Vol. 69 No. 3532

General Information

The *Trademarks Journal* (the "*Journal*") is published on the website of the Canadian Intellectual Property Office (http://cipo.gc.ca). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the "*Act*"), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 06

(1) Containers made of metal for transport; building boards of metal, building panels of metal, cast iron for use in buildings, metal building flashing, metal reinforcement materials for building, metal reinforcing materials for concrete, metal slabs for building, metal trims for building, steel angles for use in building constructions, steel frames for building; containers of metal for transport, tanks of metal for storage and silos of metal; storage vessels made of metal for thick matter and concrete; pipes of metal for liquid transfer and transfer of building materials, pipe joints of metal, pipe couplings of metal, pipe connectors of metal, pipe clamps of metal, metal waves for transport pipes, metal tubes for transport, metal hoses for use for transport of building materials; materials of metal for railway tracks; metallic frames for building; metal stairs and ladders; metal pillars for building; injection lances of metal; injection lances made of metal for the transport of organic substances, namely bio mass, humus, soil, and inorganic substances, namely concrete, mortar, bitumen, screed, plaster, for thermal use

Class 07

(2) Compressed air pumps, gas pumps, pneumatic pumps, pumps as parts of machines, screw pumps; compressors for industrial machinery, compressors as parts of machines, air compressors; industrial robots, namely industrial robots for operating spray arms for concrete, mortar, bitumen, screed, plaster and sludge; pneumatic transporters, building material conveying machines; hydraulic hoists, pneumatic hoists; machines and mechanical apparatus and installations consisting thereof as well as their parts for the manufacture, processing, transport and application of raw materials, building materials, in particular roughcasting machines, continuous mixer for mixing mortar and concrete, mortar pumps, pumps for concrete; concrete mixers, mortar mixers, mixers for building materials, namely, concrete, mortar, bitumen, screed and plaster, mixers for construction materials, namely, concrete, mortar, bitumen, screed and plaster; automatic manipulators namely, power operated manipulators for loading and unloading; concrete construction machines; hydraulic transmissions for industrial machinery; hydraulic conveyers, hydraulic hoists, hydraulic conveyers, hydraulic hoists, hydraulic jacks, hydraulic lift tables, hydraulic pumps as construction devices, mechanical conveyers, mechanical hoists, mechanical conveyers, mechanical hoists, mechanical jacks, mechanical lift tables, mechanical pumps as construction devices, pneumatic conveyers, pneumatic hoists, pneumatic conveyers, pneumatic hoists, pneumatic jacks, pneumatic lift tables, pneumatic pumps as construction devices; stationary and mobile pumps for concrete, mortar and sludge; concrete spraying machines; concrete paving machines; concrete mixers (machines); concrete compressors; concrete spreader appliances, namely a hydraulic rotary machine used for spreading concrete; pumps for concrete; feed pumps; staged and segmented conveyors; belt conveyors; belts for conveyors; archimedian screws, namely a mechanical pipe used to transport water; rotating screw conveyors; pneumatic transporters; backfilling machines, in particular for shuttering, earth drilling, piled foundations and cavities in masonries; machines for grouting, in particular of frames and brickwork; injection pumps for cement-bound material; spray paint machines; supports for spray guns for paint; silo mixing plants; silo mixing pumps; silo conveyor systems; feeding machines for supplying construction material, namely a machine used for storing concrete and feeding concrete pumps; shredders for industrial use; processing machines for processing construction materials, namely concrete, mortar, screed, bitumen, sand; machines for the damping of flow pulsation and pressure pulsation in pipelines; mixing machines, namely, concrete mixers, for the building construction industry, tunnel construction industry and mining industry; machines used for automatic dispensing of building materials, namely, concrete, mortar, bitumen, plaster and paint, for use in the building construction industry, tunnel construction industry and mining industry; machines used for filtering building materials, namely, concrete, mortar, bitumen, plaster, for use in the building construction industry, tunnel construction industry and mining industry; combined skips and mixers for producing concrete; dust collectors for mixing plants; sifters as parts for engines for material sorting; sieves for industrial use; machines used for screening building materials, namely, concrete, mortar, bitumen, plaster, for use in the building construction industry, tunnel construction industry and mining industry; earth moving machines; mineworking machines, namely worm pumps for underground mines, concrete spraying machines for underground work, vertical concrete spraying machines, tunnel snorkel distributors, namely, concrete placing machines, belt conveyers, concrete buffer storage, namely buffer tanks for storing concrete; mining machines, namely concrete spraying machines, piston pump, worm pumps, piston pumps for mould removal; pipe-jacking machines; scaling machines for use in the removal of loose rocks for mining; truck mills for mining purposes; mine borers [machines]; drills for the mining industry; extractors for mines; rock-drilling machines; lift platforms for commercial use; mobile lifting platforms for commercial use; tunneling machines; tunnel boring machines; machines for the manufacture of

formwork systems, in particular for the moulding and manufacturing of tunnel moulded parts; machines for parting, sorting, conveying, pressing and supplying of fuel and raw material as well as of waste and garbage; electricity generators, emergency power generators; emergency generating units; electrical generators using solar cells; mobile mixing plants and pumping equipment for liquid and semi-solid materials, in particular screed, mortar, coating as well as undercarriages therefor; mechanical distributors for the distribution of liquid, pastry-like or loose building materials, namely concrete, for use in the building construction industry, tunnel construction industry and mining industry; automatic concrete pumps; bulldozers, front loaders, backhoes, cranes, excavators, trenchers, bucket trucks

Class 08

(3) hand-operated tools for grouting, in particular of frames and brickwork, namely grouting trowels, mortar guns

Class 09

(4) electronic control panels, electronic controls for conveyer systems and mixing systems in the building industry; instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely electric control panels; computer software for controlling and operating construction machines, mining machines and tunneling machines for use in the building construction industry, tunnel construction industry and mining industry, computer software for database management, computer software for calculating the supply of raw material required in the field of building construction industry, tunnel construction industry and mining industry, electronic weighing scales for building materials; Navigation and tracking computers for trucks, concrete mixing vehicles, concrete transport vehicles and construction vehicles, namely, forklift trucks, bulldozers, dump trucks, compactors, front loaders, backhoes, cranes, excavators, trenchers, bucket trucks; computer software and hardware for tracking, monitoring, controlling, remotely controlling and carrying out technical inspections in respect of mechanical engineering and electrical engineering machines, structural engineering machines, civil engineering and mining machines, construction vehicles in the building construction industry, tunnel construction industry and mining industry; Machine-readable data carriers, namely, CDs, DVDs and hard disks, containing software programs for controlling and operating construction machines, mining machines and tunneling machines in the field of building construction industry, building industry, tunnel construction industry and mining industry; computer interface cards; electronic supervision devices, namely an electronic scan tool used to provide a vehicle's onboard diagnostics information and to provide construction machinery on site diagnostics information; quality control testing machines for building material, namely, concrete, mortar, bitumen, screed, plaster; graduation checkers for calibration purposes; optical inspection machines for inspection of building materials, in particular concrete, mortar, screed and coating; accumulators for the storage of electricity; chargers for electric batteries; electric current meters; voltmeters

Class 11

(5) ventilating fans

Class 12

(6) motor vehicles, namely light trucks, construction vehicles, namely, forklift trucks, dump trucks and compactors, concrete mixing trucks, trucks with belt conveyers and structural parts thereof; concrete mixing vehicles; concrete transport vehicle; tankers (automotive vehicles); forklift trucks; driverless cars [autonomous cars]; shotcrete transporting systems, namely concrete mixer trucks and concrete pipes

Class 17

(7) Flexible rubber tubes for construction purposes; flexible rubber pipelines, rubber tubes, rubber pipes and rubber connecting pieces for construction purposes; rubber seals for pipe connections, rubber rings, for use as pipe connection seals, pipe insulation materials; expansion joint fillers

Class 19

(8) building materials, namely pipes, walls, piles, panels, manhole covers, floors, drain pipes and blocks made of concrete, mortar, bitumen, mortar for building, concrete for building; shotcrete transporting systems, namely create pipes

Services

Class 36

(1) insurance services; financing of industrial activities in the field of the construction industry, construction machinery industry, mining industry and tunnel construction industry

Class 37

(2) Construction of buildings, construction of pipelines, construction of roads, construction of tunnels, construction of bridges; repair, namely repair of land vehicles and concrete construction machines, mining machines, tunneling machines, mining machines; Installation services, namely installation of land vehicles and concrete construction machines, mining machines and tunneling machines; renting of concrete construction machines, construction land vehicles, construction site land vehicles construction, mine working machines, tunnel construction machines, electricity generators

Class 40

(3) Rental of current generators, rental of electrical power units

Class 41

(4) Education courses in the field of the building construction industry, training courses in the field of the building construction industry, organizing, arranging and conducting of seminars, congresses, conferences, workshops in the field of the building construction industry and electronic desktop publishing; publication of the editorial content of sites accessible via a global computer network, publication of journals, catalogues, brochures, books; publishing of electronic publications; providing of training in the use and the operation of constructional machines and equipment in the building construction industry

Class 42

(5) Scientific and technological research in the field of the construction industry and building materials, namely, concrete, mortar, bitumen, plaster, sand; industrial analysis and research services in the field of building materials and the construction industry; design and development of computer hardware and software; development and maintenance of computer programs for the construction industry, for the construction machinery industry, for the mining industry and for the tunnel construction machinery industry; development of computerised data-logging systems (hardware) for the construction industry, for the construction machinery industry, for the mining industry and for the tunnel construction machinery industry; monitoring of computer systems and maintenance of computer systems by remote access; technical planning and engineering project management services in the field of the use of construction machines, apparatus for building construction and demolition services, construction equipment, construction vehicles and construction site vehicles, mineworking machines, tunnel construction machines

Class 07

(1) Machine tools, machines for painting, bonding and welding; paint and glue guns; mechanical tools for the automotive industry and for the manufacture of automotive parts; anti-pollution devices for motors and engines; electric, pneumatic and hydraulic devices for opening vehicle doors and windows; automatic vending machines; robots for the automotive industry and for the manufacture of automotive parts; industrial presses for the manufacture of automotive parts; moulds (machine parts) for the automotive industry and for the manufacture of automotive parts; electric cleaning machines and apparatus, namely for washing, cleaning and disinfecting automobiles, two-wheeled motor vehicles, tricycles, electrically powered motor vehicles, all-terrain vehicles, buses, trucks; air filters for automobile motors and engines; grilles.

Class 09

(2) Gasoline gauges; on-board electric control devices related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; electric monitoring apparatus, namely radars and antennas integrated in vehicle bodies for parking assistance and driving assistance; voltage regulators for vehicles; sensors, namely liquid and gas level sensors, fuel level sensors, pollutant sensors, temperature sensors, acceleration sensors, proximity sensors for parking assistance, motion sensors; pressure and temperature sensors for the fuel filling devices of automobiles and vehicles; distance sensors; liquid level sensors; pollutant sensors; pressure sensors; optical sensors; infrared sensors; biochip sensors; electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object; electric batteries for vehicles; control units, sensors and actuators for use in the on-board checking, monitoring, regulation and diagnosis of vehicle systems, modules and components related to the generation, storage, supply and transformation of energy, and to the depollution of vehicles; calculators, computer programs and computer software for the on-board checking, monitoring, regulation and diagnosis of vehicle systems, modules, control units and components related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; pressure measuring apparatus and instruments for use with vehicle fuel cells and tanks; temperature measuring apparatus and instruments for use with vehicle fuel cells and tanks; battery voltage and temperature measuring apparatus and instruments; battery voltage and temperature control apparatus and instruments; apparatus and instruments for the remote diagnosis of the condition of

hydrogen tanks and the durability of fuel cells; apparatus and instruments for the diagnosis of the condition and durability of batteries; vehicle modules, namely on-board sensors, gauges, actuators and indicators for checking and displaying the fuel supply level (fuel tank); vehicle fuel cells; energy transformation apparatus for vehicles, namely apparatus for the transformation of liquid chemicals and electrochemical components into electrical energy, namely fuel cells, automotive batteries, conversion of electrical radiation into electrical energy, namely photovoltaic thermal hybrid modules.

Class 12

(3) Vehicles, namely automobiles, two-wheeled motor vehicles, tricycles, electrically powered motor vehicles, hybrid automobiles, all-terrain vehicles, buses, trucks; apparatus for locomotion by land, namely locomotives, streetcars, trolley buses, trains, apparatus for locomotion by air, namely airplanes, helicopters, rotorcraft, aircraft, dirigible balloons, and apparatus for locomotion by water, namely boats, ships, seaplanes; motor vehicles, motorcycles, pickups, trucks; vehicle parts and components in the nature of vehicle body parts, vehicle body constituent parts, bumpers, stone shields, hoods, tailgates, doors, fenders, overfenders, protective panels, spoilers, roofs, trunk floors, floors, shock absorbers; roof opening mechanisms for vehicles; aerodynamic elements for vehicles, namely spoilers, air guides for vehicles; vehicle chassis; fuel tanks for vehicles; caps for vehicle gas tanks; non-metal tubing for filling fuel tank systems for use in automobiles, hydrogen fuel cell electric vehicles, and hydrogen fuel cell buses and trucks; metal tubing for filling fuel tank systems for use in automobiles, hydrogen fuel cell electric vehicles, and hydrogen fuel cell buses and trucks; canisters for absorbing the gas used in motor vehicles; air pumps for motor vehicles.

Class 19

(4) Plastic foundry moulds made of plastics; foundry moulds made of fibreglass composite materials; foundry moulds made of synthetic resins; foundry moulds made of carbon composite materials.

Services

Class 35

(1) Wholesale or retail services for the constituent parts, systems and control units and modules of vehicles; wholesale or retail services for the constituent parts, systems and control units and modules of vehicles, related to the on-board generation, storage, supply and transformation of energy, and to the depollution of vehicles; business organization advice; consulting services in business management; business management assistance and corporate commercial advice; preparation of statistical reports and market studies; computer database management; computerized central file management.

Class 37

(2) Construction supervision; provision of information related to the maintenance, installation and replacement of the vehicle constituent parts, vehicle parts and components in the nature of vehicle body parts, constituent parts for vehicle bodies, bumpers, stone shields, hoods, tailgates, doors, fenders, overfenders, protective panels, spoilers, roofs, trunk floors, floors, shock absorbers, vehicle modules, roof opening mechanisms for vehicles, structural components for motor vehicles, aerodynamic components for vehicles, spoilers, air guides for vehicles, grilles, vehicle chassis, fuel tanks for vehicles, caps for vehicle gas tanks, constituent vehicle parts, vehicle systems, control units and modules in the nature of any parts related to the on-board generation, storage, supply and transformation of energy, and to the depollution of vehicles, fuel tanks for vehicles, tubing, valves, canisters, filters and modules for pumping, gauging, filtration, pressure regulation, and mechanical, thermal and chemical protection in relation to vehicle motors and engines, vehicle fuel

cells, hydraulic torque converters for land vehicles and catalytic converter units for vehicle exhausts.

Class 40

(3) Treatment of plastic and metal composite materials for the manufacture of constituent automotive parts; treatment of fibreglass composite materials for the manufacture of constituent automotive parts; treatment of composite materials made from synthetic resins for the manufacture of constituent automotive parts; treatment of carbon composite materials for the manufacture of constituent automotive parts; treatment of plastics for the manufacture of constituent automotive parts; treatment of metal materials for the manufacture of constituent automotive parts; recycling of plastics.

Class 42

(4) Urban and commercial design planning; engineering work planning and technical project planning; technical advisory services related to environmental protection; industrial analysis services; consulting services related to the safety and safeguard of the environment; technological and scientific information services; design, development, update and rental of computer software and databases; research and development of new products for others; technical research and development in the industry of automobiles, trains, buses, heavy-duty vehicles, all-terrain vehicles; research and development in mechanical engineering; research and development in physics; research and development in chemistry, biochemistry and electrochemistry; advice related to energy conservation; research and development in environmental protection; material testing; research and development of systems, modules, computer programs and software for vehicles; research and development in the fields of vehicle weight and emission reduction; research and development of liquid and gas level sensors, fuel level sensors, pollutant sensors, temperature sensors, acceleration sensors, proximity sensors for parking assistance, motion sensors and pressure and temperature sensors for the fuel filling devices for use in automobiles and vehicles, distance sensors, liquid level sensors, pollutant sensors, pressure sensors, optical sensors, infrared sensors, biochip sensors, electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object; research and development of actuators used for the on-board checking, monitoring, regulation and diagnosis of vehicle systems and modules related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; research and development of vehicle control units used for the on-board checking, monitoring, regulation and diagnosis of vehicle systems and modules as well as components related to the generation, storage, supply and transformation of energy and to the depollution of vehicles; research and development of tools, namely for the quality control of automobile parts, the forming and cutting of automotive pieces and the assembly of components and production lines for the automotive industry; technical advisory services in the fields of the development and manufacture of parts and components for vehicles and systems related to the generation, storage, supply and transformation all forms of energy, and to the depollution of vehicles; technical advisory services in the fields of the filling of automotive fuel tank systems and emission measures for automotive fuel systems as well as fuel system parts; research and development of constituent vehicle parts, vehicle parts and components in the nature of vehicle body parts, constituent parts for vehicle bodies, bumpers, stone shields, hoods, tailgates, doors, fenders, overfenders, protective panels, roofs, trunk floors, floors, shock absorbers, modules for vehicles, roof opening mechanisms for vehicles, structural components for motor vehicles, aerodynamic components for vehicles, spoilers, air guides for vehicles, grilles, vehicle chassis, fuel tanks for vehicles, caps for vehicle gas tanks, constituent vehicle parts, vehicle systems, control units and modules in the nature of any parts related to the on-board generation, storage, supply and transformation of energy and to depollution of vehicles, fuel tanks for vehicles, tubing, valves, canisters, filters and modules for

pumping, gauging, filtration, pressure regulation, and mechanical, thermal and chemical protection in relation to vehicle motors and engines, vehicle fuel cells, hydraulic torque converters for land vehicles and catalytic converter units for vehicle exhausts; research and development of batteries.

and actual liability for violations and citations, and providing business and accounting information, all related to traffic and parking violations, payments and collections for rental car companies and customers, individual drivers, and fleet owners, operators and drivers; Data compilation and computerized database management, production and generation of traffic reports, toll way usage and payment reports, road vehicle registration reports, insurance compliance reports, and traffic planning reports all for business and personal purposes, and reports featuring information relating to road vehicle speed, red light and other traffic violation citations for government entities; Third party administration processing of traffic photo enforcement and parking citations for businesses and consumers; Business and consumer process management, namely, non-legal toll dispute processing and resolution services; Providing business information via a website in the nature of business performance, business management reports and business management analysis in the field of toll management and traffic violation payment management for rental car companies and customers, and fleet owners, operators and drivers; Business risk management services for rental car companies and customers, and fleet owners, operators and drivers; Preparing, processing, providing and managing road vehicle traffic violation reports for rental car companies and customers, and fleet owners, operators and drivers, preparing, processing, providing and managing toll payment and billing for rental car companies and customers, and fleet owners, operators and drivers; Business information services, namely, recording of incurred toll, roadway and parking fee charges and generating an itemized listing of toll, roadway and parking fee charges for others; Providing electronic road vehicle title and registration processing, maintenance and renewal services for licenses and tags, and title transfer; Business management services to review, process and submit forms and payments to process road vehicle titles, registrations and registration renewals for fleet owners and consumers; Compilation and systemization of graphical and textual data to enable automated collection of toll, roadway and parking payments; Data processing services, namely, processing graphical and textual data to enable automated collection of toll payments from fleet vehicle owners and individual subscribers; Services comprising the recording, compilation and systematization of graphical and textual data to allow for the collection and reimbursement of toll payments from fleet vehicle owners, car rental companies, renters, and individual subscribers for others

Class 36

(2) Highway toll collection services; Processing, collecting and paying of tolls and fees for use of roadways and parking spaces for others; Financial management in the nature of toll payment and collection services, namely, paying, collecting and processing toll payments and associated service fees for rental car companies and customers, and fleet owners, operators and drivers, and individual consumer subscribers, and tracking, reporting, analyzing, and providing toll payment and collection information for rental car companies and customers, and fleet owners, operators and drivers, and individual consumer subscribers; Financial risk management services for rental car companies and fleet owners, operators and drivers; Online payment services, namely, providing bill payment services to facilitate payment of tolls and fees for the use of roadways and parking spaces for others; Online payment services, namely, providing bill payment services to facilitate payment of traffic tickets and parking citations and fees; Providing information in the field of road toll, traffic enforcement and parking citation and parking fee collections

Class 37

(3) Installation, repair and maintenance of camera equipment, digital signal processing units, speed and position detection devices, signage, street lights, and computer hardware systems for use in road vehicle traffic, railroad crossing, school zone compliance, red light compliance, school bus regulations, license plate detection, and toll and parking monitoring and control

Class 38

(4) Providing access to an interactive website featuring technology that allows car rental companies and their customers, individual drivers, and fleet operators and their drivers to monitor, manage and create reports, and to review, monitor, manage, transfer liability from the registered owner of a vehicle to the responsible driver where available for, and pay toll, traffic violations and parking charges

Class 39

(5) Physical storage of graphical and textual data and electronically-stored graphical and textual data to enable automated collection of payments for tolls and parking from fleet vehicle owners and individual subscribers

Class 42

(6) Electronic gathering and storage of photographic images, graphics, and text on optical, digital and magnetic cards, tapes, discs and disc drives to enable automated collection of toll payments from fleet vehicle owners and individual drivers; Software as a service for tracking, processing, estimating, recording, transferring liability from the registered owner of a vehicle to the responsible driver where available for and paying tolls and fees for use of roadways, traffic violations and parking spaces and providing notification of such tolls and fees; Providing online non-downloadable software for processing, keeping and preserving records of road vehicle, license and tag registrations, renewals and title transfers; Providing online non-downloadable software for planning routes and calculating tolls; Computer services in the nature of digital, video and photographic imaging of road vehicles for enforcement and traffic, parking and toll usage planning purposes; Custom design of computer software and computerized camera systems for use in road vehicle enforcement, and for parking and toll payment management purposes; Providing online non-downloadable software for use in road vehicle traffic violation detection, imaging, verification, notice production, transaction management, payment processing, enforcement, customer service and reporting for use in the field of road vehicle safety and law enforcement; Providing online non-downloadable software for detecting, processing, communicating, analyzing and recording information, data and images with regard to speed limits, red lights, railroad crossings, school zone limitations, school bus regulations, toll roads, on and off-street parking, lane restrictions, congestion fees, intersection enforcement, traffic conditions and other violations and assessments, for analyzing, compiling and utilizing computerized databases with road vehicle registration, license plate information, violation and payment history, for producing and transmitting reports, evidence, citations and payment notices, and for aggregating data; Technical support services for road vehicle safety and law enforcement, namely, monitoring of network systems used in traffic violation detection, imaging, verification, notice production, transaction management, payment processing, enforcement, customer service, reporting violations and transactions, and engineering, research and development services in the field of road vehicle traffic management; Technical support services for road vehicle safety and law enforcement, namely, troubleshooting of computer hardware in the nature of diagnosing computer hardware problems, troubleshooting of software problems, and monitoring of network systems used in road vehicle violation detection, imaging, verification, notice production, transaction management, payment processing, enforcement, customer service, and violation and transaction reporting; Computer engineering consultation services, namely, design and implementation of computer hardware and computer software; Installation and maintenance of computer software; Providing temporary use of non-downloadable computer software for online customer support services, featuring captured video segments of vehicular traffic events and enabling an online user to view such video for the processing and management of traffic citation issuance, prosecution, disposition and collection; Providing

Certification Mark Standard
After registering for the Trucking Certificate of Recognition certification program with the applicant, employees of trucking companies must successfully complete mandatory certification courses provided by The RPM Trucking Industry Safety Program, namely, Safety & Health Leadership, Principles of Safety & Health Management, Maintenance Auditor and one of Safety & Health Committee OR Safety Representative. The trucking companies will then develop their occupational health and safety programs to meet the requirements outlined in these certification courses. Once a trucking company completes and passes a certification audit performed by an independent certified auditor, the trucking company will then receive a Trucking Certificate of Recognition. The Trucking Certificate of Recognition certification is valid for three years provided that the trucking company complies with the annual maintenance requirements namely, (a) an annual maintenance audit, performed internally by the Maintenance Auditor of the trucking company and submitted prior to the first and second anniversary dates of certification; and (b) prior to the third anniversary date of certification, a re-certification audit is performed by an independent certified auditor. The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those listed in the application.

Goods

Class 02

(1) Acrylic paints, aluminium paints, exterior paints, interior paints, floor protection varnishes, sumac for varnishes, lacquers for coating papers, thinners for lacquers; preservatives against rust and against deterioration of wood; colourants for use in the manufacture of paint, dye-wood, synthetic dyes, natural dyes, naphthol dyes; coatings in the nature of tribological anti-friction and wea-resistance coatings for piston rings made of metal; coatings in the nature of finishes for machine and engine parts and components, to provide wear protection and wear resistance; sealer coating for machine and engines parts and components; shellac for use as surface coatings in the nature of paints for nitriding of machines, apparatus, motor parts, and motors; corrosion inhibiting paint type coatings in the nature of paints for nitriding of machines, apparatus, motor parts and motors, in particular piston rings and pistons.

Class 06

(2) Cable junction sleeves of metal, metal expanding sleeves for affixing screws and metal cable wire, wire mesh, aluminum wire and other tubular elements, namely cable junction sleeves of metal, collars of metal for fastening pipes, elbows of metal for pipes and covers made of wire, namely gabions of steel wire, metal cable wire, non-electrical guy wire, air ducts and conduits of metal, unwrought and semi-wrought brass, shims and shim stock of metal, metal reinforcement materials for building and construction, cladding of metal for construction and building, non-electric cables and wires of common metal, small items of metal hardware, namely metal hose clamps, metal hose connectors, pipe connectors of metal, metal couplings for hose, metal couplings for pipe, metal stampings for use in fabrication of parts for vehicles, metal castings, finished cast molded parts, namely, metal bolts for air and water internal combustion engines, goods made from common metal and their alloys, namely, pliable heat shields for use in providing a thermal barrier around heat conducting parts of land and sea vehicles, metal sold in partly finished forms, namely steel, carbon steel, alloy steel, iron, aluminum, semi-finished polyester/metal composite material,

made primarily of metal for use in the further manufacture of seals, packings and bushes, metal ceramic bodies, sintered metal shaped bodies and powder metallurgy products, in particular with solid lubricants, as semi-finished products for seals, packings, bushes and shafts, metals in the form of semi-finished products for use in the further manufacture of seals and packings, shaped sintered metal parts as semi-finished products for use in the further manufacture of seals, packing, bushes and shafts, molds of metal for casting ceramic materials, shaped sintered metal parts for use in the manufacture of seals and packings, metal in powder form with solid lubricant properties for use in the manufacture of seals, packings, bushes and shafts, sinter-metal forms and powder metallurgical products, namely, for use with solid lubricants, in partly finished forms for metal, sealing rings, seal packages, bearings, bushes and shafts, wheel spindle screw nuts, metallic materials for railway tracks, pipes clamps of metal, metal pipe fittings, squeeze tubes of metal, safes, ores of metal, aluminum alloys, semi-finished and finished castings of ferrous and non-ferrous metals and their alloys, unfinished light metal castings and lights metal alloys used for casting, metal bolts for internal combustion engines, not for use in heat exchanging functions, die-cast parts of light metal and the alloys thereof as unfinished cast parts with and without coatings, namely metal bolts, retaining rings and bearing bushes, semi processed and processed cast parts with and without coatings, namely, metal bolts, unwrought and semi-wrought cast iron, bolts of metal, friction-bearing materials of nonprecious metal for further manufacture, sealing caps of metal for vehicles, carbon ring coating of metallic materials and alloys and predominantly metallic materials and alloys, shaped castings of light metal and light metal alloys, shims, and shim stock, fittings for the aforementioned goods, namely bolts made of metal.

Class 07

(3) Die-cast parts of light metal and the alloys thereof with and without coatings, namely, pistons and piston rings; light metal and light metal alloy pistons for use as parts of machines, internal combustion engines for air and water vehicles and automotive vehicles, internal combustion engines for automotive agricultural vehicles and compressors; piston rings; tools grinding machine, taps for use with machine tools, power-operated tools; motor and engines except for land vehicles namely, boat motors, ship motors, engine and motors for model boats, power generator motors, power tool motors; machine coupling and transmission components, except for land vehicles; internal combustion engine parts, namely, pistons; pistons for heavy-duty diesel engines; piston rings; cylinder liners as parts for internal combustion engines, cylinders for motors; cylinder liners being engine parts for land, water and air vehicles; automotive parts, namely, engine seals; machine coupling and transmission components except for land vehicles; sparking plugs, glow plugs, ignition parts, sparking circuits, spark plug connectors, spark plug interference suppressers; machine parts, namely, sliding elements for wear protection and sealing purposes for use in internal combustion engines, compressors; metal and plastic components for engines, lathes, electromotors, namely, cylinder liners, pistons, piston rings and bearings; metal and plastic components for engines not for land vehicles, namely, cylinder liners, pistons, piston rings and bearings; pistons for internal combustion engines; piston rings; shock absorbers for machines; parts for machines and engines not for land vehicles, namely, spindles, axles, gear wheels, shafts, and rods; metal and plastic components of land vehicle engines, namely, cylinder liners, pistons, piston rings and bearings; parts for land vehicle engines, namely, cylinder liners, pistons, piston rings and bearings; parts and fittings of engines and machines-namely, pistons, cylinder liners, cylinder inserts, gudgeon pins, valve seat inserts, valve guides, tappets, tappet guides, rocker arms, swirl chambers, camshafts, thrust washers, gears, bushes, bearings and bearing caps, fuel injection apparatus for internal combustion engines; piston rings for engines in general and engines for transportation by air and by water, namely, aircraft engines, jet engines and boat engines; unfinished dead-mold cast light metal machine parts, namely, pistons, piston rings, piston

locking rings and bearing housing for parts of internal combustion engines for air, water and automotive vehicles; sliding components for machines and motors, namely, pistons, machine and engine bearings; plain bearings, namely, sleeve bearings, and bushings; rolling contact bearings, namely, ball bearings, cylindrical roller bearings, and tapered roller bearings; pistons; piston connecting rods; piston cylinder sleeve assemblies; check valves, safety valves, valves as machine components; carburetors; carburetor repair kits sold as a unit comprising valves, plungers, gaskets, fuel hoses, and float gauges; engine fuel pumps, gas pumps; gas filters for engines and motors, oil filters for engines and motors; fuel injection components, namely, valves, fuel hoses, fuel injectors, warm-up regulators, and fuel pressure regulators; fuel pressure regulator repair kits sold as a unit comprising gaskets, diaphragms, and screws; throttle body injector repair kits sold as a unit comprising o-rings, gaskets, washers, end-caps, clips, and diaphragms; emission control products, namely, air pump check valves, diverter bypass valves, choke pull offs, and dashpots; ignition timing components, namely, timing gears, chains, belts, and sprockets; vaccuum water pumps; thrust washers; cam shafts; clutch release bearing assemblies; transmission and axle repair kits sold as a unit comprising bearings, seals, and gaskets, and parts thereof; spark plugs for non-motor vehicle engines and motor vehicle engines; gaskets for internal combustion engines; seals and gaskets for engines and gearboxes; oil and gas well servicing tools, namely, cementing plugs; shaft seals for industrial applications, namely used in drilling machines made predominantly not from metal; seals for industrial applications in the oil and gas industry, namely, compression seals and hammer union seals used in hydro-fracking machines, made predominantly not from metal; machine parts, namely, engine valve seat inserts, valve guides and turbocharger components, namely, turbocharger bushings, sleeves, waste-gate components and shafts; electric motors for machines and parts and fittings therefor, not for land vehicles, electric starter motors and parts and fittings therefor, not for land vehicles; automotive starter motors; machine parts of powder and sintered metal shaped bodies, in particular plain bearings and sliding elements, sliding plates, bushes, spindle nuts, sintered nuts; machine parts made of powder and sinter metal, namely, sliding bearings and sliding pieces, sliding plates, bearing bushes as wear parts; piston rings, machine parts, namely, sliding bearings and sliding pieces, sliding plates, linings, bearing bushes and spindle screw nuts; molded castings made of light metals and their alloys being parts of machines, parts of internal combustion engines for air and water vehicles, automotive vehicles and automotive agricultural vehicles, and compressors, namely, metal bolts, piston rings, locking rings and bearing bushes, not for use in heat exchanging functions; die-casting parts of light metal and alloys thereof with and without coatings as parts of machines, engines and motors, namely, pistons, piston rings and fittings thereof; retaining rings, and bearing bushes; pistons for compressors; internal combustion engine parts with and without coatings, namely, pistons, piston rings and metal fittings thereof; bearings, slide plates and bearing fittings; slide, rotary, plain and roller bearings for use in industrial, agricultural and domestic machinery; machine parts-namely, bearings, bushes and parts thereof; engine gaskets for vehicles; sealing parts for rotary piston machines and for internal combustion engines; bellows and flexible torsion couplings made of rubber and plastic; machine belting; motor vehicle exhaust systems, components and accessories, namely adaptor pipes, diesel particulate filters, solid catalytic reduction systems, catalytic converters, clamps, exhaust pipes, hangers, headers, machine couplings, motors and engines, mufflers, reducers, spouts, tail pipes, tips and transmission components, resonators, stack pipes, flexible and straight tubing, connection hardware; motor vehicle exhaust systems, components and accessories, namely flanges, gaskets, tail pipes, rain caps, exhaust elbows, extension pipes and tail pipe extensions, deflectors, clamps, brackets, bushings, grommets, and exhaust sound insulator hardware; noise silencers and exhaust systems for vehicles and parts and fittings thereof; emission reduction units for motors and engines of vehicles, namely, fluid injectors and dosing valves for moving liquids; pistons,

piston rings; valves being parts of machines, metal pulleys being parts of machine, butterfly valves being parts of machines, ball valves being parts of machines; anti-friction bearings for use in vehicle engines, namely, roller bearings, tapered roller bearings, cylindrical roller bearings, and needle bearings; emission control units for vehicle motors and engines, namely, air pump check valves, diverter bypass valves, choke pull offs, and dashpots; ignition timing components for motors and engines of land vehicles, namely, timing gears, chains, belts, and sprockets; ball thrust bearings for turntables, rubber washers; cam shafts; weather caps for exhaust pipes, and parts thereof; parts for motors and engines of vehicles for transport on land, on water, in the air, of rail cars and for motors and engines of aeronautics, with and without coatings, namely, pistons, piston rings and metal fittings; parts of internal combustion engines for land vehicles as well as parts of internal combustion engines for rail cars, namely, pistons, piston rings, metal bots, retaining rings, and bearing bushes; parts of internal combustion engines for land vehicles, namely, engine blocks and cylinder heads; gaskets for internal combustion engines, cylinder head gaskets for internal combustion engines; throttle body injector repair kits sold as a unit for vehicle engines comprising o-rings, gaskets, washers, end-caps, clips, and pump diaphragms; fittings for the aforementioned goods, namely piston rings.

Class 09

(4) Electric cables for ignition, bundles of electric cables for ignition, scientific prisms, scientific apparatus for determining the water content in petroleum products, electrodes for laboratory research, car navigation computers, navigation apparatus for vehicles in the form of on-board computers, navigation computers for cars, surveying instruments, levelling rods for surveying, lasers for land surveying, photography projectors, photography reflectors, cinematographic cameras, cinematographic projectors, audiovisual receivers, optical sensors, optical reflectors, optical fibres, electronic weighing scales for kitchen use, electronic weighing scales for personal use, measuring spoons, measuring buckets, measuring rods, measuring rules, measuring scoops, rotating signaling lights, digital signal processors, cables for electrical signal transmission systems, alarms for the detection of inflammable gases, metal compression testing machines, metal hardness testing machines, metal strength testing machines, inspection mirrors, telescopic inspection mirrors for automotive use, life-saving rafts and teaching apparatus and instruments namely surveying instruments, computer software for database management, computers and computer hardware, liquid level electrodes, electric feed through units in the nature of electrical connectors, computer parallel ports, computer processing units, electrically conductive fibres for conducting electrical wires and cables for protection against electromagnetic interference (EMI), radio frequency interference (RFI) and electrostatic discharge (ESD), protective sleeves for electrical wires and cables, electronic control systems for electric motors, electronic control systems for electric motors for converting electrical to mechanical energy or mechanical to electrical energy in the drivetrain associated with an internal combustion engine, electronic control systems for vehicle electrical systems, parts and fittings for electronic control systems for electric motors and vehicle electrical systems, namely, electrical controllers, electric sensors, electronic transmitters and receivers for electric motors, software for monitoring and improving piston rings, monitoring apparatus for monitoring piston performance characteristics, calibration devices for calibrating pistons, thermal insulating covers adapted for batteries of land vehicles.

Class 11

(5) Spark and glow lighters for igniting gas, apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes, namely lighting fixtures, lighting diffusers, heating boilers, boilers for heating installations, cooling domes, cooling evaporators, electric fans with evaporative cooling devices, cooling vats for furnaces, steam generating installations, air valves for steam heating installations, cooking grills,

electric cooking pots and pans, electric cooking steamer, laundry drying machines, oven ventilating hoods, ventilating fans, ventilating hoods, drinking water purifiers for household purposes, water heaters for household purposes, all aforesaid goods for use in the automotive and motor vehicle field only.

Class 12

(6) All-terrain vehicles, scooter vehicles, apparatus for locomotion by land, air and water namely hydraulic circuits for vehicles, locomotives, engines for transportation by land, namely, engines for land vehicles, anti-friction bearings for use in vehicle transmissions, and wheels, namely, roller bearings, tapered roller bearings, cylindrical roller bearings, and needle bearings, bearings for land vehicles, namely, hanger bearings, adapter bearings, clutch release bearings, thrust bearings, and angular contact bearings, front wheel drive components sold as a unit, namely, integral spindle bearings and hub seals, constant velocity components sold as a unit, namely, constant velocity joints and boot seals, constant velocity joint repair kits sold as a unit comprising boot seals, bands, retaining clips, axle nuts, pinch bolts and nuts, grease, and bearing assemblies, transmission and axle repair kit sold as a unit for land vehicles, differential gearing repair kit sold as a unit for land vehicles, parts of clutch release bearings for land vehicles, suspension products, namely, shock absorbers, shock-absorbing struts, spring seats, and steering dampers, rearview and side mirrors for vehicles, and fittings adapted for rearview and side mirrors for vehicles, all of the above goods for use in land vehicles, noise absorbent heat-protection shields of aluminium and aluminium alloy and steel being vehicle parts, protective cases adapted for land vehicle parts, oil seals for use in land vehicles, automotive parts, namely, transmission seals, heat shields for use in land and sea vehicles, namely, pliable heat shields for use around heat conducting parts of land and sea vehicles, such as manifolds, catalytic converter, exhaust pipes, fuel tanks, under flooring, and steering racks, electric motors for land vehicles for converting electrical to mechanical energy and mechanical to electrical energy in the drivetrain associated with an internal combustion engine, automotive components and parts and fittings therefor, namely, suspension systems for automobiles, suspension springs, structural brackets and supports, battery mountings, axle shafts, axles, axle bearings, steer gear covers, vehicle chassis, chassis structural parts and body structural parts, drive gears, transmissions, drive shafts, engines, clutches, clutch facings, drive belts, and drive chains, automotive motors, retaining rings, and bearing bushes, fittings for the aforementioned goods, namely, retaining rings and bearing bushes, textile covers adapted for mechanical protection for motor vehicle fuel lines, fluid driven transmission components for use in land vehicles, vehicle parts, namely shock absorbers, parts for automotive vehicles.

Class 17

(7) Flexible plastic hoses for use with ventilation systems, flexible plastic conduits for plumbing use, insulating sleeves for machinery and insulating covers for industrial machinery made of extruded thermoplastic monofilament and treated yarns with wire inserts and other tubular elements such as pipes inserts; oil seals and waterproof packings for shipping container namely wedge-type packings and shaft seals; sealing rings; graphite packing for pumps, gaskets namely metal gaskets, pipe gaskets, sealing gaskets of metal and valves namely valves of vulcanized fibre, rubber valves, rubber clack valves, joint packing for pipes, stops of rubber, rubber door stops and insulating refractory materials; flexible plumbing pipes of plastic, extruded plastics in the form of tubes for use in manufacture and air hoses, plastic plumbing hoses, hydraulic hoses of plastic, hydraulic hoses of rubber; bamboo fibers for insulation, electrical insulators made of rubber, felt insulation, fiberglass fabrics for insulation, insulating sleeves for machinery, sleeves of rubber for protecting parts of machinery and tapes composed of textile material namely masking tape, duct tape, electrical tape; gaskets and seals composed of woven, knitted and braided materials, and silicone rubber tubing, all for automotive electronic, electrical and general industrial and

commercial purposes; pipes gaskets, cylinder jointings; heat shields for use in land, air and sea vehicles, namely, heat insulating shields that provide thermal insulation for heat transferring parts of land, air and sea vehicles; electrical insulating sleeving; insulation protective sleeves for protection of wires and tubes; insulation protective sleeves for protection of automotive wiring and engine components; insulating sleeves for machinery wires and cable assemblies; insulating sleeves for automotive components; braided, knit, woven, and non-woven acoustic insulating protective sleeves for protection of automotive components; braided, knit, and woven acoustic insulating protective sleeves made of various materials for protection of wires, hoses and tubes; braided fiberglass thermal protective insulating sleeves with polymer coating for use in covering and protection for wire harnesses, hoses and tubes; braided, knit, and woven acoustic insulating protective sleeves made of various materials for protection of wires, hoses and tubes; braided fiberglass insulating protective sleeves for protection for wire harnesses, hoses and tubes in elevated temperatures; insulating protective sleeves for protection for wires, cables, tubing and conduits; braided, knit, and woven insulating protective sleeves made of various materials for use in bearing and bushing liners; woven insulating protective sleeves for tubes and wires and insulating sleeves comprised of resilient monofilament materials; ceramic and fiberglass sleeving for insulating wire and cable and hoses and tubing; non-metallic abrasion-resistant insulating protective sleeves for automotive components, including air conditioning, radiator and vacuum hoses; fabric insulating protective tapes formed of a flame resistant layer and an insulating protective material for the protection of pipes, hoses, cables and wires; fabric insulating protective sleeves formed of a flame resistant layer and an insulating protective material for the protection of pipes, hoses, cables and wires; multi-laminate thermal insulating protective materials comprised of an inner insulating shield and an outer reflective shield for use in land vehicles; thermal insulating protective panels comprised of a reflective layer and an insulating layer for land vehicles; textile insulating protective sleeves formed by braiding, weaving and knitting for protection of wires, cables and tubes; abrasion resistant insulating protective sleeves of woven polymeric materials for protection of hoses, cables, wires and ropes; non-woven fibrous insulation for acoustic insulation of automotive vehicle interiors; fabric insulating sleeves incorporating abrasion-resistant properties for protecting cables, wires and hoses in machines and mechanical assemblies; flexible and resilient fabric insulating protective sleeves for protection of electrical and optical wires and cables and tubes; non-metal braided and woven wrappable insulating protective sleeves for protection of wires and tubes for use in commercial and industrial applications, namely, electronic apparatus and vehicles; seals having sealing surfaces made primarily of plastic and elastomeric materials, namely engine seals, oil seals, shaft seals, transmission seals, and wheel bearing seals; seals made primarily of plastic and elastomeric materials, namely, engine seals, oil seals, shaft seals, transmission seals and wheel bearing seals, o-rings, non-metal seals used for engine transmissions, mechanical assemblies and rubber insulating materials and sleeves for protecting mechanical assemblies and joints and parts thereof; shaft seals for industrial applications not for machinery and land vehicle engines, made predominantly not from metal; seals for industrial applications in the oil and gas industry made predominantly not from metal, namely, compression seals and hammer union seals not for machinery and land vehicle engines; thermal insulating protective sleeves for use in automobiles; aluminized fiberglass thermal insulating protective sleeves for automotive fuel and brake lines and automotive hosing; braided and woven insulating protective sleeves for protecting wires and tubes for use in automotive applications; boiler composition to prevent the radiation of heat for protection of automotive wires, cables bridges of rubber for protecting cables and connecting hoses for vehicles radiators; reflective thermal insulating sleeves for use in non-automotive applications, namely, for the protection and isolation of components in equipment and machinery especially for the protection and isolation of wiring, tubing and piping in aerospace, refrigeration, mining, earth moving, and self-propelled vehicle

applications; fiberglass insulating protective tapes for oven door gasketing and for protective and energy conserving wrapping of hot pipes and hoses; thermal gaskets in the form of ropes; thermal gaskets in the form of tapes; goods made from common metal and their alloys, namely, pliable heat shields for use in providing an insulating thermal barrier around heat conducting parts of land and sea vehicles; heat shields for use in land and sea vehicles, namely, pliable heat insulating shields for use around heat conducting parts of land and sea vehicles, such as manifolds, catalytic converters, exhaust pipes, fuel tanks, under flooring, and steering racks; non-metallic seals and packings namely oils seals and shaft seals for industrial application; mineral based fibers and metals in partly finished forms for seals and seal packages, namely, metal insulating rings, discs, cord, tape, spacing sheets; electrical ceramic insulators; non-metal seals and non-metal packings for use in vehicles, general industrial instruments, electronic devices, electric equipment, generators and personal digital assistants, non-metal seals and non-metal packings for water-proof, heat-resistant sleeving for automotive use; semi-finished polyester/metal composite material, made primarily of polyester, for use in the further manufacture of seals, packings and bushings; non-metal seals, namely, oils seals and shaft seals for industrial application; metal sealing rings; automotive sealing elements, namely, metal valve cover gaskets and metal header and collector gaskets.

Class 19

(8) Air ducts and conduits not of metal.

Services

Class 40

(1) Material processing, namely, custom treatment of materials by laser beam, namely, light metals and their alloys for internal combustion engines of air, water and land vehicles; materials processing, namely manufacture of automobiles to the order and specification of others; custom manufacturing of motor vehicle parts.

Class 42

(2) Scientific and technological services and research and design relating thereto, namely providing product research and design services in process development, validation, qualification, and manufacturing in the automobile field, chemical analysis, oil and gas well environmental analysis and chemical research; design and development of computer hardware and software; engineering services namely mechanical engineering; new product materials development for third parties in the field of automotive technology, in particular pistons and parts thereof for internal combustion engines and compressors; industrial research and technical research, namely, calculations for new product development for others in the field of automobile technology, in particular pistons and parts thereof for internal combustion engines and compressors; design and engineering services relating to vehicle exhaust systems; research and development of new products for others in the automotive supply field; technological consulting services in the automotive field; automotive safety testing and consultation; research pertaining to mechanical engineering; water quality control services, providing quality control of automobile parts.

Hand-held exhaust emissions testers; electrochemical temperature, timing and pressure sensors; infra-red cameras; graduation checkers for calibration purposes; scientific, electrical and electronic apparatus and portable testing instruments being gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, all for testing, calibration, displaying and printing results, monitoring, recording, indicating, data logging, analysing, sensing, detecting, measuring, checking, metering of electricity, electrical and electronic circuits, ambient gases, exhaust gases, environmental gas, exhaust emissions, combustion efficiency, and environmental parameters; combustion efficiency analysers and combustion testing probes to measure stack temperature, flue pressure and gas levels in order to calculate the efficiency of boilers, heaters and furnaces; portable flue gas analysers; single-gas pocket analysers; portable multi-gas data logging meters for semi-continuous monitoring; electrical data and energy consumption meters for monitoring domestic and industrial heating and ventilation installations and services; automotive emissions analysers being gas analysers and diesel smoke meters; portable exhaust gas analysers; room air quality monitors; gas leak alarms; hazardous gas detectors being carbon dioxide detectors, carbon monoxide and warning instruments being carbon dioxide alarms, carbon monoxide alarms, gas leak alarms; digital multimeters, clamp meters, voltage testers, all being electronic and electrical test meters; pressure meters; infra-red thermometers; digital multimeters.

Services

Class 37

(1) Repair and maintenance services for scientific, electrical and electronic apparatus and instruments, gas combustion efficiency analysers, flue gas analysers, gas combustion testing

equipment, automotive emissions analysers, exhaust gas analysers, air quality monitors, hazardous gas detectors and warning instruments, electronic and electrical test meters all being gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, probes to measure stack temperature, flue pressure and gas levels in order to calculate the efficiency of boilers, heaters and furnaces, carbon dioxide detectors, carbon monoxide, carbon dioxide alarms, carbon monoxide alarms, gas leak alarms, digital multimeters, clamp meters, and voltage testers.

Class 42

(2) Conformance testing, quality testing, and safety testing to determine conformity with certification standards of scientific, electrical and electronic apparatus and instruments being gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, all for testing, calibration, displaying and printing results, monitoring, recording, indicating, analysing, sensing, detecting, measuring, checking, metering of electricity, electrical and electronic circuits, ambient gases, exhaust gases, exhaust emissions, combustion efficiency, and environmental parameters, combustion efficiency analysers and combustion testing probes to measure stack temperature, flue pressure and gas levels in order to calculate the efficiency of boilers, heaters and furnaces, automotive emissions analysers being gas analysers and diesel smoke meters, room air quality monitors, hazardous gas detectors being carbon dioxide detectors, carbon monoxide and warning instruments being carbon dioxide alarms, carbon monoxide alarms, gas leak alarms, digital multimeters, clamp meters, voltage testers; calibration services namely calibration of electronic equipment and industrial temperature, alarm, detector, pressure and measurement sensors and controllers.

Visual Representation

Trademark Description
The trademark consists of a position of two labels applied to a three-dimensional bottle, as shown in the visual representation. The trademark is two-dimensional and consists of a label around the neck of the bottle and a label around the body of the bottle. The label around the neck of the bottle depicts a design of leaves. The label around the body of the bottle depicts the words "BIALY BOCIAN VODKA" above a band depicting a design of leaves in which there are three designs of concentric circles arranged horizontally. The leftmost concentric circles depict three barrels underneath three stars with the words "SINCE THE CREATION OF THE BEST QUALITY - 1827". The middle concentric circles depict a stork in flight with the words "MADE IN POLAND BIALY BOCIAN". The rightmost concentric circles depict sheaves of grain with the words "PREPARED ACCORDING TO THE TRADITIONAL RECIPE". The embossed design of a stork in flight over a circle appearing below the neck of the bottle and shown in dashed lines does not form part of the trademark but is merely included to show the position of the sign. The three-dimensional object shown in dashed outline does not form part of the trademark but is included merely to show the position of the sign.

Foreign Character Translation

As provided by the applicant the translation of the words BIALY BOCIAN is white stork.

Trademark Description

Trade and service mark, for which application is filed, is a word mark, which consists of one word "PREMIORRI". The word PREMIORRI in the designation derives from the English "premier" - "the first". Word ending "orri" is used for consonance of the word. The word is in Latin script in a stylized font. In general, the mark PREMIORRI does not have any meaning and is not a specific term in the industry branch of the applicant. It is not a designation of geographical location and does not have any meaning in a foreign language. This word combination is used to describe tyres. Trade and service mark, for which application is filed, is high-sounding, concise, easy to pronounce, easy to remember for the customer, what is essential for successful advertising and selling the goods in the market. Transliteration from English into Ukrainian is "NPEMIOPPI".
