Trademarks Journal

Vol. 71 No. 3645

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of four rectangles, with each of the four rectangles intersecting in their middle every 45 degrees. One rectangle is entirely horizontal, and another is entirely vertical. The other two lie at 45 degree angles to form an asterisk shape. At every point of intersection, the color shade becomes darker, such that area where four rectangles intersect is in a darker shade than the areas where only two rectangles intersect, and in turn the areas where two rectangles intersect are darker than areas of no intersection. The upper-left point is in dark pink, the three points on the lower left are in pink, and the four points on the right side are in light blue. The octagon in the middle is black.

machines; computer game software for playing online betting games; computer game software for playing online casino games; computer game software for playing online gambling games; computer game software for playing online games of skill; computer game software for playing online lottery games; computer game software for playing online prize games; computer game software for use on cellular phones; computer game software for use on handheld computers and tablet computers; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer game tapes; computer games; computer games downloadable from a global computer network; computer games for use on cell phones and other handheld wireless devices; computer games for use on gaming machines; computer games for use on mobile and cellular phones; computer games for use on notebook computers; computer games for use on personal computers; computer games for use on slot machines; computer games for use on tablet computers; computer games for use on video lottery terminals; computer games for use with computers; computer games in the field of basketball; computer gaming software for recreational game playing purposes; computer glasses being anti-blue light eyeglasses; computer graphics boards; computer graphics cards; computer hard drive enclosures; computer hardware; computer hardware and computer network servers for conducting financial transaction; computer hardware and computer software for database management; computer hardware and computer software for retail inventory management, sold as a unit; computer hardware and downloadable software for receiving, processing, transmitting, and displaying data from medical testing devices, namely, in vitro diagnostic devices; computer hardware and software and sensors for controlling and regulating engine, clutch and transmission functions in order to optimize fuel consumption in land vehicles; computer hardware and software for charging electric storage batteries and electric batteries for vehicles; computer hardware and software for charging electric vehicle batteries; computer hardware and software for controlling and regulating activation and deactivation of a freewheel function in order to reduce fuel consumption in land vehicles; computer hardware and software for database management; computer hardware and software for processing digital music files; computer hardware and software for processing financial payments for electric vehicle charging stations; computer hardware and software for processing financial payments for electricity; computer hardware and software for setting up and configuring local area networks; computer hardware and software for setting up and configuring wide area networks; computer hardware and software system for tracking people, objects and pets using GPS data on a device on the tracked people, objects and pets; computer hardware for cryptocurrency mining; computer hardware for data processing; computer hardware for network access servers; computer hardware for telecommunications; computer hardware for tracking driver behavior; computer hardware for tracking driver behaviour; computer hardware to allow users to perform electronic business transactions via a global computer network; computer hardware, namely, wireless network extenders; computer hardware, namely, wireless network repeaters; computer heat sinks; computer housings; computer interface boards; computer interface cards; computer keyboard covers; computer keyboard keycaps; computer keyboards; computer keypads; computer memory boards; computer memory expansion modules; computer mice; computer monitor arms; computer monitor frames; computer monitors; computer motherboards; computer motherboards and daughterboards; computer mouse; computer mouse mats; computer mouse pads; computer network adapters; computer network adaptors; computer network bridges; computer network hubs; computer network hubs, switches and routers; computer network routers; computer network server; computer network switches; computer network-attached storage [NAS] hardware; computer operating programmes; computer operating programs; computer operating recorded programs; computer operating software for operating set-top boxes and digital video recorders and players; computer operating software for x-ray screening in the field of security; computer

operating system interface software; computer operating system software; computer operating systems; computer parallel ports; computer power supplies; computer power supplies plug adapters protective films adapted for smartphones; computer printers; computer program for the compilation of credit reporting data; computer programmes for document management; computer programmes for printing purposes; computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer programs featuring badges for use in online virtual worlds; computer programs featuring characters for use in online virtual worlds; computer programs featuring clothes and accessories for use in online virtual worlds; computer programs featuring emojis for use in online virtual worlds; computer programs featuring Proof of Attendance Protocols (POAPs) and non-fungible token (NFT) badges; computer programs featuring stickers for use in online virtual worlds; computer programs featuring virtual beauty products being skin care preparations, sun care preparations and cosmetics for use in an online virtual world; computer programs for accessing information in the field of dietary supplements; computer programs for accessing information in the field of skin care information; computer programs for connecting to remote computers and computer networks; computer programs for editing images, sound and video; computer programs for enterprise resource planning (ERP) in the field of supply chain management; computer programs for language translations and training; computer programs for network management; computer programs for processing digital music files; computer programs for searching remotely for content on computers and computer networks; computer programs for searching the contents of computers and computer networks by remote control; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; computer programs for use in teaching children to read; computer programs for use in the operation of non-medical ultrasound detectors; computer programs for user interface design; computer programs for using the Internet and the World Wide Web; computer programs used for electronic cash register systems; computer scanners; computer screen filters; computer screen saver software; computer screen saver software, recorded or downloadable; computer screen savers; computer screens; computer screensaver software; computer search engine software; computer serial ports; computer servers; computer shells; computer simulation game software for playing golf; computer skins, namely, fitted plastic film for covering and providing a scratch proof barrier for computers; computer software and applications for electric vehicle navigation; computer software and computer hardware for scheduling, planning, organizing, and managing heavy equipment reservations; computer software and computer programs for use in credit card and debit card payment processing; computer software and databases for use in diagnosis, repair and configuration of computers; computer software and firmware for playing games of chance on dedicated gaming consoles; computer software and firmware for playing games of chance on reel based slot machines; computer software and firmware for playing games of chance on video based slot machines; computer software and firmware for playing games of chance on video lottery terminals; computer software and software applications for accessing medical and health information; computer software and software applications for controlling and managing access to patient medical information; computer software and software applications for use in the diagnosis, monitoring and treatment of medical and health information; computer software application for electric vehicle chargers; computer software applications for the management and provision of customer relationship management; computer software applications for the management and provision of financial investment services; computer software applications for the sale, order and delivery of restaurant and take-away restaurant meals; computer software featuring mathematical

algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for accessing email and text messages; computer software for accessing information directories that may be downloaded from the global computer network; computer software for accessing information in the field of skin care; computer software for accessing, browsing and searching online databases; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for administering employee payroll; computer software for administration of computer local area networks; computer software for administration of computer networks; computer software for allowing players to exchange text messages using chat lines via the internet; computer software for allowing players to exchange text messages using chatrooms via the internet; computer software for allowing players to exchange text messages using Internet forums via the internet; computer software for application and database integration; computer software for assessing cognitive brain function and detection of memory deficit for use in providing medical diagnosis and course of treatment for individuals with memory impairments; computer software for assisting developers in creating program code for use in mobile internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs; computer software for authorising access to data bases; computer software for authorising access to databases; computer software for biometric gait recognition analysis; computer software for bitcoin data mining; computer software for blockchain data mining; computer software for business data analysis; computer software for business data mining; computer software for calculation of operational and status data collected from metalworking machines and metalworking tools for use in determining the status of such machines and tools and for optimizing the use and efficiency of such machines and tools; computer software for collecting processing, extracting and analyzing magnetometric and geophysical data; computer software for collecting, processing, extracting and analysing data for farm management; computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; computer software for connecting computers and for enabling cloud computing; computer software for contact tracing and tracking of COVID-19 and other infectious diseases; computer software for controlling and managing access server applications; computer software for controlling and managing patient medical information; computer software for controlling and operating laser rangefinders; computer software for controlling point-of-sale terminals; computer software for converting document images into electronic formats; computer software for creating 3d virtual reality plans, models, and technical specifications for use in construction and architectural design; computer software for creating advertising signage content for third parties; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating crypto currency accounts; computer software for creating digitized patterns; computer software for creating maps; computer software for creating music; computer software for creating searchable databases; computer software for creating searchable databases of information and data; computer software for creating video games; computer software for creating, sending and receiving e-mail; computer software for cross blockchain transfers; computer software for cryptocurrency asset management; computer software for customizing wireless network access for end users; computer software for data deduplication; computer software for data security; computer software for database management; computer software for designing, planning and executing experiments in the fields of chemistry and chemical biology; computer software for developing, building, and operating consumer blockchain applications; computer software for digital animation and special effects of images; computer software for digital messaging for accessing live online chat services; computer software for displaying orders and driver locations on maps; computer software for document management;

computer software for editing images, sound, and video; computer software for editing music and for editing digital audio recordings; computer software for electronic trading of currency; computer software for electronic trading of virtual currency; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for formulating animal feed; computer software for global positioning systems; computer software for graphic designing and editing; computer software for image processing; computer software for interacting with blockchain platforms; computer software for inventory management; computer software for language training; computer software for language translations; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for logistics, namely, software for tracking food deliveries; computer software for maintaining and managing information about financial transactions on distributed public ledgers; computer software for maintaining and managing information about financial transactions on peer-to-peer payment networks; computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; computer software for managing retail store customer accounts; computer software for managing transactional data, providing statistical analysis, and producing notifications and reports in the field of warehousing and distribution; computer software for mathematical calculation; computer software for medical imaging; computer software for monitoring computer network access and activity; computer software for monitoring patient medical information; computer software for oil and gas reservoir analysis; computer software for operating an electronic coffee maker; computer software for operating automobile fuel cell batteries; computer software for operating computer games on the internet; computer software for operating fuel cell system stacks; computer software for operating printers, inkjet printers, multi function printers, and photocopiers; computer software for operating system programs; computer software for operating three dimensional printers; computer software for optical character recognition; computer software for ordering, tracking, and reviewing whole bean and ground coffees; computer software for organising food recipes, monitoring calorie intake, and weigh control; computer software for organizing and viewing digital images and photographs; computer software for organizing, archiving and searching information about consumers' prior purchases of consumer products; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for producing financial models; computer software for project management; computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; computer software for pulmonary, cardiovascular and edema analysis for use in small animal research studies; computer software for recording and displaying motor racing information; computer software for redistricting, namely, aggregating smaller geographical areas into multiple larger areas; computer software for running computer games on the internet; computer software for running development programs and application programs in a common development environment; computer software for scanning, digitizing, altering and retouching of photographs; computer software for scientific analysis of genetic sequences; computer software for synchronizing data between hand-held or portable computers and host computers; computer software for tax planning, tax calculation, tax return preparation and tax return filing; computer software for text editing; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for the design, development and updating of digital electronic labels; computer software for the management of commercial printing companies; computer software for the management of cryptographic security of electronic transmissions across computer networks; computer software for the management of sales; computer software for the operation of camera drones; computer software for training in the field of computer repair; computer software for

training in the field of electronics repair; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use as an application programming interface (API) for use in the fields of image content analysis; computer software for use as an application programming interface (API) for use in the fields of natural language processing; computer software for use as an application programming interface (API) for use in the fields of speech recognition; computer software for use as an application programming interface (API) for use in the fields of virtualization; computer software for use in analyzing and benchmarking cybersecurity risk; computer software for use in cancer diagnosis; computer software for use in clearing of financial transactions; computer software for use in cognitive training and teaching new skills to individuals with learning and memory impairments; computer software for use in conducting psychological and neurological assessments and examinations; computer software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in creating and designing websites; computer software for use in customer relationship management (CRM); computer software for use in database management; computer software for use in electronic storage and display of financial transactions and exchange of data in the field of foreign exchange services; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in heavy equipment rental, leasing, auctioning and purchasing services; computer software for use in integrated circuit design; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in map making; computer software for use in migrating between different computer network operating systems; computer software for use in navigation for and location identification of a delivery vehicle; computer software for use in operating and programming computer printers, thermal printers and electronic label printing machines; computer software for use in planning and booking competency tests; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer software for use in the encryption and decryption of digital files; computer software for use in the management of payroll; computer software for validating address and zone information; computer software for video editing; computer software for virtual telephone cards; computer software for visual art designing and editing; computer software for visualization in the nature of graphical representation and analysis of satellites; computer software for word processing; computer software in the field of human resource management; computer software in the field of personnel management; computer software in the field of retrieval and delivery of recyclable material, and recycling services; computer software namely non-fungible tokens for facilitating commercial transactions; computer software platforms for hosting an electronic contact centre; computer software platforms for providing access to crypto-collectibles; computer software platforms for providing access to non-fungible tokens; computer software platforms for social networking; computer software that allows transmission of graphics to mobile telephones; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software to allow users to perform electronic payment transactions; computer software to automate data warehousing; computer software to calculate and charge sales tax and to create reports to pay sales tax to appropriate tax agencies; computer software to create and manage budgets; computer software to create price quote estimates and transfer price quote estimates to invoices; computer software to create, customize, import and export magnetometric and geophysical data; computer software to create, customize, print, export, and e-mail financial reports, business reports, balance sheets, profit and loss statements, cash flow statements, and

taxable sales reports; computer software to create, customize, print, export, and e-mail purchase orders; computer software to create, print, and track checks and purchase orders; computer software to design and monitor pharmaceutical treatment plans, track patient compliance and verify treatment outcomes of prescription medication; computer software to enable accessing information in electronic form via computer and communication networks in the field of news; computer software to enable downloading information in electronic form via computer and communication networks in the field of news; computer software to enable providing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of heavy equipment rental, auction and acquisition; computer software to enable teleconferencing services; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer software to enable uploading information in electronic form via computer and communication networks in the field of news; computer software to enable videoconferencing services; computer software to manage customer lists, e-mail and print sales forms, and track running balances; computer software to track sales, expenses, and payments; computer software used for running cloud computing based applications; computer software used to manage and avoid the risk of operator distraction and fatigue by sending real time alerts to operator in the vehicle; computer software, namely cryptocurrency blockchain for peer-to-peer sharing of financial data; computer software, namely cryptocurrency tokens for facilitating commercial transactions; computer software, namely, game engine software for video game development and operation; computer speakers; computer stands; computer stands specially designed for holding a computer, printer and accessories; computer storage area network (SAN) servers; computer stylus; computer styluses; computer system software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer systems for vehicle safety and security for autonomous vehicles; computer terminals for banking purposes; computer touch screens; computer touchscreens; computer user manuals in electronic format; computer user manuals in the form of downloadable electronic publications; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for data compression; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer virtualization software; computer virtualization software for running a virtual desktop infrastructure (VDI) through a computer network; computer whiteboards; computer workstations comprising computer, monitor, and printer; computer-aided manufacturing (CAM) software for general use; computer-controlled steering system for recreational vehicles featuring smart technology; computer-generated holograms; computers; computers and computer hardware; computers and computer hardware for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants, and its environment; computers and instructional manuals in electronic format sold as a unit; computers for managing control devices for aircraft; computers for use in data management; computers to read periodicals; computing hardware consisting of tactile and touch screens, central processing units and cameras;

cooling pads for laptop computers; covers for computer keyboards; covers for laptop computers; covers for tablet computers; cycle computers; cycling computers; data gloves for wireless interaction with a computer or remote device; decorative wind socks for indicating wind direction; desktop computers; diagnostic computer software for processing and reporting fuel cell current and voltage testing information for use in fuel cell test stations; discs bearing computer game software; disk drives for computers; display screen filters adapted for use with computer monitors; display screen filters adapted for use with tablet computers; disposable computer keyboard covers; dive computers; dongles being computer hardware for preventing the unauthorized copying or use of computer software; downloadable and recorded computer application security software for protecting people from identity theft for use on mobile devices; downloadable and recorded computer security software for guarding users of computers and remote access devices from identity theft using anti-keyboard logger and keyboard stroke encryption; downloadable and recorded computer software for encryption of digital files; downloadable and recorded computer software for receiving digital video over a communication network; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing audio files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing video files; downloadable and recorded computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity assessment and protection; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to edit photographs; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to take and edit photographs; downloadable applications for handheld computers, tablet computers and mobile phones to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the downloading and playing of video games; downloadable applications for laptop computers to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the streaming of music; downloadable applications for laptop computers to provide access to the internet; downloadable applications for laptop computers to read periodicals; downloadable applications for mobile phones and tablet computers for accessing, monitoring and tracking personalized electricity usage and billing information; downloadable applications for tablet computers to download music, movie and television graphics; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the downloading and playing of video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of music; downloadable applications for tablet computers to provide access to the internet; downloadable applications for tablet computers to read periodicals; downloadable applications for tablet computers to take and edit photographs; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on public and private virtual servers; downloadable computer agronomic and agricultural software for collecting, organizing, tracking, and analyzing agronomic and weather information; downloadable computer anti-virus software; downloadable computer application interface [API]

integration software for online marketplaces; downloadable computer application software for developing computer games; downloadable computer application software for maintaining and updating computer games; downloadable computer application software for playing video games; downloadable computer application software to track and monitor agricultural and horticultural crop yield; downloadable computer applications for mobile phones, tablets and handheld computers in the field of mass transit services for the general public through buses, subway trains, streetcars and commuter trains; downloadable computer chatbot software for providing business management information; downloadable computer chatbot software for simulating conversations; downloadable computer connectivity software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable computer data privacy protection software to create, implement, assign and manage the computer business practices of others; downloadable computer data privacy protection software to provide assessments and reports to users; downloadable computer desktop wallpaper; downloadable computer game instruction manuals; downloadable computer game programs; downloadable computer game software; downloadable computer game software for gambling machines; downloadable computer game software for gaming machines; downloadable computer game software for use on mobile and cellular phones; downloadable computer game software via a global computer network and wireless devices; downloadable computer games; downloadable computer games delivered digitally to personal computers, video game consoles, handheld computers and tablet computers; downloadable computer games via a global computer network; downloadable computer graphics; downloadable computer graphing software for use in the field of genomics; downloadable computer graphing software for use in the field of transcriptomics; downloadable computer operating software for data discovery and data classification and to create security and privacy reports; downloadable computer operating software for use in protecting, managing, sharing, and storing data; downloadable computer programs for accounting; downloadable computer programs for video and computer games; downloadable computer search engine software; downloadable computer security software; downloadable computer security software in the field of data management for ingesting, storing, organizing and maintaining data created and collected by third party businesses; downloadable computer software allowing teachers to monitor student performance and use of tutoring services by students; downloadable computer software and mobile application software for monitoring and controlling chemical monitoring and sanitation systems for hot tubs; downloadable computer software and mobile application software for use in tracking, processing, and displaying oral hygiene data and educating consumers in the field of oral hygiene; downloadable computer software and mobile application software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence; downloadable computer software application for mobile phones and tablets for use in improving communication in interpersonal relationships; downloadable computer software applications for accessing dietary supplement information; downloadable computer software applications for accessing skin care information; downloadable computer software applications to search, order, browse menus, rate, comment and track the delivery of takeout food; downloadable computer software development programs for creating and developing business applications for others; downloadable computer software development programs for creating and developing computer databases for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer mobile applications for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be used on public and private virtual servers; downloadable computer software for accessing and using databases in the fields of
