Trademarks Journal

2024-10-30 — Vol. 71 No. 3653

Trademarks Journal

Vol. 71 No. 3653

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Certification Mark Standard

The goods shall be produced and the services performed in conformity with the defined Economic Nutrition standard, which requires that: (I) The labour costs will be a minimum of 10% of the total input costs incurred in the production of the goods or services. The certified organizations that are licensed to use the certification mark shall demonstrate accountability to its members by publicly disclosing their expense categories, that must collectively represent 100% of input costs for the goods or services, with the certified organization's labour costs being a minimum of 10% of their total input costs. (II) A minimum of 10% of the input costs incurred in the production of the goods or services are to be locally sourced. The certified organizations that are licensed to use the certification mark shall demonstrate accountability to its members by publicly disclosing the percentage breakdown of input costs sourced from each of the local, provincial, national, and global economies, relative to the certified organization's business location, with a minimum of 10% of input costs being sourced from the local region. Certified organisations shall publicly disclose the foregoing information by publishing it on the certified organization's website, on a label affixed to the goods or their packaging, on a sign displayed in the certified organisation's store selling the goods or services, or on a handout available at the time of purchase of the goods or services.

Goods

Class 03

(1) Polishing wax

Class 06

- (2) Door stops of metal
- (3) Fence posts of metal used in the field of woodworking
- (4) Metal couplers
- (5) Fittings of metal for furniture
- (6) Metal screws

Class 07

- (7) Accessories for routers, namely bushing and base plates, router tables, router table tops, fences and support tools
- (8) Accessories for lathes, namely face-plate adapters

Class 08

(9) Hand Tools, namely, vises, awls, axes, backsaws, burnishers, carving tools for use in the field of woodworking, chisels, clamps for use in the field of woodworking, clamp heads, cornering tools, hand operated marking dividers, dowelling jigs, drawknives, grinding jigs, hand-operated hammers, hand saws, hand-operated honing guides for woodworking, honing stones, log scribers, mallets, planes, scrapers for use in the field of woodworking, screwdrivers, spokeshaves, sharpening stones, hoes, work holding tools and stops in the field of woodworking, screw lifters, hand-operated cutting tools, namely hand-operated hack saws and hand-operated jig-saws, abrading tools, hand tool punches, beading tools, pullshaves, dowel formers, pocket knives, sanding blocks, gardening tools; replacement parts and accessories for hand operated planes, namely, blades, cases for plane blades, holders for plane blades, board tracks for use with hand-operated planes, cutting frogs for hand-operated planes, handles, cutter heads, tote handles for hand operated planes, cap irons and knobs; Hand tools, namely, reamers.

Class 09

(10) Measuring and marking tools, namely, marking gauges for joinery purposes, squares for measuring, angle gauges, measuring rules, marking rules, magnifying glasses, plumb bobs, bevels, all for use in the field of woodworking and calipers

Class 14

(11) Field watches

Class 16

(12) Notepads; Instruction manuals in the field of woodworking; Pencils for drawing; Compasses for drawing; Marking and measuring tools, namely marking templates, squares for drawing and center markers, all for use in the field of woodworking

Class 18

(13) Tips specially adapted for walking sticks, walking staffs and canes; reusable shopping bags

Class 20

(14) Work benches; Non-metal support brackets for use in the field of woodworking; Non-metal shims

Class 25

(15) Hats, namely baseball caps and hats, hooded sweatshirts; Suspenders; Promotional t-shirts; Aprons

Goods

Class 09

(1) Downloadable electronic publications in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors; Downloadable applications for handheld computers and mobile phones to provide information in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors;

Class 16

(2) Printed publications in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors;

Services

Class 35

(1) Providing facilities for developing businesses, namely emerging and start-up companies; business management consultancy services; developing and coordinating volunteer programs for students; providing work experience placements for secondary and post-secondary school students in the fields of science, computer technology, biotechnology, business technology, mechanical technology, manufacturing technology, communications technology, medical technology, industrial technology, civil engineering, mechanical engineering, electrical engineering, chemical engineering, industrial engineering, computer engineering, software engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors;

Class 41

(2) Conducting courses of instruction through in-person and virtual classrooms at the high school level; conducting courses of instruction through in-person and virtual classrooms at the elementary school level; conducting courses of instruction through in-person and virtual classrooms at the post secondary school level; Providing training and work terms for secondary and post-secondary school students in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors; Educational and training services, namely, providing classes, seminars, conferences, workshops, mentoring, and tutoring in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors; Providing non-downloadable electronic publications in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors; Providing a website featuring information in the fields of science, technology, engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors; Providing facilities for community groups; developing mentorship programs for students;

Class 42

(3) Providing information in the fields of science, computer technology, biotechnology, business technology, mechanical technology, manufacturing technology, communications technology, medical technology, industrial technology, civil engineering, mechanical engineering, electrical engineering, chemical engineering, industrial engineering, computer engineering, software engineering, arts, mathematics, skilled trades, nuclear energy, low-carbon energy, energy production, nuclear energy technology, artificial intelligence, machine learning, cybersecurity, radiation, medicine, public health, impact of radiation on biological systems, medical and occupational radiation exposure, scientific research, medical isotopes, isotopes for use in medicine, chemistry, physics, energy environmental issues and material sciences, environment, climate change, invasive species, changes in populations of native species, and small modular reactors via a website.

Class 43

(4) Providing facilities for community groups, namely, providing boardrooms, meeting rooms, banquet and social function facilities, and convention hall facilities for community groups;

Colour Claim

Colour is claimed as a feature of the trademark. The large oval shape is a heraldic shield featuring the historical coat of arms of Collège Stanislas. A large yellow cross pattée extends across the entire height and width of the oval shield, dividing it into four geometric shapes, or quarters, as follows: two blue geometric shapes, one being the first quarter in the upper left and the other being the second quarter in the lower right, each containing a yellow book partially obscuring a yellow laurel branch, and two red geometric shapes, with one being the third quarter in the upper right and the other being the last quarter in the lower left, each containing a white armoured rider holding a white sword above of his head in his right hand and a white shield in his left hand while mounted on a rearing white horse. The large oval shape also features a small blue oval shape superimposed at the centre of the aforementioned yellow cross pattée, containing three yellow heraldic fleurs-de-lys, namely two at the top and one at the bottom. Furthermore, the large shape is also surrounded by a crown made up of two green olive branches with hints of yellow, bearing a few black olives. Both branches are tied together at the base with a red ribbon. A blue banner rests atop the ribbon, displaying the term STANISLAS in yellow capital letters.

Goods

Class 09

(1) Data processing equipment, namely computers and data processing hardware and electronic tablets; magnetic recording media, namely encoded identification cards for identifying individual users of identification cards, e-passports and business cards, magnetic tape recorders, blank magnetic tapes for computers, magnetic identification cards, readers for magnetically encoded cards, integrated circuit memory cards, blank magnetic discs, and blank optical discs; blank compact discs, compact discs featuring music, compact discs containing encyclopedias, pre-recorded compact discs containing encyclopedias, pre-recorded music compact discs, pre-recorded compact discs and DVDs containing audio and video clips, blank DVDs, blank recordable DVDs, pre-recorded DVDs containing music, pre-recorded DVDs containing documentaries, DVDs containing instructional language training materials; e-readers; recorded operating system programs for computers; game software; downloadable educational software containing teaching and academic content for the kindergarten, elementary, high school and higher education levels; downloadable electronic publications in the form of books and textbooks; digital school yearbooks.

Visual Representation

The image shows the trademark 'Fat Cats' in a bold, black, cursive script font. The letters are thick and rounded, with a casual, handwritten feel. The 'F' and 'C' are particularly prominent, with the 'F' having a large, sweeping top bar and the 'C' being a simple, rounded shape. The 'a' and 't' are also thick and rounded, and the 'C' and 'a' are connected. The overall appearance is that of a stylized, hand-drawn logo.

Authorisation For Use

Consent from the Ontario Lottery and Gaming Corporation is of record.

Goods

Class 06

(1) Building materials made of metal, namely, steel frames for building, metal pillars for building, reinforcing materials of metal for building, building boards of metal, building panels of metal, cladding of metal for building, linings of metal for building purposes, flanges of metal in the nature of clamps, metal junctions for pipes and collars of metal for fastening pipes for pipelines in water supply installations, elbows of metal for pipes, metal pipe couplings and joints, metal pipe connectors, plumbing pipe fittings, namely, couplings, elbows, connectors of metal for pipes, namely, tees, adapters, plugs for use in heating, cooling, compressed air, gas and liquid gas installations in residential, commercial and industrial buildings and for maritime installations and structural parts and fittings of the aforementioned goods; metal pipes, namely, branching pipes of metal, drain pipes of metal and metal gutter pipes and structural parts and fittings of the aforementioned goods; water pipes made of metal and structural parts and fittings of the aforementioned goods; pressure pipelines made of metal and structural parts and fittings of the

forementioned goods; branch pipes made of metal and structural parts and fittings of the aforementioned goods; flanges (clamps) made of metal and structural parts and fittings of the aforementioned goods; pipe connection pieces and fastening material made of metal for pipelines in water pipe installations, in radiator and under soil heating installations as well as in panel heating installations for keeping clear of ice and in heating and coolant plants for floors, industrial areas, sports flooring, walls, ceilings and in concrete core cooling as well as in district heating supply, gas, liquid gas, fuel oil, fire-extinguishing, sprinkler, compressed-air, solar, industrial, cooling water, vacuum pipe and low-pressure steam installations and structural parts and fittings of the aforementioned goods; sealing caps made of metal for pipe ends; valves or slides made of metal, other than machine parts, namely, metal valves for controlling the flow of gases in pipelines and structural parts and fittings of the aforementioned goods; backflow prevention valves as parts of pipes predominantly made of metal for underground pipes and structural parts and fittings of the aforementioned goods; binders made of metal for plastic pipes and structural parts and fittings of the aforementioned goods; pedestals made of metal (as building material) for sanitary pre and interior wall installations in dry construction as well as for sanitary pre wall installations in wet construction and structural parts and fittings of the aforementioned goods; actuator plates made of metal (as building material) for rendering cisterns and urinals and structural parts and fittings of the aforementioned goods; grids made of metal for floor, bathroom, balcony and terrace drains and structural parts and fittings of the aforementioned goods; shower drains (floor drains) made of metal and grids made of metal for shower drains and structural parts and fittings of the aforementioned goods; floor drains with and without backflow preventers as well as bathroom, balcony, terrace drains, as building material made of metal and structural parts and fittings of the aforementioned goods

Class 07

(2) Electrically and battery-operated machine pressing tools for pressing pipeline connections and structural parts and fittings of the aforementioned goods

Class 08

(3) Manually operated pressing tools for pressing pipeline connections and structural parts and fittings of the aforementioned goods; manually operated tacker equipment for mounting of clips in panel heating and coolant plants and structural parts and fittings of the aforementioned goods; rail punches (hand tools) for shortening and punching rails for pre wall and rear wall installations; pipe cutters (hand tools) and structural parts and fittings of the aforementioned goods; hex keys and structural parts and fittings of the aforementioned goods

Class 11

(4) Shut-off and regulating valves for pipelines in water pipe installations, radiator and under soil heating installations as well as in panel heating installations for keeping clear of ice and in heating and coolant plants for floors, industrial areas, sports flooring, walls, ceilings and in concrete core cooling as well as in district heating supply, gas, liquid gas, fuel oil, fire-extinguishing, sprinkler, compressed-air, solar, industrial, cooling water, vacuum pipe and low-pressure steam plants, as far as included in this class and structural parts and fittings of the aforementioned goods; thermostatic valves as parts of heating plants and structural parts and fittings of the aforementioned goods; regulation and safety equipment, namely, control valves used with gas flow and pressure regulators for gas pipes and structural parts and fittings of the aforementioned goods; regulation and safety equipment, namely, gas pressure relief valves and pressure reducing stop-cocks for gas pipes and structural parts and fittings of the aforementioned goods; sanitary intake, discharge, overflow fittings for bathtubs and shower trays, wash basins, bidets, sinks, washing machines, dishwashers and dripping water pipes and structural parts and fittings of the

forementioned goods; WC and urinal drains (parts of sanitary installations) and structural parts and fittings of the aforementioned goods; shower drains (parts of sanitary installations) and structural parts and fittings of the aforementioned goods; plaster trap fittings as parts of sinks, urinals, bidets, and toilets, comprising flexible pipes being parts of basin plumbing installations and water control valves being parts of basin plumbing installations and structural parts and fittings of the aforementioned goods; water distribution fittings and water pipe fittings for sanitary in-house installation and structural parts and fittings of the aforementioned goods; water distribution and water piping valves for radiator, floor, ceiling, under soil, industrial building, sports flooring and wall heating systems and parts of the aforementioned goods; water tanks for toilet flushing, urinal flushing, fitting and drainage connections for assembly in pedestals and structural parts and fittings of the aforementioned goods; washbasin valves and washbasin stench traps made of metal and structural parts and fittings of the aforementioned goods; adapted actuator rosettes and cover hoods made of plastic and/or glass for sanitary intake, discharge, overflow fittings for bathtubs and shower trays and structural parts and fittings of the aforementioned goods; water distributor cabinets, namely metal cabinets for storing water distributors for water and heating installations and structural parts and fittings of the aforementioned goods; washbasin valves and structural parts and fittings of the aforementioned goods; washbasin stench traps and structural parts and fittings of the aforementioned goods; bidet stench traps predominantly made of glass and structural parts and fittings of the aforementioned goods; actuating flushing panels consisting of automatic flushing valves as part of the built-in flushing cistern for activating the flushing function and structural parts and fittings of the aforementioned goods

Class 17

(5) Rubber rings for use as pipe connection seals and pipe sleeves not made of metal, for pipelines in gas, water and heating installation and structural parts of the aforementioned goods; rubber couplings for plastic pipes and structural parts of the aforementioned goods; metallic and non-metallic seals for preventing leakage of fluids and gases, namely, seals for pipe connections, non-metallic seals for gas pipes, and seals of metal for pipes and structural parts of the aforementioned goods

Class 19

(6) Plasters used for building purposes and structural parts and fittings of the aforementioned goods; water pipes and protective pipes made of plastics for installation of water pipe plants and structural parts and fittings of the aforementioned goods; water pipes made of plastic for installation of radiator and under soil heating plants as well as for installation of panel heating plants for keeping clear of ice and for installation of heating and coolant plants in floors, industrial areas, sports flooring, walls, ceilings and for concrete core cooling and structural parts and fittings of the aforementioned goods; drain pipes not made of metal and structural parts and fittings of the aforementioned goods; branch pipes not made of metal and structural parts and fittings of the aforementioned goods; pressure pipelines not made of metal and structural parts and fittings of the aforementioned goods; panelings made of plasterboard for mounting racks (as building material) and structural parts and fittings of the aforementioned goods; backflow preventers (as parts of pipes) mainly consisting of plastics for ground pipes and structural parts and fittings of the aforementioned goods; floor drains with and without backflow preventers as well as bathroom, balcony, terrace drains, as building material mainly consisting of plastics and structural parts and fittings of the aforementioned goods

Class 20

(7) Collars of plastic for fastening pipes for pipelines in water and radiator heating plants and in panel heating and coolant plants, in district heating supply, gas, liquid gas, fuel oil, fire-

extinguishing, sprinkler, compressed-air, solar, industrial, cooling water, vacuum pipe and low-pressure steam plants and structural parts and fittings of the aforementioned goods

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) light orange, royal blue, emerald green, red and yellow is/are claimed as a feature of the mark. The mark consists of the words "Chord" and "Buddy" are joined together. The word "Chord" and the letter "B" in "buddy" is in a light orange color. The "C" in the word "Chord" is larger typeface/font and in the open space of the letter "C" contains the remaining letters of the word "Chord" - "h", "o", "r" and "d" in a smaller typeface/font than the letters "C" in "Chord" and "B" in "Buddy". The letter "B" is also enlarged typeface/font and is in the same light orange color as the word "Chord". The remaining letters of the word "Buddy" are of smaller typeface/font and are as follows: the letter "U" is royal blue in color, the letter "D" is emerald green in color, the second letter "D" is red in color, and the letter "Y" is yellow in color. The color black represents background and is not part of the mark.

Class 09

(1) Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely mobile phones, smartwatches, portable computers, audio speakers, video display terminals, wearable activity tracker, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, medical teaching robots, telepresence robots, security surveillance robots, humanoid robots with artificial intelligence, acoustic meters, bidirectional meters for electricity monitoring, capacitance meters, electric current meters, electricity meters, data meters, engine hour meters, flow meters, frequency meters, light meters, meters for measuring electrical resistance, meters for measuring electrical voltage, noise level meters, parking meters, pressure meters, vehicle parking meters, vibration meters, wheel alignment meters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely AC/DC converters, electric power converters, electronic controllers for use with power converters, power controllers for computers, electronic controllers for use with power converters, electrical charge controllers, AC/DC power supplies, high-voltage power supplies, computer power supplies, high-frequency switching power supplies, DC input power supplies, semiconductor transistors, integrated circuits, signal processors, microcontrollers, microprocessors, AC/DC conversion architectures comprised of AC/DC converters, transistor switches; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, namely sound amplifiers, audio and video receivers, audio transmitter units, video transmitters; recorded and downloadable media, blank digital or analogue recording and storage media, namely blank flash memory cards, computer memory expansion modules, secure digital (SD) memory cards; cash registers, calculating devices; computers; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; phonograph records; computers; computer software and firmware for remote monitoring of microcontrollers and microprocessors in power tools; computer software drivers for use to control and manage fixed and portable electronic devices and their accessories, namely, smartphones,

tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones; computer software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, and in wireless and electrical charging stations for the aforementioned electronic devices; computer software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in wireless and electrical charging stations and stands for electric vehicles; computer software, namely, in-vehicle interactive entertainment computer software and firmware for vehicles; computer software and firmware for reproducing music, videos, pictures and photos, except product life-cycle management [PLM] applications; computer software and firmware for use in fixed and portable electronic devices, namely, computers, tablets, phones, personal digital voice assistants, audio and video transmission devices, for home automation of electric control systems for home security systems, electrical power switches, HVAC, kitchen appliances, lighting, washing machines; computer software and firmware for monitoring vital parameters and for providing advice on general health for personal well-being improvement; downloadable computer application software for smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, except product life-cycle management [PLM] software; computer operating system software; computer software for accessing, browsing and searching online databases, via the Internet and the World Wide We; computer communication software, namely, video and audio conferencing software; computer software for use in accessing financial services; computer software for interacting with blockchain platforms, except product life-cycle management [PLM] applications; computer software, namely computer software for use as a spreadsheet; computer software namely computer software for word processing; computer software namely computer software for database management; computer software namely desktop publishing software; radio transceiver, radio receivers; audio and video transceivers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; data switching apparatus, namely computer network hubs, switches and routers; apparatus for measuring speed namely speed meters; temperature measuring apparatus, namely temperature meters for household purposes, for industrial purposes and for scientific use; apparatus for measuring distance, namely electronic distance meters; apparatus for measuring dimensions, namely threedimensional scanners; image scanners; satellite aerials; telephone apparatus, telegraphic and telematic apparatus, namely automatic and electronic telephone dialers, digital telephones, magnetic telephone wires, automatic telegraph apparatus, manual telegraph apparatus, telemeters; mobile telephones; video phones; encoded telephone cards; displays for mobile phones; television apparatus, namely televisions; sound and video players, namely digital audio tape players, digital video players; devices with a screen, namely computer screens; television receivers; film and video devices, namely film cameras, film strips, video films, video circuit board; camcorders; still cameras; DVD players; CD players; MP3 players; media players, namely downloadable mobile applications being multimedia audio and video file players; decoders, namely decoder software, television decoders; telecommunications equipment, namely satellite receivers, satellite transmitters, satellite transceivers; apparatus for accumulating and storing electricity, namely wired and wireless electrical charging stands, pads, cases, for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence; apparatus for accumulating and storing electricity,

namely battery chargers for laptop computers, battery chargers for tablet computers, battery chargers for use with telephones; batteries, namely batteries for cell phones, electric batteries for laptop computers, electric batteries for tablet computers; rechargeable batteries, namely rechargeable batteries for mobile phones, laptop computers and tablet computers; mobile telephone batteries; solar batteries; head-phones; batteries for pocket lamps; wireless charger, namely wireless charging pads for smartphones, smartwatches, portable computers, audio speakers, wearable activity tracker, cameras, capacitive or inductive wireless power transfer stands, pads, cases, mobile phone chargers, protective cases for mobile phone allowing power charging; telephone wires; cables, electric; computer cabling; connecting electrical cables; audio cable; optical cables; cables for data transmission; USB cables; USB adapters; cable adapters; electric plugs; jack plugs, namely dustproof plugs for mobile telephone jacks; hands-free devices, namely hands-free holders for mobile phones; earbuds; headset; microphones; hands-free kits for telephones; computer memory boards; data storage discs, namely blank optical disks; read only memory discs, namely secure digital memory disks; USB flash drives; computer hardware; computers; computer servers; tablet computers; computer printers; monitors and screens for machines, namely display monitors and monitors and screens for computers; computer mice; electronic pens; light pens; magnetic pens; computer keyboards; keyboards for mobile phones; computer operating systems; high fidelity sound systems; continuity units, namely uninterruptible power supplies; electric power distribution units; power controllers namely power system meters; conventional electricity meters; controller circuit board; electric current switches; power transformers; switchboards; distribution boxes for electrical power; electricity distribution consoles; electrical circuits; electronic circuits; electronic memory circuits; integrated electronic circuits; printed electronic circuits; sensors and detectors, namely acceleration sensors, biochip sensors, biometric sensors for access control systems, distance sensors, infrared sensors, laser distance sensors, LED position sensors, motion sensors, optical sensors, parking sensors for vehicles, position sensors, pressure sensors, proximity sensors, remote temperature sensors, temperature sensors, thermal sensors, timing sensors, touchscreen sensors, vibration sensors, water level sensors, wheel speed sensors, metal detectors, motion detectors, radar detectors, radiation detectors, voltage detectors, fire and smoke detectors, heat detectors, laser speed detectors; remote control receivers, remote control transmitters; electronic timer; photocells for use with security lighting; illumination regulators; light emitting diodes; protective covers for mobile phones; covers for tablet computers, covers for computers, covers for mini computers.

Class 11

(2) Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes, namely UV (ultraviolet) lamps and germicidal lamps for purifying air and disinfecting surfaces; apparatus for lighting, namely street lights, indoor and outdoor electrical lighting fixtures including lighting fixtures using light-emitting diodes as the light source, industrial lighting fixtures, motion sensor lights, light fixtures, light projectors, electric lamps and luminaires, infrared lighting fixtures, intelligent street lighting, LED (light emitting diode) lighting fixtures, LED light projectors, garden lights, electric torches for lighting, fibre optic lighting fixtures, adaptive street lighting; lighting apparatus for vehicles, namely light bulbs for directional signals for vehicles, and vehicle reflectors; decorative electric lighting apparatus, namely fairy lights; LED lamps, light bulbs, chandeliers, LED light bulbs; lighting panels; lamp mantles; LED luminaires; indoor fluorescent lighting fixtures; lamp bases; off-road light bars for vehicles; glow sticks, namely chemical light sticks; light diffusers; lamp posts; spotlights; diving lights; strings of lights for festive decoration; filaments for electric lamps; filters for use with lighting apparatus; taillights for vehicles; light bulbs for directional signals for vehicles.

Services

Class 42

Scientific and technological services and research and design relating thereto, namely design and development of AC/DC converters, electric power converters, software control algorithms for converters, controllers for AC/DC converters, power controllers, electric power controllers, electronic power controllers, electrical charge controllers, AC/DC conversion architectures, power supply units, field-effect transistor switching devices, integrated circuits, wireless electrical charging systems, wireless charging pads, capacitive or inductive wireless power transfer systems, electrical and electronic devices with integrated wireless electrical charging systems, portable devices with wireless electrical charging systems, wireless electrical charging systems for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence, design of wireless charging pads, design and development of computer software for use as a spreadsheet, of computer software for word processing, of computer software for database management, of desktop publishing software; industrial analysis, industrial research services namely industrial analysis of technology specification of computer software systems for others and industrial design services; design and development of computer hardware; design and development of software and firmware for remote monitoring of microcontrollers and microprocessors in power tools; design and development of computer software drivers for use to control and manage fixed and portable electronic devices and their accessories, namely, smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones; design and development of software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, and in wireless and electrical charging stations for the aforementioned electronic devices; design and development of software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in wireless and electrical charging stations and stands for electric vehicles; design and development of software, namely, in-vehicle interactive entertainment computer software and firmware for vehicles; design and development of software and firmware for reproducing music, videos, picture and photos, except product life-cycle management [PLM] applications; design and development of software and firmware for use in fixed and portable electronic devices, namely, computers, tablets, phones, personal digital voice assistants, audio and video transmission devices, for home automation of electric control systems for home security systems, electrical power switches, HVAC, kitchen appliances, lighting, washing machines; design and development of software and firmware for monitoring vital parameters and for providing advice on general health for personal well-being improvement; design and development of software, namely, providing online non-downloadable computer software for use in smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, except product life-cycle management [PLM] software; design and development of software, namely, computer operating system software, and computer software for accessing, browsing and searching online databases, via the Internet and the World Wide Web; design and development of software and firmware in the fields of video and audio conferencing, financial services and blockchain technology, except product life-cycle management [PLM] applications; electrical engineering consultancy services; technological consultancy, namely consultancy relating to power and energy supply technology; industrial

design; research and development services in the field of electrical and electronic engineering; technological design services, namely computer software design; design of lighting systems.

Goods

Class 09

(1) Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely mobile phones, smartwatches, portable computers, audio speakers, video display terminals, wearable activity tracker, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, medical teaching robots, telepresence robots, security surveillance robots, humanoid robots with artificial intelligence, acoustic meters, bidirectional meters for electricity monitoring, capacitance meters, electric current meters, electricity meters, data meters, engine hour meters, flow meters, frequency meters, light meters, meters for measuring electrical resistance, meters for measuring electrical voltage, noise level meters, parking meters, pressure meters, vehicle parking meters, vibration meters, wheel alignment meters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely AC/DC converters, electric power converters, electronic controllers for use with power converters, power controllers for computers, electronic controllers for use with power converters, electrical charge controllers, AC/DC power supplies, high-voltage power supplies, computer power supplies, high-frequency switching power supplies, DC input power supplies, semiconductor transistors, integrated circuits, signal processors, microcontrollers, microprocessors, AC/DC conversion architectures comprised of AC/DC converters, transistor switches; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, namely sound amplifiers, audio and video receivers, audio transmitter units, video transmitters; recorded and downloadable media, blank digital or analogue recording and storage media, namely blank flash memory cards, computer memory expansion modules, secure digital (SD) memory cards; cash registers, calculating devices; computers; diving suits, divers' masks, ear plugs for divers, nose

clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; phonograph records; computers; computer software and firmware for remote monitoring of microcontrollers and microprocessors in power tools; computer software drivers for use to control and manage fixed and portable electronic devices and their accessories, namely, smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones; computer software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, and in wireless and electrical charging stations for the aforementioned electronic devices; computer software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in wireless and electrical charging stations and stands for electric vehicles; computer software, namely, in-vehicle interactive entertainment computer software and firmware for vehicles; computer software and firmware for reproducing music, videos, pictures and photos, except product life-cycle management [PLM] applications; computer software and firmware for use in fixed and portable electronic devices, namely, computers, tablets, phones, personal digital voice assistants, audio and video transmission devices, for home automation of electric control systems for home security systems, electrical power switches, HVAC, kitchen appliances, lighting, washing machines; computer software and firmware for monitoring vital parameters and for providing advice on general health for personal well-being improvement; downloadable computer application software for smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, except product life-cycle management [PLM] software; computer operating system software; computer software for accessing, browsing and searching online databases, via the Internet and the World Wide We; computer communication software, namely, video and audio conferencing software; computer software for use in accessing financial services; computer software for interacting with blockchain platforms, except product life-cycle management [PLM] applications; computer software, namely computer software for use as a spreadsheet; computer software namely computer software for word processing; computer software namely computer software for database management; computer software namely desktop publishing software; radio transceiver, radio receivers; audio and video transceivers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; data switching apparatus, namely computer network hubs, switches and routers; apparatus for measuring speed namely speed meters; temperature measuring apparatus, namely temperature meters for household purposes, for industrial purposes and for scientific use; apparatus for measuring distance, namely electronic distance meters; apparatus for measuring dimensions, namely threedimensional scanners; image scanners; satellite aerials; telephone apparatus, telegraphic and telematic apparatus, namely automatic and electronic telephone dialers, digital telephones, magnetic telephone wires, automatic telegraph apparatus, manual telegraph apparatus, telemeters; mobile telephones; video phones; encoded telephone cards; displays for mobile phones; television apparatus, namely televisions; sound and video players, namely digital audio tape players, digital video players; devices with a screen, namely computer screens; television receivers; film and video devices, namely film cameras, film strips, video films, video circuit board; camcorders; still cameras; DVD players; CD players; MP3 players; media players, namely downloadable mobile applications being multimedia audio and video file players; decoders, namely decoder software, television decoders; telecommunications equipment, namely satellite receivers, satellite transmitters, satellite transceivers; apparatus for accumulating and storing electricity, namely wired and wireless electrical charging stands, pads, cases, for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming

consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence; apparatus for accumulating and storing electricity, namely battery chargers for laptop computers, battery chargers for tablet computers, battery chargers for use with telephones; batteries, namely batteries for cell phones, electric batteries for laptop computers, electric batteries for tablet computers; rechargeable batteries, namely rechargeable batteries for mobile phones, laptop computers and tablet computers; mobile telephone batteries; solar batteries; head-phones; batteries for pocket lamps; wireless charger, namely wireless charging pads for smartphones, smartwatches, portable computers, audio speakers, wearable activity tracker, cameras, capacitive or inductive wireless power transfer stands, pads, cases, mobile phone chargers, protective cases for mobile phone allowing power charging; telephone wires; cables, electric; computer cabling; connecting electrical cables; audio cable; optical cables; cables for data transmission; USB cables; USB adapters; cable adapters; electric plugs; jack plugs, namely dustproof plugs for mobile telephone jacks; hands-free devices, namely hands-free holders for mobile phones; earbuds; headset; microphones; hands-free kits for telephones; computer memory boards; data storage discs, namely blank optical disks; read only memory discs, namely secure digital memory disks; USB flash drives; computer hardware; computers; computer servers; tablet computers; computer printers; monitors and screens for machines, namely display monitors and monitors and screens for computers; computer mice; electronic pens; light pens; magnetic pens; computer keyboards; keyboards for mobile phones; computer operating systems; high fidelity sound systems; continuity units, namely uninterruptible power supplies; electric power distribution units; power controllers namely power system meters; conventional electricity meters; controller circuit board; electric current switches; power transformers; switchboards; distribution boxes for electrical power; electricity distribution consoles; electrical circuits; electronic circuits; electronic memory circuits; integrated electronic circuits; printed electronic circuits; sensors and detectors, namely acceleration sensors, biochip sensors, biometric sensors for access control systems, distance sensors, infrared sensors, laser distance sensors, LED position sensors, motion sensors, optical sensors, parking sensors for vehicles, position sensors, pressure sensors, proximity sensors, remote temperature sensors, temperature sensors, thermal sensors, timing sensors, touchscreen sensors, vibration sensors, water level sensors, wheel speed sensors, metal detectors, motion detectors, radar detectors, radiation detectors, voltage detectors, fire and smoke detectors, heat detectors, laser speed detectors; remote control receivers, remote control transmitters; electronic timer; photocells for use with security lighting; illumination regulators; light emitting diodes; protective covers for mobile phones; covers for tablet computers, covers for computers, covers for mini computers.

Class 11

(2) Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes, namely UV (ultraviolet) lamps and germicidal lamps for purifying air and disinfecting surfaces; apparatus for lighting, namely street lights, indoor and outdoor electrical lighting fixtures including lighting fixtures using light-emitting diodes as the light source, industrial lighting fixtures, motion sensor lights, light fixtures, light projectors, electric lamps and luminaires, infrared lighting fixtures, intelligent street lighting, LED (light emitting diode) lighting fixtures, LED light projectors, garden lights, electric torches for lighting, fibre optic lighting fixtures, adaptive street lighting; lighting apparatus for vehicles, namely light bulbs for directional signals for vehicles, and vehicle reflectors; decorative electric lighting apparatus, namely fairy lights; LED lamps, light bulbs, chandeliers, LED light bulbs; lighting panels; lamp mantles; LED luminaires; indoor fluorescent lighting fixtures; lamp bases; off-road light bars for vehicles; glow

sticks, namely chemical light sticks; light diffusers; lamp posts; spotlights; diving lights; strings of lights for festive decoration; filaments for electric lamps; filters for use with lighting apparatus; taillights for vehicles; light bulbs for directional signals for vehicles.

Services

Class 42

Scientific and technological services and research and design relating thereto, namely design and development of AC/DC converters, electric power converters, software control algorithms for converters, controllers for AC/DC converters, power controllers, electric power controllers, electronic power controllers, electrical charge controllers, AC/DC conversion architectures, power supply units, field-effect transistor switching devices, integrated circuits, wireless electrical charging systems, wireless charging pads, capacitive or inductive wireless power transfer systems, electrical and electronic devices with integrated wireless electrical charging systems, portable devices with wireless electrical charging systems, wireless electrical charging systems for charging electric and hybrid electric vehicles, electric drones, home appliances, domestic equipment, lighting apparatus, LED lighting apparatus, gaming consoles, mobile phones, smartwatches, portable computers, portable speakers, display devices, fitness trackers, cameras, power banks, head mounted augmented reality displays, earphones, headphones, laboratory robots, teaching robots, telepresence robots, security surveillance robots and humanoid robots with artificial intelligence, design of wireless charging pads, design and development of computer software for use as a spreadsheet, of computer software for word processing, of computer software for database management, of desktop publishing software; industrial analysis, industrial research services namely industrial analysis of technology specification of computer software systems for others and industrial design services; design and development of computer hardware; design and development of software and firmware for remote monitoring of microcontrollers and microprocessors in power tools; design and development of computer software drivers for use to control and manage fixed and portable electronic devices and their accessories, namely, smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones; design and development of software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, and in wireless and electrical charging stations for the aforementioned electronic devices; design and development of software and firmware for application-specific integrated circuit [ASIC] used as an integrated circuit chip in wireless and electrical charging stations and stands for electric vehicles; design and development of software, namely, in-vehicle interactive entertainment computer software and firmware for vehicles; design and development of software and firmware for reproducing music, videos, picture and photos, except product life-cycle management [PLM] applications; design and development of software and firmware for use in fixed and portable electronic devices, namely, computers, tablets, phones, personal digital voice assistants, audio and video transmission devices, for home automation of electric control systems for home security systems, electrical power switches, HVAC, kitchen appliances, lighting, washing machines; design and development of software and firmware for monitoring vital parameters and for providing advice on general health for personal well-being improvement; design and development of software, namely, providing online non-downloadable computer software for use in smartphones, tablets, smartwatches, laptops, wearable activity trackers, cameras, power banks, head mounted augmented reality displays, earphones and headphones, except product life-cycle management [PLM] software; design and development of software, namely, computer operating system software, and computer software for accessing, browsing and searching online databases, via the

Internet and the World Wide Web; design and development of software and firmware in the fields of video and audio conferencing, financial services and blockchain technology, except product life-cycle management [PLM] applications; electrical engineering consultancy services; technological consultancy, namely consultancy relating to power and energy supply technology; industrial design; research and development services in the field of electrical and electronic engineering; technological design services, namely computer software design; design of lighting systems.

Standard Characters

Goods

Class 07

(1) Steam traps; check valves [machine elements]; air traps, drain traps and gas trap used as part of industrial draining, piping and heating systems; pressure reducing valves being parts of machines; automatic control valves; valves being parts of machines; chemical processing machines and apparatus, namely, blending machines, calcining machines, disintegrators, emulsifying machines, extracting machines, presses, and sorting machines for chemical processing; boilers for non-electric prime movers and engines, namely, steam engine boilers and steam boilers being parts of machines; turbines, other than for land vehicles, namely, hydraulic turbines, turbines for generation of electricity, turbines for steam plants; non-electric prime movers, not for land vehicles, namely, engines for industrial machinery, and parts thereof; pumps being parts of machines, engines and motors; vacuum pumps; compressors for industrial machinery; pneumatic and hydraulic machines and instruments, namely, pneumatic transporters, pneumatic hoists, hydraulic valve actuators being parts of machines, hydraulic conveyors, hydraulic couplers; shaft couplings; crank shafts, axels and spindles being parts of machines; bearings as machine parts; transmission gears for machines, not for land vehicles.

Class 09

(2) Sensing devices for measuring the fluctuating states in steam traps, valves, and other piping elements, namely, pipes and pipelines; wire communication apparatuses and instruments and radio communication apparatuses and instruments, namely, audio, video and signal wire transmitters and receivers for use in detecting, monitoring and diagnosing fluctuating states in steam traps, valves, pipes and pipelines, and audio, video and signal radio transmitters and receivers for use in detecting, monitoring and diagnosing fluctuating states in steam traps, valves, pipes and pipelines; computers; radio transmitters and radio receivers; computer programs for managing and simulating the optimum energy, cost and operation efficiencies of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants and steam plants; computer programs for monitoring and controlling energy, cost and operation efficiencies of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply

plants, steam plants and for diagnosing and improving energy, cost and operation efficiencies of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; Computer programs for monitoring and visualizing the performance of valves for use in industrial machinery, pipes and pipelines, for simulating results produced from the operation of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants and steam plants; computer programs for detecting, monitoring and controlling the performance and safety of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; computer programs for managing the flow of steam, air and gas through valves for industrial machineries, and in pipes and pipelines; electronic circuits; electronic apparatuses, instruments and parts thereof, other than semi conductor elements, namely, vibrometer used to detect vibrations and thermometer; solenoid valves; fire alarms; gas leak alarms; burglar alarms; cameras; photographic lenses; photographic flash units for cameras; video cameras; cinematographic projectors; optical apparatuses and instruments, namely, optical sensors, optical lenses, optical glass, magnifying glasses; pressure relief valves.

Services

Class 35

(1) Business management analysis services for chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; business management analysis and business consultancy; market analysis and research; providing information concerning commercial sales, namely, providing an on-line commercial information directory on the internet; business management of hotels.

Class 37

(2) Construction of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; factory and building construction; consulting services in the field of construction of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; consulting services in the field of factory and building construction; repair and maintenance of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; repair and maintenance of other plants, namely, factories and buildings; repair, and maintenance of wire communication apparatuses and instruments and radio communication apparatuses and instruments, namely, audio, video and signal wire transmitters and receivers for use in detecting, monitoring and diagnosing fluctuating states in steam traps, valves, pipes and pipelines, and audio, video and signal radio transmitters and receivers for use in detecting, monitoring and diagnosing fluctuating states in steam traps, valves, pipes and pipelines; repair and maintenance of detectors for measuring the fluctuating states in steam traps, valves, and other piping elements, namely, pipes and pipelines; maintenance of building equipment, namely, HVAC systems.

Class 38

(3) Rental of wire communication apparatuses and instruments and radio communication apparatuses and instruments, namely, audio, video and signal transmitters and receivers.

Class 41

(4) Education services in the field of business management of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; education services, namely, training in the field of diagnosing, monitoring and controlling valves, pipes and pipelines, and used in chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants and in the field of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants construction;

arranging and conducting of seminars in the field of administration and management of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; arranging and conducting of seminars in the field of troubleshooting, installing and controlling valves, pipes and pipelines used in chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; publishing of electronic publications; services of reference libraries for literature and documentary records; rental of books; publication of books; educational film production; rental of cameras; rental of digital cameras; rental of binoculars; rental of telescopes for educational purposes; rental of magnifying glasses [optics]; rental of sound recordings and video recordings in the field of educational videos in the field of business management of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants.

Class 42

(5) Computer programming for detecting and analyzing fluctuating states of valves; computer programming for computer simulated models; computer software design; maintenance of computer software; computer programming, namely, development of computer software; consulting in the field of computer software design and maintenance of computer software; providing computer programs in data networks, namely, providing software as a service for managing valves and other piping elements, namely, valves being parts of machines, pipes and pipelines; providing software as a service for managing the optimum energy, cost and operation efficiencies of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; providing software as a service for monitoring and controlling energy, cost and operation efficiencies of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; providing software as a service for monitoring the performance of valves for use in industrial machinery, pipes and pipelines, for simulating results the operation of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants for improving energy, cost and operation efficiencies; providing software as a service for monitoring and controlling the performance and safety of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; providing software as a service for managing the flow of steam, air and gas through valves for industrial machineries, and in pipes and pipelines; rental of computers; rental of detectors for measuring the fluctuating states in steam traps, valves, and other piping elements, namely, pipes and pipelines; research in the field of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; testing of steam traps, check valves, air traps, drain traps and gas trap used as part of draining, piping and heating systems, pressure reducing valves being parts of machines, automatic valves, valves being parts of machines; testing and research in the field of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; testing and research of steam traps, check valves, air traps, drain traps and gas trap used as part of draining, piping and heating systems, pressure reducing valves being parts of machines, automatic valves, valves being parts of machines; designing of steam traps, check valves, air traps, drain traps and gas trap used as part of draining, piping and heating systems, pressure reducing valves being parts of machines, automatic valves, valves being parts of machines; designing of steam systems composed of steam traps, check valves, air traps, drain traps, gas traps, pressure reducing valves, automatic valves, valves being parts of machines; technological consulting in the field of plant operations, computers, and design, operation, installation and maintenance of industrial machines; testing and troubleshooting of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants based on fluctuating states of valves and other piping elements, namely, pipe connectors of metal, valves, drains of metal, expansion joints, metal

hangers and fasteners; quality control testing of industrial machinery, namely, machinery comprising chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; testing and troubleshooting of wire communication apparatuses and instruments and radio communication apparatuses and instruments, namely, audio, video and signal wire transmitters and receivers for use in detecting, monitoring and diagnosing fluctuating states in steam traps, valves, pipes and pipelines, and audio, video and signal radio transmitters and receivers for use in detecting, monitoring and diagnosing fluctuating states in steam traps, valves, pipes and pipelines; testing and troubleshooting of wire communication apparatuses and instruments and radio communication apparatuses and instruments, namely, computers, radio transmitters and radio receivers; testing and troubleshooting of detectors for measuring the fluctuating states in steam traps, valves, and other piping elements, namely, pipes and pipelines; conducting technical inspection of chemical plants, nuclear power plants, power generation plants, petroleum plants, heat supply plants, steam plants; conducting technical inspection of detectors for measuring the fluctuating states in steam traps, valves, and other piping elements, namely, pipes and pipelines; inspection of computers and computer peripherals, servers and computer networks.

Goods

Class 07

(1) Condensing installations, namely, air condensers, axial fan condensers, centrifugal fan for condenser; capacitors being parts of machines; machine parts, namely, axial capacitors, radial capacitors, coaxial capacitors, tubular capacitors, steam condensers, air capacitors; air condensers; steam engines not for land vehicles; blowing machines for the compression, exhaustion and transport of gases; radiators for motors and engines; machine and engine parts, namely, pumps; pumps for heating installations, namely, vacuum pumps, centrifugal pumps, lubricating pumps; pressure regulating valves; fans for motors and engines; carburetors; heat sinks for use in machines; steam operated power generators oil for motors and engines; self-regulating fuel pumps.

Class 09

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric conductors for transformers, electric conductors for electric motors, electric current switches, electric transformers, electric accumulators for vehicles, voltage regulators, electrical charge controllers, electronic power controllers for use with power converters; computer software for use in database management and network management, for use as a spreadsheet, and for word processing; electrical connecting parts, namely, electrical connectors; electric display apparatus, namely, liquid crystal displays; mirrors for inspecting work, namely, work inspection optical mirrors; automotive batteries; electricity limiters; observation instruments, namely, cameras and telescopes; integrated circuits; integrated circuit chips for encoding and decoding digital video; wireless controllers to remotely monitor and control the function and status of industrial air-conditioning apparatus, refrigerators, coolers, and HVAC systems; electric wires; electric cables; electric capacitors; electromagnetic coils; remote controls for radios; igniting apparatus, namely, electric igniters for igniting at a distance used in connection with ballasts to start discharge lamps; holders for electric coils; high frequency switches; electrical inductors; optical condensers for use in microscopes and slide projectors; power switches; electric relays;

switching equipment, namely, high frequency switching power supplies; electronic circuits; electric distribution consoles; switchboards; integrated circuits; electricity distribution consoles; electric control panels.

Class 11

(3) Lighting, heating, steam generation, cooling, drying, ventilating and water supply apparatus, namely refrigerators, heat exchangers other than parts of machines, bare coils as part of an HVAC system, bare coils as part of air conditioners, bare coils as part of a refrigerators, bare coils as part of electric heaters, gas condensers other than parts of machines, evaporative air coolers; heating apparatus, namely, feed water heaters; steam generators; heat exchangers not being parts of machines; heat exchangers not being parts of machines, namely, lamellar heat exchangers, plate heat exchangers, tubular heat exchangers; cooling installations, namely, evaporative air coolers, glycol coolers and shock frosters; freezers, recooling apparatus for cooling media, namely dry cooler, evaporative cooler or adiabatic cooler refrigerator parts, namely, pipes and finned tubes; air conditioners; refrigerators ; evaporative air coolers for furnaces; refrigerating cabinets, refrigerators; ice machines ; air-conditioning units; cooling evaporators, namely industrial high performance evaporators; tubular cooling evaporators; tubular cooling evaporators; heat pump evaporators; heating installations, namely, electric radiators, central heating radiators, boilers for heating installations, expansion tanks for central heating installations, heat regulators being parts of heating installations, thermostatic valves as parts of heating installations; tubes for heating installations, namely, heat exchanger tubes, heat radiator tubes and pipes; steam generating installations; steam boilers not parts of machines; steam accumulators; electrochemical gas generators (installations); gas heating boilers; gas refrigerator condensers and condenser pipes therefor; electric space heaters for commercial use; ventilation installations, namely, ventilation hoods for stoves; level controlling valves in tanks, namely, for use in controlling the level of fluids in tanks; heat regenerators; heat accumulators; cooling installations for water, namely, water coolers and water cooling towers; heat pumps and ventilators for air conditioning systems; ventilator frames being parts of air conditioning installations; humidifying apparatus and systems, namely, humidified mats, humidified pads; electric humidifiers; humidifiers for central heating radiators.

Goods

Class 09

(1) Computing instruments, namely software for controlling, operating and configuring biomedical sensors and instruments, analyzing test and sample results, managing assay test workflow and protocol design, and compiling and exporting medical test data for scientific, diagnostic, and medical treatment purposes; scientific apparatus and instruments, namely, optical, isothermal, chromatographic, cardiographic, microfluidic, photometric, chemical, genetic, and biological sensors and instruments for measuring and analyzing molecular reagents, nucleic acid reagents, and immunoassay reagents for scientific testing purposes, namely, for identifying diseases or medical conditions via in vitro diagnostic (IVD) and non-in vitro diagnostic (non-IVD) applications, and for testing for specific DNA, pathogens, antigens, viruses and bacteria, none of the foregoing goods for medical diagnostic or treatment purposes; none of the aforementioned goods in relation to access control products, video intercom products, audio intercom products, surveillance products, cameras including but not limited to digital cameras, network cameras, web cameras and ip-cameras, video encoders, video decoders, network document servers, print servers, network video products, radars, speakers, microphones, software and accessories for the above mentioned goods; none of the foregoing used in the field of dentistry

Class 10

(2) Biomedical hardware, namely, optical, isothermal, chromatographic, cardiographic, microfluidic, photometric, chemical, genetic, and biological sensors and instruments for measuring and analyzing molecular reagents, nucleic acid reagents, and immunoassay reagents for medical purposes, namely, for identifying diseases or medical conditions via in vitro diagnostic (IVD) and non-in vitro diagnostic (non-IVD) applications, and for testing for specific DNA, pathogens, antigens, viruses and bacteria for medical diagnostic and treatment purposes; none of the foregoing used in the field of dentistry

Services

Class 40

(1) Custom manufacture of medical devices, namely, optical, isothermal, chromatographic, cardiographic, microfluidic, photometric, chemical, genetic, and biological sensors, instruments, and cartridges for measuring and analyzing molecular, nucleic acid, and immunoassay reagents using in vitro diagnostic (IVD) and non-in vitro diagnostic (non-IVD) applications for identifying diseases or medical conditions, and for testing for specific DNA, pathogens, antigens, viruses and bacteria, and information, advisory and consultancy services in relation to the aforementioned; none of the foregoing used in the field of dentistry

Class 42

(2) Design and development of medical devices, namely, optical, isothermal, chromatographic, cardiographic, microfluidic, photometric, chemical, genetic, and biological sensors, instruments, and cartridges for measuring and analyzing molecular reagents, nucleic acid reagents, and immunoassay reagents for medical purposes, namely, for identifying diseases or medical conditions via in vitro diagnostic (IVD) and non-in vitro diagnostic (non-IVD) applications, and for testing for specific DNA, pathogens, antigens, viruses and bacteria; scientific research services, namely biomedical research; medical research laboratory services; none of the aforementioned services in the fields of security surveillance and video surveillance; none of the foregoing used in the field of dentistry

Class 44

(3) Medical analysis services for diagnostic and treatment purposes provided by medical laboratories; medical diagnostic services (testing and analysis); none of the foregoing used in the field of dentistry

Colour Claim

Colour is claimed as a feature of the trademark. The isolated horizontal bar element is in orange Pantone*1655C, and the surrounding continuous swirl element is in grey. ("Pantone" is a registered trademark.)

Goods

Class 06

(1) Common metals and their alloys; nickel and cobalt super-alloys; aluminium, nickel, molybdenum, chromium, titanium and cobalt for further manufacturing; aluminium, nickel, molybdenum, chromium, titanium and cobalt alloys and super-alloys for further manufacturing; small items of metal hardware, namely, springs, washers, nuts, bolts, pulleys, rivets, screws and pins; welding studs; welding pins; welding metals; welding rods; welding wire; pipes and tubes of metal, namely pipe connectors of metal, branching pipes of metal, pipe fittings of metal, metal pipe couplings, metal tubes of machinery; ores; metal castings for turbines; machined components of

metal, namely, fasteners, valves, gears, shafts, housings, brackets, rollers and pistons; casings of metal; common metals and metal alloys for further manufacturing.

Class 07

(2) Machines and machine tools, all for the manufacture of aerospace and automotive goods, aircraft motors, motors for boats, airplane engines, boat engines, machine coupling and transmission components (except for land vehicles), engine bearings, aeronautic engines, gas turbines for air vehicles, gas turbines for water vehicles, gas turbines for airplanes, air turbines for aircraft, heat shields for turbines, turbines for power generation, steam turbines, welding and soldering machines, gas operated welding machines, electric welding machines, machine coupling and transmission components (except for land vehicles), bearings being parts of machines, turbine and compressor blades and vanes for use in aerospace and industrial gas turbine engines, impellers for gas turbine engines, compressor wheels, exhaust pipes for land vehicle engines, intake manifolds for engines and motors, exhaust manifolds for engines and motors, pumps, namely, centrifugal pumps, positive displacement pumps, rotary pumps, gear pumps and axial flow pumps, valves for pumps, turbochargers for machines, turbocompressors, turbowheels, being turbochargers, silencers for motors and engines; parts, fittings and accessories for all of the aforesaid goods; ring shaped fittings for use in aerospace and industrial gas turbines; turbine and compressor blades and vanes; motors and engines for water vehicles; machine coupling and transmission components for water vehicles; exhausts for vehicles; turbochargers for vehicles; turbo wheels for vehicles.

Class 12

(3) Structural parts for aircraft; wings for aircraft, bodies for aircraft, panels for aircraft bodies, brake blocks for vehicles, brake pads for vehicles, brake discs for vehicles, brake cylinders for vehicles, brake linings for vehicles, brake segments for vehicles, turbine engines for land vehicles, traction mats for tracked vehicles, pins for tracks in tracked vehicles, drive gears for powersport, recreational and utility land vehicles, drive gears for land vehicles and water vehicles, motors and engines for land vehicles, automobile engines, motors for land vehicles, air turbines for land vehicles, gas turbines for land vehicles, steam turbines for land vehicles, machine coupling and transmission components for land vehicles, clutches for land vehicles; parts, fittings and accessories for all of the aforesaid goods.

Services

Class 40

Heat treatment of metals; tempering of metals; chemical treatment of metals; blacksmithing; die casting; precision metal casting services; custom manufacturing of mouldings of metal; moulding of metal; die-casting of metals; gravity-casting of metals; forging of metal goods to the order and specification of others; metal working services; welding services; machining of metals; surfaces treatment of metals; galvanizing of metals; metal plating; metal tempering; forging, machining, metal casting and die casting, diecasting and gravity casting of metal goods to the order and specification of others; metal working services, namely, heat treatment for metals, surface treatment of metals, galvanizing of metals, and metal tempering; custom manufacturing of metal hardware, castings, forgings, turbine and compressor blades and vanes, motors and engines, engines for aeroplanes, gas turbines, air turbines, heat shields for turbines, turbines for power generation, steam turbines, welding apparatus, turbines for aeroplanes, machine coupling and transmission components (except for land vehicles), bearings, impellers, compressor wheels, exhausts, manifolds, pumps, valves, turbochargers, turbowheels, silencers for motors and engines.

Goods

Class 09

(1) Apparatus for recording, transmitting, reproducing and processing sound for assistive hearing purposes; magnetic recording media, recording discs and floppy discs integrated into hearing aids and hearing aid equipment; electric batteries for hearing aids and audioprosthesis equipment; optical glasses and sunglasses; eyeglass cases; optical lenses; eyeglass lenses; corrective lenses.

Class 10

(2) Hearing aids.

Foreign Character Translation

The translation provided by the applicant of the Chinese word(s) BAO ZHUAN YE is MAKING A BAOZI MEAL NIGHT.

Foreign Character Transliteration

The transliteration provided by the applicant of the Chinese character(s) is BAO ZHUAN YE.

Goods

Class 30

Rice cakes; rice-based snack food; cereal-based snack food; gruel; rice-based pudding dessert; frozen yogurt confections; baozi; pastries.

Services

Class 43

Agency services for booking hotel accommodation; cafeteria services; hotel services; teahouse services; rental of meeting rooms; food and drink catering; canteen services; reservation of hotel rooms for travelers; restaurant services; mobile catering.

Goods

Class 09

Downloadable virtual goods in the nature of image files of wound care dressings and preparations and first-aid kits for use in online virtual worlds; computer programs featuring virtual wound care dressings and preparations and first-aid kits for use in online virtual worlds; downloadable virtual goods in the nature of image files of antiseptic and antibacterial preparations for wound care for use in online virtual worlds; computer programs featuring virtual antiseptic and antibacterial preparations for wound care for use in online virtual worlds; downloadable virtual goods in the nature of image files of hydrocolloid facial adhesive patches for use in online virtual worlds; computer programs featuring virtual hydrocolloid facial adhesive patches for use in online virtual worlds; downloadable virtual goods in the nature of image files of hot/cold gel pack for medical use for use in online virtual worlds; computer programs featuring virtual hot/cold gel pack for medical use for use in online virtual worlds; downloadable virtual goods in the nature of image files of non-medicated preparations for preventing and treating blisters for use in online virtual worlds; computer programs featuring virtual non-medicated preparations for preventing and treating blisters for use in online virtual worlds; downloadable multimedia files containing artwork, text, audio, and video files and non-fungible tokens; downloadable loyalty cards, incentive cards, reward cards that may be redeemed for or used towards the purchase of products

Services

Class 35

(1) Online retail services featuring virtual merchandise, namely wound care dressings and preparations and first-aid kits, virtual antiseptic and antibacterial preparations for wound care, virtual hydrocolloid facial adhesive patches, virtual hot/cold gel pack for medical use, and for use online and virtual non-medicated preparations for preventing and treating blisters in online virtual worlds; online retail store services featuring home delivery of physical merchandise, namely, wound care dressings and preparations and first-aid kits, virtual antiseptic and antibacterial preparations for wound care, virtual hydrocolloid facial adhesive patches, virtual hot/cold gel pack for medical use, and for use online and virtual non-medicated preparations for preventing and treating blisters; conducting an incentive program whereby individuals can earn real world and virtual rewards; arranging and conducting incentive reward programs to promote the sale of wound

care and first-aid products; providing product information in the field of wound care and first-aid products via a website

Class 41

(2) Entertainment services, namely, providing online, non-downloadable virtual wound care and first-aid products for use in virtual environments created for entertainment purposes

Colour is claimed as a feature of the trademark. The word "FUJIFILM" is in a black stylized font with a red dot above the first letter "i".

Goods

Class 01

(1) Chemicals for use in industry and science, namely, chemicals for use in agriculture, horticulture and forestry, chemicals for use in chromatography, and chemicals for use in purifying water; chemical preparations for use in photography, cell culture media for laboratory use, cell culture reagents for scientific or research purposes, stem cells for scientific and medical research; chemical reagents for use in genetic research; chemical reagents for use in genetic research, other than for medical or veterinary purposes; chemicals for use in the manufacture of peptides; liposome in the nature of chemical preparations for use in the manufacture of pharmaceuticals and cosmetics; chemicals containing liposome in the nature of chemical preparations for use in the manufacture of pharmaceuticals and cosmetics; chemicals for use in the manufacture of vaccines; chemicals for use in the manufacture of pharmaceutical preparations; chemicals for use in the manufacture of veterinary preparations; proteins for use in the manufacture of beverages; enzymes for the beverage industry; microbial preparations [chemicals], namely, diagnostic enzymes for in vitro use in microbiology; chemical and biochemical preparations for industrial and scientific purposes, in particular, chemical agents for the transfer of biological molecules into living cells, integration of foreign nucleic acids into the genome of living cells; soluble substances and solutions, in particular buffer and standard solutions for the transfer of biological molecules into living cells, integration of foreign nucleic acids into the genome of living cells; diagnostic reagents kits for medical-scientific research use consisting of reagents and chemical preparations for use in the field of scientific research, clinical research and scientific research relating to diagnosis; diagnostic reagents kits for medical-scientific research use consisting of enzymes and biological

preparations having the nature of human tissues, human body fluids, animal tissues, animal body fluids, culture of microorganism and plant tissues, other than for medical or veterinary purposes; monoclonal antibodies for scientific purposes used for auxiliary diagnosis of pathology such as cancer tissue or animal experiments, excluding medical use; cells for laboratory use, other than for medical or veterinary purposes, namely, cell growth media for growing cells for scientific use; stem cells for research and scientific purposes; stem cells for scientific and medical research; stem cells for scientific, laboratory, medical research and clinical use, including genetic material for the production of proteins; chemical reagents for use in genetic research with skin, cartilage, cornea, liver, nerves, blood vessels and other cells; kits consisting of stem cell lines, secondary reagents, enzyme substrates and genetically modified chemical preparations, purposes in the medical diagnostics industry; cell culture media for scientific and research purposes; cell culture media for laboratory use; reagents for use in chemical testing, namely, chemical reagents for genetic identity testing; collagen for industrial purposes; biological preparations, namely genetically modified cells and vectors for production of human, animal and synthetic proteins, for use in scientific research, in pharmaceutical research and for clinical and commercial use, other than for medical or veterinary purposes; genes being DNA sequences, namely, reagent kits comprising generic DNA circle, DNA primers, polymerase and buffers for use in biotechnology fields; chemical additives for use in the manufacture of pharmaceuticals for use in biotechnological manufacturing processes, namely, mammalian cell cultures and vectors, being independent replicating pieces of DNA that can transfer DNA sequences, each for manufacture and development in the biotechnology industries; chemical preparations and substances for manufacturing pharmaceutical products; chemical additives for manufacturing medicines; chemicals for manufacturing cosmetics, skin cleansers and medicines; preservatives for pharmaceutical preparations; biochemicals for producing products for genetic pharmacology, namely, chemical additives for use in the manufacture of pharmaceuticals; genetic material (chemical substance) for producing products for genetic cell therapy, other than for medical or veterinary purposes, namely, chemical additives for use in the manufacture of pharmaceuticals; biotechnological material [chemical substances] for manufacturing pharmaceutical products, other than for medical or veterinary purposes, namely, chemical additives for use in the manufacture of pharmaceuticals; antibacterial agents for industrial purposes; X-ray film for mammography; unexposed X-ray film; X-ray film; chemical compositions for developing photographs; gelatine for photographic purposes; biological preparations for use in industry and science, namely, biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; biological preparations, other than for medical or veterinary purposes, namely, biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; diagnostic preparations for in vitro testing for scientific use; cultures of bacterial microorganisms for laboratory and scientific research; preservatives for pharmaceutical preparations; proteins and enzymes for use in the manufacture of pharmaceuticals in the medical biotechnology; cell growth assistants for biotechnology, namely, cell growth media for growing cells for scientific use.

Class 05

(2) Pharmaceutical preparations for the treatment of cardiovascular diseases, central nervous system diseases, neurological disorders, namely, brain injury, spinal cord injury, seizure disorders, urological diseases and disorders, urogenital disorders and, gastrointestinal diseases, musculoskeletal disorders, allergies, diabetes, hypertension, erectile dysfunction, sexual dysfunction, cerebrovascular accident (stroke), cancer, migraine, pain, obesity, inflammation and inflammatory disease, namely, inflammatory bowel diseases, inflammatory connective tissue diseases, inflammatory pelvic diseases, respiratory and infectious diseases, immunological, bacterial, viral and fungal disorders, metabolic diseases, mental illness, depression, psychosis,

bone and mineral diseases, infertility, menopausal complaints, hormone deficiencies, and sleep disorders; pharmaceutical preparations for treating high cholesterol and smoking cessation; imaging agents for magnetic resonance imaging (MRI), stem cells for medical purposes, surgical implants grown from stem cells, clinical diagnostic reagents, diagnostic reagents for medical use; pharmaceutical preparations and substances for the treatment of viral diseases, namely, infectious diseases, cardiovascular diseases, metabolic disorders, endocrine diseases, namely, glucagonoma, circulatory diseases, namely, heart disease, cardiopulmonary diseases, neoplastic diseases, liver diseases, eye diseases, respiratory diseases, neurologic diseases, digestive diseases, immune system diseases and immune system disorders; pharmaceutical preparations for the treatment of cancer and viral infections, namely, herpes, hepatitis, Acquired Immune Deficiency Syndrome (AIDS); pharmaceutical preparations for gene therapy; pharmaceutical preparations for diagnosis, treatment and prevention of Alzheimer diseases; pharmaceutical preparations, veterinary preparations and sanitary preparations for use in the field of gene therapy; dietetic substances for use in gene therapy; diagnostic preparations for diagnosis and analysis of genetic abnormalities, viral diseases, infectious diseases, circulatory diseases and cancer; reagent paper for medical purposes; biological stem cells for medical and veterinary use; microorganisms and proteins for medical or veterinary use for the treatment of cancer and viral infections, namely, herpes, hepatitis, Acquired Immune Deficiency Syndrome (AIDS); synthetic peptides for pharmaceutical purposes; peptides, nucleic acids and complexes of these molecules for gene therapy and for the treatment of genetic abnormalities in viral diseases, infectious diseases, circulatory diseases and cancer; gene therapy products, namely, modified cells and modified cell platforms, namely, pharmaceutical preparations for use in gene therapy; vectors for gene therapy, namely, pharmaceutical preparations for use in gene therapy; gene-manipulated stem cells for medical purposes for use in the manufacture of human proteins, animal proteins and synthetic proteins for medical, treatment and clinical use; biological preparations for use in clinical and medical cell therapy; gene-manipulated stem cells for medical purposes for use in the manufacture of human proteins, animal proteins and synthetic proteins for treatment and clinical use for human beings and animals; biopharmaceuticals preparations for the treatment of cancer; veterinary preparations for treatment of intestinal bacteria; veterinary preparations in the nature of pain relief preparations for veterinary purposes; pharmaceutical preparations for use in medical testing, namely, reagents for use in diagnostic tests for medical purposes; human vaccines; vaccine preparations, namely, human pharmaceutical vaccines; radiopharmaceuticals for use in nuclear medicine; diagnostic radiopharmaceutical preparations; radioactive pharmaceutical preparations for in vivo diagnostics or therapeutic use; liposome preparations for use in pharmaceuticals, medical or veterinary preparations, namely, pharmaceutical preparations for the treatment of pain; liposome formulations in the nature of pharmaceutical preparations for the treatment of pain; cell tissue for transplant surgery [living tissue], namely, surgical implants comprised of living tissues; medical reagents with skin, cartilage, cornea, liver, nerves, blood vessels and other cells, namely, diagnostic test reagents for medical purposes; reagent kits consisting of cell lines, reagents, enzyme substrates, genetically modified biochemical preparations for medical purposes, namely, diagnostic test reagents for medical purposes; media for bacteriological cultures; diagnostic media for bacteriological cultures; stem cells for medical use; stem cells for medical purposes; pharmaceutical cell preparations for treating disease, namely, stem cells for medical purposes; capsules for medicines, namely, capsules sold empty for pharmaceuticals; capsules, empty, for pharmaceuticals; medicinal preparations and substances for the treatment of cardiovascular diseases, central nervous system diseases, neurological disorders, namely, brain injury, spinal cord injury, seizure disorders, urological diseases and disorders, urogenital disorders and, gastrointestinal diseases, musculoskeletal disorders, allergies, diabetes, hypertension, erectile dysfunction, sexual dysfunction, cerebrovascular accident (stroke), cancer, migraine, pain, obesity,

inflammation and inflammatory disease, namely, inflammatory bowel diseases, inflammatory connective tissue diseases, inflammatory pelvic diseases, respiratory and infectious diseases, immunological, bacterial, viral and fungal disorders, metabolic diseases, mental illness, depression, psychosis, bone and mineral diseases, infertility, menopausal complaints, hormone deficiencies, and sleep disorders; pharmaceutical preparations for treating high cholesterol and smoking cessation; drug delivery agents consisting of compounds that facilitate delivery of a wide range of pharmaceuticals to treat cancer; diagnostic reagents for medical diagnostic use; reagents for analysis for medical or veterinary use, namely, diagnostic biomarkers for use in assessment of genomic analysis for medical use; diagnostic biomarker reagents for medical purposes; diagnostic preparations for blood testing; blood medical tests kits; biotechnological preparations for medical purposes for the treatment of cancer, arthritis, ankylosing spondylitis, Crohn's disease, ulcerative colitis, psoriasis, diabetes, and multiple sclerosis; medical biological tissue cultures for medical purposes for gene cell therapy; culture media for cultivating stem cells for medical purposes; gelatin capsules empty, for pharmaceuticals; antibacterial preparations, excluding for laundry or industrial purposes, namely, antibacterial detergents, antibacterial gels, antibacterial hand wash, antibacterial soap, and antibacterial wipes; dietary supplements for general health and well-being of humans; nutritional supplements for animal foodstuffs; dietetic beverages for babies adapted for medical purposes; dietetic food adapted for medical purposes for the prevention and treatment of iron deficiency and anaemia in humans; dietary supplements for general health and well-being of animals; dental composite materials; adhesive tapes for medical purposes; cotton swabs for medical purposes; biological tissue cultures for medical purposes for implantation; cultured skin, namely, biological tissue cultures for medical purposes.

Class 10

(3) Medical apparatus and instruments, namely, surgical instruments for use in endovascular, cardiovascular, and endoscopy procedures, surgical instruments for use in orthopedic surgery and stem cell transplants, computed tomography [CT] scanners, magnetic resonance tomography [MRT] apparatus, radiography table and auto radiography table; veterinary instruments; veterinary apparatus, namely, surgical instruments for use in endovascular, cardiovascular, and endoscopy procedures, surgical instruments for use in orthopedic surgery and stem cell transplants, computed tomography [CT] scanners, magnetic resonance tomography [MRT] apparatus, radiography table and auto radiography table; apparatus for the regeneration of stem cells for medical purposes, namely, incubators for medical purposes; cultured cartilage, namely, artificial cartilage; cultured bone, namely, implants for use in bone grafting; auxiliary medical devices and orthodontic apparatus, namely, orthodontic instruments for dental purposes; medical apparatus and instruments for cell culture, namely, incubators for medical purposes; ultrasonic medical diagnostic imaging apparatus; ultrasonic medical diagnostic apparatus; endoscopes for medical purposes; medical endoscopes for diagnostic and procedural purposes, and their parts and fittings; cleaning and disinfecting equipment for endoscope, namely brushes for cleaning endoscopes for medical purposes; endoscopy surgical instruments; medicinal catheters with endoscopes; medical diagnostic imaging apparatus for endoscopes; medical X-ray apparatus; X-ray CT scanners for medical purposes; apparatus and installations for the production of X-rays, for medical purposes; X-ray tubes for medical purposes; protection devices against X-rays, for medical purposes, namely, x-ray tubes for medical purposes; digital radiography for medical purposes, namely, radiography table; X-ray image diagnostic apparatus for medical purposes; apparatus for ultrasound therapy, namely, ultrasonic medical diagnostic apparatus; ultrasonic diagnostic apparatus for medical purposes; medical ultrasound apparatus; computed tomography [CT] scanners; X-ray computed tomography [CT] scanners; X-ray CT scanners; medical diagnostic apparatus with computer displays, computer hardware and software for processing medical

images; medical diagnostic apparatus with computer displays, computer hardware and software for processing medical ultrasonic images; medical apparatus for management of examination data of patients, namely, microsensor probes for medical purposes for measuring the data of human body; micro-surgical instruments for cerebrovascular treatment support system; blood testing apparatus, namely, diabetes monitoring equipment for sampling and analyzing blood and body tissue; genetic testing apparatus for medical purposes, namely, gene testing medical apparatus for identification of genus specific and species specific DNA and RNA sequences; diagnostic apparatus in the form of test kits for medical purposes, namely, diagnostic micro test plates for medical uses; injectors for medical purposes; surgical suture materials; artificial limbs; artificial eyes; artificial teeth; surgical implants comprised of artificial materials for replacing human tissue; X-ray image intensifier for medical purposes; medical X-ray irradiation devices; medical X-ray high voltage devices; medical and dental X-ray equipment; X-ray fluoroscopic apparatus; holding devices for medical X-rays tubes; digital radiography apparatus for medical purposes; medical and dental X-ray imaging processing equipment; cordless mobile X-ray apparatus of inverter type; CCD cameras for X-ray; supporting devices for X-ray tubes; X-ray tubes apparatus for medical purposes; whole body X-ray tubes apparatus; whole body MR equipment of permanent magnet form, namely magnetic resonance imaging [MRI] apparatus for medical purposes; whole body MR equipment of superconducting magnet, namely, magnetic resonance imaging (MRI) diagnostic apparatus; high frequency coils for MR equipment, namely, high frequency electromagnetic therapy apparatus; cryosurgery apparatus, namely, cryoprobes for treatment and removal of tumors; pulse oximeters; X-ray tubes apparatus; X-ray tubes apparatus for computed tomography [CT]; X-ray tubes apparatus for irradiation; ultrasonic diagnostic probe for nonvascular surgery; hand-held external ultrasonic diagnostic probe; ultrasonic diagnostic probe for oesophagus; ultrasonic surgical devices, in the form of ultrasonic medical diagnostic apparatus; ultrasonic diagnostic probe for rectum; ultrasonic diagnostic probe for vagina; ultrasonic medical diagnostic imaging apparatus for generic purposes; ultrasonic diagnostic probe for body cavities; instrument for attaching puncture needle for ultrasonic probe; ultrasonic diagnostic probe of external water tank type; mouthpieces for endoscopes; ultrasonic probe cover for body surface; electrocardiography cable and lead wire; therapeutic inhalers; pumps for medical purposes, namely, medical infusion pumps and parts and fittings therefor; osseous implants made of artificial materials; medical implant apparatus, namely, healing caps made of artificial matter; pharmaceutical apparatus and instruments, namely, gene testing medical apparatus for identification of genus specific and species specific DNA and RNA sequences; medical diagnostic apparatus with computer displays, computer hardware and software for processing medical endoscopic images; endoscopic cameras for medical purposes; diagnostic imaging apparatus for medical and surgical endoscopes; light sources for use in medical and surgical endoscopy; LED light sources for medical use, namely, dental led lights; chemiluminescent light sources for use in endoscopy; apparatus for analyzing nucleic acid sequences for clinical and medical diagnostic use, namely, medical apparatus and instruments for amplifying nucleic acid DNA and RNA molecules; apparatus for analyzing nucleic acid sequences for the medical and veterinary diagnosis and treatment, namely, medical apparatus and instruments for amplifying nucleic acid DNA and RNA molecules.

Services

Class 35

(1) Business efficiency expert services; statistical analysis and reporting services for business purposes; compilation of statistical information in the nature of systemization of data into computer databases; providing statistical information for business or commercial purposes, namely, marketing survey services for others; business management advice and information; business

planning; business management; business process re-engineering; work efficiency expert services; compilation and input of information into computer databases; database management; compilation and systemization of information into computer databases; updating and maintenance of data in computer databases; maintenance of data in computer databases; collating of data in computer databases; compilation and systematization of information in databanks; marketing research and analysis services; business form entry and arrangement services; office functions in the nature of business administration; direct marketing of the goods and services of others; promoting the goods and services of others; commercial intermediation services for commercial transactions for third parties in the field of retail store merchandising services; provision of an online marketplace for buyers and sellers of goods and services; advertising the goods and services of others and publicity agency services; rental of advertising space and production of advertising materials for others; providing commercial information and advice for consumers in the choice of products and services in the field of pharmaceuticals and medical instruments; computerized file management; providing information and advice relating to information construction for computer database in the nature of database management; compilation of information into computer databases, namely, management and compilation of computerized databases; computer data entry services into computer database; registration of written communications and data in the field of ownership of photocopiers and computer document printers; business management analysis and business management consultancy; providing information about business management of commercial sales; computerized management of digital data files; computerized document creation and file management; computerized management of document files; updating and maintenance of data in computer databases; systemization of information into computer databases; conducting marketing studies through analysis of big data, data log and electronic data; business data management analysis; data aggregation and analysis based on market research; management and compilation of computerized databases; file management using computers and computer database; database management services; computerized digital data file management and provision of information and advice relating thereto; providing information relating to file management by digitization, storage and on-demand output of photos and documents; business management consultancy services relating to data processing; advisory service relating to digitized file management; management and maintenance of document data and image data in computer database; business management for others; business management advisory services; provision of business information management; business research services; business analysis management; business appraisals; business consultancy services relating to technology, design, development, clinical trials, product launch in the field of pharmaceuticals, biotechnology and life science; computerized data and material search services using artificial intelligence and providing information relating to search results, namely, systemization of information and data into computer databases; computerized search services in computer database using artificial intelligence, namely, systemization of information and data into computer databases; assistance and advisory services relating to business management and operation in the field of biotechnology research; data processing using computers namely, computer database management services; information processing using artificial intelligence for computerised database management; computer information processing consulting, namely, consultancy in the field of computer database management; collection of big data, namely collection of market research information, medical records, and personnel information; providing information on collection of big data, namely collection of market research information, medical records, and personnel information; providing information on collection of electronic data, namely collection of market research information, medical records, and personnel information; collection of electronic data, namely collection of market research information, medical records, and personnel information.

Class 40

(2) Custom manufacture of human stem cells for medical purposes; processing of therapeutic cells, namely, treatment of therapeutic stem cells for medical purposes; custom blending and processing of chemical products, namely, chemicals for use in agriculture, horticulture and forestry, chemicals for use in chromatography, and chemicals for use in purifying water, and consultancy and providing of information relating thereto; custom production and processing of proteins and chemicals, and consultancy and provision of information relating thereto, namely custom manufacture of proteins for use in the manufacture of food supplements; custom manufacture of medicated and non-medicated soaps for personal use, cosmetics and perfumery in the nature of custom perfume blending services, and consultancy and provision of information relating thereto; custom manufacture of synthetic peptide for pharmaceutical purposes; custom manufacture of compound synthesis, namely, drug metabolite synthesis; custom manufacture of chemicals for use in agriculture, horticulture and forestry, chemicals for use in chromatography, and chemicals for use in purifying water; custom extraction, purification and synthesis of medical products, in the form of custom manufacture of medical instruments; custom manufacture of medicinal preparations and substances; custom manufacture of dietary supplements for humans; processing of medical materials, in the nature of custom manufacture of medical instruments; custom manufacture of biopharmaceuticals in the form of genetically modified cells and vectors for production of human, animal and synthetic proteins; custom manufacture of biopharmaceuticals in the form of genetically modified cells and carriers for the manufacture of human, animal and synthetic proteins; custom manufacture of biopharmaceuticals in the form of biological products including cells, viruses, genes and proteins; custom manufacture of biopharmaceuticals in the form of biomolecules such as cells, viruses, genes and proteins; custom manufacture of biopharmaceuticals in the form of vectors, cultured cells and recombinant proteins for use in the field of biotechnology; custom manufacture of biopharmaceuticals for use in manufacturing process; custom manufacture of cells for use in gene-manipulated DNA, biomass, cells, viruses, pathogens for scientific, research, medical and laboratory use; custom manufacture of biopharmaceuticals; custom manufacture of biopharmaceuticals using biomass; custom manufacture of chemical substances for use in the field of life science, namely, pharmaceuticals and agricultural chemicals; rental of chemical processing machines; sorting and disposal of waste and trash; custom manufacture of artificial limbs and artificial teeth; processing of chemical diagnostic reagents for medical-scientific research use.

Class 42

(3) Computer software design, computer programming, and maintenance of computer software; industrial engineering advice relating to computers, automobiles and industrial machines; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs, namely, testing of new products for others; research and development services in the field of cytology; custom design of culture of stem cells for scientific research purposes; testing, inspection, research and development of cell culture and tissue culture; research and development of pharmaceuticals; research and development in the field of life science, namely, analyzing clinical trials in the pharmaceutical, biotechnology and life sciences fields; medical and scientific research in the field of healthcare; technological research and development in the field of healthcare; technological research and development in the field of life science, namely, analyzing clinical trials in the pharmaceutical, biotechnology and life sciences fields; provision of information on web portals relating to research and development of biopharmaceuticals that are manufactured using biological treatment and bioproduction platforms; research and development of biotechnology featuring biological treatment and bioproduction platforms for use in the manufacture of biopharmaceuticals and consultancy relating thereto; design and development of computer platforms relating to

biological treatment and bioproduction for use in the manufacture of biopharmaceuticals; hosting computer software for others for use in custom design and order of assay, nucleic acids and reagents in the field of nucleic acid sequence analysis, genotyping, medical diagnosis, veterinary medicine diagnosis, clinical diagnosis, medical research, veterinary medicine research, diagnostic research, clinical research, drug discovery, drug discovery research, medical experimental research, veterinary medicine and research, life science, biology science, microbiology, biotechnology, agriculture, forensic medicine, food safety, metagenomics and genetics; testing or research on machines, apparatus and instruments, namely, design and testing of new products for others; testing, inspection of medical apparatus and instruments, namely, design and testing of new products for others; providing computer programs on data networks, namely, rental of computer software in the field of medical research and treatment; providing computer programs on data networks, computer programs for use in conducting medical examinations, diagnosis and treatment, namely, for analyzing medical data to provide suggested clinical interpretations for medical treatment purposes, for information management, data collection and data analysis for medical purposes, and for use by healthcare providers for reviewing, monitoring and communicating of medical images for the primary diagnosis, treatment and care of patients; rental of server memory space via a computer communications network; cloud computing providing software for database management for preservation, analysis and share of information in the field of medical evaluation services; cloud computing providing software for database management, and we hosting services; providing temporary use of online non-downloadable computer software for operating software for accessing and using a cloud computing network; rental of computer software for operating software for accessing and using a cloud computing network; server hosting; hosting platforms on the Internet, namely, hosting websites on the internet; information technology [IT] consultancy in the field of computers and computer software; consultancy and information services relating to information technology architecture and infrastructure; electronic data storage, namely, providing cloud storage facilities for use as a data center for others; electronic data storage of sound, data, and image, namely, cloud computing provider services for general storage of data; services of biotechnical, chemical and pharmacological laboratories, namely, scientific and technological research relating to the production of chemicals and biotechnological products for use in preparing pharmaceutical and veterinary preparations, as well as providing expert [binding] advice on the subject; medical biotechnology research; carrying out early evaluations in the field of new medicines as part of scientific research; development of pharmaceutical preparations, medicines and medicaments; providing technological services, namely technical consultancy, project research and research in the field of pharmaceutical and medical industries in the pharmaceutical and healthcare industries; pharmaceutical product evaluation as part of scientific research and analysis; research and development in the pharmaceutical field; scientific research, development and analysis of product development of medicines and test reagents and consultancy services relating thereto; scientific research in the field of biochemistry, biotechnology, pharmacology, pharmaceuticals, and design and testing of new products for others; scientific research for medical care and provision of information relating thereto, namely medical research; software as a service [SaaS] featuring software for analyzing medical information to provide suggested clinical interpretations for medical treatment purposes; software as a service [SaaS] featuring software for database management; software as a service [SaaS] featuring software for collecting, processing, extracting and analysing data for healthcare management; software as a service [SaaS] featuring software for use by healthcare providers for reviewing, monitoring and communicating of medical images for the primary diagnosis, treatment and care of patients; platform as a service [PaaS] featuring software for analyzing medical information to provide suggested clinical interpretations for medical treatment purposes; platform as a service [PaaS] featuring software for database management; platform as a service [PaaS]]

featuring software for collecting, processing, extracting and analysing data for healthcare management; platform as a service [PaaS] featuring software for use by healthcare providers for reviewing, monitoring and communicating of medical images for the primary diagnosis, treatment and care of patients; platform as a service [PaaS] for searching structured and unstructured data for healthcare data analytics; providing online non-downloadable computer programs for constructing platforms for providing service software applications; providing computer engineering advice relating to artificial intelligence; research and development of artificial intelligence in the field of computers and computer software; rental of computer software and computer hardware; rental of computer programs; rental of operating software for accessing and using cloud computing networks; electronic data storage and data back-up services, namely, providing cloud storage facilities for use as a data center for others; design and development of operating software for accessing and using cloud computing networks; design, creation, and maintenance of computer programs for information management; maintenance of database software; hosting platforms in form of computer databases on the internet and communication networks; electronic storage of data, drawings, documents, digital photographs, music, images, videos and electronic data by cloud computing; mechanical engineering advice relating to industrial machines; testing and research on machines and equipment, namely, design and testing of new products for others; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments, namely design of computer hardware; design and development of computer hardware, software and databases; data encryption and decoding services; industrial research, testing and analysis services, namely, design and testing of new products for others; energy auditing; consultancy in the field of energy efficiency; consultancy in the field of energy-saving; design and development of electronic data security systems; rental of computers; digitization of documents [scanning]; computer technology consultancy; off-site data backup; monitoring of computer systems to detect breakdowns; monitoring of computer systems by remote access; computer system design; computer software design; updating of computer software; maintenance of computer software; duplication of computer programs; data encryption services; conversion of data or documents from physical to electronic media; monitoring of computer systems for detecting unauthorized access or data breach; hosting computer sites [web sites]; rental of computer software; providing information on electronic storage and analysis of technical data, namely, providing cloud storage facilities for use as a data center for others; technical analysis and storage of big data, namely, providing cloud storage facilities for use as a data center for others; analysis and storage of big data, namely, providing cloud storage facilities for use as a data center for others; providing information on technical analysis and electronic storage of big data, namely, providing cloud storage facilities for use as a data center for others; providing online non-downloadable computer software for database management in the fields of scientific and technical analysis of data using artificial intelligence [AI]; providing computer software for corporate data analysis and report creation, namely, computer programming services for commercial analysis and reporting; technical analysis and storage of electronic data, namely, providing cloud storage facilities for use as a data center for others; providing computer software for non-downloadable document processing; design, development, maintenance, update and rental of computer software for document processing; providing information on the design of computer equipment for document processing; installation and maintenance of computer programs for document management; design, creation and maintenance of computer software for document processing; designing, creation and maintenance of computer programs for electronic data security; consultancy and advice on design and development of electronic data security systems; electronic data conversion using computers, namely, conversion of data or documents from physical to electronic media; remote monitoring of computer systems for document processing; monitoring services using computer programs for document processing to prevent unauthorized

access by others; providing online document management application software; provision of computer software by application service providers for health management performed by managing body weight, body fat percentage and body composition information; hosting computer websites for health management by managing weight, body fat percentage and body composition information; rental of laboratory apparatus and instruments; providing online non-downloadable computer programs with artificial intelligence functions for database management; providing computer software for scientific and technical data analysis using artificial intelligence [AI]; consultancy and advice on designing computer programs using artificial intelligence; biotechnology testing and research and advice related thereto, namely, research and development in the medical biotechnology field.

Class 44

(4) Providing medical information in the fields of the treatment of cardiovascular diseases, central nervous system diseases, neurological disorders, namely, brain injury, spinal cord injury, seizure disorders, urological diseases and disorders, urogenital disorders and, gastrointestinal diseases, musculoskeletal disorders, allergies, diabetes, hypertension, erectile dysfunction, sexual dysfunction, cerebrovascular accident (stroke), cancer, migraine, pain, obesity, inflammation and inflammatory disease, namely inflammatory bowel diseases, inflammatory connective tissue diseases, inflammatory pelvic diseases, respiratory and infectious diseases, immunological, bacterial, viral and fungal disorders, metabolic diseases, mental illness, depression, psychosis, bone and mineral diseases, infertility, menopausal complaints, hormone deficiencies, and sleep disorders; providing information on prevention and treatment of viral diseases, infectious diseases, cardiovascular diseases, metabolic disorders, endocrine diseases, cardiovascular diseases, cardiopulmonary diseases, neoplastic diseases, liver diseases, eye diseases, respiratory diseases, neurological diseases, musculoskeletal diseases, digestive diseases and immune system diseases and disorders; medical services for the treatment of medical diseases, illnesses and conditions in the therapeutic areas of central nervous systems [CNS], endocrine disorders, musculoskeletal, anti-viral, pain control, sexual dysfunction, anti-addictive, respiratory and allergies; diagnosis of viral infections and providing information relating thereto; consultancy on public health management and providing information relating thereto; providing advice and information on the prevention of pet diseases; providing advice on disease prevention and information relating thereto; providing medical information via the cable and computer communication network in the fields of the treatment of cardiovascular diseases, central nervous system diseases, neurological disorders, namely, brain injury, spinal cord injury, seizure disorders, urological diseases and disorders, urogenital disorders and, gastrointestinal diseases, musculoskeletal disorders, allergies, diabetes, hypertension, erectile dysfunction, sexual dysfunction, cerebrovascular accident (stroke), cancer, migraine, pain, obesity, inflammation and inflammatory disease, namely inflammatory bowel diseases, inflammatory connective tissue diseases, inflammatory pelvic diseases, respiratory and infectious diseases, immunological, bacterial, viral and fungal disorders, metabolic diseases, mental illness, depression, psychosis, bone and mineral diseases, infertility, menopausal complaints, hormone deficiencies, and sleep disorders; providing online image and movie for medical diagnosis; consultancy relating to medical services for animals; consultancy relating to medical services for animals; providing medical information on biotechnology for the treatment of cancer; diagnosis and treatment via the regenerative medicine, namely, regenerative medicine services; medical treatment using cultured cell; diagnosis and treatment using gene information, namely, gene bank services; medical diagnosis via the X-ray photographs analysis; intermediary services for medical diagnosis via the X-ray photographs analysis, namely X-ray examinations for medical purposes; arranging blood tests; provision of data relating to the results of blood tests and blood analysis; in-home blood tests; health care consultancy services in the fields of public health,

health assessments, and medical clinic services and information services relating thereto; providing medical information regarding health examinations; healthcare for animals being veterinary services and providing information thereof; dietary and nutritional guidance; animal breeding, namely, breeding of arthropod, cattle, horses, cat, dog, poultry, and sheep; veterinary services; beautician services for animals; nursing care; beauty care salon and spa services; providing information about beauty salon and spa services; make-up application services; consultancy in the field of cosmetics; massage and therapeutic Shiatsu massage; chiropractic; moxibustion; treatment for dislocated joints, sprain, bone fractures [Judoseifuku]; bodywork therapy; acupuncture; providing medical information using text messaging services; medical analysis services for diagnostic and treatment purposes provided by medical laboratories and provision of medical information thereto; consultancy on prescribing and wearing cultured skin for the treatment of skin conditions; providing information and consultancy on long-term care; consultancy on nursing care for the elderly, sick and physically handicapped; providing medical information to provide effective treatment by evaluation of recovery programs for patients during the recovery phase of illness; rental of image management apparatus for medical use; medical equipment rental; consultancy relating to medical examination.

Colour Claim

Colour is claimed as a feature of the trademark. The colours light blue, pink and white are claimed. The mark consists of a square design, outlined in light blue. The inner portion of the square features an alternating striped diagonal pattern of pink and white lines. Within the center is the wording PRETTY STRONG in light blue, upon a white rectangle.

Goods

Class 05

(1) dietary and nutritional supplements for general health and wellbeing; dietary supplements for enhancing and increasing athletic performance; mineral food supplements; soy protein dietary supplements; dietary and nutritional supplements, in liquid form, for general health and wellbeing; herbal supplements for general health and wellbeing; nutritional supplement meal replacement beverages containing vitamins and minerals; powdered fruit flavored dietary supplement drink mixes for general health and wellbeing; mineral dietary supplements for humans; mineral nutritional supplements; protein dietary supplements; wheat dietary supplements; food supplements consisting of trace elements; collagen in powdered form as a food supplement for

general health and wellbeing; food supplements consisting of amino acids; glucose dietary supplements; protein powder dietary supplements; health food supplements made principally of minerals; dietetic food and substances adapted for medical use for general health and wellbeing; powdered nutritional supplement drink mix for general health and wellbeing; dietary and nutritional supplements used for intermittent fasting; dietary supplements based on vitamins, minerals, trace elements, amino acids; dietary supplements for humans containing proteins, fats, vitamins and fatty acids, for general health and wellbeing

Class 25

(2) hats; caps; casual clothing; casual footwear; shoes; boots

Class 29

(3) drinks made from dairy products; flavoured milk powder for making drinks; beverages made from milk; oat milk-based beverages; plant-based milk substitutes

Class 32

(4) non-alcoholic beverages containing fruit juices, namely sparkling water, carbonated water, and seltzer water; non-alcoholic beverages enhanced with vitamins, minerals, nutrients, amino acids and herbs; non-alcoholic, non-carbonated fruit flavoured beverages; ready to drink meal replacement beverages; nut and soy based beverages; whey beverages; flavoured carbonated beverages; fruit beverages and juices; non alcoholic fruit juice beverages; bottled water, sparkling water, flavoured waters; mixes in the nature of powders used in the preparation of flavored non-alcoholic beverages; essences for making non-alcoholic drinks; powders used in the preparation of sports drinks; sports drinks

Services**Class 35**

retail services in relation to dietary supplements; retailing relating to dietetic foodstuffs, not for medical purposes; online retail services in relation to nutritional supplements; online retailing relating to dietetic foodstuffs, not for medical purposes; mail order retail and wholesale services, and online mail order retail and wholesale services relating to dietary supplements; mail order retail and wholesale services, and online mail order retail and wholesale services relating to dietetic foodstuffs, not for medical purposes; computerized, online ordering services in the field of food, dietary and nutritional supplements and beverages; business management relating to goods invoice; providing an online commercial information directory; providing an online commercial information directory on the internet; operation and management of customer incentive, award and loyalty programs; provision of space on web-sites for advertising goods and services; business intermediary and advisory services in the field of selling products and rendering services

(1) Integrated circuits; video processors; signal processors; digital signal processors; microchip image processors; printed circuit boards; semiconductors; semiconductor chips; chip multiprocessors; computer chips; electronic chips for the manufacture of integrated circuits; integrated circuits, integrated circuit chips, and integrated circuit modules for digital video compression and decompression; integrated circuits, integrated circuit chips, and integrated circuit modules for encoding and decoding digital video; integrated circuits, namely, system on a chip (SOC); transistors; transistors, namely, field effect transistors (FETs); electrical power distribution units; voltage stabilizing power supply units; low voltage power supplies; voltage regulators; overvoltage protection relays; overcurrent protection devices, namely electric current control devices; voltage surge suppressors; transient voltage surge suppressors with power conditioning technology; electrostatic discharge (ESD) devices being electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emission in industrial applications; thyristor surge protective devices (TSPDs); LED drivers; LED drivers, namely, constant current drivers; electric converters; frequency converters; current converters; direct current converters; distribution amplifiers; power amplifiers; signal amplifiers; optical amplifiers; sound amplifiers; signal amplifiers, namely, low noise amplifiers (LNAs); amplifiers, namely, operational amplifiers; electrical transformers; electric control panels; electric power switches; power switches; electric current switches; radiofrequency (RF) switches being telecommunications switching systems; antenna tuning switches being telecommunications switching systems; analog switches being power switches; bilateral switches being power switches; cross-point switches being power switches; lane switches being power switches; oscillators; battery plates; battery boxes; batteries for transportation machinery, namely, mobile phones, tablets, notebook computers, personal computers, digital video camcorders, video cameras and recorders and video game consoles used with televisions; photovoltaic cells; solar cells; batteries for mobile phones, tablets, notebook computers, personal computers, digital video camcorders, video cameras and recorders and video game consoles used with televisions; electrical battery cells; battery chargers for mobile phones, tablets, notebook computers, personal computers, digital video camcorders, video cameras and

recorders and video game consoles used with televisions; USB cables, USB hubs, USB charging ports; inter-integrated circuit (I2C) interfaces; light diodes; semiconductor diodes; electric diodes; photodiodes; optoelectronic converters; photoelectric converters; optical image sensors; optical lenses for use with image sensors; aspheric lenses and lens assemblies for use in combination with digital signal processing to produce and improve images; semiconductor chips and optical lenses for capturing and processing digital images and video; optical sensors with integrated optical lenses for capturing and processing digital images and video; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; computer hardware and recorded software sold as one unit for capturing digital images and video; image signal processing semiconductor chips for use with image sensors to capture, process or improve digital images and video; liquid crystal displays; organic light-emitting diode (OLED) displays; liquid crystal on silicon (LCOS) displays; liquid crystal on silicon (LCOS) panels to project digital images and video; downloadable computer software for use as device drivers for liquid crystal displays; integrated circuits, semiconductor chips and optical lenses for capturing and processing digital images and video; optical sensors with integrated optical lenses for capturing and processing digital images and video; image signal processing semiconductor chips for use with image sensors to capture, process or improve digital images and video; wafer level optics in the nature of wafer level image sensor modules for use in mobile phones, tablets, notebook computers, personal computers, digital video camcorders, video cameras and recorders, video game consoles used with televisions, automobiles, medical devices, namely, endoscopes and catheters, disposable medical guidewires, security systems, robotic devices, drones, and augmented reality (AR) and virtual reality (VR) devices, namely, headsets, glasses, gloves, and controllers; computer hardware and pre-recorded software sold as a unit for capturing digital images and video; computer hardware and downloadable software sold as a unit for capturing digital images and video; eye tracking cameras; endoscope cameras for non-medical use; endoscopes for non-medical use; catheters for non-medical use; guidewires for non-medical use; retail displays, namely, electronic display boards, electronic display screens, electronic advertising and messaging display units, electronic shelf labels, digital shelf displays; projection screens; augmented reality (AR) and virtual reality (VR) devices, namely, headsets, glasses, gloves, controllers; downloadable augmented reality software for medical training; microphones; microphones, namely, micro-electromechanical systems (MEMS) microphones; semiconductor chips featuring touch and display driver integration (TDDI); smartphones and tablet computers featuring touch and display driver integration (TDDI).

Class 10

(2) Medical imaging cameras for endoscopes, namely, encephaloscopes, esophagoscopes, thorascopes, angioscopes, gastroscopes, proctoscopes, colonoscopes, arthroscopes, rhinoscopes, laryngoscopes, bronchoscopes, mediastinoscopes, nephroscopes, laparoscopes, amnioscopes, cystoscopes, hysteroscopes; medical imaging cameras, namely, catheter cameras; endoscope cameras for medical use; endoscopes; catheters; medical guidewires.

Services

Class 35

Retail and wholesale sale services in connection with the sale of electronic and microelectronic devices, online retail store services for electronic and microelectronic devices, namely, integrated circuits, video processors, signal processors, digital signal processors, image processors, printed circuit boards, semiconductors, semiconductor chips, multiprocessor chips, computer chips, electronic chips for the manufacture of integrated circuits, integrated circuits, integrated circuit chips, and integrated circuit modules for digital video compression and decompression, integrated circuits, integrated circuit chips, and integrated circuit modules for encoding and decoding digital

video, integrated circuits, namely, system on a chip (SOC), transistors, transistors, namely, field effect transistors (FETs), electrical power supplies, voltage stabilized power supplies, low voltage power supplies, voltage regulators, overvoltage protection relays, overcurrent protection devices, voltage surge suppressors, transient voltage surge suppressors with power conditioning technology, electrostatic discharge (ESD) devices, thyristor surge protective devices (TSPDs), LED drivers, LED drivers, namely, constant current drivers, electric converters, frequency converters, current converters, direct current converters, amplifiers, low noise amplifiers (LNAs), amplifiers, namely, electronic voltage amplifiers in the nature of operational amplifiers, transformers, electric control panels, electric switches, power switches, electric current switches, radiofrequency (RF) switches, antenna tuning switches, analog switches, bilateral switches, cross-point switches, lane switches, oscillators, battery plates, battery boxes, batteries for transportation machinery, photovoltaic cells, solar cells, batteries, battery cells, battery chargers, USB cables, USB hubs, USB charging ports, inter-integrated circuit (I2C) interfaces, diodes, electric diodes, photodiodes, optoelectronic converters, photoelectric converters, image sensors, optical lenses for use with image sensors, aspheric lenses and lens assemblies for use in combination with digital signal processing to produce and improve images, semiconductor chips and optical lenses for capturing and processing digital images and video, optical sensors with integrated optical lenses for capturing and processing digital images and video, optical inspection apparatuses for imaging, computer hardware and recorded software sold as one unit for capturing digital images and video, image signal processing semiconductor chips for use with image sensors to capture, process or improve digital images and video, liquid crystal displays, organic light-emitting diode (OLED) displays, liquid crystal on silicon (LCOS) displays, liquid crystal on silicon (LCOS) panels to project digital images and video, downloadable computer software for use as device drivers for liquid crystal displays, integrated circuits, semiconductor chips and optical lenses for capturing and processing digital images and video, optical sensors with integrated optical lenses for capturing and processing digital images and video, image signal processing semiconductor chips for use with image sensors to capture, process or improve digital images and video, wafer level optics in the nature of wafer level image sensor modules for use in mobile phones, tablets, notebook computers, personal computers, digital video camcorders, video cameras and recorders, video game consoles used with televisions, automobiles, medical devices, namely, endoscopes and catheters, disposable medical guidewires, security systems, robotic devices, drones, and augmented reality (AR) and virtual reality (VR) devices, namely, headsets, glasses, gloves, and controllers, computer hardware and pre-recorded software sold as a unit for capturing digital images and video, computer hardware and downloadable software sold as a unit for capturing digital images and video, eye tracking cameras, endoscope cameras for non-medical use, endoscopes for non-medical use, catheters for non-medical use, guidewires for non-medical use, retail displays, namely, electronic display boards, electronic display screens, electronic advertising and messaging display units, electronic shelf labels, digital shelf displays, projection screens, augmented reality (AR) and virtual reality (VR) devices, namely, headsets, glasses, gloves, controllers, downloadable augmented reality software for medical training, microphones, microphones, namely, micro-electromechanical systems (MEMS) microphones, semiconductor chips featuring touch and display driver integration (TDDI), smartphones and tablet computers featuring touch and display driver integration (TDDI), medical imaging cameras for endoscopes, namely, encephaloscopes, esophagoscopes, thorascopes, angioscopes, gastroscopes, proctoscopes, colonoscopes, arthroscopes, rhinoscopes, laryngoscopes, bronchoscopes, mediastinoscopes, nephroscopes, laparoscopes, amnioscopes, cystoscopes, hysteroscopes, medical imaging cameras, namely, catheter cameras, endoscope cameras for medical use, endoscopes, catheters, medical guidewires.

Class 09

Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electric current, namely, electrical conductors for transformers, electrical distribution boxes, electrical transformers, voltage regulators, electric control panels, chargers for electric vehicle batteries, computers and computer hardware for data processing, management and monitoring; batteries, namely, electric batteries for vehicles, electric storage batteries; rechargeable electric batteries, namely, rechargeable electric batteries for vehicles, rechargeable electric storage batteries; batteries for electric vehicles; electric accumulators for vehicles; chargers, namely, automotive battery chargers, charging stations for electric vehicles, USB chargers; battery chargers for electric vehicles; chargers for electric accumulators; charging stations for electric vehicles; car chargers, namely, car chargers for electronic cigarettes, cell battery chargers for use in vehicles, electric vehicle chargers; fast chargers for mobile devices, namely, battery chargers for mobile phones and tablet computers; mains chargers, namely, ac adapters; battery compensation chargers, namely, chargers for electric batteries for electric vehicles; electrical controls, namely, electric control panels; electrical circuits; electric rectifiers; electric power distribution units; electrical inverters; electrical components, namely, electric power converters, LED drivers, LED modules and power modules for sequential control; electrical converters; electrical rectifiers; electricity inverters, namely, AC/DC inverters, DC/AC inverters, inverters for power supply; electrical charge controllers; electric circuit boards; electrical

distributors, namely electricity distribution consoles; electrical transformers; electric sensors for measuring electric current; electric charging cables for use with electric vehicles and mobile phones and tablet computers; electricity transformers, namely, power transformers; electrical control panels; electrical control boards being electrical circuit boards; electrical test apparatus, namely, battery testers, circuit testers and electrical power testers; electrical circuit boards; electric power converters; electrical power adaptors, namely, electrical AC power adapters and electrical DC power adapters for computers; electric power controllers, namely, electronic controllers for use with power converters; electrical circuit testers; electric measuring equipment, namely, electrical charging station meters for electrical monitoring; electronic control circuits for electric vehicles; electricity mains apparatus, namely electric capacitors, bias voltage conductors, electrical transformers, ac adapters, electricity generators, and circuit breaker panel boards; electric current rectifiers; electric power supply distribution units; electrical storage batteries; electrical circuit components, namely, electrical circuit boards, circuit breakers, electric circuit closers; electricity storage apparatus, namely, accumulators being electrical storage batteries, supercapacitors for energy storage and ultracapacitors for energy storage; electric current transformers; electric voltage transformers; electrical charge controllers; electricity and energy metering apparatus, namely, electricity meters; electrical cells, namely, dry cells, electrolytic cells, galvanic cells, photoelectric cells and photovoltaic cells; electrical switching apparatus, namely, electric current switches, electric power switches and automatic time switches; electricity distribution boards being electrical power distribution units; downloadable electrical engineering software for use in designing electrical charging stations for electric vehicles; electric current control devices; electrical reducing transformers; electrical power control apparatus, namely, electrical power distribution blocks, electrical power connectors, electrical power converters, electrical control panels; electric apparatus for commutation, namely, electrical commutator switches; electrical power distribution blocks; power regulating apparatus, namely, voltage regulators for electric power; electrical communications instruments, namely computer hardware for storage of data and electronic instrument clusters; electrical circuits and circuit boards; electrical surge and spike protection units; electric control devices for energy management, namely, energy meters for tracking and monitoring energy usage; electrical and electronic apparatus for logging data, namely, data loggers; electrical and electronic apparatus for storing data, namely computer hardware for storage of data; electrical and electronic instruments for processing data, namely computer hardware for data processing; electrical and electronic instruments for the reception of data, namely, car antennas, wireless routers, GPS receivers, computers; electrical and electronic apparatus for the transmission of data, namely, data cables, electrical cables, wireless routers, GPS transmitters and computers; electric installations for the remote control of industrial operations, namely, remote control starters for vehicles; plug-in electrical connectors; uninterruptible electrical power supplies; power modules, namely, power modules for sequential control and power modules for electric vehicles; input modules, namely, rectifier modules; rectifier modules; electric regulating modules, namely, voltage monitor modules; electronic load modules; voltage monitor modules; charging appliances for rechargeable equipment, namely, charge regulators for electric vehicles; electric mains power distribution units; electric mains transformers; electric mains monitoring apparatus, namely, direct electrical current monitoring modules; remote control telemetering machines and apparatus, namely, telemeters; remote controls for controlling electronic products, namely, computers and wireless electronic devices in the nature of wireless routers, wireless charging stations for electric vehicles and wireless charging stands for smartphones; machine control software, namely, embedded software for monitoring, controlling, and energy optimizing of electric motors in industrial machines sold as a component of electronic controllers and electronic motor drives; electric process controllers for monitoring the charging status of electric vehicles; inverter controllers used in solar power generation; electric control apparatus, namely, electric current

control devices; electronic controllers for use with power converters; electronic control systems for electric vehicles; distribution boxes for electrical power; apparatus and instruments for monitoring, analysing or controlling electricity and energy usage, apparatus for recording, namely, electricity conduits, electricity distribution consoles, electricity limiter, electricity meters and energy meters for tracking and monitoring energy usage; data processing equipment, namely, computer hardware for data processing.

Services

Class 35

(1) Data management services, namely, energy usage management information services; data collecting, recording, processing, monitoring, verification and management services relating to smart energy usage; providing business data analysis information services in the field of electricity and energy usage; information, advisory and consultancy services in relation to the foregoing; commercial and business advice relating to electric charging stations for electric vehicles and power products, namely, batteries for electric vehicles, automotive battery chargers.

Class 36

(2) Investment services, namely investment of funds, capital investment; financing services, namely, financing of industrial activities, financing of investments, financing of product development, venture capital financing; financial services, namely financial analysis consultation services, financial investment advisory services and financial management; lease-finance services, namely lease financing of electric vehicle charging equipment and projects relating to the installation, maintenance and operation of electric vehicle charging equipment; financial services relating to the leasing of charging points, namely, lease financing for electronic vehicle charging stations and maintenance and repair services related thereto.

Class 37

(3) Batteries and accumulators charging services, namely, vehicle battery charging, battery charging service for motor vehicles and charging station services for electric vehicles; vehicle battery charging services; installation, maintenance and repair of apparatus and products for recharging batteries and accumulators, namely, automotive battery chargers, charging stations for electric vehicles, USB chargers; consultancy and information services relating to the aforesaid services; installation, maintenance, repair, upgrading, and optimisation of electrical and electronic equipment, namely, energy generation and storage equipment, monitoring and metering equipment for electricity, and solar power systems; charging services for electric vehicles; servicing of apparatus and installations for generating power, namely, power generation equipment.

Class 39

(4) Storage of electricity in charging stations for electric vehicles; providing information about the storage of electrical energy and e-fuels via a website, web-based customer portal, and charger dashboards for automobiles; supply and distribution of electricity to third parties, in particular from renewable energy sources; distribution of energy and fuels, namely, distribution of electrical energy to users of electrical energy; information, consultancy and advisory services relating to all of the aforesaid services.

Class 40

(5) Generation of electricity; leasing of energy generating equipment; leasing of charging points, namely, leasing of charging stations for electric vehicles; rental of equipment for energy production; rental of charging points, namely, rental of charging stations for electric vehicles; rental of power-generating equipment; leasing services relating to electric battery systems, namely, leasing of batteries for electric vehicles.

Class 42

(6) Scientific and technological services and research and design relating thereto in the field of sustainable energy and power; industrial analysis, industrial research and industrial design services in the field of sustainable energy and power; design and development of charging stations for charging electric vehicles; design and development of energy and power management systems; design and development of power products, namely, batteries and electric charging stations for electric vehicles; providing technological advice and consultancy in connection with energy management and power products, namely, batteries and electric charging stations for electric vehicles; providing a web hosting platform for electrical energy management; advisory and consultancy services relating to energy efficiency and energy-saving, energy use and conservation and energy consumption, namely consulting services in the fields of energy measurement to improve energy efficiency.

Claims

Priority Filing Date: July 15, 2021, Country or Office: Benelux Office for IP (BOIP), Application No: 1446895 in association with the same kind of goods and in association with the same kind of services

Goods

Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking and supervision, life-saving and teaching apparatus and instruments, namely, sensors, detectors and monitoring instruments for radiation, pressure, temperature, velocity, flow of gases and liquids, and time incorporating transmitters for signaling when threshold values are exceeded and not met; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical control systems for air purification units, wireless controllers to remotely monitor and control the function and status of air purifying units; digital video recorders; blank magnetic discs, blank optical discs and electronic data carriers being flash memory chips; blank recording discs; data processing equipment to remotely monitor and control the function and status of air purifying units and computers; downloadable computer program software, and recorded computer program software for operating and controlling aeration, disinfection and sterilization systems.

Class 10

(2) Surgical, medical, dental and veterinary instruments; surgical, medical, dental and veterinary apparatus, namely, air filters for surgical, medical, dental and veterinary use, medical air filters for filtering particle impurities of different particle sizes; medical instruments for use in surgery to destroy airborne microorganisms by applying radiation and heat; medical instruments for use in surgery to destroy viruses and bacteria by applying radiation and heat; furniture and installations specially designed for medical use, namely, demountable sterile isolation rooms and isolation tents.

Class 11

(3) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, ultraviolet lighting installations, cooking range hood installations and cuisine ventilating exhaust fan installations, dehumidifiers, ventilation installations for moving outdoor air into buildings and rooms and distributing air within the building and room and for removing air from a buildings and rooms, air conditioning installations, refrigerators, cooling fan systems for wall ovens, water sterilizers, water filtering apparatus, namely, reverse osmosis, nanofiltration, ultrafiltration, and microfiltration modules and systems, sustainable onsite water recycling and wastewater treatment systems, ultraviolet sterilizers for water treatment, air conditioners, air ventilating fans and systems for use in operating rooms, patient rooms, hospital isolation rooms, clean rooms, laboratories, residential and commercial buildings, and vehicles, odor neutralizing apparatus and devices, namely, portable electric household air sterilizers used to destroy odor-producing bacteria and microorganism by applying radiation and heat for use on food, ultraviolet radiation treatment air sterilizers used to destroy airborne volatile organic compounds, airborne toxins, airborne bacteria, odors and other air pollutants, air treatment apparatus and devices, namely, air sterilizers, air purifying units for household, commercial, medical, and industrial purposes, air humidifiers, air freshening apparatus and devices, namely air washers, air purifying units and machines for household, commercial, medical, and industrial purposes, electric deodorizing units containing ozone sanitizer, ozone generators for sanitizing air, air exhaustion apparatus and devices, namely, ventilating exhaust fans household, commercial, medical, and industrial purposes, ventilation being air-conditioning installations for buildings, ventilation being air-conditioning installations for laboratories, faucet aerators, air exchanger for cleaning and purifying air, air heating apparatus and constructions, namely electric space heaters, electric radiant heaters, disinfection and sterilization apparatus, namely, germicidal lamps for purifying air, bactericidal lamps for purifying air, air purifying apparatus for germ-reduction using radiation, heat, salts or ozone not for medical use, decontamination apparatus and devices in the nature of air sterilizers, namely, apparatus and instruments for destroying airborne microorganisms by applying radiation and heat not for medical use, apparatus and instruments for destroying viruses and bacteria in the nature of air sterilizers by applying radiation and heat not for medical use, apparatus and devices for sterilization against viruses, bacteria, mould and ferments, namely, air sterilizers not for medical use, apparatus in the nature of air sterilizers for destroying airborne viruses, bacteria, mould and ferments by applying ultraviolet radiation not for medical use, filter apparatus and devices, namely, air filters for industrial installations, sterilization, disinfection and decontamination devices and equipment, namely, disinfecting ultraviolet lamps not used for medical purposes and housed in a container or housing for disinfecting ambient air of a room or tent, disinfecting ultraviolet lamps housed in a ventilating unit for disinfecting air passing through the ventilating unit, electric lamps, germicidal lamps, germicidal lamps for purifying air, and lamp casings, parts and filters, filter elements, filter cartridges and ventilation grids for the aforementioned products.

Colour Claim

Colour is claimed as a feature of the trademark. The outline and the centre of the emblem are silver grey (PANTONE* 877C). The mark consists of the black word CHATEAU, with the black words LA CONSEILLANTE underneath. In the middle section appears a grey, black and white shield, with an ornamental outline comprised of grey and white flowers. Inside the shield are the letters NL stacked on top of each other, the letter N being white with a black outline and the letter L being black with a white outline. The words MISE EN BOUTEILLES AU CHÂTEAU are red.

*PANTONE is a registered trademark.

Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electric current, namely, electrical conductors for transformers, electrical distribution boxes, electrical transformers, voltage regulators, electric control panels, chargers for electric vehicle batteries, computers and computer hardware for data processing, management and monitoring; batteries, namely, electric batteries for vehicles, electric storage batteries; rechargeable electric batteries, namely, rechargeable electric batteries for vehicles, rechargeable electric storage batteries; batteries for electric vehicles; electric accumulators for vehicles; chargers, namely, automotive battery chargers, charging stations for electric vehicles, USB chargers; battery chargers for electric vehicles; chargers for electric accumulators; charging stations for electric vehicles; car chargers, namely, car chargers for electronic cigarettes, cell battery chargers for use in vehicles, electric vehicle chargers; fast chargers for mobile devices, namely, battery chargers for mobile phones and tablet computers; mains chargers, namely, ac adapters; battery compensation chargers, namely, chargers for electric batteries for electric vehicles; electrical controls, namely, electric control panels; electrical circuits; electric rectifiers; electric power distribution units; electrical inverters; electrical components, namely, electric power converters, LED drivers, LED modules and power modules for sequential control; electrical converters; electrical rectifiers; electricity inverters, namely, AC/DC inverters, DC/AC inverters, inverters for power supply; electrical charge controllers; electric circuit boards; electrical distributors, namely electricity distribution consoles; electrical transformers; electric sensors for measuring electric current; electric charging cables for use with electric vehicles and mobile phones and tablet computers; electricity transformers, namely, power transformers; electrical control panels; electrical control boards being electrical circuit boards; electrical test apparatus, namely, battery testers, circuit testers and electrical power testers; electrical circuit boards; electric power converters; electrical power adaptors, namely, electrical AC power adapters and electrical DC power adapters for computers; electric power controllers, namely, electronic controllers for use with power converters; electrical circuit testers; electric measuring equipment, namely, electrical charging station meters for electrical monitoring; electronic control circuits for electric vehicles;

electricity mains apparatus, namely electric capacitors, bias voltage conductors, electrical transformers, ac adapters, electricity generators, and circuit breaker panel boards; electric current rectifiers; electric power supply distribution units; electrical storage batteries; electrical circuit components, namely, electrical circuit boards, circuit breakers, electric circuit closers; electricity storage apparatus, namely, accumulators being electrical storage batteries, supercapacitors for energy storage and ultracapacitors for energy storage; electric current transformers; electric voltage transformers; electrical charge controllers; electricity and energy metering apparatus, namely, electricity meters; electrical cells, namely, dry cells, electrolytic cells, galvanic cells, photoelectric cells and photovoltaic cells; electrical switching apparatus, namely, electric current switches, electric power switches and automatic time switches; electricity distribution boards being electrical power distribution units; downloadable electrical engineering software for use in designing electrical charging stations for electric vehicles; electric current control devices; electrical reducing transformers; electrical power control apparatus, namely, electrical power distribution blocks, electrical power connectors, electrical power converters, electrical control panels; electric apparatus for commutation, namely, electrical commutator switches; electrical power distribution blocks; power regulating apparatus, namely, voltage regulators for electric power; electrical communications instruments, namely computer hardware for storage of data and electronic instrument clusters; electrical circuits and circuit boards; electrical surge and spike protection units; electric control devices for energy management, namely, energy meters for tracking and monitoring energy usage; electrical and electronic apparatus for logging data, namely, data loggers; electrical and electronic apparatus for storing data, namely computer hardware for storage of data; electrical and electronic instruments for processing data, namely computer hardware for data processing; electrical and electronic instruments for the reception of data, namely, car antennas, wireless routers, GPS receivers, computers; electrical and electronic apparatus for the transmission of data, namely, data cables, electrical cables, wireless routers, GPS transmitters and computers; electric installations for the remote control of industrial operations, namely, remote control starters for vehicles; plug-in electrical connectors; uninterruptible electrical power supplies; power modules, namely, power modules for sequential control and power modules for electric vehicles; input modules, namely, rectifier modules; rectifier modules; electric regulating modules, namely, voltage monitor modules; electronic load modules; voltage monitor modules; charging appliances for rechargeable equipment, namely, charge regulators for electric vehicles; electric mains power distribution units; electric mains transformers; electric mains monitoring apparatus, namely, direct electrical current monitoring modules; remote control telemetering machines and apparatus, namely, telemeters; remote controls for controlling electronic products, namely, computers and wireless electronic devices in the nature of wireless routers, wireless charging stations for electric vehicles and wireless charging stands for smartphones; machine control software, namely, embedded software for monitoring, controlling, and energy optimizing of electric motors in industrial machines sold as a component of electronic controllers and electronic motor drives; electric process controllers for monitoring the charging status of electric vehicles; inverter controllers used in solar power generation; electric control apparatus, namely, electric current control devices; electronic controllers for use with power converters; electronic control systems for electric vehicles; distribution boxes for electrical power; apparatus and instruments for monitoring, analysing or controlling electricity and energy usage, apparatus for recording, namely, electricity conduits, electricity distribution consoles, electricity limiter, electricity meters and energy meters for tracking and monitoring energy usage; data processing equipment, namely, computer hardware for data processing.

Services

Class 35

(1) Data management services, namely, energy usage management information services; data collecting, recording, processing, monitoring, verification and management services relating to smart energy usage; providing business data analysis information services in the field of electricity and energy usage; information, advisory and consultancy services in relation to the foregoing; commercial and business advice relating to electric charging stations for electric vehicles and power products, namely, batteries for electric vehicles, automotive battery chargers.

Class 36

(2) Investment services, namely investment of funds, capital investment; financing services, namely, financing of industrial activities, financing of investments, financing of product development, venture capital financing; financial services, namely financial analysis consultation services, financial investment advisory services and financial management; lease-finance services, namely lease financing of electric vehicle charging equipment and projects relating to the installation, maintenance and operation of electric vehicle charging equipment; financial services relating to the leasing of charging points, namely, lease financing for electronic vehicle charging stations and maintenance and repair services related thereto.

Class 37

(3) Batteries and accumulators charging services, namely, vehicle battery charging, battery charging service for motor vehicles and charging station services for electric vehicles; vehicle battery charging services; installation, maintenance and repair of apparatus and products for recharging batteries and accumulators, namely, automotive battery chargers, charging stations for electric vehicles, USB chargers; consultancy and information services relating to the aforesaid services; installation, maintenance, repair, upgrading, and optimisation of electrical and electronic equipment, namely, energy generation and storage equipment, monitoring and metering equipment for electricity, and solar power systems; charging services for electric vehicles; servicing of apparatus and installations for generating power, namely, power generation equipment; leasing of charging points, namely, leasing of charging stations for electric vehicles; rental of charging points, namely, rental of charging stations for electric vehicles.

Class 39

(4) Storage of electricity in charging stations for electric vehicles; providing information about the storage of electrical energy and e-fuels via a website, web-based customer portal, and charger dashboards for automobiles; supply and distribution of electricity to third parties, in particular from renewable energy sources; distribution of energy and fuels, namely, distribution of electrical energy to users of electrical energy; information, consultancy and advisory services relating to all of the aforesaid services.

Class 40

(5) Generation of electricity; leasing of energy generating equipment; rental of equipment for energy production; rental of power-generating equipment; leasing services relating to electric battery systems, namely, leasing of batteries for electric vehicles.

Class 42

(6) Scientific and technological services and research and design relating thereto in the field of sustainable energy and power; industrial analysis, industrial research and industrial design services in the field of sustainable energy and power; design and development of charging stations for charging electric vehicles; design and development of energy and power management systems; design and development of power products, namely, batteries and electric charging stations for electric vehicles; providing technological advice and consultancy in connection with energy management and power products, namely, batteries and electric charging stations for

electric vehicles; providing a web hosting platform for electrical energy management; advisory and consultancy services relating to energy efficiency and energy-saving, energy use and conservation and energy consumption, namely consulting services in the fields of energy measurement to improve energy efficiency.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the image of a black, white, and blue eye with the wording "VISION" in blue and "TRACK" in black.

Goods

Class 09

Analogue cameras, digital cameras, security cameras, cameras for vehicles, rearview cameras for vehicles, video cameras, infrared cameras, video streaming devices namely vehicle mounted cameras configured for streaming video and audio, telematics devices namely sensor data recorders for vehicles, downloadable video footage, downloadable video files, namely downloadable electronic files containing internal and external vehicle camera recordings, downloadable video recordings, namely downloadable audio and video recordings featuring internal and external vehicle camera recordings, vehicle tracking systems, vehicle tracking devices, vehicle video recording systems, namely electronic data recorders for vehicles, vehicle video recording apparatus, namely vehicle video monitors, driver assistance systems for motor vehicles, integrated electronic driver assistance systems for land vehicles, panic buttons, namely personal security alarms, display monitors for providing an all-around view for a vehicle, displays for vehicles, namely electronic devices for mounting in vehicles and having sensors for tracking operation of advanced driving automation systems, electronic driver display system for vehicles, digital video disc recorders, recorded content, namely, digital video and audio recordings of vehicle internal and external camera recordings, information technology and audio visual, multimedia and photographic devices, namely digital media streaming devices, namely smart phones, smart TV, computers, and tablet computers, apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, namely cameras, dashboard cameras, digital video cameras, recorded and downloadable media, in the nature of computer software for providing safety videos for accident prevention and learning and post accident evidence, blank digital and analogue recording and storage media, namely blank record disks and blank CD-

ROMs, safety security, protection and signalling devices, namely emergency signal transmitters, navigation, guidance, tracking, targeting and map making devices, namely global positioning system (gps) consisting of computers, transmitters, network interface devices, gps receivers, antennas, and lcd large-screen displays, measuring, detecting and monitoring instruments, indicators and controllers, namely proximity sensors, parking sensors for vehicles, distance sensors, fuel consumption counters, timing sensors, and parts and fittings of all the aforesaid goods.

Services

Class 35

(1) Business management analysis, research and information services in the automotive field, business assistance, management and administrative services, subscriptions (arranging) to telematics, telephone and computer service (internet), arranging subscriptions to a telematics, telephone and computer service for others.

Class 37

(2) Installation of vehicle security devices, installation of telematics devices namely sensor data recorders for vehicles, installation, maintenance and repair of telecommunications apparatus and instruments, namely installation and repair of cellular telephone hubs, telephones, satellite dishes, telephone equipment, telephone lines, computer hardware, computer peripherals, computers, security camera systems and central monitoring systems, installation, maintenance and repair of measuring, signalling and monitoring apparatus and instruments, namely installation, maintenance and repair of proximity sensors, parking sensors for vehicles, distance sensors, fuel consumption counters, timing sensors, security cameras, digital cameras, vehicle tracking systems, gps systems, installation, maintenance and repair of telematics devices namely sensor data recorders for vehicles, installation, maintenance and repair of cameras for vehicles.

Class 38

(3) Telematics services, namely telematic in-vehicle communication service providing wireless vehicle navigation and tracking, telematics services accessible by password, namely telematic in-vehicle communication service accessible by password providing wireless vehicle navigation and tracking, telecommunications by computer terminals, via telematics, satellites, radios, telegraphs, telephones, namely communication by mobile telephone, satellite, radio, telephone, telegraph, email transmission of data and documents via computer terminals, video streaming services, namely streaming of audio and video content via the internet, other computer networks, wireless networks and electronic communication networks, transmission of data, video and multimedia files, including downloadable files and files streamed over a global computer network, namely electronic transmission of audio clips, digital videos, digital photos, messages, comments and multimedia content via a global computer network, providing access to portals over the internet, namely providing access to the internet, provision of access to content, websites and portals, namely provision of access to the Internet, rental, hire and leasing in connection with the aforesaid, namely leasing of access time to a computer database, leasing satellite transmission capacity, leasing of computer network equipment, advice, consultancy and information for the aforesaid, namely providing advisory and consultancy services for the provision of access to databases.

Class 39

(4) Tracking of passenger vehicles by computer, or via GPS, tracking freight vehicles by computer or via GPS, advisory services relating to the tracking of goods in transit, vehicle location services.

Class 42

(5) Software as a service featuring software for the monitoring, tracking, and analysis of vehicle movement, status, and behavior, tracking and managing vehicle maintenance and repairs, tracking and logging vehicle location, tracking and managing fuel consumption by vehicles, collecting, managing and analyzing data obtained from fleets of vehicles, platforms for artificial intelligence as software as a service featuring software for monitoring of vehicle cameras by remote access, diagnostics of driver performance data and driver behavior, software as a service featuring software for machine learning, deep learning and deep neural networks, hosting web portals, hosting of portals on the internet, namely hosting of websites, design and development of computer hardware and software, testing, authentication and quality control, namely testing, authentication and quality control of computer hardware and software, design services, namely computer network design for others, IT security services, namely computer network security services, in the nature of protection and recovery of computer data, namely computer security threat analysis for protecting data, computer virus protection services, recovery of computer data, electronic data backup and conversion services, namely electronic data storage, namely, archiving business documents, personal documents and corporate documents and conversion of data or documents from physical to electronic media, data coding services being computer programming, namely data encryption services, computer analysis and diagnostics, namely computer system analysis services, research, development and implementation of computers and systems, rental, hire and leasing in connection with the aforesaid and advice, consultancy and information for the aforesaid.

Class 45

(6) Accident reporting being providing evidence to insurers for use in preparing legal documentation, monitoring of alarms, namely monitoring vehicle alarms.

Trademark Description

This trademark consists in the expression "VISMARA" written in white block font with a black shade put on a red field shaded from the centre in a lighter red and framed by a wavy ribbon in shaded golden yellow colour; this ribbon has an oval shape and from the bottom part comes out a ribbon in green colour with lateral bands in golden yellow.

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, black, red, golden yellow, and green are claimed. The trademark consists of the word "VISMARA" in white and shaded in black on a red oval shape, shaded with light red in the centre and transitioning to dark reds on the right and left side. The red oval has a white border and is framed in a wavy gold yellow ribbon. Below "VISMARA" is a folded green ribbon, with yellow lateral bands of golden yellow on both sides.

Position

Visual Representations

**Trademark Description**

The trademark consists of the position of a design applied on a three-dimensional bottle, as shown on the visual representation. The design consists of a raffia string affixed to the surface of the three-dimensional object. The visual representations show different views of the same mark. The three dimensional object appearing in dotted lines in the design is not part of the mark and is only meant to indicate the position of the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The term "KNORR-BREMSE" is blue. The design element to the right of the term "KNORR-BREMSE" is blue with the letter "K" in white centred within a white circular border. On the left and right side of the white circular border and moving in an outwardly direction away from the circle, depicts white arrowheads. The term "global care" is below in grey. Below the term "global care", a curved line transitions from left to right, from grey, to light grey, to a light pink.

Services

Class 35

(1) Arranging promotion of charitable fundraising events; public relations services in donation matters, advisory services and organizational project management services of development projects and emergency aid measures.

Class 36

(2) Financing of development projects and emergency aid measures; collecting, financial management and distributing of donations in countries affected by disasters, especially crisis areas.

Class 42

(3) Technological consultancy and technical project management for development projects and emergency aid measures; technological consultancy, namely, providing technical project studies in the field of environmentally sustainable farming, sanitation engineering, food sanitation consultation services, structural engineering service, technical design and planning of water purification plants, technical design and planning of pipelines for gas, water and waste water, water management engineering and civil engineering design services relating to water irrigation.

Class 44

(4) Humanitarian aid measures in crises and poverty areas, namely emergency medical assistance and medical care and analysis services relating to patient treatment.

Class 45

(5) Legal advice.
