Canada

Trademarks Journal
Vol. 70 No. 3566

General Information

The *Trademarks Journal* (the "*Journal*") is published on the website of the Canadian Intellectual Property Office (http://cipo.gc.ca). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the "*Act*"), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim
Colour is claimed as a feature of the trademark. The word NAU is dark green. The exclamation point and the two circles are light green.

Goods

Class 09

(1) optical devices, namely, spectacles, optical chronographs for use as specialized time recording apparatuses, colorimeters prisms, spectrometers, tachymeters, optical microscopes; optometric apparatus for diagnosis, display and treatment of conditions of the eye, namely refractometers; optometric apparatus for diagnosis, display and treatment of conditions of the eye, namely, eyeglasses, sunglasses, frames, correcting lenses, contact lenses, ophthalmic lenses, all available in retail shops and websites in the field of optometry; eyeglass chains available in retail shops and websites in the field of optometry; computer hardware and software for medical educational purposes and to be used in the management of optical retail stores; protective ski masks eyeglasses; cash registers, credit cards, debit cards and prepaid cards and payment cards, on-line publications related to the optical field

Class 10

(2) optometric apparatus for diagnosis, display and treatment of conditions of the eye, namely keratometers

Services

Class 35

franchising of retail outlets namely, offering technical assistance in the establishment and operation of retail outlet franchises for the retail sale of products and services in the optical field; retail services for the benefits of others in the optical field, also by Internet, for the retail sale of cosmetic articles, namely cases and preparations for the care and cleaning of contact lenses, contact lens care solutions, sanitary wipes for cleansing and hygiene of the eyes, vitamins and mineral salts for the treatment of ophthalmic diseases, key cases in common metal, optical instruments, namely, optical chronographs for use as specialized time recording apparatuses, colorimeters prisms, spectrometers, tachymeters, optical microscopes, refractometers, and keratometers, eyeglasses, sunglasses, frames, correcting lenses, contact lenses, ophthalmic lenses, eyeglass cases and eyeglass chains, computer hardware and software for medical educational purposes for the diagnosis and treatment of ophthalmic diseases and conditions of the eye, and to be used in the management of optical retail shops, protective ski masks eyeglasses, cash registers, credit cards, debit cards and prepaid codified cards and magnetic cards, on-line publications related to the optical field, surgical and medical apparatus and instruments for ophthalmic purposes, namely refractometers, keratometers, prosthetic legs, prosthetic eyes, prosthetic organs, intraocular lenses, lamps, eyeglasses cases and contact lens cases in leather and imitation of leather, carpets and door mats; promoting the sale of wares and services by promotional contests, promotional exhibitions and events, namely arranging and conducting trade shows and exhibitions in the optical field, promoting the sales of wares and services of others by distributing promotional printed material; arranging and administering incentive programs pertaining to the retail sale of products and services in the optical field; distributing prizes and gifts pertaining to the retail sale of products and services in the optical field; distribution services of promotional materials namely leaflets, prospectus, printed matters, samples rendered in the optical field; distributing advertising material; provision of services of data processing related to completion of promotional offers in the optical field; preparation of promotional materials, displays, catalogues and promotional books for third parties in the optical field; distributorship services for commercial purposes in the optical field

Trademark Type
Word

Goods

Class 07

(1) Electrical apparatus, appliances, equipment and instruments namely, electric food processors, electric food blenders, hand-held mixers, electric food mixers, electric stab mixers namely immersion blender, stick blender, wand blender, hand blender for household purposes, electric juicers, electric fruit juicing machines, juice extractor machines, electric coffee grinders, electric meat grinders, electric salt mills, electric pepper mills, electric milk frothers and pie makers, namely, dough making machines.

Class 09

(2) Computer software for use on a handheld mobile digital electronic devices and other consumer electronics for remote control of smart kitchen appliances, computer software namely, computer software for use in downloading, editing, extracting, encoding, decoding, playing, storing and organizing data namely, audio and video data which allows for the sharing and transmission of data and information between the connected kitchen appliances for the purposes of operating and monitoring those kitchen appliances, downloadable software for accessing a recipe database, computer software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming and linking recipes, cooking tips, meal planning, cooking courses, books, newsletters, magazines and publications, computer software for downloading, editing, extracting, encoding, decoding, playing, storing and downloadable digital applications and apps namely, downloadable digital applications and mobile applications that store recipes and provides cooking tips, electronic newsletters, electronic magazines, downloadable electronic newsletters delivered by email in the field of beverage and food preparation and cooking advisory, support, information, and consultancy of beverage and food preparation and cooking, downloadable electronic publications namely, email newsletters and blasts featuring beverage and food preparation and cooking advisory, support, information and consultancy of beverage and food preparation and cooking, printed publications in electronically readable form featuring beverage and food preparation, printed publications in machine readable form featuring beverage and food preparation, publications in computer readable form featuring beverage and food preparation, publications in machine readable form featuring beverage and food preparation, publications downloaded in electronic form from the internet featuring beverage and food preparation, computer

programs including interactive computer programs, namely computer programs that provide remote support namely, remote support namely, online support in cooking, recipes, cooking instructions, meal planning, and interactive cooking courses, prerecorded media namely, videos, prerecorded media, namely, downloadable videos and streamable videos and podcasts in the field of beverage and food preparation and cooking advisory, support, information and consultancy of beverage and food preparation and cooking. Kitchen scales. Computer software namely, computer software for accessing blogs and other social media platforms for use in operating kitchen appliances for beverage and food preparation and cooking, computer software for accessing a recipe database, computer software for accessing, creating and maintaining weblogs and blogs for others and for hosting of weblogs in the nature of blogs, computer software for creating, designing, maintaining and hosting web pages and web sites, cloud computing software featuring an accessible online computer database and web portal containing data and multi-media content namely, namely, text, digital images, audio and video clips in the field of beverage and food preparation and cooking advisory, support, information and consultancy of beverage and food preparation and cooking, computer software for use in operating kitchen appliances for beverage and food preparation and cooking, computer software for downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, storing and organizing text, digital images, audio and video clips, computer software for use in kitchen appliances namely, software that allows remote control of smart kitchen appliances, computer software that allow users to remotely control, monitor and operate kitchen and domestic appliances namely, electric food processors, electric food blenders, hand-held mixers, electric food mixers, electric stab mixers for household purposes, electric juicers, electric fruit juicing machines, juice extractor machines, sandwich toasters, grilled sandwich makers, electric grills, BBQ grills, steak grillers, toaster ovens, muffin makers, yoghurt makers, frozen yoghurt makers, ice shavers, bread toasters, snack makers, electric griddles, espresso machines, electric coffee makers, electric coffee machines, electric tea makers, electric kettles, electrically-powered kitchen appliances for dicing, mincing, slicing and chopping food, electric deep fryers, slow cookers, electric pressure cookers, rice cookers, electric steamers, electric saucepan, jaffle cookers, namely jaffle irons, pastry makers, egg cookers, electric popcorn poppers, wine chillers, pie irons, electric griddles, electric woks, electric skillets, ice cream makers, sorbet makers, kitchen scales, electric coffee grinders, electric meat grinders, electric salt mills, electric pepper mills and electric milk frothers, computer software that allow the sharing and transmission of data and information between devices namely, computer software for downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, storing and organizing text messages, digital images, audio and video clips, computer software accessible on computers, electronic devices and mobile communication devices, all for remotely operating, accessing, controlling and monitoring kitchen and domestic appliances namely, electric food processors, electric food blenders, handheld mixers, electric food mixers, electric stab mixers for household purposes, electric juicers, electric fruit juicing machines, juice extractor machines, sandwich toasters, grilled sandwich makers, electric grills, BBQ grills, steak grillers, toaster ovens, muffin makers, yoghurt makers, frozen yoghurt makers, ice shavers, bread toasters, snack makers, electric griddles, espresso machines, electric coffee makers, electric coffee machines, electric tea makers, electric kettles, electrically-powered kitchen appliances for dicing, mincing, slicing and chopping food, electric deep fryers, slow cookers, electric pressure cookers, rice cookers, electric steamers, electric saucepan, jaffle cookers, namely jaffle irons, pastry makers, egg cookers, electric popcorn poppers, wine chillers, pie irons, electric griddles, electric woks, electric skillets, ice cream makers, sorbet makers, kitchen scales, electric coffee grinders, electric meat grinders, electric salt mills, electric pepper mills and electric milk frothers. Computer software namely, computer software for accessing blogs and other social media platforms for use in operating kitchen appliances for beverage and food preparation and cooking.

Class 11

(3) Electrical apparatus, appliances, equipment and instruments namely, sandwich toasters, grilled sandwich makers, electric grills, BBQ grills, steak grillers, toaster ovens, muffin makers, yoghurt makers, frozen yoghurt makers, ice shavers, bread toasters, electric griddles, espresso machines, electric coffee makers, electric coffee machines, electric tea makers, electric kettles, electric deep fryers, slow cookers, electric pressure cookers, rice cookers, electric steamers, electric saucepan, jaffle cookers, namely jaffle irons, pastry makers and pie makers, namely bread making machines, egg cookers, electric popcorn poppers, wine chillers, pie irons, electric griddles, electric woks, electric skillets, ice cream makers and sorbet makers.

Class 21

(4) Pastry cutters.

Services

Class 42

Providing temporary use of online, non-downloadable software for accessing a recipe database, computer databases in the field of beverage and food preparation and cooking advisory, support, information, and consultancy of beverage and food preparation and cooking, creating and maintaining weblogs (blogs) for others hosting of weblogs (blogs), creating, designing, maintaining and hosting web pages and web sites, providing temporary use of on-line non-downloadable software to enable users to program audio, remote support in cooking, recipes, cooking instructions, meal planning, and interactive cooking courses, maintenance of computer software, cloud computing namely, providing software for database management, video hosting web sites, web hosting services, advisory, support, information and consultancy service

Goods

Class 09

Industrial automation and control equipment namely sensors and related computer hardware and software for use in measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions, and replacement parts therefor; electronic components for use in industrial measurement and control hardware applications namely sensors, signal conditioners and regulators namely used to control and regulate material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; computer software for controlling and operating industrial automation and control equipment for use in the measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; laboratory data sensors namely electronic and manual sensors for use in the measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions in non-medical laboratory, commercial and industrial environments; computer software for controlling and operating industrial automation and process control equipment used in non-medical laboratory, industrial and commercial process environments in applications for measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; material testing instruments and apparatus for use in measuring, regulating, weighing, control, monitoring and signaling applications namely rheometers, viscometers, particle detectors and

spectrometers; x-ray analysers for use in non-medical applications, namely x-ray apparatus for use in x-ray diffraction, x-ray fluorescence, photoluminescence and opto-acoustical measurement analytics and testing applications; x-ray apparatus for use in non-medical measurement, analytics and testing applications namely x-ray diffractometers and wafer analyzers, neutron activation analyzers, pulsed fast and thermal neutron activation analyzers and ellipsometrical and reflectometrical x-ray apparatus and instruments; spectroscopes; x-ray spectroscopy apparatus for non-medical use; replacement parts for non-medical x-ray spectroscopy apparatus namely x ray tubes; x-ray machines for use in measuring, regulating, weighing, control, monitoring and signaling applications, namely x-ray apparatus for use in composite sample scanning and analysis in scientific, industrial and laboratory applications; imaging apparatus namely sensors, cameras, computers and computer hardware for use in image capture, image processing and image display in applications for measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; particle classifiers namely particle sorting and measurement instruments for measuring particle size, shape, density, structure and composition of airborne particles, fluid borne particles, and particles within a particulate volume; particle counters namely instruments for measuring particle quantity, size, shape distribution and concentration of particles within gaseous, fluid and particulate samples; particle counters for counting of particles within gaseous, fluid and particulate samples; spectroscopes for use in photocorrelation and measurement of the size of sub-micron particles dispersed in a liquid; dynamic light scattering analyzers for use in producing zimm plots to determine the molecular weight of polymers; acoustic spectroscopes to measure sound attenuation and sound velocity as a function of frequency for the measurement of particle size distributions in emulsions and suspensions; laser diffraction spectroscopes; zeta potential analyzers for use in the measurement of particle charge; electrophoretic sampling and analysis hardware, namely electric and electronic electrophoretic mobility analyzers for measuring electrophoretic mobility of particles in samples; particle sampling and analysis hardware, namely particle mobility analyzers for measuring particle mobility of particles in samples; digital pH meters; electrodes and dynamic light scattering analyzers for measuring pH in samples; micro electrophoresis measuring instruments namely vibration meters, vibration sensors, vibration exciters and vibration transducers; electronic equipment testing apparatus namely load cells and strain gauges; X-ray gauges; ultrasonic thickness gauges; ultrasonic liquid level sensors namely liquid level sensors for use in measuring, regulating, weighing, control, monitoring and signaling applications that measure liquid levels in containers using ultrasonic sensors; electronic signal conditioners; signal amplifiers; calibration checkers for acoustic transducers, vibration transducers, sound level meters, and noise dose meters; graduation checkers namely calibration checkers; weighing scales for use in non-medical laboratory, commercial and industrial applications; weight sensors and related weight-sensing computer hardware for measuring weights in non medical laboratory, commercial and industrial applications; seismic detectors; electrical current sensors and electronic hardware current sensing and measuring readers and hardware controllers for use in electrical safety monitoring applications; telecommunications networking equipment namely radio and telecommunication signal transmitters and receivers, and telecommunications network switches; laser measuring instruments in non-medical laboratory, commercial and industrial environments, namely laser measurement sensors with related laser readers and related computer hardware for use in measuring, regulation, control and monitoring of material current, container level, material level, pH, load, vibrations, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating condition applications; lasers for use in industrial and commercial applications, namely as a component of measurement and

weighing hardware, regulators, control, monitoring and signaling hardware in measurement, weight measurement, regulation and control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, pH, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; combustion control analyzers for use in hydrocarbon processing and power generation applications; oxygen, carbon monoxide and carbon dioxide gas analysers for use in safe area and hazardous area applications; coulometric sensors and tuneable diode lasers for use in the industrial gas market, measurement of gas mixtures in metal and mining processing, power generation applications and healthcare applications; bar code scanners; bar code readers; bar code decoders; thermocouples; thermostats for use in the control of operating or environmental temperature on industrial automation and control equipment in non-medical laboratory, industrial and commercial applications; temperature sensors, temperature gauges; thermistors; humidity meters; humidity sensors; infrared detection apparatus for use in measuring, regulating, weighing, control, monitoring and signaling technology applications namely infrared thermometers, infrared scanners, and infrared detection sensors; electric thermostats; pressure sensors; torque sensors; fluid flow and velocity sensors; liquid level sensors; water quality sensors and connected computer hardware for use in water quality testing and monitoring applications; programmable logic controllers (PLCs) for use in industrial automation and control equipment, namely computer hardware operatively connected to electronic and manual sensors which can capture values and readings from the sensors and store them electronically for subsequent extraction or use for use in measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, pH, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions and applications; USB [universal serial bus] operating software; data monitoring hardware, namely programmable logic controllers for use in the monitoring of sensor and data inputs and outputs associated with automated processes and machines; video monitors, keyboards, joysticks and mice, for use on testing and control equipment used in industrial measuring, regulating, weighing, control, monitoring and signaling applications; graphic LCD screens, web-connected and all-in-one hardware controllers and ergonomic interfaces, for use in industrial measuring, regulating, weighing, control, monitoring and signaling applications as operator interface terminals that allow user inputs to be translated as signals for machines that in turn provide the required result and output to the user; electronic motion sensors for factory automation, industrial and commercial applications; motor sport vehicles, automotive testing, solar cell positioners, wind turbine prop pitch and brakes, and packing equipment; Motor drives that control the rotation and motion of electrical motors; stepper motors for precision motion control, and motor contactors equipment; overload relays; manual protectors, and control relays; power switches; meters for use on electrical control panels; digital meters for use on electrical control panels; downloadable electronic publications namely product manuals, handbooks, technical review articles, computer software documentation, product usage case studies, brochures, magazines, encyclopedias, newsletters, product data sheets, CAD models and drawings relating to measuring, regulating, weighing, control, monitoring and signaling equipment, processes and applications; electronic components for use in industrial measurement and control hardware applications such as signal conditioners and regulators namely micro-electronic components used to control and/or regulate current or flow, temperature, humidity, pressure, strain, force, flow, level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, data acquisition, data display, data retrieval, and environmental technology;

Services

Class 35

(1) Business consulting services related to quality assurance services in the field of measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions;

Class 42

(2) Scientific research and industrial research in the field of measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; Scientific research and industrial research in the field of pulp and paper processing, sound and vibration analysis and optimisation, manufacturing, heavy industries, petroleum and petrochemical industries, energy industry, aerospace, medical, defense engineering and telephone- and computer-based telecommunications equipment and networks and services; technical consulting and industrial engineering services in the field of measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; technical consulting and industrial engineering services in the field of pulp and paper processing, sound and vibration analysis and optimization and gas analysis; manufacturing, heavy industries, petroleum and petrochemical industries, energy industry, aerospace, medical, defense engineering and telephone- and computer-based telecommunications equipment and networks and services; mechanical, chemical, civil, structural, electronic and electrical engineering services in the field of pulp and paper processing, sound and vibration analysis and optimisation, condition monitoring, manufacturing, heavy industries, petroleum and petrochemical industries, energy industry, aerospace, medical, defense engineering and telecommunications; structural engineering services namely mechanical, chemical, civil, structural, electronic and electrical engineering services related to the building, design or maintenance of structures; providing quality assurance in the field of measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; quality assurance, quality testing and quality control services in the field of measuring, regulation, control and monitoring of material current, material flow, electrical current, electrical flow, temperature, humidity, pressure, strain, force, flow, container level, material level, ph, load, vibration, electrical resistance, air velocity, amperage, frequency, voltage, ion concentration, conductivity, and environmental operating conditions; environmental and safety testing and monitoring services; testing of environmental noise and noise pollution, monitoring of contaminated land, sampling for contamination monitoring of contaminated land, sampling for contamination; gas analysis; providing remote and onsite industrial process testing and monitoring services related to operations, parameters, safety, and outcomes of industrial processes in the fields of environmental and safety testing; design of computer software; analysis of materials; materials testing and analysing; chemical analysis; chemical analysis services; microseismic measurement services namely vibration analysis; equipment testing and calibration services namely testing and calibration of measurement, sensor, process control and computer equipment used in the field of

pulp and paper processing, sound and vibration analysis and optimisation, petroleum and petrochemical industries, energy industry, aerospace, medical, defense engineering telecommunications industries; recordal and analysis of seismic data; quality testing and quality control services in the field of seismic exploration and testing procedures; geo-seismic survey services; creation, maintenance, adaptation and repair of software; rental and installation of software; consulting services in the fields of mechanical, chemical, electronic and electrical engineering of measuring, regulating, weighing, control, monitoring and signaling technology and regarding manufacturing of products and instrumentation for use in measuring, regulating, weighing, control, monitoring and signaling applications; development of computer software applications; development of computer software for internet users; project management in the field of mechanical engineering; technical consultancy in the field of environmental science, chemical environmental safety testing and monitoring, design and development of computer software for use in industrial process monitoring applications, materials and chemical analysis and testing, and blasting, recording of seismic data and geoseismic surveying services, engineering consulting and project management services in the fields of passive seismology, sound and vibration analysis and the measurement of stress and strain; manufacture for others of blasting and vibration equipment, materials analysis equipment, and chemical analysis, measuring or regulating or weighing or control and monitoring and signaling technology for use in industrial applications namely sensors and related hardware and software systems for use in measuring, regulating, weighing, control, monitoring and signaling applications and replacement parts therefor; engineering consulting and project management services manufacture of computer software for controlling and operating industrial automation and control equipment for use in the control of electrical apparatus, sensors and instruments for use in industrial measuring, regulating, weighing, control, monitoring and signaling applications

Goods

Class 06

(1) Siding for walls and ceilings, namely aluminum siding.

Class 09

(2) Computer software, namely recorded programs, namely software for calculating the performance of products intended for the fields of housing and construction; computer software for the editing and transmission of images, audiovisual content and video content, namely documentaries and videos featuring information in the fields of housing and construction; software for the collection, management, editing, organization, modification, transmission, sharing and storage of electronic data and information, namely videos in the field of analysis of the physical characteristics of indoor work environments, namely acoustics, heat, light and air quality; downloadable software and applications for mobile devices, namely for smart phones and electronic tablets for the diagnosis and analysis of the physical characteristics of indoor work environments, namely acoustics, heat, light and air quality; electronic apparatus and instruments for measuring, monitoring and controlling building energy consumption, indoor air quality, sound pressure level and lighting, namely temperature sensors, pressure sensors, sound sensors, moisture sensors, particle counters for measuring air quality.

Class 17

(3) Materials and systems for thermal and acoustic insulation, namely bark coverings for acoustic insulation, acoustic insulation; panels for thermal and acoustic insulation; insulation, namely acoustic panels for walls and ceilings; polyester fleece for acoustic insulation; packing, stopping and insulating materials, namely insulating coating, insulating felt, insulating paper, insulating fabric, felt insulation, glass fibre insulation; insulating compositions, namely slag wool for building insulation, rock wool for insulation, glass wool for insulation; metal foil for building insulation; artificial and synthetic resins, namely semi-finished products, namely acrylic resin sheets for the manufacture of laminated glass, semi-processed acrylic resins, artificial resins in the form of rods, bars, blocks and sheets, for use in manufacturing; glass fibres, rock fibres and mineral wool for thermal and acoustic insulation; fibreglass fabrics and paints for insulation; insulating liners; non-

metal structures for noise absorption, namely soundproofing, namely acoustic baffles for soundproofing; building insulation materials and systems in the form of panels and plaques with and without decoration, namely building insulation fibreglass materials, insulating materials made of polyethylene foam; plastic films and strips for waterproofing and moisture protection; waterproofing membranes made of synthetic and bituminous material; under-roof screens made of bitumen and plastic; insulating materials coated with a finish or not, namely insulating refractory materials, foam sheeting for use as building insulation, vulcanized fibre for the manufacture of building insulation materials, fibreglass for insulation, polyurethane film for use as building insulation, mineral wool for building insulation, insulating materials made of polyethylene foam, metal foil insulation, insulating glass for building, glass fabrics for insulation; adhesive tapes and strips for construction and insulation; insulating seals; insulating paints, varnishes and coatings; reflective plastic films for windows; panels, plaques and rolls for thermal and acoustic insulation and for protection against moisture and fire used in the construction of walls, partitions, ceilings, suspended ceilings, floors, roofing, false roofs, siding and insulation compounds that are watertight; materials for the waterproofing of buildings and constructions, namely insulating waterproofing membranes, sealing compounds for masonry and woodworking, weather strips, liners for walls and ceilings, namely insulating liners for walls and ceilings.

Class 19

(4) Materials, not of metal, for building and construction, namely timber, felt, stones, plaster, concrete; building materials with insulating properties, namely insulating glass; siding for walls and ceilings, namely siding made of wood; non-metal profiles made of wood for building, non-metal profiles for building, namely profiles for indoor and outdoor plastering; non-metal frameworks made of wood for building, non-metal frameworks for building, namely partition and door frames made of glass, non-metal frameworks for building, namely non-metal door panels, non-metal door casings, non-metal door frames, non-metal window sashes, drywall panels, wooden partitions for building, non-metal wire mesh fences, picket fences; bituminous products for building, namely asphalt, pitch and bitumen, asphalt felt for building; window glass for building.

Services

Class 35

(1) Demonstration of products, namely sales demonstration for others and presentation of products, namely building materials, on all means of communication, namely in store and via the Internet for retail purposes, distribution of promotional materials for others and of advertising samples; information regarding business management related to building materials and their use, such services may be provided online; organization of exhibitions for commercial and advertising purposes in the fields of housing and construction; provision of an online sales space for buyers and sellers of goods and services, namely provision of a directory containing online commercial information on the Internet; provision of business information regarding business management via websites; information and business advice provided to consumers, namely advice and information related to customer service as well as to the management and pricing of products on Internet sites for purchases made via the Internet; market studies. .

Class 37

(2) Information, consulting and advisory services in the fields of housing and construction, namely for the laying, assembly and installation of building materials; information, consulting and advisory services in the fields of interior design and indoor comfort, namely heating installation and repair; construction services, namely building insulating, caulking services for construction, building construction, construction, namely insulation services, installation of building insulation systems, building restoration services, building repair services, building maintenance and development

services; advisory and supervisory services, namely work supervision in the fields of housing, buildings and construction; expertise, namely building inspection services.

Class 42

(3) Design, maintenance, updating of software and databases for use in the fields of building and construction; design and development of data calculation and evaluation software in the field of materials testing and evaluation; computer programming in the fields of buildings and construction; technical expertise and advisory services, namely engineering work in the fields of housing and construction, in particular for thermal and acoustic insulation; research and development of new goods and services for others in the fields of housing and construction; technical project studies conducted by engineers in the field of construction; testing of the energy and acoustic performance of buildings, namely expertise in the field of housing and construction; expertise, namely energy auditing service; expertise, namely building compliance testing related to sanitation and security; interior design consulting and advice in the fields of housing and construction, namely architectural service; drafting of interior development plans; scientific analysis and measurement of building energy consumption, indoor air quality, sound pressure level and lighting; auditing, namely assessment and self-assessment services related to compliance with specific quality requirements [standards, norms, guidelines] in the field of housing and construction; design and development of computer programs and data banks related to compliance assessments; information service relating to quality control and compliance assessments in the fields of housing and construction.

Class 09

(1) Scientific apparatus and instruments, namely glassware for scientific experiments in laboratories, satellites for scientific use, scientific prisms, laboratory instruments for the detection of pathogens and toxins in a biological sample intended for research; nautical apparatus and instruments, namely electrolysis apparatus for producing hydrogen and oxygen from water, rebreathers for diving; surveying apparatus and instruments, namely theodolites, range finders; photographic apparatus and instruments, namely photographic apparatus; cinematographic apparatus and instruments, namely cinematographic cameras, movie projectors, virtual reality software for movie special effects; optical apparatus and instruments, namely optical sensors, optical switches, optical condensers, electric and optical cables, optical amplifiers; weighbridges; measuring apparatus and instruments, namely measuring instruments for concentration, scale rules, measuring wheels, measuring tapes, laser measuring tapes, measuring cups; signalling apparatus and instruments, namely signal lights, digital signage monitors, luminous safety or signalling beacons; checking apparatus and instruments, namely switchboards, optical inspection apparatus for detecting defects on surfaces of wafers and printed circuits, life-saving apparatus and instruments, namely life buoys, rescue ladders, life nets; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely power distribution boxes, electrical connection boxes, electrical cables, electric accumulators, electrical circuits, electrical connectors for current converters, current converters, current rectifiers, current transformers, electrical power distribution blocks; apparatus for recording, transmitting, reproducing sound and images, namely sound recording discs, computer software enabling the transmission of photographs to mobile telephones; magnetic tape recorders, recording discs; blank compact discs, blank recordable DVDs and other digital recording media, namely video recording tapes, sound recording discs; mechanisms for coin-operated apparatus; cash registers,

calculators, electronic calculators, data processing hardware, computers; software, namely database management software, computer programs and software for image processing, software for data storage automation; fire-extinguishing apparatus; electronic organizers; analysis apparatus other than for medical use, namely diesel oil analyzers, residual gas analyzers; antennas, namely satellite aerials, microwave antennas, radio signal antennas; applications, downloadable computer software, namely software for capturing gesture recognition, operating a local area network, carrying out studies, trials, tests, analysis, evaluations, appraisals, audits, certifications, training related to goods, services, materials, devices and apparatus, installations, in particular related to aircraft, ships, motor vehicles, railway materials, civil engineering apparatus, hoisting apparatus, , namely automotive hoists, wire hoists, electric, thermal or hydraulic power plants, material for oil development, material for nuclear facilities, building construction and civil engineering, soils, data processing equipment, namely data processing hardware, computers, electronic data transmission equipment, namely cellular telephony transmission towers, telecommunication equipment, namely computer hardware for telecommunications; electronic bracelets for measuring step count; magnetic encoded identification bracelets; magnetic identification bracelets; magnetic identification cards; encoded magnetic cards, namely encoded electronic smart cards for identifying users of computers and mobile telephones, encoded identification cards, secure digital memory cards; memory cards; encoded key cards, namely smart cards for use as room keys; chemistry apparatus and instruments, namely glassware for laboratory use, laboratory scales and balances, laboratory baths, laboratory test tubes, laboratory flasks; chromatography apparatus for laboratories; printed circuits; integrated circuits; radio transmitters for remote controls, electrodynamic apparatus for the remote control of switch rails; computer network switches, automatic transfer switches, piezoelectric switches; materials for electrical conduits, namely electric conduits, ducts for electrical cables, electrical cables, electric connector cables, electrical circuits; electrical connectors; electric apparatus for the control of equipment and installations, for the certification of quality standards, namely particle counters for measuring air quality, instruments for measuring air quality parameters, programs related to services for testing and assessing the quality of images rendered on screens, related to products, namely aircraft, ships, motor vehicles, railways, equipment for manufacturers of industrial equipment, for suppliers and for assemblers, civil engineering machines, namely machines used in the industrial, tertiary, agricultural and railway sectors, hoisting apparatus, namely automotive hoists, wire hoists, electric power plants, thermal facilities, namely heating boilers, industrial boilers, steam engine boilers, air conditioners, facilities for the distribution of thermal energy, ventilation systems, hydraulic facilities, namely hot water tanks, hydrogen power plants, equipment for oil development, equipment for nuclear facilities, real estate constructions and civil engineering constructions, namely industrial constructions, namely plants, warehouses and structures, transportation infrastructure, namely roads, tunnels, ports, bridges, hydraulic constructions, namely dams and levees, soils, computer hardware, in particular computers and software, electronic materials for the transmission of data, namely cellular telephony transmission towers, hardware for telecommunications, namely computer hardware for telecommunications; detectors, namely combination smoke and carbon monoxide detectors, fire and smoke detectors, metal object detectors for industrial and military use, carbon dioxide detectors, metal detectors, motion sensors; computer utility programs for providing diagnostic details on devices installed in a computer system, namely computers, tablets, printers and servers; pre-recorded DVDs and compact discs containing audio and video clips; blank optical discs, optical discs featuring music; distillation columns for laboratory use; dosage dispensers; electrodynamic apparatus for the remote control of electrical, digital signals and for the control via satellite, for positioning, navigation, navigation databases, satellite navigation, radio navigation; digital signage monitors, digital signage display panels; transmitters, radio receivers and radio signal tuners, satellite signal processors, signal

processors, radio signal antennas, signal amplifiers; distance recording apparatus, namely theodolites, range finders; time recording apparatus, namely minute counters; magnetic tape recorders; pressure sensors, tire pressure gauges; audiovisual teaching apparatus, namely educational software containing instructions relating to electrical engineering; material testing instruments and machines, namely metal strength testing machines, concrete testing machines, plastic testing machines, textile testing machines, cement testing machines, metal compression testing machines; electronic tags for goods; fibre optic cables; downloadable images for electronic tablets, downloadable images for mobile telephones, downloadable images for hand-held computers; laboratory ovens; frequency meters; gasometers [measuring instruments]; surveying apparatus and instruments, namely theodolites; global positioning system transmitters; computer software for global positioning systems, holograms; computers and computer hardware; intercommunication apparatus, namely microphones for communication devices, computers for communication; lasers for non-medical use, namely lasers for disc players, ultrashort pulse lasers for spectroscopy, lasers for industrial welding applications; barcode scanners; optical scanners; data processing hardware; optical lenses; computer programs and software for image processing, computer operating programs; smart glasses; 3D glasses; distance measuring apparatus, namely range finders, range sensors; speed sensors, speed indicators; electric measuring apparatus, namely laboratory thermometers; precision measuring apparatus, namely precision theodolites; measuring instruments, namely range finders; car navigation computers; global positioning system (GPS) satellites; optical inspection apparatus and instruments for inspecting buildings; computers; portable computers; smart phones; solar panels for the generation of electricity; luminous and mechanical signalling panels, namely signal lights, warning triangles, luminous safety or signalling beacons, rotating signalling lights; computer peripherals, namely computer screens, computer keyboards, headphones, webcams, computer printers, optical scanners; dosing devices, namely laboratory scales and balances, helicopter load monitoring scales, scales for medical use; photographic apparatus; apparatus and instruments used in physics, namely dynamometers; galvanic batteries, all-purpose batteries; solar batteries; central processing units; computer operating programs, computer utility file storage programs, computer utility file compression programs, computer utility anti-virus protection programs; recorded operating system programs for computers, computer programs for using the Internet and the Web, computer programs for document management, computer utility programs for file management; projection apparatus, namely slide projection apparatus, photographic projectors, projection screens, liquid crystal projection panels; electronic publications in the form of magazines, electronic publications in the form of journals, electronic medical publications; radiology apparatus for industrial use, namely gamma radiation detectors; X-ray equipment other than for medical use, namely X-ray tubes for neutralization; audio-video signal receivers; oil and gas well downhole survey and measurement equipment; electronic tablets; mobile telephones; portable telephones.

Class 16

(2) Paper and cardboard; printed matter, namely print letters, printing moulds; bookbinding material; photographs; office stationery; adhesives for stationery or household purposes; artists' materials, namely artists' pencils, artists' pens, artists' palettes; paintbrushes; typewriters; educational books; plastic materials for packaging, namely plastic bags for packaging, plastic film for packaging, packaging made of cellular plastic; printers' type; printing blocks; catalogues; flyers; graphic prints; newspapers; books; manuals; flyers; printed publications in the field of music.

Services

Class 35

(1) Advertising for others on the Internet, advertising services for the goods and services of others; business management; business administration; office services, secretarial and clerical services; procurement of contracts for the purchase and sale of the goods and services of others, business administration in the field of transport and delivery; business information agency providing information in the field of construction; assistance in managing commercial or industrial businesses; cost-price analysis; business auditing [business analyses]; management and compilation of computer databases; business organization and management advice; personnel management advice; business management consulting, advice related to the conduct of business; business appraisals; market studies; business productivity expert services; organization and conduct of trade shows in the field of fitness equipment, organization and holding of arts and crafts exhibitions; outsourced administrative management of businesses; computer file management; consulting and information concerning business management; commercial management advice provided via the Internet; provision of business information related to commercial and business contacts in the field of industrial certification, namely business intermediary services matching prospective private investors with entrepreneurs in the field of industrial certification; provision of others' business and marketing information; conduct of business and market research surveys for others; development of marketing strategies and concepts for others; updating and maintenance of data in computer databases; negotiation and conclusion of business transactions for others; conduct of an online trade show exhibition in the field of jewellery; economic forecasting; advertising related to the goods and services of others provided via any public means of communication; research related to consumption for others; web indexing for commercial or advertising purposes; business administration assistance; personnel recruitment; psychological testing for the selection of personnel; development of statistics for businesses.

Class 37

(2) Building construction, construction of piping, road construction; repair of aircraft, ships, motor vehicles, railway vehicles, civil engineering machines, namely machines used in the industrial, tertiary, agricultural and railway sectors, hoisting apparatus, namely automotive hoists, wire hoists, electric power plants, thermal facilities, namely heating boilers, industrial boilers, steam engine boilers, air conditioners, facilities for the distribution of thermal energy, ventilation systems, hydraulic facilities, namely hot water tanks, hydrogen power plants, equipment for oil development, equipment for nuclear facilities, real estate constructions and civil engineering constructions, namely industrial constructions, namely plants, warehouses and structures, transportation infrastructure, namely, roads, tunnels, ports and bridges, hydraulic constructions, namely dams and levees, soils, computer hardware, in particular computers, electronic materials for the transmission of data, namely computer hardware for data processing, hardware for telecommunications, namely computer hardware for telecommunications; installation services, namely installation of elevators and lifts, installation of electric machinery and power generators, installation of electrical systems, installation of building scaffolds; dispensing of advice related to building construction; maintenance and repair services, namely repair and maintenance of building scaffolds, working and building platforms, repair and maintenance of construction machines, maintenance and repair of buildings, building maintenance and repair; consulting services related to the supervision of building construction, provision of aircraft construction, repair and maintenance information; provision of information related to the repair of buildings; installation and repair of industrial apparatus and equipment, namely elevators and lifts, electrical systems, refrigerating apparatus; construction supervision.

Class 41

(3) Educational services related to electrical engineering; training in the field of electrical engineering; entertainment consisting of automobile races; organization of sports events in the field of football, organization of community festivals; coaching and training in the field of industrial certification; organization and conduct of colloquiums in the field of industrial certification; organization of fishing competitions, organization of math competitions; organization and holding of conferences related to mechanical engineering; recording of film on video tapes; correspondence courses related to technical writing; teaching in the field of computer programming; educational examination for users to qualify to pilot drones; organization and conduct of non-virtual educational forums in the field of industrial certification; provision of information about higher education credit courses and online education; organization and holding of art exhibitions, organization of fitness equipment shows; workshops and seminars in the field of photography; vocational guidance services; publishing of books, publishing of catalogues, publishing of booklets, publishing of magazines, publishing of electronic magazines, publishing of periodicals, publishing of flyers, publishing of journals; online publishing of electronic books and trade journals; provision of non-downloadable electronic publications online, namely publishing of electronic magazines; vocational retraining, namely professional training in the field of industrial certification; organization and holding of home security seminars; organization of conferences and symposiums in the field of medical science; translation services; tutoring.

Class 42

(4) Research pertaining to mechanical engineering, research in the field of chemistry, research in the field of physics, laboratory research in the field of chemistry, research related to building construction; consulting, research and analysis in the field of interior design; design and development of computers and software; drafting of construction plans, planning of buildings and building infrastructure; research, testing, analysis, evaluation, quality assessment and inspection, for the certification of, goods, services, materials, machines and apparatus, installations, namely aircraft, ships, motorized vehicles, civil engineering machines railway equipment, hoisting equipment, namely automotive hoists, wire hoists, electric, thermal and hydraulic power plants, equipment for oil development, equipment for nuclear facilities, real estate constructions and civil engineering constructions, namely industrial constructions, namely plants, warehouses and structures, transportation infrastructure, namely roads, tunnels, ports and bridges, hydraulic constructions, namely dams and levees, soils, computer equipment, in particular computers and software, electronic equipment for the transmission of data, namely computer hardware for data processing, hardware for telecommunications, namely computer hardware for telecommunications; chemical, mechanical and nuclear engineering services; mechanical engineering, chemical engineering; development of technical reference materials in the field of electrical engineering; technical advice in the field of environmental sciences, architectural advice services; consulting in the field of product certification and product quality standards, namely relating to aircraft, ships, motor vehicles, railway vehicles, equipment, namely for manufacturers of industrial equipment, for suppliers and for assemblers, civil engineering machines, namely machines used in the industrial, tertiary, agricultural and railway sectors, hoisting apparatus, electric power plants, thermal and hydraulic facilities, equipment for oil development, equipment for nuclear facilities, real estate constructions and civil engineering constructions, namely industrial constructions, namely plants, warehouses and structures, transportation infrastructure, namely roads, tunnels, ports and bridges, hydraulic constructions, namely, dams and levees, soils, computer hardware, in particular computers and software, electronic materials for the transmission of data, namely computer hardware for data processing, hardware for telecommunications, namely computer hardware for telecommunications; quality evaluation of wool; energy auditing services; issuance of certificates in the field of industrial certification; quality assurance services in the construction industry; consumer

product safety auditing, safety testing of consumer goods; quality control for the food industry, quality control of automobile parts; technical control of motor vehicles; non-destructive testing services, namely inspection services using infrared thermography in the field of industrial certification; installation of software; provision of research services in the field of industrial certification; research of new products for others; laboratory testing of materials, safety testing of consumer goods; testing, inspection and research in the fields of aeronautics, shipbuilding, the automotive industry, railway transport, the civil engineering industry, electric power plant construction, thermal power plant construction, hydraulic power plant construction, the oil industry, nuclear engineering, building construction, geology; testing and evaluation of automobile hoisting apparatus; testing of computer software; testing of computers; testing of computer hardware for telecommunications; software development; computer programming; technical advice and information in the field of environmental sciences; computer software advisory services; consultant services related to computer hardware design and development; data transfer and conversion from one medium to another; conversion of data and documents from physical to electronic media; creation and maintenance of websites for others; design of software; calibration of laboratory instruments; installation of software; maintenance of software and computers; updating of software; provision of search engines for the Internet; computer programming; technical research in the field of chemistry, technical research in the field of physics; technical writing; provision of cloud computing for data storage; remote monitoring of computer systems; repair of computer software.

Class 45

(5) Legal services; security services for the protection of property and individuals; personal and social services provided by others to meet the needs of individuals, namely legal research services, legal investigation services, security guard services and monitoring services; granting of computer software licences [legal services]; granting of intellectual property licences; advice in the field of workplace safety; legal document preparation services; factory inspection related to security; baggage inspection for security purposes; reviewing of standards and practices related to environmental regulations; advice and information in the legal field; advice related to workplace safety regulations.

Claims

Priority Filing Date: June 16, 2017, Country or Office: FRANCE, Application No: 4369311 in association with the same kind of goods and in association with the same kind of services

Application Number 1,870,880 **Filing Date** 2017-12-01

Goods

Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, wireless communication devices for voice, data or image transmission, namely, hand held and wearable computers, mobile phones, tablet computers and portable computers and natural language virtual agent software application for enabling data capture and data analysis in the field of artificial intelligence; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electric light switches, plugs, fuse boxes, coils, connectors, converters, flasher switches, light dimmers, circuits, wires and cables, voltage transformers; apparatus for recording, transmission or reproduction of sound or images, namely, magnetic data carriers, namely, magnetic discs, magnetic identifying cards, smart cards, flash memory cards and hard disk drives, recording discs, namely, audio discs, computer discs, compact discs, DVDs and digital recording media, namely, digital disc drives, USB flash drives, all containing information and content pertaining to computer video games, video games, playing video games and training machines to play video games; mechanisms for coin-operated apparatus; cash registers; calculating machines, namely, calculators; data processing equipment, namely, computer central processing units; computers; tablet computers; computer peripherals, namely, digital voice signal processors; information technology and audiovisual equipment, namely, audio tape recorders, combination video players and recorders, audiovisual headsets for playing video games, audiovisual receivers; artificial intelligence apparatus, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; humanoid robots with artificial intelligence; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer programs, recorded; recorded computer software, namely, recording computer operating programs and software for data analysis and computation and operating software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented

reality in the field of robotic science, technology, medicine and healthcare; downloadable computer programs and software for use in designing and developing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; interfaces for computers, namely, computer interface cards and boards; downloadable computer software applications for use in designing, developing and applying artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; computer software for use as an application programming interface (API); computer software for use in relation to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer programs for use in relation to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data in the field of artificial intelligence; computer application software for use in implementing the Internet of things [IoT] in the field of artificial intelligence; computer software and computer programs for playing electronic games; computer software and computer programs incorporating algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial space; educational apparatus and simulators, namely, electronic machines, electronic recorders, video recorders, desktop computers and laptops, handheld computers, portable media players, mobile telephones, telepresence robots, computer display monitors, and wristwatches featuring a cellphone and display screen for recording, transmission and reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; abacuses; accumulators for computers and CPUs; audio- and video-receivers; audiovisual teaching apparatus, namely, computers, tablet computers, smartphones; software for creating and modifying audio, video and audio-video games; computer software in particular audio, video and audio-video games; computer software in the nature of audio, video and audio-video games; downloadable computer games offered via the internet and wireless devices; computer games; computer games for use with computers and video game consoles; computer games for use on mobile phones and other handheld wireless devices; computer games for use with on-line interactive games; computer games software for creating and modifying computer games; computer games; software programs for creating and modifying video games; electronic game programs for creating and modifying electronic video games; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video games; video and computer game programs; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing,

analytics and data mining, virtual reality, augmented reality; computer games for use on mobile and cellular phones; recorded game software for mobile devices, namely smart phones and tablet computers; video game cartridges; electronic magnetic recording media featuring data relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact disc featuring computer programs for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; animated cartoons; recorded movies and films; downloadable movies and films; downloadable electronic publications in the field of artificial intelligence, and computer and video game strategy; electronic publications (downloadable) relating to games and gaming; downloadable publications, namely, guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artworks, texts, graphics and photographs; virtual reality games; interactive multimedia computer games; interactive computer games; computer games downloaded via the Internet; pre-recorded CDs and DVDs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; parts, fittings and accessories for all the aforesaid, namely, touch pads, headsets for virtual reality games, virtual reality glasses, computer joystick peripherals, high performance computer hardware with specialized features for enhanced game playing ability

Class 16

(2) Printed matter and printed publications, namely, books; magazines; periodicals; research papers; research abstracts of the subject matter or content of printed matter, books, articles, and manuals in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, games of skill, computer game strategies; newsletters; brochures; manuals; catalogues; calendars; postcards; comics; printed material in the field of video games, namely, instructional manuals and computer game instruction manuals; computer game strategy articles, books, newsletters, research papers, publications; printed publications relating to computer software, computer programs; printed publications relating to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, games of skill, computer game strategies; strategy guide books for computer games

Class 28

(3) Toys, games, playthings, namely, electronic interactive board games for use with external monitor, action skill games, action target games, arcade games, electronic card games, manipulative games, memory games, puzzle games, electronic board games, chess games; apparatus for games, namely, computer gaming consoles featuring artificial intelligence for use in playing and creating two-dimensional and three dimensional games; video game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; arcade video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; amusement machines, automatic and coin-operated; hand-held electronic games other than those adapted for use with television receivers only; games of strategy, namely, Go games; board games; computer game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; handheld computer games; electronic board games; hand-held, non-electronic skill games; games of strategy; electronic

educational games; electronic learning games; electronic teaching games; electronic training games

Services

Class 41

(1) Education, namely, teaching in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing of training, namely, providing seminars, webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment in the form of television, film and online video, namely, ongoing television, film, and video programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, and augmented reality; organizing sporting and cultural activities, namely, organization of dancing events, golf tournaments, hockey tournaments, soccer tournaments, music concerts for charitable purposes, magic shows, wine festivals, community festivals, video gaming competitions; entertainment services, namely, providing online video games; entertainment services in the form of on-line interactive computer games; arranging of games, namely, chess games, go games, electronic video games; providing on-line games; providing on-line video games; providing of game information; internet games (non-downloadable); on-line computer games; providing on-line computer games; providing on-line interactive computer games; game services provided on-line from a global computer network; on-line game services through mobile devices; game services provided on-line from a computer network or a mobile phone network; games equipment rental; providing a training environment, namely, live exhibition programs and providing educational demonstrations of advanced technologies incorporating data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine, and robotic science; training services provided via simulators; information relating to electronic computer games via the Internet; training in computer programming; entertainment services in the nature of non-downloadable movies and films transmitted via the internet; providing on-line electronic publications, not downloadable, namely, written articles, newspapers, magazines, scientific journals, books and newsletters in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; publication of computer games; publication of electronic articles, research papers, books, journals on-line, not downloadable; providing information to game players about the ranking of their scores via websites; computer education training; education and training relating to computer games; education relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; training relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services, namely, interactive multimedia computer game programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual

reality distributed via various platforms across multiple forms of transmission media; providing advice, consultancy and entertainment and educational information services in relation artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality

Class 42

(2) Scientific and technological services, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, data mining, statistical analysis, artificial intelligence, machine learning and virtual reality; industrial analysis and research services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research, design and development of computer hardware and software; information technology [IT] consultancy; providing information on computer technology and programming via a web site; Development and testing of computing methods, algorithms and software; computer programming; computer programming consultancy; computer programming for others; computer software programming services; programming of computer animations; computer programming of video and computer games; design and development of computing platforms and training environments for others; research relating to computer programming; computer programming and software design; advisory services relating to computer programming; design, development and programming of computer software; design, development and provision of computer software for use as an application programming interface (API); computer software design; creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; consultancy in the design and development of computer hardware; hosting of web sites; off-site data backup; computer software consultancy; development and testing of computing methods, algorithms and software; development and testing of computing methods, algorithms and software in a virtual space; development and testing of computing methods, algorithms and software for computer games and board games; design of games; design of board games; computer programming for video games; research and consultancy in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; design, development and analysis of environments for machine learning, deep learning, reinforcement learning; computer software design and development; computer game software design and development; programming of computer game software; developing computer game programmes using neural networks; developing computer (game) programmes using tree search; providing virtual computer environments through cloud computing; hosting of platforms on the Internet; programming of software for Internet platforms; platform as a service (PaaS) featuring computer software platforms for use of software in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; providing information on computer technology and programming via a website; advice, consultancy and information services in the fields of computer game programs, computer video games, video games, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality and augmented reality

Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, wireless communication devices for voice, data or image transmission, namely, hand held and wearable computers, mobile phones, tablet computers and portable computers and natural language virtual agent software application for enabling data capture and data analysis in the field of artificial intelligence; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electric light switches, plugs, fuse boxes, coils, connectors, converters, flasher switches, light dimmers, circuits, wires and cables, voltage transformers; apparatus for recording, transmission or reproduction of sound or images, namely, magnetic data carriers, namely, magnetic discs, magnetic identifying cards, smart cards, flash memory cards and hard disk drives, recording discs, namely, audio discs, computer discs, compact discs, DVDs and digital recording media, namely, digital disc drives, USB flash drives, all containing information and content pertaining to computer video games, video games, playing video games and training machines to play video games; mechanisms for coin-operated apparatus; cash registers; calculating machines, namely, calculators; data processing equipment, namely, computer central processing units; computers; tablet computers; computer peripherals, namely, digital voice signal processors; information technology and audiovisual equipment, namely, audio tape recorders, combination video players and recorders, audiovisual headsets for playing video games, audiovisual receivers; artificial intelligence apparatus, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; humanoid robots with artificial intelligence; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer programs, recorded; recorded computer software, namely, recording computer operating programs and software for data analysis and computation and operating software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented

reality in the field of robotic science, technology, medicine and healthcare; downloadable computer programs and software for use in designing and developing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; interfaces for computers, namely, computer interface cards and boards; downloadable computer software applications for use in designing, developing and applying artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; computer software for use as an application programming interface (API); computer software for use in relation to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer programs for use in relation to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data in the field of artificial intelligence; computer application software for use in implementing the Internet of things [IoT] in the field of artificial intelligence; computer software and computer programs for playing electronic games; computer software and computer programs incorporating algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial space; educational apparatus and simulators, namely, electronic machines, electronic recorders, video recorders, desktop computers and laptops, handheld computers, portable media players, mobile telephones, telepresence robots, computer display monitors, and wristwatches featuring a cellphone and display screen for recording, transmission and reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; abacuses; accumulators for computers and CPUs; audio- and video-receivers; audiovisual teaching apparatus, namely, computers, tablet computers, smartphones; software for creating and modifying audio, video and audio-video games; computer software in particular audio, video and audio-video games; computer software in the nature of audio, video and audio-video games; downloadable computer games offered via the internet and wireless devices; computer games; computer games for use with computers and video game consoles; computer games for use on mobile phones and other handheld wireless devices; computer games for use with on-line interactive games; computer games software for creating and modifying computer games; computer games; software programs for creating and modifying video games; electronic game programs for creating and modifying electronic video games; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video games; video and computer game programs; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing,

analytics and data mining, virtual reality, augmented reality; computer games for use on mobile and cellular phones; recorded game software for mobile devices, namely smart phones and tablet computers; video game cartridges; electronic magnetic recording media featuring data relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact disc featuring computer programs for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; animated cartoons; recorded movies and films; downloadable movies and films; downloadable electronic publications in the field of artificial intelligence, and computer and video game strategy; electronic publications (downloadable) relating to games and gaming; downloadable publications, namely, guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artworks, texts, graphics and photographs; virtual reality games; interactive multimedia computer games; interactive computer games; computer games downloaded via the Internet; pre-recorded CDs and DVDs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; parts, fittings and accessories for all the aforesaid, namely, touch pads, headsets for virtual reality games, virtual reality glasses, computer joystick peripherals, high performance computer hardware with specialized features for enhanced game playing ability

Class 16

(2) Printed matter and printed publications, namely, books; magazines; periodicals; research papers; research abstracts of the subject matter or content of printed matter, books, articles, and manuals in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, games of skill, computer game strategies; newsletters; brochures; manuals; catalogues; calendars; postcards; comics; printed material in the field of video games, namely, instructional manuals and computer game instruction manuals; computer game strategy articles, books, newsletters, research papers, publications; printed publications relating to computer software, computer programs; printed publications relating to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, games of skill, computer game strategies; strategy guide books for computer games

Class 28

(3) Toys, games, playthings, namely, electronic interactive board games for use with external monitor, action skill games, action target games, arcade games, electronic card games, manipulative games, memory games, puzzle games, electronic board games, chess games; apparatus for games, namely, computer gaming consoles featuring artificial intelligence for use in playing and creating two-dimensional and three dimensional games; video game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; arcade video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; amusement machines, automatic and coin-operated; hand-held electronic games other than those adapted for use with television receivers only; games of strategy, namely, Go games; board games; computer game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; handheld computer games; electronic board games; hand-held, non-electronic skill games; games of strategy; electronic

educational games; electronic learning games; electronic teaching games; electronic training games

Services

Class 41

(1) Education, namely, teaching in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing of training, namely, providing seminars, webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment in the form of television, film and online video, namely, ongoing television, film, and video programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, and augmented reality; organizing sporting and cultural activities, namely, organization of dancing events, golf tournaments, hockey tournaments, soccer tournaments, music concerts for charitable purposes, magic shows, wine festivals, community festivals, video gaming competitions; entertainment services, namely, providing online video games; entertainment services in the form of on-line interactive computer games; arranging of games, namely, chess games, go games, electronic video games; providing on-line games; providing on-line video games; providing of game information; internet games (non-downloadable); on-line computer games; providing on-line computer games; providing on-line interactive computer games; game services provided on-line from a global computer network; on-line game services through mobile devices; game services provided on-line from a computer network or a mobile phone network; games equipment rental; providing a training environment, namely, live exhibition programs and providing educational demonstrations of advanced technologies incorporating data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine, and robotic science; training services provided via simulators; information relating to electronic computer games via the Internet; training in computer programming; entertainment services in the nature of non-downloadable movies and films transmitted via the internet; providing on-line electronic publications, not downloadable, namely, written articles, newspapers, magazines, scientific journals, books and newsletters in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; publication of computer games; publication of electronic articles, research papers, books, journals on-line, not downloadable; providing information to game players about the ranking of their scores via websites; computer education training; education and training relating to computer games; education relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; training relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services, namely, interactive multimedia computer game programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual

reality distributed via various platforms across multiple forms of transmission media; providing advice, consultancy and entertainment and educational information services in relation artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality

Class 42

(2) Scientific and technological services, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, data mining, statistical analysis, artificial intelligence, machine learning and virtual reality; industrial analysis and research services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research, design and development of computer hardware and software; information technology [IT] consultancy; providing information on computer technology and programming via a web site; Development and testing of computing methods, algorithms and software; computer programming; computer programming consultancy; computer programming for others; computer software programming services; programming of computer animations; computer programming of video and computer games; design and development of computing platforms and training environments for others; research relating to computer programming; computer programming and software design; advisory services relating to computer programming; design, development and programming of computer software; design, development and provision of computer software for use as an application programming interface (API); computer software design; creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; consultancy in the design and development of computer hardware; hosting of web sites; off-site data backup; computer software consultancy; development and testing of computing methods, algorithms and software; development and testing of computing methods, algorithms and software in a virtual space; development and testing of computing methods, algorithms and software for computer games and board games; design of games; design of board games; computer programming for video games; research and consultancy in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; design, development and analysis of environments for machine learning, deep learning, reinforcement learning; computer software design and development; computer game software design and development; programming of computer game software; developing computer game programmes using neural networks; developing computer (game) programmes using tree search; providing virtual computer environments through cloud computing; hosting of platforms on the Internet; programming of software for Internet platforms; platform as a service (PaaS) featuring computer software platforms for use of software in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; providing information on computer technology and programming via a website; advice, consultancy and information services in the fields of computer game programs, computer video games, video games, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality and augmented reality

Goods

Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, wireless communication devices for voice, data or image transmission, namely, hand held and wearable computers, mobile phones, tablet computers and portable computers and natural language virtual agent software application for enabling data capture and data analysis in the field of artificial intelligence; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electric light switches, plugs, fuse boxes, coils, connectors, converters, flasher switches, light dimmers, circuits, wires and cables, voltage transformers; apparatus for recording, transmission or reproduction of sound or images, namely, magnetic data carriers, namely, magnetic discs, magnetic identifying cards, smart cards, flash memory cards and hard disk drives, recording discs, namely, audio discs, computer discs, compact discs, DVDs and digital recording media, namely, digital disc drives, USB flash drives, all containing information and content pertaining to computer video games, video games, playing video games and training machines to play video games; mechanisms for coin-operated apparatus; cash registers; calculating machines, namely, calculators; data processing equipment, namely, computer central processing units; computers; tablet computers; computer peripherals, namely, digital voice signal processors; information technology and audiovisual equipment, namely, audio tape recorders, combination video players and recorders, audiovisual headsets for playing video games, audiovisual receivers; artificial intelligence apparatus, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; humanoid robots with artificial intelligence; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer programs, recorded; recorded computer software, namely, recording computer operating programs and software for data analysis and computation and operating software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented

reality in the field of robotic science, technology, medicine and healthcare; downloadable computer programs and software for use in designing and developing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; interfaces for computers, namely, computer interface cards and boards; downloadable computer software applications for use in designing, developing and applying artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; computer software for use as an application programming interface (API); computer software for use in relation to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer programs for use in relation to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data in the field of artificial intelligence; computer application software for use in implementing the Internet of things [IoT] in the field of artificial intelligence; computer software and computer programs for playing electronic games; computer software and computer programs incorporating algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial space; educational apparatus and simulators, namely, electronic machines, electronic recorders, video recorders, desktop computers and laptops, handheld computers, portable media players, mobile telephones, telepresence robots, computer display monitors, and wristwatches featuring a cellphone and display screen for recording, transmission and reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; abacuses; accumulators for computers and CPUs; audio- and video-receivers; audiovisual teaching apparatus, namely, computers, tablet computers, smartphones; software for creating and modifying audio, video and audio-video games; computer software in particular audio, video and audio-video games; computer software in the nature of audio, video and audio-video games; downloadable computer games offered via the internet and wireless devices; computer games; computer games for use with computers and video game consoles; computer games for use on mobile phones and other handheld wireless devices; computer games for use with on-line interactive games; computer games software for creating and modifying computer games; computer games; software programs for creating and modifying video games; electronic game programs for creating and modifying electronic video games; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video games; video and computer game programs; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing,

analytics and data mining, virtual reality, augmented reality; computer games for use on mobile and cellular phones; recorded game software for mobile devices, namely smart phones and tablet computers; video game cartridges; electronic magnetic recording media featuring data relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact disc featuring computer programs for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; animated cartoons; recorded movies and films; downloadable movies and films; downloadable electronic publications in the field of artificial intelligence, and computer and video game strategy; electronic publications (downloadable) relating to games and gaming; downloadable publications, namely, guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artworks, texts, graphics and photographs; virtual reality games; interactive multimedia computer games; interactive computer games; computer games downloaded via the Internet; pre-recorded CDs and DVDs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; parts, fittings and accessories for all the aforesaid, namely, touch pads, headsets for virtual reality games, virtual reality glasses, computer joystick peripherals, high performance computer hardware with specialized features for enhanced game playing ability

Class 16

(2) Printed matter and printed publications, namely, books; magazines; periodicals; research papers; research abstracts of the subject matter or content of printed matter, books, articles, and manuals in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, games of skill, computer game strategies; newsletters; brochures; manuals; catalogues; calendars; postcards; comics; printed material in the field of video games, namely, instructional manuals and computer game instruction manuals; computer game strategy articles, books, newsletters, research papers, publications; printed publications relating to computer software, computer programs; printed publications relating to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, games of skill, computer game strategies; strategy guide books for computer games

Class 28

(3) Toys, games, playthings, namely, electronic interactive board games for use with external monitor, action skill games, action target games, arcade games, electronic card games, manipulative games, memory games, puzzle games, electronic board games, chess games; apparatus for games, namely, computer gaming consoles featuring artificial intelligence for use in playing and creating two-dimensional and three dimensional games; video game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; arcade video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; amusement machines, automatic and coin-operated; hand-held electronic games other than those adapted for use with television receivers only; games of strategy, namely, Go games; board games; computer game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; handheld computer games; electronic board games; hand-held, non-electronic skill games; games of strategy; electronic

educational games; electronic learning games; electronic teaching games; electronic training games

Services

Class 41

(1) Education, namely, teaching in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing of training, namely, providing seminars, webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment in the form of television, film and online video, namely, ongoing television, film, and video programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, and augmented reality; organizing sporting and cultural activities, namely, organization of dancing events, golf tournaments, hockey tournaments, soccer tournaments, music concerts for charitable purposes, magic shows, wine festivals, community festivals, video gaming competitions; entertainment services, namely, providing online video games; entertainment services in the form of on-line interactive computer games; arranging of games, namely, chess games, go games, electronic video games; providing on-line games; providing on-line video games; providing of game information; internet games (non-downloadable); on-line computer games; providing on-line computer games; providing on-line interactive computer games; game services provided on-line from a global computer network; on-line game services through mobile devices; game services provided on-line from a computer network or a mobile phone network; games equipment rental; providing a training environment, namely, live exhibition programs and providing educational demonstrations of advanced technologies incorporating data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine, and robotic science; training services provided via simulators, namely, training in the field of data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine and robotic science; information relating to electronic computer games via the Internet; training in computer programming; entertainment services in the nature of non-downloadable movies and films transmitted via the internet; providing on-line electronic publications, not downloadable, namely, written articles, newspapers, magazines, scientific journals, books and newsletters in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; publication of computer games; publication of electronic articles, research papers, books, journals on-line, not downloadable; providing information to game players about the ranking of their scores via websites; computer education training; education and training relating to computer games; education relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; training relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services,

namely, interactive multimedia computer game programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality distributed via various platforms across multiple forms of transmission media; providing advice, consultancy and entertainment and educational information services in relation artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality

Class 42

(2) Scientific and technological services, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, data mining, statistical analysis, artificial intelligence, machine learning and virtual reality; industrial analysis and research services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research, design and development of computer hardware and software; information technology [IT] consultancy; providing information on computer technology and programming via a web site; Development and testing of computing methods, algorithms and software; computer programming; computer programming consultancy; computer programming for others; computer software programming services; programming of computer animations; computer programming of video and computer games; design and development of computing platforms and training environments for others; research relating to computer programming; computer programming and software design; advisory services relating to computer programming; design, development and programming of computer software; design, development and provision of computer software for use as an application programming interface (API); computer software design; creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; consultancy in the design and development of computer hardware; hosting of web sites; off-site data backup; computer software consultancy; development and testing of computing methods, algorithms and software; development and testing of computing methods, algorithms and software in a virtual space; development and testing of computing methods, algorithms and software for computer games and board games; design of games; design of board games; computer programming for video games; research and consultancy in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; design, development and analysis of environments for machine learning, deep learning, reinforcement learning; computer software design and development; computer game software design and development; programming of computer game software; developing computer game programmes using neural networks; developing computer (game) programmes using tree search; providing virtual computer environments through cloud computing; hosting of platforms on the Internet; programming of software for Internet platforms; platform as a service (PaaS) featuring computer software platforms for use of software in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; providing information on computer technology and programming via a website; advice, consultancy and information services in the fields of computer game programs, computer video games, video games, artificial

intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality and augmented reality

Goods

Class 08

(1) Ice scrapers

Class 09

(2) Portable battery chargers, namely cell phone battery chargers; USB flash drives; magnets, namely, decorative magnets and refrigerator magnets; mobile phone cases; laptop computer cases; tablet computer cases; electronic newsletters

Class 14

(3) Pins, namely lapel pins; alarm clocks; keyrings; lanyards for holding keys

Class 16

(4) Pens; document portfolios; notepads; blank journals; newsletters; lanyards, namely lanyards for holding access cards, for holding visitor cards

Class 18

(5) ID card holders; umbrellas; luggage scales; suitcases; luggage tags; luggage straps; passport wallets; tote bags; backpacks; travel kits; lunch bags; duffle bags; messenger bags; Pet leashes, pet collars

Class 20

(6) Photo frames

Class 21

(7) Water bottles; travel mugs; tumblers, namely tumbler drinking glasses; mugs; pet water bowls; pet treat containers

Class 24

(8) Golf towels

Class 25

(9) Clothing, namely golf shirts, shirts, casual shirts, sweatshirts, hooded sweatshirts, jackets, sweaters, tshirts, polo shirts, socks, scarves, jumpsuits; Headgear, namely caps, toques, bandanas; ties; baby bibs

Class 26

(10) Pins, namely novelty pins

Class 28

(11) Golf accessories namely golf balls, golf travel bags; model airplanes; plush toys; stress relief exercise balls

Services

Class 38

(1) Providing online chat rooms for social networking, providing access to an online bulletin board in the field of community social events, providing access to a website that provides online social networking

Class 45

(2) Online social networking services

Goods

Class 01

(1) Biochemicals in the form of monoclonal antibodies for in vitro scientific use; Biochemicals in the form of monoclonal antibodies for research use; Laboratory instrument for the detection of pathogens, cells, cell lines, bacteria, in biological samples for research, scientific, laboratory and clinical diagnostic use; Microbial antigens and antisera for in vitro diagnostic use; enzymes for use in protein hydrolysis; enzyme stabilizers; enzyme substrates; test samples used in conjunction with laboratory diagnostics in the nature of biological or biochemical samples used to verify the reliability of laboratory equipment; test samples used in conjunction with assay methods in the nature of biological or biochemical assay samples used to verify the reliability of laboratory rests, testing procedures, and testing practices; Liquid, frozen and lyophilized inactivated and native pathogens, whole and fragmented eukaryotes, prokaryotes, and viruses, independent or in host cells, all for in vitro and in vivo scientific or diagnostic use; liquid, frozen or lyophilized recombinant DNA and/or RNA preparations, either purified or within host organisms, in various buffers, singly and in combination, all for in vitro and in vivo scientific or diagnostic use; Positive controls, namely, reagents for use with nucleic acid-based, immunologic, or other diagnostic tests to confirm proper test operation, and run independently or in conjunction with patient samples to confirm, assess, test, or verify the operation of the test method and procedure; proficiency test samples in the nature of biological test samples used to test the proficiency of testing operations where infectious

disease diagnostics test systems are used to determine the pathogenic or biochemical content of samples; Quality assessment products namely proficiency testing samples, verification samples, validation samples, samples for operator training and control samples for laboratory diagnostic use and testing of viruses, eukaryotes, prokaryotes, organisms, in whole and component part for scientific laboratory use; Positive controls for use with molecular and diagnostic tests, namely tests detecting nucleic acids, proteins, carbohydrates, lipids, and biological molecules, to confirm proper test operation, and run in conjunction with patient samples to confirm, assess, test, and verify the operation of the test method; proficiency test samples in the nature biological test samples used to test the proficiency of technicians who use infectious disease diagnostics test systems to determine the pathogenic and biochemical content of samples; diagnostic kits for in vitro use, namely for use in industry, science and research; Laboratory assay kits; Biological material, for scientific and research purposes, in the nature of serum and plasma from infected and disease state individuals used for verification and validation of human diagnostic assays for such infections and diseases; Biotechnology products for scientific and research use, namely, reagents and solutions in the nature of eukaryotes, prokaryotes, and viruses, and their component parts, and derivatives thereof for research, development, and validation of diagnostic tests, namely infectious disease diagnostic tests; biochemical products, namely, Biochemicals in the form of monoclonal antibodies for in vitro scientific or diagnostic use; Biochemicals in the form of monoclonal antibodies for research or diagnostic use; diagnostic reagents containing lyophilized microorganisms, and reagents containing lyophilized microorganisms all for in-vitro use and for use in biochemistry, clinical chemistry and microbiology; diagnostic reagents for use in scientific research of infectious diseases; diagnostic reagents for medical scientific research use; diagnostic preparations for clinical laboratory use; diagnostic preparations for medical laboratory use; diagnostic preparations for medical research use; diagnostic preparations for use in scientific research of infectious diseases;; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology.

Class 05

(2) Viruses, bacteria, parasites, and other pathogens, namely eukaryotes and prokaryotes, purified and not, in whole and in part, useful as laboratory specimens for research, as products for and components in laboratory diagnostics, namely clinical diagnostics, and in the assessment of the functioning of laboratory and clinical diagnostic method; Cells and cell culture derived products for in vitro and in vivo scientific and diagnostic use, namely, production of organisms, proteins, nucleic acids, and cellular fractions used as reagents, antigens and test articles and controls; Purified proteins namely antibodies, thrombolytics, and pathogen-derived components; Urokinase preparations for the restoration of patency to intravenous catheter, including central venous catheter, obstructed by clotted blood and fibrin; Urokinase preparations for treating pulmonary embolism; Urokinase preparations for treating the lysis of acute pulmonary emboli and pulmonary emboli accompanied by unstable hemodynamics; Urokinase preparations for treating thrombosis; Urokinase preparations for treating coronary artery thrombosis; Urokinase preparations for treating myocardial infarction; Urokinase preparations for the lysis of thrombi; Urokinase preparations for treating peripheral arterial and graft thromboembolic occlusion; Urokinase preparations for treating deep vein thrombosis; Urokinase preparations for treating pleural effusions; Urokinase preparations for treating peripheral arterial occlusion; Urokinase preparations for treating ischemic stroke; Urokinase preparations for treating lower limb ischemia; Diagnostic reagents, namely, biotechnology products for medical and veterinary use, namely, non-infectious organisms namely, pathogens, namely, eukaryotes, prokaryotes, and viruses, used for controls; Diagnostic reagents for clinical laboratory use; Diagnostic reagents, namely, biotechnology products for medical and veterinary use, namely, pathogens, eukaryotes, prokaryotes, and viruses, used for controls;

diagnostic reagents for clinical laboratory uses; Diagnostic reagents, namely, biotechnology products for medical and veterinary use, namely, non-infectious organisms namely, pathogens, namely, eukaryotes, prokaryotes, and viruses, used for controls; radio-isotope markers for diagnostic use.

Class 09

(3) Computer software for use in data collection, review, interpretation, comparison, and analysis of cell features; Laboratory instrument for the detection of pathogens, cells, cell lines, bacteria, in biological samples for research, scientific, laboratory and clinical diagnostic use; cytometric instruments, cytometer, laboratory apparatus, namely flow cytometer; cytometric instruments, cytometer, laboratory apparatus, namely flow cytometer, scientific instrument for cytometric analysis; apparatus for the automated cytometric analysis of cells, namely, image cytometers; automated flow cytometer sample introduction accessory, namely a machine which is used in conjunction with a flow cytometer to deliver biological and chemical samples from single test tubes and multi-well laboratory plates; laboratory instrument for the detection pathogens and toxins in a biological sample for research use.

Class 10

(4) Medical devices for the qualitative detection of antibodies in specimens collected as plasma and dried blood spots; artificial insemination instruments; medical apparatus for the automated analysis of cells; medical apparatus for the automated cytometric analysis of cells; medical apparatus for the detection of atypia in cells; medical apparatus for automated analysis of cell features for the detection of disease; medical apparatus for automated analysis of nuclear features for the detection of disease.

Services

Class 40

(1) Manufacturing of biotechnology products, namely pathogenic organisms for research, to the order and specification of others.

Class 42

(2) biological cell-selection services for biological research purposes ; Research and development, of a process technology to be used in the manufacture of a vaccine; Biological cell-selection services for biological research, diagnostic, or manufacturing purposes; Services of delivering energy to a population of biological cells for the purpose of selecting desired cells and negatively selecting undesired cells for biological research purposes; Medical testing services relating to laboratory testing of materials; Selection, creation and production of cells, bacteria and viruses; laboratory testing of materials; biological cell-selection services for biological research purposes; services of delivering energy to a population of biological cells for the purpose of selecting desired cells and negatively selecting undesired cells for biological research purposes.

Class 44

(3) Medical testing services relating to the diagnosis and treatment of disease; Animal husbandry services; animal breeding services; sperm- and semen-sexing services; biological cell-selection services for medical purposes; and medical services, namely services of delivering energy to a population of biological cells for the purpose of selecting desired cells and negatively selecting undesired cells.

Class 45

(4) Licensing of a process technology to be used in the manufacture of a vaccine; Licensing of a process technology to be used in the manufacture of a vaccine.

for others; business management and enterprise organization consultancy; providing operational business assistance to enterprises; business administration and management, business administration consulting services; promoting the sale of goods and services through promotional contests and the distribution of related printed material; sales promotion for others provided through the distribution and the administration of privileged user cards; sample distribution; marketing services in the field of arranging for the distribution of the products of others; advisory services relating to business management and business operations; supply chain management services; production of advertising materials for others; business management consulting with relation to strategy, marketing, production, personnel and retail sale matters; procurement of contracts for the purchase and sale of goods and services; business process re-engineering; business process reengineering services; inventory control; inventory control services; procurement services in the form of purchasing computer hardware; sale of computer software; Business management services, namely, vehicle fleet management for others; business efficiency services; providing advice in the field of business efficiency.

Class 36

(3) arranging and provision of credit, loans, mortgages, accounts receivable purchasing (factoring), currency exchange, credit card services; mortgage, loan and financial investment brokerage services through a network of professionals including lawyers, real estate advisers, real estate brokers, agents, and financial planners; On-line financial services, namely, mortgages; providing on-line trading services in the field of finance, namely mortgages; financial services, namely, providing on a global computer network exchange of cryptocurrency utilizing a blockchain database infrastructure; Facilities management services, namely, building management services and building operations; accident insurance information; acquisition of real estate for others; ad valorem appraisals of real estate; advisory services in the field of credit and debit control, investment, grants and financing of loans; agencies for brokerage of securities trading in overseas securities markets and of transactions on commission of overseas market securities futures; apartment house management; appraisal of real estate; arranging and provision of credit, loans, insurance, currency exchange and travellers cheques; arranging of leases and rental agreements for real estate; arranging of loans; assessment and management of real estate; brokerage for liquidation of securities; brokerage for securities liquidation; brokerage of shares and other securities; building management; cash and foreign exchange transactions; cash management; commodity exchange services; computer analyses of stock exchange information; consulting and information concerning insurance; credit and loan services; debt management services; electronic funds transfer by telecommunications; equity investment in international companies; estate planning; estate trust management; financial analysis; financial analysis and preparation of reports relating thereto; financial analysis and research services; financial analysis consultation services; financial appraisals in responding to calls for tenders; financial asset management; financial clearinghouse services; financial credit scoring services; financial evaluation for insurance purposes; financial exchange of data between financial institutions and their customers; financial investment analysis and stock research; financial investment brokerage; financial investment in the field of securities; financial investments in the field of securities; financial management of reimbursement payments for others; financial management via the internet; financial placement of private equity funds for others; financial risk assessment services; financial securities brokerage services; financial services, namely, debt settlement; financial trust operations; financial trust planning; financial valuation of personal property and real estate; financing of loans and discounting of bills; fiscal assessment and evaluation; fiscal valuations and assessments; foreign exchange transactions; formation, offering and management of limited partnerships; installment loans; intellectual property valuation services; investment management; investment risk

assessment services; lease of real estate; loan syndication; management of a capital investment fund; management of apartment houses; management of office buildings; management of portfolios comprising securities; management of portfolios of transferable securities; monetary exchange operations; monetary exchange services; money exchange services; mortgage banking; mortgage brokerage; mortgage refinancing; mortgage services; on-line real-time currency trading; options trading services; organization of stock exchanges for the benefit of the trade of stocks and other financial values; private financial placement of securities and derivatives for others; property management; property management consulting services; providing stock market information; providing stock securities market information; providing student loans; real estate agency services; real estate appraisal and valuation; real estate brokerage; real estate brokers; real estate consultation; real estate investment services; real estate management; real estate management services; real estate syndication; real estate time sharing; savings and loan services; securities brokerage; securities lending; stock exchange information; stock exchange quotation and listing services; trading of overseas market securities futures; trustee services; valuation of yachts; valuations in real estate matters; venture capital fund management;

Class 37

(4) installation, maintenance and repair of office machines and equipment; real estate development; Facilities management services in the nature of building maintenance, repair and refurbishment

Class 38

(5) Internet services, namely, providing access to electronic magazine websites on the internet; providing email notification alerts of rating changes that affect financial portfolios; television broadcasting, broadcasting of television programs, radio broadcasting, broadcasting of radio programs, internet radio broadcasting services; electronic delivery of loan documents; electronic transmission of digital photo files via a peer-to-peer network; network conferencing; operating a wide-area network (WAN); providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing on-line chat rooms for social networking; providing television broadcasting information via a website; provision of telecommunication access to television programmes provided via an on-demand service;

Class 41

(6) Education courses in the field of finance, namely mortgages; arranging and conducting financial seminars, conferences, trade shows, exhibitions, events and presentations in the field finance, namely mortgages; organizing conferences to promote software development; Educational services and patient educational services, namely, seminars, workshops, classes and training sessions all in the field of medical cannabis and distribution of audio, video educational services and patient educational services, namely, seminars, workshops, classes and training sessions all in the field of medical cannabis and distribution of audio, video and printed instructional materials in connection therewith and printed instructional materials in connection therewith; Education and training services including conducting classes and seminars in the field of computers and computer programs; Education and training services including conducting classes and seminars in the field of quality management systems; computer training, teaching computer programming, training in the use and operation of computer equipment, vocational education in the field of computers; education services, namely, providing employee educational assessment and training in the field of cybersecurity; training with respect to detection of malware, unauthorized activities and intrusions, and remediation of security problems and vulnerabilities in computers, computer systems, networks, hardware, software applications, digital devices, digital data, and mobile devices; Training services relating to quality management systems and conformity systems

in the fields of aerospace, aeronautical systems and vehicles, quality management information systems, energy efficiency management systems, environmental management systems, satellite and weapons technology; Training services relating to quality management systems and conformity systems in the fields of governance, public policy, military command and control, defense contracting; analyzing educational tests scores and data for others; arranging and conducting financial conferences; arranging and conducting real estate conferences; computer training; conducting distance learning instruction at the university level; developing international student exchange programs; educational services in the field of financial planning; life coaching in the field of career development; life coaching services in the field of personal financing; operation of a correspondence school; operation of an educational institution at the university level; performance measurement evaluations in the field of education; training for handling scientific instruments and apparatus for research in laboratories; training in the use and operation of computer equipment; workshops and seminars in the field of will and estate planning;

Class 42

(7) advisory services in the field of product development and quality improvement of software; assessment and evaluation of inventions; cloud computing enabling file storage of payroll data; cloud computing photo sharing services; cloud computing provider services for general storage of data; cloud computing providing software for database management; cloud computing video hosting web sites; cloud computing web hosting services; computer network security services; computer security consultancy; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; creating and designing web pages for others; creating and maintaining blogs for others; creating and maintaining web sites for others; creating home pages for others; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; design and development of electronic data security systems; electronic monitoring of personally identifying information to detect identity theft via the internet; internet security consultancy; maintenance of computer software relating to computer security and prevention of computer risks; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; providing information on computer technology and programming via a web site; providing quality assurance in the construction industry; providing quality assurance in the field of computer software; provision of scientific information, advice and consultancy in relation to carbon offsetting; rental of a database server to third parties; rental of web servers; software as a service (SaaS) provider in the field of providing customer relations management; technical support in the form of monitoring global computer network systems; providing quality assurance in the construction industry; providing quality assurance in the field of computer software; providing quality assurance in the banking, insurance and finance industries; quality valuation of blockchain and cryptocurrency; quality assurance in the field of business management; design and testing of goods and quality management systems for others; materials testing and evaluation; testing of computer software; testing of computer systems; debugging computer software for others; assessment and evaluation of inventions; testing, analysis and evaluation of organizations and their employees to determine conformity with established accreditation standards; testing, analysis and evaluation of organization management systems; consumer product safety testing consultation; consumer product safety testing services; design, development and testing of electronic data security systems; software development services; cloud computing provider services for general storage of data; cloud computing providing software for database management; computer network security services; computer systems design; creating of computer programs for others; data encryption services; database design and development; design and development of computer software; design and development of electronic data security

systems; design and testing of new products for others; design, development and implementation of software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design of computer database; design of homepages and websites; developing computer software; development and creation of computer programmes for data processing; development of software for secure network operations; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; Creation and management of software for fields of cryptofinance, namely, cryptocurrency, cryptodebt, cryptocredit; platform as a service (PAAS) featuring computer software platforms for use in field of financial services for trading in financial instruments, namely, cryptocurrency, cryptodebt, cryptocredit; and consulting services in the field of software engineering using a blockchain database infrastructure; Research in the field of computer-programs and software; computer programming services; Consulting services in the field of the design and use of computer programs, computers, computer hardware and computer systems; Technical support services in the field of the design and use of computer programs, computers, computer hardware and computer systems; technological research and analysis in the field of computer cyber-threats; providing web-based intelligence services featuring technology that allows the user to generate reports for use in analyzing computer cyber-threats; Software as a service (saas) services featuring software for Managing production, supply chain and custody tracking for business; software as a service (saas) services featuring software for conformity management including product documentation and history, inventory control, and inventory management for use in the cannabis industry; Computer software consultation; Computer software consulting; Computer software design; Computer software design and updating; Computer software design for others; Computer software design, computer programming, and maintenance of computer software; Computer software development, computer programming and maintenance of computer software for growing, monitoring, state analytics and selling for the cannabis industry; Computer software installation and maintenance; Computer hardware and software design; Computer programming and software design; Customizing computer software; Design and development of computer software; Design and development of computer software for the improvements of purchasing functions of business; Design and writing of computer software; Developing computer software; Developing and updating computer software; Maintenance and updating of computer software; Programming of computer software for others; Research and development of computer software; Up-dating of computer software; Updating and design of computer software; Updating and maintenance of computer software; Updating of computer software for others; Writing and updating computer software

Class 44

(8) stress management services in the field of energy balancing;

Class 45

(9) awarding of licenses for franchising concepts; consultancy services in the field of national security; consulting and legal services in the field of privacy and security laws, regulations, and requirements; consulting services in the field of national security; conveyancing services; legal services relating to claims management for insurance companies, insurance brokers and industrial enterprises; online social networking services; private investigation and security services; providing information about legal services via a website; providing information on the development of privacy, security and data governance law from a website; security clearance for preparation of identification cards; security printing in the form of encoding identification information on valuable documents and products; social introduction agencies;

Colour Claim
Colour is claimed as a feature of the trademark. The colours dark blue (Pantone® PMS 2380C), bright blue (Pantone® PMS 298C) and bright green (Pantone® PMS 2299C) are claimed as features of the trademark. The two intersecting words, 'BAYER', are dark blue. The top half of the surrounding circle is a bright green. The bright green transitions to a bright blue on the bottom half of the circle. PANTONE® is a registered trademark.

Goods

Class 11

(1) Air cleaning units; air filters for air conditioning units; air humidifiers; Disinfectant dispensers and distributors for toilets; air conditioners and air handling units used to regulate and circulate air as part of a heating, ventilating and air-conditioning (HVAC) system; air blowers used to regulate and circulate air as part of a heating, ventilating and air-conditioning (HVAC) system; bioreactors for use in the treatment of wastewater; sewage treatment plants; water treatment plant filters; Sanitizers for water treatment in the nature of water purification machines for domestic and

commercial use; water filtering units for industrial use; water filtering units for industrial use; ultraviolet sterilizers for water treatment; reverse osmosis water purification units; nuclear reactors; chemical reactor tanks; chemical reactor pipes and tubes

Class 25

(2) Casual clothing, sports clothing; Pants, shirts, t-shirts, shorts; casual footwear, sports footwear; Shoes, boots, sandals, slippers; Hats, caps, headscarves

Goods

Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, wireless communication devices for voice, data or image transmission, namely, hand held and wearable computers, mobile phones, tablet computers and portable computers and natural language virtual agent software application for enabling data capture and data analysis in the field of artificial intelligence; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electric light switches, plugs, fuse boxes, coils, connectors, converters, flasher switches, light dimmers, circuits, wires and cables, voltage transformers; apparatus for recording, transmission or reproduction of sound or images, namely, magnetic data carriers, namely, magnetic discs, magnetic identifying cards, smart cards, flash memory cards and hard disk drives, recording discs, namely, audio discs, computer discs, compact discs, DVDs and digital recording media, namely, digital disc drives, USB flash drives, all containing information and content pertaining to computer video games, video games, playing video games and training machines to play video games; mechanisms for coin-operated apparatus; cash registers; calculating machines, namely, calculators; data processing equipment, namely, computer central processing units; computers; tablet computers; computer peripherals, namely, digital voice signal processors; information technology and audiovisual equipment, namely, audio tape recorders, combination video players and recorders, audiovisual headsets for playing video games, audiovisual receivers; artificial intelligence apparatus, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; humanoid robots with artificial intelligence; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer programs, recorded; recorded computer software, namely, recording computer operating programs and software for data analysis and computation and operating software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented

reality in the field of robotic science, technology, medicine and healthcare; downloadable computer programs and software for use in designing and developing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; interfaces for computers, namely, computer interface cards and boards; downloadable computer software applications for use in designing, developing and applying artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; computer software for use as an application programming interface (API); computer software for use in relation to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer programs for use in relation to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data in the field of artificial intelligence; computer application software for use in implementing the Internet of things [IoT] in the field of artificial intelligence; computer software and computer programs for playing electronic games; computer software and computer programs incorporating algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial space; educational apparatus and simulators, namely, electronic machines, electronic recorders, video recorders, desktop computers and laptops, handheld computers, portable media players, mobile telephones, telepresence robots, computer display monitors, and wristwatches featuring a cellphone and display screen for recording, transmission and reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; abacuses; accumulators for computers and CPUs; audio- and video-receivers; audiovisual teaching apparatus, namely, computers, tablet computers, smartphones; software for creating and modifying audio, video and audio-video games; computer software in particular audio, video and audio-video games; computer software in the nature of audio, video and audio-video games; downloadable computer games offered via the internet and wireless devices; computer games; computer games for use with computers and video game consoles; computer games for use on mobile phones and other handheld wireless devices; computer games for use with on-line interactive games; computer games software for creating and modifying computer games; computer games; software programs for creating and modifying video games; electronic game programs for creating and modifying electronic video games; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video games; video and computer game programs; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing,

analytics and data mining, virtual reality, augmented reality; computer games for use on mobile and cellular phones; recorded game software for mobile devices, namely smart phones and tablet computers; video game cartridges; electronic magnetic recording media featuring data relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact disc featuring computer programs for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; animated cartoons; recorded movies and films; downloadable movies and films; downloadable electronic publications in the field of artificial intelligence, and computer and video game strategy; electronic publications (downloadable) relating to games and gaming; downloadable publications, namely, guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artworks, texts, graphics and photographs; virtual reality games; interactive multimedia computer games; interactive computer games; computer games downloaded via the Internet; pre-recorded CDs and DVDs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; parts, fittings and accessories for all the aforesaid, namely, touch pads, headsets for virtual reality games, virtual reality glasses, computer joystick peripherals, high performance computer hardware with specialized features for enhanced game playing ability

Class 16

(2) Printed matter and printed publications, namely, books; magazines; periodicals; research papers; research abstracts of the subject matter or content of printed matter, books, articles, and manuals in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, games of skill, computer game strategies; newsletters; brochures; manuals; catalogues; calendars; postcards; comics; printed material in the field of video games, namely, instructional manuals and computer game instruction manuals; computer game strategy articles, books, newsletters, research papers, publications; printed publications relating to computer software, computer programs; printed publications relating to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, games of skill, computer game strategies; strategy guide books for computer games

Class 28

(3) Toys, games, playthings, namely, electronic interactive board games for use with external monitor, action skill games, action target games, arcade games, electronic card games, manipulative games, memory games, puzzle games, electronic board games, chess games; apparatus for games, namely, computer gaming consoles featuring artificial intelligence for use in playing and creating two-dimensional and three dimensional games; video game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; arcade video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; amusement machines, automatic and coin-operated; hand-held electronic games other than those adapted for use with television receivers only; games of strategy, namely, Go games; board games; computer game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; handheld computer games; electronic board games; hand-held, non-electronic skill games; games of strategy; electronic

educational games; electronic learning games; electronic teaching games; electronic training games

Services

Class 41

(1) Education, namely, teaching in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing of training, namely, providing seminars, webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment in the form of television, film and online video, namely, ongoing television, film, and video programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, and augmented reality; organizing sporting and cultural activities, namely, organization of dancing events, golf tournaments, hockey tournaments, soccer tournaments, music concerts for charitable purposes, magic shows, wine festivals, community festivals, video gaming competitions; entertainment services, namely, providing online video games; entertainment services in the form of on-line interactive computer games; arranging of games, namely, chess games, go games, electronic video games; providing on-line games; providing on-line video games; providing of game information; internet games (non-downloadable); on-line computer games; providing on-line computer games; providing on-line interactive computer games; game services provided on-line from a global computer network; on-line game services through mobile devices; game services provided on-line from a computer network or a mobile phone network; games equipment rental; providing a training environment, namely, live exhibition programs and providing educational demonstrations of advanced technologies incorporating data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine, and robotic science; training services provided via simulators, namely, training in the field of data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine and robotic science; information relating to electronic computer games via the Internet; training in computer programming; entertainment services in the nature of non-downloadable movies and films transmitted via the internet; providing on-line electronic publications, not downloadable, namely, written articles, newspapers, magazines, scientific journals, books and newsletters in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; publication of computer games; publication of electronic articles, research papers, books, journals on-line, not downloadable; providing information to game players about the ranking of their scores via websites; computer education training; education and training relating to computer games; education relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; training relating to robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services,

namely, interactive multimedia computer game programs in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality distributed via various platforms across multiple forms of transmission media; providing advice, consultancy and entertainment and educational information services in relation artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality

Class 42

(2) Scientific and technological services, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, data mining, statistical analysis, artificial intelligence, machine learning and virtual reality; industrial analysis and research services in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research, design and development of computer hardware and software; information technology [IT] advice and consultancy; providing information on computer technology and programming via a web site; Development and testing of computing methods, algorithms and software; computer programming; computer programming advice and consultancy; computer programming for others; computer software programming; programming of computer animations; computer programming of video and computer games; design and development of computing platforms and virtual training environments; research relating to computer programming; computer programming and software design; advice relating to computer programming; design, development and programming of computer software; design, development and provision of computer software for use as an application programming interface (API); computer software design; creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; advice and consultancy in the design and development of computer hardware; hosting of web sites; off-site data backup; computer software consultancy; development and testing of computing methods, algorithms and software; development and testing of computing methods, algorithms and software in a virtual space; development and testing of computing methods, algorithms and software for computer games, games of strategy and board games; design of games; design of board games; design of games of strategy; computer programming for video games; research and consultancy in the fields of robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; design, development and analysis of environments in the fields of robotic science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analysis and data mining, virtual reality, augmented reality; computer software design and development; design and development of computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data; design and development of computer application software for use in implementing the Internet of things [IoT]; computer game software design and development; programming of computer game software; developing computer game programs using neural networks; developing computer (game) programs using tree search; providing virtual computer environments through cloud computing; hosting of platforms on the Internet; programming of software for Internet platforms; platform as a service (PaaS) featuring computer software platforms for use of software in

connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of robotic science, technology, medicine and healthcare; providing information on computer technology and programming via a website; advice, consultancy and information services in the fields of computer game programs, computer video games, video games, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality and augmented reality

Colour Claim
Colour is claimed as a feature of the trademark. The letters M, C and L are white. The square with two rounded corners is blue, and the two vertical lines inside the square are white. The large, curved horizontal line inside the square is red. The word TECHNOLOGIES is blue.

Goods

Class 09

Computer networks, namely network servers, computer printers, bar code readers; software and software bundles, the aforesaid goods being used for identification, network management and file transfer, namely software for controlling and managing access server applications, network operating system programs, computer utility programs for document and file management; computer terminals for the acquisition of electronic payment data.

Services

Class 38

(1) Transmission of data via radio, namely radio broadcasting of computerized data between mobile and central systems.

Class 42

(2) Advice and research relating to computers, namely advice and research relating to computer programming, advice and research relating to computer security; computer programming; development (design) and updating of software and software packages, namely generators of downloadable mobile applications and Internet platforms for cloud computing management.

Goods

Class 07

(1) Machine tools, machines for painting, bonding and welding; paint and glue guns; mechanical tools for the automotive industry and for the manufacture of automotive parts; anti-pollution devices for motors and engines; electric, pneumatic and hydraulic devices for opening vehicle doors and windows; automatic vending machines; robots for the automotive industry and for the manufacture of automotive parts; industrial presses for the manufacture of automotive parts; moulds (machine parts) for the automotive industry and for the manufacture of automotive parts; electric cleaning machines and apparatus, namely for washing, cleaning and disinfecting automobiles, two-wheeled motor vehicles, tricycles, electrically powered motor vehicles, all-terrain vehicles, buses, trucks; air filters for automobile motors and engines; grilles.

Class 09

(2) Gasoline gauges; on-board electric control devices related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; electric monitoring apparatus, namely radars and antennas integrated in vehicle bodies for parking assistance and driving assistance; voltage regulators for vehicles; sensors, namely liquid and gas level sensors, fuel level sensors, pollutant sensors, temperature sensors, acceleration sensors, proximity sensors for parking assistance, motion sensors; pressure and temperature sensors for the fuel filling devices of automobiles and vehicles; distance sensors; liquid level sensors; pollutant sensors; pressure sensors; optical sensors; infrared sensors; biochip sensors; electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object; electric batteries for vehicles; control units, sensors and actuators for use in the on-board checking, monitoring, regulation and diagnosis of vehicle systems, modules and components related to the generation, storage, supply and transformation of energy, and to the depollution of vehicles; calculators, computer programs and computer software for the on-board checking, monitoring, regulation and diagnosis of vehicle systems, modules, control units and components related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; pressure measuring apparatus and instruments for use with vehicle fuel cells and tanks; temperature measuring apparatus and instruments for use with vehicle fuel cells and tanks; battery voltage and temperature measuring apparatus and instruments; battery voltage and temperature control apparatus and instruments; apparatus and instruments for the remote diagnosis of the condition of

hydrogen tanks and the durability of fuel cells; apparatus and instruments for the diagnosis of the condition and durability of batteries; vehicle modules, namely on-board sensors, gauges, actuators and indicators for checking and displaying the fuel supply level (fuel tank); vehicle fuel cells; energy transformation apparatus for vehicles, namely apparatus for the transformation of liquid chemicals and electrochemical components into electrical energy, namely fuel cells, automotive batteries, conversion of electrical radiation into electrical energy, namely photovoltaic thermal hybrid modules.

Class 12

(3) Vehicles, namely automobiles, two-wheeled motor vehicles, tricycles, electrically powered motor vehicles, hybrid automobiles, all-terrain vehicles, buses, trucks; apparatus for locomotion by land, namely locomotives, streetcars, trolley buses, trains, apparatus for locomotion by air, namely airplanes, helicopters, rotorcraft, aircraft, dirigible balloons, and apparatus for locomotion by water, namely boats, ships, seaplanes; motor vehicles, motorcycles, pickups, trucks; vehicle parts and components in the nature of vehicle body parts, vehicle body constituent parts, bumpers, stone shields, hoods, tailgates, doors, fenders, overfenders, protective panels, spoilers, roofs, trunk floors, floors, shock absorbers; roof opening mechanisms for vehicles; aerodynamic elements for vehicles, namely spoilers, air guides for vehicles; vehicle chassis; fuel tanks for vehicles; caps for vehicle gas tanks; non-metal tubing for filling fuel tank systems for use in automobiles, hydrogen fuel cell electric vehicles, and hydrogen fuel cell buses and trucks; metal tubing for filling fuel tank systems for use in automobiles, hydrogen fuel cell electric vehicles, and hydrogen fuel cell buses and trucks; canisters for absorbing the gas used in motor vehicles; air pumps for motor vehicles.

Class 19

(4) Plastic foundry moulds made of plastics; foundry moulds made of fibreglass composite materials; foundry moulds made of synthetic resins; foundry moulds made of carbon composite materials.

Services

Class 35

(1) Wholesale or retail services for the constituent parts, systems and control units and modules of vehicles; wholesale or retail services for the constituent parts, systems and control units and modules of vehicles, related to the on-board generation, storage, supply and transformation of energy, and to the depollution of vehicles; business organization advice; consulting services in business management; business management assistance and corporate commercial advice; preparation of statistical reports and market studies; computer database management; computerized central file management.

Class 37

(2) Construction supervision; provision of information related to the maintenance, installation and replacement of vehicle constituent parts, vehicle parts and components, namely vehicle body parts, vehicle body constituent parts, bumpers, hoods, tailgates, doors, fenders, overfenders, protective panels, spoilers, roofs, trunk floors, floors, shock absorbers, vehicle modules, roof opening mechanisms for vehicles, structural components for motor vehicles, aerodynamic components for vehicles, deflectors, spoilers, air guides for vehicles, grilles, vehicle chassis, fuel tanks for vehicles, caps for vehicle gas tanks, constituent vehicle parts, vehicle systems, control units and modules, namely parts associated with on-board generation, storage, supply and transformation of energy and to the depollution of vehicles, fuel tanks for vehicles, tubing, valves,

canisters, filters and pumping units, gauges, filters, pressure regulation units, and mechanical, thermal and chemical protection for vehicle motors and engines, vehicle fuel cells, hydraulic torque converters for land vehicles and catalytic converter units for vehicle exhausts.

Class 40

(3) Treatment of plastic and metal composite materials for the manufacture of constituent automotive parts; treatment of fibreglass composite materials for the manufacture of constituent automotive parts; treatment of composite materials made from synthetic resins for the manufacture of constituent automotive parts; treatment of carbon composite materials for the manufacture of constituent automotive parts; treatment of plastics for the manufacture of constituent automotive parts; treatment of metal materials for the manufacture of constituent automotive parts; recycling of plastics.

Class 42

(4) Urban and commercial design planning; engineering work planning and technical project planning; technical advisory services related to environmental protection; industrial analysis services in the fields of sustainable mobility and on-board generation, storage, supply and transformation of energy; consulting services related to the safety and safeguard of the environment; provision of technological and scientific information related to sustainable mobility and on-board generation, storage, supply and transformation of energy; design, development, update and rental of computer software and databases; research and development of new products for others; technical research and development in the industry of automobiles, trains, buses, heavy-duty vehicles, all-terrain vehicles; research and development in mechanical engineering; physics research and development; research and development in the fields of chemistry, biochemistry and electrochemistry; advice related to energy savings; research and development related to environmental protection; material testing; research and development of systems, modules, computer programs and software for vehicles; research and development in the field of the reduction of vehicle emissions and weight; research and development of liquid and gas level sensors, fuel level sensors, pollutant sensors, temperature sensors, acceleration sensors, proximity sensors for parking assistance, motion sensors and pressure and temperature sensors for the fuel filling devices for use in automobiles and vehicles, distance sensors, liquid level sensors, pollutant sensors, pressure sensors, optical sensors, infrared sensors, biochip sensors, electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object; research and development of actuators used for the on-board checking, monitoring, regulation and diagnosis of vehicle systems and modules related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; research and development of vehicle control units used for the on-board checking, monitoring, regulation and diagnosis of vehicle systems and modules as well as components related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; research and development of tools, namely for the quality control of automobile parts, the forming and cutting of automotive pieces and the assembly of components and production lines for the automotive industry; technical advisory services in the fields of the development and manufacture of parts and components for vehicles and systems related to the generation, storage, supply and transformation all forms of energy, and to the depollution of vehicles; technical advisory services in the fields of the filling of automotive fuel tank systems and emission measures for automotive fuel systems as well as fuel system parts; research and development of constituent vehicle parts, vehicle parts and components in the nature of vehicle body parts, constituent parts for vehicle bodies, bumpers, stone shields, hoods, tailgates, doors, fenders, overfenders, protective panels, roofs, trunk floors, floors, shock absorbers, modules for vehicles, roof opening mechanisms for vehicles, structural components for motor vehicles, aerodynamic components for vehicles, deflectors, spoilers, air

guides for vehicles, grilles, vehicle chassis, fuel tanks for vehicles, caps for vehicle gas tanks, constituent vehicle parts, vehicle systems, control units and modules, namely any parts related to the on-board generation, storage, supply and transformation of energy, and to the depollution of vehicles, fuel tanks for vehicles, tubing, valves, canisters, filters and modules for pumping, gauging, filtration, pressure regulation, and mechanical, thermal and chemical protection in relation to vehicle motors and engines, vehicle fuel cells, hydraulic torque converters for land vehicles and catalytic converter units for vehicle exhausts; research and development of batteries.

Class 45

(5) Consulting in the field of workplace safety.

(1) Reinforcing materials of metal for pipes; reinforcing materials of metal for machine belts; water-pipes of metal; roof gutters of metal; gutter pipes of metal; metal expanding sleeves for affixing screws; street gutters of metal; roof coverings of metal; chimney cowls of metal; chimneys of metal; chimney shafts of metal; iron strip for construction; safety chains of metal; box fasteners of metal; junctions of metal for pipes; couplings of metal for chains; machine belt fasteners of metal; cable joints of metal, non-electric; identity plates of metal; C-ring fasteners of metal; D-ring fasteners of metal; drain traps [valves] of metal; water-pipe valves of metal; metal water-pipe valves; manifolds of metal for pipelines; elbows of metal for pipes; pipe muffs of metal; fish plates for rails; winding spools of metal, non-mechanical, for flexible hoses; penstock pipes of metal; nozzles of metal; casings of metal for oilwells; branching pipes of metal; registration plates of metal; gratings of metal; scaffolding of metal; steel tubes for drainage, for central heating installations, for gas transfer, and for water; steel masts; metal tubes for drainage, for central heating installations, for gas transfer, and for water; ducts of metal for ventilating and air-conditioning installations; ducts of metal, for central heating installations; pipework of metal for drainage, for central heating installations, for gas transfer, and for water; fittings of metal for compressed air lines; flanges of metal [collars].

Class 07

(2) Drive pulleys; machine pulleys; vacuum pumps [machines]; rolling mill cylinders; fans for motors and engines; exhaust manifold for engines; exhausts for motors and engines, namely, pipes, mufflers; clack valves being parts of machines; centrifugal pumps; water heaters being parts of machines; suction pumps; suction nozzles for vacuum cleaners; hydraulic engines and motors for drills and for pumps; hydraulic turbines; direct current motors; electric motors for machines; joints being parts of engines; shaft couplings [machines]; sizing machines; catalytic converters; hydraulic valves for motors and engines; pneumatic valves for motors and engines; valves being parts of machines; compressors being parts of machines; compressors for refrigerators; steam condensers being parts of machines; bearing housings being parts of machines; steam engine boilers; shovels, mechanical; saw blades being parts of machines; pump diaphragms; pressure regulating valves being parts of machines; superchargers for internal combustion engines; pumps

for heating installations; suction pumps; pneumatic pumps; hydraulic pumps; pumps being parts of machines, engines and motors; pumps for heating installations; dust collecting machines for cleaning purposes; steam engines; superheaters for boilers, steam engines, and turbines; fan belts for motors and engines; belts for motors and engines; belts for machines; vacuum cleaners; suction pumps; blowing machines for the compression, exhaustion, and transport of gases; blowing machines for the compression, sucking and carrying of grain; blowing machines for the compression, exhaustion and transport of gases; air condensers; air pumps being garage installations; anti-pollution catalytic converters for motors and engines; radiators [cooling] for motors and engines; fuel and air mixture regulators being parts of internal combustion engines; speed governors for machines, engines and motors; pressure regulating valves being parts of machines; expansion tanks [parts of machines]; self-regulating fuel pumps; heat exchangers being parts of machines for boilers; boiler tubes being parts of machines; wind turbines; air and gas turbines, other than for land vehicles, for generation of electricity, for jet engines, for locomotives, for steam plants; turbocompressors; driving motors for agricultural machinery, photography, remote controlled robots; driving chains for agricultural machinery; air, gas, and oil filters for motors and engines; filters for cleaning cooling air, for engines; cartridges for filtering machines for water, cosmetics, washing machines; filter presses for chemical processing; filtering machines for chemical processing; central vacuum cleaning installations; machine belt pulley; idling pulleys being parts of machines; vacuum cleaner hoses; rotary brushes for machines; carbon brushes for electrical machines; dynamo brushes; brushes for vacuum cleaners.

Class 11

(3) Steam accumulators; heat accumulators; hot air apparatus, namely, space heaters for household use; air deodorising apparatus; air and water ionizers for household purposes; cooling domes; cooling evaporators; catalytic oxidizers for industrial air pollution control; thermal oxidizers for industrial air pollution control; desiccating units for removing water from the air in dehumidification systems; hand drying apparatus for washrooms; filters for drinking water; facial steamers; air purifying machines; water softening units; fans for air-conditioning; electric fans for personal use; air impellers for ventilation; extractor hoods for kitchens; ventilation hoods; ventilation hoods for laboratories; water heaters; water heaters [apparatus]; electric water purification filters for household purposes; tap-water purifying apparatus; reverse osmosis water purification units; water supply installations, namely, faucets; water flushing installations, namely, flush handles for toilets, flush levers, automatic flush valves for toilets; flushing tanks; disinfectant dispensers for toilets; chimney flues; disinfectant dispensers for toilets; stills; water distillation units; refining towers for distillation; flues for heating boilers; immersion heaters; chimney blowers; humidifiers for central heating radiators; electric, electromagnetic, evaporator, and steam coils being parts of distilling, heating, and cooling installations; level controlling valves in tanks; air valves for steam heating installations; air conditioning installations for vehicles; air-conditioning units; central air-conditioning installations for household and industrial purposes; air conditioners for vehicles; taps [cocks, spigots] [faucets (Am.)] for pipes; faucet taps; mixer taps for water pipes; radiator caps; heating elements; hot plates; air reheaters; heating plates; stoves for heating; hot air bath fittings; hot water heaters; heating installations, namely, solid, liquid, and gas fuel burning stoves, electric radiators; heating boilers; lights for air vehicles; LED lighting fixtures; air driers [dryers]; cool boxes, electric; purification installations for sewage; gas boilers, other than parts of machines; steam boilers, other than parts of machines; washers for water taps; anti-splash tap nozzles; central heating radiators; electric radiators; radiators, electric; central heating radiators; sinks; heat regenerators; dampers for heating; refrigerators; expansion tanks for central heating installations; sanitary apparatus and installations, namely, sauna bath installations, shampoo basins, and hand wash basins; luminous house numbers; air sterilizers; water sterilizers; laundry

dryers, electric; Hand drying apparatus for washrooms; drying apparatus and installations for use in heating systems, ventilation systems, air-conditioning systems; heat pumps; heat guns; heat exchangers, other than parts of machines; thermostatic valves as part of heating installations; water pipes for sanitary installations; boiler pipes [tubes] for heating installations; ultraviolet ray lamps, not for medical purposes; steam generating installations; water coolers; air filtering being parts of engines; air filtering units for removing dust, smoke, and allergens from the air; filters for air conditioning; filters for drinking water; electric refrigerators; gas refrigerators; portable refrigerators; refrigerating containers; refrigerating chambers; refrigerating display cabinets; refrigerating cabinets; kettles, electric.

Class 19

(4) Refractory aggregates; non-metal semi-refractory bricks; refractory blocks, not of metal; water-pipes, not of metal; concrete, plastic, and vinyl roof gutters; concrete, cement, clay, plastic, and PVC gutter pipes; hips for roofing; mouldings, not of metal, for cornices; cement, clay, and concrete chimney cowls; cement, clay, and concrete chimneys; cement, clay, and concrete chimney shafts; cement, clay, and concrete chimney lengthening pieces; drain pipes made of concrete, ceramic, earthenware, and sandstone; acrylic, glass, and wood jalousies; outdoor blinds of vinyl, plastic, and PVC; sandstone pipes; ceramic drain taps; ceramic waterpipe valves; cement, clay, and concrete chimney pots; concrete pillars; ceramic tiles for linings; ceramic and plastic wall linings for building; cement, glass, vinyl, and wood cladding for building; cement, glass, vinyl, and wood wall claddings for building; cement, concrete, clay, plastic, ad PVC penstock pipes; duckboards, not of metal; wainscotting, not of metal; bituminous and fireproof cement coatings being building materials; PVC roof flashing; PVC rigid pipes for construction purposes; plastic and PVC ducts for ventilating and airconditioning installations.

Class 09

(1) Computer-aided control devices for operating machine tools, namely scanners for computed radiography, 3D scanners; computer peripherals, namely computer hardware and computer interface cards, computer peripherals, namely computer hardware and interface cards for data processing equipment in the form of integrated circuits, computer peripherals for reproducing force feedback data when interacting with virtual objects, analogue and digital converters, namely scanners for acquiring a three-dimensional computer file of parts requiring examination, virtual reality computer software, namely software for setting up, operating, configuring and controlling virtual reality wearable computer peripherals, measuring apparatus, namely touch probes for acquiring a three-dimensional computer file, tools, namely digital sculpting software for acquiring two-dimensional and three-dimensional computer files, printers for producing three-dimensional objects from a computer file, namely image scanners, 3D scanners; apparatus for recording,

transmitting, reproducing sound and images, namely magnetic tape recorders, video players and recorders, personal digital voice recorders, projection screens, touch screens, video screens, video display terminals; computer programs, namely image processing software to enable the creation, simulation and animation of three-dimensional images on computers and graphics workstations, computer programs, namely digital dental image processing software for diagnosis and treatment use, software for converting document images into electronic formats, optimization software for computer-assisted manufacturing, downloadable software and mobile application software for tracking, processing and displaying scanned data about oral hygiene and for educating consumers in the field of oral hygiene, computer-assisted mechanical design software for the reconstruction of models based on physical objects; computer programs for the three-dimensional modelling of objects, parts, prototypes, scale models, samples, moulds through successive layering of material, namely software for computer-assisted design and manufacturing [CAD/CAM]; computer programs for controlling and operating a three-dimensional modelling machine; computer software for converting two-dimensional image files into three-dimensional object files; laser diodes.

Class 10

(2) Medical apparatus and instruments, namely medical X-ray apparatus, medical instruments for general examination, surgical apparatus for general examination, namely electric bistouries for surgical use, bistouries, lasers for dental use, dental clamps, dental apparatus, namely forceps for dental technical use, dental retractors, endodontic containers for holding a dental drill, dental burs and dental files, X-ray apparatus for dental imaging and veterinary apparatus, namely lasers for veterinary use, veterinary operating lamps, surgical instruments, dental instruments; orthodontic apparatus and multi-band apparatus for straightening teeth and treating malocclusions; artificial surgical and dental prostheses and implants; specialized cases for surgical instruments and implants; orthodontic appliances, namely invisible aligners; bone substitutes for surgical use; scientific, nautical, geodesy, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision) apparatus and instruments, namely X-ray apparatus for dental imaging, grinding discs for dental use, burs for dental use, gloves for dental use.

Services

Class 42

(1) Study and design of medical, surgical, dental and orthopedic apparatus and instruments; study and design of dental, surgical and orthopedic implants; engineering services in the fields of medicine, dentistry and technical dentistry, in particular design and development of apparatus and instruments for medical use, in particular in the field of dentistry; scientific and technological services in the field of dentistry, medical science, odontology, implant dentistry, periodontics, prosthetic dentistry, periodontology, conservative and reconstructive dentistry; computer-assisted design of dental and dental-technical products; computer programming.

Class 44

(2) Dental and orthodontic services; odontological services; fitting of dental implants; health care for humans, carried out under medical supervision, namely dental care services, dental clinics; consultant services and medical services in the fields of odontology, pediatric dentistry, periodontics, dental prosthetics, periodontology, conservative and reconstructive dentistry; dental hygienist services, dental restoration being dentistry services, dental alignment treatment services.

Colour Claim
Colour is claimed as a feature of the trademark. The design consists of a beige rectangular background. Overlaid onto this background is a red half circle which begins 7/8th of the way from the top and extends to the bottom corners of the rectangle. Small leave shapes in light green and medium green are located in the left and right upper hand corners and appear to be falling; on the left hand corner there are 2 light green falling leaves and three medium falling green leaves; on the right hand corner there are two medium green falling leaves and three light green falling leaves. At the bottom left hand corner there are two large medium green plant leaves. At the bottom right hand corner there is a single medium green plant leaf. The wording consists of TARAGÜI in the centre top of the rectangle in large italicized white font on a red floating background encased in a white border. Central to the rectangle and superimposed on the centre of the red circle is the wording 'LIVE THE MATÉ XPERIENCE FOR 7 DAYS'; LIVE being the first word with yellow overscore; THE being in smaller font underneath LIVE; MATÉ being in larger font which is the same size as the wording LIVE and THE combined; the word XPERIENCE follows underneath and central in yellow font; under the word XPRIENCE is the wording FOR 7 DAYS in smaller white font to the right. Surrounding the font is a thin white border, which is double lined only on the left-hand bottom left and the right-hand upper right.

Goods

Class 01

(1) Metallic and ceramic surface coatings for machines and parts of motors, vehicle parts, batteries, fuel cells, optical lenses and for electrical and electronic components, obtainable by atmospheric plasma, electroplating, PVD coating, autocatalytic, electrolytic or spraying processes; Metallic and ceramic surface coatings for improving tribological properties, noise/vibration /harshness (NVH) properties, corrosion resistance, wear resistance, magnetic properties and for enhancing friction, applied on machines and parts of motors, vehicle parts, batteries, fuel cells, optical lenses, electrical and electronic components.

Class 06

(2) Common metals and their alloys; ores of metal; goods made of metals, namely sintered metals in sheet, rod, bar and billet form; metal hardware and small items of metal hardware, such as springs, nuts, washers, bolts, pegs and screws; pipes and tubes of metal, such as heat pipes; foundry moulds of metal; metal mouldings, especially sintered parts and powder metal parts for engine, transmission and industrial applications, heat pipes and porous sintered preform.

Class 07

(3) Engines and motors for industrial machinery, mobile machinery, stationary machinery, land vehicles, such as trains, trucks, boats, ships, aircraft, generating electricity and for automation systems, machine coupling and transmission components, except for land vehicles, and parts therefor; machine tools and parts therefor, such as machine tools for the metalworking industry, automotive industry, energy generating industry, petrochemical industry; bearings [parts of machines], especially plain bearings; transmissions for machines, other than for land vehicles, water vehicles and air vehicles; friction brake linings and friction clutch linings for machines, wind power plants as well as for industrial applications such as in the field of freight handling.

Class 09

(4) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, such as power resistors, power circuit breakers, heat sinks for power electronics, capacitors, busbars, inductors, battery systems and battery

components; electric power controllers, such as electrical charge controllers; electrical and electronic components, such as resistors, central processing units for electronic components, capacitors, busbars, inductors, rotors, stators, thick-film technology components; coolers for electronic components, such as cooling systems for power electronics, battery components, battery systems and thick-film technology components, especially water-cooled and air cooled heat sinks for power electronic components, battery components, battery systems and thick-film technology components.

Class 12

(5) Parts and fittings for vehicles, such as rods, bearings, main bearings, plain main bearings, thrust bearings, slide bearings, ball bearings, roller bearings, shaft bearings, anti-friction bearings, friction bearings, thrust bearings, bearing housings, bearing inserts, thrust washers, connecting rod bearing, cam shaft bearing and small end bushings, engine bearings, pistons, valve plates, brake segments, brake linings, brake disks, brake pads, brake shoes, brakes, gears, gear boxes, transmissions, shock absorbers, clutches, clutch linings, couplings connections, reduction gears, drives, connecting rods, shock absorbing springs and driving shafts; variable valve train components; rotors and stators, synchronizers; synchronizer components namely: hubs, sleeves and clutch bodies, electric power steering components: namely pulleys, SMC components, namely poles, planetary gear sets, namely ring gears, planetary gears, sun gears, compressor components, namely connecting rods, valve plates, especially plain bearings; transmissions, other than for land vehicles, water vehicles and air vehicles; friction linings for machines; battery systems for vehicles; sintered parts and powder metal parts for engines and transmissions for vehicles; heat pipes and heat sinks for vehicles; electric motors for land vehicles, water vehicles and air vehicles; transmissions for land vehicles, water vehicles and air vehicles; gear boxes for land vehicles, water vehicles and air vehicles; disc brake friction pads for land vehicles, water vehicles and air vehicles.

Services

Class 40

(1) Custom manufacture of molded components for the automotive, gas and oil industries, providers in the fields of energy generation and transmission, as well as in plant engineering; treatment and coating of surfaces of machines and parts therefor, such as coating and surface finishing of machines and tools and application of the aforesaid coatings using sprays, vacuum deposition techniques, by electrolysis or by autocatalytic processes; treatment and coating of surfaces of machines and parts therefor using Polymer and low-friction coatings, electroplated overlays, PVD coatings and atmospheric plasma coatings; coating of optical lenses.

Class 42

(2) Scientific and technological services, such as research, testing and development of electronic motors and electronic power transmissions and parts thereof, sintered material, powder metal material, friction materials, engine and industrial bearings and power transmission parts, power electronics components and coatings for use in motor vehicles, trains, ships, aircraft, power plants, refineries, compressors and industrial pumps; technological research and development, such as research, testing and development of electronic motors and electronic power transmissions and parts thereof, sintered material, powder metal material, friction materials, engine and industrial bearings and power transmission parts, power electronics components and coatings for use in motor vehicles, trains, ships, aircraft, power plants, refineries, compressors and industrial pumps, development of metallic and ceramic coatings for metals and non-metals; technological consultancy of sintered material, powder metal materials, friction materials, engine and industrial bearings and power transmission parts, power electronics components and coatings for use in

motor vehicles, trains, ships, aircraft, power plants, refineries, compressors and industrial pumps; development of metallic and ceramic coatings for metals and non-metals.

Colour Claim

Colour is claimed as a feature of the trademark. The claimed colours are green, orange, black and white. The frog including its eyebrows is in various shades of green with the mouth in white. The outer circles of the eyes are in white and the light reflection on the frogs eyes is materialized by white spots. The frog sits on a green waterlily. The frog and it's water lily are inside a white square as a background outlined in light grey. The words FRENZY and IS ON MY SIDE are in green and outlined in white with a black shadow underneath. The words BRANDS and LUCK are in orange outlined in white with a black shadow underneath. The entire trademark is with no background.

TRADEMARK DETAILS

Trademark Type
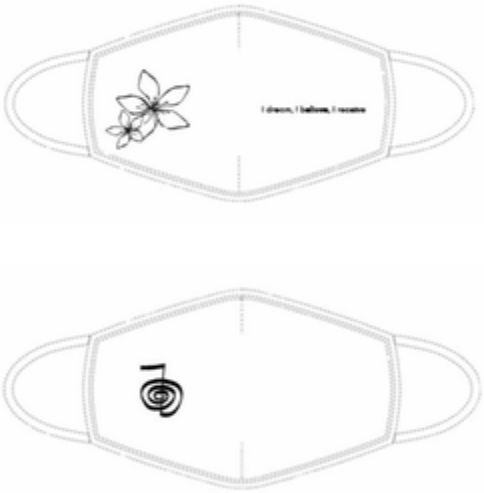
Position

Visual Representations



Trademark Description
The trademark consists of the position of two designs and one verbal element applied to a three-dimensional face mask as shown in the visual representations. The two designs are a bauhinia flowers design and a spiral design. The verbal element is "I dream, I believe, I receive." The bauhinia flowers design is positioned in the centre of the left side of the front panel of the face mask. The verbal element "I dream, I believe, I receive." is positioned in the centre of the right side of the front panel of the face mask. The spiral design is positioned in the centre of the left side of the inside panel of the face mask so that it is directly behind the verbal element when the mask is worn. The visual representations depict different views of the same trademark. The dashed lines do not form part of the mark but are used to show the position of the two designs and the one verbal element on the face mask.

CERTIFICATION MARK DETAILS

Trademark Type
Design

Visual Representation

Certification Mark Standard
The certification mark indicates that a building construction project meets the requirements of the certifier, after documentation has been provided, and subsequently reviewed, for demonstrating that the project has a neutral carbon footprint or has been carried out using ecodesign: a copy of the carbon neutral standard and of the ecodesign standard are attached to this application. As the case may be, this certification mark guarantees the local sourcing of products or the use local products for one or more activities of a business or an organization at the provincial or national level. In order to meet the requirements of the certifier, documentation must also be provided, and subsequently reviewed, for quantifying and evidencing the local sourcing of products or the use of local products: a copy of the local product or local sourcing standard is attached to this application.

phones; cases for MP3 players; cases for personal digital assistants; cases for photographic cameras; cases for pince-nez; cases for pocket calculators; cases for satellite navigation devices; cases for smartphones; cases for spectacles; cases for spectacles and sunglasses; cases for spectacles, for pince-nez and for contact lenses; cases for sunglasses; cases for telephones; cases for video cameras; cash dispensing machines; cash registers; cassette players; cassette players for cars; cassette recorders; cassette tape players; catchers' helmets; cathode ray tubes; cathode-ray tubes; cathodes; CD burners; CD cases; CD drives for computers; CD music recordings; CD players; CD storage wallets; cd-rom drives; CD-ROM writers; CD-ROMs containing computer games; CD-ROMs containing encyclopedias; CD-ROMs containing music; CDs containing audio recordings of dramatic performances; CDs containing audio recordings of live comedic performances; CDs containing audio recordings of live musical performances; cell phone antennas; cell phone batteries; cell phone battery chargers; cell phone battery chargers for use in vehicles; cell phone cases; cell phone cases made of leather or imitations of leather; cell phone covers; cell phone holders; cell phone straps; cell phones; cellular phone batteries; cellular phone battery chargers for use in vehicles; cellular phone cases; cellular phone straps; cellular phone transmission towers; cellular phones; cellular telephone batteries; cellular telephone covers made of cloth or textile materials; cellular telephone straps; cellular telephones; cellular television towers; cement testing machines; central processing unit [CPU] clocks; central processing unit [CPU] coolers; central processing unit [CPU] fans; central processing unit coolers; central processing units; centrifuges for laboratory use; centrifuges used as laboratory apparatus; chains and cords for sunglasses; chains for eyeglasses; chains for pince-nez; chains for spectacles; chains for spectacles and for sunglasses; chains for sunglasses; change-over switches for telecommunication apparatus; changeover switches for telecommunication apparatus; chargers for electric toothbrushes; chargers for electronic cigarettes; charging stations for electric vehicles; chemical exposure protective clothing; chemical exposure protective footwear; cheque encoding machines; children's eye glasses; children's eyeglasses; children's spectacles; chin straps for American football helmets; chin straps for athletic use; chin straps for football helmets; chip card readers; chip coils; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; chromatography columns for laboratory use; chronographs for use as specialized time recording apparatus; cine cameras; cine projectors; cinematographic cameras; cinematographic projectors; circuit boards; circuit boards provided with integrated circuits; circuit breakers; circuit breakers and circuit closers; circuit testers; circuits for heavy current; circular slide rules; clear protective covers adapted for cellular phones; clear protective covers adapted for mobile phones; clear protective covers adapted for MP3 players; clear protective covers adapted for personal digital assistants; clear protective covers adapted for smartphones; climate control digital thermostats; clinical centrifuges; clinometers; clinometers for measuring of angles and slopes; clip-on flashing safety lights; clock generators for computers; closed circuit television; closed circuit television cameras; clothing and gloves for use in welding for protection against accidents or injury; clothing for protection against biological hazards; clothing for protection against chemicals and radiation; clothing for protection against fire; coaxial cables; coaxial cables incorporating filters; coaxial connection gender changers; coelostats; coin changers; coin counting and sorting machines; coin counting machines; coin sorters; coin sorting machines; coin-operated gates for car parking facilities; coin-operated gates for parking lots; coin-operated mechanisms for operating gates for car parking lots; coin-operated mechanisms for television sets; coin-operated mechanisms for vending machines; coin-operated musical automata; collimators; color filters for liquid crystal displays; color filters for television and motion picture film cameras; color laser printers; colorimeters; colour filters for liquid crystal display [LCD] screens; colour filters for television and cinematographic cameras; colour filters for television and motion picture film cameras; colour laser printers; colour printers; colour separation films; combination carbon

monoxide and smoke detectors; combination video players and recorders; communications computers; compact digital cameras; compact disc cases; compact disc drives for computers; compact disc players; compact discs containing computer games; compact discs containing encyclopedias; compact discs containing music; compact discs featuring music; comparators; compressed air bailout units for diving; computer accelerator boards; computer bags; computer buffers; computer cables; computer card adapters; computer carrying cases; computer cases; computer central processing units; computer chassis; computer chips; computer chipsets for use in transmitting data to and from a central processing unit; computer communications software to allow customers to access bank account information and transact bank business; computer daughterboards; computer disc drives; computer disk/disc drives; computer display monitors; computer display screens; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer expansion boards; computer fax modem cards; computer fingerprint imaging software; computer fingerprint scanning software; computer game cartridges; computer game cassettes; computer game programmes; computer game programs; computer game software; computer game tapes; computer games; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer graphics boards; computer graphics cards; computer hardware; computer hardware and computer software for database management; computer hardware and software for database management; computer hardware and software for setting up and configuring local area networks; computer hardware for network access servers; computer hardware for telecommunications; computer heat sinks; computer interface boards; computer interface cards; computer joysticks; computer keyboards; computer keypads; computer memory expansion modules; computer mice; computer monitor frames; computer monitors; computer motherboards; computer motherboards and daughterboards; computer mouse; computer mouse mats; computer mouse pads; computer network adapters; computer network adaptors; computer network bridges; computer network hubs; computer network hubs, switches and routers; computer network routers; computer network server; computer network switches; computer network-attached storage [NAS] hardware; computer networking hardware; computer operating programmes; computer operating programs; computer operating recorded programs; computer operating system software; computer operating systems; computer parallel ports; computer power supplies; computer printers; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer programs for connecting to remote computers and computer networks; computer programs for processing digital music files; computer programs for searching remotely for content on computers and computer networks; computer programs for searching the contents of computers and computer networks by remote control; computer programs for using the Internet and the World Wide Web; computer programs used for electronic cash register systems; computer scanners; computer screen filters; computer screen saver software; computer screen saver software, recorded or downloadable; computer screens; computer screensaver software; computer search engine software; computer serial ports; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for administration of computer local area networks; computer software for assisting developers in creating program code for use in multiple application programs; computer software for computer-aided design /computer-aided manufacturing [CAD/CAM]; computer software for contact tracing and tracking of COVID-19 and other infectious diseases; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer

software for converting document images into electronic formats; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating searchable databases; computer software for creating video games; computer software for creating, sending and receiving e-mail; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for global positioning systems; computer software for image processing; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer software, namely cryptocurrency blockchain for peer-to-peer sharing of financial data; computer software, namely cryptocurrency tokens for facilitating commercial transactions; computer speakers; computer stands; computer stands specially designed for holding a computer, printer and accessories; computer styluses; computer terminals; computer touch screens; computer touchscreens; computer user manuals in electronic format; computer user manuals in the form of downloadable electronic publications; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for data compression; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer whiteboards; computerised personal organisers; computerized time clocks with fingerprint recognition; computers; computers and computer hardware; computers and instructional manuals in electronic format sold as a unit;

computers for managing control devices for aircraft; computers for use in data management; concentration meters; concrete testing machines; connecting electrical cables; connections for electric lines; connectors for electronic circuits; constant humidity incubators for laboratory use; constant temperature incubators for laboratory use; contact lens blanks; contact lens cases; contact lens containers; contact lenses; containers for contact lenses; containers for microscope slides; continuity testers; control panels for elevators; control panels for security alarms; converters for electric plugs; convex security mirrors; coolant-temperature sensors; copper panels for circuit boards; cordless telephones; cords for eyeglasses; cords for pince-nez; cords for spectacles; cords for sunglasses; correcting lenses; corrective eyeglasses; corrective glasses; corrective spectacles; cotton swabs for laboratory use; counterfeit coin detectors; covers for binoculars; covers for camcorders; covers for cameras; covers for cellular phones; covers for cellular telephones; covers for electric outlets; covers for laptops; covers for mobile telephones; covers for MP3 players; covers for personal digital assistants; covers for personal digital assistants [PDAs]; covers for smartphones; covers for tablet computers; covers for video cameras; craft magnets; crash helmets; crash helmets for motorcyclists; crash test dummies; credit card encoding machines; credit card terminals; credit card-style USB flash drives; credit cards; credit screening software; cross beam depth gauges; cruise controls for motor vehicles; currency recognition machines; currency sorting machines; current converters; current rectifiers; current transformers; cut-out switches; cyclists' glasses; cyclotrons; daisy wheel printers; darkroom lamps; dashboard cameras; data cables; daughterboards; DC to AC converters; DC to AC inverters; DC/AC inverters; DC/DC converters; decibel meters; decision circuits; decompression chambers; decorative covers for smoke detectors; decorative dials for thermostats; decorative fridge magnets; decorative magnets; decorative magnets in the shape of animals; decorative magnets in the shape of letters; decorative refrigerator magnets; decorative switch plate covers; decorative wind socks for indicating wind direction; demagnetizers; demagnetizers for magnetic tapes; demagnetizing apparatus for magnetic tapes; demodulators; demultiplexers; densimeters; densitometers; depth gauges; desk mounted unit incorporating a loudspeaker to allow a telephone handset to be used hands-free; desk or car mounted units incorporating a loudspeaker to allow a telephone handset to be used hands-free; desktop computers; desktop printers; desktop publishing software; diagrams for model aircraft circuits; dictating machines; dictation machines; dictionaries in electronic form; diesel oil emission testers; differential switches; digital audio tape players; digital audio tape recorders; digital audiotape players; digital book readers; digital books downloadable from the Internet; digital camcorders; digital camera lights; digital camera memory cards; digital cameras; digital cameras for industrial use; digital cellular phones; digital cellular telephones; digital color copiers; digital color photocopiers; digital color printers; digital colour copiers; digital colour photocopiers; digital colour printers; digital compact disc players; digital disc drives; digital door locks; digital egg timers; digital force gauges; digital input and output scanners; digital laser levels; digital meat thermometers; digital mixing desks; digital mobile phones; digital mobile telephones; digital music downloadable from internet; digital music downloadable from the Internet; digital music players; digital notepads; digital organizers; digital panel meters; digital pH meters; digital photo cameras; digital photo frames; digital photo viewers; digital photo-optical systems; digital plotters; digital signage display panels; digital signage monitors; digital signal processors; digital single lens reflex cameras; digital single-lens reflex (dslr) cameras; digital sound processors; digital still cameras; digital tablets; digital telephones; digital to analogue converters; digital torque gauges; digital versatile disc drives; digital versatile disc player; digital versatile disc players; digital versatile disc recorders; digital video cameras; digital video disk players; digital video players; digital voice recorders; digital voice signal processors; digital weather stations; digital-to-analog converters; digital-to-analogue converters; digitizer tablets; digitizing tablets; dimmer switches; diode arrays; direct current converters; direction-finders; directional compasses; dish aerials; dish

antennas; disk drives for computers; dispersion shifted optical fibres; display screen filters; display screen filters adapted for use with computer monitors; display screen filters adapted for use with tablet computers; display screen filters adapted for use with televisions; disposable cameras; disposable dispenser syringes for laboratory use; disposable gloves for laboratory use; disposable latex gloves for laboratory use; disposable plastic bioreactors for cell culture; disposable plastic bioreactors for culturing cells; disposable plastic gloves for laboratory use; distance sensors; distillation columns for laboratory use; distribution boxes for electrical power; distribution transformers; dive computers; divers masks; divers' masks; diving boots; diving gloves; diving goggles; diving heel straps; diving helmets; diving masks; diving regulators; diving snorkels; diving suits; diving weight belts; diving weights; DMB (Digital Multimedia Broadcasting) televisions; DMB televisions; docking stations for cell phones; docking stations for cellular phones; docking stations for digital music players; docking stations for laptops; docking stations for mobile phones; docking stations for MP3 players; docking stations for smartphones; dog whistles; door alarms; door chimes; dosage dispensers; dosimeters; dot matrix printers; downloadable application for mobile phones to download video games via the internet; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to take and edit photographs; downloadable applications for mobile phones to enable the streaming of movies and television shows; downloadable applications for mobile phones to enable the streaming of music; downloadable applications for mobile phones to read periodicals; downloadable applications for mobile phones to take and edit photographs; downloadable applications for mobiles phones to download music, movie and television graphics; downloadable applications for mobiles phones to download video games; downloadable applications for tablet computers to download music, movie and television graphics; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows;; downloadable applications for tablet computers to enable the streaming of music; downloadable applications for tablet computers to read periodicals; downloadable applications for tablet computers to take and edit photographs; downloadable comic strips; downloadable computer desktop wallpaper; downloadable computer games; downloadable computer graphics; downloadable digital audio recordings of television shows and movies; downloadable digital books; downloadable digital music; downloadable digital video recordings of television shows and movies; downloadable electronic books; downloadable electronic games; downloadable electronic games for use with mobile telephones, handheld computers and tablet computers; downloadable electronic newsletters; downloadable electronic newspapers; downloadable electronic publications in the nature of magazines; downloadable electronic sheet music; downloadable emoticons for mobile phones; downloadable graphics for mobile phones; downloadable metronome software applications; downloadable mobile applications for contact tracing and tracking of COVID-19 and other infectious diseases; downloadable multimedia news podcasts; downloadable multimedia news webcasts; downloadable multimedia news weblogs; downloadable music; downloadable music files; downloadable music for mobile telephones, handheld computers and tablet computers; downloadable printing fonts; downloadable radio podcasts; downloadable ring tones and graphics for hand-held computers; downloadable ring tones and graphics for mobile phones; downloadable ring tones and graphics for tablet computers; downloadable ring tones for cell phones; downloadable ring tones for cellular telephones; downloadable ring tones for mobile phones; downloadable ring tones for mobile telephones;

downloadable sports tournament webcasts; downloadable telephone ring tones; downloadable television shows and movies; downloadable templates for designing audiovisual presentations; downloadable video games; downloadable video recordings featuring music; downloadable wallpaper for handheld computers; downloadable wallpaper for mobiles telephones; downloadable wallpaper for tablet computers; drainers for use in photography; dressmakers' measures; dry cells; drying ovens for laboratory use; drying racks for photography; ductility testers; ducting for electric cables; ducts for electric cables; dust covers for computers; dust emission monitors; dust goggles; dust masks; dust protection masks; dust protective goggles; dust protective goggles and masks; dust protective masks; dustproof glasses; dustproof plugs for cell phone jacks; dustproof plugs for cellular phone jacks; dustproof plugs for cellular telephone jacks; dustproof plugs for jacks of mobile phones; dustproof plugs for mobile phone jacks; dustproof plugs for mobile telephone jacks; DVD burners; DVD cases; DVD drives; DVD players; DVD recorders; DVD sleeves; DVDs containing movie recordings; DVDs containing recordings of television shows and movies; dynamometers; e-book readers; e-commerce software to allow users to perform electronic business transactions via a global computer network; ear buds; ear pads for eyeglass frames; ear pads for headphones; ear pads for spectacle frames; ear phones; ear plugs for divers; earbuds; earphones; earphones and headphones; echo sounders; echo sounding devices; editing appliances for cinematographic films; editing machines for movie films; educational software containing topics of instruction in astronomy; educational software containing topics of instruction in math; educational software containing topics of instruction in nutrition; educational software for children; effects pedals for use with electrical musical instruments; egg timers; egg-candlers; electric accumulators for vehicles; electric adapter cables; electric and electronic effects units for musical instruments; electric and electronic musical effects equipment; electric and electronic video surveillance installations; electric batteries for powering electric vehicles; electric batteries for vehicles; electric buzzers; electric cable connectors; electric cables; electric cables and wires; electric call bells; electric capacitors; electric capacitors for telecommunication apparatus; electric circuit closers; electric coils; electric connectors; electric control panels; electric converters; electric discharge tubes; electric door bells; electric door chimes; electric double layer capacitors; electric fences; electric flasher switches; electric fuse boxes; electric fuses; electric light dimmers; electric light switches; electric locks for vehicles; electric outlet covers; electric phonographs; electric plugs; electric pocket translators; electric power converters; electric relays; electric resistors; electric resistors for telecommunication apparatus; electric sockets; electric storage batteries; electric switch plates; electric toy train transformers; electric transformers; electric transformers for toy trains; electric voltage transformers; electric wire harnesses for automobiles; electric wires; electric wires and cables; electric wires and connection fittings therefor; electrical and electronic burglar alarms; electrical and optical cables; electrical bare wires; electrical cables; electrical circuit boards; electrical circuits; electrical coils; electrical conductors for electric motors; electrical conductors for transformers; electrical connection boxes; electrical connectors for junction boxes; electrical connectors for power converters; electrical control systems for heating and air conditioning systems; electrical control systems for lighting systems; electrical controllers for diesel engines; electrical controllers for pizza ovens; electrical controllers for traffic lights; electrical controls for irrigation sprinkler systems; electrical converters; electrical cords; electrical distribution boxes; electrical ducts; electrical extension cords; electrical fuse boxes; electrical fuses; electrical industrial controls for conveyor systems in underground mines; electrical industrial controls for monitoring waste water treatment; electrical outlet plates; electrical outlets; electrical plugs; electrical plugs and sockets; electrical power connectors; electrical power distribution blocks; electrical power extension cords; electrical raceways; electrical relays; electrical relays and transformers; electrical resistors; electrical signal attenuators; electrical sockets; electrical storage batteries; electrical terminal blocks; electrical terminal boxes; electrical transformers; electrical

transformers for telecommunication apparatus; electrical wire; electrical wires; electricity conduits; electricity distribution consoles; electricity meters; electrified fences; electrified rails for mounting spot lights; electroacoustic transducers; electrodes for laboratory research; electrodynamic apparatus for the remote control of railway points; electroluminescent display panels; electrolysis apparatus for producing hydrogen and oxygen from water; electrolytic cells; electromagnetic coils; electromagnetic frequency detectors; electromagnetic measuring detectors; electromagnetic relays; electromagnetic switches; electromagnets; electromechanical controls for airplanes; electromechanical controls for room thermostats; electromechanical controls for swimming pools; electromechanical controls for water heaters; electron guns; electron microscopes; electron tubes; electronic access control systems for interlocking doors; electronic agendas; electronic audio signal processors for compensating sound distortion in speakers; electronic ballasts for lamps; electronic book reader covers; electronic book readers; electronic books; electronic burglar alarms; electronic cables; electronic calculators; electronic card readers; electronic cash registers; electronic chips for the manufacture of integrated circuits; electronic cigar batteries; electronic cigarette batteries; electronic cigarette chargers; electronic circuit board; electronic circuit boards; electronic circuits; electronic collars to train animals; electronic components for integrated circuit cards; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control circuits for electric fans; electronic control circuits for electric heaters; electronic control circuits for electronic musical instruments; electronic control gears [ECGs] for LED lamps and light fixtures; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic currency converters; electronic databases containing information in the field of allergies recorded on computer media; electronic databases containing topics related to financial planning recorded on computer media; electronic databases in the field of dentistry recorded on computer media; electronic databases in the field of financial planning recorded on computer media; electronic databases in the field of language training recorded on computer media; electronic desk calculators; electronic diaries; electronic dictionaries; electronic door alarms; electronic door closing systems; electronic door locks; electronic effects pedals for use with musical instruments; electronic effects pedals for use with sound amplifiers; electronic encryption units; electronic equipment for detecting mines; electronic equipment for mine detection; electronic flashing rescue flares; electronic frequency converters for high velocity electro motors; electronic game cartridges; electronic glossaries; electronic identification cards; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic interactive whiteboards; electronic key fobs being remote control apparatus; electronic keys for automobiles; electronic keys for vehicles; electronic kitchen timers; electronic labels; electronic legal publications; electronic load modules; electronic lock assemblies; electronic locking mechanisms for safes; electronic machines for reading credit cards; electronic machines for reading credit cards and recording financial operations; electronic medical publications; electronic metering devices for faucets; electronic metronomes; electronic motion sensitive switches; electronic newspapers; electronic notice boards; electronic organizers; electronic pagers; electronic payment terminals; electronic pens; electronic periodicals; electronic personal organisers; electronic personal organizers; electronic pipette battery chargers; electronic pipettes; electronic pipettes for laboratory use; electronic plotters; electronic pocket calculators; electronic pocket translators; electronic power converters; electronic power transformers; electronic random number indicator equipment [ERNIE]; electronic scoreboards; electronic semi-conductors; electronic semiconductors; electronic sensors for measuring solar radiation; electronic servo motor controllers; electronic sound pickups for guitars and basses; electronic speed controllers;

electronic tags for goods; electronic taximeters; electronic telephone dialers; electronic terminals for generating lottery tickets; electronic toll smart cards; electronic warning bells; electronic weighing scales for kitchen use; electronic weighing scales for personal use; electronic window alarms; electrophoretic displays; electrostatic copying machines; electrotechnical vibration meters; elevator control panels; emergency drench showers; emergency eyewash station; emergency light bars for vehicles; emergency signal transmitters; emergency warning lights; encoded bank cards; encoded bar code labels; encoded credit cards; encoded debit cards; encoded electronic chip cards for identifying particular users of computers and cell phones; encoded electronic chip cards for identifying particular users of computers and mobile phones; encoded gift cards; encoded identity cards; encoded magnetic identification bracelets; encoded prepaid credit cards; epidiascopes; erasing magnets; ergometers; ethernet adapters; ethernet cables; ethernet controllers; ethernet repeaters; ethernet switches; ethernet transceivers; event recorders for security purposes; exhaust gas temperature gauges; expansion boards for computers; exposed camera film; exposed camera films; exposed cinematographic film; exposed cinematographic films; exposed films; exposed slide films; exposed X-ray films; exposure meters; exposure meters for photographic devices; extension cables; extension cords; external computer hard drives; external hard drives; external modems; extruding machine for soil testing; eye glass cases; eye glass chains; eye glass cords; eye glasses; eye shields for athletic use; eye shields for sports helmets; eyeglass cases; eyeglass chains; eyeglass chains and cords; eyeglass cords; eyeglass frames; eyeglass frames made of metal; eyeglass frames made of plastic; eyeglass holders; eyeglass lanyards; eyeglass lenses; eyeglass mountings; eyeglass nose pads; eyeglass temples; eyeglasses; eyeglasses for children; eyeglasses for reading; eyeglasses for sports; eyeglasses worn for sports training; eyewear pouches; face shields for athletic use; face shields for protective helmets; face shields for sports helmets; facial analysis software; facial recognition software; facilities management software to control building environmental access and security systems; facsimile machines; facsimile transmission machines; false coin detectors; fashion eyeglasses; fashion spectacles; fax machines; fax modem cards for computers; feeler gauges; fiber optic cables; fibre optic cables; fibre optic couplings; fibre optic light and image conduits; fibre optic periscopes; fibre-optic borescopes; fibre-optic cables; field glasses; field-glasses; film cameras; film magazines for cameras; film strips; film-strips; filmstrips; filters for computer screens; filters for radio interference suppression; filters for respiratory masks; filters for television screens; finger sizers; fingerprint door locks; fingerprint imagers; fingerprint scanners; fire alarm boxes; fire alarm control panels; fire alarm systems; fire alarms; fire and smoke detectors; fire beaters; fire blankets; fire blankets and fire extinguishers; fire boats; fire buckets; fire detectors; fire engines; fire escape ladders; fire escapes; fire extinguishers; fire extinguishers for automobiles; fire extinguishing apparatus for automobiles; fire hose; fire hose nozzles; fire hoses; fire protective clothing; fire protective footwear; fire pumps; fire resistant gloves; fire retardant clothing; fire sprinklers; fire trucks; fire-extinguishers; fire-extinguishing blankets; fire-resistant clothing; fire-resistant flying suits; fire-resistant gloves; fireproof automobile racing suits for safety purposes; fireproof clothing; fireproof garments; firmware for controlling large overhead variable message signs on highways; firmware for controlling paper availability; firmware for controlling printer ink and data integrity in a printer; firmware for programming a VCR; firmware for remote monitoring of hardware; fitted cases for contact lenses; fixed location telephones; flame-retardant balaclavas; flash bulbs; flash card readers; flash guns for cameras; flash lamps for cameras; flash lamps for photography; flash memory card adapters; flash memory card readers; flash memory cards; flash memory expansion modules; flash-bulbs; flashbulbs; flashing safety lights for traffic cones; flashlamps for cameras; flasks for laboratory use; flat panel electroluminescent display screens; flexible circuit boards; flexible flat panel displays for computers; flight simulators; flight simulators for aircraft; flip covers for smart phones; flip covers for smartphones; floatation vests; floppy disc drives; floppy discs

drives for computers; floppy disk drives; flotation vests; flow gauges; flow meters; flowmeters; fluorescent lamp ballast for electric lights; fluorescent lamp ballasts; fluorescent screens; flyback transformers; folding rulers; folding rules; food timers; football helmets; frames for eyeglasses; frames for eyeglasses and pince-nez; frames for monocles; frames for photographic transparencies; frames for pince-nez; frames for spectacles; frames for spectacles and pince-nez; frames for spectacles and sunglasses; frames for sunglasses; frequency converter for actuators; frequency converters; frequency meters; fridge magnets; fuel cell electrodes; fuel cells; fuel gauges; fuel level indicators for vehicles; full-circle protractors; furnaces for laboratory experiments; furnaces for laboratory use; fuse wire; fuses for electric current; fuses for fire alarm control panels; fuses for lighting control panels; galena crystal detectors for use in electronics; galvanic batteries; galvanic cells; galvanometers; gamma radiation detectors; garments and clothes for protection against fire; garments for protection against fire; gas alarms; gas chromatography apparatus for laboratory use; gas flow monitors; gas leak alarms; gas masks; gas meters; gas mixers for laboratory use; gasifiers for laboratory use; gasoline gauges; gasometers; geiger counters; gender changers for coaxial cables; gene chips; general purpose batteries; gesture recognition software; glacier eyeglasses; glass driers for laboratory purposes; glass dryers for laboratory use; glass graduated scales; glassware for laboratory use; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; global positioning system (GPS) receivers; global positioning system (GPS) satellites; global positioning system (GPS) transmitters; Global Positioning System [GPS] receivers; Global Positioning System [GPS] transmitters; Global Positioning System receivers; global positioning system transmitters; gloves for divers; gloves for protection against x-rays for industrial purposes; go ring gauges; go/no-go gauges; go/no-go plug gauges; goggles for motorcyclists; goggles for protection against dust; goggles for scuba diving; goggles for skiing; goggles for sports; goggles for swimmers; goggles for swimming; goggles for use in sport; GPS receivers; GPS transmitters; graduated glassware; graduated rulers; graduation checkers for calibration purposes; gramophone records; gramophones; graphic tablets; graphics accelerators; graphics cards; graphics chipsets; graphics processor units; graphics tablets; graphite electrodes; gravimeters; grids for batteries; guitar amplifiers; guitar cables; guitar effects processors; gum shields; gyrocompasses; gyrometers; gyroscopes; hand-held calculators; hand-held computers; hand-held electronic dictionaries; hand-held monopod; hand-held personal computers; hand-held protective shields for use by the police; hand-held security wands; handheld computers; handheld electronic dictionaries; hands free kits for phones; hands-free headsets for cellular phones; hands-free headsets for mobile phones; hands-free headsets for mobile telephones; hands-free holders for cell phones; hands-free holders for mobile phones; hands-free holders for mobile telephones; hands-free kits for cellular phones; hands-free kits for telephones; hands-free microphones for cell phones; hands-free microphones for cellular telephones; hands-free microphones for mobile phones; hands-free microphones for mobile telephones; hard disk drives; hard drives for computers; hard hats; HD (High Definition) televisions; head cleaning diskettes; head cleaning tapes for audio cassette recorders; head cleaning tapes for video recorders; head guards for boxing; head guards for karate; head guards for martial arts; head guards for sports; headphones; headsets; headsets for cell phones; headsets for mobile phones; headsets for mobile telephones; headsets for telephones; headsets for use with computers; hearing aid batteries; heat sinks for use in computers; helicopter load monitoring scales; helmet camera mounts; helmet cameras; helmets for bicycles; helmets for ice hockey; helmets for motorcyclists; hemline markers; high definition graphic chipsets; high definition multimedia interface cables; high definition televisions; high intensity pulse lasers for nuclear fusion; high pressure manometers; high tension batteries; high voltage transformers; high-definition multimedia interface cables; high-definition televisions; high-frequency switching power supplies; high-tension

batteries; high-voltage transformers; highway safety cones; hinges for eyeglass frames; hinges for spectacle frames; hockey helmets; holders for contact lenses; holders for electric coils; hologram films; holograms; home cinema projectors; home theater projectors; home theatre projectors; home theatre surround sound systems; horns for loudspeakers; horse riding helmets; hotel room key smart card; hourglasses; humanoid robots with artificial intelligence; hunting binoculars; hydrometers; hydrophones; hygrometers; identification cards with embedded chips; identification sheaths for electric wires; identification smart cards; identification threads for electric wires; ignition batteries; illuminated advertising signs; illuminated exit signs; illuminated signs used for advertising; illumination regulators; illuminometers; image intensifier tubes; image scanners; impact printers; in-car telephone handset cradles; inclinometers; incubators for bacteria culture; incubators for bacteria cultures; incubators for laboratory use; indicator lights for telecommunication apparatus; inductance capacitance filters; induction voltage regulators; industrial betatrons; industrial magnets; inflatable lifeboats; infra-red thermometers; infrared cameras; infrared sensors; infrared thermometers for checking electrical equipment; ink cartridges, unfilled, for printers and photocopiers; ink jet colour printers; ink jet printers; ink-jet color printers; ink-jet printers; input/output solid state channel strips; inspection mirrors; instructional software for language training; instruments for measuring milk quality parameters; insulated clothing for protection against accidents or injury; insulated copper wire; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; intelligent copiers; intelligent videodisc players; interactive multimedia computer game programs; interactive multimedia computer games; interactive touch screen terminals; interactive whiteboards; intercoms; interface boards for computers; interface cards for computers; interface cards for data processing equipment in the form of printed circuits; interface circuits for video cameras; interferometers; internal cooling fans for computers; internal modems; Internet access software; internet phones; internet servers; internet telephones; intranet servers; inverters for power supply; jackets for protection against accidents, irradiation and fire; joystick chargers; juke boxes for computers; jukeboxes; jump cables; jump leads; jump start cables; jumper cables; junction boxes; junction sleeves for electric cables; karaoke machines; karate head guards; keyboards for cellular phones; keyboards for cellular telephones; keyboards for computers; keyboards for mobile phones; keyboards for mobile telephones; keypads for cell phones; keypads for cellular telephones; keypads for mobile phones; keypads for mobile telephones; keypads for security alarms; kilometer recorders for vehicles; kilometre recorders for vehicles; kitchen timers; kitchen weighing scales; knee pads for gardening; knee pads for workers; knee-pads for workers; labels carrying magnetically recorded bar codes; labels with integrated radio frequency identification [RFID] chips; laboratory baths; laboratory calipers; laboratory centrifuges; laboratory countertops; laboratory eyewash fountains; laboratory flasks; laboratory furniture; laboratory glassware; laboratory incubators; laboratory instrument for the detection of pathogens and toxins in a biological sample for research use; laboratory ovens; laboratory pipettes; laboratory robots; laboratory scales and balances; laboratory slides; laboratory stirrers; laboratory storage tubes; laboratory swabs; laboratory test tubes; laboratory thermometers; laboratory trays; lactodensimeters; lactometers; laminar flow cabinets for laboratory use; laminar flow hoods for laboratory use; LAN (local area network) operating software; lan [local area network] computer cards for connecting portable computer devices to computer networks; LAN [local area network] operating software; lanyards for cameras; lanyards for cell phones; lanyards for cellular telephones; lanyards for holding encoded identity cards; lanyards for holding eyeglasses; lanyards for mobile phones; lanyards for mobile telephones; lanyards for safety purposes for fall protection; laptop carrying cases; laptop cases; laptop computers; laptop covers; laptop docking stations; laptop sleeves; large scale integrated circuits; large-scale integrated circuits; large-screen liquid

crystal displays; laser altimeters; laser diode modules; laser diodes; laser for use in industrial drilling; laser measuring tapes; laser plotting tables for the application of conduction patterns on insulated supports; laser pointers; laser printers; laser rangefinders; laser scanners; laser speed detectors; laser tracers for application of conduction patterns to insulation media; lasers for additive manufacturing; lasers for bar code readers; lasers for capture microdissection; lasers for compact disc players; lasers for engraving; lasers for land surveying; lasers for lunar ranging; lasers for photochemistry; lasers for surveying; lasers for use as visual effects; lasers for use in firearm sights; lasers for use in industrial cutting applications; lasers for use in industrial welding applications; lasers to store and retrieve data from CDs and DVDs; LCD large-screen displays; lcd monitors; LCD panels; lcd projectors; LCD televisions; leather cases for cell phones; leather cases for cellular telephones; leather cases for mobile phones; leather cases for mobile telephones; LED displays; LED emergency flares; led emergency underwater lights for submarine rescue; LED Microscopes; led monitors; LED position sensors; LED televisions; led underwater lights for use as a safety beacon for scuba divers; lens barrels for microscopes; lens barrels for telescopes; lens filters for cameras; lens hoods; lens hoods for cameras; lens shutters; lens shutters for cameras; lens-barrels; lenses for astrophotography; lenses for binoculars; lenses for cameras; lenses for cameras; lenses for eyeglasses; lenses for eyeglasses; lenses for microscopes; lenses for microscopes; lenses for monocles; lenses for monocles; lenses for spectacles; lenses for spectacles; lenses for sunglasses; lenses for sunglasses; lenses for telescopes; lenses for telescopes; lenses for use with still cameras; lenses for use with still cameras; lenses for video cameras; lenses for video cameras; letter scales; letter scales; letter scales for domestic use; letter scales for domestic use; letter scales for office use; letter scales for office use; level gauges; level gauges; level measuring machines for surveying; level measuring machines for surveying; leveling rods for surveying; leveling rods for surveying; leveling staffs; leveling staffs; levelling rods for surveying; levelling rods for surveying; lever scales; lever scales; lever scales steelyards; lever scales steelyards; library management software; library management software; life belts; life belts; life buoys; life buoys; life jackets; life jackets; life jackets for pets; life jackets for pets; life nets; life nets; life preservers; life preservers; life rafts; life rafts; life saving rafts; life saving rafts; life vests; life vests; life-buoys; life-buoys; life-saving capsules for natural disasters; life-saving capsules for natural disasters; life-saving rafts; life-saving rafts; life-saving vests for dogs; life-saving vests for dogs; life-saving vests for use by dogs; life-saving vests for use by dogs; lifebelts; lifebelts; lifeboats; lifeboats; lifejackets; lifejackets; light conducting filaments; light conducting filaments; light dimmers; light dimmers; light diodes; light diodes; light emitting diode displays; light emitting diode displays; light emitting diodes; light emitting diodes; light meters; light meters; light pens; light pens; light switches; light switches; light-emitting diode [LED] microscopes; light-emitting diode [LED] microscopes; light-emitting diode [LED] monitors; light-emitting diode [LED] monitors; light-emitting diode [LED] televisions; light-emitting diode [LED] televisions; light-emitting diode microscopes; light-emitting diode microscopes; light-emitting diode monitors; light-emitting diode monitors; light-emitting diode televisions; light-emitting diode televisions; light-emitting diodes; light-emitting diodes; light-emitting diodes [LED]; light-emitting diodes [LED]; light-emitting electronic pointers; light-emitting electronic pointers; lighting ballasts; lighting ballasts; lighting control panels; lighting control panels; lightning arrester equipment; lightning arrester equipment; lightning arresters; lightning arresters; lightning conductors; lightning conductors; lightning rods; lightning rods; liquid crystal display (LCD) televisions; liquid crystal display (LCD) televisions; liquid crystal display monitors; liquid crystal display monitors; liquid crystal display panels; liquid crystal display panels; liquid crystal display projectors; liquid crystal display projectors; liquid crystal display screens; liquid crystal display screens; liquid crystal display televisions; liquid crystal display televisions; liquid crystal displays; liquid crystal displays; liquid level sensors; liquid level sensors; liquid-level gauges; liquid-level gauges; lithium secondary batteries; lithium secondary batteries;

local area network [LAN] operating software; local area network [LAN] operating software; local area network operating software; local area network operating software; lorgnettes; lorgnettes; loud speakers; loud speakers; loudspeaker cabinets; loudspeaker cabinets; loudspeakers; loudspeakers; loudspeakers with built in amplifiers; loudspeakers with built in amplifiers; loudspeakers with built-in amplifiers; loudspeakers with built-in amplifiers; loudspeakers, headphones, microphones and cd players; loudspeakers, headphones, microphones and cd players; low profile DC/DC converters; low profile DC/DC converters; lp records; lp records; lumber testing machines; lumber testing machines; luminoflux meters; luminoflux meters; luminous beacons for safety or warning purposes; luminous beacons for safety or warning purposes; luminous flux meters; luminous flux meters; luminous or mechanical signals; luminous or mechanical signals; luminous pointers; luminous pointers; luminous road signs; luminous road signs; luminous safety beacons; luminous safety beacons; luminous safety beacons for use as a personal locator; luminous safety beacons for use as a personal locator; luminous signs; luminous signs; luminous traffic signs; luminous traffic signs; luminous vehicle breakdown warning beacons; luminous vehicle breakdown warning beacons; magic lantern slide projectors; magic lantern slide projectors; magic lanterns; magic lanterns; magnetic agitators for laboratory use; magnetic agitators for laboratory use; magnetic and electromagnetic coils; magnetic and electromagnetic coils; magnetic cabinet door catches; magnetic cabinet door catches; magnetic coded card readers; magnetic coded card readers; magnetic coils; magnetic coils; magnetic compasses; magnetic compasses; magnetic compasses for surveying; magnetic compasses for surveying; magnetic cores; magnetic cores; magnetic encoded card readers; magnetic encoded card readers; magnetic encoded identification bracelets; magnetic encoded identification bracelets; magnetic gyrocompasses; magnetic gyrocompasses; magnetic head cleaners; magnetic head cleaners; magnetic identifying cards; magnetic identifying cards; magnetic labels; magnetic labels; magnetic mount flashing safety lights for vehicles; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic object detectors; magnetic pens; magnetic pens; magnetic stud finders; magnetic stud finders; magnetic tape cleaners; magnetic tape cleaners; magnetic tape drives; magnetic tape drives; magnetic tape erasers; magnetic tape erasers; magnetic tape recorders; magnetic tape recorders; magnetic tape units for computers; magnetic tape units for computers; magnetic telephone wires; magnetic telephone wires; magnetic valves; magnetic valves; magnetic wall stud finders; magnetic wall stud finders; magnetic wires; magnetic wires; magnetic-tape recorders; magnetic-tape recorders; magnetically encoded bank cards; magnetically encoded bank cards; magnetically encoded card readers; magnetically encoded card readers; magnetically encoded credit cards; magnetically encoded credit cards; magnetically encoded debit cards; magnetically encoded debit cards; magnetically encoded gift cards; magnetically encoded gift cards; magnetically encoded hotel room key cards; magnetically encoded hotel room key cards; magnetically encoded identification bracelets; magnetically encoded identification bracelets; magnetically encoded phone cards; magnetically encoded phone cards; magneto-optical pens; magneto-optical pens; magnetometers; magnetometers; magnets for industrial purposes; magnets for industrial purposes; magnifying eyeglasses; magnifying eyeglasses; magnifying glasses; magnifying glasses; magnifying lenses; magnifying lenses; magnifying peepholes for doors; magnifying peepholes for doors; magnifying rulers; magnifying rulers; magnifying spectacles; magnifying spectacles; manometers; manometers; manual telegraph apparatus; manual telegraph apparatus; marine compasses; marine compasses; marine depth finders; marine depth finders; marine luminous safety beacons; marine luminous safety beacons; marine luminous warning beacons; marine luminous warning beacons; marine radios; marine radios; maritime patrol radar; maritime patrol radar; maritime patrol radars; maritime patrol radars; marker buoys; marker buoys; marking and signalling buoys; marking and signalling buoys; marking buoys; marking buoys; marking gauges for joinery purposes; marking gauges for joinery

purposes; masks for protection against dust; masks for protection against dust; masks for scuba diving; masks for scuba diving; mass spectrometers; mass spectrometers; master ring gauges; master ring gauges; masts for wireless aerials; masts for wireless aerials; math coprocessors; math coprocessors; measuring bowls; measuring bowls; measuring buckets; measuring buckets; measuring cups; measuring cups; measuring jugs; measuring jugs; measuring rods; measuring rods; measuring rulers; measuring rulers; measuring rules; measuring rules; measuring scoops; measuring scoops; measuring spoons; measuring spoons; measuring tapes; measuring tapes; measuring wheels; measuring wheels; meat thermometers; meat thermometers; mechanical egg timers; mechanical egg timers; mechanical metronomes; mechanical metronomes; mechanical road signs; mechanical road signs; mechanical signs; mechanical signs; mechanical traffic signs; mechanical traffic signs; medical scales; medical scales; megaphones; megaphones; memory boards; memory boards; memory card readers; memory card readers; memory cards for video game machines; memory cards for video game machines; meridian transit telescopes; meridian transit telescopes; metal compression testing machines; metal compression testing machines; metal detectors; metal detectors; metal detectors for industrial or military purposes; metal detectors for industrial or military purposes; metal hardness testing machines; metal hardness testing machines; metal strength testing machines; metal strength testing machines; metallurgical microscopes; metallurgical microscopes; metallurgy blooms; metallurgy blooms; meteorological balloons; meteorological balloons; meteorological instruments; meteorological instruments; metronomes; metronomes; micro-computers; micro-computers; microchip cards; microchip cards; microchips; microchips; microchips for computer hardware; microchips for computer hardware; microcircuits; microcircuits; microcomputers; microcomputers; microfiche; microfiche; microfiches; microfiches; microhardness testers; microhardness testers; micrometer gauges; micrometer gauges; micrometer screws for optical instruments; micrometer screws for optical instruments; micrometers; micrometers; microphone cables; microphone cables; microphone mixers; microphone mixers; microphone stands; microphone stands; microphones; microphones; microphones for communication devices; microphones for communication devices; microphones for telecommunication apparatus; microphones for telecommunication apparatus; microprocessors; microprocessors; microprocessors and semi-conductors; microprocessors and semi-conductors; microscope condensers; microscope condensers; microscope illuminating devices; microscope illuminating devices; microscope lamps; microscope lamps; microscope lenses; microscope lenses; microscopes; microscopes; microscopes and parts thereof; microscopes and parts thereof; microscopes for operations; microscopes for operations; microtomes; microtomes; microwave antennae; microwave antennae; microwave antennas; microwave antennas; microwave ovens for laboratory use; microwave ovens for laboratory use; milage recorders for vehicles; milage recorders for vehicles; mileage recorders for vehicles; mileage recorders for vehicles; military lasers for directed energy weapons; military lasers for directed energy weapons; military lasers for guiding missiles; military lasers for guiding missiles; military low power infrared lasers; military low power infrared lasers; mine detecting apparatus; mine detecting apparatus; mineral insulated electric cables; mineral insulated electric cables; minicomputers; minicomputers; mobile and portable fax machines; mobile and portable fax machines; mobile computers; mobile computers; mobile phone batteries; mobile phone batteries; mobile phone chargers; mobile phone chargers; mobile phone covers; mobile phone covers; mobile phone straps; mobile phone straps; mobile phones; mobile phones; mobile radios; mobile radios; mobile telephone batteries; mobile telephone batteries; mobile telephone battery chargers for use in vehicles; mobile telephone battery chargers for use in vehicles; mobile telephone cases; mobile telephone cases; mobile telephone cases made of leather or imitations of leather; mobile telephone cases made of leather or imitations of leather; mobile telephone covers made of cloth or textile materials; mobile telephone covers made of cloth or textile materials; mobile telephone

straps; mobile telephone straps; mobile telephones; mobile telephones; modem cables; modem cables; modems; modems; money counting and sorting machines; money counting and sorting machines; monocle frames; monocle frames; monocles; monocles; monocular frames; monocular frames; monopods for cameras; monopods for cameras; motherboards; motherboards; motion detectors; motion detectors; motion picture cameras; motion picture cameras; motion picture projectors; motion picture projectors; motion pictures; motion pictures; motion sensors; motion sensors; motion sensors for security lights; motion sensors for security lights; motion-activated cameras; motion-activated cameras; motion-picture cameras for self-developing film; motion-picture cameras for self-developing film; motor vehicle power locks; motor vehicle power locks; motorcycle goggles; motorcycle goggles; motorcycle helmets; motorcycle helmets; motorcyclist protective clothing; motorcyclist protective clothing; mounting racks adapted for computer hardware; mounting racks adapted for computer hardware; mounting racks for computer hardware; mounting racks for computer hardware; mounts for helmet cameras; mounts for helmet cameras; mouse mats; mouse mats; mouse pads; mouse pads; mousepads; mousepads; mouth guards; mouth guards; mouth guards for athletic use; mouth guards for athletic use; mouth guards for sports; mouth guards for sports; moveable sockets; moveable sockets; movie editing projectors; movie editing projectors; movie film developing machines; movie film developing machines; movie projectors; movie projectors; mp3 players; mp3 players; mp4 players; mp4 players; multi-outlet socket blocks; multi-outlet socket blocks; multifocal eyeglass lenses; multifocal eyeglass lenses; multifocal eyeglasses; multifocal eyeglasses; multifocal spectacle lenses; multifocal spectacle lenses; multifocal spectacles; multifocal spectacles; multiframe view cameras; multiframe view cameras; multifunction computer keyboards; multifunction computer keyboards; multifunction keyboards; multifunction keyboards; multifunctional photocopier; multifunctional photocopier; multifunctional printer; multifunctional printer; multilayer printed wiring boards; multilayer printed wiring boards; multimedia accelerator boards; multimedia accelerator boards; multimedia applications for mobile phones in the form of word games; multimedia applications for mobile phones in the form of word games; multimedia CD-ROMs containing information in the field of tax management; multimedia CD-ROMs containing information in the field of tax management; multimedia software for teaching language training; multimedia software for teaching language training; multimedia software for teaching piano; multimedia software for teaching piano; multiple purpose cameras; multiple purpose cameras; multiplexers; multiplexers; multipurpose cameras; multipurpose cameras; music composition software; music composition software; music headphones; music headphones; music-composition software; music-composition software; musical instrument amplifiers; musical instrument amplifiers; musical juke boxes; musical juke boxes; nanoparticle size analysers; nanoparticle size analysers; nanoparticle size analyzers; nanoparticle size analyzers; navigation apparatus for vehicles in the form of on-board computers; navigation apparatus for vehicles in the form of on-board computers; navigation computers for cars; navigation computers for cars; navigational buoys; navigational buoys; needles for record players; needles for record players; needles for surveying compasses; needles for surveying compasses; neon signs; neon signs; netbook computers; netbook computers; nets for protection against accidents; nets for protection against accidents; network access server hardware; network access server hardware; network access server operating software; network access server operating software; network facsimile servers; network facsimile servers; network interface cards; network interface cards; network operating system programs; network operating system programs; network printers; network printers; network routers; network routers; network servers; network servers; nickel-cadmium storage batteries; nickel-cadmium storage batteries; night vision goggles; night vision goggles; no-go ring gauges; no-go ring gauges; noise level meters; noise level meters; noisemeters; noisemeters; non-linear optical fibres; non-linear optical fibres; nonlinear optical fibres; nonlinear optical fibres; nose clips for divers; nose clips for divers; nose clips for divers and

swimmers; nose clips for divers and swimmers; nose clips for swimmers; nose clips for swimmers; nose clips for swimming; nose clips for swimming; nose pads for eyeglasses; nose pads for eyeglasses; nose pads for eyewear; nose pads for eyewear; nose pads for spectacles; nose pads for spectacles; nose pads for sunglasses; nose pads for sunglasses; notebook and laptop computers; notebook and laptop computers; notebook computer carrying cases; notebook computer carrying cases; notebook computer cooling pads; notebook computer cooling pads; notebook computers; notebook computers; nucleic acid seqencers for scientific purposes; nucleic acid seqencers for scientific purposes; observation rockets; observation rockets; octants; octants; odometers; odometers; ohmmeters; ohmmeters; oil and gas well downhole survey and measurement equipment; oil and gas well downhole survey and measurement equipment; oil level indicators for vehicles; oil level indicators for vehicles; oil level sensors; oil level sensors; opacimeter; opacimeter; opacimeters; opacimeters; opaque projectors; opaque projectors; opera glasses; opera glasses; operating and user instructions for computers stored in digital form; operating and user instructions for computers stored in digital form; operating and user instructions for computers stored in digital form on CD-ROM; operating and user instructions for computers stored in digital form on CD-ROM; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; operating microscope stands; operating microscope stands; operating software for network access servers; operating software for network access servers; ophthalmic eyeglasses; ophthalmic eyeglasses; ophthalmic lenses; ophthalmic lenses; optical amplifiers; optical amplifiers; optical breadboards; optical breadboards; optical cables; optical cables; optical character readers; optical character readers; optical character recognition apparatus; optical character recognition apparatus; optical condensers; optical condensers; optical disc drives; optical disc drives; optical disc readers; optical disc readers; optical disk drives; optical disk drives; optical disk players; optical disk players; optical disk readers; optical disk readers; optical disks featuring music; optical disks featuring music; optical fiber cables; optical fiber cables; optical fibres; optical fibres; optical filters for plasma display panels; optical filters for plasma display panels; optical filters for screens; optical filters for screens; optical frames; optical frames; optical frequency metrology devices; optical frequency metrology devices; optical glass; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical inspection apparatus for inspection of food; optical lens sights; optical lens sights; optical lenses; optical lenses; optical lenses for sunglasses; optical lenses for sunglasses; optical lenses for use with sunglasses; optical lenses for use with sunglasses; optical multiplexers; optical multiplexers; optical profilers; optical profilers; optical reflectors; optical reflectors; optical scanners; optical scanners; optical semi-conductor amplifiers; optical semi-conductor amplifiers; optical semiconductor amplifiers; optical semiconductor amplifiers; optical sensors; optical sensors; optical shutters; optical shutters; optical spectacles; optical spectacles; optical switches; optical switches; optical transceivers; optical transceivers; optical transmitters; optical transmitters; organic light emitting diode display panels; organic light emitting diode display panels; organic light emitting diodes (OLED); organic light emitting diodes (OLED); organic light-emitting diode display panels; organic light-emitting diode display panels; organic light-emitting diode televisions; organic light-emitting diode televisions; organic light-emitting diodes; organic light-emitting diodes; oscillators; oscillators; oscillographs; oscillographs; oscilloscopes; oscilloscopes; ovens for laboratory experiments; ovens for laboratory experiments; ovens for laboratory use; ovens for laboratory use; overhead projectors; overhead projectors; oxygen

regulators; oxygen regulators; ozonators; ozonators; ozonisers; ozonisers; pacemarkers; pacemarkers; pagers; pagers; palm rests; palm rests; palmtop computers; palmtop computers; paper covers for telephone receivers; paper covers for telephone receivers; paper currency detectors; paper currency detectors; parabolic aerials; parabolic aerials; parabolic antennae; parabolic antennae; parabolic antennas; parabolic antennas; parking facility gates; parking facility gates; parking meters; parking meters; particle accelerators; particle accelerators; particle counters for measuring air quality; particle counters for measuring air quality; PDF creation and conversion software; PDF creation and conversion software; pedometers; pedometers; pens with conductive point for touch screen devices; pens with conductive point for touch screen devices; periscopes; periscopes; personal accounting software; personal accounting software; personal computers; personal computers; personal digital assistants; personal digital assistants; personal digital assistants [PDAs]; personal digital assistants [PDAs]; personal floatation aids; personal floatation aids; personal headphones for use with sound transmitting systems; personal headphones for use with sound transmitting systems; personal security alarms; personal security alarms; personal stereos; personal stereos; personal video recorders [PVRs]; personal video recorders [PVRs]; petri dishes; petri dishes; petri dishes for laboratory use; petri dishes for laboratory use; petrol gauges; petrol gauges; phase indicators; phase indicators; phase modifiers; phase modifiers; phonograph needles; phonograph needles; phonograph record players; phonograph record players; phonograph records; phonograph records; phonographic records; phonographic records; phonographs; phonographs; photo printers; photo printers; photocopiers; photocopiers; photocopy machines; photocopy machines; photocopying machines; photocopying machines; photodiodes; photodiodes; photoelectric cells; photoelectric cells; photographic cameras; photographic cameras; photographic cameras for the instant production of pictures; photographic cameras for the instant production of pictures; photographic digital cameras; photographic digital cameras; photographic filters; photographic filters; photographic flash units for cameras; photographic flash units for cameras; photographic flashbulbs; photographic flashbulbs; photographic lenses; photographic lenses; photographic negatives; photographic negatives; photographic projectors; photographic projectors; photographic racks; photographic racks; photographic slide transparencies; photographic slide transparencies; photographic slides; photographic slides; photographic transparencies; photographic transparencies; photographic viewfinders; photographic viewfinders; photography dark room lamps; photography dark room lamps; photography darkroom lamps; photography darkroom lamps; photography projectors; photography projectors; photography reflectors; photography reflectors; photometers; photometers; photosensors; photosensors; phototubes; phototubes; photovoltaic cells; photovoltaic cells; photovoltaic cells and modules; photovoltaic cells and modules; photovoltaic installations for generating solar electricity; photovoltaic installations for generating solar electricity; photovoltaic inverters; photovoltaic inverters; photovoltaic modules; photovoltaic modules; picture projectors; picture projectors; piezoelectric switches; piezoelectric switches; pince-nez; pince-nez; pince-nez cases; pince-nez cases; pince-nez chains; pince-nez chains; pince-nez cords; pince-nez cords; pince-nez mountings; pince-nez mountings; pipeclay triangles for laboratory use; pipeclay triangles for laboratory use; pipette racks for laboratory use; pipette racks for laboratory use; pipette tips for laboratory use; pipette tips for laboratory use; pipettes; pipettes; pitot tubes; pitot tubes; plane tables; plane tables; planetarium projectors; planetarium projectors; planimeters; planimeters; plasma display panel [PDP] televisions; plasma display panel [PDP] televisions; plasma display panels; plasma display panels; plasma televisions; plasma televisions; plastic covered electric wires; plastic covered electric wires; plastic testing machines; plastic testing machines; plastic-coated electrical wires; plastic-coated electrical wires; plastic-covered electrical wires; plastic-covered electrical wires; plate cameras; plate cameras; plates for batteries; plates for batteries; plates for electric accumulators; plates for electric accumulators; plug adapters; plug adapters;

plug adaptors; plug adaptors; plug connectors; plug connectors; plug gauges; plug gauges; plug-in connectors; plug-in connectors; plumb bobs; plumb bobs; plumb levels; plumb levels; plumb lines; plumb lines; pocket calculators; pocket calculators; pocket computers for note-taking; pocket computers for note-taking; pocket scales; pocket scales; pocket secretaries; pocket secretaries; pocket translators; pocket translators; pocket-sized electronic calculators; pocket-sized electronic calculators; point-of-sale [POS] terminals; point-of-sale [POS] terminals; point-of-sale terminals; point-of-sale terminals; polarimeters; polarimeters; polarisation maintaining optical fibres; polarisation maintaining optical fibres; polarizing eyeglasses; polarizing eyeglasses; polarizing microscopes; polarizing microscopes; polarizing spectacles; polarizing spectacles; pollutant sensors; pollutant sensors; polyethylene measuring cups; polyethylene measuring cups; polygraphs; polygraphs; polymer light-emitting diodes; polymer light-emitting diodes; polymer light-emitting diodes [PLED]; polymer light-emitting diodes [PLED]; pool alarms; pool alarms; portable computers; portable computers; portable DVD players; portable DVD players; portable facsimile machines; portable facsimile machines; portable fax machines; portable fax machines; portable MP3 players; portable MP3 players; portable radios; portable radios; portable telephones; portable telephones; portable video cameras with built-in videocassette recorders; portable video cameras with built-in videocassette recorders; postage stamp meters; postage stamp meters; power amplifiers; power amplifiers; power cable sheathes; power cable sheathes; power cables; power cables; power connectors; power connectors; power cords; power cords; power distributing boxes; power distributing boxes; power distribution boxes; power distribution boxes; power distribution panels; power distribution panels; power locks for motor vehicles; power locks for motor vehicles; power strips with moveable sockets; power strips with moveable sockets; power switches; power switches; power transformers; power transformers; power transformers for amplification; power transformers for amplification; power wires; power wires; pre-amplifiers; pre-amplifiers; pre-recorded audio cassettes; pre-recorded audio cassettes; pre-recorded audio tapes featuring music; pre-recorded audio tapes featuring music; pre-recorded audiotapes; pre-recorded audiotapes; pre-recorded CDs and DVDs containing audio and video clips; pre-recorded CDs and DVDs containing audio and video clips; pre-recorded compact discs containing computer games; pre-recorded compact discs containing computer games; pre-recorded compact discs containing encyclopaedias; pre-recorded compact discs containing encyclopaedias; pre-recorded compact discs containing information in the field of art history; pre-recorded compact discs containing information in the field of art history; pre-recorded compact discs containing music; pre-recorded compact discs containing music; pre-recorded digital versatile discs containing information in the field of trademarks; pre-recorded digital versatile discs containing information in the field of trademarks; pre-recorded digital videodiscs containing topics of instruction in first-aid training; pre-recorded digital videodiscs containing topics of instruction in first-aid training; pre-recorded DVDs containing music; pre-recorded DVDs containing music; pre-recorded DVDs featuring music; pre-recorded DVDs featuring music; pre-recorded exercise DVDs; pre-recorded exercise DVDs; pre-recorded fitness DVDs; pre-recorded fitness DVDs; pre-recorded floppy discs containing information in the field of trademarks; pre-recorded floppy discs containing information in the field of trademarks; pre-recorded floppy discs containing spreadsheet software; pre-recorded floppy discs containing spreadsheet software; pre-recorded floppy discs containing word processing software; pre-recorded floppy discs containing word processing software; pre-recorded laser discs containing movies; pre-recorded laser discs containing movies; pre-recorded laser discs containing video games; pre-recorded laser discs containing video games; pre-recorded music compact discs; pre-recorded music compact discs; pre-recorded music videotapes; pre-recorded music videotapes; pre-recorded optical discs containing information in the field of hospital medical records; pre-recorded optical discs containing information in the field of hospital medical records; pre-recorded optical discs featuring topics related to the game of baseball; pre-recorded optical

discs featuring topics related to the game of baseball; pre-recorded optical discs featuring topics related to the game of soccer; pre-recorded optical discs featuring topics related to the game of soccer; pre-recorded phonograph records; pre-recorded phonograph records; pre-recorded video cassettes; pre-recorded video cassettes; pre-recorded video cassettes featuring cartoons; pre-recorded video cassettes featuring cartoons; pre-recorded video cassettes featuring music; pre-recorded video cassettes featuring music; pre-recorded videodiscs containing topics related to the game of baseball; pre-recorded videodiscs containing topics related to the game of baseball; pre-recorded videotapes; pre-recorded videotapes; pre-recorded videotapes featuring music; pre-recorded videotapes featuring music; precision theodolites; precision theodolites; prerecorded audio tapes featuring music; prerecorded audio tapes featuring music; prerecorded DVDs featuring music; prerecorded DVDs featuring music; prerecorded exercise DVDs; prerecorded exercise DVDs; prerecorded fitness DVDs; prerecorded fitness DVDs; prerecorded music compact discs; prerecorded music compact discs; prerecorded music videotapes; prerecorded music videotapes; prerecorded video cassettes featuring cartoons; prerecorded video cassettes featuring cartoons; prerecorded videotapes featuring music; prerecorded videotapes featuring music; prescription eyeglasses; prescription eyeglasses; prescription goggles for sports; prescription goggles for sports; prescription goggles for swimming; prescription goggles for swimming; prescription spectacles; prescription spectacles; prescription sunglasses; prescription sunglasses; pressure gauges; pressure gauges; pressure indicating plugs for valves; pressure indicating plugs for valves; pressure indicator plugs for valves; pressure indicator plugs for valves; pressure relief valves; pressure relief valves; pressure sensors; pressure sensors; pressure switches; pressure switches; pressure-to-current converters; pressure-to-current converters; print heads for computer printers; print heads for computer printers; print heads for ink-jet printers; print heads for ink-jet printers; print heads for plotters; print heads for plotters; print heads for printers; print heads for printers; printed circuit boards; printed circuit boards; printed circuit boards incorporating integrated circuits; printed circuit boards incorporating integrated circuits; printed circuits; printed circuits; printed electronic circuits; printed electronic circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printer cables; printer cables; printer plotters; printer plotters; printers for computers; printers for computers; printers for use with computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; printing fonts that can be downloaded provided by means of electronic transmission; prisms for microscopes; prisms for microscopes; prisms for telescopes; prisms for telescopes; probes for testing integrated circuits; probes for testing integrated circuits; probes for testing semi-conductors; probes for testing semi-conductors; programmable digital television recorders; programmable digital television recorders; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; progressive addition lenses for eyeglasses; progressive addition lenses for eyeglasses; progressive addition lenses for spectacles; progressive addition lenses for spectacles; progressive eyeglass lenses; progressive eyeglass lenses; progressive spectacle lenses; progressive spectacle lenses; projected capacitive touch sensors; projected capacitive touch sensors; projection screens; projection screens; projection screens for cinematographic films; projection screens for cinematographic films; projection screens for movie films; projection screens for movie films; projectors for home theatre systems; projectors for home theatre systems; projectors for the entertainment industry; projectors for the entertainment industry; protective cases for cell phones; protective cases for cell phones;

protective cases for cellular phones; protective cases for cellular phones; protective cases for cellular telephones; protective cases for cellular telephones; protective cases for e-book readers; protective cases for e-book readers; protective cases for electronic book readers; protective cases for electronic book readers; protective cases for mobile phones; protective cases for mobile phones; protective cases for mobile telephones; protective cases for mobile telephones; protective cases for MP3 players; protective cases for MP3 players; protective cases for personal digital assistants; protective cases for personal digital assistants; protective cases for smartphones; protective cases for smartphones; protective cases for tablet computers; protective cases for tablet computers; protective covers for e-book readers; protective covers for e-book readers; protective covers for electronic book readers; protective covers for electronic book readers; protective covers for smartphones; protective covers for smartphones; protective covers for tablet computers; protective covers for tablet computers; protective eyeglasses; protective eyeglasses; protective face-shields for protective helmets; protective face-shields for protective helmets; protective films adapted for computer screens; protective films adapted for computer screens; protective films adapted for screens for tablet computers; protective films adapted for screens for tablet computers; protective films adapted for smart phones; protective films adapted for smart phones; protective films adapted for smartphone screens; protective films adapted for smartphone screens; protective films adapted for tablet computer screens; protective films adapted for tablet computer screens; protective goggles for animals; protective goggles for animals; protective goggles for dogs; protective goggles for dogs; protective goggles for pets; protective goggles for pets; protective helmets for boxing; protective helmets for boxing; protective helmets for cyclists; protective helmets for cyclists; protective helmets for motorcyclists; protective helmets for motorcyclists; protective helmets for motorists; protective helmets for motorists; protective helmets for sports; protective helmets for sports; protective metal gloves for meat cutting; protective metal gloves for meat cutting; protective sheaths for fibre optical cables; protective sheaths for fibre optical cables; protective spectacles; protective spectacles; protective sports helmets; protective sports helmets; protective suits for aviators; protective suits for aviators; protective visors for athletic use; protective visors for athletic use; protractor gauges; protractor gauges; proximity sensors; proximity sensors; public address systems; public address systems; public telephones; public telephones; punch clocks; punch clocks; punched card machines for offices; punched card machines for offices; punched card office machines; punched card office machines; push buttons for bells; push buttons for bells; pyrometers; pyrometers; quantum dot light-emitting diodes [QLED]; quantum dot light-emitting diodes [QLED]; racks adapted for amplifiers; racks adapted for amplifiers; racks adapted for loudspeakers; racks adapted for loudspeakers; radar; radar; radar detectors; radar detectors; radar guns for sporting events; radar guns for sporting events; radar receivers; radar receivers; radar receivers with amplifiers; radar receivers with amplifiers; radar transmitters; radar transmitters; radars; radars; radiation protective clothing; radiation protective clothing; radio aerials; radio aerials; radio and television aerials; radio and television aerials; radio antennas; radio antennas; radio frequency adapters; radio frequency adapters; radio frequency adaptors; radio frequency adaptors; radio frequency amplifiers; radio frequency amplifiers; radio frequency connectors; radio frequency connectors; radio frequency receivers; radio frequency receivers; radio frequency repeaters; radio frequency repeaters; radio frequency transmitters; radio frequency transmitters; radio pagers; radio pagers; radio receivers; radio receivers; radio receivers and radio signal tuners; radio receivers and radio signal tuners; radio receivers and transmitters; radio receivers and transmitters; radio receivers for remote controls; radio receivers for remote controls; radio relay cables; radio relay cables; radio sets; radio sets; radio signal antennas; radio signal antennas; radio signal tuners; radio signal tuners; radio transceivers; radio transceivers; radio transmission towers; radio transmission towers; radio transmitters; radio transmitters; radio transmitters and receivers; radio transmitters and receivers; radio transmitters for remote controls;

radio transmitters for remote controls; radio tuners; radio tuners; radio-clock; radio-clock; radios; radios; radios and telephones; radios and telephones; radios for vehicles; radios for vehicles; radios incorporating alarm clocks; radios incorporating alarm clocks; radios incorporating clocks; radios incorporating clocks; radiotelegraphy sets; radiotelegraphy sets; radiotelephones; radiotelephones; radiotelephony sets; radiotelephony sets; radon detectors; radon detectors; railway signals; railway signals; rain gauges; rain gauges; RAM (random access memory) cards; RAM (random access memory) cards; random access memory [RAM] cards; random access memory [RAM] cards; random access memory cards; random access memory cards; range finders for cameras; range finders for cameras; range finders for golf; range finders for golf; raster image processors; raster image processors; reading eyeglasses; reading eyeglasses; reading glasses; reading glasses; reading spectacles; reading spectacles; rearview cameras for vehicles; rearview cameras for vehicles; rebreathers for diving; rebreathers for diving; receivers for receiving cable television; receivers for receiving cable television; receptacles for contact lenses; receptacles for contact lenses; record decks; record decks; record players; record players; record players for digital compact disks; record players for digital compact disks; record turntables; record turntables; recorded computer operating programs; recorded computer operating programs; rectifier modules; rectifier modules; rectifier tubes; rectifier tubes; reflective safety bands to be worn on the body; reflective safety bands to be worn on the body; reflective safety vests; reflective safety vests; reflectors for microscopes; reflectors for microscopes; reflectors for photographing; reflectors for photographing; reflectors for photography; reflectors for photography; reflectors for telescopes; reflectors for telescopes; reflectors for traffic signals; reflectors for traffic signals; refractometers; refractometers; refrigerator magnets; refrigerator magnets; regulators for scuba diving; regulators for scuba diving; regulators for use in scuba diving; regulators for use in scuba diving; regulators for use in turbo engines in vehicles; regulators for use in turbo engines in vehicles; regulators for use in VCRs; regulators for use in VCRs; relays for radio and television stations; relays for radio and television stations; relays for radio and TV stations; relays for radio and TV stations; remote controls for adjustable beds; remote controls for adjustable beds; remote controls for operating vehicle alarms; remote controls for operating vehicle alarms; remote controls for radios; remote controls for radios; remote controls for stereos; remote controls for stereos; remote controls for televisions; remote controls for televisions; remotely deployable spike strips used to stop cars by puncturing tires; remotely deployable spike strips used to stop cars by puncturing tires; remotely deployable spike strips used to stop cars by puncturing tyres; remotely deployable spike strips used to stop cars by puncturing tyres; repeaters for radio and television stations; repeaters for radio and television stations; replacement lenses for eyeglasses; replacement lenses for eyeglasses; replacement lenses for spectacles; replacement lenses for spectacles; rescue laser signalling flares; rescue laser signalling flares; residual gas analyzers; residual gas analyzers; resistance wires; resistance wires; resonators for motor vehicles; resonators for motor vehicles; resonators for percussion instruments; resonators for percussion instruments; resonators for stringed instruments; resonators for stringed instruments; respirators for filtering air; respirators for filtering air; respiratory mask filters; respiratory mask filters; resuscitation mannequins; resuscitation mannequins; retorts; retorts; retorts' stands; retorts' stands; reusable dispenser syringes for laboratory use; reusable dispenser syringes for laboratory use; rheometers; rheometers; rheostats; rheostats; riding helmets; riding helmets; ring buoys for use in water rescue; ring buoys for use in water rescue; ring gauges; ring gauges; ring sizers; ring sizers; rocker switches; rocker switches; rods for water diviners; rods for water diviners; rotary converters; rotary converters; rotating signaling lights; rotating signaling lights; rotating signalling lights; rotating signalling lights; round plug connectors; round plug connectors; rubber covered electrical wires; rubber covered electrical wires; rubber-covered electrical wires; rubber-covered electrical wires; saccharometers; saccharometers; safety boots; safety boots; safety contact plugs; safety contact

plugs; safety covers for electrical sockets; safety covers for electrical sockets; safety glasses; safety glasses; safety goggles; safety goggles; safety harnesses; safety harnesses; safety helmets; safety helmets; safety markers; safety markers; safety vests for water-skiing; safety vests for water-skiing; salinometers; salinometers; sandglasses; sandglasses; satellite aerials; satellite aerials; satellite antennas; satellite antennas; satellite dishes; satellite dishes; satellite dishes for satellite transmissions; satellite dishes for satellite transmissions; satellite finder meters; satellite finder meters; satellite phones; satellite phones; satellite processors; satellite processors; satellite receivers; satellite receivers; satellite telephones; satellite telephones; satellite transmitters; satellite transmitters; satellites; satellites; satellites for scientific purposes; satellites for scientific purposes; scales with body mass analysers; scales with body mass analysers; scientific apparatus for determining the water content in petroleum products; scientific apparatus for determining the water content in petroleum products; scientific prisms; scientific prisms; screen filters for computers and televisions; screen filters for computers and televisions; screen savers; screen savers; screens for photoengraving; screens for photoengraving; screensavers; screensavers; screw-tapping gauges; screw-tapping gauges; screw-thread measuring machines and instruments; screw-thread measuring machines and instruments; scuba diving compressed-air tanks; scuba diving compressed-air tanks; scuba diving goggles; scuba diving goggles; scuba diving masks; scuba diving masks; scuba goggles; scuba goggles; scuba masks; scuba masks; scuba snorkels; scuba snorkels; secure digital (SD) memory cards; secure digital (SD) memory cards; secure microprocessors; secure microprocessors; secure terminals for electronic transactions; secure terminals for electronic transactions; security and fire alarms; security and fire alarms; security software; security software; security surveillance robots; security surveillance robots; seismic detectors; seismic detectors; seismic exploration machines; seismic exploration machines; seismographs; seismographs; self-acting focussing projectors; self-acting focussing projectors; self-timers for cameras; self-timers for cameras; selfie lenses; selfie lenses; selfie stick; selfie stick; selfie sticks for use with digital cameras; selfie sticks for use with digital cameras; selfie sticks for use with smartphones; selfie sticks for use with smartphones; semi-circle protractors; semi-circle protractors; semi-conductor chips; semi-conductor chips; semi-conductor wafers; semi-conductor wafers; semi-conductors; semi-conductors; semiconductor chips; semiconductor chips; semiconductor diodes; semiconductor diodes; semiconductor integrated circuits; semiconductor integrated circuits; semiconductor power elements; semiconductor power elements; semiconductor transistors; semiconductor transistors; semiconductor wafers; semiconductor wafers; semiconductors; semiconductors; sensors for determining acceleration; sensors for determining acceleration; sensors for determining temperature; sensors for determining temperature; sensors for determining velocity; sensors for determining velocity; set-top boxes; set-top boxes; setting ring gauges; setting ring gauges; sextants; sextants; sheaths for electric cables; sheaths for electric cables; shield cases for magnetic disks; shield cases for magnetic disks; shoes for protection against accidents; shoes for protection against accidents; shoes for protection against accidents and fire; shoes for protection against accidents and fire; shoes for protection against accidents, irradiation and fire; shoes for protection against accidents, irradiation and fire; shoes for protection against fire; shoes for protection against fire; shoes for protection against irradiation; shoes for protection against irradiation; short range radios; short range radios; short-range radios; short-range radios; shutter releases for cameras; shutter releases for cameras; shutters for cameras; shutters for cameras; side guards for eyeglasses; side guards for eyeglasses; side guards for spectacles; side guards for spectacles; side shields for eyeglasses; side shields for eyeglasses; side shields for spectacles; side shields for spectacles; sighting telescopes for firearms; sighting telescopes for firearms; signal amplifiers; signal amplifiers; signal bells; signal bells; signal lanterns; signal lanterns; signal processors; signal processors; signalling buoys; signalling buoys; signalling whistles; signalling whistles; silicon carbide diodes; silicon carbide diodes; silicon chips;

silicon chips; silicon wafers; silicon wafers; silicon wafers for integrated circuits; silicon wafers for integrated circuits; simultaneous interpretation receivers; simultaneous interpretation receivers; single-channel radio communication machines and apparatus for fixed stations; single-channel radio communication machines and apparatus for fixed stations; single-crystal silicon wafers; single-crystal silicon wafers; single-use cameras; single-use cameras; sirens; sirens; sirens for vehicles; sirens for vehicles; skateboard helmets; skateboard helmets; skateboarding helmets; skateboarding helmets; ski glasses; ski glasses; ski goggles; ski goggles; ski helmets; ski helmets; skin diving masks; skin diving masks; sleeves for laptops; sleeves for laptops; slide boxes; slide boxes; slide calipers; slide calipers; slide film; slide film; slide film mounts; slide film mounts; slide projectors; slide projectors; slide rules; slide rules; slide-rules; slide-rules; small business accounting software; small business accounting software; smart card readers; smart card readers; smart phones; smart phones; smart printers; smart printers; smart rings; smart rings; smart terminals; smart terminals; smart watches; smart watches; smartglasses; smartglasses; smartwatches; smartwatches; smoke alarm testers; smoke alarm testers; smoke alarms; smoke alarms; smoke detectors; smoke detectors; snap gauges; snap gauges; snorkels; snorkels; snow goggles; snow goggles; snowboarding helmets; snowboarding helmets; software for computer aided design CAD; software for computer aided design CAD; software for computer aided mechanical design; software for computer aided mechanical design; software for creating photo slide shows; software for creating photo slide shows; software for creating virtual picture frames; software for creating virtual picture frames; software for creating virtual reality games; software for creating virtual reality games; software for dosimetry purposes in the field of radiotherapy; software for dosimetry purposes in the field of radiotherapy; software for ensuring the security of electronic mail; software for ensuring the security of electronic mail; software for operating laser altimeters; software for operating laser altimeters; software for optical character recognition; software for optical character recognition; software for the management of a data center network; software for the management of a data center network; software for the operation of a data center network; software for the operation of a data center network; software to control and improve audio equipment sound quality; software to control and improve audio equipment sound quality; solar batteries; solar batteries; Solar cells; Solar cells; solar panels for the production of electricity; solar panels for the production of electricity; solar wafers; solar wafers; solderers' helmets; solderers' helmets; solenoid valves; solenoid valves; solenoid-actuated valves; solenoid-actuated valves; solenoid-operated valves; solenoid-operated valves; solid state drives; solid state drives; sonar; sonar; sonar equipment and parts thereof; sonar equipment and parts thereof; sonars; sonars; sound amplifiers; sound amplifiers; sound effects pedals for musical instruments; sound effects pedals for musical instruments; sound filters made of cloth, for radio apparatus; sound filters made of cloth, for radio apparatus; sound level meters; sound level meters; sound mixers; sound mixers; sound mixers with integrated amplifiers; sound mixers with integrated amplifiers; sound projectors; sound projectors; sound projectors and amplifiers; sound projectors and amplifiers; sounding leads; sounding leads; sounding lines; sounding lines; space probes; space probes; spark plug gap gauges; spark plug gap gauges; spark-guards; spark-guards; speaker mounting brackets; speaker mounting brackets; speaker systems consisting of loudspeakers and cabinets for use with loudspeakers; speaker systems consisting of loudspeakers and cabinets for use with loudspeakers; speakers for computers; speakers for computers; speaking tubes; speaking tubes; special clothing for use in laboratories; special clothing for use in laboratories; spectacle cases; spectacle cases; spectacle chains; spectacle chains; spectacle cords; spectacle cords; spectacle frames; spectacle frames; spectacle frames made of metal; spectacle frames made of metal; spectacle frames made of plastic; spectacle frames made of plastic; spectacle holders; spectacle holders; spectacle lanyards; spectacle lanyards; spectacle lenses; spectacle lenses; spectacle nose pads; spectacle nose pads; Spectacle temples; Spectacle temples; spectacles; spectacles;

spectacles and sunglasses; spectacles and sunglasses; spectacles, spectacle frames and spectacle cases; spectacles, spectacle frames and spectacle cases; spectrograph apparatus; spectrograph apparatus; spectrophotometers; spectrophotometers; spectroscopes; spectroscopes; speech analytics software; speech analytics software; speech recognition software; speech recognition software; speed guns for recording velocity of ball pitches; speed guns for recording velocity of ball pitches; speed regulators for record players; speed regulators for record players; speedometer testers; speedometer testers; speedometers; speedometers; speedometers for vehicles; speedometers for vehicles; spherometers; spherometers; spirit level indicators; spirit level indicators; spirit levels; spirit levels; spirit measures; spirit measures; splices for electrical transmission lines; splices for electrical transmission lines; spools for cameras; spools for cameras; sport whistles; sport whistles; sports eyewear; sports eyewear; sports glasses; sports glasses; sports goggles; sports goggles; sports helmets; sports helmets; sports whistles; sports whistles; spotting scopes; spotting scopes; sprinkler systems for fire protection; sprinkler systems for fire protection; spyglasses; spyglasses; square rulers for measuring; square rulers for measuring; stab proof vests; stab proof vests; stage lighting regulators; stage lighting regulators; stands adapted for laptops; stands adapted for laptops; stands adapted for mobile phones; stands adapted for mobile phones; stands adapted for tablet computers; stands adapted for tablet computers; stands for use with operating microscopes; stands for use with operating microscopes; starter cables for motors; starter cables for motors; steel-toe boots; steel-toe boots; steelyard balances; steelyard balances; steelyards; steelyards; step down transformers; step down transformers; step up transformers; step up transformers; step-up transformers; step-up transformers; stereo amplifiers; stereo amplifiers; stereo headphones; stereo headphones; stereo receivers; stereo receivers; stereo tuners; stereo tuners; stereo zoom microscopes; stereo zoom microscopes; stereomicroscopes; stereomicroscopes; stereoscopes; stereoscopes; sterilizers for laboratory use; sterilizers for laboratory use; still cameras; still cameras; stills cameras; stills cameras; stills for laboratory experiments; stills for laboratory experiments; storage wallets adapted for compact discs; storage wallets adapted for compact discs; straps for cameras; straps for cameras; straps for cellular phones; straps for cellular phones; straps for mobile phones; straps for mobile phones; straps for sunglasses; straps for sunglasses; stroboscopes; stroboscopes; structured semi-conductor wafers; structured semi-conductor wafers; styli for record players; styli for record players; stylus pens for use with touch-screens; stylus pens for use with touch-screens; sub-woofers; sub-woofers; subscriber identification module (SIM) card; subscriber identification module (SIM) card; subwoofers; subwoofers; subwoofers for vehicles; subwoofers for vehicles; sulfitometers; sulfitometers; sulphitometers; sulphitometers; sunglass cases; sunglass cases; sunglass chains and cords; sunglass chains and cords; sunglass cords; sunglass cords; sunglass lenses; sunglass lenses; sunglass temples; sunglass temples; sunglasses; sunglasses; sunglasses and spectacles; sunglasses and spectacles; sunglasses for dogs; sunglasses for dogs; super luminescent laser diodes; super luminescent laser diodes; supercomputers; supercomputers; superminicomputers; superminicomputers; surface roughness testing machines and instruments; surface roughness testing machines and instruments; surge protectors; surge protectors; surveying chains; surveying chains; surveying compass needles; surveying compass needles; surveying instruments; surveying instruments; surveyor's levels; surveyor's levels; surveyors' levels; surveyors' levels; survival blankets; survival blankets; survival suits; survival suits; swim floats for safety purposes; swim floats for safety purposes; swim goggles; swim goggles; swim masks; swim masks; swimming face masks; swimming face masks; swimming goggles; swimming goggles; swimming pool alarms; swimming pool alarms; switchboards; switchboards; T-squares for measuring; T-squares for measuring; tablet computer; tablet computer; tablet computers; tablet computers; tablet monitors; tablet monitors; tachometers; tachometers; talking books; talking books; tape and videotape players; tape and videotape players;

tape cartridges; tape cartridges; tape drives; tape drives; tape measures; tape measures; tape recorders; tape recorders; tape recorders and players; tape recorders and players; tax preparation software; tax preparation software; taximeters; taximeters; telecameras; telecameras; telecopying equipment; telecopying equipment; telegraph wires; telegraph wires; telemeters; telemeters; telephone answering machines; telephone answering machines; telephone cables; telephone cables; telephone connectors; telephone connectors; telephone headsets; telephone headsets; telephone receivers; telephone receivers; telephone recorders; telephone recorders; telephone sets; telephone sets; telephone sets with screen and keyboard; telephone sets with screen and keyboard; telephone smart cards; telephone smart cards; telephone switchboards; telephone switchboards; telephone terminals; telephone terminals; telephone transmitters; telephone transmitters; telephone wires; telephone wires; telephones; telephones; telepresence robots; telepresence robots; teleprinters; teleprinters; teleprompters; teleprompters; telescopes; telescopes; telescopic bow sights for archery; telescopic bow sights for archery; telescopic inspection mirrors for automotive use; telescopic inspection mirrors for automotive use; telescopic lens sights; telescopic lens sights; telescopic riflescopes; telescopic riflescopes; telescopic sights; telescopic sights; telescopic sights for artillery; telescopic sights for artillery; telescopic sights for firearms; telescopic sights for firearms; telescopic sights for guns; telescopic sights for guns; teletypewriters; teletypewriters; television aerials; television aerials; television cameras; television cameras; television converters; television converters; television decoder; television decoder; television monitors; television monitors; television receivers; television receivers; television sets; television sets; television transmitters; television transmitters; televisions; televisions; televisions and video recorders; televisions and video recorders; temperature gauges; temperature gauges; temperature indicator labels for dishwashers; temperature indicator labels for dishwashers; temperature sensors; temperature sensors; temples for sunglasses; temples for sunglasses; terminals for radiotelephones; terminals for radiotelephones; test adapters for testing printed circuit boards; test adapters for testing printed circuit boards; test pins for testing printed circuit boards; test pins for testing printed circuit boards; test tubes; test tubes; testers for axle clearance; testers for axle clearance; textile testing machines; textile testing machines; theater glasses; theater glasses; theatre glasses; theatre glasses; theodolites; theodolites; thermal imaging cameras; thermal imaging cameras; thermal printers; thermal printers; thermal sensors; thermal sensors; thermionic tubes; thermionic tubes; thermionic valves; thermionic valves; thermistors; thermistors; thermo-hygrometers; thermo-hygrometers; thermosensitive temperature indicator strips; thermosensitive temperature indicator strips; thermostats; thermostats; thermostats for vehicles; thermostats for vehicles; thin client computers; thin client computers; Thin Film Transistor-Liquid Crystal Display (TFT-LCD) panels; Thin Film Transistor-Liquid Crystal Display (TFT-LCD) panels; thread counters; thread counters; threaded cable connectors of metal; threaded cable connectors of metal; three-dimensional scanners; three-dimensional scanners; thyristors; thyristors; ticket dispensers; ticket dispensers; ticket validation mechanisms for automatic gates; ticket validation mechanisms for automatic gates; tilting heads for cameras; tilting heads for cameras; time and date stamping machines; time and date stamping machines; time clocks; time clocks; time switches; time switches; timer switches; timer switches; timing discs; timing discs; timing sensors; timing sensors; tire balancing machines for land vehicles; tire balancing machines for land vehicles; tire pressure gauges; tire pressure gauges; tire tread depth gauges; tire tread depth gauges; tone arms for record players; tone arms for record players; toner cartridges, unfilled, for printers and photocopiers; toner cartridges, unfilled, for printers and photocopiers; totalizators; totalizators; touch pads; touch pads; touch panels; touch panels; touch screen pens; touch screen pens; touch screens; touch screens; touch sensitive switches; touch sensitive switches; touchpads for computers; touchpads for computers; touchscreen monitors; touchscreen monitors; touchscreens for smartphones; touchscreens for smartphones; trackball input devices; trackball

input devices; trackballs; trackballs; traffic cones; traffic cones; traffic control lights; traffic control lights; traffic lights; traffic lights; traffic-light signaling devices; traffic-light signaling devices; transceivers; transceivers; transistors; transistors; transits for surveying; transits for surveying; transparency projection apparatus; transparency projection apparatus; transponders; transponders; triangles for laboratory use; triangles for laboratory use; triodes; triodes; tripods for cameras; tripods for cameras; tripods for surveying machines; tripods for surveying machines; tripods for telescopes; tripods for telescopes; truck scales; truck scales; TV cameras; TV cameras; TV monitors; TV monitors; TV sets; TV sets; two-way radios; two-way radios; tyre tread depth gauges; tyre tread depth gauges; tyre-pressure measurers; tyre-pressure measurers; ultra high definition televisions; ultra high definition televisions; ultrashort pulse lasers for spectroscopy; ultrashort pulse lasers for spectroscopy; underwater power cables; underwater power cables; uninterruptible power supplies; uninterruptible power supplies; unmounted spectacle frames; urinometers; USB (universal serial bus) operating software; USB cables; USB cables for cellular phones; USB cables for mobile phones; USB card readers; USB chargers; USB flash drives; vacuum distillation columns for laboratory use; vacuum gauges; vacuum tube characteristic testers; vacuum tubes for radios; varifocal eyeglass lenses; varifocal eyeglasses; varifocal spectacle lenses; variometers; vehicle breakdown warning lamps; vehicle breakdown warning triangles; vehicle dipsticks; vehicle drive training simulators; vehicle radios; vehicle stereos; velocity sensors; verniers; vertical levels; vibration dampeners for electronic audio equipment; vibration meters; vibration sensors for installation in wind mill housings; vibration sensors for installation in windmill housings; video and computer game programs; video baby monitors; video cable adapters; video camera cases; video camera covers; video camera stands; video cameras
