Trademarks Journal

Vol. 68 No. 3489

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Compositions for fire extinguishing and fire-proofing; fire extinguishing chemicals; chemicals for fighting forest fires; fire suppression chemicals; fire extinguishing foaming concentrates; fire extinguishing foaming surfactants; fire extinguishing fluorochemical surfactants; chemical compositions for control of spillage of hazardous waste and for absorbing spills; chemical agents for controlling hazardous spills; fireproofing preparations; fire resistant chemicals; fire extinguishing compounds; fire extinguishing preparations; fire extinguishing media, namely, carbon-dioxide (CO₂) filled portables, fire extinguishing powder, and firefighting foam; fire retarding chemicals, compositions and preparations; fire protection chemical compositions in the nature of fire retardant and suppression, extinguishing chemicals; chemical preparations for use in the control and prevention of fires; dry chemicals for fire extinguishing; dry chemicals for fire suppression; fireproof seals in the nature of chemical sealants used for buildings which penetrate through walls, floors and ceilings for fire prevention.

Class 09

(2) software for connecting to a global computer network, to remotely control lighting devices within a building, for receiving, processing, sending and displaying information to control, operate, monitor and manage heating, ventilating, air conditioning and other building environment control equipment and systems and for the collection, management, analysis, storage, transmission and reporting of data in the field of security, safety, health, namely safety systems to control fire and smoke detectors, sprinklers and water flow, to monitor building video surveillance, to monitor and track on-site personnel location for security and emergency evacuation purposes, fire detection and suppression, access control, intrusion, for managing customer accounts, loss prevention, inventory, business and retail performance, customer traffic, environmental, and energy management and lighting apparatus, systems and devices; computer hardware and software for the connection of video enabled applications and store execution functions via the cloud, Internet or wireless networks of apparatus, systems and devices in order to access security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, and point-of-sale transaction analysis; computer hardware and software for the remote control, remote operation, remote monitoring and remote management of video enabled applications and store execution functions via the cloud, Internet, or wireless networks of apparatus, systems and devices to control the operation of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, and point-of-sale transaction analysis; computer operating systems; computer servers; electronic display devices in the nature of video display screens; video cameras; video systems comprising digital video recorders, multiplexed signal processors for display and recording of multiple cameras, and recorded event retrieval systems comprising video recorders, processors and software; closed circuit television systems for security and surveillance, namely, closed captioned television (cctv) and surveillance cameras and housings, domes and related parts thereof, digital video recording hardware and software for management of the recordings; video encoders and video decoders; video surveillance computer hardware and software, namely, hardware and software for video security, closed circuit television, digital video surveillance, digital video recording, storage and management, keyboards, video encoders and video decoders, video analytics, point of sale monitoring and integrated electronic security systems; video surveillance cameras; video surveillance systems, namely, camera hardware systems for IP video surveillance; security surveillance apparatus, namely, security and surveillance cameras; electric and electronic video surveillance installations; computer programs and software for image processing, video recorders, and video cameras; laser rangefinders, laser speed detectors, and lasers for bar code readers; thermal imaging cameras for night vision; fire-extinguishers; fire detection systems consisting of smoke detectors, heat detectors, manual fire alarm activation call points and pull stations, speaker strobes which sound an alarm, followed by a voice evacuation message; fire detectors; fire alarms; smoke alarms; intrusion detection systems and accompanying accessories, namely, detection control panels, configuration software, keypad controllers, proximity and pressure alarm sensors, electric current switches, electric current contacts and electric relays, automated telephone dialing keypads, hardware and USB cellular phone cables, central intrusion monitoring stations consisting of audio and visual annunciators, namely, sirens, horns, strobes, and lights; computer networking hardware and data communications equipment in the nature of communications network servers; burglar alarms and anti-theft warning bells; access control devices, namely, computer servers and work stations, security and facilities management software, network software and communication

cards, computers, monitors, keyboards, modems and related peripherals, namely, system controllers, door locks, exit requesters, burglar and intruder alarm sensors, electric current switches, electric current contacts, electric relays, security and access cards, card and coders, card readers, pin key pads, biometric recognition apparatus in the nature of biometric finger print readers, biometric hand readers, biometric retinal scanners, and biometric voice recognition systems, power supplies, cabinets specifically adapted for the aforementioned items and computer batteries and batteries for biometric fingerprint readers, biometric hand readers, biometric retinal scanners, and biometric voice recognition systems; panic button alarms; telecommunications and data networking hardware, namely, computer network hubs, switches and routers, computer network-attached storage [NAS] hardware for transporting and aggregating voice, data, and video communications across multiple user network infrastructures and communications protocols; asset management and tracking systems consisting of inventory control consisting of product inventory theft prevention tags, security alarms, radio frequency identification (rfid), microwave, magnetic and electromagnetic object detectors, electromagnetic and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; database software for gas and filter selection management to help determine the type of gas and filter cartridge and how long a gas and filter cartridge should be used; network routers; wireless routers; safety, security, protection and signalling devices, namely, flashing safety lights; measuring, detecting and monitoring instruments, indicators and controllers, namely, distance measuring laser rangefinders; telecommunications computer hardware and software for monitoring sensors within a building remotely to alert users of the status of the ambient lighting systems, of the light and motion detection systems, of the moisture detection systems, of the environmental sound detection systems, of the fire and voice alarm speaker systems, of the fire, smoke and gas detection systems, of the fire and security alarm suppression, containment and control systems, of the security access and alarms, and of the external threat detection systems via the Internet; calculators, data processing equipment namely, digital signal processors, digital voice signal processors, computerized building access keypads, computer monitors, and computers; computer hardware and parts, fittings and accessories in the nature of computer peripherals namely computer keyboards, computer mice, computer touchscreens, microphones, computer monitors, computer printers, computer speakers, internal and external hard drives, as well as internal and external media card readers; anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels; gas detectors; magnetic and electromagnetic object detectors; transponders; car antennas, dish antennas, and satellite antennas; electronic security and surveillance devices, namely, plastic labels, safety markers, and electronic bar code readers, electronic card readers, biochip sensors, distance sensors, infrared sensors, motion sensors, proximity sensors, optical sensors, temperature sensors, thermal sensors, timing sensors, GPS transmitters, optical and radar transmitters, video transmitters, audio-video receivers, GPS receivers and controllers integrated with radio-frequency identification (rfid) chips for microwave, electromagnetic, radiofrequency and acoustic-magnetic signalling for the tracing and tracking of persons, animals, vehicles and goods; electronic apparatus for monitoring and tracking, namely, detaching devices and deactivators for use with inventory control and anti-theft labels and tags; electronic deactivators and detaching devices, hooks and detaching hooks for use with electronic inventory control and anti-theft tags; sensors and detector units for detecting proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats in the nature of thunderstorms, tornados, rainfall, excessive heat, wind chills, snow, and freezing rain, crime threats in the nature of vandalism, burglary, physical violence and motion; sensors and detectors for gathering safety and security data, namely, proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease

traps, alarm/disarm of security systems, open doors, weather threats concerning hail and heavy rainfall, burglary and theft, and motion, not being for medical use; sensors and detectors for gathering data for transmission to insurance agencies in relation to the status of property, commercial premises and domestic premises, namely, flood detection, flare up, full grease traps, alarm/disarm of security systems, door openings, weather threats in the nature of thunderstorms, tornados, rainfall, excessive heat, wind chills, snow, and freezing rain, regionalized crime threats in the nature of vandalism, burglary, physical violence, regionalized intrusions, trouble signals from security alarm and access control panels, door forcing, human presence detection, and the presence of explosive materials; sensors and detectors for gathering, processing and transmitting data using internet of things technology, namely, proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats in the nature of thunderstorms, tornados, rainfall, excessive heat, wind chills, snow, and freezing rain, crime threats in the nature of vandalism, burglary, physical violence and motion; data streaming apparatus in the nature of digital media streaming converters, cameras, and signal processors; data streaming software to enable the streaming of security surveillance videos; motion sensors, namely, electronic motion sensitive switches; optical beam sensors, namely, detecting, counting and tracking people; infra-red sensors, namely, remote sensors for use in detecting the presence of gas for industrial purposes, for use in detecting flames; sensors for detecting, counting and tracking of on-site personnel; computer software used to operate, control, monitor and manage anti-theft alarms, inventory control systems, theft-prevention devices, to monitor and track on-site personnel and asset tracking devices; fire alarm initiating systems comprising fire alarms, fire, heat and smoke detectors and sensors, flame detectors, control panels, repeaters, monitoring modules; electric control panels; touch sensitive control panels for security systems, security and fire alarms, alarm central control units, anti-intrusion alarms, burglar alarms, personal security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices and sprinkler systems for fire protection; Ethernet repeaters; initiating devices, namely, fire alarm boxes, Smoke detectors, Heat detectors, Flame detectors, Sprinkler waterflow detectors, and switches indicating actuation of fire suppression systems; thermostats; wireless fire alarm initiating systems comprising fire and smoke detectors, control panels, repeaters, monitoring modules; carbon monoxide detectors; fire hoses; fire hose nozzles; carbon monoxide alarms; safety equipment, namely, fire escape ladders; fire beaters; fire pumps; fire sprinklers; fire trucks; fire engines; fire extinguishers; fire boats; fire blankets; fireproof clothing, namely, clothing for protection against fire; fire resistant gloves; fireproof garments; fire detection apparatus, namely, computer network hubs, switches and routers, multiplex fire alarm signaling line circuit (SLC) systems, stand alone control panel systems, voice alarm communication systems and SOS emergency phone systems in the event of fire, comprising, graphical computer network command centers, manual fire alarm pull stations, smoke detectors and sensors, flame detectors, heat detectors and sensors, water flow switches, sprinkler supervisory switches, door holders and/or closures, modems, fiber optic line drivers, alarm communicator transmitters and receivers, remote station audio and video receivers, audible and visible notification appliances namely fire alarm bells, fire alarm horns and fire alarm light strobes, annunciator fire alarm panels, intercoms, crt monitors and printers, batteries and battery chargers and transient voltage suppressors (TVS); fire control devices, apparatus and equipment, namely, fire extinguishers with storage tanks, valves, inductors, cannons, pipes, nozzles and ejectors specifically designed to to disperse, water, chemical foam solution and chemical powder; fire extinguishers; fire extinguishing systems namely water sprinkler systems, water misting systems, fire hose and reel systems, and fire extinguishing foam chemical systems; fire suppression systems and component parts thereof, for use in pre-engineered restaurant, vehicle and industrial systems, comprised of agent storage containers,

mechanical releasing devices, electro-mechanical releasing devices and pneumatic releasing devices, mechanical detection, electric detection, comprised of thermal detection, rate of rise detection, heat detection, and linear wire detection, system discharge devices; sprinkler systems for fire protection and fire extinguishing; sprinkler heads for fire sprinklers; detection and control equipment for smoke, namely, smoke detectors; detection and control equipment for heat, namely, heat detectors; detection and control equipment for flame, namely, fire and smoke detectors; automatic fire extinguishers; electric alarms for fire; fire break glass units; asbestos safety screens for firemen; safety equipment, namely, fire escape ladders; fire extinguishers for automobiles; water sprinkler systems for fire protection; inflammable gas alarms; dispersion systems using chemical powder and/or chemical foam comprised of storage tanks for the fire fighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and eductors; flame detection instruments, namely, flame detecting instrument comprised of an infrared flame detector and cctv camera; fire suppression nozzles; equipment for dispersing dry chemicals and foam chemicals for fire fighting, namely, storage tanks for the fire fighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and educators; security cameras; security and fire alarms; security warning apparatus, namely, sensors for detecting body heat, motion and vibrations; security control apparatus in the nature of wireless controllers to remotely monitor and control the function and status of security systems; personal security alarms; electronic security tags; radio frequency identification (RFID) tags; electronic security and surveillance devices, namely, electromagnetic tags, acoustomagnetic tags, radio frequency identification (RFID) labels, electromagnetic labels, acoustomagnetic labels, radio frequency identification (RFID) readers, electromagnetic readers, acoustomagnetic readers, radio frequency identification (RFID) sensors, electromagnetic sensors, acoustomagnetic sensors, radio frequency identification (RFID) transmitters, electromagnetic transmitters, acoustomagnetic transmitters, radio frequency identification (RFID) receivers, electromagnetic receivers, acoustomagnetic receivers, electrical controllers for acoustomagnetic sensor detection systems, and electronic controllers for RFID readers; security surveillance apparatus, namely, computer hardware for video recorders, computer disc storage containers, audio and video encoders, audio and video decoders, and computer keyboards, and software for digital video recording, digital video storage, digital video management, point of sale video monitoring, and video analytics for security systems integration; automatic access security apparatus, namely, comprised of entry door systems comprising touch pads and security doors; control panels for security alarms; motion detectors; motion sensing input devices, namely, motion sensing sensors and detectors for protecting property; security alarm systems, namely, building security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; wireless security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; anti-theft alarms in the nature of burglar alarms not for vehicles; anti-theft alarm keypads; anti-theft alarm control panels; electronic article surveillance devices, namely, UHF Radio Frequency Identification (RFID) reader antennas and Acousto-Magnetic (AM) integrated traffic and metal foil anti-theft detection sensors, transmitters, receivers and electrical controller labels, markers, lanyards, pedestals and posts; electronic apparatus for monitoring and tracking, namely, detaching devices and deactivators for use with inventory control and anti-theft labels; electronic apparatus for monitoring and tracking, namely, proximity sensors, security cameras and video monitors for security alarm monitoring systems; intercoms; intercom apparatus in the nature of voice evacuation systems comprising intercoms, audio speakers and microphones; nurse call systems, namely, audio/visual signaling and communication systems for use in health care environments, comprising, nurse master stations, bath stations, patient room stations, emergency code terminals, monitors, pagers,

intercoms, notification devices, dome lights, and zone lamps; vehicle tracking system comprised of an antenna and radio transmitter; digital signage; mass notification systems, comprised of speakers, signboards, strobes, sirens, pagers, lights, telephones, cell phones and computers for alerting and instructing individuals during emergency and/or disaster situations; computer hardware and software systems for tracking equipment and assets using GPS data on a device on the tracked equipment and assets; transponders; electronic tracking sensors and two-way voice pendant with panic button to connect emergency personnel with people needing emergency assistance; computerized interlocking doors and card readers used for managing the flow of passengers and baggage, as well as store customers, to direct them through secure access points inside airports and store fronts; positioning tags in the nature of electronic tags for goods; encoded personnel identity badges; encoded patient bracelets; asset tracking tags in the nature of electronic tags for goods; temperature sensors with radio, low frequency and infrared communication capability; electronic wireless input modules for reading data from personnel and article monitoring devices and systems; computer software for facilities management to control building access; asset management software systems for tracking and recording store inventory, shoplifting attempts, in-store consumer traffic patterns for ease of flow, to count and analyze point-of-sale transactions for consumer buying habits and tracking store inventory, for controlling video security systems and video conferencing, and to track store execution functions, namely customer satisfaction, merchandising, and the success of marketing campaigns; computer software for monitoring and controlling systems and devices for the management of motorways and tunnels; flame detectors; flame detectors in the nature of fire and smoke detectors; combustion gas detectors; gas sensors for measuring gas concentration; gas alarms; gas testing instruments; gas detecting apparatus in the nature of gas sensors for measuring gas concentration, including wireless and mobile gas detecting apparatus; gas leak alarm systems comprising sensors and alarms; Programmable Logic Controller (PLC) namely industrial digital computers; decontamination devices namely aerosol spray for neutralizing chemical and biological decontamination in industrial, commercial and residential buildings, facilities and plants; security lights for outdoor and indoor use; lamps for security lighting for outdoor and indoor use; motion sensitive security lights; lighting being for use with security systems; security lighting incorporating a heat activated sensor, a movement activated sensor; directional valves for delivering fire suppression gas as component of an inert gas fire suppression system;

(3) software to control building environmental, access and security systems; computer software for the remote monitoring and control of, and electronic and audio interaction with, home and residential environmental monitoring, control and automation systems; electric and electronic sensors and computer software for the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and residential environments; application software for use on computers and hand-held devices to enable the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and residential environments; electric and electronic controls systems comprising wireless and wired environmental controllers, software and hardware for the automation and optimization of industrial, commercial and residential buildings, facilities and plants to control building access and

to control fire alarm systems; electric and electronic controls and controls systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; on-site and field computer hardware, software, sensors, monitors and automation control systems software for individual and integrated on-site and remote monitoring, control, interaction, operation, automation and optimization of industrial, commercial and residential buildings, facilities and plants to control building environmental systems for heating, air conditioning, ventilation, refrigeration and moisture and gas detection, to control emergency safety systems, to control building security systems, to control fire and smoke detectors, sprinklers, water flow and video surveillance, to monitor and track personnel for emergency evacuation, to monitor energy use and energy allocation, facilities maintenance, process efficiency and stabilization of lighting, sound, fire and voice alarm communication systems, luminescent display panels, audio and video emergency broadcast systems, electrical battery and storage cell electrical charging, energy metering and payment tracking, fire and smoke detectors, fire and burglar alarms, suppression and containment, water flow control, emergency evacuation and security access and alarms, closed-circuit television (CCTV) surveillance, light and motion detection, moisture detection, environmental hazard detection, external threat detection and safety, gas detection, asset management systems for predictive power plant maintenance to avoid unplanned shutdowns and for predictive power, air flow and heating, ventilation and air conditioning (HVAC) maintenance; computer hardware and software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting on trends for air heating, cooling and ventilation, energy usage, and to provide time-stamped internal environment audits of industrial, commercial and residential buildings, facilities and plants; computer hardware, software for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices, monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use and allocation, maintenance, process efficiency and stabilization of lighting, sound, fire and voice alarm communication systems, luminescent display, audio and video emergency broadcast systems, battery and storage cell electrical charging, energy metering and payment tracking, fire and smoke detection, fire and burglar alarm, suppression and containment, water flow control, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, external threat security detection and personal safety detectors, gas detection, alarm and containment, asset management systems for predictive power plant maintenance to avoid unplanned shutdowns and for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer software for wide area

network systems and graphical user interface configuration used in energy and security management systems; software for use in the creation, configuration, engineering, installation and operation of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and operation of industrial, commercial and residential building, facility, and plant heating, air conditioning, ventilation, refrigeration systems, energy use and energy allocation systems, maintenance systems namely energy efficiency and stabilization systems, lighting, sound detection systems, fire and voice alarm speaker systems, luminescent display panels, audio and video emergency broadcast systems, battery and storage cell electrical charging, energy metering and payment systems, fire and smoke detection, fire and security alarm, suppression, containment and control systems, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, external threat security detection systems, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone, tablet, computer notebook and laptop computer; galvanic batteries; polymer lithiumion batteries; rechargeable batteries for electric vehicles and electronic devices; electric batteries for vehicles; chargers and parts therefor, for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; rectifiers and switching apparatus, namely, electrical switches, and batteryregulating electrical switches, electrical cell switches and capacitance meters for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; automobile accessories, namely, starter batteries; machines and apparatus for testing galvanic elements, batteries and electric fuel cells specially designed as parts or accessories for land, air and water vehicles, namely, voltmeters, and for parts for the aforesaid goods; electric accumulators for vehicles; electric primary and secondary elements, namely, electric primary and secondary electrical circuits; electric fuel elements, namely, fuel cells; apparatus and instruments for conducting, switching/transforming, accumulating, regulating or controlling electricity, namely generators of electricity, electricity conduits, power switches, distribution boxes for electrical power, current transformers; apparatus for monitoring of automotive batteries, namely, battery monitors; conductive grids for batteries; battery components, namely, internal frames for the purpose of providing structural durability; vents and vent covers for batteries; industrial batteries; downloadable mobile application software for use in battery monitoring, diagnostics, safety, and for education relating to battery technology; battery management systems, namely hardware and computer software for monitoring and managing battery charging, output, and performance and for thermal control; actuators, controls and switches for air ventilation and air conditioning systems and equipment; solenoid valves; control valves (electric); terminal unit valves (electric); terminal unit valve actuators (electric); temperature monitors (valves) for central heating radiators; electric or electronic controls for automatically operating valves; Computer software, namely automated energy management and fault detection software designed specifically to monitor, measure, analyze, track, collect, record, transmit and store energy and resource consumption data from existing building control systems and building automation systems to enable users to control multiple building control systems and building automation systems to monitor, track, manage, control, conserve and optimize energy and resource usage, and to allow real time viewing and manipulation of energy and resource usage by way of graphic displays on personal computers, servers and wireless devices and to send and receive data and alerts to users of energy and resource usage, and computer manuals and instructions relating thereto; computer software to be installed on devices or equipment to allow

integration with building control systems and building automation systems from different vendors, and to transmit and receive data and instructions between the device or equipment and the building control system or building automation system and other software and allowing software to control the building control system or building automation system network and the devices and equipment connected thereunder; computer software, namely application programming interface library for the integration of third party building control systems and building automation systems with other building energy management system software or frameworks.

Services

Class 35

(1) Inventory management and inventory control services to prevent loss; inventory services, namely, computerised inventory control; business monitoring services, namely, tracking and monitoring of commercial transactions for business purposes; sales volume tracking for others; stock control services in the nature of inventory control; provision of advice and information in the fields of cloud based and non-cloud based inventory management services; provision of advice and information in the fields of cloud based and non-cloud based asset tracking, namely, monitoring and tracking of inventory shipments, and inventory control at the warehouse and retail store levels; business consulting services, namely, providing analysis of retail inventory and sales data for business purposes; business advisory services in the field of business operation performance; business data analysis, research and information services, namely, providing analysis of retail data on specific business locations and compilation and systematization of statistics and index figures pertaining to retail, shopping center, gaming and entertainment industry sales and customer traffic; business data analysis, research and information services in the field of retail and shopping center sales and customer traffic; market research; business data analysis, research and information services, namely, providing information about retail, shopping center, gaming and entertainment industry sales and customer traffic via the Internet, telephone, facsimile and mail; compilation and systemization of business data into computer databases; providing business intelligence services; data collection services in the nature of collection and analysis of retail, shopping center, gaming and entertainment industry sales and customer traffic; compilation and provision of business statistical analysis information for business purposes; preparation of business reports; electronic data collection for business purposes, in the nature of collection of information, analysis and advisory services relating to pedestrian movements and store traffic analysis services, namely, generating and analyzing metric, statistics, reports and analytics of retail store traffic and traffic patterns including people counting, dwell times, and line queuing; technical project studies, namely, conducting feasibility studies in the fields of customer care, loss prevention, inventory, business and retail performance, customer traffic; procuring of contract for the purchase and sale of goods of others; Providing analysis, custom design, implementation and management of a merchandise protection program for others in the nature of merchandise tagging, tracking and analytics; Providing demographic information, namely providing information on pedestrian movement for marketing purposes; business research services in the field of pedestrian movement; business performance information based on pedestrian movement and providing an index of performance based on pedestrian movement; Business and market research services for analyzing new retail sales opportunities in the fields of retail, real estate, hotel, restaurant and bank industries; providing information about new sales opportunities in the fields of retail, real estate, hotel, restaurant and bank industries via the internet; business and market research services in the field of retail traffic statistics and index figures related to retail traffic; providing information about retail traffic via a computer network; providing a computer database in the field of customer traffic trends and patterns in public areas; providing online non-downloadable data for analyzing retail traffic; Store traffic analysis, namely, software as a service for recording,

reporting and analysis of shopper traffic based upon people counting sensors and monitoring cameras;

(2) business consultancy services and management consultation in the field of facilities management, relating to quality management services for industrial, commercial and governmental facilities in the field of workplace, office space, and personnel; business consultation services, namely, conducting market studies with the goal of maximizing real estate assets and space utilization consultation services provided to businesses, namely, establishing customized guidelines for space utilization, furniture and material specifications; Business consultation services, namely, analyzing, planning and monitoring resource investment for mission critical programs used in facility management control systems for automated control of heating, ventilation, air-conditioning, lighting and fire safety equipment; business relocation and personnel selection, namely, personnel recruitment and placement; customer support services in the field of facilities management; providing customer support and complaint resolution services in the field of facilities management, via electronic, telephonic and wireless means; energy management services, namely, energy usage management information services; cargo tracking services in the nature of providing tracking services and information concerning tracking of assets in transit, namely, vehicles, trailers, cargo and delivery containers for business inventory purposes; compilation, systemization, collection, statistical analysis and reporting for business purposes of information pertaining to industrial, commercial and residential building, facility and plant control, automation, and optimization systems;

Class 37

(3) Installation, maintenance and repair of kitchen hood suppression systems, cctv and security equipment installation, smoke detector installation, fire extinguisher installation, intrusion system, automatic sprinklers installation, emergency lights, access control systems, theft prevention devices and monitoring systems comprising electronic video surveillance cameras with computer hardware and software; Installation, repair and maintenance services of computer hardware and peripherals, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices; Installation, repair and maintenance services of fire protection systems, emergency broadcast systems, alarm, security, and access control systems, heating systems, ventilating and air conditioning systems, security monitoring equipment, and customer traffic and parcel transport management systems; Installation, repair and maintenance of refrigeration systems, fire detection systems and alarm systems, security access systems, sprinkler systems, piping, special hazard warning signs and fire suppression systems, and fixed, portable and passive fire protection systems; building maintenance and repair; fire alarm repair; fire alarm installation; installation of fire detection systems; repair of fire damage; fire extinguisher recharging services; maintenance and servicing of fire alarm installations; technical support and advisory services relating to the installation of fire prevention equipment; providing information relating to the repair or maintenance of fire alarms; information services relating to installation and maintenance of security systems; advisory services relating to the installation of security and fire safety equipment; construction, repair, installation, maintenance services and inspection in the course of construction of fire protection systems, emergency broadcast systems, alarm systems, security and access control systems, ventilating and air conditioning systems, pipelines, valves, valve fittings and actuators, security monitoring equipment and customer traffic and parcel transport management systems, heating, and temperature sensing systems; leasing of building machinery related to construction sites; installation, maintenance and repair services of fire protection and extinguishing apparatus, namely, fire alarm, detection and suppression systems; installation, maintenance and

repair of security systems, apparatus and equipment; installation and maintenance of fire control and containment systems; technical consultation in the field of mechanical building constructions; consulting services in the field of installation and maintenance of alarm response and verification services; consulting services in the field of installation and maintenance of vehicle security systems and vehicle navigation systems; repair of clothing for protection against fire; repair, installation and maintenance services for anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels, magnetic and electromagnetic object detectors, transponders, antennas, encoded micro particulates, electronic article detection equipment; repair, installation and maintenance of radio frequency identification (RFID), electromagnetic, radio frequency and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; repair, installation and maintenance of customer tracking and surveillance apparatus in the nature of camera hardware systems for IP video surveillance, electronic surveillance and tracking apparatus in the nature of video surveillance installations, detachers and deactivators for use with inventory control and anti-theft tags and labels, tag deactivators, including hooks, tag detachers, including hooks; troubleshooting and remote repair of devices for loss prevention, store performance and inventory management;

(4) Installation, maintenance, and repair of systems for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems for industrial, commercial, governmental facilities; Construction Management services, namely, supervision of construction and renovation of facilities; management consultation in the field of facilities management, namely, managing the maintenance and repair affairs of operations of facilities, facilities management services, namely, facilities management services relating to maintenance, repair, environmental control, cleaning, and safety of buildings, office subdivisions, facilities and equipment of buildings; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization devices, apparatus and systems for buildings, facilities and plants; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, external threat detection security systems, building access systems, installation, maintenance and repair of electrical and electronic controls and control systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration systems, to record energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, emergency voice communication and video broadcast systems, luminescent display panels, battery and storage cell electrical charging systems, energy metering and payment systems, fire and smoke detection, alarm, suppression, containment and control systems, water flow, emergency evacuation, security access and alarms systems, CCTV surveillance systems, external threat detection namely safety, alarm and containment systems, light and motion detection systems, and systems for fault detection; maintenance and repair of vehicles for the transportation of persons and goods, including automobiles, trucks, boats and motorcycles; maintenance and repair of parts and accessories for vehicles for the transportation of persons and goods, including without limitation, electric accumulators, batteries, hybrid and electric battery systems, cells and voltaic cells, starter batteries, and their parts, and related products for maintenance, charging and monitoring for vehicles for the transportation of persons and goods; services of installation and maintenance of batteries and filters; battery recharge services;

Class 40

(5) Manufacturing services for others in the field of batteries; custom manufacturing services for others in the field of batteries; recycling of batteries; manufacturing services for others of systems

for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems for industrial, commercial, and governmental facilities and parts therefore.

Class 42

(6) Industrial analysis and research services in the fields of security, health, fire detection and suppression, access control, intrusion, customer care, loss prevention, inventory, business and retail performance, customer traffic, environmental, energy management and lighting apparatus, systems and devices, home automation; software development, programming and implementation; computer hardware development; hosting online web computer software application facilities of others; rental of computer software; rental of computer hardware and rental of space in computer co-location facilities; IT consultancy, advisory and information services; IT security, protection and restoration, namely, protection and restoration of computer data, computer virus protection services, recovery of computer data; data coding services, namely, data encryption services; testing, authentication, and inspection services relating to computer hardware and software, fire alarm, detection, prevention and suppression systems, kitchen hood suppression systems, security equipment and apparatus, smoke detector, fire extinguishers, intrusion system, automatic sprinklers and emergency lighting apparatus, systems, and devices; quality control for others in the fields of security, health, fire detection and suppression, access control, intrusion, customer care, loss prevention, inventory, business and retail performance, customer traffic, environmental, energy management and lighting apparatus, systems and devices, home automation; design and inspection of fire extinguishing, fire alarm, detection, and suppression systems; data security services, namely, design and development of electronic data security systems; computer security consultancy; scientific and technological services, namely, research and design in the field of computer networking security; design, development and programming of Internet security software programs; rental of Internet security software programs; data migration services; design of anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels, magnetic and electromagnetic object detectors and electronic article detection equipment; design of radio frequency identification (rfid), microwave, electromagnetic, radio frequency and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; design of customer tracking and surveillance apparatus in the nature of camera hardware systems for IP video surveillance, electronic surveillance and tracking apparatus in the nature of video surveillance installations, detachers and deactivators for use with inventory control and anti-theft tags and labels, tag deactivators, including hooks, tag detachers, including hooks; design of computer software for monitoring and controlling motorways and tunnels; design of computer software for urban traffic control; scientific and industrial research relating to security, safety, health, fire detection and suppression, access control, intrusion, customer satisfaction, loss prevention, inventory, business and retail performance, customer traffic, environmental, energy management and lighting apparatus, systems and devices, home automation; civil engineering consulting, mechanical engineering consulting, construction engineering consulting and electrical engineering consulting services; design services relating to fire protection and extinguishing systems, namely, fire alarm, detection and suppression systems; design of security systems and monitoring systems; design of computer software for security systems and fire alarm, detection and suppression systems; computer software maintenance services relating to fire protection and extinguishing systems and to security and monitoring systems and to apparatus for such systems; traffic engineering design to achieve the safe and efficient movement on roadways, and telecommunication engineering design services to provide solutions revolving around wireless modes of communication in the field of wireless telephony services, radio and satellite communications, and internet and broadband technologies for others; technical project studies, namely, conducting scientific feasibility studies in the fields of security, health, fire detection and

suppression, access control, intrusion prevention, customer satisfaction, loss prevention, inventory, business and retail performance, customer traffic, environmental control, energy management and lighting apparatus, systems and devices, home automation; fire alarm testing and inspection services; fire suppression systems testing and inspection services; CCTV and security equipment testing and inspection services; smoke detector testing and inspection services; fire extinguisher testing and inspection services; intrusion system testing and inspection services; automatic sprinklers testing and inspection services; emergency lights testing and inspection services; security systems testing and inspection services; design of fire protection systems in the nature of fire alarm, detection and suppression systems; design of security systems; design of retail solutions, namely, providing temporary use of non-downloadable computer software used for managing alarm systems, controlling and analyzing inventory, detecting and preventing theft, asset tracking, analyzing retail activity, and people counting and tracking; development and testing of firefighting apparatus, appliances and equipment; computer programming relating to monitoring, surveillance and image processing; design and development of home security systems; engineering and system analysis in the field of home security systems; computer services, namely, operating computer systems and computer networks featuring technology that allows users to monitor and control electrical, heating, power and security systems at a remote location, and enables users to adjust energy usage at preprogrammed or scheduled times; computer services, namely, operating computer systems and computer networks featuring technology that facilitates the monitoring and control, from a remote location by wireless communication, of devices for electrical, heat, power, and security monitoring and control; hosting a website featuring technology enabling users to remotely view, monitor, program, operate and control electrical, heating, power and security systems in homes and businesses; providing temporary use of non-downloadable software for remote monitoring in the fields of security, fire detection and suppression, access control, intrusion, customer satisfaction, loss prevention, inventory, business and retail performance, customer traffic, environmental, energy management and lighting apparatus, systems and devices, home automation; providing temporary use of non-downloadable software to monitor and record building security systems, fire detection and suppression systems, environmental hazard detection systems, building access control, intrusion prevention, customer satisfaction, loss prevention, inventory, business and retail performance, customer traffic, energy metering and payment and systems for lighting; providing temporary use of non-downloadable computer software for tracking packages or freight over computer networks, intranets and the internet; providing software as a service (SAAS) provider in the field of software for the monitoring, control, operation, automation, interaction and optimization of retail building security systems, fire detection and suppression systems, access control systems, intrusion prevention systems, customer satisfaction systems, inventory loss prevention, inventory tracking, business and retail performance, customer traffic, environmental hazard detection systems, energy metering and payment systems and ambient lighting systems; software as a service (SAAS) provider in the field of software for the monitoring, control, operation, automation, interaction and optimization home security systems, home fire detection and suppression systems, home access control systems, home intrusion prevention systems, loss prevention of personal belongings, environmental hazard detection systems, home energy metering and payment and ambient lighting systems for the home; consultation, design and integration services in the field of hardware, software, and hardware and software devices and systems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems and problems with anti-theft alarms, inventory control systems, theft-prevention devices, people tracking devices and asset tracking devices; troubleshooting and dispatching technician for devices for loss prevention, store performance and inventory management; providing temporary use of online non-downloadable cloud computing software for managing, maintaining, diagnosing,

monitoring and controlling of security, fire detection and suppression, access control, intrusion, customer satisfaction, loss prevention, inventory, business and retail store performance, customer traffic, environmental, energy management and lighting apparatus, systems and devices; providing online non-downloadable software for analyzing retail traffic and new sale opportunities in the fields of retail, real estate, hotel, restaurant and banking industries; provision of virtual computer systems through cloud computing for environmental, energy management, access and security systems for buildings related to heating, ventilation, climatisation and lighting of buildings; provision of advice and information in the fields of cloud based and non-cloud based energy management; calibration of building security systems, fire detection and suppression systems, access control systems, intrusion prevention systems, customer satisfaction systems, inventory loss prevention systems, inventory tracking systems, environmental hazard detection systems, energy metering and payment systems and ambient lighting systems; Installation and maintenance of motion detectors, security monitors, and electronic voice microphone transmitters and receivers; provision of technological advice and information in the fields of cloud and non-cloud based apparatus, systems and devices used for energy management and lighting; providing application hosting services, namely, providing software for use in analyzing customer behavior and decision-making, for monitoring, viewing, recording, analyzing, managing and reporting data relating to customer activity and interactions, personnel functions, marketing impact and shopping and buying decisions in retail stores; providing temporary use of non-downloadable computer software used for analyzing customer behavior and decision-making, and for monitoring, viewing, recording, analyzing, managing and reporting data relating to customer activity and interactions, personnel functions, marketing impact and shopping and buying decisions in retail stores; technical support, namely, monitoring and analysis of security network systems in the fields of surveillance for detecting and reporting fraud and theft; technical research in the field of pedestrian movement; information services relating to pedestrian movement and pedestrian counts; providing temporary use of online non-downloadable operating software for accessing and using a cloud computing network; visitor and customer flow process monitoring for quality assurance in the fields of security access control, intrusion, customer satisfaction, inventory loss prevention, and customer traffic; leasing of computer hardware and software for analyzing consumer traffic, customer behavior, customer decision-making and pedestrian movement; Technological consultation in the field of design and development of computer hardware, computer software and computerized peripherals and systems used for tracking products for inventory control, to prevent product inventory theft, for the operation of security surveillance systems, and of magnetic and electromagnetic object detectors; technical support, namely, monitoring of network systems in the fields of electronic article and object surveillance, tracking and detection.

(7) design and engineering of systems for heating and cooling, motion, optical and temperature sensing systems; Engineering and design services for others in the field of systems for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems; architectural design services; online system management services that allow users to remotely monitor systems for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems; providing technology information updates for home security systems via the global computer network; providing temporary use of on-line non-downloadable software for use in database management in the field of real estate; consultancy services relating to building use, namely, consulting services regarding the design of building infrastructure systems, planning of buildings and infrastructure systems for building, site planning, namely, surveying and engineering, building design, building engineering, building standards, building management systems, namely, design and development of on-line computer software systems and integration of computer systems and building automation, information technology for buildings, environmental health and safety in buildings, environment of buildings, environmental

quality of building; Design of computer software systems for facility management controls; Installation, maintenance, and repair of computer software systems for facility management controls; engineering, design and development of building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant control, automation and optimization software, devices, apparatus and systems; technical consultation in the field of computer hardware, software, and peripherals used for building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant automation and optimization devices, apparatus and systems; computer services, namely, auditing via electronically gathering, analyzing and formatting data to monitor and enable reporting to others on the performance of building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant, automation and optimization devices, apparatus and systems; online provision of non-downloadable computer applications and computer software for building, facility, and plant controls, control devices, apparatus and systems, and building, facility and plant automation and optimization devices, apparatus and systems; customer support services relating to building, facility, and plant controls, control devices, apparatus and systems, and building, facility and plant control, automation and optimization software, devices, apparatus and systems; Provision of a web-based platform to monitor and control the energy efficiency of HVAC and cooling equipment at chiller plants; provision of consulting services for and management of the planning, integration and maintenance of HVAC and cooling equipment for the optimization of energy efficiency at chiller plants;

Class 45

(8) Security services, namely, alarm response and verification services; monitoring and remote monitoring of alarms, security systems and home automation systems for security purposes; firefighting services; monitoring fire alarms; fire prevention consultation; rental of fire extinguishers; rental of fire alarms; providing information relating to the rental of fire alarms and fire extinguishers; fire detection and suppression services, namely, responding to fire alarms and providing firefighting services; provision of fire prevention-related advice; consulting services in evaluation of fire scenes; security and fire alarm monitoring services; monitoring of security systems; monitoring burglar and security alarms; electronic monitoring services for security purposes in the field of residences, businesses and commercial properties; security guard services; security guarding for facilities; providing information relating to security guard services; alarm response and verification services; monitoring and control of alarm and security systems, of water flow and of home automation systems for security purposes; centralized burglar and fire alarm services, namely, monitoring centralized burglar and fire alarm services; control of building environmental access and security systems in the nature of building energy management services, security services relating to the heating, ventilation, air conditioning and lighting of buildings; security services in the field of monitoring and of telephone calls from subscribers and notifying emergency facilities; theft recovery services, namely, tracking, locating and monitoring of vehicles for security purposes via a computer network; tracking services for homes, people and businesses, namely, tracking services for homes, people and businesses, namely, tracking, locating and monitoring services for recovering people, and stolen property; providing consulting services through call centres regarding security services in the field of monitoring and of telephone calls from subscribers and notifying emergency facilities, theft recovery services, namely, tracking, locating and monitoring of vehicles for security purposes via a computer network, and tracking, locating and monitoring services for recovering people, and stolen property; concierge services for others comprising making requested personal arrangements and reservations; leasing of firefighting equipment; monitoring services relating to fire protection and extinguishing systems and to security and monitoring systems and to apparatus for such systems and to computer software for such systems

and apparatus; building environmental services, namely, control of lighting systems and control of HVAC systems; control of building environmental access systems and control of building security systems; intrusion detection and control services, namely, tracking, locating and monitoring services for preventing the intrusion of burglars; surveillance services; closed-circuit surveillance; rental of security surveillance apparatus and equipment; providing reconnaissance and surveillance services; forensic analysis of surveillance video for fraud and theft prevention purposes; cloud based surveillance services; cloud based closed-circuit surveillance; cloud based rental of security surveillance apparatus and equipment; cloud based provision of reconnaissance and surveillance services; cloud based forensic analysis of surveillance video for fraud and theft prevention purposes; monitoring and controlling of security computer systems in the event there is a need to rescue someone, for theft and vandalism protection and for law enforcement purposes; cloud based security services, namely, alarm response and verification services; provision of advice and information in the fields of cloud based and non-cloud based security, fire detection and suppression, access control, intrusion, loss prevention and building environments and security, fire detection and suppression, access control, intrusion, loss prevention and building environmental apparatus, systems and devices; monitoring of computer security system for security purposes; Monitoring and controlling building, facility and plant automation and optimization systems; monitoring and controlling building, facility and plant environmental, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound speaker emergency systems, display panels and access apparatus and systems; monitoring and controlling computer systems and data derived from building, facility and plant environmental, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound speaker emergency systems, display panels and access apparatus and systems; leasing of anti-theft and security alarms, antennas, labels, tags, apparatus, devices and systems; leasing of electronic security and surveillance devices; leasing of video surveillance, video security, security surveillance, security management, monitoring and theft-prevention hardware and software; leasing of video surveillance, video security, security surveillance, security management, monitoring and theft-prevention equipment.

Goods

Class 01

(1) chemicals used in industry, science, and agriculture, horticulture and forestry, namely, inorganic acids, alkalies, inorganic salts, argon, sulfur [chemicals], chlorine, xenon, krypton, oxygen, bromine, hydrogen, carbon, nitrogen, arsenic, fluorine, helium, boron, iodine, radon, phosphorus, potassium, calcium, sodium, oxides, sulphides, carbides, distilled water for industrial purposes, compressed air, liquid air, anthracene, diphenyl, diphenylmethane, cymene, stilbene, styrene, triphenylmethane, toluol [toluene], naphthalene, phenanthrene, aliphatics, organic halogenides, alcohols, phenols, ethers, aldehydes and ketones, organic acids and their salts, esters, nitrogen compounds, heterocyclic compounds, carbonic hydrates, gum arabic, proteins and enzymes, organophosphorus compounds and organoarsenic compounds, organometallic compounds, surface-active agents [surfactants], galvanizing preparations, preparations for preventing the tarnishing of glass, glass-staining chemicals, chemical coatings for ophthalmic lenses, chemical preparations for use in photography; glue and adhesives for industrial purposes,

namely, gum arabic glue for industrial purposes, casein glue for industrial purposes, rubber cements for industrial purposes, gelatine glue for industrial purposes, dextrine size, starch paste for industrial purposes, animal glue for industrial purposes, plastic adhesives for industrial purposes, water glass [soluble glass], latex glue for industrial purposes; plant growth regulating preparations; fertilizers; ceramic glazings; priming putty; higher fatty acids; nonferrous metals, namely, actinium, americium, antimony, ytterbium, yttrium, uranium, erbium, gadolinium, gallium, californium, curium, samarium, dysprosium, silicon [metal element], mercury, scandium, strontium, cesium, cerium, selenium, bismuth, thallium, thulium, technetium, terbium, tellurium, thorium, neodymium, neptunium, berkelium, barium, fermium, praseodymium, francium, plutonium, protactinium, promethium, holmium, europium, radium, lanthanum, lithium, rubidium, rhenium; non-metallic minerals, namely, sulfur [non-metallic minerals], foundry sand, kaolin, talc, rock salt, diatomaceous earth, acid clay, barytes [barite], saltpeter [salpetre], natural graphite, dolomite, cryolite, bentonite, bauxite, fluorite [fluorspar], magnesite, alunite, rock phosphate; chemical compositions for developing, printing and enlarging photographs; reagent paper, namely, test paper, chemical, photometric paper, nitrate paper and litmus paper; artificial sweeteners; flour and starch for industrial purposes, namely, Japanese arrowroot powder for industrial purposes [Kuzuko], corn starch for industrial purposes, wheat flour for industrial purposes, rice flour for industrial purposes, sweet potato flour for industrial purposes, potato flour for industrial purposes, buckwheat flour for industrial purposes, pulse flour for industrial purposes, barley flour for industrial purposes; unprocessed plastics, namely, condensation plastics, unprocessed, polymerization plastics, unprocessed, cellulose plastics, unprocessed, protein plastics, unprocessed; pulp, namely, groundwood pulp, chemical pulp; blueprint paper; photographic paper; photographic sensitizers; photographic dry plates; photographic developers; flash powder; photographic fixers; unexposed Photographic Films; cinematographic film, sensitized but not exposed; x-ray films, sensitized but not exposed; fire extinguishing compositions; brake fluid; chemical additives for oils

Class 07

(2) metalworking machines and tools, namely, metalworking machine tools, primary metal forming machines, secondary metal forming machines, electric arc welding machines, power-driven hand-held tools, cutting tools for machinery, namely, gear cutters [machine tool], taps, other than hand-held tools, chasers [machine tool], drill bits, other than handheld tools, thread milling cutters [machine tool], turning point tools [machine tool], broaches, other than handheld tools, milling cutters [machine tool] and reamers, other than hand-held tools, cemented carbide tools, diamond tools, moulds and dies for metal forming; mining machines and apparatus, namely, cutter loaders, coalcutting machines, oil-well pumping machines, rock drills, well drilling machines, mining drill sharpeners, mine borers, coal loaders, truck mills for mining purposes, coal ploughs; construction machines and apparatus, namely, excavating machines, foundation work machines, ground surface finishing and compacting machines, concrete machines, asphalt paving machines, dredging machines; loading-unloading machines and apparatus, namely, cranes, conveyors, hoisting or winding gears, moving pavements [sidewalks], power jacks; industrial fishing machines, namely, net hauling machines, trawl winches, line haulers; chemical processing machines and apparatus, namely, presses, agitating machines, drying machines, absorbing machines, mixing machines, blending machines, dust collecting machines, sintering machines, calcining machines, sorting machines, granulating machines, extracting machines, emulsifying machines, kneading machines, roasting machines, disintegrators, reaction vessels, partial condensers, separating machines, grinding mills, dissolving machines, filtering machines, adsorbing machines for chemical processing, cleaning machines for chemical processing; textile machines and apparatus, namely, raw silk processing machines, chemical fiber processing machines, yarn spinning machine, looms, knitting machines, felt manufacturing machines, textile dyeing and finishing machines; food and

beverage processing machines and apparatus, namely, cereal processing machines, barley press rollers, confectionery making machines, bakery mixing machines, flour mills, rice and barley, polishing machines, namely, rice polishing machines, grain polishing machines, noodle making machines, barley splitting machines, brewing and fermenting machines, sake-straining bags for brewing, brewing machines, soy sauce making machines, miso making machines, ice cream making machines, milk homogenizing machines, cheese making machines, butter machines, powdered milk making machines, condensed milk making machines, meat processing machines, sausage machines, meat mincers, fishery product processing machines, edible kelp processing machines, fish paste making machines, canning machines, root slicing machines, soda-pop making machines, tea processing machines, sugar making machines, oil processing machines, bottling machines, mineral water making machines, vegetable grating machines; lumbering, woodworking, veneer and plywood making machines; pulp making, papermaking and paper-working machines and apparatus namely, pulp making machines, wood grinding machines, wood chipping machines, barking machines, pulping machines, wood beating machines, pulp refining machines, papermaking machines, paper calendering machines, paper coating machines, paper cutting machines, drier part units of papermaking machines, press part units of papermaking machines, paper reeling machines, wire part units of papermaking machines, paper-working machines, corrugated paperboard making machines, paper box making machines, paper bag making machines; printing and bookbinding machines and apparatus, namely, intaglio printing machines, typesetting machines, photogravure printing presses, matrices for use in printing, boxes for matrices for printing, phototypesetting and composing machines, photo-engraving machines, bookbinding machines, typographic presses, namely, letterpress, planographic printing machines; sewing machines; plowing machines and implements, other than hand-held tools; cultivating machines and implements; harvesting machines and implements; plant fiber processing machines and implements for agricultural purposes; fodder presses; fodder cutting machines [feed cutters]; fodder mixing machines [feed mixers]; cake-fodder crushing machines [feed mills]; milk filtering machines; milking machines; chick brooders; incubators for eggs; sericultural machines and implements for silkworm egg production and silkworm rearing; shoe making machines; leather tanning machines; tobacco processing machines; glassware manufacturing machines and parts and fittings therefor; painting machines and apparatus, namely, paint spray guns, paint mixing machines, paint guns; packaging and wrapping machines and apparatus, namely, packing machines, strapping machines, sheaf-binding machines, sealing machines, wrapping machines; power-operated potters' wheels; plastic processing machines and apparatus, namely, compression moulding machines, extrusion moulding machines, injection moulding machines, moulds being parts of machines for processing plastics; semiconductor manufacturing machines; semiconductor manufacturing systems, namely, semiconductor wafer processing equipment; machines and apparatus for manufacturing rubber goods, namely, rubber vulcanizing machines, rubber mixing machines, rubber forming machines, rubber mixing rolls, moulds being parts of machines for use in the manufacture of rubber goods; stone working machines; non-electric prime movers, not for land vehicles, other than water mills and wind mills, namely, turbines, internal combustion engines, steam engines, jet engines, boilers, rocket engines, compressed air engines and parts and fittings therefor; water mills; wind mills; pneumatic and hydraulic machines and instruments, namely, pumps, not for specified purposes, vacuum pumps, not for specified purposes, blowers, not for specified purposes, compressors, not for specified purposes; adhesive tape dispensing machines; automatic stamping machines; vending machines; fuel dispensing machines for service stations; washing machines for industrial purposes [laundry]; washing machines for household purposes [laundry]; machines for repairing and fixing for cameras, binoculars, eyeglass lenses, hearing aids, ophthalmoscopes, microscopes, cell culture observation machines, fundus cameras, industrial X-ray inspection devices, industrial CT inspection devices, industrial foreign substance inspection

devices, profile projector, measuring microscopes, auto collimeters, circuit pattern exposure machines for flat panel displays, circuit pattern exposure machines for semiconductors, laser processing machine, encoders, optical glass for cameras, digital cameras, camcorders, telescopes, binoculars, microscopes, range finders, fundus cameras, ophthalmoscopes, eyeglasses, industrial inspection machines, industrial measuring machines and surveying machines, total station surveying machines, leveling machines, transits for surveying; mechanical parking systems composed of power-operated lifts for moving, parking and storing land vehicles; vehicle washing installations; food mixing machines for commercial use; food peeling machines for commercial use; food cutting, chopping and slicing machines for commercial use; dishwashers for industrial purposes; dishwashers for household purposes; electric wax-polishing machines for industrial purposes; vacuum cleaners for industrial purposes; electric wax-polishing machines for household purposes; vacuum cleaners for household purposes; power sprayers for disinfecting, insecticides and deodorants [not for agricultural purposes]; machine elements not for land vehicles, namely, shafts, axels, spindles, bearings, couplings, connectors, power transmission, gearing, shock absorbers, springs, brakes, and valves; lawnmowers; curtain drawing devices electrically operated; electric door openers; waste compacting machines for industrial purposes; waste crushing machines for industrial purposes; 3D printers; starters for motors and engines; AC motors and DC motors and parts therefor, not including those for land vehicles, namely, AC motors for use in household and housing equipment and systems and for use in industrial machines and DC motors for air-conditioning installations and units, refrigerators and washing machines; AC generators [alternators]; DC generators; electric food blenders for household purposes; dynamo brushes; semiconductor lithography machine and parts and fittings therefor; liquid crystal manufacturing machines and instruments, parts and fittings therefor; liquid crystal lithography machine and parts and fittings therefor; semiconductor testing machine and parts and fittings therefor; liquid crystal testing machine and parts and fittings therefor; polishing machines for polishing wafers and parts and fittings therefor

Class 09

(3) 3D scanners; snorkels

Class 11

(4) toilet bowls and seats sold as a unit; prefabricated bathrooms sold as a unit; drying apparatus for chemical processing, namely, chemical fiber drying machines; recuperators for chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; drying apparatus for textile manufacture, namely, textile fabric dryers and clothes dryers; milk sterilizers; bread-making machines for industrial purposes; plywood drying machines; industrial furnaces; nuclear reactors [atomic piles]; drying apparatus for harvest, namely, harvest dryers; forage drying apparatus, namely, forage dryers; boilers, other than parts of non-electric prime movers and engines, namely, hot water boilers, gas boilers, steam boilers, and parts therefor; air conditioners for industrial purposes; freezing machines and apparatus for industrial purposes, namely, gas refrigerators for industrial purposes, ice machines for industrial purposes, refrigerating machines for industrial purposes, cooling evaporators for industrial purposes, cooling domes for industrial purposes, freezers for industrial purposes, refrigerating and freezing showcases; laundry dryers, electric, for industrial purposes; towel steamers for hairdressing purposes; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins for barbers' shop use; cooking apparatus and installations for commercial use, namely, cooking grills, electric cooking griddles, electric cooktops, cooking ovens, deep fryers for commercial use, rice cookers for commercial use, electromagnetic induction cookers for commercial use, cooking pots for commercial use, roasters for commercial use; dish drying machines for commercial use; dish disinfecting machine for

commercial use; kitchen worktops with integrated sinks for commercial use; kitchen sinks for commercial use; tap water faucets; level controlling valves for tanks; pipe line cocks; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; garbage incinerators for industrial purposes; garbage incinerators for household purposes; solar water heaters; water purifying apparatus for industrial purposes; electric lamps and other lighting apparatus, namely, arc lamps, pocket search lights, lamp shade for electric lamps, fluorescent lamps, safety lamps for underground use, germicidal lamps, chandeliers, fish-luring lights, mercury lamps, spotlights, infrared lamps, diving lights, artificial sunlights, searchlights, vehicle dynamo lamps, incandescent lamps, incandescent lamps and their fittings, discharge lamps and their fittings, miniature light bulbs; household electrothermic appliances, other than for beauty and sanitary purposes, namely, electrically heated carpets for household purposes, electric cooking pots for household purposes, electric coffee makers for household purposes, Japanese electric legwarming apparatus for household purposes [electric Kotatsu], electric cooking stoves for household purposes, electric ice-cream making machines for household purposes, laundry dryers, electric, for household purposes, electric humidifiers for household purposes, electric air purifiers for household purposes, electric dehumidifiers for household purposes, electric fans for household purposes, electric water ionizers for household purposes, electric futon driers for household purposes, electric hot plates for household purposes, electric space cooling apparatus for household purposes, electric range hoods [extractor hoods] for household purposes, water purifiers for household purposes, electric, electric radiant heaters for household purposes, electric footwarmers for personal use, electric toasters for household purposes, Japanese hand warming apparatus for household purposes [electric Hibachi], electric sleeping mattresses for household purposes, electric therm pots for household purposes, electric blankets for household purposes, electric refrigerators for household purposes, electric freezers for household purposes, electric cooking ovens for household purposes, electromagnetic induction cookers for household purposes, microwave ovens [cooking apparatus] for household purposes, electric bath-water purifying apparatus for household purposes; household electrothermic appliances for beauty and sanitary purposes, namely, hairdryers, hair curlers, curling tong heaters, hand dryers, and hair straighteners, facial equipment using ultrasonic waves for household purposes; washers for water taps; gas water heaters for household purposes; non-electric cooking heaters for household purposes, namely, non-electric cooking steamers, gas grills, gas stoves, gas ovens, Japanese kitchen furnaces for household purposes [Kamado], Japanese charcoal cooking stoves for household purposes [Shichirin], oil cooking stoves for household purposes, non-electric baking ovens for household purposes, non-electric barbecue grills for household purposes; kitchen worktops with integrated sinks for household purposes; kitchen sinks for household purposes; household tap-water filters, non-electric; standing paper lanterns [Andon]; portable paper lanterns [Chochin]; gas lamps; oil lamps; lamp chimneys; warming pans, non-electric; pocket warmers, non-electric; hot water bottles for warming one's feet in bed; waste water treatment tanks for household purposes; septic tanks for household purposes; toilet stool units with a washing water squirter; disinfectant dispensers for toilets; toilet bowls; seatings for use with Japanese style toilet bowls; bath fittings; stoves for household purposes, non-electric; electric coffee makers; humidifiers; LED flashlights; flashlights; electric toasters; desalination plants; pressure water tanks; sauna bath installations; air conditioning installations, namely, air conditioners, compressors for air conditioners, evaporators for air conditioners, filters for air conditioners, hoses for air conditioners, air filters for air conditioning installations, ducts of metal for air conditioning installations, electrical control systems for heating and air conditioning systems, fans for air conditioning units, radiators for industrial air conditioning purposes; ice chests for household purposes; ice-cooling refrigerators for household purposes

Class 14

(5) precious metals; unwrought precious stones; semi-wrought precious stones and their imitations; key rings; jewellery cases; trophies [prize cups]; commemorative shields; personal ornaments, namely, necklaces, bracelets, pendants, rings, earrings, insignias of precious metal, badges of precious metal, bonnet pins of precious metal [jewellery], tie clips, tie pins, gem brooches, medals, lockets; cuff links; shoe ornaments of precious metal; clocks and watches; pin badge; key rings of precious metals; badges of precious metal; tie pins; necklaces [jewellery]; bracelets [jewellery]; pendants; rings [jewellery]; jewellery charms, namely, talismans

Class 16

(6) pastes and other adhesives for stationery and household purposes; sealing wax; printers' reglets [interline leads]; printing type; addressing machines; ink ribbons; automatic stamp affixing machines; electric staplers for offices; envelope sealing machines for offices; stamp obliterating machines; drawing instruments, namely, drawing pens, drawing pencils, drawing T-squares, compasses, rulers, protractors, tracing needles for drawing purposes, pantographs [drawing instruments], drawing boards; typewriters; checkwriters; mimeographs; electric relief duplicators; non-electric relief duplicators; paper shredders for office use; franking machines; rotary duplicators; marking templates; decorators' paintbrushes; containers of paper, for packaging; bags, namely pouches of plastics for packaging; food wrapping plastic film for household purposes; garbage bags of paper for household purposes; garbage bags of plastics for household purposes; paper patterns; tailors' chalk; banners of paper; flags of paper; hygienic hand towels of paper; towels of paper; table napkins of paper; hand towels of paper; handkerchiefs of paper; printed paper for lot in the nature of printed paper labels, other than toy; paper and cardboard; stationery, namely, paper stationery, albums, cards [stationery], carbon paper [finished products], ruled paper [finished products], scrapbooks, sketchbooks, score-cards, score-books, account books, pocket memorandum books, account slip pads, stencil paper [finished products], tracing cloth [finished products], tracing paper [finished products], note books, writing pads, envelopes, plotting papers [graph paper as finished products], business card paper [semifinished], letter paper [finished products], loose-leaf pads, writing implements [writing instruments], pencils, pencil point protectors, bone stylus, felt writing pens, mechanical pencils, slate pencils, steel pens [styluses and stencil pens], chalks, felt marking pens, pen nibs, penholders, ball-point pens, fountain pens, writing brushes, painters' articles, painters' easels, silk canvas [painters' article], drawing boards [painters' article], canvas for painting, crayons, paintbrushes [stationery], pastels, palettes for painters, charcoal for painters, writing ink, ink erasers, inkwells, stamps [seals], stamp cases, stamp stands, seal ink pads, pencil sharpeners, nonelectric, thumbtacks, clips, rubber erasers, blackboards, blackboard erasers [chalk erasers], seals [stationery], bookmarkers, underlays for writing paper, adhesive tapes for stationery and household purposes, correcting fluid [whiteout], correcting tapes, rulers for stationery and office use, letter racks, paper folders, ink stones [ink reservoirs], inking pads, staplers for offices, nonelectric, stickers [stationery], ink sticks [Sumi], writing slates, adhesive tape dispensers, [office requisites], abacus [Soloban], strips of fancy paper [Tanzaku], terrestrial globes, price tags, notice bills, numbering stamps, date stamps [daters], stands for pens and pencils, pen cases, paperweights, drawing protractors for stationery, paper knives [letter openers], Indian inks, Japanese ceremonial paper strings [Mizuhiki], finger-stalls [office requisites]; printed matter, namely, picture postcards, sheet music, song books, catalogues, calendars, magazines [publication], printed timetables, books, newspapers, geographical maps, diaries, newsletters, pamphlets; photographs; paintings and calligraphic works; photograph stands; calendars; picture albums; magazines; newsletters; books; newspapers; stickers [stationery]; trading cards; photo books; clear plastic folder; post cards; seals [stationery]; catalogues; pamphlets; note books; posters

Class 18

(7) baggage tags; vanity cases

Class 21

(8) dental floss [floss for dental purposes]; unworked and semi-worked glass, not for building; mangers for animals [troughs for livestock]; poultry rings; electric tooth brushes; cosmetic and toilet utensils, other than electric tooth brushes, namely, personal washing cloths, face-powder cases, combs, combs cases, cosmetic cream cases, cosmetic utensil sets, make-up sponges, make-up brushes, fitted, perfume sprays, sold empty, powder compacts, soap holders and boxes, toilet cases, nail brushes, powder puffs, tooth brushes, nonelectric, tooth brush cases, shaving brushes, shaving brush stands, hair brushes, lip brushes, eyebrow brushes; tub brushes; metal brushes for pipes; brushes for pipes; industrial brushes for cleaning tanks and containers; ship-scrubbing brushes; gloves for household purposes; industrial packaging containers of glass, not including glass stoppers, lids and covers; industrial packaging containers of ceramics; glass stoppers for industrial packaging containers; glass covers and lids for industrial packaging containers; industrial packaging bottles of plastics; cooking pots and pans, non-electric; coffee-makers, non-electric; Japanese cast iron kettles, non-electric [Tetsubin]; kettles, non-electric; dinnerware, other than knives, forks and spoons; kitchen containers for rice, namely, food containers, packaging, containers, and storage containers and parts therefor; food preserving jars of glass; drinking flasks for travellers; cookware; ice pails; sugar tongs; nutcrackers; pepper pots; sugar bowls; colanders; salt shakers; Japanese style cooked rice scoops [Shamoji]; cooking funnels; drinking straws; Japanese style personal dining trays and stands [Zen]; bottle openers, nonelectric; egg cups; tart scoops; napkin holders; napkin rings; hot pads [trivets]; chopsticks; chopstick cases; ladles and dippers for kitchen use; cooking sieves and sifters; trays; toothpicks; toothpick holders; cleaning tools and washing utensils, namely, hand garden rakes, buckets for cleaning, washing boards, clothes pegs [clothes pins], washing brushes, wash basins, dusting and cleaning cloths, wash-tubs, scrubbing brushes, waste baskets, dust-pans, polishing cloths, dusters, drying boards for washed, starched and then stretched pieces of kimono [Hari-ita], brooms, mops, clothes hanging rods [used as washing lines], clothes drying hangers; ironing boards; tailors' sprayers; ironing boards [Kotedai]; Hera-dai [fabric marking boards]; stirrers for hot bathtub water [Yukakibo]; bathroom stools; bathroom pails; candle extinguishers; candlesticks; cinder sifters for household purposes; Gotoku [trivets for Japanese charcoal heaters for household purposes]; coal scuttles; Japanese charcoal extinguishers [Hikeshi-tsubo]; mouse and rat traps; fly swatters; flower pots; hydroponic plant pots for home gardening; watering cans; feeding vessels, namely, feedings dishes, feeding troughs, and feeding bottles for pets; brushes for pets; bird cages; bird baths; clothes brushes; chamber pots; piggy banks; sacred lots, namely, Omikujji; heating and cooling packs filled with chemical substances ready to react when required; boxes of metal for dispensing paper towels; soap dispensers; indoor aquaria and their fittings; toilet paper holder; flower vases; flower bowls; upright signboards of glass and ceramics; perfume burners; shoe brushes; shoe horns; shoe shine cloths; shoe shine sponges and cloths; shoe-trees [stretchers]; portable cooking kits for outdoor use consisting of pots, pans and bowls; cattle hair for brushes, pig bristles for brushes and horsehair for brushes; tumblers; mugs; drinking flasks; water bottles; vacuum bottles; drinking glasses; drinking vessels, namely, mugs, glasses and water bottles; lunch boxes; insect traps; pots for trapping insects containing insect repellent

Class 24

(9) woven fabrics, other than edging ribbons for Tatami mats; cloth for Tatami mat edging ribbons; knitted fabrics; felt and non-woven textile fabrics; oilcloth; gummed waterproof cloth; rubberized cloth; filtering materials of textile, namely, gauze fabric, cotton fabrics, knitted fabrics; woven textile

goods for personal use, namely, towels, handkerchiefs, sheets, pillows, pillow cases, and blankets, namely, blankets for indoor and outdoor use, throws, quilts, duvets, comforters, children and infant blankets, lap blankets, pet blankets, travelling blankets, Japanese ceremonial wrapping cloth [Fukusa], Japanese general wrapping cloth [Furoshiki]; mosquito nets; bedsheets; Futon quilts; quilt covers for Futon; Futon ticks [unstuffed Futon]; pillowcases [pillow slips]; blankets; table napkins of textile; dish towels for drying; shower curtains; banners and flags, not of paper; toilet seat covers of textile; seat covers of textile; wall hangings of textile; curtains; table cloths, not of paper; draperies [thick drop curtains]; shrouds [sheets for wrapping corpses]; shrouds for dressing a corpse for funeral [Kyokatabira kimono]; red-and-white striped curtains; black-and-white striped curtains; billiard cloth [baize]; sleeping bags; leather cloth; vinyl coated cloth; labels of cloth; towels of textile; handkerchiefs of textile; advertisement boards of textiles; signs of textiles; insect collectors' articles, namely, insect netting
