## Vol. 68 No. 3482

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Standard Characters

**Goods****Class 03**

(1) Cosmetic soaps; Essential oils for personal use, cosmetics, hair lotions; Dentifrices: Shower gels; Shampoos; Body deodorants; Lipstick; Lip gloss; Lip pomades; Mascara; Nail polish; Body cleaning and beauty care preparations, namely body lotions

**Class 05**

(2) Dietetic food and substances adapted for medical and veterinary use, namely pasta and crackers, food for babies; medical plasters, medical dressings, namely gauze, bandages and pledgets; Disinfectant soaps and gels; Deodorants for clothing and textiles

**Class 06**

(3) Decorative boxes of metal; tin boxes

**Class 08**

(4) Food preparation implements, namely mandolins for cutting food, embossers for cakes and breads, kitchen knives and cutlery; Cutlery for use by children and babies; Hair cutting and removal implements, namely electric hair cutters; Manicure and pedicure tools, namely nail files and clippers, tweezers for decorating nails; Tableware, namely knives, forks and spoons

**Class 09**

(5) Pre-recorded magnetic data carriers and pre-recorded discs, namely DVDs, digital audio tapes and video cassettes and optical discs featuring children's cartoons, motion picture films; Compact discs featuring music, fairy tales, DVDs featuring music, fairy tales and other digital recording media, namely digital audio tapes featuring music, fairy tales; USB flash drives; Cell phone straps and strings; Cases adapted for mobile phones; Electronic books and periodicals; Computer application software in the form of apps, namely computer games for use on mobile and cellular phones; Audio recording machines, namely audio tape recorders, audio cassette recorders, CD

recorders; Set of measuring spoons; Instructional and teaching material in the field of mathematics, languages, reading and writing, namely computers, educational software for children, video transmitter, television set; Stationery, namely measuring rulers

#### **Class 14**

(6) Jewellery, precious stones; Paste jewellery; Watches; Key fobs of precious metals; Precious metals and their alloys and goods in precious metals and coated therewith, namely key rings, key holders; Decorative boxes made of precious metal

#### **Class 16**

(7) Paper, cardboard; Paper bags; Paper packaging, namely bags and containers; Printed matter, namely children's activity books; Newspapers; Periodicals; Photographs; Stationery, namely writing and drawing instruments, namely pastels, charcoal pencils, artists' pencils, colour pencils, drawing pens, drawing compasses, protractors and t-squares, pens, pencils, pencil sharpeners, erasers, drawing rulers, thumbtacks, paper clips, paper fasteners; Adhesives for stationery and household purposes; Artists' materials, namely molds for modelling clay; Paint brushes; Typewriters and office requisites, namely paper embossers and ink stamps; Instructional and teaching material in the field of mathematics, languages, reading and writing, namely manuals, black boards; Plastic materials for packaging, namely plastic bags; Notepads; Notebooks; Almanacs; Books; Colouring books; Pottering books; Boxes for pens; Pencil sharpeners; Stickers (decalcomanias); Felt pens; Crayons; Rubbers, namely rubber erasers; Paint boxes (articles for use in school); Writing slates; Removable self-stick notes; Self-adhesive tapes for office and stationery use; Packing paper, namely gift wrap; Handkerchiefs of paper; Postcards; Bookmarkers; Albums namely for photographs and bookmarks; Boxes of cardboard or paper; Stationery cases; Writing cases (sets), namely desk sets; Table napkins of paper; Coasters of paper

#### **Class 18**

(8) Leather and imitations of leather; Trunks and travelling bags; Bags, namely carry-all bags; Leather bags; Rucksacks; Wallets; Coin purses; Purses of precious metal; Umbrellas and parasols; Walking sticks; Whips, harness and saddlery

#### **Class 19**

(9) Decorative boxes made of precious stones

#### **Class 20**

(10) Furniture, namely bedroom, bathroom, living room, children's room, kitchen and office furniture, mirrors, namely living room and bedroom mirrors, picture frames; Furniture for children, namely beds, chests, mirrors, chairs, desks; Book rests and library shelves; Beds, bedding, namely mattresses, pillows and cushions; Display boards, Moses baskets, picture frames, caskets and mirrors all made of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum and plastic; Decorative boxes made of precious wood; Food chests, namely cupboards to stack non-perishable food

#### **Class 21**

(11) Goods in precious metals and coated therewith, namely bowls; Lunch boxes; Lunch boxes in metal; Household or kitchen utensils, namely spatulas; Cookware; Mugs, cooking pots, bowls, plates, dishes; Plastic and porcelain bottles, plastic and porcelain coasters; Tableware of glass, namely drinking glass, cookware; Serving trays; Insulating flasks; Hair combs and toilet sponges; Dishwashing brushes and vegetable brushes; Towel hangers

#### **Class 24**

(12) Textiles and textile goods, namely bed linen and blankets; Fabrics, namely cotton, tricot, fleece and terry fabrics; Hand towels; Table covers; Table linen; Bed covers; Bed clothes, namely sheet sets and linen; Pillowcases, bed covers, sleeping bag liners; Flags made of textile; Curtains; Bedding, namely bed linen

### **Class 25**

(13) Clothing, namely shirts, sweaters, t-shirts, body suits for babies and small children, dresses, pants, leggings, shorts, skirts, tights, nightdress and pyjamas, headgear, namely visor caps; Playsuits (clothing); Clothing for children; Underwear; Outer clothing, namely coats, jackets, rainwear, overalls, shell trousers; Clothing for gymnastics; Ties, namely neck ties and bow ties, ascots, scarves, shawls; Gloves; Swimming costumes, socks; Shoes; Boots, slippers, sandals, hats, caps; Costumes being children's playthings, namely fictional character costumes

### **Class 28**

(14) Games and playthings, namely memory games, party games, toy music boxes and doll's prams; Playing cards; Gymnastic and sporting articles, namely baseball bats, jump ropes, croquet and bowling balls and bowling pins; Decorations for Christmas trees; Puzzles; Dolls' houses; Dolls; Clothing for dolls; Soft toys in the form of animals or figures; Clothing for playthings; Toys made of wood, namely building blocks and toy furniture; Toys made of plastic, namely toy hoops; Toys sold in kit form, namely scale models; Fabric toys, namely stuffed animals and dolls

### **Class 30**

(15) Bread, pastry and confectionery, namely pastilles, bread, buns, pies, cake, cookies and chocolate coins and bars; Candy; Edible ices; Sugar, honey, treacle; Cereals, namely breakfast cereals; Drinking chocolate, namely non-alcoholic chocolate based beverages

### **Class 32**

(16) Mineral and aerated waters and other non-alcoholic beverages, namely soft drinks; Fruit beverages and fruit juices; Syrups, extracts, concentrates and powder for making beverages, namely fruit juices and soft drinks; Lemonade

## **Services**

### **Class 41**

Education in the field of mathematics, languages, reading, writing, acting, singing and dancing; Providing training in the field of mathematics, languages, reading, writing, acting, singing and dancing; Entertainment, namely live theatre productions and musicals; Sporting and cultural activities, namely arranging of competitions and exhibitions featuring literacy training, art events and photo events for children; Amusement park services; Pleasure-ground services, namely providing indoor and outdoor amusement parks; Entertainment services in the form of live music concert performances; Production of television programs and films; Rental of film, video and music recording (CDs) and television programs and television shows; Production of music, namely songs, soundtracks to films, music to live performances and television jingles; Music publishing services; Television entertainment, namely ongoing television program in the field of children's cartoons and movies; Presentation of live performances, namely music, singing, public reading, theatre, puppet theatre and dancing; Publishing of printed matter in print form and electronic form, namely on the Internet, in particular of calendars, post cards, books, magazines and audio books; Providing online electronic publications (not downloadable), namely books and periodicals in the field of fairy tales and stories; Publication of electronic books, periodicals, catalogues, guides and magazines and periodic publications on-line

### Goods

#### Class 01

(1) Chemical motor oil additives for electric engine motors and their components; fire extinguisher chemicals.

#### Class 03

(2) Engine degreasers for electric motors and their components; windshield and headlight cleaning systems, namely, windshield washing fluid.

#### Class 04

(3) Electric engine motors, and their components namely motor oil.

#### Class 06

(4) Common metals and their alloys; materials of metal for use in the automotive industry, namely for the manufacture of automobile bodies and automobile; metal building materials for railway tracks; non-electric metal cables, namely, audio/video cables, coaxial cables, computer cables, fibre optic cables, telephone cables, battery cables, non-electric metal wire namely guy wire, wire fencing, steel wire, wire mesh, wire rope; ironmongery and small items of metal hardware, namely, door handles, locks, hinges; metal pipes for liquid and gas transfer, and flexible metal tubing and pipes for conveying gas, flexible tubing and metal pipes for solar and heating installations; metal hose connectors for pipes; metal pipe connectors; metal hose fittings; pipe couplings of metal; metal pipes and tubes for ventilation and air-conditioning systems; metal molds used in pressure casting.

#### Class 07

(5) Machines for processing metal, namely, for the manufacture, repair and disassembly of vehicles namely milling, mixing, grinding and drilling machines; machines for processing rubber, namely, milling, mixing, grinding and drilling machines, hydraulic rubber presses, tire building machines, tire presses, kneaders for kneading rubber and rubber mixtures, extruder, calenders for processing rubber mixtures, vulcanization devices namely machines, presses and control elements for vulcanizing rubber; machines for processing plastics, namely, mixing machines,

milling machines, grinding machines, drilling machines, calenders and extruders for processing plastic; machines used for the chemical industry, namely, mixing machines, calenders and extruders for processing rubber mixtures; machines used for the agriculture industry, namely, cultivator, plow, harrow, seeder, planter, fertilizer spreader, agricultural sprayers and spreaders, sprayer, baler, backhoe; machines used for the mining industry, namely, machines for use in underground mining, construction and tunneling; machine tools for the automotive industry; machine tools for the metalworking industry; printing machines, namely, embossing printing machines, printing presses, printing rollers; printing plates; machines used in the manufacture of printing plates; printing plates, not light-sensitive; casting molds used in industrial pressure casting; lithographic printing plates for printing machines; motors and engines, namely, engines and motors for industrial machines; components for motors and engines of all types, namely, electric engine motors and their components namely engine cylinders engine and motors for boats, for air cushion vehicles, for concrete mixers, for industrial machinery, motor and engines used in industrial applications, air filters, engine and motor mounts; electric starters for motors and engines; motor driven electric generators; master cylinders, namely, main cylinders for engines, motors and industrial machinery; electric engine motors for industrial machinery; pumps, namely, gas pumps, engine fuel pumps, pumps as parts of machines, motors and engines; engine actuators, namely, throttle valves, idle governors, linear actuators, air control valves, air flap actuators, exhaust gas recirculation valves, injection valves, injection nozzles for engines; engine fuel pumps, fuel injection lines; fuel injection systems for engines; spark plugs for combustion engines; glow plugs for diesel engines; air filters for engines; catalytic converters; turbochargers for motor vehicle engines; compressors for motor vehicles; industrial machines namely belt conveyors, conveyor belt systems, automotive workshop equipment, namely automotive hoists, machine tools for the automotive industry, automotive parking lifts, mechanical railed lifting conveyors; controlled adjusting devices for vehicle, namely, throttle valves, camshafts, electric car window closers; machine coupling and transmission components, namely, shift clutches for industrial machinery; machines, power transmission belts for industrial machinery, namely, V-belts, V-ribbed belts, variator belts, synchronous belts, rubbed belts, flat belts, timing belts for motors and engines used in industrial applications, lift belts as machine components for motors and engines, conveyor belts; machine components, namely, springs shock absorbers for machines, shock absorber pistons, vibration dampers; molded parts made from rubber and rubber-metal bondings for vibration control as machine parts, namely, vibration dampeners for industrial machinery; hydromounts, namely, buffers for land vehicles used as anti-vibrating mountings, torsional vibration dampers namely vibrations dampeners for motors and engines, actuators namely hydraulic jacks; valves as machine components for motor vehicles; conveyor belts, parts and accessories for conveyor belts, namely, tracks and belts; passenger conveyors; air compressor accessories, namely, spray guns, metal fittings, for water, oil, gas, paint; mechanical vehicle jacks; lawn mowers (machines); vending machines; flexible tubing and metal pipes, namely, automotive exhaust pipes for land vehicles; electrical and electrohydraulic power steering, namely, hydraulic cylinders and hydraulic jacks; mechanical rack and pinion jacks; window lift and window positioning systems for vehicles, namely, hydraulic and electric window openers; metal vehicle exhaust manifold; actuators, namely, hydraulic cylinders, pneumatic jacks, power jacks; ignition coils; valves being parts of machines; apparatus for drying, namely fans for motors and engines; apparatus for blowing, ventilation and air conditioning, namely, fans for motors and engine except for aerospace vehicle engine; attachments for water supply equipment for adjusting and changing the water flow volume, namely, namely circulating pump; drive belts, transmission belts, namely, conveyor belts; printing materials, namely, presses, plates, rollers; engine compartment seals; shaft couplings and adapters for use in land and sea vehicle exhausts.

**Class 09**

(6) Electric control and regulating systems, namely, their processors and sensors for the steering and controlling of vehicles, for improved driving safety by alerting when crossing the road lines, driving stability with cruising control, and cushioning and noise comfort by adapting music and oral direction indications for the comfort of the driver; electric control and regulating systems namely their processors and sensors for regulation and control of brakes, accelerator pedals, transmissions, chassis and suspensions and fuel emissions; voltage regulators for vehicles; automatic control systems for vehicles, namely, automatic parking assistance systems consisting of motion sensors, proximity sensors, automatic steering gears to assist the driver in parking the vehicle, assistance with starting and adherence to a safe following distance, namely, cruise controls for motor vehicles, parking pilot for remote parking of vehicles, automated driver (highway chauffeur and highway pilot) for steering, lane change, acceleration, braking and monitoring namely electronic control systems for automobile brakes, sensors for determining acceleration; ammeters, voltmeters, ohmmeters, manometers, infrared thermometers for checking electrical equipment, tachometers; directional compasses, acidimeters, water level indicators, thermostats; motor vehicle engine management instruments to manage engine performance, namely, electronic controls for motion failure detectors, voltage regulators for vehicles, idle speed control device to manage speed in motor vehicles namely electronic speed controllers; data management and data processing instruments used in motor vehicles to help retrieve and process engine data, engine performance and other data generated by the automated vehicle functions, namely, data event recorder for motor vehicles, mileage recorders for vehicles; measuring, warning and display devices, namely, automatic indicators of low pressure in tires, testers for axle clearance, distance sensors, digital torque gauges, oil level indicators for vehicles, fuel level indicators for vehicles, water level indicators, oil level indicators, liquid level sensors, electronic warning bells, electrical control systems for heating and air conditioning systems, pressure sensors, automatic altitude indicators, global positioning system (GPS) receivers, coolant-temperature sensors, temperature gauges, wind-direction indicators; distance warning and controlling instruments comprised of warning signals in the form of lights and sounds, visual and audio distance sensors, namely, vehicle breakdown warning lights, electronic warning bells, vehicle driver focus warning lights, radars comprised primarily of speed and distance detection radars, obstacle detection sensors, modules for projecting visible and infrared light namely laser diode modules; radar detectors, radar receivers, radar transmitters, video cameras, laser lights, namely, laser altimeters, laser speed detectors, laser rangefinders; assistance systems for parking, reversing and blind spot detection comprised of visual and audio distance sensors, obstacle sensors, parking space size sensors; pre-collision detection and collision avoidance systems comprised of visual and audio distance sensors, sensors for detection of drivers side blind spots; optical, acoustic and haptic drowsiness devices, namely, driver fatigue alarms, warning lights, vibrating steering wheels; speed warning devices, namely, speedometers, speed sensors, warning lights, alarm sounds; tire pressure gauge, tire inflating equipment comprised of air compressors, pressure gauges, pressure relief valves, pressure sensors, computerized air pumps; service indicator, namely, vehicle service indicators which indicate that vehicle requires servicing; wear indicator, namely, indicators which indicate that vehicle brake pads or tires are in need of replacement; consumption measurement instruments to measure vehicle utilization of electricity, fuel, oil and air, namely, dynamometers, flow meters, fuel gauges, oil level sensors; maintenance indicator, namely, vehicle maintenance indicators which indicate that vehicle requires maintenance; workshop test equipment and vehicle diagnostic apparatus for the operation, maintenance and repair of motor vehicles, namely, battery testers, brake fluid testers, coolant-temperature sensors, tire pressure sensors, wheel alignment indicators, light testers; time recording apparatus, namely, chronographs, time clocks, sensors for

recording time, vehicle tachographs; accident data recorder; apparatus and instruments for conducting electricity, namely, electrical conductors for electric motors, electronic conductors for fuel cells, electronic conductors for integrated circuits; apparatus and instruments for switching electricity, namely, electric switch plates; apparatus and instruments for converting electricity, namely, current converters, electrical converters; apparatus and instruments for storing electricity, namely, electric storage batteries and electric accumulators for storing energy and power; apparatus and instruments for regulating electricity, namely, frequency counter, electricity meter, wattmeter; apparatus and instruments for monitoring electricity, namely, multimeters for measuring voltage; electrical fuses, electrical relays, transponders, sensors, namely, liquid level sensors, pollutant sensors, pressure sensors, proximity sensors, temperature sensors, timing sensors; radar detectors, vehicle detectors sensors namely motion sensors, proximity sensors, velocity sensors; pressure switches; electronic brake controllers and parts thereof; brake fluid tester; diagnostic apparatus [not for medical purposes], namely, apparatus for use in diagnostic testing and live data retrieval for computerized automobile systems; monitoring and diagnostic systems for vehicle engines and drive systems, namely, car diagnostic analysers for motor vehicles comprised of CPU unit, software, screens, cables, connectors, probes and sensors; warning lamps for vehicles; lasers, namely, vehicle sensors, video cameras, laser lights (not for medical purposes), and parts therefore for detecting speed, distance, proximity, positioning; electric batteries for industrial machines and motor vehicles, and their components; fuel cells and their components, chargers for electric batteries, namely, battery chargers for motor vehicles; alarm equipment, namely, engine immobilizers, radio-controlled lock systems namely radio transmitters and receivers for remote controls, remote control systems for door locking of vehicles, electronic access control systems for interlocking doors; burglar alarms; electric opening and closing devices for motor vehicles, namely, electronic door closing and opening systems; central locking systems, namely, remote power door locks and remote for luggage compartment; electronic immobilizers for motor vehicles; remote control for operating vehicle locking door systems, remote control devices for diagnosis apparatus consisting of smart card readers, remote monitoring computer designed for vehicles to consult recorded data and to run vehicle diagnostics remotely; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices for navigation, route and trip planning, and electronic mapping; data processing devices, namely, computers, laptops, tablets; computers namely electronic calendar, fax machines, monitors; computer I/O devices namely keyboard, mouse, monitors, printers, modems, joysticks, scanners, digital cameras, video cameras, microphones, headphones, headset, speakers; calculators; saved computer programs and software for assisting drivers with control of motor vehicles for improving driver safety, direction stability namely electronic stabilization program, breaking system namely anti-lock brake system, and driving comfort namely navigation systems, automatic driver assistance, automatic parking assistance, braking assistance, assistance with starting and adherence to a safe following distance, parking pilot, automated driver (highway chauffeur and highway pilot) for steering, lane change, acceleration, braking and monitoring speed performance, position, travel time, engine performance, fuel and oil consumption and the performance of a motor vehicle's onboard computer; saved computer programs and software for commercial logistics and vehicle fleet management, namely, monitoring mileage, fuel use, engine diagnostic codes, GPS tracking, route planning; electrical, electronic, opto-electronic and mechanical analog and digital display devices and instruments for motor vehicles, namely, speedometer, fuel indicator, vehicle breakdown warning lamps and indicator lights for vehicles, odometer, trip odometer, tachometer, automotive navigation systems in the form of on-board computers; display equipment, namely, computer display screens; display panels, namely, digital signage display panels, electroluminescent display panels and display boards, liquid crystal display panels, projection screens, flat panel display screens, video screens and monitors; touch

screen monitors; devices for recording, receiving, transmitting and reproducing analog and/or digital signals, as well as images and sound, namely, antennas namely car antennas and antennas for radio, radios, televisions, telephones including video telephones; hands-free equipment for telephones namely headphones, microphones, earphones, speakers and wireless audio signal transmitters; rescue equipment, namely life rafts, rescue ladders, rescue nets, rescue tarpaulins, life belts, life buoys, life jackets, fire extinguishing equipment namely fire extinguisher, fire protective clothing; contact lenses, eyeglasses, eye glasses cases, binoculars, magnifying glasses, sunglasses, hazard warning triangles for vehicles; television projectors, video projectors, liquid crystal display (LCD) projectors; film cameras, cameras, photocopiers, electronic pocket translators; magnetic, electronic and optical recording media, namely, blank magnetic discs, cards with integrated circuitry namely blank smart cards, blank CD-ROMs for sound and video recording, blank hard discs, identification cards with embedded chips, plastic key with circuitry for motor vehicles; telephone smart cards, mechanisms for coin-operated apparatus, namely, automatic cash dispensers, cash registers, computing machines namely computer, calculator; photovoltaic elements namely solar panels for the production of electricity, solar batteries; photocells, namely, standard light beam switches, single-path light beam switches, reflection light beam switches, reflection light beam switches with polarization filter, light scanners, reflection light scanners, reflection light scanners with background suppression; presence monitoring devices for vehicles consisting of monitoring circuits, pressure sensors, alarms and warning lights for use in identifying the presence of an individual; electric and hydraulic controllers for all electric and hydraulic related functions in vehicles and industrial machines, namely, electrical controllers for diesel engines; combination display instruments for automobile dashboards, namely, digital signage and 3D display panels; control unit for motors and engines vehicles, namely, electrical engines control systems and electrical motor control system that monitors engine performance; control units for machines, namely, electrical control systems for engines and motors; apparatus for lighting namely lighting control panels, fuses for lighting control panels; electrical control systems for heating and air conditioning systems; attachments for water supply equipment for adjusting and changing the water flow volume, namely, electrical industrial booster regulator for monitoring water flux; instrument panels, namely, digital signage display panels, electroluminescent display panels and boards; center consoles, consisting of temperature controls, vehicle audio controls, air conditioning controls, heating controls, seat heater controls; sleeves and sheaths for electric cables (not made of metal); helmets namely protective helmets for sports, helmets for motorcyclists, crash helmets; flexible pipes (not made from metal), namely, fire hoses.

### **Class 11**

(7) Lighting fixtures; apparatus for heating, namely, heating radiators, heating elements, solar heating panels, heating apparatus for defrosting windows of vehicles; cooking apparatus, namely, microwave, cooking steamer, cooking grills, electric stove, conventional ovens, cook tops; apparatus for refrigeration namely refrigerators, freezers; apparatus for drying, namely, clothes dryer; apparatus for blowing, ventilation and air conditioning, namely, ventilating fans, kitchen exhaust fans; apparatus for blowing, ventilation and air conditioning, namely, ventilating fans, kitchen exhaust fans, air conditioning installations for cars; water supply apparatus, namely, water coolers; attachments for water supply equipment for adjusting and changing the water flow volume, namely flexible pipes and tubes being parts of hot water boilers, being parts of water heaters; heating and air-conditioning systems for vehicles; fans and ventilation modules for vehicles, namely, air impellers for ventilation, fans for air conditioning units; heating, cooling, air-conditioning and ventilation systems in vehicles; vehicle headlights; vehicle tail lamps; dashboard ventilation air deflectors (covers) and air lines, namely, air conditioning installations for cars, air diffusers; photovoltaic elements namely solar heating panels and solar collectors.

**Class 12**

(8) Vehicles for transportation on land, air and water namely buses, trains, motorcycles, trucks, tractors, vans, boats, ships, and their structural parts; motor vehicle engines; land vehicle cockpits, namely, vehicle chassis, motor car seat; center consoles, consisting of cup holders, hazard light buttons, gearsticks; tires, inner tubes for tires, wheels for motor vehicles, wheel rims for motor vehicles, treads for the retreading of tires, hub caps, rim strips, materials and kits for repairing tires and inner tubes, namely, motorcycle grip tape, adhesive rubber patches for repairing tubes or tires, repair outfits for inner tubes; valves for vehicle tires; chassis for motor vehicles; suspension systems for motor vehicles; electronic, hydraulic, electromechanical, electrohydraulic and mechanical brakes for vehicles, and their parts; brake cylinders, brake pads, brake calipers, brake disks, brake linings, brake hoses; regulated and unregulated electromechanical and electrohydraulic steering systems and their components, namely, hydraulic circuits for vehicles, hydraulic cylinders, hydraulic jacks, steering columns connecting the steering wheel to the steering mechanism, steering wheels; electric drive shafts for vehicles; safety equipment for motor vehicles, namely, airbags, safety belt tensioners and their constitutive parts; shaft couplings and transmission mechanism, namely, shift clutches for land vehicles; active and passive, regulated and unregulated shock absorbing dampers and shock absorbing springs for vehicles, wheels and their parts, namely, shock absorbing springs for vehicles, air springs for vehicle suspension components for cushioning driver's seats and cabs; air supply units for air spring systems comprised of air pumps and compressors, used for shock absorption and vibration damping in land vehicles; shock absorbers and suspension struts for vehicles; shock absorber springs for vehicles, suspension springs for vehicles; vibration dampers and torsional vibration dampers (except as components of land vehicle engines) for vehicles, vehicle engines; steering apparatus, namely, steering wheels and steering columns; vehicle cabins, namely, automobile bodies, vehicle chassis and driver seats; hydromounts as vehicle components, namely, buffers for land vehicles used as anti-vibrating mountings; axles and axle modules, axle bellows, axle boots and flat, bead, plate and roll diaphragms for motor vehicles; drive belts, transmission belts, namely, drive belts, transmission belts, V-belts, V-ribbed belts, variator belts, timing belts, synchronous belts, rubbed belts, double-sided timing belts, flat belts, lift belts, all for land and sea vehicles; vehicle interiors lining; airbag covers; paneling for dashboards; interior upholstery for vehicles; motor vehicle seats; cigarette lighters for automobiles; cockpit cross beams, namely, car cross beam; driver cockpits, and driver cabins namely driver's seat, car dashboard; ventilation nozzles, namely, motor vehicle hood scoops; nozzles for windshield washing fluid, nozzles for headlight washing fluid, windshield wiper blades, windshield wiper arms, headlight wiper blades and headlight wiper arms for motor vehicles as well as the associated containers, nozzles hoses, hose couplings, pumps, heaters and valves; nozzles for windshield washing fluid, nozzles for headlight washing fluid, windshield wiper blades, windshield wiper arms, headlight wiper blades and headlight wiper arms; controllers and drives for convertible soft tops, sliding roofs and sun protection devices, namely, vehicle sun shields and visors for motor vehicles; rubber or plastic concertina walls for trains and articulated buses; controlled adjusting devices for vehicle, namely, side view mirrors for vehicles; automated driver (highway chauffeur and highway pilot) for steering, lane change, acceleration, braking and monitoring namely self-driving cars; electrical and electrohydraulic power steering, namely, electric drives for vehicles; measuring, warning and display devices, namely, turn signals for vehicles; machines used for the agriculture industry, namely, tractor; controlled adjusting devices for vehicle, namely, rearview and side view mirrors for vehicles, sliding roofs for vehicles; transmission belts for land vehicles; engine mounts for land vehicles; braking assistance consisting of emergency braking systems for motor vehicles and parts thereof; anti-theft alarms for vehicles; fuel tank systems for motor vehicles, namely fuel tanks and level controlling valves in tanks; convertible soft

tops for vehicles; plastic sheeting, namely, vehicle roof protective liners; rubber treads for retreading tires; shift clutches for motor vehicles; mountings, namely, engine metal mounts, transmission metal mounts, exhaust metal mounts, gearbox metal mountings, metal axle mounts, shock absorber metal mounts; pumps, namely, air pumps for automobiles.

### **Class 16**

(9) Paper, cardboard; bookbinding material; photographs; stationery, namely, writing stationery, binders, erasers, file folders, guest books, labels, note pads, organizers, pens, and staplers; adhesives for stationery and household purposes; artists materials, namely, paint brushes, artists palettes, modeling clay, easels; typewriters; instructional and teaching material, namely, textbooks, specialist books, magazines, repair and user instructions on automotive parts and industrial machines; plastic materials for packaging, namely, plastic bags, plastic film; printers' type; printing blocks; printing fonts; non-textile printing blankets and their components; atlases, calendars, geographic maps; ball pens and pencils; business and bookkeeping forms, tachograph paper print rolls and paper and plastic diagram rolls and charts for use in tachographs.

### **Class 17**

(10) Natural rubber; gutta-percha, asbestos, mica; sealing, packing and insulation materials, namely, rubber sheets and films, plastic sheets and films for general industrial and manufacturing use; flexible pipes (not made from metal), namely, hoses made of plastic and rubber namely compressed air hoses, hoses of plastic and rubber for the transportation of beverages, liquid foodstuff and liquid pharmaceuticals and liquid chemicals, plastic and rubber hoses for the transportation of oil, plastic and rubber hoses for the transportation of gas, plastic hoses for the transportation of concrete, water hoses for use in the garden, water hoses for use in industrial pressure washers, plastic and rubber hoses for the transfer of sand, gravel, slurries, industrial water, plastic and rubber wastewater hoses, plastic and rubber cooling water hose, cable protection hoses, hydraulic hoses of plastic and rubber, fuel oil hoses of plastic and rubber, plastic and rubber conveyor hoses, rubber hose for dry ice, truck air brake hoses; flexible pipe connections (not made of metal), namely, connecting hoses for vehicle radiators, hoses for air conditioners; pipeline expansion joints (compensator) made of rubber for absorbing shocks; pipeline expansion joints (compensator) made of rubber for absorbing shocks, vibrations and expansion, pipeline expansion joints (compensator) made of rubber for noise isolation; pipeline expansion joints (compensator) made of rubber for reducing tension; pipeline expansion joints (compensator) made of rubber for compensating misalignments in pipeline installations; seals made of rubber and plastic used for sealing lines, pipes and hoses; sealing sleeves, sealing rings, insulating water proofing membranes made of plastic and rubber, membranes as fences made of plastic and rubber to avoid gas and oil leak; natural rubber (liquid); sub-ballast mats made from rubber and rubber substitutes for vibration and shock damping in track construction; oil-absorbent floor mats made of rubber; rubber clack valves; rubber valves for vehicle tires, rubber valves for industrial machinery, rubber valves for motor vehicle engines; door, window; rubber and plastic upholstery for vehicles; plastic sheeting, namely, sheeting for sealing and insulating purposes, pond protective liners to avoid water leak; folding bellows made from rubber and plastic for articulated buses, for rail cars, for airport boarding bridges and folding bellows being concertina walls made from rubber and plastic for airport passenger bridges; industrial hose and pipe systems, namely, flexible plastic hoses for use with ventilation systems, rubber and plastic hoses for air conditioners, flexible plastic and rubber hoses for fuel system lubrication and cooling circuit of passenger car powertrains and of turbochargers for internal combustion engines; cooling, heating, brake, fuel, charge air, and oil hoses, namely, flexible, plastic and textile material steam hoses, compressed air hoses, air hoses, rubber and plastic hoses for the oil and gas industry, connecting hose for vehicle radiators, hoses for air conditioners, truck air brake hoses, cooling

water hose, brake hoses, hydraulic hoses as vehicle components and their parts; plastic materials for packaging, namely, plastic pellets.

#### **Class 19**

(11) Flexible pipes (not made from metal), namely, drain pipes not of metal.

#### **Class 21**

(12) Apparatus for sanitary purposes namely hand sanitizer dispensers, soap dispensers, toilet paper dispensers.

#### **Class 24**

(13) Cloth for clothing purposes, namely, nylon fabric, silk fabric, cotton fabric, polyester fabric, rayon fabric, velvet fabric, woolen fabric.

#### **Class 25**

(14) Clothing, namely, trousers, T-shirts, polo shirts, coats, jackets, overalls, gloves (clothing), ties, scarves; footwear, namely, shoes; athletic footwear, casual footwear, sports footwear, football footwear; heels, soles for footwear; headgear, namely, caps, baseball caps, softball caps, hats, bonnets, headbands; ties, scarves.

computer software for use in sharing and transmission of operational data and information between networked devices, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for the purposes of facilitating home and environmental monitoring, control, and automation; intercommunication apparatus, namely wireless radio transmitters and receivers; intercommunication apparatus, namely, computer hardware and software to communicate, control, check the status of security alarm systems, automated environmental systems, networked kitchen appliances, electronic doorbells, and cameras in homes, offices, and other buildings; electronic controllers for home automation, namely electronic controllers for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; stand-alone voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; anti-intrusion and anti-theft warning apparatus and devices, namely, electronic sensors used with theft alarms; photographic apparatus and instruments, namely, cameras, video cameras, cases adapted for photographic equipment, and camera mounts; optical apparatus and instruments, namely, optical profiles, optical scanners, and optical sensors; computer hardware and software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing digital images, live audio feeds, audio clips, live video feeds, video clips and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; wireless communication devices for voice, data, or image transmission, namely video cameras, and audio speakers; electronic voice and radio transmitters and receivers; electronic locks; motion sensors; alarm sensors for detecting motion, temperature, air quality and ambient light; fire and smoke detectors, motion detectors, carbon monoxide detectors; audio speakers; video monitors; security cameras; video cameras for monitoring the interior and exterior of residences and commercial buildings, and wireless controllers for remote monitoring, control, and automation of home devices and systems, namely, household appliances, lighting systems, HVAC systems, thermostats, security systems, cameras, garage door openers, electronic locks, electric gates, home theatre surround sound systems, stereos, televisions, computer hardware for video streaming and recording, video cameras, DVD recorders, audio speakers, computers, laptop computers, tablet computers, wearable activity trackers, smart watches, and irrigation systems; video streaming devices, namely computer hardware for streaming videos; video recording devices, namely video cameras, DVD recorders, and portable computer hardware; video receivers; cameras; webcams; apparatus and devices providing night vision, namely, night vision sensors and night vision cameras; alarm system and camera mounts and stands; environmental hazard detectors, namely, devices that detect and record the presence of water, humidity levels, heat, temperature, movement, motion, and sound; closed circuit televisions and cameras; security lights; pet and baby monitors; video monitors for pets; parts, fittings and accessories for all the aforesaid goods, namely, cases adapted for cameras, mounts for cameras, and screwdrivers specifically designed for installing electronic doorbells; security software; computer software and software applications for mobile phones, tablets, and desktop computers, namely software for use in monitoring home security systems, for use in general storage of electronic data, and for controlling home devices and systems, namely, lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers; software and software applications permitting users to identify and communicate with persons at their door; software development kits

(SDKs) consisting of computer software for the development, use, and interoperability of application programming interfaces (APIs) that are used by third party electronic devices for home and environmental monitoring, control, and automation, and electrical control systems that exchange information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers, via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to internet connected consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, personal digital voice recorders, MP3 players and recorders, MP4 players and recorders, smart audio speakers, DVD players and recorders, portable computer hardware, game consoles, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, light bulbs, and consumer appliances, namely, air conditioners, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to theft-prevention and security systems, and home and business surveillance systems; voice command and recognition software; computer software used for controlling stand-alone voice controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; computer software for remote monitoring and analysis of home security and home devices and systems, namely household appliances, lighting systems, HVAC systems, thermostats, security systems, cameras, garage door openers, electronic locks, electric gates, home theatre surround sound systems, stereos, televisions, computer hardware for video streaming and recording, video cameras, DVD recorders, audio speakers, computers, laptop computers, tablet computers, wearable activity trackers, smart watches, and irrigation systems; electronic control systems for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; software for monitoring and controlling communication between computers and automated machine systems, namely lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; global positioning navigation software for use with smart, autonomous vehicles and mobile machines, namely construction

machines, agricultural machines, and forestry machines, and for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for home and environmental monitoring, control, and automation; software for use in tracking and monitoring position and range of smart, autonomous vehicles and mobile machines, namely construction machines, agricultural machines, and forestry machines, and for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for home and environmental monitoring, control, and automation; electronic systems, equipment and instruments, namely behavior engine software, positioning engine software, positioning sensors and dynamic intelligent software and sensors for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for use in home and environmental monitoring, control, and automation; automated self-contained electronic security surveillance carts specially adapted for audio-visual equipment that can be deployed to gather evidence or intelligence; wearable activity trackers; wearable cameras; wearable computers in the nature of smartwatches; wearable computers in the nature of smartglasses; wearable video display monitors; communications headsets for use with mobile phones, communication radios, intercom systems, or other communications network transceivers; light switches; lighting control panels; lighting systems, namely, led (light emitting diode) modules, power supplies and wiring; light diodes.

### **Class 11**

(2) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, electric lighting fixtures, air purifiers, electric fans, electric heating fans, ventilating exhaust fans, air filters for air conditioning units, air conditioning units, and tap water faucets; floodlights, spotlights, wall lights; light bulbs; LED light bulbs; lighting fixtures; lighting fixtures with motion detection; battery powered lighting fixtures; electric lighting fixtures, namely, power failure backup safety lighting; sconce lighting fixtures; lanterns for lighting; lighting apparatus, namely, security lighting fixtures, and outdoor lighting fixtures; ceiling lights; ceiling light fittings; electric night lights; LED (light emitting diodes) lighting fixtures for use in display, commercial, industrial, residential, and architectural accent lighting applications; LED lighting fixtures for indoor and outdoor lighting applications; lights for illuminating stairs, doors and other portions of buildings; portable battery-operated lights that can be placed on surfaces where other light sources are unavailable; portable utility lights; solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; spot lights; wall lights; fixtures for incandescent light bulbs; lighting fixtures for use in parking decks and garages; lighting fixtures for use in parking lots and walkways; electrical magnifying light fixtures; miniature light bulbs; lighting fixtures that integrate natural daylight and fluorescent lighting into the fixture; lighting for cabinets, pantries, work spaces, sheds, shelving units, and cupboards; electric lighting fixtures, namely, power failure backup safety lighting.

### **Services**

#### **Class 35**

(1) Online retail department store services; computerized database management; collection and compilation of statistics and information into computer databases in the field of home security, home monitoring, office and other facilities security, and criminal activity; database and file management; message transcription, namely compilation and transcription of video and audio

recordings for businesses; compilation and systemization of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers into computer databases; data searches in computerized files for others; subscriptions to telecommunications database services for others, namely arranging subscriptions to a database containing video clips and live views of surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; promoting consumer awareness of personal safety, home security and crime prevention; retail store services in the fields of consumer electronics, security and surveillance equipment, and audiovisual equipment; retail store services in the field of general consumer merchandise, namely retail department store services.

### **Class 38**

(2) Telecommunication services, namely internet access provider services; transmission of information by electronic communication networks, namely, transmission of information gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensor, air quality sensors, temperature sensors, microphones, and audio speakers by electronic communications networks; electronic transmission of data, namely audio, video and multimedia files gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers via computers and electronic communication networks; transmission of motion detection alert messages, person detection alert messages, voice, video, images, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers through a global communications network; communications via fiber optic networks and wireless broadband, namely providing Internet access via fiber optic broadband networks and wireless broadband networks; audio broadcasting services, namely broadcasting live audio feeds and audio clips over the Internet; video broadcasting services, namely broadcasting live video feeds and video clips over the Internet; data broadcasting services, namely broadcasting information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet; video communication services, namely electronic transmission of video clips from security and surveillance systems via the Internet; video telephone services; data communication services, namely electronic mail services; data streaming, namely streaming of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet; providing voice communication services over the Internet, namely voice over Internet Protocol [VoIP] services; consultancy and advisory services in the field of electronic transmission, broadcast, streaming and communication of audio, video, information and data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of

smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet.

#### **Class 41**

(3) Audio and video recording services; subscription video recording services; electronic library services for the supply of electronic information (including archive information) in the form of audio and/or video information; consultancy and advisory services relating to the aforesaid services.

#### **Class 42**

(4) Platform as a service (PAAS) featuring computer software platforms for use with home and environmental monitoring, control, and automation systems; software as a service (SAAS) services featuring computer software for use with home and environmental monitoring, control, and automation systems; application service provider featuring application programming interface (API) software for home and environmental monitoring, control, and automation; Platform as a service (PAAS) featuring computer software for use to electronically connect and control voice-activated speakers, computer hardware and software for controlling any network-enabled devices that are connected to home automation hubs via the internet, namely, wired and wireless controllers, and electrical control systems for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; Software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, namely, home automation hubs, wired and wireless controllers, and electrical control systems for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart security alarm systems, environmental systems, kitchen appliances, doorbells, cameras, audio speakers, and computer hardware with personal assistant capabilities; software as a service permitting users to identify and communicate with persons at their door; voice-activated software as a service, namely, non-downloadable software for stand-alone voice controlled information devices, namely cloud-connected and voice controlled smart audio speakers with virtual personal assistant capabilities; computer services, namely, providing an internet site featuring technology for use in home and environmental monitoring, control, and automation systems; computer services, namely, providing an internet portal featuring technology enabling users to remotely interact with home and environmental monitoring, control, and automation systems; providing online non-downloadable software for recording, viewing, storing, sharing and analyzing online audio and video gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing temporary use of on-line non-downloadable software for the management and transmission of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animal gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors temperature sensors, microphones, and audio speakers; design and development of computer hardware and software; hosting a website for the general storage of electronic data; monitoring of computer systems by remote access; monitoring of camera systems by remote access; installation, maintenance and repair of computer software; cloud recording and storage services, namely, providing cloud hosting provider services and providing temporary use of online non-downloadable cloud computing software for use in general storage of electronic data; cloud video recording services, namely, providing cloud hosting provider services; cloud computing

provider services for general storage of electronic media, namely, images, text, audio, and video data; providing an online non-downloadable internet-based application featuring technology enabling users to share videos gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing an online network environment that features technology that enables users to share live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing temporary use of online non-downloadable software for recording, viewing, storing, sharing, and analyzing live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; information technology support services, namely, help desk services and troubleshooting of computer hardware and software problems for consumers by means of a support hotline; provision of technical support services for software for computer systems; consultancy and advisory services in the fields of platform as a service (PAAS) services, software as a service (SAAS) services, application service provider services, and the provision of computer services, all with respect to home and environmental monitoring, control, and automation; consultancy and advisory services in the fields of platform as a service (PAAS) services, software as a service (SAAS) services, the provision of computer services, and the provision of on-line non-downloadable software, all with respect to the connection and control of smart and networked consumer electronic devices, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for the purposes of facilitating home and environmental monitoring, control, and automation; consultancy and advisory services in the field of design and development of computer hardware and software; consultancy and advisory services in the field of installation, maintenance and repair of computer software; consultancy and advisory services in the field of the provision of information technology support services, namely troubleshooting computer hardware and software problems; consultancy and advisory services in the field of the provision of technical support for software for computer systems.
