## Vol. 70 No. 3595

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(2) Diagnostic chemical reagents for use in automated test systems for medical and veterinary use; reagents for use in blood grouping, molecular biology, bacteriological, biotechnology and microbiological analysis, namely reagents for formation of amphipathic membranes, buffer solutions, non-aqueous solvents, surfactants; reagents for medical and veterinary diagnosis and medical and veterinary research; reagents for laboratory tests for medical and veterinary purposes; nucleic acid amplification reagents for veterinary, medical, medical research and forensic use; reagents for immunoassay analysers; diagnostic test reagents for testing aqueous solutions for medical and veterinary use; reagents for testing for susceptibility to allergies; diagnostic reagents

for use in biological processing for medical and veterinary use; reagents for use in nucleic acid characterisation and nucleic acid sequencing; reagents for protein identification and analysis; reagents for formation of amphipathic membranes; surfactants for use in medical and veterinary diagnostic tests; proteins for use in diagnostic tests for medical and veterinary purposes; magnetic and non-magnetic albumin microspheres made from rubber, plastics or silicone, namely, beads that facilitate delivery of a wide range of pharmaceuticals.

### **Class 09**

(3) Computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Software for running an e-commerce platform in the fields of scientific research and scientific analysis; sensors used in electronic scientific equipment for detecting, manipulating and analysing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; micro-array chips; electronic sensing apparatus, namely sensors used in electronic scientific equipment for detecting, manipulating and analysing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; laboratory and scientific apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, optical and electrochemical analysis, medical diagnosis, measurement of ions, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes; portable laboratory and scientific apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, optical and electrochemical analysis, medical diagnosis, measurement of ions, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes; scientific apparatus and instruments for sequencing DNA, RNA, protein and polynucleic acids; scientific apparatus and laboratory devices for the scientific analysis of polynucleic acid sequences; apparatus and instruments for the analysis of nucleic and polynucleic acids, namely, microarrays, and silicon chip based arrays for scientific and research purposes; apparatus and instruments for the analysis of proteins, namely, microarrays, and silicon chip based arrays for scientific and research purposes; apparatus and instruments for analysis of genetic information, genomic information and proteomic information, namely, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICS (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis; apparatus and instruments for use in laboratory analysis, namely, cartridges for use with concentrates and solutions in solid and liquid form samples for scientific and research testing; diagnostic and testing apparatus for scientific and research purposes, namely, laboratory test tubes, centrifuges for laboratory use, constant temperature incubators for laboratory use, vacuum distillation columns for laboratory use; scientific apparatus and instruments for sequencing and synthesising chemical compounds, small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides for scientific and research purposes; scientific apparatus and instruments for automating the preparation of biological, bacteriological, chemical and biochemical material and DNA, RNA, proteins, polynucleic acids and small molecule of test samples; portable scientific

apparatus, devices and instruments for identifying, measuring, analysing, sequencing and synthesising chemical compounds, small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides for use in the fields of genomics, medical sciences, environmental research, agriculture, general health and well-being, national security and military defence; silicon chips; DNA chips; analyte detector chips; biosensor chips; solid phase extraction cartridges for laboratory use; batteries, rechargeable batteries, chargers for batteries, and power packs for use with electronic scientific equipment; computer docking stations; laboratory testing apparatus incorporating chemical and biological reagents for testing gas, liquids and solids; reaction units containing chemical and biological reagents for laboratory use; Nanopore sensors for scientific testing and research purposes.

### **Class 10**

(4) Surgical, medical and veterinary apparatus and instruments, namely, automated electronic devices for sequencing DNA, RNA, and other small molecules for the purposes of analysing test samples comprising biological, chemical, biochemical, DNA, RNA, proteins and other small molecules for medical and veterinary purposes; automated electronic apparatus and instruments for the purpose of preparation of test samples for medical and veterinary purposes; portable medical and veterinary apparatus, namely, automated electronic devices for sequencing DNA, RNA, and other small molecules for the purposes of analyzing test samples comprising biological, chemical, biochemical, DNA, RNA, proteins and other small molecules for medical and veterinary purposes; liquid biopsy devices, namely biopsy needles; blood testing apparatus for chemical, biochemical and biological analysis of blood samples; diagnostic and analytical apparatus for medical and veterinary purposes, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; portable and analytical diagnostic apparatus for medical and veterinary purposes, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; testing apparatus, namely, automated electronic devices for sequencing DNA, RNA and other small molecules for medical and veterinary purposes; portable testing apparatus, namely, automated electronic devices for sequencing DNA, RNA and other small molecules for medical and veterinary purposes; reaction units containing chemical reagents, for testing medical purposes; Nanopore sensors for medical and veterinary purposes.

### **Services**

#### **Class 42**

Scientific and technological services and research and design relating thereto, namely, consultation, research and design services relating to automated systems and instruments for direct electrical detection and analysis of molecules for use in the field of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; industrial analysis and research services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular analysis services; services relating to the synthesis of chemical compounds, small molecules, genomes, DNA, RNA or other nucleic acids, oligosaccharides, proteins and peptides; genome, DNA, RNA and nucleic acid, oligosaccharide, protein and peptide synthesising services; chemical compound and small

molecule synthesising services; DNA and RNA and polynucleic acid sequencing services; protein sequencing services; design and development of instruments and apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis; laboratory testing services in the fields of genomics, protein analysis, molecular analysis, chemistry, biochemistry, biology, biotechnology, microbiology and bacteriology; DNA and polynucleic acid testing services; genome sequencing services; Analysis and evaluation in the fields of genomics, protein analysis, molecular analysis, chemistry, biochemistry, biology, biotechnology, microbiology and bacteriology; overseeing, monitoring and managing scientific and medical experiments and tests; overseeing, monitoring and managing the analysis and evaluation of scientific and medical data; design of scientific experiments; analysis of data generated by scientific and medical experiments and tests; biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis and evaluation services; DNA and RNA and polynucleic acid and protein sequencing, analysis and evaluation services; genome sequencing services and the analysis and evaluation of data resulting therefrom; provision of reports relating to scientific and medical experiments, the results of scientific and medical experiments and tests, the analysis and evaluation of scientific and medical data, and data generated by scientific and medical experiments and tests; medical research; technical and evaluation services in the fields of chemistry, biology, biotechnology, genomics, pharmaceutical development, medical research and nanotechnology; electronic storage of medical records; application service provider (ASP) services featuring application programming interface software for analysis of scientific and medical records obtained from sequencing DNA, RNA and other polynucleic acids and installed and downloaded onto medical image processors, computers, tablet computers and handheld mobile digital electronic devices.

computer software, namely software for video conference; computer software, namely fintech software for producing financial models, for effecting mobile payments, for home banking, for effecting banking operations, for cardless money withdrawal, for crowdfunding, for selling and purchasing of cryptocurrencies and Non Fungible Tokens; computer software, namely blockchain software and firmware excluding blockchain applications for PLM (product lifecycle management); computer software, namely computer software for use as a spreadsheet; computer software namely computer software for word processing; computer software namely computer software for database management; computer software namely desktop publishing software; Radio sets, transceivers, radio receivers; Audio and video transceivers; Apparatus for receiving and transmission via satellites namely satellite receivers; satellite transmitters; satellite transceivers; Apparatus for the transmission of data, sound, video namely sound amplifiers, audio and video receivers, audio transmitter units, video transmitters; Navigation apparatus for vehicles in the form of on-board computers, computer software for global positioning software; Data switching apparatus namely computer network hubs, switches and routers; Speed measuring apparatus, namely speed meters; Temperature measuring apparatus, namely temperature meters for household purposes, for industrial purposes, for scientific use; Distance measuring apparatus, namely electronic distance meters; Apparatus for measuring dimensions, namely three-dimensional scanners; computer scanners; satellite aerials; Telephone apparatus, namely automatic telephone dialers, digital telephones, magnetic telephone wires, automatic and manual telegraph apparatus, telematic apparatus, namely telemeters; Mobile telephone apparatus, namely cellular telephones, encoded electronic chip cards for identifying particular users of computers and cellular telephones; Video telephones; pre-paid telephone calling cards, magnetically encoded; Menu displays for mobile phones; Television apparatus, namely televisions, coin-operated mechanisms for television sets; sound and video players, namely digital audio and video tape players; Devices with a screen, namely computer screens; Television receivers; Film and video equipment, namely film cameras, film strips, video films, video circuit board; Camcorders; Still cameras; DVD players; Laser disc players; MP3 players; Media players, namely downloadable mobile applications being multimedia audio and video file players; television decoders; Signal decoders, namely decoder software; Apparatus for accumulating and reserving energy namely wired and wireless electrical charging stands, pads, cases, for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence ; apparatus for accumulating and storing electricity, namely battery chargers for laptop computers, battery chargers for tablet computers, battery chargers for use with telephones; batteries, namely batteries for cell phones, electric batteries for laptop computers, electric batteries for tablet computers; rechargeable batteries, namely rechargeable batteries for mobile phones, laptop computers and tablet computers; Batteries, namely batteries for cell phones, laptop computers and tablet computers ; Rechargeable batteries for mobile phones, portable computers, tablet computers; Mobile telephone batteries; Solar cell; Battery charging equipment namely wired or wireless electrical charging systems for mobile phones, laptop computers and tablet computers; wired or wireless electrical charging systems for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence; wireless charging pads for mobile phones, laptop

computers and tablet computers; capacitive or inductive wireless power transfer systems; Mobile phone chargers; mobile phone charging cases; wireless mobile phone charging cases; battery chargers for laptop computers; battery chargers for tablet computers; battery chargers for use with telephones; batteries for pocket lamps; Telephone cables; Cables, electric; Communications cables; Cables for computers; Connector cables; Audio cables; Optical cables; Cables for data transmission; Battery cables; Electric connecting plugs; Jack plugs, namely dustproof plugs for mobile telephone jacks; Hands-free kits for telephones; Earphone; Earphones; Microphones; Hands free kits for phones; blank flash memory cards, computer memory expansion modules, secure digital (SD) memory cards; computer memory boards; Data storage discs, namely data storage devices being floppy disks; USB flash drives; Data storage devices, namely cassettes; computer hardware; Computer servers; digital tablets; Hand-held computers; Laptop computers; Handheld computer devices; computer printers; Monitors and screens for machines and computers, namely display monitors; Computer mouse; Electronic pens; stylus pens, namely capacitive styluses for touch screen devices; Magnetic pens; Keyboard apparatus for use with computers, namely computer keyboards; Telephone keyboards; Computer operating systems; Video game consoles; Hi-fi systems; Power supply units, namely portable power supply in the nature of rechargeable power banks for use with cellular phones; Continuity units, namely uninterruptible power supply apparatus; Electric power distributors; Power controllers for fuel cells; Meters, namely acoustic meters, bidirectional meters for electricity monitoring, capacitance meters, electric current meters, electricity meters, data meters, engine hour meters, flow meters, frequency meters, light meters, meters for measuring electrical resistance, meters for measuring electrical voltage, noise level meters, parking meters, power system meters, pressure meters, vehicle parking meters, vibration meters, wheel alignment meters; Control panels for electricity; Electric current switches; Transformers [electricity], namely electric transformers; Commutators; Switchboards; Distribution boxes for electrical power; electricity distribution consoles; Electrical circuits; Electronic circuits; Electronic memory circuits; Integrated electronic circuits; Printed electronic circuits; Sensors and detectors namely acceleration sensors, biochip sensors, biometric sensors for access control systems, distance sensors, infrared sensors, laser distance sensors, LED position sensors, motion sensors, optical sensors, parking sensors for vehicles, position sensors, pressure sensors, proximity sensors, remote temperature sensors, temperature sensors, thermal sensors, timing sensors, touchscreen sensors, vibration sensors, water level sensors, wheel speed sensors, metal detectors, motion detectors, radar detectors, radiation detectors, voltage detectors, fire and smoke detectors, heat detectors, laser speed detectors; Remote control mechanisms, namely remote control receivers and transmitters; electronic timer; Emergency exit lighting; Illumination regulators; LED monitors.

### **Class 11**

(2) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes namely UV and UV-C based sanitising devices, light-based germicidal devices, mobile phone sanitising devices, UV and UV-C based mobile phone sanitising devices; Lighting installations, namely commercial lighting fixtures; Lighting apparatus for vehicles, vehicle reflectors, namely automotive lighting headlights for vehicles, reflectors for vehicles; Decorative electric lighting apparatus, namely fairy lights for festive decoration, lights for festive figure decorations; electric lamps, electric bulbs, chandeliers, LED light bulbs; Lighting panels; Lights and lighting structures namely lights for vehicles, street lights, indoor and outdoor electrical lighting fixtures, including lighting fixtures using light-emitting diodes as the light source, industrial lighting fixtures, motion sensor lights, light bulbs, light fixtures, light projectors, lighting apparatus,

especially electric lamps and luminaires, infrared lighting fixtures, intelligent street lighting, LED (light emitting diode) lighting fixtures, LED lamps, LED light projectors, garden lights, electric torches for lighting, fibre optic lighting fixtures, adaptive street lighting;

## **Services**

### **Class 42**

Industrial analysis and research services, namely industrial analysis of technology specification of computer software systems for others; Design and development of computer hardware and software; Engineering consultations, namely consultation services in the field of electric engineering; Technological consultancy, namely consultancy relating to technological services in the field of power and energy supply; industrial design; Electric and electronic engineering; Research and development in the field of electric and electronic engineering; Technological design, namely computer software design; Research, development and design of electric, electronic and IT apparatus, devices and components namely AC/DC converters, electric power converters, software control algorithms for converters, controllers for AC/DC converters, power controllers, electric power controllers, electronic power controllers, electrical charge controllers, AC /DC conversion architectures, power supply units, field-effect transistor switching devices, application specific integrated circuits for any of power conversion, power control, power supply, charge control, or AC/DC conversion; Design of wireless electrical charging systems; design of wireless charging pads; design of capacitive or inductive wireless power transfer systems; design of electrical and electronic devices with integrated wireless electrical charging systems; design of mobile or portable devices with wireless electrical charging systems; design of integrated circuits, application specific integrated circuits, application specific integrated circuits for power transfer, application specific integrated circuits for capacitive or inductive wireless power transfer; design of wireless electrical charging systems for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence; design of wireless charging pads; Design of lighting systems.

#### Class 05

(1) Fly glue strips for catching insects; adhesive strips for catching insects; glue coated strips for use against vermin; insect attractants, namely insect destroying preparations; insect exterminating preparations in the form of insect attractants for pest control.

#### Class 07

(2) Agriculture machines for cultivating and incorporating, namely, agricultural equipment for seeding, agricultural seed planting machines, agricultural cultivator; power-operated sprayers for insecticides; power operated agricultural crop spraying machines; atomisers being parts for agricultural crop spraying machines; fertilizer spreading machines; robots for use in agriculture, namely automated and semi-automated robotic sprayers for insecticides; robots for use in agriculture, namely drones for monitoring and spraying of crop for insecticides; towable power-operated agricultural crop spraying machines.

#### Class 08

(3) Hand-operated tools for agriculture, namely, hand-operated sprayers for insecticides.

#### Class 09

(4) Software for collecting and monitoring information about crops in agriculture; software for monitoring the presence of insects on crops and monitoring the quality of crops; software for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the fields of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management; downloadable software for creating, organizing, viewing and downloading digital images, photographs, floor plans, greenhouse floor plans and 3D renderings of agricultural related properties, building and greenhouses; computer application software for mobile phones, tablets and handheld computers,

for collecting and monitoring information about crops in agriculture; software for monitoring the presence of insects on crops and monitoring the quality of crops; software for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the fields of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management; downloadable software for creating, organizing, viewing and downloading digital images, photographs, floor plans, greenhouse floor plans and 3D renderings of agricultural related properties, building and greenhouses; downloadable software for collecting and monitoring information about crops in agriculture; downloadable software for monitoring the presence of insects on crops and monitoring the quality of crops; downloadable software for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the fields of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management; downloadable software for creating, organizing, viewing and downloading digital images, photographs, floor plans, greenhouse floor plans and 3D renderings of agricultural related properties, building and greenhouses; mobile software applications for collecting and monitoring information about crops in agriculture; mobile software applications for monitoring the presence of insects on crops and monitoring the quality of crops; mobile software applications for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and, generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the field of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management and for creating, organizing and viewing digital images, photographs, greenhouse floor plans and 3D renderings and for downloading photographs, diagrams, floor plans and 3D rendering of agricultural related properties, buildings and greenhouses; downloadable computer software platforms for collecting and monitoring information about crops in agriculture; downloadable computer software platforms for monitoring the presence of insects on crops and monitoring the quality of crops; downloadable computer software platforms for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and, generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the field of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management and for creating, organizing and viewing digital images, photographs, greenhouse floor plans and 3D renderings and for downloading photographs, diagrams, floor plans and 3D rendering of agricultural related properties, buildings and greenhouses; environmental monitoring software for monitoring the presence of insects on crops and monitoring the quality of crops; electronic hand held devices, namely, computers for collecting and monitoring information about

crops in agriculture, for monitoring the presence of insects on crops and monitoring the quality of crops, for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and, generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the field of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management and for creating, organizing and viewing digital images, photographs, greenhouse floor plans and 3D renderings and for downloading photographs, diagrams, floor plans and 3D rendering of agricultural related properties, buildings and greenhouses; monitoring machines for monitoring information about crops in agriculture, for monitoring the presence of insects on crops and monitoring the quality of crops, for monitoring, real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and, generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the field of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management and for creating, organizing and viewing digital images, photographs, greenhouse floor plans and 3D renderings and for downloading photographs, diagrams, floor plans and 3D rendering of agricultural related properties, buildings and greenhouses; electronic hand held devices, namely, computers and cameras used to observe and collect information on the presence of insects on crops and observing the quality of crops, for registering, collecting, monitoring, analyzing, providing and managing real-time information and data regarding crops, pests, diseases, biological controls, chemical agents, crop management and pest management, for species identification, for providing alert and, generating reports about crops, pest, diseases, biological controls, chemical agents, crop management and pest management, for counting and identifying crops, pests and diseases, and for providing image recognition and capturing images in the field of agriculture, greenhouses, crops, pests, diseases, biological controls, chemical agents, crop management and pest management and for creating, organizing and viewing digital images, photographs, greenhouse floor plans and 3D renderings and for downloading photographs, diagrams, floor plans and 3D rendering of agricultural related properties, buildings and greenhouses.

#### Class 06

(1) Nonferrous metals and their alloys; cladding of metal for construction and building; metal reinforcement materials for building; reinforcing materials of metal for pipes; casings of metal; drain pipes of metal; ducts of metal for ventilating and air conditioning installations; metal cladding; pipes of metal for liquid and gas transfer; pipes of metal, for central heating installations; metal joinery fittings; safes; metal hardware, namely mounting brackets for mounting HVAC, metal brackets for mounting shelves, non-insulated pipe supports of metal, bands of metal for tying up purposes, clips of metal for pipes; reinforcing materials of metal for pipes; latches of metal; bolts of metal; nuts of metal; rivets of metal; washers of metal; screws of metal; nails of metal; gutter brackets of metal; fittings of metal for pipes; metal pipe couplings; metal elbows; ferrules of metal; cable clamps of metal; cable clips of metal; cable junction sleeves of metal; cable stretchers and cincture stretchers of metal; prefabricated building assembly kits, namely assembly kits of HVAC systems, namely metal vent covers for HVAC ducts, geothermal HVAC systems; industrial packaging containers of metal; metal junctions for pipe; metal flanges; anvils; crampons of metal (cramps); cramps of metal (crampons); swage blocks; wire ropes; metal stepladders and ladders; metal moulds for forming cement products; insulated copper pipes for piping of air-conditioning apparatus and electric space cooling apparatus; copper flexible tubes for piping of air-conditioning apparatus and electric space cooling apparatus; flame-retardant and fireproof pipes, mainly made of insulated copper pipes, for piping of chemical condensation preparations for air-conditioning apparatus and electric space cooling apparatus; flameretardant and fireproof sleeves of metal for piping of air-conditioning apparatus and electric space cooling apparatus; metal supports for piping of air-conditioning apparatus and electric space cooling apparatus; metal ducts for piping of air-conditioning apparatus and electric space cooling apparatus; metal covers for piping of air-conditioning apparatus and electric space cooling apparatus; metal supports, holders and

mounting brackets for piping of air-conditioning apparatus and electric space cooling apparatus; metal mounts and mounting brackets for ducts for piping of air-conditioning apparatus and electric space cooling apparatus; metal mounts and mounting brackets to install covers for piping of air-conditioning apparatus and electric space cooling apparatus; metal binding bands, metal buckles and metal holders for piping of airconditioning apparatus and electric space cooling apparatus; metal mounts and mounting brackets for airconditioning apparatus and electric space cooling apparatus; metal window panels for piping of airconditioning apparatus and electric space cooling apparatus; metal window locks of window panels for piping of air-conditioning apparatus and electric space cooling apparatus.

### **Class 09**

(2) Electric arc welding machines; electric welding apparatus; ozonisers (ozonators); egg-candlers; cash registers; electric notice boards for displaying target figures and electrical current outputs; photocopying machines; calculators; computers; time and date stamping machines; time clocks (time recording devices); punched card office machines; voting machines; postage stamp checking apparatus; vending machines; coinoperated gates for car parking facilities; fire extinguishers; fire hydrants; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas alarms; anti-theft alarms, other than for vehicles; theft alarms; warning apparatus for motor cars; anti-intrusion alarms; hard hats; railway signals; vehicle breakdown warning triangles; luminous and mechanical road signs; arcade video game machines; electric door openers; vehicle driver training simulators; measuring rules; measuring tapes; surface roughness testing machines and instruments; level measuring machines for surveying; plastic testing machines; distribution boxes for electrical power; electrical control systems for lighting systems; electrical control systems for heating and air conditioning systems; rotary converters; phase modifiers; electric wires and cables; electric flat irons; electric hair-curlers; electric buzzers; computer hardware for telecommunications; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical transformers for telecommunication apparatus; magnetic cores; resistance wires; fire boats; fire engines; cigar lighters for automobiles; fire resistant gloves; dust masks; gas masks; welding masks; fireproof garments; consumer video games; slot machines; inflatable swimming floats; protective helmets for sports; swimming flutter boards; phonograph records; metronomes; slide-rules; exposed cinematographic films; exposed slide films; slide film mounts; electronic publications in the field of construction, namely building construction and bridge construction, installation of HVAC systems.

### **Class 11**

(3) Set units of toilet bowl and seat; chemical fiber drying machines; recuperators for chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; milk sterilizers; industrial furnaces; nuclear reactors (atomic piles); forage drying apparatus; industrial boilers; air conditioners for industrial purposes; refrigerating cabinets; freezers; clothes drying machines for industrial purposes; industrial dish drying machines; dish disinfectant apparatus for industrial purposes; tap water faucets; level controlling valves for tanks; pipe line cocks; garbage incinerators; solar water heaters; Tap-water purifying apparatus; municipal water purification machines; reverse osmosis water purification units; ultraviolet light (UV) water purification device; household electrothermic appliances, namely, electric space heaters; washers for water taps; gas water heaters (for household use); non-electric cooking appliances for household purposes, namely cooking ovens for household purposes, gas cooking ovens for household purposes and Japanese charcoal cooking stoves for household purposes (shichirin); kitchen stoves; refrigerating counters, electric cooktops, gas cooktops; kitchen sinks; ice chests (for household purposes, not portable); ice-cooling refrigerators for household purposes; household tap water filters; bathtubs; bathtub and

shower enclosures; molded shower enclosures; shower and bath cubicles; shower stalls; shower stands; showers; shower tub; standing paper lanterns (Andon); portable paper lanterns (Chochin); gas lamps; oil lamps; lamp chimneys; warming pans (non-electric); stick fuel for Japanese pocket warmers (Kairo-bai); hot water bottles (for warming one's feet in bed); toilet stool units with a washing water squirter; disinfectant dispensers for toilets; toilet bowls; seats for use with Japanese style toilet bowls; waste water treatment tanks for household purposes; septic tanks for household purposes.

#### **Class 17**

(4) Industrial packaging containers of rubber; rubber stoppers for industrial packaging containers; rubber lids and caps for industrial packaging containers; semi-processed plastics; electrical insulating materials; pipe gaskets; junctions for pipes (not of metal); packings, namely, joint packing for pipes, seals for pipe connections; soundproofing batting; soundproofing foam.

#### **Class 19**

(5) Plastic drain pipes for piping of air-conditioning apparatus and electric space cooling apparatus; plastic drain hoses for piping of air-conditioning apparatus and electric space cooling apparatus; seals, mainly made from inorganic fillers made of calcium carbonate, expanding materials, and composite of unvulcanized rubber and polyolefin, of flame-retardant or fireproof sleeves for piping of air-conditioning apparatus and electric space cooling apparatus; heat insulation materials, being flame-retardant and fireproof materials mainly made of polyolefin and chemical crosslinking thirty-fold formed polyethylene, for piping of air-conditioning apparatus and electric space cooling apparatus; seals, mainly made from inorganic fillers made of calcium carbonate, expanding materials, and composite of unvulcanized rubber and polyolefin, for piping of airconditioning apparatus and electric space cooling apparatus; plastic ducts for piping of air-conditioning apparatus and electric space cooling apparatus; plastic covers for piping of air-conditioning apparatus and electric space cooling apparatus; plastic moulds for mounts and mounting brackets for piping of airconditioning apparatus and electric space cooling apparatus; plastic moulds for mounts and mounting brackets to install ducts and covers for piping of air-conditioning apparatus and electric space cooling apparatus; plastic binding bands, plastic buckles and plastic holders for piping of air-conditioning apparatus and electric space cooling apparatus; plastic mounts and mounting brackets for air-conditioning apparatus and electric space cooling apparatus; plastic awnings for air-conditioning apparatus and electric space cooling apparatus; plastic moulds for mounts or mounting brackets for air-conditioning apparatus and electric space cooling apparatus; shock absorbing buffers of plastic for piping of air-conditioning apparatus and electric space cooling apparatus.

#### Class 06

(1) Metallic building and construction materials and elements of metal, namely, metal anchoring rails, metal anchor plates, metal anchors, metal hooks, metal wires, non-electric metal cables, metal inserts, metal bolts, metal tie downs, metal screws, metal bands of steel, steel plates, bars of steel, metal bars, metal socket bars, metal fastening anchors, metal threaded sheets, metal threaded rods, metal joinery fittings and fasteners, metal bars and metal chains, metal expanding sleeves, metal hardware washers, nuts of metal, metal rebar connectors, metal rebar coupler, metal stirrups, metal ties, screw metal railings, anchor straps of metal, bracket anchors, metal support brackets, metal fixings, metal edge protectors, metal guard rails, metal rails, mounting metal rails, nail connection anchors, metal plugs, threaded thin bands of metal, perforated thin bands of metal, slotted thin bands of metal, metal clips and metal rail clips, metal pipe clamps, metal mounting loops, metal truss bases, metal floor trusses, metal brackets, metal connection brackets, metal spacer brackets, metal couplers, threaded metal coupler bars, metal clamps, metal angle sections, metal angle irons, metal insulating place holders, metal loops, metal couplers, metal eye sleeves, metal adapter sleeves being joint connectors, metal clamping connectors, metal dowels, supports and reinforcements of metal for the transfer of loads, reinforcing materials made of metal fibres, prefabricated metal components for building foundations, plated steels, metal shear reinforcement, reinforcing materials of metal, metal tension rod systems, steel rods, fixing materials of metal, metal lining and shuttering, metal moulds, steel deck metal shuttering; metal façade panels for construction purposes; silos; tanks of metal for storage and transportation of goods; metal profiled components in the nature of metal tubes, metal tubular journals; containers of metal for storage and transportation of goods; parts and fittings for metallic building and

construction materials and elements of metal, namely, metal anchoring rails, metal anchor plates, metal anchors, metal hooks, metal wires, non-electric metal cables, metal inserts, metal bolts, metal tie downs, metal screws, metal bands of steel, steel plates, bars of steel, metal bars, metal socket bars, metal fastening anchors, metal threaded sheets, metal threaded rods, metal joinery fittings and fasteners, metal bars and metal chains, metal expanding sleeves, metal hardware washers, nuts of metal, metal rebar connectors, metal rebar coupler, metal stirrups, metal ties, screw metal railings, anchor straps of metal, bracket anchors, metal support brackets, metal fixings, metal edge protectors, metal guard rails, metal rails, mounting metal rails, nail connection anchors, metal plugs, threaded thin bands of metal, perforated thin bands of metal, slotted thin bands of metal, metal clips and metal rail clips, metal pipe clamps, metal mounting loops, metal truss bases, metal floor trusses, metal brackets, metal connection brackets, metal spacer brackets, metal couplers, threaded metal coupler bars, metal clamps, metal angle sections, metal angle irons, metal insulating place holders, metal loops, metal couplers, metal eye sleeves, metal adapter sleeves being joint connectors, metal clamping connectors, metal dowels, supports and reinforcements of metal for the transfer of loads, reinforcing materials made of metal fibres, prefabricated metal components for building foundations, plated steels, metal shear reinforcement, reinforcing materials of metal, metal tension rod systems, steel rods, fixing materials of metal, metal lining and shuttering, metal moulds, steel deck metal shuttering, metal façade panels for construction purposes, silos, tanks of metal for storage and transportation of goods, metal profiled components in the nature of metal tubes, metal tubular journals, containers of metal for storage and transportation of goods

### **Class 07**

(2) Machine tools and power-operated tools for fastening and joining machinery together, accessories for machine tools and power-operated tools for fastening and joining machinery together, coupler threading machines, templates for power-operated cutting tools, cutting guides for power-operated cutting tools; machines for the treatment of building materials, power-operated tools for the treatment of building materials; power-operated drilling tools, namely, gas-powered drills, power operated magnetic drills, cordless electric drills, air drills, bench drills, column drilling machines for drilling concrete, metal, masonry, brick, lime stone, lime, stone and natural stone; power-operated cutting tools, namely, carbide-tipped cutting tools, cemented carbide cutting tools, cutting machines for metalworking, diamond-pointed metal-cutting tools, electric arc cutting machines, power-operated asphalt cutters, power-operated cutting machines for cutting metal, masonry, brick, lime stone, lime, stone, natural stone; lifting machines for use in building construction; parts and fittings for machine tools and power-operated tools for fastening and joining machinery together, accessories for machine tools and power-operated tools for fastening and joining machinery together, coupler threading machines, templates for power-operated cutting tools, cutting guides for power-operated cutting tools, machines for the treatment of building materials, power-operated tools for the treatment of building materials, lifting machines for use in building construction; parts and fittings for power-operated drilling tools, namely, gas-powered drills, power operated magnetic drills, cordless electric drills, air drills, bench drills, column drilling machines for drilling concrete, metal, masonry, brick, lime stone, lime, stone and natural stone; parts and fittings for power-operated cutting tools, namely, carbide-tipped cutting tools, cemented carbide cutting tools, cutting machines for metalworking, diamond-pointed metal-cutting tools, electric arc cutting machines, power-operated asphalt cutters, power-operated cutting machines for cutting metal, masonry, brick, lime stone, lime, stone, natural stone

### **Class 17**

(3) Packing and stopping materials made wholly or predominantly of rubber or plastics, namely, foam filler strips, coupling and joints, plastics in extruded and pultruded form for use as packing

and stopping material, joint sealing preparations, waterproof preparations for use as packing and stopping materials, reinforced structures for use in packing and stopping in building construction, flexible pipes for use in packing and stopping, spacers for reinforced structures for use in packing and stopping; insulating materials, all made wholly or predominantly of rubber or of plastics

### **Class 19**

(4) Building and construction materials not of metal, namely, grout, mortars, reinforcing materials for use in construction, concrete sandwich wall panels, composite connectors and fasteners, block construction systems sold as a unit for use in construction with concrete blocks and panels, construction elements, dowels, non-metal hooks, non-metal ties and anchors, non-metal profiles for inserting into reinforced concrete, formwork tables for concrete, liners for concrete forms, non-metallic rigid tubing, pre-cast concrete wall forms, materials for use in the manufacture of concrete and concrete components, non-metallic splices, non-metallic joint connectors, woven fabrics for concrete, geotextile materials for use in construction, moulds, preparations for protecting concrete, mortars for the repair of concrete, non-metal profiles for holding and positioning reinforcement in buildings, non-metal casting forms for concrete, reinforcement plates, reinforcement bars, reinforcement rods, non-metal shutters shingles, siding, trim, non-woven textiles for use in construction, glass for building, carbon fibres for building, aramid fibres for building, synthetic fibres for building; filling cement for the repair of concrete; concrete; asphalt; lime; pitch; bitumen; aggregates, namely, sand, gravel, crushed stones, slag, recycled concrete; floor, wall and roof tiles made of ceramic, made of cement, made of clay, made of plastic, made of wood, made of glass, made of natural stone; paving stones, non-metallic paving blocks; building stone; bricks; silos; storage tanks of masonry, storage tanks of concrete, water tanks of masonry, water tanks of concrete; parts and fittings for building and construction materials not of metal, namely, grout, mortars, reinforcing materials for use in construction, concrete sandwich wall panels, composite connectors and fasteners, block construction systems sold as a unit for use in construction with concrete blocks and panels, construction elements, dowels, non-metal hooks, non-metal ties and anchors, non-metal profiles for inserting into reinforced concrete, formwork tables for concrete, liners for concrete forms, non-metallic rigid tubing, pre-cast concrete wall forms, materials for use in the manufacture of concrete and concrete components, non-metallic splices, non-metallic joint connectors, woven fabrics for concrete, geotextile materials for use in construction, moulds, preparations for protecting concrete, mortars for the repair of concrete, non-metal profiles for holding and positioning reinforcement in buildings, non-metal casting forms for concrete, reinforcement plates, reinforcement bars, reinforcement rods, non-metal shutters shingles, siding, trim, non-woven textiles for use in construction, glass for building, carbon fibres for building, aramid fibres for building, synthetic fibres for building, filling cement for the repair of concrete, concrete, asphalt, lime, pitch, bitumen, aggregates, namely, sand, gravel, crushed stones, slag, recycled concrete, paving stones, non-metallic paving blocks, building stone, bricks, silos, storage tanks of masonry, storage tanks of concrete, water tanks of masonry and water tanks of concrete; parts and fittings for building and construction materials not of metal, namely, floor, wall and roof tiles made of ceramic, made of cement, made of clay, made of plastic, made of wood, made of glass, made of natural stone

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The colors gold, brown, orange and white are claimed as a feature of the mark. The mark consists of the representation of an Arab male figure appearing with gold skin and brown colored hair, glasses and facial hair. The inside of the glasses are comprised of brown circular lines. The male figure is wearing Arab styled headwear or Keffiyeh the background of which is white, with brown crisscrossed lines and a brown and gold band at the top. The entire figure and headwear is surrounded by a gold line. Beneath the figure are the words 'PaPa Kanafa' which appears in the color white and is outlined in the colors orange and gold. Appearing on the bottom of the design is the Arabic equivalent to PaPa Kanafa appearing in the color brown and outlined in the colors white and gold.

### Foreign Character Translation

The translation provided by the applicant of the Arabic words is 'PAPA KANAFa' and this has no meaning in a foreign language. Individually, PAPA means dad and KANAFa is the name of the oriental confectionary in English.

### Foreign Character Transliteration

The transliteration provided by the applicant of the Arabic character(s) is 'PAPA KANAFÁ'.

### Certification Mark Standard

The CosmEthically ACTIVE certification is intended for cosmetic brands. According to detailed description and standards of the Technical document (Annex), the CosmEthically ACTIVE certification has the following general criteria: 1. A cosmetic product must meet the certifier's protocols, including application for certification, review and evaluation of the product's qualitative and quantitative composition, and compliance with the certifier's rules on the use of the CosmEthically ACTIVE certification mark. 2. A cosmetic product must meet the certifier's standards to prove that a) the product contains ingredients of plant and mineral origin, but not of animal origin; b) the product does not contain ingredients that are not allowed, as specified in the certifier's Technical document; c) the product was not tested on animals; d) the product's composition supports physiological functions of the skin/hair; and e) the cosmetically active ingredients used for the product's marketing claims are present in concentrations that are backed by scientific studies. 3. The certifier shall exercise regular control over the use of the CosmEthically ACTIVE certification mark. For this purpose, the product's presentation is verified

with the aim of identifying and preventing misleading advertising. 4. Re-evaluation of a cosmetic product (according to point 1) is performed every two years to ensure the product continues to maintain the accreditation to use the CosmEthically ACTIVE certification mark
