on the left side of the dog, its left ear is comprised of the following colours (from the top of the ear towards its mouth): dark brown, medium-brown, white and light brown. The fur around its left eye (from the outside towards its eyeball) is: dark brown, medium brown and light brown. The fur on the dog's right ear (from the outside towards its mouth) is: Medium-brown, dark brown, medium brown and white.
