Trademarks Journal

2023-10-04 — Vol. 70 No. 3597

Trademarks Journal

Vol. 70 No. 3597

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Trademark Description

The trademark consists of the position of two two-dimensional rectangles featuring two series of three circles, one to the left and one to the right of the forward-facing three-dimensional object. Each series of three circles consists of two empty circles overlapped by full half-moons and, toward the outside of the forward-facing three-dimensional object, by an empty circle, the upper part of which extends upward in a bottleneck shape. Said two two-dimensional rectangles described above are applied to any of the goods that are referred to in the statement of goods for this application in three dimensions. One of said goods, namely a bag, is shown on the visual representation. The bag appearing in dotted lines does not form part of the trademark, but is included merely to show the positioning of the design.

Visual Representation

Trademark Description

The trademark consists of the design and the positioning of a label, a bottle collar in the shape of a tie and embellished with a medallion, a star, the term MOËT, all applied on a three-dimensional bottle, as shown on the visual representation. From top to bottom, the star, the term MOËT and the crown on the medallion of the bottle collar are aligned in the center of the bottle with the crown and the star positioned on the label on the lower part of the bottle. The bottle represented by dotted lines does not form part of the trademark, but is included merely to show the positioning of the the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The capsule of the bottle is white. The body of the bottle is white with, at the bottom, a silver gradient fading into the white of the bottle, from the bottom up. The main label is white, and features a golden crown and star, outlined by a thin pink line at the top and a thick pink line at the bottom, the writing on the label is black. The bottle collar is pink with golden lines at the bottom and features a golden medallion with an engraved black crown, the terms MOËT and CHANDON and the number 1743 in black, as well as a circle formed by a line and black dots, the term MOËT and the star appearing on the bottle's capsule are gold. .

(1) Water heater and heating boiler controls, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; computer hardware, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; computer hardware and software for water heaters and heating boilers, namely, for controlling water heaters and heating boilers, monitoring the status of water heaters and heating boilers, and transmitting the status of water heaters and heating boilers over a global computer network, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; water heater and heating boiler control and monitoring systems comprised primarily of water heater and heating boiler controls, sensors, displays, touchpads, and computer hardware and software for controlling and monitoring the status of water heaters and heating boilers, and transmitting the status of water heaters and heating boilers over a global computer network, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; water heater thermostats, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; water heater and heating boiler temperature controls, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products,

equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings

Class 11

(2) Water heaters, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; heating boilers, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings; gas control valves for water heaters and heating boilers, all of the aforementioned being used solely for water heaters and heating boilers and controls therefor, and excluding all use relating to air conditioning systems, products, equipment, and components including, but not limited to, evaporative coolers, air conditioners, and cooling systems for the cooling of rooms, homes, spaces, or buildings

Goods

Class 09

Interactive computer software for use in research and development applications related to drug design and development; computer software for use in the field of medicine, namely in research and development applications related to drug design and development; downloadable computer application software for use in research and development applications related to drug design and development; computer utility programs for data compression; computer software for facilitating the sharing and transmission of data between computers across computer networks; computer search engine software; computer software for document management; computer software for business purposes; computer software to facilitate the wireless network delivery of data to mobile client devices; computer software for application and database integration namely application programming interfaces (APIs); computer software for use in systems supporting medical decision-making; computer operating system software and firmware for use on digital portable devices; computer software for application and database integration namely application programming interfaces (APIs) in the field of medical solutions; humanoid robots with artificial intelligence; computer application software, namely applications using artificial intelligence to aid in the design of synthesis paths in drug and pharmaceutical research and development applications; machine learning software used in knowledge management and human inquiry analysis programs; computer application software , namely applications using artificial intelligence to aid in data analysis and reporting; computer application software, namely applications using artificial

intelligence to aid in data based human decision making support in medical, pharmacy and pharmaceutical research & development applications; computer hardware for the compilation of data.

Services

Class 42

(1) Computer diagnostic services; design and development of data processing programs; rental of computer software; design, installation, updating and rental of computer software for use in the field of medicine and pharmacy; design, installation, updating and rental of application programming interface (API) for use with information technology equipment in the field of pharmaceutical solutions; computer software design; installation of computer software; updating of computer software; debugging computer software for others; design, installation, updating and implementation of computer software capable to understand and analyze human questions and formulate answers to this questions; scientific research in the field of drug and pharmaceutical development and human medicine; scientific research for medical and pharmaceutical purposes; engineering consultancy relating to medical and pharmaceutical testing; preparation of reports relating to technological research in the field of drug and pharmaceutical development and human medicine; consulting services in the field of drug and pharmaceutical development and human medicine, namely development and execution of quality control programs and projects for others; chemical analysis; chemical research; scientific laboratory services in the field of drug and pharmaceutical development and human medicine; provision of information relating to medical and scientific research in the field of pharmaceutical products; application service provider (ASP), namely hosting, managing, developing, analyzing and maintain applications, software and web sites of others in the fields of pharmaceutical products; development of computer vision algorithms; creating software for data processing and extracting data about medical and pharmaceutical products; design and development of computer software in the fields of artificial intelligence, deep learning, distributed computing, virtualization and machine learning; providing software as a service (SaaS) products for use in the field of drug and pharmaceutical development and human medicine; research, design and development services in the field of drug and pharmaceutical development and human medicine; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; machine learning services at the initial (early) drug discovery stage; custom software development services, namely creating software enabling the design of synthesis paths for organic compounds; chemical analysis and research services for others, namely synthesis planning services in the field of development of drugs and pharmaceutical compounds; chemical analysis and research services for others, namely synthesis design services for drugs and pharmaceutical compounds; providing temporary cloud-based and downloadable access to computer software for the design of synthesis pathways in the field of development of drugs and pharmaceutical compounds; chemical analysis and research services for others, namely managing the organic synthesis process in the field of development of drugs and pharmaceutical compounds; database development services; hosting computer databases; rental of computer database software; consultancy relating to computer database programs; installation and maintenance of database software; development, updating and maintenance of software and database systems; computer software consultancy; computer systems design and consultancy in the design and development of computer hardware; technological consultancy in the field of development of drugs and pharmaceutical compounds; computer hardware design; customized design of computer hardware; computer hardware rental; project management services in the field of information technology (IT) and computer-based electronic data processing [EDP] projects; analysis and evaluation of scientific research data and trial results in the field of development of drugs and pharmaceutical compounds; development of

pharmaceutical preparations and medicines; pharmaceutical drug development service; research and development of vaccines and medicines; design, development and hosting of scientific and technical online databases with search, retrieval, and analysis capabilities in the field of chemistry and related sciences; design, development and hosting of online databases featuring scientific information in the fields of chemistry and related sciences; design, development and hosting of educational, scientific and technical online databases with search, retrieval, and analysis capabilities in the field of chemistry and related sciences.

Class 44

(2) Analysis of behavior for medical and pharmaceutical purposes; medical analysis services for diagnostic and treatment purposes in the field of development and use of drugs and pharmaceutical compounds; advisory services regarding pharmaceutical treatment; provision of pharmaceutical information; preparing reports concerning pharmaceutical issues; providing pharmaceutical information; providing information in the field of development and use of drugs and pharmaceutical compounds; consulting services in the field of development and use of drugs and pharmaceutical compounds; information services in the field of development and use of drugs and pharmaceutical compounds; pharmaceutical information services; pharmaceutical counselling services; pharmaceutical consultation; consultancy and information services relating to pharmaceutical products; consultancy and information services provided via the Internet relating to pharmaceutical products; consultancy and information relating to pharmaceutical products.

Class 09

Software in the field of building construction, namely design assistance software for architectural plans, graphics management software for job sites, construction assistance software, 3D graphics software for the management and automation of locations and quantity calculations in the field of construction; BIM (building information modelling) operating software for the management and calculation of quantities in digital models in the field of construction.

Services

Class 37

(1) Construction of permanent buildings, roads, bridges; construction information; building construction supervision; masonry; roofing services; demolition of buildings; installation, repair and maintenance of computers.

Class 41

(2) Training in the field of building construction, namely training in the use of design assistance software for architectural plans, graphics management software for job sites, construction assistance software, 3D graphics software for the management and automation of locations and quantity calculations in the field of construction, BIM (building information modelling) operating software for the management and calculation of quantities in digital models in the field of construction; publishing of books; organization and conduct of colloquia, conferences and conventions in the field of construction; organization of cultural and educational exhibitions in the field of construction; online electronic publishing of books and periodicals.

Class 42

(3) Evaluations, estimates and research in the fields of science and technology performed by engineers, namely evaluation of new inventions, early evaluations, conduct of feasibility studies in the field of construction; design of software in the field of construction; research and development of new products for others; feasibility studies in the field of construction, technical project studies in the field of construction; architecture; interior design; design, installation, maintenance, update and

rental of software in the field of construction; computer programming; conversion of computer programs and data other than physical conversion; conversion of data and documents from physical to electronic media; graphic design services; industrial design, namely architectural design.

Class 01

(1) Industrial chemicals, chemicals used in scientific research, agricultural chemicals, chemical fertilizers, chemical additives for use in agriculture, horticulture and forestry, agrochemical trials and farming; agrochemicals for use with crops and soil management; reagents for use with agrochemicals; fertilisers; yield promoters for crops namely chemical preparations for the treatment of seeds for agricultural use, seed treatment chemicals for agricultural use, seed coating applied to agricultural seeds to improve stands, seedling health and yield, and biotechnologically formed genes, microbes and enzymes for use in the production of agricultural seeds to enhance plants' growth therefrom; organic chemical solvents, organic fertilizers, diagnostic reagents and agrochemicals for use in agriculture, horticulture and forestry, agrochemical trials and farming, organic chemicals solvents and agrochemicals for use in the manufacture of insecticides; chemicals and chemical products for use in the manufacture of biocides, pesticides, herbicides, fungicides, insecticides and plant growth regulators; soil conditioning preparations for regulating and enhancing the growth of agricultural products and produce; DNA sequences for use in genotyping; substances for use in crop analysis namely diagnostic reagents for scientific research use that test for residual pesticides in crops and improvements in genetic gain for all crop species; substances for use in the agrochemical field namely diagnostic reagents for scientific research; substances for use in plant genome testing; substances namely diagnostic reagents for analytical and biochemical science, genetic measurements, chemical diagnostics, forensic analysis, DNA testing, analytical molecular biology.

Class 05

(2) Pharmaceutical, veterinary and medical diagnostic reagents for medical laboratory use, pharmaceutical, veterinary and medical diagnostic preparations for molecular testing, pharmaceutical, veterinary and medical preparations for therapeutic uses; preparations for use in analytical and biochemical science, DNA testing, forensic analysis and food analysis; clinical diagnostic reagents; clinical reagent kits for genetic diagnosis; test kits for diagnostic applications in the medical and veterinary field comprised of oligonucleotides, buffers, and reagents for use in disease testing, laboratory assay kits for use in veterinary and medical research; substances for

use in medical assays namely medical diagnostic reagents; assay kits for medical diagnostic use namely medical assays for testing human and animal body fluids for microorganisms; diagnostic reagents for medical laboratory use; diagnostic reagents for use in veterinary and medical research.

Class 09

(3) Scientific equipment, apparatus and instruments for scientific, pharmaceutical and medical research purposes namely laboratory assay kits and laboratory assay instruments namely pipettes, cell culture microplates, microplate readers, laboratory test tubes, dispenser syringes for laboratory use, microtiter plate dispensers, and nucleic acids synthesizers for use in detecting, screening, extracting, and sequencing DNA, RNA and complementary DNA (cDNA) samples for laboratory use; scientific equipment, apparatus and instruments for agrochemical technology namely laboratory assay kits and laboratory assay instruments namely pipettes, cell culture microplates, microplate readers, laboratory test tubes, dispenser syringes for laboratory use, microtiter plate dispensers, and nucleic acids synthesizers for use in detecting, screening, extracting, and sequencing DNA, RNA and complementary DNA (cDNA) samples for laboratory use; computer systems and software for collecting, recording, analysing, storing, organising of genetic and molecular data and managing projects; computer software namely sequencing-based genotyping computer software; software for crop analysis; software for plant genome testing; laboratory experimental machines and apparatus namely nucleic acid purification system for laboratory use, laboratory experimental machines and apparatus namely laboratory assay kits and laboratory assay instruments namely pipettes, cell culture microplates, microplate readers, laboratory test tubes, dispenser syringes for laboratory use, microtiter plate dispensers, and nucleic acids synthesizers for use in detecting, screening, extracting, and sequencing DNA, RNA and complementary DNA (cDNA) samples for laboratory use; laboratory apparatus and instruments namely Polymerase Chain Reaction (PCR) machines, extraction instruments and liquid handling instruments namely pipettes, cell culture microplates, microplate readers, laboratory test tubes, dispenser syringes for laboratory use, microtiter plate dispensers, and DNA nucleic acids synthesizers for use in detecting, screening, extracting, and sequencing DNA, RNA and complementary DNA (cDNA) samples for laboratory use; DNA testing apparatus which carry and hold DNA samples for use in detecting, screening and sequencing such samples for medical /diagnostic purposes; gene sequencing products, namely, computer-driven probes and substrates for use in gene discovery; computer software for use in database management; biotechnology related software, namely, software for storing and analysing genotyping, sequencing and extraction data; apparatus for crop analysis and plant genome testing namely laboratory assay kits; computer software systems for collecting, storing, analyzing and reporting biological information, all the foregoing for use in clinical diagnostic analysis, nucleic acid extraction, and sequencing-based genotyping; software for use in data management, data storage, data analysis, report generation, all in the fields of genetics, genetic testing, genetic screening, genotyping, sequencing of DNA, and extraction of DNA.

Services

Class 42

Scientific and technological services, namely, scientific and research services relating to genetics, genetic testing, genetic screening, genotyping, sequencing and extraction of DNA, in the agrochemical, medical and veterinary field; crop analysis; plant genome testing; provision of software for use in data management, data storage, data analysis, report generation, all in the

fields of genetics, genetic testing, genetic screening, genotyping, sequencing of DNA, and extraction of DNA; database creation and technical diagnostic testing utilizing software for scientific and research use.

Colour Claim

Colour is claimed as a feature of the trademark. The colours gold, white and black are claimed as a feature of the mark. The mark consists of a gold and white design above wording. The design features two bearded men wearing only cloth around their waists standing on the left and right side of a crest in the center of the mark. The man on the left is holding a club in his right hand and has his left elbow resting on the crest, with a lion seated at his right. The man on the right is holding a club in his left hand and has his right elbow resting on the crest, with a lion seated at his left. At the top of the crest is a large crown open at the top. In the center of the crest is a cross, with thin vertical stripes over the four shaded quadrants above and below the arms of the cross. The upper left quadrant of the crest features a barrel design above the stripes, the upper right quadrant of the crest features a leaf design above the stripes, the lower left quadrant of the crest features a caduceus design above the stripes, and the lower right quadrant of the crest features a design of a multi-sailed ship above the stripes. On the far left and right sides of the mark are two palm trees. Below the design are capital letters "A.H.RIISE" appearing in black with gold outlines. Underscoring these words is a gold line with the letters "1838" appearing in gold. All on a white background.

Trademark Type

Standard Characters

Goods

Class 01

(1) Adhesives for use in construction; chemical compounds for use in construction; chemical products for use as fasteners, namely self-curing resin and mortar compounds for anchoring fasteners and filled in cartridges and capsule; adhesives and glues for industrial and commercial use, namely polyurethane adhesives, adhesives for use in the construction industry, latex glue for industrial purposes, wood glue for industrial purposes.

Class 06

(2) Fasteners of metal, namely dowel pins, pins and dowels; anchor; anchor plates of metal; cover plates of metal; suspension rails of metal; hinges of metal; self-tapping bushings of metal, other than parts of machines; wire hook; corner rails of metal; mounting plate of metal; fixed hanging hooks of metal; flanges of metal; cantilevered beams of metal; guide rails of metal; clamps [small items of metal hardware], namely cable clamps of metal, metal beam clamps, metal fence rail clamps, metal hose clamps, pipe clamps of metal; masonry anchors of metal; metal anchors; metal anchor plates; metallic shafts for cable distribution; metal ventilation pipes; metal braces for handling loads; metal trim pans; sleeves [small items of metal hardware], namely metal expanding sleeves for affixing screws and for cable junction; plates of metal; annular-shaped metal fittings for building and pipes; manholes of metal for access to cables; manholes of metal for cable management; connecting rods of metal; washers and plates of metal; wall mounts of metal for pipes; steel angles for use in building construction; anchor hushes of metal; anchor flanges of metal; anchor plates; anchor devices of metal, namely anchor bolts; reinforcements of metal for building; metal reinforcing bars for masonry; arming rods of metal; beams of metal or steel; metal building material for reinforcement purposes; building materials of steel, namely anchor bolts of steel, tie plates of steel, steel clamps, steel beams, stainless steel hexagon bolts, stainless steel hexagon nuts, stainless steel washers, all the aforesaid for assembling modular support systems; concrete reinforcing bars of metal; ironmongery of metal for building, namely anchor bolts, tie plates, clamps, beams, hexagon bolts, hexagon nuts, all the aforesaid for assembling modular support systems; iron beams; moldings of metal for cornices; slide rails of metal; metal reinforcements for concrete; metal reinforcement fabrics for building; metal beams for building;

metal reinforcements for concrete; metallic tie rods for building, metal structures for mounting solar panels; metal ventilation ducts; metallic ventilation ducts; metal rails; metal tie rods for construction purposes; steel girder; steel rails; steel structures, namely anchor bolts of steel, tie plates of steel, steel clamps, steel beams, stainless steel hexagon bolts, stainless steel hexagon nuts, stainless steel washers, all the aforesaid for assembling modular support systems; struts of metal; prefabricated building elements of metal, namely prefabricated metal walls for building; tie rods of metal for building.

Class 09

(3) Computer application software for mobile phones and tablet devices for construction purposes, namely for processing digital images, 3D models and plan views, analysing concrete structures, creating reports and documentation; application software for logging parameters, in particular installation parameters, of building materials; databases containing information about building materials and building accessories; database server; data storage for databases, namely computer database servers; computer software for database management; computer software programs for data bank management; software for synchronizing databases; computer software for use and database integration; computer software for authorizing access to databases; computer software for creating searchable databases of information and data; computer programs for accessing, browsing and researching in online databases; mobile app for looking up information about construction materials and supplies, namely applications for mobile phones for accessing information about construction materials and supplies; mobile app for logging parameters, in particular installation parameters, of building materials; computer data storage devices being cassettes, floppy disks and magnetic tapes.

Class 16

(4) Stickers, adhesive labels; stickers containing information about building materials and building accessories; labels, not of textile, for bar codes, for example QR codes, which can be read in by means of a communication device.

Class 19

(5) Mortar [building material]; minerals for buildings; adhesive mortar for building; bonding mortar for building; cement mortar for building; ready-mixed cement for building purposes; mineral mixtures for the construction; mortar for construction; fire protection materials, not of metal, for building constructions, namely fire-resistant boards and panels made of glass and cement for building; non-metallic fabric for use in construction, namely fabrics for underlayment of flooring, fiberglass fabrics for structural reinforcement, geotextile fabrics for use in civil engineering, roofing fabrics.

Class 20

(6) Non-metallic fasteners, namely dowels and cotter pins; self-drilling dowels, not of metal.

Services

Class 35

(1) Administration of a database; compilation of information into computer databases relating to statistics; compilation and systematisation of data in databases; computer data entry services; computer-aided updating and maintenance of data in databases; collection of data in computer databases in the field of building materials and building accessories; organization of the collection, processing, updating and maintenance of data in databases.

Class 37

(2) Providing technical information on the use and application of building materials and supplies being cementitious materials, asphalt, aggregates, concrete, metal reinforcing materials for building structure, metal fastener bolts and nuts, metal anchors for concrete constructions and buildings from online databases.

Class 42

(3) Development of databases, installation of database software, updating of software databases, design of computer databases, design of computer database software, development services relating to databases, design and development of computer database software, provision of search engines, design services for computer software, development, programming and implementation of software, development of computerized networks, development of computer platforms for others, design and development of data entry systems, data output systems, data processing systems, data display systems and data storage systems, design and creation of computer programs, design and maintenance of websites for mobile phones, management of user rights in computer networks, configuration of computer networks, the aforesaid databases containing technical information about building materials and building accessories being cementitious materials, asphalt, aggregates, concrete, metal reinforcing materials for building structure, metal fastener bolts and nuts, metal anchors for concrete constructions and buildings from online databases; Providing an internet-based database of technical information on construction materials and supplies being cementitious materials, asphalt, aggregates, concrete, metal reinforcing materials for building structure, metal fastener bolts and nuts, metal anchors for concrete constructions and buildings; development, updating and maintenance of software and database systems.

Trademark Description

The word Quall is written in blue color in bold. Quality for all is written under the word Quall with smaller caps.

Colour Claim

Colour is claimed as a feature of the trademark. The colours light blue and blue are claimed as a feature of the mark. The mark consists of a stylized letter 'Q' with the left side of the 'Q' in light blue, and the right side in blue. To the right of the 'Q' is "uall" in blue, with the words "Quality for all" beneath, also in blue.

Goods

Class 09

(1) Measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, namely, laboratory thermometers, infrared thermometers, household thermometers; barometers, ammeters, voltmeters, hygrometers, telescopes, periscopes, directional compasses; speed indicators for vehicles; microscopes; magnifying glasses; stills for scientific purposes; binoculars; ovens and furnaces for laboratory experiments; apparatus for recording, transmission or reproduction of sound or images, namely, acoustic amplifiers, audio amplifiers, audio speakers, wireless speakers; cameras; photographic cameras; television apparatus, namely television sets, television receivers, television tuners, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices, namely, smartwatches, smart wristbands and head-mounted cameras, microphones, loudspeakers, earphones, telecommunications apparatus, namely, networking hubs, bridges, switches, gateways, patch panels and telephony PBX

switchboards, apparatus for the reproduction of sound or images, namely combination video players and recorders, computer peripheral devices, namely keyboards, webcams, mouse, printer, cell phones, covers for cell phones, telephone apparatus, namely, telephone headsets, telephone receivers, telephone recorders, telephone sets, computer printers, scanners, namely barcode scanners, image scanners, computer scanners, photocopiers, magnetic and optic data carriers, namely blank hard disks, blank CDs, blank DVDs, blank CD-ROMs, downloadable and recordable electronic publications, in the nature of books, journals, and directories, encoded magnetic and optic key cards, pre-recorded CDs and DVDs containing movies, tv series and video music clips, television antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, ticket dispensers, automatic teller machines (ATM), electronic components used in the electronic parts of machines and apparatus, namely, semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, namely tape recorders, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors, counters and quantity indicators for measuring the quantity of consumption, namely, fuel consumption counters, automatic time switches, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, namely life jackets, personal floatation aids, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof, apparatus and instruments for conducting, transforming, accumulating or controlling electricity, namely electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers for general purpose batteries, mobile phones, laptop computers, tablet computers, camera batteries, electric door bells, electric and electronic cables, general purpose batteries, electric accumulators, solar panels for production of electricity, anti-intrusion alarms and anti-theft alarms, other than for vehicles, electric bells, signalling apparatus and instruments, namely luminous and mechanical signs for traffic use, fire extinguishing apparatus, namely fire extinguishers, fire engines, fire hose and fire hose nozzles, radar apparatus, namely radar antennas, radar displays, radar receivers, radar transmitters, sonars, night vision apparatus and instruments, namely night vision goggles, decorative magnets, metronomes

Class 10

(2) Surgical instruments, medical instruments for general examination, dental instruments and veterinary instruments; furniture especially made for medical purposes, namely beds specially made for medical purposes, medical procedure chairs, medical examination tables, medical procedure tables, operating tables, artificial limbs and prostheses, medical orthopaedic articles, namely belts, braces, cushions, footwear, implants; corsets for medical purposes, orthopaedic shoes, elastic bandages and supportive bandages, surgical gowns and surgical sterile sheets, adult sexual aids, condoms, babies' bottles; babies' pacifiers; teats; teethers for babies, bracelets and rings for medical purposes, namely anti-rheumatism bracelets, anti-rheumatism rings

Visual Representation

The logo for 'Leizisure' is written in a black, elegant cursive script. The letters are fluidly connected, with a prominent loop at the start of the 'L' and a similar flourish at the end of the 'e'. The overall style is reminiscent of a handwritten signature or a high-end brand mark.

Trademark Description

The mark consists of stylized wording "Leizisure".
