Trademarks Journal

Vol. 71 No. 3642

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(2) Drives for machines, namely, drive belts, drive gears; machine parts, namely, transmission shafts for machines; construction machinery, namely, bulldozers, steam shovels, graders, excavators and steam rollers; mechanical apparatus and mechanical devices, namely, motor driven machines for the production of fabricated materials or products for the pharmaceuticals industry and food industry, chemical industry, fertilizer industry, cosmetic industry, namely, high-pressure processing machines for high-pressure processing of packaged food, namely, cereals, beverage, cosmetic and for mixing pharmaceuticals, for the production of meat products from raw meat, for obtaining extracts from organic materials such as spices, herbs and algae for new tastes and special ingredients, for treating food products in their final packages allowing to preserve vitamins, flavors and tastes, machines for the production of methanol, machines for the production of propylene oxide, machines for the production of chlorine gas and caustic soda, machines for the production of SCR urea and sulfur-enhanced urea, machines for the production of lactic acid, urea fertilizer solution based, urea ammonium nitrate fertilizer solution based and fluid bed urea granulation technology based fertilizer machines, machines for the production of synthetic fibers, polymer products, namely, synthetic plastics, fibers, rubber, fiber-polymer composites, polyester (PES) products and polyethylene terephthalate (PET) in the nature of polyester textiles and profile plates for use in the chemical industry; machines for the production of synthesis gas except gas producers for vehicles, namely, ammonium-extraction units, industrial chemical methanol-reactors, industrial chemical reactors for the production of synthesis gas; machines for steam generating; machines for processing of elastomers, gum and rubber, machines for the foodstuff industry,

namely, machines for oilseed processing, flaking mills, fluted breaker rolling mills, conditioners and screw presses, expellers, carousel or sliding bed extractors, steam reforming machines for the chemical industry, fertilizing machines for use in the chemical industry, compressors for the treatment of gases, pressure intensifier machines for the treatment of fluids, machines for the textile industry, namely, textile dyeing machines and structural fittings for all the aforesaid goods; fittings for engine boilers; lifts, other than ski-lifts, namely, wheelchair lifts, truck lifts, wagon lifts, car lifts, mechanical escalators and moving walkways, platform lifts, lifting platforms for people, machines, namely passenger bridges, moving staircases, stair lifts; structural parts for wheelchair lifts, truck lifts, wagon lifts, car lifts, escalators, moving walkways, platform lifts, lifting platforms for people, passenger bridges (machines), moving staircases [escalators], stair lifts; gas flow fluidizers, and their structural fittings, for fluidizing bulk material via gas flow to promote flow properties; industrial robots for welding, industrial robots for working glass, metal, wood and plastic materials; machine-driven lifting devices and machines for lifting goods, namely, cranes; machines for processing metal, wood and plastics, namely, continuous metal casting machines, cutting machines for metalworking, drilling machines for metalworking, extruding machines for metals, extrusion machines for plastic, forging machines, honing machines for metalworking, machines for fastening, extracting, processing and demolition of mineral materials, earth, rock, excavated material, used materials, ores, boulders and masonry, namely, tunnel boring machines, drills for the mining industry, electrical drills, radial drills, rock drills, well drilling machines, wood drilling machines, wrecking balls, electric hammers, hydraulic hammers, pneumatic hammers, power hammers, tilt hammers; machine tools for the metalworking industry, construction industry, food industry, plastics industry, oil and gas industry, ore and coal mining industries and cement industry, namely, metal-cutting machine tools, metal compressing machine tools, metal polishing machine tools, metal welding machine tools, metal lathing machine tools, metal cutting machine tools, metal ironing machine tools, wood lumbering machine tools, wood drilling machine tools, wood cutting machine tools, wood shaving machine tools, plastic welding machine tools, plastic pouring machine tools, plastic molding machine tools, plastic imprinting machine tools, plastic ironing machine tools, plastic compressing machine tools, machine tools for removing waste material; drilling machines for metalworking, drills for the mining industry, namely, radial drills and rock drills, well drilling machines, wood drilling machines; machines for positioning, aligning and holding work pieces, namely, mechanical work benches; machines for producing mortar and concrete for use in constructions, and prefabricated parts made therefrom, namely, walls, stairs, ceilings, floors and façade panels; machines for loading bulk material and general cargo, namely, conveyor cranes and cargo lifting derricks; welding electrodes; excavators; conveying machines; machines for treating molten metals, namely, continuous metal casting machines, machines for blowing oxygen through molten metals for steelmaking, furnaces used in secondary metallurgy to treat molten steel; electrical welding machines, namely, arc-welding and laser welding machines and their welding electrodes and welding wires; flaming machines for industrial purposes, namely, for flaming cold and warm metal materials, metal work pieces and semi-finished metal blocks, bars, coils, slabs and strips for the production of further metal products; gas-operated cutting blow pipes; mixing machines, namely, asphalt mixers, concrete mixers; milling machines; industrial machine presses; pumps and their structural fittings, namely, pressure test pumps, dosing pumps, ground water pumps, injection pumps, positive displacement pumps, pumps for pressing ram profiles, ram piles, ram tubes and sheet piles; electric beaters, namely, electric concrete stirring machines; machine motors and engines, namely, electric motors, engine motors, power tool motors and parts thereof, namely, air filters, cylinders, electric conductors, gas filters, gaskets, mufflers, oil filters, piston rings; turbines and their structural parts for the generation of electricity; gear boxes and their structural parts for use with industrial machinery, namely, mechanical transmission devices for gears, gear coupler housings, mechanical rotary devices for gears; gate

drives for machines and doors; piston rods (parts of machines); machine parts, namely, bearings; centrifuges (machines); railroad constructing machines, namely, stone compressing machines and stone spreading machines; printing machine parts, namely drums; electric starters for motors and engines; electric cold-start systems for motors and engines; ship and airplane engines and parts therefor; parts for non-land vehicle motors and engines, namely, electric starters for motors and engines, electric cold start systems for motors and engines, comprising cold start valves and cold start valve gaskets; fuel-producing machines, namely, machines for producing coke and their structural fittings therefor.

Class 09

(3) Physical, optical and electronic apparatus, namely, electronic controllers for furnaces and diesel engines comprising computer hardware, electronic agendas, electronic data integrators, electronic computing machines, namely computers and computer workstations comprising computers, monitors and printers, laboratory furnaces, laboratory ovens, optical condensers, optical data media, namely, blank optical disks, optical lanterns, optical pickups, optical range finders, automatic optical detectors, electronic conductors for motors and engines, acoustic transformers, current transformers, fuel cells, electronic connectors for circuit boards, electronic circuits, current transformers, ducting for electric cables, none of the foregoing goods for use with, or for eyeglasses or sunglasses; electricity conduits for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, optical reflectors, optical sensors, optical condensers, optical glass, optical scanners, optical disc drives, optical disk readers, optical fiber cables, computer hardware, electronic agendas and computer workstations, none of the foregoing goods for use with, or for eyeglasses or sunglasses; nautical, surveying, signaling and monitoring apparatus, namely, directional and magnetic compasses, signal lamps, signaling whistles, level measuring machines for surveying, lasers for surveying, magnetic compasses for surveying, nautical surveying instruments, namely, lasers, levelling rods, wind-direction indicators, anemometers; simulators for the steering and control of vehicles for civil and military applications; apparatus for recording, transmission, processing or reproduction of sound, images or data, namely, radios, televisions, compact disk players, tape recorders, telephones; computer software for use in collecting operational status data from construction and automated manufacturing machines and metalworking machines, in the field of transport and delivery, in the fields of automobile parts, energy, building construction, waste management, in the field of welding, in the field of mechanics, oil field exploration, in the field of chemistry, industrial robots, mechanical engineering, ore and coal mining industries and the cement industry, none of the foregoing for use in the ophthalmological field; fire extinguishers; checking (supervision) apparatus and instruments, namely, electrical monitoring and control systems for elevators, escalators, passenger conveyors, moving sidewalks, inclined platforms, vertical platforms, stairway lifts, boarding bridges, electrical monitoring and control systems for industrial machines, industrial production plants, steel mills, cement plants; industrial magnets; measuring apparatus and instruments, namely, leak testers, measuring apparatus for detecting the polarization of magnets, diagnostic apparatus for evaluating and determining errors during operation of elevators, escalators, passenger conveyors, moving sidewalks, inclined platforms, vertical platforms, stairway lifts, boarding bridges; electric/electronic control and regulating apparatus, namely, operational control panels, lighting systems and electrical industrial controls for industrial machines, for industrial plants, for industrial production sites, for steel mills, for cement plants, for conveyor systems in underground mines, for platform and stair lifts, for elevators, for escalators, for passenger boarding bridges and for system automation and robotics, electrical industrial controls for monitoring waste water treatment, electromechanical controls for airplanes, electromechanical controls for water heaters, electronic control systems for automobile brakes, electronic industrial controls for digital timers, electronic

industrial controls for motion failure detectors and fire alarm control panels; photovoltaic elements, namely solar collectors for generating electricity; life-saving apparatus and equipment, namely, lift hoists for removal of individuals from hazardous situations; sonars.

Class 12

(4) Vehicles, apparatus for locomotion by land, air and water, namely, automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons; parts for vehicles, boats, airplanes, ships, submarines and trains, namely, engines, gears, clutches, body components in the form of prefabricated metal blanks, chassis and running gear, bogies, components for wheel suspension and steering, axles, wheels and wheelsets, brake systems, chains, exhaust systems; metal automobile bodies; engines for land vehicles.

Services

Class 35

(1) Wholesale and retail sales of chemicals used in industry featuring chemicals for use in the manufacture of chemicals used with internal combustion engine fuels, synthetic resins used in the manufacture of plastic moulding compounds, engine-decarbonizing chemicals, chemical preparations for decarbonizing engines, radiator flushing chemicals, anti-boil preparations for engine coolants, fillers for car bodies, chemicals for producing metals and their alloys, manures, foundry sand, foundry moulding materials, namely, synthetic resins used in the manufacture of plastic moulding compounds, construction industry adhesives, adhesive packing tape for industrial use; wholesale and retail sales of ores, common metals and their alloys and products made therefrom featuring unwrought and semi-wrought common metals and their alloys and products made therefrom, namely, brazing rods, acoustic panels, metal tie bands, clad steel sheets and plates, tailor-welded blanks used in manufacture, branching pipes, drain pipes and fittings therefor, namely, clips of metal for pipes, pipe fasteners of metal, collars of metal for fastening pipes, junctions of metal for pipes, water-pipe valves of metal, tinsplate and blackplate, railway sleepers, rails and other track parts for railbound vehicles, namely, side guide rails and glide strips for magnetic suspension trains, timber, plank and trench sheeting, sheet piling, light sections, sheet pile crossbeams and fittings, flood sheet piling, box sheet piling, steel poles, staves, flat panel and steel profiles for shipbuilding, namely, steel angles, wide flange beams, steel channels, flat bars, steel T sections, half-round bars, corrosion-resistant, acid-resistant and heat-resistant flat steel products, namely, heavy plates and hot-rolled wide strips, nickel-based stainless steel alloys, titanium and titanium alloys, magnetic materials (electrical sheets), namely, grain-oriented electrical and magnetic steel materials, namely, laminated, wound and punched grain-oriented electrical steel sheets for large power transformers, distribution transformers, small transformers, current transformers, shunt reactors, wound cores, metal work platforms, temporary steel bridges, and scaffolding of metal and falsework and its parts, namely, formwork, metal pillars, beams, iron wire, metal cable wire, metal clothesline wire, metal wire fencing, non-electric cable ties and wires of common metal and ropes, wire mesh, metal sheets, weld filler materials, namely, soldering wire, welding rods, and cored, cast and pressed wires, slew bearings and roller bearings, sprockets, toothed wheels, worm wheel sets, industrial gear units, namely, extruder gears, storage and transport containers, prefabricated and collapsible transportable buildings and parts therefor, namely, container offices and workshops, houses, halls, garages, bridges, windows, doors, gates, and roof, cast metal ceiling and wall construction elements, namely, exterior façade cladding for buildings, interior wall and ceiling cladding for buildings, soldering materials, namely soldering wire, rods of metal for brazing, goods of common metal, namely, storage and transport metal containers, construction fittings in the nature of roof panels, facade panels, springs, windows, windowsills, window frames, grilles, cramps, used in the wind power plants industry and the

vehicle manufacturing industry, supports for propping up ships, running rails, nails, space trusses, screws, silos, gate and door frames, gates and doors, supporting structures, namely, metal mats for use as surface load supports in the construction industry, staircases, door panels, door handles, screw connection threads, wall panels, brackets, fences and parts therefor, fittings for the aforesaid goods, prefabricated metal sandwich panels used as window panels, door panels, parapet panels, partition walls and balcony cladding in the construction of buildings, stadiums, storage containers and boat and yacht construction, pipes and tubes of metal used in construction, namely, drain pipes, plumbing pipes and gutter pipes, pipes and tubes of metal used in the manufacture of machine parts, hydraulic cylinders, the exchange of pressurized and heated fluids and steam, pressure vessels, oil pipelines, water supply, drainage of water, the chemical industry and refineries, non-electric cables and wires of common metal, transportable metal buildings which can be dismantled for transportation, namely, prefabricated offices and workshops, houses, sheds and garages, metal building materials, namely, anchor drilling piles, anchors, angle irons of metal, armouring blinds, canal braces, canal sheeting, casings, ceiling- and roof-construction-elements in the nature of supports, beams, panels and shores, ceiling-and roof-panels, chamber plates, coils and slitted strips, covers, cramp, edge connectors, flat profiles, gutter and drain tubes, hooks, light profiles, nails, pins, plates, plumbing nails, press piles, profiles, ram piles, ram profiles, ram tubes, revetments, screw nails, screws, sealings, shaped pins, sheet piles, sheeting plates, sheetings, sheets, shields, strips, tube ceilings, tubes, wainscots, wall anchors, wall combinations made of ram profiles, wall-panels, wire, wire loops, metal scaffolding, metal shuttering for concrete and structural parts therefor, rails and railway points of metal, metal materials used in railway construction, namely, track parts for rail-bound vehicles, namely, side guide rails and glide strips for magnetic suspension trains, railway switches, fixtures of metal for guiding and gripping rail vehicles, being parts for railway rails, namely, fasteners for fastening rails, rail clips, metal grips; wholesale and retail services featuring drives for machines, namely, drive belts, drive gears, machine parts, namely, transmission shafts for machines, construction machinery, namely, bulldozers, steam shovels, graders, excavators and steam rollers, mechanical apparatus and mechanical devices, namely, motor driven machines for the production of fabricated materials or products for the pharmaceuticals industry and food industry, chemical industry, fertilizer industry, cosmetic industry, namely, high-pressure processing machines for high-pressure processing of packaged food, beverage, cosmetic and pharmaceutical products, for the production of meat products from raw meat, for obtaining extracts from organic materials such as spices, herbs and algae for new tastes and special ingredients, for treating food products in their final packages allowing to preserve vitamins, flavors and tastes, machines for the production of methanol, machines for the production of propylene oxide, machines for the production of chlorine gas and caustic soda, machines for the production of SCR urea and sulfur-enhanced urea, machines for the production of lactic acid, urea fertilizer solution based, urea ammonium nitrate fertilizer solution based and fluid bed urea granulation technology based fertilizer machines, machines for the production of synthetic fibers, polymer products, fiber-polymer composites, polyester (PES) products and polyethylene terephthalate (PET) in the nature of polyester textiles and profile plates for use in the chemical industry, machines for the production of synthesis gas except gas producers for vehicles, namely, ammonium-extraction units, industrial chemical methanol-reactors, industrial chemical reactors for the production of synthesis gas, machines for steam generating, machines for processing of elastomers, gum and rubber, machines for the foodstuff industry, namely, machines for oilseed processing, flaking mills, fluted breaker rolling mills, conditioners and screw presses, expellers, carousel or sliding bed extractors, steam reforming machines for the chemical industry, fertilizing machines for use in the chemical industry, compressors for the treatment of gases, pressure intensifier machines for the treatment of fluids, machines for the textile industry, namely, textile dyeing machines and structural fittings for all the aforesaid goods,

fittings for engine boilers, lifts, other than ski-lifts, namely, wheelchair lifts, truck lifts, wagon lifts, car lifts, mechanical escalators and moving walkways, platform lifts, lifting platforms for people, passenger bridges, moving staircases, stair lifts, structural parts for wheelchair lifts, truck lifts, wagon lifts, car lifts, escalators, moving walkways, platform lifts, lifting platforms for people, passenger bridges (machines), moving staircases [escalators], stair lifts, gas flow fluidizers, and their structural fittings, for fluidizing bulk material via gas flow to promote flow properties, industrial robots for welding, industrial robots for working glass, metal, wood and plastic materials, machine-driven lifting devices and machines for lifting goods, namely, cranes, machines for processing metal, wood and plastics, namely, continuous metal casting machines, cutting machines for metalworking, drilling machines for metalworking, extruding machines for metals, extrusion machines for plastic, forging machines, honing machines for metalworking, machines for fastening, extracting, processing and demolition of mineral materials, earth, rock, excavated material, used materials, ores, boulders and masonry, namely, tunnel boring machines, drills for the mining industry, electrical drills, radial drills, rock drills, well drilling machines, wood drilling machines, wrecking balls, electric hammers, hydraulic hammers, pneumatic hammers, power hammers, tilt hammers, machine tools for the metalworking industry, construction industry, food industry, plastics industry, oil and gas industry, ore and coal mining industries and cement industry, namely, metal-cutting machine tools, metal compressing machine tools, metal polishing machine tools, metal welding machine tools, metal lathing machine tools, metal cutting machine tools, metal ironing machine tools, wood lumbering machine tools, wood drilling machine tools, wood cutting machine tools, wood shaving machine tools, plastic welding machine tools, plastic pouring machine tools, plastic molding machine tools, plastic imprinting machine tools, plastic ironing machine tools, plastic compressing machine tools, machine tools for removing waste material, drilling machines for metalworking, drills for the mining industry, namely, radial drills and rock drills, well drilling machines, wood drilling machines, machines for positioning, aligning and holding work pieces, namely, mechanical work benches, machines for producing mortar and concrete for use in construction, and prefabricated parts made therefrom, namely, walls, stairs, ceilings, floors and façade panels, machines for loading bulk material and general cargo, namely, conveyor cranes and cargo lifting derricks, welding electrodes, excavators, conveying machines, machines for treating molten metals, namely, continuous metal casting machines, machines for blowing oxygen through molten metals for steelmaking, furnaces used in secondary metallurgy to treat molten steel, electrical welding machines, namely, arc-welding and laser welding machines and their welding electrodes and welding wires, flaming machines for industrial purposes, namely, for flaming cold and warm metal materials, metal work pieces and semi-finished metal blocks, bars, coils, slabs and strips for the production of further metal products, gas-operated cutting blow pipes, mixing machines, namely, asphalt mixers, concrete mixers, milling machines, industrial machine presses, pumps and their structural fittings, namely, pressure test pumps, dosing pumps, ground water pumps, injection pumps, positive displacement pumps, pumps for pressing ram profiles, ram piles, ram tubes and sheet piles, electric beaters, namely, electric stirring machines, machine motors and engines, namely, electric motors, engine motors, power tool motors and parts thereof, namely, air filters, cylinders, electric conductors, gas filters, gaskets, mufflers, oil filters, piston rings, turbines and their structural parts for the generation of electricity, gear boxes and their structural parts for use with industrial machinery, namely, mechanical transmission devices for gears, gear coupler housings, mechanical rotary devices for gears, gate drives for machines and doors, piston rods (parts of machines), machine parts, namely, bearings, centrifuges (machines), railroad constructing machines, namely, stone compressing machines and stone spreading machines, printing machine parts, namely drums, electric starters for motors and engines, electric cold-start systems for motors and engines, ship and airplane engines and parts therefor; wholesale and retail services featuring physical, optical and electronic apparatus, namely, electronic

controllers for furnaces and diesel engines comprising computer hardware, electronic agendas, electronic data integrators, electronic computing machines and computer workstations, laboratory furnaces, laboratory ovens, optical condensers, optical data media, optical lanterns, optical pickups, optical range finders, automatic optical detectors, electronic conductors for motors and engines, transformers, fuel cells, electronic connectors for circuit boards, electronic circuits, current transformers, ducting for electric cables, none of the foregoing goods for use with, or for eyeglasses or sunglasses; wholesale and retail services featuring electricity conduits for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, optical reflectors, optical sensors, optical condensers, optical glass, optical scanners, optical disc drives, optical disk readers, optical fiber cables, computer hardware, electronic agendas and computer workstations, none of the foregoing goods for use with, or for eyeglasses or sunglasses; wholesale and retail services featuring physical, optical and electronic apparatus, namely, nautical, surveying, signaling and monitoring apparatus, namely, compasses, signal lamps, signaling whistles, level measuring machines for surveying, lasers for surveying, magnetic compasses for surveying, nautical surveying instruments, wind-direction indicators, anemometers; wholesale and retail services featuring physical, optical and electronic apparatus, namely, simulators for the steering and control of vehicles for civil and military applications; wholesale and retail services featuring apparatus for recording, transmission, processing or reproduction of sound, images and data, namely, radios, televisions, compact disk players, tape recorders, telephones; wholesale and retail services featuring the sale of computer software for use in construction and automated manufacturing, metalworking, in the field of transport and delivery, in the fields of automobile parts, energy, building construction, waste management, in the field of welding, in the field of mechanics, oil field exploration, in the field of chemistry, industrial robots, mechanical engineering, ore and coal mining industries and the cement industry; wholesale and retail services featuring the sale of fire extinguishers; wholesale and retail services featuring the sale of checking (supervision) apparatus and instruments, namely, electrical monitoring and control systems for elevators, escalators, passenger conveyors, moving sidewalks, inclined platforms, vertical platforms, stairway lifts, boarding bridges, electrical monitoring and control systems for industrial machines, industrial production plants, steel mills, cement plants; wholesale and retail services featuring the sale of industrial magnets and measuring apparatus and instruments, namely, leak testers, measuring apparatus for detecting the polarization of magnets, diagnostic apparatus for evaluating and determining errors during operation of elevators, escalators, passenger conveyors, moving sidewalks, inclined platforms, vertical platforms, stairway lifts, boarding bridges; wholesale and retail services featuring the sale of electric and electronic control and regulating apparatus, namely, operational control panels, lighting systems and electrical industrial controls for industrial machines, for industrial plants, for industrial production sites, for steel mills, for cement plants, for conveyor systems in underground mines, for platform and stair lifts, for elevators, for escalators, for passenger boarding bridges and for system automation and robotics, electrical industrial controls for monitoring waste water treatment, electromechanical controls for airplanes, electromechanical controls for water heaters, electronic control systems for automobile brakes, electronic industrial controls for digital timers, electronic industrial controls for motion failure detectors and fire alarm control panels; wholesale and retail services featuring the sale of photovoltaic elements, namely solar collectors for generating electricity and life-saving apparatus and equipment, namely, lift hoists for removal of individuals from hazardous situations; wholesale and retail services featuring the sale of sonars; wholesale and retail services featuring steam generating installations, namely, accumulators and their structural fittings, water distillation units and their structural fittings; wholesale and retail services featuring warming, heating and refrigerating installations, apparatus and machines and their structural fittings, namely, air conditioners, air conditioning units, air filters, air purifiers, battery warmers, car interior warmers,

coolers, engine heaters, engine warming units, fuel warmers, heat exchangers, heaters for engine oil, radiator hose heaters, vehicle oil pan heaters, vehicle tank heaters, unit ventilators used for heating and air conditioning, heat recovery, and to enhance air quality, all the foregoing for commercial, domestic and industrial use; wholesale and retail services featuring drying installations and machines and their structural fittings, namely industrial dryers for dehumidifying; wholesale and retail services featuring machines and their structural fittings for the thermal treatment of waste materials, namely, furnaces for refuse and sludge incineration; wholesale and retail services featuring machines and their structural fittings for producing coke; wholesale and retail services featuring industrial furnaces and their structural fittings; wholesale and retail services featuring solar panels and their structural fittings; wholesale and retail services featuring the sale of vehicles, apparatus for locomotion by land, air and water, namely, automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons; wholesale and retail services featuring the sale of engines for land vehicles; wholesale and retail services featuring the sale of parts for vehicles and apparatus for locomotion by land, air and water, namely, engines, gears, clutches, body components in the form of prefabricated metal blanks, chassis and running gear, bogies, components for wheel suspension and steering, axles, wheels and wheelsets, brake systems, chains, exhaust systems; wholesale and retail services featuring the sale of semi finished goods of plastic, namely wire; wholesale and retail services featuring the sale of plastic semi-finished products, namely, plastic mouldings for vehicle construction and house building; wholesale and retail services featuring the sale of sealing, packing and adhesive tapes; wholesale and retail services featuring the sale of plastic welding filler rods for expansion joints; wholesale and retail services featuring the sale of non-metallic weather seals for windows.

Class 37

(2) Building construction; rental of scaffolding, formwork, work platforms and construction apparatus, namely, excavators, bulldozers, graders, cranes, conveyers, drilling machines; painting and lacquering; rental of construction apparatus and equipment for earthworks, namely, hydraulic hammers, bulldozers, graders, cranes, conveyers and drilling machines, all the foregoing for sheet piling, anchoring, drilling, pressing, vibrating, pile driving and drawing; facility management in the field of technical facilities, namely repair, maintenance and servicing of permanently-connected real estate installations, namely, treatment systems for contaminated processed water, exhaust air systems, power supply systems and power supply control systems, none of the foregoing services including the application of coatings to said goods; cleaning of buildings; assembly, maintenance and repair of elevator lifts, escalators, moving walkways, platform lifts, lifting platforms for people, passenger bridges, moving staircases and stair lifts, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of equipment and machines for use in mining, open-cast mining, quarrying, ore and coal mining, demolition and road building, namely, excavators, bulldozers, graders, cranes, conveyers, drilling machines, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of buildings and structures, namely, bridges, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of telecommunications apparatus used for remote plant monitoring and remote condition monitoring and maintenance of elevators, escalators and moving walkways, namely, telephones, communication satellites, local area networks, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of vehicle modules, power train systems and undercarriages of automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of vehicle parts, namely, engines, gears, clutches, body components in the form of prefabricated metal blanks, chassis and running gear, bogies,

components for wheel suspension and steering, axles, wheels and wheelsets, brake systems, chains, exhaust systems, all the foregoing for automobiles, fork stackers, locomotives, ships, mobile cranes, trucks and wagons, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of transportable buildings, room modules, refrigerating chambers and structural parts therefor, namely, transportable storage containers, container offices and workshops, houses, halls, garages and bridges, prefabricated and transportable room modules, walk-in fridges, none of the foregoing services including the application of coatings to said goods; assembly, maintenance and repair of fencing and gates and their structural parts surrounding commercial buildings and industrial complexes, none of the foregoing services including the application of coatings to said goods; scaffolding services, namely, the installation, maintenance and rental of scaffolds, none of the foregoing services including the application of coatings to said goods.

Class 42

(3) Architecture; town planning; structural engineering; mining engineering; research in the field of chemistry; consulting services in the field of information technology (IT), namely, computer hardware and computer software consulting, webpage design consulting, cloud computer consulting; chemical engineering, mechanical engineering; design of interior decor; media consultancy, namely scientific and technological consultancy in the field of press and public relations; physics (research); software programming; structural engineering design services and construction planning; technical drawing, namely, civil engineering drawing services; land surveying, namely, engineering surveying services, mine surveying, oil field surveying, technical surveying, land and road surveying, topographic surveying; provision of scientific research in the field of construction and mining equipment repair and maintenance, provision of engineering research in the field of remote diagnostics of elevators, escalators and moving walkways; material testing; technical consultancy in the field of cloud computing and in the field of computer software; installation and maintenance of computer software; rental of computers; construction of prototypes for research purposes and for technical product development; technical analysis of life cycle management of IT infrastructures; contaminated site management, namely technical design of property decontamination projects; cloud computing storage provider services.

Trademark Description

The trademark consist in whole or in part, of the colour orange as applied to, and the position of design elements on, a three-dimensional object, namely, a capsule shape as shown in the visual representation. The capsule shape shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the design elements. The first design element is positioned on the right-hand side of the capsule shape and consists of two round tablets arranged one adjacent to the other, half in white and half in orange, and superimposed over a white capsule. The second design element is positioned on the left-hand side of the capsule shape and consists of the number 82 in white letters.

Colour Claim

Colour is claimed as a feature of the trademark. The colour orange is applied to the visible surface of the capsule shape shown in the visual representation. The first design element consists of two round tablets arranged one adjacent to the other, half in white and half in orange, and superimposed over a white capsule. The second design element consists of the number 82 in white letters.

Colour Claim

Colour is claimed as a feature of the trademark. The shield is divided into four components. At the top left corner of the shield, the phoenix is in red, orange and yellow against black background. At the top right corner of the shield, the yellow star is against red background. At the bottom left corner of the shield, the black raven is against red background, and a white book with yellow outline is against black background at the bottom right corner. The shield is on top of a light brown circle that has yellow curvature lines with thick black and yellow circular outline, where the yellow is at the outermost circle. On top of the black circular outline, there are wordings in yellow and two red maple leaves with yellow outline.

Disclaimer

The right to the exclusive use of the eleven point maple leaf is disclaimed apart from the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. In the middle, a red colour curve is appearing which is running across from left to right and thin in the two corners and gradually getting thicker in the middle. A red colour tea cup is exactly placed in the middle of the red colour curve. The main logo word which is the company name "KEHAR" is placed in the middle of the tea cup. The word "KEHAR" is in white colour font with green outline. The first letter "K" in the word "KEHAR" is extended like a sword and joining the last letter "R". Yellow colour sun beams starting from the middle, which is closer to the tea cup and spreading out to the top. The word "Tea time Enjoyyy" is appearing in black colour font. At the tip of the letter "i" of the word "time" there are two light green colour tea leaves. The word "Enjoyyy" is followed by four black colour dots.

Trademark Description

The trademark consists of an imprint depicting the wording FERRARI 296 GTS arranged on two lines, in fancy characters and with shading evoking a three-dimensional effect, the 296 component being of larger dimensions and with each numeral in double profile, the central stroke of the numerals 9 and 6 being interrupted at the vertical stroke, this number being followed on the right by the GTS component, both the 296 component and the GTS component having a progression slightly inclined to the right, the verbal expression FERRARI being placed above the numeral 2 and having the letter F with its upper horizontal stroke extended so as to surmount the remaining letters except for the final I, the latter being surmounted by a small rectangular figure and flanked at the base by a segment that extends horizontally to the right so as to surmount the underlying components 96 and GTS.
