Trademarks Journal

Vol. 70 No. 3581

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Trademark Description

The mark consists of a coined wording Q'AUTO in stylized manners. The first thick letter "Q" is split into three parts. To the right are the sign " ' " (apostrophe) and the letter A. The sign is shown as a triangle and the letter A has no horizontal bar, which are laterally followed by the letters "UTO". The sign and the letters "AUTO" are disposed within the curved line depicting a tube-like shape. The height of the tube-like shape is lower than that of the letter Q.

Territory

Region of Murcia: Municipalities of Bullas, Cehegín, Mula, Pliego and Ricote; from the municipality of Calasparra, the places between the Segura River and the administrative limit of the municipalities of Cehegín and Mula; from the municipality of Caravaca, the places: Arrabal de la Encarnación, Campo Coy, Cañada de la Sima and Cañada Lengua; from the municipality of Moratalla: the villages of Benizar, Otos and Mazuza, Inazares and La Rogativa, the place of Las Cañadas and the places between the Rambla de Ulea and the administrative limit of the municipalities of Cehegín and Calasparra; of the municipality of Lorca: the villages of Avilés, Coy, Doña Inés, La Paca and Zarzadilla de Totana; of the municipalities of Cieza and Totana, the vineyards between these municipalities and those of Ricote and Mula and with Lorca and Mula respectively.

Qualification

Regulation (EU) no 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007. - Ley 24/2003, de la Vifia y del Vino (Spanish Law 24/2003 of 10 July 2003 on rules governing viticulture and wine). - Orden de 24 de mayo de 2006, de la Consejeria de Agricultura y Agua, por la que se aprueba el Reglamento de la Denominacion de Origen «Bullas» y de sus organos de gestion y control (Order of 24 May 2006 of the Murcia Regional Ministry of Agriculture and Water on detailed rules for the implementation of the Regulations of the Designation of Origin "Bullas" and their management and control bodies). The production area of the wines protected by the 'Bullas' Designation of Origin is within the Region of Murcia. The factors that determine the quality of the wines in the area are the geographical environment, the altitude where the vineyards are grown, the type of ground where limestone predominates, and the dry climate with low rainfall. The classification of the land corresponds to brown-limestone and limestone crust soils, as well as alluvial soils. Soils with a low organic matter content, good drainage and a high level of limestone are favorable for the cultivation of quality vineyards, and in the case of crust soils, prior ploughing

of the crust is required. Alluvial soils will be admitted when they present good depth conditions, good drainage, adequate proportion of limestone and low proportion of organic matter. The main variety grown is the native red variety Monastrell, excellently adapted to the conditions of the environment. There are also other authorised varieties, the main white variety being Macabeo. All these particularities translate into the production of red wines that are ample, fleshy, covered in color, with a high alcohol content and balanced acidity. They present a very particular fruity aromatic character, with body and well-integrated tannic richness. Today there is a tendency to produce wines with modern technology, aimed at obtaining white, rosé and sparkling wines with a balance between alcohol, acidity and extract. For this, it is usual to go to the anticipated harvest and to the elaborations with controlled temperature.
