## Trademarks Journal

2024-09-11 — Vol. 71 No. 3646

# Trademarks Journal

## Vol. 71 No. 3646

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

ISSN 0041-0438 (printed)

ISSN 1701-4751 (online)

### Goods

#### Class 01

(1) Acenaphthenes, acrylic resins unprocessed, alkalies, alkaline iodides, alkaline metals, alkaline-earth metals, alumina, aluminium chloride, aluminium hydrate, aluminium silicate, ammonia for cleaning purposes, ammonia for use in drug manufacturing, ammonia for use in fertilizers, ammonia for use in plastics, ammonium sulphate, ammonium sulphate fertilizer, anhydrides, anthracene, argon, unprocessed artificial resins, auxiliary fluids for use with abrasives for cleaning and polishing silver, auxiliary fluids for use with abrasives for the oil well industry, auxiliary fluids for use with abrasives for metalworking industry, barium compounds, benzene derivatives, benzoic acid, biphenyls, bisphenol A, brazing fluxes, calcium silicate, carbazole, carbon compounds, carbon black, carbon for filters, catalysts for use in the manufacture of industrial chemicals, cement blending agents, ceramic compositions for sintering in the form of granules and powders, ceramic materials in particulate form for use as filtering media for water filtration, compositions for the manufacture of technical ceramics, coumarin, coumarone resin, cresol, cyclohexane, cyclohexene, decahydronaphthalene, dihydrocoumarin, diphenylbenzene, divinylbenzene, dry ice (carbon dioxide), unprocessed epoxy resins, fertilizers, filtering materials made from unprocessed plastics, fluorene, helium, hydrogen, indenenes, indoles, isoquinolines, krypton, lime carbonate, chemicals used in the manufacture of liquid crystal displays, magnesium carbonate, methanol, methymaphthalenes, naphthalene, neon, nitrogen, organometallic compounds, namely, tetraethyl lead for use in metal industry, oxygen, para-benzylbiphenyl, phenanthrene, phenol for industrial purposes, phenolic resins, phthalic anhydride, unprocessed plastics, polyamide resins, polypropylene resins, polystyrene resins, pyrene, pyridine, quinaldine, raw salt, salts from rare earth metals, salts of alkaline metals, salts of precious metals, silica gel, aluminum silicate, calcium silicate, silicon, skatole, soda ash, sulphuric acid, styrene monomer, unprocessed synthetic resins, terphenyl, tetrachlorophthalic anhydride, tetrahydronaphthalene, thiophene, titanium dioxide, toluene, xenon, xyleneol, zirconia; rare-earth alloys for magnets; laboratory assay kits.

**Class 02**

(2) Anti-corrosive oils; anti-rust greases; ink (toner) for photocopiers; anti-corrosion paints; pigments for use in the manufacture of paints; printing ink; screen printable cover coat ink.

**Class 07**

(3) AC electric power generators [alternators]; AC electric motors and DC electric motors for machines not including those for land vehicles but including parts for any AC motors and DC motors; linear actuators for air vehicles; airplane engines; boat engines; airplane motors; boat motors; agricultural equipment for seeding and land fertilizing; air suction machines, all being accessories to photo-type and relief printing; ammonia production machines; anti-pollution devices for motors and engines, namely catalytic converters, exhaust pipes; asphalt finishing machines; automobile crank shafts and camshafts; axles for industrial machinery; back-hoe dragline and hydroexcavators; machine bearings, not for land vehicles; bearings for transmission shafts; speed governors for machines, engines and motors; belts for conveyors; power transmission belts for industrial machinery; power transmission belts for motors and engines; bending machines for metalworking; blow moulding machines; boiler tubes as parts for industrial machines; brakes for industrial machinery, not for land vehicles; bucket wheel reclaimers; butane carburetors; carburetor feeders; carburetors; cement manufacturing machines; centrifuges [machines]; centrifuges being centrifugal separators; chain feeders for ball mills; coal and ore dressing manufacturing machines; compressed air machines; compressed air pumps; compressors for industrial machinery; steam condensers for industrial machinery; condensing machines for chemical processing; construction machines and apparatus, namely bulldozers, cranes; continuous caster machines; continuous sintering machines; catalytic converters for motors and engines; conveyors; couplings for industrial machinery other than for land vehicles; cranes and their parts; crank shafts; cranks for industrial machines; crawler-shovel-cranes; stone crushers; crusher for mines; crushing machines for construction, loading-unloading and chemical processing; crushing rolls and roll housings; cutting machines for construction; cyclo reduction gear for industrial machinery; DC electrical power generators; die-cutting and tapping machines; digging machines, namely backhoes and excavators; dish washing machines for household purposes; drag line excavators; drainage machines for construction, namely machines for digging drainage trenches and laying drainage pipes; drilling rigs, floating and non-floating; drilling machines for metalworking; drums for industrial machines; dynamo brushes for motors and engines; industrial machines for manufacturing electric circuit boards; electric food blenders for household purposes; electric waxpolishing machines for household purposes; electric winding machines for winding wires and cables; electrical wire and cable manufacturing machines; electronic motors for industrial machines; ethane recovery machines for use in oil and gas plants; excavating machines and parts thereof; exhaust mufflers for motors; machines for feeding fuel and water to engine boilers; film laminating machines for industrial use; air filters, gas filters and oil filters for engines and motors; flotation machines for mineral recovery; sintering production machines for chemical industries; sulphuric acid manufacturing machines for chemical industries; salt manufacturing machines for chemical industries; ladder excavator for construction; mineral dressing manufacturing machines for mining; gasifiers for generating renewable energy through gasification of biomass products; gear and pinion coupler and draft gear and spare parts; gear boxes for industrial machines; electric generators; hand-held tools, namely, electric hammers, chisels for machines, electric screwdrivers, electric pliers, power-driven wrenches, power-operated socket wrenches; heat exchangers for chemical processing machines; heat exchangers being parts of machines for industrial use; helium liquefiers for industrial use; hemming machines; high pressure washers; holders for metalworking machine tools; hydraulic controller for industrial machines, motors and engines; hydraulic door openers and closers, parts of machines; hydraulic pumps; hydraulic pumps for industrial machines;

hydraulic valves as machine components; hydrogen recovery apparatus, namely air condensers, air compressors, heat exchangers being parts of machines and air filters for use as parts of machines; impeller shafts for pumps; incubators for eggs; inflation film extruding machines; injection blow moulding machines; ladder excavators; large size agricultural implements, namely, cultivators, mulch tillers, plows; land levelers for use in civil engineering and construction; link-belt truck cranes; plasma etching machines; liquid natural gas (LNG) carburetors; loading-unloading machines, namely cranes, hoists; liquefied petroleum gas (LPG) carburetors; machine couplings and transmission gears and belts for industrial machinery except for land vehicles; machine couplings and belting for industrial machinery except for vehicles; exhaust manifolds for engines; electrostatic coating machines; milling machines; concrete mixers, motors and engines for industrial machines except for land vehicles; electric motors for industrial machines other than for land vehicles; mufflers for motors and engines; boat engines; suction nozzles and blades as parts of turbines for industrial machinery; oil coolers for aeronautical engines; oil refining machines; ozone filtering machines for use in drug synthesis for creating alcohols, carboxylic acids, esters and aldehydes; parts for power engines for industrial machines; pipe mills; pistons; pneumatic transporters consisting of cylindrical containers propelled through a network of tubes by compressed air; power couplings for machines; industrial machine presses for use in chemical processing; printing machines, namely, printing presses; pump diaphragms; heat pumps, gas pumps, infusion pumps and positive displacement pumps as parts of machines, engines and motors; cooling radiators for motors and engines; ramming machines, namely earth rammers for use in civil engineering and construction; reduction gears for industrial machines other than for land vehicles; industrial machines for stabilizing road base and road surfaces, namely soil stabilizers and road recyclers; rolling mill cylinders; rolling mills and their parts and fittings; rolls for rolling mills; section rolling mills; semiconductor manufacturing machines; sewage pulverizers; sewing machines; shaft couplings and connectors for machine elements not for land vehicles; axles and spindles for industrial machinery not for land vehicles; shock absorbers for industrial machinery not for land vehicles; silencers for motors and engines; sintering processing machines; slide rests for use with lathes; springs for industrial machinery; stackers namely large industrial machines for piling bulk materials such as limestone, ores and cereals into a stockpile; stackreclaimers, namely large industrial machines to recover bulk material such as limestone, ores and cereals from a stockpile; starters for aeronautical engines; starters for motors and engines; steam engine boilers; superchargers for internal combustion engines; synthetic resin manufacturing machines; transmission shafts other than for land vehicles; transmissions for industrial machines; unloaders, namely hoists and buckets for unloading bulk material from ships; front-end loaders; vacuum cleaners for household purposes; valves for industrial machinery not for land vehicles; vibrators (machines) for industrial use, namely, concrete vibrators; washing machines; waste compacting machines; waste crushing machines; waste disposers (machines); water heaters being parts of machines; wheel cranes; wire rod mills; weaving machines; gaskets for engines, gaskets for motors; key machines; manifolds namely automotive intake and exhaust manifolds; metal machine pulleys; electric arc welders; electrodes for industrial machinery; electrodes for welding; electrical power generators; sintering machines and salt manufacturing machines for use in chemical industries; pneumatic engine starters; hydraulic valve actuators; axles for industrial machines; brakes for industrial machines not for motor vehicles; camshafts for motor vehicles; current collecting equipment for railway cars, namely, generators; electric leather belts for vehicles, namely, fan belts; piston rings for motor vehicles and rolling stock; transmission shafts for boats.

**Class 08**

(4) Vices of metal; shovels; laboratory tongs, hardware hand tools.

**Class 09**

(5) Abacuses; bar code readers; general purpose batteries; bobbin wires; calculators; central processing units (processors); computer chips for integrated circuits; cinematographic projectors, cameras and film; color filters for liquid crystal display; computer operating programs, recorded; computer peripheral devices, namely, monitors, printers, scanners, keyboards, mice; computer programs being downloadable software for steelmaking process control; computer programs being downloadable software for use in back-up of computer hard drive data, back-up of computer networks, data recovery, conversion of data and documents from physical to electronic media, data encryption, data warehousing, electronic storage of data in the sectors of manufacturing, retail, distribution, transportation, finance, telecommunication and government; computers; electric signalling buzzers; electricity meters; circuit testers; power distribution and control equipment, namely, electric reactors for industrial machinery; electronic power transformers; electrical coils; electromagnets; electronic agendas; downloadable electronic periodical publications; flexible printed electrical circuits; galvanometers; heat sinks for cooling computers; heat sinks for cooling microprocessors; heat sinks for cooling light emitting diode lamps; heat sinks for cooling integrated circuits; heat sinks for cooling semiconductor elements; induction voltage regulators; blank smart cards; integrated circuits; intercommunications apparatus, namely, intercoms; juke boxes for computers; laboratory apparatus and instruments, namely laboratory baths, laboratory calipers, laboratory glassware, laboratory flasks, laboratory incubators, laboratory ovens, laboratory robots, laboratory scales and balances, laboratory slides, laboratory stirrers, laboratory test tubes, lasers for bar code readers, lasers for compact disc players not for medical purposes; general purpose batteries, namely lithium-ion secondary batteries; magnetic cores for use in motors; blank magnetic data media, namely floppy disks, hard disks, plastic cards with a magnetic strip; magnetic encoders for encoding data on magnetic media, namely floppy disks, hard disks, plastic cards with a magnetic strip; measuring and testing machines and instruments, namely measuring tape, micrometers, bevels, rain gauges, decibel meters, gas meters, water meter; computer monitors; optical instruments and apparatus, namely, cameras and lasers for thickness measurement, optical character readers (OCR); optical data media, namely, blank optical disks; ozonisers; ozonators; phase modifiers for supplying leading and reactive volt-amperes; photocopiers, namely photographic photocopiers, electrostatic photocopiers, and thermic photocopiers; photographic instruments and apparatus, namely photographic cameras, photographic film; portable telephones; power distribution and control machines and apparatus, namely electrical power switches, electrical power connectors; printed circuits; laser printers; computer printers; readers, namely, bar code readers, electronic card readers, magnetically encoded card readers, memory card readers, smart card readers; resistance wires; rotary converters; semi-conductors; slide-rules; telecommunication devices and apparatus, namely radio transmitters, global positioning system (GPS) transmitters, video transmitters, cellular phone transmission towers, radio transmission towers, cellular television towers, telephone cables, Ethernet switches; telephones; electronic transistors; video telephones; silicon wafers; Watt hour meters; Watt meters; Smartphones; Smartwatches; antenna wire; signal bells; marking buoys; surveying chains; common metal gauges for vehicles, namely, liquid-level, pressure and temperature gauges; meteorological instruments made of metal, namely thermostats, barometers; electronic control units for metalworking machines, construction machines and loading-unloading machines; laboratory incubators; lifting magnets; lithium secondary batteries, solar batteries, automotive batteries, batteries for mobile phones; fuel cells and power inverters, DC/AC inverters; electrical power converters for motor vehicles and rolling stock.

**Class 11**

(6) Air conditioners; air deodorizing apparatus for industrial purposes, namely, industrial air cleaners; air filtering units for removing dust, smoke and allergens for industrial purposes; air purifying units for industrial purposes; air sterilizers for industrial purposes; air-conditioners for airplanes; ash pits for industrial furnaces; boiler tubes being parts of boiler; electric boilers; furnace boilers; industrial boilers; coolers for industrial furnaces; cooling vats for industrial furnaces; desalination units; water distillation units; dryers for industrial furnace; evaporative air coolers; evaporators for chemical processing; filters for air conditioners for industrial purposes; filters for garbage incinerators; filters for industrial boilers; filters for industrial furnaces; filters for water purifying apparatus; fire bars for industrial furnaces and boilers; fuel economizers for gasoline engines; furnace ash boxes; furnace grates for industrial boilers; furnace grates for industrial furnace and nuclear reactors; gas scrubbers; heat exchangers for vehicles, not parts of machines; heat exchangers not parts of machines; heat regenerators namely recuperative counter-flowing heat exchangers; wood heaters, coke heaters, gas heaters, kerosene heaters, oil heaters; heating elements for industrial purposes, namely, electrical elements for stoves; hot air space heaters; hot water heaters; industrial furnaces; level controlling valves in tanks; fuel loaders for industrial furnaces; sewage treatment plants; steam generators; ultraviolet sterilizers for water treatment; waste soil purification units; water distillation units; water filtering units for industrial use; plumbing equipment, namely water flushing installations for industrial purposes; water purification units for industrial purposes; water purifying units for industrial purposes; water sterilizers; water control valves being metal plumbing fittings; agricultural equipment for irrigating; ventilating fans; natural gas condensers other than parts of machines; separators for the cleaning and purification of air and gases; laboratory chemical fume hoods; laboratory heating mantles; heat exchangers for motor vehicles and rolling stock; air conditioning units for air planes.

## Class 12

(7) AC electric motors and DC electric motors for land vehicles not including their parts; adhesive rubber patches for repairing tubes and tires; aerial conveyors; aeronautical apparatus, namely, landing gears, airplane propellers; aeroplanes; air bags being safety devices for automobiles; aircraft and their structural parts and fittings; air-cushion vehicles; anti-theft alarms for vehicles; anti-theft devices for vehicles, namely steering wheel locks; automobiles and their structural parts and fittings; axle boxes for locomotives; axle journals; axles for motor vehicle and rolling stock wheels; baby carriages; bicycle trailers; bicycles and their parts and fittings; railway cars; bogie trucks (rolling stock parts and accessories); bogies for railway cars; brake linings for vehicles; brake segments and brake calipers for vehicles; brake shoes for vehicles; brakes for motor vehicles and rolling stock; buffers for railway rolling stock; cable cars; trailer couplings; car carrier trucks; go-carts, golf carts, grocery carts; chassis for railway cars; shaft couplings for land vehicles; coupling chains for rolling stock; draft gears being parts and fittings for rolling stock; drive shafts for motor vehicles; driving gear units for motor vehicles and rolling stock; driving gears for motor vehicles and rolling stock; flanges for railway wheel tires; fork lift trucks; drive gears for motor vehicles; gear shifts for motor vehicles; pinion coupler and draft gear for motor vehicles and rolling stock; gear boxes for motor vehicles and rolling stock; steering gears for motor vehicles and rolling stock; gears and pinions for motor vehicles and rolling stock; hand cars; hand straps for railway cars; horse-drawn carriages; hydraulic circuits for vehicles; inner tubes for tires; leaf-springs for motor vehicles and rolling stock; leather safety belts for motor vehicles; mine trolleys (carriages); motor coach buses; motorcycles; non-electric locomotives for land vehicles not including their parts; parachutes; parts and accessories for railway freight and passenger cars, namely, railway trucks, wheels, axles, and wheel-axle units; pedicabs; propeller shafts for motor vehicles; puller cars for mining; pusher cars for mining; railway couplings; railway freight cars; reduction gears for motor vehicles and rolling stock; rickshaws; ropeways for cargo and freight handling; rotative

power transmission belts connecting engines and radiator cooling fans for motor vehicles; rotor discs for brakes; seat covers for vehicles; cardan shafts for motor vehicles and rolling stock; ships; ships' hulls and parts thereof; ships' steering gears; shock absorbers and shock absorbing springs for motor vehicles and rolling stock; horse-drawn sleighs; solid rolled wheels being railway rolling stock parts; space vehicles; suspension springs for motor vehicles; air springs for rolling stocks; stern frames for boats; suspension shock absorbers for motor vehicles and rolling stock; suspension springs for motor vehicles and rolling stock; suspension systems for motor vehicles and rolling stock; tires of automobiles; tractors; trains and structural parts and fittings therefor; transmission shafts for motor vehicles and rolling stock; trucks; two-wheeled motor vehicles, namely motorcycles and their structural parts and fittings; undercarriages of railway cars; undercarriages for vehicles; unloading tipplers for tilting railway freight cars; wheels for motor vehicles; water bikes being personal watercrafts; wheel rims for bicycles and motor vehicles; wheel-axle units for bicycles, motor vehicles and rolling stock; wheelbarrows; wheelchairs; bicycle wheels; wheels for railway cars; ships made of cast iron; gear boxes for motor vehicles; ingot buddies; cement mixers; steering wheels.

**Class 13**

(8) Gun locks; rockets.

**Class 17**

(9) Gaskets of metal, namely pipe gaskets.

**Class 18**

(10) Horseshoes; stirrups of metals.

**Class 20**

(11) Movable office partitions; fireplace screens.

**Class 21**

(12) Tin cookware.

**Services****Class 37**

(1) Air conditioner installation and repair; aircraft maintenance and repair; boiler cleaning and repair; bridge construction; building construction; building construction supervision; building insulating; building reinforcing; building sealing; heating burner maintenance and repair; carpentry; building construction services; consultation in building construction supervision; providing building construction information; construction of airports; construction of aquatic facilities; construction of artificial islands; construction of base-isolation and vibration-control for buildings; construction of coastal buildings; construction of natural gas drilling platforms; construction of natural oil drilling platforms; construction of offshore oil and gas drilling platforms; construction of stadiums; construction of storage tanks; construction of telecommunication towers; construction of tunnels; waterproofing and damp proofing of buildings; demolition of buildings; dredging; drilling of oil and water wells; excavation services and concrete construction; installation of household electric appliances; factory construction; foundation pile construction; furnace installation and repair; general building construction works; glass glazing; harbour construction; installation of heat exchangers, vaporizer and condenser; construction, maintenance and repair of chemical plants; installation, maintenance and repair of electrical power plants; construction of energy plants; construction, maintenance and repair of liquefied natural gas plants; construction, maintenance and repair of recycling plants; construction, maintenance and repair of waste treatment plants; installation, maintenance and repair of computer hardware; installation, repair and maintenance of

industrial machinery; industrial machinery installation; maintenance of aircraft air-conditioning system; maintenance of aircraft parts; maintenance of boilers; maintenance of building's drainage pumps; masonry services; building maintenance and repair services; industrial plant repair and maintenance services; house painting; pier construction; pile construction; pipeline construction and maintenance; plastering; plumbing; pump repair; rental of construction machines and apparatus; rental of mining machines and apparatus; repair and maintenance of air-conditioning equipment for industrial purposes; repair and maintenance of aircraft tires; repair and maintenance of automobiles; repair and maintenance of chemical plants; repair and maintenance of computers, namely central processing units, electronic circuit, magnetic disc and magnetic tapes recorded with computer programs; repair and maintenance of condenser; repair and maintenance of construction machines; repair and maintenance of electric motors; repair and maintenance of computers; repair and maintenance of freezers; repair and maintenance of industrial furnaces; repair and maintenance of nuclear power plants; repair and maintenance of office machines; repair and maintenance of ozonator; repair and maintenance of power distribution and control machines; repair and maintenance of power generators; repair and maintenance of railway rolling stock; repair and maintenance of two-wheeled motor vehicles; repair and maintenance of waste compacting machines; repair and maintenance of waste crushing machines; repair and maintenance of water treatment equipment; repair, cleaning and maintenance of protective equipment for protecting a screw part of pipe; residential and commercial building construction; road construction; road paving; roofing repair services; scaffolding; upholstery; telephone installation and repair; tile laying, bricklaying and block laying; underwater construction; underwater repair of bridges; warehouse construction; water pipeline construction.

### **Class 39**

(2) Public utility services in the form of electricity distribution.

### **Class 40**

(3) Manufacture of computer hardware to the order and specification of others; ceramic glazing; joinery, namely fine woodworking and cabinet making.

### **Class 42**

(4) Architectural analysis; architectural consultation; architectural design; architecture; bacteriological research; calibration of measuring equipment; chemical analysis; computer programming; computer software consultancy; computer software design; computer system analysis; computer system design; computer virus protection services; construction drafting; consultancy in the research and development of computer hardware; conversion of data for documents from physical to electronic media; creating and maintaining Web sites for others; data conversion of computer programs and document data from one media to another; design of pile driving and other building construction works; designing of base-isolation and vibration-control devices; designing of industrial machines; duplication of computer programs; mechanical engineering services in the field of chemical plant; mechanical engineering services in the field of electrical power plant; mechanical engineering services in the field of energy plants; mechanical engineering services in the field of floating platforms; mechanical engineering services in the field of liquefied natural gas plants; mechanical engineering services in the field of offshore steel, oil and gas rigs; mechanical engineering services in the field of polychlorinated biphenyl treatment plant; mechanical engineering services in the field of receiving and storage equipment; mechanical engineering services in the field of recycling plant; mechanical engineering services in the field of waste treatment plant; water quality control services; geological surveys and research; hosting computer sites (Web sites); installation of computer software; maintenance of computer software; material testing; research pertaining to mechanical engineering; design of chemical plants and

providing information on chemical plant design; providing information on design of pile driving and other building construction works; providing meteorological information; providing search engines for the Internet; recovery of computer data; rental of computer software; rental of computers, namely central processing units, electronic circuits, magnetic discs and magnetic tapes recorded with computer programs; rental of laboratory instruments; rental of measuring equipment; rental of Web servers; research and development for others in the field of motor vehicle manufacturing; research in the field of environmental protection; research on building construction and city planning; geological and marine surveying; technical advice relating to performance and operation, of computers, automobiles and other industrial machines that require high levels of personal knowledge, skill and experience of the operators to meet the required accuracy in operating computers, automobiles and other industrial machines; testing and research relating to civil engineering construction; testing and research on electricity; testing and research on prevention of pollution; testing, inspection and research of pharmaceuticals, cosmetics and foodstuffs; testing, inspection and research on agricultural chemistry, livestock breeding and fisheries; underwater exploration; updating of computer software; urban planning; cloud computing providing software for database management; cloud computing providing software for document management; cloud computing providing software for sharing web-based documents; cloud computing providing software for information security; cloud computing providing software for business analysis; software as a service (SAAS) provider in the field of providing customer relations management; platform as a service (PAAS) featuring computer software platforms for use in the field of database management, document management, sharing web-based documents, information security, business analysis; providing on-line non-downloadable software for database management; providing temporary use of non-downloadable business software; providing temporary use of online non-downloadable operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable software for website development; consultancy services in civil engineering design; consulting in the design of computer hardware; inspection of aircraft air-conditioning system; inspection of aircraft parts.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The colours dark blue, teal and gray are claimed as a feature of the mark. The mark consists of a design comprised of an outline of a house, beginning at the base in teal, then changing to dark blue for the remainder, and punctuated by a small transparent dot at the bottom that is also outlined in dark blue. Within the house outline is a dark blue power symbol, being an incomplete dark blue circle with a dark blue vertical line within the gap. To the right of the aforementioned design are the words "SMART HOME COLLECTION" in teal above the words "BY BUDGET BLINDS" in gray underneath. All instances of the colour white represent background or transparent areas only and are not claimed as a feature of the mark.

### Goods

#### Class 09

(1) Home automation systems comprising controlled devices in the nature of programmable and smart controllers to operate the home automation system, and software for lighting, HVAC, security, safety and other home monitoring and control applications in the nature of burglar alarms, fire alarms, security alarms, video cameras, security lights and security mirrors

#### Class 20

(2) Interior window coverings controlled by home automation systems, namely, indoor blinds and window shades

#### Class 24

(3) Interior fabric window coverings controlled by home automation systems, namely, curtains, draperies, sheer curtains, swags and valances

### Colour Claim

Colour is claimed as a feature of the trademark. The applicant claims the colours red, orange, green and grey as a feature of the mark. The mark consists of red-colour stylized words 'food for' and letters 'g' and 'd' in the word 'good'. The symbol that makes the letters 'oo' in the word 'good' is orange in colour and has a green leaf over the middle of the symbol. The words 'fresh thinking by PepsiCo' are in grey.

Security surveillance apparatus, namely, security surveillance systems and electric and electronic components of security surveillance systems in the form of cameras, network video recorders, video encoders, door access controllers, door access stations and access card readers, intercom, radar, motion sensor, audio and input /output devices to add audio functionality to cameras, speakers and microphones; Radio frequency antennas; central processing units; electric door and elevator bells; facsimile machines; electronic indicator boards; cables, electric; magnetic encoders; electric couplings; electronic door locks; voltage surge protectors; radiotelephony sets; Electronic door alarms; portable telephones; push buttons for bells; Transmitting sets, namely, telephone transmitters, emergency signal transmitters; Audio and video transmitter units; computer hardware for data processing; answering machines; Devices for monitoring electrical currents and power supply to devices; Digital cameras; network cameras; web cameras, IP cameras; thermal cameras; Telecommunications switchboards; Telephones; video telephones; Intercoms for doors and elevators; Software for the management and operation of video security surveillance, intercom and security surveillance systems, all the foregoing for the protection of property and individuals; global system for mobile telecommunications ports in the nature of an electronic device used for connecting from a landline telephone to a mobile telephone; Access control apparatus in the form of access control and alarm monitoring systems and electric and electronic components therefore comprising door access controllers, door access stations and door access card readers; access control installations in the form of access control and alarm monitoring system installations and

electric and electronic components therefor comprising door access controllers, door access stations and door access card readers; Intercom apparatus, namely, intercoms and electric and electronic components of intercoms and intercom systems for security and surveillance such as intercom door stations; intercom installations; video intercom systems; audio intercom systems; Software for the management and operation of access control, intercom and security surveillance systems, all the foregoing for the protection of property and individuals; fingerprint readers; touch pads and touch screens for access control apparatus and intercom apparatus; Accessories for access control apparatus and intercom apparatus, namely, installation tools in the form of portable wireless routers, power adapters, network cables, audio cables, power cables, I/O cables, camera lenses, power converters, security relays, optical fiber to Ethernet converters, coaxial to Ethernet adapters, camera and video server mid spans; computer application software for mobile devices, namely, mobile phones, electronic tablets and notebooks that manage and operate security surveillance systems for the protection of property and individuals; Cloud servers; microphones; Audio speakers; Horns for loudspeakers; audio converters; Audio circuit boards; audio receivers; audio recorders; software for the management of audio speakers, loudspeakers, smart speakers and microphones; emergency intercoms for elevators; induction loop for lifts; Downloadable electronic publications provided online from databases and the internet, in the nature of instruction manuals, guides and white papers.

## **Services**

### **Class 37**

(1) Repair and installation services in relation to security surveillance apparatus, namely, security surveillance systems and electric and electronic components of security surveillance systems in the form of cameras, network video recorders, video encoders, door access controllers, door access stations and access card readers, intercom, radar, motion sensor, audio and input /output devices to add audio functionality to cameras, speakers and microphones, Transmitting sets, namely, telephone transmitters, emergency signal transmitters, Audio and video transmitter units, Telecommunications switchboards, Telephones, video telephones, Access control apparatus in the form of access control and alarm monitoring systems and electric and electronic components therefore comprising door access controllers, door access stations and door access card readers, access control installations in the form of access control and alarm monitoring system installations and electric and electronic components therefor comprising door access controllers, door access stations and door access card readers, Intercom apparatus, namely, intercoms and electric and electronic components of intercoms and intercom systems for security and surveillance such as intercom door stations, intercom installations, video intercom systems, audio intercom systems, Software for the management and operation of access control, intercom and security surveillance systems, all the foregoing for the protection of property and individuals, fingerprint readers, touch pads and touch screens for access control apparatus and intercom apparatus, Accessories for access control apparatus and intercom apparatus, namely, installation tools in the form of portable wireless routers, power adapters, network cables, audio cables, power cables, I/O cables, camera lenses, power converters, security relays, optical fiber to Ethernet converters, coaxial to Ethernet adapters, camera and video server mid spans.

### **Class 38**

(2) Telephone communication; Internet protocol (IP) communication services, namely, voice over internet protocol (VOIP) peer-to-peer communications and instant messaging services over a global computer network; digital communication by computer networks, namely, documents and instructions to and from network servers and requests for images in relation to internet protocol (IP) cameras, door controllers and intercom door stations; electric and digital transmission by

email, text message, notifications and video and audio files of data, signals and images to and from cameras, door controllers, intercom door stations, radars, speakers and microphones; voice over internet protocol (VoIP) services; providing access to computer databases; granting access time to data bases.

#### **Class 41**

(3) Teaching and education in the field of surveillance and security; Arranging of guidance, education, training advice and instruction in the field of surveillance and security; arranging and conducting of conferences, congresses, seminars, workshops and symposiums in the field of security and surveillance; Guidance and practical training in the field of surveillance and security; Publication of texts other than publicity texts in the nature of white papers; Providing on-line electronic publications, not downloadable, in the nature of instruction manuals, guides and white papers; Education academies in the field of security and surveillance; Providing certification and training in the fields of access control, network video and security surveillance installations and systems design; publication of books.

#### **Class 42**

(4) Computer consulting services regarding program design for microprocessors, updating of computer programs for text, video, audio, images and data processing, consultation for product development; Consulting activities in the form of testing and consultation for new products and development of new products for others; Consulting services in the field of computer infrastructure, computer hardware, video management and handling techniques, camera management and handling techniques and image processing, computer software, system integration and recorder computer programs, access control and intercom such as door stations, door controllers and card readers in the field of security and surveillance; designing computer systems, creation and development of cameras, video encoders, video decoders, network video recorders, network and internet protocol (IP) surveillance cameras, video surveillance and security systems, accessories for cameras, video encoders, video decoders, network video recorders, intercom and access control and software for the management of the aforementioned products for others in the field of computers, video management and handling techniques, camera handling and management techniques, image processing, access control and intercom; development, consultation and research in the field of computer application software of mobile devices and handheld personal computers; designing, development, consultation and research in the field of computer application software of mobile devices and handheld personal computers; technical consultation and research in the fields of computers, software and electronic data in the field of surveillance and security system integration, computer processing and surveillance video techniques, camera techniques and image processing, access control apparatus, intercom apparatus, security surveillance and video surveillance; Mechanical and software engineering in the fields of access control, intercom, network video and security surveillance installations and systems design; industrial designing, computer programming, computer system analysis; software design; maintenance and support of software, updating software; software as a service (SAAS) featuring software for running cloud computing based applications; consulting in the field of cloud computing networks and applications; cloud hosting provider services; rental and leasing of computers for surveillance purposes; Hosting computer web sites; maintaining and creating web sites for others; development of electronic surveillance apparatus; development, technical consultation and research concerning electronic surveillance, burglar alarms, security and surveillance in relation to the protection of property, security alarms, security systems and access control systems for security purposes in the form of door controllers, door stations, card readers, intercom for commercial surveillance and security systems in the field of security in relation to protection of property; supply of technological know-how in the fields of network video and security surveillance installations and systems design.

**Class 45**

(5) Surveillance services concerning burglar alarms, security and surveillance, security alarms, security systems, surveillance systems, radar, access control and intercom systems; monitoring of burglar and security alarms; security services for the protection of property and individuals by means of electronic surveillance, burglar alarms, security, security alarms, security systems, radar, access control systems and intercom systems; computerized surveillance services relating to break and enter; licensing of software; licensing of know-how; licensing of intellectual property; rental of security surveillance apparatus.

Colour is claimed as a feature of the trademark. The letters are gray and the angular lines are blue.

### Goods

#### Class 09

Software, downloadable, for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; data processing equipment, namely, computers for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; computers for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; downloadable mobile apps for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; computer software, recorded, for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information.

### Services

#### Class 35

(1) Business assistance, management and administrative services relating to software for streamlining product supply and distribution chain logistics by extracting digital data from

databases and generating product digital identities including a product identifier and product information; updating and maintenance of data in computer databases for streamlining product supply and distribution chain logistics.

### **Class 38**

(2) Providing user access to platforms on the Internet for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; electronic transmission of instant messages and data over the internet in the field of streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; audiovisual communication services, namely, electronic transmission of data and images over the internet in the field of streamlining product supply and distribution chain logistics; electronic exchange of data stored in databases accessible via telecommunication networks for streamlining product supply and distribution chain logistics; consulting services in the field of electronic communications by email, instant messaging, text messaging, application programming interface (API) communications, online chat, and video conferencing over the internet in the field of streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; provision of access to electronic sites for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; providing access to and leasing access time to computer databases for streamlining product supply and distribution chain logistics; provision of access to data or documents stored electronically in central files for remote consultation for streamlining product supply and distribution chain logistics; providing Internet access to content, websites and portals for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; electronic data transmission via computer networks in the field of streamlining product supply and distribution chain logistics; communication services for the transmission of information by electronic means, namely, electronic transmission of information via computer networks in the field of streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; providing access to databases for streamlining product supply and distribution chain logistics.

### **Class 42**

(3) Computer software design featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; software engineering featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; computer software consultancy featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; development and testing of software featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; software development, programming and implementation featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; creation, maintenance and adaptation of software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating

product digital identities including a product identifier and product information; information technology [IT] consultancy, advisory and information services relating to the design and development of computer software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; database design and development for streamlining product supply and distribution chain logistics; updating of software databases for streamlining product supply and distribution chain logistics; web site hosting services, software as a service (SaaS) services featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; computer programming services for data warehousing for streamlining product supply and distribution chain logistics; development and maintenance of computer database software for streamlining product supply and distribution chain logistics; design and development of data processing software for streamlining product supply and distribution chain logistics; design of information technology systems featuring software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; programming of software for importing and managing data for streamlining product supply and distribution chain logistics; providing temporary use of non-downloadable software applications accessible via a web site for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; data warehousing for streamlining product supply and distribution chain logistics; electronic storage services for archiving databases for streamlining product supply and distribution chain logistics; electronic storage services for archiving business records for streamlining product supply and distribution chain logistics; data mining for streamlining product supply and distribution chain logistics; data migration services for streamlining product supply and distribution chain logistics; certification of data via blockchain, namely, authentication, issuance and validation of digital certificates for streamlining product supply and distribution chain logistics; quality assurance consultancy in the field of computer software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; providing quality assurance services in the field of computer software for streamlining product supply and distribution chain logistics by extracting digital data from databases and generating product digital identities including a product identifier and product information; electronic storage services for archiving databases, images and business records for streamlining product supply and distribution chain logistics.

Colour is claimed as a feature of the trademark. The outer concentric circle is coloured white. The inner concentric circle is divided into four quadrants which appear in the colours white and blue. The stylized letters "B M W" are in white. The grey colour represents background and is not claimed to be part of the trademark

### Goods

#### Class 09

(1) Recorded content, namely, audio and video recordings featuring images of and information about vehicles; media content, namely, downloadable digital content being images, movies, photos, electronic publications of newsletters, electronic publications of brochures, electronic publications of news articles and digital files in the field of computer model versions of vehicles; media content, namely, downloadable digital content being images, movies, photos, electronic publications of newsletters, electronic publications of brochures, electronic publications of news articles and digital files in the field of computer model versions of vehicles; data storage devices being blank computer discs, blank USB flash drives, computer hard drives, and electronic data

recorders for vehicles; USB sticks; USB cables; USB charging ports for mobile phones, tablets, computers, portable media players; power banks; databases, namely electronic databases in the field of automobiles recorded on computer media; data processing apparatus, namely, data processing computer in motor vehicles; software for use on mobile phones, portable media players, handheld computers and automobiles for providing transport information, for providing information on available parking areas for vehicles and for providing information regarding electric energy charging stations; software applications [apps], namely, computer application software in the field of automobiles for use on mobile phones, portable media players, handheld computers and in automobiles to allow users to view access and operate vehicle functions and vehicle status; information technology and audio-visual, multimedia and photographic devices, namely, computers, computer hardware, USB dongles being wireless network adapters for USB multimedia connectivity, vehicle cameras, touch controllers and screens for installation in a vehicle for operation of vehicle functions, car infotainment systems comprising of computers, DVD players, video monitors, audio speakers, headphones, cables, and tablet or video monitor holders; communications apparatus, namely, mobile phones, and wireless communication systems in vehicles consisting of microphones, speakers, computers, computer software, receivers and transmitters and network interface devices magnetizers and demagnetizers; apparatus, instruments and cables for electricity, namely, automotive batteries, electric batteries for vehicles, automotive battery chargers, battery cables, battery cases, battery jump starters, electric vehicle charging stations, cables for electrical signal transmission, electric adapter cables and electric cables; electrical and electronic components, namely, wireless GPS transmitters, wireless emergency signal transmitters, wireless radio transmitters, wireless remote control transmitters, wireless satellite transmitters, and audio receivers, GPS receivers, satellite receivers, remote control receivers, telephone receivers, wireless speakers, radios, audio speakers for vehicles, loudspeakers for vehicles; enhancers and correctors, namely, optical sensors, display monitors for automotive application for use in reading driver-relevant data; spectacles; sunglasses; protective eyeglasses; spectacle cases; carrying cases for cell phones; protective covers for cell phones; protective covers for tablet computers; bags for laptop computers; computer mice; mouse pads; safety, security, protection and signalling devices, namely, flashing safety lights, vehicle signalling lights, warning triangles for road safety, and computer systems for vehicle safety and security for autonomous vehicles; reflective safety vest; navigation, guidance, tracking, targeting and map making devices, namely, car navigation computers and GPS tracking systems consisting of computers, computer software, transmitters, receivers and network interface devices; measuring, detecting and monitoring instruments, indicators and controllers, namely, tire pressure gauges, and electronic, optical, electromagnetic, and magnetic sensors, all being sensors for determining position, acceleration, speed and distance for use in automated driving systems and driving assistant systems;; articles of protective clothing for wear by motorcyclists for protection against accident or injury; motorcycle helmets; protective helmets for cyclists; bicycle helmets for children; electronic control instruments for motors and machines.

## **Class 12**

(2) Land vehicles, namely, automobiles, sports-utility vehicles, light trucks, motor scooters, pedal scooters, push scooters; motorcycles; bicycles; engines for land vehicles; motors for land vehicles; parts and fittings for land vehicles, namely, hoods, bodies, chassis, roofs, roof liners, doors, door sills, electric motors, motor grills, side grills being vehicle trim, transmissions, transmission shafts, transmission chains, driving chains, torsion bars, differentials, clutches, suspension springs, suspension systems, direction signals, horns, windshields, window, windscreen wipers, headlight wipers, fenders, drive belts, gears, gear boxes, reduction gears, axles, brakes and braking systems, brake discs, brake segments, brake blocks, brake pads, bumpers, spoilers, side skirts,

front splitters, brake air ducts, vehicle seats, headrests for vehicle seats, fitted seat covers, caps for vehicle gas tanks, side mirrors, rear view mirrors, steering wheels, shock absorbers, safety belts, airbags, airbag covers, wheels, rims for vehicle wheels, hubcaps, hubs for vehicle wheels, inner tubes for pneumatic tires, tires for vehicles, valves for vehicle tires, valve stem caps for vehicle tires, anti-skid chains for tires, casings for pneumatic tires, mudguards, anti-theft devices and alarms for vehicles, reversing alarms for vehicles, car sun blinds, trailer hitches for automobiles, hydraulic circuits for vehicles, torque converters, anti glare devices for automobiles being sun visors, roof rack storage containers for automobiles, ski carriers for use on automobiles, luggage carriers and nets for automobiles, safety seats for children, footrests for vehicles, roll bars for motor vehicles, connecting rods for land vehicles, other than parts of motors and engines, license plate frames; body kits comprised of external structural parts of automobiles; exterior and interior insignia badges for vehicles and vehicle parts, namely, insignia for vehicles; bicycle parts.

#### **Class 14**

(3) Gemstones, pearls and precious metals, and imitations thereof; jewellery; chronometers; watches; clocks; works of art of precious metal; key rings and key chains and charms therefor; jewellery boxes and watch boxes.

#### **Class 16**

(4) Paper and cardboard; bags and articles of paper, cardboard or plastics, for packaging, wrapping and storage, namely, paper bags, bags of plastic, shopping bags of plastic, shopping bags of paper, boxes of cardboard or paper, gift wrap, packaging containers of paper or plastic, packaging material of paper or plastic; stationery, namely, paper stationery, pens, pencils, organizers for stationery use, staplers, stationery agendas, writing stationery; adhesives for stationery or household purposes; money holders, namely, money clips, purses, wallets; printed matter, namely, books, reports, magazines, and brochures in the field of automobiles and automobile clubs and automobiles enthusiast events; operating and instruction manuals for operating, using and repairing vehicles; teaching materials, namely, printed course materials in the fields of vehicle sales, vehicle repair and maintenance, and vehicle driver safety and performance.

#### **Class 18**

(5) Umbrellas and parasols; walking sticks; luggage, all-purpose bags, handbags, purses; wallets and other carrying bags; saddlery, whips and apparel for animals.

#### **Class 21**

(6) Statues, figurines, plaques and works of art, made of porcelain, ceramic, earthenware or glass; unworked and semi-worked glass, except building glass; brushes, namely, cleaning brushes for vehicles and sports equipment, shoe brushes, clothes brushes, hair brushes, shampoo brushes, cosmetic brushes and brooms as well as other cleaning utensils, material for brush-making, namely, cleaning cloths; cookware and containers, namely, dishes, plates, pots, pans, drinking cups and saucers, bowls, serving bowls and household containers for foods; articles for animals, namely, aquariums, bird baths, feeding and drinking bowls, water tanks for live fish, brushes for grooming articles; household articles for clothing and footwear, namely, boot jacks and shoehorns, button hooks, stretchers for clothing, shoe trees (stretchers) and shapers; glassware, porcelain and earthenware not included in other classes, namely, dishes, plates, cups, mugs, bowls and vases; ceramic plates; mugs; napkin holders and rings; meal trays for household purposes; bottle openers; corkscrews; drink coasters; powder compacts; perfume sprayers; portable coolers and vacuum bottles, all for food and/or beverages; plates; cooking pot sets; drinking glasses; drinking vessels, namely, drinking bottles for sports, drinking flasks, aluminum water bottles, and plastic water bottles; barware, namely, cocktail shakers, cocktail strainers, stirring rods for beverages, and ice scoops.

**Class 25**

(7) Headwear, namely, caps, hats; clothing, namely, t-shirts, polo shirts, long-sleeved shirts, pullovers, sweatshirts, blouses, jackets, vests, cardigans, blazers, suits, raincoats, pants, trousers, shorts, skirts, dresses, belts, gloves, scarves, ties, socks; shoes.

**Class 28**

(8) Sporting articles and equipment, namely, snowboards, snowboard bags, being bags specially adapted for snowboards, skateboards, skis, ski cases and ski bags, surfboards, golf clubs, golf tees, golf balls, golf bags; toys, games, playthings and novelties, namely, plush toys, board games, ride-on toys, flying discs; video game apparatus, namely, video game machines; scale model vehicles.

**Services****Class 35**

(1) Dissemination of advertising matter for others; administration of consumer loyalty programs; import-export agency services, negotiation and conclusion of commercial transactions for third parties, price comparison services, arranging subscriptions to Internet services for others; retail and wholesale services in relation to vehicles and their parts and accessories therefor, cleaning and fragrancing preparations, household fragrances, vehicle cleaning preparations, , leather cleaning and polishing preparations, fuels and illuminants, fuel additives, lubricants current generators, charging stations for electric vehicles; retail and wholesale services in relation to software, computer operating systems; retail and wholesale services in relation to jewelry, chronometers, jewelry boxes and watch boxes, luggage, bags, wallets, headgear, clothing, footwear, sporting articles and equipment, toys, games and playthings; business administration assistance, management and administrative services; business data analysis, and business data research services; market research.

**Class 36**

(2) Insurance services; financial services, namely, financing of vehicles, automobile lease financing, lease-purchase financing, and banking; loan and credit, services; debt recovery and factoring services; issuance of credit cards, debit cards; processing of credit card payments; processing of debit card payments; fundraising and financial sponsorship of sport events; financial appraisal of motor vehicles; financial planning relating to vehicle fleets and surveillance services of vehicle fleets; financial analysis in the field of vehicle fleets.

**Class 37**

(3) Cleaning, repair and maintenance services in relation to automobiles and motorcycles; automobile restoration.

**Class 38**

(4) Telecommunication services, namely, telematics in-vehicle communication service providing wireless vehicle navigation and tracking; provision of access to multimedia content, vehicle information, videos, images via internet websites and customer online portals.

**Class 39**

(5) Distribution of energy for electric vehicles; transport, namely, transport of persons and car transport; vehicle rental; travel and passenger transportation, namely, transportation of passengers and travelers by bus, air, rail, boat, cruise ship and car transport; sightseeing, travel tour guide and travel excursion services; road rescue operations for vehicles, vehicle breakdown towing and towing services; packaging and storage of goods and supply chain logistics and reverse logistics

services for the storage of goods for others by air, rail, ship or truck; vehicle parking services; parking space rental for vehicles; provision of information regarding parking spaces for vehicles; providing traffic information; travel route planning (navigation services); GPS navigation services; booking of transportation for passengers by car, by public transport, by air, by bus, by ship and by train; provision of transport information and advice for travel and travel by air, rail, ship, bus, tram and truck for leisure, recreation, tourism, holiday, and vacation travel; provision of transport information and advice for travel and travel by air, rail, ship, bus, tram and truck for leisure, recreation, tourism, holiday, and vacation travel.

### **Class 41**

(6) Publishing of books and magazines, catalogues, electronic newsletters, electronic publications; editorial and news reporting services; arranging and conducting educational courses for vehicles services technicians; driver training; arranging and conducting community events, festivals, competitions, and exhibitions in the field motor vehicles for entertainment, sporting and cultural purposes; entertainment in the form of automobile races; entertainment in the form of live music performances; services in the fields of education and entertainment, sports and cultural activities, namely, providing information featuring movies, television programs, music audio works being recorded radio programs and radio comedy sketches, audiovisual works and visual works being recorded theatre productions, musicals, concerts, music festivals, dance productions, cultural exhibitions being museum exhibitions, works of art, literary works being books sporting events in the field of football, basketball, baseball, golf, sailing, motorsport racing and hockey, and news programs in the field of sports, current events and fashion provided online from a computer database, the internet and on wireless devices; organizing and conducting events in relation to automobile club services in the nature of member meetings and automobile rallies; translation and interpretation.

### **Class 42**

(7) IT services, namely, software development, programming and implementation, computer hardware development, cloud hosting provider services, cloud hosting of electronic databases, software as a service (SaaS) provider featuring non-downloadable software for the management of computer applications accessible via a worldwide computer network, and rental of software, rental of computer hardware, information technology consultancy, advisory and information services relating to the installation and use of computer software, data back-up storage services, computer code conversion, computer diagnostics; IT services, namely, development and implementation of computers and computer systems, data mining, digital watermarking, computer services, advice relating to the design of computer systems, administration of user rights in computer networks, data migration services, updating of websites for others, monitoring of computer systems by remote access; installation, repair and maintenance in relation to software, apps; scientific research and technological development in the field of motor vehicles; testing, authentication and quality control of motor vehicles; design services, namely, motor vehicle design, graphic design, computer software design, industrial design, architectural design and interior design.

downloadable computer software for monitoring and managing patient medical records; computer software for monitoring patient medical information; computer software and software applications for controlling and managing access to patient medical information; software applications for mobile devices for monitoring and managing patient medical information; computer software applications for smartphones, smart watches, electronic tablets, personal digital assistants, scales with body mass analyzers, electronic scales for personal use enabling access to data related to physical activity, body mass, blood sugar levels and weight; computer software and software applications for portable apparatus used for the collection and analysis of variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; USB cables; battery chargers for watches, smart phones, smart watches, electronic tablets and personal digital assistants, scales with body mass analyzers, electronic weighing scales for personal use; pedometers; watches and smart bracelets equipped with monitoring and reporting functions for data related to fitness, training and activity, namely, data related to time, distance, pace, angular velocity, weight management, calories burned and cumulative activity level; smart watches and bracelets for communicating data to personal digital assistants, smart phones, portable devices and personal computers using sensors, online Internet sites and other computer and electronic communication networks.

#### **Class 10**

(2) Dental instruments; medical imaging apparatus, namely magnetic resonance imaging [MRI] apparatus for medical use, medical imaging processors; artificial respiration equipment and masks; hearing aids; nipples; health monitoring and checking apparatus, namely arterial blood pressure and blood sugar level measuring apparatus, thermometers for medical use, apparatus for measuring and checking calorie intake and expenditure (calorimeters); digital thermometers for medical use; body mass indicators, namely body composition monitors, body fat monitors and human body fat monitors (medical apparatus); electrocardiogram [ECG] recorders; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely pulse measuring devices, heart rate measuring apparatus, health monitoring apparatus, namely medical thermometers, fever thermometers, pulsometers, health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, body mass indicators, blood glucose monitors and human body fat monitors.

#### **Class 14**

(3) Instruments for measuring time, namely stopwatches, watches; watches; bracelets.

#### **Services**

#### **Class 35**

(1) Collection and systematization of information into computer databases; compilation of statistical data related to medical research; compilation of statistical data for scientific research; database management; updating and maintenance of data in computer databases; data processing verification in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; management and compilation of computer databases; data processing services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; data search in computer files for others; consultant services for data processing; data retrieval services, namely database management in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

**Class 41**

(2) Recreational and sporting activities, namely fitness instruction, sports studio; physical education services; advisory services related to the physical condition; advisory services related to physical exercise [fitness]; information services related to sports; training services related to the physical condition; sports training, namely development of fitness programs, physical fitness assessment services for training purposes; strength and endurance training; information services related to sports results; provision of information related to physical exercise through an online website; coaching [training], namely sports trainer services, specialized coaching services in the field of general health and well-being; organization and hosting of community sporting events; organization and management of competitions, namely operation and coordination of team sports competitions and electronic sports.

**Class 42**

(3) Software as a service [SaaS] for the tracking and recording of data in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels as well as for the tracking and recording of environment variables, namely temperature, air quality and light, as well as ambient noise during sleep; biological analysis; ratings, estimates and scientific and technological research performed by engineers in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design and development of computers and software; research and development of new products for others; technical project studies in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design, installation, maintenance, updating and rental of computer software; computer programming; conversion of data or documents from physical to electronic media; data mining services; computer-assisted scientific research services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; computer-assisted scientific analysis services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific studies services, namely conduct of interventional clinical studies; scientific advisory services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; provision of scientific and technological information in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific testing services, namely medical diagnostic tests in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

**Class 44**

(4) Medical services, namely medical care and analysis services relating to patient treatment, medical examination services; medical analysis for the diagnosis and treatment of individuals; medical assistance, namely emergency medical assistance; advice related to stress in the fields of health; provision of medical information in the health sector, namely provision of information in the fields of general health and well-being via a website, provision of medical information in the field of

weight loss, provision of information via a website in the field of nutrition; medical information collection services, namely collection of environmental data, namely temperature, air quality and light as well as quality of sleep, and collection of information associated with fitness, body mass, respiration rate, heart rate, blood pressure, blood glucose levels and weight; biorhythm advisory services; health counselling provided under medical supervision, namely nutrition and weight loss counselling, counselling in the medical field relating to stress, counselling related to lifestyle; health care consultancy in the fields of public health, health assessments, and medical clinic services.

### Goods

#### Class 13

Explosives and pyrotechnic devices in the nature of mine explosives; explosive substances and devices, other than weapons for applications in public works, construction and mining (mines and quarries), namely explosive gels, explosive emulsions, ammonium nitrate explosives, explosive chargers, detonators, detonating cords, explosive powders, explosive cartridges, explosive torpedoes, explosive shells, explosive caps, explosive fuses used in mines, granular explosives for fuses used in mines, gelatinous explosives, explosive mines.

### Services

#### Class 37

(1) Mining extraction, quarrying, well drilling.

#### Class 42

(2) Engineering services in the fields of pyrotechnics and the use of explosives, such as geotechnical measuring, the measuring and recording of seismic and/or acoustic waves, the definition of operating systems for pyrotechnic controls, the definition and design of pyrotechnically actuated mechanisms; development of computer systems related to the knowledge of operating and action mechanisms for explosive firing; design of software; installation of software; maintenance of software; updating of software; software as a service (SaaS) featuring software for optimizing processes related to drilling and blasting, collecting, gathering, analyzing and creating data visualizations, designing firings, executing said firings in the field, and supervising and managing said firings and data collected, for use in the fields of drilling and blasting for quarrying, public works and mines; technical and engineering advice for the optimization of drilling and mining operations and operations involving explosives; technical advisory services for the modelling and management of geometric and topographic data of sites impacted by explosives; scientific research in the field of measurement technologies in the fields of drilling and mining operations and operations involving explosives; technical measuring and testing in the nature of scientific

testing in the field of explosives; development of measuring and testing methods in the nature of the development and establishment of testing specifications and procedures in the field of explosives; analysis and evaluation of product design; conduct of industrial tests in the nature of the testing, analysis and evaluation of the goods of others to ensure their compliance with industry standards in the fields of drilling and mining operations and operations involving explosives; computer-assisted scientific testing in the nature of scientific testing in the field of explosives; evaluation of data processing performance for comparison with standards in the nature of the testing, analysis and evaluation of the goods of others to ensure their compliance with industry standards in the fields of drilling and mining operations and operations involving explosives; scientific evaluation of explosives risks; design and development of testing facilities for explosives; technical inspection and supervision services for drilling and mining operations and operations involving explosives; technical safety testing for explosive products and pyrotechnic devices; environmental testing and inspection services (assessment of quality), in the fields of drilling and mining operations and operations involving explosives; computer platform as a service [PaaS] featuring software platforms for the monitoring of data collected during firings in mines and in quarries, for use in the fields of drilling and blasting quarrying, public works and mines; development of computer platforms for monitoring mining operations; platforms for artificial intelligence being software as a service [SaaS] in the fields of drilling and mining operations and operations involving explosives, including software for optimizing processes related to drilling and blasting, collecting, gathering, analyzing and creating data visualizations, designing firings, executing said firings on the field and supervising and managing said firings and the data collected; provision of online non-downloadable artificial intelligence computer programs on data networks for the operation of mining machines for optimizing processes related to drilling and blasting, collecting, gathering, analyzing and creating data visualizations, designing firings, executing said firings on the field and supervising and managing said firings and the data collected; research in the field of artificial intelligence; design and development of scientific and technical analysis methods covering the entire extraction process during drilling and mining operations from the features and geometry of the massif in place up to the outcome of the explosive firings; development of computer programs for the simulation of experiments during mining and drilling operations; exploration services in the field of the mining industry.

#### Class 09

(1) Computer databases recorded on computer media and containing information in the fields of health, wellness, fitness, sleep cycles, respiration rate, heart rate, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; information display terminals, namely visual display units; global positioning apparatus [GPS], namely satellite navigation systems, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; electronic tags; oxygen monitors, other than for medical use; monitoring apparatus, other than for medical use, namely wearable activity trackers; atmospheric oxygen monitors; heart rate monitors to be worn during exercise; wireless electronic apparatus for transmission of sound, images or data, namely smart phones, smart watches, electronic tablets and personal digital assistants, scales with body mass analyzers, electronic weighing scales for personal use; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely, calorimeters; speed indicators; digital thermometers, other than for medical use; personal electronic devices, namely electronic computers for displaying, measuring, recording, organizing, manipulating, analyzing and receiving data related to physical activity, namely weight, fat mass, heart rate, muscle mass, bone mass, total body water, blood pressure, blood glucose, quality of sleep, stress level and ambient air quality, weather conditions and forecasts in the form of text and images; receivers used for detecting, storing and processing electronic data collected from a sensor that records data related to fitness activity, namely data related to time, distance, speed, heart rate and body pace, as well as calories burned; bathroom scales; baby scales; audio and video apparatus for monitoring babies; wearable activity trackers; electric or electronic sensors for detecting, measuring, processing, gathering, recording and transmitting data related to wellness, sleep cycles, breathing rate, heart rate, limb movements and activity during sleep; electric or electronic sensors used for detecting, measuring, processing, gathering, recording and transmitting variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; computer software applications for portable devices used for recording, organizing, transmitting, receiving and analyzing text, data, images and audio files related to health and wellness; recorded

and downloadable computer software for monitoring and managing patient medical records; computer software for monitoring patient medical information; computer software and software applications for controlling and managing access to patient medical information; software applications for mobile devices for monitoring and managing patient medical information; computer software applications for smartphones, smart watches, electronic tablets, personal digital assistants, scales with body mass analyzers, electronic scales for personal use enabling access to data related to physical activity, body mass and weight; computer software and software applications for portable apparatus used for the collection and analysis of variables related to the environment, namely temperature, air and light quality, as well as ambient noise during sleep; USB cables; battery chargers for watches, smart phones, smart watches, electronic tablets and personal digital assistants, scales with body mass analyzers, electronic weighing scales for personal use; pedometers; apparatus for measuring and checking calorie intake and expenditure (calorimeters); watches and smart bracelets equipped with monitoring and reporting functions for data related to fitness, training and activity, namely, data related to time, distance, pace, angular velocity, weight management, calories burned and cumulative activity level; smart watches and bracelets for communicating data to personal digital assistants, smart phones, portable devices and personal computers using sensors, online Internet sites and other computer and electronic communication networks.

#### **Class 10**

(2) Dental instruments; medical imaging apparatus, namely magnetic resonance imaging [MRI] apparatus for medical use, medical imaging processors; artificial respiration equipment and masks; hearing aids; nipples; health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, thermometers for medical use, body mass indicators, namely body composition monitors, body fat monitors and human body fat monitors (medical apparatus); digital thermometers for medical use; electrocardiogram [ECG] recorders; wireless electronic devices for monitoring and controlling the operation of other electronic apparatus, namely pulse measuring devices, heart rate measuring apparatus, health monitoring apparatus, namely medical thermometers, fever thermometers, pulsometers, health monitoring and checking apparatus, namely arterial blood pressure measuring apparatus, body mass indicators, blood glucose monitors and human body fat monitors.

#### **Class 14**

(3) Instruments for measuring time, namely stopwatches, watches; watches; bracelets.

#### **Services**

#### **Class 35**

(1) Collection and systematization of information into computer databases; compilation of statistical data related to medical research; compilation of statistical data for scientific research; database management; updating and maintenance of data in computer databases; data processing verification in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; management and compilation of computer databases; data processing services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; data search in computer files for others; consultant services for data processing; data retrieval services, namely database management in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

**Class 41**

(2) Recreational and sporting activities, namely fitness instruction, sports studio; physical education services; advisory services related to the physical condition; advisory services related to physical exercise [fitness]; information services related to sports; training services related to the physical condition; sports training, namely development of fitness programs, physical fitness assessment services for training purposes; strength and endurance training; information services related to sports results; provision of information related to physical exercise through an online website; coaching [training], namely sports trainer services, specialized coaching services in the field of general health and well-being; organization and hosting of community sporting events; organization and management of competitions, namely operation and coordination of team sports competitions and electronic sports.

**Class 42**

(3) Software as a service [SaaS] for the tracking and recording of data in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels as well as for the tracking and recording of environment variables, namely temperature, air quality and light, as well as ambient noise during sleep; biological analysis; ratings, estimates and scientific and technological research performed by engineers in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design and development of computers and software; research and development of new products for others; technical project studies in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; design, installation, maintenance, updating and rental of computer software; computer programming; conversion of data or documents from physical to electronic media; data mining services; computer-assisted scientific research services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; computer-assisted scientific analysis services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific studies services, namely conduct of interventional clinical studies; scientific advisory services in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; provision of scientific and technological information in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep; scientific testing services, namely medical diagnostic tests in the fields of health, well-being, fitness, sleep cycles, respiration rate, heart rate, blood pressure, blood glucose levels, environmental variables, namely temperature, air quality and light, as well as ambient noise during sleep.

**Class 44**

(4) Medical services, namely medical care and analysis services relating to patient treatment, medical examination services; medical analysis for the diagnosis and treatment of individuals; medical assistance, namely emergency medical assistance; advice related to stress in the fields of health; provision of medical information in the health sector, namely provision of information in the fields of general health and well-being via a website, provision of medical information in the field of

weight loss, provision of information via a website in the field of nutrition; medical information collection services, namely collection of environmental data, namely temperature, air quality and light as well as quality of sleep, and collection of information associated with fitness, body mass, respiration rate, heart rate, blood pressure, blood glucose levels and weight; biorhythm advisory services; health counselling provided under medical supervision, namely nutrition and weight loss counselling, counselling in the medical field relating to stress, counselling related to lifestyle; health care consultancy in the fields of public health, health assessments, and medical clinic services.

#### Class 01

(1) Chemical diagnostic reagents for scientific test and experiments for scientific research purposes, chemical diagnostic reagents for use in automated test systems for medical and veterinary testing purposes and for use in scientific tests and experiments for scientific research purposes, reagents for analytical tests on samples for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, reagents for industrial use, namely, synthesising DNA, RNA and other nucleic acids, reagents for use in scientific tests, namely, the sequencing of DNA, RNA and other nucleic acids, reagents for laboratory tests for scientific research purposes, cell culture, chemical diagnostics reagents for use in molecular biology, biotechnology, microbiology, and bacteriology, chemical diagnostic reagents for nucleic acid amplification, cell culture, chemical diagnostic reagents for use in forensic analysis, chemical diagnostic reagents for blood grouping; reagents used for analytical moisture determinations, reagents for testing water and biological fluids, namely, blood, saliva, urine, interstitial fluid, serum, plasma, semen, tears, bile fluid, spinal fluid, and amniotic fluid, reagents for testing aqueous media for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders, deoxyribonucleic acid, single stranded and double stranded deoxyribonucleic acid, ribonucleic acid for laboratory use and scientific testing and research use, peptide nucleic acids for laboratory use and scientific testing and research use in the fields of molecular biology, biotechnology, microbiology, bacteriology and genomics, locked nucleic acids for laboratory use and scientific testing and research use in the fields of molecular biology, biotechnology, microbiology, bacteriology and genomics, nucleic acids, oligonucleotides, oligosaccharides, protein and peptides all for laboratory use and scientific testing and research in the fields of molecular biology, biotechnology, microbiology, bacteriology and genomics, proteins for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, peptides for industrial purposes,

scientific purposes and scientific research purposes, chemicals, enzymes and reagents for use in genome, DNA, RNA and nucleic acid synthesis, endonucleases, polymerases, ligases, glycosylases, nucleotides for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, pyrimidines, purines, all for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, amino acids for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, saccharides for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence; reagents for use in nucleic acid characterisation and nucleic acid sequencing, reagents for protein identification and analysis, chemicals for use in tests to detect diseases in plant life, reagents for formation of amphipathic membranes, buffer solutions, aqueous solvents for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA and other nucleic acids, non-aqueous solvents for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA and other nucleic acids, isopropanol, ethanol, phenol, non-aqueous media, surfactants for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA and other nucleic acids, silicone oils, dimethyl silicone fluid, methylphenyl silicone fluid, and methyl hydrogen silicone fluid, enzymes for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA and other nucleic acids, lytic enzymes and lysozyme, nucleases, namely, RNase, DNase and restriction enzymes for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA and other nucleic acids, chaotropes, namely guanidine-HCl and guanidinium thiocyanate, detergents for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, proteins for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence, all the aforesaid other than for medical and veterinary purposes; magnetic and non-magnetic microspheres made from synthetic materials, namely rubber, plastics and silicone, namely, beads for use in medical and scientific research.

### **Class 05**

(2) Diagnostics chemical reagents for use in automated text systems for medical and veterinary purposes; reagents for use in blood grouping, molecular biology, bacteriological, biotechnology and microbiological analysis, namely reagents for formation of amphipathic membranes, buffer solutions, non-aqueous solvents for use in medical and veterinary diagnostic testing; diagnostic reagents for medical and veterinary diagnosis and medical and veterinary use; diagnostic reagents for laboratory tests for medical and veterinary purposes; nucleic acid amplification reagents for veterinary, medical, medical research and forensic use; diagnostic reagents for immunoassay analysers for medical and veterinary use; diagnostic reagents for testing aqueous solutions for medical and veterinary use; diagnostic reagents for testing for susceptibility to allergies for medical and veterinary use; diagnostic reagents for use in biological processing for medical and veterinary use; diagnostic reagents for use in nucleic acid characterisation and nucleic acid sequencing for medical and veterinary purposes; diagnostic reagents for protein identification and analysis for medical and veterinary purposes; diagnostic reagents for formation of amphipathic membranes for medical and veterinary purposes; buffer solutions; diagnostic test reagents for testing non-aqueous solvents for medical and veterinary use; diagnostic test reagents for testing non-aqueous media for medical and veterinary use; surfactants for use in medical and veterinary diagnostic tests; silicone oils for use in diagnostic test for medical and veterinary purposes; enzymes for use in diagnostic

test for medical and veterinary purposes; proteins for use in diagnostic tests for medical and veterinary purposes; magnetic and non-magnetic microspheres made from synthetic materials, namely rubber, plastics and silicone, namely, beads for medical and veterinary purposes.

### **Class 09**

(3) Computer software for detection and analysis of molecules for use in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, national security and military defence; computer software for use in the analysis, transmission and receiving of data obtained from the results of scientific tests and experiments in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, national security and military defence; computer software for developing, running and communicating with software on data processing apparatus, scientific apparatus, medical and veterinary apparatus, computers, mobile phones, tablet computers and handheld mobile digital electronic devices for use in the analysis, transmission and receiving of data obtained from the results of scientific tests and experiments in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, national security and military defence; computer operating software; operating system software; operating software for data processing apparatus, scientific apparatus, medical and veterinary apparatus, computers, mobile phones, tablet computers and handheld mobile digital electronic devices; sensors used in electronic scientific equipment for detecting, manipulating and analyzing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; micro-array chips for analyzing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; electronic sensing apparatus, namely sensors used in electronic scientific equipment for detecting, manipulating and analyzing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; laboratory and data processing apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, optical and electrochemical analysis, medical diagnosis, measurement of ions, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes; portable laboratory and data processing apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, optical and electrochemical analysis, medical diagnosis, measurement of ions, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes; scientific apparatus and instruments for sequencing DNA, RNA, protein and polynucleic acids; scientific apparatus and laboratory devices for the scientific analysis of polynucleic acid sequences; apparatus and instruments for the analysis of nucleic and polynucleic acids, namely, microarrays, and silicone chip based arrays for scientific and research purposes; scientific apparatus and instruments for sequencing DNA, RNA, proteins and polynucleic acids; apparatus and instruments for analysis of genetic information, genomic information and proteomic information, namely, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICS (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis; apparatus and instruments for use in laboratory analysis, namely, cartridges for use with

concentrates and solutions in solid and liquid form samples for sequencing and synthesising chemical compounds, small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides for scientific and research purposes; diagnostic and testing apparatus for scientific and research purposes, namely, laboratory test tubes, centrifuges for laboratory use, constant temperature incubators for laboratory use, vacuum distillation columns for laboratory use; monitoring apparatus and instruments, namely monitors for the display of information obtained from scientific equipment; networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes; scientific apparatus and instruments for sequencing and synthesising chemical compounds, small molecules, genomes, DNA, RNA or other nucleic acids, oligosaccharides, proteins and peptides for scientific and research purposes; electrowetting devices for microfluidic actuation and manipulation; scientific apparatus and laboratory devices for the scientific analysis of polynucleic acid sequences; apparatus and instruments for the analysis of nucleic and polynucleic acids, namely, microarrays, and silicon chip based arrays for scientific and research purposes; electronic display interfaces, namely, monitors for the display of information obtained from scientific equipment; silicon chips; DNA chips; analyte detector chips for use in detecting, manipulating and analyzing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; biosensor chips for use in detecting, manipulating and analyzing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; batteries, rechargeable batteries, chargers for batteries, and power packs for use with electronic scientific equipment; computer docking stations; laboratory testing apparatus incorporating chemical and biological reagents for testing gas, liquids and solids; reaction units containing chemical and biological reagents for laboratory use; nanopore sensors for scientific testing and research purposes; parts and fittings for all the aforesaid goods.

### **Class 10**

(4) Surgical, medical and veterinary apparatus and instruments, namely, automated electronic devices for sequencing DNA, RNA, and other small molecules for the purposes of analysing test samples comprising biological, chemical, biochemical, DNA, RNA, proteins and other small molecules for medical and veterinary purposes; automated electronic apparatus and instruments for the purpose of extraction and preparation of test samples for medical and veterinary purposes; portable medical and veterinary apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis namely, automated electronic devices for sequencing DNA, RNA, and other small molecules for the purposes of analysing test samples comprising biological, chemical, biochemical, DNA, RNA, proteins and other small molecules for medical and veterinary purposes; liquid biopsy devices, namely, biopsy needles; automated electronic devices for sequencing DNA, RNA and other small molecules for the purposes of detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; portable automated electronic devices for sequencing DNA, RNA and other small molecules for the purposes of detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; testing apparatus, namely, automated electronic devices for sequencing DNA, RNA and other small molecules for medical and veterinary purposes; portable testing apparatus, namely, automated electronic devices for sequencing DNA, RNA and other small molecules for medical and veterinary purposes; empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid and liquid form for sequencing

and synthesising chemical compounds, small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides, for medical purposes; reaction units containing chemical reagents for medical testing purposes; nanopore sensors for medical and veterinary purposes; parts and fittings for all the aforesaid goods.

## Services

### Class 35

(1) Market analysis and studies; provision of marketing, business and commercial reports; business management services; business administration services; retail services connected with the sale of software; retail services connected with the sale of computer operating software; retail services in the field of data analysis products in the nature of electronic polynucleic acid sequencers for sequencing DNA, RNA and other polynucleic acids; retail services in the field of analysing DNA, RNA and other polynucleic acids; retail sale of electronic sensing and measuring equipment, apparatus and instruments, namely electronic nanopore sensors, electronic polynucleic acid sequencers, biological and solid state sequencing systems comprising cartridges, silicon based arrays, ASICs (application specific integrated circuits) and networked computer hardware and software, all for the analysis and sequencing of DNA, RNA and other polynucleic acids for scientific testing and scientific research use; retail sale of DNA sequencing equipment, apparatus and instruments; retail sale of medical and veterinary apparatus and instruments, namely electronic nanopore sensors, electronic polynucleic acid sequencers for detection of pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; retail sale of data processing equipment, apparatus and instruments, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; retail sale of scientific equipment, apparatus and instruments, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; retail services connected with the sale of surgical, medical and veterinary equipment, apparatus and instruments; retail services connected with the sale of reagents, buffer solutions, solvents, surfactants, oils and other media for scientific, medical or veterinary purposes; retail services connected with the sale of chemicals and enzymes; retail services connected with the sale of chemicals and enzymes for scientific, medical or veterinary purposes; retail services connected with the sale of deoxyribonucleic acid, single stranded and double stranded deoxyribonucleic acid, ribonucleic acid, peptide nucleic acids, locked nucleic acids, nucleic acids, oligonucleotides, oligosaccharides, proteins and peptides; retail services connected with the sale of goods for use in a laboratory; information, advisory and consultancy services relating to the aforesaid.

### Class 41

(2) Education services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; training services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; training courses, workshops, classes, symposiums and seminars in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; training courses, workshops, classes, symposiums and seminars regarding DNA

/RNA sequencing, data analysis and conducting scientific tests and experiments; training for handling scientific instruments and apparatus for research in laboratories; training for handling medical instruments and apparatus for research in laboratories; arranging and conducting conferences in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; information, advisory and consultancy services relating to the aforesaid.

### **Class 42**

(3) Scientific and technological services and research and design relating thereto namely, consultation, research and design services relating to automated systems and instruments for direct electrical detection and analysis of molecules for use in the field of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; industrial analysis and research services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; chemical research; biochemical research; biological research; bacteriological research; medical research; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular analysis services; research and development of new products for others in the nature of the synthesis of chemical compounds, small molecules, genomes, DNA, RNA or other nucleic acids, oligosaccharides, proteins and peptides; scientific research for medical or veterinary purposes; genome, DNA, RNA and nucleic acid, oligosaccharide, protein and peptide synthesising services; synthesizing services of chemical compounds and small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides for scientific testing purposes; DNA and RNA and polynucleic acid sequencing services; protein sequencing services; design and development of instruments and apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis; DNA and polynucleic acid testing services; DNA and polynucleic acid testing services; genome sequencing services; analysis and evaluation of biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular data not for medical treatment or diagnostic purposes, namely, scientific and medical data obtained from scientific tests and experiments; computer aided chemical, biochemical, bacteriological analysis of information obtained from scientific and medical experiments and tests; overseeing, monitoring and managing scientific and medical research experiments and tests; overseeing, monitoring and managing the analysis and evaluation of scientific and medical research data; scientific industrial design services; analysis of scientific results obtained from sequencing DNA, RNA and other polynucleic acids; biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis and evaluation services for scientific research purposes; DNA and RNA and polynucleic acid and protein sequencing, analysis and evaluation services for scientific research purposes; genome sequencing services and the analysis and evaluation of data resulting therefrom; preparation of reports relating to scientific and medical experiments, the results of scientific and medical experiments and tests, the analysis and evaluation of scientific and medical data, and data generated by scientific and medical experiments and tests; scientific and medical research and development services; technical analysis and evaluation services in the fields of chemistry, biology, biotechnology, genomics, pharmaceutical development, medical research and nanotechnology; electronic storage of medical records; application service provider (ASP) services for providing access to computer software applications installed or downloaded onto data processing apparatus, scientific apparatus, medical and veterinary apparatus, computers, mobile phones, tablet computers and handheld mobile digital electronic devices; information, advisory and consultancy services relating to the aforesaid.

### **Class 44**

(4) Medical and veterinary diagnostic services; medical and veterinary testing services; genetic testing for medical and veterinary purposes; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular testing and analysis services and DNA/RNA sequencing services for medical, veterinary, agricultural and aquacultural purposes; analysis of medical results obtained from sequencing DNA, RNA and other polynucleic acids; information, advisory and consultancy services relating to the aforesaid.

**Claims**

Priority Filing Date: September 11, 2020, Country or Office: UNITED KINGDOM, Application No: UK00003532325 in association with the same kind of goods and in association with the same kind of services

### Trademark Type

Standard Characters

### Goods

#### Class 09

(1) Coin-operated mechanisms for arcade slot machines, computer games and video games and machines that provide betting services; downloadable computer software for use in database management; games software; online games software for computers, mobile phones and other television and mobile devices; computer software for lottery games played in all kinds of computerized environments; downloadable mobile applications for use in database management; betting ticket and lottery ticket dispensing apparatus, namely, electronic terminals for generating lottery tickets; media content, namely, downloadable video files featuring lottery games drawings; downloadable electronic publications in the nature of e-books in the field of lottery games, betting and gambling; downloadable electronic files containing digital images, videos and audio in the field of lottery games, betting and gambling.

#### Class 28

(2) Games, toys and playthings, namely, board games, card games, plush toys; video game consoles; scratch cards for playing lottery games; lottery tickets; game machines; game apparatus, automatic and coinoperated; arcade games; automatic gaming machines; arcade-type electronic video games; electronic handheld game consoles; lottery wheels; playing cards; gaming chips.

### Services

#### Class 35

(1) Advertising the goods and services of others; business management; business administration; auctioneering; business management of sports people; business organization consultancy; business research; commercial administration of the licensing of the goods and services of others; compilation of statistics into computer databases; compilation of statistics; computerized file management; cost price analysis; production of advertising films for others; professional business management consultancy; publicity columns preparation being writing of publicity texts; publicity material rental, namely, rental of advertising billboards; radio advertising; administrative services for the relocation of businesses; rental of advertising space; retail services in respect of computer software, computer game entertainment software, downloadable software, downloadable

electronic games, video game software; retail services in respect of interactive multimedia computer game programs, games software for use on mobile phones, smart phones, tablets and other electronic mobile devices; retail services in respect of games software downloadable to mobile phones, smart phones, tablets and other electronic mobile devices, apps featuring computer games; retail store services and online retail store services in respect of virtual goods, namely, virtual reality games, virtual reality game software, virtual reality game machines, virtual reality arcade games, virtual reality lottery wheels and tickets; retail store services and online retail store services in respect of computer software enhancements and computer components within computer games and video games.

### **Class 41**

(2) Providing entertainment information in the field of video games via the internet; organizing cultural activities, namely, community festivals; organization and provision of games and competitions, namely, organizing electronic game competitions; operation of online game sites, namely, providing online computer games; electronic game services provided by means of the internet; provision of computer games online, on social networks, or by means of a global computer network; providing online electronic games for use on mobile phones, tablets and other electronic mobile devices, namely, smart phones and laptops; providing electronic games for download to mobile phones, tablets and other electronic mobile devices; providing interactive single and multi-player electronic games via the internet, electronic communication networks or via a global computer network; publishing of computer game software, electronic games and video game software; video game entertainment services being electronic game services provided by means of the internet; providing games via telephone being electronic game services provided by means of the internet; online casino gaming services; interactive television services, namely, television show production; wagering game services, namely, online casino gaming services; casino gaming and gambling services; operating lotteries; video arcade services; games equipment rental; providing on-line electronic publications, not downloadable, in the nature of e-books in the field of lottery games, betting and gambling.

### **Class 42**

(3) IT programming services, namely, computer programming services; industrial design services; testing of computer programs; authentication of works of art; providing quality control for the computer software development industry; scientific and technology research in the field of computer software and hardware; design, development and maintenance of computer software and online gambling, lottery and casino game websites; hosting of online game sites.

### Goods

#### Class 09

Pre-recorded and downloadable audio and video recordings in the fields of financial services, investing and securities; optical devices, enhancers and correctors, namely, contrast enhancement filters for electronic display readout windows, optical devices, namely, optical scanners, optical receivers, optical sensors, optical transceivers, optical transmitters; navigation, guidance, tracking, targeting and map making devices, namely, Global Positioning System (GPS) consisting of computers, computer software, transmitters, receivers, network interface devices and lcd large-screen displays; magnetizers, demagnetizers for magnetic tapes, magnetic encoders; apparatus, instruments and cables for electricity, namely, audio cables, video cables, battery cables, computer cables, electric cables, electronic cables, optical cables, power cables; computer hardware; data communications hardware, namely, computer hardware; hardware for processing electronic payments to and from others, namely, electronic payment terminals, computer hardware and computer software for processing electronic payments; software, namely, downloadable mobile applications for managing bank accounts, embedded operating software for banking management; authentication software, namely, downloadable computer programs for data authentication via blockchain, software and mobile applications for providing authentication of parties to a financial transaction; security tokens [encryption devices]; downloadable computer software for blockchain technology, namely, computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts, computer software for facilitating blockchain-based financial transactions, downloadable computer software for managing and verifying cryptocurrency transactions on blockchain, computer software for managing and verifying cryptocurrency transactions on a blockchain; utility, security and cryptography software; downloadable cryptographic keys for receiving and spending cryptocurrency.

### Services

#### Class 36

(1) Issuance of prepaid cards and tokens of value, namely, prepaid credit card services, prepaid gift card services, issuance of debit cards; safe deposit services; financial, monetary and banking

services, namely, banking services, monetary exchange services, financial services, namely, financial analysis, financial investment services in the field of securities and mutual funds, financial investment brokerage and counseling, financial asset management services, financial management, financial planning, financial research, financial portfolio management, financial risk management, money lending, financial trust management, and trading of financial instruments; business valuation services; financial sponsorship, namely, financial sponsorship relating to fundraising; real estate advisory services; financial transactions via blockchain, namely, financial services, namely, provision of a cryptocurrency blockchain for digital currency exchange and trading services, [blockchain-based] payment verification services; insurance underwriting.

#### **Class 41**

(2) Education in the field of economics, financial planning and investment strategies, educational services in the field of financial planning, stock market trading, cryptocurrency trading and financial management; ticket reservation and booking services for education, entertainment and sports activities and events; publishing, reporting, and writing of texts, namely, on-line electronic publishing of books and periodicals, publication of educational texts.

#### **Class 42**

(3) IT programming and consultancy services, namely, computer programming services, and computer programming consultancy, consultancy in the field of cloud computing networks and applications; quality control in the field of data authentication via blockchain; design of computer hardware; rental of computer hardware and computer software; software development; blockchain as a service [baas], namely, platform as a services featuring blockchain-based software platforms, namely, software for transfer or exchange of virtual currencies for data and for information and files using smart contracts and for conducting transactions, software as a services featuring software for encrypting and enabling secure transmission of digital information relating to virtual currencies, digital and blockchain assets over the Internet, software as a service featuring software for sending, receiving, buying, selling, trading and exchanging virtual currencies, digital and blockchain assets, software as a service featuring software for use in managing portfolios of virtual currencies, digital and blockchain assets.

### Goods

#### Class 07

(1) Industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; industrial robots for machine tools, namely, for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, electronic industry and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; collaborative industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; collaborative industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; collaborative industrial robots (cobots) for industrial use, namely machine tools for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, electronic industry and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; robotic arms

being industrial robots for assembling, loading, packaging, palletizing, metalworking, woodworking and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; automated machines for use in manufacturing of metal, wood, glass, plastic, rubber products, and electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; automated machines and machine tools for the cutting and forming of materials, namely, metal, wood, glass, plastic, rubber, electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; stands for automated machines and industrial robots, namely, stands for metalworking and woodworking machines, food and beverage processing and assembling machines, electronics manufacturing, processing, testing and handling machines, welding machines, plastic shaping machines, assembly machines, polishing machines and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; electric welding machines and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; end-effectors specially adapted for use with industrial robots and collaborative industrial robots, namely end-effectors for warehouse robot arms, food and beverage processing and assembling machines, electronics manufacturing, processing, testing and handling machines, welding machines, plastic shaping machines, assembly machines, polishing machines and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; fitted protective sleeves and covers specially adapted for industrial robots and component parts therefor.

### **Class 09**

(2) Downloadable software for controlling, programming, manufacturing, processing, handling and assembling goods; downloadable software for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines; downloadable software for use in cloud computing and data storage; cameras containing image sensors; cameras; electronic sensors for robots and robotic parts and accessories, namely, electronic sensors for measuring distance, position and proximity not for medical use; electronic sensors for measuring distance, position and proximity not for medical use; computer hard drives for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines; computer hard drives; electronic controllers for industrial robots and component parts therefor; electronic controlling devices, namely manipulators for the remote operation of industrial robots, teach pendant devices, computers, laptops, tablets, smart phones and programmable logic controllers (PLC) devices which can be connected directly and remotely to industrial robots, and component parts therefor; electrical integrated control systems for use with industrial robots for manufacturing; routers, namely, computer network routers; protective covers for electric cables; LCD monitors display units for attaching to robots and robotic arms.

### **Services**

#### **Class 35**

(1) Retail and online store services featuring namely, industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material, industrial robots for machine tools, namely, for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber,

collaborative industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material, collaborative industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, collaborative robots (cobots) for industrial use, namely machine tools for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, robotic arms being industrial robots for assembling, loading, packaging, palletizing, metalworking, woodworking, automated machines for use in manufacturing of metal, wood, glass, plastic, and rubber products, automated machines and machine tools for the cutting and forming of materials, namely, metal, wood, glass, plastic, rubber, stands for automated machines and industrial robots, namely, stands for metalworking and woodworking machines, electric welding machines, end-effectors specially adapted for use with industrial robots and collaborative industrial robots, namely end-effectors for warehouse robot arms, end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery, fitted protective sleeves and covers specially adapted for industrial robots and component parts therefor, downloadable software for controlling, programming, manufacturing, processing, handling and assembling goods, downloadable software for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines, downloadable software for use in cloud computing and data storage, cameras containing image sensors, cameras, electronic sensors for robots and robotic parts and accessories, namely, electronic sensors for measuring distance, position and proximity not for medical use, electronic sensors for measuring distance, position and proximity not for medical use, computer hard drives for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines, computer hard drives, electronic controllers for industrial robots and component parts therefor, electronic controlling devices, namely manipulators for the remote operation of industrial robots and component parts therefor, electrical integrated control systems for use with industrial robots for manufacturing, routers, namely, computer network routers, protective covers for electric cables, LCD monitors display units for attaching to robots and robotic arms; retail and online store services, namely installation, repair and maintenance services for industrial robots, industrial robot parts and components, collaborative robots, industrial robots, cobots and automated machines for use in manufacturing of metal, wood, glass, plastic, and rubber products, repair of computer hardware in the field of robotics, providing access to online communities in the field of robotics, online communities' platforms in the field of robotics, providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the field of general interest, news and current events, providing online community forums for users to post, search, watch, share, critique, rate, and comment on, messages, news, comments, multimedia content, videos, movies, films, photos, audio content, animation, pictures, images, text, information, and user-generated and non-user generated content, education services, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics, providing online training, namely, classes, seminars, workshops, and educational conferences in the field of robotics and computer programming in the field of robotics, providing educational training, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics, installation, repair and maintenance of computer software in the field of robotics and automated machines, platform as a service featuring software for controlling, programming, manufacturing, processing, handling and assembling robots.

### **Class 37**

(2) Installation, repair and maintenance services for industrial robots, industrial robot parts and components, collaborative robots, cobots and automated machines for use in manufacturing of

metal, wood, glass, plastic, and rubber products; repair of computer hardware in the field of robotics.

### **Class 38**

(3) Providing Internet access to online communities in the field of robotics, providing Internet access to online community platforms in the field of robotics; providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the field of general interest, news and current events; providing online community forums for users to post, search, watch, share, critique, rate, and comment on, messages, news, comments, multimedia content, videos, movies, films, photos, audio content, animation, pictures, images, text, information, and user-generated and non-user generated content.

### **Class 41**

(4) Education services, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics; providing online training, namely, classes, seminars, workshops, and educational conferences in the field of robotics and computer programming in the field of robotics; providing educational training, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics.

### **Class 42**

(5) Installation, repair and maintenance of computer software in the field of robotics and automated machines; platform as a service featuring software for controlling, programming, manufacturing, processing, handling and assembling robots.

### **Claims**

Priority Filing Date: October 13, 2021, Country or Office: EUIPO (EU), Application No: 018574789 in association with the same kind of goods and in association with the same kind of services

**Application Number** 2,177,501  
**International Registration Number** 1653977

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The mark comprises of a blue square with the stylized letters "UR" in white.

### Goods

#### Class 07

(1) Industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; industrial robots for machine tools, namely, for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, electronic industry and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the

aforementioned goods; collaborative industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; collaborative industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; collaborative robots (cobots) for industrial use, namely machine tools for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, electronic industry and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; robotic arms being industrial robots for assembling, loading, packaging, palletizing, metalworking, woodworking and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; automated machines for use in manufacturing of metal, wood, glass, plastic, rubber products, and electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; automated machines and machine tools for the cutting and forming of materials, namely, metal, wood, glass, plastic, rubber, electronic components and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; stands for automated machines and industrial robots, namely, stands for metalworking and woodworking machines, food and beverage processing and assembling machines, electronics manufacturing, processing, testing and handling machines, welding machines, plastic shaping machines, assembly machines, polishing machines and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; electric welding machines and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; end-effectors specially adapted for use with industrial robots and collaborative industrial robots, namely end-effectors for warehouse robot arms, food and beverage processing and assembling machines, electronics manufacturing, processing, testing and handling machines, welding machines, plastic shaping machines, assembly machines, polishing machines and end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery for all the aforementioned goods; fitted protective sleeves and covers specially adapted for industrial robots and component parts therefor.

### **Class 09**

(2) Downloadable software for controlling, programming, manufacturing, processing, handling and assembling goods; downloadable software for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines; downloadable software for use in cloud computing and data storage; cameras containing image sensors; cameras; electronic sensors for robots and robotic parts and accessories, namely, electronic sensors for measuring distance, position and proximity not for medical use; electronic sensors for measuring distance, position and proximity not for medical use; computer hard drives for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines; computer hard drives; electronic controllers for industrial robots and component parts therefor; electronic controlling devices, namely manipulators for the remote operation of industrial robots, teach pendant devices, computers, laptops, tablets, smart phones and programmable logic controllers (PLC) devices which can be connected directly and remotely to industrial robots, and component parts therefor; electrical integrated control systems for use with industrial robots for manufacturing; routers, namely, computer network

routers; protective covers for electric cables; LCD monitors display units for attaching to robots and robotic arms.

## Services

### Class 35

(1) Retail and online store services featuring namely, industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material, industrial robots for machine tools, namely, for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, collaborative industrial robots for metalworking, woodworking, food and beverage processing and assembling, manufacturing electronic components, welding, shaping plastic material, collaborative industrial robots for manufacturing, processing, handling and assembling goods, namely, wood, metal, glass, plastic, rubber, collaborative robots (cobots) for industrial use, namely machine tools for the automotive industry, the metalworking industry, food processing industry, medical and pharmaceutical processing industry, cosmetics industry, robotic arms being industrial robots for assembling, loading, packaging, palletizing, metalworking, woodworking, automated machines for use in manufacturing of metal, wood, glass, plastic, and rubber products, automated machines and machine tools for the cutting and forming of materials, namely, metal, wood, glass, plastic, rubber, stands for automated machines and industrial robots, namely, stands for metalworking and woodworking machines, electric welding machines, end-effectors specially adapted for use with industrial robots and collaborative industrial robots, namely end-effectors for warehouse robot arms, end effectors and component parts for warehouse robot arms, namely mechanical grippers for machinery, fitted protective sleeves and covers specially adapted for industrial robots and component parts therefor, downloadable software for controlling, programming, manufacturing, processing, handling and assembling goods, downloadable software for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines, downloadable software for use in cloud computing and data storage, cameras containing image sensors, cameras, electronic sensors for robots and robotic parts and accessories, namely, electronic sensors for measuring distance, position and proximity not for medical use, electronic sensors for measuring distance, position and proximity not for medical use, computer hard drives for controlling, programming, manufacturing, processing, handling and assembling robots, robot parts accessories and automated machines, computer hard drives, electronic controllers for industrial robots and component parts therefor, electronic controlling devices, namely manipulators for the remote operation of industrial robots and component parts therefor, electrical integrated control systems for use with industrial robots for manufacturing, routers, namely, computer network routers, protective covers for electric cables, LCD monitors display units for attaching to robots and robotic arms; retail and online store services, namely installation, repair and maintenance services for industrial robots, industrial robot parts and components, collaborative robots, industrial robots, cobots and automated machines for use in manufacturing of metal, wood, glass, plastic, and rubber products, repair of computer hardware in the field of robotics, providing access to online communities in the field of robotics, online communities' platforms in the field of robotics, providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the field of general interest, news and current events, providing online community forums for users to post, search, watch, share, critique, rate, and comment on, messages, news, comments, multimedia content, videos, movies, films, photos, audio content, animation, pictures, images, text, information, and user-generated and non-user generated content, education services, namely, classes, seminars, workshops, and

conferences in the field of robotics and computer programming in the field of robotics, providing online training, namely, classes, seminars, workshops, and educational conferences in the field of robotics and computer programming in the field of robotics, providing educational training, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics, installation, repair and maintenance of computer software in the field of robotics and automated machines, platform as a service featuring software for controlling, programming, manufacturing, processing, handling and assembling robots.

#### **Class 37**

(2) Installation, repair and maintenance services for industrial robots, industrial robot parts and components, collaborative robots, cobots and automated machines for use in manufacturing of metal, wood, glass, plastic, and rubber products; repair of computer hardware in the field of robotics.

#### **Class 38**

(3) Providing access to online community platforms in the field of robotics; providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the field of general interest, news and current events; providing online community forums for users to post, search, watch, share, critique, rate, and comment on, messages, news, comments, multimedia content, videos, movies, films, photos, audio content, animation, pictures, images, text, information, and user-generated and non-user generated content.

#### **Class 41**

(4) Education services, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics; providing online training, namely, classes, seminars, workshops, and educational conferences in the field of robotics and computer programming in the field of robotics; providing educational training, namely, classes, seminars, workshops, and conferences in the field of robotics and computer programming in the field of robotics.

#### **Class 42**

(5) Installation, repair and maintenance of computer software in the field of robotics and automated machines; platform as a service featuring software for controlling, programming, manufacturing, processing, handling and assembling robots.

#### **Claims**

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

The image shows the word "parque" written in a highly stylized, cursive script. The letters are interconnected and have a decorative, flowing quality. The 'p' is particularly large and ornate, with a long tail that loops under the 'a'. The 'r' and 'q' also have elaborate flourishes. The overall appearance is that of a handwritten or calligraphic font.

### Foreign Character Translation

The translation provided by the applicant in English is that the element "parque" forming part of the mark is "park"

### Colour Claim

Colour is claimed as a feature of the trademark. The colours red, dark red, black, white, gray, dark gray, and turquoise are claimed as a feature of the mark. The mark consists of the design of a partially naked man lifting his shirt and pointing towards his abdomen. The man is outlined in black and being white, gray, and dark gray with black workout clothes and a turquoise hand band. In the upper right are two concentric shield designs, the outer one being dark red and the inner one being red that form a border for a dark red shield design containing the number "30" in white. All is inside a red square background with rounded corners. The white background represents a transparent area and is not part of the mark.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The colors red, dark red, black, white, gray, dark gray, and turquoise are claimed as a feature of the mark. The mark consists of a white arrow between the design element of the side profile of two men's bodies with two concentric circles in the bottom left corner, the outer concentric circle being dark red and the inner one being red that form a border for a dark red circle containing the number "30" in white. The two men are outlined in black and being white, gray, and dark gray with black workout clothing and turquoise waistbands and hand bands. All are situated inside a red square with rounded corners. The white background represents a transparent area and is not part of the mark.

### Colour Claim

Colour is claimed as a feature of the trademark. The colours red, dark red, black, white, gray, dark gray, and turquoise are claimed as a feature of the mark. The mark consists of the right side profiles of two women in black workout attire and turquoise waistbands and hand bands. The woman on the left is overweight with heavy arms and legs and a bulging midriff and the one on the right with slim arms, legs and midriff. Both women are outlined in black and being white, gray, and dark gray. Between the two women is a white arrow pointing to the right. In the lower left hand corner of the image there are two concentric circles, the outer one being dark red and the inner one being red that form a border for a dark red circle containing the number "30" in white. The whole image is on a red square with rounded corners. The white background represents a transparent area and is not part of the mark.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The colours red, dark red, black, white, gray, dark gray, and turquoise are claimed as a feature of the mark. The mark consists of the literal element "5cm" in white colour in the top left corner in a dark red rectangular shape and the design element of a white arrow with black ruler markings between two design elements of two male figures. The male figures are outlined in black and being white, gray, and dark gray with black workout clothes and turquoise waistbands and hand bands. The whole image is situated inside a red square with rounded corners. The white background represents a transparent area and is not part of the mark.

### Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a black rectangle in which the words "CUPBOP" and "KOREAN BBQ IN A CUP" appear. The letters "C", "U", "P" and "B", and the letters forming the words "KOREAN BBQ IN A CUP" are white. The letter "O" in the word "CUPBOP" is yellow and includes a cup containing food in black and white, the black rectangle also including a red rounded rectangle to the right of "CUPBOP" which includes Korean characters in black. The colours black, white, red and yellow are claimed as a feature of the trademark.

### Foreign Character Translation

The Korean characters in the mark translate to "cup rice" in English.

### Foreign Character Transliteration

The non-Latin characters in the mark transliterate to "keob bab" in Korean.
