### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

### **Class 37**

(1) maintenance, repair and installation of satellite and microwave communications transponders used to transmit communications from a location to another location; maintenance, repair and installation of data communication, satellite communication and telecommunication computer hardware, namely, telecommunication and data networking hardware, namely, transponders, receivers, processors for transporting, processing and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; maintenance, repair and installation of electronic devices for testing production systems in the

electronics industry, electrical, electronic and electro-mechanical measuring and testing devices, namely, electroencephalogram (EEG), electrocardiogram (ECG), respiration, blood pressure, pulse oximeters for medical use, portable radios, vehicle radios management system for radio systems, security and privacy protection software, privacy screen protectors for cell phones for data security and privacy, computer network security and privacy services, namely, cryptography and ciphering software and hardware in cell phones, radio signal antennas, radios, base stations, namely, fixed stations that use radio waves to communicate with mobile phones, and mobile and radio networks, mobile phones, laptops and wearable computers in the form of smartphones, radio signal antennas, radios, base stations, namely, fixed stations that use radio waves to communicate with mobile phones, and mobile and radio networks, electroencephalogram (EEG) signal measuring devices and electrodes for medical use, electrocardiogram (ECG) signal measuring devices and electrodes for medical use, electromyography (EMG) measuring devices and electrodes for medical use, respiration measuring chest belts and electrodes for medical use, pulse oximeters and electrodes for medical use, electric or electronic sensors for acoustic, digital, concentration, frequency, luminance, capacitance, temperature, tolerance, and ampere for electric or electronic sensors, electronic devices being wireless portable radio, vehicle radio, mobile phones, laptops, wrist wearable electronic devices for testing wireless data, images and sound transmitting; maintenance and repair of ear phones, mobile phones, smartphones, portable MP3 and MP4 players, computer printers, tablet computers, parts and fittings thereof; maintenance, repair and installation of wireless telephone and network base stations, circuit boards, computers and computer hardware, parts and fittings thereof; maintenance, repair and installation of apparatus and instruments for data communication, satellite communication and telecommunication, namely, satellites, satellite processors, satellite aerials, electrical transformers, electric capacitors, change-over switches, computer cables, fibre optic cables, two-way radios, modems, mobile phones, smart phones and other wearable and portable electronic devices for capturing, receiving, collecting, recording, reading, displaying, organizing, editing, transmitting, sharing, manipulating and reviewing data, text, maps, images and sounds, namely, personal digital assistants and portable and wearable computers, electric and electronic sensors, namely, temperature sensors, pressure sensors, light sensors, sound sensors, skin conductance sensors, sensors for determining smells and tastes, velocity sensors, activity level sensors, stress level sensors, sensors for determining hours of sleep and hours of movement, liquid level sensors, timing sensors, volume sensors, distance sensors, height sensors, humidity sensors, sensors for determining light and chemical composition of liquids and body composition, heart rate sensors and neural activity sensors; maintenance, repair and installation of wearable computers incorporated into watches, glasses, headbands, gloves, bracelets, earrings, jewelry, helmets and contact lenses used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote-controlling, predicting, programming, and connecting to computer networks namely, mobile phones, smart phones, personal digital assistants, tablet computers, computers and portable computers, Global Positioning System (GPS) apparatus, instruments and devices, namely, global positioning system (GPS) consisting of computers, transmitters, receivers, and network interface devices, global positioning system (GPS) receivers, global positioning system (GPS) transmitters, computer and mobile phone chips, microprocessors, semi-conductors, smart cards, namely, integrated circuit cards, printed circuits, namely, printed circuit boards; maintenance, repair and installation of wearable computers incorporated into clothing, footwear, headgear, bags, textiles, fabrics, towels and all kinds of materials used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks, namely, mobile phones, smart phones, personal digital assistants, tablet computers, computers and portable computers, Global Positioning System (GPS) apparatus, instruments and devices, namely, global positioning system (GPS) consisting of

computers, transmitters, receivers, and network interface devices, global positioning system (GPS) receivers, global positioning system (GPS) transmitters, computer and mobile phone chips, microprocessors, semi-conductors, smart cards, namely, integrated circuit cards, printed circuits, namely, printed circuit boards; maintenance, repair and installation of microphones, headphones, headsets, computer batteries, computer battery chargers, computer and mobile phone cases and stands;

### **Class 38**

(2) providing access to a global computer network, providing access to a local computer network, namely, local area network, virtual private network; telephone services; local telephone services; long distance telephone services; wireless telephone services; satellite telephone transmission services; personal communication services; integrated services digital network (ISDN) services, namely, digital telephone services allowing the digital transmission of voice, video, text and email messages through digital telephone lines; providing internet access via wireless broadband networks for the electronic transmission of text messages, digital images, voice messages, music, movies, audio and video clips, pictures, photographs, video games, musical videos, film clips, films, podcasts over the internet, local area computer networks, virtual private networks and global computer networks; transmitting and receiving of voice messages, digital images, video messages and text messages over satellite telephone networks and wireless and wired computer networks; secured internet access provider services; providing access to the internet, providing access to global computer networks, and providing access to local computer networks, namely, local area networks (LANs) and providing virtual private network; technical consulting in the field of radio broadcasting, mobile radio telephone services; technical consultancy in the field of cellular networks; technical consulting services in the field of wireless communications, namely, digital messaging services, mobile phones; technological consultation in the field of wireless digital messaging services and wireless telephone services; technical consulting in the field of radio broadcasting, mobile radio telephone services;

### **Class 40**

(3) crease and scratch resistant treatment of metals, crease and scratch resistant treatment of plastics, crease and scratch resistant treatment for fabric fibres, and synthetic materials, namely, glass fibres, metallic fibres; scratch resistant treatment of metal and scratch resistant treatment of fabric fibers; custom assembling of computer and telecommunication equipment for others, namely, mobile phones, smart phones, computers, tablet computers, telephones, smart watches and computers incorporated into wearable wristbands and headbands; custom assembling of computers incorporated into jewelry, eye glasses, sports helmets and safety helmets; custom assembling of computers incorporated into wearable flexible plastic wrist bands; custom assembling of computers incorporated into clothing;

### **Class 42**

(4) mechanical engineering services, electrical engineering services; technical consulting in the field of hardware design, network design, testing and network management; consultancy in the design and development of computer hardware and software; technical consultancy in the field of computer hardware and software security; technical consultancy in the field of internet security; testing of products for others, namely, testing of two-way radio systems, mobile phones, computer networks, radio frequency identification tags; material testing for others; mechanical engineering design services, electrical engineering design services; overall project planning in the field of computer software and hardware processes; computer software and hardware project management services; engineering design services and technical consulting services in the field of mobile computers, computers and electronic calculators, internet tablets, computer operating

systems, and software design, computer software for global positioning systems in motor vehicles, computers for motor vehicles, namely, engine control units, GPS navigation, network products, namely, computer and telecommunication network servers, computer and cellular network switches, computer and cellular network bridges and computer networking hardware for voice, data or image transmission, wireless telephone network base stations and radio-frequency identification (RFID) readers; scientific and technological research in the field of wireless digital messaging, wireless telephone services, computer software and software applications for wireless telephones, wireless telephone security systems; scientific design and development of computer hardware and software; design and development of electronic data security systems and telecommunication hardware and software; scientific research in the field of wireless digital messaging, wireless telephone services, computer software and software applications for wireless telephones, wireless telephone security systems, scientific research in the fields of cardiology, neurology, physical rehabilitation, occupational health and sports medicine; design of computer network security hardware and software, design and testing of computer network security hardware and software for others, GPS and satellite navigators and navigation software, computer hardware and software for use in the field of radio broadcasting of news and entertainment, radio broadcasting channels, short-wave radio channels, computer network hardware and software and computer hardware and software for use in wireless telephones; industrial design; design and development of computer hardware and software; design and testing for the development of new products for others; providing quality assurance services in the field of new computer and mobile phone software development; providing quality assurance services in the field of new computer, mobile phone and cellular network hardware development; design, development, testing, research and quality assurance services in the field of wireless transfer of information and telecommunications, namely, wide area networks (WAN), local area networks (LAN), virtual private networks (VPN); server hosting; designing and updating software including encryption, anti-virus, content filtering and data security software for workstations, servers, network and Internet security; providing computer hardware and computer network security services; providing information in the field of electronic data security; installation and updating of computer software for wireless data management and transfer; installation and updating of computer software for automation and controlling machinery for use in automation production machines, automation and machine control and assembly automation; installation and updating of computer software for computer software, mobile phone software, encryption software, GPS-navigation and cartography systems software; installation and updating of software for security of workstations, servers, computer network and internet including encryption, anti-virus, content filtering and data security; web hosting services; installation, repair and maintenance of computer software and computer operating software; global positioning system (GPS) consisting of computer software and software for GPS-navigation and cartography systems, namely, computer software for displaying orders and driver locations on maps, map making software; maintenance, repair and installation of wearable computer operating software incorporated into clothing, footwear, headgear, bags, textiles, fabrics, towels and all kinds of materials used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks, namely, mobile phones, smart phones, personal digital assistants, tablet computers, computers and portable computers, Global Positioning System (GPS) apparatus, instruments and devices, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, global positioning system (GPS) receivers, global positioning system (GPS) transmitters, computer and mobile phone chips, microprocessors, semi-conductors, smart cards, namely, integrated circuit cards, printed circuits, namely, printed circuit boards; maintenance, repair and installation of computer servers for webhosting, operating software for computer terminals, computer servers, computer network use security, and Internet

use security, namely, message encryption, antivirus, content filtering and data security software;

### Colour Claim

Colour is claimed as a feature of the trademark. The outer ring of the circle is marigold. Inside that ring are the words "LITTLE RED RIVER CREE NATION" in marigold font on a crimson background. Inside that is another marigold ring. Inside the second marigold ring there is an indigo background. Over top of the indigo background is a crimson and white fox sitting on a chocolate brown hill outlined in marigold. Also on top of the indigo background are the faces of a chocolate bison with marigold horns and a grey nose and a white eagle with a marigold beak. Beneath the circle hang seven marigold and white feathers, outlined in crimson. There are small patches of crimson between the feathers where they adjoin the circle. The circle is outlined in crimson where the feathers are not touching the circle. Behind the outline of the feathers and the circle are two upright hatchets, crossed. The handles of the hatchets are marigold and the blades are crimson.

### Visual Representation

The logo for 'TransFame' is written in a black, cursive script. The letters are fluid and interconnected, with a slight shadow or outline effect that gives it a three-dimensional appearance. The 'T' is particularly large and stylized, and the 'F' has a long, sweeping tail that extends to the right.
