# Trademarks Journal

## Vol. 71 No. 3636

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely electric wires, electric switches, electrical connection boxes, electric control panels, electronic control circuits, electricity meters, electric connectors, electric capacitors, electric transformers, electrical cables; wireless telecommunication computer hardware and software for sending, receiving, storing, recording, displaying and reproducing digital images and audio recordings; blank magnetic computer tapes and discs, blank record discs; blank compact discs, blank dvds, dvds containing recordings of television shows and movies; Mechanisms for coin-operated devices, namely, for amusement machines, arcade games and vending machines; Cash registers, electronic calculators, computer hardware for data processing; Computer software for connecting computers and for enabling cloud computing, and computer software to enable unified electronic messaging services, namely, voice calling, video telephone, video conferencing,

voice mailing, text messaging, screen sharing, and digital file transfer between computer users; telecommunications, telephonic and communications apparatus and instruments, namely, telephones, mobile and fixed location telephones, video telephones, smartphones, GPS receivers and transmitters; radio telephones, mobile and fixed telephones; mobile phones; portable telecommunications apparatus, namely portable telephones; smartphones; cases for telephones; headsets for telephones; handheld, mobile and tablet computers; wearable electronic telecommunication and computing devices, namely, wearable cameras, wearable computers, wearable computers in the nature of smart watches, wearable computers in the nature of smart glasses, wireless communication devices for transmitting images taken by a camera, wearable activity trackers; wireless telecommunication computer hardware and software for sending, receiving, storing, displaying and reproducing voice messages, data and digital images; personal digital assistants, wireless cell phones; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; digital voice signal processors; computer networking and data communications equipment, namely network interface cards, computer network servers, computer network adapters, computer network switches, computer network interface devices, computer networking hardware, multiplexers, optical multiplexers, telecommunications multiplexers, and video multiplexers; computer hardware for data processing, and computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; electronic databases containing downloadable images, graphics and videos; digital telephone computer software; computer hardware for telecommunications; computer hardware for telecommunications, gps transmitters, video transmitters, satellite transmitters, telephone transmitters, optical transmitters, cables for electrical and optical signal transmission, ethernet cables, high definition multimedia interface cables and transceivers; modems; network routers; broadband Internet Protocol (IP) electronic encryption units for use in mobile networks, wireless broadband cellular communication base station transmitters, receivers and network interface devices, base stations for indoor and short range coverage, portable base stations that may be moved to and deployed at a location on a temporary basis, two-way wireless broadband communication services provided within automotive vehicles, namely providing two-way messaging and voice communication via a global computer network and radio wide area network (wan) routers, and operating software and hardware; digital-to-analog converters, television decoders, and computer software for unlocking mobile phones; set-top boxes and personal video recorders, and computer software used to set up, calibrate and update set-top boxes and personal video recorders; satellite receivers, signal amplifiers, satellite antennas, satellite transceivers, satellite transmitters, cable television transmitters, and cable television receivers; computer hardware for data processing; wireless handheld units and devices, namely, personal digital assistants, wireless cell phones, mobile phones, cellular phones, smartphones, video phones, handheld mobile and tablet computers; remote controls for cell phones and televisions; personal digital assistants; electronic sensors namely pedometers and altimeters; barcode and quick response code readers and scanners; downloadable digital sound and video recordings featuring music, ring tones, electronic games, videos, MP3 recordings, graphics, photographs and artworks; blank secure digital (SD) memory cards; downloadable digital media content, namely films, television programmes, radio programmes, videos, images, music, texts, data, images, graphics and ringtones, provided from a computer database, the Internet or electronic communications network; satellite receiving and transmission apparatus and instruments; software for playing computer and video games; downloadable games, namely, downloadable computer game programs; downloadable electronic publications in the nature of newsletters, books, magazines, editorials, newspapers, reports, digital manuals, cartoons, periodicals and journals; machine readable data carriers, namely, blank magnetic, digital and optical discs, and blank USB

flash drives; battery chargers for mobile phones; battery chargers for smart phones; battery chargers for mobile computers; battery chargers for tablet computers; battery chargers for smart watches; battery chargers for wearable computers; battery chargers for wearable activity trackers; battery chargers for wearable computers in the nature of smart glasses; batteries for mobile phones; batteries for smart phones; batteries for mobile computers; batteries for tablet computers; batteries for smart watches; batteries for wearable computers; batteries for wearable activity trackers; batteries for wearable computers in the nature of smart glasses; external battery pack for use with smart phones, mobile phones, tablet computers and smart watches; peripheral equipment for televisions and computers, namely, keyboards, modems, speakers, digital cameras, webcams, microphones, cable television receivers, loudspeakers; computers, namely laptop and notebook computers; electronic personal organisers; desk or car mounted units incorporating a loud speaker to allow a telephone handset to be used hands-free; in-car telephone handset cradles; instructional software and educational software containing topics of instruction in the field of information technology; data meters; smart meters, namely, water meters, gas meters, electric current meters, electricity meters, energy meters, for tracking and monitoring energy usage; sound level meters, flow meters, frequency meters, vibration meters, proximity sensors, temperature meters for household and industrial purposes, pressure meters and meters for testing humidity; blank and pre-recorded magnetic cards, namely, credit cards, SIM cards, magnetically encoded gift cards; cards containing microprocessors; telephone cards, namely, pre-paid encoded electronic chip telephone calling cards; credit, debit and payment cards; telephone credit cards; magnetically encoded cards, namely credit, debit and payment cards, key cards; computer application software provided via computer and communication networks for maintenance and updating of computer software on handheld telecommunications units and devices, namely, personal digital assistants, wireless cell phones, mobile phones, cellular phones, smartphones, video phones, handheld mobile and tablet computers; data communications software, namely computer programs for connecting to remote computers and computer networks, and for providing multiple user access to a global information network; application software, including application software for mobile devices and mobile telephones, namely downloadable computer application software for purchasing applications for mobile phones, tablet computers and handheld electronic devices for enabling peer-to-peer networking and file sharing, for conducting and co-ordinating communications among mobile telephone users sharing information and audio data via mobile phone networks for account and bill management of a cellular or data telecommunications services plan, for access to a consumer loyalty scheme; downloadable computer software applications, namely, downloadable computer software for updating computer software in the fields of mobile telephones, provided via computer and electronic communication networks, downloadable computer software for accessing downloadable electronic publication in the nature of directories; computer software and application software for the synchronization, transmission and sharing of voice messages, videos, and calendar and digital media content between one or more electronic devices, and for purchasing applications for handheld computers, tablet computers and handheld electronic game devices; operating system software; computer software for the streaming, transmission and encryption and storage of text messages, videos, photographs, graphics, music and digital files on and over communication networks; computer software platforms for social networking, and computer software to enable sharing information in electronic form via computer and communication networks in the fields of news, financial data, computer games, music, live musical concerts and sporting events, movies, television shows, and news and sports webcasts; computer search engine software; computer software for editing images, sound and video; facial, speech, voice and gesture recognition software, and facial analysis software; computer software for use in electronic access control systems for interlocking doors; software for computer security, including antivirus, firewalls, antispam, anti-spyware, web filtering; computer software for anti-intrusion alarms, and

machine learning software used in computer intrusion networks detection programs; virtual private network operating software; computer software for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index, sleep patterns, locations, attitude, weather and temperature; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; anti-theft alarms, other than for vehicles electronic tags for inventory control purposes, bar code scanners, and labels with integrated radio frequency identification [RFID] chips; anti-collision sensors for vehicles; electronic devices being wireless item locators and electronic devices being wireless radio-based item locators; software for the remote control, monitoring and command of home appliances and lighting systems, and remote controls for portable telephones, smartphones, tablet computers, televisions and lighting systems; alarm devices and installations, namely carbon monoxide and carbon dioxide sensors, fire and smoke detectors, motion detectors, anti-intrusion alarms, and theft alarms; satellite navigation systems and software for satellite navigation systems; computer systems comprised of computer software to enable downloading and updating of computer software in vehicles; electronic access control systems for mobile phones, smart watches, laptop and tablet computers, and biometric access control systems, biometric fingerprint scanners, biometric hand scanners, and biometric retinal scanners; closed circuit television systems; cameras, television cameras and video recorders for closed-circuit television; optical and photographic apparatus, namely, cameras, optical sensors, video cameras, lens filters for cameras, camera filters, cameras incorporated in smartphones, cameras incorporated in tablet computers, cameras incorporated in computers, cameras incorporated in drones; electronic speedometers; electronic odometers; electronic tachometers; cruise controls for motor vehicles and electronic speed controllers; kilometre recorders for vehicles; electronic sensors, namely, temperature sensors, vibration sensors, infrared sensors, touchscreen sensors, LED position sensors; sirens; electric locks for vehicles; remote control apparatus, namely, remote controls for radios and televisions; electronic keys for vehicles; electronic key fobs being remote control apparatus ;mobile applications for remotely unlocking and opening vehicle doors, hoods, sunroofs, convertible tops, and trunks; wireless headsets and intercom systems for motorcycle helmets; Global Positioning System [GPS] transmitters and receivers; navigation apparatus for vehicles in the form of on-board computers, vehicle locating devices and vehicle tracking devices; systems for communication between vehicles and road infrastructures, namely integrated circuit electronic toll cards, navigation computers for cars, heads-up displays for motor vehicles, proximity sensors, dashboard cameras and car video recorders; cameras, video monitors and display monitors and sensors to detect road markings and distance; Global Positioning System [GPS] consisting of computers, computer software, transmitters, receivers, and network interface devices, and navigation apparatus for vehicles in the form of on-board computers, rearview cameras and distance sensors; parking sensors for vehicles, rearview cameras for vehicles, proximity sensors for vehicles; vehicle on-board computers; on-board electric, electronic or optical equipment for vehicles, including land vehicles, namely, computers, car televisions, car radios, navigational instruments for vehicles, vehicle navigation systems equipped with telematics function, comprised of car navigation computers, cell phones, wireless internet devices which provide navigation services and have a cellular phone function and non-internet based wireless communications devices, interactive computer vehicle control system to manage vehicle functions by customizing vehicle settings relating to navigation, in-vehicle temperature, cabin air, light and seat adjustments, driving mode, and engine and gearbox performance levels; computerized vehicle engine analyzers, vehicle security systems, electronic control systems for automobile climate control, electronic controllers for vehicle mirrors, interactive computer application software for use in cell phones that enables users to connect remotely with their vehicles to access vehicle information and control functions; systems for the downloading and updating of computer software to and from

vehicles; devices to detect and/or exchange data between a vehicle and a remote unit for security purposes; automotive computer software to aid parking for vehicles; electronic in-vehicle parking meters; parking sensors for vehicles, rearview cameras for vehicles, electric reversing alarms for vehicles, blind spot mirrors and proximity alarms, and heads-up displays for motor vehicles; pre-collision detection and collision avoidance systems; electronic immobilisers for vehicles; in vehicle touch screen computer systems; vehicle locating devices and vehicle locating systems; watches that communicate data to smartphones; downloadable software for sales promotion and demonstration purposes, for customising display screens; sim cards; telematics apparatus, namely vehicle tracking systems and devices; computer software to enable telematic in-vehicle communication service providing wireless vehicle navigation and tracking, road and traffic information, and driver safety information; game controllers; haptic sensors, equipment and apparatus, namely touchscreen monitors, display screens, electronic touchscreen displays, touch sensitive switches, projected capacitive touch sensors, smart glasses and virtual and augmented reality glasses and headsets and 3D holographic projectors, and virtual reality software for playing computer games, for pilot training, for cinematography, and for training in the field of security; virtual reality software and hardware; augmented reality software and hardware; computer hardware modules for use with the Internet of Things [IoT]; computer hardware modules for use in electronic devices using the Internet of Things [IoT]; computer communications software, namely network operating system programs for mobile phones, and subscriber identification module [SIM] cards; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; software for computer security, including antivirus, firewalls, antispyware, anti-spyware, web filtering and intrusion detection software; computer software for use in the field of customer relationship management (CRM); voice command and recognition software, speech to text conversion software, and software applications for digital voice signal processors-enabled software applications; instant messaging software and Internet messaging software; downloadable computer software for online appointment scheduling, and for making hotel, restaurant, theatre and airline reservations; computer software for personal information management; computer software and application programming interface (api) for controlling, monitoring and operating a network of interconnected electronic devices between wirelessly connected machines, smart phones, electronic touch screen devices, computers, hand-held computer and tablet computers and home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and security alarms, via the Internet; chatbot computer software and application software for simulating conversations, for providing business management information for appointment scheduling, and for booking hotel reservations, and ticket reservations of seats for entertainment, sporting and cultural events; artificially intelligent chatbot computer software and application software for providing customer support and customer services; customer service chat robot software; humanoid robots with artificial intelligence; electronic controllers for the control, monitoring and command of home appliances, and electronic controllers for home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and security alarms, via the Internet; electronic controllers for networked devices, appliances, machinery and installations in the Internet of Things (IoT) to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; motion sensitive interactive video game remote control units; interactive video game remote control units; computer software for use in connection with the electronic transmission of voice messages; computer software, and computer

peripherals for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; wireless controllers for the control, monitoring and command of home appliances, and electronic controllers for home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and security alarms, via the Internet; computer touchscreens; parental control software for preventing, restricting, and limiting access to webpages, Internet sites, mobile Internet applications and television stations on electronic devices, namely, cell phones, tablet computers laptops, and televisions; computer networking apparatus, namely, computer network adapters, switches, routers and hubs; e-commerce software to allow users to perform electronic business transactions via a global computer network

## **Services**

### **Class 35**

(1) providing promotional marketing and advertising services to businesses in the telecommunications industry; retail services featuring telephones, mobile telephones, smartphones, handheld computers, tablet computers, wireless routers, network routers, chipsets for connecting multimedia home devices, home phones, VoIP phone, digital cordless phone devices, computer software, computers and electronic communications equipment, set-top boxes and modems, artificial intelligence hardware; promoting the goods and services of others by providing a website featuring rebates, price-comparison information, product reviews, links to the retail websites of others, and discount information; telephone answering and message handling services; advertising of goods and services of others via local and global computer networks; promoting the goods and services of others by means of providing online links to vendors of computer hardware and software via a website, the Internet and global communications networks; promoting the goods and services of others by means of providing online links to vendors of exhibitions and events in the fields of entertainment, fashion, lifestyle, music, sports, news, current affairs, business, finance, trade, technology, science, nature, industry, transport, art, history, travel and culture, games and gaming, film and navigation via a website, the Internet, and global communications networks; promoting the goods and services of others by means of providing online links to vendors of downloadable digital media content, films, television programmes, radio programmes, music videos, downloadable musical sound recordings, text, voice messages, text messages and electronic mail, digital images and photographs, graphics and ringtones, via a website, the Internet, and global communications networks;; provision of business commercial information and advice to the prospective purchasers of commodities and goods; administration of loyalty programmes involving discounts or incentives; loyalty card services, namely, promoting the goods and services of others by means of the issuance of loyalty rewards cards; organisation, operation and supervision of sales and promotional incentive schemes, namely arranging and conducting incentive reward programs to promote the sale of telephones, mobile and fixed telephones, smartphones, GPS tracking devices, and telecommunications services, namely, cellular telephone communications; provision of business commercial information and advice on the supply and promotion of products and selection and display of goods; compilation and systemization of information into computer databases; updating and maintenance of data in computer databases; indexing of documents and web indexing for commercial or advertising purposes via global computer networks; compilation of directories, namely, business and commercial directories, for publication on computer databases, the Internet or other electronic networks; searching and retrieving content from information directories, websites and cloud

servers, computer services and network servers on computer networks; compiling business data in the field of consumer technology; arranging and conducting of exhibitions for business purposes in the field of telecommunications; database management and data processing services in the field of telecommunications; data management services for use in electronic storage of business data; collection of data in the field of telecommunications, namely compiling business data; business data analysis services in the field of computer networking and data communications; business promotion being promotion of business opportunities, market research, management, administration, assistance and information services; business strategy and planning services; economic forecasting, marketing assessment consultancy, market research, market analysis and survey services; publication of publicity texts; compilation of statistical information; provision of trade information in the field of telecommunications; dissemination of advertising for others via wireless network, or a global computer network; television advertising and radio advertising for others and advertising the goods and services of others via electronic media and specifically the Internet; telephone answering and message handling services; provision of business and marketing information and advice on the supply and promotion of products and selection and display of goods; consumer membership program services, namely, membership club services providing discounts and processing rebates for the goods and services of others in the fields of telecommunications, home electronics, computer hardware, fashion, beauty, home décor, fitness and food products; promoting the sale of goods and services through a customer loyalty program; arranging radio subscriptions to telecommunication services for others; arranging subscriptions to telematics, telephone and computer Internet services for others; auctioning via telecommunications networks; electronic commerce services, namely, providing information about products via telecommunication networks for advertising and sales products; publicity and sales promotion relating to goods and services, namely, publicity and sales promotion relating to goods and services offered and ordered by telecommunications; business promotion services provided by telephone, namely, sales promotion services; organisation for a third party of telephone welcoming services and of telephone receptionist services; providing online commercial information directory services on the Internet; provision of business directory services; arranging of subscriptions to online music streaming services

### **Class 38**

(2) mobile and fixed telecommunication services, namely fixed and mobile telephone services, satellite television, satellite telephone and satellite radio services, cellular telephone services, mobile radio telephone services, radio facsimile transmission, radio paging services and Internet radio broadcasting; wireless electronic transmission of voice messages; voice messaging and voicemail services; electronic mail and voice mail services; leasing and rental of radio pagers, radio telephones and radio facsimile apparatus; rental of telecommunication facilities; leasing of telephone circuits; cellular telephone communication services; voice over IP services; providing access to a global computer network and Internet access provider services; recording, storage and subsequent transmission of voice messages by telephone and mobile telephone; personal numbering services, namely, local number portability services; provision of Internet services, namely Internet access services; internet service provider (ISP) services; telecommunication of information, namely providing access to a web, mail and news portal, and providing multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; electronic mail services; providing Internet access via fibre optic broadband networks and telephone carrier services provided by means of fibre optic cables; providing Internet access via wireless broadband networks; Internet telephony services, wireless mobile telephone services and voice over Internet Protocol [VoIP] services; integrated service digital network (isdn) services; providing access to a web, mail and news portal; telephone call completion services for

directory assistance customers; telecommunication services, namely, location based cellular and digital text messaging services; provision of wireless application protocol services including those utilising a secure communications channel, namely transmission and reception of data via wireless application protocols [WAP] over a telecommunications network; provision of information to identify telephone and telecommunications apparatus and instruments and call screening services; telecommunications bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; provision of electronic data interchange (EDI) services; providing streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website, via the Internet, and via a global computer network; delivery of digital media content, namely films, television programmes, radio programmes, videos, music, text, computer data, images, graphics and ringtones, via the Internet or a global computer network; broadcasting of films and television programs via a video-on-demand service, and broadcasting of television news programs, and of radio and television programs; broadcast or transmission of radio or television programmes; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; distribution of news podcasts, streaming of audio and video via the Internet featuring news and current events, and webcasting of news shows; wireless electronic transmission of music over the Internet and via wireless and cellular networks; providing access to social networking websites; video text services, video conferencing services, interactive video text services; cellular text messaging services, digital text messaging services, videotext messaging services, wireless digital messaging services, wireless electronic transmission of voice messages, facsimiles, text messages, streaming video, movies, music, photographs and digital images in the fields of news, financial data, computer games, music, live musical concerts and sporting events, movies, television shows, and news and sports webcasts over the internet and via wireless and cellular networks; unified electronic messaging services, namely, voice calling, video telephone, video conferencing, voice mailing, text messaging, screen sharing, and digital file transfer between computer users; voicemail services; providing access to a global computer network and providing access to a website providing users with secure remote access to private computer networks; video conferencing services; video telephone services; providing telecommunications connections to the Internet, and providing multiple-user wireless access to the Internet; provision and operation of electronic conferencing; rental of access time to computer databases, to electronic bulletin boards, and to global computer networks, to electronic books, periodicals, magazines, catalogues, electronic computer manuals; providing access to a web, mail and news portal, and to websites featuring educational content in the fields of telecommunications, information technology, environmental sciences, financial services and careers advice; communications networks for systems of smart metering, namely, providing electronic telecommunications connections and networks for use with systems of hardware and software for smart metering being real-time measurement of input, output or consumption of energy, electricity, water, gas, sound levels, vibration levels, proximity, frequency, temperature, pressure or humidity ; communication services, namely, providing the ability to contact a remote call centre from a vehicle to report accidents and emergency situations so that vehicle location can be determined and emergency personnel dispatched; emergency response services, namely, sending electronic alert notices via telecommunication networks; provision of access to Internet platforms for the purpose of e-commerce transactions; providing access to databases, providing access to an electronic bulletin board, and providing access to a global computer network; the provision of computer networks, wireless networks and cellular networks for the reception, transmission, regeneration and sharing of digital data and digital documents; providing streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website, and streaming of audio and video via the Internet featuring music, movies, news and sports, and transmission of

audio-visual clips and recordings over the Internet, over a wide-area network, and over a local area network; providing access to databases; database network interconnection services, namely providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; email data services; providing multiple-user access to a global computer information network; providing information about radio and television broadcasting; providing access to a website providing users with secure remote access to private computer networks, and providing a gateway for connecting between independent telecommunications and computer networks for sharing of Internet traffic; telecommunications services, namely, providing access to a website for facilitating electronic transmission over computer networks of user-selected content, namely, text messages, computer graphics, online content in the nature of photographic images, multimedia messages containing audio and video content, namely, animated graphics, animated photographic images, user up loaded video clips, movies and television programs, live streaming of user uploaded video clips and video messages via the Internet, global communication networks and wireless networks and providing online communication links that transfer website users to other local and global web pages; providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; provision of access to Internet platforms for the purpose of e-commerce transactions

#### **Class 41**

(3) education services, namely, conducting classes, seminars, conferences, workshops in the field of telecommunications, entertainment, lifestyle, music, sports, news and current affairs, business, finance, e commerce, technology, medical and social science, nature, entertainment and travel industry, transport, farming and agriculture, art, history, travel, culture and languages; providing of training in the field of telecommunications; entertainment services, namely providing information in the field of music videos, gaming, films, theatre productions, live comedy and television shows, fashion, music, sports, news and current affairs, art, history, travel, culture and languages; organizing community sporting and cultural events; education and training including such services provided on-line from a computer, the Internet or other electronic network, namely, conducting classes, seminars, conferences, and workshops in the field of telecommunications; providing on-line computer games; radio and television entertainment services including those provided on-line from a computer, the Internet or other electronic network, namely, distribution of radio and television programs; sporting and cultural activities, namely, providing information relating to sporting, cultural and live theatrical productions, sports and sporting events; providing on-line electronic publications in the nature of newsletters, books, magazines, articles, newspapers, reports, manuals, cartoons, illustrated periodicals and research periodicals provided on-line from computer databases, the Internet or other electronic network in the fields of entertainment, telecommunications, lifestyle, music, sports, news and current affairs, business, finance, e-commerce, technology, medical and social science, nature, entertainment and travel industry, transport, farming and agriculture, art, history, travel, culture and languages; publication of electronic books and journals on-line; arranging and conducting of educational conferences, seminars, symposia, tutorials and workshops in the field of telecommunications; educational services, namely, conducting interactive and distance learning courses and sessions provided on line via a telecommunications link or computer network or provided by other means in the field of telecommunications; electronic library services for the supply of electronic information (including archive information) in the form of text, audio and/or video information; providing digital content including music, films and games from a computer database, the internet or other electronic network, all for entertainment or educational purposes, namely, providing online non-downloadable music, providing non-downloadable films via video-on-demand services, providing non-

downloadable TV shows via video-on-demand services, providing online computer games; providing online searchable databases and directories for obtaining data in the fields of music, video, film, books, television, games and sports; production of media content for entertainment and educational purposes, namely production of radio programs, film production other than advertising films, music production services; publication and dissemination of user-generated digital media content for entertainment and educational purposes, namely, publication of magazines, dissemination of printed educational materials of others in the field of entertainment, lifestyle, music, sports, news and current affairs, business, finance, e-commerce, technology, medical and social science, nature, entertainment and travel industry, transport, farming and agriculture, art, history, travel, culture and languages; online publication of blogs and video blogs in the fields of entertainment, lifestyle, music, sports, news and current affairs, business, finance, e-commerce, technology, medical and social science, nature, entertainment and travel industry, transport, farming and agriculture, art, history, travel, culture and languages; entertainment services provided on-line from a computer database or the internet, namely, providing online computer games, non-downloadable ringtones, pre-recorded music, and graphics presented to mobile communications devices via a global computer network and wireless networks; providing educational information in the fields of entertainment, lifestyle, music, sports, news and current affairs, business, finance, e-commerce, technology, medical and social science, nature, entertainment and travel industry via a website and via the Internet; providing sports and entertainment information by means of telephone prerecorded messages; providing online electronic games and online virtual reality computer games for use on mobile phones; arranging and conducting singing competitions, music competitions, spelling competitions, math competitions, and contests for entertainment purposes provided by telephone; providing sports information by telephone; library services provided by means of a computerised database; electronic games services provided by mean of the internet; providing digital music from the internet; publication of material which can be accessed from databases or from the Internet, namely, publication of newsletters, books, magazines, articles, newspapers, reports, manuals, cartoons, illustrated periodicals and research periodicals; providing non-downloadable publications from the internet which may be browsed in the nature of newsletters, books, magazines, articles, newspapers, reports, manuals, cartoons, illustrated periodicals and research periodicals in the fields of entertainment, lifestyle, music, sports, news and current affairs, business, finance, e-commerce, technology, medical and social science, nature, entertainment and travel industry, transport, farming and agriculture, art, history, travel, culture and languages; online electronic publishing of books, periodicals, magazines, publications and electronic games; providing online computer games, namely, providing interactive multiplayer games via communications networks including the Internet; arranging and conducting of exhibitions for entertainment purposes in the fields of entertainment, lifestyle, music, sports, news and current affairs, business, finance, e-commerce, technology, medical and social science, nature, entertainment and travel industry, transport, farming and agriculture, art, history, travel, culture and languages; entertainment services, namely, the provision of streamed or downloadable music, films, TV programmes, audio books and games to online usage via global or local computer networks; providing reviews ratings and user rankings for movies, music, live theatrical performances, television shows, podcast contents, magazines, books, games and video games, and books for entertainment purposes

Computer software, namely software for designing, planning, analyzing and optimizing bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; software for designing, planning, analyzing and optimizing industrial processes, in particular machining processes and manufacturing processes, in particular for screw machines; software for controlling and monitoring machines, in particular screw machines; software for monitoring, controlling and evaluating machining processes and manufacturing processes in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; software for simulating installations and machines, in particular screw machines and machining processes, in particular for screw machines and manufacturing processes; computer software for calculation of operational and status data, namely software for use in the simulation of bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; computer software for calculation of operational and status data, namely optimization software for use in bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; computer software for three-dimensional simulation for use in design and development of industrial products, namely software for three-dimensional simulation of industrial processes for machines and manufacturing; computer software for three-dimensional simulation for use in design and development of industrial products, namely for the planning of industrial processes, namely of machining processes and manufacturing processes; software for the automation of industrial processes, namely bulk material handling processes and manufacturing processes in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; databases, namely electronic databases containing information in the field of bulk handling machines and processing machines used in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; databases, namely electronic databases containing information about parts for bulk handling machines and processing machines; computer software for data processing in the field of bulk handling machines and processing machines used

in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; computer hardware; computer hardware for data processing namely data processing apparatus; computer peripheral devices, namely sensors for controlling machines and evaluating manufacturing and machine data; none of the aforesaid being for or in relation to interactive game software, computer game software, video game software, computer game hardware, video game hardware and hardware for interactive games.

## **Services**

### **Class 35**

(1) Database management; updating and maintenance of data in computer databases.

### **Class 37**

(2) Maintenance and repair of bulk handling machines and processing machines used in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; retrofitting and upgrading of bulk handling machines and processing machines used in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; installation of computer hardware, computer hardware namely data processing apparatus and sensors for controlling machines and evaluating manufacturing and machine data in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; installation of hardware and cables for Internet access; installation of technical equipment, namely, bulk handling machines and processing machines used in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry.

### **Class 38**

(3) Providing access to databases, namely providing connection services for databases.

### **Class 41**

(4) Arranging and conducting of training in the design, development, operation and maintenance of bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry.

### **Class 42**

(5) Creation, maintenance, updating, rental, provision of temporary use and servicing of software and computer programs for the operation and maintenance of bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; development, updating and maintenance of software, databases and computer programs; consultancy services in relation to software and computer programs; software as a service [SaaS] with software for designing and planning machining processes and manufacturing processes, in particular for screw machines; software as a service [SaaS] with software for controlling and monitoring machines, in particular screw machines; software as a service [SaaS] providing software for monitoring, controlling and evaluating machining processes and manufacturing processes for the operation and maintenance of bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; software as a service [SaaS] with software for simulating machines, in particular screw machines, and machining processes, in particular for screw machines, and manufacturing processes; technical planning and consultancy services for the design, implementation, operation and maintenance of bulk material handling machines and processing machines in the chemical, pharmaceutical, plastics, rubber, mineral material, textile, cosmetic and food industry; development and installation of software; development and installation of customized software; development of customized solutions, namely development of software in particular for the automation of machining processes and

manufacturing processes and for the networking of machines; installation of computer software, in particular for the purpose of automation of machining processes and manufacturing processes and for the networking of machines; none of the aforesaid being for or in relation to interactive game software, computer game software, video game software, computer game hardware, video game hardware and hardware for interactive games.

## TRADEMARK DETAILS

### Trademark Type

Motion

### Visual Representation

### Trademark Description

The mark consists of a motion mark. The mark consists of circles moving from left to right in a clockwise direction, beginning with one circle until three circles appear, and changing in width from thin oval shapes to wider circles to thin oval shapes as they pause in the center, and then continue moving to the right to appear as though the circles are disappearing into the distance.

### Goods

#### Class 09

Downloadable mobile applications for creating, viewing, publishing, reading, bookmarking, highlighting, annotating, responding to, recommending, and publicly sharing user generated multimedia content

### Services

#### Class 38

(1) Providing an on-line forum for discussion of news, political, cultural, academic, and social matters, as well as other topics of general interest

#### Class 41

(2) Electronic publishing services, namely, publication of text and graphic works of others on the internet and online featuring news, political, cultural, academic, and social matters, as well as other topics of general interest; providing a website featuring blogs and non-downloadable publications in the nature of magazines, newsletters, articles, periodicals, journals and anthologies in the fields of news, political, cultural, academic, and social matters, as well as other topics of general interest; providing non-downloadable electronic publications via a website in the nature of magazines, newsletters, articles, periodicals, journals, blogs and anthologies in the field of news, political, cultural, academic, and social matters, as well as other topics of general interest

#### Class 42

(3) Computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking services in the field of news, political, cultural, academic, and social matters, as well as other topics of general interest; hosting an online website featuring technology for uploading, posting, showing, displaying, tagging, sharing and transmitting messages, comments, multimedia content, photos, pictures, images, text, information, and other user-generated content; hosting a web site featuring technology that enables users to uploading, posting, showing, displaying, tagging, sharing and transmitting user generated messages, comments, multimedia content, photos, pictures, images, texts, and information and other user-generated content, namely, stories and articles; hosting an interactive website featuring technology that allows users to review various print, photographic, graphic image, and other user generated audio and video content; providing on-line non-downloadable software for uploading, posting, showing, displaying, tagging, sharing and transmitting user generated messages, comments, multimedia content, photos, pictures, images, texts, and information and other user-generated content, namely, stories and articles

#### **Class 45**

(4) Online social networking services; Online social networking services in the field of news, political, cultural, academic, and social matters, as well as other topics of general interest provided via a website

Design

### Visual Representation

### Trademark Description

The mark consists of a tree design including the letter "Y" in black forming the trunk and two upwardly-divergent branches of the tree, and three overlapping circles forming the foliage of the tree, including a first central uppermost larger-sized circle of light green, a second medium-sized circle of dark green on the right side and partially behind the first circle, and a third smaller-sized circle of green on the left side and partially behind the first circle. The first uppermost circle is translucent, and the portions of the second and third circles positioned behind the first circle are partially visible therethrough. Each of the three circles is surrounded by a white circular border which disappears into the white background.

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) black, green, light-green, and dark-green is/are claimed as a feature of the mark. The mark consists of a tree design including the letter "Y" in black forming the trunk and two upwardly-divergent branches of the tree, and three overlapping circles forming the foliage of the tree, including a first central uppermost larger-sized circle of light green, a second medium-sized circle of dark green on the right side and partially behind the first circle, and a third smaller-sized circle of green on the left side and partially behind

the first circle. The first uppermost circle is translucent, and the portions of the second and third circles positioned behind the first circle are partially visible therethrough. Each of the three circles is surrounded by a white circular border which disappears into the white background.

### Goods

#### Class 01

(1) Plastics, unprocessed; synthetic resins, unprocessed; photocurable unprocessed plastics for use with computerassisted machines for making three-dimensional computeraided representations; plastics and synthetic resins for the fabrication of medical products; plastics and synthetic resins for the fabrication of dental products; photocurable plastic based on [meth] acrylate exclusively for use in the dental laboratory in the field of additive, digital prosthetics.

#### Class 05

(2) Pastes, polymer melts, gels and liquids for manufacturing partly and fully anatomical temporary dental crowns and bridges, and for long-term dental bridges and long-term dental crowns for dental prosthetics for manufacturing dental restorations.

#### Class 07

(3) 3D printers; 3D printers for dental purposes and for dental laboratories; machines for the production of three-dimensional printed objects for the dental field; computer-aided machines for manufacturing three dimensional parts for further manufacture in the dental field; machines for manufacturing three-dimensional models, namely computer-aided modeling devices and computer-aided designs in the dental field.

#### Class 09

(4) Computer hardware; workflow management system software, namely, downloadable software to automate the workflow of 3D printing; software for operating and controlling 3D printers; CAD-CAM software, namely, computer software for computer-aided design in the dental field; downloadable computer software for the design and modeling of 3D printed products.

#### Class 10

(5) Dental instruments and apparatus, namely surgical instruments and dental drills, dental impression trays, dental syringes; tooth models and drilling templates for use during dental surgery; teeth aligners; artificial teeth, dental prostheses; dental crowns, dental bridges, in particular of plastic and ceramic.

**Class 17**

(6) Thermoplastic filaments for 3D printers; semi-finished photocurable plastic in the form of filaments for additive manufacturing and production using the 3D printing process, in particular for the manufacture of all types of prosthesis bases, temporary and semi-permanent dental crowns and dental bridges, flexible teeth aligners and orthodontic apparatus, impression trays, dental models, residue-free burn-out molds, drilling templates as well as gingival masks in order to consider the periodontal situation on dental models.

### Goods

#### Class 07

(1) Lithography machines for the manufacture of microelectronics, integrated circuits, light emitting diodes, and semiconductors on laminar substrates including wafers, glass panels, and packaging panels such as copper plate or plastic; optical metrology, characterization, and inspection systems comprised of a machine, machine components and operating software therefor sold as a unit for use in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, ASIC devices, CMOS image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors, and inductors, advanced packaging electronics technologies, namely system-in-package (SIP) and fan-out packages, chiplets, heterogeneous packaging namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling; optical metrology, characterization, and inspection systems comprised of a machine and machine components and pre-installed operating software therefor sold as a unit for use in the production of precision machined optical surfaces, optical coatings, and optical assemblies including reference flat, sphere, asphere and assemblies composed of both refractive and reflective components.

#### Class 09

(2) Optical metrology, characterization, and inspection systems comprised of pre-installed operating software and machine components therefor sold as a unit for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; interferometers for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; downloadable software, namely, process control and defect analysis software for use

in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors, and inductors, advanced packaging electronics technologies, namely system -in -package (SIP) and fan-out packages, chiplets, heterogeneous packaging namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling.

## **Services**

### **Class 42**

Providing temporary use on online, nondownloadable process control and defect analysis software for use in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors and inductors, advanced packaging electronics technologies, namely system -in -package (SIP) and fan-out packages, chiplets, heterogeneous packaging namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling.

### Trademark Type

Design

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The logo is in a white square with red (for letter "i"), green (for letter "l"), blue (for letter "l") and yellow (for upside down letter "i") colors in the middle. The word ILLIYEEN is written in white with uppercase letters using "29LT Zarid Stencil SemiB" font from Canva. Both the logo and word ILLIYEEN are the principal parts of the trademark along with the colors mentioned above. All the above mentioned colors are features of the trademark. The black square in the background is not a feature of the trademark.

laboratory filters for use in laboratory equipment in the food industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the beverage industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the pharmaceutical industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment for chemical processing; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in industrial settings in the field of beverage, nutraceuticals, chemical production, food product manufacturing, and water purification; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the in the beverage, nutraceuticals, chemical production, food product manufacturing, and water purification industry; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the transmembrane industrial process separation; ultra-filtration membranes for laboratory apparatus.

### **Class 11**

(3) Membranes for the filtration of water; water filtering apparatus, namely, spiral wound membrane filtration elements; water filtering apparatus, namely, reverse osmosis filtration units; water filtering apparatus, namely, spiral wound reverse osmosis and nanofiltration membranes; water filtering apparatus, namely, membrane modules for removing dissolved and suspended materials from liquids, and replacement cartridges and filters therefor; membrane modules for removing dissolved and suspended materials from water, and replacement cartridges and filters therefor; water filtering apparatus, namely, reverse osmosis, nanofiltration, ultrafiltration, and microfiltration modules and systems; reverse osmosis membranes being water filtering apparatus.

### **Class 17**

(4) Polymeric membranes; polymeric porous membranes; cross-linked polymeric membranes in sheet form; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of sheets; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of films; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of rolls; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of tubes; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of fibres; transfer membranes of cellulose; transfer membranes of cellulose derivatives; natural and synthetic polymeric membranes and filtering materials being semi-processed polymer films in sheet form for use in manufacturing filtration media; natural and synthetic polymeric membranes and filtering materials being semi-processed polymer films in roll form for use in manufacturing filtration media; polymeric membranes for use in manufacturing filtration media; porous membranes in sheet form for use in manufacturing filtration media; semi-processed polymeric membranes for filtration in the nature of nanofiltration, ultrafiltration, microfiltration, and reverse osmosis.

### **Services**

#### **Class 40**

(1) Water filtration services; filtration of liquids for the purposes of purification and reducing concentration of substances; filtration services for the dairy industry; custom manufacturing of membranes, filters and filtration systems for others; manufacturing of membranes, filters and filtration systems to the order and specification of others.

#### **Class 42**

(2) Scientific research and development services in the fields of applied biomimetics, and polymer and protein membrane technology; biomimetic research; research and development in the biomimetic field; research and development in the field of polymer and protein membrane

technology; consultancy and engineering services in the field of biomimetics; consultancy relating to membrane technology.

**Claims**

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

The logo for VANDSTROM features the word "VANDSTROM" in a bold, dark green, sans-serif font. A teal-colored curved line is positioned beneath the letter "A", extending from the left side of the "A" and curving upwards to the right, forming a stylized water droplet shape.

### Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the dark green stylized word "VANDSTROM", with the "A" of the wording being on top of a teal curved line, such that the figures form the outline of a stylized water droplet.

### Goods

#### Class 07

(1) Membrane filtration systems for use as parts of machines; filtration membranes for use as parts of machines; filters used in machines for the filtration of fluids for the purposes of purification and reducing concentration of substances; filters used in machines for the filtration, purification and concentration of substances in water; filters used in machines for the filtration and purification of water.

#### Class 09

(2) Membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the dairy industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the food industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the beverage industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the pharmaceutical industries; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment for chemical processing; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in industrial settings in the field of beverage, nutraceuticals, chemical production, food product manufacturing, and water purification; membranes for filtration used for scientific purposes being laboratory filters for use in the beverage, nutraceuticals, chemical production, food product manufacturing, and water purification industry; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment in the transmembrane industrial process separation; ultra-filtration membranes for laboratory apparatus.

**Class 11**

(3) Membranes for the filtration of water; water filtering apparatus, namely, spiral wound membrane filtration elements; water filtering apparatus, namely, reverse osmosis filtration units; water filtering apparatus, namely, spiral wound reverse osmosis and nanofiltration membranes; water filtering apparatus, namely, membrane modules for removing dissolved and suspended materials from liquids, and replacement cartridges and filters therefor; membrane modules for removing dissolved and suspended materials from water, and replacement cartridges and filters therefor; water filtering apparatus, namely, reverse osmosis, nanofiltration, ultrafiltration, and microfiltration modules and systems; reverse osmosis membranes being water filtering apparatus.

**Class 17**

(4) Polymeric membranes; polymeric porous membranes; cross-linked polymeric membranes in sheet form; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of sheets; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of films; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of rolls; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of tubes; polymeric membrane elements being semi-processed polymeric filtering materials in the nature of fibres; transfer membranes of cellulose; transfer membranes of cellulose derivatives; natural and synthetic polymeric membranes and filtering materials being semi-processed polymer films in sheet form for use in manufacturing filtration media; natural and synthetic polymeric membranes and filtering materials being semi-processed polymer films in roll form for use in manufacturing filtration media; polymeric membranes for use in manufacturing filtration media; porous membranes in sheet form for use in manufacturing filtration media; semi-processed polymeric membranes for filtration in the nature of nanofiltration, ultrafiltration, microfiltration, and reverse osmosis.

**Services****Class 40**

(1) Water filtration services; filtration of liquids for the purposes of purification and reducing concentration of substances; filtration services for the dairy industry; custom manufacturing of membranes, filters and filtration systems for others; manufacturing of membranes, filters and filtration systems to the order and specification of others.

**Class 42**

(2) Scientific research and development services in the fields of applied biomimetics, and polymer and protein membrane technology; biomimetic research; research and development in the biomimetic field; research and development in the field of polymer and protein membrane technology; consultancy and engineering services in the field of biomimetics; consultancy relating to membrane technology.

## Services

### Class 35

(1) advertising agency services; rental of advertising space via a global computer network; advertising the goods and services of others via a global computer network; providing advertising space in a periodical; rental of advertising space; electronic billboard advertising of the goods and services of others; promoting of online websites of others through advertisements on Internet websites; promoting of computer networks of others through advertisements on Internet websites; providing online business consulting services via a website, namely, business management consultancy services provided via a website, providing commercial information and advice for consumers in the choice of products and services via a website, providing business management consultancy services in the field of transport and delivery via a website, providing business consulting services in the field of client relationship management via a website; market studies; promoting the goods and services of others by providing on-line and off-line marketplaces for posting, promotion, sale and resale of goods via a global computer network and retail stores;

import-export agency services; provision of an online marketplace for buyers and sellers of goods and services; database marketing services in the form of compiling customer-specific information into databases; designing, printing and collecting marketing information for others, for sales purposes; developing marketing strategies and marketing concepts for others; marketing services in the field of arranging for the distribution of the products of others; marketing services in the field of evaluating sales markets for third-party goods and services; personnel management consultancy; updating and maintenance of data in computer databases; appointment scheduling services [office functions]; drawing up of statements of accounts; rental of vending machines; sponsorship search; rental of sales stands; retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies

### **Class 39**

(2) transportation of goods by air, rail and boat; managing transportation logistics for goods by air, rail, ship and truck; arranging of passenger transportation services for others via an online application; providing road and traffic information; packaging of goods; piloting, namely, GPS navigation services; management of vehicular traffic flow through advanced communications network and technology; truck hauling; marine transport, namely passenger ship transport, freight transportation by cargo ship; car transport; replenishment of vending machines; air transportation of passengers; piloting of civilian drones; chauffeur services; storage of goods for others; warehousing services; rental of diving suits; operating canal locks; courier services; travel reservation; rental of wheelchairs; launching of satellites for others; bottling services

### **Class 42**

(3) research and development of new products for others; technological research in the field of online and offline retailing services, logistics services namely, car transport, train transport, air transport, oversea transport, storage and delivery via courier of the applicant's goods and third-party goods, computer software and hardware design, consultancy and update of computer hardware and software, maintaining internet data safety, developing internet safety protocols and customer data safety protocols; land surveying; chemical research; meteorological information; material testing; packaging design; architectural services; dress designing; computer software design; computer system design; consultancy in the design and development of computer hardware; creating and maintaining web sites for others; electronic data storage, namely, the storage of text, images, audio and video files on a computer server; data security consultancy; providing a platform as a service [PaaS] that allows computer software developers to collaboratively develop software via a website; authenticating works of art; graphic arts design; cloud seeding; handwriting analysis [graphology]; cartography services; weighing of goods for others; rental of meters for the recording of energy consumption

### Goods

#### Class 07

(1) Spring-applied brakes, permanent magnetic brakes and electric magnetic brakes for industrial machines, engines and electric motors for machines; spring-applied clutches, permanent magnetic clutches and electric magnetic clutches for industrial machines, engines and electric motors for machines; clutch-brake combinations for industrial machines, engines and motors for machines, couplings for industrial machines and construction machinery and equipment; control mechanisms for industrial machines, engines or electric motors for machines, namely, safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers; electric engines and motors, namely, three-phase motors, gear motors, servomotors and servo gear motors, drive units, parts of machines and controllers, namely safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers for operating industrial machines, electric motors and engines; drive units for machines, consisting of electric motors, gears, couplings, brakes for industrial machines; electric motors for machines with a digital servo drive controller.

#### Class 09

(2) Electric switching apparatus, namely, rectifiers for actuating electric magnetic clutches and brakes and spring-applied brakes; electronic controlling apparatus for motors, namely safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers,

test controllers, programmable remote control apparatus for machines and industrial installations, electronic torque gauges, mainly consisting of synchronisation regulators, positioning controllers and pressure, temperature and level gauges; integrated machine-readable data carriers provided with programs for drive regulators for the purpose of commissioning and troubleshooting and visualisation of setting parameters and process sizes, namely, embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; industrial control technology for automation solutions, namely computers, recorded and downloadable computer programs for the control of industrial operating equipment, for the automation of industrial processes and for the analysis of data, computer operating programs, computer peripheral devices, namely, network routers, interactive touchscreen terminals, computer display screens data processing equipment and memories for data processing equipment, namely, computer memory boards, computer memory cards, computer memory expansion modules, memory controller integrated circuits, semiconductor memory devices being computer memories, data processing apparatus, namely computer hardware for data processing, computer interfaces, fiber optic couplers, video monitors, electric and electronic controllers, namely, controller circuit boards and control devices for vehicles; integrated circuit modules; computer hardware and software, for remote diagnosis, repair, configuration and maintenance of industrial machines, industrial equipment, and computers; electric power and current switches; electromagnetic switches; electrical filters, in particular sine wave output filters, RF-filters, input-output filters and EMC filters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, frequency converters and electricity inverters for electromobility, namely, digital potentiometers; electric controllers for recuperation and conversion of energy; measuring instruments for recording position, angle and speed information, namely, electric and electronic angle measuring apparatus, rotary encoders and resolvers being parts for machines for recording the position and speed of rotatable parts of wind energy installations; electric and electronic control and regulating apparatus, namely, for wind energy installations; electronic controllers and electronic control systems, namely, controller circuit boards, electrical charge controllers, electrical controllers for use with power converters, safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers; human-machine interface hardware, namely, computer interface boards, computer interface cards, network interface cards, man-machine interface software, namely, computer operating system interface software, graphical user interface software; visualisation systems, namely, computer touchscreens, computer display monitors, computer display screens; user interfaces for machine controls, namely, interactive touchscreen terminals, computer touchscreens, computer display monitors, smart phones, tablets, input devices, information displays; touch panels; electric and electronic control devices for controlling machines, robots, processing machines, manufacturing installations; electrical controls, namely electric control panels; electronic controllers for governing electrical output of rechargeable batteries, electrical controllers for industrial machines, electrical controllers for engines; programmable logic controllers; security control systems, namely, downloadable computer security software, event recorders for security purposes, security software, vehicle security systems; safety control systems, namely, three dimensional movement based computer systems for vehicle security and safety; programmable safety control software for machines and industrial installations; computer programs software for running development programs and application programs in a common development environment, namely, downloadable computer software development programs for creating and developing computer programs for others to be used on public and private virtual servers; software platforms for providing of a development environment, namely, computer software for two or three- dimensional simulation for use in design and development of industrial products, downloadable computer software that supports interaction between computer applications with data from application

programming interfaces (APIs); software development equipment and an application program interface (API) for creating applications for the interaction of machines (M2M); integrated circuit modules; memory programmable controls (PLCs), programmable logic controllers (PLCs), including I/O modules, digital input/output [I/O] modules. electronic controls for motors, in particular for servo motors.

### **Class 12**

(3) Spring-applied brakes for motor vehicles, electric magnetic couplings for motor vehicles, electric magnetic brakes for motor vehicles, couplings for motor vehicles, gears for vehicles, namely, differential gears for land vehicles, drive gears, reduction gears for land vehicles, reversing gears for land vehicles, speed change gears for land vehicles.

### **Services**

#### **Class 41**

(1) Provision of training courses, including computerised training in the field of robotics and industrial automation, operation and running of industrial equipment and machines, maintenance, repair and assembly, development environment; arranging and conducting of training in the field of robotics and industrial automation, operation and running of industrial equipment and machines, maintenance, repair and assembly, development environment.

#### **Class 42**

(2) Design and development of computer hardware and software for industrial applications, namely, development of computer and control software for use in the field of robotics and industrial automation, operation and running of industrial equipment and machines, maintenance, repair and assembly, development environment, updating of computers and control software, namely, design, installation, updating and maintenance of computer software, engineering services, namely, for the following purposes, commissioning of computer programs, computer program services, adaptation of computer programs, updating of computer programs, expansion of computer programs, conversion of computer programs, research and development relating to new goods, for others, and technical project planning for others; programming of electronic control systems, namely, creation of control programs for automated measurement, assembly, adjustment, and related visualisation; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; creation of control programs for electric operation control and drive modules; computer-assisted technical data analysis; design and development of software tools and systems for the analysis of data, namely, providing temporary use of on-line non-downloadable software for data mining, data query, data analysis, and data visualization; design and development of computer software for process control; analysis of statistical data for predictive analysis and scientific research in the field of providing predictions and recommendations related to the operation, repair, and maintenance of industrial machinery; analysis of statistical data for predictive analysis and scientific research in the field of industrial machinery management and optimization; analysis of statistical data for predictive analysis and scientific research in the field of operational technology; electronic monitoring, and technical analysis of physical properties of industrial machinery and preparation of reports relating thereto; installation, maintenance, repair, updating and servicing, including preventative servicing and maintenance, of computer software; information, advisory and consultancy services relating to operational technology.

#### Class 07

(1) Spring-applied brakes, permanent magnetic brakes and electric magnetic brakes for industrial machines, engines and electric motors for machines; spring-applied clutches, permanent magnetic clutches and electric magnetic clutches for industrial machines, engines and electric motors for machines; clutch-brake combinations for industrial machines, engines and electric motors for machines, couplings for industrial machines and construction machinery and equipment; control mechanisms for industrial machines, engines and electric motors for machines, namely, safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers; electric engines and motors, namely, three-phase motors, gear motors, servomotors and servo gear motors, drive units, parts of machines and controllers, namely safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers for operating industrial machines, electric motors and engines; drive units for machines, consisting of electric motors, gears, couplings, brakes for industrial machines; gears for industrial machines, gear units for industrial machines; electric motors for machines with a digital servo drive controller.

#### Class 09

(2) Electric switching apparatus, namely, rectifiers for actuating electric magnetic clutches and brakes and spring-applied brakes; electronic controlling apparatus for motors, namely, safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers, programmable remote control apparatus for machines and industrial installations; electronic torque gauges, mainly consisting of synchronisation regulators, positioning controllers and pressure, temperature and level gauges; integrated machine-readable data carriers provided with programs for drive regulators for the purpose of commissioning and troubleshooting and visualisation of setting parameters and process sizes, namely, embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; industrial control technology for automation solutions, namely computers, recorded and downloadable computer programs for the control of industrial operating equipment, for the automation of industrial processes and for the analysis of data, computer operating programs,

computer peripheral devices, namely, network routers, interactive touchscreen terminals, computer display screens, data processing equipment and memories for data processing equipment, namely, computer memory boards, computer memory cards, computer memory expansion modules, memory controller integrated circuits, semiconductor memory devices being computer memories, data processing apparatus, namely computer hardware for data processing, computer interfaces, fiber optic couplers, video monitors, electric and electronic controllers and control devices, namely, controller circuit boards for vehicles; integrated circuit modules; computer hardware and software, for remote diagnosis, repair, configuration and maintenance of industrial machines, industrial equipment, and computers; electric power and current switches; electromagnetic switches; electrical filters, in particular sine wave output filters, RF-filters, input-output filters and EMC filters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, frequency converters and inverters for electromobility, namely, digital potentiometers; electric controllers for recuperation and conversion of energy; measuring instruments for recording position, angle and speed information, namely, electric and electronic angle measuring apparatus, rotary encoders and resolvers being parts for machines, for recording the position and speed of rotatable parts of wind energy installations; electric and electronic control and regulating apparatus, namely, for wind energy installations; electronic controllers and electronic control systems, namely, controller circuit boards, electrical charge controllers, electrical controllers for use with power converters, safety controllers, drive controllers, automation controllers, monitoring controllers, comparison controllers, test controllers; human-machine interface hardware, namely, computer interface boards, computer interface cards, network interface cards, man-machine interface software, namely, computer operating system interface software, graphical user interface software; visualisation systems namely, computer touchscreens, computer display monitors, computer display screens; user interfaces for machine controls, namely, interactive touchscreen terminals, computer touchscreens, computer display monitors, smart phones, tablets, input devices, information displays; touch panels; electric and electronic control devices for controlling machines, robots, processing machines, manufacturing installations; electrical controls, namely electric control panels; electronic controllers for governing electrical output of rechargeable batteries, electrical controllers for industrial machines, electrical controllers for engines; programmable logic controllers; security control systems, namely, downloadable computer security software, event recorders for security purposes, security software, vehicle security systems; safety control systems, namely, three dimensional movement based computer systems for vehicle security and safety; programmable safety control software for machines and industrial installations; computer program software for running development programs and application programs in a common development environment, namely, downloadable computer software development programs for creating and developing computer programs for others to be used on public and private virtual servers; software platforms for providing of a development environment, namely, computer software for two or three- dimensional simulation for use in design and development of industrial products, downloadable computer software that supports interaction between computer applications with data from application programming interfaces (APIs), software development equipment and an application program interface (API) for creating applications for the interaction of machines (M2M); integrated circuit modules; memory programmable controls (PLCs), programmable logic controllers (PLCs), including I/O modules, digital input/output [I/O] modules; electronic controls for motors, in particular for servo motors.

### **Class 12**

(3) Spring-applied brakes for motor vehicles, electric magnetic couplings for motor vehicles, electric magnetic brakes for motor vehicles, couplings for motor vehicles, gears for vehicles,

namely, differential gears for land vehicles, drive gears, reduction gears for land vehicles, reversing gears for land vehicles, speed change gears for land vehicles.

## **Services**

### **Class 41**

(1) Provision of training courses, namely, computerised training in the field of robotics and industrial automation, operation and running of industrial equipment and machines, maintenance, repair and assembly, development environment; arranging and conducting of training in the field of robotics and industrial automation, operation and running of industrial equipment and machines, maintenance, repair and assembly, development environment.

### **Class 42**

(2) Design and development of computer hardware and software for industrial applications, namely, development of computer and control software for use in the field of robotics and industrial automation, operation and running of industrial equipment and machines, maintenance, repair and assembly, development environment, updating of computers and control software, namely, design, installation, updating and maintenance of computer software, engineering services, namely, commissioning of computer programs, computer program services, adaptation of computer programs, updating of computer programs, expansion of computer programs, conversion of computer programs, research and development relating to new goods, for others, and technical project planning for others; programming of electronic control systems, namely, creation of control programs for automated measurement, assembly, adjustment, and related visualization; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; creation of control programs for electric operation control and drive modules; computer-assisted technical data analysis; design and development of software tools and systems for the analysis of data, namely, providing temporary use of on-line non-downloadable software for data mining, data query, data analysis, and data visualization; design and development of computer software for process control; analysis of statistical data for predictive analysis and scientific research in the field of providing predictions and recommendations related to the operation, repair, and maintenance of industrial machinery; analysis of statistical data for predictive analysis and scientific research in the field of industrial machinery management and optimization; analysis of statistical data for predictive analysis and scientific research in the field of operational technology; electronic monitoring and technical analysis of physical properties of industrial machinery, and preparation of reports relating thereto; installation, maintenance, repair, updating and servicing of computer software, including preventative servicing and maintenance of computer software; information, advisory and consultancy services relating to all the aforesaid.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) blue is/are claimed as a feature of the mark. The mark consists of the design of a 3-dimensional open cube that features a smaller cube in the centre, in the colours blue, dark blue and light blue

### Goods

#### Class 09

Computer hardware for data processing; computer software for business data mining; computers; computer software for organizing, archiving and searching information about consumers' prior purchases of consumer products; computer software for creating searchable databases of information and data; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for retail inventory management

### Services

#### Class 35

(1) Advertising consultancy; business management; business administration; computerized office management; office administration; preparing business reports; advisory services for business management; assistance, advisory services and consultancy with regard to business management

**Class 42**

(2) Software development, programming and implementation for others; computer technology consultancy services; computer technology consultancy and design services; computer software consultancy and design services; provision of a web based service featuring temporary use of non-downloadable software for businesses to store, manage, track, analyse, and report data in the field of sales, marketing, product information management and e-commerce

### Goods

#### Class 01

(1) Chemicals for laboratory analysis and for use in science, other than for medical or veterinary purposes, in particular for environmental and food analysis; chemically treated test strips, test kits, test sets, test packages, containing multiple test kits for immunological examinations, other than for medical or veterinary purposes; biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; chemical test paper; diagnostic reagents for scientific research use that test for contaminants in food; antibody reagents for scientific purposes; cell culture reagents for non-medical purposes; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; reagent paper for scientific or research use.

#### Class 05

(2) Covering materials, namely medical and surgical wound dressings; sanitary wear; bandages for dressings; cotton for medical purposes, namely, absorbent cotton, antiseptic cotton, aseptic cotton, cotton buds for medical purposes, cotton rolls for dental purposes, cotton rolls for medical purposes, cotton sticks for medical purposes, cotton swabs for medical purposes, cotton wool for medical purposes; disinfectants, namely, all purpose disinfectants, disinfectants for dental and medical apparatus and instruments, disinfectants for sterilization, disinfecting handwash, disposable disinfecting wipes, sponges impregnated with disinfectant, swabs impregnated with disinfectant for medical purposes; diagnostic preparations for medical purposes, namely, clinical diagnostic reagents, diagnostic agents for medical use in in vivo scanning, diagnostic biomarker reagents for medical purposes, diagnostic chemical reagents for medical purposes, diagnostic preparations for medical laboratory use, diagnostic reagents and contrast media for medical purposes, diagnostic reagents for clinical laboratory use, protein arrays for medical diagnosis purposes, reagents for use in diagnostic tests for medical purposes; dietetic preparations adapted for medical use, namely, dietetic beverages for babies adapted for medical purposes, dietetic food and substances adapted for medical use for the prevention and treatment of gastrointestinal diseases and disorders, dietetic substances consisting of vitamins, minerals, amino acids and trace elements, dietetic sugar for medical use, dietetic sugar substitutes for medical use; filled first

aid kits, including first-aid boxes, filled; gum for medical purposes, namely, analgesic chewing gum, antibacterial chewing gum, breath-freshening chewing gum for medicinal purposes, caffeine preparations for stimulative use in the form of chewing gum, drug delivery agents in the form of compressed gum that facilitate the delivery of pharmaceutical preparations, drug delivery agents in the form of extruded gum that facilitate the delivery of pharmaceutical preparations, motion sickness chewing gum, nicotine gum for use as an aid to stop smoking, vitamin enriched chewing gum; adhesive plasters; adhesive woven fabrics and adhesive films for medical purposes, including adhesive bands and tapes; compresses, including gauze compresses, cotton compresses and synthetic compresses; adhesive tapes for medical purposes; pharmaceutical and veterinary substances and preparations for the treatment of urological diseases, infertility, sexually transmitted diseases, inflammatory pelvic diseases, eye diseases, respiratory diseases and disorders, dental and oral diseases, dermatitis, inflammatory bowel disease and connective tissue diseases, and for general health and well being; preparations for health care, namely, antiseptic body care preparations, antiseptic body care products, dietary and nutritional supplements for general health and wellbeing, dietary supplement drinks for general health and well being, skin care preparations for therapeutic purposes; sanitary preparations for medical purposes, namely, panty liners and sanitary pads, sanitary tampons, sanitary towels, underpants for sanitary purposes, adhesive bandages for skin wounds, adhesive wound closures, antibacterial wound dressings, antiseptic preparations for wound care, bandages for skin wounds, dressings for wounds, liquid bandages for skin wounds, materials for dressing wounds, materials for dressings, namely surgical and medical dressing, wound dressing, self-adhesive dressing, first aid dressing, dressing for burns, bandages for dressings, medical adhesive strips for closing wounds or incisions, medical cleansers for skin and wounds, medicated cleansers for skin and wounds, sterile wound dressings, surgical and wound dressings, wound dressings; cotton wool in the form of swabs for medical use; gauze for dressings; dressings, medical, including, adhesive bandages, medical adhesives for binding wounds, bandages for dressings; bandages for dressing, including fixing, wound and quick wound dressings (materials for dressings); surgical dressings; absorbent cotton; wadding for medical purposes; wound dressings, for medical use.

### **Class 09**

(3) Protective masks, namely, anti-pollution masks for respiratory protection, dust protective masks, protective face masks for the prevention of accident or injury, protective industrial respiratory masks, smoke breathing masks with filter against toxic gases and particles.

### **Class 10**

(4) Compression sleeves; acupuncture needles; instrument cases for use by doctors; containers adapted to contain drugs for dispensing to patients and for administering of drugs, including drug dispensers, with and without lids; box for storing dental prostheses; surgical instruments; veterinary instruments; acupuncture instruments; bone setting machines and instruments; cases for medical and surgical instruments; chiropractic instruments; containers especially adapted for the disposal of medical instruments and syringes and other contaminated medical waste; dental instruments; gynecological medical instruments for examining women's reproductive organs; hemostatic suture instruments; injection instruments without needles; instruments for use in gastrointestinal surgery; instruments used in foot surgery; lithotomical instruments; magnetic resonance imaging machines and instruments for medical purposes and structural and replacement parts therefor, namely, electrical coils, antennas and magnets; medical and surgical knives and cutters for cutting human or animal tissue and organs; medical apparatus and instruments for amplifying nucleic acid DNA and RNA molecules; medical hearing instruments; medical instrument stands; medical instrument tables; medical instruments bags; medical instruments for cutting tissue; medical instruments for general examination; medical instruments

for taking human blood, cell, saliva, urine and sputum sample specimens for medical purposes; optometric instruments; thread, surgical; surgical cutlery, including thread-pulling knives; suture needles; surgical sponges; mirrors for surgeons; suture materials; drainage tubes for medical purposes; ice bags for medical purposes; bandages, elastic; electrodes for medical use; finger guards for medical purposes; guedel airways and tracheal tubes; belts for medical purposes; mittens for medical use, including protective, disposable and washing gloves and pe gloves; syringes for injections; injectors for medical purposes; cannulae; catheters; clips for medical use, including polystyrene clamps; ambulance stretchers; draw-sheets for sick beds; cooling patches for medical purposes; larynx masks, anaesthetic masks; sanitary masks for medical purposes; masks for use by medical personnel; knives for surgical purposes; needles for medical purposes; surgical drapes; clothing especially for operating rooms, including surgical gowns, surgical caps, operating masks, operating gloves and aprons; surgical suction cups, surgical instruments; orthopedic articles, namely, orthopedic bandages for joints, orthopedic belts, orthopedic bone implants, orthopedic bone screws, orthopedic braces, orthopedic corsets, orthopedic cushions, orthopedic footwear, orthopedic gel cushion insoles for shoes, orthopedic girdles, orthopedic hip prostheses, orthopedic prostheses for knees, orthopedic seat cushions; orthopedic soles, orthopedic suspenders, padding for orthopedic casts, pillows for orthopedic use, plaster bandages for orthopedic purposes, protective sleeves used with orthopedic bracing systems to protect skin from abrasions, silicone orthopedic implants; pipetting instruments for medical use, including polystyrene pipettes; saws for surgical purposes; nasal cannulae; scissors for surgery; splints, surgical; protective coverings, draw-sheets for sick beds, for persons prone to incontinence for medical purposes, including incontinence bed pads and sheets, in particular of polyethylene, polypropylene; scalpels; probes for medical purposes; containers especially made for medical waste, including cannula disposal containers; syringes for medical purposes; spittoons for medical purposes; sterile sheets (surgical); stethoscopes; suspensory bandages; droppers for medical purposes; dropper bottles for medical purposes; incontinence sheets; urinals, urinals (vessels), urine bags; urological apparatus and instruments, namely, robotic arms for urologic surgery; water bags for medical purposes; brushes for cleaning body cavities; clips, surgical; nebulizers for medical use; strait jackets; parts and accessories for the aforesaid goods; fittings for all the aforesaid goods.

### **Class 25**

(5) Articles of clothing and headgear, namely, work clothing for the nursing sector and the cleaning sector for use in clinics, hospitals, care institutions, medical institutions and premises; swaddling clothes; casual clothing, athletic clothing, formal clothing, baby clothing; articles of clothing, namely, pants, skirts, shorts, shirts, jackets, sweaters, underwear, socks, nurse dresses, nurse overalls, nurse pants, nurses' shoes, nurses' uniforms, nursing bras, nursing shawls, medical personnel footwear, scrub tops, pants and suits not for surgical purposes, uniforms for medical personnel, lab coats.

### **Services**

#### **Class 35**

Retail services, wholesaling services in relation to chemical products for laboratory analysis, science, other than for medical or veterinary purposes, in particular, in relation to environmental analysis, food analysis; retail services, wholesaling services in relation to test strips, test kits, test sets, test packages, containing multiple test kits for biochemical and immunological examinations, other than for medical or veterinary purposes, covering materials, namely, medical wound dressing materials, surgical wound dressing materials, hygienic bandages, bandages for dressings, cotton for medical purposes, disinfectants, diagnostic preparations for medical purposes, dietetic

preparations and substances for medical use, materials for first aid, including first-aid boxes, filled, gum for medical purposes, plasters, adhesive fabrics, adhesive films, for medical purposes, including adhesive bands and tapes, compresses, including gauze compresses, cotton compresses and synthetic compresses, sticking plasters for medical use, pharmaceutical and veterinary goods and preparations, sanitary preparations for medical purposes, sanitary preparations for medical purposes, swabs, absorbent wadding for medical purposes, gauze for dressings, materials for dressings, including compression sleeves, plaster bandages, packing, swaddling clothes, including being swaddling wraps (clothing) and bandages, healing, including fixing, wound and quick wound dressings, materials for dressings, surgical dressings, absorbent cotton, absorbent wadding for medical purposes, wound dressings, for medical purposes, masks (protective), needles for acupuncture, instrument cases for use by surgeons and doctors, containers for the storage and administering of drugs, including drug dispensers, with and without lids, containers for storing dentures, surgical, medical, dental and veterinary instruments and apparatus, surgical thread, surgical cutlery, including thread-pulling knives, suture needles, surgical sponges, mirrors for surgeons, suture materials, drainage tubes for medical purposes, medical ice packs, bandages (elastic), electrodes for medical use, finger guards for medical purposes, guedel airways and tracheal tubes, girdles for medical purposes, gloves for medical use, including protective, disposable and washing gloves and pe gloves, syringes for injections, syringes for injections for medical purposes, cannulae, catheters, clips, for medical purposes, including polystyrene clamps, ambulance stretchers, draw-sheets for sick beds, cooling patches for medical purposes, larynx masks, anaesthetic masks, sanitary masks for medical purposes, masks for use by medical personnel, medical apparatus and instruments, knives for surgical purposes, needles for medical use, surgical cloths, clothes especially for operating rooms, including surgical gowns, surgical caps, operating masks, operating gloves and insulating mastics and aprons, surgical suction cups, surgical instruments, orthopedic articles, pipettes for medical purposes, including polystyrene pipettes, saws for surgical purposes, oxygen spectacles, scissors for surgical use, splints for surgical use, protective coverings, draw-sheets for sick beds, for medical purposes, including bed pads and sheets, in particular, of the following materials, polythene, polypropylene, scalpels, probes for medical use, containers especially made for medical waste, including cannula disposal containers, syringes for medical purposes, spittoons for medical purposes, sterile sheets (surgical), stethoscopes, suspensory bandages, droppers for medical purposes, dropper bottles for medical purposes, incontinence sheets, urinals, urine bottles, urine bags, urological apparatus and instruments, water bags for medical purposes, brushes for cleaning body cavities, wound clips, vaporisers for medical purposes, strait jackets, clothing and headgear, including work clothing for the nursing sector and the cleaning sector, for clinics, hospitals, care institutions, doctors' practices, centre-boards, and parts and fittings for all the aforementioned goods, accessories for the aforesaid goods, also provided via the internet, including the bringing together of the aforesaid goods for others for presentation and sales purposes, and the presentation thereof on the internet, and order placement, and preparation of invoices relating thereto, including within the framework of e-commerce, and providing of information relating thereto, consumer advice; publication of printed matter (including in electronic form) relating to the aforesaid services provided via the internet for advertising purposes.

### Trademark Description

The mark consists of the words "onto innovation" in red, lower case letters. The word "onto" is in bold, stylized letters with the word "innovation" above the second "o" in the word "onto".

### Colour Claim

Colour is claimed as a feature of the trademark. The colour red is claimed as a feature of the mark. The mark consists of the words "onto innovation" in red, lower case letters. The word "onto" is in bold, stylized letters with the word "innovation" above the second "o" in the word "onto".

### Goods

#### Class 07

(1) Lithography machines for the manufacture of microelectronics, integrated circuits, light emitting diodes, and semiconductors on laminar substrates including wafers, glass panels, and packaging panels such as copper plate or plastic; optical metrology, characterization, and inspection systems comprised of a machine and machine components for use in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors, and inductors, advanced packaging electronics technologies, namely system-in-package (SIP) and fan-out packages, chiplets, heterogeneous packaging namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling; optical metrology, characterization, and inspection systems comprised of machine and components for use in the production of precision machined optical surfaces, optical coatings, and optical assemblies including reference flat, sphere, asphere and assemblies composed of both refractive and reflective components.

**Class 09**

(2) Optical metrology, characterization, and inspection systems comprised of pre-installed operating software and machine components therefor sold as a unit for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; interferometers for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; downloadable software, namely, process control and defect analysis software for use in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors, and inductors, advanced packaging electronics technologies, namely system-in-package (SIP) and fan-out packages, chiplets, heterogeneous packaging namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling; operating software for optical metrology, characterization, and inspection systems for use in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors, and inductors, advanced packaging electronics technologies, namely system-in-package (SIP) and fan-out packages, chiplets, heterogeneous packaging, namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling; operating software for optical metrology, characterization, and inspection systems for use in the production of precision machined optical surfaces, optical coatings, and optical assemblies including reference flat, sphere, asphere and assemblies composed of both refractive and reflective components

**Services****Class 42**

Providing temporary use on online, nondownloadable process control and defect analysis software for use in the production of laminar substrates namely discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, namely transistors, capacitors, resistors and inductors, advanced packaging electronics technologies, namely system-in-package (SIP) and fan-out packages, chiplets, heterogenous packaging namely packaging comprising two different substrates, hybrid bonding, bumping, 3D structures, and scaling.

### Goods

#### Class 05

(1) Pharmaceutical preparations for dental purposes for the treatment of dental conditions, dental materials for stopping teeth, bonding and moulding materials for dental purposes, all the aforementioned goods being only directed at dental professionals and dental laboratories and excluding medicated toothpaste.

#### Class 09

(2) Software compatible with 3D printers; computer hardware; computer aided design (CAD) software; computer aided manufacturing (CAM) software; workflow management system software; computer software for graphic design; computer software for data management; computer software for creating digital prototypes of dental crowns and dental bridges; computer software for simulation, visualization, and rendering of 3D digital dental crowns and dental bridges and images of dental crowns and dental bridges; educational software containing topics of instruction in 3D printing, 3D modelling, 3D visualisation and 3D analysis; educational software containing topics of instruction in computer aided design (CAD) and computer aided manufacturing (CAM); educational software containing topics of instructions in medical device production; computer software for generation of 3D image production data, 3D visualisation and 3D analysis, all in the dental field; software for the management of the product development process, namely, software for computer aided design (CAD), computer-aided manufacture (CAM) and data management for use in the medical field, downloadable mobile applications for computer aided design (CAD) and computer-aided manufacture (CAM) for use in the production of dental products

#### Class 10

(3) Dental apparatus, namely dental impression trays, dental syringes and syringe tips for dispensing dental materials, dental filling instruments, dental mills, dental splints, dental models and masks, dental drilling templates, dental casts, dental crowns and bridges, and dental instruments, all the aforementioned goods being only directed at dental professionals and dental laboratories.

### Services

**Class 35**

(1) Business advisory and information services relating to business operations directed to dental practices and dental laboratories on fabrication procedures in digital additive manufacturing management, business operations, business planning and business analysis provided on-line from a computer database or the internet; professional administrative consulting services in the field of dental restorations and digital prosthetics generated from a browser-based 3D software application.

**Class 41**

(2) Education and training in the field of medical device production; training services relating to application and implementation of computer software and computer programmes to integrate a digital workflow into the daily work routines of dental practices and dental laboratories; training in the operation of software systems, all within the medical field.

**Class 42**

(3) Software creation; software design services; computer program development; design and development services of software for 3D printers; development services of computer software for use in the digital design and automated production of CAD / CAM; software programming services, namely providing online nondownloadable browser-based software for computer aided design and computer aided manufacturing (CAD/CAM) for use in product design within the medical field; maintenance, adaption and error correction services of computer software for 3D modelling, 3D visualisation and 3D analysis; software consultancy services, namely consultancy and advice relating to computer software and in the design and development of computer hardware and computer software technical support services via telephones; providing online browser-based computer software for creation, design, visualization, simulation for use in the medical field; providing software as a service (SaaS) services, namely, creating an on-line community for registered users to publish and share their own content and images online, providing an electronic online system featuring technology which allows their users to create, publish, modify, share and produce 3D models and 3D designs; providing online non-downloadable software featuring technology that enables their users to design two- or three-dimensional objects for dental applications via a website; hosting of web portals featuring information in the field of computer aided design (CAD) and computer aided manufacturing (CAM).

### Visual Representation

### Trademark Description

The mark consists of two stylized words: "CALIFORNIA" and "LOCOS". The "CALIF" and "RNIA" letters in the word "CALIFORNIA" are in a block font. The "O" between the letters "F" and "R" is an enlarged, solid circle with its left side slightly overlapping the right side of letter "F" and with its right side being slightly overlapped by the left side of letter "R". The second word "LOCOS" is centered below the first word, with the tops of the first letter "O" and the letter "C" slightly overlapping the bottom edge of the letter "O" in "CALIFORNIA". The word "LOCOS" is in a stylized, brush-stroked graffiti font and is within quotation marks.

### Disclaimer

"CALIFORNIA"

### Foreign Character Translation

The translation provided by the applicant of the word(s) LOCOS is CRAZIES.

## CERTIFICATION MARK DETAILS

### Trademark Type

Design

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of a circle on a white background with a green border. Inside the circle, from top to bottom, are the following: The words "BUOI DA XANH" are green and curve along the top edge of the circle. In the middle of the circle is the image of a green pomelo, next to it is half of a green pomelo halved horizontally, revealing the red-pink flesh and white spongy pith. Lying below and partially obscuring the above green pomelo are the words "Ben Tre" in red-pink, stylized, shown on a white background, with a green border. Below the words "Ben Tre", and smaller in size, is the word "POMELO" in red-pink. At the bottom of the circle are the words "PRODUCT FROM VIETNAM" in green, curved along the bottom of the circle. A stylized geographical map of Ben Tre province in light brown appears behind the abovementioned components.

### Foreign Character Translation

The Vietnamese words "BUOI DA XANH" translate to "green pomelo" in English.

### Certification Mark Standard

Origin: <P> The green pomelo must be harvested from pomelo trees grown in the following geographical areas of Ben Tre province, Vietnam: Chau Thanh district, Giong Trom district, Mo Cay Bac district, Cho Lach district, Mo Cay Nam district, Binh Dai district, and Ben Tre city.

<P><P>Qualities:<P> The green pomelo must meet the following standards: (a) it is spherical in shape, (b) it is green to yellowish green in color, (c) it has an average weight of 1.3 to 1.4 kg, (d) it is 155 to 165 mm in height, and 150 to 160 mm in diameter, with a case thickness of 15 to 21 mm, (e) it has a ratio of fruit pulp of 50 to 60%; the segments are light pink in color and the number of edible segments are in the range of 11 to 15, seedless or just a few of seeds; and (f) for every 100 milliliter of pomelo juice, it contains  $79.46 \pm 0.96$  mg of Vitamin C, and has a sweetness (brix) of  $11.47 \pm 0.16$  OBx, and an acidity (TA) of  $0.46 \pm 0.02\%$ .

**Goods****Class 31**

## CERTIFICATION MARK DETAILS

### Trademark Type

Design

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of a circle on a white background with a green border. Inside the circle, from top to bottom, are the following: The words "DUA XIEM XANH" are green and curve along the top edge of the circle. In the middle of the circle is the image of a green coconut, next to it is half of a coconut halved vertically, revealing the white coconut kernel and light yellow coconut husk. Lying below and partially obscuring the above green coconut are the words "Ben Tre" in light green, stylized, shown on a white background, with a green border. Below the words "Ben Tre", and smaller in size, is the word "COCONUT" in brown. At the bottom of the circle are the words "PRODUCT FROM VIETNAM" in brown, curved along the bottom of the circle. A stylized geographical map of Ben Tre province in light brown appears behind the abovementioned components.

### Foreign Character Translation

DUA is a Vietnamese word, which translates to "coconut" in English. XANH is a Vietnamese word, which translates to "green" in English. XIEM does not have any translation into English or French.

### Certification Mark Standard

Origin: The coconut must be grown and harvested in the following geographical areas of Ben Tre province, Vietnam: Chau Thanh District, Cho Lach District, Giong Trom District, Mo Cay Nam District, Mo Cay Bac District, Thanh Phu District, Ba Tri District, Binh Dai District and Ben Tre City. Qualities: The coconut must meet the following standards: (a) it is round in shape, with the lower part having a small knob on 3 protruding edges, (b) the pod is green in colour, (c) it has an average weight of  $1.36 \pm 0.25$  kg, (d) it has an average height of  $16.7 \pm 1.4$  cm, a medium diameter of  $14.43 \pm 0.97$  cm, with an average volume of water of  $258 \pm 28$  ml, and (e) it has the following nutritional content: Sweetness (brix) of  $7.36 \pm 0.16$  OBx; Energy of  $26.96 \pm 0.60$  Kcal; Vitamin C content:  $3.18 \pm 0.08$  mg/litre; Total sugar content:  $5.79 \pm 0.16$  g/100ml; Content of reducing sugar:  $4.63 \pm 0.18$  g/100ml; Carbohydrate content:  $6.53 \pm 0.15$  g/100ml; Potassium content:  $1.83278 \pm 52.94$  mg/litre; Iron content:  $0.36 \pm 0.02$  mg/litre; and Zinc content:  $0.66 \pm 0.05$  mg/litre.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. Kokum floral pattern in various colours: Yellow, Red, Light Blue, Orange, Green, Burgundy, Purple, Navy Blue, White, and Black. Image pattern is a variation of florals within a square dimension overlaid on top of a solid-coloured background. Flowers of red, pink, purple, blue, yellow and orange flowers. Green leaves are featured throughout the pattern accompanying the flowers. Flowers contain white highlights mostly shown in red and pink flowers. The design is a block of patterns that is replicated 3 times in certain direction to form a square. Within the center of the pattern there is a large red flower which highlights the center design.

### Trademark Types

Design  
Position

### Visual Representation

### Trademark Description

The trademark consists of the positions of the colours pink and green, as well as the position of the words FAT OIL in white and LIP DRIP in green, as applied to a three-dimensional container shown in the visual representation. The three-dimensional container shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the elements claimed, namely the colours pink and green and the words FAT OIL in white and LIP DRIP in green.

### Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of the colour pink as applied to the lower part of the container shown in the visual representation. The upper part of the container, the cap of the container as well as the words LIP DRIP are green. The words FAT OIL are white. The three-dimensional container shown in dashed lines does not form part of the trademark but is included merely to show the elements claimed, namely the colours pink, green and white.
