Trademarks Journal

Vol. 69 No. 3541

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

electrical and electronic measuring, checking, control and regulating apparatus for elevators, escalators, moving walkways, namely electronic controllers, electric proximity sensors, electric inductive sensors, electric capacitive sensors, electric current sensors, electric voltage sensors, electric load level sensors, infrared sensors, electric ultrasound sensors, electric biometric sensors, electric RFID sensors, electric acoustic sensors, cameras, video cameras, computers, motion detectors, electric light barriers consisting primarily of light emitting diodes (LEDs), photo sensors and safety light curtains, electric signal buzzers, sound alarms, luminous signs, stroboscopic electric warning lights, loudspeakers, computer monitors, video monitors, touchscreen monitors, TV monitors, electronic displays in the nature of thin film transistor-liquid crystal display (TFT-LCD), light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels and plasma display panels and related computer software for monitoring, controlling and regulating the power, movement and functions of elevators, escalators and moving walkways, and for determining the weight load within and the number of users of the aforesaid installations; electrical and electronic control apparatus for elevators with destination call control, namely, signal processors for processing and responding to elevator destination calls; electronic controllers and associated computer software for monitoring, controlling and regulating the operation of the elevators, moving walkways, apparatus and installations for access control, namely electric control panels, touch panels, computer hardware, modems, routers, for providing control over building access and elevator access; electronic controllers and associated computer software for monitoring, controlling and regulating access to ships, buildings, fenced-off grounds, access-restricted areas within buildings and ships, elevators, escalators and moving walkways by reading a chip card, a password, and biometric data, namely fingerprints, hand or iris; electronic controllers for monitoring, controlling and regulating guidance and navigation systems for the orientation and guidance of persons and flow of persons inside, between the outside buildings, access restricted areas within buildings, ships and areas surrounded by a fence and associated computer software for processing the inputs of persons and responding with guidance and navigation information; remote monitoring apparatus consisting primarily of electronic controllers, proximity sensors, inductive sensors, capacitive sensors, current sensors, voltage sensors, load and level sensors, infrared sensors, ultra sound sensors, biometric

sensors, RFID sensors, acoustic sensors, cameras, video cameras, computers, movement detectors, light barriers, electric signal buzzers, siren alarms, luminous signs, stroboscopic electric warning lights, loudspeakers, computer monitors, video monitors, touchscreen monitors, TV monitors, electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels and plasma display panels, all for monitoring the operation of elevators, escalators and moving walkways; remote monitoring apparatus consisting primarily of electronic controllers, proximity sensors, inductive sensors, capacitive sensors, current sensors, voltage sensors, load and level sensors, infrared sensors, ultra sound sensors, biometric sensors, RFID sensors, acoustic sensors, cameras, video cameras, computers, movement detectors, light barriers, electric signal buzzers, siren alarms, luminous signs, stroboscopic electric warning lights, loudspeakers, computer monitors, video monitors, touchscreen monitors, TV monitors, electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels and plasma display panels, all for monitoring the operation of systems for access control, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; remote monitoring apparatus consisting primarily of electronic controllers, proximity sensors, inductive sensors, capacitive sensors, current sensors, voltage sensors, load and level sensors, infrared sensors, ultra sound sensors, biometric sensors, RFID sensors, acoustic sensors, cameras, video cameras, computers, movement detectors, light barriers, electric signal buzzers, siren alarms, luminous signs, stroboscopic electric warning lights, loudspeakers, computer monitors, video monitors, touchscreen monitors, TV monitors, electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels and plasma display panels, all for monitoring the operation of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; remote monitoring apparatus consisting of video monitors, electrical controllers cameras, distance sensors, infrared sensors, LED position sensors, optical sensors, proximity sensors, temperature sensors, timing sensors, motion sensors, and light barriers and infrared sensors for monitoring human activity in elevators, ships, buildings and public facilities, namely, airports, train stations, subway stations, bus stations, pedestrian underpasses, parks, theatres, cinema facilities, convention hall facilities, sports arena facilities; remote monitoring apparatus consisting primarily of electronic controllers, proximity sensors, inductive sensors, capacitive sensors, current sensors, voltage sensors, load and level sensors, infrared sensors, ultra sound sensors, biometric sensors, RFID sensors, acoustic sensors, cameras, video cameras, computers, movement detectors, light barriers, electric signal buzzers, siren alarms, luminous signs, stroboscopic electric warning lights, loudspeakers, computer monitors, video monitors, touchscreen monitors, TV monitors, electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels and plasma display panels, all for the control of elevators, escalators, and moving walkways as well as access to elevators, escalators and moving walkways and access to buildings, boats, areas surrounded by a fence and restricted areas within buildings and boats; remote control apparatus consisting primarily of electronic controllers, proximity sensors, inductive sensors, capacitive sensors, current sensors, voltage sensors, load and level sensors, infrared sensors, ultra sound sensors, biometric sensors, RFID sensors, acoustic sensors, cameras, video cameras, computers, movement detectors, light barriers, electric signal buzzers, siren alarms, luminous signs, loudspeakers, computer monitors, video monitors, touchscreen monitors, TV monitors,

electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels and plasma display panels and corresponding downloadable software, all for the control of lighting fixtures; remote control apparatus and associated software for the control of heating, ventilating, airconditioning and fire-alarm installations; electric control panels; elevator floor designator; elevator fixtures, namely, position indicators; elevator car operating panels; thin film transistor-liquid crystal display panels (TFT-LCD), light emitting diode (LED) display panels, organic light emitting diode (OLED) display panels, liquid crystal display panels (LCD) and plasma displays panels; computer monitors; television monitors; touchscreen monitors; electronic display panels; television monitors; interactive touch screen terminals; electronic notice boards; computer screens, touch screens, television monitors and video projectors, all for interactions with passengers of elevators, escalators and moving walkways; loudspeakers; LED screens; emergency warning lights; warning bells; electromagnetic signal transmitters; alarm apparatus, namely, fire alarms, break-in alarms, burglar alarms, flood alarms consisting primarily of water and humidity sensors, temperature sensors, luminous signs and loudspeakers, hazard alarms, namely, earthquake alarm installations, motion detection alarms, for detecting the motion of persons, animals and objects, emergency call alarms for detecting incidents of users of elevators, escalators and moving walkways; data processing apparatus, namely, computer hardware and computer network bridges for receiving, recording, transmitting, processing, converting, output and reproduction of speech data, audio data, video data, drawings, images and signals in connection with the design, installation, maintenance, repair, overhaul and refurbishment of elevators, escalators, moving walkways, apparatus and installations for access control, namely, electronic control panels, touch panels, computer hardware, modems, routers, for providing control over building access and elevator access, and guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; electronic guidance systems consisting primarily of smartphones, mobile telephones, smart watches, computer processing units, computers, laptops, tablet computers, network routers, wireless routers, modems, microprocessors, computer processors, computer servers, computer network servers, computer monitors, interactive touch screen terminals, microphones, cameras, video cameras, loudspeakers, luminous signs, video monitors, touchscreen monitors, TV monitors, and electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels, plasma displays panels, and downloadable software for the orientation and guidance of persons and flow of persons inside, between and outside buildings; electronic navigation systems, particularly GPS, UHF radio waves, wireless Internet and mobile data-based and radio-based navigation systems; electronic access control systems consisting primarily of electronic card readers, electronic radio frequency identification (RFID) readers, electronic near field communication (NFC) readers, electronic readers of optical codes, electronic readers for biometric identification, particularly identification of the face, voice, iris, fingerprints and hand, electronic controllers, smartphones, mobile telephones, smart watches, computer processing units, computers, laptops, tablet computers, network routers, wireless routers, modems, microprocessors, computer processors, computer servers, computer network servers, monitors, touch screens, microphones, cameras, video cameras, loudspeakers, luminous signs, video monitors, touchscreen monitors, TV monitors, and electronic displays, namely, thin film transistor-liquid crystal display (TFT-LCD) panels, light emitting diode (LED) displays, organic light emitting diode (OLED) display panels, liquid crystal display (LCD) panels, plasma displays panels, and downloadable software, all for controlling access to ships, buildings, access restricted areas within buildings, areas surrounded by a fence, to elevators, escalators and moving walkways; radio

frequency identification (RFID) tags and cards; tags and cards encoded with near field communication (NFC) technology; readers for encoded key cards, encoded identity cards, encoded smart cards and encoded bar code labels; encoded identity cards; encoded key cards; encoded smart cards containing programming used to identify individuals in a computer system; encoded bar code labels; encoded electronic chip cards for identifying particular passengers of elevators, escalators and moving walkways; optical code readers; biometric recognition apparatus, namely biometric face readers, biometric voice recognition systems, biometric iris scanners, biometric retinal scanners, biometric fingerprint readers, biometric hand readers; mobile telephones; smartphones; portable computer systems attached to the body of the user during use, namely smartwatches, virtual reality goggles, and smart bracelets; augmented reality and virtual reality products, namely 3D glasses, headphones, loudspeakers, virtual reality headsets, virtual reality gloves, stereoscopic 3D displays, 3D scanners, 3D cameras and 3D microphones; magnetic and digital storage media, namely blank electronic memory cards, blank USB flash drives, solid-state disk drives, blank recordable DVD-Rs, blank video tapes, blank computer disks, blank CD-ROMs for sound or video recording, as well as prerecorded USB flash drives featuring recorded monitoring and control software in the field of elevators, escalators, moving walkways, conveyors, access control, GPS navigation and security systems, solid-state prerecorded flash drives featuring recorded monitoring and control software in the field of elevators, escalators, moving walkways, conveyors, access control, GPS navigation and security systems, DVD recorders, multimedia software recorded on CD-ROMs featuring recorded monitoring and control software in the field of elevators, escalators, moving walkways, conveyors, access control, GPS navigation and security systems, computer hard disks and prerecorded video tapes featuring recorded monitoring and control software in the field of elevators, escalators, moving walkways, conveyors, access control, GPS navigation and security systems; tablet computers; computers; network routers; wireless routers; interfaces, namely, computer interface boards, computer interface cards, interface cards for data processing equipment in the form of printed circuits and network interface cards; microprocessors; computer software for management of a database related to operations and performance of elevators, escalators, moving walkways, apparatus and installations for access control, namely electric control panels, touch panels, computer hardware, modems, routers for providing control over building access and elevator access, doors, turnstiles, tripod barriers and gates; computer software and user software for searching for, playing, displaying and storing pictures; computer software and application software for the remote monitoring and controlling of elevators, escalators and moving walkways; computer software and application software for the monitoring and control of alarms, namely of alarms for the detection of flammable gases, anti-intrusion alarms, burglar alarms, door alarms, gas alarms, personal security alarms, fire alarms, vandalism alarms smoke alarms, and for the monitoring and control of apparatus and installations for access control, namely electric control panels, touch panels, computer hardware, modems, routers for providing control over building access and elevator access; computer software and application software for mobile telephones, smartphones, smartwatches and tablet computers for the monitoring and control of elevators, escalators, moving walkways, and electronic access control systems for locking doors and physical barriers; computer software and application software for operating wireless routers and network routers; computer software and application software for connecting mobile telephones, smartphones, smartwatches and tablet computers to electronic access control systems to locking/unlocking physical barriers, doors, turnstiles, tripod barriers and gates; computer software and application software for connecting mobile telephones, smartphones, smartwatches and tablet computers to guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; downloadable software and downloadable computer application software for mobile phones,

smartphones, smartwatches and tablet computers, all for locating users in and out of buildings, public facilities, namely, airports, train stations, subway stations, bus stations, pedestrian underpasses, parks, theatres, cinema facilities, convention hall facilities, sports arena facilities and elevators, escalators, and moving walkways; downloadable software and downloadable computer application software for mobile phones, smartphones, smartwatches and tablet computers, all for guiding and navigating users in and out of buildings, public facilities, namely airports, train stations, subway stations, bus stations, pedestrian underpasses, parks, theatres, cinema facilities, convention hall facilities, sports arena facilities and to elevators, escalators and moving walkways; electric sensors, namely, proximity sensors, current sensors, voltage sensors, load and level sensors, inductive sensors, capacitive sensors, earthquake sensors, humidity sensors, acoustic sensors, infrared sensors, ultrasound sensors, biometric sensors, radio frequency identification (RFID) sensors and radio frequency (RF) sensors; frequency converters; electrical transformers; photovoltaic solar modules for power generation; electricity storage batteries; uninterrupted electrical power supplies; over-voltage protectors; power distribution boxes; current rectifiers; electric power switches; integrated circuits; printed circuits; electric control panels; electrical fuses; integrated safety circuits; electric and electronic locks for doors, physical barriers, turnstiles, tripod barriers; electric and electronic locks for elevator doors; radio-frequency controlled locks for doors, physical barriers, turnstiles, tripod barriers; radio-frequency controlled locks for elevator doors; electronic publications, namely downloadable magazines, manuals for teaching, manuals for training, practice manuals, installation manuals, repair and modernization instruction manuals, manuals newsletters, brochures and spare parts leaflets, all in the field of elevators, escalators, moving walkways and access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers

Services

Class 35

(1) business management services relating to data compiling, systematizing and analyzing in computer databanks; business management services by use of computers for use in data management; computer software for database management, which processes, analyses and stores in an electronic database data related to the operation and component lifecycle of elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers, gates and guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; computer software for database management, which processes, analyses and stores in an electronic database data related to the operation and component lifecycle of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; call centre services, namely, administrative processing of purchase orders by telephone or computer, order fulfillment services, and invoicing; e-commerce services, namely services that allow users to perform electronic business transactions via a global computer network by providing product information via telecommunications networks; provision of information relating to sale, design, specifications and pricing of elevators, escalators, moving walkways and advisory services relating thereto; provision of information relating to sale, design, specifications and pricing of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers and advisory services relating thereto; wholesale, retail and Internet commerce in replacement parts and components of elevators, escalators, moving walkways, door openers, door closers, doors, turnstiles, tripod

barriers, physical barriers and gates; wholesale, retail and Internet commerce in replacement parts and components of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; renting of advertising spaces; rental of advertising space on web sites; advertising the goods and services of others; advertising the goods and services of others by means of computer monitors, touchscreen monitors, television monitors, projection apparatus, beamers and electronic display panels; rental of advertising space; placing advertising for others; electronic billboard advertising of the goods and services of others; electronic billboard advertising of the goods and services of others; organisation and management of customer loyalty programmes

Class 37

(2) advisory services relating to the construction of buildings; installation, maintenance, repair and overhaul of elevators, escalators, moving walkways and of components and parts thereof; installation, maintenance, repair and refurbishment of elevators, escalators, moving walkways and of parts and components thereof;; advice with respect to installation, maintenance, repair, overhaul and refurbishment of elevators, escalators, moving walkways and of parts and components thereof; installation, maintenance, repair, overhaul and refurbishment of doors, door openers, door closers, gates, turnstiles, tripod barriers and barriers and physical barriers and of components thereof; installation, maintenance, repair, overhaul and refurbishment of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; installation, maintenance, repair, overhaul and refurbishment of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; installation, maintenance, repair, overhaul and refurbishment of elevators, escalators, moving walkways, doors, door openers, door closers, gates, turnstiles, tripod barriers and physical barriers by remote access via a communications connection, particularly via the Internet; installation, maintenance, repair, overhaul and refurbishment of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers by remote access via a communications connection, particularly via the Internet; installation, maintenance, repair, overhaul and refurbishment of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings by remote access via a communications connection, particularly via the Internet; installation, maintenance, repair, overhaul and refurbishment of alarms, namely, of alarms for the detection of flammable gases, anti-intrusion alarms, burglar alarms, door alarms, gas alarms, personal security alarms, security and fire alarms, vandalism alarms, smoke alarms, as well as advice with respect thereto; installation, maintenance and repair of computer hardware and computer network bridges

Class 38

(3) providing telecommunications connections between elevators, escalators, and moving walkways and computer databanks; provision of access to an Internet platform for the management of a portfolio of elevators, escalators, moving walkways and access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; provision and transmission of voice messages, video messages, text messages and digital photo files via analog and digital communications networks, namely, through a wireless connection, or via a telephone or radio connection; paging services; electronic exchange of messages by means

of chatlines, on-line chatrooms and Internet forums; providing telecommunications connections between central computing equipment and elevators, escalators, and moving walkways; providing telecommunications connections between central computing equipment and access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; providing telecommunications connections between central computing equipment and guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; provision of access by way of a communications network to a computer database of operational and performance data for elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers and gates; provision of access by way of a communications network to a computer database of operational and performance data for access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; provision of access by way of a communications network to a computer database of operational and performance data for guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; providing of access by way of a communications network to a computer database of data on faulty functioning of elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers and gates; providing of access by way of a communications network to a computer database of data on faulty functioning of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; providing of access by way of a communications network to a computer database of data on faulty functioning of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; electronic transmission by way of communications networks, namely, transmitting streamed sound and audiovisual recordings via the internet of news, messages, namely, text messages, email messages and voice messages, entertainment, namely, films, music and television shows, digital photo files, advertising information for others, elevator position information communicating the floors on which the elevator is currently on, and providing users with data for emergencies regarding the function and operation of the elevator, escalators and moving walkways; electronic transmission by way of computer networks and telecommunications networks in the field of teaching, education and training on the installation, refurbishment and repair of elevators, escalators and moving walkways, namely owner's manuals and guides; rental of access time to global computer networks; providing access to Internet platforms for the operation and monitoring of elevators, escalators and moving walkways via downloadable software; providing access to Internet platforms for the operation and monitoring of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers via downloadable software; providing access to Internet platforms for the operation and monitoring of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings via downloadable software; providing telecommunications connections between central computing equipment and elevators, escalators, and moving walkways; providing telecommunications connections between central computing equipment and access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely

fences, doors, turnstiles, tripod barriers, access barriers; communication services by means of telephone

Class 42

(4) design and development of electronic data security systems; design and development of physical security systems; research into and monitoring and analysis of traffic flow inside, between and outside buildings; development and design of elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers and gates; development and design of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; development and design of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; technical engineering project planning and engineering services in the field of elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers and gates; technical engineering project planning and engineering services in the field of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; technical engineering project planning and engineering services in the field of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; carrying out quality control tests and technical tests in the field of elevators, escalators, and moving walkways; energy audits; maintenance of computer software by use of remote computer assisted software, the computer software being for the monitoring and control of elevators, escalators and moving walkways, security systems, doors, turnstiles, tripod barriers, physical barriers and gates and of components and parts thereof; maintenance of computer software by use of remote computer assisted software, the computer software being for the monitoring and control of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; maintenance of computer software by use of remote computer assisted software, the computer software being for the monitoring and control of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings, doors, turnstiles, tripod barriers, barriers and gates; monitoring of computer systems by remote access via a communications signal via the Internet, the computer software being for the operation of elevators, escalators, moving walkways, security systems, doors, turnstiles, tripod barriers, physical barriers and gates via a communications connection; monitoring of computer systems by remote access via a communications signal via the Internet, the computer software being for the operation of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; monitoring of computer systems by remote access via a communications signal via the Internet, the computer software being for the operation of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; remote diagnosis via a communications connection via the Internet of the need of repair and maintenance of elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers and gates; remote diagnosis via a communications connection via the Internet of the need of repair and maintenance of access control systems, namely a system composed of

electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; remote diagnosis via a communications connection via the Internet of the need of repair and maintenance of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings, doors, turnstiles, tripod barriers, barriers and gates; opening of security locks via a communications connection, particularly via the Internet; providing quality control of elevators, escalators, moving walkways, doors, turnstiles, tripod barriers, physical barriers and gates by analyzing and evaluation the operational and performance data of each; providing quality control of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers by analyzing and evaluation the operational and performance data of each; providing quality control of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings by analyzing and evaluation the operational and performance data of each; checking and analysis of the strength and speed of telecommunication signals; programming, development, installing, updating and maintenance of computer software and application software and advisory services with respect thereto; design and development of virtual reality and augmented reality software; programming of software for Internet platforms; provision of software via a computer network over the Internet and telecommunication network for the operation and monitoring of elevators, escalators and moving walkways; provision of software via a computer network over the Internet and telecommunication network for the operation and monitoring of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; provision of software via a computer network over the Internet and telecommunication network for the operation and monitoring of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; provision of educational, training and teaching materials, namely, videos, audio and electronic periodicals, via on-line software applications via a computer network or telecommunications connection, with respect to the installation, repair and refurbishment of elevators, escalators and moving walkways; provision of educational, training and teaching materials, namely, videos, audio and electronic periodicals, via on-line and off-line software applications via a computer network or telecommunications connection, with respect to the installation, repair and refurbishment of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; provision of educational, training and teaching materials, namely, videos, audio and electronic periodicals, via on-line and off-line software applications via a computer network or telecommunications connection, with respect to the installation, repair and refurbishment of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; provision of on-line computer software in the field of construction, configuration and design of elevators, escalators and moving walkways; provision of on-line and off-line computer software in the field of construction, configuration and design of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; provision of on-line and off-line computer software in the field of construction, configuration and design of guidance and navigation systems, namely systems

comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; providing access to a cloud computing network through non-downloadable software applications; software-as-a-service (SAAS) provider in the field of software for the operation and control of elevators, escalators and moving walkways; software-as-a-service (SAAS) provider in the field of software for the operation and control of access control systems, namely a system composed of electronic readers and controllers for controlling access to a premises and of physical barriers, namely fences, doors, turnstiles, tripod barriers, access barriers; software-as-a-service (SAAS) provider in the field of software for the operation and control of guidance and navigation systems, namely systems comprising of software for mobile phones, computer software, beacons, wireless routers, modems, all for guiding and navigating persons inside, between and outside of buildings; computer software design, installation, and maintenance for data and speech communications between computer databanks and call centres; provision of on-line and off-line computer software for surveillance of interior of elevators, buildings, public facilities, namely, airports, train stations, subway stations, bus stations, pedestrian underpasses, parks, theatres, cinema facilities, convention hall facilities, sports arena facilities, ships; provision of software for automatic triggering of alarm reports, namely of alarms for the detection of flammable gases, anti-intrusion alarms, burglar alarms, door alarms, gas alarms, personal security alarms, fire alarms, vandalism alarms, smoke alarms, via peer to peer computer networks and telecommunications networks; computer services, namely design and programming of software for user management in computer networks; provision of computer security services in the sense of issuing and management of digital keys; design and programming of computer software for encoded identity card authentication and management of user and use rights relating thereto; rental of computer software

Software, namely, software for operating and programming off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, industrial software, telecommunications software, telematics software, smartphone software, maintenance software, interface software, application software, communications software, and mobile application software for operating and programming off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, software for diagnostics and troubleshooting for use in off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, software for remote diagnostics for use in off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, computer utility programs for performing computer system diagnostics for offhighway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, remote monitoring apparatus, namely, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images into electronic formats, namely digital images to a remote location for off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, apparatus for remotely controlling off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, remote control transmitting software for off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, remotely controlled apparatus for telemetry monitoring of off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, remote control transmitters for operating motor vehicles, trucks, cars, scooter vehicles, railed vehicles, offhighway industrial machinery and marine vessels, computer software for use in remote telematics monitoring of motor vehicles, trucks, cars, scooter vehicles, railed vehicles, off-highway industrial machinery, and marine vessels, downloadable computer software for remote telematics monitoring and telematics analysis of offhighway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, computer and computer networks controlled by remote control for monitoring and recording the performance of off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, computer controllers, communications controllers, programmable controllers, and remote controllers for

operating off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, cloud computing software for operating off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels, all of the aforementioned off-highway industrial machinery includes forklifts, bulldozers, earth moving machines, excavators, backhoes, tractors, crushing, screening and materials handling machinery, mining equipment, quarry conveyor belts, compactors, concrete-laying machines, cranes, mobile cranes, cement mixers, screening machines, demolishing machines, wood crushing machines, rock crushers, metal crushers, metal pressers, log grinders, log draggers and gensets.

Services

Class 38

(1) Telematics services, namely transmission of diagnostic, tracking and navigation information for motor vehicles, trucks, cars, scooter vehicles, railed vehicles, marine vessels and off-highway industrial machinery via computer; telecommunications by computer terminals, via telematics, satellites, radios, telegraphs, and telephones in the nature of digital network telecommunications services, namely providing multiple user access to a global computer network and enabling telecommunications by computer terminals, via telematics, satellites, radios, telegraphs, and telephones in the nature of digital network telecommunications services, namely enabling telecommunication of diagnostic, tracking and navigation information for tractors via telematics, satellites, radios, telegraphs, and telephones; providing remote internet access; providing remote transmission of diagnostic, tracking and navigation data by means of satellite, mobile, internet and wireless telecommunications, namely transmittal of diagnostic, tracking and navigation information in the field of motor vehicles, trucks, cars, scooter vehicles, railed vehicles, marine vessels and off-highway industrial machinery including forklifts, bulldozers, earth moving machines, excavators, backhoes, tractors, crushing, screening and materials handling machinery, mining equipment, quarry conveyor belts, compactors, concrete-laying machines, cranes, mobile cranes, cement mixers, screening machines, demolishing machines, wood crushing machines, rock crushers, metal crushers, metal pressers, log grinders, log draggers and gensets.

Class 42

(2) Computer software development; computer software design; computer software engineering; rental of computer software; software as a service (SAAS) provider for computer operating and programming offhighway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; computer diagnostic services; monitoring of computer systems by remote access; monitoring of offhighway industrial machinery, namely forklifts, bulldozers, earth moving machines, excavators, backhoes, tractors, crushing, screening and materials handling machinery, mining equipment, quarry conveyor belts, compactors, concrete-laying machines, cranes, mobile cranes, cement mixers, screening machines, demolishing machines, wood crushing machines, rock crushers, metal crushers, metal pressers, log grinders, log draggers and gensets, and vehicles, namely, motor vehicles, trucks, cars, scooter vehicles and railed vehicles by remote access to ensure proper functioning and detect breakdowns of the aforementioned offhighway industrial machinery, vehicles and marine vessels; preparation of reports in the field of telematics, remote monitoring and remote control of off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; preparation of technical reports for scientific analysis; preparation of technological reports for scientific analysis; evaluation of performance of computer systems against bench-mark references; development of computer software for use with programmable computer controllers; cloud computing services, namely, providing temporary use of on-line non-downloadable cloud computing software for operating and programming off-highway industrial machinery, motor vehicles, trucks, cars, scooter

vehicles, railed vehicles and marine vessels; online provision of non-downloadable web-based applications for operating and programming off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; providing temporary use of online non-downloadable software for operating and programming off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; providing online non-downloadable software for use in communication to electronically operate off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; providing online non-downloadable software for use in the field of telematics, remote monitoring and electronically operating off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; providing temporary use of non-downloadable software applications for use in the field of off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels accessible via a website; analytic services in the field of software, telematics, remote monitoring and remote control of machinery and vehicles and machinery and vehicle diagnostics, namely, computer system analysis for off-highway industrial machinery, motor vehicles, trucks, cars, scooter vehicles, railed vehicles and marine vessels; computer aided diagnostic testing services, namely, diagnostic services for off-highway industrial machinery, all of the aforementioned off-highway industrial machinery includes forklifts, bulldozers, earth moving machines, excavators, backhoes, tractors, crushing, screening and materials handling machinery, mining equipment, quarry conveyor belts, compactors, concrete-laying machines, cranes, mobile cranes, cement mixers, screening machines, demolishing machines, wood crushing machines, rock crushers, metal crushers, metal pressers, log grinders, log draggers and gensets.

Goods

Class 07

(1) Machine tools for the metalworking industry; grinding machines for metalworking, namely, internal and external circular grinders, centerless grinders, non-circular grinders, camshaft grinders, crankshaft grinders, surface grinders, angle grinders, and robotic grinders; pencil grinders, industrial honing machines for metalworking; single and multi-dimensional laser treatment, cutting, drilling and welding machine tools for metalworking; eroding machines for metalworking; laser machines for metalworking; tool grinding machines; universal circular grinding machines for metalworking; angular infeed grinding machines for metalworking; high-speed grinding machines for metalworking; internal and external thread grinding machines; groove grinding machines for metalworking; polygonal grinding machines for metalworking; cylinder grinding machines for metalworking; production grinding machines for metalworking; grinding machines and laser machine tools for metalworking, controllers for grinding machines and laser machine tools

Class 09

(2) Measuring and test equipment, namely, electrical, magnetic and optical measuring sensors, precision measuring gages, and automatic detectors, all for measuring and detecting features of parts made by grinding, honing and finishing machines to ensure the parts comply with custom specifications, computer programs for operating grinding machines and laser machine tools, computer software for controlling and operating grinding machines; coordinate measuring machines

Services

Class 37

(1) Installation, maintenance and repair of machine tools, grinding machines and laser machines for cutting, shaping and finishing metals and other materials, measuring apparatus and detectors for measuring and detecting features of parts made by machine tools, grinding machines and laser treatment machines to ensure that treated parts comply with custom specifications and electric and electronic controls for controlling and operating grinding machines, laser machine tools, honing machines, and finishing machines; consultancy in the fields of powered machines for cutting or shaping or finishing metals or other materials, grinders, laser machines, and measuring machines

Class 38

(2) Providing of access to platforms on the internet and mobile internet; providing access to data via the internet; providing on-line access to databases; providing access to data and information on the internet; telecommunication services, namely, electronic transmission of data, namely, voice messages, video messages, text messages, computer graphics, and photographic images; telecommunication services, namely data transmission services, namely, voice messaging services, e-mail and instant messaging services via global communication networks; telecommunication services, namely data transmission services via computer networks, namely transmission of data pertaining to conditions, functions, operation and status of computer-controlled grinding machines and networked grinding machines; telecommunication services, namely data transmission services, namely, voice messaging services, e-mail and instant messaging services via the internet; telecommunication services, namely digital data transmission services, namely, voice messaging services, e-mail and instant messaging services via global communications networks, the Internet and wireless networks; telecommunication services, namely wireless data transmission services via the internet, namely wireless transmission of data pertaining to conditions, functions, operation and status of computer-controlled grinding machines and networked grinding machines; telecommunication services, namely information and data transfer services via wireless networks and the internet, namely transferring information and data between mobile phone, tablet, computer, whiteboard and databases pertaining to conditions, functions, operation and status of computer-controlled grinding machines and networked grinding machines; interactive videotext and teletext services; telecommunication services, namely personal communication services (PCS) by computer terminals; telecommunication services, namely personal communication services (PCS) via the internet; telecommunications services, namely, electronic transmission of electronic data, messages and information relating to conditions, functions, operation and status of computer-controlled and networked grinding machines; providing user access to computer programs on data networks; providing access to databases; providing access to electronic communications networks, to the Internet and to extranets

Class 41

(3) Educational services, namely, organization and conducting of workshops and training workshops in the field of machine tools, grinding machines and laser machines for cutting, shaping

and finishing metals and other materials, measuring apparatus and detectors for measuring and detecting features of parts made by machine tools, grinding machines and laser treatment machines to ensure that treated parts comply with custom specifications and computer programs and control systems for controlling and operating grinding machines, laser machine tools, honing machines, and finishing machines

Class 42

(4) Industrial research and analysis services in the fields of machine tools, grinding machines and laser machines for cutting, shaping and finishing metals and other materials, measuring apparatus and detectors for measuring and detecting features of parts made by machine tools, grinding machines and laser treatment machines to ensure that treated parts comply with custom specifications, and control systems for controlling and operating grinding machines, laser machine tools, honing machines, and finishing machines for metals or other materials, design and development of computer software; computer programming services; consultancy in the field of computer software for use with powered machines for cutting or shaping or finishing metals or other materials, grinders, laser machines, and measuring machines

(2) Providing of access to platforms on the internet and mobile internet; providing access to data via the internet; providing on-line access to databases; providing access to data and information on the internet; telecommunication services, namely, electronic transmission of data, namely, voice messages, video messages, text messages, computer graphics, and photographic images; telecommunication services, namely data transmission services, namely, voice messaging services, e-mail and instant messaging services via global communication networks; telecommunication services, namely data transmission services via computer networks, namely transmission of data pertaining to conditions, functions, operation and status of computer-controlled grinding machines and networked grinding machines; telecommunication services, namely data transmission services, namely, voice messaging services, e-mail and instant messaging services via the internet; telecommunication services, namely digital data transmission services, namely, voice messaging services, e-mail and instant messaging services via global communications networks, the Internet and wireless networks; telecommunication services, namely wireless data transmission services via the internet, namely wireless transmission of data pertaining to conditions, functions, operation and status of computer-controlled grinding machines and networked grinding machines; telecommunication services, namely information and data transfer services via wireless networks and the internet, namely transferring information and data between mobile phone, tablet, computer, whiteboard and databases pertaining to conditions, functions, operation and status of computer-controlled grinding machines and networked grinding machines; interactive videotext and teletext services; telecommunication services, namely personal communication services (PCS) by computer terminals; telecommunication services, namely personal communication services (PCS) via the internet; telecommunications services, namely, electronic transmission of electronic data, messages and information relating to conditions, functions, operation and status of computer-controlled and networked grinding machines; providing user access to computer programs on data networks; providing access to databases; providing access to electronic communications networks, to the Internet and to extranets

Class 41

(3) Educational services, namely, organization and conducting of workshops and training workshops in the field of machine tools, grinding machines and laser machines for cutting, shaping

and finishing metals and other materials, measuring apparatus and detectors for measuring and detecting features of parts made by machine tools, grinding machines and laser treatment machines to ensure that treated parts comply with custom specifications and computer programs and control systems for controlling and operating grinding machines, laser machine tools, honing machines, and finishing machines

Class 42

(4) Industrial research and analysis services in the fields of machine tools, grinding machines and laser machines for cutting, shaping and finishing metals and other materials, measuring apparatus and detectors for measuring and detecting features of parts made by machine tools, grinding machines and laser treatment machines to ensure that treated parts comply with custom specifications, and control systems for controlling and operating grinding machines, laser machine tools, honing machines, and finishing machines for metals or other materials, design and development of computer software; computer programming services; consultancy in the field of computer software for use with powered machines for cutting or shaping or finishing metals or other materials, grinders, laser machines, and measuring machines

(1) Common metals and their alloys; common metals and their alloys in powder form [not for painters, decorators, printers and artists]; sintered hard metals; sintered hard metal used as cutting materials for tools; semi-wrought metals for making metalworking tools; magnetic alloyed steels; magnetic alloyed iron; porous metals and alloys for use in industrial metallic foam applications; shape memory metal alloys; cermets (metal-ceramic composites); foundry moulds of metal; anvils; metal counterweights for industrial use; common metals coated with fluororesin; metallic substrate materials for catalyst; solder rods and solder wires of metal; silver solders; sintered sheets made of tungsten alloy for radiation protection; metal sputtering targets; mesh sheets of metal; ground tubes of steel; non-electric wires of common metal and their alloys, not insulated [except fuse wires]; wire ropes; welding wire of metal; refractory construction materials of metal; metallic materials for ground stabilization; metallic materials for railway tracks; nonelectric cable ducts made of metal; pipe couplings of metal; clips of metal for pipes; insulated pipe supports of metal; fuel oil hoses of metal; metal hoses for plumbing use; junctions of metal for pipes; flanges of metal [collars]; non-machine element metal pulleys, springs and valves; bolts of metal; nuts of metal; washers of metal; couplings of metal for chains, pipes, hoses and tubes; brackets of metal for building; reinforcing pins of metal for formwork; metal hardware, namely, protective sleeves for cables; cable ties of metal; cable clips of metal; cable grommets of metal; cable clamps of metal; cable trays of metal [other than electric]; cable spacers of metal; non-electric cable junction sleeves of metal; vibration dampers for overhead cables; oil tanks of metal; fuel tanks of metal, other than for machines or land vehicles; metal antenna towers; iron and steel; non-ferrous metals and their alloys; ores of metal; Reinforcing materials of metal for building; loading and unloading pallets of metal; artificial fish reefs of metal; prefabricated sectional poultry houses of metal; paint spraying booths of metal; metal moulds for forming cement products; non-machine element metal pulleys, springs and valves; metal flanges; machine keys; cotter pins; railway points; road signs, nonluminous and non-mechanical, of metal; beacons of metal, non-luminous; reservoirs of metal; anchors; containers of metal for transport; swage blocks; wire rope; wire mesh; industrial

packaging containers of metal; metal nameplates and door nameplates; hand-held flagpoles of metal; stakes of metal for plants or trees; metal stepladders and ladders; letter boxes of metal; hat-hanging hooks of metal; water tanks of metal for household purposes; tool boxes of metal, empty; towel dispensers of metal; joinery fittings of metal; safe deposit boxes; outdoor blinds of metal; upright signboards of metal; transportable greenhouses of metal for household use; metal tombs and metal tomb plaques; shoe dowels of metal; shoe pegs of metal; hobnails of metal; ferrules of metal for canes and walking-sticks; spurs; crampons [climbing irons]; sculptures of metal; crucibles of common metal and their alloys for industrial purposes

Class 07

(2) Metal cutting tools [machines or parts of machines]; wear resistant metal-cutting tools for machines; mandrels being parts of machines; plunger pistons; valves being parts of machines; grinding tools for grinding machines; power-operated saws; blades for power saws; press dies for metal forming; injection moulds; forging moulds; rolls for rolling mills [for metalworking]; cemented carbide cutting tools; ceramic cutting tools for machines; cermet (ceramic-metal composite material) machine tools for cutting metal; diamond-pointed metal-cutting tools; sintered cBN (cubic boron nitride) cutting tools for the metalworking industry; chucks for power drills; automatic tool changers for machining centers; drills for the mining industry; mining bits; drilling machines for civil engineering; concrete construction machines; electric welding machines; electrode wires for wire electric discharge machines; electrical discharge machine wire guides; fittings for high pressure water jet cleaning and cutting machines; nozzles for high-pressure water jet cleaning machines; nozzles for high-pressure water jet cutting machines; sand-blasting apparatus; air compressors; parts for compressors for air conditioning equipment; valve plates being parts of machines; valve plates being parts of engines; valve retainers being parts of engines; machine bearings; turbine vanes, other than parts of land vehicle engines; hydraulic hoses for plumbing for hydraulic power units; cylinder heads for engines; cylinder head covers for engines; cylinder head gaskets for engines; cylinder blocks for engines; cylinder liners for engines; Pistons for engines; piston rings for engines; piston pins for engines; connecting rods for motors and engines; crankshafts; engine bearings; engine camshafts; flywheels for motors and engines; starter ring gears for engines; crank pulleys for motors and engines; torsion dampers for engines; intake manifolds for internal combustion engines; exhaust manifold for engines; exhaust pipes for land vehicles; engine valves; Valve springs [parts of engines]; valve sheets being parts of engines; valve guides being parts of engines; Rocker arms for motors; Rocker arms for engines; oil filters for motors and engines; oil coolers for engines; oil pumps for use in motors and engines; oil pump rotors; electric fuel pumps for engines; Diesel particulate filters being gas filters for engines; fuel injectors for internal combustion engines; Exhaust Gas Recirculation (EGR) valves for motors and engines; valve actuators being parts of engines; fuel feed pumps for engines; pressure regulators for motors and engines; air intake hoses for motors and engines; fuel injection pumps for engines; pneumatic control valves for engines; fuel filters being parts of engines; air filters for motors and engines; filters for cleaning cooling air for engines; water pumps for use in motors and engines; mechanical seals being parts of motors and engines; radiators [cooling] for motors and engines; thermostatic control valves for motors and engines; cooling fans for motors and engines; fuel catalysts for engines and motors; catalytic converters for motors and engines; mufflers for motors and engines; silencers for motors and engines; power transmission belts for motors and engines used in industrial applications; fan belts for motors and engines; timing belts for motors and engines used in industrial applications; timing belt pulleys; timing gears for motors and engines; timing chains for engines; exhaust-gas turbo-chargers for engines; superchargers for engines; V-belts for motors and engines; pulsation dampers for motors and engines; PCV (positive crankcase ventilation) valves for motors and engines; carburetors for motors and engines; ignition devices for engines of

land vehicles; transmissions for machines; cam shafts; crank shafts; loom shafts; bearings for machines; cams for machines; gears for machines; gear boxes for machines; transmission chains for machines; cam sprockets being engine timing components; power transmission belts for machines; pulleys for machines; shaft couplings for machines; clutches for machines; planetary gear transmissions for machines; torque converters, not for land vehicles; machine flywheels; springs being parts of anti-vibration mountings for machines; vibration dampers for machines [not for land vehicles]; shock absorbers for machines [not for land vehicles]; air spring actuators for machines; magnetic separators for use in separating magnetic particles from non-magnetic matters; machines for use in food processing to detect foreign material; oil mist separators [parts of machines or engines]; filters for industrial machines for use in air, gas, fuel and liquid filtration; membrane filter cartridges for use as parts of machines; semiconductor manufacturing machines and parts thereof; printing plates; tube marking machines for industrial purposes; machines for installing, laying and replacing cables; metalworking machines and tools; drills for the mining industry; mining bits; concrete construction machines; road construction machines; sewing machines; shoe making machines; leather tanning machines; tobacco processing machines; glassware manufacturing machines; machines for manufacturing semi-conductors; rubber manufacturing machines; stone working machines; adhesive tape dispensing machines; automatic stamping machines; vending machines; fuel dispensing machines for service stations; washing machines [laundry]; vehicle washing installations; food mixing machines for commercial use; food peeling machines for commercial use; food cutting, chopping and slicing machines for commercial use; dishwashers; vacuum cleaners; power sprayers for disinfecting, insecticides and deodorants [not for agricultural purposes]; bushings for use as parts of machines; lawnmowers; electric door openers; waste crushing machines for industrial purposes; 3D printers; starters for motors and engines; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors]; AC generators [alternators]; DC generators; electric food blenders for household purposes; dynamo brushes

Class 09

(3) Electric wires and cables; electrical resistance wires; electrical fuse wires; sheaths for electric cables; electrical shielding spacers for cables and cable assemblies; electric cable connectors; cable glands for use with electric cables; cable grommets; junction sleeves for electric cables; identification sleeves of plastics for electrical wiring; cable sleeves for the marking of electric cables; electronic monitors and monitor modules for monitoring electric current and electrical signals; photovoltaic solar cells; electric storage batteries; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; electric control panels for energy management; computer hardware for use in smart grid applications; current electric sensors for use in smart grid applications; electronic conductors for integrated circuits; electronic conductors for fuel cells; industrial magnets; electric coils; electromagnetic coils; electromagnets; superconductive magnet coils; electric storage batteries; dry cells; electric accumulators for vehicles; fuel cells; photovoltaic cells and modules; battery separators; battery charging devices for motor vehicles; fuel cell electrodes; electrodes for laboratory research; electrode wires used with electrical discharge machines; electric discharge tubes (other than for lighting purposes); radio transmitters for remote controls; radio receivers for remote controls; radars; Television transmitters; audio video transmitters via Internet; splices for fiber optic lines; optical fiber testing instruments; remote testing devices for testing fiber optic networks; lasers for use in industrial cutting applications; lasers for use in industrial welding applications; lasers for measuring purposes; laser for use in industrial drilling; optical lenses; laser mirrors; prisms for laser optic applications; partial reflectors being

optical devices for use with lasers; laser beam splitters; laser beam combiners; optical windows being optical devices; beam homogenizers; laser beam expanders; laser beam scanners; parts for spectacles; spectacle temples and bows adapted for spectacle frames; spectacle frames; semiconductors; semiconductor wafers; semiconductor chips; semiconductor transistors; semiconductor diodes; heat sinks for use in computers; lead wires for electronic components; lead frames for semiconductor devices; bonding wires for semiconductor devices; integrated circuits; integrated circuit modules; printed circuits; flexible printed circuits; electronic circuit boards; surface acoustic wave components, namely, surface acoustic wave filters; electronic transistors; thermistors; optical character readers; bar code readers; bar code decoders; image scanners; raster image processors; radio transmitters for remote controls; radio receivers for remote controls; road condition sensors; traffic sensors; traffic management equipment, namely, display monitors, control cabinets specially adapted for traffic control equipment, computers, and computer software to manage traffic; electrical controllers for traffic lights; electronic variable message signs (VMS) used on roadways to display traffic information; computer software for assisting developers in creating program code for use in multiple application programs; computer software for searching and retrieving data from databases; computer software for use in database management; computer software for use in machine learning; computer software for natural language search processing; computer software for use in management of computer hardware and software assets; computer software for managing computer hardware assets; computer software for tracking lease and maintenance information for computer hardware and software; computer software for management of computer software licenses; computer software for distributing, installing, updating and uninstalling software on other computers via computer networks; computer software for computer security and anti-virus protection; computer software for use in planning, maintenance and management of computer networks; computer software for use in monitoring and protecting computer network; computer software for use in the field of technical support help desk; computer software for use in data cleansing; computer software for use in the field of work flow management; computer software for use in document management; computer software for use in accounting, business management, personnel management, labor management; computer software for use in processing purchase transactions; computer software for use in the field of production management; computer software for use in the field of sales management; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for displaying orders and driver locations on maps; computer software for planning, managing and executing commercial distribution and transportation operations; computer software for collecting, transmitting and analyzing vehicle data such as location and speed; computer software for monitoring performance of vehicles and warning dangerous driving behavior; computer software for use in geographic information systems; computer software for converting, sharing and displaying map data; computer software for calculating optimal routes; computer software for comparing geographic and address information; computer software for assessing and utilizing real time road traffic information; computer software for predicting future information on traffic congestions; computer software for collecting vehicle trip data and evaluating travel time; computer software for assisting developers in creating program using electronic map data; computer software for use in hospital facilities administration; computer software for accounting management and patient billing in hospitals; computer software for ordering clinical tests and for reporting and evaluating results of clinical tests; computer software for measuring pressure; electronic map database featuring roadway, road tolls and charges, service stations, car parks and other information regarding transport and travel; parts for photocopiers and laser beam printers, namely, fuser rollers and fusing belts; electric actuators; vibration isolators for laboratory equipment that limit or eliminate vibration between the ground and the work surface; vibration dampeners for laboratory instrument; desktop vibration isolation tables for use with vibration-

sensitive laboratory equipment; electric wiring harnesses for automobiles; electrical junction blocks for power distribution; electric relay boxes; electric fuses; automotive fuses; electric fuse boxes; electrical connectors; ECUs (Electronic Control Units) for controlling land vehicle engines; power switches; power switch panels; optical sensors for monitoring of the surrounding area of tracked vehicles; CCD (Charge Coupled Device) cameras for land vehicles; automotive night vision system using thermographic cameras; electronic infrared cameras; raster image processors; video monitors; velocity sensors; acceleration sensors; gyro sensors; impact sensors; measuring apparatus and instruments, namely, micrometer gauges, metal hardness testing machines, temperature sensors, electricity meters, tensiometers, water level indicators, oil level sensors, and pressure sensors; laboratory apparatus and instruments, namely, filtration membranes for laboratory apparatus and crucibles for laboratory use; meteorological observation apparatus, namely, wind profiler radars being sensing equipment that detects wind direction and velocity; disaster prevention equipment, namely, seismic detectors; electric and electronic video surveillance installations; life saving rafts; filters for respiratory masks; ear plugs for swimmers; ear plugs for divers; ozonisers [ozonators]; egg-candlers; cash registers; coin counting or sorting machines; photo-copying machines; time and date stamping machines; time clocks [time recording devices]; punched card office machines; voting machines; fire extinguishers; fire hoses; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas leak alarms; burglar alarms; railway signals; vehicle breakdown warning triangles; road signs, luminous or mechanical; game programs for arcade video game machines; simulators for the steering and control of vehicles; power distribution panels; power distribution boxes; electrical power distribution blocks; rotary converters; phase modifiers; dry cells; electrolytic cells; fuel cells; photoelectric cells; photovoltaic cells; electric wires and cables; telecommunications equipment, namely, optical transceivers, optical transmitters, fiber optic repeaters, optical receivers, optical data links, fiber optic couplers, fiber optic converters, fiber optic optimizers, multiplexers, computer network switches, network routers and optical fiber connectors; personal digital assistants in the shape of a watch; smartphones; electronic chips for the manufacture of integrated circuits; magnetic cores; electrode wires for wire electrical discharge machining; fire boats; satellites for scientific purposes; fire engines; dust masks; gas masks; welding masks; fireproof garments; gloves for protection against accidents; spectacles [eyeglasses and goggles]; game programs for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; protective helmets for sports; sports whistles; weight belts for scuba diving; air tanks for scuba diving; snorkels; regulators for scuba diving; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; phonograph records; downloadable music files; computer user manuals in the form of downloadable electronic publications; exposed cinematographic films; exposed slide films; slide film mounts; oxygen sensors being parts of internal combustion engines

Trademark Description

The mark consists of the words "Share Your Heart"; the "Share Your He" in upper and lower case letters in the color red, and the letters "A" in the color blue, "R" in the color green, and "T" in the color yellow and a Brixton Outline font. Below and underlining the words is an image of an artist's paint brush, the handle in the color black and the brush portion in the color red. The brush flows into two heart designs, the first heart shaped with red strands and resembling a human heart. A smaller, second heart shaped with red strands is attached to the right side of the first heart, with a red colored dot separate from and above the center of the heart, resembling a human. The white color represents background and/or transparent areas and is not part of the mark.
