(1) Metal products for use in communication networks being non-electric cable joints and cable linkages of metal, poles of metal for electric lines, ducts of metal, binding screws of metal for cables, clips of metal for cables; pipes, tubes and hoses, and fittings therefor, of metal, namely electric resistance welded (ERW) tubes of metal, downpipes of metal, metal branching pipes, collapsible tubes of metal, clips and collars of metal for pipes and tubes, couplings and connectors of metal for pipes, couplings and connectors of metal for tubes and hoses, joints of metal for pipes, elbows of metal for flexible tubes and hoses, fittings of metal for pipes, all for use in data and telecommunication networks; cables of metal, non-electric, for data and signal transmission; copper cables non-electric, for data and signal transmission; cable boxes of metal (non-electric -)

Class 07

(2) Compressed air tools for installation of fiber optical networks [machines]; air compressors; electrical hand tools; electrical drilling screw drivers for installation of fiber optical networks; air blown fiber installation tools, namely compressed air guns and air compressors for use of

compressed air for installation of fiber optical cable in cable channels [machines]; air blown fiber pistol, namely compressed airguns for installation of fiber optical cable [machines]; tools for blowing and pressing of optical fiber or cable into pipes namely, compressed airguns and air compressors [machines]; installation tools for cables namely, compressed air tools, electrical drilling screw drivers, air blown fiber pistols, compressed airguns and air compressors for use of compressed air for installation of fiber optical cable in cable channels (machines); machines for cutting pipes for installing fiber optic networks

Class 08

(3) Sheath cutter, namely cutter for stripping optical fibers and other cable cores [hand-operated tools]; knives for stripping optical fibers and cable cores; razor knives; multi purpose knives for cables and ducts; scissors, namely scissors for stripping optical fibers and other cable cores [hand-operated]; hand-operated pipe cutters; tools for tearing up pipes, namely cutting tools for tearing up pipes for micro cables and loose pipe cables [hand-operated tools]; tools for tearing up micro ducts longitudinally namely cutting tools for tearing up pipes for micro cables and loose pipe cables [hand-operated tools]; cable openers, namely hand tools for stripping optical fibers and other cable cores; micro cable inner tube opener, namely hand tools for opening of inner tube of micro cables and stripping optical fibers and other cable cores

Class 09

(4) Measuring instruments, namely, instruments for measuring the thickness of fiber optic cable parts and for measuring properties of optical test signals transmitted or reflected in optical fibers; detecting and monitoring instruments, indicators and controllers, namely, instruments for measuring reflection, relaxation and length of fiber optic networks; optical sensors; instruments, apparatus and equipment for wireless transmission, namely, wireless optical transmitters; computer operating programs for use in controlling and managing fiber optic networks in a fiber optic cable infrastructure; computer operating software for controlling and managing computer hardware used in the field of fiber optic networks and infrastructure; computer networking hardware; apparatus, instruments and cables for electricity, namely, electrical cables with integrated fittings, namely, cordsets; electrical and electronic components, namely, connectors for electrical cables, ducts for electric cables, electric adapter cables, Ethernet cards, feeder cables, fiber interconnection cable, gender changers for coaxial cables, junction boxes for housing cable joints, junction sleeves for electric cables, power cable sheathes, audio and video receivers, audio and video transmitters, fiber optic transmitters and receivers, fiber optic amplifiers; electrical cables and wires; electronic cables; optical distribution frames, including fiber optical cables; joint closures for fiber optical cables and optical distribution frames; fiber optical connectors, electrical connectors; grounding bushings and grounding clamps specially adapted for coaxial cables; optical cables; signal cables for IT and telecommunication; micro cables, nano cables, fiber interconnection cables; data transmission cables, cables for electrical and optical signal transmission and fiber optical cables for installation in duct systems; cables for data- and signal transmissions and fiber optical cables for direct buried installation; cables for data- and signal transmissions and fiber optical cables for air installation; cables for data- and signal transmissions and fiber optical cables for indoor and outdoor installation; cables for distribution of electrical power; power cables; hybrid cables namely power and fiber optical hybrid cables; underwater telecommunication cables; electrical and fiber optic cables for transmission of data; cables for optical signal transmission; cables for optical signal transmission; electronic and fiber optical connecting cables; ducting for electric cables; fiber access terminals for optical fiber cable installations; fiber splicing cabinets for cable installations; fiber splicing boxes for cable installations; fiber termination boxes namely boxes with inputs and sockets for fiber optical cables; fiber distribution hubs namely fiber splicing cabinets with fiber optical cable splitters; fiber optics; optical adapters; fiber optical cables; fiber

optical couplings; coupling sleeves for fiber optics; housings for fiber optical cables; fiber optical panels; fiber optical telecommunication apparatus, namely, for use within the field of fiber optic networks and infrastructure; fiber optics for transmission of sound and images; fiber optic pigtailed; junction boxes for housing of cable joints; electro-optic transducer; media converter being customer premise equipment (CPE) specifically computer network, hubs, switches and routers, residential network gateways (RG), set-top boxes, network modems, home computer networking adapters and optical network terminal (ONT); parts and fittings for the aforementioned goods namely, stands for telecommunication hardware, cabinets adapted for the protection of fiber optic cables, end caps for the protection of fiber optic cables, stands for telecommunication hardware, cabinets specially adapted to protect telecommunication equipment in the form of fiber optical cables, end caps for protecting cables and blow tips for blown fibers

Class 17

(5) Flexible PE, PP, PVC for protecting fiber optic cables, flexible wires, plastic flexible tubing for protecting fiber optic cables and specially adapted fittings therefor; non-metallic flexible tubing being nylon tubing for covering electrical wire and nylon grommet fittings; fittings for rigid pipes being valves of rubber, couplings of rubber for pipes, insulation jackets for pipes, joint packing for pipes, PVC, and plastic underground pipes for electric and fibre optic cables and fittings for rigid pipes, all non-metallic; polyethylene (PE), polypropylene (PP), polyvinylchloride (PVC) and other plastic underground pipes for electric and fiber optic cables; plastic pipes intended for buried installation and blowing of fiber or cable

Services

Class 35

(1) Retail of fiber optics, cabling, electronic cables, optical cables, cable systems, hand tools for pipes and cables.

Class 37

(2) Maintenance and repair service of fiber optics, optical cables, electronic cables, cable system, fiber access terminals, cabling, transport net, measuring instruments fiber optic cables, optical cables, electronic cables, fiber optic cable data transmission system, fiber optic cable terminals blocks, cable laying cable measuring instruments and optical sensors, sensors, fiber optic cable laying machines for cutting, drilling, abrading, sharpening and surface treatment, electrical hand tools, electrical drilling screw drivers, hand-operated tools and implements for treatment of materials, and for construction, maintenance and repair service of electrical power tools and hand tools, electrical drilling screw drivers; installation of fiber optics; installing optical cables and pipes; air blown installation in aerial tubes for access networks, namely services for installation of optical fiber cables in aerial tubes using compressed air tools

Class 41

(3) Education and teaching, namely, conducting classes and training in the fields of fiber optical cable installation; fiber optical training; tutoring, arranging and conducting of courses of instruction in the field of network security technology, computer technology, computer programming, IT management services being computer network infrastructures, planning, design and installation and service repair of fiber optic data transmission cable networks, computer network security technology, telecommunication networks in the field of fiber optic technology

Class 42

(4) Scientific and technology services, namely, development, testing and analysis of data transmission cable equipment, data communication equipment being, fiber optic cables, electronic cables and fiber optical cable networks; development of electronic cables and fiber optical cables,

electronic cables and fiber optical cables; custom made design and development of fiber optical networks; design services relating to cabling and fiber optics; engineering services, namely, technical project planning for the development of fiber optic networks; technical advisory relating to planning of electrical communication networks and fiber optics; technical calibration of fiber optical measuring instruments and calibration of fiber optical systems and instruments for measuring fiber optical systems; testing and evaluation of the goods of others to determine conformity with certification standards; providing quality control for others in the field of fiber optic cable telecommunication equipment

Colour Claim

Colour is claimed as a feature of the trademark. The logo features the name "ABHIRSH" in bold, uppercase letters beneath a stylized design and it is colored in dark blue. The design consists of an abstract letter "A" in dark blue, which encloses a globe-like sphere. The sphere has alternating red and blue horizontal stripes with white background creating a dynamic, swirling effect. There is also a red arrow integrated into the design, wrapping around the globe and adding a sense of motion and direction.

Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software, downloadable computer software and mobile application software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application programming interface (API) software for allowing data retrieval, upload, access and management; Software for organizing images, video, and audio-visual content using metadata tags; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Downloadable computer software for organizing events in the entertainment, education, gaming, communications, and social networking industry; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; Downloadable software, namely, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; Computer software for personal information management, and data synchronization software; Computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message; Communication software and communication computer hardware for providing access to the Internet; Electronic display screens; Computer peripherals for remotely accessing and transmitting data; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer hardware for displaying data and video; Computer peripherals for displaying audio-visual data and video, namely, wireless computer peripherals; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphone; Digital video eyewear; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, namely, accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Glasses with the function of wireless communication; Software to view virtual images in creating augmented reality; Smart glasses with wired and wireless audio capability; Wearable digital electronic devices, namely, activity trackers, cameras, smartphones, speakers, and video display monitors; Wearable digital electronic devices,

namely, glasses; Computer software for setting up, configuring, operating and controlling wearable devices, computers, and computer peripherals; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices, namely, activity trackers, cameras, smartphones, speakers, and video display monitors, for sending and receiving of text, data, audio, image, and video files; Wearable computer hardware, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, smartwatches, wearable smartphones, wearable activity trackers, wearable cameras, wearable video display monitors; Wearable computer peripherals, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, smartwatches, wearable smartphones, wearable activity trackers, wearable cameras, wearable video display monitors; Downloadable computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, and commentary, content from periodicals, blogs, and websites, and text messages, audio-visual data, graphics, images, audio, video, and digital multimedia content; Downloadable computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text messages, audio-visual data, graphics, images, audio, video, and multimedia content, electronic publications; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for computer software for use in developing software applications of others; Downloadable augmented reality entertainment, education, gaming, communications, and social networking software; Augmented reality game and computer software for navigating an augmented reality environment for use on cellular phones, mobile phones, notebook computers, personal computers, smartphones, tablet computers; Augmented reality game and computer software for use on people and objects for object tracking, motion control and content visualization using GPS data, optical sensors and motion sensors; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training,

and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools that assist in creating, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Computer software for controlling the operation of virtual reality wearable computer peripherals and wearable virtual reality hardware, namely, audio and video devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, smartwatches, wearable smartphones, wearable activity trackers, wearable cameras, wearable video display monitors; Downloadable computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic publications and information via local and global computer networks, the internet and wireless communication networks; Downloadable computer software to enable computer and video game users to create, manage, and interact with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data in the field of entertainment, education, gaming, and social networking via global computer networks; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the redirection of messages, Internet e-mail, and other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Downloadable computer software for use as an application programming interface (API) for use in the fields of virtualization, entertainment, education, gaming, communication, social networking, database integration and database management; Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer application software that gives computer users the ability to upload, exchange and share wireless content, data and information, namely, audio and video files in the field of entertainment, education, gaming, communication, and social networking via the Internet; Computer software for

wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic publications and computer game information via local and global computer networks and wireless communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; Downloadable computer software, namely, an application for providing social networking services; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Downloadable computer software and firmware for displaying video games and electronic media and images on display screen devices, namely, computer display screens provided as updates for or in combination with head-mounted display screen devices, namely, head-mounted displays; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, namely, accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for

the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for finding content and content publishers, and for subscribing to content; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Software to view virtual images in creating virtual, augmented and mixed reality; Interactive entertainment computer software for video games, education, communications, and social networking; Downloadable location-aware computer software, namely, downloadable computer software and mobile application software for searching, determining and sharing locations; Internet messaging software; Mixed reality computer entertainment, education, gaming, communications, and social networking software; Mixed reality computer game software for playing computer games as interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality game and computer software for use on people and objects for object tracking, motion control and content visualization using GPS data, optical sensors and motion sensors; Mixed reality software for operating mixed reality headsets; Mixed reality computer game and entertainment software for users to experience mixed reality visualization, manipulation and immersion for use on cellular phones, mobiles phones, notebook computers, personal computers, smartphones, tablet computers; Mobile application software for creating personalized fitness training programs; Near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer software specifically adapted for goggles; Near eye display systems comprising software for the generation and display of standard reality, augmented reality, and mixed reality content; Virtual personal assistant software; Social assistant software; Downloadable and recorded computer software and firmware for controlling, configuring and managing video game controllers; Software and firmware for displaying electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Computer software and firmware for enabling electronic devices, namely computers, computer mice, computer keyboards, computer keypads, computer and video game controllers, mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers, to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Computer software for sending and receiving notification alerts, electronic messages, emails, and reminders; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Computer software for creating, managing, and interacting with an online community, namely, for social networking; Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for generating images to be displayed in near-eye display system; Software for integrating electronic data with real world environments for the purposes of entertainment,

education, communicating, and social networking; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data in the field of entertainment, education, gaming, and social networking via global computer networks; Software for online charitable fundraising services and financial donation services; Computer software for organizing, searching for and managing social events; Software for planning activities with other users and making recommendations, namely, software for the electronic exchange of messages via chat lines, chatrooms and Internet forums; Software for processing images, graphics, audio, video, and text; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Downloadable computer software applications for social networking services; Downloadable computer software for streaming audio and video digital media video game entertainment content; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Downloadable computer software for use as an application programming interface (API) for use in the fields of virtualization, entertainment, education, gaming, communication, social networking, database integration and database management; Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Computer application software that gives computer users the ability to upload, exchange and share wireless content, data and information, namely, audio and video files in the field of entertainment, education, gaming, communication, and social networking via the Internet; Software in the nature of a downloadable mobile application for use in creating and designing virtual reality, augmented reality and mixed reality software; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software and firmware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Video display software for use in enabling video game consoles, handheld video game consoles, and tablet computers to provide virtual and augmented reality experiences; Downloadable virtual reality entertainment, education, gaming, communications, and social networking software; Downloadable virtual reality software for playing computer games as interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for use in virtual reality headsets, virtual reality glasses and controllers for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Waterproof near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Computer software for social networking; Augmented reality game computer hardware; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Electronic game software for wireless devices; Electronic game software in the nature of video games, interactive multimedia games, and virtual, augmented, and mixed reality games; Downloadable electronic game programs; Computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Computer software for converting natural language into machine-executable commands; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making

software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Computer software, downloadable computer software and mobile application software for ordering and purchasing goods and services of others via the Internet, a global communications network and wireless communication networks; Virtual reality game computer hardware; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; Headsets for augmented reality games; Handheld virtual reality controllers; Handheld augmented reality controllers; Virtual reality computer software for navigating a virtual reality environment in which users can interact for recreational, leisure, education and entertainment purposes with a computer simulated environment, imagery and 3D objects; Computer software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; Computer software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Computer software for use in creating and designing virtual reality and augmented reality software; Computer software and firmware for operating system programs; Computer software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Computer software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Computer hardware and software for operating sensor devices, namely, motion tracking sensors for virtual, augmented and mixed reality technology; Computer hardware and software for detecting proximity of objects, motion of user gestures and voice commands of users, all for use in video game development and operation; Computer software and firmware for enabling electronic devices to share data and communicate with each other; Computer software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Batteries, namely, batteries for cell phones, batteries for mobile phones, camera batteries, general purpose batteries, nickel-cadmium storage batteries, solar batteries; Battery packs for mobile devices, namely, computers, laptop computers, handheld computers, tablet computers, smart phones, game consoles and wearable computer peripherals, namely, virtual reality headsets and glasses, and handheld virtual reality controllers; Remote controls for mobile electronic devices; Electrical audio and speaker cables and connectors; Docking stations for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; Electronic cables parts and fittings; Connection electrical cables; Power cables and cable connectors; Audio transmitters; Electric sensors, namely, distance sensors, infrared sensors, optical sensors, proximity sensors, temperature sensors, timing sensors; Motion sensors for monitoring physical movements; Downloadable computer software for processing images, graphics, audio, video, and text; Virtual, augmented and mixed reality headsets and helmets adapted for use in playing video games; Virtual reality headsets for playing video games for connection to computers, tablet computers, mobile devices, and mobile phones for use with virtual reality games; Audio and visual headsets for use in playing video games.

Class 28

(2) Video game consoles, handheld video game consoles; Video game interactive remote control units; Wearable peripherals, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, smartwatches, wearable smartphones, wearable activity trackers, wearable cameras, wearable video display monitors for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, namely, mobile telephones; Controllers for computer games; Hand-held units for playing electronic, computer, interactive, and video games; Gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; Computer game consoles for use with an external display screen or monitor; Apparatus for electronic games other than those adapted for use with an external display screen or monitor, namely, gaming machines with and without video input, AC adapters, video game consoles and hand-held video game units; Apparatus for electronic games adapted for use with an external display screen or monitor, namely video game consoles; Bags specially adapted for handheld video games and video game consoles; Computer and video game joysticks; Computer gaming consoles for recreational game playing; Fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; Game controllers in the nature of keyboards for computer games; Electronic games adapted for use with television receivers; Hand held joy stick units for playing video games; Hand-held units for playing electronic games for use with external display screen or monitor; LCD game machines; Player-operated electronic controllers for electronic video game machines; Protective carrying cases specially adapted for handheld video games and video game consoles; Standalone video game machine; Stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; Tabletop units for playing electronic games other than in conjunction with a television or computer.

Services**Class 35**

(1) Marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; Provision of market research and information services; Promoting the goods and services of others via computer and communication networks; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Facilitating the exchange and sale of services and products of third parties via computer and communication networks, namely, provision of an on-line marketplace for buyers and sellers of goods and services; Providing online marketplaces for sellers of goods and services; Providing online marketplaces for sellers and buyers of goods and services; Business networking services; Employment and recruiting services; Advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; Promotional services, namely, promoting the goods and services of others by issuing gift card certificates that may be redeemed for goods or services; Charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Association services that promote the interests of professionals and businesses in the field of mobile software application development; Online advertising and promoting the goods and services of others via the internet; Marketing consulting services and advertising consultation services; Arranging and conducting special events for commercial, promotional and advertising

purposes in the interactive entertainment, virtual reality, augmented reality, mixed reality, and video entertainment industries; Advertising the goods and services of others via electronic media; Arranging, organizing and conducting exhibitions, tradeshow and events for business purposes, namely, expositions and conferences for business purposes in in the social networking, interactive multimedia entertainment, virtual reality, consumer gaming electronics and video game entertainment industries; Online retail store services featuring computer software and virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; Retail store services featuring computer software and virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; Dissemination of advertising for others via the internet and communication networks; Promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; Advertising services, namely, targeted advertising of brands and website optimization of online advertising of the goods and services of others; Business management in the field of marketing, advertising, telecommunications and technology development; Business administration and office functions in the field of marketing; Business consulting; Brand image consultancy services; Design of advertising materials for others; Providing online business directories featuring the businesses, products and services of others; Online retail store services featuring virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works.

Class 38

(2) Telecommunication services, namely, providing multiple user access to a global computer network; Providing access to computer, electronic and online databases; Telecommunications services, namely, offering personal communications services via wireless networks; Providing access to websites, databases, electronic bulletin boards, on-line forums, directories, music, and video and audio programs by means of Internet and cellular telephone transmission; Communication by computer, namely, electronic transmission of data, sounds, images and documents among computer users; Photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to online forums for communication on topics of general interest; Providing online communications links which transfer mobile device and internet users to other local and global online locations; Providing access to third party websites or to other electronic third party content via a universal login; Providing online chat rooms, email and instant messaging services, and electronic bulletin boards; Audio, text and video broadcasting services over the internet and wireless communications network; Voice over internet protocol (VOIP) services; Providing access to computer databases in the field of social networking; Peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo and video files, graphics and audio content among internet users; Telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; Telecommunications services, namely, electronic transmission of virtual and augmented reality content and data; Providing electronic bulletin boards for transmission of messages among users in the field of general interest; Video conferencing services, namely, rental of facilities and equipment for video conferencing; Audio and video teleconferencing services; Providing access to an online community

forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Electronic exchange of voice messages, text messages, audio messages, video messages, photographs, digital images and graphics via the internet and global computer networks; Telecommunication services, namely electronic transmission of voice messages, text messages, graphics, photographs, digital images, audio, video and information in the field of computer games and augmented reality video games via a global computer network; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Voice over internet protocol (VOIP) services [transmission of voice information via the internet]; entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; providing access to an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes.
