Trademarks Journal

2023-11-08 — Vol. 70 No. 3602

Trademarks Journal

Vol. 70 No. 3602

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Computer software, namely downloadable and recorded computer software for use as a data management platform (DMP), to develop trading strategies, to download and display advertising, to purchase digital advertising, to purchase advertising in an automated fashion, including through use of a demand side platform (DSP), to sell advertising in an automated fashion, including through use of a supply side platform (SSP), for use as cross-site advertiser analytics, for use as single-site publisher analytics, for use in real-time bidding, to build, operate and evolve real-time trading platforms all for use in the field of on-line advertising and real time electronic media trading; computer programs, namely, downloadable computer programs, recorded, for use as a data management platform (DMP), to develop trading strategies, to download and display advertising, to purchase digital advertising, to purchase advertising in an automated fashion, including through use of a demand side platform (DSP), to sell advertising in an automated fashion, including through use of a supply side platform (SSP), for use as cross-site advertiser analytics, for use as single-site publisher analytics, for use in real-time bidding, to build, operate and evolve real-time trading platforms all for use in the field of on-line advertising and real-time electronic media trading; computer software platforms, namely, downloadable and recorded computer software platforms for on-line advertising and real-time electronic media trading

Services

Class 35

(1) Advertising agency services; business management; business administration services and consultancy; office functions, namely, secretarial and clerical services; advertising and direct marketing of the goods and services of others and developing promotional campaigns for others

services; online advertising of the goods and services of others; online advertising for others via a computer communications network; provision of advertising space, time and electronic media on websites for the products and services of others; distribution of advertising, marketing and promotional material for others; dissemination of advertising for others via an on-line communications network on the internet; advertising, marketing and promotional consultancy, advisory and assistance services, namely, advertising and business management advisory and consultancy services, business marketing consulting services, and operational business assistance services to others; consumer information services, namely, providing commercial information and advice for consumers in the choice of products and services; auctioneering services; providing online auction services; providing an online auction exchange between digital advertisers and publishers for trading electronic media; business administration and management services; business administrative consulting services; business consultancy and advisory services in the field of business strategy, management, marketing, operations, structure, efficiency; providing business management information services online from a global computer network on the internet.

Class 38

(2) Telecommunications, namely wireless electronic transmission of voice messages, streaming video, digital photographs and electronic mail; telecommunication services, namely, providing internet access via broadband optical or wireless networks; computer communication and provision of internet access, namely, electronic transmission of real-time electronic media trading data and documents among users of computers; access to content, namely, providing access to websites and portals for the purposes of advertising the goods and services of others; rental of access time to global computer networks; message sending, namely, instant messaging services; providing access to databases

Class 42

(3) Scientific and technological services, namely, research and design of computer software in the field of online advertising and real-time electronic media trading; industrial analysis and research services in the field of online advertising and real-time electronic media trading; design and development of computer hardware and software; information technology IT services, namely, consultancy in the design and development of computer hardware, software and peripherals; IT programming services in the nature of computer programming; computer systems integration services; information technology engineering services, namely, creating and designing website-based indexes of information for others [information technology services]; software development, programming and implementation; computer programming services; computer programming consultancy; computer software installation and maintenance services; software customization services, namely, design and writing of computer software to the specification of others; installation and customization of computer applications software, namely, design and writing of computer application software to the specification of others; hosting services, namely, website hosting services; software as a service [SaaS], namely, hosting software for use by others for use as a data management platform (DMP), to develop trading strategies, to download and display advertising, to purchase digital advertising, to purchase advertising in an automated fashion, including through use of a demand side platform (DSP), to sell advertising in an automated fashion, including through use of a supply side platform (SSP), for use as cross-site advertiser analytics, for use as single-site publisher analytics, for use in real-time bidding, to build, operate and evolve real-time trading platforms all for use in the field of online advertising and real-time electronic media trading; rental of software for use by others for use as a data management platform (DMP), to develop trading strategies, to download and display advertising, to purchase digital advertising, to purchase advertising in an automated fashion, including through use of a

demand side platform (DSP), to sell advertising in an automated fashion, including through use of a supply side platform (SSP), for use as cross-site advertiser analytics, for use as single-site publisher analytics, for use in real-time bidding, to build, operate and evolve real-time trading platforms all for use in the field of online advertising and real-time electronic media trading; cloud computing providing software for use as a data management platform (DMP), to develop trading strategies, to download and display advertising, to purchase digital advertising, to purchase advertising in an automated fashion, including through use of a demand side platform (DSP), to sell advertising in an automated fashion, including through use of a supply side platform (SSP), for use as cross-site advertiser analytics, for use as single-site publisher analytics, for use in real-time bidding, to build, operate and evolve real-time trading platforms all for use in the field of on-line advertising and real-time electronic media trading; hosting of digital content on the internet, namely, hosting on-line web facilities for others; hosting of websites; information technology consultancy, advisory and information services in the field of on-line advertising and real-time electronic media trading; rental of web servers; providing virtual computer systems and virtual computer environments through cloud computing

Goods

Class 09

Computer software for data integration, data transformation, data quality management, big data and data analytics, data security, data management, and data governance in the field of product information management, namely consumer demographics, consumer purchasing statistics and product development, manufacturing, distribution, marketing and retail information; computer software for integrating applications and databases across on premise and internal and global computer networks; computer software for protecting sensitive and confidential information from unauthorized access and securely delivering data for processing; software for use for electronic communication and for use for wireless communication, namely to facilitate business communications for sharing files, postings, memoranda, documents, instant messaging, calendar synchronization, and to enable users to access, link to and search online databases; electronic manuals sold with the abovementioned goods; computer software designed for creating customer access to online catalogues containing information about products and services; computer software for development and implementation of business rules and exception handling; computer software for creating visibility across data sources including identifying and creating a single view of critical data

Services

Class 35

(1) Business management, advertising the goods and services of others, via local and global computer networks; online retail department store services collection, compilation and systematisation of information in computer databases, arranging exhibitions of goods for commercial purposes via local and global computer networks, namely on-line advertising the goods of others on computer communications networks; providing business information via local and global computer networks, relating to carrying out analyses which reveal the demands and the expectations of the customer

Class 42

(2) Computer programming; programming, design, development, analysis, implementation, installation, integration, maintenance, updating and repair of computer programs, software and mobile applications for others; deployment, namely, design and development of computer programs, software and mobile applications for others for distribution of multimedia contents; provision of information in the field of computer software design, computer software installation, computer software development, computer systems design, computer systems software installation, computer systems development, computer programming and cloud computing via a website; software as a service [SaaS] for use in data integration and data transformation in the field of product information management, namely consumer demographics, consumer purchasing statistics and product development, manufacturing, distribution, marketing and retail information; technical consultation and technical support in connection with computer software and hardware; computer consultation in the field of computer security, integration of computer systems and computer networks; scientific industrial design services; graphic design of electronic catalogues for use both via internal and external computer networks, namely graphic design of searchable contents for use in others' online and electronic catalogues

Goods

Class 06

(1) Iron and steel; metal materials for building or construction, namely, materials of metal for railway construction, metal reinforcement materials for building, gratings of metal, fences of metal, hinges of metal, doors of metal, door handles of metal, pillars of metal for building, windows of metal, window frames of metal, gates of metal; paint spraying booths of metal; metal moulds for forming cement products; metal pulleys, springs and valves [not including machine elements], namely, window pulleys, sash pulleys, valve springs, metal laminated leaf-springs, manually operated ball valves of metal, metal valves for controlling the flow of gases in pipelines, manually operated butterfly valves of metal; metal junctions for pipes; metal flanges; keys of metal; cotter pins; metal hardware, namely, cut nails, nails, metal wedge sockets, metal pegs, metal washers, nuts of metal, metal hardware screws, metal upholstery tacks, metal plugs for baths, sinks and showers, bolts of metal, rivets of metal, screw rings, chains of metal, furniture casters of metal, lock bolts, bicycle locks, locks of metal for vehicles, metal keys for locks, split rings of common metal for keys, padlocks; industrial packaging containers of metal; metal stepladders and ladders; tool boxes of metal, empty

Class 07

(2) Metalworking machines and tools; loading-unloading machines and apparatus, namely, cranes, unloading cranes, pneumatic conveyors, screw conveyors, chain conveyors, belt conveyors, roller conveyors, winches, electric pulley blocks, escalators, elevators lifts, power jacks; chemical processing machines and apparatus, namely, kneading machines for chemical processing, blending machines for chemical processing, dust collecting machines for chemical processing, sintering machines for chemical processing, sorting machines for chemical processing, granulating machines for chemical processing, extracting machines for chemical processing, emulsifying

machines for chemical processing, calcining machines for chemical processing, separating machines for chemical processing, grinding mills for chemical processing, dissolving machines for chemical processing; food or beverage processing machines and apparatus, namely, cereal processing machines, ice cream dispensing machines being vending machines, electric meat grinders, fish paste making machines, machines for flaking dried fish meat, canning machines; lumbering, woodworking, or veneer or plywood making machines and apparatus, namely, lumbering band saws, chain saws, circular saws for woodworking, sanding machines for woodworking, tenoning machines, wood lathes, wood milling machines, wood sawing machines, machines for manufacturing veneers, machines for cutting plywood; pulp making, papermaking or paper-working machines and apparatus, namely, computer numerical control [CNC] machine tools for papermaking machines; printing or bookbinding machines and apparatus, namely, intaglio printing machines, typesetting machines, photogravure printing presses, matrices for use in printing, photo-engraving machines, bookbinding machines for industrial purposes, typographic presses, planographic printing machines; painting machines and apparatus, namely, computer numerical control [CNC] machine tools for painting machines, industrial paint agitating machines, power operated paint sprayers; packaging or wrapping machines and apparatus, namely, computer numerical control [CNC] machine tools for packing machines, robotic arms for packaging, computer numerical control [CNC] machine tools for wrapping machines; plastic processing machines and apparatus, namely, compression moulding machines, extrusion moulding machines, injection moulding machines, plastics molding machines; semiconductor manufacturing machines and systems, namely, semiconductor making machines, robots and robotic arms for semiconductor manufacturing; machines and apparatus for manufacturing rubber goods, namely, rubber vulcanizing presses, rubber mixing machines, rubber forming machines, rubber mixing rolls being parts of rubber mixing machines, molds being parts of machines for use in the manufacture of rubber goods; pneumatic or hydraulic machines and instruments, namely, vacuum pumps, rotary blowers, air compressors; repairing or fixing machines and apparatus, namely, machines used to repair and fix kneading machines for chemical processing, blending machines for chemical processing, dust collecting machines for chemical processing, sintering machines for chemical processing, sorting machines for chemical processing, granulating machines for chemical processing, extracting machines for chemical processing, emulsifying machines for chemical processing, calcining machines for chemical processing, separating machines for chemical processing, grinding mills for chemical processing, dissolving machines for chemical processing, compression moulding machines, extrusion moulding machines, injection moulding machines, plastics molding machines, semiconductor manufacturing machines and systems, cranes, unloading cranes, pneumatic conveyors, screw conveyors, chain conveyors, belt conveyors, roller conveyors, winches, electric pulley blocks, escalators, elevators lifts, power jacks, lumbering band saws, chain saws, circular saws for woodworking, sanding machines for woodworking, tenoning machines, wood lathes, wood milling machines, wood sawing machines, machines for manufacturing veneers, machines for cutting plywood, packing machines, sheaf-binding machines, bottle sealing machines, wrapping machines, rubber vulcanizing presses, rubber mixing machines, rubber forming machines, rubber mixing rolls being parts of rubber mixing machines, molds being parts of machines for use in the manufacture of rubber goods, wood grinding machines, pulp refining machines, papermaking machines, paper cutting machines, paper reeling machines, corrugated paperboard making machines, paper bag making machines, intaglio printing machines, typesetting machines, photogravure printing presses, matrices for use in printing, photo-engraving machines, bookbinding machines for industrial purposes, typographic presses, planographic printing machines, vacuum pumps, machine bellows, air compressors, cereal processing machines, ice cream dispensing machines being vending machines, electric meat grinders, fish paste making machines, machines for flaking dried fish meat, canning

machines, painting machines, colour-washing machines, paint spray gun, compressed air guns for the extrusion of mastics, paint spraying machines, tarring machines, and air brushes for applying wall paints; shafts, axles or spindles, machine elements not for land vehicles; bearings, machine elements not for land vehicles; shafts, couplings or connectors, machine elements not for land vehicles, namely, cam shafts, crank shafts, loom shafts, couplings for machines, coupling for machine tools, shaft couplings for machines, bearings being parts of machines; power transmissions and gearing, machine elements not for land vehicles; shock absorbers, machine elements not for land vehicles; springs, machine elements not for land vehicles, namely, spring shock absorbers for machines, spring-assisted hydraulic shock absorbers for machines; brakes, machine elements not for land vehicles, namely, brakes for industrial machines; valves, machine elements not for land vehicles; waste compacting machines and apparatus for industrial purposes; waste crushing machines and apparatus for industrial purposes; starters for motors and engines; AC motors and DC motors, namely alternating current servo motors, direct current motors, electric motors for machines; AC generators [alternators]; DC generators; dynamo brushes

Class 08

(3) Tweezers; braiders [hand tools], namely, electric hair braiders; bladed or pointed hand tools; hand tools [other than carpenters' inkpots and their accessories, razor strops, sharpening steels and whetstones]

Class 09

(4) Mathematical instruments, namely, math coprocessors; time and date stamping machines; time clocks [time recording devices]; punched card office machines; voting machines; postage stamp checking apparatus; fire extinguishers; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas alarms; anti-theft warning apparatus, namely, personal security alarms, burglar alarms; protective helmets, namely, solderers' helmets, protective safety helmets for use on the job site; laboratory apparatus and instruments, namely, laboratory incubators, laboratory glassware, furnaces for laboratory experiments; optical machines and apparatus, namely, telescopes, telescope tripods, periscopes, binoculars, telescope lenses, microscopes, magnifying glasses, metallurgical microscopes, biological microscopes, polarizing microscopes, stereoscopes, microscopes lenses; measuring or testing machines and instruments, namely, thermosensitive temperature indicators strips, gasometers, water meters, tape measures, planimeters, measuring rules, manometers, spirit levels, tachometers, accelerometers, photometers, hygrometers, noisemeters, speedometers, calorimeters, concentration meters, dynamometers, protractor gauges, spherometers, interferometers, screw-thread measuring machines and instruments, comparators, surface roughness testing machines and instruments, automatic indicators of low pressure in tires, automatic electronic control valves for regulating the flow of gases and liquids, fluid flow meters, sensors for determining temperature, meters for internal combustion engines, laboratory balances, pressure gauges, illuminometers, speed meters, viscosimeters, metal hardness testing machines, digital laser levels; power distribution or control machines and apparatus, namely, power switches, electric relays, circuit breakers, electronic servo motor controllers, current rectifiers, electrical power connectors, electric circuit closers, electric capacitors, electric resistors, distribution boxes for electrical power, fuses for electric current, lightning arresters, electric transformers; rotary converters; batteries and cells, namely, general purpose batteries, dry cells, capacitors; electric or magnetic meters and testers, namely, phase indicators, circuit testers, meters for measuring electrical voltage, magnetometers, frequency meters, meters for measuring electrical resistance, voltmeters, wavemeters, ammeters, wattmeters, oscillators; electric wires and cables; electric buzzers; telecommunication machines and apparatus, namely, telephones, changeover switches for telecommunication apparatus, manual telegraph apparatus, teletypewriters, automatic telegraph apparatus, teleprinters, facsimile

transmission machines, facsimile machines, intercoms, telephone sets, audio recorders; computers; computer peripherals, , namely, computer keyboards, modems, computer mouse, computer printers, computer scanners, computer speakers; magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes, namely, graphite electrodes; gloves for protection against accidents; dust masks; gas masks; welding masks; fireproof garments; spectacles [eyeglasses and goggles]; electronic publications in the nature of catalogues, pamphlets, books, manuals and newsletters

Services

Class 35

Retail services or wholesale services for clothing; retail services or wholesale services for footwear; retail services or wholesale services for bags and pouches; retail services or wholesale services for electrical machinery and apparatuses, namely, metalworking machines and tools, coal cutter loaders, coal-cutting machines, oil-well pumping machines, rock drills, well drilling machines, mining drill sharpeners, mine borers, coal loaders, truck mills for mining purposes, coal ploughs, excavating machines, truck cranes, power shovels, earth augers, pile drivers, pile extractors, graders, earth moving scrapers, bulldozers, road rollers, concrete placing machines, concrete vibrators, concrete paving machines, concrete mixers, asphalt paving machines, asphalt mixers, mud dredging machines, cranes, unloading cranes, pneumatic conveyors, screw conveyors, chain conveyors, belt conveyors, roller conveyors, winches, electric pulley blocks, escalators, elevators lifts, power jacks, fish-netting machines, robots and robotic arms for industrial fishing, kneading machines for chemical processing, blending machines for chemical processing, dust collecting machines for chemical processing, sintering machines for chemical processing, sorting machines for chemical processing, granulating machines for chemical processing, extracting machines for chemical processing, emulsifying machines for chemical processing, calcining machines for chemical processing, separating machines for chemical processing, grinding mills for chemical processing, dissolving machines for chemical processing, raw silk processing machines, machines for synthesizing fibers, yarn spinning machine, looms, knitting machines, felt carding and felt milling machines, textile dyeing machines, cereal processing machines, ice cream dispensing machines being vending machines, electric meat grinders, fish paste making machines, machines for flaking dried fish meat, canning machines, lumbering band saws, chain saws, circular saws for woodworking, sanding machines for woodworking, tenoning machines, wood lathes, wood milling machines, wood sawing machines, machines for manufacturing veneers, machines for cutting plywood, wood grinding machines, pulp refining machines, papermaking machines, paper cutting machines, paper reeling machines, corrugated paperboard making machines, paper bag making machines, intaglio printing machines, typesetting machines, photogravure printing presses, matrices for use in printing, photo-engraving machines, bookbinding machines for industrial purposes, typographic presses, planographic printing machines, sewing machines, harrows, agricultural plows, power tillers, rice transplanting machines, fertilizer distributing machines, reapers, tedding machines, threshing machines, hay binding machines, stem crushing machines, straw-mat looms, fodder cutting machines, fodder mixing machines, cake-fodder crushing machines, power-operated weed cutters, shoe making machines, leather tanning machines, tobacco processing machines, glassware manufacturing machines, robots and robotic arms for glassware manufacturing, painting machines, colour-washing machines, paint spray gun, compressed air guns for the extrusion of mastics, paint spraying machines, tarring machines, air brushes for applying wall paints, packing machines, sheaf-binding machines, bottle sealing machines, wrapping machines, power-operated potters' wheels, compression moulding machines, extrusion moulding machines, injection moulding machines, plastics molding machines, semiconductor manufacturing machines and systems, rubber vulcanizing presses, rubber mixing

machines, rubber forming machines, rubber mixing rolls being parts of rubber mixing machines, molds being parts of machines for use in the manufacture of rubber goods, stone working machines, robots and robotic arms for stone working, vacuum pumps, rotary blowers, air compressors, adhesive tape dispensing machines, automatic stamping machines, vending machines, fuel dispensing machines for service stations, dishwashers, electric parquet wax-polishers, washing machines [laundry], vacuum cleaners, electric food blenders for household purposes, , machines used to repair and fix kneading machines for chemical processing, blending machines for chemical processing, dust collecting machines for chemical processing, sintering machines for chemical processing, sorting machines for chemical processing, granulating machines for chemical processing, extracting machines for chemical processing, emulsifying machines for chemical processing, calcining machines for chemical processing, separating machines for chemical processing, grinding mills for chemical processing, dissolving machines for chemical processing, compression moulding machines, extrusion moulding machines, injection moulding machines, plastics molding machines, semiconductor manufacturing machines and systems, cranes, unloading cranes, pneumatic conveyors, screw conveyors, chain conveyors, belt conveyors, roller conveyors, winches, electric pulley blocks, escalators, elevators lifts, power jacks, lumbering band saws, chain saws, circular saws for woodworking, sanding machines for woodworking, tenoning machines, wood lathes, wood milling machines, wood sawing machines, machines for manufacturing veneers, machines for cutting plywood, packing machines, sheaf-binding machines, bottle sealing machines, wrapping machines, rubber vulcanizing presses, rubber mixing machines, rubber forming machines, rubber mixing rolls being parts of rubber mixing machines, molds being parts of machines for use in the manufacture of rubber goods, wood grinding machines, pulp refining machines, papermaking machines, paper cutting machines, paper reeling machines, corrugated paperboard making machines, paper bag making machines, intaglio printing machines, typesetting machines, photogravure printing presses, matrices for use in printing, photo-engraving machines, bookbinding machines for industrial purposes, typographic presses, planographic printing machines, vacuum pumps, machine bellows, air compressors, cereal processing machines, ice cream dispensing machines being vending machines, electric meat grinders, fish paste making machines, machines for flaking dried fish meat, canning machines, painting machines, colour-washing machines, paint spray gun, compressed air guns for the extrusion of mastics, paint spraying machines, tarring machines, air brushes for applying wall paints, mechanical parking systems, vehicle washing installations, power sprayers for disinfectants, insecticides and deodorants [not for agricultural purposes], shock absorbers for machines, spring shock absorbers for machines, spring-assisted hydraulic shock absorbers for machines, brakes for industrial machines, butterfly valves being parts of machines, shaft couplings for machines, bearings being parts of machines, lawnmowers, curtain drawing devices electrically operated, electric door openers, waste compacting machines and apparatus for industrial purposes, waste crushing machines and apparatus for industrial purposes, starters for motors and engines, alternating current servo motors, direct current motors, electric motors for machines, AC generators [alternators], DC generators, and dynamo brushes; retail services or wholesale services for building materials; retail services or wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; retail services or wholesale services for printed matter, namely, catalogs, pamphlets, books, manuals, and newsletters; retail services or wholesale services for kitchen equipment, cleaning tools and washing utensils; retail services or wholesale services for bladed or pointed hand tool; retail services or wholesale services for hand tools, other than abrasive paper, abrasive cloth, abrasive sand, artificial pumice stones, polishing paper, polishing cloths, razor strops, sharpening steels and whetstones; retail services or wholesale services for metal hardware, other than dental materials, artificial tympanic membranes and prosthetics or fillings materials, not for dental use

Position

Visual Representation

Trademark Description

The trademark consists of a position of a sign applied to a three-dimensional bottle, as shown in the visual representation. The trademark is two-dimensional. The cork of the bottle is white. The neck of the bottle is wrapped in a gold band and consists of a white vertical rectangle placed in the center that has two black letter "M"s that interlock. To the left of the rectangle are violet stripes and to the right of the rectangle is a design that consists of violet wavy lines and red dots. Below that is a white and gold band. The face of the bottle consists of three vertical rectangular parts: 1) the left rectangular segment consists of violet and gold horizontal stripes; 2) the middle rectangular segment consists of the words "METHOD AND MADNESS" in black; and 3) the right rectangular segment consists of a design that has violet wavy lines and red dots with a gold background. At the base of the label is an orange banner and then a white horizontal rectangle that is divided up

by two thin black horizontal lines. Below that is a gold banner near, and below that is a narrow horizontal rectangle that has a vertical thin black line in the center. The bottle shown in dashed lines does not form part of the trademark but is included merely to show the positioning of a sign.

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, gold, violet, black, red and orange are claimed as a characteristic of the mark. The trademark consists of a position of a sign applied to a three-dimensional bottle, as shown in the visual representation. The trademark is two-dimensional. The cork of the bottle is white. The neck of the bottle is wrapped in a gold band and consists of a white vertical rectangle placed in the center that has two black letter "M"s that interlock. To the left of the rectangle are violet stripes and to the right of the rectangle is a design that consists of violet wavy lines and red dots. Below that is a white and gold band. The face of the bottle consists of three vertical rectangular parts: 1) the left rectangular segment consists of violet and gold horizontal stripes; 2) the middle rectangular segment consists of the words "METHOD AND MADNESS" in black; and 3) the right rectangular segment consists of a design that has violet wavy lines and red dots with a gold background. At the base of the label is an orange banner and then a white horizontal rectangle that is divided up by two thin black horizontal lines. Below that is a gold banner near, and below that is a narrow horizontal rectangle that has a vertical thin black line in the center.

Trademark Description

Beauty Pillow's description is the pillow makes you beautiful. Beauty is a combination of qualities, such as shape, colour, or form, that pleases the aesthetic senses, especially the sight and relating to or being something intended to enhance a person's physical attractiveness. Pillow is a bag or case made of cloth that is filled with feathers, down, or other soft material, and is used to cushion the head during sleep or rest. The mark consists of five full circle, and the "beauty pillow" text between two lines to the right-hand side . All have the same purple colour (RGB: 70, 46, 125). The colours purple is claimed as a feature of the mark. Purple colour's pantone code is 2612 U and RAL code is 4008. The mark consists of a stylized design of interconnected circles to the left of the wording BEAUTY PILLOW between two lines, all in purple. The smaller one full circle is located on the top of the two full circles, centred on top of them. The text is tangent to the top of the two full circles for the word "beauty" and tangent to the bottom for the word "pillow", exactly where the letter "p"'s tail ends at the bottom. The text "beauty pillow" fully scales to the size of the full circles, being tangent to the top end and the bottom end of the full circles. The font of the text is Gilroy. All letters are in miniscule.

Colour Claim

The logo have the same purple colour (RGB: 70, 46, 125). The colours purple is claimed as a feature of the mark and purple colour's pantone* code is 2612 U and RAL code is 4008. The mark consists of five full circle, and the "beauty pillow" text between two lines to the right-hand side. All have the same purple colour (RGB: 70, 46, 125). The colours purple is claimed as a feature of the mark. Purple colour's pantone* code is 2612 U and RAL code is 4008. The mark consists of a stylized design of interconnected circles to the left of the wording BEAUTY PILLOW between two

lines, all in purple. The smaller one full circle is located on the top of the two full circles, centred on top of them. The text is tangent to the top of the two full circles for the word "beauty" and tangent to the bottom for the word "pillow", exactly where the letter "p"s tail ends at the bottom. The text "beauty pillow" fully scales to the size of the full circles, being tangent to the top end and the bottom end of the full circles. The font of the text is Gilroy. All letters are in miniscule. *PANTONE is a registered trademark.

Disclaimer

Colour Claim

Colour is claimed as a feature of the trademark. The colour surrounding the design (logo) is black, and the inside is black and yellow ochre. The letters TD NDE are black except for the first D which is yellow ochre. The black is: PANTONE* #6 C. The yellow ochre is: PANTONE* #117. The logo consists of a black circle with three arrows which come out of the circle at the top right. The arrow at the centre is black, and the two other arrows are yellow ochre. An inverted yellow ochre crescent intersects the three arrows at the top. The inverted crescent appears outside the black circle except for the lower part of the yellow ochre crescent which is inside the black circle. The name TD NDE appears to the right of the logo. *PANTONE is a registered trademark.
