Trademarks Journal

Vol. 71 No. 3634

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 04

(1) Fuels, namely motor fuel, alcohol fuel, ethanol fuel, diesel fuel, gaseous fuel, namely butane fuel, fuel gas, propane fuel, natural fuel, liquid fuel, namely fuel oil, biofuels, non-chemical additives for motor fuels, coke, coal.

Class 06

(2) Common metals and their alloys; unprocessed or semi processed steel, including stainless steel, carbon steel, clad steel, dip-coated steel, chromium-plated steel, galvanized steel, electrogalvanized steel, prelacquered steel, coloured steel and aluminium-clad steel; unprocessed or semi processed pig iron; scrap iron; unprocessed or semi processed iron, including tinplate, direct reduction iron and directly reduced iron; metal ores, including crude or prepared ores; metal building materials, namely boards, cladding, panels, girders of metal, metal piles and beams of metal; metal reinforcements for concrete; metal covering plates for the building industry, namely coverings of metal for ceilings, roof coverings of metal; metal floors, metal slabs, metal partitions, metal facings, metal cladding; steel containers for use in the storage of gases and steel containers for transport; transportable metal constructions, namely metal storage shelters, prefabricated transportable houses of metal; loading dock shelters of metal, metal sheds; metal cladding constructions for residential use and also serving as small activity buildings being used for industrial use, namely prefabricated houses of metal; metal materials for railways, namely materials of metal for railway construction, metal for railway tracks, guard rails of metal for railways; non-electric wires and cables of common metal, namely metal welding wires and barbed wires; metal tubes and pipes, namely drain pipes of metal, metal sewer pipes; non-electric metal lock mechanisms, namely cylinder locks of metal, lock bolts of metal, padlocks of metal; ironmongery, namely hinges; metal grilles, metal fencing, coated or uncoated metal trellis and wire mesh; hardware springs; metal wire, hardware nails, metal screws and bolts of metal; metal plates and sheets, sandwich sheets and multilayer metal products, namely steel sheets; structures of metal for screening, namely window screens of metal, screen doors of metal; metal chassis, namely plate frames of metal; metal storage tanks and metal containers for storage, transport and

packaging; boxes of common metal; metal sealing rings and caps for bottles; metal preserving cans and covers, namely metal beverage cans; metal manhole covers; packaging made of common metals and tinplate, namely foils of common metal for packaging; metal moulds for foundrywork; metal iron and steel products namely billets, slabs, plates, sheets, foils, blanks, hoops, coils, profiled strips, bars, girders, beams, strips, rods, tubes, wires, cables, billets, casting ingots and forging ingots; steel balls; slabs of metal for building.

Class 12

(3) Metal parts for vehicles, namely brakes engines for land vehicles, chassis for motor vehicles; bodywork and bodywork components, namely body panels for vehicles; vehicle bumpers, vehicle hoods, suspension systems for land vehicles, stabilizer bar for reinforcing the frame of land vehicles and radiator grills of metal for vehicles, automobile chassis, wheels, axles for land vehicles.

Services

Class 36

(1) Financial trading services, namely brokerage of carbon offsets in the nature of financial trading of emission certificates for climate protection.

Class 40

(2) Heat treatment of metals; heat treatment of ores, steel, common metals and their alloys; treatment of metals namely direct reduction of iron in metals, hardening of metals, dampening of metals, finishing of metal surfaces, brazing, casting, anodising, chromizing, sintering, electrogalvanizing, phosphatizing being a treatment of metal parts to prevent corrosion, metal grinding, metal fashioning, tinning, galvanizing, nickel plating, rolling, armouring, cutting, polishing, magnetizing, plating, drawing, cleaning and welding; recycling of metal products; treatment of materials during the process for manufacturing metal products, namely forging of metal goods to the order and specification of others, metal pressing, deburring, machining services, custom metal rolling and cold forming of metal to the order and specification of others, welding services and metal cutting; vacuum treatment, namely vacuum deposition coating services; assembly of products for others, namely assembly of metal products for construction, automotive, home appliance and packaging solutions industries; gas recycling treatment, namely waste gas treatment services.

Class 42

(3) Scientific and technological services and research and design services in the field of metalworking, namely metallurgical analysis, metallurgical testing, design, manufacture and steel working; industrial analysis and research services in the field of metallurgy, steel and manufactured steel, software design and development, consultation and information relating to the aforesaid services; materials testing; technical project studies, namely technical research in the field of metalworking and steel working; technical and scientific consulting and information services for improving the quality of goods and services, namely providing quality control in the field of metals, steels and their applications, namely in construction, automotive, home appliances and packaging solutions; preparation of reports relating to technological research and engineering services in the field of metals, steels and their applications; preparation of reports relating to technological research and engineering services in the field of steels and their use; plan drafting (construction); design and development of software for use in the fields of iron and steel working; computer software design, namely design of software used for providing global solutions for the building industry.

Class 45

(4) Licensing in relation to emission certificates for climate protection.
