Trademarks Journal

Vol. 70 No. 3582

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

saw holders; manual adhesive extruding gun, namely, caulking guns, manually operated grease guns, manually operated quilt basting guns; spools, edge tools, grinding wheel; blades for mowers; bit drivers for hand tools; hand-powered tool accessories, namely, bits for hand tools; screwdriver bits for screwdriver; saw blades for compact circular saw; hand-operated guns for the extrusion of mastics; hand-operated lifting jacks; hand-operated lawn clippers; pruning knives; snow shovels; attachments for converting a wheelbarrow to a hand operated wheeled snow plow, namely, a non mechanical shovel attachment; non-metal tool stands; vices; combined vise and workbench; hand tools, namely, vices, metal vice jaws, and clamps; workbench accessories, namely, workbench attachments in the nature of tool holders, particularly, clamps, jaws and vices for holding logs and timber for sawing, carving, and cutting; workbench accessories, namely, workbench attachments in the nature of tool holders for holding chainsaw blades for sharpening; workbench accessories, namely, workbench attachments in the nature of tool holders, particularly, clamps, jaws and vices for clamping of work pieces; workbench accessories, namely, metal attachable tool holders in the nature of clamps, jaws, and vices for holding items to be welded; apparatus for clamping work pieces, namely, vice jaws of metal, clamps; woodworking clamp parts and fittings for work benches and bench vices; cutlery; side arms being knives, daggers; razors; router bits for manual routers; grinding wheels, abrasive wheels for angle grinder; sanding pads for hand-operated sanders; polishing irons being glazing tools ; sanding pads for hand-operated sanders and angle grinders, aforesaid goods sold as a unit

Class 09

(5) Batteries for power operated tools and power operated lawn and garden tools; battery chargers for use with power operated tools and power operated lawn and garden tools; mobile battery power supplies, namely, lithium ion batteries, battery boxes, battery packs for power tools, electrical storage batteries, electrical power distribution blocks, electrical power distribution blocks, modular power tool battery charger; power supplies namely, power banks for use with gardening and power tools; power banks for use with electrical appliances; power banks for use with high pressure washers, window cleaners, radios, speakers, portable media players, audio and video receivers; electrical storage batteries; battery chargers, namely, battery chargers for use with power tools and gardening tools; electric storage battery packs, battery connectors; battery chargers for use with high pressure washers, window cleaners, radios, speakers, portable media players, audio and video receivers; electric storage batteries for power and garden tools; battery chargers for use with power tools; battery chargers for use with power garden tools; battery chargers for use with robotic power gardening and agricultural equipment; battery chargers for use with robotic vacuum, floor and window cleaners electric power converters; inverters for power supplies; computer hardware, namely, wireless network repeaters; downloadable application software for mobile phones and computer software for power operated tools and power operated lawn and garden tool; remote control transmitters for power operated tools and power operated lawn and garden tools; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, laboratory scales and balances, scales with body mass analyses, laser measuring tapes, laser measuring machines for surveying, meters for measuring voltage, optical amplifiers, radio signal turners and radio receivers, security surveillance apparatus; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric coils, electric converters, electric current shunts, electric current switches, electric current control devices, power adaptors, electric sockets; apparatus for recording, transmission or reproduction of sound or images, namely, sound processors, sound projectors and amplifiers, image scanners, video phones, data loggers, speakers, radios; blank magnetic disks, blank digital recording discs; coin-operated mechanisms for vending machines; cash registers, calculators, data

processing computers and computer hardware; fire extinguishers; measuring instruments, namely, carpenter's levels, surveyors' levels, spirit levels, mercury levels, graduated rulers, tape measures, digital laser levels, laser altimeters, laser distance meters, detectors, metal detector detectors,,; temperature sensors; robotic humidity sensors; safety clothing for protection against accident or injury; electrically heated clothing for protection against accident or injury, namely, electrically heated coats, jackets, waistcoats, vests, and gloves, for protection against accident or injury; protective ear covering shields; protective work gloves

Class 11

(6) Portable utility lights; electric work lights, reading lights, LED landscape lights, LED work lights, LED reading lights; work lights; flashlights, safety lamps, searchlights; air purifying apparatus and machine, namely, air purifier units for household purposes, air purifier units for household use, air purifier units for commercial use, air purifier units for industrial purposes, air cleaning units, air filtering units for removing dust, smoke and allergens from the air, measuring and control devices for air-conditioning technology, particle counters for measuring air quality; water purifying apparatus and machines, namely, agricultural irrigation units, water purifiers for household purposes, water purification machines for domestic use, water purifiers for commercial purposes, water purifiers for industrial purposes, apparatus for purifying industrial water; filters for drinking water; water filtering apparatus, namely, water filtration and purification units and replacement cartridges and filters therefor, water filtering units for domestic use, water filtering units for industrial use, water filtering units for aquariums, domestic water jug filters; heat guns

Class 12

(7) Multipurpose wheeled carriers in the nature of garden carts, wheelbarrows, tool trolleys, cleaning trolleys, roll cage trolleys, handling carts, mobile storage carts, dump carts, hand trucks, and dollies sold as a unit with accessories, namely, bag holders, cylinder holders, plant mover straps, and rock mover mesh; accessories adapted for use with garden carts, wheelbarrows, tool trolleys, cleaning trolleys, roll cage trolleys, handling carts, mobile storage carts, dump carts, hand trucks, and dollies, namely, water bags, garden cart seats, wheelbarrow and garden cart tub organizers, wheelbarrow to hay wagon assembly kits comprising primarily wheels, axles, and structural frames for converting a wheelbarrow to a hay wagon, wheelbarrow to garden cart assembly kits comprising primarily wheels, axles and structural frames for converting a wheelbarrow to a garden cart, wheelbarrow to firewood carrier assembly kit comprising primarily bag holder, handles and structural attachments for converting a wheelbarrow to a firewood carrier; wheelbarrows; garden carts, electric wheelbarrows

Class 20

(8) Workbenches; workstations having multi-use work surfaces; portable work tables, namely, saw tables for clamping and holding saws; workbench accessories, namely, attachable work tables; non-metal clamps, namely, non-metal cable clamps, non-metal hose clamps, non-metal pipe clamps; vice benches; power tool stands; trestles, namely trestle tables, trestles for use as portable workbench supports; ladders not of metal, wooden step ladders, non-metal step stools

Class 25

(9) Clothing, namely, pants, jackets gloves; footwear, namely, shoes, boots; headgear, namely, hats, caps, toques; shirts; hats; stockings; jerseys; underclothing; uniforms for tradesmen; headbands; jacket; down clothing, namely, down vests, down jackets, down hoods, down pants, down suits, down sweaters; sweatshirts, vests, pants, shorts; gloves; neckties; scarfs; belts; footwear, namely, slippers, sandal

Apparatus and instruments namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards, for control, measurement and monitoring automotive, industrial, recreational vehicles and marine vehicles; electronic devices for the control of lights namely, lighting controls for controlling daytime running lights and for controlling alternating and multiple signalling lights for vehicles, power inverters, water pumps, televisions, electric steps, and fridges for vehicles, namely caravans, camper trailers and motorhomes; electronic display monitors; monitoring apparatus and devices, namely, energy meters, electronic monitors with the ability to monitor water levels, temperature, energy in the nature of battery power consumption; measurement apparatus and devices, namely lasers for measuring purposes, measuring rulers, fluorometers; electric current sensors; acceleration sensors; humidity sensors; motion sensors; thermal sensors; timing sensors; velocity sensors; wheel speed sensors; electric power converters for monitoring, conducting, switching, transforming, accumulating, regulating and controlling electricity and solar energy; alternating current power apparatus, namely DC/AC power converters, DC to DC power converters; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for connecting electrical circuit components; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for connecting, recording, processing and transmitting data and information from electric control systems for the control of multiple on-board equipment, such as turning on or off lights, inverters, water pumps and other loads such as displays and monitoring apparatus with the ability to monitor water levels, temperature, and battery power consumption and storage in vehicles, boats and personal watercraft; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for electrical safety protection; capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, cables

for electrical signal transmission systems in vehicles, boats and personal watercraft; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for electricity distribution; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for electricity supply; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for limiting excess voltages; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for managing energy supplies; apparatus, namely thermometers, infrared thermometers, temperature gauge sensors, for measuring temperature, other than for medical purposes; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for monitoring electrical and electronic instruments and components, namely instrument panel gauges, digital indicators and sensor notification lights in vehicles, boats and personal watercraft; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for the control of electric current; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for the control of power supply to electrically driven motors; computer central processing units and computer hardware for data processing, in relation to collecting, managing, and analyzing statistical data obtained from vehicles, boats and personal watercraft; blank digital storage media, namely blank USB cards, blank USB flash drives, blank CDs and blank DVDs, external computer hard drives for the storage of data and information; sound transmitting apparatus, namely, microphones, audio speakers, sound processors, electric cables for the transmission of sounds and images; optical fibers for the transmission of sounds and images from electric control systems for the control of multiple on-board equipment, such as turning on or off lights, inverters, water pumps and other loads such as displays and monitoring apparatus with the ability to monitor water levels, temperature, and battery power consumption and storage in vehicles, boats and personal watercraft; automotive electrical components, namely capacitors, electrical connectors, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors; battery monitoring devices that may be attached to a battery to monitor the performance of the battery and operating software for use therewith, sold as a unit; battery charge devices, namely, gauges for measuring battery power consumption and storage in vehicles, boats and personal watercraft; current meters; electric control apparatus for automobile, namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; electric control apparatus namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards for automobile electrical equipment; electric switches for electronic power control, namely electric current switches; electrical checking apparatus, namely, energy meters; portable power supplies for use with motor vehicles and towed vehicles; portable power supplies, namely batteries for use with motor vehicles and towed vehicles; portable power supplies in the nature of rechargeable power banks for use with electrical and electronic devices;

uninterruptable power supplies; connecting devices, namely mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways, electrical cables for data collection; connecting devices and modules, namely electrical connection cables, electrical cables for data transfer; electrical cables for electric controls; onboard control modules for vehicles and vehicles systems, namely navigation apparatus for vehicles in the nature of on-board computers, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; downloadable computer application software for mobile phones, portable media players, handheld computers allowing users to access and display digital images and graphics; display monitors; electrical power distribution units, namely, distribution boards; electrical distribution boxes; automotive electrical distributor switches; electric current distribution apparatus, namely resistors for distributing or controlling electric current, electrical power distribution; electric current meters; electric current sensors; electric current transformers; electric device for displaying information, namely, computer monitors; power supply apparatus, namely car batteries, batteries for personal watercraft, batteries for boats; power distribution apparatus for use in electrical systems, namely resistors for distributing or controlling electric current, electrical power distribution units; programmable control apparatus namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; programmable electronic apparatus namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; electrical apparatus and system as part of automotive and recreational vehicles, marine applications for the control, monitoring, recording, data storage and automation of equipment and instruments, namely, electric control systems for the control of multiple on-board equipment, such as turning on or off lights, inverters, water pumps and other loads such as displays and monitoring apparatus with the ability to monitor water levels, temperature, and battery power consumption and storage in vehicles, boats and personal watercraft.

Services

Class 38

(1) Wireless electronic transmission of voice messages, facsimiles, text messages, streaming video, movies, music, photographs, and digital images in the field of management of vehicle maintenance over the internet and via wireless and cellular networks; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; provision of user access to the internet via online communication links which transfer the user to local and global web pages; electronic transmission of data and information relating to collecting, managing, and analyzing data obtained from vehicles, boats and personal watercraft, via a Controller Area Network (CAN); peer-to-peer network computer services, namely, electronic transmission of in-vehicle statistical data for collecting, managing and analyzing statistical data obtained from vehicles, boats and personal watercraft over electronic communications networks.

Class 42

(2) Research and electrical/electronic design services for the development of automotive, marine and industrial electronic products for use in industries such as mining, manufacturing, energy, transportation, chemical and agriculture; research and electrical and electronic design services for the development of solar energy equipment and apparatus and instruments for use in collecting, regulating, storing and distributing solar energy and converting solar energy into electricity; scientific and technological services, namely, research and electrical and electronic design services for the development of control and monitoring and recording and data storage and automation of equipment and apparatus and instruments in the field of automotive and recreational vehicles, marine applications and portable computers; scientific and technological services, namely, research and design and development of computer hardware, software and code, electronic calculators and communication systems in the field of automotive and recreational vehicles, marine applications and portable computers; scientific and technological services, namely, research and design and development of monitoring systems by remote access and the provision of online downloadable software applications for use with onboard computers in automobiles, recreational vehicles and personal watercraft in the marine transportation industry.

Apparatus and instruments namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards, for control, measurement and monitoring automotive, industrial, recreational vehicles and marine vehicles; electronic devices for the control of lights namely, lighting controls for controlling daytime running lights and for controlling alternating and multiple signalling lights for vehicles, power inverters, water pumps, televisions, electric steps, and fridges for vehicles, namely caravans, camper trailers and motorhomes; electronic display monitors; monitoring apparatus and devices, namely, energy meters, electronic monitors with the ability to monitor water levels, temperature, energy in the nature of battery power consumption; measurement apparatus and devices, namely lasers for measuring purposes, measuring rulers, fluorometers; electric current sensors; acceleration sensors; humidity sensors; motion sensors; thermal sensors; timing sensors; velocity sensors; wheel speed sensors; electric power converters for monitoring, conducting, switching, transforming, accumulating, regulating and controlling electricity and solar energy; alternating current power apparatus, namely DC/AC power converters, DC to DC power converters; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for connecting electrical circuit components; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for connecting, recording, processing and transmitting data and information from electric control systems for the control of multiple on-board equipment, such as turning on or off lights, inverters, water pumps and other loads such as displays and monitoring apparatus with

the ability to monitor water levels, temperature, and battery power consumption and storage in vehicles, boats and personal watercraft; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for electrical safety protection; capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, cables for electrical signal transmission systems in vehicles, boats and personal watercraft; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for electricity distribution; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for electricity supply; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for limiting excess voltages; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors, for managing energy supplies; apparatus, namely thermometers, infrared thermometers, temperature gauge sensors, for measuring temperature, other than for medical purposes; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for monitoring electrical and electronic instruments and components, namely instrument panel gauges, digital indicators and sensor notification lights in vehicles, boats and personal watercraft; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for the control of electric current; apparatus, namely capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors for the control of power supply to electrically driven motors; computer central processing units and computer hardware for data processing, in relation to collecting, managing, and analyzing statistical data obtained from vehicles, boats and personal watercraft; blank digital storage media, namely blank USB cards, blank USB flash drives, blank CDs and blank DVDs, external computer hard drives for the storage of data and information; sound transmitting apparatus, namely, microphones, audio speakers, sound processors, electric cables for the transmission of sounds and images; optical fibers for the transmission of sounds and images from electric control systems for the control of multiple on-board equipment, such as turning on or off lights, inverters, water pumps and other loads such as displays and monitoring apparatus with the ability to monitor water levels, temperature, and battery power consumption and storage in vehicles, boats and personal watercraft; automotive electrical components, namely capacitors, electrical connectors, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors; battery monitoring devices that may be attached to a battery to monitor the performance of the battery and operating software for use therewith, sold as a unit; battery charge devices, namely, gauges for measuring battery power consumption and storage in vehicles, boats and personal watercraft; current meters; electric control apparatus for automobile, namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; electric control apparatus namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-

based vehicle dashboards for automobile electrical equipment; electric switches for electronic power control, namely electric current switches; electrical checking apparatus, namely, energy meters; portable power supplies for use with motor vehicles and towed vehicles; portable power supplies, namely batteries for use with motor vehicles and towed vehicles; portable power supplies in the nature of rechargeable power banks for use with electrical and electronic devices; uninterruptible power supplies; connecting devices, namely mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways, electrical cables for data collection; connecting devices and modules, namely electrical connection cables, electrical cables for data transfer; electrical cables for electric controls; onboard control modules for vehicles and vehicles systems, namely navigation apparatus for vehicles in the nature of on-board computers, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; downloadable computer application software for mobile phones, portable media players, handheld computers allowing users to access and display digital images and graphics; display monitors; electrical power distribution units, namely, distribution boards; electrical distribution boxes; automotive electrical distributor switches; electric current distribution apparatus, namely resistors for distributing or controlling electric current, electrical power distribution; electric current meters; electric current sensors; electric current transformers; electric device for displaying information, namely, computer monitors; power supply apparatus, namely, car batteries, batteries for personal watercraft, and batteries for boats; power distribution apparatus for use in electrical systems, namely resistors for distributing or controlling electric current, electrical power distribution units; programmable control apparatus namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; programmable electronic apparatus namely safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; electrical apparatus and system as part of automotive and recreational vehicles, marine applications for the control, monitoring, recording, data storage and automation of equipment and instruments, namely, electric control systems for the control of multiple on-board equipment, such as turning on or off lights, inverters, water pumps and other loads such as displays and monitoring apparatus with the ability to monitor water levels, temperature, and battery power consumption and storage in vehicles, boats and personal watercraft.

Services

Class 38

(1) Wireless electronic transmission of voice messages, facsimiles, text messages, streaming video, movies, music, photographs, and digital images in the field of management of vehicle maintenance over the internet and via wireless and cellular networks; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; provision of user access to the internet via online communication links which transfer the user to local and global web pages; electronic transmission of data and information relating to collecting, managing, and analyzing data obtained from vehicles, boats and personal watercraft,

via a Controller Area Network (CAN); peer-to-peer network computer services, namely, electronic transmission of in-vehicle statistical data for collecting, managing and analyzing statistical data obtained from vehicles, boats and personal watercraft over electronic communications networks.

Class 42

(2) Research and electrical and electronic design services for the development of automotive, marine and industrial electronic products for use in industries such as mining, manufacturing, energy, transportation, chemical and agriculture; research and electrical and electronic design services for the development of solar energy equipment and apparatus and instruments for use in collecting, regulating, storing and distributing solar energy and converting solar energy into electricity; scientific and technological services, namely, research and electrical and electronic design services for the development of control and monitoring and recording and data storage and automation of equipment and apparatus and instruments in the field of automotive and recreational vehicles, marine applications and portable computers; scientific and technological services, namely, research and design and development of computer hardware, software and code, electronic calculators and communication systems in the field of automotive and recreational vehicles, marine applications and portable computers; scientific and technological services, namely, research and design and development of monitoring systems by remote access and the provision of online downloadable software applications for use with onboard computers in automobiles, recreational vehicles and personal watercraft in the marine transportation industry.

(1) Chemical, biochemical and biotechnological reagents for industrial and scientific purposes and laboratory analysis as well as point-of-need, point-of-care, on-site laboratory analysis; reagents and active solvents for scientific and research use, namely, sample preparation, modification and manipulation of cells for labelling, separation, isolation, purification, amplification and analysis of natural and synthetic biopolymers, namely, nucleic acids, oligonucleotides, proteins, macromolecules and biologically active substances; chemicals and biochemical preparations used in industry, in particular chemical and biochemical preparations for molecular biological, biochemical and immunological testing and analysis; kits comprising chemical products for sample preparation, modification and manipulation of samples and cells as well as for labelling, separation, isolation, purification, amplification and/or analysis of natural or synthetic biopolymers, namely nucleic acids, oligonucleotides, proteins, macromolecules and biologically active substances, namely nucleic acids from biological or biochemical sample material; pre filled sample extraction kits for extraction of nucleic acids from different sample types; reagents pre-filled into plates for extraction and amplification of nucleic acids from different sample types; reagents pre-filled into vials/tubes for extraction and amplification of nucleic acids; reagents pre-filled into cartridges for extraction and amplification of nucleic acids; extraction kits comprised of chemical reagents for DNA, RNA or protein extraction; polymerase chain reaction (PCR) primer and probe chemicals for real-time polymerase chain reaction (PCR) and pen-side applications; nucleic acid primers/probes and chemical reagents to support quantitative polymerase chain reaction (qPCR) assays

Class 05

(2) Pharmaceutical and veterinary medical products as well as products for healthcare purposes, namely, diagnostic preparations for medical laboratory and veterinary laboratory purposes; diagnostic agents for medical, veterinary, laboratory medical and forensic purposes, namely, agents for in vitro diagnostics being in-vivo angiogenesis and anti-angiogenic therapy; diagnostic agents for medical and veterinary purposes, namely biological preparations for testing diseases in cattle, pigs, poultry and other animals; diagnostic preparations for medical laboratory use;

diagnostic preparations, namely, biomarkers for veterinary purposes; diagnostic kits consisting primarily of medical diagnostic reagents, oligonucleotides, antibodies, antigens, in-vitro medical diagnostic reagents and control reagents for medical purposes for use in disease testing; diagnostic kits consisting primarily of diagnostic test reagents for medical or veterinary use in in-vitro diagnostic and applications, namely, species and strain identifying and confirmatory; products for medical and veterinary medical purposes, namely diagnostic preparations, namely for sample preparation, modification and manipulation of cells as well as for labelling, separation, isolation, purification, amplification and/or analysis of natural or synthetic biopolymers, namely nucleic acids, oligonucleotides, proteins, macromolecules and biologically active substances; chemical, biochemical and biotechnological products for medical or veterinary purposes, namely reagents and solvents for sample preparation, modification and manipulation of cells; in vitro diagnostic preparations for medical purposes; diagnostic kits for medical and veterinary purposes comprised of medical diagnostic reagents and assays for testing of bodily fluids for use in disease detection, namely, viral, bacterial and parasitological pathogens, namely, African Swine Fever Virus, Porcine Reproductive and Respiratory Syndrome Virus; veterinary diagnostic reagents; diagnostic chemical test reagents for veterinary purposes; diagnostic chemical reagents for veterinary use; medical kits consisting primarily of reagents, oligonucleotides, antibodies, in-vitro diagnostic preparations and control reagents for biochemical, molecular biological and immunological testing; medical diagnostic test strips for fecal analysis, blood analysis, urine analysis, serum analysis, oral fluid analysis, saliva analysis, tissue aspirates analysis and milk analysis

Class 09

(3) Laboratory apparatus and instruments for molecular biological and immunological test systems for scientific research, namely, Lab-on-a-chip devices combining sample extraction of fluid sample, polymerase chain reaction (PCR) and real-time polymerase chain reaction (PCR) and analysis stationary and mobile devices, namely smart phones and laptops; laboratory testing kits for testing multiplex polymerase chain reaction (PCR) comprising of laboratory devices for removing, marking, applying and identifying biological or biochemical samples for scientific research, sequencing apparatus for the purpose of detecting DNA and RNA sequences in polymerase chain reaction (PCR) cyclers and including associated computer hardware and recorded computer operating software, sold as a unit for scientific research purposes; scientific apparatus and instruments, namely, manual and semi-automatic devices for extracting nucleic acids from blood, serum, tissue fluids, saliva, oral fluids and milk; apparatus and instruments for scientific research in laboratories, namely, manual and semi-automatic devices for extracting nucleic acids from blood, serum, tissue fluids, saliva, oral fluids and milk; molecular biological preparations for scientific research, namely, laboratory kits for testing multiplex polymerase chain reaction (PCR) for scientific research comprising of electronic analyzers for testing and analyzing nucleic structures, scientific instruments for measuring the quantity of proteins, antigens and nucleic acids in a sample, including computer hardware and recorded computer operating software for analyzing multiplex polymerase chain reaction (PCR), and computer hardware and downloadable cloud-based software for storing, managing and analyzing electronic data relating to proteins, antigens and nucleic acids, all sold as a unit for use in scientific research; scientific instruments for measuring relative nucleic acid (DNA and RNA) not for medical use; observation instruments for detecting nucleic acid (DNA and RNA); glass and plastic tubes and vials for scientific purposes; pipettes; laboratory pipettes; pipette racks for laboratory use; pipette tips for laboratory use; tubes and vials for scientific use; cell culture plates for laboratory use; scientific instruments for quantitative polymerase chain reaction (PCR), namely, real-time PCR cyclers

Class 10

(4) Medical diagnostic instruments for testing and analyzing biological samples for blood sugar levels, DNA, RNA, protein and antigens; analysis instruments for nucleic acid (DNA and RNA) testing for medical purposes; medical diagnostic instruments for testing nucleic acid (DNA and RNA) samples; medical instruments for clinical diagnostics for testing nucleic acid (DNA and RNA); laboratory plastic tubes and vials for use in invitro diagnostics for medical purposes medical instruments, namely, quantitative polymerase chain reaction (PCR) instruments for detection of pathogen nucleic acids; laboratory plasticware for use in in-vitro diagnostics for medical purposes, namely, cartridges for medical diagnostics for use in in-vitro diagnostics, namely, sample preparation device for medical diagnostic use; cartridge for medical diagnostics for use in invitro diagnostics; disposable cartridge for medical diagnostics in in-vitro diagnostics

Trademark Description

A combined designation without seeking protection in a specific color combination, which is the face of the applicant's product packaging. The upper plate of an oblong shape with uneven edges carries font graphics indicating the type of product - the word element in Cyrillic characters that transliterate into Latin characters as "SEMECHKI". In the lower part of the field, the image of a sunflower dominates in the foreground; the font graphics of the distinctive name in Cyrillic characters that transliterate into Latin characters as "UROZHAI GODA" are superimposed on the image of the seeds. A pictorial motive - a rural landscape - is superimposed in the background in the form of a monochrome graphic drawing depicting houses, a wicker fence, trees and growing sunflowers. Also, accents in the form of small naturalistic images of three ladybirds are used in the composition.

Foreign Character Translation

The translation provided by the applicant of the Russian words "SEMECHKI" and "UROZHAI GODA" are "sunflower seeds" and "harvest of the year".

Foreign Character Transliteration

The transliteration provided by the applicant of the Russian character(s) is "SEMECHKI UROZHAI GODA".

The logo features the words "Bulles de Nuit" in a highly decorative, black cursive script. The word "Bulles" is on the top line, "de" is smaller and positioned between "Bulles" and "Nuit", and "Nuit" is on the bottom line. The letters are fluid and interconnected, with prominent flourishes, particularly a large swirl at the top of the "B" and another at the bottom of the "t".

Description

The colours green, blue and gold are described as elements of the mark. The crest has a green background with a gold inner border and a black outer border. The words CONTRÔLE ROUTIER are gold. The words SÉCURITÉ, PROTECTION and ÉQUITÉ are black on a white banner. This banner has a gold border. The word "Québec" is white. At the center of the crest appears an image of the province of Québec in white on a blue background inside a circle with a gold border. In this circle also appears a black road with a gold border and a white dotted line in the middle. Outside the circle, there is a gold foliage scroll formed by leaves and a fleur-de-lys.
