Trademarks Journal

2021-08-11 — Vol. 68 No. 3485

Trademarks Journal

Vol. 68 No. 3485

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 09

(1) Computer software and mobile applications in the field of workplace personal health and safety and disability management in the workplace, namely computer software and mobile applications for accessing workplace personal health and safety information databases, for completing workplace safety checklists, for viewing statistical information about workplace safety checklist compliance and incident reports, for scheduling workplace personal health and safety inspections and reviews, for viewing educational videos and training materials in the field of workplace personal health and safety, for testing trainees in order to ensure retention of personal health and safety training information, for managing and maintaining workplace personal health and safety training and compliance programs, for managing and maintaining a database of workplace personal health and safety information, for measuring safety management performance and for maintaining a record management and contractor management system in the field of personal health and safety training, performance and compliance; downloadable electronic and online educational and training materials in the field of workplace personal health and safety and disability management in the workplace, namely safety talks, hazard alerts, online safety training programs and live safety training courses.

Class 16

(2) Printed educational and training materials in the field of workplace personal health and safety and disability management in the workplace, namely safety talks, hazard alerts, online safety training programs and live safety training courses.

Services

Class 35

(1) Managing and maintaining a database of workplace personal health and safety information for others.

Class 38

(2) Providing secure access to a database featuring workplace personal health and safety information for others.

Class 41

(3) Educational services, namely, providing seminars, conferences, workshops, classes and training sessions in the field of workplace personal health and safety and disability management in the workplace; Managing and maintaining workplace personal health and safety training and compliance programs for others.

Class 42

(4) Hosting a website and software featuring information in the field of workplace personal health and safety and disability management in the workplace; cloud computing services, namely, providing electronic storage space for the workplace personal health and safety data of others.

Class 45

(5) Licensing of computer software; licensing of intellectual property; Consulting and assessment services in the field of safety in the workplace.

Colour Claim

Colour is claimed as a feature of the trade-mark. Dark Blue Background Blue 80 Accent Color Blue 30 Accent Color Green 30. The mark consists of the letters "IBM" in white with horizontal blue lines through the letters. Below the letters is the word "BUSINESS" in white, above the word "PARTNER" in white. To the right of the letters and words is a design made up of blue and green interwoven hexagons. All on a blue shaded background.

Goods

Class 09

Computer hardware; computer hardware, namely, computers, computer servers and storage apparatus namely, high-speed subsystems for storage and backup of electronic data either locally or via a telecommunications network; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer operating system software; computer programs for connecting computers to one another and for enabling computing across a global computer network; computer programs for managing systems, software and processes existing within an information technology environment, and instruction manuals sold as a unit therewith. Cloud computing system, namely network integrating computer hardware and software for dynamic provisioning, virtualization, and consumption metering of computer resources.

Services

Class 35

(1) Business management consulting services and business consulting services in the field of computers, computing services, computer software, computer hardware, computer systems, computer products and services and electronic business transactions via a global computer network; business development services in the field of computers, computing services, computer

software, computer hardware, computer systems, computer products and services and electronic business transactions via a global computer network; market research studies; arranging and conducting trade show exhibitions in the field of computers, computing services, computer software, computer hardware, computer systems, computer products and services and electronic business transactions via a global computer network.

Class 42

(2) Computer systems integration services; computer consultation services, namely, consulting services in the field of cloud computing; technical support services provided by computer specialists concerning computer software, hardware, computer systems, computer products and services, electronic business transactions via a global computer network, computing and related services thereto; computer software consultation services; computer hardware consultation services; computer systems consultation services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; technical support services, namely, troubleshooting of computers, servers and computer software problems (computing services); computer systems design services for others; computer systems analysis services; interconnection of computer hardware and software, namely, integration of computer systems and networks; computer software and hardware testing services, namely, testing of computer software, computers and servers; installation, updating and maintenance of computer software; computer programming for others; cloud computing services, namely, dynamic provisioning, virtualization and consumption metering of computing resources.

Goods

Class 07

(1) Filters and filter elements for motors, engines and machines, namely oil filters, oil spin-on filters, air filters, fuel filters, in-line filters, in-tank filters, diesel filters, diesel particulate filters, urea filters, filters for power steering devices, hydraulic filters, cooling water filters, and water processing filters for erosion machines; liquid filters for motors, engines or machines, namely oil filters, fuel filters, in-line fuel filters, intank fuel filters, urea filters, filters for hydraulic fluids, filters for coolants, cooling water filters, filters for windshield washing fluids, spin-on filters, filters for electric discharge machines, liquid filters for machine tools, backflushing filters, disc filters, and vacuum filters; filter elements for liquid filters, namely oil filters, fuel filters, in-line fuel filters, in-tank fuel filters, urea filters, filters for hydraulic fluids, filters for coolants, cooling water filters, filters for windshield washing fluids, spin-on filters, filters for electric discharge machines, liquid filters for machine tools, backflushing filters, disc filters, and vacuum filters; oil filters; oil filter systems comprising oil filter elements and an oil filter housing; oil filter elements; gear oil filters; fuel filter systems comprising oil filter elements and an oil filter housing; urea filter systems comprising oil filter elements and an oil filter housing; filters for electric discharge machines; filter elements for electric discharge machines; liquid filters as part of machine tools; oil-water heat exchangers for motors, engines or machines; gas filters for engines and motors; intake-air filters as parts of air-intake systems for motors, engines and machines, comprised of air filters, air intake ducts and valves; oil mist separators; air-oil separator elements; filters for vacuum pumps; cyclones; centrifuges; dust separators; water separators; oil separators; plastic parts for engines and motors, namely plastic exhaust, cylinder head cover, camshaft valve cover, spare wheel covers, engine valve covers, oil pans; active acoustic components for engines and air intake ducts of engines, namely resonators,

sound absorbers, sound transfer and transmission devices, intake noise amplifiers, symposers, sound pipes, resonator tubes; passive acoustic components for engines and air intake ducts of engines, namely resonators, sound absorbers, sound transfer and transmission devices, intake noise amplifiers, symposers, sound pipes, resonator tubes; sound absorbers being parts of machines, motors and engines for the attenuation of sound and absorption of vibration; air circulation apparatus for motors, engines or machines, namely air ducts, clean side ducts, dirty side ducts, flaps, valves, orifice flaps, hot air flaps, cold air flaps, crankcase breathers, Internal combustion engine parts, namely, air intake systems comprised of air filters, air intake ducts and valves, intake manifolds, passive intake manifolds, all being parts of the radiator for vehicle motors or engines, turbochargers, and parts of turbochargers; throttle valves; pressure control valves for crankcase ventilation systems; exhaust gas recirculation valves; exhaust gas recirculation ducts; mechanical and digital service indicators being parts of engines and motors, namely air filter service indicators, oil filter services indicators and fuel filter service indicators; charge air compressors; parts of charge air compressors; active cooling manifolds, active cooling switches and active cooling valves, all being parts of the radiator for vehicle motors or engines; thermostatic control valves for machines, motors and engines; battery degassing units, namely vacuum degassing chambers for lithium-ion batteries; gas to gas humidifiers for motors, engines and machines; sound transfer and transmission systems being parts of vehicle motors and engines for the purpose of amplifying sound generated by an engine; filters and filter elements for land vehicle engines and motors, namely oil filters, oil spin-on filters, air filters, fuel filters, inline filters, in-tank filters, diesel filters, diesel particulate filters, urea filters, filters for power steering devices, hydraulic filters, cooling water filters, water processing filters for erosion machines; liquid filters for land vehicles, namely oil filters, fuel filters, in-line fuel filters, in-tank fuel filters, urea filters, filters for hydraulic fluids, filters for coolants, cooling water filters, filters for windshield washing fluids, spin-on filters, filters for electric discharge machines, liquid filters for machine tools, backflushing filters, disc filters, and vacuum filters; inline fuel filters being parts of land vehicle engines and motors; in-tank fuel filters for vehicles being parts of land vehicle engines and motors; urea filters being parts of land vehicle engines and motors; hydraulic filters for land vehicle engines and motors; coolant filters for land vehicle engines and motors; spinon oil filters being parts of land vehicle engines and motors; oil-water heat exchangers being parts of land vehicle engines and motors; gas filters being parts of land vehicle engines and motors; oil-mist separators being parts of land vehicle engines and motors; air-oil separators being parts of land vehicle engines and motors; intake noise amplifiers for vehicles, for the purpose of amplifying sound generated by an engine in the vehicle cabin; air circulation apparatus for land vehicle engines and motors, namely air ducts, clean side ducts, dirty side ducts, flaps, valves, orifice flaps, hot air flaps, cold air flaps, crankcase breathers, air intake systems, intake manifolds, passive intake manifolds, active cooling manifolds, active cooling switches and active cooling valves, all being parts of the radiator for land vehicle engines and motors, turbochargers and parts of turbochargers in land vehicle engines; crankcase ventilation systems (CVS) being parts of land vehicle engines and motors; air intake systems being parts of land vehicle engines and motors; intake manifolds being parts of land vehicle engines and motors; plastic parts for land vehicle engines and motors, namely plastic exhaust, cylinder head cover, camshaft valve cover, spare wheel covers, engine valve covers, oil pans; mechanical and electronic service indicators being parts of land vehicles, namely engine oil service indicators, air filter service indicators, oil filter service indicators, fuel filter service indicators; battery degassing units, namely vacuum degassing chambers for lithium-ion batteries, being parts of land vehicle engines and motors

Class 09

(2) Applications for mobile phones, namely computer application software, for use in database management, use in electronic storage of data, remote control and monitoring of engines and motors, and collecting and analyzing indoor air quality data; computer software for processing data regarding remote control and monitoring of engines and motors, and collecting and analyzing indoor air quality data; computer software for use in predicting when machine maintenance or vehicle maintenance should be performed; computer servers for controlling performance of home automation systems, namely, heating and air conditioning units; computer software for controlling performance of building automation control systems, namely, heating, ventilation, air conditioning, refrigeration; electronic sensors for measuring data regarding remote control and monitoring of machines, engines and motors, namely acceleration sensors, coolant-temperature sensors, distance sensors, liquid level sensors, oil level sensors, optical sensors, pressure sensors, proximity sensors, emission sensors, velocity sensors, pollutant sensors; air pollution measuring devices, namely particle counters for measuring air quality; filters for respiratory masks; battery frames for holding lithium-ion battery cells; thermostats; thermostat housings; resonators for motor vehicles

Class 10

(3) Veterinary instruments; filters for medical applications, namely, filters for bodily fluids, filters for respiratory masks; filters for veterinary applications, namely, filters for bodily fluids; filters for blood and blood components; blood filters; blood filters for extracorporeal use; membranes for filtration (medical and veterinary); membrane filters for medical and veterinary purposes; apparatus for purifying, separating, analyzing, and sampling blood samples; humidifiers for medical purposes, namely humidifiers for treating respiratory diseases

Class 11

(4) Filters and filter elements for the purification of air, gases and fluids as parts and components of domestic and industrial installations and vehicle cabins, and for washer system filters; drying apparatus for use in heating, ventilations systems, air conditioning systems and refrigeration systems; air cooling apparatus, namely used for air conditioning, air ventilation, air purification and air filtration applications; air ventilating apparatus, namely used for air conditioning, air ventilation, air purification and air filtration applications; air conditioners; filter for cleaning the air, namely air filters, particulate air filters, dust filters, fine particle filters, and gas filters; cabin air filters; cabin air filter systems comprising cabin air filter elements and a cabin air filter housing; cabin air filter elements; activated carbon filters; activated carbon filter elements; filters for the filtration of liquids and gases as parts of machines for industrial use and domestic use; air purifiers; air dryer cartridges for drying and de-oiling of gas flows; water filters and water filtering units for industrial use and domestic use; apparatus and devices for ion exchange, namely, ion exchange filtering units for domestic, commercial and industrial use; filters and filter elements for cleaning liquids by means of membrane separation, namely polymer membranes, ceramic membranes, flat membranes, hollow fibre membranes, membrane modules, polymer membrane modules, hollow fibre modules, wound modules, tubular modules, and submerged modules; apparatus for the purification of water by means of membrane separation; apparatus for the preparation, purification, filtration and treatment of water; reverse osmosis elements for reducing the brackishness of water for industrial or domestic use; reverse osmosis elements for reducing the salt content of water for industrial or domestic use; apparatus for water treatment by means of osmotic pressure; water treatment equipment, namely, reverse osmosis filtration units; water treatment equipment, namely, reverse osmosis purification units; filters for drinking water; water purifying units for producing drinking water; humidifiers for industrial purposes

Class 12

(5) Fuel tanks, windshield washer reservoir, brake fluid reservoir, engine coolant fluid reservoir, hydraulic oil tanks, hydraulic fluid reservoirs

Class 16

(6) Printed matter, namely, pamphlets, brochures, advertising signs of paper, installation guides, user manuals, and paper stationery; periodicals; prospectuses; catalogues; paper bags for packaging, packaging boxes of cardboard; cardboard boxes; filter paper

Class 24

(7) Filtering materials of non-woven and woven textile fabrics for use in the further manufacture of air filters and liquid filters; filtering materials of non-woven fabrics; filtering materials made of textile, namely woven fabrics and knitted fabrics

Services

Class 35

(1) Business management; advertising the goods and services of others; marketing, namely business marketing consulting services, direct marketing of the goods and services of others, market analysis and research, marketing services in the field of arranging for the distribution of the products of others, marketing services in the field of evaluating markets for existing goods and services of others; brand management

Class 37

(2) Installation, maintenance and repair of land vehicles; repair and maintenance of motors and engines; installation, repair and maintenance of air filters, liquid filters, gas filters; installation, repair and maintenance of air drying apparatus, air cooling apparatus, air cooling installations, air conditioning apparatus and air purification apparatus; installation, repair and maintenance of water treatment and water purification units; installation, repair and maintenance of building automation control systems, namely, heating, ventilation, air conditioning, refrigeration; installation, repair and maintenance of apparatus for environmental monitoring, environmental control, namely air conditioning apparatus and air purifying units

Class 38

(3) Transfer of data concerning vehicle maintenance and service, repair and maintenance of engines and motors, and air pollution and air quality via wireless mobile networks and the internet; providing access to the Internet; providing Internet access via wireless broadband networks; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information

Class 40

(4) Liquid processing services, namely, filtration of liquids; gas processing services, namely, filtration of gases; rental of air purification apparatus; rental of water purification apparatus; rental of air cooling apparatus; rental of air cooling installations; rental of air conditioning apparatus

Class 41

(5) Provision of training courses in the field of pollution control, pollution detection and filtration

Class 42

(6) Research and development in the field of pollution control, pollution detection and filtration; design and engineering services in the field of pollution control, pollution detection and filtration; programming of computer software; cloud computing provider services for general storage of data; environmental monitoring services; technical consultancy in the field of environmental science; technical consulting in the field of pollution detection; environmental testing services;

environmental inspection services; advisory services relating to pollution control; technical consulting in the field of pollution control, pollution detection and filtration; technical analysis of data in the field of pollution control, pollution detection and filtration; electronic storage of data in the field of pollution control, pollution detection and filtration; providing scientific information in the fields of pollution control, pollution detection and filtration; technical consulting in the field of pollution control, pollution detection and filtration; pollution prevention research; scientific and technological research in the fields of pollution control, pollution detection and filtration; vehicle roadworthiness testing; automotive inspection services; testing and inspection of air filters, liquid filters, gas filters; testing and inspection of air drying apparatus, air cooling apparatus, air cooling installations, air conditioning apparatus and air purification apparatus; testing and inspection of water treatment and water purification units; testing and inspection of building automation control systems, namely, heating, ventilation, air conditioning, refrigeration; testing and inspection of apparatus for environmental monitoring, environmental control, namely air conditioning apparatus and air purifying units

Goods

Class 07

(1) Filters and filter elements for motors, engines and machines, namely oil filters, oil spin-on filters, air filters, fuel filters, in-line filters, in-tank filters, diesel filters, diesel particulate filters, urea filters, filters for power steering devices, hydraulic filters, cooling water filters, and water processing filters for erosion machines; liquid filters for motors, engines or machines, namely oil filters, fuel filters, in-line fuel filters, intank fuel filters, urea filters, filters for hydraulic fluids, filters for coolants, cooling water filters, filters for windshield washing fluids, spin-on filters, filters for electric discharge machines, liquid filters for machine tools, backflushing filters, disc filters, and vacuum filters; filter elements for liquid filters, namely oil filters, fuel filters, in-line fuel filters, in-tank fuel filters, urea filters, filters for hydraulic fluids, filters for coolants, cooling water filters, filters for windshield washing fluids, spin-on filters, filters for electric discharge machines, liquid filters for machine tools, backflushing filters, disc filters, and vacuum filters; oil filters; oil filter systems comprising oil filter elements and an oil filter housing; oil filter elements; gear oil filters; fuel filter systems comprising oil filter elements and an oil filter housing; urea filter systems comprising oil filter elements and an oil filter housing; filters for electric discharge machines; filter elements for electric discharge machines; liquid filters as part of machine tools; oil-water heat exchangers for motors, engines or machines; gas filters for engines and motors; intake-air filters as parts of air-intake systems for motors, engines and machines, comprised of air filters, air intake ducts and valves; oil mist separators; air-oil separator elements; filters for vacuum pumps; cyclones; centrifuges; dust separators; water separators; oil separators; plastic parts for engines and motors, namely plastic exhaust, cylinder head cover, camshaft valve cover, spare wheel covers, engine valve covers, oil pans; active acoustic components for engines and air intake ducts of engines, namely resonators, sound absorbers, sound transfer and transmission devices, intake noise amplifiers, symposers, sound pipes, resonator tubes; passive acoustic components for engines and air intake ducts of

engines, namely resonators, sound absorbers, sound transfer and transmission devices, intake noise amplifiers, symposers, sound pipes, resonator tubes; sound absorbers being parts of machines, motors and engines for the attenuation of sound and absorption of vibration; air circulation apparatus for motors, engines or machines, namely air ducts, clean side ducts, dirty side ducts, flaps, valves, orifice flaps, hot air flaps, cold air flaps, crankcase breathers, Internal combustion engine parts, namely, air intake systems comprised of air filters, air intake ducts and valves, intake manifolds, passive intake manifolds, all being parts of the radiator for vehicle motors or engines, turbochargers, and parts of turbochargers; throttle valves; pressure control valves for crankcase ventilation systems; exhaust gas recirculation valves; exhaust gas recirculation ducts; mechanical and digital service indicators being parts of engines and motors, namely air filter service indicators, oil filter services indicators and fuel filter service indicators; charge air compressors; parts of charge air compressors; active cooling manifolds, active cooling switches and active cooling valves, all being parts of the radiator for vehicle motors or engines; thermostatic control valves for machines, motors and engines; battery degassing units, namely vacuum degassing chambers for lithium-ion batteries; gas to gas humidifiers for motors, engines and machines; sound transfer and transmission systems being parts of vehicle motors and engines for the purpose of amplifying sound generated by an engine; filters and filter elements for land vehicle engines and motors, namely oil filters, oil spin-on filters, air filters, fuel filters, inline filters, in-tank filters, diesel filters, diesel particulate filters, urea filters, filters for power steering devices, hydraulic filters, cooling water filters, water processing filters for erosion machines; liquid filters for land vehicles, namely oil filters, fuel filters, in-line fuel filters, in-tank fuel filters, urea filters, filters for hydraulic fluids, filters for coolants, cooling water filters, filters for windshield washing fluids, spin-on filters, filters for electric discharge machines, liquid filters for machine tools, backflushing filters, disc filters, and vacuum filters; inline fuel filters being parts of land vehicle engines and motors; in-tank fuel filters for vehicles being parts of land vehicle engines and motors; urea filters being parts of land vehicle engines and motors; hydraulic filters for land vehicle engines and motors; coolant filters for land vehicle engines and motors; spinon oil filters being parts of land vehicle engines and motors; oil-water heat exchangers being parts of land vehicle engines and motors; gas filters being parts of land vehicle engines and motors; oil-mist separators being parts of land vehicle engines and motors; air-oil separators being parts of land vehicle engines and motors; intake noise amplifiers for vehicles, for the purpose of amplifying sound generated by an engine in the vehicle cabin; air circulation apparatus for land vehicle engines and motors, namely air ducts, clean side ducts, dirty side ducts, flaps, valves, orifice flaps, hot air flaps, cold air flaps, crankcase breathers, air intake systems, intake manifolds, passive intake manifolds, active cooling manifolds, active cooling switches and active cooling valves, all being parts of the radiator for land vehicle engines and motors, turbochargers and parts of turbochargers in land vehicle engines; crankcase ventilation systems (CVS) being parts of land vehicle engines and motors; air intake systems being parts of land vehicle engines and motors; intake manifolds being parts of land vehicle engines and motors; plastic parts for land vehicle engines and motors, namely plastic exhaust, cylinder head cover, camshaft valve cover, spare wheel covers, engine valve covers, oil pans; mechanical and electronic service indicators being parts of land vehicles, namely engine oil service indicators, air filter service indicators, oil filter service indicators, fuel filter service indicators; battery degassing units, namely vacuum degassing chambers for lithium-ion batteries, being parts of land vehicle engines and motors

Class 09

(2) Applications for mobile phones, namely computer application software, for use in database management, use in electronic storage of data, remote control and monitoring of engines and motors, and collecting and analyzing indoor air quality data; computer software for processing data

regarding remote control and monitoring of engines and motors, and collecting and analyzing indoor air quality data; computer software for use in predicting when machine maintenance or vehicle maintenance should be performed; computer servers for controlling performance of home automation systems, namely, heating and air conditioning units; computer software for controlling performance of building automation control systems, namely, heating, ventilation, air conditioning, refrigeration; electronic sensors for measuring data regarding remote control and monitoring of machines, engines and motors, namely acceleration sensors, coolant-temperature sensors, distance sensors, liquid level sensors, oil level sensors, optical sensors, pressure sensors, proximity sensors, emission sensors, velocity sensors, pollutant sensors; air pollution measuring devices, namely particle counters for measuring air quality; filters for respiratory masks; battery frames for holding lithium-ion battery cells; thermostats; thermostat housings; resonators for motor vehicles

Class 10

(3) Veterinary instruments; filters for medical applications, namely, filters for bodily fluids, filters for respiratory masks; filters for veterinary applications, namely, filters for bodily fluids; filters for blood and blood components; blood filters; blood filters for extracorporeal use; membranes for filtration (medical and veterinary); membrane filters for medical and veterinary purposes; apparatus for purifying, separating, analyzing, and sampling blood samples; humidifiers for medical purposes, namely humidifiers for treating respiratory diseases

Class 11

(4) Filters and filter elements for the purification of air, gases and fluids as parts and components of domestic and industrial installations and vehicle cabins, and for washer system filters; drying apparatus for use in heating, ventilations systems, air conditioning systems and refrigeration systems; air cooling apparatus, namely used for air conditioning, air ventilation, air purification and air filtration applications; air ventilating apparatus, namely used for air conditioning, air ventilation, air purification and air filtration applications; air conditioners; filter for cleaning the air, namely air filters, particulate air filters, dust filters, fine particle filters, and gas filters; cabin air filters; cabin air filter systems comprising cabin air filter elements and a cabin air filter housing; cabin air filter elements; activated carbon filters; activated carbon filter elements; filters for the filtration of liquids and gases as parts of machines for industrial use and domestic use; air purifiers; air dryer cartridges for drying and de-oiling of gas flows; water filters and water filtering units for industrial use and domestic use; apparatus and devices for ion exchange, namely, ion exchange filtering units for domestic, commercial and industrial use; filters and filter elements for cleaning liquids by means of membrane separation, namely polymer membranes, ceramic membranes, flat membranes, hollow fibre membranes, membrane modules, polymer membrane modules, hollow fibre modules, wound modules, tubular modules, and submerged modules; apparatus for the purification of water by means of membrane separation; apparatus for the preparation, purification, filtration and treatment of water; reverse osmosis elements for reducing the brackishness of water for industrial or domestic use; reverse osmosis elements for reducing the salt content of water for industrial or domestic use; apparatus for water treatment by means of osmotic pressure; water treatment equipment, namely, reverse osmosis filtration units; water treatment equipment, namely, reverse osmosis purification units; filters for drinking water; water purifying units for producing drinking water; humidifiers for industrial purposes

Class 12

(5) Fuel tanks, windshield washer reservoir, brake fluid reservoir, engine coolant fluid reservoir, hydraulic oil tanks, hydraulic fluid reservoirs.

Class 16

(6) Printed matter, namely, pamphlets, brochures, advertising signs of paper, installation guides, user manuals, and paper stationery; periodicals; prospectuses; catalogues; paper bags for packaging, packaging boxes of cardboard; cardboard boxes; filter paper

Class 24

(7) Filtering materials of non-woven and woven textile fabrics for use in the further manufacture of air filters and liquid filters; filtering materials of non-woven fabrics; filtering materials made of textile, namely woven fabrics and knitted fabrics

Services

Class 35

(1) Business management; advertising the goods and services of others; marketing, namely business marketing consulting services, direct marketing of the goods and services of others, market analysis and research, marketing services in the field of arranging for the distribution of the products of others, marketing services in the field of evaluating markets for existing goods and services of others; brand management

Class 37

(2) Installation, maintenance and repair of land vehicles; repair and maintenance of motors and engines; installation, repair and maintenance of air filters, liquid filters, gas filters; installation, repair and maintenance of air drying apparatus, air cooling apparatus, air cooling installations, air conditioning apparatus and air purification apparatus; installation, repair and maintenance of water treatment and water purification units; installation, repair and maintenance of building automation control systems, namely, heating, ventilation, air conditioning, refrigeration; installation, repair and maintenance of apparatus for environmental monitoring, environmental control, namely air conditioning apparatus and air purifying units

Class 38

(3) Transfer of data concerning vehicle maintenance and service, repair and maintenance of engines and motors, and air pollution and air quality via wireless mobile networks and the internet; providing access to the Internet; providing Internet access via wireless broadband networks; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information

Class 40

(4) Liquid processing services, namely, filtration of liquids; gas processing services, namely, filtration of gases; rental of air purification apparatus; rental of water purification apparatus; rental of air cooling apparatus; rental of air cooling installations; rental of air conditioning apparatus

Class 41

(5) Provision of training courses in the field of pollution control, pollution detection and filtration

Class 42

(6) Research and development in the field of pollution control, pollution detection and filtration; design and engineering services in the field of pollution control, pollution detection and filtration; programming of computer software; cloud computing provider services for general storage of data; environmental monitoring services; technical consultancy in the field of environmental science; technical consulting in the field of pollution detection; environmental testing services; environmental inspection services; advisory services relating to pollution control; technical consulting in the field of pollution control, pollution detection and filtration; technical analysis of data in the field of pollution control, pollution detection and filtration; electronic storage of data in

the field of pollution control, pollution detection and filtration; providing scientific information in the fields of pollution control, pollution detection and filtration; technical consulting in the field of pollution control, pollution detection and filtration; pollution prevention research; scientific and technological research in the fields of pollution control, pollution detection and filtration; vehicle roadworthiness testing; automotive inspection services; testing and inspection of air filters, liquid filters, gas filters; testing and inspection of air drying apparatus, air cooling apparatus, air cooling installations, air conditioning apparatus and air purification apparatus; testing and inspection of water treatment and water purification units; testing and inspection of building automation control systems, namely, heating, ventilation, air conditioning, refrigeration; testing and inspection of apparatus for environmental monitoring, environmental control, namely air conditioning apparatus and air purifying units

Goods

Class 09

Software applications, both web-based and downloadable, used for configuration, maintenance, and diagnostics of construction-site-based computer, instrumentation, and video monitoring systems; software applications, namely, non-downloadable and downloadable, used to analyze, process, report on, and display data measured at construction sites, namely, data regarding temperature, relative humidity, carbon monoxide, compressed gas level, estimated concrete strength, hydrocarbons, light and fuel tank levels, wireless sensor nodes in the nature of temperature, relative humidity, carbon monoxide, compressed gas level, estimated concrete strength, hydrocarbons, light and fuel tank levels

Services

Class 42

(1) operational monitoring of construction sites, namely remote monitoring, control and assessment of the functioning and use of construction equipment, heaters and building materials

Class 45

(2) remote monitoring of the security of construction sites

automatic control apparatus namely, wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems being parts of machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; electric apparatus for process control, namely, signal conditioning and communication devices for the remote control of machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; checking (supervision) apparatus and instruments, namely, technical measuring, testing and checking apparatus and instruments for measuring, testing and checking speed, time, quantity, components wear, efficiency data in relation to the functioning and wear of machine tools and their parts, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; diagnostic apparatus for testing machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; process control digital controllers, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; numerical control apparatus, namely, electronic interface equipment for machine tools to input or output computer numerical control data, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; testing and quality control devices, namely, devices for testing the function and effectiveness of machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; remote, electric or electronic control stations, namely, remote electric and electronic control panels for industrial machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; downloadable computer software for connecting, operating, and managing networked machine tools, control panels, and process control sensors via the Internet, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; assistive software, namely, computer software that assists in industrial process control of machine tools, intelligent personal assistant software for searching networked

devices for diagnostics and troubleshooting, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; software for diagnostics and troubleshooting, namely, computer software for remotely diagnosing issues on machines tools and offering advice for troubleshooting the issue, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; business management software, namely, computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; predictive maintenance software, namely, computer software for providing diagnostic information on networked devices and presented the user with information regarding predicted maintenance requirements of networked devices, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; software for remote diagnostics, namely, computer software for use with remote electric control panels for industrial machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; industrial process control software namely software for use in industrial wood and wood derivatives, plastics, stones, glass and metals working process control; computer software for database management, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; downloadable computer software for remote monitoring and analysis, namely, computer software for monitoring and alerting on the status of machine tools via the Internet, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; electronic apparatus for the remote control of signals, namely, telecommunications software for controlling remote sensors via the Internet, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; sensors for vibration, motion, temperature, velocity, position for use with machine tools, all the aforementioned goods relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; electronic control systems for machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals

Services

Class 37

(1) repair, installation, maintenance and regeneration services being restoration services relating to machines and machine tools for processing materials, machines for working wood and its derivatives, machines for working iron and ferrous materials, construction machinery, machines for processing glass, machines for working metal, machines for processing plastics, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals

Class 42

(2) technical testing and quality control services relating to apparatus and machines, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; technological advisory services relating to machine engineering analysis, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; engineering services for the analysis of machinery, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals;

technological studies relating to machine tools, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; rental of software, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; maintenance and updating of computer software, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals; software development, programming and implementation, all the aforementioned services relating to machine tools for working materials namely wood and wood derivatives, plastics, stones, glass and metals

(2) Chain hoists used for lifting and rigging; Non-luminous and non-mechanical metal signs; metal holders for signs; metal containers for gas and liquid air

Class 07

(3) Aerial equipment, namely, mechanical and hydraulic lifts; hydraulic hoists; air compressors; power operated tools namely, drills, routers, tile saws; air operated tools, namely, impact wrenches, ratchet wrenches, drills, grinders, orbital sanders; impact wrenches, nutrunners, power operated ratchet wrenches, reciprocating saws, power operated breakers, power operated grinders, power operated rivet busters, power operated rock drills, power operated rock splitters, and power operated chipping hammers, ground surface finishing and compacting machines; concrete paving machines; concrete and masonry equipment, namely, concrete construction machines, finishing machines, and concrete vibrators; concrete cutting and drilling power tools, namely, core drills and rotary and hammer drills; concrete placing machines, namely, buggies, concrete vibrators, concrete mixers, mortar mixers, power-operated saws, screeds, and power-operated trowels; earth moving machines, namely, backhoes, loaders, bulldozers, excavators, and trenchers; machines for blast cleaning a surface, floor care and surface preparation for the purposes of cleaning and restoration, namely, carpet cleaning machines, floor cleaning machines; automatic floor scrubbers, electric floor sweepers, vacuum cleaners, floor sanders, floor buffers, floor polishers, floor edgers, and floor nailing machines, power operated concrete grinders, power operated concrete planers, power operated floor strippers, power operated linoleum rollers, power operated road surface removal machines, namely, scabblers, scalers; and power operated sand blasting apparatus, namely, shot blasters; power-operated lifting and moving equipment, namely, winches, tuggers, conveyors, cranes, fork lifts, beam trolleys, hydraulic jacking cylinders, portable electric power generators, mechanical and hydraulic lifts, loading and unloading machines; power generators, namely, diesel and electric generators; power tools and machines, namely, planing

machines, boring tools, drilling tools, milling tools, turning tools; hand-held battery actuated hydraulic crimp tools; power lawn and garden tools, namely, chippers; shredders for industrial use, stump removal tools, namely, brush chippers and stump grinders; machines, namely, concrete and paving breakers for industrial and commercial applications; power-operated nailing guns; grinding and polishing machines for the treatment of ceramics and metals; grinders, namely, right angle grinders and die grinders; hydraulic punching presses for metalworking; portable hydraulic pumps, power lawn and garden tools, namely, aerators; power operated bed edgers; power operated blowers for lawn debris; power operated brush cutters; chain saws; power operated hedge trimmers; power-operated lawn edgers; power machines for cutting and splitting logs; electric lawn mowers; power operated pole pruners; power operated post drivers; power operated posthole augers; power operated sod cutters; power operated straw blowers; power operated thatchers; power operated tillers and weed cutters; power operated magnetic drills; power staplers; power operated paint sprayers; power-operated plumbing snakes; electric sanders and finishers; power operated street sweepers; gas-powered drills; power operated right angle drills; power operated screw guns; welding equipment, namely, electric plasma cutters; electric arc welders and welding accessories, namely, welding electrodes and welding torches; electric welding rod ovens for the purpose of preventing moist rods and electrodes from drying out and producing weak welds; pump equipment, namely, centrifugal pumps, pump diaphragms, high pressure pumps for use in oil or gas well hydraulic fracturing operations; centrifugal pumps; pump diaphragms hydraulic power unit pumps; power operated industrial pumps as parts of oilfield wellhead machines; diesel industrial pumps namely, fuel dispensing pumps for land vehicles; submersible pumps; pumps for use with wastewater capable of passing debris and diesel well point pumps for extracting groundwater; vacuum cleaners for industrial purposes, namely, vacuum trailers for the purpose of industrial clean-up, suction and storing

Class 08

(4) Hand saws; hand operated wrenches; spades; hand tools, namely, wrecking bars, stripping bars, small bars and nail pullers, San Angelo bars, tamper bars, wedge point bars, pitch point bars

Class 09

(5) Computer hardware and software to monitor the location and performance of equipment; GPS navigation consisting of computers, computer software, transmitters, receivers, and network interface devices; downloadable application software for mobile phones, handheld computers, and computers to monitor the location and performance of equipment; Transformers, namely, step-down transformers; electric converters; power distribution boxes and panels, portable battery systems, namely, portable battery packs and portable battery cables, battery cases, automotive battery chargers and battery testers; electric cable and wires; inspection and measurement equipment, namely, carpenter's levels, metal detectors, and magnetic pipe locators; safety and emergency response equipment, namely, safety goggles, traffic cones; confined space rescue kits comprised primarily of electric or electronic sensors for determining the presence of individuals trapped in confined spaces, self-rescue apparatus in the nature of oxygen breathing tanks; pipe cameras; remote circuit breaker control switch operators

Class 11

(6) Vehicle climate control system for heating, ventilation and air-conditioning; direct and indirect fired heaters, namely, oil stoves, electric heating fans, electrically-heated diffusion furnaces for industrial use, and heating apparatus for heating solid, liquid or gaseous fuels; dual unit with air conditioning and heater; portable air conditioners; portable electric fans, namely, air movers for the purpose of drying especially in water damage restoration; industrial process cooling chillers that provide temperature controlled fluid to various machines in the analytical, semiconductor, laser,

plastics and packaging markets; dehumidifiers; electric fans; hot air blowers; ozone generators that kill mold and mildew; lighting, namely, portable utility lights and mobile light towers; air filtering installations, namely, air cooling and air drying machines for commercial and industrial use; ventilating fans for industrial purposes, namely, welding fume extractors for the purpose of clearing air around welding workstations; thickening and dewatering machines for use in treatment of liquids including water, industrial effluent and sewage

Class 12

(7) Tractors, and agricultural tractors; warehouse dollies and dump carts; off-road vehicles; trailers, namely, dump trailers, equipment trailers, storage trailers, tilt trailers, utility trailers; trucks, namely, bucket trucks, crane trucks, dump trucks, pick-up trucks, rollback trucks, stake body trucks and water trucks; vehiclemounted motor vehicle crash attenuators; vans, namely, passenger vans and cargo vans

Class 19

(8) Ground protection mats, namely, erosion control mats not of metal

Services**Class 35**

(1) Providing information to customers about tracking, locating, and monitoring of their equipment and machinery via a website

Class 37

(2) Rental of construction equipment including aerial, concrete, earthmoving, masonry, paving, floor care and surface preparation machines and apparatus; rental of drainage pumps; rental of gas or air compressors; rental of hand and power tools

Class 38

(3) Communication services, namely, transmitting electronic messages containing vehicle rental verification and information

Class 39

(4) Vehicle rental services; rental of trucks and trailers; rental of loading-unloading machines and apparatus

Class 40

(5) Rental of power generation equipment; rental of waste compacting machines; rental of industrial vacuums for treating hazardous materials

Class 42

(6) Hosting a website on the internet providing software to monitor the status of automobiles, equipment and machinery; software as a service (SAAS) services featuring software to monitor the status of automobiles, equipment and machinery

Colour Claim

Colour is claimed as a feature of the trademark. The colours dark green and orange are claimed as a feature of the mark. The mark consists of the word 'U-BOX' in solid bold typeface extending horizontally. The hyphen is attached to the left center of the letter 'B'. Below the word 'U-BOX' are the words 'MOVE & STORE' in a smaller size font. All words are dark green. Above and below the words are orange shapes designed to look like the words are within an orange box

Trademark Description

The mark consists of The word "United" is placed above the word "re-DEFINED" which is above the word "environmentally" which is above the word "responsible." The "U" of "United" is treated in the design as a beaker filled to the top with a liquid. The beaker is tilted to the left so that some of the liquid is effectively being poured out of the beaker. The liquid passes through the first upper-case "E" of the word "re-DEFINED." Just beneath the same first "E" of "re-DEFINED" the liquid solidifies into a bar of metal (an ingot) with the letters "United" printed on the face of the bar. Just to the right of the right end of the bar, is the word "environmentally", as mentioned above. The "e-D" section of the word "re-DEFINED", as mentioned above, is printed on a sphere design, which design is described as a mostly solid sphere except for two cut-outs from the top right and left portions of the sphere. In addition, there is an arc, formed with a one-sided arrow-headed tip, which is independently located above the top right portion of the sphere.

Goods

Class 14
