Trademarks Journal

Vol. 70 No. 3572

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The upper middle portion of the design element in the trade-mark is light blue; the lower middle portion and right and left portions of the design element are dark blue; the stylized 'H' within the design element is white; The terms 'Haltermann Carless' are black

Goods

Class 01

(1) Chemicals for use in industry, namely, brake fluids, anti-freezing and de-icing preparations, coolants for vehicle engines, drilling muds and aromatic solvents for industrial and commercial use; chemical preparations for manufacturing printing inks; chemicals for use in printing, namely industrial chemical solvents for printing inks; calibration fluids for parts production and testing of machines, for use in automotive, aviation, aerospace and printing industry applications; gaseous, liquid and solid hydrocarbons as chemical raw products for industrial and scientific purposes, for use in automotive, aviation, aerospace, pharmaceutical, building material, insulation material, small engine fuel, printing industry and colour printing manufacturing applications; solvents, in particular solvents based on petrochemicals and mineral oils, namely degreasing solvents for use in manufacturing processes; industrial chemical solvents, namely solvents for printing inks

(2) Chemicals for use in industry, namely, brake fluids, anti-freezing and de-icing preparations, coolants for vehicle engines, drilling muds and aromatic solvents for industrial and commercial use; chemical substances for preserving foodstuffs; chemical preparations for manufacturing printing inks; chemicals for use in printing, namely industrial chemical solvents for printing inks; detergents for industrial use and degreasing preparations for use in manufacturing processes; calibration fluids for parts production and testing of machines, for use in automotive, aviation, aerospace and printing industry applications; gaseous, liquid and solid hydrocarbons as chemical raw products for industrial and scientific purposes, for use in automotive, aviation, aerospace,

pharmaceutical, building material, insulation material, small engine fuel, printing industry and colour printing manufacturing applications; tanning substances for animal skins; adhesives for industrial purposes, namely adhesive cements; artificial resins, unprocessed; plastics, unprocessed; solvents, in particular solvents based on petrochemicals and mineral oils, namely degreasing solvents for use in manufacturing processes; industrial chemical solvents, namely solvents for printing inks; tempering and soldering preparations; drilling fluids

Class 04

(3) Reference fuels for testing engines and fuel system components therefor, for use in automotive, aviation, and aerospace applications; fuels, namely motor spirit, and illuminants, namely fuel gas, fuel oil, diesel fuel, alcohol fuel, lighting fuel, methylated spirits for fuel denaturated fuel alcohols; printing ink oils, namely oil distillates for the manufacture of printing inks for headset, sheetfed offset and coldset industrial printing applications; fuels derived from crude oil; ethanol fuels; mineral oils; industrial oils, namely fuel oils, all-purpose penetrating and lubricating oils, engine oils, heavy oils, light oils, motor oils, oils as additives to fuels; oils as additives to lubricants, oils as additives for colours and lacquers, hydraulic oils, spindle oils, cutting oils, grinding oils, and mould oils ; test oils for quality control of printing ink resins; specialty fuels for automotive, aviation, aerospace, and industrial machinery applications

(4) Aluminium rolling oils; reference fuels; drilling fluids; fuels, namely motor spirit, and illuminants, namely fuel gas, fuel oil, diesel fuel, alcohol fuel, lighting fuel, methylated spirits for fuel denaturated fuel alcohols; printing ink oils [industrial oils]; metalworking fluids in the nature of oils; candles and wicks for lighting; fuels derived from crude oil; ethanol fuels; lamp oils; mineral oils; industrial oils and greases; test and reference fuels; test oils for quality control of printing ink resins; spindle oils [industrial oils]; industrial lubricants; dust absorbing, wetting and binding compositions to control dust pollution; specialty fuels for automotive, aviation, aerospace, and industrial applications

Services

Class 35

(1) Retail and wholesale services in relation to chemical products, namely, brake fluids, anti-freezing and de-icing preparations, coolants for vehicle engines, drilling muds and aromatic solvents for industrial and commercial use, chemical substances for preserving foodstuffs, chemical preparations for manufacturing printing inks, chemicals for use in printing, namely industrial chemical solvents for printing inks, detergents for industrial use and degreasing preparations for use in manufacturing processes, calibration fluids for parts production and testing of machines, gaseous, liquid and solid hydrocarbons as chemical raw products for industrial and scientific purposes, tanning substances for animal skins, adhesives for industrial purposes, namely adhesive cements, unprocessed artificial resins, unprocessed plastics, solvents, in particular solvents based on petrochemicals and mineral oils, namely degreasing solvents for use in manufacturing processes, industrial chemical solvents, namely solvents for printing inks, tempering and soldering preparations, drilling fluids, Aluminium rolling oils, reference fuels for testing engines and fuel system components therefor, for use in automotive, aviation, and aerospace applications, drilling fluids, fuels, namely motor spirit, and illuminants, namely fuel gas, fuel oil, diesel fuel, alcohol fuel, lighting fuel, methylated spirits for fuel denaturated fuel alcohols, printing ink oils, metalworking fluids in the nature of oils, candles and wicks for lighting, fuels derived from crude oil, ethanol fuels, lamp oils, mineral oils, industrial oils and greases, test oils for quality control of printing ink resins, spindle oils, industrial lubricants, dust absorbing, wetting and binding compositions to control dust pollution, specialty fuels for automotive, aviation, aerospace, and industrial applications; online retail services and online wholesale services in relation to chemical

products, namely, brake fluids, anti-freezing and de-icing preparations, coolants for vehicle engines, drilling muds and aromatic solvents for industrial and commercial use, chemical substances for preserving foodstuffs, chemical preparations for manufacturing printing inks, chemicals for use in printing, namely industrial chemical solvents for printing inks, detergents for industrial use and degreasing preparations for use in manufacturing processes, calibration fluids for parts production and testing of machines, gaseous, liquid and solid hydrocarbons as chemical raw products for industrial and scientific purposes, tanning substances for animal skins, adhesives for industrial purposes, namely adhesive cements, unprocessed artificial resins, unprocessed plastics, solvents, in particular solvents based on petrochemicals and mineral oils, namely degreasing solvents for use in manufacturing processes, industrial chemical solvents, namely solvents for printing inks, tempering and soldering preparations, drilling fluids, Aluminium rolling oils, reference fuels for testing engines and fuel system components therefor, for use in automotive, aviation, and aerospace applications, drilling fluids, fuels, namely motor spirit, and illuminants, namely fuel gas, fuel oil, diesel fuel, alcohol fuel, lighting fuel, methylated spirits for fuel denaturated fuel alcohols, printing ink oils, metalworking fluids in the nature of oils, candles and wicks for lighting, fuels derived from crude oil, ethanol fuels, lamp oils, mineral oils, industrial oils and greases, test oils for quality control of printing ink resins, spindle oils, industrial lubricants, dust absorbing, wetting and binding compositions to control dust pollution, specialty fuels for automotive, aviation, aerospace, and industrial applications

Class 40

(2) Custom manufacturing of hydrocarbon-based chemicals for third parties; treatment of materials, namely processing of solid, liquid and gaseous hydrocarbons, mineral oils and hydrocarbon-based chemicals for industrial and scientific purposes

The translation provided by the applicant of the word(s) FENG and CHE is WINDMILL.

Foreign Character Transliteration

The transliteration provided by the applicant of the foreign character(s) is FENG and CHE.

Goods

Class 01

(1) Industrial chemicals and adhesives used in the processing and treating of minerals, ore, construction waste, metal, refuse and pulp; industrial chemicals used in the fields of mining, aggregates, oil and gas, recycling and pulp and paper; unprocessed artificial resins, unprocessed plastics; agricultural chemicals; tempering and soldering preparations; sulphur, sulphuric acid, sulphuric dioxide, foundry sand, ammonium sulphate, baryta, drilling mud for use in oil well drilling, coating, selenium and its compounds, chrome concentrate, mercury all for industrial, forestry, agricultural and scientific use; coatings and fillers, namely, polymer coating agents for paper and plastic industry; wood flour; fire extinguishing compositions; welding flux, welding chemicals, namely pickling pastes, pickling gels, neutralizing pastes, pre and post welding chemicals; industrial chemicals used for patination of metal; mineral and oil sands for industrial use; fertilizers; nanopowders created from minerals, ore, construction waste, metal, refuse and pulp all for use in manufacturing, in industry and science;

Class 02

(2) Industrial primers for protecting metal and steel surfaces of machinery and industrial equipment;

Class 06

(3) Steel balls being parts of machines; plates of metal, plates of metal for trommel screens and grinding mills, being parts of machines; sheet metal lining and liners for protection of surfaces in industrial machinery; bars for metal railings, metal bars for use in manufacture, hollow steel bars; unwrought or semi-wrought cones of metal; filling segments of metal being semi-processed metal for further manufacture; liners of metal for pipes, conveyors, bins, loading and unloading buckets, chutes, hoppers and tanks, all being equipment and machinery used in processing of raw materials and waste; metal parts of industrial machinery and conveyors, namely lifter bars, shell plates, cover plates, grates, hooks, fasteners, seals, crampons, threaded fasteners and pipes; pipes of steel for liquid and gas transfer; protective linings for industrial equipment for preventing wear and corrosion, namely linings for pipes, conveyors, bins, loading and unloading buckets, chutes, hoppers and tanks, all being equipment and machinery used in processing of raw

materials and waste, pre-fabricated bridges and ramps of metal for use in industrial facilities and mining facilities; metal railings and guard rails for use in industrial facilities and mining facilities; railway switches; metallic moulds for casting processed raw materials; steel alloys; stainless steels; non-electric cables and wires of common metal; common metal and their alloys; pellets of iron ores, chrome ores and common metals; ferrochrome, stainless steel, copper, zinc, nickel, aluminum and their alloys produced in rods, wires, pipes, tubes, wire bars, slabs, billets, sheets, strips, foils, coin blanks and token blanks, cartridge cups, cartridge and bullet blanks, hollow conductors form; stainless steel and nickel alloy filler metals; spelters and rods of common metals or their alloys for the welding industry; building materials of metal, namely sheets, panels, cladding, flashing, bars, partitions, chutes, hoppers, tanks, industrial sieves, platforms, exhaust stacks, vents, pillars; ores;

Class 07

(4) Centrifugal grinding mills; grinding mills for chemical processing and treatment of ore, minerals, construction waste, refuse and pulp; industrial machinery for processing and treating minerals, ore, construction waste, metal, refuse and pulp, namely grinding mills and parts therefore, namely, wear parts, mill trommels, plates for trommel screens, protective linings, screen panels, bars, filters, cones, filling segments, lifter bar, shell plates, head plates, grate plates, material filters, center cones, pulp lifters, impeller arms, screw liners, base liners, wall liners, door liners, baffles, corner liners, hold down bars, retaining screens, blades, valve pumps, grinding rolls and blades; industrial machinery for processing and treating minerals, ore, construction waste, metal, refuse and pulp, namely grinding mills and metal parts to protect against wear, namely plates, surface liners, bucket liners, pipe liners, conveyor liners, wear bars; mill trommels for mineral processing and parts for such mill trommels, namely protective linings, fastening bars, grates, life bars, filters, center cones, cover plates, shell plates, grate plates and head plates; screening panels and retaining screens used as parts of grinding mills and conveyors used to sort and process minerals, ore, construction waste, metal, refuse and pulp; screens and sieves all for use in vibratory screening machinery for raw material handling and sorting; rotating sieve cleaning brush; sieve trays for use in industrial machines used for sieving, screening, sorting and separating bulk materials; dust collecting machines for use in industrial facilities, namely air filters and vacuum and pressure filtration equipment for cleaning machinery; wear linings being parts of industrial grinding, screening, conveying and loading machines used to protect surfaces from damages; wear resistant linings, coverings, plates and bars being parts of mineral processing, aggregates, metals refining, mining and recycling machines; agitator blades and mixing blades in machines used to treat and process minerals, ore, construction waste, metal, refuse and pulp; seals for machines, namely pump seals, mechanical seals; loading buckets for machines; pulleys for machines; roller parts for conveyors, namely roller bearings, airflow regulators, hoods, housings, frames, sealing components, guiding components, roller guards, glide bars, glide blocks; controllers for conveyors for materials, casings, fixed inlets, hoses and pipes support structures and bars as parts of conveyors; conveyor idlers for machines; conveyor belts for machines; seals for machines; hoses and pipes as parts of minerals, ore, construction waste, metal, refuse and pulp processing machines; hoses and pipes for transferring slag, water, waste, pulp, and gas; valves for machines; grinding rolls; sizing machines; bulk material handling equipment and machines used in the processing and treatment of ore, minerals, construction waste, refuse and pulp industries and parts therefor, namely, rotary pumps and replaceable wear liners for rotary pumps, hydrocyclone separators and replaceable wear liners for hydrocyclone separators, replaceable protective liners for crushers, replaceable wear media, namely, screen media, screen side liners, screen feed liners, screen discharge liners, spray deflector nozzles, chute and hopper linings, spray pipe seals, log washer paddles, and tank and hopper liners, replaceable wear media for conveyor transfer

points, namely, impact liners, skirt board liners, belt cleaner inserts, buckets, and fugitive material seals, wear parts for fine material recovery systems, namely, pipes, hoses, sand tank valves, sand screw shoes, downspouts, discharge elbows, flume lining, pinch valve inserts, mixer liners, and flotation cell agitators and baffles, and trommel and scrubber wear parts, namely, screen panels, lifter bars, kicker paddles, spiral flights, baffle plates, and feed, discharge, and shell liners, all of the foregoing being machines and structural parts therefore; machines for removing waste materials during industrial processes; filtering machines used for the extraction of solid, liquid and gaseous substances from processed ore, minerals, construction waste, refuse and pulp; industrial machinery, namely dewatering machines used in mineral processing; industrial machinery, namely dewatering machines for removing water and liquids from processed ore, recycled materials, and pulp and paper mixtures; sedimentation machines used to remove sediment from processed minerals, ore, construction waste, metal, refuse and pulp; industrial machinery, namely waste compactors, aggregate compactors, processed mineral compactors, pulp and paper and replacement parts and components therefore; pneumatic compactors for use in material scrapping, mining and recycling facilities; feeding machines composed of roller and belt conveyors, robotic arms, sifting screens, and hoists for processing raw materials; industrial machinery and equipment for moving and conveying raw materials and waste, namely, loading machines, mobile transfer conveyors, conveyor bridges, transport crawlers, receiving hoppers, machines with throwers and chutes, machines used to move and empty bins of raw materials and waste; cranes; lifting equipment, namely elevators, hydraulic lifts, skid lifts, hydraulic hoists; railcar dumping and positioning machines for transporting and loading minerals in the field of mineral processing; reclaimers (machines); bulk material handling machinery for handling of raw materials, construction waste, metal, refuse and pulp, namely loading machines, mobile transfer conveyors, conveyor bridges, transport crawlers, skids, bin elevators and emptying machines, feeder hoppers, machines with throwers and chutes; industrial screening machines used to separate and screen minerals, ore, construction waste, metal, refuse and pulp during the processing and treatment of such materials; conveyors; waste and trash conveying machines; calcining machines for chemical processing of ore, minerals, construction waste, refuse and pulp; industrial machinery for crushing, shredding, shearing, pressing and for cutting minerals, ore, construction waste, metal, refuse and pulp; refuse and waste crushing machines; metal cutting machines with cutting tables; angle valves; back pressure valves being parts of machines; ball valves being parts of machines; check valves; control valves for regulating the flow of gases and liquids; dispensing valves being machine parts; hydraulic valve actuators; hydraulic valves being parts of machines; pneumatic valve actuators; pressure controllers being parts of machines, namely, valves; pressure regulating valves; pump control valves; safety valves; valves being parts of machines; valves being parts of pumps; valves for pumps; waste water pumps; pumps used in dewatering machines; butterfly valves (parts of machines); air filter cartridges for the separation of dust particulates in industrial facilities; industrial pollution control equipment consisting of air filters and air filter bags comprised of porous and microporous membranes, membrane bags and air filters for collecting dust, gasses and pollutant particulates in industrial facilities; heat exchangers used in industrial machinery; pumps as parts of machines, motors and engines, pumps for industrial machinery; water heaters [parts of machines]; boiler tubes being parts of industrial machinery; drain cocks; grindstones [parts of machines]; millstones; pump diaphragms; machine tools for removing impurities and waste material during the processing and treating of aggregates, ore, minerals, construction waste, refuse and paper pulp; casting machines for molten metal, upward continuous casting machines, casting wheels and take-off/bosh tank machines for anodes; rolling mills and rolling machines used for manufacturing metal tubes, pipes, rods, wires, wirebars, slabs, billets, sheets, strips and foils; machines for the preparation of starting sheets and anodes and unloading of anodes and cathodes; stacking machines for industrial facilities for stacking slabs and ingots; machines for

material treatment and forming of minerals, ore, construction waste, metal, refuse and pulp , namely, raw material and waste washing and classifying machines, scrubbers for cleaning materials; smelting furnaces, metallurgical smelting machines; machines for smelting of ore and metal; flotation machines for use in mineral processing for separating for liquid and solid materials; machines for preconcentration of ore; machines for physical separation of ore and minerals; machines for green anode plants and rodding shops; machines and mills for grinding and comminuting minerals, ore, construction waste, metal, refuse and pulp; machines for processing and treating oil and mineral sands for extraction of oil and minerals; thickeners and clarifiers for mineral, chemical and waste water industries namely thickener vats, pinned bed clarifiers and sludge bed clarifiers, classifiers and thickeners; machines for briquetting, pelletizing and sintering of materials; machines for direct smelting of iron ore; machines for producing sulphuric acid; machines for treating and reclaiming waste water generated from industrial processes; machines for cleaning gases namely gas scrubbers; machinery for cleaning industrial machinery namely de-waterers, conveyors, mechanical discharging hoppers and chutes; ore treating machines; machines for ion exchange and solvent extraction of materials from raw materials; machines for treating, transferring and conveying of molten slag and molten metal; machines for fire refining of ores and concentrates; machines for drying materials; welding electrodes;

Class 08

(5) Hand-operated hand tools.

Class 09

(6) Cameras; electronic valves for controlling fluids, slurries, solids and gas; electronic analyzers for analyzing industrial processes; signal processors for controlling and monitoring the function and operation of valves; electronic switches for controlling and monitoring the function and operation of valves; electronic, electro-pneumatic and electro-hydraulic valve actuators and positioners for industrial use; electronic analyzers, sensors and scales for weighing, measuring and analyzing industrial processes; plastic conduits for electrical use; electrical cables; electrical wires; electric conductors; optical profiles; digital maps; digital drawings; computer software for creating maps; predictive maintenance software; project management software; minicomputers and microprocessors for digital device for process control and management in mining and mineral technology, metallurgy and non-organic chemical industry; silicon wafers and cathodes; downloadable computer software for operating and monitoring industrial processes in the fields of mineral processing, aggregates, metals refining, mining and recycling industry; downloadable computer software for operating pumps; electronic controls for mineral processing, aggregates, metals refining, mining and recycling machines; testing apparatus for industrial use namely, for testing metal materials and material processing methods in the field of mineral processing, aggregates, metals refining, mining and recycling industries; pressure, humidity, gas flow, temperature, distance and thickness measurement apparatus; downloadable computer software for operating pressure, humidity, flow, temperature, distance and thickness measurement apparatus; electronic monitoring apparatus for monitoring mineral processing, aggregates, metals refining, mining and recycling machines; downloadable computer software for operating industrial process monitoring apparatus; electronic monitoring apparatus for monitoring operation of crushing machines; downloadable computer software for operating crushing machines; downloadable computer software, data processing equipment, and computers for controlling crushing process simulation; crushing apparatus being furnaces for laboratory use; electrical power distribution units; electronic liquid analyzers for industrial use; electronic and optical measurement apparatus for measuring distance; downloadable computer software for analyzing industrial processes; electronic tags for goods; downloadable computer software for controlling industrial processes; downloadable computer software, data processing equipment and computer hardware for

industrial testing and simulation; downloadable computer software, data processing equipment and computer hardware for operating and monitoring recycling machines; downloadable computer software, data processing equipment and computer hardware for controlling industrial processes; electronic and optical sensors and detectors for measuring industrial parameters in the nature of pressure, humidity, gas flow, temperature, distance and thickness; downloadable computer software for measuring, controlling and detecting industrial processes; electronic sensors, signal processors, electronic switches and electronic position transmitters for controlling and monitoring the function and operation of valves; safety solenoid valves; radio-frequency identification devices, namely, tags, labels and readers; flotation machines for testing flotation for laboratory use; electronic control valves for controlling gas, fluids and slurries; electronic, electro-pneumatic and electro-hydraulic valve actuators and positioners; electronic valve controllers for controlling gas or fluids; downloadable computer software for artificial intelligence, namely, software that uses artificial intelligence to evaluate and optimize industrial processes, and to design, develop, use and maintain mineral processing, aggregates, metals refining, mining and recycling machines; downloadable augmented reality software that uses augmented reality to evaluate and optimize industrial processes, and to design, develop, use and maintain mineral processing, aggregates, metals refining, mining and recycling machines; downloadable virtual reality software that uses virtual reality to evaluate and optimize industrial processes, and to design, develop, use and maintain mineral processing, aggregates, metals refining, mining and recycling machines; downloadable publications, namely, electronic magazines and newsletters in the field of mineral processing, aggregates, metals refining, mining and recycling machines; training manuals in electronic format, namely, downloadable training manuals in the field of mineral processing, aggregates, metals refining, mining and recycling machines; downloadable 3D computer graphics software; cloud computer software namely, software for enabling storage of documents on the cloud; downloadable optimization software for improving and evaluating the efficiency of mineral processing, aggregates, metals refining, mining and recycling machines; downloadable simulation software for industrial processes; optical, weighing, measuring, signaling, checking in the nature of supervising apparatuses and instruments for mining and mineral technology, metallurgy and non-organic chemical industry, namely, electronic analyzers for measuring pressure, humidity, gas flow, temperature, distance and thickness, sensors for sensing pressure, humidity, gas flow, temperature, distance and thickness and scales; testing and analyzing equipment, namely, x-ray and gamma ray apparatus for analyzing properties of minerals, metals, ore and waste; testing and analyzing equipment, namely, neutron-activated and electrochemical element analyzers for analyzing properties of minerals, metals, ores and waste; sensors and instruments for detecting and sensing metals and other materials, namely, minerals, metals, ores and waste; superconductor cables and copper anodes, namely, plastic conduits for electrical use, electrical cables, electrical wires, coaxial cables, electric conductors, optical profiles, commutator rods and electrical connectors of copper or copper alloys or tin alloys or nickel alloys;

Class 11

(7) Ash conveying installations in the nature of air and dust filtering installations; ash removal apparatus in the nature of air and dust filtering apparatus; cooling apparatus in the nature of air cooling apparatus and cooling units; drying apparatus used to dry output from mineral, metal, ore and waste processing; heating apparatus, namely, heaters and heat exchangers for mineral processing, aggregates, metals refining, mining and recycling industrial facilities; hydrating apparatus being humidifiers; incineration apparatus being incinerators; preheating and heating apparatus in the nature of preheaters for mineral processing, aggregates, metals refining, mining and recycling industries, not being parts of machines; rotary kilns; grates for furnaces for heat treatment; oil and gas burners for industrial use; steam generators; industrial boilers; electric

coolers; ventilators for industrial use; water and waste water control valves and pipes; boiler pipes [tubes] for heating installations; air purifying units for industrial purposes; oils as parts of distilling, heating or cooling installations; feeding apparatus being pipes for heating boilers; water, air and gas filters; filters for drinking water; gas condensers, other than parts of machines; gas scrubbing machines; level controlling valves in tanks; oil-scrubbing machines; purification installations for sewage; refining towers for distillation; furnace boilers; fluid bed incinerator units for reducing, calcining, and roasting of ores and residues; submerged combustion evaporation units being incinerators; fluid bed units for reduction, calcining and roasting of ores and residues; parts and fittings of refrigeration, air-conditioning and heating systems namely, pipes, filters, vents, tubes, boilers, manifolds, thermostats and wires; waste heat boilers; apparatus for cooling, smelting and melting furnaces namely, air conditioning and cooling installations; water purification machines, namely, machines for cleaning waste water; gas purification machines, namely, machines for cleaning gases;

Class 14

(8) Precious metals and their alloys; rods, wires, tubes, bars, billets, ingots, wirebars, slabs and sheets of precious metals; gold, silver, platinum, palladium and other precious metals and their alloys for raw and/or semi-processed goods;

Class 17

(9) Rubber sheets; rubber sheets for insulating purposes; rubber sheets for packing purposes; rubber sheets for sealing purposes; sheetings of polyurethane; rubber and polymer linings for machinery used in mining, construction, mineral processing and waste processing namely linings for metal and concrete storage tanks, truck beds, conveyors, silos, chutes and hoppers; polymer film coatings used on machinery for mining, construction, mineral processing and waste processing for the purpose of sound insulation and for protection from abrasives and corrosive materials; waterproof membranes of rubber; vibration damping materials of rubber; shock absorbing rubber buffers for industrial machinery; filtering materials of rubber used in the treating and processing of minerals, ore, construction waste, metal, refuse and pulp; bars, lifter bars, plates, cones, screen panels of rubber and polyurethane being parts of machines used for treating and processing minerals, ore, construction waste, metal, refuse and pulp; shell plates, head plates and grate plates of rubber being parts of machines used for treating and processing minerals, ore, construction waste, metal, refuse and pulp; filtering materials of rubber pulp used in the treating and processing of minerals, ore, construction waste, metal, refuse and pulp; rubber sleeves for protecting parts of machinery; rubber sleeves for protecting parts of machines; rings of rubber for use as pipe connection seals; rubber stoppers, seals and covers for industrial holding containers; stops of rubber; rubber hoses and pipes being parts of machinery used in mining, construction, mineral processing and waste processing; glass fiber filtering materials;

Class 24

(10) Filtering materials of textile fabric;

Services

Class 35

(1) Computerized database management; compilation and analysis of business data in the field of mining facilities, recycling facilities, metal refineries and mineral processing facilities; business management consultancy; advisory services and consultancy relating to business management in the fields of relating to the operations, materials output and profitability of mining facilities, recycling facilities, metal refineries and mineral processing facilities; strategic business planning; business management; business process management consultancy; business planning

consultancy; business process re-engineering services; business project management; business planning; analysis of business data and collection of data relating to the operations, materials output and profitability of mining facilities, recycling facilities, metal refineries and mineral processing facilities; compilation and systemization of information into computer databases; database management; business management services relating to information and data compiling and analyzing; retail sales and wholesale services featuring industrial machines, factory machinery and machine parts for mining facilities, recycling facilities, metal refineries and mineral processing facilities;

Class 37

(2) Installation, maintenance and repair services of metal and waste recycling machines; installation, maintenance and repair services of industrial machinery used to treat and process ore, minerals, construction waste and pulp, namely machines for crushing, screening, conveying, feeding, grinding, separating and bulk materials handling; installation, maintenance and repair services of valves, actuators, positioners, valve controllers, valve controls, limit switches, and solenoids as parts of industrial machinery and equipment used mining facilities, recycling facilities, metal refineries and mineral processing facilities; installation, maintenance and repair services of data processing equipment, computer hardware and electronic apparatus; supervision (building construction); burner maintenance and repair; boiler cleaning and repair; installation of machines and machine tools in mining facilities, recycling facilities, metal refineries and mineral processing facilities used for treating and processing metals, minerals and waste; installation, maintenance and repair of drilling and mining tools; installation, maintenance and repair of loading and unloading machines; installation, maintenance and repair of industrial coating machines; installation, maintenance and repair of industrial rolling mills and grinding mill machines; installation of working and building platforms for industrial plants; advisory services relating to the construction, maintenance and repair of industrial facilities and installations used for mining, raw materials processing and treatment and recycling facilities, providing advice and information on factory construction, and construction of waste and mineral processing facilities; building inspection in the course of building construction advisory services relating to the maintenance of industrial facilities; construction and modification of mines, concentrators and plants for metallurgy, energy producing, environmental protection and non-organic chemical industry; installation, maintenance and modification and repair of machines, apparatus and appliances used in mining and mineral industries, metallurgy, metal technology, municipal engineering and energy production, metal working, material technique and forming, environmental protection, water purification and non-organic chemical industry;

Class 38

(3) Operation of radio-frequency communications systems namely, radio communications; radio-frequency communications services namely, radio communications; providing access to and leasing access time to computer databases; provision of access to data via the internet; provision of access to data or documents stored electronically in central files for remote consultation;

Class 40

(4) Treatment and processing of minerals; chemical treatment of aggregates; chemical treatment of pulp and paper; treatment [reclamation] of industrial waste, namely oil and gas treatment, fuel treatment services; treatment of materials, namely fuel treatment of solid, liquid or gaseous hydrocarbons; treatment of metal and ore for recycling; chemical treatment of waste products, construction waste, metals and minerals; providing information relating to the treatment and processing of minerals, precious metals, minerals, oil and gas, pulp and paper; production of energy from waste, including chemical and industrial waste; treatment consulting services in the

field of metallurgy, metal and mineral working; consulting services in the field of energy production; rental of mineral processing machines; custom manufacturing of machines, apparatus and appliances used in mining and mineral technology, metallurgy, metal technology, municipal engineering and energy production, metal working, material technique and forming, environmental protection, water purification and non-organic chemical industry; water treating; waste recycling; metal recycling

Class 42

(5) Technical inspection services for industrial sites and facilities for mineral and ore treatment and processing, oil and gas treatment and processing, recycling, pulp and paper treatment and processing and monitoring and evaluating related industrial processes; industrial analysis and research services; quality control testing services for industrial machinery; quality control services namely, services for assessing the efficiency of industrial processes in the mining industry, the pulp and paper industry, raw materials processing and treatment and recycling and treatment of waste; mechanical, civil and chemical engineering and research services; environmental engineering services; engineering surveying; engineering testing namely, technical testing of mineral processing, metals refining and mining equipment to improve efficiency; testing of computer hardware and software; engineering design services namely designing mineral processing, metals refining, recycling and mining machine installations; civil engineering drawing services; advisory services relating to industrial engineering; engineering project management services in the fields of mining industry, oil and gas industry, pulp and paper industry; services in the field of developing industrial recycling equipment and facilities; providing technology information in the oil and gas industry; software engineering services; civil engineering planning services; computer programming; preparation of engineering reports relating to technical project studies for construction projects; computer analysis; computer system analysis; computer project management in the field of electronic data processing; computer project management services; computer security threat analysis for protecting data; computer software and hardware technical support services; computer diagnostic services; computer design and development services for the analysis of data; technical surveying; technical data analysis relating to the performance of industrial machinery in the field of treating and processing raw material, construction waste and refuse; water quality control services; technical design and planning of mineral processing plants, oil and gas treatment plants, aggregate recycling plants, pulp and paper treatment plants; technical air quality monitoring services, environmental monitoring services; computer system monitoring services; machine condition monitoring; monitoring of computer systems to detect breakdowns; monitoring of computer systems by remote access; monitoring of computer network systems; process monitoring for quality assurance; services for monitoring industrial processes for quality assurance in the fields of mineral processing, aggregates, metals refining, mining and recycling industries; technical supervision and inspection being quality assurance services in the field of mineral processing, aggregates, metals refining, mining and recycling industries; monitoring of network systems, servers and web and database applications development and testing of computing software; testing computer programming codes; services for assessing the efficiency of industrial processes; design and development of virtual reality software; design and development of augmented reality software; technical supervision, inspection and quality control evaluation services in the field of industrial facilities and machinery in the fields of mining, raw materials processing, construction waste and waste metal recycling; raw and recycled materials testing and evaluation; quality control testing services for industrial machinery; computer aided diagnostic testing services; technical diagnostic testing services relating to industrial processes, mineral processing, water treatment; technical advisory and consultancy services for industrial facilities in the fields of alternative energy generation, renewable energy; technological consulting services in

the field of mining and mineral technology, metal technology, municipal engineering, material technique and forming, environmental protection, water purification and non-organic chemical industry; design of mines, concentrators and plants for metallurgy, energy producing, environmental protection and non-organic chemical industry; remote computer backup services;

Colour Claim

Colour is claimed as a feature of the trademark. The colours blue, pink, black, and white are claimed as a feature of the mark. The mark depicts a hippopotamus facing away from the viewer. The head of the hippopotamus is turned back and to the left, over its left shoulder, to look at the viewer. The back legs and front left leg of the hippopotamus are visible. The body, head, and legs of the hippopotamus are blue with a gradient towards the lower right. Curved triangular shapes on the snout of the hippopotamus, giving the appearance of nostrils, are black. A curved line at the bottom of the snout, giving the appearance of a smile, is black. A white rectangle with rounded corners extends from the smile, giving the appearance of a tooth. Eyes of the hippopotamus are depicted by rounded white shapes towards the top of the head. The pupils of the eyes are black, and are located towards the right of each white shape. A pink oval, giving the appearance of a blushing cheek, is located below the right eye. Pink curved lines on the rear of the hippopotamus's body give the appearance of a rump. The words "Hello B" in serif text are located above the hippopotamus. The "B" is in a larger font than the "Hello". The words are black.

GEOGRAPHICAL INDICATION DETAILS

Montilla-Moriles

Indication type

Wine

Goods

Wine.

Territory

The area in which the grapes may be grown and the PDO processed comprises the municipalities of Montilla, Moriles, Doña Mencía, Montalbán, Monturque, Puente Genil and Nueva Carteya in their entirety and the municipalities of Aguilar de la Frontera, Baena, Cabra, Castro del Río, Espejo, Fernán Núñez, La Rambla, Lucena, Montemayor and Santaella in part.

Qualification

The quality and typical characteristics of the wines are marked by their connection to the human and natural factors of the geographical area, and by the complex interaction between those factors and their link to the wine. The vineyards are located in the south of the province of Córdoba. The climate which is classified as Mediterranean semi-continental, with hot, dry and long summers and short, relatively mild winters, influences the development of the vine, its phenological cycle, and the rapid ripening of the fruit, The soil is the factor that determines the vineyard's response, and therefore the composition of the grape at the vinification stage, under the strong influence of the area's climate. REGULATION (EU) No 1308/2013 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007. PDO-ES-A1479.pdf, Extract from the register of protected designation of origin and protected geographical indications established by article 104 of regulation (eu) no 1308/2013. OTHERS ACTS - EUROPEAN COMMISSION Publication of a communication of approval of a standard amendment to a product specification for a name in the wine sector referred to in Article 17 (2) and (3) of Commission Delegated Regulation (EU) 2019/33(2021/C 161 /05).
