Trademarks Journal

Vol. 70 No. 3563

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The applicant claims the colours orange, white and black as a feature of the trademark. The fish and the hook design appear in orange, and the word BAHCO appears in black on a white background.

Goods

Class 06

(1) Metal tool boxes specially designed for machines and machine tools, namely power operated tools namely air-powered tools and pistol shaped air-powered tools namely spray guns for paint, drills, rivet guns, pneumatic ratchet wrenches, cut off tools, grinders, air hammers, blow guns and hose, band saws, circular saw blades, impact sockets, impact wrenches, electric solders and electric soldering irons and spare tips therefore, jigsaw blades, machine powered jacks, pneumatic and electric secateurs, pneumatic hand held power driven grinders, pneumatic manual ratchet wrenches, pneumatic sanders, pneumatic screwdrivers, electric hand drills, power hole saws, power saw blades, electric hand power tools namely rotary burrs, reciprocating saw blades for power saws, reciprocating saws, rotary burrs, compressors for inflating tires, tyre mounting machines, tyre pressing machines, power-operating tyre removing machines, tyre trimming machines, power operated jacks, power operated lifts for moving, parking and storing land vehicles, soldering machines; metal tool boxes specifically designed for hand tools and implements, namely axes, balcony tools in the nature of digging spades and forks, bit drivers for hand tools, bits for hand tools, bolt cutters, hand jacks, bow saws, hand-operated automotive repair tools namely disc brake piston tools, forestry and carpentry tools namely breaking bars, pry bars, felling bars, felling levers, wrecking bars, bulb planters, cable cutters, gouges and chisels,

blades for hand saws, woodworking clamps, Hand tools and implements, namely cold chisels, hand cultivators, hand-operated cutters being garden tools and knives, daisy grubbers, handoperated dibbers, hand-held drills, drill bits for hand drills, edge shears, pliers, engine timing tool sets, handoperated nail extractors, hand files, digging forks, grafting knives, grass shears, grinding stones, hacksaw blades, hand operated hammers, hand hacksaw frames, Hand tools and implements, namely hand powered jacks, handsaws, hand operated lifting jacks, hedge shears, keys and bits for slotted screws, star shaped screws and cross-head screws, hoes, impact socket sets and bits, hand-operated impact wrenches and bits therefore, insulated tools namely screwdrivers, pliers, wrenches and scissors, Hand tools and implements namely utility knives, lawn edge irons, hand-held lawn rakes, lawn shears, long shafted tools in the nature of spades, loppers, mallets, mini rakes, mini hand saws, mitre box, hand operated torque multipliers, hand operated cutting nippers, nut drivers, plasterboard tools namely trowels, plasterer's rails, namely hand-held bars with metal teeth or blades for scratching stones, façades, coatings, plaster moldings, pliers, handoperated tools for bending pipe, poles, hand-operated post hole diggers, manually operated tree pruners, pruning knives, pruning shears, pry bars, Hand tools and implements, namely nail pullers, punches, ratchet wrenches, rakes, rasps, riveting tools, saws, scissors, hand-operated scrapers for removing rust and paint, screw extractors, screwdrivers, secateurs, sharpeners for steel, knives, chisels, chains, shears, shovels, hand operated cutting snips, socket spanners and wrenches, socket sets, spades, spanners, carpenter squares (hand tools), extension bars for hand tools, namely for pruning, tree pruners, Hand tools and implements, namely torque multipliers, handheld torque screwdrivers, trowels, tube cutters and benders, tweezers, wad punches, weeding blades, weeding forks, wedges, wires strippers, wrecking bars, vices, wire cutters, adjustable wrenches, torque wrenches, pipe wrenches

Class 07

(2) Machines and machine tools, namely power operated tools namely air-powered tools and pistol shaped air-powered tools namely spray guns for paint, drills, rivet guns, pneumatic ratchet wrenches, cut off tools, grinders, air hammers, blow guns and hose; band saws, circular saw blades, impact sockets, impact wrenches, electric solders and electric soldering irons and spare tips therefore, jigsaw blades, machine powered jacks, pneumatic and electric secateurs, pneumatic hand held power driven grinders, pneumatic manual ratchet wrenches, pneumatic sanders, pneumatic screwdrivers, electric hand drills, power hole saws, power saw blades, electric hand power tools namely rotary burrs, reciprocating saw blades for power saws, reciprocating saws, rotary burrs, compressors for inflating tires, tyre mounting machines, tyre pressing machines, power-operating tyre removing machines, tyre trimming machines, power operated jacks, power operated lifts for moving, parking and storing land vehicles, soldering machines

Class 08

(3) Hand tools and implements, namely axes, balcony tools in the nature of digging spades and forks, bit drivers for hand tools, bits for hand tools, bolt cutters, hand jacks, bow saws, hand-operated automotive repair tools namely disc brake piston tools, forestry and carpentry tools namely breaking bars, pry bars, felling bars, felling levers, wrecking bars, bulb planters, cable cutters, gouges and chisels, blades for hand saws, woodworking clamps, Hand tools and implements, namely cold chisels, hand cultivators, handoperated cutters being garden tools and knives, daisy grubbers, hand-operated dibbers, hand-held drills, drill bits for hand drills, edge shears, pliers, engine timing tool sets, hand-operated nail extractors, hand files, digging forks, grafting knives, grass shears, grinding stones, hacksaw blades, hand operated hammers, hand hacksaw frames; Hand tools and implements, namely hand powered jacks, handsaws, hand operated lifting jacks, hedge shears, keys and bits for slotted screws, star shaped screws and cross-head screws, hoes, impact socket sets and bits, hand-operated impact wrenches and bits

therefore; insulated tools namely screwdrivers, pliers, wrenches and scissors; Hand tools and implements namely utility knives, lawn edge irons, hand-held lawn rakes, lawn shears, long shafted tools in the nature of spades, loppers, mallets, mini rakes, mini hand saws, mitre box, hand operated torque multipliers, hand operated cutting nippers, nut drivers, plasterboard tools namely trowels, plasterer's rails, namely hand-held bars with metal teeth or blades for scratching stones, façades, coatings, plaster moldings; pliers, hand-operated tools for bending pipe, poles, hand-operated post hole diggers, manually operated tree pruners, pruning knives, pruning shears, pry bars; Hand tools and implements, namely nail pullers, punches, ratchet wrenches, rakes, rasps, riveting tools, saws, scissors, hand-operated scrapers for removing rust and paint, screw extractors, screwdrivers, secateurs, sharpeners for steel, knives, chisels, chains, shears, shovels, hand operated cutting snips, socket spanners and wrenches, socket sets, spades, spanners, carpenter squares (hand tools), extension bars for hand tools, namely for pruning, tree pruners; Hand tools and implements, namely torque multipliers, handheld torque screwdrivers, trowels, tube cutters and benders, tweezers, wad punches, weeding blades, weeding forks, wedges, wires strippers, wrecking bars, vices, wire cutters, adjustable wrenches, torque wrenches, pipe wrenches

Class 09

(4) Weighing, measuring and monitoring apparatus and instruments, namely tools for setting engine timing, measuring tapes and measuring wheels; tyre pressure and tread depth gauges; slide and measuring rules; plumb levels; square rulers for (measuring); apparatus and instruments for inspection and analysis, namely endoscopes and videoscopes for automotive inspection and analysis; battery jump starters; vehicle battery chargers and charging cables; battery starter cables; battery testers; testers for electrical plugs and sockets; brake fluid testers

Class 12

(5) Tool trolleys

Class 20

(6) Tool storage cabinets; tool storage racks; work benches; plastic tool boxes sold empty; plastic inserts [trays] for tool boxes; non-metal tool boxes specially designed for hand tools and implements, namely axes, balcony tools in the nature of digging spades and forks, bit drivers for hand tools, bits for hand tools, bolt cutters, hand jacks, bow saws, hand-operated automotive repair tools namely disc brake piston tools, forestry and carpentry tools namely breaking bars, pry bars, felling bars, felling levers, wrecking bars, bulb planters, cable cutters, gouges and chisels, blades for hand saws, woodworking clamps, Hand tools and implements, namely cold chisels, hand cultivators, hand-operated cutters being garden tools and knives, daisy grubbers, hand-operated dibbers, hand-held drills, drill bits for hand drills, edge shears, pliers, engine timing tool sets, hand-operated nail extractors, hand files, digging forks, grafting knives, grass shears, grinding stones, hacksaw blades, hand operated hammers, hand hacksaw frames, Hand tools and implements, namely hand powered jacks, handsaws, hand operated lifting jacks, hedge shears, keys and bits for slotted screws, star shaped screws and cross-head screws, hoes, impact socket sets and bits, hand-operated impact wrenches and bits therefore, insulated tools namely screwdrivers, pliers, wrenches and scissors, Hand tools and implements namely utility knives, lawn edge irons, hand-held lawn rakes, lawn shears, long shafted tools in the nature of spades, loppers, mallets, mini rakes, mini hand saws, mitre box, hand operated torque multipliers, hand operated cutting nippers, nut drivers, plasterboard tools namely trowels, plasterer's rails, namely hand-held bars with metal teeth or blades for scratching stones, façades, coatings, plaster moldings, pliers, hand-operated tools for bending pipe, poles, hand-operated post hole diggers, manually operated tree pruners, pruning knives, pruning shears, pry bars, Hand tools and implements, namely nail pullers, punches, ratchet wrenches, rakes, rasps, riveting tools, saws, scissors, hand-operated

scrapers for removing rust and paint, screw extractors, screwdrivers, secateurs, sharpeners for steel, knives, chisels, chains, shears, shovels, hand operated cutting snips, socket spanners and wrenches, socket sets, spades, spanners, carpenter squares (hand tools), extension bars for hand tools, namely for pruning, tree pruners, Hand tools and implements, namely torque multipliers, handheld torque screwdrivers, trowels, tube cutters and benders, tweezers, wad punches, weeding blades, weeding forks, wedges, wires strippers, wrecking bars, vices, wire cutters, adjustable wrenches, torque wrenches, pipe wrenches; non-metal tool boxes specifically designed for machines and machine tools, namely power operated tools namely air-powered tools and pistol shaped airpowered tools namely spray guns for paint, drills, rivet guns, pneumatic ratchet wrenches, cut off tools, grinders, air hammers, blow guns and hose, band saws, circular saw blades, impact sockets, impact wrenches, electric solders and electric soldering irons and spare tips therefore, jigsaw blades, machine powered jacks, pneumatic and electric secateurs, pneumatic hand held power driven grinders, pneumatic manual ratchet wrenches, pneumatic sanders, pneumatic screwdrivers, electric hand drills, power hole saws, power saw blades, electric hand power tools namely rotary burrs, reciprocating saw blades for power saws, reciprocating saws, rotary burrs, compressors for inflating tires, tyre mounting machines, tyre pressing machines, power-operating tyre removing machines, tyre trimming machines, power operated jacks, power operated lifts for moving, parking and storing land vehicles, soldering machines

computer programmes for document management; computer programs and software for image processing; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for converting document images into electronic formats; computer software for creating and inserting metatags into documents and information; computer software for creating searchable databases; computer software for database management; computer software for image processing; computer software for managing retail store customer accounts; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software to automate data warehousing; accounting software; artificial intelligence software for autonomous vehicles; augmented reality computer game software; augmented reality game software; augmented reality software for cinematography; augmented reality software for creating maps; augmented reality software for medical teaching; augmented reality software for pilot training; augmented reality software for use in mobile phones for integrating electronic data with real world environments; augmented reality training simulation software in the field of aviation; augmented reality training

simulation software in the field of cinematography; augmented reality software for playing computer games; automated debris management system software for use in cleaning up after major disasters; automated microscope and operating software sold as a unit for use in laboratory operations; battery monitoring devices that may be attached to a battery to monitor the performance of the battery and operating software for use therewith, sold as a unit; bioinformatics software; BIOS [basic input/output system] software; casino management software; communication software to access data stored on an oximeter and transfer data to another device; compiler software; computer anti-virus software; computer application software for handheld computers that allows users to access and browse online profiles of pet care service providers; computer application software for mobile phones for use in database management; computer application software for mobile phones that allows users to access and browse online profiles of pet care service providers; computer application software for route planning and driver assistance, for use on mobile phones, portable media players, handheld computers and in automobiles; computer application software for streaming audio-visual media recordings featuring topics of instruction in the field of material science via the internet; computer application software for streaming audio-visual media recordings featuring topics of instruction in the fields of mechanical engineering, chemical engineering and electrical engineering via the internet; computer application software for tablet devices that allows users to access and browse online profiles of pet care service providers; computer application software in playing video and computer games; computer chatbot software for simulating conversations; computer communications software to allow customers to access bank account information and transact bank business; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer fingerprint imaging software; computer fingerprint scanning software; computer firewall software; computer game software; computer game software downloadable from a global computer network; computer game software downloadable via a global computer network; computer game software for game machines; computer game software for playing online betting games; computer game software for playing online casino games; computer game software for playing online gambling games; computer game software for playing online games of skill; computer game software for playing online prize games; computer game software for use on cellular phones; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer games; computer games in the field of basketball; computer gaming software for recreational game playing purposes; computer hardware and computer software for database management; computer hardware and computer software for retail inventory management, sold as a unit; computer hardware and software for charging electric storage batteries and electric batteries for vehicles; computer hardware and software for database management; computer hardware and software for processing digital music files; computer hardware and software for processing financial payments for electric vehicle charging stations; computer hardware and software for setting up and configuring local area networks; computer hardware and software for setting up and configuring wide area networks; computer hardware and software system for tracking people, objects and pets using GPS data on a device on the tracked people, objects and pets; computer operating system software; computer programmes for document management; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer screen saver software; computer screen saver software, recorded or downloadable; computer screensaver software; computer search engine software; computer software and applications for electric vehicle navigation; computer software and databases for use in diagnosis, repair and configuration of computers; computer software and firmware for playing games of chance on

dedicated gaming consoles; computer software and firmware for playing games of chance on reel based slot machines; computer software and firmware for playing games of chance on video based slot machines; computer software and firmware for playing games of chance on video lottery terminals; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for accessing email and text messages; computer software for accessing information directories that may be downloaded from the global computer network; computer software for accessing, browsing and searching online databases; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for administering employee payroll; computer software for administration of computer local area networks; computer software for administration of computer networks; computer software for application and database integration; computer software for assisting developers in creating program code for use in mobile internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs; computer software for authorising access to data bases; computer software for authorising access to databases; computer software for biometric gait recognition analysis; computer software for bitcoin data mining; computer software for blockchain data mining; computer software for calculation of operational and status data collected from metalworking machines and metalworking tools for use in determining the status of such machines and tools and for optimizing the use and efficiency of such machines and tools; computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; computer software for connecting computers and for enabling cloud computing; computer software for contact tracing and tracking of COVID-19 and other infectious diseases; computer software for controlling and managing access server applications; computer software for controlling and managing patient medical information; computer software for controlling and operating laser rangefinders; computer software for converting document images into electronic formats; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating digitized patterns; computer software for creating maps; computer software for creating music; computer software for creating searchable databases; computer software for creating searchable databases of information and data; computer software for creating video games; computer software for creating, sending and receiving e-mail; computer software for cross blockchain transfers; computer software for cryptocurrency asset management; computer software for customizing wireless network access for end users; computer software for data deduplication; computer software for data security; computer software for database management; computer software for developing, building, and operating consumer blockchain applications; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for document management; computer software for editing images, sound, and video; computer software for editing music and for editing digital audio recordings; computer software for electronic trading of currency; computer software for electronic trading of virtual currency; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for global positioning systems; computer software for graphic designing and editing; computer software for image processing; computer software for interacting with blockchain platforms; computer software for inventory management; computer software for language training; computer software for language translations; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; computer software for managing retail store customer accounts; computer software for managing transactional data, providing statistical analysis, and producing notifications and reports in the field of warehousing

and distribution; computer software for mathematical calculation; computer software for medical imaging; computer software for monitoring computer network access and activity; computer software for oil and gas reservoir analysis; computer software for operating an electronic coffee maker; computer software for operating automobile fuel cell batteries; computer software for operating computer games on the internet; computer software for operating fuel cell system stacks; computer software for operating system programs; computer software for optical character recognition; computer software for ordering, tracking, and reviewing whole bean and ground coffees; computer software for organising food recipes, monitoring calorie intake, and weigh control; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for producing financial models; computer software for project management; computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; computer software for pulmonary, cardiovascular and edema analysis for use in small animal research studies; computer software for recording and displaying motor racing information; computer software for redistricting, namely, aggregating smaller geographical areas into multiple larger areas; computer software for running computer games on the internet; computer software for running development programs and application programs in a common development environment; computer software for scanning, digitizing, altering and retouching of photographs; computer software for scientific analysis of genetic sequences; computer software for synchronizing data between hand-held or portable computers and host computers; computer software for tax planning, tax calculation, tax return preparation and tax return filing; computer software for text editing; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for the design, development and updating of digital electronic labels; computer software for the management of commercial printing companies; computer software for the management of sales; computer software for the operation of camera drones; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use as an application programming interface (API) for use in the fields of image content analysis; computer software for use as an application programming interface (API) for use in the fields of natural language processing; computer software for use as an application programming interface (API) for use in the fields of speech recognition; computer software for use as an application programming interface (API) for use in the fields of virtualization; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in creating and designing websites; computer software for use in customer relationship management (CRM); computer software for use in database management; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in integrated circuit design; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in map making; computer software for use in migrating between different computer network operating systems; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer software for use in the encryption and decryption of digital files; computer software for use in the management of payroll; computer software for validating address and zone information; computer software for video editing;

computer software for virtual telephone cards; computer software for visual art designing and editing; computer software for visualization in the nature of graphical representation and analysis of satellites; computer software for word processing; computer software namely non-fungible tokens for facilitating commercial transactions; computer software platforms for social networking; computer software that allows transmission of graphics to mobile telephones; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software to allow users to perform electronic payment transactions; computer software to automate data warehousing; computer software to calculate and charge sales tax and to create reports to pay sales tax to appropriate tax agencies; computer software to create and manage budgets; computer software to create price quote estimates and transfer price quote estimates to invoices; computer software to create, customize, print, export, and e-mail financial reports, business reports, balance sheets, profit and loss statements, cash flow statements, and taxable sales reports; computer software to create, customize, print, export, and e-mail purchase orders; computer software to create, print, and track checks and purchase orders; computer software to design and monitor pharmaceutical treatment plans, track patient compliance and verify treatment outcomes of prescription medication; computer software to enable accessing information in electronic form via computer and communication networks in the field of news; computer software to enable downloading information in electronic form via computer and communication networks in the field of news; computer software to enable providing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of news; computer software to enable teleconferencing services; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer software to enable uploading information in electronic form via computer and communication networks in the field of news; computer software to enable videoconferencing services; computer software to manage customer lists, e-mail and print sales forms, and track running balances; computer software to track sales, expenses, and payments; computer software used for running cloud computing based applications; computer software, namely cryptocurrency blockchain for peer-to-peer sharing of financial data; computer software, namely cryptocurrency tokens for facilitating commercial transactions; computer software, namely, game engine software for video game development and operation; computer video games; computer virtualization software; computer virtualization software for running a virtual desktop infrastructure (VDI) through a computer network; computer-aided manufacturing (CAM) software for general use; credit screening software; data compression software; database management software; database management software in the field of baseball cards; decoder software; desktop publishing software; diagnostic computer software for processing and reporting fuel cell current and voltage testing information for use in fuel cell test stations; digital video recording software for IP (Internet protocol) video surveillance; discs bearing computer game software; dongles being computer hardware for preventing the unauthorized copying or use of computer software; downloadable calendaring software; downloadable computer agronomic and agricultural software for collecting, organizing, tracking, and analyzing agronomic and weather information; downloadable computer anti-virus software; downloadable computer application software for computer game; downloadable computer application software for playing video games; downloadable computer application software to track and monitor agricultural and horticultural crop yield; downloadable computer chatbot software for providing business management information; downloadable computer chatbot software for simulating conversations; downloadable computer game software;

downloadable computer game software for gambling machines; downloadable computer game software for use on mobile and cellular phones; downloadable computer game software via a global computer network and wireless devices; downloadable computer security software; downloadable computer software applications for accessing dietary supplement information; downloadable computer software applications for accessing skin care information; downloadable computer software for accessing digital tokens and non-fungible tokens (NFTs); downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable computer software for assisting developers in creating interactive computer games; downloadable computer software for broadcasting and streaming of digital media content sessions; downloadable computer software for creating and tracking lease-purchase financing agreements; downloadable computer software for creating digital tokens and non-fungible tokens (NFTs); downloadable computer software for creating music videos; downloadable computer software for editing cinematographic film; downloadable computer software for exchanging digital tokens and non-fungible tokens (NFTs); downloadable computer software for hosting web-based meetings and classes; downloadable computer software for implementing engineering analysis of structure against applied loads; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; downloadable computer software for managing digital tokens and non-fungible tokens (NFTs); downloadable computer software for managing electronic payment transactions using distributed ledger technology (DLT); downloadable computer software for managing subscription services for pet products; downloadable computer software for managing user health information, namely, tracking, compliance and motivation to keep a consistent sleep schedule for optimal user health; downloadable computer software for matching computer game spectators with live digital media content sessions; downloadable computer software for mobile phones for providing classified advertising space accessible via a global computer network; downloadable computer software for monitoring glucose levels and transmitting medical data; downloadable computer software for online appointment scheduling; downloadable computer software for operating smart home hubs for connecting, integrating and controlling networked consumer electronic devices, home devices and temperature controls via a wireless computer network; downloadable computer software for producing cryptocurrency wallets built on the blockchain to allow consumers to earn, use and trade non-fungible tokens for facilitating commercial transactions; downloadable computer software for receiving, processing, analyzing, transmitting and displaying user sleep information, namely, motion, position, breathing, heart rate, respiration, quality of sleep, hours slept, and heart and respiration issues; downloadable computer software for reviewing and purchasing pet products; downloadable computer software for selling digital tokens and nonfungible tokens (NFTs); downloadable computer software for sending and receiving digital tokens and non-fungible tokens (NFTs); downloadable computer software for smart home hubs for the operation of smart home devices; downloadable computer software for storing digital tokens and non-fungible tokens (NFTs); downloadable computer software for streaming videos from digital media content sessions; downloadable computer software for the analysis of individual personality characteristics and prediction of individual employment performance; downloadable computer software for the structural and functional analysis of genomes; downloadable computer software for tracking driver behavior; downloadable computer software for tracking driver behaviour; downloadable computer software for transmitting emails from a subscriber list; downloadable computer software for use as a digital wallet; downloadable computer software for use as an e-wallet; downloadable computer software for use as screensavers and wallpaper; downloadable computer software for use in creating avatars for playing games over the internet; downloadable computer software for use in viewing data on the internet; downloadable computer software for validating digital tokens and nonfungible tokens (NFTs); downloadable computer software for word processing; downloadable

computer software in the field of memory training activities sold as a unit with positionable figures; downloadable computer software of photo slideshow; downloadable computer software platform for assisting programming developers to collaborate on digital computer programming code as used in multiple application programs; downloadable computer software platform for assisting programming developers to collaborate on digital computer programming code technical documents as used in multiple application programs; downloadable computer software platform for assisting programming developers to collaborate on software programming code performance issues as used in multiple application programs; downloadable computer software that assists computers in deploying parallel applications and performing parallel computations; downloadable computer software to access and display computer browsers; downloadable computer software to access and view computer wallpaper; downloadable computer software, and computer application software for use with mobile phones and tablet computers, designed to facilitate professional networking between and among established professionals and emerging talent within creative industries; downloadable computer software, namely, software for diabetes management and glucose tracking; downloadable educational software containing topics of instruction in meditation; downloadable educational software containing topics of instruction in mental health and wellness; downloadable educational software containing topics of instruction in personal growth in the field of self-awareness; downloadable educational software containing topics of instruction in the field of spiritual growth; downloadable electronic data files and databases, namely, business and tax forms, for use with computer software; downloadable electronic mail software; downloadable expense management software; downloadable game software for use on computers and mobile devices for on-line gambling; downloadable geographic information system [GIS] software; downloadable instant messaging software; downloadable instant messaging software for electronically exchanging text messages, photographs, graphics, music, audio books, podcasts, and voice messages; downloadable interactive entertainment software for playing computer games; downloadable interactive entertainment software for playing video games; downloadable inventory management software; downloadable invoicing software; downloadable metronome software applications; downloadable mobile application software for monitoring and recording user sleep patterns, for generating sounds to aid in sleep, for regulating ambient sleep temperature, for monitoring ambient room lighting and noise, and for providing alarm clock functions; downloadable mobile application software for ordering, tracking, and posting reviews whole bean and ground coffees; downloadable mobile application software for the remote operation of an electronic coffee maker; downloadable mobile application software to create, print, e-mail and save purchase orders and for tracking the delivery of purchase orders; downloadable software and mobile applications for requesting insurance quotes, managing insurance policies, and for the submission of insurance claims for administrative processing; downloadable software application for a mobile device or computer that provides customized information about the functions and features of a motor vehicle; downloadable software application for a mobile device or computer that provides users the ability to remotely control features of their motor vehicle; downloadable software as a medical device [SaMD] for calibrating and changing the settings of a cochlear implant based on personalized patient data; downloadable software as a medical device [SaMD] for remote monitoring of labor progress by processing uterine contraction and fetal heart rate data during labor and child birth; downloadable software as a medical device [SaMD] for wireless remote control of and synchronization of computed tomography [CT] apparatus; downloadable software as a medical device [SaMD] for wireless remote control of and synchronization of x-ray machines; downloadable software for assisting developers in sharing and collaboratively developing computer software programming code; downloadable software for configuring, quoting and ordering electrical distribution products; downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; downloadable software for instant messaging and

electronic mail services; downloadable software for monitoring user sleep patterns and heart and respiration activity patterns, for recording and regulating ambient room temperature to be integrated with users smart phone through a wireless computer network; downloadable software for monitoring wearable sleep monitors; downloadable software for playing computer games via web browser, gaming console, and cellular phone for playing video games; downloadable software for recording and analyzing real-time location data to predict the spread of an illness in a community; downloadable software for the collection of donations for charitable purposes; downloadable software for the home automation of electric control systems for electrical power switches; downloadable software for the home automation of electric control systems for home security systems; downloadable software for the home automation of electric control systems for HVAC; downloadable software for the home automation of electric control systems for kitchen appliances; downloadable software for the home automation of electric control systems for lighting; downloadable software for the operation of a mobile application for grocery delivery and ordering; downloadable software for the redirection of electronic messages to alternate addresses; downloadable software for tracking and managing vehicle maintenance; downloadable software in the nature of a mobile application for facilitating crowdfunding; downloadable software in the nature of a mobile application for food delivery and ordering; downloadable software in the nature of a mobile application for providing beauty related articles covering the latest styles and trends in the field of cosmetics and make-up; downloadable software in the nature of a mobile application for providing beauty related articles covering the latest styles and trends in the field of hair care, skincare, and nail care; downloadable software in the nature of a mobile application for use in vehicle rental and leasing services; downloadable software in the nature of a mobile application for virtual kitchen delivery and ordering; downloadable software in the nature of mobile applications for providing information and making reservations for transportation, travel, flights, vacations, holidays and bookings for temporary lodging and accommodations; downloadable speech recognition software; downloadable trivia game software; downloadable virtual assistant software; e-commerce software to allow users to perform electronic business transactions via a global computer network; e-mail security software; education software containing topics of instruction in the field of materials science; educational software containing topics of instruction in astronomy; educational software containing topics of instruction in math; educational software containing topics of instruction in nutrition; educational software containing topics of instruction in the fields of mechanical engineering, chemical engineering and electrical engineering; educational software for children; electrical leak detection hardware with embedded operating system software; electronic alert system for scuba divers comprised primarily of computer software, electric transducer, vibrating motor, antenna and lights; electronic database management software in the field of agriculture and horticulture; electronic game software; electronic game software for cellular phones; electronic game software for handheld electronic devices; electronic mail software; elevator performance monitoring system, namely, embedded software in controllers for monitoring elevator functions; embedded operating software; facial analysis software; facial recognition software; facial scanning software; facilities management software to control building environmental access and security systems; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; LAN (local area network) operating software; LAN [local area network] operating software; library management software; lighting control software for use in commercial and industrial facilities; local area network [LAN] operating software; local area network operating software; machine learning software used in computer e-mail filtering programs; machine learning software used in computer genetic algorithms programs; machine learning software used in computer intrusion networks detection programs; machine learning software used in computer speech analysis programs; marine control system, namely, dynamic positioning system hardware and software for vessel

positioning and vessel management; middleware to filter noisy and redundant raw data for radio-frequency identification (RFID) software; mobile application software for booking taxis; mobile application software for the delivery and ordering of groceries; motion control software for autonomous vehicles; multimedia software for teaching language training; multimedia software for teaching piano; music composition software; music-composition software; network access server operating software; network management computer software; operating and user instructions stored in digital form for computers and computer software; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; operating software for network access servers; operating system software; optical discs containing software and programming, used to set-up and calibrate televisions and video output devices; pattern recognition systems composed of computer chips, computer hardware and software; payment gateway software for linking e-commerce websites to credit card processing networks; PDF creation and conversion software; personal accounting software; pre-recorded floppy discs containing spreadsheet software; prerecorded floppy discs containing word processing software; privacy protection software; quantum software development kits; recorded and downloadable computer software for monitoring and managing patient medical records; recorded computer anti-virus software; recorded computer gaming software for gambling; recorded software for the redirection of electronic messages to alternate addresses; routers with embedded network configuration software; security software; small business accounting software; software applications for mobile devices for monitoring and managing patient medical information; software as a medical device [SaMD], downloadable, for adjusting infusion pump settings based on personalized patient data; software as a medical device [SaMD], downloadable, for analyzing heart rate data; software as a medical device [SaMD], downloadable, for detecting interrupted breathing during sleep and alerting the sleeper; software as a medical device [SaMD], downloadable, for measuring and displaying the electrical signal produced by the heart; software as a medical device [SaMD], downloadable, for the diagnosis of balance disorders by recording, viewing, or analyzing eye movements; software as a medical device [SaMD], downloadable, for tracking physical changes of skin moles to determine the risk of melanoma; software as a medical device [SaMD], downloadable, for use as electrocardiographs; software for accessing and searching online databases and websites; software for administrative processing of storage, packaging, delivery and transportation of goods; software for authenticating the identity of a payer; software for cloud infrastructure management and automation; software for computer aided design CAD; software for computer aided mechanical design; software for creating photo slide shows; software for creating virtual picture frames; software for creating virtual reality games; software for cryptocurrency exchange; software for dosimetry purposes in the field of radiotherapy; software for ensuring the security of electronic mail; software for environmental monitoring of user sleep environments in relation to ambient temperature and noise; software for facilitating secure credit card transactions; software for GPS navigation systems; software for operating computer games; software for operating laser altimeters; software for optical character recognition; software for playing video games; software for processing credit and debit card payments; software for processing digital images of the anatomy for diagnosis and treatment; software for processing electronic bill payments; software for processing images, graphics and text; software for providing online trading platform for digital assets; software for route planning and driver assistance; software for satellite navigation systems; software for the creation of digital infrastructure for use by autonomous vehicles; software for the integration of artificial intelligence and machine learning in the field of Big Data; software for the management of a data center network; software for the management of electric vehicle charging stations; software for the operation of a data center network; software for the remote control, monitoring and command of home appliances; software for use in the evaluation and analysis of data utilizing computational linguistics; software for use in the evaluation

and analysis of data utilizing machine learning; software in the field of human resources management; software to control and improve audio equipment sound quality; speech analytics software; speech and voice recognition software; speech recognition software; speech-to-text conversion software; sports training apparatus featuring electronic sensors and software to analyze bat swings and electronically display results; tax management software; tax preparation software; turbine control systems comprising electronic sensors and related software; universal serial bus [USB] operating software;

Services

Class 42

advisory services in the field of product development and quality improvement of software; building and maintaining websites; cloud computing providing software for database management; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming services; computer programming services for commercial analysis and reporting; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer system design; computer systems design; computer systems integration services; computer systems monitoring services; computer time sharing; computer website design; configuration of computer networks; consultancy in the field of software design; consultancy in the field of webpage design; consultation services relating to computer software; conversion of data or documents from physical to electronic media; creating and designing web pages for others; creating and maintaining web sites for others; creating and maintaining weblogs for others; creating home pages for others; creating of computer programs for others; creating of home pages for computer networks for others; creating web pages for others; creation and maintenance of web sites for others; creation and provision of web pages to and for third parties; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; creation of control programs for electric operation control and drive modules; creation, design, development and maintenance of web sites for third parties; data migration services; database design and development; database development services; debugging computer software for others; design and creating web sites for others; design and development of computer hardware and software; design and development of computer software; design and development of computer software for supply chain logistics; design and development of computers and programs for computers; design and development of electronic data security systems; design and maintenance of computer sites for third parties; design and maintenance of web sites for others; design and testing of new products for others; design and writing of computer software; design of computer database; design of computer databases; design of computer hardware; design of computer sites; design of computers; design of computers for others; design of home pages; design of homepages and websites; design, creation, hosting and maintenance of internet sites for third parties; design, creation, hosting, maintenance of websites for others; design, development and implementation of software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design, updating and rental of computer software; design, upgrading and rental of computer software; designing and creating web sites for others; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; designing websites for the advertising purposes of others; developing and updating computer software; developing computer programs for electronic cash register systems; developing computer software; development and creation of computer programmes for data

processing; development of data processing programs by order of third parties; development of software for secure network operations; development, design and updating of home pages; digitization of documents; digitizing of photographs; document data transfer from one computer format to another; elaboration and maintenance of web sites for third parties; homepage and webpage design; installation and maintenance of computer software; installation of computer software; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; installation, repair and maintenance of computer software; installing computer programs; internet security consultancy; leasing of computer programs; maintenance and updating of computer software; maintenance and upgrading of computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of software for Internet access; maintenance of websites for others; managing web sites for others; monitoring of computer systems by remote access; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; preparation, update, installation and maintenance of computer software; providing information on computer technology and programming via a web site; providing quality assurance in the field of computer software; rental and updating of software for data processing; rental of a database server to third parties; rental of computer software; rental of software for data processing; rental of web servers; software as a service (SAAS) provider in the field of software for small business accounting; software design and development; software development in the framework of software publishing; technical support in the form of monitoring global computer network systems; technical writing; testing of computer software; testing of computers; updating and rental of software for data processing; updating of computer programs for third parties; updating of computer software; updating of software for data processing; updating websites for others; upgrading of computer software; web site design consultancy; website design; website design consultancy; website development for others; writing and updating computer software; advice relating to the design of computer software; advisory services in the field of product development and quality improvement of software; application service provider (ASP) featuring ecommerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer game software; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for accessing, browsing and searching online databases; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for dictation; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for enabling hands-free use of a mobile phone through voice recognition; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for global positioning and for providing travel directions; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for making travel arrangements; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for scheduling appointments, reminders, and events on an electronic calendar; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for storing, organizing, and accessing phone numbers and addresses; application service provider (ASP) services featuring computer software and providing online nondownloadable software, namely, computer software for the redirection of messages and e-mails, to one or more electronic handheld devices; application service provider

(ASP) services featuring computer software and providing online non-downloadable software, namely, computer software to assist in making reservations at hotels and restaurants; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software used to process voice commands and create audio responses to voice commands; application service provider (ASP) services featuring the hosting of computer software applications of others; application service provider featuring application programming interface (api) software for analyzing market data; application service provider featuring application programming interface (api) software for gathering market data; building and maintaining websites; cloud computing providing software for database management; computer hardware and software design; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming services; computer programming services for commercial analysis and reporting; computer programming services for others in the field of software configuration management; computer services, namely, assisting others with the implementation, use and operation of computer hardware, computer software, and consumer electronics; computer software consultancy; computer software consulting; computer software design; computer software design and development; computer software design and updating; computer software design for others; computer software development; computer software development in the field of mobile applications; computer software engineering; computer software installation and maintenance; computer software programming services; computer software project management services; computer software system design; computer software technical support services; computer system design; computer systems design; computer systems integration services; computer systems monitoring services; computer technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer time sharing; computer website design; configuration of computer hardware using software; configuration of computer networks; configuration of computer software; consultancy and information services relating to the rental of computer software; consultancy in the field of software design; consultancy in the field of webpage design; consultancy relating to the updating of computer software; consultation services relating to computer software; consulting in the field of configuration management for computer hardware and software; consulting services in the field of hosting computer software applications; consulting services in the field of software as a service (saas); conversion of data or documents from physical to electronic media; copying of computer software; creating and designing web pages for others; creating and maintaining web sites for others; creating and maintaining weblogs for others; creating home pages for others; creating of computer programs for others; creating of home pages for computer networks for others; creating web pages for others; creation and maintenance of software for blogs; creation and maintenance of web sites for others; creation and provision of web pages to and for third parties; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; creation of control programs for electric operation control and drive modules; creation, design, development and maintenance of web sites for third parties; customization of computer software; data migration services; data security consulting in the field of using encryption, computer hardware and computer software to ensure that data cannot be accessed by unauthorized parties; database design and development; database development services; debugging computer software for others; design and creating web sites for others; design and development of computer game software; design and development of computer game software and virtual reality software; design and development of computer hardware and software; design and development of computer software; design and development of computer software for supply chain logistics; design and development of computers and programs for computers; design and development of data retrieval software; design and development of electronic data security

systems; design and development of energy management software; design and development of navigation systems and route planning software; design and development of software and hardware for producing, recording and processing digital and analogue signals; design and development of software and hardware for signal amplification and transmission; design and development of software and hardware for use in the field of horticulture; design and development of software for control, regulation and monitoring of solar energy systems; design and development of software for electronic television program guides; design and development of software for instant messaging; design and development of software for inventory management; design and development of software, databases, web services and cloud computing infrastructure; design and development of video game software; design and development of virtual private network (VPN) operating software; design and development of virtual reality software; design and development of webpages that allow users to collaboratively develop software; design and maintenance of computer sites for third parties; design and maintenance of web sites for others; design and testing of new products for others; design and writing of computer software; design of computer database; design of computer databases; design of computer hardware; design of computer programs and software for aircraft dashboards; design of computer sites; design of computers; design of computers for others; design of home pages; design of homepages and websites; design, creation, hosting and maintenance of internet sites for third parties; design, creation, hosting, maintenance of websites for others; design, development and implementation of software; design, development and maintenance of cloud based, non downloadable computer AI software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design, updating and rental of computer software; design, upgrading and rental of computer software; designing and creating web sites for others; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; designing websites for the advertising purposes of others; developing and updating computer software; developing computer programs for electronic cash register systems; developing computer software; developing of driver and operating system software; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); development of computer software; development of data processing programs by order of third parties; development of software for secure network operations; development of software for the management of charging stations for charging electric vehicles; development, design and updating of home pages; digitization of documents; digitizing of photographs; document data transfer from one computer format to another; elaboration and maintenance of web sites for third parties; homepage and webpage design; hosting of computer software, web portals and client-server software interfaces allowing users to monitor location and operating status and parameters of remote assets; hosting software of others on a virtual private server; image processing software design; industrial analysis of technology specification of computer software systems of others; industrial research in the field of computer hardware and software systems of others; infrastructure-as-a-service (iaas) services featuring computer software platforms for syncing, storing, archiving, and backing-up data to cloud servers; installation and maintenance of computer software; installation of computer software; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; installation, repair and maintenance of computer software; installation, updating and maintenance of computer software; installing computer programs; intelligent natural language understanding services using cloud-based software technology; intelligent voice recognition services using cloud-based software technology; internet security consultancy; leasing of computer programs; maintaining computer software applications of

others; maintenance and updating of computer software; maintenance and upgrading of computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; maintenance of websites for others; managing web sites for others; manufacturing execution system (MES), namely software as a service featuring software for managing pharmaceutical and biopharmaceutical manufacturing processes; monitoring of computer systems by remote access; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; multimedia and audio-visual software consulting services; online cryptocurrency wallet computer software; platform as a service (PAAS) featuring a computer software platform that facilitates using location information to optimize the ordering, pickup and delivery of goods and services; platform as a service (PaaS) featuring blockchain based software platforms namely, software for transfer or exchange of virtual currencies for data using smart contracts for conducting transaction; platform as a service (PaaS) featuring blockchain based software platforms, namely, software for transfer or exchange of virtual currencies for information and files using smart contracts and conducting transactions; platform as a service (PaaS) featuring computer software enabling users and systems to collaborate (view and change) on data across applications; platform as a service (PaaS) featuring computer software platforms for analyzing communication networks and calculating network usage prices; platform as a service (PaaS) featuring computer software platforms for analyzing global computer information networks and private networks for calculating network usage prices; platform as a service (PaaS) featuring computer software platforms for comparing sportsbook operators; platform as a service (PaaS) featuring computer software platforms for providing virtual medical clinic services; platform as a service (PAAS) featuring computer software platforms for use in the field of financial services for trading derivatives; platform as a service (PaaS) featuring computer software platforms used to facilitate blockchain and distributed ledger technology to support a marketplace for roaming communication services between networks; platform as a service (PaaS) provider featuring computer software platforms for use by employers in employee candidate résumé evaluation and ranking; platform as a service (PaaS) provider featuring computer software platforms for use by employers in job analysis of vacant position requirements; platform as a service (PaaS) provider featuring computer software platforms for use by employers to automatically mask potential bias indicators in an application for employment; platform as a service (PAAS) services featuring computer operating software platforms for the management and connection of third-party Internet of Things (IoT) enabled heating, ventilating and air conditioning (HVAC) systems; platform as a service (PAAS) services featuring computer operating software platforms for the management and connection of third-party Internet of Things (IoT) enabled home entertainment systems; platform as a service (PAAS) services featuring computer operating software platforms for the management and connection of third-party Internet of Things (IoT) enabled household appliances; preparation, update, installation and maintenance of computer software; providing a platform as a service [PaaS] that allows computer software developers to collaboratively develop software via a website; providing consulting in the field of computer technology and software development via a global computer network; providing consulting in the field of software development via a global computer network; providing information about the design and development of computer hardware and software; providing information in the fields of computer hardware and software development; providing information in the fields of computer technology and software development via a global computer network; providing information in the fields of technology and software development via a global computer network; providing information on computer technology and programming via a web site; providing non-downloadable computer software development tools in the field of artificial intelligence; providing non-downloadable computer software development tools in the field of deep

learning; providing non-downloadable computer software development tools in the field of high performance computing; providing non-downloadable computer software development tools in the field of machine learning; providing non-downloadable computer software for implementing a computer programming language; providing non-downloadable computer software for performing numerical computation using data flow graphs; providing non-downloadable computer software for use in converting user-defined data from one computer format to another in the field of artificial intelligence; providing non-downloadable computer software for use in converting user-defined data from one computer format to another in the field of deep learning; providing non-downloadable computer software for use in converting user-defined data from one computer format to another in the field of high performance computing; providing non-downloadable computer software for use in converting user-defined data from one computer format to another in the field of machine learning; providing non-downloadable computer software for use in graphics display; providing non-downloadable computer software for use in modeling in the field of artificial intelligence; providing non-downloadable computer software for use in modeling in the field of deep learning; providing non-downloadable computer software for use in modeling in the field of high performance computing; providing non-downloadable computer software for use in modeling in the field of machine learning; providing non-downloadable computer software for use in testing in the field of artificial intelligence; providing non-downloadable computer software for use in testing in the field of deep learning; providing non-downloadable computer software for use in testing in the field of high performance computing; providing non-downloadable computer software for use in testing in the field of machine learning; providing non-downloadable software applications for managing, operating and connecting Internet of Things (IoT) enabled heating, ventilating and air conditioning (HVAC) systems of third-parties accessible via a website; providing non-downloadable software applications for managing, operating and connecting Internet of Things (IoT) enabled home entertainment systems of thirdparties accessible via a website; providing non-downloadable software applications for managing, operating and connecting Internet of Things (IoT) enabled household appliances of third-parties accessible via a website; providing non-downloadable software for the collection of donations for charitable purposes; providing on-line non-downloadable computer software for use as a cryptocurrency wallet; providing on-line non-downloadable geographic information system (GIS) software; providing on-line non-downloadable software for computing energy savings; providing on-line nondownloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing on-line non-downloadable software for word processing; providing on-line, nondownloadable, internet-based software application for medical billing for physicians and health care institutions; providing online non-downloadable enterprise resource planning (ERP) software in the field of customer relationship management; providing online non-downloadable enterprise resource planning (ERP) software in the field of database management; providing online non-downloadable enterprise resource planning (ERP) software in the field of inventory management; providing online non-downloadable enterprise resource planning (ERP) software in the field of supply chain management; providing quality assurance in the field of computer software; providing quality control consultancy for the computer software development industry; providing quality control for the computer software development industry; providing software as a service (SaaS) services featuring software for the remote management of electric vehicle charging stations; providing software as a service for the administration of a program encouraging the designing of disaster and extreme weather resilient buildings reduce economic losses caused by extreme weather; providing software as a service for the administration of a program encouraging the designing of disaster and extreme weather resilient buildings to reduce property damage caused by natural disasters; providing software as a service for the administration of a program encouraging the designing of disaster and extreme weather resilient commercial structures; providing software as a service for the management of a

program encouraging the designing of disaster and extreme weather resilient buildings; providing software as a service for the management of a program encouraging the designing of disaster and extreme weather resilient buildings to reduce human suffering caused by natural disasters; providing software as a service for the management of a program encouraging the designing of disaster and extreme weather resilient commercial structures to reduce property damage caused by extreme weather; providing software as a service for the operation of a program encouraging the designing of disaster and extreme weather resilient buildings to reduce property damage caused by natural disasters; providing software as a service for the operation of a program encouraging the designing of disaster and extreme weather resilient homes; providing software as a service for the operation of a program encouraging the designing of disaster and extreme weather resilient homes to reduce deaths and injuries caused by extreme weather; providing software as a service, namely providing others with computer software and mobile device software applications for implementing and recording financial transactions in data networks; providing technical information updates of industrial process control computer software via the global computer network; providing temporary use of non-downloadable computer anti-virus software; providing temporary use of non-downloadable computer software for accessing an online marketplace for sellers and buyers in the field of residential real estate; providing temporary use of non-downloadable computer software for accessing digital tokens and non-fungible tokens (NFTs); providing temporary use of non-downloadable computer software for accounting; providing temporary use of non-downloadable computer software for connecting doctors with medical patients and providing medical information to doctors; providing temporary use of non-downloadable computer software for creating digital tokens and non-fungible tokens (NFTs); providing temporary use of nondownloadable computer software for creating music videos; providing temporary use of nondownloadable computer software for exchanging digital tokens and non-fungible tokens (NFTs); providing temporary use of non-downloadable computer software for managing digital tokens and nonfungible tokens (NFTs); providing temporary use of non-downloadable computer software for managing spreadsheets; providing temporary use of non-downloadable computer software for preparing invoices; providing temporary use of non-downloadable computer software for preparing invoices over computer networks, intranets and the internet; providing temporary use of nondownloadable computer software for selling digital tokens and non-fungible tokens (NFTs); providing temporary use of non-downloadable computer software for sending and receiving digital tokens and nonfungible tokens (NFTs); providing temporary use of non-downloadable computer software for shipment processing over computer networks, intranets and the internet; providing temporary use of non-downloadable computer software for storing digital tokens and non-fungible tokens (NFTs); providing temporary use of non-downloadable computer software for tracking documents over computer networks, intranets and the internet; providing temporary use of non-downloadable computer software for tracking freight over computer networks, intranets and the internet; providing temporary use of non-downloadable computer software for tracking packages over computer networks, intranets and the internet; providing temporary use of non-downloadable computer software for use as a word processor in the field of real estate; providing temporary use of non-downloadable computer software for use in allowing users to perform electronic business transactions in the field of real estate; providing temporary use of non-downloadable computer software for use in database management in the field of real estate; providing temporary use of non-downloadable computer software for use in developing and management of spreadsheets in the field of real estate; providing temporary use of non-downloadable computer software for use in inputting and accessing real estate data; providing temporary use of non-downloadable computer software for use in making and receiving offers in the field of real estate; providing temporary use of non-downloadable computer software for use in receiving real estate valuations; providing temporary use of non-downloadable computer software

for use in scheduling inspections in the field of real estate; providing temporary use of non-downloadable computer software for use in the creation and publication of online journals and blogs; providing temporary use of non-downloadable computer software for use in vehicle appraisals; providing temporary use of non-downloadable computer software for use in vehicle damage estimation; providing temporary use of non-downloadable computer software for use in vehicle identification; providing temporary use of non-downloadable computer software for use in vehicle inspection; providing temporary use of non-downloadable computer software for use in vehicle loss valuation; providing temporary use of non-downloadable computer software for use in vehicle repair workflow and tracking; providing temporary use of non-downloadable computer software for use in vehicle repairs; providing temporary use of non-downloadable computer software for validating digital tokens and non-fungible tokens (NFTs); providing temporary use of non-downloadable computer software for viewing real estate images and comparable properties; providing temporary use of non-downloadable computer software to provide access to residential real estate available for sale in the market; providing temporary use of non-downloadable database software for managing information in the field of real estate; providing temporary use of non-downloadable software applications for the integration of artificial intelligence and machine learning in the field of Big Data; providing temporary use of nondownloadable software featuring coursework in the field of mathematics via a website; providing temporary use of non-downloadable software featuring games in the field of mathematics via a website; providing temporary use of non-downloadable software featuring homework in the field of mathematics via a website; providing temporary use of non-downloadable software featuring interactive personalized tutorials in the field of mathematics via a website; providing temporary use of non-downloadable software featuring learning assessments in the field of mathematics via a website; providing temporary use of non-downloadable software featuring progress reports in the field of mathematics via a website; providing temporary use of non-downloadable software featuring written instruction in the field of mathematics via a website; providing temporary use of non-downloadable software for analyzing financial data and generating reports; providing temporary use of nondownloadable software for developing computer games; providing temporary use of nondownloadable software for developing interactive computer games; providing temporary use of nondownloadable software for developing video games; providing temporary use of non-downloadable software for disseminating digital course materials for coursework in the field of mathematics via a website; providing temporary use of non-downloadable software for disseminating digital course materials for games in the field of mathematics via a website; providing temporary use of non-downloadable software for disseminating digital course materials for homework in the field of mathematics via a website; providing temporary use of non-downloadable software for disseminating digital course materials for interactive personalized tutorials in the field of mathematics via a website; providing temporary use of non-downloadable software for disseminating digital course materials for learning assessments in the field of mathematics via a website; providing temporary use of non-downloadable software for disseminating digital course materials for progress reports in the field of mathematics via a website; providing temporary use of non-downloadable software for disseminating digital course materials for written instruction in the field of mathematics via a website; providing temporary use of non-downloadable software for enabling members of an online community to receive and access to cryptocurrency; providing temporary use of non-downloadable software for enabling members of an online community to receive and access to digital currency; providing temporary use of non-downloadable software for enabling members of an online community to receive and access to non-fungible tokens; providing temporary use of non-downloadable software for enabling members of an online community to spend and trade cryptocurrency; providing temporary use of non-downloadable software for enabling members of an online community to spend and trade digital currency; providing temporary use of

nondownloadable software for enabling members of an online community to spend and trade non-fungible tokens; providing temporary use of non-downloadable software to enable content providers to track multimedia content; providing temporary use of on-line non-downloadable computer software for language translation; providing temporary use of on-line non-downloadable computer software for use as an electronic wallet; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; providing temporary use of on-line nondownloadable software development tools; providing temporary use of on-line non-downloadable software for creating school yearbooks; providing temporary use of on-line non-downloadable software for planning school yearbooks; providing temporary use of on-line non-downloadable software for processing electronic payments; providing temporary use of on-line non-downloadable software for retirement planning; providing temporary use of on-line non-downloadable software for submitting school yearbooks; providing temporary use of on-line non-downloadable software for the development of machine learning in the field of computer technology; providing temporary use of online non-downloadable software for uploading school yearbooks; providing temporary use of on-line non-downloadable software for web site development; providing temporary use of online nondownloadable cloud-based software for use by travelers to make travel arrangements; providing temporary use of online non-downloadable computer chatbot software for simulating conversations; providing temporary use of online non-downloadable personal finance software; providing temporary use of online non-downloadable software applications for collecting local microclimate data and assessing soil and turf conditions; providing temporary use of online non-downloadable software for controlling access to financial information via electronic permission settings; providing temporary use of online non-downloadable software for creating, analysing and running programs for quantum algorithms; providing temporary use of online non-downloadable software for creating, analysing and running programs for quantum computers; providing temporary use of online non-downloadable software for creating, analysing and running programs for quantum simulations; providing temporary use of online nondownloadable software for credit card invoicing; providing temporary use of online non-downloadable software for credit card payment processing; providing temporary use of online non-downloadable software for inventory management; providing temporary use of online non-downloadable software for online backup of electronic files; providing temporary use of online non-downloadable software for playing games; providing temporary use of online non-downloadable software for use in data collections and account receivables data; providing temporary use of online non-downloadable software for use in electronically transmitting non-fungible tokens; providing temporary use of online non-downloadable software for use in electronically accepting digital currency; providing temporary use of online non-downloadable software for use in electronically accepting non-fungible tokens; providing temporary use of online non-downloadable software for use in electronically sending and receiving digital currency; providing temporary use of online non-downloadable software for use in electronically sending and receiving non-fungible tokens; providing temporary use of online nondownloadable software for use in electronically storing digital currency; providing temporary use of online non-downloadable software for use in electronically storing non-fungible tokens; providing temporary use of online non-downloadable software for use in electronically trading digital currency; providing temporary use of online non-downloadable software for use in electronically trading non-fungible tokens; providing temporary use of online non-downloadable software for use in electronically transmitting digital currency; providing temporary use of online non-downloadable software for use in the field of project costing management; providing temporary use of online non-downloadable software for use in the field of tax management; providing temporary use of online non-downloadable software to calculate and charge sales tax and to create reports to pay sales tax to appropriate tax agencies; providing temporary use of online software for collecting, managing and analyzing data obtained from fleets

of vehicles; rental and updating of software for data processing; rental of a database server to third parties; rental of computer software; rental of computer software for developing video games; rental of computer software for providing in-room entertainment, on-demand movies, television broadcasts, and internet access; rental of software for data processing; rental of software for importing and managing data; rental of software for Internet access; rental of software for inventory management; rental of software for web site development; rental of web servers; rental of word processors being software; repair of computer software; research in the field of computer software; research, development and technical services in the nature of civil engineering, electrical engineering, computer engineering and software engineering services in the field of remote operation in the field of mining and of maintenance of mining equipment; smartphone software design; software as a service (SaaS) featuring agronomic and agricultural software for collecting, organizing, tracking, and analyzing agronomic and weather information; software as a service (SAAS) featuring software for running cloud computing based applications; software as a service (SAAS) featuring software for use in cloud infrastructure management and automation; software as a service (SAAS) namely search engine software; downloadable software for developing, generating and uploading courses of instruction and coaching material in the field of time management; software as a service (SAAS) provider featuring online non-downloadable software for developing, generating and uploading courses of instruction and coaching material to encourage employee creative development to increase productivity; software as a service (SAAS) provider featuring software for coursework in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for coursework in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for games in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for homework in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for interactive personalized tutorials in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for learning assessments in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for progress reports in the field of mathematics; software as a service (SAAS) provider featuring software for disseminating digital course materials for written instruction in the field of mathematics; software as a service (SAAS) provider featuring software for games in the field of mathematics; software as a service (SAAS) provider featuring software for homework in the field of mathematics; software as a service (SAAS) provider featuring software for interactive personalized tutorials in the field of mathematics; software as a service (SAAS) provider featuring software for learning assessments in the field of mathematics; software as a service (SAAS) provider featuring software for progress reports in the field of mathematics; software as a service (SAAS) provider featuring software for written instruction in the field of mathematics; software as a service (SAAS) provider for hosting software for use by others for online blogging on websites; software as a service (SAAS) provider for hosting software for use by others for use in the collaborative development of software; software as a service (SAAS) provider for hosting software for use by others for use in the creation of websites; software as a service (SAAS) provider for hosting software for use by others for use in the online publishing of websites; software as a service (SaaS) provider for the searching and identifying consumer behaviour patterns using a computer searching algorithm to locate data stored in multistructured formats based on key indexes over the Internet; software as a service (SAAS) provider for tracking, recording, processing, storing, monitoring, and analyzing agricultural, horticultural, and agronomic information; software as a service (SaaS) provider in the field of computer game software; software as a service (SaaS) provider in the field of customer relationship management; software as a service (SaaS) provider in the field of human resources management; software as a service

(SaaS) provider in the field of inventory management; software as a service (SaaS) provider in the field of providing customer relations management; software as a service (SaaS) provider in the field of revenue management; software as a service (SAAS) provider in the field of software for small business accounting; software as a service (SaaS) provider in the field of supply chain management; software as a Service (Saas) provider providing software for cloud Network Attached Storage facilities for use with a datastore for the general storage of data for others; software as a service (SaaS) provider to track and monitor agricultural and horticultural crop yield; software as a service (SAAS) service provider featuring cloud-based software for use by travelers to make travel arrangements; software as a service (SAAS) services featuring non-downloadable security software; software as a service (SAAS) services featuring non-downloadable software for automated cybersecurity monitoring and cybersecurity breach remediation; software as a service (SAAS) services featuring non-downloadable software for computer network security; software as a service (SAAS) services featuring non-downloadable software for computer security; software as a service (SAAS) services featuring non-downloadable software for data security; software as a service (SAAS) services featuring non-downloadable software for use in clinical settings to create reports for medical professionals; software as a service (SAAS) services featuring non-downloadable software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; software as a service (saas) services featuring online non-downloadable software for use in management of servers; software as a service (SAAS) services featuring software for analyzing and reporting self-assessment of illness; software as a service (SaaS) services featuring software for comparing sportsbook operators; software as a service (SAAS) services featuring software for recording and analyzing real-time location data for predicting the spread of an illness in a community; software as a service (SAAS) services featuring software for tracking and managing vehicle maintenance; software as a service (SAAS) services featuring software for use in connection with buying, selling, downloading, customizing, integrating and reviewing computer applications and computer software; software as a service (SaaS), namely providing temporary use of on-line non-downloadable software to allow users to track and analyze consumer consumption of cannabis for medical purposes; software as a service [SaaS] featuring software for creating, analysing and running programs for quantum algorithms; software as a service [SaaS] featuring software for creating, analysing and running programs for quantum computers; software as a service [SaaS] featuring software for machine learning; software as a service featuring software for managing pharmaceutical and biopharmaceutical manufacturing processes; software authoring; software creation; software design and development; software design engineering; software development for searching structured and unstructured data in the field of data analytics; software development in the framework of software publishing; software engineering services for data processing programs; software platforms for providing access to crypto-collectibles; software platforms for providing access to non-fungible tokens; software porting; software systems integration engineering; software testing engineering; software-as-a-service (SaaS) featuring software for use in photo editing; technical support in the form of monitoring global computer network systems; technical support in the nature of troubleshooting to diagnose computer hardware and software problems; technical support in the nature of troubleshooting to diagnose computer software problems; technical writing; telecommunications software engineering; testing of computer hardware and software; testing of computer software; testing of computers; troubleshooting of computers, servers and computer software problems; updating and rental of software for data processing; updating of computer programs for third parties; updating of computer software; updating of software for data processing; updating websites for others; upgrading of computer software; web site design consultancy; website design; website design consultancy; website development for others; writing and updating computer software;

Colour Claim

Colour is claimed as a feature of the trademark. The colours black, green, and white are claimed as a feature of the mark. The mark consists of the design of two trees, outlined in black with green leaves, a black bench in between the trees, and two birds in black above the bench and also between the trees, next to the wording "BIOPARK" in black. The aforementioned elements are all resting on top of a thin black line, and the wording "COSMETICS" appears in black below the line. The literal and design elements appear against a white field.

Goods

Class 03

Soaps, namely, beauty soap, body cream soap; perfumery; essential oils for personal use; cosmetics; hair lotion; dentifrices; aromatic extracts being perfume; aromatic essential oils; aromatics for fragrances; aromatic oils for the bath; aloe vera preparations for cosmetic purposes; antibacterial face washes (non- medicated); aromatics for perfumes; food flavourings being essential oils; creams for cellulite reduction; abrasive preparations for use on the body, namely, skin abrasives; skin conditioners; oils for cosmetic purposes; cosmetics in general; cosmetics for bronzing the skin; cosmetic creams; skin care creams [cosmetic]; cosmetics; tonics for cosmetic purposes, namely, skin tonics, clarifying facial tonics, and hair tonics; organic cosmetics; natural cosmetics; aromatics being essential oils for fragrances; face-care cosmetics; cosmetic hair care preparations; cosmetics for body care; hydrolats being lavender water; floral water for cosmetic purposes; essential vegetable oils; vegetable butters for cosmetic purposes, namely, aloe vera butter for cosmetic purposes, almond butter for cosmetic purposes, argan butter for cosmetic purposes, cocoa butter for cosmetic purposes, coconut butter for cosmetic purposes, shea butter for cosmetic purposes; beeswax ointments for cosmetic use; non-medicated hand and foot care preparations; cosmetics for children; cosmetics for women; cosmetics for men; cosmetics for

Class 09

Computer hardware and software for remote monitoring of remotely located sensors and assets via a satellite communication system; computer hardware for communicating data with Internet of Things (IoT) devices and sensors via a satellite communication network; cloud-based servers configured to exchange data with remotely located Internet of Things (IoT) monitoring apparatus, and software for monitoring the remotely located Internet of Things (IoT) monitoring apparatus via the cloud-based servers; development circuit boards for connecting remotely located devices and sensors to a satellite communication system to provide Internet of Things (IoT) connectivity; downloadable software development kits (sdk); downloadable computer software for managing remotely located devices and sensors via a satellite communication network to provide Internet of Things (IoT) connectivity; downloadable computer software for interfacing cloud-based applications with remotely located devices and sensors via a satellite communication network to provide Internet of Things (IoT) connectivity; downloadable computer software for exchanging data with remotely located devices and sensors via a satellite communication network to provide Internet of Things (IoT) connectivity; satellite communication apparatus, namely satellite receivers and satellite transmitters; satellite communication terminals; satellite modems; satellites; asset tracking apparatus consisting primarily of an apparatus with an integrated satellite transmitter, a low power global-navigation satellite system receiver, and an inertial measurement system and operating software; remote monitoring apparatus consisting primarily of Internet of Things (IoT) enabled devices, comprising a satellite terminal, sensors, computer hardware and operating software, for monitoring hardware assets, horticultural assets, livestock, irrigation assets and other remote assets; remote monitoring systems for sensors and assets using a satellite communication system consisting primarily of Internet of Things (IoT) enabled devices comprising a satellite terminal, sensors, computer operating software and hardware, for monitoring hardware assets, horticultural assets, livestock, irrigation assets and other remote assets.

Services

Class 38

(1) Satellite communication services in the nature of providing data connectivity between remotely located sensors or equipment and cloud based servers using a satellite communication system, and low data rate, short message, and low power satellite communication services for remote monitoring and control of geographically distributed sensors, assets and Internet of Things (IoT) devices; satellite communication services and transmission of data via a satellite communication network, namely providing telecommunication connectivity services for transfer of small amounts of data via a satellite communication system, namely, using low data rate, short message, and low power connectivity services, and global connectivity services for remotely located Internet of Things (IoT) device

Class 42

(2) Design, development, and consulting services related thereto in the field of satellite communication systems; design, development, and consulting services for data transfer between Internet of Things (IoT) devices and cloud-based computers via a satellite communication network; design, development, and consulting services for interfacing cloud-based applications with Internet of Things (IoT) devices and sensors via a satellite communication network; engineering consulting services in the nature of support services for satellite communication systems and remote monitoring of sensors and assets; engineering design and consultancy services in connection with satellite communication services; electronic storage of messages and data from Internet of Things (IoT) enabled devices and sensors received via a satellite communication network that provides Internet of Things (IoT) connectivity; providing temporary use of non-downloadable cloud-based software for managing remotely located Internet of Things (IoT) devices and sensors via a satellite communication network to provide Internet of Things (IoT) connectivity; providing temporary use of non-downloadable cloud-based software for connecting to and exchanging data with remotely located Internet of Things (IoT) devices and sensors via a satellite communication network to provide Internet of Things (IoT) connectivity; providing temporary use of on-line non-downloadable software development tools; application service provider featuring application programming interface (API) software for interfacing remotely located Internet of Things (IoT) devices, sensors, cloud applications and web applications with a satellite communication system; providing a website that allows subscribers to manage remotely located Internet of Things (IoT) enabled devices and sensors via a satellite communication network that provides Internet of Things (IoT) connectivity; hosting an Internet website portal featuring information in the field of satellite communication systems to provide Internet of Things (IoT) connectivity

Visual Representation

The image shows the word "philéas" written in a cursive, handwritten style. The letters are connected and fluid, with a mix of lowercase and uppercase characters. The 'p' is large and loops back, and the 'é' has a distinct accent mark. The overall appearance is that of a signature or a stylized brand name.

Trademark Description

The mark consists of a crest and the wording "SMALL BATCH NO 9 IOWA WHISKEY". A stylized ear of corn and partial husk appear in the upper center portion of the mark. The corn is bordered by an oval shaped design comprised of three solid lines which are bordered by two rows of dashed lines. The wording "SMALL BATCH" appears in a stylized font in a ribbon design above the top portion of the oval design. Stylized corn stalks with ears of corn and flowers appear on the left and right sides of the oval. On either side of the corn stalks are two stylized ram skulls shown in profile. The wording "NO 9" appears in a large stylized font at the bottom portion of the central oval. The wording "IOWA WHISKEY" appears in a smaller, different stylized font in a ribbon design under the wording "NO 9".

Disclaimer

The right to the exclusive use of the words "SMALL BATCH" AND "IOWA WHISKEY" is disclaimed apart from the trademark.

Trademark Description

The mark consists of the stylized wording "PRO-LIPOSOMAL", appearing in blue in a stylized font, with a concentric circle design appearing in place of the letter "O". Said "O" design is comprised of a central green circle surrounded by light blue and dark blue rings. Overlaying this is a series of light blue circles, in pairs, each connected by a green bar or band, roughly tracing three quarters of the outer bands of the larger circles in the form of chain, gradually fading on either end. The color white in the drawing represents the background area and is not part of the mark.

Colour Claim

The color(s) blue and green is/are claimed as a feature of the mark. The mark consists of the stylized wording "PRO-LIPOSOMAL", appearing in blue in a stylized font, with a concentric circle design appearing in place of the letter "O". Said "O" design is comprised of a central green circle surrounded by light blue and dark blue rings. Overlaying this is a series of light blue circles, in pairs, each connected by a green bar or band, roughly tracing three quarters of the outer bands of the larger circles in the form of chain, gradually fading on either end. The color white in the drawing represents the background area and is not part of the mark.

Class 09

(1) Recorded computer software for biofeedback devices and apparatuses that provide for the transmission of electronic impulses and signals to the body; downloadable computer software for biofeedback devices and apparatuses that provide for the transmission of electronic impulses and signals to the body; computer operating system software; computer graphics software; downloadable and recorded medical software for biofeedback devices and apparatuses that provide for the transmission of electronic impulses and signals to the body; downloadable and recorded software for operation of apparatus for medical and cosmetic use, namely, biofeedback devices and apparatuses that provide for the transmission of electronic impulses and signals to the body; computer interface boards; downloadable and recorded computer operating software for biofeedback devices and apparatuses that provide for the transmission of electronic impulses and signals to the body; computer operating system software for biofeedback devices

Class 10

(2) Medical and veterinary apparatus and instruments, namely, biofeedback devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; medical imaging apparatus namely, biofeedback devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; electromagnetic medical apparatus namely, biofeedback devices that generate microcurrents, electromagnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; diagnostic apparatus for medical

and cosmetic use namely, biofeedback devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; testing apparatus for medical purposes, namely, biofeedback devices and bioresonance devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; exercising apparatus for medical rehabilitative purposes namely, biofeedback devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; magnetic treatment apparatus for medical and cosmetic use namely, biofeedback devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; electro medical instruments namely, biofeedback devices that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement; physiological measuring apparatus for medical use namely, biofeedback devices that generate microcurrents, electromagnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for destressing and wellness enhancement; biofeedback and bioresonance devices for medical use that generate microcurrents, electro-magnetic impulses, biophotons and bio-energy information for analysis and therapeutic use and for de-stressing and wellness enhancement

Services

Class 35

(1) Retail or wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; arranging and conducting trade shows and commercial exhibitions for commercialization of medical apparatus, instruments and articles in the nature of biofeedback devices and bioresonance devices for analysis, therapeutic use, destressing, and wellness enhancement available through online retail stores; retail services in relation to computer software and apparatus for medical and cosmetic use; retail services in relation to computer software for biofeedback devices; wholesale services in relation to computer software and apparatus for medical and cosmetic use; wholesale services in relation to computer software for biofeedback devices

Class 42

(2) Software development, programming and implementation; computer software design; design and development of computer software for use with medical technology; software creation for biofeedback devices; developing operating system software for biofeedback devices; design and development of operating system software for biofeedback devices; software as a service (SAAS) services featuring software for biofeedback devices, namely magnetic resonance imaging [MRI] apparatus, medical x-ray apparatus, medical ultrasound apparatus, phototherapeutic apparatus, medical image processors, high frequency electromagnetic therapy apparatus, Ultrasonic medical diagnostic apparatus, magnetic resonance CT apparatus; operating system software as a service, namely, providing temporary use of non-downloadable cloud-based software for operating and connecting biofeedback devices, namely biofeedback devices, namely magnetic resonance imaging [MRI] apparatus, medical x-ray apparatus, medical ultrasound apparatus, phototherapeutic apparatus, medical image processors, high frequency electromagnetic therapy apparatus, Ultrasonic medical diagnostic apparatus, magnetic resonance CT apparatus with internet of things (IoT) devices, namely wireless sensors, computer software, actuators, and computer hardware for transferring data between devices over the internet; software as a service (SAAS) featuring software for programming of biofeedback apparatus for medical and cosmetic

use, namely magnetic resonance imaging [MRI] apparatus, medical x-ray apparatus, medical ultrasound apparatus, phototherapeutic apparatus, medical image processors, high frequency electromagnetic therapy apparatus, Ultrasonic medical diagnostic apparatus, magnetic resonance CT apparatus; software as a service (SAAS) featuring software for programming of medical biofeedback devices, namely magnetic resonance imaging [MRI] apparatus, medical x-ray apparatus, medical ultrasound apparatus, phototherapeutic apparatus, medical image processors, high frequency electromagnetic therapy apparatus, Ultrasonic medical diagnostic apparatus, magnetic resonance CT apparatus, eye testing machines, heartbeat measuring apparatus, pulse measuring devices, devices for measuring intracranial pressure, blood pressure measuring apparatus, devices for measuring blood sugar, heart monitors to be worn during exercise

Goods

Class 01

(1) Chemicals for industrial purposes, namely, leghemoglobin, sitgaliptin, diamines, catalysts and enzymes for use in the manufacture of industrial chemicals; chemical preparations for scientific purposes, namely, agar-agar for use as a cell growth media for growing cells for scientific purposes, cell culture media for scientific purposes; chemical diagnostic reagents for medical-scientific research use; chemical preparations for analyses in scientific laboratories, namely, laboratory assay kits; ion-exchange resins in the form of chemical preparations; electrophoresis gels, other than for medical or veterinary purposes; diagnostic preparations being biomarkers for use in assessment of toxicological property of chemical compounds and mixtures for scientific use; ferments for chemical purposes; photometric paper; reagent paper for scientific or research use; chemical test paper; stem cells for research and scientific purposes; chemical reagents for scientific and research use, namely, detecting and analyzing genetic material; nucleic acid sequences for nucleotides amplification and genetic nucleotide detection for scientific research; chemical reagents for scientific and research use, namely, amplifying and detecting genetic material; diagnostic reagents for in vitro use in biochemistry, clinical chemistry or microbiology; chemical reagents for analyzing nucleic acid for scientific laboratory purposes; reagents for use in genetic research; polymerase for nucleic acid amplifications for scientific and laboratory purposes; nucleic acids being deoxyribonucleic acid and ribonucleic acid for scientific and laboratory purposes; diagnostic preparations for in vitro testing for scientific and laboratory use; diagnostic preparations for use in assessment of genomic analysis for scientific and laboratory use; reagents for scientific or laboratory use, namely, nucleic acid sequencers for scientific purposes and chemical reagents used to synthesize nucleic acid for scientific laboratory use; reagents for scientific, research or laboratory use, namely, antibody reagents for scientific purposes, chemical reagents for laboratory use undergoing scientific research; in vitro diagnostic reagents for scientific purposes and for laboratory use.

Class 09

(2) Incubators for bacteria culture; food analysis apparatus, namely, microorganism swabbing packets for use in the food inspection industry, optical inspection apparatus for inspection of food, chromatography apparatus for laboratory use, mass spectrometers; chemistry apparatus and instruments, namely, test tubes and pipette tips; optical apparatus and instruments except for glasses and photographic apparatus, namely, optical sensors, optical lenses, optical inspection apparatus for analyzing defects in laboratory equipment, and optical detectors being molecular radiometers, photoresistors, and photodiodes; protein and nucleic acid amplification testing apparatus for laboratory use; diagnostic laboratory instrument for the detection of pathogens and toxins in biological samples for research use; measuring apparatus, namely, immunofluorescence microscopes, absorption spectrophotometers and microplate readers; DNA chips being DNA microarrays for laboratory use; biochips namely, DNA microarrays for laboratory use; apparatus for analyzing protein and nucleic acid for laboratory use; laboratory apparatus and instruments for preparing nucleic acid samples, namely, laboratory pipettes, microplate spectrophotometers, particle size analyzers, microscopes, and incubators for laboratory use; laboratory apparatus for extracting and purifying nucleic acid; nucleic acid amplification apparatus for laboratory use; real-time nucleic acid amplification apparatus for laboratory use.

Class 10

(3) Protein analysis apparatus for medical purposes for use in diagnosing cancerous and infectious diseases being influenza, respiratory syncytial viruses, SARS-CoV-2 and sexually transmitted infections; medical analysis apparatus for use in gene analysis for diagnosing cancer, infectious disease being influenza, respiratory syncytial viruses, SARS-CoV-2 and sexually transmitted infections by pathogens and genetic disease by mutation; immunofluorescence analysis apparatus for medical purposes; medical absorption analysis apparatus, namely, medical devices for measuring, monitoring, sampling, and analyzing nucleotides and proteins; clinical-chemical auto analysis apparatus for medical use for the detection of proteins in human specimens collected as plasma, dried blood spots, blood, cell, saliva, urine, stool and sputum; medical apparatus and instruments for analyzing body fluid and tissue samples being blood, cell, saliva, urine and sputum sample specimens; nucleic acid analysis apparatus for medical purposes; medical apparatus used in implementing diagnosis tests designed to detect infected microorganisms for viruses, bacteria, fungi and parasitic infections for diagnosing cancer, infectious disease being influenza, respiratory syncytial viruses, SARS-CoV-2 and sexually transmitted infections; bacteria and virus testing apparatus for medical purposes for diagnosing cancer, infectious disease being influenza, respiratory syncytial viruses, SARS-CoV-2 and sexually transmitted infections; blood cell testing apparatus for medical diagnostic purposes; immune testing apparatus for medical purposes, namely for performing immunology and serology tests; gene testing medical apparatus for identification of genus specific and species specific DNA and RNA sequences; clinical diagnosis apparatus for genetic diseases, namely, diagnostic testing apparatus for use in medical genetic assay procedures for testing of body fluids; clinical diagnosis apparatus for infectious diseases being diagnostic testing apparatus for use in medical immunoassay procedures and diagnostic testing apparatus for use in medical genetic assay procedures; medical apparatus and instruments for taking blood, cell, saliva and sputum sample specimens; medical apparatus and instruments for extracting and purifying nucleic acid; medical apparatus and instruments for extracting and purifying protein; medical apparatus and instruments for nucleic acid amplification; real-time gene amplification equipment for medical use; diagnostic biochips being DNA microarrays and protein microarrays for medical purposes.

Class 01

(1) Acrylic and vinyl chloride monomers, unprocessed polymer resins, unprocessed synthetic resin compounds in the form of microspheres used to incorporate other substances, and diagnostic reagents, all for scientific, research and industrial use; acrylic and vinyl chloride monomers, unprocessed polymer resins, unprocessed synthetic resin compounds in the form of microspheres used to incorporate various other substances, all for medical, pharmaceutical, diagnostic and veterinary use; silica and magnetic microspheres for scientific, diagnostic testing, scientific research and flow cytometry applications; nucleic acid isolation and purification kits consisting of reagents and magnetic beads for scientific research purposes; diagnostic kits consisting of monoclonal antibodies, buffers, and reagents to monitor toxicity of drugs; reagent kits consisting of generic DNA circle, DNA primers, polymerase and buffers for use in biotechnology fields, namely genetic research and genetic analysis for scientific use; high purity chemical preparations for scientific purposes, namely purified solvents, solutions and suspensions for microscopy, chemistry, biology, and other scientific experimental work and monomeric and polymeric microspheres and nanospheres for use in scientific research relating to analytical, cell culture, and quality control standards for non-medical research in flow cytometry, analytical chemistry, and cell culture preparations; high performance adhesives for use in coating and encapsulating in industrial and commercial applications and electronics equipment, namely for aerospace and defense product assembly and the assembly of optical products and fiber optic networks; chemical test kits for use in laboratories and scientific research microscopy comprising of dyes, stains, preparative materials, mounting medium, coverslipping tape, fixatives and embedding media; chemical preparations namely, tetrazoliums, enzyme substrates, replica and anatomical corrosion compounds, unprocessed ion exchange resins, acrylic cements, binding agents, surfactants, coupling agents, tube and plate separators, storage buffers, bioreagents, buffers, cell separators, homogenizers, fluorescent probes, catalysts, reagents, nucleic acid labelers, unprocessed acrylic resins, histological fixatives, fluorescent dyes, enamel-staining chemicals, microbiology stains, and transfection reagents for use in the fields of scientific research and manufacturing processes; chemical testing and analysis kits for research use in the field of art restoration consisting of

solvents for paints, varnishes and lacquers, benzyl alcohol, xylene, isopropanol, acetone and N-Methylpyrrolidone (NMP) gel; polymer compositions for use in the manufacture of commercial and industrial goods, namely, acid functional, acrylate, methacrylate, amide, amine, biodegradable, epoxy, halogenated, natural, ethylene glycol, ethylenimine, ethylene vinyl acetate, ethylene vinyl alcohol, reactive, styrenic, thermoplastic, and rubber polymers; components of monomer and polymer compositions used in the manufacture of commercial and industrial goods, namely, crosslinkers, additives, UV absorbents, buffers, plasticizers, stabilizers, curing agents, adsorbents, inhibitors, accelerators, and catalysts; chemical test kits for use in laboratory, scientific research, pathology, histology, cytology, microscopy, and hematology, comprising of dyes, stains, preparative materials, mounting medium, coverslipping tape, fixatives and embedding media; monomer compositions for use in the manufacture of commercial and industrial goods, namely, acid and acid salt, acrylic, adhesion promoting, amine, biodegradable, crosslinking acrylic difunctional, crosslinking acrylic multifunctional, dual reactive acrylic, epoxide, anhydride, imide, fluorescent acrylic, fluorinated acrylic, high refractive index, low refractive index, hydroxyl, styrenic, UV active, vinyl, and ethenyl monomers.

Class 05

(2) Reagents for medical and veterinary use, namely diagnostic reagents and diagnostic chemical reagents for testing pharmaceuticals; biodegradable, resorbable dendrimer-based polymers in the form of capsules sold empty for pharmaceuticals.

Services

Class 35

(1) Advertising services, marketing services, promotional services, business consulting services, namely advertising and business management consultancy, marketing strategies for others, marketing research and analysis services, providing advice in the field of business management and marketing, business management assistance for industrial and commercial companies and customer service management for others in the fields of biochemicals, chemicals, pharmaceuticals, polymers and compositions thereof for medical, veterinary, scientific, research and industrial use; online catalog ordering services featuring biochemicals, chemicals, pharmaceuticals, polymers and compositions thereof for medical, veterinary, scientific, research and industrial use.

Class 40

(2) Contract manufacturing, and providing technical advice and information relating thereto, in the fields of biochemicals, chemicals, pharmaceuticals, polymers, reagents, buffers, dyes, stains, cleaning solutions, flammable materials, hazardous materials, water for injection ("WFI") grade water, compositions thereof and personal care products.

Class 41

(3) Training services in the fields of biochemicals, chemicals, pharmaceuticals, polymers and compositions thereof for medical, veterinary, scientific, research and industrial use.

Class 42

(4) Custom design and development, through synthesis, of biochemicals, chemicals, pharmaceuticals, polymers, reagents, buffers and compositions thereof for medical, veterinary, scientific, research and industrial use.

Colour Claim

Colour is claimed as a feature of the trademark. The arched rectangle with rounded edges containing the word FROMAGERIE and the cheese wheel, a portion of which (1/4) has been sliced, which are positioned inside of the black circle, itself positioned at the top of the mark, are red (Pantone* (PMS) 186). The outline of the black circle featured at the top of the mark and containing the word BERGERON as well as the frame surrounding the word are white. The ellipse at the bottom of the mark, inside which are written the words LE LOTBINIÈRE, LAIT PUR, PURE MILK, GOÛT D'AMANDES FRAÎCHES, TASTES OF FRESH ALMONDS in white and inside which also appear white lines above and below the words LAIT PUR and PURE MILK, is green (Pantone* (PMS) 2306). The fine line at the outer edge of the circle that delimits the mark is red (Pantone* (PMS) 186). The other elements are black (Pantone* (PMS) BLACK) on a white background. *Pantone is a registered trademark.
