Trademarks Journal

2024-02-07 — Vol. 71 No. 3615

Trademarks Journal

Vol. 71 No. 3615

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trade-mark. The letters 'I', 'C', 'E', and 'S', as well as the '/' in between the letters 'C' and 'E', appear in the colour white on top of a dark blue circular shape. Three light blue arcs surround the dark blue circular shape. The colours dark blue, light blue and white are claimed as features of the mark.

Goods

Class 09

(1) Computer software used for encoding of data, record linkage and record matching, data quality, data management, extraction and transformation of data for analytics and research use, de-identification of data, algorithms to define health and health-related conditions, health system costing tools, tools to support analytics for routine health services reporting, tools to support advanced analytics, data linking tools, all of the foregoing related data comprising personal health information, and relating to the provision of healthcare and the operation of the healthcare system.

Class 16

(2) Published and unpublished articles, newsletters, books, magazines, newspapers, brochures, flyers, postcards, art, booklets, calendars, menus, briefing notes, infographics, posters, internal reports to system stakeholders, annual reports, impact stories, newsletters, social media messages, articles, news releases, dashboards, and videos arising out of studies of the health

care system, promoting effective, efficient and equitable health in the field of health services evaluation, and data management and analytics in the field of health services evaluation.

Services

Class 35

(1) Data processing services in the field of health system evaluation, using statistical methods to study the health care system and promote effective, efficient and equitable health care; the provision of consulting services, flowing from organizational expertise relating to the health services evaluation, and effective, efficient and equitable health care.

Class 38

(2) Providing access to computer networks and related resources, namely, wireless networks, electronic communication networks, computer databases, secure electronic communication networks, guidance documentation for computer databases and database processing tools to third parties in support of the promotion of effective, efficient and equitable health care.

Class 41

(3) Education and training materials in the field of health system and services evaluation, supporting the study of the health care system and promotion of effective, efficient and equitable health care.

Class 42

(4) Studies in the field of health system and services evaluation, in support of the promotion of effective, efficient and equitable health care; the hosting and operation of computer networks and related resources, namely, wireless networks, electronic communication networks, computer databases, secure electronic communication networks, guidance documentation for computer databases and database processing tools in support of the promotion of effective, efficient and equitable health care.

Class 44

(5) Enabling access to databases, and facilitating published and unpublished articles, newsletters and other written documentation arising out of such access, in support of promoting effective, efficient and equitable health.

Class 09

(1) Cameras and radio frequency identification (RFID) readers for preventing unfair acts of treating gaming chips; UV cameras, UV sensors, infrared cameras, and infrared sensors for preventing unfair acts of treating gaming chips; Cameras and radio frequency identification (RFID) readers for recording the movement of gaming chips; UV cameras, UV sensors, infrared cameras, and infrared sensors for recording the movement of gaming chips; Cameras and radio frequency identification (RFID) readers for preventing theft of gaming chips; UV cameras, UV sensors, infrared cameras, and infrared sensors for preventing theft of gaming chips; Cameras and radio frequency identification (RFID) readers for preventing loss of gaming chips; UV cameras, UV sensors, infrared cameras, and infrared sensors for preventing loss of gaming chips; Cameras and radio frequency identification (RFID) readers for use in recording and pursuing gaming objects and players; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recording and pursuing gaming objects and players; Cameras and radio frequency identification (RFID) readers for use in identifying gaming objects and players; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in identifying gaming objects and players; Cameras and radio frequency identification (RFID) readers for use in recognizing and counting gaming objects and players; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recognizing and counting gaming objects and players; Cameras and radio frequency identification (RFID) readers for use in recording events on the gaming tables; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recording events on the gaming tables; Cameras and radio frequency identification (RFID) readers for use in identifying numbers and suit of playing cards on the gaming tables; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in identifying numbers and suit of playing cards on the gaming tables; Cameras and radio frequency identification (RFID) readers for use in recording head-count and sojourn time of game players; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recording head-count and sojourn time of game players; Cameras and radio frequency identification (RFID) readers for use in identifying the identity and bet of game players; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in identifying the identity and bet of game players; Cameras and radio frequency identification (RFID) readers for use in preventing unfair acts of game players; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in preventing unfair acts of

game players; Cameras and radio frequency identification (RFID) readers for use in managing operational status of casino game tables and casino floors; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in managing operational status of casino game tables and casino floors; Cameras and radio frequency identification (RFID) readers for use in managing income and outgo of casino game tables and casino floors; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in managing income and outgo of casino game tables and casino floors; Cameras and radio frequency identification (RFID) readers for use in managing customers of casino game tables and casino floors; UV cameras, UV sensors, infrared cameras, and infrared sensors for use in managing customers of casino game tables and casino floors; computer operating software for cameras and radio frequency identification (RFID) readers for preventing unfair acts of treating gaming chips; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for preventing unfair acts of treating gaming chips; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for preventing unfair acts of treating gaming chips; computer operating software for cameras and radio frequency identification (RFID) readers for recording the movement of gaming chips; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for recording the movement of gaming chips; computer operating software for cameras and radio frequency identification (RFID) readers for preventing theft of gaming chips; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for preventing theft of gaming chips; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for preventing theft of gaming chips; computer operating software for cameras and radio frequency identification (RFID) readers for preventing loss of gaming chips; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for preventing loss of gaming chips; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for preventing loss of gaming chips; computer operating software for cameras and radio frequency identification (RFID) readers for use in recording and pursuing gaming objects and players; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recording and pursuing gaming objects and players; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in recording and pursuing gaming objects and players; computer operating software for cameras and radio frequency identification (RFID) readers for use in identifying gaming objects and players; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in identifying gaming objects and players; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in identifying gaming objects and players; computer operating software for cameras and radio frequency identification (RFID) readers for use in recording events on the gaming tables; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recording events on the gaming tables; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in recording events on the gaming tables; computer operating software for cameras and radio frequency identification (RFID) readers for use in identifying numbers and suit of playing cards on the gaming tables; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in identifying numbers and suit of playing cards on the gaming tables; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in identifying numbers and suit of playing cards on the gaming tables; computer operating software for cameras and radio frequency identification (RFID) readers for use in recording head-count and sojourn time of game players; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in recording head-count and sojourn time of game players; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in recording head-count and sojourn time of game

players; computer operating software for cameras and radio frequency identification (RFID) readers for use in identifying the identity and bet of game players; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in identifying the identity and bet of game players; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in identifying the identity and bet of game players; computer operating software for cameras and radio frequency identification (RFID) readers for use in preventing unfair acts of game players; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in preventing unfair acts of game players; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in preventing unfair acts of game players; computer operating software for cameras and radio frequency identification (RFID) readers for use in managing operational status of casino game tables and casino floors; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in managing operational status of casino game tables and casino floors; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in managing operational status of casino game tables and casino floors; computer operating software for cameras and radio frequency identification (RFID) readers for use in managing income and outgo of casino game tables and casino floors; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in managing income and outgo of casino game tables and casino floors; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in managing income and outgo of casino game tables and casino floors; computer operating software for cameras and radio frequency identification (RFID) readers for use in managing customers of casino game tables and casino floors; computer operating software for UV cameras, UV sensors, infrared cameras, and infrared sensors for use in managing customers of casino game tables and casino floors; computer operating software for UV flashlights, infrared flashlights, infrared lights and UV lights for use in managing customers of casino game tables and casino floors; Cameras and radio frequency identification (RFID) readers for inspecting gaming chips for counterfeits; UV cameras, UV sensors, and infrared sensors for inspecting gaming chips for counterfeits; electronic authenticity checking device for gaming chips; Cameras and radio frequency identification (RFID) readers for scanning amount and quantity of gaming chips; UV cameras, UV sensors, infrared, and infrared sensors for scanning amount and quantity of gaming chips; electronic identity confirmation devices for gaming chips

Class 11

(2) UV flashlights, infrared flashlights, infrared lights and UV lights for inspecting gaming chips for counterfeits; UV flashlights, infrared flashlights, infrared lights and UV lights for scanning amount and quantity of gaming chips

Class 28

(3) Gaming chips; gaming chip cases of plastic for use in carrying gaming chips; gaming chip trays for use in storing gaming chips on the casino tables; security containers and boxes for gaming chips in the nature of gaming equipment

Goods

Class 02

(1) Filled ink cartridges for printers; filled ink jet cartridges; photocopier toner in cartridges; filled toner cartridges for printers, photocopiers, inkjet printers, facsimile machines and laser printers; filled ink cartridges for printers, photocopiers, inkjet printers, facsimile machines and laser printers

Class 04

(2) lubricant oil for use with paper shredders; lubricant sheets for use with paper shredders

Class 08

(3) scissors; table cutlery; plastic cutlery, namely, knives, forks and spoons

Class 16

(4) calendars; calendar refills; personal organizers; appointment books; appointment book refills; organizers for stationery use; erasable planners; organizers for use with calendars; dividers for use with personal stationery organizers; folders and covers for personal organizers; stickers and adhesives for use with personal organizers; pens; pen ink refills; writing ink; specialty pens; correction fluid for documents; correcting fluid for type; correcting tapes; writing instruments

namely pencils, mechanical pencils; pencil leads; pencil lead refills; erasers; pencil sharpeners; broad-tip markers; fabric markers; felt tip markers; highlighting markers; marker pens; paint markers; watercolour markers; permanent markers; wet erase markers; dry erase markers; binders, namely, binders for office use, loose leaf binders, office binders, office supply binders; ring binders, stationery binders, and three-ring binders; dividers for use with binders; mechanical binder sets, comprising rings, dividers and folders; report covers made of pressboard, namely, document covers; presentation books; presentation folders; file folders; folders for letters; folders for papers; hanging file folders, paper folders; pocket folders; document covers; pre-printed dividers for use with binders, files, folders and notebooks; notebook dividers; paper sheet protectors; paper trimmers; letter openers; drawing rulers; drafting rulers; paper hole punches; electric paper hole punches being office requisites; staplers; electric staplers for offices; staples; staple removers; clipboards; writing paper holders; adhesive tapes for stationery or household purposes; adhesives for stationery and household use; adhesive tape flags for stationery or household purposes; dispensers for adhesive paper for stationery or household purposes; paper clips; binder clips; paper fasteners; pen clips; rubber bands; push pins; thumb tacks; paper tapes; stickers; adhesive tape dispensers; cardboard boxes for storage of business and personal records; boxes, cartons, storage containers, and packaging containers made of paper or cardboard; corrugated board and paper containers; containers for storage or transport made of paper or cardboard; desk sets; desk pads; file cards; desktop revolving rotary card files; book covers; color pencils; crayons; arts and craft paint kits, namely, painting sets; craft paper; paint applicators; paint brushes; paint paddles; paint boxes and brushes; art paper; paint brush holders; scrapbooks; pencil pouches, holders and boxes; drafting trays; drafting templates; drafting instruments; printed advertising boards of paper; drawing pads; commercial envelopes; envelopes; shipping labels; adhesive labels; mailing labels; paper badges; adhesive note paper; index cards; storage containers for use with index cards; computer paper; bond paper; photo paper; copy paper; printing paper; multipurpose paper; paper add rolls for use with computers and facsimile machines; fine business paper; hanging folders; frames for use with hanging files; marking tabs; tabs and inserts for use with folders; red rope files; expandable files; file pockets; poly expandable files and envelopes; printed forms, namely, accounting forms, bookkeeping forms and business forms; blank journals; ledger books; columnar pads; paper shredders; plastic bags for use with paper shredders; binding strips for bookbinding; binding materials for books and papers; document binding machines for office use; laminating machines for home and office use; plastic sheets for use with laminating machines; protective covers for sheets of paper and pages of books and the like; spiral-bound notebooks; notebooks; plastic transparencies; paper transparencies; loose leaf paper for binders; memo paper; memo boards; dry erase writing boards; document folders in the form of wallets; desk organizers; adhesive tape for stationery or household purposes

Class 17

(5) mounting tape

Class 18

(6) wallets; luggage; backpacks

Class 20

(7) shipping crates; storage racks; metal storage cabinets; plastic storage containers for commercial or industrial use; storage and organization systems comprising shelves, drawers, cupboards, baskets and clothes rods, sold as a unit; closet accessories, namely, shoe racks, belt racks, clothes bars, free-standing drawer units for organizing and storing clothes; storage and

organization products and accessories, namely, drawer organizers and storage systems comprising shelving and drawers; furniture, namely wall units; filing cabinets; locker mirrors; shelving for lockers

(8) plastic storage containers for pens, paper clips, business cards, and small office requisites

(9) bulletin boards

Class 21

(10) dispensers for liquid soap; bathroom fittings, namely, dispensing units for household purposes for dispensing hygienic wipes and lotions, not for medical purposes; automatic soap dispensers; paper towel dispensers for household and office use; plastic storage containers for household or domestic use

Colour Claim

Colour is claimed as a feature of the trademark. The colors blue and white are claimed as a feature of the mark. The mark consists of a dark blue rectangle that contains a light blue wavy band extending from the left to right side and the white stylized wording "LINDE" in the lower right corner.

Goods

Class 01

(1) Gases, both in compressed and in liquid and dissolved form, namely industrial application gases and gases for use in science, in particular nitrogen, oxygen, saturated and unsaturated hydrocarbons, hydrocarbon compounds, helium, neon, argon, krypton, xenon, hydrogen, carbon dioxide, carbon monoxide, nitrogen oxide, ammonia, halogens, halogen compounds, boron, silicon and sulphur compounds, and special gases with industrial application, special gases for use in science, and mixtures of all the aforesaid gases; solidified gases, namely, dry ice sold as blocks, discs, grains and pellets for industrial, scientific and commercial use; Cooling media, in particular refrigerants, for application in cooling and air-conditioning apparatus; Cold and cryogenic liquid gases, in particular liquefied atmospheric gases for industrial, commercial and scientific purposes; Heat accumulator and heat transport media, in particular heat transfer oils and salts, namely, salts of alkaline metals, sodium salts, magnesium salts; Chemical special products, in particular liquid detergents for gas purification, solutions and solvents for gas storage, water purification, sterilisation and softener preparations, adsorbents, zeolites and ion-exchange resins, molecular sieves, gas separation membranes, catalysts for chemical reactions, metal, non-metallic and biochemical catalysts; Refrigerants for medical purposes;

Class 05

(2) Gases and gas mixtures for medical and therapeutic purposes, In particular gases for ventilation, gases for anaesthetic and analgesic purposes; gases for application on humans and gas mixtures for healing and therapeutic, namely, gases for oxygen therapy, gases for lung function therapy, gases for treating pulmonary function disorders, gases for anesthetic and pain-relieving purposes; gases and fluids for improving mental wellbeing and for soothing purposes, namely, gases and gas mixtures for use as an antioxidant and to help stimulate energy; aerosols and aerosol components for application on humans for medical purposes, namely, inhaled pharmaceutical preparations for the treatment of respiratory diseases and disorders, medical aerosol dispensers for human use sold filled with pharmaceutical preparations for the treatment of respiratory diseases and disorders; Disinfectants and preparations for destroying pests and weeds for application in the agricultural and food industry.

Class 06

(3) Storage containers of metal for gases, in particular containers suitable for medical and ultra-pure gases, and specially adapted metal closing and pressure reducing valves suitable therefor and, where appropriate, connected thereto; pipelines and junctions of metal suitable for compressed gas, and metallic distributing and connecting pieces and pressure reducing valves therefor, valves, taps and fittings of metal suitable for gas (excluding machine parts for the aforementioned goods).

Class 09

(4) life-saving apparatus and instruments, namely, oxygen breathing units, gas masks, respiratory oxygen cylinders, respiratory gas regulators, gas valves, gas pressure indicators and life-saving kits comprising gas masks, respiratory oxygen cylinders, respiratory gas regulators, gas valves and gas pressure indicators; measuring devices for respiratory gases, namely gas pressure indicators and pressure regulators for respiratory gas cylinders, control valves and pressure regulators for regulating the flow of respiratory gases for gas cylinders; apparatus for analyzing gas and liquids, namely, apparatus for gas detection and for tracing gases in rooms and industrial spaces, and during industrial plant turnarounds namely, gas meters, gas alarms, and gas pressure indicators; apparatus for regulating and controlling pressure, flow and temperature for fluids, namely, ball valves, bellows sealed valves, bleed and purge valves, check valves, excess flow valves, manifold valves, quarter turn plugs, pipe fittings, pressure indicator valves, vacuum pumps, vacuum fittings, gasket fittings, weld pipe fittings, ring seal fittings and valve locks, pressure reducing valves, pressure reducing stop-cocks; calculators; apparatus for logging and evaluating measurement values, namely, portable scanners and computers for logging into an electronic database to record gas meter measurements; apparatus for remotely reading measurement values via the Internet, namely, remote controlled gas meter readers and remote controlled gas meter measuring monitoring systems; equipment and apparatus, switchboards for the checking, supervision, and regulation of gas and liquid gas quantities, namely, control consoles in the nature of electrical control panels, flat panel display screens, flow meters, flow switches all for monitoring and controlling the flow of gases; regulating and control apparatus, measuring, signaling and checking and supervision apparatus for the distribution and supplying of gas and liquid gas, namely, gas supply panels, gas pipes, gas pressure relief valves and pressure reducing stop-cocks for gas pipes; dosage dispensers, fuelling apparatus and filling systems for gas and liquid gas, in particular fuel dispensers and tank-filling apparatus for service stations or other liquid gas distribution outlets, namely, gas control shut-off valves and gas control non-return valves; gas purification machines, industrial gas generators, separators for the cleaning and purification of gases; gas purification systems and industrial gas systems for the separation and purification of gases; gas liquefiers using thermodynamic cooling by pressurizing and expanding, namely

liquefiers for air and hydrocarbon gases; air and hydrocarbon gas mixture separators; gas withdrawal equipment, gas flow and pressure regulators, gas flow heaters, gas flow adjusters for preparing an available gas stock for use; gas regulating valves for gas cylinders, gas lines and gas pipes, namely gas pressure reducing valves; gas separators, gas scrubbers, gas adsorbers to remove contaminants from gas streams; membrane gas separators; refining towers for gas distillation, rectification columns for liquefied gas mixes; heat exchangers, gas flow heaters, heaters for fluid gas, gas flow coolers, coolers for fluid gas; filters and sieves for vapourous and liquid gas conditioning; specially adapted gas shut off valves and gas withdrawal valves of metal for compressed gas and liquid gas containers; taps, valves and couplers of metal combined as a functional unit for producing controlled gas flows and gas pressures; gas distributors and injectors for distributing and injecting gases into media and in volumes of any kind, namely gas injection grids; gas flow flap valves; gas purifiers and its parts for the separation, purification and re gasification of industrial and natural gases; mechanical gas condensers, mechanical heat exchangers, mechanical gas regulators, exhaust gas catalytic converters for furnaces, gas filters and flue gas reactors.

Services

Class 39

(1) delivery and supply, in particular domestic supply, of medical systems, and medical gases and preparations, namely delivery of equipment and apparatus for medical gas application, in particular respiratory support apparatus and apparatus for inhaling medicines, and supplying of gases for respiration therapies, wound healing processes and infusion applications; delivery of gas to companies, institutions, hospitals and private individuals in gas containers, gas cylinders, in large quantities via tankers and gas pipes, namely, delivery of gaseous medical preparations and medical aids for the private sector, namely home supplying of medical gases and related aids, namely delivery of filled oxygen gas containers and oxygen respiration equipment, delivery of gas and medical gas consumables for use in the field of medical gas applications, on time delivery of medical gases and medical gas equipment to hospitals and private individuals; delivery, storage and transport of gas equipment, gas related working materials, and delivery of gas tools, namely, industrial gas equipment, medical gas consumables and medical gas equipment for use in the manufacturing, food, chemicals and pharmaceutical industries, cryogenic media and gas technology equipment for industrial and scientific gas applications; rental of apparatus for the supply and handling of cryogenic and gaseous media, namely, rental of gas storage tanks, containers and gas bottles, rental of gas tanks and rental of gas preparation equipment and gas supply systems, rental of racks for storing gas vessels, gas cylinders and gas supply components, rental of appliances for warming and condensing gases, and rental of liquefied gas evaporators, rental of rental cryogenic storage containers and the supply and connection of gas stocks and on-site gas supply systems; Rental of tanks, racks and containers for storing gases, gas cylinders and gas supply components, liquefied gas evaporators; Delivery and warehousing of cryogenic goods, rental of cryogenic containers.

Class 42

(2) Engineering services in the field of chemistry, petrochemistry, process engineering, environmental and cryo-technology and industrial gas application technology, namely, planning and design of infrastructure systems for buildings and construction planning; Technical consultancy in all fields relating to the application of gas, gas treatment and gas generation, petrochemical, chemical and pharmaceutical process engineering, and refrigeration, gas liquefaction and cryo-technology, exhaust gas, wastewater and waste engineering; Testing, analysis and evaluation of apparatus and installations in connection with gas technology,

cryogenic, chemical, petrochemical, pharmaceutical and environmental protection, namely, oxygen breathing units, gas masks, respiratory oxygen cylinders, respiratory gas regulators, gas valves, gas pressure indicators, gas pressure indicators and pressure regulators for respiratory gas cylinders, control valves and pressure regulators for regulating the flow of respiratory gases for gas cylinders, apparatus for gas detection and for tracing gases in rooms and industrial spaces, gas meters, gas alarms, and gas pressure indicators, ball valves, bellows sealed valves, bleed and purge valves, check valves, excess flow valves, manifold valves, quarter turn plugs, pipe fittings, pressure indicator valves, vacuum pumps, vacuum fittings, gasket fittings, weld pipe fittings, ring seal fittings and valve locks, pressure reducing valves, pressure reducing stop-cocks, control consoles in the nature of electrical control panels, flat panel display screens, flow meters, flow switches all for monitoring and controlling the flow of gases, gas supply panels, gas pipes, gas pressure relief valves and pressure reducing stop-cocks for gas pipes, gas control shut-off valves and gas control non-return valves, gas purification machines, industrial gas generators, separators for the cleaning and purification of gases, gas purification systems and industrial gas systems for the separation and purification of gases, gas liquefiers using thermodynamic cooling by pressurizing and expanding, namely liquefiers for air and hydrocarbon gases; air and hydrocarbon gas mixture separators, gas withdrawal equipment, gas flow and pressure regulators, gas flow heaters, gas flow adjusters for preparing an available gas stock for use, gas regulating valves for gas cylinders, gas lines and gas pipes, namely gas pressure reducing valves, gas separators, gas scrubbers, gas adsorbers to remove contaminants from gas streams, membrane gas separators, refining towers for gas distillation, rectification columns for liquefied gas mixes, heat exchangers, gas flow heaters, heaters for fluid gas, gas flow coolers, coolers for fluid gas, filters and sieves for vaporous and liquid gas conditioning, specially adapted gas shut-off valves and gas withdrawal valves of metal for compressed gas and liquid gas containers, taps, valves and couplers of metal combined as a functional unit for producing controlled gas flows and gas pressures, gas distributors and injectors for distributing and injecting gases into media and in volumes of any kind, namely gas injection grids, gas flow flap valves, gas purifiers and its parts for the separation, purification and re-gasification of industrial and natural gases, mechanical gas condensers, mechanical heat exchangers, mechanical gas regulators, exhaust gas catalytic converters for furnaces, gas filters and flue gas reactors; Creation of computer programs, for others, in connection with the aforesaid apparatus, machines and installations and related processes; Engineering consultancy in relation to the providing and storage of production preparations, in particular in relation to gases and chemicals; Technical remote monitoring of the operational state of gas technology apparatus, systems and installations with emergency management therefor, namely, monitoring of computer systems to detect breakdowns, monitoring gas detection systems, emergency alert services, emergency response coordination services.

Class 44

(3) Services of a doctor, services of a nurse; conducting medical and therapeutic treatments and applications in the home in the field of respiration, namely, the administration of gases to human beings; hygienic and beauty care, in particular cold, gas and light therapies, namely, providing laser therapy for treating medical conditions, light therapy services, respiratory therapy services, cold therapy services.

Goods

Class 09

- (1) virtual reality headsets, electric charge and sync cables, power adaptors for gaming devices
- (2) virtual reality headset accessories, namely replacement face pads for virtual reality headsets
- (3) battery charging docking stations for game controllers
- (4) set top boxes to enable video game users to customize the response and sensitivity of the controllers and their button layouts
- (5) high capacity battery packs for computer gaming consoles
- (6) Electrical cables to connect gaming consoles to televisions, electrical cables to charge batteries; virtual reality headsets accessories, namely, replacement face pads for virtual reality headsets; battery charging docking stations for game controllers, electric charge and sync cables; set top boxes to enable video game users to customize the response and sensitivity of the controllers and their button layouts; high capacity battery packs for computer gaming consoles; power adaptors for virtual headsets
- (7) Electric cables to connect video game systems to power, electrical cables to connect gaming consoles to televisions, monitors, and projectors, electrical cables to charge batteries, data cables to connect to the internet, gaming devices, and multiple video game systems; electrical power supply adapters, electrical adaptors to allow for controllers to be used on gaming devices and consoles, to connect multiple video game players to the same video game system allowing for simultaneous play; virtual reality headset accessories, namely, electronic virtual reality controllers, wireless and battery powered controllers, virtual reality electric cables, power supplies, storage stands for virtual reality headsets, storage stands for augmented reality headsets, storage stands for head worn gaming devices, organizational and storage cases, battery chargers, power supply adaptors, head straps, harness, and mounts; electronic mobile phone controllers and accessories therefor, namely, viewing stands for mobile phones, viewing stand for tablets, portable viewing stand for mobile devices with screens, battery charging docking stations for game controllers and stands for human interface devices, wireless charging stands adapted for mobile phones and docking stations for human interface devices, phone clips that hold and pose the phone in specific and adjustable orientations; computer software applications to customize gaming devices, home

gaming consoles, portable gaming consoles, plug and play devices, smart televisions, automobile entertainment interfaces, and set top boxes to enable users to adjust setting of the game and the controllers, PC keyboards; computer mouse pads, wrists pads; universal serial bus cables, high definition multimedia interface cables, power cables, ethernet cables; video game machine battery packs, controller battery packs, rechargeable battery packs for video game machines and controllers therefor, portable battery packs for video game machines and controllers therefor, kinetic energy charged battery packs for video game machines and controllers therefor, solar energy charged battery packs for video game machines and controllers therefor, carrying cases with built in battery packs for mobile devices, namely, portable gaming systems, mobile phones, tablets and gaming consoles, battery cases; battery chargers for portable video game machines and controllers therefor; portable displays, namely, head worn gaming headsets, personal video display devices in the nature of wearable displays for viewing digital content including augmented reality and mixed reality content, near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user, wearable video display monitors, microdisplays, namely, head mounted video displays and near eye video displays, and goggle-style wearable video display monitors; augmented reality headsets; augmented reality accessories, namely, cases for electronic controllers for augmented reality headsets, straps for augmented reality headsets, headphones, augmented reality headset stands, augmented reality laptop holders, augmented reality game controllers, and gaming headsets, replacement power cables, cameras, IR emitters, IR field generators, and IR sensitive controllers and controllers that attach to human arms legs, torso, face for use with virtual reality and augmented reality uses; freestanding holographic displays, desktop holographic displays, image and video projectors; automobile electrical power adaptors for video game systems; video game adapter switches to allow switching between game systems, television, DVDs and VCRs, and set top boxes without having to disconnect such items; extension cables, namely, cables for extending video game systems and peripherals to televisions over long distances; memory cards for video game machines; high speed flash memory cards for use with video game systems; portable theater products, namely, liquid crystal displays; computer cables to connect keyboards to computer systems; computer cables, monitor cables, modem cables, video game system cables, optical cables for video cameras, set top boxes, tablet computers, and laptops; video game and electronics equipment and accessories, namely, remote control units for computers

Class 28

(8) docking stations for game controllers

(9) Video game and electronics equipment and accessories, namely, controllers for game consoles

(10) Video game and electronics equipment and accessories, namely, PC computer game controllers, interactive gaming light guns, PC gaming mice; hand held joy stick and steering wheel units for playing computer and video game consoles and streaming set top boxes; video game interactive remote controls and video game controllers for streaming set top boxes; remote controlled toys, namely, cars, planes, robots, figurines, game and movie characters, animals, drones, interactive toys, namely, electronic board games for use with an external monitor, near field communication (NFC) technology-enabled toy figurines, radio controlled and wireless technology controlled RC vehicles and gaming devices, and wireless controlled RC vehicles and gaming devices that have dedicated controllers and use applications on common mobile phones, personal digital assistants, and tablet computers to serve as controllers, RC vehicles and gaming devices with on board memory that interact and communicate with other RC vehicles and gaming devices, namely, interactive dolls, and RC vehicles and gaming devices that pair to allow multiple players to play with one another; gaming mats with control switches, temperature control, surface feedback, and measurement abilities for use in playing video games; storage, organization, and

protective carrying cases for computer and video gaming devices and accessories; plastic carrying cases for video game systems, accessories and games; plastic, metal and rubber decorative and protective covers for hand held video game systems; headsets for video game systems; computer and video game stands specially designed for holding computer and video game systems; electronic controllers for gaming devices and toys with wired or wireless interface; computer gaming consoles for entertainment, and educational purposes and video game consoles; viewings stand for portable gaming devices; protective cases for game controllers, carrying cases for game controllers; video game controllers that have phone and mobile device clips to hold and pose said screens

(11) stands for game controllers

(12) stands for game controllers, docking stations for game controllers, protective cases for game controllers, carrying cases for game controllers

Class 07

(1) Electric household utensils, namely, juice squeezers and fruit presses, juicers, coffee grinders, graters, food mixers, hand blenders, electric egg beaters, kneader, meat grinders, ice crushers and potato mashers, kitchen machines, namely, peeling machines for vegetables, pizza cutters, bread cutting machines, vegetables cutting machines, coffee grinders, tin openers, electric knives, salad spinners, electric kitchen knives, ironing machines, ironing presses, foil welding machines, electrical vacuum cleaners, accessories for the aforesaid goods

Class 09

(2) Electric household utensils, namely bathroom and kitchen scales, meat thermometers, food thermometers, thermometers for measuring temperature of cooking apparatus, meteorological stations; Computer software for controlling and operating electric kitchen appliances and cooking machines, software for browsing recipes (offline and online); operating programs for computer (stored)for guided cooking, electronic publications in the nature of magazines, books, leaflets and brochures; electronic control system for networking, control, programming, remote control and regulating of kitchen and household apparatus, namely, lights, temperature, gas leak alarms, steam cookers, ovens, refrigerators, laundry dryer, ventilating fans, air conditioners, heaters, water faucets and outdoor lights

Class 11

(3) Electric household utensils, namely, coffee and tea urns, toasters, bread toasters, bread baking machines, electric bread makers, waffle irons, pressure cookers, steam pressure pots, rice cookers, steam cookers, electric kettles, stove elements, deep fryers, furnaces, cooking tops, microwave ovens, reheating apparatus, namely, electric pressure cookers, electric ovens, electric toaster ovens; plate warmers, refrigerators, refrigerating shipping containers, water heaters, water boilers, heating plates, egg boilers, electric appliances for making yogurts and ice cream, ice making machines and dispensers, fruit roasters, heaters for baby feeding bottles, hot air ovens

and radiant heaters, air conditioners, humidifiers, fans, hair dryers, hand dryers, laundry dryers, tanning beds, electric lamps and ceiling lights (except for photographic and medical purposes), pocket lamps, garden lamps, bicycle and car lights, accessories for the aforesaid goods; electric coffee percolators; grills (cooking utensils), namely, cooking grills, barbecue grills, camping grills, electric grills, gas grills

Class 21

(4) Household utensils, namely domestic coffee grinders, garlic crusher, fruit presses and blenders, salt and pepper mills, salad spinners, teapots, bread boards, bread bins, bread baskets, containers for food and beverages, namely cups, mugs, glasses, pots, decanters, bowls, plates and egg cups (not of precious metal), food storage jars and containers, ironing boards, flat-iron stands, perfume vaporizers, ice buckets, cooking vessels for preparing food, namely, cooking pots and cauldrons, stew pans, cake molds, cleaning instruments, especially crumb trays, brooms, carpet sweepers, duster holders, shoe brushes, grill supports; hand-operated coffee grinders, bottle openers, heat-insulated flasks, heat insulated containers for beverages and food, cheese-dish covers, cookie jars, garlic presses, kitchen utensils (not of precious metal) for baking and cooking, namely, spatulas, whisks, simmering baskets and steaming baskets, cooking pot sets, non-electric portable coldboxes, cocktail shakers, blenders non-electric for household purposes, siphons for carbonated water

Services

Class 38

(1) Providing access and links to computer databases, the Internet and intranets, including by means of telecommunications; providing access to a global computer network; providing access to on-line chat rooms; electronic transmission of recipes from on-line databases in the field of cooking via the Internet, electronic transmission of user information from on-line databases in the field of cooking via the Internet

Class 39

(2) Supply chain logistics and reverse logistics services consisting of the delivery of goods for others by air, rail, ship or truck; delivery of food by restaurants

Class 41

(3) Publication of printed matter, namely, books, magazines, leaflets and brochures in electronic form on the Internet

Class 42

(4) Hosting platforms on the Internet, in particular for mobile telephones and computer tablets.

Goods

Class 07

(1) Machines and machine tools for the mechanization of a supply chain and the automation of the preparation of orders, namely automatic dispensers, motor driven roller (MDR) conveyors, belt conveyors, parcel sorting machines, automated parcel sorting machines, shuttles being parts of machines, roller chains being parts of machines; packaging machines for the mechanization of shipping packaging; machines for the automatic handling of pallets and for the setting up of pallets; machines for the loading, unloading and stacking of goods on a logistics platform, namely front-end loaders, unloading cranes, robotic arms for loading, lift chains being parts of machines; palletizers, namely machines and robots for the palletizing of goods; labelling machines and marking machines, namely machines for printing labels and addresses; packaging machines, namely envelope-inserting machines, envelope-stuffing and -inserting packaging machines; packaging machines and packaging conveyor chains, namely roller chains being parts of machines for moving product packaging in warehouses and logistics centres; packaging machines and conveyor chains for packaging, namely machines and machine tools for closing packaging cartons and bins to a size that fits with the height of the goods sent in parcels; machines for the manufacture packaging, namely packaging carton making machines; machines for the manufacture of packaging, namely packing machines and packaging carton making machines; forming machines, including for the heat sealing, thermoforming, folding of packaging cartons and plastic materials via injection; filling machines, namely bottle filling machines; packing machines, namely machines and machine tools for the retrieval of goods stocked in a warehouse and putting said goods in cartons or bins using automated robots; packaging closure machines, including staplers, gluers, strapping machines, bundling machines; sorting machines for parcels, goods and manufactured parts in a warehouse or on a logistics platform; industrial robots and machine tools for the handling and conveying of parcels, goods and manufactured parts; machines and automation controls for the preparation of orders, namely industrial robots and machine tools for the handling and conveying of parcels, goods and manufactured parts; conveyors, namely belt conveyors, belt-type roller conveyors for the moving and tracking of goods in warehouses and in logistics centres, chain conveyors, motor driven rollers (MDR) conveyors, conveyors for assembly

lines, staged and segmented conveyors, belt conveyors; industrial robots and machine tools for the loading and unloading of parcels, goods and manufactured pieces; industrial robots for supply chain management, goods transport systems management, warehouse management, inventory management, inventory supply chain management and goods traceability management before and after shipping; lifts for goods, namely car lifts and wagon lifts, crawler-tracked loaders, lift trucks and elevators, crawler-tracked loaders, elevating platform trucks and handling elevators; industrial robots and conveyors, in particular programmable ones, for preparing and putting together orders and for the assisted shipping of goods via computer, as well as accessories therefor, namely control consoles and operator consoles; label printing machines for industrial use.

Class 09

(4) Software, computer systems, computer programs, namely recorded and downloadable computer programs and software for logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; industrial automation computer programs, namely computer programs used for automatic industrial operations, namely the crating, assembly, packaging, sorting, preparation, consolidation, distribution and stocking of goods in the field of shuttle systems for the stocking and destocking of light loads; computer programs for smart manufacturing, namely computer programs used for the stocking and the supply to production lines of finished and semi-finished products and the creation of product assembly kits in the field of shuttle systems for the stocking and destocking of light loads; process computer programs, namely computer programs used in control processes for automated and robotized logistics systems (stocking, transport, packaging, robotic arms) with interfacing to industrial automatons in the field of shuttle systems for the stocking and destocking of light loads; computer programs for the control of machines, namely computer programs for the remote control of machines in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; product engineering computer programs, namely computer programs for the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; computer programs for warehouse management, inventory management, inventory supply chain management, goods traceability management before and after shipping; logistics management computer programs for the control of preparation and restocking times of goods for their delivery, for the control of delivery times, inventory entries, yields, product planning and product delivery; computer programs for the management of goods transport systems by truck, train, airplane and boat; industrial automation computer software, namely computer software for automatic industrial operations related to the different steps involved in crating, assembling, packaging, sorting, preparing, consolidating, distributing and stocking goods; smart manufacturing software, namely computer software for the stocking and the supply to production lines of finished and semi-finished products and the creation of product assembly kits, factory automation software for integrating the operations of stocking and destocking machines, tracking issues and generating production reports; process control software, namely computer software used in control processes for automated and robotized logistics systems (stocking, transport, packaging, robotic arms) with interfacing to industrial automatons in the field of shuttle systems for the stocking and destocking of light loads; computer software for the control of machines, namely computer software for the remote control of machines in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; product engineering computer software, namely computer software for the

automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and transport of goods; the computer software for warehouse management, inventory management, goods traceability management before and after shipping; computer software for logistics management, namely computer software for the control of delivery times, inventory entries, yields, product planning and product delivery; computer software for the management of goods transport systems by truck, train, airplane and boat; computer software for advanced planning, namely computer software for inventory supply chain management; computer operating system software; electronic identification cards; encoded bar code labels and labels with integrated RFID chips; bar code readers; computer terminals and bar code terminals, namely bar code readers; remote control apparatus, namely radars and beacons for the remote control of vehicles, global positioning systems (GPS) consisting of computers, software, transmitters, receivers and network interface units, remote control apparatus via a computer, a portable telephone, a smart phone, an electronic tablet, proximity sensors and programmable controllers, namely electrical charge controllers, video monitor controllers for machine tools, Ethernet controllers, voltage controllers, signalling and protection controllers for the power grid. .

Class 12

(2) Elevating platform trucks and handling carts.

Class 16

(3) Paper and cardboard for packaging; wrappings and packaging, namely wrappings made of paper, cardboard for wrapping, cardboard packaging, packaging materials of paper; printed matter, namely paper, posters, business cards, labels of paper or cardboard, brochures, catalogues, pamphlets; printed labels, bar code labels and identification labels of paper; adhesives for stationery and packaging; stationery.

Services

Class 35

(2) Advertising, marketing and promotional services related to logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods for others; business organization and management advice; assistance and advisory services regarding business planning and business management; advice related to the conduct of business; business advice, information and data related to logistics, namely business organization and management advice, advice and information concerning business management and provision of market intelligence services related to logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, traceability of goods before and after shipping and the transport of goods; computer file management; computerized preparation and control of inventories; computerized inventory ordering services, namely computerized inventory ordering services for semi-finished and finished products packaged as a unit, in bins, in cartons and on pallets; computerized processing of purchase orders; administrative processing of purchase orders; collection and systematization of data into a central file; computerized compilation of purchase order lists. .

Class 39

(3) Logistics services (transport) consisting of packaging products intended to be delivered by airplane, train, boat or truck, for others; transport by truck, boat, airplane and train, packaging and storage of goods to be transported; information related to logistics (transport), packaging and

storage of goods, namely supply chain logistics and reverse logistics services consisting of the transport, packaging and stocking of goods for others by airplane, train, boat or truck; packaging of goods, namely packaging of goods to be transported; parcel delivery; conditioning of goods, namely packaging of goods to be transported in cardboard boxes, plastic bubble packs, plastic bags; packaging of goods; warehousing; protected transport of goods and pallets by airplane, train, boat or truck.

Class 41

(4) Education, namely operator training for the use of shuttle systems for the stocking and destocking of light loads used by clients via in-person, in-class and e-learning training, educational services relating to computer programming, warehouse management and logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; training related to warehouse management and logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; industrial training in industrial engineering in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods and the mechanization of shipping packaging; professional training related to warehouse management and logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; educational demonstrations related to warehouse management and logistics in the field of the automated production of goods packaging, the preparation of orders, the stocking of goods, the mechanization of shipping packaging, the traceability of goods before and after shipping and the transport of goods; training for the use of computer programs; training for the use of computer systems; training for the use and operation of computer equipment.

Class 42

(1) Design and development of logistics software, design and development of logistics software for chain management, design and development of logistics software, for the management of supply chains and e-commerce portals; computer consulting and programming, namely computer security advice, computer programming consulting, computer programming; software as a service (SaaS) in the field of the management of the logistics chains of shuttle systems for the stocking and destocking of light loads; design, development and implementation of software; analysis for the implementation of computer systems; computer engineering services; project management in the field of computer engineering namely design, development and manufacture of computer systems related to the management of warehouses and logistics platforms for the stocking and destocking of light loads; engineering related to computer technology for data processing, namely the collection, conversion, use, formatting, removal and retrieval of data in the field of logistics chain management for the stocking and destocking of light loads and for warehouse management; design of packaging and wrapping materials; design and testing of packaging and wrapping materials; mechanical engineering, chemical engineering and logistical engineering in the field of the management of warehouses and shuttle systems for the stocking and destocking of light loads.

Class 05

(3) Pharmaceutical and veterinary preparations for the treatment of colon, gastro-intestinal and upper bowel diseases, illnesses and conditions; medical preparations, namely, a drug delivery

system comprising polymer-based oral tablets for the continuous release of a wide variety of therapeutic agents; veterinary preparations, namely a drug delivery system comprising polymer-based oral tablets for the continuous release of a wide variety of therapeutic agents; adjuvants for use with vaccines; drug delivery agents in the form of coatings, lacquers and glazes for pharmaceutical, veterinary and dietary preparations that facilitate the delivery of a wide range of pharmaceuticals; chemical preparations for medical, pharmaceutical, veterinary and hygienic purposes, namely, drug delivery agents consisting of compounds that facilitate delivery of a wide range of pharmaceuticals; chemical preparations for veterinary purposes, namely, drug delivery agents consisting of compounds that facilitate delivery of a wide range of pharmaceuticals; chemical preparations for sanitary purposes, namely cleansing solutions for the sanitization of medical instruments; esters for pharmaceutical purposes, namely cellulose esters, food esters, esters made of amino acids and gallic acid in particular binders for use in pharmaceuticals and food; diagnostic biomarker reagents for medical purposes; medical diagnostic reagents and assays for testing body fluids; in vitro diagnostic preparations for medical use; gamboge for medical purposes; chemico-pharmaceutical preparations, namely, drug delivery agents in the form of a coating in granule, powder, aqueous solution and organic solution form to facilitate the delivery of a wide range of pharmaceuticals; surgical implants comprised of living tissues; capsules for medicines, namely, capsules sold empty for pharmaceuticals; dietetic foodstuffs and preparations for medical and veterinary purposes namely, dietetic sugar for medical or veterinary use; dietary supplements and dietetic preparations, namely, nutritional supplements for general health and well-being; dietetic substances consisting of vitamins, minerals, amino acids and trace elements for medical purposes; infant formula; medical plasters; materials for wound dressings; material for stopping teeth, dental wax; all purpose disinfectants; preparations for destroying noxious animals; fungicides; herbicides; drug delivery agents in the form of lacquers and glazes for pharmaceutical and veterinary preparations that facilitate the delivery of a wide range of pharmaceuticals.

Services

Class 40

(1) Treatment of materials, namely processing and formulation of chemical and pharmaceutical polymers for the manufacture of chemical, pharmaceutical and veterinary preparations; custom manufacture of chemical, pharmaceutical and veterinary preparations for others by means of microencapsulating techniques; treatment of materials, namely processing and formulation of biodegradable polymers for medical applications, in particular tissue replacement, bone formation and bone fixation as well as for the manufacture of chemical, pharmaceutical and veterinary preparations; treatment of materials, namely processing and formulation of chemical and pharmaceutical preparations for the controlled release of active ingredients in chemical, pharmaceutical and veterinary preparations; treatment of materials, namely processing and formulation of chemical and pharmaceutical preparations used for surgical, medical, dental and veterinary apparatus and instruments as well as diagnostic apparatus for medical use and apparatus for use in medical analysis; treatment of materials, namely processing and formulation of biodegradable polymers for the manufacture of artificial limbs, artificial implants, stents, syringes for medical purposes, catheters, cannulae, acupuncture needles, surgical needles, artificial limbs, eyes and teeth, medical guidewires, orthopedic articles, suture materials.

Class 42

(2) Scientific and technological services, namely, research and design in the field of chemical reagents and pharmaceutical development; industrial research services in the field of chemical and pharmaceutical products; design and development of computer hardware and software;

technological consultancy relating to technical research in the field of the manufacture of chemical, pharmaceutical and veterinary preparations using chemical and pharmaceutical polymers; technological consultancy relating to technical research in the field of the use of biodegradable polymers for medical applications; technological consultancy relating to technical research in the field of chemical and pharmaceutical research and development and preparation of related reports; materials testing and analysis; chemist services; engineering services, namely, chemical engineering, biochemical engineering, engineering consultancy relating to the manufacture of pharmaceuticals; scientific bacteriological and chemical laboratory services; consultancy in the field of physics.

Class 44

(3) Medical services, namely medical counselling regarding medication, medication usage and medication side effects; veterinary services; agriculture, horticulture and forestry services; pharmaceutical services in field of the manufacture of pharmaceuticals.

Trademark Description

The mark consists of the stylized wording "UNICO TWIST FIT SYSTEM" wherein the terms "UNICO" and "SYSTEM" appear in gray, the letters "T", "W", "S" and "T" in the term "TWIST" appear in blue and white while the letter "I" appears in red and white, the letters "F" and "T" in the term "FIT" appear in blue and white, and the letter "I" appears in red and white. A curled bi-directional arrow encloses the term "FIT" wherein the left side of the arrow is blue, the right side of the arrow is red, and the middle portion of the arrow is gray. All of the foregoing appears on a white background.

Colour Claim

Colour is claimed as a feature of the trademark. The colours blue, red, gray, and white are claimed as a feature of the trademark. The terms "UNICO" and "SYSTEM" appear in gray, the letters "T", "W", "S" and "T" in the term "TWIST" appear in blue and white while the letter "I" appears in red and white, the letters "F" and "T" in the term "FIT" appear in blue and white, and the letter "I" appears in red and white. The left side of the bi-directional arrow is blue, the right side of the arrow is red, and the middle portion of the arrow is gray. There is a white background.

Disclaimer

The right to the exclusive use of the words "TWIST FIT SYSTEM" is disclaimed apart from the trademark.

Foreign Character Translation

The translation provided by the applicant of the word "UNICO" is "ONLY" or "SINGLE".

Class 09

Computer software and computer hardware for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; computer software and computer hardware for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; computer software and computer hardware; computer software for construction process management on a cloud computing platform; software for satellite navigation systems; computer software for Global Positioning Systems [GPS]; computer programs and computer software for operation, control, maintenance, diagnosis, management and processing data pertaining to the operation, control, maintenance, diagnosis and management of industrial robots; computer programs for position management, operational status management and provision of information for maintenance management of metalworking machines and tools, construction machines and apparatus, mining machines and apparatus, civil engineering machines and apparatus, and loading-unloading machines and apparatus, machines and apparatus for forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs and apparatus, measuring and testing machines and instruments, automobiles; computer programs for generating construction data related to construction services in the fields of civil engineering and building construction; computer programs for processing data pertaining to civil engineering and building construction; pre-recorded computer programs and pre-recorded computer software reproducing in 3D, model-making, editing, measuring, graph-excluding and data-transferring to other applications for use in civil engineering and building construction; computer software for creating and drawing 2D and 3D construction graphics; computer software platforms for construction process management in the fields of civil engineering and build construction; computer programs for construction process management in the fields of civil engineering and building construction; electronic machines, apparatus and their parts, namely, electrical controllers for controlling engines, transmissions, pumps, motors, and hydraulic cylinders

of construction machines, electronic power controllers used to control power consumption, electronic speed controllers; telecommunication machines and apparatus, namely, telephones, cellular telephones, smart phones, VOIP phones; satellite navigation systems; global positioning system (GPS) apparatus consisting of computers, computer software, transmitters, receivers, and network interface devices; global positioning system (GPS) transceivers; camcorders; digital cameras; measuring and testing machines and instruments for regulating and monitoring position and battery power levels, operational status and maintenance information, and wear of underbody components of metal working machines, construction machines, loading-unloading machines, namely, cranes, forklifts, conveyors and wheel loaders, mining machines, agricultural machines, and forest machines; optical measuring apparatus, namely, optical sensors for measuring distance, motion, speed, proximity, and location; measuring apparatus for three-dimensional shapes, namely, computer hardware, cameras, projectors and line lasers for measuring 3D figures and images by using a method of triangulation using two cameras, or one camera and projectors, or one camera and line lasers, for use in production site; photographic apparatus and instruments, namely, photographic cameras, photographic projectors; cameras; optical machines and apparatus, namely, optical amplifiers, optical cables, optical disc drives, optical character readers, optical sensors, optical switches, optical transceivers, optical transmitters; power distribution and control machines and apparatus, namely, electrical power distribution boxes, power distribution panels, and power modules for sequential control; rotary converters; phase modifiers; electrical cells, namely, electrolytic cells, lithium-ion cells and galvanic cells; electric wires and cables; sensors for measuring position and battery power level, operational status and maintenance information of metalworking machines, construction machines, loading-unloading machines, namely, cranes, forklifts, conveyors and wheel loaders, mining machines, agricultural machines and implements, forest machines; radio signal antennas, radar antennas, microwave antennas; humanoid robots with artificial intelligence; information retrieval support robots, not for industrial, medical, playing purposes, namely, telepresence robots; teaching robots for use in teaching in the fields of business, computing, early childhood education, humanities, language arts, languages, law, math, music, primary education, and science, not for industrial, medical, playing purposes; laboratory robots; security surveillance robots.

Services

Class 35

(1) Business administrative management, namely, construction process management for operating computer systems and computer-controllable apparatus regarding computerised construction; operating computers and computer systems, namely, construction process management; business administrative management, namely, construction process management for operating computers and computer systems; business efficiency expert services; business process re-engineering; business efficiency expert services; statistical analysis and reporting for business purposes; compilation of statistical information for business and commercial purposes, namely, business and market performance statistics; providing statistical information for business and commercial purposes, namely, business and market performance statistics; business consulting and information services in the fields of sales and marketing; business planning and consulting services in the fields of sales and marketing; business management; business project management services for construction projects; compilation and input of information into computer databases for business and commercial purposes, namely, business and market performance statistics; collection, systematization, compilation and analysis of business data and information stored in computer databases for business and commercial purposes, namely, business and market performance statistics; database management; systemization, updating and maintenance of data in computer databases; collating of data in databases; systematization of information in

databanks; analysis of business data for business and commercial purposes, namely, business and market performance statistics; marketing research and analysis; bookkeeping and filing of forms; clerical services; intermediation services of office communications via telephones and emails; marketing, namely, conducting market analysis, market studies and market research; promoting the goods and services of others; commercial intermediation services, namely, mediation of contracts for purchase and sale of products for others; intermediation services for the purchase and sale of used automobiles, used constructing machines including crane trucks and power shovels, used loading-unloading machines and apparatus, used mining machines and apparatus, used waste compacting machines and apparatus, used waste crushing machines, used metalworking machines and tools, and used apparatus and instruments for use in forestry; promoting the goods and services of others via the Internet and other media; presentation of companies, namely, advertising of the goods and services of others on the Internet and other media; provision of an online marketplace for buyers and sellers of goods and services; advertising and publicity services, namely, advertising by transmission of online publicity for third parties on the Internet; rental of advertising space and advertising material; providing commercial information and advice for consumers in the choice of products and services in the field of building construction and civil engineering; providing consumer information in the field of building construction and civil engineering; retail services and wholesale services for computer software and computer hardware; retail services and wholesale services for electrical generating machinery and apparatus; retail services and wholesale services for construction machines and apparatus for building and construction of roads, bridges and dams; retail services and wholesale services for loading-unloading machines and apparatus and parts and attachments thereof; retail services and wholesale services for civil engineering machines and apparatus and parts and attachments thereof; retail services and wholesale services for metalworking machines and apparatus and parts and attachments thereof; retail services and wholesale services for mining machines and apparatus and parts and attachments thereof; retail services and wholesale services for machines and apparatus for forestry and parts and attachments thereof; retail services and wholesale services for agricultural machines and agricultural implements, other than hand-operated and parts and attachments thereof; retail services and wholesale services for waste compacting machines and apparatus and parts and attachments thereof; retail services and wholesale services for waste crushing machines and apparatus and parts and attachments thereof; retail services and wholesale services for waste and trash separator machines and parts and attachments thereof; retail services and wholesale services for snow ploughs and apparatus and parts and attachments thereof; retail services and wholesale services for measuring and testing machines and instruments and parts and attachments thereof, namely for regulating and monitoring position and battery power levels, operational status and maintenance information, and wear of underbody components of metal working machines, construction machines, loading-unloading machines, namely, cranes, forklifts, conveyors and wheel loaders, mining machines, agricultural machines, and forest machines; retail services and wholesale services for automobiles and parts and attachments thereof; retail services and wholesale services for industrial robots and parts and attachments thereof; retail services and wholesale services for Global Positioning System [GPS] apparatus and parts and attachments thereof; retail services and wholesale services for GPS transceivers and parts and attachments thereof.

Class 37

(2) Construction of civil engineering structures and building construction featuring computerized construction technology using telecommunication via computer and providing construction information relating thereto; construction of civil engineering structures and building construction and providing construction information relating to thereto; consultation in building construction, civil

engineering structures construction and underground structures construction; supervision of building construction, civil engineering structures construction and underground structures construction; repair and maintenance of building equipment, namely, machinery for building construction; repair, maintenance and remodeling of construction machines and apparatus; providing location information regarding construction machines and apparatus to allow remote monitoring for construction purposes; providing operational status information regarding construction machines and apparatus to allow remote monitoring for construction purposes; providing operational status information regarding construction machines and apparatus to allow remote monitoring for repair and maintenance purposes; providing location information regarding construction machines and apparatus to allow remote monitoring for repair and maintenance purposes; providing maintenance status information regarding construction machines and apparatus to allow remote monitoring for maintenance purposes; rental of construction machines and apparatus and parts and attachments thereof; repair, maintenance and remodeling of loading-unloading machines and apparatus; providing location information regarding loading-unloading machines and apparatus to allow remote monitoring for construction purposes; providing operational status information regarding loading-unloading machines and apparatus to allow remote monitoring for construction purposes; providing location information regarding loading-unloading machines and apparatus to allow remote monitoring for repair and maintenance purposes; providing operational status information regarding loading-unloading machines and apparatus for repair and maintenance purposes; providing maintenance status information regarding loading-unloading machines and apparatus to allow remote monitoring for maintenance purposes; repair, maintenance and remodeling of civil engineering machines and apparatus; providing information regarding location and operational status of civil engineering machines and apparatus for construction purposes; providing information regarding location and operational status of civil engineering machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of civil engineering machines and apparatus; rental of civil engineering machines and apparatus and parts and attachments thereof; repair, maintenance and remodeling of metalworking machines and apparatus; providing information regarding location and operational status of metalworking machines and apparatus for construction purposes; providing information regarding location and operational status of metalworking machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of metalworking machines and apparatus; repair, maintenance and remodeling of mining machines and apparatus; providing information regarding location and operational status of mining machines and apparatus for construction purposes; providing information regarding location and operational status of mining machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of mining machines and apparatus; rental of mining machines and apparatus and parts and attachments thereof; repair, maintenance and remodeling of machines and apparatus for forestry; providing information regarding location and operational status of machines and apparatus for forestry for construction purposes; providing information regarding location and operational status of machines and apparatus for forestry for repair and maintenance purposes; providing information regarding maintenance of machines and apparatus for forestry; repair, maintenance and remodeling of agricultural machines and agricultural implements, other than hand-operated; providing information regarding location and operational status of agricultural machines and agricultural implements, other than hand-operated for construction purposes; providing information regarding location and operational status of agricultural machines and agricultural implements, other than hand-operated for repair and maintenance purposes; providing information regarding maintenance of agricultural machines and agricultural implements, other than hand-operated; repair, maintenance and remodeling of waste compacting machines and apparatus; providing information regarding location and operational status of waste compacting

machines and apparatus for construction purposes; providing information regarding location and operational status of waste compacting machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of waste compacting machines and apparatus; repair, maintenance and remodeling of waste crushing machines and apparatus; providing information regarding location and operational status of waste crushing machines and apparatus for construction purposes; providing information regarding location and operational status of waste crushing machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of waste crushing machines and apparatus; repair, maintenance and remodeling of waste and trash separator machines; providing information regarding location and operational status of waste and trash separator machines for construction purposes; providing information regarding location and operational status of waste and trash separator machines for repair and maintenance purposes; providing information regarding maintenance of waste and trash separator machines; repair, maintenance and remodeling of snow ploughs and apparatus; providing information regarding location and operational status of snow ploughs, snow throwers and snow blowers for snow removal purposes; providing information regarding location and operational status of snow ploughs, snow throwers and snow blowers for repair and maintenance purposes; providing information regarding maintenance of snow ploughs and apparatus; rental of snow ploughs and apparatus and parts and attachments thereof; repair, maintenance and remodeling of measuring and testing machines and instruments; providing location information regarding measuring and testing machines and instruments to allow remote monitoring for construction purposes; providing operational status information regarding measuring and testing machines and instruments to allow remote monitoring for construction purposes; providing location information regarding measuring and testing machines and instruments to allow remote monitoring for repair and maintenance purposes; providing operational status information regarding measuring and testing machines and instruments to allow remote monitoring for repair and maintenance purposes; providing maintenance status information regarding measuring and testing machines and instruments to allow remote monitoring for maintenance purposes; repair, maintenance and remodeling of automobiles; providing information regarding location and operational status of automobiles for construction purposes; providing information regarding location and operational status of automobiles for repair and maintenance purposes; providing information regarding maintenance of automobiles.

Class 39

(3) Providing GPS and GNSS (Global Navigation Satellite System) information regarding construction machines and apparatus for transportation purposes; providing transportation information regarding operational status of construction machines and apparatus to allow remote monitoring for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) information regarding loading-unloading machines and apparatus to allow remote monitoring for transportation purposes; providing operational status information regarding loading-unloading machines and apparatus to allow remote monitoring for transportation purposes; providing location information regarding civil engineering machines and apparatus for transportation purposes; providing operational status information regarding civil engineering machines and apparatus for transportation purposes; providing location information regarding metalworking machines and apparatus for transportation purposes; providing operational status information regarding metalworking machines and apparatus for transportation purposes; providing location information regarding mining machines and apparatus for transportation purposes; providing operational status information regarding mining machines and apparatus for transportation purposes; providing location information regarding machines and apparatus for forestry for transportation purposes; providing operational status information regarding machines

and apparatus for forestry for transportation purposes; providing location information regarding agricultural machines and agricultural implements, other than hand-operated for transportation purposes; providing operational status information regarding agricultural machines and agricultural implements, other than hand-operated for transportation purposes; providing location information regarding waste compacting machines and apparatus for transportation purposes; providing operational status information regarding waste compacting machines and apparatus for transportation purposes; providing location information regarding waste crushing machines and apparatus for transportation purposes; providing operational status information regarding waste crushing machines and apparatus for transportation purposes; providing location information regarding waste and trash separator machines for transportation purposes; providing operational status information regarding waste and trash separator machines for transportation purposes; providing location information regarding snow ploughs, snow throwers and snow blowers for transportation purposes; providing operational status information regarding snow ploughs, snow throwers and snow blowers for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) information regarding measuring and testing machines and instruments to allow remote monitoring for transportation purposes; providing transportation information regarding operational status of measuring and testing machines and instruments to allow remote monitoring for transportation purposes.

Class 42

(4) Provision and rental of computer software for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer hardware for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; provision and rental of computer software for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer hardware for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer software and computer hardware; cloud computing, namely, providing software as a service (SaaS) services featuring software for controlling and programming metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring and testing machines and instruments, automobiles, and industrial robots; provision and rental of operating software for accessing and using a cloud computing network; design and development of operating software for accessing and using a cloud computing network; electronic storage of data, drawings, documents, digital photographs, music, images, video and electronic data by cloud computing; provision and rental of software for satellite navigation systems; provision and rental of computer software for Global Positioning Systems [GPS]; provision and rental of computer programs and computer software for operation, control, maintenance, diagnosis, management and data processing of industrial robots; provision and rental of computer programs for position management, operational status management and provision of information for maintenance management of metalworking machines and tools, construction machines and apparatus, mining machines and apparatus, civil engineering machines and apparatus, and loading-unloading machines and apparatus, machines and apparatus for forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs and apparatus, measuring and testing machines and

instruments, automobiles; provision and rental of computer programs for generating construction data related to construction services; electronic data storage and data back-up services; computer programming for information management; maintenance of database software; platform as a service (PaaS) featuring computer software platforms for construction process management; development of computer platforms; hosting platforms on the Internet and other communication networks; providing computer programs on data networks, namely, providing software as a service (SaaS) services featuring software for controlling and programming metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring and testing machines and instruments, automobiles, and industrial robots; rental of computer programs on data networks; computer software design, computer programming and maintenance of computer software; technological advice relating to operation of computer programs; technological advice relating to computers, automobiles and industrial machines; technological advice relating to operation of machines, namely, metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring and testing machines and instruments, automobiles, and industrial robots; technical urban project planning; testing and research services, namely, quality control for others relating to machines, apparatus and instruments; designing of new products in the field of machines, apparatus, instruments, including their parts, and systems composed of such machines, apparatus and instruments; design and development of computer hardware, software and databases; design of building construction, civil engineering structures and underground structures and consultancy relating thereto; design of civil-engineering construction and building construction and consultancy relating thereto; development and creation of computer programs for data processing; data encryption and decoding services; technical data analysis services, namely, data mining, computer programming and computer modelling for data analysis; industrial research, testing and analysis services, namely, quality control for others; engineering surveying services; testing, technical data-analysing and measuring regarding civil engineering and building construction; rental of measuring and testing machines and instruments and parts and attachments thereof; scientific analysis and consultancy of consumed fuel, fuel level and operating data of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, civil-engineering machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs and apparatus, measuring and testing machines and instruments, and automobiles; scientific analysis and consultancy of consumed power, charge level and operating data of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, civil-engineering machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs and apparatus, measuring and testing machines and instruments, and automobiles; energy auditing; consultancy in the field of energy efficiency; consultancy in the field of energy-saving; construction planning services.

JAXXON

Trademark Description

The mark consists of the stylized text "JAXXON". The second "X" in the mark is highly stylized, and consists of a diagonal slash traveling from top left to bottom right, with an upwards pointing triangle with horizontal base in the bottom left corner of the letter, and a downwards pointing triangle with a horizontal base in the upper right of the letter. Negative space to the left and right of the diagonal slash create an illusion that the triangles in the letter are connected, all so that the two triangles and slash together form the image of a highly stylized letter "X".

Colour Claim

Colour is claimed as a feature of the trademark. The logo consists of a beige rectangular box as the background with the word "Planet" in navy blue in the center of the logo. The word "Pure" in beige letters is located to the right of the word "Planet" and is contained in a navy-blue rectangular box. The phrase "Crafted with Sustainable Materials" is navy blue and is located underneath the words "Planet Pure".

Colour Claim

Colour is claimed as a feature of the trademark. The colours red and white are claimed as a feature of the mark. The outline of the woman's head and the horizontal line under the word "REPAIR" are white. All wording is depicted in white, with the exception of the word "STEP", which is red on a small white rectangular background. The large rectangular background is in various shades of red.
