### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

downloadable computer software programs for use in conducting mechanical engineering analysis, manufacturing purposes and production planning purposes in the field of digital manufacturing; software for 3D printing applications, namely, recorded and downloadable computer-aided design (CAD) software for use in the field of digital manufacturing; control software, namely, downloadable computer software to monitor, control and calculate the pricing of digital manufacturing processes using computer numerical control (CNC) machine tools; civil engineering software namely, recorded and downloadable computer software programs for use in conducting engineering analysis in the field of digital manufacturing; artificial intelligence software namely, downloadable software using artificial intelligence for controlling, operating and calculating digital manufacturing processes using computer numerical control (CNC) machine tools; machine learning software namely, downloadable software for use in processing, displaying and analyzing digital manufacturing processes using computer numerical control (CNC) machine tools in the field of digital manufacturing; control segment integration software namely, downloadable computer software to monitor and control digital manufacturing processes using computer numerical control (CNC) machine tools; computer-aided design (CAD) software; computer-aided manufacturing (CAM) software; downloadable computer software for designing and modelling data sets to be used to produce 3D printable parts for others; software applications for use with 3D printers; information technology and audio-visual, multimedia and photographic devices namely, multimedia projectors, photographic cameras, audio circuit boards, audiovisual receivers, computer hardware, computer network servers; data storage devices, namely, blank tapes for storage of computer data, computer hardware for high-speed processing and storage of data using multiple CPU's, computer network-attached storage (NAS) hardware; electrical and mechanical data processing devices, equipment and accessories namely, computer hardware for high-speed processing and storage of data using multiple CPU's, central processing units for processing information, data, sound or images, electronic data processing apparatus, namely computers; computers and computer hardware; apparatus, instruments and cables for electricity namely, electrical cables and cord sets, cables for electrical and optical signal transmission, junction sleeves for electric cables; electric and electronic components, namely, piezoelectric switches, electronic components for computers, cables for electrical and optical signal transmission; electrical circuits and circuit boards; optical devices and equipment, enhancers and correctors namely, optical disk drives, optical cables, optical semiconductor amplifiers, optical condensers, optical breadboards; optical enhancers, namely, optical semiconductor amplifiers, optical condensers; measuring, detecting and monitoring instruments, apparatuses and controllers namely, lasers for measuring purposes, namely laser rangefinders, measuring glassware namely calibrated glassware, electronic sensors for measuring solar radiation, remote control electronic instruments for inspecting and measuring industrial components, namely parts of machinery and equipment used in automated manufacturing processes, electro-optical instruments for use in inspection and measurement of waveforms of industrial components; controllers being regulators, namely, lasers control valves for regulating the flow of gases and liquids, control units for regulating start-up electrical motors, electronic regulating and control devices for the operation of light emitting diode; scientific research and laboratory apparatus, educational apparatus and simulators namely, research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids, spectrometers, laboratory glassware, flight simulators for aircraft, vehicle driving simulators for training purposes, navigation bridge simulators for use in maritime and seamanship training, resuscitation training simulators; software for cloud applications namely, downloadable cloud-computing software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform; software for mainframe computers namely, downloadable automation software to integrate digital manufacturing machine operations and generate production reports, downloadable computer software to monitor and control digital manufacturing processes using

computer numerical control (CNC) machine tools; manufacturing control software namely, downloadable automation software to integrate digital manufacturing machine operations and generate production reports, downloadable computer software to monitor and control digital manufacturing processes using computer numerical control (CNC) machine tools, downloadable computer-aided manufacturing (CAM) software for use in the field of digital manufacturing; machine networking software namely, downloadable computer software for setting up and configuring local area networks, downloadable network access server operating software in the field of digital manufacturing; automation software namely, downloadable automation software to integrate digital manufacturing machine operations and generate production reports, downloadable computer software to monitor, control and perform digital manufacturing processes using computer numerical control (CNC) machine tools; process optimization software, namely, downloadable automation software to integrate digital manufacturing machine operations and generate production reports, downloadable computer software to monitor and control digital manufacturing processes using computer numerical control (CNC) machine tools; software for online shops, namely, downloadable computer software for use in editing, digitalizing, designing, modelling, reviewing, analyzing, calculating, updating and organizing manufacturing data, namely, information about components, machines, tools, software and other data in the field of digital manufacturing; software for the Internet of things (IOT), namely, downloadable automation software to integrate digital manufacturing machine operations and generate production reports, downloadable computer software to monitor, control and perform digital manufacturing processes using computer numerical control (CNC) machine tools.

## **Services**

### **Class 35**

(1) Material procurement, namely, procurement of raw material and customised products for others; advertising, namely, design of advertising materials, also for others, advertisement, also for others, on the Internet, advertising namely, design of advertising materials for others, advertisement for others on the Internet and related consulting, consultancy regarding advertising communication strategies; business management; business administration; clerical services; procurement and purchasing services for other businesses namely, purchasing semi-worked components of metal for further manufacture and semi-processed plastics for further manufacture for others; outsourcing services in the nature of business assistance, namely, outsourcing services in the nature of arranging procurement and manufacturing of goods for others; administrative services for cloud operation namely, operation and administration of telecommunication systems and network for others, namely voice over internet protocol (VoIP) telephone services, cloud-based and virtual phone services; administrative services for order processing, namely, administrative processing of purchase orders for others, electronic processing of orders for others; retail and wholesale services related to the customised manufacture of metal parts.

### **Class 39**

(2) Packaging and storage of goods namely merchandise packaging for others; storage and delivery of raw materials namely storage, transportation and delivery of raw materials for others by air, rail, ship and truck; delivery of goods, namely custom-manufactured parts for others, by air, rail, ship and truck.

### **Class 40**

(3) Treatment of materials in relation to components of metal and plastic using precision machines; machine processing of materials of metal and plastic namely, machining parts, also for others, treatment of materials for others namely treatment of rubber by vulcanization for use in manufacture of tires, hoses, shoes soles, insulation, vibration dampers, erasers, shock absorbers,

children's toys, conveyor belts, waterproof clothing, life jackets, balls, transmission belts, treatment of materials for use in additive manufacturing for others, treatment of materials for others by welding, treatment of materials by laser beam namely laser scribing of metals and plastic, transforming materials and surfaces for others by using precision grinding, abrasive blasting and polishing, and electropainting, namely, the process of applying paint to an article by electrophoresis; processing and treatment of materials consisting of metal and plastic namely, treatment of materials for others by treatment of rubber by vulcanization for use in manufacture of tires, hoses, shoes soles, insulation, vibration dampers, erasers, shock absorbers, children's toys, conveyor belts, waterproof clothing, life jackets, balls, transmission belts, treatment of materials for use in additive manufacturing for others, treatment of materials for others by welding, treatment of materials by laser beam namely laser scribing of metals and plastic, treatment of materials in the nature of machining parts for others, transforming materials and surfaces for others by using precision grinding, abrasive blasting and polishing, and electropainting, namely, the process of applying paint to an article by electrophoresis; custom manufacture of parts of machines and components of all kinds namely, treatment of materials for others by treatment of rubber by vulcanization for use in manufacture of tires, hoses, shoes soles, insulation, vibration dampers, erasers, shock absorbers, children's toys, conveyor belts, waterproof clothing, life jackets, balls, transmission belts, treatment of materials for use in additive manufacturing for others, treatment of materials for others by welding, treatment of materials by laser beam namely laser scribing of metals and plastic, treatment of materials in the nature of machining parts for others, transforming materials and surfaces for others by using precision grinding, abrasive blasting and polishing, and electropainting, namely, the process of applying paint to an article by electrophoresis; treatment of plastic materials to produce plastic mouldings; treatment of surfaces by means of precision grinding and abrasive polishing namely, burnishing by abrasion; making of 3D prints namely, custom 3D printing for others; 3D printing services; laser scribing services namely laser scribing of metals and plastics; laser engraving; treatment of materials by laser beam namely laser scribing of metals and plastic; treatment of materials by treatment of rubber by vulcanization for use in manufacture of tires, hoses, shoes soles, insulation, vibration dampers, erasers, shock absorbers, children's toys, conveyor belts, waterproof clothing, life jackets, balls, transmission belts; providing information relating to the treatment of materials in digital manufacturing processes; custom assembling of products for others namely assembly of component parts manufactured via digital manufacturing processes; sheet metal working; transformation of materials namely, treatment of materials for use in digital manufacturing processes by laser beam, heat treatment of metals and plastics, treatment of materials by treatment of rubber by vulcanization for use in manufacture of tires, hoses, shoes soles, insulation, vibration dampers, erasers, shock absorbers, children's toys, conveyor belts, waterproof clothing, life jackets, balls, transmission belts; welding; surface treatment by means of painting namely, applying coatings ultrasonically to medical and industrial apparatus, applying decorative and protective coatings to metal by means of galvanization, electrophoretic coating services.

#### **Class 42**

(4) Scientific and technological services and research and design relating thereto namely, scientific and technological services in the nature of research and development for others in the field of additive manufacturing, scientific and technological services in the nature of research and design for others in the field of mechanical engineering, research and development of new products for others; industrial analysis and research services, namely, industrial research in the field of mechanical engineering; design and development of computer hardware and software; technological engineering analysis, namely, technological advisory services relating to machine engineering analysis; engineering services in the field of mechanical engineering; materials testing

and analyzing; analysis of product development namely, product safety and functionality testing for others, design and testing of new products for others; mechanical engineering; technological analysis services, namely, technological advisory services relating to machine engineering analysis; evaluation and analysis of product development namely, product safety testing for others, design and testing of new products for others; engineering services for the analysis of machinery, namely, technological advisory services relating to machine engineering analysis; engineering services relating to machine tool design; design and development of testing and analysis methods, namely, testing, analysis and evaluation of the goods of others to assure compliance with industry standards, development and establishment of testing specifications and procedures for the metal and plastic forming machinery industry; analysis of the structural behaviour of building materials, namely, mechanical testing of materials used in building construction; technical measuring and testing, namely, testing, analysis and evaluation of the goods of others to assure compliance with industry standards; quality evaluation and testing of products created through additive manufacturing; quality control testing services for industrial machinery, namely consultancy in the field of computer-aided quality control testing of industrial machinery to assure compliance with industry standards; computer aided diagnostic testing services namely, testing, analysis and evaluation of the goods of others to assure compliance with industry standards; construction drafting; computer aided services related to the construction of plastic parts and moulds; consulting in the field of structural engineering services; development of machining techniques namely, testing, analysis and evaluation of metal tools, machinery and fabrication equipment for others, machine part design services for others; services for the development of methods of testing namely, testing the functionality of machines; mechanical research in the field of digital manufacturing; development of testing methods, namely, testing, analysis and evaluation of the goods of others to assure compliance with industry standards; development of industrial products; development of industrial processes, namely, product safety testing for others, design and testing of new products for others, development and establishment of testing specifications and procedures for the machinery industry; engineering services in the field of mechanical engineering; technological advisory services relating to machine engineering analysis; custom design and engineering of machinery in the field of digital manufacturing; quality assurance consultancy namely, quality control testing services for industrial manufacturing machinery and quality assurance testing in the field of digital manufacturing; design of instruments in the field of digital manufacturing; designing of machines in the field of digital manufacturing; engineering design and consultancy in the field of digital manufacturing; computer software design; computer software consultancy; software creation; software engineering namely, design, development and implementation of software for others, design and development of computer software for others; software development; software creation services; software development services; software customisation services for specific customer's needs; computer programming; installation of software; software design and development; consulting services in the fields of design, development, selection, implementation and use of computer hardware and software; rental of computer software; computer programming and software design; software engineering services for data processing programs; software development in the framework of software publishing; rental of computer programs; computer software design; updating of computer software; updating of computer software for databases; customized design of computer software; software as a service (SAAS) services featuring temporary use of non-downloadable software for manufacturing and calculating manufacturing processes and for use in conducting mechanical engineering analysis and creating computer aided designs for use in the field of digital manufacturing; development of software for use with printers and printing machines; design and development of mathematical simulations, namely, developing programs for simulating experiments or series of experiments in a virtual optical laboratory; consultancy in the field of cloud computing networks and applications;

providing access to a platform on the Internet in the fields of the customised manufacture of metal parts, namely, providing a website featuring temporary use of non-downloadable software for use in conducting mechanical engineering analysis on, and creating computer-aided designs of, metal parts; design services relating to civil engineering, namely, testing and research on civil engineering, civil engineering for the design of new products for others in the field of digital manufacturing.

#### Class 06

(1) Metal products for use in communication networks being non-electric cable joints and cable linkages of metal, poles of metal for electric lines, ducts of metal, binding screws of metal for cables, clips of metal for cables; pipes, tubes and hoses, and fittings therefor, of metal, namely electric resistance welded (ERW) tubes of metal, downpipes of metal, metal branching pipes, collapsible tubes of metal, clips and collars of metal for pipes and tubes, couplings and connectors of metal for pipes, couplings and connectors of metal for tubes and hoses, joints of metal for pipes, elbows of metal for flexible tubes and hoses, fittings of metal for pipes, all for use in data and telecommunication networks; cables of metal, non-electric; copper cables, non-electric; boxes of metal for storing cables (non-electric -).

#### Class 07

(2) Air compressors for installing fibre optic networks; air compressors; hand-held electric splicers, electric hand-held crimpers, all for installing fiber optic networks; air blown fiber installation tools, namely, air compressors for using compressed air to install fiber optic cable into cable ducts; air blown fiber gun, namely, compressed air guns for installing fiber optic cable; tools for blowing and pressing of optical fiber and cable into pipes namely, compressed air guns and air compressors; installation tools for cables, namely, electrical screwdrivers, compressed air guns to install fiber optic cable, compressed air guns and air compressors to install fiber optic cable into cable ducts; machines for cutting pipes for installing fiber optic networks.

#### Class 08

(3) Sheath cutter, namely, knives for stripping optical fibers and cable cores, and cutting fiber optic cables sheaths; razor knives; multi purpose knives for cables and ducts; stripping scissors; hand-operated pipe cutters; hand tools for tearing up pipes; manually operated hand cutters for tearing up micro duct cable ducts, longitudinally; cable openers, namely, hand-operated cable strippers and crimpers for use on network and telecommunication cables; micro cable inner tube opener, namely, hand-operated cable splicers, hand-operated cable benders, hand-operated cable strippers, hand-operated cable cutters, hand-operated cable opener.

**Class 09**

(4) Measuring instruments, namely, instruments for measuring the thickness of fiber optic cable parts and for measuring properties of optical test signals transmitted or reflected in optical fibers; detecting and monitoring instruments, indicators and controllers, namely, instruments for measuring reflection, relaxation and length of fiber optic networks; optical sensors; instruments, apparatus and equipment for wireless transmission, namely, wireless optical transmitters; computer operating programs for use in controlling and managing fiber optic networks in a fiber optic cable infrastructure; computer operating software for controlling and managing computer hardware used in the field of fiber optic networks and infrastructure; computer networking hardware; apparatus, instruments and cables for electricity, namely, electrical cables with integrated fittings, namely, cordsets; electrical and electronic components, namely, connectors for electrical cables, ducts for electric cables, electric adapter cables, Ethernet cards, feeder cables, fiber interconnection cable, gender changers for coaxial cables, junction boxes for housing cable joints, junction sleeves for electric cables, power cable sheathes, audio and video receivers, audio and video transmitters, fiber optic transmitters and receivers, fiber optic amplifiers; electrical cables and wires; electronic cables; optical distribution fields, namely, protective sheaths for fiber optical cables; joint closures for fiber optical cables and optical distribution fields, namely fiber optic couplings; fiber optic connectors; grounding bushings and grounding clamps specially adapted for coaxial cables; optical cables; signal cables for IT and telecommunication being data transmission cables; micro USB cables, data transmission cables comprised of tubular carbon molecule nano tubes, fiber interconnection cables; data transmission cables, cables for electrical and optical signal transmission and fiber optic cables for installation in duct system; data transmission cables, cables for electrical and optical signal transmission and fiber optic cables for direct buried installation; data transmission cables, cables for electrical and optical signal transmission and fiber optic cables for aerial installation; data transmission cables, cables for electrical and optical signal transmission and fiber optic cables for indoor and outdoor installation; data transmission cables, cables for electrical and optical signal transmission and fiber optic cables for distribution of electrical power; power cables; hybrid fiber optic and coaxial telecommunication cables; data transmission cables, cables for electrical and optical signal transmission and fiber optic cables for undersea use; electrical and fiber optic cables for transmission of data; cables for optical signal transmission; patch cords, namely, extension cords; ducting for electric cables; fiber optic cable terminal blocks; fiber optic cable terminal cabinets for splicing fiber optic cable; fiber optic cable terminal box for splicing optic cable; fiber optic cable termination boxes; fiber optic cable signal distribution hubs; fiber optical cable adapters; fiber optical cables; fiber optical couplings; coupling sleeves for fiber optics; housings for fiber optical cables; fiber optical panels; fiber optical telecommunication apparatus, namely, for use within the field of fiber optic networks and infrastructure; fiber optic cable for transmission of sound and images; fiber optic cables with mounted connectors; junction boxes for housing of cable joints; electro-optic transducer; media converter being customer premise equipment (CPE) specifically computer network, hubs, switches and routers, residential network gateways (RG), set-top boxes, network modems, home computer networking adapters and optical network terminal (ONT); parts and fittings for the aforementioned goods, namely, stands for telecommunication hardware, cabinets adapted for the protection of fiber optic cables, end caps for the protection of fiber optic cables.

**Class 17**

(5) Flexible polyethylene (PE), polypropylene (PP), polyvinyl chloride (PVC) and rubber pipes for protecting fiber optic cables, flexible wires, plastic flexible tubing for protecting fiber optic cables and specially adapted fittings therefor; non-metallic flexible tubing being nylon tubing for covering electrical wire and nylon grommet fittings for covering electrical wire; fittings for rigid pipes being

valves of rubber, couplings of rubber for pipes, insulation jackets for pipes, joint packing for pipes, PVC, and plastic underground pipes for electric and fibre optic cables; polyethylene (PE), polypropylene (PP), polyvinyl chloride (PVC) and rubber plastic underground pipes for electric and fiber optic cables; plastic pipes for direct buried installation and for the blowing and pressing of optical fiber or cable.

## **Services**

### **Class 35**

(1) Retail store services featuring fiber optic cables, data transmission cables, electronic cables, optical cables, data transmission cable systems, hand tools for installation of pipes and telecommunication cables.

### **Class 37**

(2) Maintenance and repair service of fiber optic cables, optical cables, electronic cables, fibre optic cable data transmission system, fiber optic cable terminals blocks, cable laying, cable measuring instruments and optical sensors; maintenance and repair services for fiber optic cable laying machines for cutting, drilling, abrading, sharpening and surface treatment; maintenance and repair service of electrical power hand tools, electrical drilling screw drivers.

### **Class 41**

(3) Education and teaching, namely, conducting classes and training in the fields of fiber optical cable installation; tutoring, arranging and conducting of courses of instruction in the field of network security technology, computer technology, computer programming, IT management services being computer network infrastructures, planning, design and installation and service repair of fiber optic data transmission cable networks, computer network security technology, telecommunication networks in the field of fiber optic technology.

### **Class 42**

(4) Scientific and technology services, namely, development, testing and analysis of data transmission cable equipment, data communication equipment being fiber optic cables, electronic cables and fiber optical cable networks; development of electronic cables and fiber optical cables; custom design of fiber optical cable networks; fibre optic cable product design services for telecommunications cabling and fiber optics; engineering services, namely, technical project planning for the development of fiber optic networks; consulting in the field of planning of electronic and fiber optic communications networks; technical calibration of fiber optical measuring instruments and calibration of fiber optical systems and instruments for measuring fiber optical systems; testing evaluation of the goods of others to determine conformity with certification standards; providing quality control for others in the field of fiber optic cable telecommunication equipment; computer services, namely, cloud hosting provider services; technical support, namely, monitoring technological functions of computer network systems.

thickening agents in the manufacture of agricultural chemicals; carboxymethyl cellulose used as thickening agents in the manufacture of agricultural chemicals; carboxymethyl cellulose used as water retention regulators in the manufacture of ceramic glazes; carboxymethyl cellulose used as water retention regulators in the manufacture of ceramic glazes; carboxymethyl cellulose used as water-retaining agents in the manufacture of agricultural chemicals; carboxymethyl cellulose used as water-retaining agents in the manufacture of agricultural chemicals; carboxymethyl cellulose used as water-retention modifiers in the manufacture of paper and cardboard; carboxymethyl cellulose used as water-retention modifiers in the manufacture of paper and cardboard; carpet stain repellents; carpet stain repellents; casein for the food industry; casein for the food industry; catalysts for use in oil processing; catalysts for use in oil processing; catalysts for use in the manufacture of industrial chemicals; catalysts for use in the manufacture of industrial chemicals; catalysts for use in the manufacture of plastics; catalysts for use in the manufacture of plastics; catalysts for use in the manufacture of polymers; catalysts for use in the manufacture of polymers; catalysts for use in the manufacture of polyolefin; catalysts for use in the manufacture of polyolefin; catalysts for use in the manufacture of rubber; catalysts for use in the manufacture of rubber; catalysts for use in the manufacture of synthetics, rubbers and polymers; catalysts for use in the manufacture of synthetics, rubbers and polymers; catalysts for use in the oil processing industry; catalysts for use in the oil processing industry; catechu; catechu; Caustic alkali; Caustic alkali; caustic potash; caustic potash; caustic soda; caustic soda; caustic soda for industrial purposes; caustic soda for industrial purposes; cell culture media for laboratory use; cell culture media for laboratory use; cell culture media for scientific or research purposes; cell culture media for scientific or research purposes; cell culture media for use in non-medical research laboratories; cell culture media for use in non-medical research laboratories; cell culture media for use in research laboratories; cell culture media for use in research laboratories; cell culture reagents for laboratory use; cell culture reagents for laboratory use; cell culture reagents for scientific or research purposes; cell culture reagents for scientific or research purposes; cell growth media for growing cells for scientific use; cell growth media for growing cells for scientific use; cell growth media for growing cells for use in scientific research; cell growth media for growing cells for use in scientific research; cellulase for use in the manufacture of detergents; cellulase for use in the manufacture of detergents; cellulase used in detergent manufacture; cellulase used in detergent manufacture; cellulose; cellulose; cellulose esters for use in the manufacture of pharmaceuticals; cellulose esters for use in the manufacture of pharmaceuticals; cellulose ethers for use in the manufacture of pharmaceuticals; cellulose ethers for use in the manufacture of pharmaceuticals; cellulose gums for the food industry; cellulose gums for the food industry; cellulose paste; cellulose paste; cellulose pulp; cellulose pulp; cellulose pulp for use in the manufacture of viscose; cellulose pulp for use in the manufacture of viscose; cellulose used in detergent manufacture; cellulose used in detergent manufacture; cement for boots; cement for boots; cement for boots and shoes; cement for boots and shoes; cement for footwear; cement for footwear; cement for pneumatic tires; cement for pneumatic tires; cement for shoes; cement for shoes; cement plasticizers; cement plasticizers; cement preservatives, except paints and oils; cement preservatives, except paints and oils; cement set accelerators; cement set accelerators; cement-waterproofing chemicals, except paints; cement-waterproofing chemicals, except paints; cements for laying tiles; cements for laying tiles; ceramic compositions in the solid state for manufacture of fibrous monolithic ceramic compartments for use in high temperature applications; ceramic compositions in the solid state for manufacture of fibrous monolithic ceramic compartments for use in high temperature applications; ceramic filtration media for water filtration; ceramic filtration media for water filtration; ceramic glaze; ceramic glaze; ceramic glazings; ceramic glazings; cerium; cerium; cerium chloride; cerium chloride; cerium fluoride; cerium fluoride; cerium hydroxide; cerium hydroxide; cesium; cesium; cetyl alcohol; cetyl alcohol; charcoal for horticultural purposes; charcoal for horticultural purposes;

charcoal for use as a soil conditioner; charcoal for use as a soil conditioner; chemi-ground wood pulp; chemi-ground wood pulp; chemical absorbents for removing impurities from fuel; chemical absorbents for removing impurities from fuel; chemical additives for clay; chemical additives for clay; chemical additives for cleaning and removing abrasive materials from engines and transmission fluids; chemical additives for cleaning and removing abrasive materials from engines and transmission fluids; chemical additives for compost; chemical additives for compost; chemical additives for concrete; chemical additives for concrete; chemical additives for detergents; chemical additives for detergents; chemical additives for diesel fuels; chemical additives for diesel fuels; chemical additives for drilling fluids; chemical additives for drilling fluids; chemical additives for drilling muds; chemical additives for drilling muds; chemical additives for engine cooling systems; chemical additives for engine cooling systems; chemical additives for engine oil; chemical additives for engine oil; chemical additives for fertilizers; chemical additives for fertilizers; chemical additives for fuel; chemical additives for fuel; chemical additives for fuel in the nature of octane boosters; chemical additives for fuel in the nature of octane boosters; chemical additives for fuel injection system cleaners; chemical additives for fuel injection system cleaners; chemical additives for fuel treatment; chemical additives for fuel treatment; chemical additives for gasoline; chemical additives for gasoline; chemical additives for greases; chemical additives for greases; chemical additives for grouting materials; chemical additives for grouting materials; chemical additives for industrial greases; chemical additives for industrial greases; chemical additives for intake cleaners; chemical additives for intake cleaners; chemical additives for internal combustion engine fuels; chemical additives for internal combustion engine fuels; chemical additives for lacquers; chemical additives for lacquers; chemical additives for lubricants; chemical additives for lubricants; chemical additives for lubricating oils; chemical additives for lubricating oils; chemical additives for meat processing; chemical additives for meat processing; chemical additives for mortar; chemical additives for mortar; chemical additives for motor fuel; chemical additives for motor fuel; chemical additives for motor fuels; chemical additives for motor fuels; chemical additives for motor oil; chemical additives for motor oil; chemical additives for oil well drilling fluid; chemical additives for oil well drilling fluid; chemical additives for oil well drilling fluids; chemical additives for oil well drilling fluids; chemical additives for paints; chemical additives for paints; chemical additives for pesticides; chemical additives for pesticides; chemical additives for petrol; chemical additives for petrol; chemical additives for plaster; chemical additives for plaster; chemical additives for plasticizing concrete; chemical additives for plasticizing concrete; chemical additives for printing inks; chemical additives for printing inks; chemical additives for stone; chemical additives for stone; chemical additives for the prevention of sedimentation; chemical additives for the prevention of sedimentation; chemical additives for transmission fluids; chemical additives for transmission fluids; chemical additives for use as binding agents for feed pellets; chemical additives for use as binding agents for feed pellets; chemical additives for use in binding asphalt; chemical additives for use in binding asphalt; chemical additives for use in binding concrete; chemical additives for use in binding concrete; chemical additives for use in binding masonry; chemical additives for use in binding masonry; chemical additives for use in enzyme stabilization; chemical additives for use in enzyme stabilization; chemical additives for use in the casting of metals; chemical additives for use in the casting of metals; chemical additives for use in the cleaning of water; chemical additives for use in the cleaning of water; chemical additives for use in the manufacture of animal foodstuffs; chemical additives for use in the manufacture of animal foodstuffs; chemical additives for use in the manufacture of corrosion inhibitors for boilers; chemical additives for use in the manufacture of corrosion inhibitors for boilers; chemical additives for use in the manufacture of corrosion inhibitors for use in fuels; chemical additives for use in the manufacture of corrosion inhibitors for use in fuels; chemical additives for use in the manufacture of cosmetics; chemical additives for use in the manufacture of cosmetics; chemical additives for use in the manufacture of fabrics; chemical

additives for use in the manufacture of fabrics; chemical additives for use in the manufacture of food; chemical additives for use in the manufacture of food; chemical additives for use in the manufacture of medicines; chemical additives for use in the manufacture of medicines; chemical additives for use in the manufacture of pharmaceuticals; chemical additives for use in the manufacture of pharmaceuticals; chemical additives for use in the manufacture of rubber goods; chemical additives for use in the manufacture of rubber goods; chemical additives for use in the moulding of metals; chemical additives for use in the moulding of metals; chemical additives for use in the preparation of animal foodstuffs; chemical additives for use in the preparation of animal foodstuffs; chemical additives for use in the processing of plastics; chemical additives for use in the processing of plastics; chemical additives for use in the purification of water; chemical additives for use in the purification of water; chemical additives for use in the treatment of paper pulp; chemical additives for use in the treatment of paper pulp; chemical additives for use with concrete; chemical additives for use with concrete; chemical additives for use with internal combustion engine fuels; chemical additives for use with internal combustion engine fuels; chemical additives for varnishes; chemical additives for varnishes; chemical additives to drilling muds; chemical additives to drilling muds; chemical additives to fungicides; chemical additives to fungicides; chemical additives to insecticides; chemical additives to insecticides; chemical additives to motor fuel; chemical additives to motor fuel; chemical admixtures for concrete; chemical admixtures for concrete; chemical adsorbents for removing impurities from fuel; chemical adsorbents for removing impurities from fuel; chemical agents for acid removal in industrial manufacturing applications; chemical agents for acid removal in industrial manufacturing applications; chemical agents for binding textiles, furs and leather, non-wovens and fabrics; chemical agents for binding textiles, furs and leather, non-wovens and fabrics; chemical agents for carbon dioxide sequestration; chemical agents for carbon dioxide sequestration; chemical agents for coating textiles, furs and leather, non-wovens and fabrics; chemical agents for coating textiles, furs and leather, non-wovens and fabrics; chemical agents for coating textiles, furs, leather, non-woven and woven fabrics; chemical agents for coating textiles, furs, leather, non-woven and woven fabrics; chemical agents for hardening wood; chemical agents for hardening wood; chemical agents for impregnating carved pumpkins, cut flowers and Christmas trees to preserve freshness; chemical agents for impregnating carved pumpkins, cut flowers and Christmas trees to preserve freshness; chemical agents for impregnating cut Christmas trees to preserve freshness; chemical agents for impregnating cut Christmas trees to preserve freshness; chemical agents for impregnating cut flowers to preserve freshness; chemical agents for impregnating cut flowers to preserve freshness; chemical agents for impregnating textiles, furs and leather, non-wovens and fabrics; chemical agents for impregnating textiles, furs and leather, non-wovens and fabrics; chemical agents for impregnating textiles, furs, leather, non-woven and woven fabrics; chemical agents for impregnating textiles, furs, leather, non-woven and woven fabrics; chemical agents for manufacturing dyestuffs; chemical agents for manufacturing dyestuffs; chemical agents for quenching steel; chemical agents for quenching steel; chemical agents for removing acid in industrial manufacturing applications; chemical agents for removing acid in industrial manufacturing applications; chemical agents for the flame-retardant coating of textiles; chemical agents for the flame-retardant coating of textiles; chemical agents for the treatment of bilge water; chemical agents for the treatment of bilge water; chemical agents for use in the manufacture of dyestuffs; chemical agents for use in the manufacture of dyestuffs; chemical agents for use in water purification; chemical agents for use in water purification; chemical agents sold as an ingredient of alkaline batteries; chemical agents sold as an ingredient of alkaline batteries; chemical aquarium water conditioners; chemical aquarium water conditioners; chemical buffer solutions; chemical buffer solutions; chemical catalysts for use in the manufacture of squishy toys; chemical catalysts for use in the manufacture of squishy toys; chemical chimney cleaners; chemical chimney cleaners; chemical coatings containing quartz for

optical glass; chemical coatings containing quartz for optical glass; chemical coatings containing quartz for optical plastics; chemical coatings containing quartz for optical plastics; chemical coatings containing quartz for use in eyeglass lenses; chemical coatings containing quartz for use in eyeglass lenses; chemical coatings for ophthalmic lenses; chemical coatings for ophthalmic lenses; chemical coatings for use in the manufacture of printed circuit boards; chemical coatings for use in the manufacture of printed circuit boards; chemical coatings used in the manufacture of plastic lenses; chemical coatings used in the manufacture of plastic lenses; chemical coatings used in the manufacture of printed circuit boards; chemical coatings used in the manufacture of printed circuit boards; chemical compositions for developing and printing photographs; chemical compositions for developing and printing photographs; chemical compositions for developing photographs; chemical compositions for developing photographs; chemical compositions for metal plating; chemical compositions for metal plating; chemical compositions for preserving foodstuffs; chemical compositions for preserving foodstuffs; chemical compositions for printing photographs; chemical compositions for printing photographs; chemical compositions for use in chrome plating; chemical compositions for use in chrome plating; chemical compositions for use in developing photographs; chemical compositions for use in developing photographs; chemical compositions for waterproofing articles of fabric; chemical compositions for waterproofing articles of fabric; chemical compositions for waterproofing articles of leather; chemical compositions for waterproofing articles of leather; chemical compositions for waterproofing masonry; chemical compositions for waterproofing masonry; chemical compounds for curing concrete; chemical compounds for curing concrete; chemical fertilizers; chemical fertilizers; chemical fracturing fluids for use in the oil and gas industry; chemical fracturing fluids for use in the oil and gas industry; chemical gasoline additives; chemical gasoline additives; chemical gel for use as an ice substitute; chemical gel for use as an ice substitute; chemical genetic identity tests comprised of reagents; chemical genetic identity tests comprised of reagents; chemical germination inhibitors; chemical germination inhibitors; chemical humidity indicators in the form of strips, pellets and films; chemical humidity indicators in the form of strips, pellets and films; chemical intensifiers for paper; chemical intensifiers for paper; chemical intensifiers for rubber; chemical intensifiers for rubber; chemical intermediates for use in the manufacture of agricultural chemicals; chemical intermediates for use in the manufacture of agricultural chemicals; chemical motor oil additives; chemical motor oil additives; chemical oxidants for contaminated soil treatment; chemical oxidants for contaminated soil treatment; chemical oxidants for the manufacture of printed circuits; chemical oxidants for the manufacture of printed circuits; chemical oxidants for use in the manufacture of printed circuits; chemical oxidants for use in the manufacture of printed circuits; chemical oxidants for wastewater treatment; chemical oxidants for wastewater treatment; chemical penetrating sealers for natural stone; chemical penetrating sealers for natural stone; chemical petrol additives; chemical petrol additives; chemical precursors for use in the manufacture of agricultural chemicals; chemical precursors for use in the manufacture of agricultural chemicals; chemical preparations for brightening dyestuffs during manufacturing processes; chemical preparations for brightening dyestuffs during manufacturing processes; chemical preparations for cleaning chimneys; chemical preparations for cleaning chimneys; chemical preparations for decarbonising engines; chemical preparations for decarbonising engines; chemical preparations for facilitating the alloying of metals; chemical preparations for facilitating the alloying of metals; chemical preparations for glazing leather; chemical preparations for glazing leather; chemical preparations for melting snow; chemical preparations for melting snow; chemical preparations for melting snow and ice; chemical preparations for melting snow and ice; chemical preparations for preserving foodstuffs; chemical preparations for preserving foodstuffs; chemical preparations for preventing pathogenic infections in plants; chemical preparations for preventing pathogenic infections in plants; chemical preparations for preventing scale formation; chemical preparations for preventing scale formation;

chemical preparations for preventing scale formation in hydronic heating and cooling systems; chemical preparations for preventing scale formation in hydronic heating and cooling systems; chemical preparations for preventing the spread of zinc whiskers on galvanized surfaces; chemical preparations for preventing the spread of zinc whiskers on galvanized surfaces; chemical preparations for protecting leather; chemical preparations for protecting leather; chemical preparations for protecting vinyl; chemical preparations for protecting vinyl; chemical preparations for protection against wheat blight; chemical preparations for protection against wheat blight; chemical preparations for protection against wheat smut; chemical preparations for protection against wheat smut; chemical preparations for sealing plant wounds; chemical preparations for sealing plant wounds; chemical preparations for smoking meat; chemical preparations for smoking meat; chemical preparations for stabilizing soil; chemical preparations for stabilizing soil; chemical preparations for stabilizing soil and dust; chemical preparations for stabilizing soil and dust; chemical preparations for testing swimming pool water; chemical preparations for testing swimming pool water; chemical preparations for the dispersal of oil; chemical preparations for the dispersal of oil; chemical preparations for the manufacture of paints; chemical preparations for the manufacture of pigments; chemical preparations for the manufacture of pigments; chemical preparations for the treatment of seeds; chemical preparations for the treatment of seeds; chemical preparations for the treatment of water; chemical preparations for the treatment of water; chemical preparations for use in fog machines; chemical preparations for use in fog machines; chemical preparations for use in photography; chemical preparations for use in photography; chemical preparations for use in the dressing of suede; chemical preparations for use in the dressing of suede; chemical preparations for use in the manufacture of corrosion inhibitors; chemical preparations for use in the manufacture of corrosion inhibitors; chemical preparations for use in the manufacture of cosmetics; chemical preparations for use in the manufacture of cosmetics; chemical preparations for use in the manufacture of paints; chemical preparations for use in the manufacture of paints; chemical preparations for use in the manufacture of pharmaceuticals; chemical preparations for use in the manufacture of pharmaceuticals; chemical preparations for use in the production of medicines; chemical preparations for use in the production of medicines; chemical preparations for use in the restoration of suede; chemical preparations for use in the restoration of suede; chemical preparations in the nature of glue accelerators; chemical preparations in the nature of glue accelerators; chemical preparations to be applied to boat for preventing UV light damage; chemical preparations to be applied to boat for preventing UV light damage; chemical preparations to be applied to plastics for preventing UV light damage; chemical preparations to be applied to plastics for preventing UV light damage; chemical preparations to be applied to textiles for preventing UV light damage; chemical preparations to be applied to textiles for preventing UV light damage; chemical preparations to prevent diseases affecting cereal plants; chemical preparations to prevent diseases affecting cereal plants; chemical preparations to prevent diseases affecting vine plants; chemical preparations to prevent diseases affecting vine plants; chemical preparations to prevent mildew; chemical preparations to prevent mildew; chemical preparations to prevent wheat blight; chemical preparations to prevent wheat blight; chemical preparations to prevent wheat smut; chemical preparations to prevent wheat smut; chemical preparations to repel water for boat use; chemical preparations to repel water for boat use; chemical preparations to repel water from fabrics; chemical preparations to repel water from fabrics; chemical preparations to repel water from leather; chemical preparations to repel water from leather; chemical preparations which penetrate through walls, floors and ceilings used for fire prevention in buildings; chemical preparations which penetrate through walls, floors and ceilings used for fire prevention in buildings; Chemical preparations, except pigments, for the manufacture of enamel; Chemical preparations, except pigments, for the manufacture of enamel; chemical preparations, namely, silica based

density centrifugation media, to be used in biochemical and clinical research; chemical preparations, namely, silica based density centrifugation media, to be used in biochemical and clinical research; chemical preservatives for animal feed; chemical preservatives for animal feed; chemical preservatives for dough for industrial use; chemical preservatives for dough for industrial use; chemical preservatives for food; chemical preservatives for food; chemical preservatives for silage; chemical preservatives for silage; chemical preservatives for the food industry; chemical preservatives for the food industry; chemical preservatives for use as corrosion inhibitors on automobile exhaust systems; chemical preservatives for use as corrosion inhibitors on automobile exhaust systems; chemical preservatives for use in bread making; chemical preservatives for use in bread making; chemical preservatives for use in manufacture of soap and vegetable oils; chemical preservatives for use in manufacture of soap and vegetable oils; chemical preservatives for use in the manufacture of corrosion inhibitors for automobile exhaust systems; chemical preservatives for use in the manufacture of corrosion inhibitors for automobile exhaust systems; chemical preservatives for use in the manufacture of soaps; chemical preservatives for use in the manufacture of soaps; chemical preservatives for use in the manufacture of vegetable oils; chemical preservatives for use in the manufacture of vegetable oils; chemical products for brightening dyestuffs; chemical products for brightening dyestuffs; chemical products for glazing leather; chemical products for glazing leather; chemical products for neutralizing stainless alloys of steel, iron and metals of various colors; chemical products for neutralizing stainless alloys of steel, iron and metals of various colors; chemical products for preventing scale; chemical products for preventing scale; chemical products for the fresh-keeping and preserving of food; chemical products for the fresh-keeping and preserving of food; chemical products for the preparation of enamels; chemical products for the preparation of enamels; chemical products for use in the manufacture of detergents; chemical products for use in the manufacture of detergents; chemical products for use in the manufacture of fragrances; chemical products for use in the manufacture of fragrances; chemical products for use in the manufacture of sealants; chemical products for use in the manufacture of sealants; chemical products for use in the manufacture of varnish; chemical products for use in the manufacture of varnish; chemical reagents for genetic identity testing; chemical reagents for genetic identity testing; chemical reagents for paternity testing; chemical reagents for paternity testing; chemical reagents for use in genetic research; chemical reagents for use in genetic research; chemical reagents for use in pregnancy and ovulation tests; chemical reagents for use in pregnancy and ovulation tests; chemical sealants for glazed ceramics; chemical sealants for glazed ceramics; chemical sealants for the sealing of floors; chemical sealants for the sealing of floors; chemical sealants for the sealing of roofing; chemical sealants for the sealing of roofing; chemical sealants for the sealing of walls; chemical sealants for the sealing of walls; chemical sealants for tiles; chemical sealants for tiles; chemical sealants used for buildings which penetrate through walls, floors and ceilings for fire prevention; chemical sealants used for buildings which penetrate through walls, floors and ceilings for fire prevention; chemical slurries for polishing semiconductors; chemical slurries for polishing semiconductors; chemical soil conditioners; chemical soil conditioners; chemical solutions in the nature of multimetal corrosion and scale inhibitor treatments for hydronic heating and cooling systems; chemical solutions in the nature of multimetal corrosion and scale inhibitor treatments for hydronic heating and cooling systems; chemical source material for the deposition of thin films upon semiconductor wafers for the manufacture of semiconductors; chemical source material for the deposition of thin films upon semiconductor wafers for the manufacture of semiconductors; chemical spray preparations for stretching shoes; chemical spray preparations for stretching shoes; chemical sprays for stretching shoes; chemical sprays for stretching shoes; chemical sprays used to aid in housebreaking dogs; chemical sprays used to aid in housebreaking dogs; chemical stabilizers for preserving foodstuffs; chemical stabilizers for preserving foodstuffs; chemical substances absorbed on carriers for use as

food preservatives; chemical substances absorbed on carriers for use as food preservatives; chemical substances for preserving foodstuffs; chemical substances for preserving foodstuffs; chemical substances for stabilising foodstuffs; chemical substances for stabilising foodstuffs; chemical substances in absorbent media for use as food preservatives; chemical substances in absorbent media for use as food preservatives; chemical test paper; chemical test paper; chemical water conditioners for aquaria; chemical water conditioners for aquaria; chemical water conditioners for aquariums; chemical water conditioners for aquariums; chemical-based rain repellent preparation to be applied to windshields; chemical-based rain repellent preparation to be applied to windshields; chemical-based rain-repellent preparations to be applied to windshields; chemical-based rain-repellent preparations to be applied to windshields; chemically activated adhesive label for sensing the presence of oxygen in intravenous medical and pharmaceutical containers; chemically activated adhesive label for sensing the presence of oxygen in intravenous medical and pharmaceutical containers; chemically blended additives used to reverse phase separation in ethanol-blended fuel in above-ground and underground storage tanks; chemically blended additives used to reverse phase separation in ethanol-blended fuel in above-ground and underground storage tanks; chemically converted compound fertilizers; chemically converted compound fertilizers; chemically sensitized photographic paper; chemically sensitized photographic paper; chemically treated test strips for calibration of laboratory apparatus; chemically treated test strips for calibration of laboratory apparatus; chemicals for photographic film processing; chemicals for photographic film processing; chemicals for preventing vine disease; chemicals for preventing vine disease; chemicals for retarding oxidation of metallic surfaces; chemicals for retarding oxidation of metallic surfaces; chemicals for soldering; chemicals for soldering; chemicals for the manufacture of paints; chemicals for the manufacture of paints; chemicals for the manufacture of pigments; chemicals for the manufacture of pigments; chemicals for the manufacture of preparations for preventing corrosion; chemicals for the manufacture of preparations for preventing corrosion; chemicals for the manufacture of preparations to improve corrosion resistance; chemicals for the manufacture of preparations to improve corrosion resistance; chemicals for the purification of water; chemicals for the purification of water; chemicals for the separation of crude oil from soil and water; chemicals for the separation of crude oil from soil and water; chemicals for the treatment of cooling water systems; chemicals for the treatment of cooling water systems; chemicals for the treatment of hot water systems; chemicals for the treatment of hot water systems; chemicals for the treatment of irrigation water; chemicals for the treatment of irrigation water; chemicals for treating hazardous waste; chemicals for treating hazardous waste; chemicals for use as flame retardants for textiles; chemicals for use as flame retardants for textiles; chemicals for use in agriculture; chemicals for use in agriculture; chemicals for use in agriculture, horticulture and forestry; chemicals for use in agriculture, horticulture and forestry; chemicals for use in agriculture, horticulture and forestry except fungicides, herbicides, insecticides and parasiticides; chemicals for use in agriculture, horticulture and forestry except fungicides, herbicides, insecticides and parasiticides; chemicals for use in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides; chemicals for use in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides; chemicals for use in aquaculture; chemicals for use in aquaculture; chemicals for use in chromatography; chemicals for use in chromatography; chemicals for use in decontamination of polluted sites; chemicals for use in decontamination of polluted sites; chemicals for use in forestry; chemicals for use in forestry; Chemicals for use in forestry, except fungicides, herbicides, insecticides and parasiticides; Chemicals for use in forestry, except fungicides, herbicides, insecticides and parasiticides; chemicals for use in horticulture; chemicals for use in horticulture; chemicals for use in lithography; chemicals for use in lithography; chemicals for use in metal plating; chemicals for use in metal plating; chemicals for use in oil drilling; chemicals for use in oil

drilling; chemicals for use in purifying water; chemicals for use in purifying water; chemicals for use in the decontamination of polluted sites; chemicals for use in the decontamination of polluted sites; chemicals for use in the manufacture of adhesives; chemicals for use in the manufacture of adhesives; chemicals for use in the manufacture of confectionery; chemicals for use in the manufacture of confectionery; chemicals for use in the manufacture of fabric or textiles; chemicals for use in the manufacture of fabric or textiles; chemicals for use in the manufacture of leather; chemicals for use in the manufacture of leather; chemicals for use in the manufacture of lithium ion batteries; chemicals for use in the manufacture of lithium ion batteries; chemicals for use in the manufacture of paints; chemicals for use in the manufacture of paints; chemicals for use in the manufacture of paper; chemicals for use in the manufacture of paper; chemicals for use in the manufacture of polyurethanes; chemicals for use in the manufacture of polyurethanes; chemicals for use in the manufacture of soap; chemicals for use in the manufacture of soap; chemicals for use in the manufacture of solar cells; chemicals for use in the manufacture of solar cells; chemicals for use in the manufacture of solvents; chemicals for use in the manufacture of solvents; chemicals for use in the oil refining industry; chemicals for use in the oil refining industry; chemicals for use in the processing of natural rubber; chemicals for use in the processing of natural rubber; chemicals for use in the processing of plastics; chemicals for use in the processing of plastics; chemicals for use in the production of synthetic rubber; chemicals for use in the production of synthetic rubber; chemicals for use in the purification of proteins for in vitro use; chemicals for use in the purification of proteins for in vitro use; chemicals for use in the purification of water; chemicals for use in the purification of water; chemicals for use in the treatment of waste water; chemicals for use in the treatment of waste water; chemicals for water softening; chemicals for water softening; chemicals for welding; chemicals for welding; chemicals for X-ray film processing; chemicals for X-ray film processing; chemicals used in agriculture, horticulture and forestry; chemicals used in agriculture, horticulture and forestry; chemicals used in fermenting wine; chemicals used in fermenting wine; chemicals used in the manufacture of liquid crystal displays; chemicals used in the manufacture of liquid crystal displays; chemicals used in the manufacture of unprocessed artificial resins; chemicals used in the manufacture of unprocessed artificial resins; chemicals used in the textile industry, namely, printing paste and color enhancer for printing textiles; chemicals used in the textile industry, namely, printing paste and color enhancer for printing textiles; chemicals used to indicate damage in paper coatings; chemicals used to indicate damage in paper coatings; chemicals used to prevent condensation; chemicals used to prevent condensation; chemicals, except pigments, for the manufacture of enamel; chemicals, except pigments, for the manufacture of enamel; chemicals, namely, petroleum sulfonates; chemicals, namely, petroleum sulfonates; chemicals, namely, UV light stabilizers for use in engineering plastics; chemicals, namely, UV light stabilizers for use in engineering plastics; chemiground wood pulp; chemiground wood pulp; chemigroundwood pulp; chemigroundwood pulp; chemimechanical pulp; chemimechanical pulp; china clay; china clay; china slip; china slip; chitosan for industrial purposes; chitosan for industrial purposes; chlor-alkalis; chlor-alkalis; chloralkalis; chloralkalis; chlorinated acids; chlorinated acids; chlorinated naphthalenes; chlorinated naphthalenes; chlorine dioxide; chlorine dioxide; chlorine for general industrial use; chlorine for general industrial use; chlorine for swimming pools; chlorine for swimming pools; chlorine for use in the manufacture of pharmaceuticals; chlorine for use in the manufacture of pharmaceuticals; chlorine for use in water purification; chlorine for use in water purification; chlorine for use in x-ray film; chlorine for use in x-ray film; chlorine-free fertilizers; chlorine-free fertilizers; chloro-nitro-aniline; chloro-nitro-aniline; chloroacetic acid; chloroacetic acid; chlorobenzene; chlorobenzene; chloroethene; chloroethene; chloromethane; chloromethane; chloromethyl ether; chloromethyl ether; chloromethyl methyl ether; chloromethyl methyl ether; chloronaphthalene; chloronaphthalene; chloronitroanilines; chloronitroanilines; chloronitrobenzene;

### Colour Claim

Colour is claimed as a feature of the trademark. The upper and principal portion of mark consists of the stylized words "Atelier Marie" in yellow, that has three different colour layers of borders, beginning with a thin gold outline, then a middle layer of a larger grey outline which transitions from light to dark grey at various locations of the words, followed by an outer layer of a black outline. There are two flasks emanating from the letters "i" in this principal portion of the stylized words "Atelier Marie", which show blue water in the flasks. Underneath the stylized words "Atelier Marie", is the statement "Atelier Marie Remake" where the "Atelier Marie" is in navy blue font, the component "RE" is shown in a gold circle and the whole word "Remake" is in a maroon font. Underneath "Aterlier Marie Remake" is the stylized symbols and words "~The Alchemist of Salburg~" in black font.
