Trademarks Journal

2024-11-06 — Vol. 71 No. 3654

Trademarks Journal

Vol. 71 No. 3654

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

TRADEMARK DETAILS

Trademark Type

Position

Visual Representation

Trademark Description

The trademark consists of the positioning of the sign (namely a two-piece label comprising a bottle-neck wrap and an octagon device) on a three-dimensional object (namely on a bottle with embossing, indentations and a screw cap). The three-dimensional object (bottle, screw cap and including the embossing and indentations on the bottle) does not form part of the trademark, but is included merely to show the positioning of the sign (i.e. the label); and the bottle's outline (including around the embossing and indentations) is therefore shown in dashed lines.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. The colours brown, golden, red, black and white is/are claimed as a feature of the mark. The mark consist of the positioning of a sign on a three-dimensional object, namely on an bottle with embossing, indentations and screw cap. The bottle, including the screw cap, embossing and indentations, does not form part of the trademark, but is included merely to show the positioning of the sign thereon. At the top of the bottle there is a bottle-neck wrap (below the screw cap) which is opaque brown. On the opaque brown bottle-neck wrap are bright gold letters VT inside a gold outline of a shield, below which is the wording VANA TALLINN in duller gold, all above a gold stripe. Below the opaque brown bottle-neck wrap is a white octagon device with unequal length

sides. On this white octagon device are white letters VT placed on a red shield, below of which is the wording VANA TALLINN THE FINEST SPICES & GENUINE RUM LIQUEUR in black, the wording TRUE ESTONIAN SPIRIT in a thin black font and the number 40 in gold. Below the white octagon device is a label which is darker gold in background colour for top 3/4rd, and brown in background colour for the lower 1/4. The darker gold portion of the label features the words PRODUCED, BLENDED & BOTTLED IN THE HEART OF TALLINN, the letters ESTD and the number 1898, all in a lighter gold. A city scape in brown is also featured on this darker gold portion of the label. The brown lower 1/4 of the label features the words NATURAL INGREDIENTS OF EXCEPTIONAL QUALITY ANCESTRAL RECIPE in gold within a gold rectangle, further inside a rectangle comprised of gold dots, along with the words CRAFTED WITH EXPERTISE & PASSION in gold.

Foreign Character Translation

The translation provided by the applicant of the Estonian word VANA is OLD.

Class 07

(1) Actuators for mechanisms, namely, hydraulic linear actuators, pneumatic linear actuators and pneumatic valve actuators being parts of machines; Control installations as parts of machines, namely, hydraulic actuators and pneumatic valve actuators for concrete placing machines and brick laying machines; Control mechanisms for industrial machines, namely, pressure switches for monitoring, controlling, and switching hydraulic or pneumatic systems being sold as a unit with manufacturing machines; Control mechanisms for industrial machines, engines and motors, namely, hydraulic actuators and pneumatic valve actuators for machines, motors and engines; Devices for adapting power driven tools to robots, namely, couplers adapted for use with industrial robots; robots and robotic arms for use in building construction; Machines for building, namely, concrete placing machines and brick laying machines; Machines for use in building, namely, concrete construction machines; Mechanical control apparatus for robots, namely, robotic arms and actuators for robotic arms for use in building construction; mechanical control apparatus for robots, namely, end effectors for robots for use in building construction in the nature of grippers, clamps, vacuum suction pads, buckets, and blades.

Class 09

(2) Actuators, namely, electric switches; electric apparatus designed to control the performance of other apparatus, namely, electric apparatus designed to control the performance of apparatus, namely, electrical control panels; distance measuring apparatus, namely, electronic distance measures, laser distance meters, laser distance sensors, laser measure tapes; apparatus for surface measurements, namely, length measuring gauges; electronic apparatus, namely, wireless controllers to remotely monitor and control the status of industrial operations, namely, building construction; apparatus for transmitting electronic signals, namely, radio-frequency transmitters; automated control installations, namely, electric installations to remotely control and operate industrial operations, namely concrete placing machines and brick laying machines; automatic stability control apparatus, namely, electronic control systems for stabilizing machines; Calibration devices, namely, industrial calibration sensors for calibration of construction testing equipment; control apparatus for determining position, namely, electronic navigational and positioning apparatus and instruments in the nature of transmitters, receivers, antennae, and position sensors;

remote controllers to control and operate robots for concrete placing and brick laying; digital measuring apparatus for measuring distance, namely, digital distance sensors, digital distance meters; electric control apparatus, namely, electrical controllers for controlling, monitoring and operating concrete placing and brick laying machines; computer hardware and downloadable facilities management software for remotely monitoring and controlling environmental conditions and control systems, namely, temperature, humidity, heating, ventilation, air conditioning, mold, bacteria, air quality and water quality, lighting, access, and security systems, in buildings and indoor and outdoor industrial facilities; electrical devices for transmission of data, namely computer network routers; electronic based instruments for measuring environmental parameters, namely, humidity, mold, bacteria, air quality and water quality; electronic equipment for measuring environmental conditions namely, electronic- based instruments for measuring environmental parameters, namely, humidity, mold, bacteria, air quality and water quality; Jigs being measuring instruments; measuring instruments for civil engineering, namely, level measuring machines for land surveying; measuring sensors, namely, sensors for measuring position and orientation and sensors for measuring distance, angles and acceleration; satellites, transmitters, receivers, and network interface devices, and antennae for use in electronic global positioning systems; downloadable computer operating systems for use in the field of robotics; position sensors as an integral parts of portable global positioning systems; electronic remote control systems utilising laser beams, to remotely control, monitor and operate concrete placing and brick laying machines; stabilizing gyroscopes; computer software for use in controlling machines, namely, computer software for remote control and operation of construction robots and robotic arms for building construction; embedded software, for use in the automation of industrial machines sold as a component of electronic controllers; downloadable computer software for use in controlling industrial processes in building construction.

Colour Claim

Colour is claimed as a feature of the trademark. The colours blue, black, and white are claimed as a feature of the mark. The mark consists of a stylized shark outlined in black with a blue and white body and an open mouth with white teeth, black eye, black gills and side-fin, adjacent to the word "SHARKBITE" with the word "SHARK" in black and the word "BITE" in blue.

Goods

Class 06

(1) Metal plumbing fittings for water and gas supply, namely push-fit fittings in the nature of pipe junctions, straight couplings, reducing couplings, and conversion couplings for pipes, straight connectors, reducing connectors, and bullnose connectors for pipes, elbows, reducing elbows, stubout elbows, drop ear elbows, and hy-ear elbows for pipes, elbows for dishwashers, branching pipes, tees, bullnose tees, reducing tees, and end stops for pipes, fitting reducers, threaded adaptors, slip fittings, swivel fittings, swivel adaptors, sweat adaptors, and swivel elbows for pipes, swivel connectors for toilets, slip couplings, slip tees, and slip tee adaptors for pipes, manifolds for pipelines, pipeline manifolds with branches, angle stops and straight stops for pipes, stop valve tee adaptors and stop valve connectors for pipes, pipe connectors for faucets, pipe connectors for toilets, pipe elbows for toilets, pipe connections and couplings, pipe conversion tees, pipe connectors for water taps, flexible pipe connectors for water heaters, pipe tube adaptors, capillary pipe tail tubes and caps, bend supports for pipes, pipe compression adaptors, pipe tail piece reducers, pipe tail piece plugs, pipe bend supports, pipe suspension clamps, clamp rings and crimp rings for pipes, pipe clips, pipe sleeves, valve connections and couplings for pipes, pipe supply line fittings and stops; water heater connectors of metal; water heater kits consisting of metal pipe connector fittings; contractor kits consisting of metal water pipe connector fittings; toilet and faucet kits consisting of metal faucet connectors, angle stops and tubing and ducting; metal water pipe disconnect clips; metal water pipes, tubing and ducting; thermostatic valves and

thermostatic valves with integrated connectors made of metal for water pipe faucet, shower and bath installations, metal water pressure control valves for pipe, faucet, shower, bath, and toilet installations, metal gate valves, metal water control valves for water supply, metal control valves for water supply, metal mixing valves for water supply, all of the aforesaid being parts of and for water and gas installation, metal clamp rings and metal crimp rings for pipes, metal pipe clips, metal sleeves for pipes.

Class 07

(2) check valves;

Class 09

(3) Automatic water control valves for regulating the flow of gases and liquids; gauges, namely, temperature and pressure gauges and crimp ring gauges, namely, gauges to determine the correct sizing of crimp rings post crimping; pressure relief valves.

Class 11

(4) Parts of and accessories for plumbing fittings, namely, water and gas pressure regulator valves for pipes; Plumbing fittings namely, pipe valve connections and couplings, all of the aforesaid being parts of and for water and gas installations; Plumbing fittings for water and gas supply, namely, straight couplings, reducing couplings and conversion couplings for pipes, slip couplings and, pipe connections and couplings, parts of and accessories for the aforesaid goods, namely, supply pipeline fittings, namely couplers, water hammer arrestors; flexible connectors for water heaters; Toilet and faucet kits consisting of faucet connectors, angle stops for pipes.

Class 17

(5) Flexible plastic pipes for plumbing purposes; Plumbing fittings of plastic and polymeric material namely push-fit fittings and couplings for pipes, pipe connections and couplings, elbows for pipes, tees and conversion tees for pipes, tap connectors for water taps, tube adaptors for pipes, pipe capillary tails, pipe compression adaptors, pipe tail reducers, tail plugs for pipes, recessed pipe assemblies, pipe end supports, pipe clips, pipe sleeves, all of the aforesaid being non-integral parts of and for water and gas installations; Plumbing fittings of plastic, and polymeric material for water and gas supply, namely, push-fit fittings in the nature of pipe junctions, straight connectors, reducing connectors, and bullnose connectors for pipes, elbows, reducing elbows, stubout elbows, drop ear elbows, and hy-ear elbows for pipes, elbows for dishwashers, branches for pipes, tees, bullnose tees, and reducing tees for pipes, end stops for pipes, fitting reducers for pipes, threaded adaptors for pipes, slip fittings and swivel fittings for pipes, swivel adaptors and sweat adaptors for pipes, swivel elbows for pipes, swivel connectors for toilets, slip tees for pipes, slip tee adaptors for pipes, manifolds for pipelines, manifolds with branches for pipelines, angle stops and straight stops for pipes, stop valve tee adaptors and stop valve connectors for pipes, faucet connectors, toilet connectors, toilet elbows, pipe conversion tees, water tap connectors, tube adaptors for pipes, capillary pipe tail pieces, bend supports for pipes, compression adaptors connectors for pipes, pipe tail piece reducers, pipe tail piece plugs, pipe bend supports, suspension clamps for pipes, pipe valve connections and couplings and stops for pipes, tubing couplings; Disconnect clips for pipes of plastic and polymeric material for plumbing couplers.

Class 19

(6) Rigid non-metal pipes namely, drain pipes, plastic pipes for plumbing purposes, pvc water pipes, plastic water pipes, plastic branching pipes, plastic tubing for joining and terminating pipes for plumbing purposes;

Class 20

(7) Pipe clamps, not of metal; non-metal supports and non-metal brackets, namely, plastic brackets and stands for anchoring and supporting bath and kitchen sink plumbing fixtures; pipe clips, not of metal.

Goods

Class 07

(1) Mining machines and apparatus, namely, deep-sea mining machines, drills for the mining industry, machines for geological, mining and ore exploration and ploughs for coal mining; construction machines and apparatus, namely, backhoe loaders, bulldozers, earth moving scrapers, excavator booms, excavators and graders; loading-unloading machines and apparatus, namely, cranes, electric and pneumatic hoists, electric hoists, electric jacks, hydraulic jacks, hydraulic table lift mechanism, pneumatic jacks and power jacks; chemical processing machines and apparatus, used for rocks, soils and water sample for geological and environmental investigations, and resource exploration, namely, agitators for chemical processing, blending machines for chemical processing, calcining machines for chemical processing, disintegrators for chemical processing, emulsifying machines for chemical processing, granulating machines for chemical processing, grinding mills for chemical processing and separating machines for chemical processing; non-electric prime movers, not for land vehicles, other than water mills and wind mills, used for construction works, geological investigations and resource exploration, namely, air turbines for aircraft, gas turbine engines for air vehicles, gas turbine engines for water vehicles, hydraulic turbines, turbine generators, turbines for steam plants and vertical turbine pumps; parts of non-electric prime movers used for construction works, geological investigations and resource exploration, namely, blades for earth moving machines and buckets for earth moving machines; waste compacting machines for industrial purposes; waste crushing machines for industrial purposes; boring machines for metalworking, lathe boring machines, mine borers, oil well boring machines, steam engines and tunnel boring machines.

Class 09

(2) Laboratory apparatus and instruments, used for rocks, soils and water sample for geological investigations and resource exploration, namely, aspirators for laboratory use, beakers for laboratory use, bioreactors for laboratory use, centrifuges for laboratory use, crucibles for laboratory use, disposable gloves for laboratory use, filters for blood and blood components for laboratory use, furnaces for laboratory use, laboratory ovens, laboratory trays, petri dishes for laboratory use, resuscitation training simulators and special clothing for use in laboratories; photographic machines and apparatus, namely, analysis instruments for photogrammetric purposes, cameras, cameras for inspecting underground infrastructures, cameras with linear image sensors, electronic photometers, flash lamps for photography, laboratory photochemical reactors, lasers for photochemistry and photometers; cinematographic machines and apparatus, namely, digital video cameras, lenses for video cameras, lights for use on video cameras, video camera stands, video cameras, video digitizers, video display terminals, video display units, video mixers, video monitor controllers, video monitors, video processors, video receivers, video recorders, video screens, video terminals for machine tools and video transmitters; optical character readers, optical scanners, optical filters, optical reflectors, and optical sensors ; measuring or testing machines and instruments, used for construction works, geological and environmental investigations, engineering and consulting for infrastructural maintenance, energy and resources, and disaster prevention investigations, namely, anemometers, electromagnetic measuring detectors, ground penetrating radar, laser speed detectors, level measuring machines for surveying, magnetic compasses for surveying, pressure gauges, pressure meters, rain gauges, strain gauges and water level gauges; electric telecommunication machines and apparatus, used for construction works, geological and environmental investigations, engineering and consulting for infrastructural maintenance, energy and resources, and disaster prevention investigations, namely, computer hardware for telecommunications, Global Positioning System [GPS] transmitters and receivers, high frequency generators other than for medical use, long range transmitters, radio frequency receivers and radio-frequency transmitters; personal digital assistants; electronic machines, apparatus and their parts, used for construction works, geological and environmental investigations, engineering and consulting for infrastructural maintenance, energy and resources, and disaster prevention investigations, namely, inclinometers, meters for measuring electrical resistance, seismic exploration machines and seismometer; downloadable digital content being images; pre-recorded video discs and video tapes featuring data in the field of geophysical exploration; electronic publications used for construction works, geological and environmental investigations, engineering and consulting for infrastructural maintenance, energy and resources, and disaster prevention investigations.

Services

Class 37

(1) Scaffolding, earthworks and construction services, namely, concrete paving, moulding of concrete for construction purposes, concrete pouring services and concrete leveling services; drilling of wells; consultancy services in the field of building construction

Class 42

(2) Architectural design; conducting wellbore survey services for the oil and gas, energy, mining, environmental and construction industries, design of geological surveys, mining surveying and topographic surveying; geological surveys or researches; computer software design, computer programming or maintenance of computer software, used for construction works, geological and environmental investigations, engineering and consulting for infrastructural maintenance, energy and resources, and disaster prevention investigations; providing online, non-downloadable computer software for use in providing information and research relating to the construction

industry, geological and environmental investigations, engineering and consulting for infrastructural maintenance, energy and resources, and disaster prevention investigations via a global computer network; testing or research on prevention of pollution; creating of computer programs for others.

Class 45

(3) Consulting services in the field of public safety for preventing, monitoring, and responding to incidents, emergencies, crisis, and disasters; security guarding for facilities; personal body guarding.

Visual Representation

Goods

Class 01

(1) Adhesives materials for the building industry and tiles, namely, adhesive cements, adhesives for floor, ceiling and wall tiles, adhesives for the building industry.

Class 02

(2) Paint primer.

Class 06

(3) Metal profiles for arranging devices on and in walls, floor coverings and other surfaces; metal hardware, namely washers and screws, fastening anchors; accessory hardware for laying floor, wall and countertop tiles and stones, namely, metal frames, metal tracks, metal rails and metal profiles used for tile trim finishing and edge protection, metal supports for ceramic tiles, and tile stair nosing of metal; gutter support systems made primarily of metal for roofs, balcony areas and terrace areas composed of gutter support profiles, gutters, pipes, pipe fittings, gutter hooks, pipe clamps and gutter and pipe connectors.

Class 07

(4) Wire wheels for power operated grinders.

Class 08

(5) Trowels.

(6) Snips, namely tin snips; Hand tool, namely roller used to embed bond coat during membrane installation.

Class 09

(7) Electrical power supplies, namely electric power converters, LED driver, AC/DC power supplies, DC input power supplies, low-voltage power supplies, PWM LED controller; electric cables; electric switches, namely electric current switches, electric light switches, electric power switches; remote-controlled electric switches, namely, remote-controlled electric current, light and power switches; dimmer light switches; Accessory hardware for laying floor and wall tiles, namely tile magnets and counterplates.

(8) Thermostats.

(9) Level indicators for the installation of self-supporting paver tiles, level gauges.

Class 11

(10) Electric floor heating systems, namely, cables and mats for floor heating systems sold as a unit; electric underfloor heating installations; electric underfloor heating cables.

(11) Lamps and illuminants, namely, electric lamps, floor LED lamps, LED lighting strips for prefabricated niches, for integration in tile surfaces; Heating panels used for indoor heating purposes and mechanical controlling system for use thereof; Indoor or outdoor underfloor radiant heating system comprised of pipes, manifolds, valves and controls sold as a unit for household or commercial purposes.

(12) Non-metal shower system sold as a unit or separately, comprised of prefabricated trays, prefabricated shower ramps, prefabricated shower curbs, shower receptors, floor drains and grates, flange; shower installations, and showers.

Class 17

(13) Adhesive sealant and caulking compound; Waterproofing membranes for the application of floor tiles, tiled showers, bathtub surrounds, steam showers, backsplashes, for tiled surfaces subject to moisture; non-metal waterproofing strips to seal tile and constructions joints; Building construction materials, namely, metal and plastic soundproof sheets and plates specially adapted for non-metal heating conduit; Polyethylene foam sheeting for use with building insulation; synthetic resin-based sealant sheets for waterproofing walls and floors.

Class 19

(14) Membranes for use as floor underlayments; Composite tile flooring assembly comprised of modular screed systems, namely, non-metal panels that support flooring assemblies; Non-metal sealant sheets and plates for waterproofing walls and floors; Floor covering drainage system, namely plastic mats that are used beneath floor tiles and mortar beds to form a drainage system for removing water that has seeped through upper layers; Accessory hardware for laying floor and wall tiles, namely, non-metal expansion joints for floors and walls, non-metal drywall corner bead, building materials in the nature of non-metal movement-absorbing profiles for tile joints and corners, and sub-floor panels for draining waterproof tile surfaces; Gutter drainage support systems made primarily of plastic for roofs, balcony areas and terrace areas composed of plastic gutter support edging and protective profiles, plastic gutters, plastic pipes, plastic pipe fittings, plastic gutter hooks, plastic pipe clamps, and plastic gutter and pipe connectors, all sold as a unit; Uncoupling and drainage membranes in the nature of floor, stairs and wall underlayments.

(15) Membranes for use as floor underlayments for carrying heating and cooling tubes or cables.

(16) Mortars (Thin-set).

(17) Building material, namely, tile substrate and building panels for creating bonded waterproofing assemblies with ceramic tile or stone, composed primarily of non-metal materials for interior and exterior applications.

Class 20

(18) Non-metal edge protection and transition profiles primarily of rubber and plastic for walls, floor coverings, stairs, movement and expansion joints.

Services**Class 35**

Online wholesale and retail store services featuring installation systems and products for tiles and stones.

(1) Body weight scales with integral body fat analyzers; body weight scales with body composition analyzers; machines to measure and analyze acetone concentration in breath; baby scales; bath room scales; body weight scales; kitchen scales; notebook type scales, namely, electronic weighing scales for personal use; mini personal weighing scales; pocket scales; portable personal weighing scales; weight scales for industrial use, namely, weighing scales for cargo handling purposes; weight scales for commercial use, namely, baby weight scales, veterinary weight scales, body weight scales for use in a healthcare setting; pedometers; activity monitors, namely, a pedometer activity counter which measures energy expenditures and energy consumption by an individual and which shows calories burned through exercise; detectors and analyzers to detect alcohol in breath; digital breath analyzers for detecting and measuring alcohol and acetone levels in breath odors; halitosis meters, not for medical use; body odor analyzers, namely, sensors for determining body odors, for personal use; residual chlorine meters; pH meters; electronic apparatus and instruments for analyzing water quality namely water quality analyzers for detecting contaminants in water; skin condition analyzers, namely, software for visual analysis and diagnosis of skin conditions, namely, eczema, psoriasis and dry skin, video cameras for use in the analysis and diagnosis of skin conditions, namely, eczema, psoriasis and dry skin; skin condition analyzers, namely, measurement devices to analyze and determine the skin moisture level; skin condition analyzers, namely, measurement devices to analyze and determine the skin softness level; electronic and digital subcutaneous fat thickness measuring instruments not for medical use; measuring machines comprising motion sensors and pressure sensors for the purpose of monitoring and analyzing the condition and quality of sleep, not for medical purposes; temperature gauges; hygrometers; thermo-hygrometers; thermo-hygrometers with luminous and voice navigation functions; water temperature meter; altimeters; personal alarms for the measurement and monitoring of ultraviolet rays, outdoor and indoor temperature, humidity and heat stroke risk; heat stroke detection device, namely, WBGT heat index meters; salinometers; meter for detecting glutamine acid in foodstuffs; glucose meters for measuring blood glucose levels for monitoring a

users general health and well-being information, not for medical use; telecommunications peripheral devices, and replacement components thereof, namely, wireless network adapters which are able to transmit data and information measured by and from weight scales, body fat analyzers and body composition analyzers to computers; air particle analyzers to measure and detect the density and amount of dust in the air, for household and industrial use; air pollution analyzers, namely, pollutant sensors for measuring air quality; measuring machines comprising mass spectrometers and scales with body mass analysers for use in monitoring and analyzing the condition and volume of body muscles, not for medical use; measuring machines comprised of motion sensors and detectors to monitor and analyze a person's physical balance and motor functions, namely, the speed of standing-up from a sitting position, muscular strength and speed of shifting weight for physical balance; skin condition analyzers, namely, measurement devices to analyze and determine the skin softness level of human heads; skin condition analyzers, namely, measurement devices to analyze and determine the skin softness level; muscles condition analyzers, namely, measurement devices to analyze and determine the muscles softness level, not for medical purposes; metal hardness testing machine; measuring machines, namely, food analyzers for measuring the ripeness of vegetables and fruits; saccharometers; moisture meters for detecting water levels in soil for agricultural crops; optical inspection apparatus for inspection of food; computer software for organising food recipes, monitoring calorie intake, and weight control; kitchen scales comprising analyzer for measuring food calories; pressure sensors; motion detectors and sensors; vibration sensors; air pressure sensors; optical sensors; sound level meters; computer software and hardware for the remote monitoring and supervision of elderly people, children and handicapped people to protect against falls; radar detectors; measuring cups; measuring spoons; tape measures; cameras; photocopy machines; photography projectors and reflectors; cameras; digital video recorders; digital video players; video projectors; digital photo-optical systems; optical amplifiers; optical disk players; cameras; kitchen timers with electronic buzzers; docking stations for smartphones; docking stations for tablet computers; docking stations for mobile network routers; communications devices that store, record, process and transmit data received from measuring instruments, namely, computers; straps and lanyards being mobile phone accessories; straps and lanyards being smart phone accessories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; CCD cameras; CMOS cameras; alarm system to detect emergency circumstances in houses of solitary elderly people, which is comprised of motion sensors, emergency signal transmitters and lanyards for safety purposes for fall protection; laser speed detectors; ultrasonic detectors; electromagnetic measuring detectors; electronic circuits (excluding those in which computer programs are recorded); computer operating system programs; encoded prepaid magnetic cards; colour printers; computer printers; inkjet printers; laser printers; electronic desk calculators; application software for mobile phones, smart phones, personal digital assistants or computers, namely, downloadable application software for cell phone and computer, for use in calculating and analyzing a person's physical condition, namely, weight, body mass index, calories burned and heart rate; downloadable application software which synchronizes individual user data obtained from breath analyzers, body weight scales with body composition analyzers, and sleeping state analyzers; application software for mobile phones for analyzing personal data for health care, namely, body weight and body composition, for providing advice based on synchronized individual user data, namely providing advice based on synchronized individual user data for health care in the field of weight loss, providing advice based on synchronized individual user data for health care, namely medical fitness evaluations, providing advice based on synchronized individual user data for health care, namely data obtained from heart rate monitors and wearable activity trackers, providing advice based on synchronized individual user data for health care in the field of mental health screening services, providing advice based on synchronized individual user data for health

care in the field of dietary and nutritional guidance, and for providing advice based on individual user body weight and body composition information; pre-recorded compact discs and flash drives containing software for mobile phones, smart phones and computers, namely, computer application software for mobile phones for use in database management, computer software to enable the transmission of photographs to mobile phones and computer software for mobile phones, smart phones and computers for assisting developers in creating program code for use in mobile internet applications and client interfaces; computers and computer displays; vinyl records; lp records; phonograph records; music files, which can be downloaded from the Internet and be saved; downloadable music and musical sound recordings; downloadable digital content being images; pre-recorded CDs and DVDs containing audio and video clips; pre-recorded videotapes featuring music; video tape recordings featuring recorded films; electronic publications, namely, magazines, books, newspapers, journals, pamphlets, brochures; cable adapters; computer network adapters for wireless network connection; computer network adapters for wireless network communications; electronic data processing device comprising electronic data writers and readers, namely, CD-ROM writers, electronic card readers, flash card readers and optical disc readers; electronic buzzers with electronic countdown timers; electronic buzzers; electronic timers and electronic buzzers for sports; chronographs for use as specialized time recording apparatus.

Class 10

(2) Body fat monitors; body composition analyzers for medical use which analyze body weight and body fat; bioelectrical impedance measurement machines for medical use; fat metabolism diagnosis machines for medical use; medical diagnostic machines, namely, breath analyzers to measure and analyze acetone concentration in breath; sphygmomanometers; clinical thermometers; blood glucose meters; sleep state measuring machines comprising of motion sensors and pressure sensors for the purpose of monitoring and analyzing the condition and quality of sleep for medical purposes; pulse meters; bone densitometers being bone mineral density measuring apparatus; heart rate monitors; medical diagnostic and measuring machines and instruments, namely, breath alcohol analyzer for medical diagnostic use, body odor analyzers for medical diagnostic use, subcutaneous fat thickness measuring instruments for medical diagnostic use, glutamine acid measuring instruments for medical diagnostic use, namely, glutamine acid meters, glucose measuring instruments for medical diagnostic use, namely, glucose meters; medical diagnostic and measuring machines to monitor and analyze the quality, condition and volume of body muscles; measuring machines comprised of motion sensors and detectors to monitor and analyze a person's physical balance and motor functions, namely, the speed of standing-up from a sitting position, muscular strength, and speed of shifting weight for physical balance for medical use; medical diagnostic and measuring machines and instruments, namely, breath alcohol analyzer for medical diagnostic use, body odor analyzers for medical diagnostic use, subcutaneous fat thickness measuring instruments for medical diagnostic use; vibrator massagers; massage beds for medical purposes; facial massagers; massage gloves and mitts; fat metabolism diagnosis machines for medical use; body composition monitors for measuring bodyfat, body mass index, basal metabolism, muscle, bone and body water.

Class 14

(3) Watches and clocks; stopwatches; watches and clocks with timers; chronographs for use as timepieces; stopwatches with electronic buzzers used to countdown the time when doing when doing studies, work, exercises or other activities; stopwatches with electronic buzzers used when doing studies, work, exercises or other activities.

Services

Class 41

(1) Educational services in the field of health and healthcare, namely, teaching physical fitness, educational services in the field of nutrition; educational services in the field of nutrition and healthy eating; educational services in the field of fatness and obesity; educational services in the field of skin care, dieting and weight loss; educational and instruction services in the field of sports for health promotion, namely, soccer, track and field, field hockey, football, rugby, tennis, badminton, swimming; providing information on donation of human corpses for medical education; arranging of donation of human corpses for medical education; arranging, conducting and organizing seminars for promoting public awareness of the benefits of physical activity and healthy nutrition; arranging, operating and holding events (but not including advertising ones), namely, exhibitions, conferences, workshops and seminars in the field of personal physical fitness, wherein measuring and diagnostic machines and instruments, namely, body weight scales with integral body fat analyzer are featured and utilized; instructional services in the field of nutrition and eating habits; arranging, operating and holding events, namely, exhibitions, conferences, workshops and seminars in the fields of personal physical fitness, beauty care, exercise, weight loss, dieting, nutrition and food and drink recipes and meals; arranging, operating and holding events, namely, exhibitions, conferences, workshops and seminars in the field of body measurement, namely, body mass index and weight and physical fitness measurement, and providing information services in relation thereto; providing entertainment services in the nature of organizing online video game tournaments and providing information relating to the aforesaid; providing online non-downloadable electronic publications, namely, books, magazines and manuals about body weight scales with integral body fat analyzer, and about health care, namely physical fitness, developing and maintaining healthy lifestyles, stress management, home health care services, mental health, dietary and nutritional guidance, and how to lose weight; library services; providing non-downloadable videos in the field of cooking, via a website; providing non-downloadable online videos in the fields of soccer, track and field, field hockey, football, rugby, tennis, badminton, swimming; production of television shows in the field of cooking; production of television shows, films; providing body training facilities, namely, gymnasiums and sports arena facilities for the purpose of promoting a healthy and active lifestyle; fitness club services and exercise club services; timing of sporting events; providing training gyms and sports fitness studios; rental and leasing of gym equipment; rental and leasing of sporting equipment, namely, soccer, track and field, field hockey, football, rugby, tennis, badminton, swimming; book and text book publishing services; publishing of periodicals, catalogues, magazines and booklets; publishing of electronic publications; editing of printed matter, namely, books, journals, magazines, newspapers and periodicals; photo editing; written text editing; production of television shows and films; providing information in the fields of soccer, track and field, field hockey, football, rugby, tennis, badminton, swimming, via a website.

Class 42

(2) Designing, creating and maintenance of computer programs; document data transfer and conversion from one media to another; conversion of data or documents from physical to electronic media; creating and designing website-based indexes of information for computer networks for others; creating and maintenance of websites for others; data encryption services; electronic monitoring of personally identifying information to detect identity theft via the internet; rental and leasing of computers; providing non-downloadable computer program for managing a personal computer database containing individual nutritional, fitness and exercise information; providing non-downloadable computer program for use in calculating and analyzing a person's physical condition, namely, weight, body mass index, calories burned and heart rate; providing non-downloadable computer program which synchronizes individual user data obtained from breath analyzers, body weight scales with body composition analyzers, and sleeping state analyzers;

providing non-downloadable computer program for analyzing an individual user's personal physical condition for health care, namely, body weight and body composition and providing advice based on an individual user's body weight and body composition information; Application Service Provider (ASP) services, namely, providing non-downloadable computer program for managing a personal computer database containing individual nutritional, fitness and exercise information; Application Service Provider [ASP] services, namely, providing non-downloadable computer program for use in calculating and analyzing a person's physical condition, namely, weight, body mass index, calories burned and heart rate; Application Service Provider [ASP] services, namely, providing non-downloadable computer program which synchronizes individual user data obtained from breath analyzers, body weight scales with body composition analyzers, and sleeping state analyzers; Application Service Provider [ASP] services, namely, providing non-downloadable computer program for analyzing personal data for health care, namely, body weight and body composition, for providing advice based on synchronized individual user data, namely, providing advice based on synchronized individual user data for health care in the field of weight loss, providing advice based on synchronized individual user data for health care, namely medical fitness evaluation, providing advice based on synchronized individual user data for healthcare, namely data obtained from heart rate monitors and wearable activity trackers, providing advice based on synchronized individual user data for health care in the field of mental health screening services, providing advice based on synchronized individual user data for health care in the field of dietary and nutritional guidance, and for providing advice based on individual user body weight and body composition information; software as a service [SaaS], namely, providing non-downloadable computer program for managing a personal computer database containing individual nutritional, fitness and exercise information; software as a service [SaaS], namely, providing non-downloadable computer program for use in calculating and analyzing a person's physical condition, namely, weight, body mass index, calories burned and heart rate; software as a service [SaaS], namely, providing non-downloadable computer program which synchronizes individual user data obtained from breath analyzers, body weight scales with body composition analyzers, and sleeping state analyzers; software as a service [SaaS], namely, providing non-downloadable computer program for analyzing personal data for health care, namely, body weight and body composition, for providing advice based on synchronized individual user data, namely providing advice based on synchronized individual user data for health care in the field of weight loss, providing advice based on synchronized individual user data for health care, namely medical fitness evaluations, providing advice based on synchronized individual user data for health care, namely data obtained from heart rate monitors and wearable activity trackers, providing advice based on synchronized individual user data for health care in the field of mental health screening services, providing advice based on synchronized individual user data for health care in the field of dietary and nutritional guidance, and for providing advice based on individual user body weight and body composition information; cloud computing web hosting services; cloud computing provider services for general storage of data; hosting of websites; hosting of computer servers; providing cloud storage facilities for use as a data center for others; platform as a service [PaaS], namely, providing non-downloadable computer program for managing a personal computer database containing individual nutritional, fitness and exercise information; platform as a service [PaaS], namely, providing non-downloadable computer program for use in calculating and analyzing a person's physical condition, namely, weight, body mass index, calories burned and heart rate; platform as a service [PaaS], namely, providing non-downloadable computer program which synchronizes individual user data obtained from breath analyzers, body weight scales with body composition analyzers, and sleeping state analyzers; platform as a service [PaaS], namely, providing non-downloadable computer program for analyzing personal data for health care, namely, body weight and body composition, for providing advice based on synchronized individual

user data, namely providing advice based on synchronized individual user data for health care in the field of weight loss, providing advice based on synchronized individual user data for health care, namely medical fitness evaluations, providing advice based on synchronized individual user data for health care, namely data obtained from heart rate monitors and wearable activity trackers, providing advice based on synchronized individual user data for health care in the field of mental health screening services, providing advice based on synchronized individual user data for health care in the field of dietary and nutritional guidance, and for providing advice based on individual user body weight and body composition information; computer software rental; rental and leasing of gauging machines and instruments, namely, temperature gauges and hygrometers; rental and leasing of measuring machines and instruments, body fat monitors, body composition analyzers, pulse meters, heart rate monitors, breath alcohol concentration analyzers, heat stroke meters and sleep measuring devices; rental and leasing of scientific, chemical and laboratory machines and instruments, namely, laboratory instruments and microscopes for scientific research purposes; designing and development of computer hardware; medical research laboratory services; information on the subject of scientific research in the field of biochemistry and biotechnology; providing medical and scientific research information in the field of pharmaceuticals and clinical trials.

Class 43

(3) Providing food and drink, namely, restaurant services, café services, bar services, takeaway food and drink services and providing information services in relation thereto; providing nutritional information of food and drink recipes, namely, calories, salt content, vitamins and minerals; catering [provision of food and drink]; providing food and drink at cafes with rest facilities having hammocks; providing temporary accommodation in the nature of rest-stop housings containing hammocks for travellers; providing food and drink at cafes with rest facilities; accommodation services, namely, hotels, motels, bed and breakfasts, campground accommodations, holiday camps; preschooler and infant care at daycare centers; infant and child care services provided at nurseries or daycare centers.

Class 44

(4) Counseling services in the fields of dieting, nutrition, exercise, physical fitness, mental health and administration of medications; information services in the fields of dieting, nutrition, exercise, physical fitness, mental health and administration of medications; information services in the field of obesity and fatness prevention; information services in the field of nutrition and eating habits; advisory and counseling services in the field of nutrition; health checkup, and information services in relation thereto, namely, physical examinations of human beings, providing information about physical examination in person and via the Internet and telephone, providing dietary and nutritional information in person and via the Internet and telephone, providing information about pharmaceuticals, exercise and physical fitness in person and via the Internet and telephone; counseling and advisory services in the field of obesity/fatness prevention; information services in the field of obesity/fatness prevention; consultancy and advisory services in the field of nutrition and eating habits; information services in the field of nutrition and eating habits; rental and leasing of medical diagnostic machines and instruments; rental and leasing of medical machines and instruments; rental and leasing of ultrasonic diagnostic system comprised of x-ray CT scanners; rental and leasing of massage apparatus, namely, body massagers, facial massagers, massage chairs and massage tables; counseling and advisory services in the field of esthetics, cosmetics, skin care, weight loss, dieting and nutrition; information services in the field of dieting and nutrition; barber shops; beauty salon services; rental and leasing of beauty care instruments and equipment, namely, skin care equipment for use in health and beauty spas; providing foot bath facilities; providing spa and bath houses with rest facilities having hammocks; providing spa and bath

houses with rest facilities; sauna services; providing spa and bath houses; massage and therapeutic shiatsu massage; chiropractic; moxibustion; medical treatment of dislocated joints, sprains and bone fractures; acupuncture; providing information regarding massage and therapeutic shiatsu massage; massage services by using aromatherapy; oil massage; relaxation massage services for body care; providing information regarding reflexology and massage; counseling in the field of massage; reflexology services; animal breeding, namely, breeding of dogs, cats, pigs and horses; veterinary services; animal grooming; aromatherapy and massage services for pets.

Recorded computer programs for electronic, computer and video games; computer operating programs, recorded; recorded computer game software; interfaces for computers namely computer cable adapters; monitors [computer programs] namely computer programs for monitoring computer network access and activities; downloadable electronic publications, namely magazines, newsletters and journals in the field of computer games and video games; downloadable computer programs, namely for electronic, computer and video games; computer game software, recorded; downloadable ring tones for mobile phones; downloadable music files; downloadable image files, namely animated cartoons and photographs; downloadable computer software applications, namely computer gaming applications and software for mobile phones, handheld computers, recorded for recreational game playing purposes and operational computer applications for mobile phones, handheld computers, namely, computer applications software for maintaining and operating computer systems; electronic book readers; personal digital assistants [PDAs]; recorded or downloadable computer software platforms for electronic, computer and video games; computer screen saver software, recorded or downloadable; downloadable graphics for mobile phones; computer game software, downloadable

Services

Class 38

(1) Message sending namely electronic transmission of emails; computer aided transmission of messages and images, namely transmission of information and digital files through video communication systems and on optical telecommunication networks, namely the Internet and wireless networks; transmission of electronic mail; electronic bulletin board services [telecommunications services] namely video broadcasting services via the internet, transmission of electronic mail, and electronic bulletin boards for transmission of messages among users in the field of general interest; telecommunications routing and junction services namely providing user access to databases and providing online forums for transmission of messages among computer users; teleconferencing services; providing internet chatrooms; providing access to databases;

voice mail services; transmission of greeting cards online; electronic transmission of streaming video and data providing information about broadcasting of television programs; videoconferencing services; providing online forums; streaming of data namely electronic exchange of news, hypertext documents, streaming video, web hyperlinks, and music data all stored in databases accessible via telecommunication networks

Class 41

(2) Entertainment services namely, providing non-downloadable video games, electronic games, and computer games that can be accessed and played over computer networks, entertainment services, namely, providing online electronic, computer and video games, entertainment services, namely, providing on-line non-downloadable videos in the field of video games and sound recordings via a global computer network; providing non-downloadable interactive multiplayer electronic, computer and video games that may be accessed and played over computer networks and global communications networks; organization of competitions in education and entertainment namely arranging and conducting computer game competitions, operation and coordinating of electronic sports competitions and math and spelling competitions; providing recreation facilities namely providing a video and computer gaming center, amusement arcades; publication of texts, other than publicity texts in the field of electronic, computer and video games; teaching services by providing information and game strategies in the field of electronic, computer and video games; educational services namely providing seminars in game strategies in the field of electronic, computer and video games; instruction services in game strategies in the field of electronic, computer and video games; arranging and conducting of conferences in the field of video games, electronic games and computer games; education information by providing information in game strategies in the field of electronic, computer and video games; providing entertainment information in the field of video games and computer games; practical training by providing demonstration in the field of electronic, computer and video games; scriptwriting, other than for advertising purposes; online publication of electronic books and journals; electronic desktop publishing; game services provided online from a computer network namely providing temporary use of non-downloadable computer based interactive games; providing online electronic publications namely magazines, newsletters and journals in the field of electronic, electronic, computer and video games, not downloadable; writing of texts namely blogs in the field of electronic, computer and video games; publishing layout services for magazines, newsletters and journals in the field of electronic, electronic, computer and video games; toy rental; video games equipment rental; providing online music, not downloadable; providing online videos in the field of electronic, computer and video games, not downloadable; training services provided via simulators in the field of electronic, computer and video games; providing films, not downloadable, via video-on-demand services; providing television programs, not downloadable, via video-on-demand services; providing television programmes, not downloadable, via video-on-demand services; providing television programmes, not downloadable, via video-on-demand transmission services.

Class 42

(3) Computer programming; computer software design; updating of computer software; consultancy in the design and development of computer hardware; rental of computer software; recovery of computer data; maintenance of computer software; computer system analysis; computer system design; duplication of computer programs; conversion of data or documents from physical to electronic media; creating and maintaining web sites for others; hosting computer websites; installation of computer software; conversion of computer programs and data from one media to another; computer software consultancy; rental of web servers; computer virus protection services; providing search engines for the Internet; digitization of documents [scanning]; monitoring of computer systems by remote access; web site design consultancy; providing

software as a service [SaaS] services featuring software for designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; information technology [IT] consultancy namely analyses, design, programming, and maintenance of software for consumer video games; off-site data backup; electronic data storage namely cloud storage facilities for use as a data center for others; providing information on computer technology and programming via a web site; consulting in the field of cloud computing networks and applications; outsource service providers in the field of information technology namely providing outsource consulting services in the field of design of computer hardware for computer games, periodic upgrading of computer software for others; computer technology consultancy namely technical advice relating to performance or operation of computers; telecommunications technology consultancy namely providing technology information in the field of telecommunications hardware and software engineering; computer security consultancy; technical writing; monitoring of computer systems to detect breakdowns; creating and designing website-based indexes of information for others [information technology services]; Internet security consultancy; data security consultancy; data encryption services; monitoring of computer systems for detecting unauthorized access or data breach; software development in the framework of software publishing; platform as a service [PaaS] featuring computer software platforms used to facilitate the design and development of computer game software and video game software for use with computers, video game program systems and computer networks; development of computer software platforms for use in the field of electronic, computer and video games; research in the field of telecommunications technology namely telecommunications hardware and software engineering; graphic design of promotional materials.

Colour Claim

Colour is claimed as a feature of the trademark. The image of a red flower with eight petals around a circular inner orange bud core which incorporates a stylized capital letter B superimposed on two of the petals, which letter B is outlined in green and black and infilled in the same red colour as the petals, and which B flows by cursive script with the letters LOOM in the colour green partially outlined in black. The words GREENHOUSE GARDEN CENTRE with the ampersand sign between the words GREENHOUSE and GARDEN are in darker green.

Goods

Class 01

(1) agricultural lime; artificial soil for plant cultivation; fertilizers for soil and potting soil; organic potting soil; planting soil; potting soil; top soil; grass fertilizers; bone meal fertilizer; fish meal fertilizers; compost; compost fertilizer; potting compost; soil amendments for horticultural purposes; soil conditioners for horticultural purposes,- nutrients for plants, plant food, plant hormones;

Class 19

(2) cement paving tiles; flagstones; garden ornaments made of concrete, garden ornaments made of marble, garden ornaments made of stone. garden ornaments of stone, marble and concrete; geotextile fabrics for use as landscape fabric; plastic landscape edgings; landscape fabric;

Class 31

(3) bulbs for horticultural purposes; horticultural seeds; plant bulbs for horticultural purposes; potted dwarfed trees; seeds for horticultural purposes; flowering plants; live plants; live plants used

as aquarium landscapes; living fruit plants; living plants; natural flowering plants; natural plants; natural plants and flowers; seedlings; seeds for growing plants; seeds for planting; arrangements of dried flowers for decorative purposes; arrangements of natural flowers; cut flowers; dried flowers for decoration; flower seeds; seeds for growing flowers; bushes; cactuses; dried plants for decoration; flower bulbs; fresh cut garlands; fresh cut wreaths; fresh garden herbs; fresh herbs; grass seeds; grass sod; lawn turf; live cut Christmas trees; live shrubs; live trees; mulch; natural flowers; organic fresh herbs; peat moss; pepper plants; potted fresh herbs; raw bark; rose bushes; saplings; seeds for flowers; seeds for fruit and vegetables; seeds for growing fruits and vegetables; seeds for growing herbs; sod;

Services

Class 35

(1) retail services provided by lawn, garden and nursery stores; sale of flowers; retail sale of trees, shrubs and live plants; retail sale of sod; retail sale of top soil;

Class 39

(2) delivery of goods by truck; delivery of flowers; delivery of sod; delivery of top soil; delivery of trees, shrubs and live plants;

Class 44

(3) consultancy relating to landscape design; landscape design; landscape design and gardening services; landscape gardening; landscape gardening design for others; advisory and consultancy services in relation to the use of agricultural and horticultural fertilizers; advisory and consultancy services relating to the use of agricultural and horticultural fertilizers; advisory and consultancy services relating to weed, pest and vermin control in agriculture, horticulture and forestry; garden design; garden design and maintenance; garden or flower bed care; garden tree planting; gardener and gardening services; gardening; gardening and lawn mowing services; greenhouse services; horticultural services; horticulture; lawn care; laying of turf; plant care services; plant nurseries; plant nursery services; plant seeding; providing information relating to garden or flower bed care; providing information relating to garden tree planting; providing information relating to the rental of potted plants; providing information relating to the spreading of fertilizers; providing information relating to the use of fertilizers; providing information relating to vermin exterminating for agriculture, horticulture and forestry; providing information relating to weed killing; tree nurseries; tree nursery services; tree planting services; tree pruning; turf laying services; weed killing and providing information relating thereto; lawn maintenance services, garden and lawn property maintenance;

(1) Smart cities apparatus, namely lighting control panel featuring computer operating software for the management and connection of Internet of Things (IoT) enabled lighting systems; smart cities electronic control system for lighting systems to monitor and control the functioning of lighting installations that offer smart connected services, namely modular and interactive lighting installations offering smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light and Internet of Things (IoT) related applications, antennas, cameras, drivers in the nature of control boxes, namely, for lighting installations, sensors in the nature of remote sensors for monitoring lighting installations, loud speakers, sound systems comprising remote controls, amplifiers, loudspeakers and components therefore, panic button sound alarms, advertising LCD panels, electric vehicle charges and small cells for wireless device connectivity which enable such installations; smart cities electronic devices and apparatus in the nature of light detectors to monitor and control the functioning of lighting installations that offer smart connected services, namely, iot, lighting, wireless internet, electric vehicle charges, sos intercoms, small cells for wireless device connectivity, data captation, data monitoring, data analysis and data transfer; smart cities antennas, cameras, drivers in the nature of control boxes, namely, to monitor and control lighting apparatus, loud speakers, sound systems comprising remote controls, amplifiers, loudspeakers and components therefore, panic button sound alarms, advertising LCD panels for installations, devices or apparatus offering smart connected services, to offer smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light and Internet of Things (IoT) related applications; lighting control software for use in smart cities, namely, for modular and interactive lighting installations offering smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light and Internet of Things (IoT) related

applications, devices and apparatus offering smart connected services, namely, offering smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light and Internet of Things (IoT) related applications; wireless controllers to remotely monitor and control the function and status of electronic connected devices and systems; electrical industrial controls for controlling and managing smart cities lighting installations; smart cities surveying instruments for installations, devices or apparatus offering smart connected services; radio transmitters, receivers, and controllers for monitoring and controlling lighting and IoT devices; smart cities electronic control gears (ECGS) for light fixtures and light-emitting diodes (LED) lamps; smart cities light regulators, namely, electric light dimmers; smart cities electrical charge controllers, modulators, converters and stabilizers for monitoring electric current and electrical signals offering smart connected services; smart cities wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices and systems, namely, lighting systems; smart cities intercoms for installations, devices and apparatus, namely, for controlling, managing lighting installations offering smart connected services; network gateway; smart cities electronic control gears (ECGS) for light fixtures and light-emitting diodes (LED) lamps; all the above goods being related to smart installations for device connectivity, data capture, data monitoring, data analysis and data transfer.

Class 11

(2) Smart cities lighting installations, namely, adaptive street lighting; smart cities modular and interactive lighting installations for street lighting offering smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light and Internet of Things (IoT) related applications, that incorporate software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity, which enable such lighting installations; smart cities lighting installations, namely solar energy, indoor and outdoor electrical lighting fixtures, including lighting fixtures using light-emitting diodes as the light source offering multiple combination of smart connected services, namely, IoT, wireless internet, electric vehicle charges, SOS intercoms, small cells for wireless device connectivity, data capture, data monitoring, data analysis and data transfer; smart cities light-emitting diodes (LED) apparatus and installations, namely, for modular and interactive lighting installations offering smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light or Internet of Things (IoT) related applications; smart cities solar energy light fixtures, namely, solar powered lamps offering multiple combination of smart connected services; smart cities streets, roads, highways and parks lighting in the nature of street lighting offering multiple combination of smart connected services; lighting apparatus incorporating optical fibres, namely, street lights; smart cities light diffusers; smart cities light panels for vehicles, namely light panel incorporated in a modular lighting fixture or in a light pole; smart cities light projectors; smart cities ambient lighting devices, namely, lighting installations in the nature of mood lights; wall lamps; lamp reflectors; filters for use with outdoor lighting; smart cities red LED flashlights for lighting; smart cities smart and interactive lighting systems, namely, modular and interactive street lighting offering smart connected services to wireless internet, cameras, loudspeakers, electric vehicle charges, SOS intercoms, 4G base stations, pollution sensors, sound systems, motion detectors, network IP speakers, for use in controlling and managing light or Internet of Things (IoT)

related applications to encourage social connectivity in cities; smart cities commercial lighting fixtures for use in public traffic systems and infrastructure for light mobility.

Services

Class 35

(1) Business management, commercial information and advice for professional, enterprise, business and public sectors in the field of lighting, lighting engineering and the managing, operating and connecting of Internet of Things (IoT) enabled lighting systems of third-parties; computer data entry, processing and management in the field of smart cities lighting installations; computer data entry services; compilation of business data in the field of smart cities lighting installations; retail services for lighting; wholesale services for lighting; wholesale services for computer software, namely, iot, lighting, wireless internet, electric vehicle charges, sos intercoms, small cells for wireless device connectivity, data captation, data monitoring, data analysis and data transfer; on-line wholesale store services featuring lighting installations.

Class 37

(2) Installation, maintenance and repair of lighting apparatus, lighting instruments, lighting systems and street lights offering smart connected services, namely, Internet of Things (IoT), lighting, wireless internet, electric vehicle charges, sos intercoms, small cells for wireless device connectivity, data captation, data monitoring, data analysis and data transfer; installation, maintenance and repair of physical installations, devices and apparatus that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices or apparatus to offer smart connected services; installation, maintenance and repair of regulating, monitoring and control apparatus for lighting apparatus, lighting instruments, lighting systems, street lights, offering smart connected services; installation, maintenance and repair of regulating, monitoring and control apparatus, namely electrical control systems for lighting systems and lighting control panels for lighting installations that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices or apparatus to offer smart connected; advisory services relating to the installation, maintenance and repair of lighting apparatus, lighting instruments, lighting systems, street lights, offering smart connected services; advisory services relating to the installation, maintenance and repair of control devices or same panels for lighting installations that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices and apparatus to offer smart connected services; providing information relating to the installation, maintenance and repair of lighting apparatus, lighting instruments, lighting systems, street lights, offering smart connected services; providing information relating to the installation, maintenance and repair of control devices or panels for lighting installations that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices or apparatus to offer smart connected services; installation, maintenance and repair of information technology equipment and computer network for control devices or panels for lighting installations, lighting instruments, lighting systems, street lights, offering smart connected services; installation, maintenance and repair of information technology

equipment and computer network for control devices or panels for lighting that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices or apparatus to offer smart connected services; technical consultation in the field of installation, maintenance and repair of control devices or panels for lighting installations, lighting instruments, lighting systems, street lights, offering smart connected services; technical consultation in the field of installation, maintenance and repair of control devices or panels for lighting installations that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices and apparatus to offer smart connected services; installation, maintenance and repair of computer hardware for control devices or panels for lighting installations, lighting systems, street lights, offering smart connected services; installation, maintenance and repair of computer hardware for control devices or panels for lighting installations that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices or apparatus to offer smart connected services; installation, maintenance and repair of computer hardware for data processing; rental of lighting installations; rental of connected lighting installations that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such installations, devices and apparatus to offer smart connected services; all the above services being related to smart installations for device connectivity, data captation, data monitoring, data analysis and data transfer.

Class 42

(3) Industrial design of lighting apparatus, lighting systems and, street lights offering smart connected services, namely, iot, lighting, wireless internet, electric vehicle charges, sos intercoms, small cells for wireless device connectivity, data captation, data monitoring, data analysis and data transfer; industrial design of physical installations, devices or apparatus that are embedded with software, antennas, cameras, drivers in the nature of control boxes, sensors, detectors, loud speakers, sound systems, panic buttons, advertising panels, electric vehicle charges and small cells for wireless device connectivity which enable such physical installations, devices or apparatus to offer smart connected services; technical planning and consultancy in the field of lighting, lighting engineering and iot; design, development, configuration, installation, fault diagnosis, repair, updating, upgrading and maintenance of computer software for lighting apparatus, lighting systems, street lights, offering smart connected services and for physical installations, devices or apparatus that are embedded with software, enabling such physical installations, devices or apparatus to offer smart connected services; design, development, configuration, installation, fault diagnosis, repair, updating, upgrading and maintenance of computer software, driver software, software for process control in the field of lighting, lighting engineering and iot; development of computer software for use with computer-controlled switching systems for lighting apparatus, lighting instruments, lighting systems, street lights, offering smart connected services; development of computer software for use with computer-controlled switching systems for physical installations, devices or apparatus that are embedded with software which enable such physical installations, devices or apparatus to offer smart connected services; monitoring of computer systems by remote access in the field of lighting, lighting engineering and

iot; outsourcing information technology services in the field of lighting engineering and Internet of Things (IoT) enabled lighting systems hosting of websites to allow users to upload data, files, applications and information in the field of lighting, lighting engineering and Internet of Things (IoT); maintenance of software and database systems in the field of lighting, lighting engineering and iot; providing temporary use of non-downloadable software for lighting, lighting engineering and iot for monitoring and alerting remote sensor status via the internet; software as a service (saas) services featuring software in the field of lighting, lighting engineering and iot for monitoring and alerting remote sensor status via the internet; consulting services in the field of software as a service (saas) in the field of lighting, lighting engineering and iot; application service provider (asp) services, namely, hosting computer software applications of others in the field of lighting, lighting engineering and iot for monitoring and alerting remote sensor status via the internet; installation of access control as a service (acaas) software in the field of lighting, lighting engineering and iot; applications service provider (asp), namely, hosting computer software applications of others in the field of lighting, lighting engineering and iot for monitoring and alerting remote sensor status via the internet; rental of software in the field of lighting, lighting engineering and iot; hosting of access control as a service (acaas) servers and software applications of others in the field of lighting, lighting engineering and iot; providing temporary use of non-downloadable cloud-based software for connecting and exchanging data in smart cities, smart utilities and the iot network.

Apparatus for computing, namely, quantum computers, quantum computer hardware, quantum computing chips, and quantum computer processing modules; computing apparatus, namely, quantum computers, quantum computer hardware, quantum computing chips, and quantum computer processing modules; computing apparatus for handling information, namely, quantum computers and quantum computer hardware; computing installations, namely, quantum computers and quantum computer hardware; mainframe computers; computer networking apparatus, namely modems, network routers, and quantum computer networking hardware, quantum repeaters, hardware for quantum cloud services; computer interface boards for use with quantum computers; computer hardware; downloadable and recorded computer software to enable data sharing in electronic form between computers; network management computer software; computer workstations comprised of quantum computers and quantum computer hardware for electronic design; personal computers incorporating computer software; downloadable and recorded computer programs for analysing computer hardware; downloadable and recorded computer software for analysing data communicated between computer processes; electronic devices for communication by computers, namely, modems, network routers, communication hubs, computer switches, and quantum computer hardware, and quantum computing chips; downloadable and recorded computer software for database management, for enabling telecommunication between

quantum computers in connection with quantum cloud services, and for quantum computer networking; downloadable and recorded interactive computer software for database management; security devices for computer hardware, namely, security token computer hardware for quantum computers; computer design hardware; computer interfaces for use with quantum computers, namely, graphical user interfaces, command-line interfaces, touch user interface, natural user interfaces, voice user interface for controlling operations of quantum computers, and computer interface cards for use with quantum computers; computer components, namely, motherboards, central processing units (CPU), random access memory (RAM) cards, power supplies, cooling fans, hard disk drives; security devices for computer software, namely, security token computer hardware for quantum computers; computers; downloadable and recorded computer software that supports interaction between microcomputers; communications hardware and software for monitoring and managing digital and satellite communications networks for enabling communication to and from quantum computers; communications hardware and software for cloud computing using remote servers hosted on the internet for data access, data processing, data storage, data management and data exchange in the field of quantum computing; computer networking installations comprised of modems, network routers, computer networking hardware, quantum repeaters and hardware for quantum networks and cloud services; computer hardware for use in computer-assisted software engineering; computer apparatus for computer aided engineering, namely, quantum computers and quantum computer hardware; downloadable and recorded personal computer application software for quantum computations, for quantum simulations and for enabling telecommunication between quantum computers in connection with quantum network and cloud services; graphic printers for use with computing apparatus; computer programs for electronic design automation; downloadable and recorded computer software for undertaking quantum computations and operating quantum computers, and running quantum cloud services; downloadable and recorded simulation software for use in digital computers, namely, simulation software for mimicking complex problems and systems which are hard to solve using classical computers, for quantum computations, for quantum simulations and for enabling telecommunication between quantum computers in connection with quantum cloud services; downloadable and recorded communication software for operating computer networking hardware; computer programming units, namely, quantum computer hardware and quantum computing chips; multiprocessor computer apparatus, namely, quantum computer hardware and quantum computing chips, quantum computer processing modules; computer hardware, namely, monitors, quantum computer hardware, quantum computing chips, quantum computer processing modules, computer network hardware, and quantum cloud computing hardware; downloadable and recorded computer software for business purposes for processing financial transactions over a global computer network; broadband data interconnecting computer installations comprised of computer servers and computer networking hardware; computer systems comprised of quantum computers and quantum computer hardware; semiconductor chips; semiconductor devices, namely devices configured to perform quantum operations and computation for quantum calculations; semiconductor power elements; semiconductor apparatus, namely, semiconductors; electronic semiconductors; semiconductors (integrated circuits); semiconductor memories; semiconductors for interfacing with quantum computing hardware; semiconductor memory devices being electronic memories; silicon wafers; semiconductor memory devices being computer memories; silicon on insulator wafers; silicon voltage apparatus namely AC/DC power supplies, voltage converters, voltage regulators, voltage limiters, voltage detectors, voltage stabilizers; substrates, namely, semiconductor wafer, silicon wafers; metal casings for semiconductor devices; complimentary metal oxide semiconductor testers; photomask substrates for integrated circuits; silicon slices in the nature of silicon wafers; silicon wafer slices; containers adapted for containing semiconductor wafers; silicon chips (electronic components); wafers for integrated circuits; containers adapted for

carrying semiconductor wafers; silicon wafer carriers for handling integrated circuits; electronic circuit substrate; glass wafers for integrated circuits; optical emitters in the nature of optical reflectors; photo-semiconductors; cases adapted for semiconductors; microelectronic components, namely, integrated circuits, quantum computing chips having electronic components; unijunction transistors; transistors (electronic); laser diodes; electronic devices, namely, waveguides for high power beam delivery; telecommunications components, namely, waveguides for high power beam delivery; integrated optical chips; semiconductor apparatus, namely semiconductors, for use with computers; visual instruments for examining semiconductor apparatus; optical components, namely, waveguides for high power beam delivery; semiconductor memory devices being computer memories; integrated optical chips; laser diodes; optical waveguides; metal oxide semiconductor transistors; transistor testers; integrated circuit chips; optical processing apparatus, namely, optical scanners and optical character readers; optical disc readers; ceramic wafers bearing printed circuits; optical fibre telecommunications apparatus, namely, optical fiber cables and connectors; programmable telecommunication apparatus for quantum communication, namely, wireless infrastructure equipment, landline infrastructure equipment, networking devices, modems, routers, switches, input and output devices, telecommunication channels, and telecommunication processors; flexible printed circuits incorporating substrates; optical signalling apparatus, namely video signal optical transmitting apparatus, photon emitters, photon detectors, optical cavities and optical resonators; amplifiers for amplification of readout and control signal for quantum bits

Services

Class 35

(1) Computerized data processing, namely processing data for others, by using quantum computers, in the fields of bioscience, chemistry, material science, transportation, telecommunication, cybersecurity and cryptography, drug design, medicine, medical devices, artificial intelligence, machine learning, deep learning, natural language processing, pattern and image processing, electronic materials discovery, molecular designs, improved batteries, cleaner fertilization, and simulating complex chemical systems

Class 38

(2) Operating of electronic communication networks, namely, electronic data transmission via quantum computers relating to technical applications of quantum computing in the fields of in bioscience, chemistry, material science, transportation, telecommunication, cybersecurity and cryptography, drug design, medicine, medical devices, artificial intelligence, machine learning, deep learning, natural language processing, pattern and image processing, electronic materials discovery, molecular designs, improved batteries, cleaner fertilization, and simulating complex chemical systems; communication between computers via digital transmission and satellite relating to technical applications of quantum computing in bioscience, chemistry, material science, transportation, telecommunication, cybersecurity and cryptography, drug design, medicine, medical devices, artificial intelligence, machine learning, deep learning, natural language processing, pattern and image processing, electronic materials discovery, molecular designs, improved batteries, cleaner fertilization, and simulating complex chemical systems; computer communication services, namely, communication services by computer terminals relating to technical applications of quantum computing in bioscience, chemistry, material science, transportation, telecommunication, cybersecurity and cryptography, drug design, medicine, medical devices, artificial intelligence, machine learning, deep learning, natural language processing, pattern and image processing, electronic materials discovery, molecular designs, improved batteries, cleaner fertilization, and simulating complex chemical systems

Class 42

(3) Cloud computing, namely, providing temporary use of on-line non-downloadable cloud computing software for use in database management, use in electronic storage of data, use in executing quantum computations, quantum software, quantum calculations, quantum simulations and quantum operations for the purpose of managing databases, storing data and running quantum calculations; hosting a website providing virtual computer systems through cloud computing; testing of computing equipment for quantum computation; computer technology consultancy, namely quantum control, and quantum computing consultancy; computer software engineering; computer hardware engineering; computer software engineering; computer security engineering; computer software development; computer programming consultancy; development of computer platforms; scientific computer programming services; development of computer software application solutions; computer software consultancy; computer software programming services; computer programming; development of computer software; engineering services relating to computer programming; computer software design; computer security threat analysis for protecting data; information technology (IT) services, namely, design of computer hardware and software and information technology consultancy in bioscience, chemistry, material science, transportation, telecommunication, cybersecurity & cryptography, finance, drug design, medicine, medical devices, artificial intelligence, machine learning, deep learning, natural language processing, pattern and image processing, electronic materials discovery, molecular designs, improved batteries, cleaner fertilization, and simulating complex chemical systems; computer security services, namely, design and development of secure computer hardware, software and systems; computer engineering consultancy services; design of computer hardware; computer system analysis; computer security consultancy; software engineering; computer technology consultancy; design of computer software; cryptographic engineering, namely quantum cryptography engineering; upgrading of computer software; consultancy in the design and development of computer hardware; computer software advisory services; Computer research services, namely, scientific research related to quantum computing; updating of computer software

Goods

Class 09

(1) Downloadable software in the fields of healthcare, medicine and wellness that enables users to enter, communicate, evaluate, access, and share medical information, electronic medical reports, electronic health records, communications between patients and providers, fitness information and data of patients, and health data for use in patient care, care coordination and care management, chronic disease management, remote patient monitoring and engagement between health care providers and patients, and to alert clinicians of adverse patient trends; downloadable software in the nature of a mobile application for enabling care providers and users to enter, access, track, monitor and generate health and medical information and reports.

Class 10

(2) Wearable medical device for monitoring vital signs, heart rate, respiratory rate, body position, physical activity level, gait, temperature, quality of sleep, motion, and symptomatic events in the nature of coughing, sneezing, vomiting, all indicating adverse patient trends, and fall detection; wearable medical device for monitoring vital signs, heart rate, respiratory rate, body position, physical activity level, gait, temperature, quality of sleep, motion, and symptomatic events in the nature of coughing, sneezing, vomiting, all indicating adverse patient trends, and fall detection and recorded software, sold as a unit, for recording, transmitting, analyzing and reporting patient health data and clinical insights to care providers.

Services

Class 42

Data-as-a-service (DaaS) platform services featuring software for collection, verification, aggregation, storage, management, distribution, transmission, and visualization of health-related data in the nature of patient vital signs, heart rate, respiratory rate, body position, physical activity level, gait analysis, temperature, quality of sleep, oxygen saturation, motion and symptomatic events and algorithmic alerting in the nature of adverse patient trends, risk scores and fall detection; software as a service (SAAS) services featuring software for integrating and analyzing patient health data for predictive analysis of health risks and health events; providing non-

downloadable software that enables care providers and users to enter, access, track, monitor and generate health and medical information and reports via an interactive online platform, and to alert clinicians of adverse patient trends; providing temporary use of online non-downloadable cloud based analytics software for the use in recording, transmitting, analyzing and reporting patient health data, algorithmic-based alerting and clinical insights to care providers; Platform as a service (PAAS) featuring a computer software platform in the fields of healthcare, medicine and wellness that enables users to enter, communicate, evaluate, access, and share medical information, electronic medical reports, electronic health records, communications between patients and providers, fitness information and data of patients, and health data for use in patient care, care coordination and care management, chronic disease management, remote patient monitoring and engagement between health care providers and patients, and to alert clinicians of adverse patient trends; Software as a service (SAAS) featuring software in the fields of healthcare, medicine and wellness for the purpose of providing an integrated health management system using machine learning and artificial intelligence, namely, software for providing patients and health care providers access to patient information and data, for dynamic collection of patient related health and wellness data, and for providing patients access to personalized information relevant to patient health and wellbeing; providing non-downloadable interactive web-based application featuring technology that enables care providers and users to enter, access, track, monitor and generate health and medical information and reports.

Goods

Class 06

(1) Joint washers of metal; Metal over-the-door racks; door hardware, namely, metal door latches, metal doorplates, metal door hinges, door bolts of metal, door fittings of metal; metal door handles; mechanical window operators of metal; motorized window operators of metal; metal toilet tank lever; metal screws; metal woodruff keys; metal washers; metal tube flanges, clamps; steel repair plates; metallic drain traps; Bathroom mirror metal mounting brackets, metal clips and metal rails

Class 11

(2) Laundry tubs; Shower drain bodies of metal; shower drain bodies of plastic; Joint washers of plastic; Shower arms; shower mounts; Faucet handles; shower arm adapters; toilet flush buttons; shower diverter valves; shower control valves; toilet flush actuators; sink j-bends; slip joint traps for sinks; slip joint traps for showers; plumbing adapters; sink drains; sink traps; non-metal toilet tank lever; Shower drains; plumbing connectors; Shower panels; shower faucet control panels; Shower enclosures; hand-held shower massagers; Water diverters for faucets; bathroom vanity tops incorporating basins to be connected to the water supply; Vanity back and side splashes

Class 17

(3) PVC tube extensions for plumbing fittings and drains; PVC tube elbows for plumbing pipes; Bathroom mirror mounting adhesives, namely mirror mastic adhesive, foam tape squares, and foam tape; Joint washers of rubber; drain related products, namely, plastic wall tubes used in drain applications and plastic wall tubes in the nature of plumbing drains

Class 20

(4) Mirrors, bathroom cabinets; Non-metal door handles; Bathroom safety furniture, namely, toilet safety frame; shower benches; shower transfer benches; saw horses; plastic nuts and washer sets; towel racks; plastic drawer organizers; Shower rods; shower curtain hooks; shower curtain rings

Class 21

(5) Bath bar fixtures, bath racks; Toothbrush holder; shower caddies; paper towel holders; drain stoppers; squeegees for cleaning bathroom tiles and shower doors and walls; Wire toilet paper holders and containers

Class 24

(6) Shower curtain liners

Class 27

(7) Bath mats

Class 31

(8) Shrubs and flowers, namely cut flowers, dried flowers, fresh flowers, live flowers, potted fresh flowers, natural flowers

Class 09

Downloadable computer software for cybersecurity, detecting and mitigating network attacks using artificial intelligence, machine learning and/or deep learning; downloadable computer software for continuous monitoring, identifying, verifying, analyzing, comparing, classifying, sorting and scoring of collected or acquired data from network traffic, network communication, network flow data, and network intercommunication using artificial intelligence, machine learning and/or deep learning; downloadable computer software for providing initiation, distribution, delivery and response tracking of emergency notifications to users via personal communication devices and public mass communication devices; downloadable computer software for supporting exchange of information and collaboration processes amongst organizations and people during emergency and crisis situations; downloadable computer software for the purposes of data collection, monitoring, and mass notification services for managing emergency, and crisis and business critical situations and improving crisis communications capability; downloadable computer software for the secure transmission of mass notification emergency information via audio, video and electronic communications networks and devices, including social networks; downloadable computer software for managing and analyzing data feeds and data inputs in the field of crisis reporting, communication and management, and for sending notifications through multiple IP network channels and delivery services; downloadable computer software for loading data from personnel directories, and managing users for purpose of crisis communication; downloadable computer software for managing organization directories and connections across organizations for the purpose of connecting them and facilitating collaboration before, during and after crisis situations; downloadable computer software for locating personnel for security and safety purposes using a global positioning system, user self-reporting, and other locating means; downloadable computer software for electronically monitoring, detecting and reporting on alarms, alerts, emergencies, hazards, security threats, and dangerous weather; downloadable software in the nature of a mobile application for sending, receiving, confirming and responding to alerts, messages, and notifications via wireless communications networks or the Internet; downloadable computer software in the nature of desktop software applications for providing desktop notifications that

capture the user's attention with audio-visual signals and allow users to confirm, respond to notifications or receive additional information related to notifications; downloadable computer software for use in threat prevention, detection, investigation, response, remediation and analysis for computers, computer systems, servers, computer networks, endpoints, mobile devices, enterprise of things (EOT) and internet of things (IoT) enabled devices; computer software for managing computer network endpoint security and predicting and monitoring security threats to computer networks; downloadable computer operating system programs; downloadable computer software for performing data security functions in the field of cryptographic network security; downloadable computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications over the Internet and other computer networks; downloadable computer software, namely, encryption software to enable secure transmission of digital information; downloadable computer software to integrate managed security, namely, virtual private network (VPN), public key infrastructure (PKI), digital certificate issuance, verification and management; cloud computing software; downloadable Internet of things (IOT) management software platform consisting of downloadable cloud-based software, mobile and desktop applications, and premise-based gateway agent software, namely, computer software for managing, controlling and securing electronic devices via the Internet; downloadable computer software for asset tracking, namely, computer software for fleet asset tracking in the transportation industry; software to track and manage IP-enabled machines; downloadable computer software to track and manage IP-enabled machines; downloadable software Development Kits (SDKs), Application Programming Interface (API) software, and Enterprise Application Integration (EAI) software for creating software and applications related to machine to machine (M2M) devices, network and Internet connected devices, and IOT devices; downloadable computer software and hardware for fleet asset tracking in the transportation industry; downloadable computer software and hardware to collect, filter and process electronic data, namely, audio, voice, video, images, text, electronic mail and messaging, documents, and vehicle and driver telematics and analytics concerning driver behavior, vehicle diagnostics, maintenance, performance, location, and downtime; downloadable computer software systems for use in dispatch, video monitoring, driver compliance, driver performance, driver scorecards, document management, trailer tracking, asset tracking, vehicle tracking, telematics, fuel economy tracking, driver workflow, integrations with third party software, vehicle utilization, temperature tracking, vehicle inspection reports; mobile phones, smart phones, tablet computers and wireless communication devices for voice, data, or image transmission, namely, smart phones, cell phones, telephones, video phones, computers, and Personal Digital Assistants (PDAs); accessories for mobile phones, smart phones, tablet computers and wireless communication devices, namely, headsets and earphones, phone chargers, battery chargers, mounts, cradles and holders for handsfree phone use, charging and docking stations, cell phone and tablet computer protective cases, protective covers and cases for handheld electronic devices, cell phone holsters, and speakers; downloadable computer software for mobile phones, portable media players, and handheld computers, namely, software for sending digital photos, videos, images, and text to others via the global computer network; computer software in the fields of Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), and mobile Identity and Access Management (IAM), namely software to monitor, manage and secure corporate or personally-owned mobile devices that run across multiple operating systems, namely, smart phones, cell phones, telephones, video phones, computers, and Personal Digital Assistants (PDAs).

Services

Class 38

(1) Providing secure mass notification services through all communication devices, namely, smart phones, cell phones, telephones, video phones, computers, and Personal Digital Assistants (PDAs); providing electronic transmission of data and digital messaging via mobile handheld devices and via wired and wireless communication devices before, during and after critical situations, namely, smart phones, cell phones, telephones, video phones, computers, and Personal Digital Assistants (PDAs) before, during and after critical situations public emergency and mass crisis events relating to natural disasters, severe weather, floods, industrial accidents, transportation systems disasters, mass power outages, fires, terrorist attacks, health hazards, health emergencies and facility intrusions; telecommunications services, namely, electronic transmission of data and digital messaging before, during and after public emergency and mass crisis events relating to natural disasters, severe weather, floods, industrial accidents, transportation systems disasters, mass power outages, fires, terrorist attacks, health hazards, health emergencies and facility intrusions, namely, enabling users and organizations to electronically transmit messages, text, multimedia content, videos, audio, animation and images via personal communication devices, namely, smart phones, cell phones, telephones, video phones, computers, Personal Digital Assistants (PDAs) and public mass communication devices, namely, public broadcast systems, comprising, loudspeakers, television broadcasts, radio broadcast, Internet broadcasts, mass email distribution, telecommunications and global computer networks; providing multiple user access to interactive databases through web sites on a global computer network to manage, administrate and use crisis communication capabilities; providing telecommunication connectivity services for transfer of messages, audio, visual, and data information for crisis communications; secure electronic messaging services, namely, providing services to access, process, and transmit critical, time-sensitive notifications to individuals and organizations; Telecommunication services, namely, data transmission and reception services via telecommunications networks; electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunications networks; instant messaging services; Providing secure electronic message alerts via the Internet, global computer and telecommunications networks

Class 42

(2) Providing temporary use of non-downloadable computer software for measuring, assessing, identifying, detecting, analyzing, preventing, and responding to cybersecurity threats, attacks, risks, and vulnerabilities; providing temporary use of non-downloadable software for artificial intelligence, analytics-based machine learning, and deep learning software, all for the purpose of measuring, detecting, analyzing, preventing and responding to cybersecurity attacks; Design and development of crisis communication systems comprised of computer hardware and software; engineering and systems analysis in the field of crisis communication systems; computer services, namely, providing online system management services that allow users to remotely view, monitor, program, operate and control public emergency and mass crisis events notification hardware and software relating to natural disasters, severe weather, floods, industrial accidents, transportation systems disasters, mass power outages, fires, terrorist attacks, health hazards, health emergencies and facility intrusions; research in the field of crisis communication technology; testing of crisis communication systems comprised of computer software and hardware; cloud computing featuring software for providing notification of public emergency and mass crisis events relating to natural disasters, severe weather, floods, industrial accidents, transportation systems disasters, mass power outages, fires, terrorist attacks, health hazards, health emergencies and facility intrusions via telecommunications and global computer networks; computer services, namely, integration of private and public cloud computing environments for crisis communication,

namely, notification of public emergency and mass crisis events relating to natural disasters, severe weather, floods, industrial accidents, transportation systems disasters, mass power outages, fires, terrorist attacks, health hazards, health emergencies and facility intrusions via telecommunications and global computer networks; computer services, namely, cloud hosting provider services for crisis communication; computer services, namely, installation of computer software for private cloud computing for crisis communication; consulting services in the field of cloud computing for crisis communication, namely, notification of public emergency and mass crisis events relating to natural disasters, severe weather, floods, industrial accidents, transportation systems disasters, mass power outages, fires, terrorist attacks, health hazards, health emergencies and facility intrusions via telecommunications and global computer networks; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, invite other organizations to the community and engage collaboration in the field of security and crisis communication and management; providing temporary use of online non-downloadable software featuring software for use in sending, receiving, confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing temporary use of online non-downloadable software, namely, hosting software for use by others for use in sending, receiving, confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing online non-downloadable computer software for the purposes of data collection, monitoring, and mass notification services for managing emergency and crisis situations and improving crisis communications capability; providing temporary use of on-line non-downloadable computer software for endpoint security, malware analysis, vulnerability testing, penetration testing, and vulnerability assessment; providing temporary use of online non-downloadable software for use in threat prevention, detection, investigation, response, remediation and analysis for computers, computer systems, servers, computer networks, endpoints, mobile devices, and internet of things (IoT) enabled devices; providing temporary use of online non-downloadable software for predicting and monitoring security threats to computer networks; providing temporary use of online non-downloadable software for preventing unauthorized access to computers and computer networks; providing temporary use of online non-downloadable software for data analytics; Design, development and maintenance of online computer software systems and software for operation and control of autonomous-driving vehicles; providing temporary use of online non-downloadable software for operation and control of autonomous-driving vehicles; Providing temporary use of non-downloadable software applications and software development tools and platform as a services (PAAS) featuring computer software platforms that enable software developers to program and users to build and configure software applications that work in conjunction with such non-downloadable software applications and platforms to transfer, share, format, manipulate and integrate data, information and such developer software applications working in conjunction with and between such non-downloadable software applications and platforms and third party services; providing temporary use of online non-downloadable software featuring computer software in the field of electronic file security to allow users to encrypt, electronically watermark, provide restricted access to, and provide secure transmission and tracking of electronic documents and other electronic and digital files; platform as a services (PAAS) featuring computer software platforms for creating, managing, and deploying cloud computing infrastructure services; Design and development of on-line computer software systems, computer hardware and computer software; Technical support services, namely, installation, administration, and troubleshooting of web and database applications; Providing temporary use of non-downloadable software that enable point-to-point communications between machines, sensors and hardware over cellular or wired networks; Providing temporary use of nondownloadable software that communicate data collected from IoT (Internet of Things)

connected devices to gateways, the cloud or middleware platforms; providing machine-to-machine (M2M) and Internet of Things (IoT) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication technology to facilitate M2M and IoT communication via web based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices; providing temporary use of online non-downloadable software applications, software developer kits (SDKs) and software development tools, and platform as a service (PAAS) featuring computer development platforms that enable software developers to design, test, deploy, manage, and monitor internet of things (IoT) and machine-to-machine (m2m) devices; computer software services, namely, development, maintenance, repair, installation, and troubleshooting of computer software problems, support in the nature of diagnosing computer software problems, upgrade and updating computer software, authoring computer software, provision of computer software information, and consultation, design and customization of computer software and middleware; computer security consultancy; technical consulting and assistance with computer-based information systems and components, namely, technical consulting services in the fields of Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), mobile Identity and Access Management (IAM), datacenter architecture, public and private cloud computing solutions, cybersecurity, and evaluation and implementation of internet technology and services; providing a secure website in the nature of a web hosting platform for allowing users and enterprise software applications to interface with remote devices and to allow connectivity, memory storage, device management, device monitoring, device tracking, and device auditing, all via a computer network; providing temporary use of on-line non-downloadable software allowing users and enterprise software applications to interface with remote devices and to allow connectivity, memory storage, device management, device monitoring, device tracking, and device auditing, all via a computer network; providing temporary use of online non-downloadable software featuring software for Enterprise Mobility Management (EMM), Unified Endpoint Management (UEM), Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), and mobile Identity and Access Management (IAM); providing temporary use of online non-downloadable software for use in the operation, management, security and maintenance of enterprise networks and data centers

Colour Claim

Colour is claimed as a feature of the trademark. The colors purple, black, red, yellow, blue, and white are claimed as a feature of the mark. The mark consists of a purple oval border within which are the words "EASTERN JUNGLE GYM INC." in stylized lettering, with "ASTERN JUNGLE GYM INC." all in black. The first letter "E" of "EASTERN" is outlined in black and comprised of red, yellow and blue top to bottom horizontal sections. There is a horizontal blue rectangle bordered in black underlining "ASTERN JUNGLE GYM INC." To the right of the wording is a stylized representation in three vertical segments of the east coast region of the United States, outlined in black with the top section in red, the middle section in yellow, and the bottom section in blue. The background within the oval is white.

Goods

Class 28

Playground equipment, namely, climbing units, namely climbing ramps and climbing walls, slides, swingsets, sandboxes, gymnastics rings, gymnastics apparatus in the nature of trapeze bars, swings, toy steering wheels, toy telescopes, ramp walkways being parts of jungle gyms, play tents, play fireman's sliding poles, monkey bars, climbing units incorporating ropes namely climbing ramps and climbing walls, toy clubhouses, tic tac toe game, climbing units in the nature of bubble climbing walls, see saws, crawl tubes, and grab handles, namely holds for artificial climbing walls.

Services

Class 35

Wholesale store services, retail store services, online wholesale store services, and retail store services, all featuring playground equipment and playground equipment in the nature of play structures comprised of climbing units, playground slides, swingsets, sandboxes, gymnastics rings, gymnastics apparatus in the nature of trapeze bars, swings in the nature of horse gliders, toy

steering wheels, toy telescopes, toy gang planks, play tents, play fire poles, monkey bars, climbing units incorporating ropes, toy clubhouses, tic tac toe game panels, climbing units in the nature of bubble walls, see saws, crawl tubes, and grab handles.

(1) Electronic databases stored on computer media containing data in the fields of health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality and ambient noise during sleep; information display terminals, namely display screens; oxygen monitors, not for medical purposes; monitoring apparatus other than for medical use, namely multifunctional sleep monitors for displaying, measuring, and uploading user sleep information, namely motion, position, breathing, heart rate, quality of sleep, hours slept, and heart and breathing issues to the Internet; atmospheric oxygen monitors; wireless electronic apparatus for the transmission of sound, images and data, namely smart phones, smart watches, electronic tablets and personal digital assistants; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely apparatus for measuring and monitoring calorie consumption and expenditure (calorimeters); speed indicators; digital thermometers, other than for medical use; personal electronic devices, namely electronic computers for displaying, measuring, recording, organizing, manipulating, analyzing and receiving data related to physical activity, namely to weight, body fat, heart rate, muscle mass, bone mass, body water percentage, blood pressure, quality of sleep, stress levels in the body and ambient air quality, weather reports and forecasts in the form of text and images; sensors and receivers used for the detection, storage, processing of electronic data originating from a sensor that records data associated with sleep activity, namely data related to health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality and ambient noise during sleep; audio and video apparatus for monitoring babies; electric and electronic sensors used for detecting, measuring, processing, gathering, recording and transmitting data related to wellness, sleep cycles, respiration rate, heart rate, limb movements and activity during sleep; electric and electronic sensors used for detecting, measuring, processing, gathering, recording and transmitting variables related to the environment, namely temperature, air quality and light, as well as ambient noise during sleep; computer software applications for portable devices used for recording, organizing, transmitting, receiving and analyzing texts, data, images and audio files related to health, sleep and wellness; software, namely downloadable computer software for receiving, processing, analyzing,

transmitting and displaying user sleep information, namely motion, position, breathing, heart rate, breathing, quality of sleep, hours slept, and heart and breathing issues, software for environmental monitoring of user sleep environments in relation to ambient temperature and noise; computer software applications for portable devices, namely smart phones, smart watches, electronic tablets and personal digital assistants, allowing access to data related to sleep, namely movement, position, breathing, heart rate, breathing, quality of sleep, hours slept, and heart and breathing issues, as well as environmental variables, namely temperature, air quality and ambient noise; computer software and software applications for portable apparatus used for the collection and analysis of variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; USB cables; apparatus for measuring and checking calorie intake and expenditure (calorimeters); watches and bracelets (jewellery) equipped with data monitoring and reporting functions related to health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality, and ambient noise during sleep; watches and bracelets (jewellery) for transmitting data to personal digital assistants, smart phones, portable devices and personal computers via sensors, online Internet sites and other computer-based and electronic communications networks.

Class 10

(2) Medical apparatus and instruments, namely sensors for medical use to collect data on user sleep, namely on movement, position, breathing, heart rate, breathing, quality of sleep, hours slept and heart and breathing issues; medical apparatus and instruments for the detection of obstructive sleep apnea; health monitoring and checking apparatus, namely arterial blood pressure and heart rate measuring apparatus, thermometers; medical analysis apparatus, namely user sleep analysis devices, namely for the analysis of motion, position, breathing, heart rate, quality of sleep, hours slept and heart and breathing issues; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely pulse measuring devices, heart rate measuring apparatus, health monitoring apparatus namely medical thermometers, fever thermometers, pulsometers, health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, body mass indicators and human body fat monitors; ultrasonic sensors for medical use; temperature sensing apparatus for medical use; medical imaging apparatus, namely magnetic resonance imaging [MRI] apparatus for medical use, medical imaging processors; ultrasonic medical diagnostic apparatus; low-frequency electromagnetic therapy apparatus; electronic nerve stimulators for medical use; high-frequency electromagnetic therapy apparatus; apparatus for analyzing brain wave frequency; medical ultrasound apparatus; ultrasonic body scanning devices for medical use; electro-medical apparatus and their parts, in particular electronic apparatus for electrical tissue and nerve stimulation, such as stimulators; brain pacemakers; electronic stimulator for medical use, namely pacemakers; electrocardiogram [ECG] recorders.

Services

Class 35

(1) Collection and systematization of information into computer databases; compilation of statistical data related to medical research in the fields of health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality, and ambient noise during sleep; compilation of statistical data for scientific research; database management; updating and maintenance of data in computer databases; data processing verification in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; management and compilation of computer databases; data processing services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air

quality and light, as well as ambient noise during sleep; data search in computer files for others; consultant services for data processing; data retrieval services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 41

(2) Advisory services related to fitness; information services related to fitness; training services related to fitness; organization and conduct of colloquia, conferences and conventions in the fields of health, wellness, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; training seminars in the fields of health, wellness, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 42

(3) Software as a service [SaaS] for the tracking and recording of data in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, as well as for the tracking and recording of environment variables, namely temperature, air quality and light, as well as ambient noise during sleep; biological analysis; ratings, estimates and scientific and technological research performed by engineers in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design and development of software in the fields of health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality, and ambient noise during sleep; research and development of new products for others; technical project studies in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; development, design, installation, maintenance, updating and rental of computer software in the fields of health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality, and ambient noise during sleep; computer programming; conversion of data or documents from physical to electronic media; data mining services; computer-assisted scientific research services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; computer-assisted scientific analysis services in the fields of health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality, and ambient noise during sleep; scientific studies services in the fields of health, wellness, sleep, breathing, heart rate, environmental variables, namely temperature and air quality, and ambient noise during sleep; scientific advisory services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; provision of scientific and technological information in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific testing services, namely medical diagnostic tests in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

Class 44

(4) Medical services, namely medical care and analysis services relating to patient treatment, medical examination services, treatment of sleep apnea disorders; medical and behavioral analysis for the diagnosis and treatment of individuals; conduct of sleep studies for medical diagnosis and treatment purposes; medical assistance, namely emergency medical assistance; advice in the medical field related to stress, sleep, breathing, heart rate; provision of medical

information in the fields of sleep, breathing, heart rate; medical information collection services, namely collection of environmental data, namely temperature, air quality and light as well as quality of sleep; medical diagnostic services; biorhythm advisory services; advice related to health provided under medical supervision, namely advice related to sleep, counselling in the medical field relating to stress; health assessments.

Class 09

(1) Apparatus for recording of sound namely sound amplifiers, apparatus for recording of images namely digital video cameras, apparatus for transmission of images namely video processors, apparatus for reproduction of images namely image scanners; installations and apparatus for controlling, measuring, regulating, weighing, measuring physical quantities, for metallurgical and iron and steel installations namely for valves, slide valves, slide valves and machines and apparatus for controlling gas flow rate namely gas flow monitors; pressure probes; pressure indicators; pressure measuring apparatus namely pressure indicators; electronic sensors namely electronic sensors for controlling monitoring and managing systems of blast furnace installations and smelters, gas flow sensors; electrical and electronic installations namely sensors, cameras, probes and data transmitters for remote control of industrial operations namely, blast furnace and smelters installations processes, and especially for valves, slide valves, slide valves and machines and apparatus for controlling gas flow rate namely computer hardware and downloadable software for remote control of blast furnace installations and smelters and gas flow rate in connection therewith; gas testing instruments; downloadable software for monitoring blast furnace processes in order to measure and optimize them; gas flow and pressure monitors; installations and apparatus namely sensors and software for controlling, monitoring, measuring, regulating, weighing, electronic metering for tapping equipment in blast furnace installations and for metallurgical and iron and steel installations; profilometers namely optical profilers for the iron and steel industry, the ferrous and non-ferrous metallurgical industry; probing installations namely probes for testing operation systems of blast furnace and smelter installations; gas probes; video cameras; optical apparatus and instruments namely cameras used in connection with monitoring blast furnace and smelter installations; apparatus and instruments for measuring physical parameters namely temperature sensors, pressure sensors and sensors for determining humidity, and for chemical analyses; computer hardware for controlling, regulating, simulating, viewing and monitoring parameters of industrial installations, environmental protection installations, energy production, distribution and transmission installations, machines and components thereof; downloadable computer programs for controlling, regulating, viewing and monitoring smelting and

iron-making processes in industrial installations, in environmental engineering installations, power plants and machines and components thereof; downloadable computer programs for simulating and viewing industrial installations in metallurgical installations, environmental engineering installations, power plants, machines and apparatus; optical fibers [fibres]; optical data media namely discs, diskettes and cards; transmitters of electronic signals namely transmitters of industrial data obtained during operation of blast furnace and smelter installations; optical lenses; chips (integrated circuits); printed circuits; integrated circuits; interfaces for computers; electric and electronic temperature sensors, pressure sensors and sensors for determining humidity, and sensors for chemical analyses for use with blast furnace installations and smelters; detectors namely electronic ultrasound flaw detectors for the iron and steel industry, and the ferrous and non-ferrous metallurgical industry; pressure sensors; heat sensors; recorded computer software for managing, monitoring and controlling operation systems of smelters and blast furnace installations; recorded programs for threedimensional image recognition and processing; radar apparatus; electronic notice boards; water level, gradient, electrical loss, quantity, temperature and speed indicators; downloadable software for controlling industrial operations, namely, blast furnace and smelters installations processes; downloadable software monitoring, improving, managing and operating industrial blast furnace and smelter installations; downloadable software for data acquisition, data organization, data storage, data validation for blast furnace and smelter installations; downloadable software for establishing reports, managing and follow up of industrial processes namely for blast furnace and smelter installations; downloadable software for machine learning in the field of industrial operations, blast furnaces monitoring and controlling, namely industrial processes modelling automatic learning, predictive maintenance automatic learning, process forecast automatic learning and process optimization automatic learning; data loggers namely autonomous data recorder monitoring, measuring and recording real-time data for blast furnace installations and for metallurgical and iron and steel installations; downloadable computer programs for industrial data processing for blast furnace and smelter installations; industrial data communications equipment namely computers and data transmitters for use in data management, communications computers for blast furnace and smelter installations; industrial data processing apparatus namely computer central processing units; downloadable industrial data processing software for blast furnace and smelter installations; industrial data processing systems namely computer hardware; hardware for industrial data processing namely computer hardware, sensors and data transmitters for use in data management, communications computers for blast furnace and smelter installations; computer chipsets for use in transmitting data to and from a central processing unit; computers for use in data management in connection with industrial installations for blast furnace and smelter installations; downloadable software for the analysis of industrial data for blast furnace and smelter installations; intelligent gateway routers for real-time industrial data analysis; electronic sensors for real time industrial data input apparatus namely for blast furnace and smelter installations; electronic sensors for real time industrial data output apparatus namely for blast furnace and smelter installations; database management software for controlling, monitoring and improving industrial operations; regulating and safety accessories for water and gas apparatus and pipes namely safety lights, luminous safety beacons, safety valves for gas flow monitors, pressure gauges for gas installations

Class 11

(2) Induction heated casting furnaces; blast furnaces; industrial ovens; diffusion kilns for industrial purposes; electric furnaces for industrial purposes; heating furnaces for industrial purposes; launders for trapping impurities in molten metal; underfloor heating apparatus and installations; loading apparatus for furnaces; air filters for industrial use; heat regenerators; incineration systems; gas desulphurization installations for the ferrous and non-ferrous metals industry

Services**Class 37**

(1) Repair of steelmaking machines and apparatus; maintenance of steelmaking machines and apparatus; providing information relating to the repair and maintenance of steelmaking machines and apparatus; provision of information relating to the repair and maintenance of waste crushing machines and apparatus; steelmaking machines and apparatus installation and repair; furnace rebricking and rebuilding; installation of industrial furnaces; repair of industrial furnaces; repair and maintenance of industrial furnaces; installation and repair of furnaces and smelters; maintenance, repair and rebuilding of furnaces; providing information relating to the repair and maintenance of furnaces; providing information relating to the repair and maintenance of industrial furnaces; installation of energy-saving apparatus namely sensors and software for controlling temperature, pressure and gas flow; installation, maintenance and repair of apparatus for converting heat into energy in blast furnaces and smelters and wave energy power plants; maintenance and repair of energy generating installations namely electrical generating machinery; installation, construction, maintenance, servicing and repair of energy and power generating apparatus, equipment and installations and of energy supply installations namely electrical systems for industrial furnaces, blast furnaces and smelters

Class 42

(2) Scientific and technological services namely scientific research and design for the iron and steel industry, the ferrous and non-ferrous metallurgical industry, blast furnaces monitoring and controlling; industrial analysis and industrial research services in the iron and steel industry, the ferrous and non-ferrous metal-working industry, blast furnaces monitoring and controlling; design and development of computer hardware and software in the field of industrial operations, blast furnaces monitoring and controlling; maintenance and rental of software for controlling industrial operations, of software for monitoring industrial operations, of software for metallurgical furnace operations; industrial data mining; electronic industrial data storage and data backup services; analysis of technical data for the iron and steel industry, the ferrous and non-ferrous metallurgical industry; computerized industrial data storage; computer programming for industrial data processing; industrial data migration services; decoding of industrial data; off-site industrial data backup; online industrial data storage; recovery of computer data for industrial purposes; creation of industrial data processing programs; development of industrial data processing software; development of industrial data transmission systems; leasing of industrial data processing programs; leasing [rental] of computers for industrial data processing; electronic industrial data back-up services; maintenance of industrial data processing software; rental of computers for industrial data processing; updating of industrial data processing software; computer programming for industrial data processing and communication systems; leasing [rental] of software for importing and managing industrial data; programming of electronic industrial data processing software; conversion of computer programs and industrial data, other than physical conversion; design and development of software for evaluation and calculation of industrial data, manufacturing processing and steelmaking; design and development of software for importing and managing industrial data; design, development, maintenance and updating of computer software for industrial processing, data processing and process control; provision of information and data relating to scientific and technological research and development relating to the metallurgical and steelmaking industry; rental of decentralized cloud storage facilities for containerized data centers of others; computer database design; hosting computer databases; installation of database software; maintenance of database software; updating of database software; leasing [rental] of computer database software; online non-downloadable software for remote control of blast furnace installations and smelters and gas flow rate in connection therewith, online non-downloadable

software for data acquisition, data organization, data storage, data validation for blast furnace and smelter installations, online non-downloadable software for establishing reports, managing and follow up of industrial processes namely for blast furnace and smelter installations, providing online non-downloadable computer programs for controlling, regulating, viewing and monitoring smelting and ironmaking processes in industrial installations, in environmental engineering installations, power plants and machines and components thereof, providing online non-downloadable computer programs for simulating and viewing industrial installations in metallurgical installations, environmental engineering installations, power plants, machines and apparatus, providing online non-downloadable software for machine learning in the field of industrial operations, blast furnaces monitoring and controlling, namely industrial processes modelling automatic learning, predictive maintenance automatic learning, process forecast automatic learning and process optimization automatic learning, online non-downloadable computer programs for industrial data processing for blast furnace and smelter installations, online non-downloadable industrial data processing software for blast furnace and smelter installations, online non-downloadable software for the analysis of industrial data for blast furnace and smelter installations

Visual Representation

The logo features the name 'Yung Bae' in a bold, stylized, black font. The letters are thick and have a slightly irregular, hand-drawn appearance. The 'Y' and 'B' are particularly large and prominent, with the 'u' and 'a' being smaller and more rounded. The 'g' and 'e' are also stylized, with the 'g' having a small loop at the end and the 'e' being a simple, rounded shape. The overall effect is a strong, memorable brand mark.

The services are performed by persons who have met the following requirements: (1) Must successfully complete all educational requirements of the Registered Retirement Analyst Course, including all formal course assessments and a final course examination. The Course is divided into ten units, with each unit covering a broad topic area relating primarily to investments or financial planning. The Course concludes with a formal assessment. To successfully complete the educational requirements of the Course, the person must complete all ten end-of unit formal assessments and pass a final course examination, with a minimum grade of 60%. A final course grade of 60% is required for the Course, based on a weighting of 30% for the end-of unit formal assessments and 70% for the final course examination. (2) Must successfully complete the educational requirement of creating a financial and retirement plan based on a case study. (3) Must complete a minimum of 8 continuing education activities or credits approved by the applicant on an annual basis. An eligible continuing education activity must be educational in nature and must cover concepts directly related to retirement planning, estate planning and/or financial planning in general, and may include courses preapproved by the applicant or alternate continuing education activities such as credit courses offered through a university, community college or other approved post-secondary educational institute, in house training, conferences, teaching, presenting, writing and/or editing papers, and other activities that are educational in nature and that relate specifically to retirement planning, estate planning or financial planning; and (4) Must adhere to the applicant's Code of Conduct and Practice Standards, and the terms and conditions of the applicant's License Agreement. Copies of the Code of Conduct, Practice Standards, and License Agreement are attached. The aforesaid standards are subject to change by the applicant from time to time.

Class 11

(2) hot water heating installations, namely, boilers, air-to-water (ATW) heat pumps and their structural parts and fittings; hot-air space heaters for household and industrial use; heating boilers; air purifiers for household purposes; commercial air purifiers; air ionizers and water ionizers for commercial and household use; air deodorizers; air conditioners and their structural parts and fittings; air conditioning installations and their structural parts and fittings for household and industrial purposes; filters for air conditioning; air coolers; dehumidifiers; underfloor heating installations; electric air deodorizers; heat exchangers, other than parts of machines; electric space cooling apparatus for household purposes; beverage cooling machines; cooling apparatus in

nature of wearable water-cooling system comprised of heat sinks, radiator and fan used to cool water; electric cooling apparatus for personal use in nature of wearable water-cooling system comprised of heat sinks, radiator and fan used to cool water; small-sized air conditioners; portable air conditioners; air conditioners for industrial purposes; kitchen sinks for industrial purposes; household electrothermic appliances, namely, air conditioners for household use, air conditioning installations for household use, air coolers for household use, electric air deodorizers for household use and dehumidifiers for household use; warming pans, non-electric; pocket warmers; hot water bottles

Services

Class 35

(1) providing information concerning commercial sales of air conditioners; collection, systematization, compilation and analysis of business data and information, namely, user operation information and air quality conditions in heating, ventilation and air conditioning (HVAC) systems, the foregoing stored in computer databases; database management; analysis of market research data; marketing research; marketing analysis; the collection of operational data logs for the purposes of identifying and performing equipment maintenance in the event of HVAC equipment malfunction

Class 37

(2) repair, maintenance and cleaning of air conditioners; installation of air conditioners; advisory services relating to the installation of air conditioners; repair or maintenance of consumer electric appliances; installation of consumer electric appliances; advisory services relating to the installation of consumer electric appliances

Class 40

(3) rental of air-conditioning apparatus; rental of humidifier for industrial purposes; rental of air purifiers for industrial purposes; rental of air conditioners for industrial purposes; air purification; air freshening; air deodorizing

Class 41

(4) educational and instruction services relating to repair, maintenance, cleaning and installation of air conditioners; arranging, conducting and organization of seminars relating to repair, maintenance, cleaning and installation of air conditioners; organization, production and presentation of events for educational, cultural and entertainment purposes in the field of repair, maintenance, cleaning and installation of air conditioners

Class 42

(5) monitoring of computer systems for air conditioners by remote access; monitoring of computer operational systems by remote access; software as a service [SaaS] services featuring software for controlling air conditioners; software as a service [SaaS] services featuring software for use with, or in relation to, air conditioners and air conditioning systems and technology; maintenance of computer software for air conditioners; maintenance of computer software; electronic storage of operational data logs use in the identification and maintenance of malfunctioning HVAC equipment; technological consulting services, namely, analysis of technological data relating to controlling and operating air conditioners and air conditioning systems and technology; cloud computing featuring software for use in controlling and operating air conditioners and air conditioning systems and technology; design and development of operating software for accessing and using a cloud computing network; design and development of computer software; rental of operating software for accessing and using a cloud computing network; rental of computer hardware and computer software; providing temporary use of on-line non-downloadable operating

software for accessing and using a cloud computing network; providing temporary use of online non-downloadable software for controlling temperature, humidity, air flow and lightness in a household; design of machines, apparatus and instruments, namely, heating, ventilation and air conditioning systems and air conditioning (HVAC) controllers that enable the monitoring, control and operation of the HVAC systems remotely; the calibration of machines, apparatus and instruments, namely, heating, ventilation and air conditioning (HVAC) systems and HVAC controllers that enable the monitoring, control and operation of HVAC systems remotely; mechanical research in the field of heating, ventilation and air conditioning (HVAC) systems and HVAC controllers that enable the monitoring, control and operation of HVAC systems remotely

Hand-held exhaust emissions testers; portable test equipment, namely, electrochemical temperature, timing and pressure sensors; infra-red cameras; graduation checkers for calibration purposes; scientific, electrical and electronic apparatus and portable testing instruments being gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, all for testing, calibration of test equipment, displaying and printing results, monitoring, recording, indicating, data logging, analysing, sensing, detecting, measuring, checking, metering of electricity, electrical and electronic circuits, ambient gases, exhaust gases, environmental gas, exhaust emissions, combustion efficiency, environmental parameters, air quality; combustion probes, namely, combustion efficiency analysers and combustion testing probes; portable flue gas analysers; single-gas pocket analysers; portable multi-gas data logging meters for semi-continuous monitoring; electrical data and energy consumption meters for monitoring domestic and industrial heating and ventilation installations and services; automotive emissions analysers; portable exhaust gas analysers; air quality monitors; gas leak alarms; gas leak detectors; hazardous gas detectors being carbon dioxide detectors, carbon monoxide detectors and warning instruments being carbon dioxide alarms, carbon monoxide alarms, gas leak alarms; hazardous gas detectors being carbon dioxide detectors and carbon monoxide detectors for detecting the presence of gases; hazardous gas detectors being carbon dioxide detectors, carbon monoxide detectors for detecting the presence of gases and containing warning instruments being carbon dioxide alarms, carbon monoxide alarms, gas leak alarms that produces audible tone when preset concentrations of gases are detected and exceeded; electronic and electrical test meters, namely, digital multimeters, clamp meters, and voltage testers; electronic and electrical test meters in the nature of meters for detecting and measuring electrical currents; pressure meters; infra-red thermometers; multimeters; computer software and computer hardware

and downloadable mobile applications for the management, operation and control of gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, all for testing, calibration, displaying and printing results, monitoring, recording, indicating, analysing, sensing, detecting, measuring, checking, metering of electricity, electrical and electronic circuits, ambient gases, exhaust gases, exhaust emissions, combustion efficiency, and environmental parameters, combustion efficiency analysers and combustion testing probes to measure stack temperature, flue pressure and gas levels in order to calculate the efficiency of boilers, heaters and furnaces, automotive emissions analysers being gas analysers and diesel smoke meters, room air quality monitors, hazardous gas detectors being carbon dioxide detectors, carbon monoxide and warning instruments being carbon dioxide alarms, carbon monoxide alarms, gas leak alarms, digital multimeters, clamp meters, voltage testers, all being electronic and electrical test meters; computer hardware and software for parallel processing, digital signal processing, image processing, for the management, operation and control of video surveillance equipment and instruments, security and access control equipment and instruments; optical scanners and thermal imaging cameras; parts and fittings for all of the aforesaid goods

Services

Class 37

(1) Installation, repair and maintenance services for scientific, electrical and electronic apparatus and instruments, namely, combustion efficiency analysers, flue gas analysers, combustion testing equipment, automotive emissions analysers, exhaust gas analysers, air quality monitors, hazardous gas detectors and warning instruments, electronic and electrical test meters, electronic and electrical test meters for detecting and measuring electrical currents; installation, maintenance and repair of computer hardware, image processing, video surveillance, security and access control equipment, and optical scanners and thermal imaging cameras; information, consultancy and advisory services for all of the aforesaid services

Class 42

(2) Testing the scientific, electrical and electronic apparatus and instruments, combustion efficiency analysers, combustion testing equipment, automotive emissions analysers, air quality monitors, hazardous gas detectors and warning instruments, and electronic and electrical test meters of others to determine conformity with certification standards, product quality, and product safety; conformance testing, quality testing, and safety testing to determine conformity with certification standards of scientific, electrical and electronic apparatus and instruments being gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, all for testing, calibration, displaying and printing results, monitoring, recording, indicating, analysing, sensing, detecting, measuring, checking, metering of electricity, electrical and electronic circuits, ambient gases, exhaust gases, exhaust emissions, combustion efficiency, and environmental parameters, combustion efficiency analysers, combustion testing equipment, automotive emissions analysers, air quality monitors, hazardous gas detectors and warning instruments, electronic and electrical test meters, namely, meters for detecting and measuring electrical currents; conformance testing, quality testing, and safety testing to determine conformity with certification standards for electronic and electrical test meters of others, namely, meters for

detecting and measuring electrical currents; calibration services namely calibration of electronic equipment and industrial temperature, alarm, detector, pressure and measurement sensors and controllers; software research, testing, creation, design, development, implementation, programming, customisation, updating, repair and maintenance; hosting computer databases and computer websites, software as a service featuring software for the management, control and operation of gas and emission analysers, gas emission detectors, room air flow measuring instruments, air flow meters, flue draft pressure meters, gas pressure meters, gas to air ratio meters, refrigerant gas leak detectors, thermal imaging cameras for temperature measurement, differential thermometers, pocket temperature thermometers, infrared thermometers, combustion smoke probes, flue gas and pressure probes, all for testing, calibration, displaying and printing results, monitoring, recording, indicating, analysing, sensing, detecting, measuring, checking, metering of electricity, electrical and electronic circuits, ambient gases, exhaust gases, exhaust emissions, combustion efficiency, and environmental parameters, combustion efficiency analysers and combustion testing probes to measure stack temperature, flue pressure and gas levels in order to calculate the efficiency of boilers, heaters and furnaces, automotive emissions analysers being gas analysers and diesel smoke meters, room air quality monitors, hazardous gas detectors being carbon dioxide detectors, carbon monoxide and warning instruments being carbon dioxide alarms, carbon monoxide alarms, gas leak alarms, digital multimeters, clamp meters, voltage testers, all being electronic and electrical test meters; rental of software for importing and managing data; computer software information, advisory and consultancy services, computer hardware and software design and updating services; computer programming; rental and leasing of computer hardware and software; information, consultancy and advisory services for all of the aforesaid services

The logo for Coforge features the word "Coforge" in a sans-serif font. The letter "C" is orange, and the letter "o" is split vertically, with the left half being orange and the right half being blue. The letters "forge" are entirely blue.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of word Coforge wherein the letter C and half of the letter 'o' are depicted in the color orange and the other half of the letter 'o' and the letters 'forge' are depicted in the color blue.

Goods

Class 09

(1) Software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; application software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; downloadable computer software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; data processing equipment apparatus, programs and systems for office administration, electronic

data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; computer operating programs; computer software platforms for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; mobile software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; software and applications for mobile devices for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; cloud software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; web application software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; computer software for use in automating and managing business processes for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; software for robotic process automation for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; software for the analysis of business data for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores

featuring consumer goods; cloud computing software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; cloud servers; downloadable cloud-based software for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods; computer software for the development and deployment of machine learning for office administration, electronic data processing, business management, systems management, information technology and telecommunications for governments, insurance companies, financial institutions, manufacturers, retailers, the healthcare sector, media companies and utilities, life sciences companies, oil and gas companies, high technology, banking and financial companies, companies in the field of transportation and hospitality, retail stores featuring consumer goods

Class 16

(2) Books; printed publications being books, magazines, brochures, leaflets, pamphlets, and journals; brochures; leaflets; pamphlets; paper stationery, writing stationery; printed instructional & teaching manuals, in the field of computer sciences on the topics of database management, digital process automation, artificial intelligence, Big data and insights, business process services, cloud network services, cyber security services and infrastructure as a service management services; computer printouts, namely, digital printing paper; computer programs in printed form, namely, blank paper computer tapes for recording programs; instruction manuals; printed advertisements, namely printing advertising signs of paper; pictures; graphic art reproductions; paper transparencies; written matters, namely, calendars;

Services

Class 35

(1) Business management consultancy services; business strategy development consultancy services; automated data processing in the field database management, digital process automation, artificial intelligence, Big data and insights, business process services, cloud network services, cyber security services and infrastructure as a service management services; data processing consultancy; providing business data analysis services in the field of inventory management and control, database management, digital process automation, artificial intelligence, Big data and insights, business process services, cloud network services, cyber security services and infrastructure as a service management services; office functions, namely, computerized office management; business management; business process management; business management services for automated computer or software-aided computer; commercial assistance relating to system integration; advertising the goods and services of others; marketing, namely, analysis of market research data and statistics

Class 36

(2) Insurance services; financial affairs management; monetary affairs, namely, acquisition and transfer of monetary claims; financial risk management advisory and consultancy services;

insurance risk management advisory and consultancy services; analysis of financial risk management information relating to cyber analytics, and cyber security; analysis of insurance information relating to cyber analytics, cyber security and financial risk.

Class 41

(3) Education and training namely, providing education and training online and offline, correspondence, instruction services, teaching, tuition, computer-based simulation training services in the field of business management; training in the design and development of cloud computing software; teaching and training services in the fields of business management, inventory management and control, database management, digital process automation, artificial intelligence, Big data and insights, business process services, cloud network services, cyber security services and infrastructure as a service management services;

Class 42

(4) Computer software design; computer software consultancy; maintenance of computer software; development of computer software; computer programming; software as a service [saas] providing software for cloud Network Attached Storage facilities for use with a datastore for the general storage of data for others; software as a service (Saas) providing software for robotic process automation in the field of manufacturing machine operations; Software as a Service (Saas) providing software for computer factory automation software to integrate manufacturing machine operations, track problems and generate production reports; Software as a Service (Saas) providing software to automate the use of third-party computer systems and computer network software; Software as a service (saas) services namely, hosting online web facilities for others containing software operating a digital experience platform; platform as a service (paas) featuring computer software platforms for use by others to enable users and systems to collaborate on data across applications as a digital experience platform; developing platform-as-a-service (PaaS) infrastructure for searching structured and unstructured data in the field of data analytics; platform as a service [paas] featuring computer software platforms for use in the evaluation and analysis of data utilizing machine learning; platform as a service [paas] featuring computer software platforms for the development and deployment of machine learning programs used in computer intrusion networks detection programs; platform as a service [paas] featuring computer software platforms for robotic process automation in the field of manufacturing machine operations; platform as a service [paas] featuring computer software platforms for computer factory automation software to integrate manufacturing machine operations, track problems and generate production reports; platform as a service [paas] featuring computer software platforms for the integration of artificial intelligence and machine learning in the field of Big Data; platform as a service [paas] featuring computer software platforms for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer software technical support services; application service provider (ASP) services featuring the hosting of computer software applications for others; repair of computer software; testing of computer software; advisory services in the field of designing, selecting and using computer software; consultancy in the field of office and workplace automation; information technology services, namely, design and development of computer software, computer hardware and computer networks provided on an outsourcing basis; analysis of technical data namely, computer security threat analysis for protecting data and industrial data mining analysis and research services; data mining services; scientific analysis of new product development; scientific research and analysis of new product development; testing of computer programs; testing services for the certification of quality or standards, namely, testing of computer software; computer performance testing in the fields of computer software development and for testing of computing methods, and algorithms; cloud computing, namely, providing cloud storage facilities for use as a data center for others; cloud computing consultancy for providing cloud

storage facilities for use as a data center for others; consultancy in the field of cloud computing networks and applications for use in the evaluation and analysis of data utilizing machine learning, for the development and deployment of machine learning programs, for robotic process automation in the field of manufacturing machine operations, for computer factory automation software to integrate manufacturing machine operations and track problems, for the integration of artificial intelligence and machine learning in the field of Big Data, or use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer security consultancy services for cloud computing; providing scientific and technological research and design services in the field of non-downloadable computer software for use in testing in the field of deep learning; providing quality control for the computer software development industry; authentication services for computer security and for providing user authentication services using single sign-on of online software applications

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the stylized term HARNeSSLIFE, with HARN and SS in dark blue and E and LIFE in light blue. There is a light blue horizontal line over the first S.

Goods

Class 09

Quality control and testing devices, namely electronic control systems for aircraft engine parts, namely turbines, valves, AC and DC generators, generator control units (GCUs), harnesses and ram air turbines (RATs) for aircraft; test benches for aircraft engines, air turbines for aircraft and machinery thrusters for aircraft; apparatus for recording, transmitting, reproducing sound and images for, and relating to, the following industries: aviation, defence and space, namely transceivers, touch screens, video display terminals; on-board and off-board electronic systems and equipment, namely computer hardware and downloadable and recorded software for acquiring and processing critical system data and system data related to electricity, sensors, regulators, converters, transformers, calculators for, and relating to, the following industries: aviation, defence and space; monitoring systems consisting of computer hardware and software for assessing the safety, performance, and maintenance and servicing requirements of aircraft systems, modules and parts; electronic databases containing information related to aircraft systems, modules and parts, the operation, repair, overhaul, servicing, maintenance and refurbishment thereof.

Services

Class 37

(1) Repair, overhaul, refurbishment, adaptation, modification, servicing and maintenance of aeronautical vehicles and the systems, modules and constituent parts thereof, namely fuselages,

wings, steel masts and horizontal stabilizers, cabins, galleys, fibre optic cables, turbines, valves, AC and DC generators, generator control units (GCUs), harnesses and ram air turbines (RATs) for aircraft; technical support service, namely provision of technical advice in the field of the servicing and maintenance of electrical instruments, installations, equipment and apparatus, namely position sensors, speed governors for machines, engines and motors, current converters, electrical transformers; construction of industrial buildings and installation of test benches for aeronautical vehicle systems, modules and parts, namely for engine propulsion units for, and relating to, the following industries: aviation, defence and space; provision of aircraft construction, repair and maintenance information for aeronautical vehicles and the systems, modules and constituent parts thereof, namely, airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware; provision of technical support and advice in the fields of the repair, overhaul, servicing, standardization, maintenance of aeronautical vehicle systems, modules and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware.

Class 39

(2) Rental services for aeronautical vehicle systems, modules, equipment and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware; transport, collection and delivery of aeronautical vehicle systems, modules, equipment and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware.

Class 41

(3) Education and training, organization and conduct of internships and seminars in the fields of the repair, overhaul and operation of aeronautical vehicle systems, modules, equipment and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware; publishing of books, journals, newspapers, periodicals, publications in electronic format and printed matter in electronic form; provision of information relating to training services and the provision thereof via an interactive website in the fields of aviation, defence and space.

Class 42

(4) Materials testing; test bench services for aircraft systems, modules and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware; analysis, design and planning of technical projects in the fields of aviation, defence and space; technical, scientific and industrial research in the aeronautical industry; technical advisory services in the fields of aviation, defence and space; research and development of new products for others in the aeronautical industry; expert consulting in aerospace engineering; analysis of technical data in the fields of aviation, defence and space; inspection and monitoring services for aircraft systems, modules and parts; research into the quality control and assessment of the performance of rendered services, namely installation, servicing, repair, maintenance of aeronautical vehicle systems, modules, equipment and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence

and space, namely computer hardware; analysis, expertise and processing services for recorded data acquired during the operation of aircraft systems, modules and parts, namely airplane engines, screw propellers, digital batteries, electrical components, namely electrical plugs, electrical equipment for, and relating to, the following industries: aviation, defence and space, namely computer hardware.

Trademark Type

Standard Characters

Goods

Class 07

(1) Machines for gas production; gas filtering machines; machine for the production of biomethane and biofuel using biogas and synthesis gas from renewable sources; apparatus and instruments for the production, treatment, storage, conditioning, distribution and procurement of gas, biogas, biomass, biofuels, photovoltaic solar energy and wind energy, namely wind turbines, machines for the production of gas through the anaerobic digestion of organic waste into biomethane and solar electricity generators; pressure regulators for gas installations.

Class 09

(2) Apparatus and instruments for the control of gas flow, namely gas flow meters.

Class 11

(3) Apparatus and instruments for the production, storage, conditioning and distribution of heat from renewable sources, in the nature of biogas, biomass, biofuels, photovoltaic solar energy, wind energy, namely energy storage facilities, gas generating furnaces, heating installations; heat reclaimers; heat accumulators; heat pumps for energy treatment; combustion installations for biofuels, namely combustion chambers; installations for the combustion of woody sources, namely biomass boilers; gas scrubbers [parts for gas installations]; cooling installations for gas, namely refrigeration unit; gas cleaning and gas purification apparatus, namely scrubbing columns for the purification of gases and gas filtration installations; electrochemical gas generators; gas collection installations, namely gas regulators, blowers, compressors, valves; gas drying devices, namely coolers, heat exchangers; gas purification separators; gas cleaning separators; flue gas cleaning apparatus, namely filters, adsorbents; gas burning installations, namely gas generating furnaces; regulation and safety accessories for gas apparatus and gas pipes, namely pressure regulators, temperature regulators and flow regulators for gas apparatus and gas pipes; waste treatment plants, namely pressure swing adsorption devices (PSA), temperature swing adsorption devices (TSA) and membrane upgrade units; heating apparatus for use in the treatment of waste.

Services

Class 35

(1) Retail and wholesale of the following installations and machines, namely machines for gas production, gas filtering machines, machines for odorizing natural gas, biomethane or any other gas (air, carbon dioxide, dinitrogen, dihydrogen), machine for the production of biomethane and bioNGV (biofuel) using biogas or synthesis gas from renewable sources, apparatus and instruments for the production, treatment, storage, conditioning, distribution and supply of gas, biogas, and any type of energy, including solar, apparatus and instruments for the production, storage, conditioning and distribution of heat from renewable sources (biogas, biomass, biofuels, photovoltaic solar energy, wind energy), heat reclaimers, heat accumulators, heat generators, heat pumps for the treatment of energy, combustion installations for biofuels, installations for the combustion of woody sources, gas scrubbers [parts of gas installations], cooling installations for gas, gas cleaners and purifiers, gas heat generators, gas collection installations, gas drying devices, gas purification separators, gas cleaning separators, flue gas cleaning apparatus, gas burning installations, gas filters [household or industrial installations], regulation and safety accessories for gas apparatus and gas pipes, pressure regulators for gas installations, apparatus and instruments for gas flow control, scrubbing columns for the purification of gases, waste treatment installations, heating apparatus for waste treatment, apparatus and instruments for biogas drying and purification; business consulting services to individuals and businesses, in particular in the field of renewable energies.

Class 39

(4) Rental services for the following installations and machines, namely apparatus and instruments for the storage, distribution and supply of gas, biogas, and any type of energy, including solar, apparatus and instruments for the storage and distribution of heat from renewable sources (biogas, biomass, biofuels, photovoltaic solar energy, wind energy), gas collection installations.

Class 40

(2) Energy generation services, namely for electricity, heat, biofuel, from renewable sources (photovoltaic solar energy, wind energy, biogas, biomass); production of energy in the nature of electricity, heat, biofuel through photovoltaic solar energy installations, wind power installations, waste methanization installations (biogas), installations for the combustion of woody resources (biomass); natural gas processing services; water purification and gas filtration services; treatment services for hazardous gases, dry gases; gas production services; gas compression services; recovery of hydrocarbons from gas; chemical processing services for exhaust gas derived from the burning of fossil fuels; treatment services for soil, waste or water, namely environmental clean-up services; waste recovery services, namely recovery of usable materials from waste combustion residues; waste treatment and recycling services (processing); treatment and recycling of toxic waste; treatment and recycling of hazardous waste; treatment and recycling of industrial effluents and industrial waste; services for the recovery of materials contained in waste; water pollution control services, namely waste treatment services; information and consulting services related to the production of energy, namely electricity, heat, biofuel, from renewable resources (photovoltaic solar energy, wind energy, biogas, biomass); rental services for the following installations and machines, namely machines for gas production, gas filtering machines, machines for the odorization of natural gas, biomethane or any other gas [air, carbon dioxide, dinitrogen, dihydrogen], machines for the production of biomethane and bioNGV [biofuel] using biogas or synthesis gas from renewable sources, apparatus and instruments for the production, treatment and conditioning of gas, biogas, and any type of energy, including solar, apparatus and instruments for the production and conditioning of heat from renewable sources [biogas, biomass, biofuels, photovoltaic solar energy, wind energy], heat reclaimers, heat accumulators, heat

generators, heat pumps for the treatment of energy, combustion installations for biofuels, installations for the combustion of woody sources, gas scrubbers [parts of gas installations], gas cooling installations, gas cleaners and purifiers, gas heat generators, gas drying devices, gas purification separators, gas cleaning separators, flue gas cleaning apparatus, gas burning installations, gas filters [household or industrial installations], regulation and safety accessories for gas apparatus and gas pipes, pressure regulators for gas installations, apparatus and instruments for gas flow control, scrubbing columns for the purification of gases, waste treatment installations, heating apparatus for waste treatment, apparatus and instruments for biogas drying and purification.

Class 41

(3) Education, training and vocational training in the field of renewable energy production and organic waste reclamation; arranging and holding conventions, seminars and conferences related to the production of renewable energies and the reclamation of organic waste; organization of exhibitions for cultural and educational purposes related to the production of renewable energies and the reclamation of organic waste; publication of books, guides, manuals, periodicals; electronic publication of books, guides, manuals and periodicals online.
