Trademarks Journal

2023-05-31 — Vol. 70 No. 3579

Trademarks Journal

Vol. 70 No. 3579

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Trademark Type

Standard Characters

Goods

Class 01

(1) Solvents for extracting cannabinoids, flavonoids and terpenes from cannabis plant material, namely, diisopropyl ether, diethyl ether, ethanol.

(2) Consumable goods for processing cannabis plant oils, namely filtration media in the nature of silica gel, activated carbon, activated charcoal, bentonite, activated alumina, diatomaceous earth, magnesium oxide.

(3) Solvents for extracting cannabinoids, flavonoids and terpenes from cannabis plant material for industrial purposes, namely, isopropyl alcohol.

Class 04

(4) Solvents for extracting cannabinoids, flavonoids and terpenes from cannabis plant material, namely, Butane, Propane, Iso-butane, N-Butane, N-Propane.

Class 06

(5) Equipment designed for the extraction of essential oils from plant material with the use of solvents, namely metal chemical reaction chambers for the manufacturing of cannabis, cannabis oils and cannabis concentrates, stainless steel triclamp, and parts and fittings of all of the aforesaid goods.

Class 07

(6) Equipment designed for the extraction of essential oils from plant material with the use of solvents, namely complete oil extraction machines, hydrocarbon extraction machines, ethanol extraction machines; Equipment designed for solventless extraction of essential oils from plant material, namely hydraulic presses; Equipment, namely ultrasonic homogenizers, membrane filtration systems, designed for refining or processing essential oils, mixing, homogenizing, diluting, infusing cannabis oil into other liquids or solids, fractional distillation of cannabis oils or compounds within cannabis, isolating compounds within cannabis, and crystallization of cannabinoids or other

compounds within cannabis; Equipment for separating solvents from cannabis or essential oils, namely centrifuges, membranes for use as parts of machines, and machines for solvent evaporation.

Class 09

(7) Equipment designed for the extraction of essential oils from plant material with the use of solvents, namely vacuum ovens for laboratory use.

(8) Equipment for manufacturing edible products infused with cannabis or cannabis oil, namely food scales; equipment, namely apparatus for automatic chromatography, chromatography apparatus for laboratory use, and chromatography columns for laboratory use, for testing concentrations of cannabinoids, terpenes, pesticides, residual solvents, plant sexes, quality assurance testing.

(9) Equipment, namely vacuum drying ovens, machines for performing chemical reactions, namely, jacketed glass reactors and jacketed stainless steel reactors, and laboratory glassware, all designed for refining and processing essential oils, mixing, homogenizing, diluting, infusing cannabis oil into other liquids or solids, fractional distillation of cannabis oils and compounds within cannabis, isolating compounds within cannabis, and crystallization of cannabinoids and other compounds within cannabis; Equipment for separating solvents from cannabis or essential oils, namely, machines for performing evaporation of solvents, namely jacketed glass reactors and jacketed stainless steel reactors, falling film evaporators, automated solvent recovery machines and solvent recycling machines; equipment, namely jacketed glass reactor vessels, for synthesizing or isolating compounds found in the cannabis plant or oil.

Class 11

(10) Equipment for the processing of cannabis plants into oils, edibles, beverages, tinctures, vaporizer cartridges, packaged cannabis products, and any manufactured product containing cannabis as an ingredient, namely electric recirculating laboratory heating baths, heat pumps, heating boilers, heating elements, and cooling radiators for recirculating heated or cooled fluids to transfer heat to and from processes used in the application of extraction, refinement, evaporation and condensation of cannabis oil and solvents used to extract and refine cannabis oil, electric heating blankets used in the extraction and refinement of cannabis oil and solvents used to extract and refine cannabis oil; Equipment designed for solventless extraction of essential oils from plant material, namely distillers for the chemical processing of terpenes; Equipment, namely heating mantles, laboratory glassware, nitrogen sweep gas distillation systems, designed for refining or processing essential oils, mixing, homogenizing, diluting, infusing cannabis oil into other liquids or solids, fractional distillation of cannabis oils or compounds within cannabis, isolating compounds within cannabis, and crystallization of cannabinoids or other compounds within cannabis; Equipment for separating solvents from cannabis or essential oils, namely membranes for use as parts of membrane filtration machines; Equipment, namely vacuum distillation systems, and nitrogen sweep gas distillation systems for synthesizing or isolating compounds found in the cannabis plant or oil; Equipment designed for the extraction of essential oils from plant material with the use of solvents, namely, vacuum drying ovens.

Class 21

(11) Equipment for manufacturing edible products infused with cannabis or cannabis oil, namely food stirrers for the preparation of food.

Services

Class 35

(1) Land and natural resource management, namely characterizing, landscaping and developing territory and its natural components based on the knowledge of potential uses and territorial pressures, such as the fragility of ecosystems and the vulnerability of species; project management in the field of building.

Class 36

(2) Project costing in the field of building.

Class 37

(3) Construction and repair of urban, road, railway, airport and port infrastructures; construction project management; building and infrastructure construction in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; inspection and rehabilitation of concrete structures; design and advisory services in the field of infrastructure design, namely urban, road, railway, airport and port infrastructures.

Class 39

(4) Advice in the field of transport; advice in the field of smart mobility, namely with respect to transport equipment and systems with embedded information technology and communication technology, for the purpose of optimization; operation of urban, road, railway, airport and port infrastructures.

Class 40

(5) Contaminated soil treatment; residual material treatment, namely engineering activities related to recyclable material sorting facilities, to the treatment through composting or biomethanization of residual organic materials, to the burial of or the valorizing of final residual materials; rehabilitation of contaminated sites or derelict sites, namely decontamination of soil, rehabilitation and decontamination of buildings.

Class 42

(6) Design of urban, road, railway, airport and port infrastructures; planning of urban, road, railway, airport and port infrastructures. ; feasibility studies and engineering in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; safety studies in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; environmental studies in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; planning of buildings and infrastructures in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; consulting services in the fields of engineering, the environment, quality management and project management; mechanical, electrical, civil, chemical, material and process engineering; real estate planning services; land use planning services; environmental impact assessment, namely identification of the environmental and social impact risks related to a construction or development project for obtaining environmental permissions; eco-engineering; laboratory analysis in the field of environmental protection; development of smart electricity distribution networks (smart grids); design, implementation, and development of wireless and wide area networks computer networks; design, implementation and development of telephony networks; design, implementation and development of automation and control systems for telecommunications; design and development of electricity grids for buildings; building energy optimization; design of green buildings; design of building structures; aseismic studies; technical building audits; needs analysis and safety systems design for buildings; microbiological inspection and assessments in the field of environment; design and implementation of building management software; expert consulting related to energy efficiency; research, development, analysis, advisory, consultancy and design services related to technology in the oil and hydrocarbon industry, namely consulting related to operations, computer systems for control, diagnosis and resolution of problems, audits, optimization, change management, critical examination methods, mitigation and correction of processes related to relief systems, maintenance, integrity management, software for monitoring and securing; geology, geomorphology and borrow pit research services; geotechnical studies; foundation design for buildings and infrastructures related to transport and energy, namely urban, road, railway, airport and port infrastructures and in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; reservoir structure design; advice related to techniques for the improvement of soil and the rehabilitation of derelict sites; advice related to the evaluation and characterization of contaminated soil and mine tailing; quality assurance on construction sites and in factories in the field of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; building services engineering; advisory and consulting services in the field of environmental management systems, in the field of environmental remediation services for soil and water and in the field of water and waste water treatment; greenhouse gas emission measuring and analysis.

Class 44

(7) Landscape architecture.

Class 45

(8) Advisory services related to safety standards for installations; dam safety services; advice and consultancy on environmental regulatory matters, namely in order to obtain or maintain environmental permissions.

Services

Class 35

(1) Land and natural resource management, namely characterizing, landscaping and developing territory and its natural components based on the knowledge of potential uses and territorial pressures, such as the fragility of ecosystems and the vulnerability of species; project management in the field of building.

Class 36

(2) Project costing in the field of building.

Class 37

(3) Construction and repair of urban, road, railway, airport and port infrastructures; construction project management; building and infrastructure construction in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; inspection and rehabilitation of concrete structures; design and advisory services in the field of infrastructure design, namely urban, road, railway, airport and port infrastructures.

Class 39

(4) Advice in the field of transport; advice in the field of smart mobility, namely with respect to transport equipment and systems with embedded information technology and communication technology, for the purpose of optimization; operation of urban, road, railway, airport and port infrastructures.

Class 40

(5) Contaminated soil treatment; residual material treatment, namely engineering activities related to recyclable material sorting facilities, to the treatment through composting or biomethanization of residual organic materials, to the burial of or the valorizing of final residual materials; rehabilitation of contaminated sites or derelict sites, namely decontamination of soil, rehabilitation and decontamination of buildings.

Class 42

(6) Design of urban, road, railway, airport and port infrastructures; planning of urban, road, railway, airport and port infrastructures. ; feasibility studies and engineering in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; safety studies in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; environmental studies in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; planning of buildings and infrastructures in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; consulting services in the fields of engineering, the environment, quality management and project management; mechanical, electrical, civil, chemical, material and process engineering; real estate planning services; land use planning services; environmental impact assessment, namely identification of the environmental and social impact risks related to a construction or development project for obtaining environmental permissions; eco-engineering; laboratory analysis in the field of environmental protection; development of smart electricity distribution networks (smart grids); design, implementation, and development of wireless and wide area networks computer networks; design, implementation and development of telephony networks; design, implementation and development of automation and control systems for telecommunications; design and development of electricity grids for buildings; building energy optimization; design of green buildings; design of building structures; aseismic studies; technical building audits; needs analysis and safety systems design for buildings; microbiological inspection and assessments in the field of environment; design and implementation of building management software; expert consulting related to energy efficiency; research, development, analysis, advisory, consultancy and design services related to technology in the oil and hydrocarbon industry, namely consulting related to operations, computer systems for control, diagnosis and resolution of problems, audits, optimization, change management, critical examination methods, mitigation and correction of processes related to relief systems, maintenance, integrity management, software for monitoring and securing; geology, geomorphology and borrow pit research services; geotechnical studies; foundation design for buildings and infrastructures related to transport and energy, namely urban, road, railway, airport and port infrastructures and in the fields of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; reservoir structure design; advice related to techniques for the improvement of soil and the rehabilitation of derelict sites; advice related to the evaluation and characterization of contaminated soil and mine tailing; quality assurance on construction sites and in factories in the field of hydroelectricity, wind energy, thermal energy, biomass and biomethanization, power generation plants, energy transportation and distribution, telecommunications; building services engineering; advisory and consulting services in the field of environmental management systems, in the field of environmental remediation services for soil and water and in the field of water and waste water treatment; greenhouse gas emission measuring and analysis.

Class 44

(7) Landscape architecture.

Class 45

(8) Advisory services related to safety standards for installations; dam safety services; advice and consultancy on environmental regulatory matters, namely in order to obtain or maintain environmental permissions.

Design

Visual Representation

The logo for SIBAX is rendered in a bold, gold-colored, sans-serif font. The letters are thick and closely spaced, with a slight shadow effect that gives it a three-dimensional appearance. The 'S' and 'I' are particularly prominent due to their size and the way they connect to the rest of the word.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark is in gold.

Colour Claim

Colour is claimed as a feature of the trademark. The arched rectangle with rounded edges containing the word FROMAGERIE and the cheese wheel, a portion of which (1/4) has been sliced, that are positioned inside the black circle, itself positioned at the top of the mark, are red (PANTONE* (PMS) 186). The ellipse positioned at the bottom of the mark, which contains the words written in white LE P'TIT BONHEUR, is blue (PANTONE* (PMS) 7686). The fine line at the outer edge of the circle that delimits the mark is red (PANTONE* (PMS) 186). The other elements are black (PANTONE* (PMS) BLACK) on a white background. *PANTONE is a registered trademark.

Disclaimer

The right to the exclusive use of the words FROMAGE À PÂTE FERME AFFINÉ RIPENED FIRM CHEESE, FROMAGE À PÂTE FERME AFFINÉ CREAMY AND FLAVOURFUL is disclaimed apart from the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The colors gray, red, yellow, blue, green and white are claimed as a feature of the mark. The mark consists of a circular design containing an interior circle in blue with a white border and three interlocking and identical miscellaneous shapes in yellow to the right, red on the top and green to the bottom left. The text WORKS WITH CHROMEBOOK is in gray below the design; all inside a gray border consisting of a square with curved corners. The remaining white in the mark represents transparent background areas and is not claimed as a feature of the mark.

Goods
