# Trademarks Journal

## Vol. 67 No. 3407

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Data processing apparatus, namely electronic control systems and panels for alarm systems; computer memory hardware; recorded computer operating programs; computer peripheral devices, namely keyboard, mouse, computer monitor, printers, scanners; microprocessors; monitors (computer hardware); CPU; integrated circuit cards; smart cards (integrated circuit cards); downloadable electronic publications in the nature of newsletters in the field of information services; downloadable computer operating programs for providing information services for users, through transmission, storage, memory, saving, expression, representation and analysis for information and data of audio, video and sensor in the field of information services; data processing equipment, namely, smart card readers; USB flash drives; surveillance programs, namely, network video recording software for IP (internet protocol) video surveillance; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; downloadable music files; downloadable image files; counters, namely, calculators; quantify indicators, namely, scientific instrumentation for measuring information and data of audio, video and sensor for the purposes of surveillance and detecting temperature and humidity, air quality, infrared radiation, motion, sound, water, smoke and intruders, fire and other

security threats as part of video surveillance installations and burglar alarm, personal security alarm and fire alarm installations; electronic tags for goods; electronic notice board; electronic bulletin board; light-emitting electronic pointers; blinkers lights, namely, flashing safety or warning lights; signal lanterns; signaling panels (luminous or mechanical); luminous or mechanical signal panels, namely, electric luminescent display panels; luminous or mechanical road signs; intercommunications apparatus, namely, intercoms and video intercoms; video telephones; network communication equipment, namely wired routers, wireless routers, network cables, wired modems, wireless modems for use in surveillance systems and equipment, network access servers, network video servers, wireless communication devices, namely network video recorders, digital video recorders, network access servers, network video servers, network routers, and wireless intercom, for transmitting images and videos taken by a camera, switches namely Ethernet switches, microphones [for telecommunication apparatus], transmitters and receivers, transceivers, pickups [for telecommunication apparatus], indicator lights [for telecommunication apparatus], personal security alarms that connect to a wireless communications network, video phones, wireless intercom, and wireless communication devices for voice, data or image transmission, namely ethernet switches, wireless access point devices, wireless gateway router, and transceivers; radios; radar detectors; electro-dynamic apparatus for the remote control of signals, namely navigation apparatus for vehicles; navigation apparatus for vehicles (on-board computers); global positioning system (GPS) apparatus consisting of computers, computer software, transmitters, receivers, and network interface devices; optical communication apparatus, namely optical transceivers, optical transmitters, optical receivers and optical data links; sound recording apparatus, namely audio recorders, audio cassette and tape recorders, digital audio recorders, MP3 recorders, DVD recorders; video recorders; camcorders; portable media players, namely mobile phones, cellular phones, cassette players, CD players, MP3 players, action cameras; self-motion advertising machine, namely, network video camera, web video camera, network video recorder and sensors and web video recorder and sensors to gather, collect and record information of voice frequency and video frequency; audio and video receivers; editing appliances for cinematographic films; cameras; speed measuring apparatus for vehicles, namely speedometers; flash lights (photography); observation instruments, namely, network video camera, web video camera, network video recorder and sensors and web video recorder and sensors to gather, collect and record information of voice frequency and video frequency; audiovisual teaching apparatus, namely, network video camera, web video camera, network video recorder and sensors and web video recorder and sensors to gather, collect and record information of voice frequency and video frequency; detectors, namely, smog detectors, switching value detectors and human body infrared detectors; speed checking apparatus for vehicles; lasers for bar code readers; simulators for the steering and control of vehicles; hygrometers; temperature indicators, namely temperature gauges, temperature sensors; optical apparatus and instruments, namely optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; optical lenses; materials for electricity mains, namely power wires and power cables; semiconductor components, namely transistors, diodes, integrated circuits and semiconductor chips; video display screens, namely flat panel display screens; remote control devices, namely, network video camera, web video camera, network video recorder and sensors and web video recorder and sensors to gather, collect and record information of voice frequency and video frequency; remote control devices for alarm hubs; remote control devices for action cameras; sensors, namely humidity and temperature sensors built into cameras, air quality, PIR, motion, sound, water, smoke and directional movement sensors; light dimmers (electric); protection devices for personal use against accidents, namely, network video camera, web video camera, network video recorder and sensors and web video recorder and sensors; theft prevention installations, namely anti-theft alarms for vehicles, doors and windows; alarms, namely fire alarm

installations, video surveillance installations; fire alarms; smoke detectors; sound alarms, namely burglar alarms, personal security alarms; alarms, namely motion detectors with security alarms, automatic emergency lights, burglar alarms, personal security alarms and fire alarms, for security and emergency response purposes; electric locks; electric buzzers; anti-theft warning apparatus, namely burglar alarms; eyeglasses; batteries namely automotive batteries, camera batteries, cellular phone batteries, electric batteries for vehicles, general purpose batteries, solar batteries; accumulator cells; video discs and video tapes with recorded animated cartoons

## **Services**

### **Class 35**

(4) Wholesale and retail store services and online wholesale and retail store services featuring data processing apparatus, computer memory devices, recorded computer operating programs, computer peripheral devices, recorded computer software, microprocessors, computer hardware monitors, central processing units, integrated circuit cards, integrated circuit cards, namely, smart cards, recorded computer programs, downloadable electronic publications, downloadable software computer programs, data processing equipment, namely, readers, USB flash disks, surveillance computer programs, computer game software, downloadable music files, downloadable video files, counters, quantify indicators, electronic tags for goods, electronic notice boards, electronic bulletin boards, luminous electronic indicators, blinkers lights, signal lights, luminous or mechanical signal panels, luminous or mechanical signals, intercommunications apparatus, video telephones, network communications equipment, radio equipment, radar equipment, electro-dynamic apparatus for the remote control of signals, on-board computers, namely, navigation apparatus for vehicles, global positioning system (GPS) devices, optical communication instruments, recording devices, video recorders, camcorders, portable media players, self-motion advertising machine, audio and video receivers, editing applications for cinematographic films, photography cameras, photography speed measuring apparatus, photography flashlights, observation instruments, audiovisual teaching apparatus, detectors, speed measuring apparatus for vehicles, lasers not for medical purposes, simulators for the steering and control of vehicles, hydrometers, temperature indicators, optical apparatus and instruments, optical lenses, power material, namely, wires and cables, semiconductor apparatus, video display screens, remote control devices, transducers, electric light regulators, protection devices for personal use against accidents, electric theft prevention installations, fire alarms, smoke detectors, sound alarms, alarms, electric locks, buzzers, anti-theft alarming apparatus, eyeglasses, galvanic cells, accumulator cells, video discs and video tapes with recorded animated cartoons;

### **Class 38**

(1) TV broadcasting; telephone services; computer aided transmission of text messages, voice messages, podcasts, images, video messages via a global computer network and wireless mobile phone services; providing information in the field of telecommunications namely, information in the fields of wireless communications, providing facilities and equipment for video conferencing and transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; rental of message transmission apparatus, namely, switches namely Ethernet switches, wireless routers, transceivers, modems, wires and cables; rental of telecommunication equipment for use in surveillance systems and equipment; providing user access service to a global computer network; providing user access to global computer networks; long-distance conferences; recording, storage and subsequent transmission of voice, images, text messages by telephone, transceiver, text messaging services; electronic mail; rental of message sending apparatus, namely, cameras used for sending voice and video messages; fiber-optic communication, namely providing Internet access and electronic

mail services through wired access; operation of an electronic bulletin board in the field of wireless communications; rental of access time to global computer networks; providing on-line chat room for social networking; providing access to databases containing information in the fields of wireless communications; voice mail services; transmission of digital files, namely music, photographs, audio books, music videos, ringtones, motion pictures, pictures, still images, graphics, pre-recorded digital sound recordings, music and videos, movies via a global communication network;

#### **Class 42**

(2) technical research in the field of wireless communications and surveillance systems and equipment; technical project studies, namely scientific study and research in the fields of wireless communications and surveillance systems and equipment; engineering of hardware and software for others; research and development of new products for others, namely, hardware and their respective software applications; providing engineering drawings in the field of research and development for video surveillance installations and burglar alarm, personal security alarm and fire alarm installations; land surveying; weather forecasting; meteorological information; industrial design; interior design and decoration; computer rental; computer programming; computer software design; computer system analysis; computer system design; updating computer software; consultancy in the design and development of computer hardware; rental of computer software; recovery of computer data; maintenance of computer software; duplication of computer programs; conversion of data or documents from physical to electronic media; creating and maintaining websites for others; hosting computer sites (websites); installation of computer software; conversion of computer programs and data, namely conversion of computer programs from one platform to another and conversion of data from one medium to another; computer software consultancy; rental of web servers; computer virus protection services; providing search engines for the internet; monitoring of computer systems by remote access; digitization of documents;

#### **Class 45**

(3) security consultancy in the fields of surveillance systems and equipment; monitoring of burglar and security alarms; providing night guard services; providing personal body guards; inspection of factories for safety purposes; babysitting; house sitting; pet sitting; security services, namely remote monitoring of babies, children and pets via surveillance cameras; fire-fighting; rental of fire alarms; intellectual property consultancy; licensing of computer software (legal services); registration of domain names (legal services);

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of black and white concentric circle containing a personified red pepper with a green stem at the top, black eyes and mouth, yellow arms and hands outlined in black, with red droplets appearing on either side of the pepper. Within the black portion of the concentric circle is the white wording 'TTANGCHO HOT FOOD'. The diagonal Korean characters to the right of the word 'FOOD' are brown with white outlining. The remaining Korean characters appearing to the left and right of the concentric circle and directly above the concentric circle on either side of the pepper's head are black with white outlining.

### Foreign Character Translation

The translation provided by the applicant of the Korean characters to the left of the circle can be translated to "hot food made of chicken feet" in English. The Korean characters to the upper left and right of the pepper can be translated to "a hot pepper" in English. The diagonal Korean characters to the right of the circle can be translated to "the Great East Gate of Seoul, Korea" in English. The Korean characters to the right of the circle can be translated to "bizarreness" and "Korean food consisting primarily of stir-fried rice cake with fermented hot pepper paste".

### Foreign Character Transliteration

The transliteration provided by the applicant of the Korean character(s) is the Korean characters appearing to the left of the circle is "bool daak baal"; the transliteration of the Korean characters appearing to the upper left and right of the pepper is "ttangcho"; the transliteration of the diagonal Korean characters to the right of the circle is "dong dae moon"; and the transliteration of the Korean characters to the right of the circle is "yeop gee ddeok bok yi". .

## Geographical Indications

---

### MINISTER'S STATEMENT

The Minister proposes that the following geographical indications and, in the case of geographical indications identifying an agricultural product or food, translations of those indications be entered on the list of geographical indications kept pursuant to subsection 11.12(1) of the *Trademarks Act*.

**Application Number** 1,978,078

## GEOGRAPHICAL INDICATION DETAILS

# STELVIO/STILFSEER

### Indication type

Agricultural Product or Food

### Category

Cheeses: products falling under heading 04.06

### Goods

Cheese

### Territory

The following districts in the Autonomous Province of Bolzano: Val Venosta, Burgraviato, Salto-Sciliar, Val Pusteria, Val d'Isarco and the whole municipality of Bolzano.

### Qualification

The geographical indication is protected under "REGULATION (EU) No 1151/2012 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 21 November 2012 on quality schemes for agricultural products and foodstuffs" which is the governing law of the EU respecting geographical indications. When in Alpine pasture the cattle feed on fresh grass and when stabled their diet is primarily based on fodder and silage from grass obtained in the identified geographical area; moreover, only milk produced in that area is used. The mountainous nature and soil characteristics of the area, together with the traits of the specific Alpine grasses and the local microflora with its various bacteria strains that are used in the processing, give the maturation process of the cheese certain unique distinctive features that help to give it an unmistakable taste. These factors play a decisive role both in giving the rind its colour and in contributing to the product's unmistakable flavour and aroma. Moreover, the overall diet of the cattle contributes to the rather high level of fat compared to dry matter. The above factors can be traced over time in sources dating back to the Late Middle Ages and became consolidated through custom and by traditional local institutions including maso farms, as illustrated by a description of the product and its production process at a cheese factory in Stilf (Stelvio) in 1914. All of this gave rise to significant economic benefits throughout the geographic area. The specification makes these factors compulsory by imposing requirements on both cattle farmers and processors that must be documented by means of specific entries and records, identification systems for each individual operator in the area and the keeping of specific documentation concerning processing, production and allocation of the designation.
