## Vol. 70 No. 3603

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

day, the distance travelled during the day and the duration of activities, giving notification of messages, calls, emails and reminders, audibly signalling the position of an object in order to locate it, indicating the current level of solar energy received by mobile phones, portable computers, smart watches, bracelets, necklaces and rings, connecting smart watches, bracelets, necklaces and rings with the smart phone, setting connection options, navigating using a compass function, counting down time, setting time zones and automatically changing time zones, viewing interactive product catalogues, scanning data, accessing personalized data from the watches, downloading and providing a dashboard for sports competitions, product launch events in the fields of timepieces, sports chronometry, jewellery, eyeglasses, leatherwork, perfumes, apparel and stationery, indicating altitude (altimeter feature), downloading video games, booking taxis, streaming films and television programs, streaming music, uploading images, music and films, reading periodicals, remotely controlling and monitoring home appliances, ordering groceries for delivery, timepieces, jewellery items, eyeglasses, leatherwork, perfumes, apparel, stationery, viewing orders and locating the delivery person on a map, measuring body temperature, for use as pedometers, heart rate monitors, blood pressure meters, blood glucose monitors, pulse oximeters, electrocardiographs, for measuring air quality, temperature, enabling geolocation and planning travel routes for getting from one place to another using public transit, by car, on foot and by bicycle, for use as a global positioning system (GPS) consisting of computers, software, transmitters, receivers and network interface units, for displaying geographic maps, giving public transport information, booking taxis, transmitting the distance travelled, settling electronic payment transactions and cashless payment transactions, downloadable mobile applications being multimedia audio and video file players; computer platforms in the form of recorded or downloadable software, namely software for providing online trading platforms for digital assets, computer software for interacting with blockchain platforms; recorded game software; downloadable game software; downloadable graphics for mobile telephones, smart watches, rings, bracelets and necklaces as well as electronic tablets; downloadable emoticons; computer middleware, namely software enabling different applications to communicate with each other; downloadable image files; downloadable music files; data processing apparatus, namely word processing equipment, computer hardware for data processing, central processing units; computers; portable computers; wearable computers, namely hand-held computers, smart watches, necklaces, bracelets and rings; electronic tablets; personal digital assistants [PDAs]; electronic notepads; global positioning system devices, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; telephones; smart phones; smart glasses; smart watches; smart rings; connected bracelets, namely smart bracelets that communicate data to other electronic devices; magnetic identification bracelets; navigation apparatus for vehicles in the form of on-board computers; satellite or GPS navigation apparatus, namely satellite navigation devices, earth satellites for use in geolocation navigation, satellite navigation systems, global positioning system (GPS) receivers and transmitters; wireless communication devices, namely scanners featuring near field communication (NFC) technology, smart watches that communicate data to personal digital assistants [PDAs], electronic tablets and smart phones; mobile devices and personal and portable digital assistants, and their peripherals, namely portable computers and smart phones, computer printers, webcams, computer monitors, speakers, computer scanners, earphones, computer keyboards; wearable activity trackers; electronic digital display devices, namely electronic advertising displays, display screens; computer terminals; portable electronic units for the wireless reception, storage and transmission of data and messages, and electronic devices enabling the user to follow or manage personal information, namely wristwatches featuring a cellular phone and a display screen for viewing, sending and recording text messages and emails, hand-held electronic personal data organizers; wearable video display monitors; computer hardware;

microprocessors; computer memory devices, namely random access memory cards, flash memory cards, computer hardware memory cards; processors [central processing units], namely microprocessors, central processing units; integrated circuit chips and microchips; audio components, namely audio amplifiers, audio analyzers, audio transmitters, audio recorders, audio receivers.

## Services

### Class 35

(1) Online retail services for software, computer applications, electronic tablets, personal digital assistants (PDAs), computers, wearable computers, namely notebook computers, hand-held computers and mobile computers, smart watches, telecommunication apparatus in the form of jewellery, namely smart bracelets, necklaces and rings, mobile telephones, smart glasses, mobile peripherals, namely smart phones, electronic tablets, e-readers, personal digital assistants (PDAs), MP3 and MP4 players, smart watches, notebook computers, hand-held computers and mobile computers, smart bracelets, rings and necklaces; consumer information and advice related to the selection of goods and services in the fields of timepieces, sports chronometry, jewellery, eyeglasses, leatherwork, perfumes, apparel, stationery; business information provided via a website, namely provision of consumer information via a website in the fields of timepieces, sports chronometry, jewellery, eyeglasses, leatherwork, perfumes, apparel, stationery; provision of ratings, reviews and recommendations on goods and services via a website for business purposes, posted by users in the fields of timepieces, sports chronometry, jewellery, eyeglasses, leatherwork, perfumes, apparel, stationery; import-export agency services; website traffic optimization; search engine optimization for sales promotion; price comparison services; sales promotion for others, namely promotion and sponsorship of cultural events and activities for others in the fields of arts exhibitions and music festivals, search engine optimization for sales promotion purposes, organization of fashion shows for promotional purposes, dispensing of advice related to sales promotion, promotion of the sale of goods and services of others through promotional contests provided on the Internet, promotion of the sale of goods through a customer loyalty program, promotion of the sale of goods and services through the distribution of advertising materials and promotional contests, promotion of the goods and services of others through the sponsorship of sports events; pay-per-click advertising services, namely pay-per-click advertising for others; provision of online sales spaces for buyers and sellers of goods and services; advertising services for the goods and services of others; online advertising for others on a computer network; collection of data into a central file, namely computerized central file management, compilation of statistics; systematization of data into computer databases; computerized file management services; updating and maintenance of data into computer databases.

### Class 42

(2) Research and development of new products for others; computer programming; software research and development services; development of driver software; software design services; design and development of operating system software; design and development of databases; design and development of multimedia products; computer systems design; maintenance and updating of computer software; recovery of computer data; conversion of data or documents from physical to electronic media; creation and maintenance of websites for others; conversion services for data and computer programs (other than physical conversion), namely computer code conversion for others, software as a service (SaaS) in the nature of text-to-speech conversion software; provision of the temporary use of non-downloadable software for the development of interactive computer games, for use as a digital wallet, for the development of machine learning in

the field of computers, that allows consumers to compare and determine the best use of loyalty points, reward points, cash back offers and coupons, miles and other forms of rewards, for tracking goods on computer networks, intranets and the Internet, tracking documents on computer networks, intranets and the Internet, tracking packages on computer networks, intranets and the Internet, preparing bills on computer networks, intranets and the Internet; provision of computer programs applications for others, namely provision of non-downloadable computer software for converting user-defined data from one computer format to another in the field of artificial intelligence, in the field of high performance computing, intended to perform numerical calculations using data flow graphs, non-downloadable computer software for displaying graphs, implementing a computer programming language, temporary provision of an online non-downloadable middleware for providing an interface between a web browser and existing systems, for analyzing data and creating reports about a person's movements, activities, health condition; provision of search engines on the Internet; provision of information related to programming and computer technologies through a website; electronic data storage services, namely provision of cloud computing for data storage; software as a service [SaaS], namely software as a service (SaaS) provider for searching and identifying consumer behaviour patterns using a computer searching algorithm in order to locate data stored in multi-structured formats based on key indexes on the Internet, software as a service (SaaS) provider in the field of computer game software, software as a service (SaaS) featuring software for use in connection with buying, selling, downloading, customizing, integrating and reviewing computer applications and computer software, software as a service (SaaS) featuring software for running cloud-based applications, software as a service (SaaS), namely search engine software, software as a service (SaaS), namely software for speech, facial and optical character recognition; cloud computing, namely design and development of software, databases, web services and cloud computing infrastructure, provision of cloud computing for data storage, cloud computing providing database management software; platform as a service [PaaS] featuring a computer software platform that facilitates the use of positioning information for optimizing the ordering, collection and delivery of goods and services, as well as for searching structured and unstructured data for health data analysis, platform as a service (PaaS) featuring computer software enabling users and systems to collaborate (view and change) on data across applications; testing of software; testing of computer programs; testing of products, namely testing of software; quality control services for homologation purposes, namely provision of a quality assurance homologation in the fields of timepieces, sports chronometry, jewellery, eyeglasses, leatherwork, perfumes, apparel, stationery; user authentication services by means of a single sign-on technology for online software applications; authentication services by means of a biometric software and hardware technology for e-commerce transactions; telecommunication technology consultant services, namely assessment services relating to information technology security as well as to computer and network vulnerability, technological advisory services in the field of timepieces, sports chronometry, jewellery, eyeglasses, leatherwork, perfumes, apparel, stationery; consultant services related to computer hardware design and development; information technology advice namely provision of information related to computer technology and programming through websites, by telephone and by videoconference, dispensing of advice in the field of computer technology and software development via a global computer network, by telephone and by videoconference; advisory services related to computer technology, namely computer technology advice for software development via a global computer network; consultant services related to the design and development of computer hardware; computer software consulting; consultant services related to the design of websites; consultant services in the field of computer security; consultant services related to the design of software.

The wording "SCHWAIGER" and the lines running above and below the wording are black.

### Goods

#### Class 09

(1) AC/DC power supplies; 3D television receivers; 3D spectacles; organic light-emitting diodes [OLED]; over voltage protection relays; telephone connection cables; sound recording apparatus, namely, digital music recorders; electrical adapters, namely, for use with cameras, video cables and Ethernet; electronic buzzers; MP4 players; light emitting diodes; electronic paper displays; compact discs containing music; car antennas; luminous vehicle breakdown warning beacons; electrical cable channels; colour television monitors; telecommunications switching systems, namely, for use in mobile phones; computer software for assisting developers in creating program code for use in multiple application programs; ammeters; luminous electric signs; pagers; switched-mode power supplies; plug connectors for coaxial cables; record players; audio compressors; hands-free telephones; junction sleeves for electrical cables; video transmitters; electrical socket outlets; optical transmitters; rechargeable general purpose batteries; electrical door locks, namely, digital door locks; voltage stabilizing power supply; transponders; graphic display devices, namely, video monitors; satellite dishes for satellite transmission; junction boxes [electricity]; portable battery charging devices, namely, wireless charging pads and stands for smartphones; wireless audio and video receivers; electric accumulators for vehicles; digital transmitters, namely, optical, GPS, radar and radio-frequency transmitters; blank optical discs for storing data; displays for

mobile phones; speech processors; radio receivers; wireless optical transmitters and optical receivers; junction boxes for electrical conductors; meters for measuring electric current; time recording devices, being time clocks; portable communication devices, namely, mobile phones; electric door bells; radio transceivers; light dimmers [regulators], electric; electrical time switches; optical filters for screens; television cameras; electro-optical sensors; battery cables; speech analytics software; active infrared sensors; electronic power converters; burglar alarms; electrical flasher switches; data storage devices being magnetic tapes; LED drivers; cable adapters; satellite television receivers; plug-in electrical connectors; electronic transformers; digital display devices, namely, video monitors; wireless indoor and outdoor audio speakers; mineral insulated electrical cables; time clocks, namely, electronic time switching devices; answering machines; insulation resistance meters; electric cable connectors, namely, connection logging equipment; noise level meters; illumination meters; electrical fuse boxes; optical phase shifters; audio cable testers; signal decoders; cabinets for loudspeakers; electric light switches; blank smart cards, encoded charge cards, encoded gift cards, encoded key cards, encoded prepaid magnetic cards, and encoded membership cards; connecting sleeves for optical fibers; CD-ROM burners; blank magnetic tapes for tape recorders; electric circuit testers electronic weighing scales for personal use; data storage devices being magnetic tapes; anti-intrusion alarms; electric and electronic musical effects equipment; electrical connectors for power converters; optical locating devices for locating and tracking lost articles, people, and pets using radio frequency, global positioning systems, and cellular communication networks; monitor loudspeakers; emergency position-indicating radio beacons; USB battery charging devices; electric cables; wireless weather stations; remote controlled sockets; insulation resistance meters, namely, insulation testing devices; electric current switches; electrical adapter cables; lightning rods; headsets for mobile telephones; stereo tuners; bar code readers; remote-controlled power switches; electric current control devices; emergency alarm signal transmitters; electrical outlet testers, namely, phase checkers; voltage limiters; acoustic meters; alarm bells; electric antenna cables; current testing devices; radio antennas; electronic effects pedals for use with sound amplifiers; electric control panels; masts for antennae; electrical delay lines; connecting electrical cables; optical scanners; battery boxes; audio cables for speakers; branch terminals, namely, video display terminals and smart terminals; digital voice signal processors; jump start cables; level converters; ballasts for fluorescent lamps; audio cassette players; satellite navigation devices; temperature sensors; energy meters for tracking and monitoring energy usage; CD players; television cameras; illuminated bulletin boards; digital audio and audio signal amplifiers; car antennas, cell phone antennas, television antennas, global navigations satellite system (GNSS) antennas, and satellite dish antennas; wireless loudspeakers; stereo systems for home use, personal use, and vehicle use; circuit breakers; electronic components for integrated circuit cards; direct current converters; multi-outlet socket blocks; change-over switches for telecommunication devices; DVD players; recorded computer software to receive, transport, encode, decode, decrypt, encrypt, transmit, and manipulate audio and to deliver music and other audio programming, namely podcasts, lectures, e-books to appropriate audio devices for personal use, namely mobile phones, digital audio players, tablet computers; transmitters of electronic signals, namely, audio and video signal distribution for cable television, emergency signals, global positioning systems, radio frequency, satellite and telephones; television receivers; temperature switches; pre-recorded music compact discs; electronic control gears [ECGs] for LED lamps and light fixtures; satellite telephones; frequency converters; blank digital audio tapes; radio-frequency modulators; voltage surge protectors; electric current switches; transportable sockets; electronic load modules; cable detectors; closed circuit television cameras; audio cables; wireless headsets for use with mobile telephones; jack cables; repeaters for radio and television stations; earth cables; satellite antennas; cable channels for electric cables; photocells for use with security lighting; wireless headphones; analog signal processors; electrical

control systems for lighting systems; demultiplexers; voltage regulators; intruder detection sensors; electrical cable connectors; hands-free headsets for cellular phones; motion detectors; radio frequency identification tags [RFID tags]; electrical amplifiers for use with musical instruments; electronic timers; multiplexers [multiple couplers]; digital signage display panels; digital tablets for providing access to the internet; portable digital audio broadcasting radios; television junction boxes; electrical control systems for lighting systems for darkrooms; battery chargers for mobile telephones; electrical control circuits for electronic musical instruments, electric heaters and fans; concrete testing machines; computer hardware, namely, wireless network repeaters for the extremely high frequency range [EHF]; motion sensors for security lights; voltage meters; portable CD players; electronic baby monitors; electrical terminal blocks for electrical cables; multimedia terminals, namely, video display terminals; satellite receivers; voltage monitoring modules; electrical terminal branch boxes; stereo receivers; power distributors, namely, battery terminals; electrical pressure switches; battery terminals; digital signal processors, namely, signal compressors; displays for television receivers; time code generators; audio signal amplifiers; optical measuring devices, namely, fluorometers; electronic digital signboards, namely, luminous signs and neon signs; camcorders; portable displays, namely, electronic display interfaces for mobile phones, laptop computers, and smartphones; multi-function keyboards; video surveillance cameras; electrical cables for transmitting sound and images; motion sensors for burglar alarms; stereo amplifiers; answering machines; signs, luminous; alarm sensors, namely, signal receivers; arrangements of solar batteries; DVD recorders; electrical relays; audio amplifiers; satellite communication devices for the super high frequency range [SHF]; electronic cables; battery chargers for mobile phones, laptop computers, notebook computers, smartphones, and tablet computers; phase modifiers; digital video cameras; infrared remote-control devices, namely, cameras; voltmeters; universal remote controls for televisions; electrical transformers; electronic indicator panels; video cables; digital panel meters; video recorders; time switches, automatic; lithium batteries; electronic digital signboards, namely, luminous signs for advertising; electronic temperature display devices, namely, thermometers not for medical purposes; emergency warning lights; remote controls, namely, for televisions, radios, air-conditioning apparatuses, video players (namely, cd players, DVD players and mp4 players), and operating alarm systems; flatness testing apparatus, namely, interferometers; electrical devices, namely, energy meters for tracking and monitoring energy usage; digital thermometers, not for medical purposes; blank audio cassettes; cable television receivers; electrical fire alarms; audio receivers; illuminated exit signs; photoelectric sensors; sound bars; portable media players, being radio players and DVD players; video recorders; accumulators for photovoltaic power; optical-fiber cables; filters for antennas; flexible sheaths for electrical conductors; electrical plugs; digital voice signal processors; electronic display panels for computers; loudspeakers; subwoofers; electrical radio receivers; electronic pocket calculators; television signal amplifiers; digital audio recorders; optical lamps for multimedia projectors; light switches; impedance converters; electrical frequency converters; distribution cabinets; emergency signal transmitters; electronic indicator panels; backlit signs; electrical fuses; electronic power converters; electronic apparatus and instruments for controlling, adjusting and testing of drives and motors; antenna booster; satellite finder meters; electric control panels; hand-operated measuring devices, namely, fluorometers; electric control devices for energy management and outdoor lighting fixtures; satellite transmitters; liquid crystal displays for televisions; demodulators; headphone amplifiers; meters for measuring electric current, namely, over-current and spike detectors; television antennas; computer hardware, namely, wireless network extenders for super high frequency range [SHF]; blank audio discs; electrical junction boxes; solar modules; television decoders; electrical terminal strips; radio receivers; modems; electrical interface cables; digital still picture cameras; television receiving dishes; antenna masts; electric antenna amplifiers; blank recordable DVDs; illuminated advertising signs; digital

thermometers, not for medical purposes; electrical cable harnesses; measuring transducers; motion-activated cameras; antenna diplexers; audio books; earthing terminals; video tuners; television sets for digital multimedia broadcasting [DMB]; digital audio broadcasting [DAB] radios; optical encoders, namely, motion sensors for measuring rotational motion; portable radio cassette players; telephone terminals; telephone modems; flexible printed circuit boards; satellite dishes; electrical circuit testers; test pins and adapters for testing printed circuit boards; television decoders; anti-theft alarms specially adapted to personal electronic devices, namely, laptops and PC tablets; power cables; electrical connection cables; electronic satellite navigation devices, namely, GPS receivers; antenna converters; electronic ballasts for lighting purposes; electronic frequency switches; current rectifiers; digital mixing desks; battery testers; earthing testers; radios; electric voltage transformers; smoke sensors; electric fuses; safety alarm systems, namely, fire alarms and security alarms for personal use; antenna sockets; voltage surge protector; luminous USB-cables; electrical alarm devices, namely, fire alarms; speech synthesizers; optical receivers; fire detectors; temperature limiters; electrical solar cells; satellite transmitters for extreme high frequency [EHF]; cable harnesses; static power converters; adapter cables for headphones; electrical toggle switches; connection sockets for receiving cable connections; ballasts for halogen lamps; LED monitors; speech generators; electrical cable shoes; digital cameras; measuring devices for finding satellites, namely, satellite processors; voltage stabilizers; electrical connection boxes in the form of distributors; over voltage protection diodes; current limiters; electric transformers; current rectifiers, namely, limiters; cable television transmitters; optical amplifiers; built-in measuring instruments for measuring weight and chemical levels in water; electronic calendars; cable locators; cable television converters; digital weather stations; telephone socket outlets; measuring cables; infrared detectors; uninterruptible power supply apparatus; meters for measuring electric current; measuring devices with digital displays, namely, digital thermometers; video effect devices, namely, video multiplexers; ballasts for electric luminaires; multimedia multiplexers; eyeglasses; electronic rectifiers; radio buoys; playback devices for audio and image carriers, namely, multimedia projectors; intercom and parts thereof; distribution transformers for storing the distribution of electricity; flexible sheaths for electric cables; chargers for electric accumulators; measuring devices for electrical fuses; digital television sets; solar battery chargers; electrical connecting elements; electric light dimmers; luminous safety beacons; digital audio processors; downloadable remote diagnostics software for managing bank accounts, editing photos, and making restaurant reservations; electric cables and wires; tube amplifiers; illuminated signs; transmultiplexers; voltage regulators for electric power; electrical power switches; round plug connectors; car loudspeakers; television transmitters; heat detectors; electrical interrupters [switches]; digital note-pads; warning lights, namely, flashing beacons; radio relays; electronic advertising displays; photocells; MP3 players; power cables for charging electronic devices, namely, mobile phones and tablet computers; software for the remote control, monitoring and command of home appliances; cameras [photography]; digital set-top boxes; LED displays; sound mixers; compact disc players; digital signage display panels; electric storage batteries; electrical smoke sensors; sound amplifiers; satellite communication devices, namely, digital phones; portable test devices, namely, electrical eddy current test equipment; electronic power supply devices for driving electric motors; antenna bowls; electrical radio transmitters; baby monitors; electrical charge controllers; parabolic antennas; blank DVDs; electrical distribution busbars; electronic ballast for lights; display lights for circuit boards; software to control and improve audio equipment sound quality; universal serial bus [USB] cables; electrical circuit testers; liquid crystal display [LCD] monitors; voltage dividers; automotive lead acid starter batteries; computer firmware for programming of function of hardware computer network; piezoelectric switches; ballasts for gas discharge lamps; display screen filters adapted for use with tablet computers; dustproof plugs for mobile telephone jacks; cases adapted for MP3 players; cases adapted to notebooks; cases for

pocket calculators; covers for telephone receivers; cases adapted to DVD players; cases adapted for netbook computers; leather cases for smart phones; cases for data storage devices; cases adapted for cellular phones; cases for music storage devices; envelopes for computer disks; laptop bags; carrying cases for radios; envelopes for e-book readers; covers for smart phones; covers for tablet computers; cases for tablet computers; leather cases for cellular phones; cases for cameras; spectacle cases; cases for digital media players; laptop cases; carrying cases specially adapted for computer printers; cases for satellite navigation devices; carrying cases for portable music players; cases for laptops; cases adapted for mobile phones; containers for contact lenses; covers for personal digital assistants [PDAs]; cases adapted for compact disc players; carrying cases for cellular phones; covers for cellular phones; cases for personal digital assistants [PDAs]; envelopes for video cassettes; laptop covers; carrying cases for mobile computers; bags specially adapted for cameras and photographic equipment; cases for telephones; cases for headphones; carrying cases for digital music players; electronic key fobs being remote control apparatus; leather cases for tablet computers; eyewear pouches; cases adapted for camcorders.

### Goods

#### Class 06

(1) Pipe couplings of metal; metal hose fittings.

#### Class 07

(2) Compressors, namely, air compressors, electric compressors, compressors for pressurising medium operated brake systems for land vehicles; pumps, namely electric pumps as parts of machines, motors and engines, hydraulic pumps, pneumatic pumps, compressed air pumps; pneumatic, hydraulic controls for motors, namely, pneumatic control valves, hydraulic control valves, hydraulic pumps, pneumatic pumps; compressed air systems, namely compressed air pumps, compressed air engines for vehicles, compressed air generators for vehicles; compressed air supply systems, namely air compressors for vehicle compressed air systems, air intake systems and components for vehicles, motors and engines, namely, air filters, mass flow sensor, intake manifolds; pressure controllers being parts of machines, namely, valves; pressure regulating valves being parts of machines; proportional flow valves being parts of machines; ball valves being parts of machines.

#### Class 09

(3) Scientific, nautical, surveying, optical, measuring, signaling, controlling apparatus and instruments, namely, electronic distance meters, pressure regulators for vehicles, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; measuring couplings for measuring temperature, pressure, quantity and concentration of fluids in hydraulic and pneumatic systems for vehicles, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines,

parts and fittings for all of the aforementioned goods; mechanically, pneumatically, hydraulically, electromechanically, electromagnetically, electrically, electronically-operated, controlled and controlling measuring, signalling, checking (supervision), controlling, regulating, conveying, recording, amplifying and monitoring equipment and apparatus, namely, electronic brake controllers, electronic control systems for rail vehicle brakes, electromagnetic measuring detectors and electromechanical controls for brakes for vehicles, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electrical switch plates, electrical transformers, electric power converters, frequency converters, electrical power distribution blocks, electrical controllers engines of vehicle, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; electric apparatus for commutation, namely current switches, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; telecommunications equipment, namely computer hardware for telecommunications, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; data processing apparatus, namely data cables, data meters, electronic data recorders for vehicles, computers, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; data communications apparatus, namely, wireless routers for voice, data and image transmission, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; telematics apparatus, namely, telematics communication signal processors for the purpose of displaying and reproducing wirelessly transmitted information and data from vehicles, vehicle trailers and components thereof, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; telematics terminal apparatus, namely, telematics communication video display terminals for the purpose of displaying and reproducing wirelessly transmitted information and data from vehicles, vehicle trailers and components thereof, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; computer hardware, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; recorded and downloadable computer software for monitoring vehicles, railway stations and railway lines, for detecting and controlling vehicles, ground faults, broken rails, power failures, switches and lights, for controlling signaling equipment for vehicles, railway stations and railway lines, for facilitating and managing the transportation and delivery of people and goods by road and rail, for facilitating the maintenance of vehicles, railway stations and railway lines, for fleet management, for facilitating and managing logistics of railway systems, for facilitating the training of staff with respect to vehicles and railway stations, for the steering and control of vehicles, for the remote control of railway points, for automatic steering of vehicles, for voltage regulation of vehicles, for tracking and mapping of road and rail traffic, for the management and maintenance of rail and road traffic, for the maintenance of vehicles, for modelling and simulation of road and railway equipment and optimization of road and railway equipment, for cyber security of railway systems, for measuring energy, for controlling energy, for protection against surges or electrical interferences, for controlling doors including railway platform screen doors, for controlling vehicle trailer functions, for monitoring, diagnosing, controlling and operating vehicles, for pressurizing brake systems for land vehicles, for monitoring and controlling brakes for land vehicles, for monitoring and controlling heating, ventilating, air conditioning and air purification equipment, for education featuring instruction in the field of equipment for vehicles, for management and operation of railway stations

and railway lines, for use in connecting information systems, for use in monitoring, controlling and operating telecommunications equipment and systems, and for data processing in relation to all of the foregoing, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; downloadable and recorded computer software which creates, controls, records and analyzes virtual reality scenarios, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; downloadable and recorded computer software which creates, controls, records and analyzes virtual reality scenarios, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; recorded and downloadable software for monitoring, controlling and operating electronic driving assistance systems for land vehicles, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; simulators and computer programs for the steering and control of vehicles, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; electronic databases recorded on computer media in the field of rail vehicles, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; couplings for connecting electric lines for adjacent rail track building machines; electric control systems for vehicle motors, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods; levelling apparatus for land vehicles in the nature of apparatus for the electrical regulation of the height of vehicles and electrical components thereof, namely, height sensors, electronic control units panels, automatic valves and recorded and downloadable software for control of vehicle level and height, all of the aforementioned goods for commercial and rail vehicles, railway stations and railway lines, parts and fittings for all of the aforementioned goods.

#### **Class 11**

(4) Air conditioners, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; air purification units, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; air purifying machines, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; air cleaning units, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods.

#### **Class 12**

(5) Brakes, brake systems and their parts for vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; exhaust brakes for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; brake cylinders for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; air brake hoses for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; compressed air tanks, namely pressure media containers in the nature of brake air cylinders and components of air suspension systems for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; compressed air systems for controlling brakes, clutches, and transmissions being structural parts of land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; pneumatic suspension systems in vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods;

transmissions, transmission control units, transmission components, for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; clutch and clutch actuating units for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; drive gears for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; powertrains, including motors and engines, for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; motors, electric, for land vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; traction controls, namely, traction control systems for land vehicles comprised of brakes, automatic traction control valves, and an electronic brake module, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; railway couplings, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; bogies for railway wagons and rail-bound vehicles, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods; sanding devices, namely, brakes for rail vehicles using sand as a braking medium, all of the aforementioned goods for commercial and rail vehicles, parts and fittings for all of the aforementioned goods.

## **Services**

### **Class 37**

(1) Assembly, modernisation, maintenance, overhauling and repair of vehicles; assembly, installation, modernisation, maintenance, overhauling and repair of electric and electronic apparatus, in particular in vehicles; maintenance and repair of motor vehicle engines; repair and overhaul of compressors, brakes and their parts, control units, valves [machine parts], pedal systems, clutches, motor vehicle engines, air conditioning apparatus and air treatment apparatus for land vehicles; overhaul of worn or partially destroyed compressed air machines; vehicle repair consultancy; advisory services relating to the maintenance and repair of mechanical and electrical equipment for vehicles.

### **Class 41**

(2) Provision of training courses in the fields of vehicle maintenance, vehicle servicing and vehicle brake systems, land vehicles, rail vehicles, public transportation services and equipment, state and private railroads; provision of online training in the fields of vehicle maintenance, vehicle servicing and vehicle brake systems, land vehicles, rail vehicles, public transportation services and equipment, state and private railroads; consultancy services relating to training in the fields of vehicle maintenance, vehicle servicing and vehicle brake systems, land vehicles, rail vehicles, public transportation services and equipment, state and private railroads.

### **Class 42**

(3) Scientific and technological services, namely, scientific research and development of new products for others; scientific and industrial research in the fields of land vehicles, rail vehicles, public transportation equipment, state and private railroads, energy consumption, and the reliability, availability, predictive maintenance, preventive maintenance and punctuality of mass transit vehicles, rail vehicles; research in the fields of civil engineering, computer software engineering, construction project engineering, electrical engineering, mechanical engineering, and traffic engineering; design services, namely technical design of new products for others in the fields of land vehicles, rail vehicles, public transportation services and equipment, state and private railroads; engineering services, namely construction project engineering, computer software engineering, electrical engineering, mechanical engineering, traffic engineering; engineering
