## Vol. 70 No. 3574

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Computer software for monitoring, analyzing flight data and predicting treadwear of tires; checking (supervision) apparatus and instruments, namely, tire depth gauges, tools to detect cracks on products by means of camera, tools to detect cracks on products by means of light, and tools to detect cracks on products by means of air; holders for hand-held computers; measuring apparatus and instruments, namely, pressure gauges, pressure sensors, lasers for measuring purposes, measuring and testing machines and instruments, namely, sensors and gauges for measuring and testing the temperature and pressure of oil, water, automotive fluids, and air in engines, motors, drive trains, transmissions, and tires; satellite and radio transmitter and receiver apparatus, namely, satellite transmitters and receivers, radio transmitters and receivers; signaling apparatus and instruments, namely, flashing safety lights for vehicles and flashing safety lights for traffic cones; software for operating electronic digital dictionaries; telecommunications installations, networks and apparatus, namely, radio transmitters and receivers, satellite transmitters, GPS transmitters, telephone transmitters, video transmitters, audio- and video-receivers, mobile phones; mounting racks for telecommunications computer hardware; telematics apparatus, namely, wireless Internet-enabled devices in the nature of on-board computers, GPS receivers and GPS transmitters that provide telematics services and have cellular phone function; barcode scanners; two-dimensional code scanners; printers, namely, thermal printers, inkjet printers, laser printers; surveying instruments; computer hardware and software for use with satellite and GPS navigation systems for navigation purposes; computer software for operating satellite navigational systems and global positioning systems [GPS], and for use of global positioning systems [GPS] for

tracking, locating and security of vehicles and objects; computer software for use with route planners, electronic maps and digital dictionaries for navigation purposes; computer terminals, all in particular for the use of navigation systems, route planners, and digital maps; downloadable electronic maps; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; location, orientation and navigation, and global positioning systems (GPS) consisting of computers, computer software, transmitters, global positioning system receivers and satellite receivers; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; navigation apparatus for vehicles in the nature of on-board computers; route planners in the form of hand-held personal computers (hand-held computers); satellite navigational systems, namely global positioning systems consisting of satellites, computers, computer software, transmitters, receivers, and network interface devices; computer software for database management in the field of transportation and traffic; software for management and maintenance of groups of vehicles, namely, software for tracking and monitoring vehicles, and for scheduling and management of vehicle maintenance, for use in the field of vehicle management; software for operating route planners; software for in-vehicle navigation and entertainment systems for providing and displaying travel advice on petrol stations, car parks, restaurants, hotels, and car dealers; computer software for displaying orders and vehicle locations on maps; software to indicate maintenance requirements and maintenance scheduling for vehicles; vehicle locating, tracking and security systems comprised of an antennas and radio transmitters to be placed in vehicles; downloadable electronic databases containing information relating to tires, vehicle parts, vehicles and groups of vehicles; electronic publications relating to tires, vehicle parts, vehicles and groups of vehicles; electronic reports relating to tires, vehicle parts, vehicles and groups of vehicles; electronic sensing, checking, monitoring and communication devices used in relation to vehicles, tires, vehicle parts and groups of vehicles, namely, telecommunication devices comprised of receivers, transmitters and computer hardware and software for collecting, tracking, storing, managing, reporting, and transmitting tire and vehicle telematics data; electronic sensors for tires, vehicles and vehicle parts, namely, temperature sensors, pressure sensors, acceleration sensors, distance sensors, velocity sensors, tire abrasion sensors, and road surface condition sensors; downloadable software for arranging and managing subscription services relating to monitoring, maintenance, replacement and purchase of tires and vehicle parts; downloadable software for arranging the replacement, repair, inspection, installation, monitoring, management, maintenance, ordering and purchase of tires, vehicle parts and vehicles; software used in relation to tires, vehicle parts, vehicles and groups of vehicles, namely, computer software for collecting, tracking, storing, managing, reporting, and transmitting tire and vehicle telematics data; downloadable computer software and mobile applications for use in monitoring and tracking tires and tire data, namely, tire deflection data, tire pressure data, tire abrasion data, vehicle speed data, and road surface condition data; computer software for vehicle fleet management; computer software for use in managing, tracking, and optimizing fleet operation costs and productivity based on commercial fleet tire data; computer software for use in monitoring tracking and reporting tire treadwear data, and predicting potential risky driving conditions for tires and allow vehicles to react to such conditions to prevent accident; downloadable computer software and mobile applications for analyzing treadwear of tires based on pictures; accident preventing systems primarily comprising sensors, operating software and computer hardware for measuring and transmitting tire treadwear data; tire treadwear detecting systems primarily comprising treadwear detecting sensors, low tire pressure automatic indicators, electric sensors, signal transmitters, signal receivers, and electronic display interfaces; computer software for reporting the performance and condition of tires in retreading tires; computer software for tire retread dealers to track, photograph, and provide receipts for retreaded tires; computer software for tracking inventory of retread tires;

computer software for information tracking and reporting functions in the retread tire business in the field of customer relationship management, supply chain management, human services, and financial applications, all designed to help businesses in the retread, commercial, retail and wholesale tire industry; tire pressure monitoring systems comprising a computer, pressure sensors, antennas, transmitters, receivers and computer software; tire pressure and temperature monitoring and measuring machines and instruments, namely, tire pressure gauges; electronic machines and apparatus for measuring, monitoring and transmitting tire pressure and temperature, namely, pressure sensors, temperature sensors, transmitters and receivers; telecommunication machines and apparatus, namely, computer network routers, multiplexers, computer hardware for telecommunications, computer hardware and recorded software for setting up and configuring wide area networks, telecommunication apparatus for measuring, monitoring, and transmitting tire pressure and tire temperature, namely, radio transmitters and receivers, satellite transmitters, GPS transmitters, telephone transmitters, video transmitters, audio- and video-receivers, temperature sensors, and tire pressure sensors; electronic machines, apparatus and their parts, namely, electronic measurement machines and instruments for measuring, monitoring, and transmitting tire pressure and tire temperature, namely, electronic apparatus comprising temperature sensors, tire pressure sensors, radio antennas, radio transmitters and receivers, and computer software for monitoring tire pressure and tire temperature; electronic machines and apparatus for technological and scientific use comprising tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, radio and satellite antennas, GPS antennas, wireless radio transmitters and receivers, and computer software for monitoring tire pressure; computer software for monitoring vehicle drive information, vehicle kinetic information and tire pressure information; terminal devices, namely, computer terminals for collecting and storing information and data measured and saved by on-demand remote monitors and transmitters; computer software for monitoring and managing pressure in tires; tire pressure management and monitoring systems comprising sensors, operating software, and computer hardware; tire pressure sensors; downloadable computer software and mobile applications for use in monitoring, tracking, and reporting tire pressure and temperature; tire pressure management and monitoring systems comprising sensors, operating software, and computer hardware; tire pressure management and monitoring systems primarily comprising sensors, operating software, and computer hardware for measuring and transmitting tire deflection and pressure data; tire pressure or temperature monitoring systems primarily comprising software for monitoring tire pressure and temperature, low tire pressure automatic indicators, tire pressure gauges, electric sensors, tire pressure sensors or temperature sensors, signal transmitters, signal receivers, and electronic display interfaces; sensors for detecting deterioration of road surface; sensors for detecting deterioration of bridge joints; electronic machines and apparatus for use in detecting, monitoring and transmitting deterioration of road surface, namely, computer hardware, computer software, sensors for measuring road surface, transmitters and receivers; electronic machines and apparatus for use in detecting, monitoring and transmitting deterioration of bridge joints namely, computer hardware, computer software, sensors for measuring bridge joint deterioration, transmitters and receivers; computer software for detecting, measuring and monitoring deterioration of road surface in the fields of route planning and optimization, navigation, and optimization of vehicle fleet organization and operation; computer software for detecting, measuring and monitoring deterioration of bridge joints in the fields of route planning and optimization, navigation, and optimization of vehicle fleet organization and operation

**Services****Class 35**

(1) Computerized inventory management featuring tracking of tires to others; subscription management services in relation to hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and vehicle parts; information, advice and consultancy provided in relation to subscription management services in the field of hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and vehicle parts; computerized on-line ordering services in the field of tires that allows consumers to track, locate and monitor tires; computerized database management in relation to tracking, locating and monitoring vehicles; computerized database management in relation to tracking, locating and monitoring tires; business management services, namely managing fleet of commercial motor vehicles, vehicle performance, and workforce; business consulting services relating to operations management services, logistics, transportation and distribution solutions, vehicle maintenance, and optimised driving costs.

### **Class 37**

(2) Installation, maintenance and repair of telematics and navigation apparatus for vehicles, namely, wireless Internet-enabled devices in the nature of on-board computers, GPS receivers and GPS transmitters that provide telematics services and have cellular phone function and transmit vehicle data, messages and information, namely, information about vehicle maintenance and tire pressure and tire temperature, and information, advice and consultancy provided in relation to all the aforesaid services; installation, maintenance and repair of apparatus for locating vehicles, anti-theft equipment for vehicles, electronic navigation and tracking apparatus for use in vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; inspection of tires and vehicles prior to maintenance and repair, and information, advice and consultancy provided in relation to all the aforesaid services; providing information on tire pressure and tire temperature for maintenance of vehicle tires via telecommunication networks; providing information about tire maintenance, tire retreading, and usage of tires to consumers, tire dealers, service providers and fleet managers; tire retreading, namely, retreading tires, and providing advice, repair and maintenance information in the field of retreading tires; consultancy, information and inspection services relating to repair and maintenance of tires and vehicles; consultancy, information and inspection services relating to retread of tires; consultancy, information, advice and inspection services relating to tire maintenance to prevent tire deflection, to safe maintenance and repair of vehicles; inspection of tires and vehicles prior to maintenance and repair or retreading of tires; maintenance, installation and replacement services provided in relation to tires and vehicle parts; repair, inspection prior to potential maintenance and repair, installation, replacement, maintenance of aircraft, namely, tires for aircraft and wheels for aircraft, and information, advice and consultancy services relating to the aforesaid services.

### **Class 38**

(3) Telecommunications services, namely, providing electronic transmission of vehicle and tire data via a global computer network; providing electronic transmission of digital vehicle and tire data, namely, data relating to transmissions for motor vehicles, electrical anti-theft installations for vehicles, navigation apparatus for vehicles in the form of on-board computers, and telematic in-vehicle communication devices, namely, transmitters and receivers for providing wireless vehicle navigation and tracking; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; telecommunications services, namely, providing multiple user access to information relating to traffic, transport and roadworks via a global computer network; broadcasting services relating to traffic, transport and roadworks, namely, broadcasting of information relating to traffic, transport and roadworks via the Internet, and satellite broadcasting of information relating to traffic, transport and roadworks; wireless digital

messaging services, namely, electronic mail services via in-vehicle driver terminals; telecommunications services, namely, providing access to a global computer network for the purpose of loading and automatically updating maps, firmware and software over the air; providing temporary access to non-downloadable software providing map images and geographical and itinerary information obtained with the aid of a global positioning system [GPS] to enable others to determine locations or directions accurately; secure and non-secure telecommunications services, namely, providing electronic transmission of digital data relating to navigation apparatus for vehicles in the form of on-board computers, route planners, and electronic maps via a global computer network

### **Class 39**

(4) Transport, namely, transport of goods and passengers by air, rail, ship, bus, tram and truck, and information, advice and consultancy provided in relation to all the aforesaid services; tracking and tracing of vehicles in transit, and information, advice and consultancy provided in relation to all the aforesaid services; providing of navigation and information services, namely information relating to traffic, road conditions and traffic jams, and information, advice and consultancy provided in relation to all the aforesaid services; provision of information relating to travel, and information, advice and consultancy provided in relation to all the aforesaid services; consultancy relating to traffic, journeys and roadworks, namely monitoring traffic and receiving alerts from vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; logistics and fleet management namely tracking, locating and monitoring vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; rental of tires, and information, advice and consultancy provided in relation to all the aforesaid services; advisory services relating to the storage of tires.

### **Class 42**

(5) Consultancy in the field of computer software design; development and design of navigation systems and route planners; computer software and hardware design; development and design of computer software for use with navigation systems and route planners and with electronic maps and digital dictionaries; design and development of wireless computer networks; software as a service [SaaS] featuring software for tracking and monitoring in the field of fleet management; design of software for compiling and recovering information on the location of vehicles, route reconstruction, driver activities; preparation, update, installation and maintenance of computer software; design and development of databases on traffic and information relating to travel; design and testing of new products for others; design, maintenance and development of computer software for use in relation to the replacement, repair, inspection, installation, monitoring, management, maintenance, leasing, ordering, purchase or hire purchase of tires, vehicle parts, vehicles and groups of vehicles; quality control services, namely monitoring, checking and testing status of tires, vehicle parts, vehicles and groups of vehicles; technical analysis and technological consulting services related to the selection, condition, maintenance, retreading or replacement of vehicle tires; technical analysis and technological consulting services related to the selection, condition, maintenance or replacement of vehicle component parts, spare parts and accessories; providing an online platform for managing information and data associated with tires, vehicle parts, vehicles and groups of vehicles; provision of technical reports and scientific information in relation to tires, vehicle parts, vehicles and groups of vehicles; provision of technical notifications and technical reports concerning tires, vehicle parts, vehicles and groups of vehicles; technical support and consultancy in the form of monitoring global computer network systems; secure or non-secure storage services of digital data, namely the electronic storage of digital data, photographs, audio files, data, information and image signals, all in particular for navigation systems, route planners and the use of electronic maps; inspection services provided in relation to tires and vehicle parts;

technical data analysis of vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; technical data analysis of bicycles and bicycle components, namely, tires, brakes, batteries and default signals; analysis of research data and statistics relating to vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; analysis of research data and statistics relating to bicycles and bicycle components, namely, tires, brakes, batteries and default signals; providing technological information, consultancy and advice in relation to vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; providing technological information, consultancy and advice in relation to bicycles and bicycle components, namely, tires, brakes, batteries and default signals; providing technological information, consultancy and advice in relation to course of action to solve problem of vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; providing technological information, consultancy and advice in relation to course of action to solve problem of bicycles and bicycle components, namely, tires, brakes, batteries and default signals; providing technological information, consultancy and advice in relation to deterioration of road surface, bridge joints.

(6) Inspection services provided in relation to vehicle parts

Computer software for monitoring, analyzing flight data and predicting treadwear of tires; checking (supervision) apparatus and instruments, namely, tire depth gauges, tools to detect cracks on products by means of camera, tools to detect cracks on products by means of light, and tools to detect cracks on products by means of air; holders for hand-held computers; measuring apparatus and instruments, namely, pressure gauges, pressure sensors, lasers for measuring purposes, measuring and testing machines and instruments, namely, sensors and gauges for measuring and testing the temperature and pressure of oil, water, automotive fluids, and air in engines, motors, drive trains, transmissions, and tires; satellite and radio transmitter and receiver apparatus, namely, satellite transmitters and receivers, radio transmitters and receivers; signaling apparatus and instruments, namely, flashing safety lights for vehicles and flashing safety lights for traffic cones; software for operating electronic digital dictionaries; telecommunications installations, networks and apparatus, namely, radio transmitters and receivers, satellite transmitters, GPS transmitters, telephone transmitters, video transmitters, audio- and video-receivers, mobile phones; mounting racks for telecommunications computer hardware; telematics apparatus, namely, wireless Internet-enabled devices in the nature of on-board computers, GPS receivers and GPS transmitters that provide telematics services and have cellular phone function; barcode scanners; two-dimensional code scanners; printers, namely, thermal printers, inkjet printers, laser printers; surveying instruments; computer hardware and software for use with satellite and GPS navigation systems for navigation purposes; computer software for operating satellite navigational systems and global positioning systems [GPS], and for use of global positioning systems [GPS] for tracking, locating and security of vehicles and objects; computer software for use with route planners, electronic maps and digital dictionaries for navigation purposes; computer terminals, all in particular for the use of navigation systems, route planners, and digital maps; downloadable electronic maps; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; location, orientation and navigation, and global positioning systems (GPS) consisting of computers, computer software, transmitters, global positioning system receivers and satellite receivers; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; navigation apparatus for vehicles in the nature of on-board computers; route planners in the form of hand-held personal computers (hand-held computers); satellite navigational systems, namely global positioning systems consisting of satellites, computers, computer software, transmitters, receivers, and network interface devices; computer software for database management in the field of transportation and traffic; software for management and maintenance of groups of vehicles, namely, software for tracking and monitoring vehicles, and for scheduling and management of vehicle maintenance, for use in the field of vehicle management; software for operating route planners; software for in-vehicle navigation and entertainment systems for providing and displaying travel advice on petrol stations, car parks, restaurants, hotels, and car dealers; computer software for displaying orders and vehicle locations on maps; software to indicate maintenance requirements and maintenance scheduling for vehicles; vehicle locating, tracking and security systems comprised of an antennas and radio transmitters to be placed in vehicles; downloadable electronic databases containing information relating to tires, vehicle parts, vehicles and groups of vehicles; electronic publications relating to tires, vehicle parts, vehicles and groups of vehicles; electronic reports relating to tires, vehicle parts, vehicles and groups of vehicles; electronic sensing, checking, monitoring and communication devices used in relation to vehicles, tires, vehicle parts and groups of vehicles, namely, telecommunication devices comprised of receivers, transmitters and computer hardware and software for collecting, tracking, storing, managing, reporting, and transmitting tire and vehicle telematics data; electronic sensors for tires, vehicles and vehicle parts, namely, temperature sensors, pressure sensors, acceleration sensors, distance sensors, velocity sensors, tire abrasion sensors, and road surface condition

sensors; downloadable software for arranging and managing subscription services relating to monitoring, maintenance, replacement and purchase of tires and vehicle parts; downloadable software for arranging the replacement, repair, inspection, installation, monitoring, management, maintenance, ordering and purchase of tires, vehicle parts and vehicles; software used in relation to tires, vehicle parts, vehicles and groups of vehicles, namely, computer software for collecting, tracking, storing, managing, reporting, and transmitting tire and vehicle telematics data; downloadable computer software and mobile applications for use in monitoring and tracking tires and tire data, namely, tire deflection data, tire pressure data, tire abrasion data, vehicle speed data, and road surface condition data; computer software for vehicle fleet management; computer software for use in managing, tracking, and optimizing fleet operation costs and productivity based on commercial fleet tire data; computer software for use in monitoring tracking and reporting tire treadwear data, and predicting potential risky driving conditions for tires and allow vehicles to react to such conditions to prevent accident; downloadable computer software and mobile applications for analyzing treadwear of tires based on pictures; accident preventing systems primarily comprising sensors, operating software and computer hardware for measuring and transmitting tire treadwear data; tire treadwear detecting systems primarily comprising treadwear detecting sensors, low tire pressure automatic indicators, electric sensors, signal transmitters, signal receivers, and electronic display interfaces; computer software for reporting the performance and condition of tires in retreading tires; computer software for tire retread dealers to track, photograph, and provide receipts for retreaded tires; computer software for tracking inventory of retread tires; computer software for information tracking and reporting functions in the retread tire business in the field of customer relationship management, supply chain management, human services, and financial applications, all designed to help businesses in the retread, commercial, retail and wholesale tire industry; tire pressure monitoring systems comprising a computer, pressure sensors, antennas, transmitters, receivers and computer software; tire pressure and temperature monitoring and measuring machines and instruments, namely, tire pressure gauges; electronic machines and apparatus for measuring, monitoring and transmitting tire pressure and temperature, namely, pressure sensors, temperature sensors, transmitters and receivers; telecommunication machines and apparatus, namely, computer network routers, multiplexers, computer hardware for telecommunications, computer hardware and recorded software for setting up and configuring wide area networks, telecommunication apparatus for measuring, monitoring, and transmitting tire pressure and tire temperature, namely, radio transmitters and receivers, satellite transmitters, GPS transmitters, telephone transmitters, video transmitters, audio- and video-receivers, temperature sensors, and tire pressure sensors; electronic machines, apparatus and their parts, namely, electronic measurement machines and instruments for measuring, monitoring, and transmitting tire pressure and tire temperature, namely, electronic apparatus comprising temperature sensors, tire pressure sensors, radio antennas, radio transmitters and receivers, and computer software for monitoring tire pressure and tire temperature; electronic machines and apparatus for technological and scientific use comprising tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, radio and satellite antennas, GPS antennas, wireless radio transmitters and receivers, and computer software for monitoring tire pressure; computer software for monitoring vehicle drive information, vehicle kinetic information and tire pressure information; terminal devices, namely, computer terminals for collecting and storing information and data measured and saved by on-demand remote monitors and transmitters; computer software for monitoring and managing pressure in tires; tire pressure management and monitoring systems comprising sensors, operating software, and computer hardware; tire pressure sensors; downloadable computer software and mobile applications for use in monitoring, tracking, and reporting tire pressure and temperature; tire pressure management and monitoring systems comprising sensors, operating software, and computer hardware; tire

pressure management and monitoring systems primarily comprising sensors, operating software, and computer hardware for measuring and transmitting tire deflection and pressure data; tire pressure or temperature monitoring systems primarily comprising software for monitoring tire pressure and temperature, low tire pressure automatic indicators, tire pressure gauges, electric sensors, tire pressure sensors or temperature sensors, signal transmitters, signal receivers, and electronic display interfaces; sensors for detecting deterioration of road surface; sensors for detecting deterioration of bridge joints; electronic machines and apparatus for use in detecting, monitoring and transmitting deterioration of road surface, namely, computer hardware, computer software, sensors for measuring road surface, transmitters and receivers; electronic machines and apparatus for use in detecting, monitoring and transmitting deterioration of bridge joints namely, computer hardware, computer software, sensors for measuring bridge joint deterioration, transmitters and receivers; computer software for detecting, measuring and monitoring deterioration of road surface in the fields of route planning and optimization, navigation, and optimization of vehicle fleet organization and operation; computer software for detecting, measuring and monitoring deterioration of bridge joints in the fields of route planning and optimization, navigation, and optimization of vehicle fleet organization and operation

## **Services**

### **Class 35**

(1) Computerized inventory management featuring tracking of tires to others; subscription management services in relation to hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and vehicle parts; information, advice and consultancy provided in relation to subscription management services in the field of hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and vehicle parts; computerized on-line ordering services in the field of tires that allows consumers to track, locate and monitor tires; computerized database management in relation to tracking, locating and monitoring vehicles; computerized database management in relation to tracking, locating and monitoring tires; business management services, namely managing fleet of commercial motor vehicles, vehicle performance, and workforce; business consulting services relating to operations management services, logistics, transportation and distribution solutions, vehicle maintenance, and optimised driving costs.

### **Class 37**

(2) Installation, maintenance and repair of telematics and navigation apparatus for vehicles, namely, wireless Internet-enabled devices in the nature of on-board computers, GPS receivers and GPS transmitters that provide telematics services and have cellular phone function and transmit vehicle data, messages and information, namely, information about vehicle maintenance and tire pressure and tire temperature, and information, advice and consultancy provided in relation to all the aforesaid services; installation, maintenance and repair of apparatus for locating vehicles, anti-theft equipment for vehicles, electronic navigation and tracking apparatus for use in vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; inspection of tires and vehicles prior to maintenance and repair, and information, advice and consultancy provided in relation to all the aforesaid services; providing information on tire pressure and tire temperature for maintenance of vehicle tires via telecommunication networks; providing information about tire maintenance, tire retreading, and usage of tires to consumers, tire dealers, service providers and fleet managers; tire retreading, namely, retreading tires, and providing advice, repair and maintenance information in the field of retreading tires; consultancy, information and inspection services relating to repair and maintenance of tires and vehicles; consultancy, information and inspection services relating to retread of tires; consultancy, information, advice

and inspection services relating to tire maintenance to prevent tire deflection, to safe maintenance and repair of vehicles; inspection of tires and vehicles prior to maintenance and repair or retreading of tires; maintenance, installation and replacement services provided in relation to tires and vehicle parts; repair, inspection prior to potential maintenance and repair, installation, replacement, maintenance of aircraft, namely, tires for aircraft and wheels for aircraft, and information, advice and consultancy services relating to the aforesaid services.

### **Class 38**

(3) Telecommunications services, namely, providing electronic transmission of vehicle and tire data via a global computer network; providing electronic transmission of digital vehicle and tire data, namely, data relating to transmissions for motor vehicles, electrical anti-theft installations for vehicles, navigation apparatus for vehicles in the form of on-board computers, and telematic in-vehicle communication devices, namely, transmitters and receivers for providing wireless vehicle navigation and tracking; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; telecommunications services, namely, providing multiple user access to information relating to traffic, transport and roadworks via a global computer network; broadcasting services relating to traffic, transport and roadworks, namely, broadcasting of information relating to traffic, transport and roadworks via the Internet, and satellite broadcasting of information relating to traffic, transport and roadworks; wireless digital messaging services, namely, electronic mail services via in-vehicle driver terminals; telecommunications services, namely, providing access to a global computer network for the purpose of loading and automatically updating maps, firmware and software over the air; providing temporary access to non-downloadable software providing map images and geographical and itinerary information obtained with the aid of a global positioning system [GPS] to enable others to determine locations or directions accurately; secure and non-secure telecommunications services, namely, providing electronic transmission of digital data relating to navigation apparatus for vehicles in the form of on-board computers, route planners, and electronic maps via a global computer network

### **Class 39**

(4) Transport, namely, transport of goods and passengers by air, rail, ship, bus, tram and truck, and information, advice and consultancy provided in relation to all the aforesaid services; tracking and tracing of vehicles in transit, and information, advice and consultancy provided in relation to all the aforesaid services; providing of navigation and information services, namely information relating to traffic, road conditions and traffic jams, and information, advice and consultancy provided in relation to all the aforesaid services; provision of information relating to travel, and information, advice and consultancy provided in relation to all the aforesaid services; consultancy relating to traffic, journeys and roadworks, namely monitoring traffic and receiving alerts from vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; logistics and fleet management namely tracking, locating and monitoring vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; rental of tires, and information, advice and consultancy provided in relation to all the aforesaid services; advisory services relating to the storage of tires.

### **Class 42**

(5) Consultancy in the field of computer software design; development and design of navigation systems and route planners; computer software and hardware design; development and design of computer software for use with navigation systems and route planners and with electronic maps and digital dictionaries; design and development of wireless computer networks; software as a service [SaaS] featuring software for tracking and monitoring in the field of fleet management;

design of software for compiling and recovering information on the location of vehicles, route reconstruction, driver activities; preparation, update, installation and maintenance of computer software; design and development of databases on traffic and information relating to travel; design and testing of new products for others; design, maintenance and development of computer software for use in relation to the replacement, repair, inspection, installation, monitoring, management, maintenance, leasing, ordering, purchase or hire purchase of tires, vehicle parts, vehicles and groups of vehicles; quality control services, namely monitoring, checking and testing status of tires, vehicle parts, vehicles and groups of vehicles; technical analysis and technological consulting services related to the selection, condition, maintenance, retreading or replacement of vehicle tires; technical analysis and technological consulting services related to the selection, condition, maintenance or replacement of vehicle component parts, spare parts and accessories; providing an online platform for managing information and data associated with tires, vehicle parts, vehicles and groups of vehicles; provision of technical reports and scientific information in relation to tires, vehicle parts, vehicles and groups of vehicles; provision of technical notifications and technical reports concerning tires, vehicle parts, vehicles and groups of vehicles; technical support and consultancy in the form of monitoring global computer network systems; secure or non-secure storage services of digital data, namely the electronic storage of digital data, photographs, audio files, data, information and image signals, all in particular for navigation systems, route planners and the use of electronic maps; inspection services provided in relation to tires; technical data analysis of vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; technical data analysis of bicycles and bicycle components, namely, tires, brakes, batteries and default signals; analysis of research data and statistics relating to vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; analysis of research data and statistics relating to bicycles and bicycle components, namely, tires, brakes, batteries and default signals; providing technological information, consultancy and advice in relation to vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; providing technological information, consultancy and advice in relation to bicycles and bicycle components, namely, tires, brakes, batteries and default signals; providing technological information, consultancy and advice in relation to course of action to solve problem of vehicles and vehicle components, namely, tires, brakes, batteries, engine oils and default signals; providing technological information, consultancy and advice in relation to course of action to solve problem of bicycles and bicycle components, namely, tires, brakes, batteries and default signals; providing technological information, consultancy and advice in relation to deterioration of road surface, bridge joints.

(6) Inspection services provided in relation to vehicle parts

#### Class 06

(1) Metal junctions for pipes; metal flanges; valves of metal, not being parts of machines, namely, manually operated ball valves of metal, manually operated butterfly valves of metal, manually operated diaphragm sampling valves of metal, manually operated gate valves of metal, manually operated check valves of metal; water-pipe valves of metal; pipework of metal; antiseismic construction materials of metal; construction materials of metal, namely, reinforcement materials for building; reinforcing materials of metal for pipes; nuts of metal; water tanks of metal for household purposes; steel frames for building; industrial stainless steel water tanks; containers of metal for transport; storage containers of metal; rubber covered metal chains for preventing bridge collapse.

#### Class 07

(2) Construction machines and apparatus, namely, earth moving machines, namely earth haulers, earth moving scrapers, excavators, road scrapers, motor graders, backhoes, loaders, namely front-end loaders, back-hoe loaders, skid steer loaders, cranes, asphalt pavers, earth compacting machines, belt conveyors, pipe conveyors and hoses being parts of construction machines and parts and fittings for the aforesaid goods; cargo handling machines and apparatus, namely, cargo lifting derricks, and unmanned robots being cargo handling machines, and parts and fittings for the aforesaid goods; mining machines and apparatus, namely, earth moving machines in the nature of earthmovers, namely, earth haulers, earth moving scrapers, scrapers, motor graders, shovel loaders, bulldozers, wheeled cranes, cranes, compact track loaders, multi terrain loaders, belt conveyors, overland conveyors, pipe conveyors, inclined conveyors, coal loaders, mineworking machines, namely, machines for geological, mining and ore exploration, drills for mining, extractors for mines, mine borers, mine winches, and ore treating machines and parts and fittings for the aforesaid goods; rubber tracks for use with crawlers on agricultural machinery, and parts and fittings for the aforesaid goods; rubber tracks for use with crawlers on mining machinery, and parts and fittings for the aforesaid goods; rubber tracks for use with crawlers on construction, cargo handling machinery, and parts and fittings for the aforesaid goods; rubber pads to be attached to

working machines, non-electric prime movers, pneumatic or hydraulic machines, repairing and fixing machines, mechanical parking systems, vehicle washing installations, power sprayers for disinfecting, insecticides and deodorants, lawnmowers, curtain drawing devices electrically operated, waste compacting machines and waste crushing machines; hydraulic connectors (pipes) being parts of metalworking machines, mining machines, construction machines, loading-unloading machines, fishing machines, chemical processing machines, textile machines, food processing machines, beverage processing machines, lumbering machines, woodworking machines, veneer or plywood making machines, pulp making machines, papermaking machines, paper-working machines, printing machines, bookbinding machines, agricultural machines, shoe making machines, leather tanning machines, tobacco processing machines, glassware manufacturing machines, painting machines, packaging or wrapping machines, plastic processing machines, semiconductor manufacturing machines, rubber goods manufacturing machines, stone working machines, non-electric prime movers, pneumatic or hydraulic machines, repairing and fixing machines, mechanical parking systems, vehicle washing installations, power sprayers for disinfecting, insecticides and deodorants, lawnmowers, curtain drawing devices electrically operated, waste compacting machines and waste crushing machines; tire repairing machinery, namely, power-operated machines for repairing tires; pressure chambers as parts of tire repairing machinery; tire buffers as parts of tire repairing machinery; tire tread rollers and stitchers, as parts of tire repairing machinery; tire tread cutters and bonding agent applicators used in recapping tires as parts of tire repairing machinery; pneumatic shock absorbers (air springs, for machine elements not for land vehicles); rubber springs for non-vehicular suspension systems; screen filters made of plastic for mining machines and apparatus; screen filters made of plastic for stone working machines and apparatus; fuel dispensing machines for service stations; gasoline pumps for service stations.

### **Class 09**

(3) Batteries, namely, automotive batteries, batteries for mobile phones, electric batteries for powering electric vehicles, general purpose batteries, ignition batteries; solar batteries; telecommunication machines and apparatus, namely, computer network routers, multiplexers, computer hardware for telecommunications, computer hardware and recorded software for setting up and configuring wide area networks, telecommunication apparatus for measuring, monitoring, and transmitting tire pressure and tire temperature, namely, radio transmitters and receivers, satellite transmitters, GPS transmitters, telephone transmitters, video transmitters, audio- and video-receivers, temperature sensors, and tire pressure sensors; facsimile machines; electronic machines, apparatus and their parts, namely, electronic measurement machines and instruments for measuring, monitoring, and transmitting tire pressure and tire temperature, namely, electronic apparatus comprising temperature sensors, tire pressure sensors, radio antennas, radio transmitters and receivers, and computer software for monitoring tire pressure and tire temperature; electronic displays utilizing electronic paper technology, namely, computer display monitors; computers; structural parts of computer printers, facsimile machines and photocopying machines, namely, transfer rollers, toner supply rollers and development rollers; measuring apparatus and instruments, namely, pressure gauges, pressure sensors, lasers for measuring purposes; measuring and testing machines and instruments, namely, sensors and gauges for measuring and testing the temperature and pressure of oil, water, automotive fluids, and air in engines, motors, drive trains, transmissions, and tires; alarm devices for tire pressure; measuring and alarm devices for tire pressure; pressure gauges in vehicle tires; tire pressure gauges; gasoline gauges; rubber testing machines; photographic machines and apparatus in the nature of photographic cameras and accessories therefor, namely, camera tripods, camera monopods, camera shutters, self-timers for cameras, film magazines for cameras, lens filters for cameras,

straps for cameras; cinematographic machines and apparatus, namely, cinematographic cameras, cinematographic projectors, colour filters for television and cinematographic cameras, editing appliances for cinematographic films, projection screens for cinematographic films; cameras; dust masks; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; weight belts for scuba diving; downloadable music files; downloadable image files; downloadable electronic publications in the nature of books, newsletters, magazines, pamphlets, workbooks, journals, and hand-outs provided on-line from databases and the Internet; electric batteries, namely, electric batteries for cameras, electric batteries for portable computers, electric batteries for powering electric vehicles, electric batteries for smartphones, electric batteries for watches and electric storage batteries; batteries, electric, for vehicles; sunglasses; battery chargers for mobile phones; fire hoses; computer software for monitoring, analyzing flight data and predicting treadwear of tires; checking (supervision) apparatus and instruments, namely, tire depth gauges, tools to detect cracks on products by means of camera, light or air; holders for hand-held computers; satellite transmitters and receivers, radio transmitters and receivers; signaling apparatus and instruments, namely, flashing safety lights for vehicles and flashing safety lights for traffic cones; software for operating electronic digital dictionaries; telecommunications installations, networks and apparatus, namely, radio transmitters and receivers, satellite transmitters, GPS transmitters, telephone transmitters, video transmitters, audio- and video-receivers, mobile phones; mounting racks for telecommunications computer hardware; telematics apparatus, namely wireless Internet-enabled devices in the nature of on-board computers, GPS receivers and GPS transmitters which provide telematics services and have a cellular phone function; barcode scanners; two-dimensional code scanners; printers, namely, thermal printers, inkjet printers, laser printers; surveying instruments; computer hardware and software for use with satellite and GPS navigation systems for navigation purposes; computer software for operating satellite navigational systems and global positioning systems [GPS], and for use of global positioning systems [GPS] for tracking, locating and security of vehicles and objects; computer software for use with route planners, electronic maps and digital dictionaries for navigation purposes; computer terminals, all in particular for the use of navigation systems, route planners, and digital maps; downloadable electronic maps; global positioning systems [GPS] consisting of computers, computer software, transmitters, receivers, and network interface devices; location, orientation and navigation, and global positioning systems [GPS] consisting of computers, computer software, transmitters, global positioning system [GPS] receivers and satellite receivers; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; navigation apparatus for vehicles in the nature of on-board computers; route planners in the form of hand-held personal computers (hand-held computers); satellite navigational systems, namely global positioning systems consisting of satellites, computers, computer software, transmitters, receivers, and network interface devices; computer software for database management in the field of transportation and traffic; software for management and maintenance of groups of vehicles, namely, software for tracking and monitoring vehicles, and for scheduling and management of vehicle maintenance, for use in the field of vehicle management; software for operating route planners; software for in-vehicle navigation and entertainment systems for providing and displaying travel advice on petrol stations, car parks, restaurants, hotels and car dealers; computer software for displaying orders and vehicle locations on maps; software to indicate maintenance requirements and maintenance scheduling for vehicles; vehicle locating, tracking and security systems comprised of antennas and radio transmitters to be placed in vehicles; vehicle locator and recovery devices programmed to use global positioning systems [GPS] and cellular telecommunications; downloadable electronic databases containing information relating to tires, vehicle parts, vehicles and groups of vehicles; electronic publications relating to tires, vehicle parts, vehicles and groups of vehicles; electronic reports relating to tires, vehicle

parts, vehicles and groups of vehicles; electronic sensing, checking, monitoring and communication devices used in relation to vehicles, tires, vehicle parts and groups of vehicles, namely, telecommunication devices comprised of receivers, transmitters and computer hardware and software for collecting, tracking, storing, managing, reporting, and transmitting tire and vehicle telematics data; electronic sensors for tires, vehicles and vehicle parts, namely, temperature sensors, pressure sensors, acceleration sensors, distance sensors, velocity sensors, tire abrasion sensors, and road surface condition sensors; downloadable software for arranging and managing subscription services relating to monitoring, maintenance, replacement and purchase of tires and vehicle parts; downloadable software for arranging the replacement, repair, inspection, installation, monitoring, management, maintenance, ordering and purchase of tires, vehicle parts and vehicles; software used in relation to tires, vehicle parts, vehicles and groups of vehicles, namely, computer software for collecting, tracking, storing, managing, reporting, and transmitting tire and vehicle telematics data; downloadable software applications for use in monitoring and tracking tires and tire data, namely, tire deflection data, tire pressure data, tire abrasion data, vehicle speed data, and road surface condition data; computer software for vehicle fleet management; computer software for use in managing, tracking, and optimizing fleet operation costs and productivity based on commercial fleet tire data; computer software for use in monitoring tracking and reporting tire treadwear data, and predicting potential risky driving conditions for tires and allow vehicles to react to such conditions to prevent accident; downloadable software applications for analyzing treadwear of tires based on pictures; accident preventing systems primarily comprising sensors, namely, proximity sensors, pressure sensors, vehicle speed sensors, tire rotation speed sensors, computer software and computer hardware for measuring and transmitting tire treadwear data; tire treadwear detecting systems primarily comprising treadwear detecting sensors, low tire pressure automatic indicators, electric sensors, namely, pressure sensors, GPS and radio transmitters, GPS and radio receivers, and electronic display interfaces, namely, display screens; computer software for reporting the performance and condition of tires in retreading tires; computer software for tire retread dealers to track, photograph, and provide receipts for retreaded tires; computer software for tracking inventory of retread tires; computer software for information tracking and reporting functions in the retread tire business in the field of customer relationship management, supply chain management, human services, and financial applications, all designed to help businesses in the retread, commercial, retail and wholesale tire industry; tire pressure monitoring systems comprising a computer, pressure sensors, radio, GPS, and satellite antennas, GPS and radio transmitters, GPS and radio receivers and computer software for measuring and transmitting tire pressure data; tire pressure and temperature monitoring and measuring machines and instruments; electronic machines and apparatus for measuring, monitoring and transmitting tire pressure and tire temperature comprising sensors, namely, tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, GPS and radio antennas, GPS and radio transmitters, GPS and radio receivers, display screens, personal digital assistants, mobile telecommunication terminals, namely, smart terminals, smart phones, smart tablets and computer software for measuring, monitoring and transmitting tire pressure and tire temperature; electronic machines and apparatus for technological and scientific use comprising tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, radio antennas, GPS antennas, wireless transmitters and receivers, namely, GPS and radio transmitters and receivers, and computer software for monitoring tire pressure; computer software for monitoring vehicle drive information, vehicle kinetic information and tire pressure information; terminal devices, namely, computer terminals for collecting and storing information and data measured and saved by on-demand remote monitors and transmitters; data transmitting devices for telecommunication, namely, telecommunication transmitters in the nature of GPS transmitters and satellite transmitters,

television transmitters, radio transmitters; computer software for monitoring and managing pressure in tires; tire pressure management and monitoring systems comprising sensors, namely, tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, computer software for measuring, monitoring and transmitting tire pressure data, and computer hardware; downloadable software applications for a mobile device or computer for use in monitoring, tracking, and reporting tire pressure and temperature; tire pressure management and monitoring systems primarily comprising sensors, namely, tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, computer software and computer hardware for measuring and transmitting tire deflection and pressure data; tire pressure and tire temperature monitoring systems primarily comprising downloadable software for monitoring tire pressure and tire temperature, low tire pressure automatic indicators, tire pressure gauges, electric sensors, namely, tire pressure sensors, tire temperature sensors, tire abrasion sensors, vehicle speed sensors, and road surface condition sensors, GPS and radio transmitters, GPS and radio receivers, and electronic display interfaces, namely, display screens.

#### **Class 10**

(4) Artificial limbs; rubber soles for artificial limbs; artificial limbs for animals.

#### **Class 11**

(5) Water-pipes for sanitary installations; water control valves for faucets; tap water faucets; level controlling valves in tanks; pipe line cocks.

#### **Class 12**

(6) Automobiles and their parts and fittings; vehicle tires; tires for passenger cars; tires for trucks; tires for buses; tires for racing cars; tires for automobiles; retreaded tires for passenger cars; retreaded tires for trucks; retreaded tires for buses; retreaded tires for racing cars; retreaded tires; retreaded tires for automobiles; inner tubes for passenger cars; inner tubes for trucks; inner tubes for buses; inner tubes for racing cars; inner tubes for automobiles; wheels and rims for passenger cars; wheels and rims for trucks; wheels and rims for buses; wheels and rims for racing cars; wheels and rims for automobiles; tread rubber for retreading tires for vehicles, namely, passenger cars, trucks, buses, and racing cars; two-wheeled motor vehicles and their parts and fittings; tires for two-wheeled motor vehicles; inner tubes for two-wheeled motor vehicles; wheels and rims for two-wheeled motor vehicles; bicycles and their parts and fittings; tires for bicycles; inner tubes for bicycles; wheels and rims for bicycles; aircraft and their parts and fittings; tires and inner tubes for aircraft; adhesive rubber patches for repairing tubes or tires; tread rubber for retreading tires for two-wheeled motor vehicles or bicycles; tread rubber for retreading tires for aircraft; treads used to retread tires for tires of automobiles, two-wheeled motor vehicles, bicycles, and aircraft; preformed tire treads for tires of automobiles, two-wheeled motor vehicles, bicycles, and aircraft; rubber patches for repairing tire treads for vehicles, namely, automobiles, passenger cars, trucks, buses, racing cars, two-wheeled motor vehicles, bicycles and aircraft; shock absorbers, machine elements for land vehicles; springs, machine elements for land vehicles; air springs, machine elements for land vehicles; mechanical elements for land vehicles, namely, front derailleurs, rear derailleurs, gearing mechanisms in the nature of gear changing mechanisms, namely, speed change gears for land vehicles, transmissions and gear trains for land vehicles, suspension springs, brake levers, front brakes, rear brakes, brake cables, brake shoes, brakes for land vehicles, engine mounts for land vehicles, axle boot kits, suspension struts, drive shafts for land vehicles, shock absorbers, air springs for vehicle suspension, valves, namely, valve stems for vehicle tires, valves for vehicle tires, cocks for steam brakes, brake cylinders; shaft couplings or connectors, machine elements for land vehicles; vessels in the form of boats and ships and their

structural parts; fenders for vessels (boat side protectors); seat cushions for vehicles; air springs for railway cars; vehicle bumpers; suspension shock absorbers for vehicles; suspension springs for vehicles; tires for off-the-road automobiles, two-wheeled motor vehicles and bicycles; off-the-road vehicles and their parts and fittings; off-the-road two-wheeled vehicles and bicycles and their parts and fittings; tires for tractors; tires for agricultural vehicles; tires for container handling vehicles; rubber tracks for use with crawlers on snowmobiles; rubber tracks for use with crawlers on all terrain vehicles; rubber tracks for use with crawlers on automobiles; tires for lunar rovers; tires for scrapers; tires for motor graders; tires for shovel loaders; tires for tire rollers; tires for wheeled cranes; tires for cranes; tires for snow plows; tires for pavers; tires for mining machinery; cigar lighters for automobiles; cargo handling machines and apparatus, namely, cargo handling vehicles, namely, forklift trucks.

### **Class 17**

(7) Gaskets of metal; valves of rubber or vulcanized fiber [not including machine elements]; flexible tubes, not of metal, namely, flexible tubes consisting of artificial resins such as PVC and Plybutene for plumbing purposes, for use with ventilation systems, for use as connecting hoses in vehicles and industrial machines; junctions for pipes, not of metal; nonmetal gaskets for vehicles, not for vehicle engines; joint packings for sealing purposes, namely, joint packings for valves, cylinders, shafts, bearings, belts, straps, bands, and sliding and rotating joints and joint packings for pipes, namely, metal and plastic pipes for machines, and metal and plastic pipes for chemical plants; sealants for use in building, namely, adhesive sealants for use in construction; floating anti-pollution barriers; packaging containers of rubber; hydraulic hoses, not of metal, namely, hydraulic hoses of plastic and hydraulic hoses of rubber; semi-processed plastics; plastic sheets, namely, adhesive-coated plastic sheets; plastic sheets for use as interlayers for laminated glass; EVA (ethylene vinyl acetate) film for solar batteries; EVA (ethylene vinyl acetate) film for solar cells; urethane foam rubber; thermoplastic elastomers used as materials for buffers of HDD; flexible pipes and tubes of plastic for use in land vehicles, industrial machines, and buildings; flexible rubber tubes for use in land vehicles, industrial machines, and buildings; plastic sheets for use as adhesives in solar batteries, inserted between glasses and glasses, glasses and plastics, or plastics and plastics; rubber, namely, raw rubber and semi-worked rubber; synthetic rubber; natural rubber; rubber compounds, namely, rubber compound for use as an integral component of flexible pipes, tubes, and hoses not of metal, rubber tracks, and rubber compounds for the use in manufacture of tires; rubber material for retreading and repairing tires and repairing tubes; rubber material for recapping tires; seals, namely, sealing plugs made primarily from rubber and insulating seals made primarily from thermoplastic elastomer for use as automotive engine seals, non-metallic seals for preventing leakage of fluids, non-metallic seals for shock absorbers, pipe connection seals.

### **Class 18**

(8) Bags, namely, barrel bags, athletic bags, backpacks, duffle bags, book bags, sports bags, bum bags, wallets, handbags, camera bags, tool bags, all-purpose carrying bags, travel bags; pouches; shopping bags; bags for sports; rucksacks; travelling bags; handbags; wheeled shopping bags; net bags for shopping; purses; school bags; bags (envelopes, pouches) of leather for packaging; industrial packaging containers of leather; umbrellas; parasols; card cases; key cases (leatherware); vanity cases, not fitted.

### **Class 19**

(9) Rigid pipes, not of metal, for building, namely, rigid pipes for construction purposes consisting of artificial resin such as PVC and Polybutene; rubber building materials, namely, rubber flooring, rubber cove bases, rubber ceilings, rubber roof, rubber underground pipes and tanks, flexible

rubber pipes; building stone; antiseismic construction materials, not of metal; rubber bearings for seismic isolation of buildings; rubber building materials for seismic isolation, namely, rubber bearings for seismic isolation of buildings; non-metallic building materials, namely, non-metal ceiling panels, non-metal door casings, non-metal door frames, non-metal drain pipes, non-metallic roof flashing, non-metal roofing incorporating solar cells, non-metal stairs, and non-metallic paving tiles and paving slabs; roofing waterproof membranes; rubber covered non-metal chains for preventing bridge collapse; man-made garden ponds (structures, not of metal).

### **Class 20**

(10) Industrial water storage tanks of plastic; valves of plastic, other than machine parts, namely, water-pipe valves of plastic; tanks, not of metal nor of masonry, namely, polyethylene liquid storage tanks for industrial purposes; chests, not of metal, namely, furniture chests; desks; chairs; mirrors; bathroom vanities (furniture); bookcases; cushions; Japanese floor cushions [zabuton]; pillows; mattresses; cases of wood, namely, display cases; bamboo and plastic containers for packaging; fans for personal use, non-electric; water tanks for household purposes not of metal or masonry; hairdresser's chairs.

### **Class 24**

(11) Towels of textile; handkerchiefs; labels (cloth); sleeping bags for camping.

### **Class 25**

(12) Clothing for sports; sports footwear; wind jackets; wristbands; golf shoes; golf spikes; spiked golf shoes; cyclist's suits of jerseys for racing; cyclist's pants for racing; cyclist's overalls; clothing; golf trousers; golf caps; golf shirts; golf pants; golf skirts; jackets; jogging pants; sweat pants; trousers; overcoats; raincoats; sweaters; sport shirts; camisoles; shirts; undershirts; underpants; thermal underwear; vests; open-necked shirts; polo shirts; neck scarves [mufflers]; socks; scarfs; gloves; gloves for bicycling; neckerchieves; thermal supporters [clothing]; fur muffs; ear muffs; hats; caps (clothing); visors; sports shoes; walking shoes; shoes; casual footwear; Japanese style coats [happi]; aprons; gloves for bicycle racing; gloves for cycling.

### **Class 28**

(13) Home video game machines; toys, namely, toy models, Puppets, model toy vehicles, ride-on toys, toy scooters, water toys, toy tools, toy cars, toy construction sets, inflatable pool toys, pet toys, soft sculpture toys, toy robots, toy drones, radio-controlled toys; dolls; miniature cars; four-wheeled toy vehicles; rubber balls; tricycles for infants; model vehicles; golf clubs; golf bags; golf balls; golf gloves; golf club heads; golf club head covers; golf irons; golf putters; golf equipment, namely, golf training equipment, namely, motorized golf chipping practice aid, golf training cage; sports bags shaped to contain specific sports apparatus; tennis rackets; tennis balls

## **Services**

### **Class 35**

(1) Retail and wholesale store services featuring automobile accessories, tires and parts and fittings for automobiles, sporting goods, bicycles and parts and fittings for bicycles; subscription management services provided in relation to hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and vehicle parts; information, advice and consultancy provided in relation to subscription management services provided in relation to hire, leasing, rental, replacement, repair, inspection, maintenance, monitoring, management and hire purchase of tires and vehicle parts; inventory and order management services relating to tires; computerized database management in relation to tracking, locating and monitoring vehicles, or tires; business management services, namely managing fleet of commercial motor vehicles, vehicle performance, and workforce; business consulting services

relating to operations management services, logistics, transportation and distribution solutions, vehicle maintenance, and optimised driving costs.

### **Class 37**

(2) Repair and maintenance of automobiles and their parts, and information, advice and consultancy provided in relation to all the aforesaid services; repair and maintenance of tires for automobiles, and information, advice and consultancy provided in relation to all the aforesaid services; retreading of tires, and information, advice and consultancy provided in relation to all the aforesaid services; repair and maintenance of two-wheeled motor vehicles and their parts, and information, advice and consultancy provided in relation to all the aforesaid services; repair and maintenance of tires for two-wheeled motor vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; repair and maintenance of bicycles and their parts, and information, advice and consultancy provided in relation to all the aforesaid services; repair and maintenance of tires for bicycles, and information, advice and consultancy provided in relation to all the aforesaid services; repair and maintenance of tires for aircraft, and information, advice and consultancy provided in relation to all the aforesaid services; aircraft repair and maintenance, and information, advice and consultancy provided in relation to all the aforesaid services; tire repair and recapping services, and information, advice and consultancy provided in relation to all the aforesaid services; roofing services, and information, advice and consultancy provided in relation to all the aforesaid services; construction, and information, advice and consultancy provided in relation to all the aforesaid services; roof repair, and information, advice and consultancy provided in relation to all the aforesaid services; roof installation, and information, advice and consultancy provided in relation to all the aforesaid services; installation, maintenance and repair of telematics and navigation apparatus for vehicles, namely, wireless Internet-enabled devices in the nature of on-board computers, GPS receivers and GPS transmitters that provide telematics services and have cellular phone function and transmit vehicle data, messages and information, namely, information about vehicle maintenance and tire pressure and tire temperature, and information, advice and consultancy provided in relation to all the aforesaid services; installation, maintenance and repair of apparatus for locating vehicles, anti-theft equipment for vehicles, electronic navigation and tracking apparatus for use in vehicles, and information, advice and consultancy provided in relation to all the aforesaid services; inspection of tires and vehicles prior to maintenance and repair, and information, advice and consultancy provided in relation to all the aforesaid services; providing information on tire pressure and tire temperature for maintenance of vehicle tires via telecommunication networks; providing information about tire maintenance, tire retreading and usage of tires to consumers, tire dealers, service providers and fleet managers; tire retreading, namely, retreading tires, and providing advice, repair and maintenance information in the field of retreading tires; consultancy, information and inspection services relating to repair and maintenance of tires and vehicles; consultancy, information and inspection services relating to retread of tires; consultancy, information, advice and inspection services relating to tire maintenance to prevent tire deflection, driving risk and safe driving of vehicles; inspection of tires and vehicles prior to maintenance and repair retreading of tires; maintenance, installation and replacement services provided in relation to tires and vehicle parts; repair, inspection prior to potential maintenance and repair, installation, replacement, maintenance of aircraft, namely, tires for aircraft and wheels for aircraft, and information, advice and consultancy services relating to the aforesaid services.

**THE  
BOTTLER  
IDEPOTI**

**Trademark Description**

The mark consists of wording partially encased within a border. The three words comprising the mark appear on three different lines. Appearing on the first line in the upper center space within the border is the word "THE". On the second line the word "BOTTLE" overlaps the center of the border, making it borderless towards the center. Between the two "T's" of the word "BOTTLE" there is a visual effect with the upper letter "H" that shows the form of a bottle within the letters. Finally on the third line appears the word "DEPOT". All fonts in regular bold type font, and sizes, except the middle word "BOTTLE" which is significantly bigger

**Disclaimer**

The right to the exclusive use of the word "BOTTLE" is disclaimed apart from the trademark.
