Trademarks Journal

Vol. 69 No. 3521

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of a green oval with a white circular band with the words 'TRANSITIONAL CERTIFIED BY QAI' in green followed by a stylized letter 'T' in white in the center of the design.

Certification Mark Standard

The use of the certification mark indicates that the specific goods and services in association with which it is used were provided by conventional growers that are undergoing the transition to organic production and meet approved QAI Transitional Certification Program standards. Reaching these standards is assessed by way of a compliance with the crop production and handling requirements set by the Applicant. Details of the crop production requirements are located on pages 7-11 of the attached document titled QAI Protocol P464. Growers must be compliant with specific sections of the USDA National Organic Program, US Regulation Title 7 CFR Part 205 according to the timeline set out in Table 2, which include requirements as to land, soil fertility, seeds and planting stock, crop rotation, and pest/disease control. For example, prohibited substances are not to be used for at least 36 months before the harvest of an organic crop. Details of the handling requirements are located on pages 11-15 of the attached document titled QAI Protocol P464. Growers must be compliant with specific sections of USDA National Organic Program, US Regulation Title 7 CFR Part 205 as set out in Table 3, which include requirements as to prohibited substances, comingling prevention, pest control, and product composition. For example, products must be handled in a manner so as to prevent the comingling of organic and

nonorganic products during transit. To ensure farms are progressing through the program, the Applicant uses unannounced audits and sampling and sets of increasingly rigorous requirements for Years 1-3 of the program. The applicant has granted a licence to use the certification mark in association with all the specific goods and services listed hereafter that meet the defined standard set out below, and the certification mark has been used by the licensee in Canada accordingly in association with such goods. The certification mark has been used in Canada as aforesaid in association with the general class of goods and services comprising the following specific goods and services since May 17, 2016. The applicant requests registration in respect of the specific goods and services aforesaid.

Certification Mark Standard

Bay Area Compliance Laboratories Corporation, hereinafter referred to as "BACL", authorizes the use of this certification mark, in conjunction with the specific Standard number for which Certification is granted, on products that have been tested and evaluated under BACL's Product Safety Certification Program for electrical product safety. BACL's Product Safety Certification Program is based upon the requirements contained within a set of Standards which are classified under the following International Classification for Standards [ICS] Classification Numbers: - 29.140 Lamps and Related equipment, - 29.200 Rectifiers, Converters, Stabilized Power, - 35.020 Information Technology in general, and, - 19.080 Electrical and electronic testing. The Standards within these ICS codes, for which BACL's Certification mark is applied, can be differentiated as General and Safety requirements for broad categories of products or Specialized Product Requirements for the safety of particular narrow categories of products. The Formal Titles and Standard numbers for these standards are listed as follows: General and Safety requirements for broad categories of products: - CSA B-81 Interim Certification Requirements for Self Ballasted Tubular LED (TLED) Type A Lamps - CSA C22.2 No. 43 Lampholders, - CSA C22.2 No. 250.4 Portable luminaires, - CSA C22.2 No. 250.0 Luminaires, - CSA C22.2 No. 1993-17 Self-ballasted lamps and lamp adapters, - CAN/CSA-C22.2 No. 250.13- 17 Light emitting diode (LED) equipment for lighting applications, - CSA C22.2 No. 250.1-16 Retrofit kits for luminaire conversion, - CSA C22.2 No. 223-15 Power supplies with extra-low-voltage Class 2 outputs, - CAN/CSA-C22.2 No. 60950-1-07 Information Technology Equipment - Safety - Part 1: General Requirements, - CAN /CSA-C22.2 No. 62368-1-14 Audio/video, information and communication technology equipment - Part 1: Safety requirements, - CAN/CSA-C22.2 No. 61010-1-12 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 1: General requirements, Specialized Product Requirements for the safety of particular narrow categories of products: - CAN

(1) Light emitting diode (LED) equipment for lighting applications, namely, LED Luminaires, LED Lamps, LED Drivers, LED Luminaire Retrofit Kits, LED Luminaire Conversion Retrofit Kits, Portable LED Luminaires, Portable Cabinet LED Luminaires, Portable Cabinet LED Luminaire Accessories, namely: dimmers, on/off switches, and remote lighting controllers; Digital computing devices, namely, Personal Computers, Central Processing Units (CPUs), hand-held computers, hand-held point-of-sale terminals, hand-held scanners, handheld computers with integral transceivers, personal digital assistants, laptop computers, notebook computers, pen-based computers, tablet computers, industrial control computers, servers, point-of-sale terminals, computerized scanners, work stations, computer pointing peripherals, namely, computer touchscreen pens, computer digital writing tablets and pads, mice, trackballs, trackpads, joysticks, light pens, body-worn virtual mice, steering wheels for gaming and simulation, pedals for gaming and simulation, computer input/output port adapters, digital camera computer peripherals, head or body-mounted displays, CRT computer monitors, LCD computer monitors, LED computer monitors, computer microphones, printers, computer keyboards, multi-function digital computer controllers, powered computer speakers, card readers, electro-optical test scoring form readers, electronic voting machines, and automatic teller machines (ATMs), Information Storage Equipment, namely, data-silo storage systems, Compact-Disc Read-Only-Memory (CDROM) drives, Compact-Disc Read-Write (CD-R/W) drives, magnetic disc drives (spinning disc hard drives), DVD drives, tape drives, optical drives, solid state memory drives, magneto-optical drives, and floppy drives; Audio/video and Multimedia equipment, namely, commercial broadcast receivers and amplifiers for sound and video, consumer broadcast receivers and amplifiers for sound and video, digital video cameras and camcorders, video game-player devices, namely, audiovisual headsets for playing video games, electronic juke boxes, electronic and digital record players, optical disc players, electronic tape recorders/players, optical disc recorders/players, antenna signal converters and Cable TV amplifiers, Citizen's Band (CB) transceivers and booster amplifiers, Family Radio System (FRS) transceivers, still-image digital cameras, Digital Light-Projections (DLP) projectors, digital microphones, Cable TV set top boxes, powered speakers, cassette drives and players, audio and video, Analog-to-Digital signal Converters (ADCs), Digital-to-Analog signal Converters (DACs), "boom box" audio players, component and multifunction amplifiers, component tuners, component record players, component tape decks, portable digital music players, portable digital video players; Network and Telecommunication equipment, namely, cordless telephone sets, corded telephone sets, facsimile machines (Fax Machines), Integrated Service Digital Network (ISDN) subscriber terminal units, Integrated Service Digital Network (ISDN) central office telephone units, plain old telephone systems (POTs), Telecommunications modems, key telephone systems, private automated branch exchanges (PABXs), powerline communication systems (PLCs), telephone answering machines, voicemail systems, VOIP telephone systems, network baluns, network bridges, fiber optic transceivers, network hubs, Radio Frequency (RF) modems, network repeaters, network routers, network switches, network transceivers, wireless telephony systems, cable head-end receivers, cable modems, video conferencing systems, mobile phone power supplies, cell phone chargers, and, Power over Ethernet (PoE) power adapters and power supplies; Electronic Flat Panel Displays, LED displays, LCD displays, plasma screen displays, and transparent electrooptical displays; Electronic Office appliances, namely, electronic adding machines, electronic office bursters, electronic calculators, electronic collators, electronic dictation and transcribing machines, electric typewriters, electric erasers, label printers, microfilm readers, electric/electronic overhead projectors, LCD projectors, LED projectors, laser projectors, holographic projectors, laser pointers, electric sorters, electronic

cash registers, electric coin counters/feeders/dispensers, and electronic currency counters; electronic sound volume controllers, and music waveform digitizers; Electronic Laboratory Measuring and Testing Equipment, namely, battery measuring kits, battery monitoring systems, power meters, multi-function power meters, power supplies, recording thermometers, smart AC mains metering systems, monitoring systems for detecting the condition of electric motors installed in machines, digital panel power meters, digital pressure gauges, digital pressure indicators, handheld pressure calibrators, multi-function meters, namely digital panel meters, electricity meters, flow meters, gas meters, water meters, multi-channel electronic data acquisition computer systems for measurement of physical properties, synchronizing Ethernet transducers, AC/DC clamp-on multimeters, AC clamp-on multimeters, clamp-on digital multimeters, digital multimeters, voltage testers, test probes, energy meters, passive probe assemblies, display modules, energy analyzers, multi-channel split core current transformers, AC sensors, oscilloscopes, AC/DC current oscilloscope probes, current probes, ground bond testers, HIPOT testers and insulation resistance testers, earth ground resistance testers, scanners, namely, 3D scanners, bar code scanners, laser scanners, image scanners and document scanners, wireless digital multimeters, function generators, single/multiple output DC power supplies, power analyzers, gas monitors, namely gas flow monitors, radon detectors, smoke detectors, carbon dioxide detectors, and carbon monoxide detectors, chart recorders, analog multimeters, automotive voltage indicators, non-contact voltage indicators, dielectric withstand testers, submeters, surface or panel mounted current indicators, network analyzers, digital energy meters, multi-circuit meters, multifunction power meters, transconductance amplifiers, switching power supplies, transformer monitors, electrical distribution system meters, electronic servo motor controllers, energy meters, voltage and continuity testers, portable power supplies, voltage field sensors, high-voltage measurement sticks, densitometers, electro-mechanical smart meter connection platforms and bases, dataloggers, insulation resistance testers, circuit tracers, spring-loaded squeeze probe assemblies, non-contact enclosure voltage portals, buried line locators, built-in power factor controllers, hand-held spectrum analyzers, RF power meters, true RMS multimeters, highprecision laser distance sensors, branch circuit analyzers, circuit breaker locators, KWH demand meters, three-phase motor rotation testers, solenoid voltage testers, field voltage detection meters, gas-species level monitors/meters, digital hygrometers, RF signal generators, and, pulse/function generators

Class 11

(2) Non-LED equipment for lighting applications, namely, Lamp-base Adapters, Self-ballasted Lamps, Portable Luminaires, Low-voltage Cabinet Lighting Fixtures, Low-voltage Cabinet Luminaires, Low-Voltage Luminaires, Low-voltage Lighting Fixture Fittings, and Low-voltage Recessed Lighting Fixtures, stage and theatre lightingeffect electronic lighting fixtures, and stage and theatre lighting-effect electronic lamps and luminaires; USBpowered external fans

Class 15

(3) Electronic musical instruments, namely, electronic musical keyboards/fingerboards/pads, electronic stringed instruments, electronic percussion instruments, electronic music synthesizers

Class 16

(4) Electric folding/embossing and sealing machines, electric paper cutters, electric paper shredders, electric pencil sharpeners, electric stackers, electric staplers, check writing/assigning /dating/inserting/mailling/numbering/stamping machines

Class 20

(5) Motor-operated file cabinets

Class 28

(6) Audio/video and Multimedia equipment, namely, commercial broadcast receivers and amplifiers for sound and video, consumer broadcast receivers and amplifiers for sound and video, digital video cameras and camcorders, video game-player devices, namely, gamepads for video games, joysticks for video games, joypads for video games, hand-held video game apparatus, hand-held video game consoles, home video game machines, video game consoles and video game machines, arcade video game machines, gaming machines for gambling, gambling machines, and computerized video game tables for gaming

137 Electric luminaires for use in hazardous locations, - CAN/CSA-E432-2-98 Safety Specifications for Incandescent Lamps - Part 2: Tungsten halogen lamps for domestic and similar general lighting purposes - Section 1: General, - CAN/CSA-E432-1-98 Safety specifications for incandescent lamps - Part 1: Tungsten filament lamps for domestic and similar general lighting purposes, - CAN/CSA-E920-98 Ballasts for tubular fluorescent lamps - General and safety requirements, - CSA C22.2 No. 84-05 Incandescent Lamps, - CAN/CSA-E968-99 Self-ballasted lamps for general lighting services - Safety requirements, - CSA C22.2 No. 255-04 Neon Transformers and Power Supplies, - CAN/CSA-C813.1-14 Performance test method for uninterruptible power supplies, - CAN/CSAE60335- 2-29:06 Household and Similar Electrical Appliances - Safety - Part 2-29: Particular Requirements for Battery Chargers, - CAN/CSA-C22.2 No. 60950-21-03 Information Technology Equipment - Safety - Part 21: Remote Power Feeding, - CAN/CSA-C22.2 No. 60950-22 Information technology equipment - Safety - Part 22: Equipment to be installed outdoors, - CAN/CSA-C22.2 No. 60950-23-07 Information Technology Equipment - Safety - Part 23: Large Data Storage Equipment, - CAN/CSA-C22.2 No. 61010-2-010:15 Safety requirements for electrical equipment for measurement, control and laboratory use - Part 2-010: Particular requirements for laboratory equipment for the heating of materials, - CAN/CSA-C22.2 No. 61010-2-020 Safety requirements Page 3 of 7 for electrical equipment for measurement, control, and laboratory use - Part 2-020: Particular requirements for laboratory centrifuges, - CAN/CSA-C22.2 No. 61010-2-030-12 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-030: Particular requirements for testing and measuring circuits, - CAN/CSA-C22.2 No. 61010-2-032 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-032: Particular requirements for hand-held and hand manipulated current sensors for electrical test and measurement, - CAN/CSA-C22.2 No. 61010-2-033 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-033: Particular requirements for HAND-HELD MULTIMETERS and other METERS, for domestic and professional use, capable of measuring MAINS voltage, - CAN/CSA-C22.2 No. 61010-2-034 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-034: Particular requirements for measurement equipment for insulation resistance and test equipment for electric strength, - CAN/CSA-C22.2 No. 61010-2-040 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-040: Particular requirements for sterilizers and washer-disinfectors used to treat medical materials, - CSA C22.2 No. 61010- 2-051 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2- 051: Particular requirements for laboratory equipment for mixing and stirring, - CSA C22.2 No. 61010-2-061 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-061: Particular requirements for laboratory atomic spectrometers with thermal atomization and ionization, - CAN/CSA-C22.2 No. 61010-2-081 Safety requirements for electrical equipment for measurement, control and laboratory use - Part 2-081: Particular requirements for automatic and semi-automatic laboratory equipment for analysis and other purposes, - CAN/CSA-C22.2 No. 61010-2-091 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 2-091: Particular requirements for cabinet Xray systems, - CSA C22.2 No. 61010-2-101 Safety requirements for electrical equipment for measurement, control and laboratory use - Part 2-101: Particular requirements for in vitro diagnostic (IVD) medical equipment, and, - CAN/CSA-C22.2 No. 61010-031 Safety requirements for electrical equipment for measurement, control, and laboratory use - Part 031: Safety requirements for hand-held probe assemblies for electrical measurement and test. The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those listed in the application.

Goods

Class 09

(1) Light emitting diode (LED) equipment for lighting applications, namely, LED Luminaires, LED Lamps, LED Drivers, LED Luminaire Retrofit Kits, LED Luminaire Conversion Retrofit Kits, Portable LED Luminaires, Portable Cabinet LED Luminaires, Portable Cabinet LED Luminaire Accessories, namely: dimmers, on/off switches, and remote lighting controllers; Digital computing devices, namely, Personal Computers, Central Processing Units (CPUs), hand-held computers, hand-held point-of-sale terminals, hand-held scanners, handheld computers with integral transceivers, personal digital assistants, laptop computers, notebook computers, pen-based computers, tablet computers, industrial control computers, servers, point-of-sale terminals, computerized scanners, work stations, computer pointing peripherals, namely, computer touchscreen pens, computer digital writing tablets and pads, mice, trackballs, trackpads, joysticks, light pens, body-worn virtual mice, steering wheels for gaming and simulation, pedals for gaming and simulation, computer input/output port adapters, digital camera computer peripherals, head or body-mounted displays, CRT computer monitors, LCD computer monitors, LED computer monitors, computer microphones, printers, computer keyboards, multi-function digital computer controllers, powered computer speakers, card readers, electro-optical test scoring form readers, electronic voting machines, and automatic teller machines (ATMs), Information Storage Equipment, namely, data-silo storage systems, Compact-Disc Read-Only-Memory (CDROM) drives, Compact-Disc Read-Write (CD-R/W) drives, magnetic disc drives (spinning disc hard drives), DVD drives, tape drives, optical drives, solid state memory drives, magneto-optical drives, and floppy drives; Audio/video and Multimedia equipment, namely, commercial broadcast receivers and amplifiers for sound and video, consumer broadcast receivers and amplifiers for sound and video, digital video cameras and camcorders, video game-player devices, namely, audiovisual headsets for playing video games, electronic juke boxes, electronic and digital record players, optical disc players, electronic tape recorders/players, optical disc recorders/players, antenna signal converters and Cable TV amplifiers, Citizen's Band (CB) transceivers and booster amplifiers, Family Radio System (FRS) transceivers, still-image digital cameras, Digital Light-Projections (DLP) projectors, digital microphones, Cable TV set top boxes, powered speakers, cassette drives and players, audio and video, Analog-to-Digital signal Converters (ADCs), Digital-to-Analog signal Converters (DACs), "boom box" audio players, component and multifunction amplifiers, component tuners, component record players, component tape decks, portable digital music players, portable digital video players; Network and Telecommunication equipment, namely, cordless telephone sets, corded telephone sets, facsimile machines (Fax Machines), Integrated Service Digital Network (ISDN) subscriber terminal units, Integrated Service Digital Network (ISDN) central office telephone units, plain old telephone systems (POTs), Telecommunications modems, key telephone systems, private automated branch exchanges (PABXs), powerline communication systems (PLCs), telephone answering machines, voicemail systems, VOIP telephone systems, network baluns, network bridges, fiber optic transceivers, network hubs, Radio Frequency (RF) modems, network repeaters, network routers, network switches, network transceivers, wireless telephony systems, cable head-end receivers, cable modems, video conferencing systems, mobile phone power supplies, cell phone chargers, and, Power over Ethernet (PoE) power adapters and power supplies; Electronic Flat Panel Displays, LED displays, LCD displays, plasma screen displays, and transparent electrooptical displays; Electronic Office appliances, namely, electronic adding machines, electronic office bursters, electronic calculators, electronic collators, electronic dictation and transcribing machines, electric typewriters, electric erasers, label printers, microfilm readers, electric/electronic overhead projectors, LCD projectors, LED projectors, laser projectors, holographic projectors, laser pointers, electric sorters, electronic cash registers, electric coin counters/feeders/dispensers, and electronic currency counters;

electronic sound volume controllers, and music waveform digitizers; Electronic Laboratory Measuring and Testing Equipment, namely, battery measuring kits, battery monitoring systems, power meters, multi-function power meters, power supplies, recording thermometers, smart AC mains metering systems, monitoring systems for detecting the condition of electric motors installed in machines, digital panel power meters, digital pressure gauges, digital pressure indicators, handheld pressure calibrators, multi-function meters, namely digital panel meters, electricity meters, flow meters, gas meters, water meters, multi-channel electronic data acquisition computer systems for measurement of physical properties, synchronizing Ethernet transducers, AC/DC clamp-on multimeters, AC clamp-on multimeters, clamp-on digital multimeters, digital multimeters, voltage testers, test probes, energy meters, passive probe assemblies, display modules, energy analyzers, multi-channel split core current transformers, AC sensors, oscilloscopes, AC/DC current oscilloscope probes, current probes, ground bond testers, HIPOT testers and insulation resistance testers, earth ground resistance testers, scanners, namely, 3D scanners, bar code scanners, laser scanners, image scanners and document scanners, wireless digital multimeters, function generators, single/multiple output DC power supplies, power analyzers, gas monitors, namely gas flow monitors, radon detectors, smoke detectors, carbon dioxide detectors, and carbon monoxide detectors, chart recorders, analog multimeters, automotive voltage indicators, non-contact voltage indicators, dielectric withstand testers, submeters, surface or panel mounted current indicators, network analyzers, digital energy meters, multi-circuit meters, multifunction power meters, transconductance amplifiers, switching power supplies, transformer monitors, electrical distribution system meters, electronic servo motor controllers, energy meters, voltage and continuity testers, portable power supplies, voltage field sensors, high-voltage measurement sticks, densitometers, electro-mechanical smart meter connection platforms and bases, dataloggers, insulation resistance testers, circuit tracers, spring-loaded squeeze probe assemblies, non-contact enclosure voltage portals, buried line locators, built-in power factor controllers, hand-held spectrum analyzers, RF power meters, true RMS multimeters, highprecision laser distance sensors, branch circuit analyzers, circuit breaker locators, KWH demand meters, three-phase motor rotation testers, solenoid voltage testers, field voltage detection meters, gas-species level monitors/meters, digital hygrometers, RF signal generators, and, pulse/function generators

Class 11

(2) Non-LED equipment for lighting applications, namely, Lamp-base Adapters, Self-ballasted Lamps, Portable Luminaires, Low-voltage Cabinet Lighting Fixtures, Low-voltage Cabinet Luminaires, Low-Voltage Luminaires, Low-voltage Lighting Fixture Fittings, and Low-voltage Recessed Lighting Fixtures, stage and theatre lightingeffect electronic lighting fixtures, and stage and theatre lighting-effect electronic lamps and luminaires; USBpowered external fans

Class 15

(3) Electronic musical instruments, namely, electronic musical keyboards/fingerboards/pads, electronic stringed instruments, electronic percussion instruments, electronic music synthesizers

Class 16

(4) Electric folding/embossing and sealing machines, electric paper cutters, electric paper shredders, electric pencil sharpeners, electric stackers, electric staplers, check writing/assigning /dating/inserting/mailling/numbering/stamping machines

Class 20

(5) Motor-operated file cabinets

Class 28

(6) Audio/video and Multimedia equipment, namely, commercial broadcast receivers and amplifiers for sound and video, consumer broadcast receivers and amplifiers for sound and video, digital video cameras and camcorders, video game-player devices, namely, gamepads for video games, joysticks for video games, joypads for video games, hand-held video game apparatus, hand-held video game consoles, home video game machines, video game consoles and video game machines, arcade video game machines, gaming machines for gambling, gambling machines, and computerized video game tables for gaming

(1) creams, lotions and skin care preparations for cosmetic purposes in particular for skin care; cosmetics; cosmetics, namely, creams, lotions and skin care preparations containing ketone body esters in particular hydroxybutyrates and mid-chain triglycerides; cosmetics, namely, creams, lotions and skin care preparations for use in combination with ketone body esters in particular hydroxybutyrates and mid-chain triglycerides; essential oils for food flavouring

Class 05

(2) nutritional additives, namely, food and beverage additives for use in pharmaceutical and veterinary preparations, namely ketone esters for providing calories; dietary supplements, namely ketone esters for alleviating hunger and fatigue; dietetic substances consisting of vitamins, minerals, amino acids and trace elements; dietary supplements for controlling cholesterol; dietary supplements for general health and wellbeing; pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease, including such preparations in the form of foods, ices, drinks, infusions, syrups, toffees, chewing gums tablets and ointments; esters, namely, ketone body esters for use as additives in pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel

disease, Huntington's disease; hydroxybutyrates for use as additives in pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease; mid-chain triglycerides (MCT) for use as additives in pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease; ketone body esters, hydroxybutyrates, acetoacetate, and mid-chain triglycerides (MCT) for raising blood ketone levels in the human or animal body; ketone body esters, hydroxybutyrates, and mid-chain triglycerides (MCT) for administration pre-surgery and post-surgery and for use in intensive care treatment for treating medical conditions, namely vascular conditions, weight loss, diabetes, heart failure, sickle cell anaemia, Alzheimer's disease, Parkinson's disease, depression, anxiety, ADHD (attention deficit hyperactivity disorder), sleep disorders, head injury, stroke, spinal cord injury, heart attack, heart failure; ketone body esters, hydroxybutyrates, and mid-chain triglycerides (MCT) for muscular conditions, namely treating, preventing and aiding recovery from fatigue, improving muscle function efficiency and muscular power and in maintaining and improving cognitive function, and for raising blood ketone levels in the human or animal body; creams, lotions and skin care preparations for pharmaceutical or veterinary purposes in particular for use on the skin namely creams, lotions and skin care preparations containing ketone body esters in particular hydroxybutyrates and mid-chain triglycerides for cleaning, moisturising, healing, smoothing of the skin and for anti-aging, anti-wrinkling, sun damage, sun burn, burns; creams, lotions and skin care preparations for pharmaceutical and veterinary purposes in particular for use on the skin namely creams, lotions and skin care preparations for use in combination with ketone body esters in particular hydroxybutyrates and midchain triglycerides for cleaning, moisturising, healing, smoothing of the skin and for anti-aging, anti-wrinkling, sun damage, sun burn, burns; nutritional additives adapted for oral, topical, sublingual and intravenous administration to the human and animal body, namely, food and beverage additives for use in pharmaceutical and veterinary preparations, namely ketone esters for providing calories; pharmaceutical and veterinary preparations adapted for oral, topical, sublingual and intravenous administration to the human and animal body for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease; esters, namely, ketone body esters adapted for oral, topical, sublingual and intravenous administration to the human and animal body for use as additives in pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease; hydroxybutyrates adapted for oral, topical, sublingual and intravenous administration to the human and animal body for use as additives in pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety, epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease; mid-chain triglycerides (MCT) adapted for oral, topical, sublingual and intravenous administration to the human and animal body for use as additives in pharmaceutical and veterinary preparations for the treatment of Alzheimer's disease, Parkinson's disease, depression, fatigue, radiation damage, cognitive function, diabetes, cachexia, anxiety,

epilepsy, dementia, cancer, cell damage, ALS, arthritis, glycogen depletion, muscle wasting, muscular dystrophy, coeliac disease, inflammatory bowel disease, Huntington's disease, cancer, cell damage; ices for preventing, treating or aiding recovery from fatigue, for increasing muscle function efficiency or for raising blood ketone levels in humans and animals; grain-based snack foods for preventing, treating or aiding recovery from fatigue, for increasing muscle function efficiency or for raising blood ketone levels in humans and animals; energy drinks, fruit drinks and fruit juices for preventing, treating or aiding recovery from fatigue, for increasing muscle function efficiency or for raising blood ketone levels in the human or animal body

Class 29

(3) foodstuffs of animal origin, namely meat, eggs, cheese and yogurt, milk products, comestible vegetable products, namely canned fruits and vegetables, bottled fruits and vegetables, preserved fruits and vegetables, and frozen fruits and vegetables, candied nuts, flavoured nuts, roasted nuts, cashew nut butter, honey butter; meat, eggs, cheese, yogurt, milk, canned fruits and vegetables, bottled fruits and vegetables, preserved fruits and vegetables, and frozen fruits and vegetables, candied nuts, flavoured nuts, roasted nuts, and cashew nut butter; meat, eggs, cheese, yogurt, milk, canned fruits and vegetables, bottled fruits and vegetables, preserved fruits and vegetables, and frozen fruits and vegetables, candied nuts, flavoured nuts, roasted nuts, cashew nut butter and honey for use in combination with ketone body esters in particular hydroxybutyrates and mid-chain triglycerides; grain-based beverages, namely oat milk, rice milk, barley milk, wheat protein drinks; grain-based beverages, namely oat milk, rice milk, barley milk, wheat protein drinks for use in combination with ketone body esters in particular hydroxybutyrates and mid-chain triglycerides; grainbased beverages, namely oat milk, rice milk, barley milk, wheat protein drinks for preventing, treating or aiding recovery from fatigue, for increasing muscle function efficiency or for raising blood ketone levels in humans and animals; vegetable purees

Class 30

Trademark Description

The trademark consists of a two-dimensional design mark. The trademark also consists of the position of the colour grey (PANTONE 442 c) as applied to the whole of the sides of the three-dimensional fuel pump dispenser, the colour light grey as applied to the front portion of the fuel pump dispenser (PANTONE 293 c). As well as the position of the design of a series of circles, a nucleus and the words FUEL TECHNOLOGY as applied to the bottom front portion of the three-dimensional fuel pump dispenser, as shown in the visual representation. The fuel pump dispenser shown in dotted outline does not form part of the trademark but is included merely to show the positioning of the colours and design. PANTONE is a registered trade-mark.

Colour Claim

The colours blue, grey, white, and red are claimed as a feature of the mark. The design forms part of the front bottom portion of a fuel pump dispenser on a light grey background and consists of a series of light blue, red and white circles around a red nucleus with the words "FUEL TECHNOLOGY" on the right in light blue above the word "SYNERGY" in white with light gray circles appearing on the bottom right behind and below "OLOGY" and "RGY". The left side of design in light gray is a series of dark gray circles.

consisting of computers, computer software, transmitters, receivers and network interface devices enabled to enter text, take images, and record video for display on a map; electric and electronic apparatus and equipment, namely, computers and receivers for transmitting and receiving map data, navigation information, route alternatives, traffic conditions and weather updates; Satellite transmitters, electric and electronic apparatus for transmission of positions and communications via satellites, satellite navigational apparatus, namely, global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; vehicle wireless adapters used to link on-board computers to a wireless telecommunications network, sensors for sensing presence of a passenger in the vehicle, for global positioning system (GPS) monitoring for vehicles, for vehicle speed/acceleration monitoring, for tire pressure monitoring, for RFID monitoring of passengers entering and leaving motor vehicle for ridership reporting and passenger tracking, for remote vehicle fault code monitoring and for fuel consumption monitoring, all for vehicles; Computer software for use in the fields of city and municipal infrastructure planning, of city infrastructure safety, of managing city and municipal energy resources and energy consumption and distribution, of energy outage detection and disaster recovery and of prepaid billing and reporting services; Computer software for online and mobile billing services and management of billing and customer accounts and operation of customer service and payment portals.

Services

Class 35

(1) Telecommunications services, namely providing telephone and mobile phone communication and internet communication and internet telephony services for call center services for others to monitor and track manufacturing, transportation, supply chain, and vehicle fleets (commercial fleets, government fleets and over the road trucking); Management consulting services, namely, advising telecommunications customers in the planning, implementing, operating, managing and staffing of telecommunications networks.

Class 36

(5) Providing automated billing and reporting, e-transfer financial transaction processing and verification, payment processing, funds transfer, billings, collections, credit card, debit card and prepaid card processing; Providing online and mobile billing services and management of billing and customer accounts and customer service portals.

Class 38

(2) Transmission of voice, electronic communication data transmission, electronic graphics communications, namely photographs, graphic arts illustrations, map illustrations and diagrams by means of telephone, cable and satellite transmissions for sensor, navigation, geographic, mapping, location and point-of-interest and asset management over a telecommunication network; Satellite radio, television, telephone and internet broadcasting services; Frame relay telecommunication services, namely providing transmission of electronic communication data between local area networks (LANs) and endpoints in wide area networks (WANs) in the field of manufacturing, transportation, supply chain and vehicle fleets (commercial fleets, government fleets and over the road trucking); Satellite transmission and connectivity communications services, namely voice, electronic communication data transmission, electronic graphics communications, namely photographs, graphic arts illustrations, map illustrations and diagrams by means of telephone, cable and satellite transmissions; Telecommunications services, namely, the transmission of voice and text via wireless telephones, personal communications services; electronic mail services; voice messaging services; communications services, namely, providing low power wide area network (LPWAN) services; providing secure network-enabled cloud

services; telecommunications services, namely, electronic transmission of alerts and notifications to enable telecommunications network users to mitigate and take preventive measures against cyber security attacks before such attacks take effect, damage or disable telecommunications networks; telematic in-vehicle communication service providing wireless vehicle navigation and tracking for vehicle fleet management; Virtual network telecommunications services, namely, providing virtual private network (VPN) services; Call recording, call monitoring and automatic call distributor (ACD) services; Audio teleconferencing, video teleconferencing and web audio and video teleconferencing services; Telecommunication services, namely, routing telephone calls and hosting of voice applications, namely multiple call session mobile applications, Interactive Voice Response (IVR) applications, Text-to- Speech (TTS) applications, voice recognition applications, re-routing phone calls applications; providing access to voice-activated web, mail and news portals; Telephone call queuing services over wired and wireless telecommunication networks for an organization's computer system; Short message service (SMS) push services to push messages over wired and wireless telecommunication networks for an organization's computer system; Click-to-call, dial, chat, talk and text services and real time communications services over wired and wireless telecommunication networks for an organization's computer system.

Class 39

(6) GPS navigation services and satellite positioning services.

Class 42

(3) Software as a service (SAAS) services for creating searchable databases of information and data for database management for storing and tracking data about manufacturing, transportation, supply chain, and vehicle fleets (commercial fleets, government fleets and over the road trucking) businesses; Software as a service (SAAS) services featuring cloud-based computer software for cloud automation, namely, orchestration, control and management of virtualized network functions of a software defined network; Cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Platform as a service (PAAS) featuring software platforms for cloud automation, cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Data networking services, namely, cloud automation, cloud orchestration, cloud control for network control and management; Software defined networking (SDN) and network functions virtualization (NFV); Design and development of computer network protocols; Providing information on computer technology and programming via a web site; computer services, namely providing a secure, web-based service featuring interactive technology that enables customers to remotely manage, administer, modify and control their computer networks and for managing electronic business communications; Telecommunications network deployment services, namely, computer software project management services and software migration services; providing security systems for asset management for manufacturing, transportation, supply chain, vehicle fleets (commercial fleets, government fleets and over the road trucking); Platform as a service (PAAS) featuring computer software platforms for IoT device management, IoT data collection, data processing, data monitoring, data orchestration, data analytics and service integration with other platforms and applications; Provision to others of online, non-downloadable computer software applications for IoT data collection, IoT data processing and IoT data monitoring for temporary use Platform as a service (PAAS) services featuring computer software platforms used for the development of software to test, manage, monitor, connect, control, integrate and operate internet of things (IoT) electric and electronic devices; Platform as a service (PAAS), namely providing computer software platforms for use in the connection and control of internet of things (IoT) electronic devices, namely personal computers, tablet computers and cellular and mobile telephones, wireless and corded headsets and home automation systems comprising wireless and wired controllers, electronic control

systems for lighting, HVAC and home security software to control security systems; Platform as a service (PAAS), namely providing computer software platforms for use with application programming interface (API); Information technology security services, namely, firewall design analysis and implementation, internet security vulnerability assessments, enterprise network security assessments, and assessments of cloud storage used in conjunction with data portability and accountability to assure compliance with industry standards; Computer consultation in the field of computer and internet security; computer services, namely, enabling infrastructure as a service (IAAS) for cloud security; Computer monitoring services which track web-based applications performance, internet performance and engage in website stress testing; monitoring of computer systems for security purposes, namely, providing routine intrusion detection scans, breach identification, rogue modem identification and security policy assessments of software certificates; Computer technology consulting services, namely, strategic telecommunications assessments, strategy development, wide area network strategy development, network strategy development, web enablement strategies, and IT disaster recovery for enabling business continuity, and development of strategic voice and multi-channel portals; Providing temporary use of non-downloadable cloud-based telecommunications and data networking software, namely, software and applications for network control and management, for use in automating telecommunication network services, and for managing enterprise business communications; providing non-downloadable cloud-based computer software for cloud automation, namely, orchestration, control and management of virtualized network functions of a software defined network; Software as a service (SAAS) services featuring software for cloud automation, cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Platform as a service (PAAS) featuring software platforms for cloud automation, cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Data networking services, namely, cloud automation, cloud orchestration, cloud control for network control and management; Technical consulting services in the field of datacenter architecture, public and private cloud computing solutions and evaluation and implementation of internet connected technology, the internet of things (IoT), platforms and networks; Cloud computing services for use with multi-user computer software platform telecommunication services; conducting business and market research surveys for others via the internet; Automatic speech recognition (ASR) services, namely voice recognition, interactive voice response systems, and interactive transaction processing systems over wired and wireless telecommunication networks for an organization's computer system; Natural language recognition services namely voice recognition, interactive voice response systems, and interactive transaction processing systems over wired and wireless telecommunication networks for an organization's computer system; Predictive telephone dialer, typing and texting services over wired and wireless telecommunication networks for an organization's computer system; Management services for Internet of Things (IOT) over wired and wireless telecommunication networks for an organization's computer system, telephone call, person and assets latitude determining services for determining location of calls, persons and assets over wired and wireless telecommunication networks for an organization's computer system; Live chat services over wired and wireless telecommunication networks for an organization's computer system; Telephone call tracking and analytics services over wired and wireless telecommunication networks for an organization's computer system; Telecommunications routing and junction services over wired and wireless telecommunication networks for an organization's computer system; Operation of a website, website links and apps providing geographic information, map images and trip routing namely hosting a website for and computer software applications for the provision of geographic information, map images, driving and trip routes; Monitoring of computer systems for security purposes; Consulting in the field of Internet of Things (IoT) hardware configurations, telecommunication module designs and certification of such

configurations and telecommunication modules; Consulting services in the field of maintaining the security and integrity of databases and platforms for telecommunication services; Consulting services in the field of security intelligence services for use with the internet of things (IoT) for telecommunication services; providing non-downloadable computer software for network control and management, for use in automating managed network services, and for managing enterprise business communications.

Class 45

(4) Consulting services in the field of security threat assessments; Security services, namely, providing security assessments for business and governmental agencies.

consisting of computers, computer software, transmitters, receivers and network interface devices enabled to enter text, take images, and record video for display on a map; electric and electronic apparatus and equipment, namely, computers and receivers for transmitting and receiving map data, navigation information, route alternatives, traffic conditions and weather updates; Satellite transmitters, electric and electronic apparatus for transmission of positions and communications via satellites, satellite navigational apparatus, namely, global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; vehicle wireless adapters used to link on-board computers to a wireless telecommunications network, sensors for sensing presence of a passenger in the vehicle, for global positioning system (GPS) monitoring for vehicles, for vehicle speed/acceleration monitoring, for tire pressure monitoring, for RFID monitoring of passengers entering and leaving motor vehicle for ridership reporting and passenger tracking, for remote vehicle fault code monitoring and for fuel consumption monitoring, all for vehicles; Computer software for use in the fields of city and municipal infrastructure planning, of city infrastructure safety, of managing city and municipal energy resources and energy consumption and distribution, of energy outage detection and disaster recovery and of prepaid billing and reporting services; Computer software for online and mobile billing services and management of billing and customer accounts and operation of customer service and payment portals.

Services

Class 35

(1) Telecommunications services, namely providing telephone and mobile phone communication and internet communication and internet telephony services for call center services for others to monitor and track manufacturing, transportation, supply chain, and vehicle fleets (commercial fleets, government fleets and over the road trucking); Management consulting services, namely, advising telecommunications customers in the planning, implementing, operating, managing and staffing of telecommunications networks.

Class 36

(5) Providing automated billing and reporting, e-transfer financial transaction processing and verification, payment processing, funds transfer, billings, collections, credit card, debit card and prepaid card processing; Providing online and mobile billing services and management of billing and customer accounts and customer service portals.

Class 38

(2) Transmission of voice, electronic communication data transmission, electronic graphics communications, namely photographs, graphic arts illustrations, map illustrations and diagrams by means of telephone, cable and satellite transmissions for sensor, navigation, geographic, mapping, location and point-of-interest and asset management over a telecommunication network; Satellite radio, television, telephone and internet broadcasting services; Frame relay telecommunication services, namely providing transmission of electronic communication data between local area networks (LANs) and endpoints in wide area networks (WANs) in the field of manufacturing, transportation, supply chain and vehicle fleets (commercial fleets, government fleets and over the road trucking); Satellite transmission and connectivity communications services, namely voice, electronic communication data transmission, electronic graphics communications, namely photographs, graphic arts illustrations, map illustrations and diagrams by means of telephone, cable and satellite transmissions; Telecommunications services, namely, the transmission of voice and text via wireless telephones, personal communications services; electronic mail services; voice messaging services; communications services, namely, providing low power wide area network (LPWAN) services; providing secure network-enabled cloud

services; telecommunications services, namely, electronic transmission of alerts and notifications to enable telecommunications network users to mitigate and take preventive measures against cyber security attacks before such attacks take effect, damage or disable telecommunications networks; telematic in-vehicle communication service providing wireless vehicle navigation and tracking for vehicle fleet management; Virtual network telecommunications services, namely, providing virtual private network (VPN) services; Call recording, call monitoring and automatic call distributor (ACD) services; Audio teleconferencing, video teleconferencing and web audio and video teleconferencing services; Telecommunication services, namely, routing telephone calls and hosting of voice applications, namely multiple call session mobile applications, Interactive Voice Response (IVR) applications, Text-to- Speech (TTS) applications, voice recognition applications, re-routing phone calls applications; providing access to voice-activated web, mail and news portals; Telephone call queuing services over wired and wireless telecommunication networks for an organization's computer system; Short message service (SMS) push services to push messages over wired and wireless telecommunication networks for an organization's computer system; Click-to-call, dial, chat, talk and text services and real time communications services over wired and wireless telecommunication networks for an organization's computer system.

Class 39

(6) GPS navigation services and satellite positioning services.

Class 42

(3) Software as a service (SAAS) services for creating searchable databases of information and data for database management for storing and tracking data about manufacturing, transportation, supply chain, and vehicle fleets (commercial fleets, government fleets and over the road trucking) businesses; Software as a service (SAAS) services featuring cloud-based computer software for cloud automation, namely, orchestration, control and management of virtualized network functions of a software defined network; Cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Platform as a service (PAAS) featuring software platforms for cloud automation, cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Data networking services, namely, cloud automation, cloud orchestration, cloud control for network control and management; Software defined networking (SDN) and network functions virtualization (NFV); Design and development of computer network protocols; Providing information on computer technology and programming via a web site; computer services, namely providing a secure, web-based service featuring interactive technology that enables customers to remotely manage, administer, modify and control their computer networks and for managing electronic business communications; Telecommunications network deployment services, namely, computer software project management services and software migration services; providing security systems for asset management for manufacturing, transportation, supply chain, vehicle fleets (commercial fleets, government fleets and over the road trucking); Platform as a service (PAAS) featuring computer software platforms for IoT device management, IoT data collection, data processing, data monitoring, data orchestration, data analytics and service integration with other platforms and applications; Provision to others of online, non-downloadable computer software applications for IoT data collection, IoT data processing and IoT data monitoring for temporary use Platform as a service (PAAS) services featuring computer software platforms used for the development of software to test, manage, monitor, connect, control, integrate and operate internet of things (IoT) electric and electronic devices; Platform as a service (PAAS), namely providing computer software platforms for use in the connection and control of internet of things (IoT) electronic devices, namely personal computers, tablet computers and cellular and mobile telephones, wireless and corded headsets and home automation systems comprising wireless and wired controllers, electronic control

systems for lighting, HVAC and home security software to control security systems; Platform as a service (PAAS), namely providing computer software platforms for use with application programming interface (API); Information technology security services, namely, firewall design analysis and implementation, internet security vulnerability assessments, enterprise network security assessments, and assessments of cloud storage used in conjunction with data portability and accountability to assure compliance with industry standards; Computer consultation in the field of computer and internet security; computer services, namely, enabling infrastructure as a service (IAAS) for cloud security; Computer monitoring services which track web-based applications performance, internet performance and engage in website stress testing; monitoring of computer systems for security purposes, namely, providing routine intrusion detection scans, breach identification, rogue modem identification and security policy assessments of software certificates; Computer technology consulting services, namely, strategic telecommunications assessments, strategy development, wide area network strategy development, network strategy development, web enablement strategies, and IT disaster recovery for enabling business continuity, and development of strategic voice and multi-channel portals; Providing temporary use of non-downloadable cloud-based telecommunications and data networking software, namely, software and applications for network control and management, for use in automating telecommunication network services, and for managing enterprise business communications; providing non-downloadable cloud-based computer software for cloud automation, namely, orchestration, control and management of virtualized network functions of a software defined network; Software as a service (SAAS) services featuring software for cloud automation, cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Platform as a service (PAAS) featuring software platforms for cloud automation, cloud orchestration, cloud control and management of virtualized network functions of a software defined network; Data networking services, namely, cloud automation, cloud orchestration, cloud control for network control and management; Technical consulting services in the field of datacenter architecture, public and private cloud computing solutions and evaluation and implementation of internet connected technology, the internet of things (IoT), platforms and networks; Cloud computing services for use with multi-user computer software platform telecommunication services; conducting business and market research surveys for others via the internet; Automatic speech recognition (ASR) services, namely voice recognition, interactive voice response systems, and interactive transaction processing systems over wired and wireless telecommunication networks for an organization's computer system; Natural language recognition services namely voice recognition, interactive voice response systems, and interactive transaction processing systems over wired and wireless telecommunication networks for an organization's computer system; Predictive telephone dialer, typing and texting services over wired and wireless telecommunication networks for an organization's computer system; Management services for Internet of Things (IOT) over wired and wireless telecommunication networks for an organization's computer system, telephone call, person and assets latitude determining services for determining location of calls, persons and assets over wired and wireless telecommunication networks for an organization's computer system; Live chat services over wired and wireless telecommunication networks for an organization's computer system; Telephone call tracking and analytics services over wired and wireless telecommunication networks for an organization's computer system; Telecommunications routing and junction services over wired and wireless telecommunication networks for an organization's computer system; Operation of a website, website links and apps providing geographic information, map images and trip routing namely hosting a website for and computer software applications for the provision of geographic information, map images, driving and trip routes; Monitoring of computer systems for security purposes; Consulting in the field of Internet of Things (IoT) hardware configurations, telecommunication module designs and certification of such

configurations and telecommunication modules; Consulting services in the field of maintaining the security and integrity of databases and platforms for telecommunication services; Consulting services in the field of security intelligence services for use with the internet of things (IoT) for telecommunication services; providing non-downloadable computer software for network control and management, for use in automating managed network services, and for managing enterprise business communications.

Class 45

(4) Consulting services in the field of security threat assessments; Security services, namely, providing security assessments for business and governmental agencies.

operational data and information between networked devices, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for the purposes of facilitating home and environmental monitoring, control, and automation; data processing equipment, namely, computer hardware for home automation hardware and software, and computer hardware for a network of the internet of things (IoT); intercommunication apparatus, namely, wireless radio transmitters and receivers; intercommunication apparatus, namely, computer hardware and software to communicate, control, and check the status of security alarm systems, automated environmental systems, networked kitchen appliances, electronic doorbells, and cameras in homes, offices, and other buildings; home automation control devices in the nature of computer hardware, wired and wireless controllers for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, cameras, and a network of home automation devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, personal digital voice recorders, MP3 players and recorders, MP4 players and recorders, smart audio speakers, DVD players and recorders, portable computer hardware, game consoles, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, light bulbs, and consumer appliances, namely, air conditioners, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers; stand-alone voice controlled information devices, namely, cloud-connected and voice controlled smart audio speakers, and computer hardware with virtual personal assistant capabilities; anti-intrusion and anti-theft warning apparatus and devices, namely, anti-theft alarms and electronic sensors used with anti-theft alarms; theft prevention installations, namely, anti-intrusion alarms; security alarm controllers; photographic apparatus and instruments, namely, cameras, video cameras, cases adapted for photographic equipment, and camera mounts; optical apparatus and instruments, namely, optical profilers, optical scanners, and optical sensors; apparatus for recording, transmission or reproduction of sound or images, namely, cameras, electric and electronic video surveillance installations, video receivers, video cameras, tablet computers, digital video recorders, and electronic components of video security systems; computer hardware and software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing digital images, live audio feeds, audio clips, live video feeds, video clips and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors,

temperature sensors, microphones, and audio speakers; wireless communication devices for voice, data, or image transmission, namely electronic doorbells, video cameras, and audio speakers; electronic voice and radio transmitters and receivers; downloadable computer software for controlling and operating electronic home devices, namely, household appliances, lighting systems, HVAC systems, thermostats, security systems, cameras, garage door openers, electronic lock assemblies, electronic gates, home entertainment systems, stereos, televisions, computer hardware for video streaming and recording, video cameras, DVD recorders, audio speakers, computers, laptop computers, tablet computers, wearable activity trackers, smart watches, and irrigation systems, and for managing security systems; electronic home monitoring and security devices, namely electronic doorbells, electronic locks, motion sensors, home security alarms, fire alarm systems, fire and smoke detectors, audio speakers, and alarm sensors for detecting motion, temperature, air quality and ambient light; video monitors; security cameras; video cameras for monitoring the interior and exterior of residences and commercial buildings, and wireless controllers for remote monitoring, control, and automation of home devices and systems, namely, household appliances, lighting systems, HVAC systems, thermostats, security systems, cameras, garage door openers, electronic lock assemblies, electronic gates, home entertainment systems, stereos, televisions, computer hardware for video streaming and recording, video cameras, DVD recorders, audio speakers, computers, laptop computers, tablet computers, wearable activity trackers, smart watches, and irrigation systems; electronic devices for video streaming namely electric and electronic video surveillance installations, video recorders, and video receivers; cameras; webcams; electronic devices providing night vision, namely, night sensors, day and night cameras, and monitors for video and still-image viewing and monitoring, recording, streaming, and receiving; alarm system and camera mounts and stands; environmental hazard detectors, namely, devices that detect and record the presence of water, humidity levels, heat, temperature, movement, motion, and sound; closed circuit televisions and cameras; security lights; pet and baby monitors, video monitors for pets; parts, fittings and accessories for all the aforesaid goods, namely cases adapted for cameras, mounts for cameras, and screwdrivers specifically designed for installing electronic doorbells; security software; computer software and software applications for mobile phones, tablets, and desktop computers, namely software for use in monitoring home security systems, for use in electronic storage of data, and for controlling home devices and systems, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers; software and software applications permitting users to identify and communicate with persons at their door; software development kits (SDKs) consisting of computer software for the development, use, and interoperability of application programming interfaces (APIs) that are used by third party electronic devices for home and environmental monitoring, control, and automation, and electrical control systems for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras that exchange information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers, via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to internet connected consumer electronic devices; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and

applications related to theft-prevention and security systems, and home and business surveillance systems; voice command and recognition software; computer software used for controlling stand-alone voice controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; downloadable computer software for remote monitoring by electronic devices and for analysis of information collected by electronic devices, namely, video, camera, and sound recordings, and environmental and security data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals; electronic control systems for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; software for monitoring and controlling communication between computers and automated machine systems, namely lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; global positioning navigation software for use with smart, autonomous vehicles and mobile machines, namely wheeled carts specially adapted for audio-visual equipment and motorized carts specially adapted for audio-visual equipment for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for home and environmental monitoring, control, and automation; software for use in tracking and monitoring position and range of smart, autonomous vehicles and mobile machines, namely wheeled carts specially adapted for audio-visual equipment and motorized carts specially adapted for audio-visual equipment for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for home and environmental monitoring, control, and automation; downloadable software systems for use with electronic equipment and instruments, namely behavior engine software for use with any device having an internet connection, for use in home and environmental monitoring, control, and automation, namely software that permits autonomous operation of any internet-connected device on which the software is installed; downloadable software systems for use with electronic equipment and instruments, namely positioning engine software for use with any device having an internet connection, for use in home and environmental monitoring, control and automation, namely software for use in determining the geographic position of any internet-connected device on which the software is installed; downloadable software systems for use with electronic equipment and instruments, namely positioning sensors for use with any device having an internet connection, for use in home automation and environmental monitoring, control, and automation; downloadable software systems for use with electronic equipment and instruments, namely dynamic intelligent software and sensors for use in connection with any device having an internet connection, for use in home and environmental monitoring, control, and automation, namely software that permits autonomous operation of any internet-connected device on which the software is installed, and motion sensors for use therewith; automated self-contained electronic security surveillance carts specially adapted for audio-visual equipment that can be deployed in homes and commercial buildings to gather evidence or intelligence for purposes of home and building security; wearable activity trackers; wearable cameras; wearable computers in the nature of smartwatches; wearable computers in the nature of smart glasses; wearable video display monitors; communications headsets for use with mobile phones, communication radios, intercom systems, or other communications network transceivers; light switches; lighting control panels; lighting systems, namely, led (light emitting diode) modules, power supplies and wiring; light diodes.

Class 11

(2) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, electric lighting fixtures, air purifiers, electric fans, electric heating fans, ventilating exhaust fans, air filters for air conditioning units, air conditioning units, and tap water faucets; floodlights, spotlights, wall lights; light bulbs; LED light bulbs; lighting fixtures; lighting fixtures with motion detection; battery powered lighting fixtures; electric lighting fixtures, namely, power failure backup safety lighting; sconce lighting fixtures; lanterns for lighting; lighting apparatus, namely, security lighting fixtures, and outdoor lighting fixtures; ceiling lights; ceiling light fittings; electric night lights; LED (light emitting diodes) lighting fixtures for use in display, commercial, industrial, residential, and architectural accent lighting applications; LED lighting fixtures for indoor and outdoor lighting applications; lights for illuminating stairs, doors and other portions of buildings; portable battery-operated lights that can be placed on surfaces where other light sources are unavailable; portable utility lights; solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; spot lights; wall lights; fixtures for incandescent light bulbs; lighting fixtures for use in parking decks and garages; lighting fixtures for use in parking lots and walkways; electrical magnifying light fixtures; miniature light bulbs; lighting fixtures that integrate natural daylight and fluorescent lighting into the fixture; lighting for cabinets, pantries, work spaces, sheds, shelving units, and cupboards; lighting apparatus for use during power outages, namely, battery powered spotlights, floodlights, wall lights, and lighting fixtures.

Services**Class 35**

(1) Online retail department store services; data processing, namely processing of data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals, gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; computerized database management services; collection and compilation of statistics and information into computer databases in the field of home security, home monitoring, office and other facilities security, and criminal activity; database and file management; message transcription, namely compilation and transcription of video and audio recordings for businesses; compilation and systemization of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers into computer databases; data searches in computerized files for others; subscriptions to telecommunications database services for others, namely arranging subscriptions to a database containing video clips and live views of surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; promoting consumer awareness of personal safety, home security and crime prevention; retail store services in the fields of consumer electronics, security and surveillance equipment, and audiovisual equipment; retail store services in the field of general consumer merchandise, namely retail department store services.

Class 38

(2) Telecommunication services, namely, internet access provider services; electronic communication services, namely, electronic transmission of information gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers;

transmission of data, namely audio, video and multimedia files gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers via computer and electronic communications networks; transmission of motion detection alert messages, person detection alert messages, voice, video, and images, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers through a global communications network; communications services via fiber optic networks and wireless broadband, namely providing Internet access via fiber optic broadband networks and wireless broadband networks; audio broadcasting services, namely broadcasting live audio feeds and audio clips over the Internet; video broadcasting services, namely broadcasting live video feeds and video clips over the Internet; data broadcasting services, namely broadcasting information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet; video communication services, namely, electronic transmission of video clips from security and surveillance systems via the Internet; video telephone services; data communication services, namely, transmission of voice, audio, visual images and data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers via telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; data streaming, namely streaming of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet; providing voice communication services over the Internet, namely voice over Internet Protocol [VoIP] services; consultancy and advisory services in the field of electronic transmission, broadcast, streaming and communication of audio, video, information and data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet.

Class 41

(3) Audio and video recording services; subscription video recording services; electronic library services for the supply of electronic information (including archive information) in the form of audio and/or video information; consultancy and advisory services relating to the aforesaid services.

Class 42

(4) Platform as a service (PAAS) featuring computer software platforms for use with home and environmental monitoring, control, and automation systems; software as a service (SAAS) services featuring computer software for use with home and environmental monitoring, control, and automation systems; application service provider featuring application programming interface (API) software for home and environmental monitoring, control, and automation; Platform as a service (PAAS) featuring computer software for use to electronically connect and control voice-activated

speakers, computer hardware and software for controlling any network-enabled devices that are connected to home automation hubs via the internet, namely, wired and wireless controllers, and electrical control systems for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; Software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, namely, home automation hubs, wireless and wired controllers, and electrical control systems, all for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart security alarm systems, environmental systems, kitchen appliances, doorbells, cameras, audio speakers and computer hardware with virtual personal assistant capabilities; software as a service permitting users to identify and communicate with persons at their door; computer services, namely, providing an internet site featuring technology for use in home and environmental monitoring, control, and automation systems; computer services, namely, providing an internet portal featuring technology enabling users to remotely interact with home and environmental monitoring, control, and automation systems; providing online non-downloadable software for recording, viewing, storing, sharing and analyzing online audio and video gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing temporary use of on-line non-downloadable software for the management and transmission of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; design and development of computer hardware and software; hosting a website for the electronic storage of data; monitoring of computer systems by remote access; monitoring of camera systems by remote access; installation, maintenance and repair of computer software; cloud recording and storage services being the provision of cloud hosting provider services and providing temporary use of online non-downloadable cloud computing software for use in the general storage of electronic data; cloud computing provider services for general storage of electronic media, namely, images, text, audio, and video data; providing an online non-downloadable internet-based application featuring technology enabling users to share videos; providing an on-line network environment that features technology that enables users to share live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing temporary use of online non-downloadable software for recording, viewing, storing, sharing, and analyzing live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; information technology support services, namely, help desk services and troubleshooting of computer hardware and software problems for customers by means of a support hotline; provision of technical support services for software and computer systems; consultancy and advisory services in the fields of platform as a service (PAAS) services, software as a service (SAAS) services, application service provider

services, and the provision of computer services, all with respect to home and environmental monitoring, control, and automation; consultancy and advisory services in the fields of platform as a services (PAAS) services, software as a service (SAAS) services, the provision of computer services, and the provision of on-line non-downloadable software, all with respect to the connection and control of smart and networked consumer electronic devices, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for the purposes of facilitating home and environmental monitoring, control, and automation; consultancy and advisory services in the field of design and development of computer hardware and software; consultancy and advisory services in the fields of electronic storage, website hosting, monitoring of computer systems, and monitoring of camera systems; consultancy and advisory services in the field of installation, maintenance and repair of computer software; consultancy and advisory services in the field of the provision of information technology support services, namely troubleshooting computer hardware and software problems; consultancy and advisory services in the field of the provision of technical support for software and computer systems.

Class 45

(5) Home security monitoring services; consultancy, advisory and information services relating to home security monitoring; electronic monitoring and security services for residential and commercial properties; providing information about personal safety, home security and crime prevention; consultancy, advisory and information services relating to home security monitoring; providing information about personal safety, home security and crime prevention via a website.

Certification Mark Standard

In order to hold the CBI designation, an active member of the IBBA must complete certain requirements. Those requirements are: Membership in good standing with the IBBA. CBI application and fee must be submitted to Headquarters. Proof of the following: A minimum of three years full-time business brokerage experience within the prior ten years, and must be actively involved in the deal-making process or management of the process; or A college degree; or Related work experience which may be submitted with the request that it be accepted as an equivalent for up to two of the three years of business brokerage experience. The following requirements must be fulfilled within the 5 years preceding the applicant's CBI exam date: Attend at least one IBBA conference (excludes IBBA chapter conferences). Gain 68 credit hours of IBBA University or M&A Source courses of which 52 shall be required and 16 shall be elective and shall include a course examination passed with a score of at least 70%. Required credit hours: Course #100 (4 credit hours); Course #101 or #301 (8 credit hours); Course #104 or #304 (8 credit hours); Course #210

(16 credit hours); Course #220 (8 credit hours); and Course #221 (8 credit hours). These courses are mandatory as their subject matter involves activities in which every business broker, regardless of geographic location or business type specialization, is engaged: ethics, financial analysis, pricing/valuation, and legal and tax implications. Elective Credit Hours: The remaining 16 credit hours are elective. Effective June 1, 2018, candidate must show evidence as lead seller broker on three (3) going concern business transactions. Each CBI candidate must pledge to uphold the IBBA's Code of Ethics. CBI Exam Once all requirements are met, the candidate must pass the comprehensive CBI examination with a minimum score of 70% on each section. The CBI exam ascertains competency in concepts deemed to be general business brokerage knowledge, and not exclusively the content contained within the CBI required courses. Any candidate failing an association course exam or the comprehensive examination may study independently and retest. Exam retests may be taken by applying to Headquarters. Exams will only be offered at scheduled times.
