Trademarks Journal

2024-09-18 — Vol. 71 No. 3647

Trademarks Journal

Vol. 71 No. 3647

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

APPLICANT AND AGENT DETAILS**Applicant**

Bagatelle International Ltd.
420 Lexington Ave.
Suite 2250
NY, NY 10170
UNITED STATES OF AMERICA

Agent

NORTON ROSE FULBRIGHT CANADA LLP/S.
E.N.C.R.L., S.R.L.
COMPLEXE JULES-DALLAIRE/TOUR
OGILVY RENAULT , BUREAU 1500, 2828,
BOULEVARD LAURIER, QUÉBEC, QUEBEC,
G1V0B9

TRADEMARK DETAILS**Trademark Type**

Design

Visual RepresentationThe image shows the word "Bagatelle" written in a highly decorative, cursive script. The letters are thick and elegant, with prominent flourishes and a classic, handwritten style. The word is centered and occupies a significant portion of the visual representation area.**Goods****Class 20**

(1) Seats of metal, office seats; general purpose storage containers, not of metal.

Class 21

(2) Cookie jars; storage baskets for household purposes; toilet brushes, toilet paper dispensers, toilet sponges.

Class 29

(3) Preserved, dried fruits; preserved, dried vegetables.

Class 30

(4) Vinegars; malt for human consumption.

Class 32

(5) Non-alcoholic fruit extracts used in the preparation of beverages.

Services**Class 41**

(1) Cooking instruction; Nightclub services; Arranging and conducting of balls and parties; Production of live musical variety shows; entertainment services in the nature of live dance; entertainment services in the nature of live comedy shows; entertainment services in the nature of live musical performances; entertainment party planning.

Class 43

(2) Café services; rental of non-electric hot plates; Pension and boarding house services; Pension and boarding and kennel services for animals; Reservation of boarding house and pensions and kennels services; Restaurant services; Snack bar services; Catering services.

Claims

Priority Filing Date: February 03, 2017, Country or Office: MONACO, Application No: 34105 in association with the same kind of goods and in association with the same kind of services

Application programming interface (API) for computer software for image rendering, modeling, and image manipulation and processing; application programming interface (API) for computer software for ray tracing and image rendering, modeling, and image manipulation and processing; application programming interface (API) for use in building software applications; artificial intelligence computers; artificial intelligence supercomputers; computer game software; computer hardware; computer hardware and software for professional designers, engineers, and scientists for advanced graphics processing and visual computing sold as an integral component of computers; computer hardware and software for professional designers, engineers, and scientists for advanced graphics processing and visual computing; Computer hardware and software, and communications hardware and software for the operation, control, maintenance, and remote management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications systems, and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; computer monitors; computer software development tools, namely computer software for assisting developers in creating program code for use in multiple application programs; computer software for performing computer graphics operations and improving graphical and video display capabilities; computer software for the display of digital media; computers; downloadable computer graphics software development tools for advanced graphics processing, for managing and implementing virtual desktop infrastructures, for virtual desktops and applications, and for virtualization technology software; downloadable computer graphics; downloadable software for management of medical imaging; electronic computer vision accelerators; electronic display interfaces for use in self-driving and autonomous land vehicles; electronic display screens, namely electronic display screens with touch interfaces, electroluminescent display screens, computer display screens, liquid crystal display screens, LED displays, LED display boards, computer screens, and video screens; electronic game software; video games hardware adapted for use with external screens and monitors; electronic publications recorded on computer media, in the nature of books, manuals, magazines, electronic magazine, and newsletters featuring information regarding electronic game devices and electronic games; electronic, computer, interactive and video game software; flat panel display screens; graphics

processing units (GPUs); graphics software, namely, software that enables importation and exportation, virtualization, acceleration, manipulation, and editing of visual images and modelling on a computer; Electronic tracking devices comprised of computer software and computer hardware for use in connection with object tracking and object monitoring; computer software for motion controllers; speech and voice recognition software; computer hardware and software for medical imaging apparatus; computer hardware and software for image and sensor data processing; integrated circuit components for graphics and video systems, namely, multimedia accelerators, graphics accelerators, computer hardware, and computer peripherals; integrated circuits for enhancing graphical and video display; integrated circuits, semiconductors and computer chipsets; integrated circuits; liquid crystal display (LCD) monitors; liquid crystal displays; electronic computing platform for operating self-driving and autonomous land vehicles; self-driving and autonomous land vehicle electronic driving system and equipment in the nature of artificial intelligence, machine learning, deep learning and high performance computing software and hardware for vehicles; semiconductors; sensors for monitoring physical movements; simulation, modeling and data processing software for use in data visualization, data analysis, data mining, data interpretation, predictive analytics, accessing and editing large-scale data, interactive visual computing, design of information graphics, video streaming, maximizing graphics processing and performance; computer software and firmware for enabling electronic devices, namely, mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers to share data and communicate with each other; software and firmware for operating system programs; computer software and hardware for the operation, control, maintenance, and remote management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications between vehicles and mobile devices, computers connected to wireless networks, and for wireless vehicle navigation and tracking, and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; software development kits (SDKs) consisting of computer software development tools, namely Application Programming Interfaces (APIs) in the form of pre-compiled software libraries and code, documentation, and sample applications for image rendering, modeling, and image manipulation and processing; software development kits (SDKs) consisting of software for ray tracing and image rendering, modeling, and image manipulation and processing; software development tools; software for 3D-visualization, 3D modeling and 3D rendering; computer software for advanced graphics processing and visual computing; software for enhancement of graphical and video display; software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; computer programs and software for image processing; software for management, storage and network management of digital media, and enhancement of graphical and video display; computer software to enable the transmission of images, audio, graphics, video and photographs; software for editing, altering, enlarging, reducing, retouching and finishing images, audio, graphics, video and photographs; software for operating and managing integrated circuit components; computer software for uploading, editing and enhancing media objects and digital content namely, digital images, photographs, video clips, and texts; downloadable software for processing images, graphics, digital audio recordings, digital videos, and text; computer hardware and computer software in the field of computer graphics for professional designers, engineers, and scientists for advanced graphics processing and visual computing; software for ray tracing and image rendering, modeling, and image manipulation and processing; computer software for use as an application programming interface (API) in the fields of artificial intelligence, medical clinical trials and medical research, self-driving and autonomous land vehicles, computer graphics, architecture, engineering, construction, cybersecurity, energy, game development, manufacture,

entertainment, restaurants, telecommunications, and transportation ; artificial intelligence software in the field of automated reasoning, machine learning for pattern discovery, recognition, classification, segmentation, regression and decision support for natural interaction across an artificial intelligence platform; computer software for use in operating artificial intelligence platforms; Downloadable computer software for data optimization and analytics; computer software for use in automation platforms, namely business management automation platforms; software, namely, an interpretive interface for facilitating interaction between humans and machines; supercomputers; system-on-chip processors; video game software

Services

Class 42

Advanced product research in the field of artificial intelligence; application service provider (ASP) services featuring application programming interface (API) software for image rendering, modeling, and image manipulation and processing; application service provider (ASP) services featuring application programming interface (API) software for ray tracing and image rendering, modeling, and image manipulation and processing; cloud computing services, namely, cloud hosting provider services; cloud computing featuring non-downloadable computer software for managing, gathering, organizing, and sharing clinical data, clinical information and clinical images in the fields of medical clinical trials and medical research, for the collection of clinical information and clinical data in medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing clinical information and clinical data generated in medical clinical trials and medical research; cloud-based supercomputing featuring software for developing and implementing artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, unsupervised learning, and business intelligence technologies for managing and analyzing business data; computer software programming services to download video games online; computer software design, computer programming, or maintenance of computer software; consulting services in the field of gaming technology and graphics software; design and development of computer hardware and software; design and development of computer hardware and software in the fields of machine learning, deep learning, and deep neural networks; design and development of computer hardware and software in the fields of machine learning, deep learning, and deep neural networks; design and development of computer hardware and software in the fields of self-driving and autonomous land vehicle electronic computing platforms and systems; design and development of computer software for use with medical technology; design and development of computer software for vehicle simulation; design and development of software for fine tuning, development, diagnostics for vehicles, calibration, configuration and diagnostics of electronic systems; design of computer hardware, software and computer peripheral units, namely CD players, DVD players, DVD recorders, video file compression cards, video encoders and decoders, printers, scanners, computer keyboards , computer mice, computer speakers, web cameras, microphones, stylus pens, computer batteries, power cords, computer cables, and external computer hard drive for others; design, programming and maintenance of artificial intelligence software; designing and developing computer game software and video game software; designing of technical machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments for self-driving and autonomous land vehicles, computer graphics processing, video games, and entertainment via a website; development of hardware for use in connection with electronic and interactive multimedia games; electronic and interactive multimedia game development services; electronic data storage services, namely, electronic storage of electronic data; graphics design services, namely, creating

3D content, 3D product renderings, photorealistic renderings and models; image processing software design; industrial analysis and research services in the field of vehicle technology, vehicle simulations and vehicle test stands; medical and scientific research in the field of medical imaging; providing temporary use of online non-downloadable software for 3D-visualization, 3D modeling and 3D rendering; providing temporary use of online non-downloadable computer software for autonomous vehicle simulation; providing temporary use of online non-downloadable computer software for computer graphics; providing temporary use of online non-downloadable computer software for data management, analytics and pattern and activity recognition; providing temporary use of online non-downloadable computer software for detecting objects, user gestures and commands; providing temporary use of online non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing temporary use of online non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors; providing temporary use of online non-downloadable computer software for facilitating interaction between humans and machines; online nondownloadable software for machine learning, deep learning, and deep neural networks, in the field of self-driving and autonomous land vehicles; online nondownloadable software for machine learning, deep learning, and deep neural networks in the field of computer graphics for professional designers, engineers, and scientists for advanced graphics processing and visual computing; providing temporary use of online non-downloadable computer software for artificial intelligence (AI), machine learning, unsupervised learning, and deep learning to enable contextual prediction, personalization, predictive analytics, predictive modeling and business intelligence services, all for improving experiences in the fields of self-driving and autonomous land vehicles, computer graphics and artificial intelligence, video games, and entertainment via a website; providing temporary use of online non-downloadable computer software for object tracking, motion control and content visualization; providing temporary use of online non-downloadable computer software for use in analyzing image and sensor data and for image and sensor data processing; providing temporary use of online non-downloadable computer software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; providing temporary use of online non-downloadable computer software for processing images, graphics, audio, video, and text; providing temporary use of online non-downloadable computer software for streaming multimedia entertainment content in the field of streaming and delivery of multimedia and video content to customer devices; providing online non-downloadable software for the operation, control, maintenance, and remote management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications between vehicles and mobile devices, and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; providing temporary use of non-downloadable software applications for social networking, creating a virtual community, and transmission of audio, video, photographic images, texts, graphics and data; providing temporary use of online non-downloadable software to enable others to upload, display, edit, and transmit images, video and audiovisual works during web based meetings; providing temporary use of online non-downloadable software development tools; providing temporary use of online non-downloadable computer software for use in electronic storage of data; providing temporary use of online non-downloadable computer software for use in visual, voice, audio, motion, eye and gesture tracking and recognition; providing temporary use of online non-downloadable computer software for virtual, augmented reality applications and environments; providing non-downloadable cloud computing services featuring software for managing, gathering, organizing, and sharing clinical data, clinical information and clinical images in the fields of medical clinical trials and medical

research, for the collection of clinical information and clinical data in medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing clinical information and clinical data generated in medical clinical trials and medical research; providing temporary use of non-downloadable cloud-based software for use with a supercomputer for artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, unsupervised learning, and business intelligence; providing temporary use of online non-downloadable computer software for managing, gathering, organizing, and sharing clinical data, clinical information and clinical images in the fields of medical clinical trials and medical research, for the collection of clinical information and clinical data in medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing clinical information and clinical data generated in medical clinical trials and medical research; platform as a service (PAAS) services featuring computer software platforms for electronic messaging and transmission of audio, video, photographic images, text, graphics and data; platform as a service (PAAS) featuring computer software platforms for downloading, storing, viewing, playing and interacting with digital content, namely computer and video games and computer software applications for and related to computer and video games; platform as a service (PAAS) featuring computer software platforms for use in the fields of self-driving and autonomous land vehicles, computer graphics, and artificial intelligence, in the field of video games, and in the field of entertainment via a website for downloading, storing, viewing, playing and interacting with computer software applications; platform as a service (PaaS) featuring computer software platforms for natural language processing, voice command and recognition, converting speech to text, data analytics, and artificial intelligence; platform as a service (PaaS) featuring machine learning in the fields of self-driving and autonomous land vehicles, computer graphics, artificial intelligence, video games, and entertainment via a website; platform as a service (PaaS) featuring knowledge-based artificial intelligence computer software platforms, data analytics software platforms, and automation software platforms; platform as a service (PaaS) featuring software platforms for electronic gaming and graphic design; platform as a service (PaaS) featuring computer software platforms for communication software for the transmission of multimedia over the Internet among users, namely voice, audio, video, and email and text; application service provider featuring application programming interface (API) software for transmitting voice, audio, photographic images, text, video, and video images, across multiple platforms, namely computer applications, and mobile phones; providing temporary use of online non-downloadable computer software development tools for use in the fields of facilitating the deployment of artificial intelligence solutions, deep learning, high performance computing, and machine learning; providing cloud computing services featuring software for use in application development for entertainment, social, financial, business collaborative, gaming, and integration of private and public cloud computing environments; design and development of computer hardware and software in the fields of data management, machine learning, deep learning, and deep neural networks; providing computer software technical support services, technical information and technical support regarding software patches, upgrades and updates; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks in the fields of self-driving and autonomous land vehicles, computer graphics, and artificial intelligence, in the field of video games, and in the field of entertainment via a website; providing temporary use of non-downloadable computer software for image processing; providing temporary use of non-downloadable computer software for moving image processing; providing

online non-downloadable software for machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining and predictive analytics and business intelligence in the field of self-driving and autonomous land vehicles, computer graphics, and artificial intelligence, video games, and entertainment via a website; providing online non-downloadable software for ray tracing and image rendering, modeling, and image manipulation and processing; providing temporary use of online non-downloadable software for providing a personal digital assistant; providing software technological support services and consultation in the fields of software, development and use of computer hardware; providing temporary use of non-downloadable computer software for computer graphics; providing temporary use of non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing temporary use of non-downloadable electronic game software; providing temporary use of online non-downloadable interactive entertainment computer software for playing video games; providing temporary use of online nondownloadable software enabling hardware and electronic devices to share data and communicate with each other; providing temporary use of non-downloadable cloud-based software for use in the management of medical imaging data; providing virtual computer systems, and virtual computer environments through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; research and design in the field of vehicle technology, vehicle simulation and vehicle testing; scientific and technological services and research and design relating thereto in the field of self driving and autonomous land vehicles, artificial intelligence, automobile research and development, computers, software design, and deep neural networks, in the field of video games, and in the field of entertainment via a website; software as a service (SaaS) featuring computer software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; software as a service (SAAS) featuring software for executing deep learning, machine learning, hierarchical learning, artificial intelligence, automatic speech recognition, and natural language processing programs in the fields of self-driving and land vehicles, computer graphics and artificial intelligence, in the field of video games, and in the field of entertainment via a website; software as a service (SaaS) featuring software in the field of electronic control systems for land motor vehicles; software as a service (SaaS) featuring software in the field of self-driving and autonomous land vehicle and self-driving and autonomous land vehicle component operation, control, maintenance, management and communication; software as a service (SaaS) featuring software platforms for computer game software, and graphic design; nondownloadable software for machine learning, deep learning, and deep neural networks, in the field of self driving and autonomous land vehicles and computer graphics processing, in the field of video games, and in the field of entertainment via a website, provided as software as a service (SaaS); software as a service (SAAS) services for managing, gathering, organizing, and sharing clinical data, clinical information and clinical images in the fields of medical clinical trials and medical research, for the collection of clinical information and clinical data in medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing clinical information and clinical data generated in medical clinical trials and medical research; software development; software for integrating electronic data with real world environments for the purpose of capturing, processing, and visualizing modeling and placement of goods of others and visual image markers;

providing temporary use of online non-downloadable computer software for the development of software development kits in the form of pre-compiled software libraries and code, documentation, and sample applications; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; providing temporary use of online non-downloadable computer software for artificial intelligence (AI), machine learning, unsupervised learning, and deep learning for use in contextual prediction, personalization, predictive analytics, predictive modeling and business intelligence services, all for improving experiences in the fields of self-driving and autonomous land vehicles, computer graphics processing, video games, and entertainment via a website

Trademark Type

Word

Goods

Class 03

(1) skin care preparations, namely soaps, body lotions, skin creams; hair care preparations

Class 09

(2) motion picture films containing documentaries related to property, cottage life, recreation, vacations, health, wellness and related activities

Class 14

(3) souvenirs, namely keychains, pendants, miniature souvenir pins

Class 16

(4) printed materials, namely magazines, books, gift certificates, brochures, postcards, souvenirs, namely photographs and calendars, wall art, namely framed artwork and printed artwork

Class 21

(5) souvenirs, namely cups, glassware, namely drinking glasses, cups, mugs and bowls, vases

Class 24

(6) bedding, namely bed covers, duvet covers, sheets, pillow protectors, pillow covers, pillow shams; bath towels, pillows, blankets, throws; souvenirs, namely flags of textile and fabric

Class 25

(7) clothing, namely shirts, t-shirts, sweaters, shorts, pants, jackets, vests, hats, gloves, sweat pants, sweat shirts, hoodies and robes

Services

Class 35

(1) retail services offered at resorts and recreational properties, namely food, clothing and gift shops, stores and kiosks, grocers, vintners, wine, beer and spirits shops; resort club membership services, namely membership club services providing access to the goods and services offered by a resort; marina services, namely new and used boat sales and re-sales

Class 36

(2) retail services offered at resorts and recreational properties, namely automatic teller machines; the leasing of commercial, residential and recreational real estate; sale of residential, commercial and industrial real estate projects and developments; property management services; real estate time-share and fractional ownership services

Class 37

(3) real estate development services, namely development in the area of waterfront, and water-based recreation, private residences, rental properties, real estate and resale services; construction and renovation services in the field of resorts and vacation or recreational property; operation of a real estate presentation centre; real estate development consulting services; development, operation and management of recreational resorts and resort properties; retail services offered at resorts and recreational properties, namely laundromats and dry cleaners; marina services, namely fueling, repair and maintenance of boats

Class 38

(4) providing access to a website providing users with information in relation to recreational resorts offering food, lodging, marinas, boating, fishing and other water-related services, golf, tennis, alpine and cross country skiing, and transportation services for resort members and guests by cars, bus and boats

Class 39

(5) marina services, namely dockage, moorage, boat rentals, boat storage, boat cruises and excursions, water taxis; travel agency services, namely making reservations and bookings for transportation, tours and temporary lodgings

Class 41

(6) special event services and planning, namely organization of regatta, rallies, festivals, golf and other tournaments, competitions, fairs, markets, parades, pageants, receptions, concerts, plays, buskers; health club services, namely, providing instruction and equipment in the field of physical exercise; physical education services, namely, providing exercise classes to others and conducting classes in exercise and physical conditioning; educational services, namely, conducting classes, seminars, conferences, and workshops in the fields of nutrition, yoga, exercise, physical conditioning, conflict management, family health, wellness, prevention of disease, beauty, skin care, physical fitness, physical training, stress management and behavior modification; counselling and consultation services in the fields of exercise and physical conditioning, physical fitness and physical training; tennis lessons and instructions; travel agency services, namely making reservations and bookings for sports activities, leisure activities, recreation activities

Class 42

(7) sustainable development services, namely consulting in the field of energy-efficient building practices, environmental development standards for preservation of wetlands and lakeshore restoration; design and architectural services in the field of resorts and with respect to recreational properties; planning and design services in the field of resorts and vacation or recreational property

Class 43

(8) hotel and lodging services, hotel management services; hospitality services, namely restaurants and bars, provision of conference and meeting facilities

Class 44

(9) spa services, namely, therapeutic massage treatments

Goods

Class 03

(1) Indica and Sativa cannabis and marijuana derivatives for non-medical use, namely, topical creams, topical balms, topical ointment; face and body lotions, bath additives, soaps for personal use, beauty creams for body care, massage oils

Class 05

(2) Indica and Sativa cannabis and marijuana for medical use; Indica and Sativa cannabis and marijuana related products for medical use, namely, raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds; Indica and Sativa cannabis and marijuana derivatives for medical use, namely, pastes, unguents, tinctures, oils, salves, dusts, residues, compressants, topical applications, namely, topical creams, topical balms, topical ointment; tablets and capsules for medical use namely tablets and capsules, each containing cannabis or derivatives of cannabis, namely hashish, resins and oils

Class 09

(3) Delivery mechanisms and smoking articles for cannabis consumption, namely scales, batteries, battery chargers, lithium batteries and chargers and car power adapters for electronic cigarettes; Electronic publications namely, newsletters, brochures, reports and guides in the field of cannabis

Class 16

(4) Printed publications, namely, newsletters, brochures, reports and guides in the field of cannabis

Class 25

(5) Clothing, namely, t-shirts, shirts, caps, hats, and sweatshirts

Class 30

(6) Edible and food products, namely chocolates, brownies, muffins, cookies, candy, food energy bars, teas, each containing cannabis, hashish, cannabis resins and cannabis oils

Class 31

(7) Indica and Sativa cannabis and marijuana related products for non-medical use, namely, raw cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds

Class 32

(8) Fruit juices, smoothies, carbonated soft drinks and energy drinks, each containing cannabis, hashish, cannabis resins and cannabis oils

Class 34

(9) Delivery mechanisms and smoking articles for cannabis consumption, namely pipes, rolling papers, rolling machines, cartridges, filters, water pipes, vaporizers, grinders, lighters, matches, ashtrays, carrying cases and containers, tins and pouches to hold prepared cannabis non-tobacco cigarettes; E-vapor cigarettes, vaporizers

Services

Class 35

(1) Promoting public awareness of the benefits of use of Indica and Sativa cannabis and cannabis related products, namely raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds, Indica and Sativa cannabis and marijuana derivatives for medical and non-medical use namely, pastes, unguents, tinctures, oils, salves, dusts, residues, compressants, topical applications, namely, tropical creams, topical balms, topical ointment; Retail and online sales of both Indica and Sativa medical and non-medical cannabis and cannabis and related products namely raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds; Retail and online sales of delivery mechanisms and smoking articles for cannabis consumption, namely pipes, rolling papers, rolling machines, cartridges, filters, water pipes, vaporizers, grinders, scales, lighters, matches, ashtrays, carrying cases and containers, tins and pouches to hold prepared cannabis non-tobacco cigarettes; Retail and online sales of e-vapor devices, vaporizers, and batteries, battery chargers, lithium batteries and chargers and car power adapters for electronic cigarettes; Providing ratings, reviews and recommendations on products and services for commercial purposes posted by users via a website in the field of cannabis

Class 36

(2) Retail and wholesale electronic payment fulfilment software and hardware, mobile applications servicing the trade and currency generated through cannabis and cannabis item related sales, namely, Payment gateway services; Electronic payment services, namely, electronic processing and transmission of funds

Class 39

(3) Packaging, parcel shipping services for cannabis and cannabis related products

Class 41

(4) Providing news via a website in the nature of current events reporting in the field of cannabis and cannabis culture, providing educational information via a website in the field of cannabis; providing educational information in the field of cannabis via a website

Class 42

(5) Developing and providing computer hardware and computer software for use processing and managing the sale of cannabis; research services and consulting services in the area of developing marijuana and cannabis, cannabis products, derivatives of cannabis, and natural health products containing cannabis

Class 44

(6) Cultivation, breeding of Indica and Sativa cannabis and cannabis related products, namely raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds, Indica and Sativa cannabis and marijuana derivatives for medical and non-medical use namely, pastes, unguents, tinctures, oils, salves, dusts, residues, compressants, topical creams, topical balms, topical ointments, nonmedicated tablets and capsules each containing cannabis or derivatives of cannabis, namely hashish, resins and oils, and edible and food products, namely chocolates, brownies, muffins, cookies, candy, food energy bars, fruit juices, smoothies, carbonated soft drinks and energy drinks each containing cannabis, hashish, cannabis resins and cannabis oils

Class 45

(7) Computer services, namely, online social networking services for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking in the field of cannabis

LaCreme Worlds Finest Cannabis

Trademark Type

Word

Goods

Class 05

(1) cannabis capsules for medicinal purposes; cannabis for medical purposes; cannabis oil for medicinal purposes; dried cannabis buds for medical purposes; gummy vitamins containing cannabis derivatives for medicinal purposes; medical cannabis in the form of herbal teas; medicinal cannabis; Nutritional supplements containing cannabis derivatives for medicinal purposes ; oral sprays containing cannabis for maintaining general health and well-being; pills, tablets, sublingual doses and dissolvable strips containing cannabis for maintaining general health and well-being; smoking cannabis for medical purposes; vaping cannabis for medical purposes; vitamin preparations containing cannabis derivatives for medicinal purposes

Class 25

(2) athleisure wear; athletic apparel; balaclavas; baseball caps and hats; blazers; blouses; body suits; bomber jackets; boxer briefs; boxer shorts; bras, panties, underwear; bucket hats; button down shirts; cardigans; cargo pants; cargo shorts; children's clothing; children's underwear; coats; collared shirts; denim jackets; ear muffs; face masks being clothing; face masks being headwear; fashion hats; fedoras; flannel shirts; gloves; hats and caps; head bands; hooded tops; hoodies; jeans; jeggings; jerseys; jumpers; jumpsuit; ladies' underwear; leather jackets; leggings; long johns; long sleeve shirts; loungewear; muscle shirts; outdoor winter clothing; outerwear jackets; overalls; pants, leggings, shorts, tights, athletic clothing; parkas, jackets, coats, and vests; polo shirt; rain boots; rain footwear; rain jackets; rain pants; rain suits; rompers; rubber boots; scarves; short-sleeve shirts; skorts; socks; sweat pants; sweaters; t-shirts; tank-tops; tracksuits; underwear; vests; waterproof boots; wetsuit boots; windbreakers; winter gloves; women's socks; yoga pants; yoga tops;

Class 29

(3) butter; cannabis oil for food; cannabis oil for human consumption; cooking oil; edible fats and oils; edible oils and resins derived from cannabis;

Class 30

(4) baked goods being brownies, cakes, pastries, doughnuts, muffins, cupcakes and cookies all containing cannabis; biscuits containing cannabis; breakfast cereals containing cannabis; candy containing cannabis; cereal-based snack foods containing cannabis; chewing gum containing cannabis; chocolate containing cannabis; coffee-based beverages containing cannabis; corn-based snack foods containing cannabis; cupcakes containing cannabis; energy bars containing cannabis; granola-based snack foods containing cannabis; honey infused with cannabis; rice-based snack foods containing cannabis; sugar confectionery containing cannabis; tea-based beverages containing cannabis; teas infused with cannabis; wheat-based snack foods containing cannabis

Class 31

(5) cannabis oil for animal consumption; cannabis plant seeds; cannabis seeds for agricultural purposes; cannabis, unprocessed; edible pet treats containing cannabis, not medicinal; fresh cannabis; live cannabis plants; pet food containing cannabis, not medicinal;

Class 32

(6) beer infused with cannabis; beer-flavoured beverage infused with cannabis; bottled water containing cannabis; cannabis-based tinctures for adding to beverages, not medicinal; carbonated beverages infused with cannabis; energy drinks containing cannabis; flavored waters containing cannabis; fruit beverages and fruit juices containing cannabis; fruit-flavoured beverages infused with cannabis; honey-based beverages infused with cannabis; mineral and aerated waters containing cannabis; smoothies containing cannabis; sports drinks containing cannabis; vegetable-based beverages containing cannabis; wine flavoured beverages infused with cannabis;

Class 34

(7) ashtrays; bongs and trays for marijuana; books of cigarette papers; bottles filled with chemical flavorings in liquid form for electronic cigarettes; cannabidiol (CBD) oil for oral vaporizers for smoking; cannabis cigarettes; cannabis distillate; cannabis for smoking; cannabis grinders; cannabis oil for electronic cigarettes; cannabis rolling trays; cannabis-derived resins and oils for recreational use, for smoking; cigarette and cigar rolling papers and tubes; cigarette cases; cigarette filters; cigarette lighters; cigarette rollers; dabbers for smoking purposes; dabbing dishes being dab rigs for smoking cannabis purposes; derivatives of cannabis, namely resins and oils, for oral vaporizers for smoking; devices for heating tobacco for the purpose of inhalation; dried cannabis; dried marijuana; E-cigarettes; electronic cigarette liquid (e-liquid) comprised of flavorings in liquid form containing derivatives of cannabis; electronic cigarettes containing cannabis oil; electronic smoking pipes; herbs for smoking; herbs for use as tobacco substitutes; matchboxes; matches; pipe cleaners; pipe pouches; ready-made cigarette tubes with filters; smokers' articles in the nature of hemp wicks for lighting; tetrahydrocannabinol [THC] oil for electronic cigarettes; tobacco pipes; vaping pens for smoking purposes; water pipes used for smoking marijuana;

Services

Class 43

(1) bartending services; boba shops; booking of catering services; cafe and restaurant services; coffee-house services; consultancy services in the field of culinary arts; consultancy services in the field of food and drink catering; hookah lounge services; mobile cafe services for providing food and drink; restaurant, catering and bar and lounge services; shisha lounge services; tea house services;

Authorisation For Use

Consent from the Minister of Agriculture and Irrigation is of record. Consent from A-HA is of record.

Goods

Class 09

(1) Downloadable music sound recordings; video cassettes; video recorders; video cameras; cameras; video cassettes; video recorders; video cameras; cameras; magnetic identity cards, credit cards, debit cards; spectacles, spectacle cases, sunglasses; binoculars, opera glasses and cases therefore; video games; mouse pads; DVDs containing recordings of music, music videos and concerts; headphones; stereo headphones; credit cards with holograms; digital music downloadable from the Internet; downloadable music sound recordings; pre-recorded audio and video tapes and cassettes featuring music, music videos and concerts; downloadable digital music and video files; exposed films; photography slides; photographic transparencies; films and programmes prepared for television.

(4) Pre-recorded sound recordings featuring music;

(5) Musical video recordings; Pre-recorded video recordings featuring music, music videos and concerts; audio tapes featuring music; pre-recorded audio cassettes featuring music; vinyl records; video cassettes; compact discs containing music; CD-ROMs containing music;

Class 16

(2) flyers; posters; Paper, cardboard and goods made from these materials, namely bookbinding material; photographs; adhesives for stationery or household purposes; instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; books, magazines, journals, postcards, greeting cards, song books, sheet music, wall charts; greeting cards; notepads; address books; scrapbooks; catalogues; calendars; photographs albums; diaries; booklets; postage stamps; covers for postage stamps; stamp albums; trading cards; stickers; car stickers; decalcomanias; cardboard articles, namely printed advertising boards of cardboard; pens, pencils, erasers, pencil sharpeners, pencil cases, rulers, boxes for pens, book markers; gift bags, carrier bags; envelopes; blackboards.

(6) Calendars, photographs, pictures;

Class 25

(3) hoodies, sweatshirts, trousers, jogging suits, jeans, shorts, sports shorts, swimwear, beachwear, bikinis, swimming costumes, underwear, lingerie, boxer shorts, teddies, slips, camisoles, chemises, negligees, sleepwear, robes, pyjamas, pyjama sets, tracksuits, articles of outerwear, coats, jackets, jumpers and cardigans, pullovers, twinsets, knitwear, leggings, neckties, waistcoats; Clothing, namely, headbands and wristbands, skirts, wraps, jerseys, blouses, dresses, sweatshirts, bibs, stockings, ties, shawls, blazers, headbands and wristbands, overalls, halter tops, tank tops, crop tops, dresses, blazers, blouses, slacks, suits, vests, socks and hosiery, stockings, aprons, footwear, namely, boots, shoes, slippers, sandals, trainers, booties, workout shoes and running shoes, beach shoes, soles for footwear; headgear, namely, headbands, hats, caps, berets, earmuffs, top hats, visors, baseball caps, headbands, beanies; swimwear and costumes; fancy dress costumes;

(7) Clothing, namely, shirts, T-shirts;

Services**Class 41**

(1) Entertainment information; entertainment services by stage production and cabaret; production of video and sound recordings; arranging and conducting of concerts; Production of music recordings; recording, film, video and television studio services; audio, film, video and television recording services; sound recording, film and video production and distribution services; arranging and conducting of concerts; publication of books, magazines; providing on-line music, not downloadable; providing non-downloadable content available on the internet containing music videos; entertainment services namely providing sound and video recordings relating to music and musical performances through an online streaming platform; rental of radio and television sets; production of radio and television programmes; recording studio services; providing television programmes, not downloadable, via video-on-demand transmission services / providing television programs, not downloadable, via video-on-demand transmission services; rental of video cassette recorders; rental of video cameras / rental of camcorders; videotape editing; rental of videotapes; videotaping; theatre productions;

(2) music recording; concert; music concerts; live music services; live music shows; live music performances; live music concerts; music production; Music publishing and music recording services;

Tartine et Chocolat

Goods

Class 12

(1) Strollers for children.

Class 20

(2) Mirrors; plastic and wooden photograph frames; plastic and wooden garden ornaments; plastic and wooden home furniture; bassinets; cradles; playpens for babies; changing tables and changing mats; toy chests; high chairs for babies; lounge chairs for babies; furniture benches; cabinets; wooden and plastic boxes; toy chests; cushions; clothes hangers; walkers for children; school furniture; playpen mats; pillows.

Class 24

(3) Fabrics for textile use, bed and table covers, bed linen, table linen (except table linen of paper), kitchen linen, bath linen; sheets, duvet covers, textile face towels, beach blankets, pillow covers, bath linen except apparel.

Class 25

(4) Casual clothing; children's clothing; casual shoes; children's shoes; hats and caps.

Class 27

(5) Mats, doormats, straw mats, linoleum and non-slip decorative floor coverings in the form of sheets; wall hangings (non-textile), wallpaper.

Class 28

(6) Games in the nature of skill games, card games, building games, board games, educational games for children; toys in the nature of bath toys, baby toys, educational toys, construction toys, beach toys, inflatable toys, drawing toys, soft toys; dolls; toy scooters; vehicles (toys); dolls' clothes.

Goods

Class 07

(1) Robots, namely, unmanned robots being cargo handling machines, unmanned industrial robots for conveying of medicines, unmanned industrial robots for conveying of sanitary articles, cargo handling robots for use in hospitals, cargo handling robots for use in medical clinics; electron beam welding robots; robots and robotic arms for metalworking, robotic arms for loading, robotic arms for dispensing machines, robotic arms for drilling, robotic arms for packaging, shielded metal arc welding robots; robots for domestic and personal use, namely, housekeeping robots for household purposes

Class 09

(2) Scientific apparatus and instruments, namely, mobile, portable and wireless communication devices for voice, data and image transmission and natural language virtual agent software applications for enabling data capture and data analysis; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, alternating electrical current monitor modules, apparatus and instruments for conveying, distributing, transforming, storing, regulating, and controlling electric current; apparatus for recording, transmission and reproduction of sound or images, namely, digital audio recorders, digital video recorders; magnetic data carriers and recording discs, namely, blank CD-ROMs for sound and video recording; compact discs, DVDs and other digital recording media, namely, pre-recorded DVDs, downloadable audio and video recordings and CDs featuring data, audio and video recordings and multimedia content; mechanisms for coin-operated apparatus, namely, coin-operated mechanisms for arcade games; cash registers; calculating machines, namely, calculators, computer software for mathematical calculation; data processing equipment, namely, microprocessors and semi-conductors, secure microprocessors; computers; tablet computers; computer peripherals, namely, computer mice, computer chips, computer disk/disc drives,

computer interface boards, computer interface cards, computer network adapters, computer power supplies, computer printer cartridges, computer printers, computer cameras, videophones, joysticks, and scanners; data processing equipment and accessories, namely, computer hardware for data processing; information technology and audio-visual equipment, namely, computer hardware, televisions, projectors and electronic devices for transmitting audio and video; artificial intelligence apparatus, devices and instruments, namely, electronic headsets and handheld electronic devices for use in artificial intelligence; robots with artificial intelligence; humanoid robots with artificial intelligence; telepresence robots, security surveillance robots, laboratory robots; humanoid robots with artificial intelligence for use in scientific research; electronic control systems, namely, electronic control systems for machines; robotic control systems, namely, robotic control systems for engines, and robotic control systems for machines; voice response equipment, namely, digital voice processors and voice display monitors; voice recognition apparatus, namely, voice recognition software, satellite-aided navigation systems using voice recognition, voice display monitors and biometric voice recognition systems; digital voice recorders; electronic navigational systems, namely, interactive computer software that provides navigational and travel information, satellite navigational systems for automobiles, bicycles, spacecraft, aircraft, watercraft; computer software, namely, computer software for scientific analysis and use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the fields of science, chemistry, physics, biology, technology, medicine and healthcare; computer programmes, namely, computer operating programs; recorded computer software for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the fields of science, chemistry, physics, biology, technology, medicine and healthcare; downloadable computer software applications, for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the fields of science, chemistry, physics, biology, technology, medicine and healthcare; interfaces for computers, namely, computer interface boards, computer interface cards; computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer programs for use in relation to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, namely, computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics; software for use in the evaluation and analysis of data utilizing machine learning; computer software for use in modeling, testing in the field of deep learning; high performance computing software for the management of computer software systems and software applications for public and private cloud computing networks; computer software for connecting computers and for enabling cloud computing; computer software for business data mining; virtual reality computer software, namely, software for setting up, operating, configuring, and controlling wearable virtual reality hardware; virtual reality game hardware and software; computer hardware and software to view virtual images in augmented reality; computer software for use in advertising, namely, downloadable computer software for mobile phones for providing classified advertising space

accessible via a global computer network; computer software for use in generating streaming advertisements on the web sites of others; computer application software that allows users to remotely manage and control advertisements on electronic advertising displays; computer software for creating advertising signage content for third parties; computer software for use in relation to navigational systems, namely, computer software and applications for vehicle navigation; computer software for autonomous and semi-autonomous driving control systems for vehicles and spacecraft for locomotion by land, air, space or water, namely, computer software and applications for driving control systems for autonomous and semi-autonomous vehicles, autonomous and semi-autonomous spacecraft, autonomous and semi-autonomous aircraft and autonomous and semi-autonomous watercraft; computer software for processing and distribution of multimedia content, namely, downloadable interactive multimedia computer game programs for playing video and computer games, downloadable mobile applications being multimedia audio and video file players; computer software for use in relation to the operation and management of electronic communications networks, electronic databases in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; website search engines, namely, computer search engine software; computer software for optimization in online content recommendation and search engine optimization; computer software for electronic language translation; computer software in relation to machine translation; computer software for use in controlling and improving computer processing speed; computer software for energy management; computer software for use in managing and controlling building cooling systems, computer software for electronics cooling systems, namely, computer software for use in relation to energy management of commercial and industrial cooling systems for data centre network and network servers, computer software for the integration of artificial intelligence and machine learning in the field of energy management of commercial and industrial cooling systems, computer software for use in relation to electronic cooling of commercial and industrial systems, computer software for use in relation to energy management of commercial and industrial cooling systems; computer software for controlling cooling for consumer electronic devices, namely, computers, laptop computers and smartphones; computer software and hardware for vehicle fleet launch, coordination, calibration, direction, and management; voice recognition software; voice-enabled software applications, namely, computer software for use in connection with the operation and management of voice-enabled applications; computer software for use in relation to project operations and resource management, namely, computer programs for enterprise resource planning (ERP) in the field of supply chain management; computer software for use in relation to management of natural resources; computer software for use in relation to management of water, solar, wind, minerals and fossil fuels; computer software for use in relation to medical imaging and processing; computer software for use in generating, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising computer data; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising medical records; computer software for simulation for use in design and development of artificial intelligence and algorithms for use in relation to a virtual space; computer application software for computers, laptops, handheld computers and mobile phones for use in implementing the Internet of things [IoT]; computer software and computer programs for playing electronic games; computer software and applications incorporating algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-

machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial and virtual reality spaces; virtual reality and augmented reality software and applications for training, education, entertainment and research; laboratory instrument for testing and analysing computer game hardware and software in the field of artificial intelligence; software for the integration of artificial intelligence and machine learning in the field of Big Data; educational apparatus and simulators, namely, apparatus for recording, transmission, and reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for use in computation, manipulation of collections of data, data transformation, input and output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; abacuses; computing CPU accumulators; audio- and video-receivers; audio-visual equipment, namely, computer hardware, televisions, projectors and electronic devices for transmitting audio and video; audio-visual teaching apparatus, namely, computers, tablet computers, smartphones and portable digital electronic devices for organizing, transmitting, receiving and reviewing text, data, image and audio files; electronic synthesizers; software for audio, video and audio-video games; computer software in particular audio, video and audio-video games; computer software in the nature of audio, video and audio-video games; downloadable computer game software offered via the internet and wireless devices; computer game software; computer game software for use with computers and video game consoles; computer game software for use on mobile phones and other handheld wireless devices; computer game software for use with on-line interactive games; computer games programs downloaded via the internet; games software; computer games; computer games programs; computer game programs; computer gaming software; software programs for video games; electronic game programs; electronic game software; downloadable electronic game programs; downloadable computer game programs; downloadable computer game software; recorded computer game programs; interactive computer game programs; interactive multimedia computer game programs; downloadable game related software applications; computer software for use in modelling and testing analysis in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software libraries for use in computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software runtime systems, namely, computer software systems comprised of computer software libraries for use in computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer hardware systems comprised of computer software libraries for use in computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; artificial intelligence apparatus, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact

center and digital device, namely, mobile, portable and wireless devices; computer software for scientific research in the fields of chemistry, physics, biology, technology, medicine and healthcare; computer modelling software in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; computer software for use in protein structure modelling; computer software for modelling in the fields of chemistry, physics, biology; computer software for modelling in the fields of biochemistry; downloadable computer software for use in predicting protein structures in the field of biology; downloadable computer software for use in X-ray crystallography; downloadable computer software for solid state chemistry analysis; downloadable computer software for scientific analysis of genetic sequences; downloadable computer software in the fields of medical endoscopy; computer software related to biological data processing; computer software and systems for use in analysing, predicting properties, and physical characteristics of organic compounds; scientific apparatus and instruments, namely, laboratory instrument for science research in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; computer groupware comprised of computer software libraries for use in database management; computer hardware; computer hardware for games and gaming; video games; video games programs; computer application software for mobile phones for use in modelling and testing analysis in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer game software for use on mobile and cellular phones; recorded game software for mobiles; video game cartridges; electronic magnetic recording media, namely, blank magnetic discs; blank compact discs; prerecorded DVDS, video discs, video tapes, video cassettes featuring animated cartoons; recorded DVDs, video discs, video tapes, video cassettes featuring movies and films; downloadable movies and films; downloadable electronic publications in the nature of books, magazines, periodicals, research papers, abstracts, newsletters, brochures, manuals, and catalogues in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; electronic publications, downloadable relating to games and gaming; downloadable publications, namely, guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artworks, texts, graphics and photographs; virtual reality game software; interactive multimedia computer games programs; interactive computer game programs; downloadable computer game programs; artificial intelligence apparatus, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center, and digital device namely, mobile, portable and wireless devices; pre-recorded CDs and DVDs containing music, movies, computer games, pre-recorded CDs and DVDs for computer data storage; parts, fittings and accessories for mobile phones, computer hardware, and portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text messages, electronic publications, still images, audio and video files.

Class 10

(3) Surgical, dental and veterinary instruments, ultrasonic medical diagnostic apparatus, medical diagnostic laboratory analyzers for blood analysis, medical diagnostic instruments for the analysis

of body fluids, namely blood and derivates and urine, genetic testing apparatus, namely medical diagnostic laboratory analyzers for testing and analysis of DNA and genetics for medical purposes, and parts and fittings for the aforesaid goods; medical diagnostic laboratory analyzers for analysing properties of organic compounds, and parts and fittings for the aforesaid goods; artificial limbs, eyes and teeth; orthopaedic articles, namely, orthopaedic shoes, orthopedic splints, orthopaedic braces, orthopaedic supports for joints, limbs, hands, feet, necks, shoulders and backs; suture materials; therapeutic and assistive devices, namely, pacemakers, defibrillators, infusion pumps, hearing aids, optical aids, prostheses and mobility aids; medical devices and systems for the prevention, diagnosis and treatment of diseases, namely, surgical instruments, pacemakers, defibrillators, surgical laser systems, infusion pumps, heart rate monitors, blood pressure monitors, medical imaging systems, ultrasound scanners and probes; apparatus for analysing properties of organic compounds, namely, analyzers for organic compounds for medical purposes; apparatus for scientific, chemical, physical, biological analysis, namely, medical diagnostic laboratory analyzers for blood analysis, medical diagnostic instruments for the analysis of body fluids, namely blood and derivates and urine, genetic testing apparatus, namely medical diagnostic laboratory analyzers for testing and analysis of DNA and genetics for medical purposes, and parts and fittings for the aforesaid goods; medical diagnostic laboratory analyzers for analysing properties of organic compounds, and parts and fittings for the aforesaid goods; surgical robots; parts, fittings and accessories for all the aforesaid, namely, structural parts for surgical robots, structural parts for surgical instruments, structural parts for all the aforesaid goods

Class 12

(4) Autonomous vehicles for locomotion by land, air, space or water, namely, remote controlled transportation robots, self-driving robots for delivery, robot transportation vehicles; robotic cars; autonomous cars; parts, fittings and accessories for the aforesaid, namely, motors and engines for robot transportation vehicles, automobiles, watercraft and aircraft, structural parts for robot transportation vehicles, structural parts for automobiles, structural parts for watercraft, structural parts for aircraft

Class 16

(5) Printed matter and printed publications, namely, books, magazines, newsletters, brochures, manuals, catalogues, periodicals, research papers, printed abstracts in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; printed matter and printed publications, research papers, digests in the fields of computer modelling of organic compounds; printed matter and printed publications, namely, books, research papers and manuals in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, games of skill, computer game strategies; calendars; postcards; comics; printed publications related to audio-video games, instructional manuals, computer game instruction manuals; computer game strategy articles, books, newsletters, research papers, printed abstracts; printed publications relating to computer software, computer programs, artificial intelligence; strategy guide books for computer games

Class 28

(6) Toys, games, playthings, namely, board games, strategy games, toy robots and electronic games other than those adapted for use with television receivers in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and

data mining, virtual reality, augmented reality; toy robots; apparatus for games, namely, cards, die, game boards for trading card games, balls for games, marbles for games, counters for games and tokens for use in games; video game apparatus, namely, joysticks for video games, player-operated electronic controllers for electronic video game machines, gamepads for video game machines; arcade video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen and monitor; amusement machines, automatic and coin-operated; handheld electronic games; go games; board games; handheld computer game apparatus, namely, handheld game consoles; handheld computer games, namely, handheld video game consoles; apparatus for games, namely, handheld units for playing video games; electronic board games; skill games; games of strategy; electronic educational games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; electronic learning games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; electronic teaching games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; electronic training games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; parts, fittings and accessories for all the aforesaid, namely, structural parts for toy robots, handheld electronic games, handheld game consoles

Services

Class 35

(1) Business management, business administration; business information services, namely, compilation of information into computer databases; business advice, consultancy and business information services to promote collaborations within the scientific and research communities to achieve advances in artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; Business advice, consultancy and business information services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology

Class 38

(2) Telecommunications, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, voice over internet protocol VOIP services; communications, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, voice over internet protocol VOIP services; telecommunications and communications services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; electronic message sending services, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, voice over internet protocol voip services in the

fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; electronic message sending services via chat lines, chatrooms and Internet forums; providing access to databases; transmission of digital files, namely, electronic mail services through wired and wireless access, paging services, wireless digital messaging services; providing internet access; providing access to wireless internet; transmission of data, sound and images by satellite, namely, transmission of electronic messages, electronic data, radio and television programs by satellite; forwarding messages of all kinds to internet addresses, namely, web messaging and voice messaging, digital text messaging services; electronic exchange of messages via chat lines, chatrooms and internet forums; providing on-line chat rooms for transmission of messages among computer users; transmission of messages, data and content via the internet and other communications networks, namely, providing on-line chat rooms and electronic bulletin boards for transmission of messages among computer users; communication via interactive voice response, namely, internet based telecommunication services via interactive voice response; providing on-line chatrooms for the transmission of messages, comments and multimedia content among users; providing access to internet platforms; providing electronic telecommunications bulletin board in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; rental of access time to a computer database; electronic transmission of database information via computer terminals and the Internet, providing access to databases; cable television broadcasting; internet broadcasting, namely, broadcasting of television programs via the Internet, internet radio broadcasting; video-on-demand transmission; providing access to Internet forums; e-mail transmission services; providing internet chatrooms; telecommunication services, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, voice over internet protocol VOIP services provided via the internet platforms and portals; transmissions of games via the Internet, namely, providing access to online computer games via the Internet

Class 41

(3) Educational services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; providing of training in the form of seminars, webinars, conferences, classes and workshops in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; entertainment services, namely, providing podcasts, web site blogs, non-downloadable publications in the nature of e-books, articles, magazines, newspapers, newsletters, periodicals, manuals, guides and handbooks and online journals in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; entertainment services in the form of providing online video games; organizing sporting and cultural events; arranging, conducting and hosting conferences in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud

computing, analytics and data mining, virtual reality, augmented reality; entertainment services, namely, providing online video games; arranging and conducting live and interactive game adventures; providing on-line interactive computer games; providing on-line video games; providing of information about augmented reality, video and electronic games; providing online electronic games via the internet; on-line computer games; providing on-line computer games; providing on-line interactive computer games; electronic games services provided by means of the internet and accessible by means of mobile electronic devices; providing electronic games equipment rental services; providing a (virtual) training environment, namely, providing online video games, seminars, webinars and classes in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; providing information to players about the ranking of game scores on-line; training services provided via simulators in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; training in computer programming; providing on-line movies and films; providing online, non-downloadable electronic publications in the nature of books, magazines, periodicals, research papers, abstracts, newsletters, brochures, manuals, and catalogues in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; publication of computer games; publication of electronic articles, research papers, books, journals on-line (not downloadable); organising of electronic games competitions; organisation of sports competitions; computer education training; providing on-line training in relation to computer games; education and training services relating to computer games; educational services, namely, providing seminars, webinars, conferences, classes and workshops in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; training services, namely, providing training seminars, webinars, conferences, classes and workshops in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services, namely, providing multimedia program in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing advisory, consultancy, entertainment information and educational information in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology

Class 42

(4) Scientific and technological services and research and design relating thereto, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, statistical analysis, artificial intelligence, machine learning and virtual reality, science, chemistry, physics, biology and scientific research and new product design services provided in connection with the foregoing; computer-aided scientific analysis in the fields

of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; scientific research in relation to proteins; industrial research in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; testing, analysis and evaluation of the goods of others to ensure compliance with industry standards; research, design and development of computer hardware and software; scientific research into organic compounds; scientific services for the analysis of organic compounds; crystallography services, namely, research and development in the fields of crystallography; computer technology consultancy services in the fields of analytics and data mining, data analysis, data transformation, data visualization, statistical analysis, artificial intelligence, machine learning and virtual reality, science, chemistry, physics, biology; information technology consultancy services in the fields of analytics and data mining, data analysis, data transformation, data visualization, statistical analysis, artificial intelligence, machine learning and virtual reality, science, chemistry, physics, biology; providing information on computer technology and programming via a web site; development and testing of computer software for computer games and board games; computer programming; computer programming consultancy; computer programming for others; computer software programming services; programming of computer animations; computer programming of video and computer games; design and development of computing platforms and training environments for others; research relating to computer programming; computer programming and software design; advisory services relating to computer programming; design, development and programming of computer software; design, development and provision of computer software for use as an application programming interface (API); creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; consultancy in the design and development of computer hardware; engineering services relating to robotics; engineering services in the fields of energy technology; engineering services relating to energy supply systems; electronic data storage, namely, cloud computing provider services for general storage of data; electronic storage of medical records; hosting computer sites; off-site data backup; computer software consultancy; development and testing of computer software incorporating algorithms in a virtual space; design and development of computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing for use in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; design and development of software for on-line advertising; design and development of computer software in relation to advertisement evaluation; design and development of computer software for use in relation to navigational systems; design and development of computer software for autonomous and semi-autonomous driving vehicles or spacecraft for locomotion by land, air, space or water; design and development of computer software for autonomous and semi-autonomous driving control systems for vehicles or spacecraft for locomotion by land, air, space or water; design and development of computer software for use in autonomous and semi-autonomous control, driving or navigation of vehicles or spacecraft for locomotion by land, air, space or water; design and development of software for processing and distribution of multimedia content; design and development of computer software for use in relation to electronic communications networks, electronic databases or website search engines; design and development of computer software for optimising content recommendation; design and

development of computer software for electronic language translation; design and development of computer software in relation to machine translation; providing temporary use of on-line, non-downloadable computer software for language translation; design and development of computer software for process control; design and development of energy management software; design and development of computer software for cooling (electronic) apparatus or systems; design and development of computer software and hardware for vehicle fleet launch, coordination, calibration, direction, and management; design and development of computer software in the field of natural language, speech, speaker, language, voice recognition, and voice-print recognition; design and development of computer software for use in relation to estimating resource requirements; design and development of computer software for use in relation to management of natural resources; design and development of computer software for use in relation to management of water, solar, wind, minerals and fossil fuels; design and development of computer software for use in relation to medical imaging or processing; design and development of computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data; design and development of computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising medical records; design and development of computer software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programs; design and development of computer-simulated models for the purpose of testing artificial intelligence and algorithms for computer games and board games; design and development of computer software for use in implementing the Internet of Things [IoT]; design and development of voice synthesisers; design and development of text-to-speech software and voice synthesisers; development and testing of computing methods, algorithms and software for computer games and board games; design of games, namely, design and development of computing methods, algorithms and software for computer games and board games; design of board games; computer programming for video games; research and technology services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; design, development and analysis of virtual computer environments in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer game software design and development; programming of computer game software; developing computer game programs using artificial neural networks constructed to function as complex processing systems; developing computer programs using tree search; providing virtual computer environments through cloud computing; protein structure modelling using computer software; hosting of platforms on the internet providing a web hosting platform for others; programming of software for internet platforms; platform as a service (PaaS) featuring computer software platforms for use in accessing software in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; computerized data verification services, namely, verification of scientific, chemical, physical and biological data; data compilation services in the fields of scientific, chemical, physical and biological analysis; data analysis services in the fields of scientific, chemical, physical and biological analysis; medical research services; genetic research services, namely, scientific research in the fields of genetics and genetic engineering, advice, consultancy and information in relation to the aforesaid

Class 44

(5) Genetic testing for medical purposes; providing on-line medical record analysis and medical advice, consultancy and information services in relation to the aforesaid

Goods

Class 03

(1) Indica and Sativa cannabis and marijuana derivatives for non-medical use, namely, topical creams, topical balms, topical ointment; face and body lotions, bath additives, soaps for personal use, beauty creams for body care, massage oils

Class 05

(2) Indica and Sativa cannabis and marijuana for medical use; Indica and Sativa cannabis and marijuana related products for medical use, namely, raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds; Indica and Sativa cannabis and marijuana derivatives for medical use, namely, pastes, unguents, tinctures, oils, salves, dusts, residues, compressants, topical applications, namely, topical creams, topical balms, topical ointment; tablets and capsules for medical use namely tablets and capsules, each containing cannabis or derivatives of cannabis, namely hashish, resins and oils

Class 09

(3) Delivery mechanisms and smoking articles for cannabis consumption, namely scales, batteries, battery chargers, lithium batteries and chargers and car power adapters for electronic cigarettes; Electronic publications namely, newsletters, brochures, reports and guides in the field of cannabis

Class 16

(4) Printed publications, namely, newsletters, brochures, reports and guides in the field of cannabis

Class 25

(5) Clothing, namely, t-shirts, shirts, caps, hats, and sweatshirts

Class 30

(6) Edible and food products, namely chocolates, brownies, muffins, cookies, candy, food energy bars, teas, each containing cannabis, hashish, cannabis resins and cannabis oils

Class 31

(7) Indica and Sativa cannabis and marijuana related products for non-medical use, namely, raw cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds

Class 32

(8) Fruit juices, smoothies, carbonated soft drinks and energy drinks, each containing cannabis, hashish, cannabis resins and cannabis oils

Class 34

(9) Delivery mechanisms and smoking articles for cannabis consumption, namely pipes, rolling papers, rolling machines, cartridges, filters, water pipes, vaporizers, grinders, lighters, matches, ashtrays, carrying cases and containers, tins and pouches to hold prepared cannabis non-tobacco cigarettes; E-vapor cigarettes, vaporizers

Services

Class 35

(1) Promoting public awareness of the benefits of use of Indica and Sativa cannabis and cannabis related products, namely raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds, Indica and Sativa cannabis and marijuana derivatives for medical and non-medical use namely, pastes, unguents, tinctures, oils, salves, dusts, residues, compressants, topical applications, namely, tropical creams, topical balms, topical ointment; Retail and online sales of both Indica and Sativa medical and non-medical cannabis and cannabis and related products namely raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds; Retail and online sales of delivery mechanisms and smoking articles for cannabis consumption, namely pipes, rolling papers, rolling machines, cartridges, filters, water pipes, vaporizers, grinders, scales, lighters, matches, ashtrays, carrying cases and containers, tins and pouches to hold prepared cannabis non-tobacco cigarettes; Retail and online sales of e-vapor devices, vaporizers, and batteries, battery chargers, lithium batteries and chargers and car power adapters for electronic cigarettes; Providing ratings, reviews and recommendations on products and services for commercial purposes posted by users via a website in the field of cannabis

Class 36

(2) Retail and wholesale electronic payment fulfilment software and hardware, mobile applications servicing the trade and currency generated through cannabis and cannabis item related sales, namely, Payment gateway services; Electronic payment services, namely, electronic processing and transmission of funds

Class 39

(3) Packaging, parcel shipping services for cannabis and cannabis related products

Class 41

(4) Providing news via a website in the nature of current events reporting in the field of cannabis and cannabis culture, providing educational information via a website in the field of cannabis

Class 42

(5) Developing and providing computer hardware and computer software for use processing and managing the sale of cannabis; research services and consulting services in the area of developing marijuana and cannabis, cannabis products, derivatives of cannabis, and natural health products containing cannabis

Class 44

(6) Cultivation, breeding of Indica and Sativa cannabis and cannabis related products, namely raw cannabis, dried cannabis, live cannabis plants, leaves and flowers of all strains of cannabis, cannabis seeds, Indica and Sativa cannabis and marijuana derivatives for medical and non-medical use namely, pastes, unguents, tinctures, oils, salves, dusts, residues, compressants, topical creams, topical balms, topical ointments, nonmedicated tablets and capsules each containing cannabis or derivatives of cannabis, namely hashish, resins and oils, and edible and food products, namely chocolates, brownies, muffins, cookies, candy, food energy bars, fruit juices, smoothies, carbonated soft drinks and energy drinks each containing cannabis, hashish, cannabis resins and cannabis oils

Class 45

(7) Computer services, namely, online social networking services for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking in the field of cannabis

Class 09

(1) Control panels for gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation; computer software and firmware for operation of gas purifying units, water vapour purifying units, water purifying units, waste water vapour purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour

filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Class 11

(2) Air purifying units; gas purifying units; water vapour purifying units; industrial water purifying units; waste water purifying units; industrial air and gas purifiers; industrial water vapour purifiers; industrial water purifiers; industrial waste water purifiers; units for removing odors from air, gas, industrial water, waste water, and water vapour; units for removing pollutants from air, gas, industrial water, waste water, and water vapour; units for removing volatile organic compounds, pollutants, and particulate from air, gas, industrial water, waste water, and water vapour; units for treating air, gas, industrial water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate; units for treating air, gas, industrial water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, industrial water, waste water, and water vapour; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for non-thermal treatment of air, gas, industrial water, waste water, and water vapour; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, industrial water, waste water, and water vapour using non thermal plasma oxidation; machines for industrial-scale processing of food and beverages through pasteurization, sterilization, and disinfection, namely industrial pasteurization, sterilization, and disinfection machines; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for treatment of food and beverages using non thermal plasma oxidation; cooling fans for air purifying units, gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic

compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation; exhaust fans for air purifying units, gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Services

Class 37

(1) repair, maintenance, and technical support of air purifying units; repair, maintenance, and technical support of gas purifying units; repair, maintenance, and technical support of water vapour purifying units; repair, maintenance, and technical support of water purifying units; repair, maintenance, and technical support of waste water purifying units; repair, maintenance, and technical support of industrial air and gas purifiers; repair, maintenance, and technical support of industrial water vapour purifiers; repair, maintenance, and technical support of industrial water purifiers; repair, maintenance, and technical support of industrial waste water purifiers; repair,

maintenance, and technical support of units for removing odors from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for removing pollutants from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate; repair, maintenance, and technical support of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; repair, maintenance, and technical support of filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of industrial processing machines for non-thermal treatment of air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of industrial processing machines for treatment of air, gas, water, waste water, and liquid vapour using non thermal plasma oxidation; repair, maintenance, and technical support of machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection; repair, maintenance, and technical support of industrial processing machines for non-thermal treatment of food and beverages; repair, maintenance, and technical support of industrial processing machines for treatment of food and beverages using non thermal plasma oxidation

Class 40

(2) rental and leasing of air purifying units; rental and leasing of gas purifying units; rental and leasing of water vapour purifying units; rental and leasing of water purifying units; rental and leasing of waste water purifying units; rental and leasing of industrial air and gas purifiers; rental and leasing of industrial water vapour purifiers; rental and leasing of industrial water purifiers; rental and leasing of industrial waste water purifiers; rental and leasing of units for removing odors from air, gas, water, waste water, and liquid vapour; rental and leasing of units for removing pollutants from air, gas, water, waste water, and liquid vapour; rental and leasing of units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and liquid vapour; rental and leasing of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate; rental and leasing of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; rental and leasing of filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and liquid vapour; rental and leasing of industrial processing machines for non-thermal treatment of air, gas, water, waste water, and liquid vapour; rental and leasing of industrial processing machines for treatment of air, gas, water, waste water, and liquid vapour using non thermal plasma oxidation; rental and leasing of machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection; rental and leasing of industrial processing machines for non-thermal treatment of food and beverages; rental and leasing of industrial processing machines for treatment of food and beverages using non thermal plasma oxidation

Class 42

(3) Prevention of pollution testing; technical consulting in the field of pollution detection; technical consulting in the field of design and development of industrial air, gas, water, wastewater, and water vapour filtration and purification machines for air, gas, industrial water, waste water, and water vapour purification; technical consulting in the field of design and development of industrial air, gas, water, wastewater, and water vapour treatment machines for air, gas, industrial water, waste water, and water vapour treatment; technical consulting in the field of design and

development of air, gas, and water treatment units for non thermal plasma oxidation of food and beverages; scientific research in the field of environmental protection; research in the field of physics; research pertaining to mechanical engineering; research in the field of pollution detection; research in the field of air, gas, water, waste water, and liquid vapour purification; research in the field of air, gas, water, waste water, and liquid vapour treatment; scientific research in the field of design and development of air, gas, and water treatment units for non thermal plasma oxidation of food and beverages; research and development of air purifying units, gas purifying units, water purifying units, waste water purifying units, water vapour purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Class 09

(1) Control panels for gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation; computer software and firmware for operation of gas purifying units, water vapour purifying units, water purifying units, waste water vapour purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour

filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Class 11

(2) Air purifying units; gas purifying units; water vapour purifying units; industrial water purifying units; waste water purifying units; industrial air and gas purifiers; industrial water vapour purifiers; industrial water purifiers; industrial waste water purifiers; units for removing odors from air, gas, industrial water, waste water, and water vapour; units for removing pollutants from air, gas, industrial water, waste water, and water vapour; units for removing volatile organic compounds, pollutants, and particulate from air, gas, industrial water, waste water, and water vapour; units for treating air, gas, industrial water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate; units for treating air, gas, industrial water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, industrial water, waste water, and water vapour; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for non-thermal treatment of air, gas, industrial water, waste water, and water vapour; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, industrial water, waste water, and water vapour using non thermal plasma oxidation; machines for industrial-scale processing of food and beverages through pasteurization, sterilization, and disinfection, namely industrial pasteurization, sterilization, and disinfection machines; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for treatment of food and beverages using non thermal plasma oxidation; cooling fans for air purifying units, gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic

compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation; exhaust fans for air purifying units, gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Services

Class 37

(1) repair, maintenance, and technical support of air purifying units; repair, maintenance, and technical support of gas purifying units; repair, maintenance, and technical support of water vapour purifying units; repair, maintenance, and technical support of water purifying units; repair, maintenance, and technical support of waste water purifying units; repair, maintenance, and technical support of industrial air and gas purifiers; repair, maintenance, and technical support of industrial water vapour purifiers; repair, maintenance, and technical support of industrial water purifiers; repair, maintenance, and technical support of industrial waste water purifiers; repair,

maintenance, and technical support of units for removing odors from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for removing pollutants from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate; repair, maintenance, and technical support of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; repair, maintenance, and technical support of filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of industrial processing machines for non-thermal treatment of air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of industrial processing machines for treatment of air, gas, water, waste water, and liquid vapour using non thermal plasma oxidation; repair, maintenance, and technical support of machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection; repair, maintenance, and technical support of industrial processing machines for non-thermal treatment of food and beverages; repair, maintenance, and technical support of industrial processing machines for treatment of food and beverages using non thermal plasma oxidation

Class 40

(2) rental and leasing of air purifying units; rental and leasing of gas purifying units; rental and leasing of water vapour purifying units; rental and leasing of water purifying units; rental and leasing of waste water purifying units; rental and leasing of industrial air and gas purifiers; rental and leasing of industrial water vapour purifiers; rental and leasing of industrial water purifiers; rental and leasing of industrial waste water purifiers; rental and leasing of units for removing odors from air, gas, water, waste water, and liquid vapour; rental and leasing of units for removing pollutants from air, gas, water, waste water, and liquid vapour; rental and leasing of units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and liquid vapour; rental and leasing of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate; rental and leasing of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; rental and leasing of filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and liquid vapour; rental and leasing of industrial processing machines for non-thermal treatment of air, gas, water, waste water, and liquid vapour; rental and leasing of industrial processing machines for treatment of air, gas, water, waste water, and liquid vapour using non thermal plasma oxidation; rental and leasing of machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection; rental and leasing of industrial processing machines for non-thermal treatment of food and beverages; rental and leasing of industrial processing machines for treatment of food and beverages using non thermal plasma oxidation

Class 42

(3) Prevention of pollution testing; technical consulting in the field of pollution detection; technical consulting in the field of design and development of industrial air, gas, water, wastewater, and water vapour filtration and purification machines for air, gas, industrial water, waste water, and water vapour purification; technical consulting in the field of design and development of industrial air, gas, water, wastewater, and water vapour treatment machines for air, gas, industrial water, waste water, and water vapour treatment; technical consulting in the field of design and

development of air, gas, and water treatment units for non thermal plasma oxidation of food and beverages; scientific research in the field of environmental protection; research in the field of physics; research pertaining to mechanical engineering; research in the field of pollution detection; research in the field of air, gas, water, waste water, and liquid vapour purification; research in the field of air, gas, water, waste water, and liquid vapour treatment; scientific research in the field of design and development of air, gas, and water treatment units for non thermal plasma oxidation of food and beverages; research and development of air purifying units, gas purifying units, water purifying units, waste water purifying units, water vapour purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Class 09

(1) Control panels for gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation; computer software and firmware for operation of gas purifying units, water vapour purifying units, water purifying units, waste water vapour purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour

filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Class 11

(2) Air purifying units; gas purifying units; water vapour purifying units; industrial water purifying units; waste water purifying units; industrial air and gas purifiers; industrial water vapour purifiers; industrial water purifiers; industrial waste water purifiers; units for removing odors from air, gas, industrial water, waste water, and water vapour; units for removing pollutants from air, gas, industrial water, waste water, and water vapour; units for removing volatile organic compounds, pollutants, and particulate from air, gas, industrial water, waste water, and water vapour; units for treating air, gas, industrial water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate; units for treating air, gas, industrial water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, industrial water, waste water, and water vapour; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for non-thermal treatment of air, gas, industrial water, waste water, and water vapour; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, industrial water, waste water, and water vapour using non thermal plasma oxidation; machines for industrial-scale processing of food and beverages through pasteurization, sterilization, and disinfection, namely industrial pasteurization, sterilization, and disinfection machines; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages; industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units for treatment of food and beverages using non thermal plasma oxidation; cooling fans for air purifying units, gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic

compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation; exhaust fans for air purifying units, gas purifying units, water vapour purifying units, water purifying units, waste water purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Services

Class 37

(1) repair, maintenance, and technical support of air purifying units; repair, maintenance, and technical support of gas purifying units; repair, maintenance, and technical support of water vapour purifying units; repair, maintenance, and technical support of water purifying units; repair, maintenance, and technical support of waste water purifying units; repair, maintenance, and technical support of industrial air and gas purifiers; repair, maintenance, and technical support of industrial water vapour purifiers; repair, maintenance, and technical support of industrial water purifiers; repair, maintenance, and technical support of industrial waste water purifiers; repair, maintenance, and technical support of units for removing odors from air, gas, water, waste water,

and liquid vapour; repair, maintenance, and technical support of units for removing pollutants from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate; repair, maintenance, and technical support of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; repair, maintenance, and technical support of filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of industrial processing machines for non-thermal treatment of air, gas, water, waste water, and liquid vapour; repair, maintenance, and technical support of industrial processing machines for treatment of air, gas, water, waste water, and liquid vapour using non thermal plasma oxidation; repair, maintenance, and technical support of machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection; repair, maintenance, and technical support of industrial processing machines for non-thermal treatment of food and beverages; repair, maintenance, and technical support of industrial processing machines for treatment of food and beverages using non thermal plasma oxidation

Class 40

(2) rental and leasing of air purifying units; rental and leasing of gas purifying units; rental and leasing of water vapour purifying units; rental and leasing of water purifying units; rental and leasing of waste water purifying units; rental and leasing of industrial air and gas purifiers; rental and leasing of industrial water vapour purifiers; rental and leasing of industrial water purifiers; rental and leasing of industrial waste water purifiers; rental and leasing of units for removing odors from air, gas, water, waste water, and liquid vapour; rental and leasing of units for removing pollutants from air, gas, water, waste water, and liquid vapour; rental and leasing of units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and liquid vapour; rental and leasing of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate; rental and leasing of units for treating air, gas, water, waste water, and liquid vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation; rental and leasing of filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and liquid vapour; rental and leasing of industrial processing machines for non-thermal treatment of air, gas, water, waste water, and liquid vapour; rental and leasing of industrial processing machines for treatment of air, gas, water, waste water, and liquid vapour using non thermal plasma oxidation; rental and leasing of machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection; rental and leasing of industrial processing machines for non-thermal treatment of food and beverages; rental and leasing of industrial processing machines for treatment of food and beverages using non thermal plasma oxidation

Class 42

(3) Prevention of pollution testing; technical consulting in the field of pollution detection; technical consulting in the field of design and development of industrial air, gas, water, wastewater, and water vapour filtration and purification machines for air, gas, industrial water, waste water, and water vapour purification; technical consulting in the field of design and development of industrial air, gas, water, wastewater, and water vapour treatment machines for air, gas, industrial water, waste water, and water vapour treatment; technical consulting in the field of design and development of air, gas, and water treatment units for non thermal plasma oxidation of food and

beverages; scientific research in the field of environmental protection; research in the field of physics; research pertaining to mechanical engineering; research in the field of pollution detection; research in the field of air, gas, water, waste water, and liquid vapour purification; research in the field of air, gas, water, waste water, and liquid vapour treatment; scientific research in the field of design and development of air, gas, and water treatment units for non thermal plasma oxidation of food and beverages; research and development of air purifying units, gas purifying units, water purifying units, waste water purifying units, water vapour purifying units, industrial air and gas purifiers, industrial water vapour purifiers, industrial water purifiers, industrial waste water purifiers, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing odors from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing pollutants from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for removing volatile organic compounds, pollutants, and particulate from air, gas, water, waste water, and water vapour, industrial air, gas, water, wastewater, and water vapour filtration and purification units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate, industrial air, gas, water, wastewater, and water vapour treatment units for treating air, gas, water, waste water, and water vapour to remove odors, pollutants, volatile organic compounds and particulate by non thermal plasma oxidation, industrial air, gas, water, wastewater, and water vapour filtering units for removing volatile organic compounds, odors, particulate, and pollutants from air, gas, water, waste water, and water vapour, industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of air, gas, water, waste water, and water vapour, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of air, gas, water, waste water, and water vapour using non thermal plasma oxidation, industrial food and beverage purification machines for industrial processing of food and beverages through pasteurization, sterilization, and disinfection, industrial processing machines, namely industrial air, gas, water, wastewater, and water vapour treatment units, for non-thermal treatment of food and beverages, and industrial processing machines namely industrial air, gas, water, wastewater, and water vapour treatment units, for treatment of food and beverages using non thermal plasma oxidation

Class 09

Computer software for storing managing, tracking, analyzing, and reporting data relating to the automation of personal and commercial business processes, namely for asset and inventory management, business project management, expense management, procurement management, telecommunications expense management (TEM), customer relationship management (CRM), enterprise resource planning (ERP), document management, business transaction management, financial management, operations management, production management, sales management, cost analysis, invoice processing, invoice auditing, human resource management, employee management and data usage management.

Services

Class 35

(1) Business management advisory and business management consultation services in the cannabis industry; business services in the nature of managing inventory, customer relationships (CRM), enterprise resource planning (ERP), invoices, human resources, all for the benefit of others.

Class 42

(2) Software as a service (SAAS) services, namely, hosting software for use by others for use in the field of asset and inventory management, business project management, expense management, procurement management, telecommunications expense management (TEM), customer relationship management (CRM), enterprise resource planning (ERP), software management, financial management, sales management, cost analysis, invoice processing, invoice auditing, human resource management, employee management and data usage management; Platform as a services (PAAS) featuring computer software platforms for asset and inventory management, business project management, expense management, procurement management, telecommunications expense management (TEM), customer relationship management (CRM), enterprise resource planning (ERP), document management, business transaction management, financial management, sales management, cost analysis, invoice

processing, invoice auditing, human resource management, employee management and data usage management; Installation and maintenance of computer software; Platform as a service (PAAS) featuring computer software in the field of e-commerce to allow users to perform electronic business transactions for the distribution of medical cannabis via a global computer network; software as a service (SAAS), namely, hosting software for use by others for use in the field of medical cannabis patient orders, namely, for logging prescriptions, shopping for medical cannabis, payment for medical cannabis, and reimbursement of patient payment for medical cannabis by insurance providers; platform as a service (PAAS) featuring computer software in the field of medical cannabis patient orders, namely, for logging prescriptions, shopping for medical cannabis, payment for medical cannabis, and reimbursement of patient payment for medical cannabis by insurance providers.

Goods

Class 06

(1) Small items of metal hardware, namely nails, springs, bolts, screws and washers; metal fittings incorporating flow control components for controlling and regulating the flow of gasses and liquids (other than parts of machines); valve stems of metal for manually operated valves of metal;

Class 07

(2) Valves being parts of machines; valves of metal for industrial installations (parts of machines); valves for industrial machinery; hydraulic valve actuators, valve diaphragms and valve seat rings; vacuum generators; pressure regulating valves being parts of machines; pressure reducing valves being parts of gas installations.

Class 09

(3) meters for measuring gaseous flow; electric / electronic flow gauges; electric / electronic valves for controlling and regulating the flow of gasses or liquids not being parts of plumbing, heating, cooling installations or machines; electric / electronic gas pressure regulators.

Colour Claim

The colors blue and orange are claimed as a feature of the mark. The mark consists of the blue stylized wording "CONSEIL INTERNATIONAL DES INFIRMIÈRES", "CONSEJO INTERNACIONAL DE ENFERMERAS", and "INTERNATIONAL COUNCIL OF NURSES" forming a circle around a design in the center, with orange dots between each set of words. The design in the center consists of a small blue globe above a large blue shaded triangular shape, which connects to the top of a smaller blue shaded triangle at its bottom point. Above the right upper-end of the larger triangle is an orange flame design.

Goods

Class 16

(1) Instructional or teaching material, namely, printed instructional and teaching publications in the field of nursing; books; booklets; manuals; prospectuses; brochures; pamphlets; notebooks; catalogues; graphic prints; photographs

Class 25

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) red and gray is/are claimed as a feature of the mark. The mark consists of the word "TIMESAVERS" in a stylized font with the word "TIME" appearing in red and the word "SAVERS" appearing in gray. To the left of the wording is a gray design of a man leaning back and pulling on two levers. A curving red line nearly connects the man's head to the letter "I" in the word "TIMESAVERS", which, together with the two levers, creates an image of a partial clock face.

Goods

computer software for monitoring patient medical information; computer software and software applications for controlling and managing access to patient medical information; software applications for mobile devices for monitoring and managing patient medical information; computer software applications, smartphones, smart watches, electronic tablets, personal digital assistants, scales with body mass analyzers, electronic scales for personal use enabling access to data related to physical activity, body mass and weight; computer software and software applications for portable apparatus used for the collection and analysis of variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; USB cables; battery chargers for watches, smart phones, smart watches, electronic tablets and personal digital assistants, scales with body mass analyzers, electronic weighing scales for personal use; pedometers; apparatus for measuring and checking calorie intake and expenditure (calorimeters); watches and smart bracelets equipped with monitoring and reporting functions for data related to fitness, training and activity, namely, data related to time, distance, pace, angular velocity, weight management, calories burned and cumulative activity level; smart watches and bracelets for communicating data to personal digital assistants, smart phones, portable devices and personal computers using sensors, online Internet sites and other computer and electronic communication networks.

Class 10

(2) Dental instruments; medical imaging apparatus, namely magnetic resonance imaging [MRI] apparatus for medical use, medical imaging processors; artificial respiration equipment and masks; hearing aids; nipples; health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, thermometers for medical use, body mass indicators, namely body composition monitors, body fat monitors and human body fat monitors (medical apparatus); digital thermometers for medical use; electrocardiogram [ECG] recorders; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely pulse measuring devices, heart rate measuring apparatus, health monitoring apparatus, namely medical thermometers, fever thermometers, pulsometers, health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, body mass indicators, blood glucose monitors and human body fat monitors.

Class 14

(3) Instruments for measuring time, namely stopwatches, watches; watches; bracelets.

Services

Class 35

(1) Collection and systematization of information into computer databases; compilation of statistical data related to medical research; compilation of statistical data for scientific research; database management; updating and maintenance of data in computer databases; data processing verification in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; management and compilation of computer databases; data processing services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; data search in computer files for others; consultant services for data processing; data retrieval services, namely database management in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 41

(2) Recreational and sporting activities, namely fitness instruction, sports studio; physical education services; advisory services related to the physical condition; advisory services related to physical exercise [fitness]; information services related to sports; training services related to the physical condition; sports training, namely development of fitness programs, physical fitness assessment services for training purposes; strength and endurance training; information services related to sports results; provision of information related to physical exercise through an online website; coaching [training], namely sports trainer services, specialized coaching services in the field of general health and well-being; organization and hosting of community sporting events; organization and management of competitions, namely operation and coordination of team sports competitions and electronic sports.

Class 42

(3) Software as a service [SaaS] for the tracking and recording of data in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels as well as for the tracking and recording of environment variables, namely temperature, air quality and light, as well as ambient noise during sleep; biological analysis; ratings, estimates and scientific and technological research performed by engineers in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design and development of computers and software; research and development of new products for others; technical project studies in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design, installation, maintenance, updating and rental of computer software; computer programming; conversion of data or documents from physical to electronic media; data mining services; computer-assisted scientific research services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; computer-assisted scientific analysis services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific studies services, namely conduct of interventional clinical studies; scientific advisory services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; provision of scientific and technological information in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific testing services, namely medical diagnostic tests in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 44

(4) Medical services, namely medical care and analysis services relating to patient treatment, medical examination services; medical analysis for the diagnosis and treatment of individuals; medical assistance, namely emergency medical assistance; advice related to stress in the fields of health; provision of medical information in the health sector, namely provision of information in the fields of general health and well-being via a website, provision of medical information in the field of

weight loss, provision of information via a website in the field of nutrition; medical information collection services, namely collection of environmental data, namely temperature, air quality and light as well as quality of sleep, and collection of information associated with fitness, body mass, respiration rate, heart rate, blood pressure, blood glucose levels and weight; biorhythm advisory services; health counselling provided under medical supervision, namely nutrition and weight loss counselling, counselling in the medical field relating to stress, counselling related to lifestyle; health care consultancy in the fields of public health, health assessments, and medical clinic services.

Class 09

(1) Computer databases recorded on computer media and containing information in the fields of health, wellness, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; information display terminals, namely visual display units; global positioning apparatus [GPS], namely satellite navigation systems, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; electronic tags; oxygen monitors, other than for medical use; monitoring apparatus, other than for medical use, namely wearable activity trackers; atmospheric oxygen monitors; heart rate monitors to be worn during exercise; wireless electronic apparatus for transmission of sound, images or data, namely smart phones, smart watches, electronic tablets and personal digital assistants, scales with body mass analyzers, electronic weighing scales for personal use; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely, calorimeters; speed indicators; digital thermometers, other than for medical use; personal electronic devices, namely electronic computers for displaying, measuring, recording, organizing, manipulating, analyzing and receiving data related to physical activity, namely weight, fat mass, heart rate, muscle mass, bone mass, total body water, blood pressure, blood glucose, quality of sleep, stress level and ambient air quality, weather conditions and forecasts in the form of text and images; receivers used for detecting, storing and processing electronic data collected from a sensor that records data related to fitness activity, namely data related to time, distance, speed, heart rate and body pace, as well as calories burned; bathroom scales; baby scales; audio and video apparatus for monitoring babies; wearable activity trackers; electric or electronic sensors for detecting, measuring, processing, gathering, recording and transmitting data related to wellness, sleep cycles, breathing rate, heart rate, limb movements and activity during sleep; electric or electronic sensors used for detecting, measuring, processing, gathering, recording and transmitting variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; computer software applications for portable devices used for recording, organizing, transmitting, receiving and analyzing text, data, images and audio files related to health and wellness; recorded

and downloadable computer software for monitoring and managing patient medical records; computer software for monitoring patient medical information; computer software and software applications for controlling and managing access to patient medical information; software applications for mobile devices for monitoring and managing patient medical information; computer software applications for smartphones, smart watches, electronic tablets, personal digital assistants, scales with body mass analyzers, electronic scales for personal use enabling access to data related to physical activity, body mass and weight; computer software and software applications for portable apparatus used for the collection and analysis of variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; USB cables; battery chargers for watches, smart phones, smart watches, electronic tablets and personal digital assistants, scales with body mass analyzers, electronic weighing scales for personal use; pedometers; apparatus for measuring and checking calorie intake and expenditure (calorimeters); watches and smart bracelets equipped with monitoring and reporting functions for data related to fitness, training and activity, namely, data related to time, distance, pace, angular velocity, weight management, calories burned and cumulative activity level; smart watches and bracelets for communicating data to personal digital assistants, smart phones, portable devices and personal computers using sensors, online Internet sites and other computer and electronic communication networks.

Class 10

(2) Dental instruments; medical imaging apparatus, namely magnetic resonance imaging [MRI] apparatus for medical use, medical imaging processors; artificial respiration equipment and masks; hearing aids; nipples; health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, thermometers for medical use, body mass indicators, namely body composition monitors, body fat monitors and human body fat monitors (medical apparatus); digital thermometers for medical use; electrocardiogram [ECG] recorders; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely pulse measuring devices, heart rate measuring apparatus, health monitoring apparatus, namely medical thermometers, fever thermometers, pulsometers, health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, body mass indicators, blood glucose monitors and human body fat monitors.

Class 14

(3) Instruments for measuring time, namely stopwatches, watches; watches; bracelets.

Services

Class 35

(1) Collection and systematization of information into computer databases; compilation of statistical data related to medical research; compilation of statistical data for scientific research; database management; updating and maintenance of data in computer databases; data processing verification in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; management and compilation of computer databases; data processing services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; data search in computer files for others; consultant services for data processing; data retrieval services, namely database management in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 41

(2) Recreational and sporting activities, namely fitness instruction, sports studio; physical education services; advisory services related to the physical condition; advisory services related to physical exercise [fitness]; information services related to sports; training services related to the physical condition; sports training, namely development of fitness programs, physical fitness assessment services for training purposes; strength and endurance training; information services related to sports results; provision of information related to physical exercise through an online website; coaching [training], namely sports trainer services, specialized coaching services in the field of general health and well-being; organization and hosting of community sporting events; organization and management of competitions, namely operation and coordination of team sports competitions and electronic sports.

Class 42

(3) Software as a service [SaaS] for the tracking and recording of data in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels as well as for the tracking and recording of environment variables, namely temperature, air quality and light, as well as ambient noise during sleep; biological analysis; ratings, estimates and scientific and technological research performed by engineers in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design and development of computers and software; research and development of new products for others; technical project studies in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design, installation, maintenance, updating and rental of computer software; computer programming; conversion of data or documents from physical to electronic media; data mining services; computer-assisted scientific research services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; computer-assisted scientific analysis services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific studies services, namely conduct of interventional clinical studies; scientific advisory services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; provision of scientific and technological information in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific testing services, namely medical diagnostic tests in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 44

(4) Medical services, namely medical care and analysis services relating to patient treatment, medical examination services; medical analysis for the diagnosis and treatment of individuals; medical assistance, namely emergency medical assistance; advice related to stress in the fields of health; provision of medical information in the health sector, namely provision of information in the fields of general health and well-being via a website, provision of medical information in the field of

weight loss, provision of information via a website in the field of nutrition; medical information collection services, namely collection of environmental data, namely temperature, air quality and light as well as quality of sleep, and collection of information associated with fitness, body mass, respiration rate, heart rate, blood pressure, blood glucose levels and weight; biorhythm advisory services; health counselling provided under medical supervision, namely nutrition and weight loss counselling, counselling in the medical field relating to stress, counselling related to lifestyle; health care consultancy in the fields of public health, health assessments, and medical clinic services.

Services

Class 35

(1) consulting services in the field of commercial food service equipment, beverage preparation equipment, food processing equipment, and baking equipment; providing information about residential and commercial cooking equipment, cooking automation, food service equipment, beverage preparation equipment, food processing equipment, and baking equipment innovation processes and development; consulting services in the field of product consistency, namely, product design, product development, and quality control of goods and services, labor reduction and management, and natural resource management; consulting services in the field of restaurant management, configuration, labor, organization, and appliance selection.

Class 40

(2) Custom and off the shelf manufacture of food cooking equipment and beverage preparation equipment; custom and off the shelf manufacturing services for others in the field of restaurant, foodservice, food, and beverage equipment; custom and off the shelf manufacturing services for others in the field of commercial food processing equipment, beverage preparation equipment, food processing equipment and baking equipment; custom and off the shelf manufacture of cooking equipment, cooking automation equipment, foodservice equipment, beverage preparation and packaging equipment, food processing equipment, food packaging equipment, air purification equipment, and baking equipment; custom and off the shelf manufacture of robots and artificial intelligence for use in the field of commercial cooking and foodservice equipment; custom and off the shelf manufacture of waste management machines, namely, food waste disposals; custom and

off the shelf manufacture of refrigeration equipment, namely, refrigerators, freezers, ice machines, ice making machines, wine coolers, refrigerated beer coolers, and temperature-controlled wine storage cabinets.

Class 42

(3) Interior design services; interior design services in the nature of kitchen appliance consulting services; engineering design services, namely, the engineering and design of cooking equipment, cooking automation equipment, commercial foodservice equipment, beverage preparation equipment, food processing equipment, food packaging equipment, air purification equipment, and baking equipment; engineering design services, namely, engineering and design of robots, artificial intelligence, and augmented reality for use in the field of commercial cooking, cooking automation, beverage preparation, baking, food processing, food packaging, air purification, and food service equipment; engineering design services, namely, engineering and design of internet of things solutions, namely, providing cloud-based non-downloadable software applications and computer software for use in the automation of commercial facilities, specifically, restaurants, convenience stores, and retailers; engineering design services, namely, engineering and design of refrigeration equipment, namely, refrigerators, freezers, ice machines, ice making machines, wine coolers, refrigerated beer coolers, and temperature-controlled wine storage cabinets; engineering and design of cooking equipment, cooking automation equipment, commercial foodservice equipment, beverage preparation equipment, food processing equipment, food packaging equipment, air purification equipment, and baking equipment; engineering and design of robots, artificial intelligence, and augmented reality for use in the field of commercial cooking, cooking automation, beverage preparation, baking, food processing, food packaging, air purification, and food service equipment; engineering and design of internet of things solutions, namely, providing cloud-based non-downloadable software applications and computer software for use in the automation of commercial facilities, specifically, restaurants, convenience stores, and retailers; engineering and design of waste management machines, namely, food waste disposals; engineering and design of refrigeration equipment, namely, refrigerators, freezers, ice machines, ice making machines, wine coolers, refrigerated beer coolers, and temperature-controlled wine storage cabinets; consulting services in the field of engineering, engineering design, and manufacturing of cooking equipment, cooking automation equipment, commercial food service equipment, beverage preparation equipment, food processing equipment, food packaging equipment, air purification equipment, and baking equipment; Food cooking equipment design services; cooking automation equipment design services; commercial foodservice equipment design services; beverage preparation equipment design services; food processing equipment design services; food packaging equipment design services; air purification equipment design services; waste management equipment design services; baking equipment design services; product development services in areas of commercial food service equipment, beverage preparation equipment, food processing equipment, and baking equipment.

Class 43

(4) Consulting services in the field of restaurant management, cooking equipment configuration, cooking equipment organization, and appliance selection, namely, selection of commercial food service equipment, equipment for making and dispensing beverages, food processing equipment, air purification units specifically adapted for restaurants, cooking equipment, and baking equipment for residential, commercial, and food processing consumers; consulting services in the field of food and beverage equipment.

Trademark Description

The trademark consists of the fancy wording "InOrbit NOW" (Italian translations orbita ora"), placed on two lines. The letters "T" and "O" of "ORBIT" are capitalized with respect to the rest of the letters, while the word "NOW" is all in capital letter. The whole is inside a square.

Goods

Class 07

(1) Motors for satellites, other than for land vehicles

Class 09

(2) Satellites; optical position sensors; sensors for determining velocity for use in the control of engines; rotation controlling sensors; sensors for determining position; sensors, detectors and monitoring instruments, namely, automatic altitude and orbit sensor indicators; electronic control systems for launching of satellites; electronic chip cards, namely, electronic circuit cards, electronic identification cards, DVR cards, encoded electronic chip cards for identifying particular users of computers and mobile phones; computers and computer hardware; downloadable software, namely, onboard flight software and ground segment software for database management and

launching of satellites; all of the aforesaid goods not for use in the field of irrigation systems, home automation systems and components of irrigation systems and home automation systems.

Services**Class 39**

Launching of satellites; launching of satellites for others; launch and placement in prescribed orbit of satellites of others.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a silver, gold and grey shield surrounded by a large gold, light gold and brown outline having scalloped edges. Across the front of the shield are two grey and gold spears, each of which is topped with several gold and light gold banner flags. Surrounding the spears are raiding grey lines. At the top of the shield and centered between the spears appears a small gold shield with a black outline bearing a coat of arms featuring a man wearing armour and holding a sword while riding a horse. The man, sword and horse appear in the colours red and white, the ground the horse is walking on is coloured light brown. There is a light gold and tan decorative garland located above and on both sides of the small gold shield. Below the small gold shield is a large red banner outlined in gold on top of a pretzel-like heart design wearing a crown which is red with a gold outline. Below the heart-shaped design is another red banner outlined in gold. The banner has two white horizontal marks.

Colour Claim

Colour is claimed as a feature of the trademark. On a light orange background, in the shape of a circle, appears a paper plane that is outlined in black and is dark orange on the inside. On the far left, in the fold of the plane, appears the design of a black cat. The inside of the cat's ears are grey, and its eyes are green. Next to, and slightly below, the plane appears an orange-brown labrador-type dog with a missing eye. The dog's nose, mouth and eye are dark brown. Around the light orange circle are two dark orange lines, equidistant from each other, to the left and to the right. The word "Mission" above the circle is dark orange. The word "Mayday" underneath the circle, slightly to the left, is dark orange.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a vertical rectangle divided into three sections. The end sections are shaded copper. The center of the rectangle is shaded dark brown within which is the stylized white wording "FERRERO RONDNOIR" above a design of a dark brown chocolate candy that is circular in shape. The candy is split in half with dark brown chocolate appearing between the halves. Behind the chocolate and at the very top of the center section of the rectangle is copper shading. Underneath the chocolate candy are dark brown circular lines representing liquid under the chocolate. Above "FERRERO" to the right, is a quadrilateral. Within the quadrilateral are designs of wrapped candy in brown, with the light brown wording "FERRERO RONDNOIR" on the wrapping.

Filing Date 2023-03-19

APPLICANT DETAILS

Applicant

Distributive Corp.
303 Bagot Street, Suite 403
Kingston
ONTARIO
K7K5W7

TRADEMARK DETAILS

Trademark Type

Design

Visual Representation

The logo for 'Distributive' features a stylized 'D' symbol on the left, which is a capital 'D' without the stem, rendered in a green-to-dark-green gradient. To the right of this symbol, the word 'Distributive' is written in a dark greyish blue, almost black, sans-serif font.

Colour Claim

Colour is claimed as a feature of the trademark. The bar underneath the superset symbol - the first symbol in the logo, looks like a capital D without the stem - is green (gradient from light green to dark green) and the rest of the logo characters are dark greyish blue, almost black.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of a logo, the word "Fortunelife" below the logo, and the Chinese characters at the bottom of the trademark. The logo comprises a dark blue rounded-corner square containing a styled letter "F" in a lighter blue color and an inverted styled "L" that is embedded into the left side of the "F" in the darker blue color. The word "Fortunelife" is in rainbow-like multiple colors - purple, orange, cerulean blue, pink, teal, grey, green, and indigo blue in color. The Chinese characters are grey in color.

Foreign Character Translation

The translation provided by the applicant of the Chinese word(s) "fu jun zi chan guan li" is "Fortunelife" or "Fortune Asset Management."

Foreign Character Transliteration

The transliteration provided by the applicant of the Chinese character(s) is "fu jun zi chan guan li".

Design

Visual Representation

The image shows the word "Frigo" in a highly decorative, cursive script. The letters are thick and have a metallic or embossed appearance, with intricate flourishes and shadows that give it a three-dimensional look. The 'F' is particularly large and ornate, starting with a swirl. The 'o's are also stylized with internal shading.

Geographical Indications

MINISTER'S STATEMENT

The Minister proposes that the following geographical indications and, in the case of geographical indications identifying an agricultural product or food, translations of those indications be entered on the list of geographical indications kept pursuant to subsection 11.12(1) of the *Trademarks Act*.

Application Number 2,200,181
Language of Application English

RESPONSIBLE AUTHORITY DETAILS

Responsible Authority

Spirits NL
Saturnusstraat 60 unit 47
2516 AH, The Hague, Zuid Holland
NETHERLANDS

GEOGRAPHICAL INDICATION DETAILS

Genever

Indication type

Spirit

Goods

Spirit

Territory

The geographical area concerned is the Kingdom of Belgium, Kingdom of The Netherlands, Départements Nord (59) and Pas-de-Calais (62) of the French Republic and the Bundesländer Nordrhein-Westfalen and Niedersachsen in the Federal Republic of Germany.

Qualification

The geographical area is characterized by the presence of juniper plants and by the deep faith in the medicinal strengths of juniper berries. As well in the history, juniper-flavoured spirit drinks have become very popular in this area that extends around the (Spanish) Low Countries and some peripheral areas. Even today Genever is considered in Belgium and the Netherlands to be the national spirit drink. The knowledge of brewing and distilling have always been very important in the region. Therefore juniper-flavoured spirit drinks contain in the area a minimum of 1.5% distillate (s) of whole grains in the pure alcohol volume of the final product from wheat, rye, barley, maize, oats, buckwheat and triticale, obtained by distillation of between 40% and 80% volume. Moutwijn is the traditional term used to refer to this distillate. EU Regulation 2019/787 of the European Parliament and of the Council of 17 April 2019.

Public notices under section 9 of the *Trademarks Act*

Application Number 928,091

PROHIBITED MARK DETAILSThe image shows the word "reds" in a stylized, bold, italicized font. The letters are black with a thick white outline, giving it a three-dimensional appearance. The 'r' is particularly prominent with a large, sweeping tail.
