Trademarks Journal

2021-06-16 — Vol. 68 No. 3477

# Trademarks Journal

## Vol. 68 No. 3477

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(i) INgrooves

### Goods

#### Class 09

Prerecorded compact discs, audio and video cassettes and albums, and digitized audio and video recordings downloaded from global computer network and recorded on magnetic media, all in the field of music, namely, downloadable audio, video and multimedia recordings and files featuring music, musical performances, artistic performances, popular culture and, entertainment

### Services

#### Class 35

(1) Wholesale distribution of downloadable audio, video and digital files featuring music, musical performances, artistic performances, culture, and entertainment news and information in the fields of music, musicians, musical entertainment, culture, performing artists, recording artists, music writers, and the music recording industry, compact discs, audio and video cassettes, albums, DVDs, high definition digital discs, digital video discs, digital versatile discs, vinyl records, music videos and films downloaded from a global computer network and recorded on magnetic media, all in the field of music; marketing and promotion of digital music namely, marketing services in the field of arranging for the distribution of the works of songwriters, composers, performing artists, musicians and artists; marketing of the goods and services of songwriters, composers, performing artists, musicians and artists; marketing of the musical compositions, music, musical recordings, audiovisual recordings, film, television, multimedia entertainment content and music merchandise for others; marketing and promotion of the music of others by means of providing online portfolios accessible via a website; design, implementation and execution of advertising campaigns namely, advertising agency services; distribution and marketing consulting services for audio and video recordings and files, music, musical compositions, musical recordings, audiovisual recordings, multimedia entertainment content and films.

#### Class 36

(2) Calculating, processing and collecting royalties from the distribution, licensing and sale of prerecorded audio and video recordings and files, music, musical compositions, musical recordings, audiovisual recordings, multimedia entertainment content and films of others and making payments and distributing royalties to copyright owners

#### **Class 41**

(3) Music publishing; multimedia publishing, namely, online electronic publishing services providing information in the fields of music, musicians, musical entertainment, culture, entertainment news and information in the fields of music, musicians, musical entertainment, culture, performing artists, recording artists, music writers, and the music recording industry, providing a website featuring music, musical entertainment, culture, and entertainment news and information in the fields of music, musicians, musical entertainment, culture, performing artists, recording artists, music writers, and the music recording industry, and providing advice and information relating to music, music video, film, television, and multimedia information and news content in the fields of music, musicians, musical entertainment, culture, performing artists, recording artists, music writers, and the music recording industry; licensing of digitized audio and video recordings namely, music files, music, musical compositions, musical recordings, audiovisual recordings, and multimedia entertainment content downloadable from a global computer network, in the field of music for use in connection with film, television, advertising, computer and video games, entertainment, multimedia and compilations; multimedia publishing services, namely, recording, production for audio and video recordings and files, music, musical compositions, musical recordings, audiovisual recordings, multimedia entertainment content and films

#### **Class 45**

(4) Rights-management services for audio and video recordings and files, music, musical compositions, musical recordings, audiovisual recordings, multimedia entertainment content and films

**Application Number** 1,725,678  
**Language of Application** English

**Filing Date** 2015-04-27

### Goods

#### Class 07

(1) Starters for motors and engines; regulators (parts of machines), namely, speed regulators for motors and engines and air pressure regulators for compressors; speed governors for machines, engines and motors; electronic speed controllers for electric motors; electric motors, combinations thereof of variable speed drives; motor reducers for operating blinds, screens, curtains, shutters, windows, garage doors, gates and gratings; pumps as parts of machines, motors and engines; valves (parts of machines).

#### Class 09

(2) Scientific, electric and electronic devices and instruments for the transport, distribution, transformation, accumulation, regulation, filtering, measuring, signaling, control or operation of electric current, namely, the electric or electronic components for such devices and instruments, namely, bus bars, electric cables, transformers, rectifiers, semi-conductors, electric relays, condensers, inductances, capacitors, fuses, starters, timers, safety switches, pressure switches, panel boards, load centers, switchboards, contactors, power monitoring equipment, electric metering equipment, sensors, electric vehicle controls, variable speed drives, cable tray, raceway; automation products, namely, numerical control and communication systems, logic controllers; control panels; static converters; programmers; computer hardware and software in the field of electrical distribution, industrial control and automation, electrical supply systems for computers; inverters; batteries, namely, electric batteries for vehicles, battery cartridges for uninterruptible electrical power supplies for use in data center, buildings, facilities and critical industrial process, general purpose batteries, solar batteries; heat accumulators; supply, filtering, transformation, maintenance and storage devices of electric energy, namely, electric cables, electric capacitors, electric circuit closers, electric control panels, electric converters, electric power converters, electricity meters, electrical inverters, electricity power controllers namely power switches, electric relays, electric resistors, electric storage batteries, electric transformers and photovoltaic modules

[PV modules]; automation distribution machines, calculating machines, computer and data processing equipment in the field of electrical distribution, namely, distribution boxes for electrical power, distribution transformers, electrical power distribution blocks, power distributing boxes; light controls; electrical curtain controls; climate control systems consisting of digital thermostats, air conditioning, heating, and ventilation control devices; thermostats; temperature sensors; electrical plugs and sockets; electrical outlets; movable sockets; multi-outlet socket blocks; circuit breakers; circuit breaker panel boards; electric circuit switches; electric current switches; light switches; electric switches; light systems comprising light sensors and switches; power switches; uninterruptible electrical power supplies; battery system to provide backup power; surge protectors; voltage surge protectors; transient voltage surge suppressors with power conditioning technology; power conditioning devices; building and home automation systems comprising wireless and wired controllers, touch screens, controlled devices, and computer software used for monitoring and controlling lighting, heating, cooling, humidification, ventilation, air conditioning equipment, energy consumption, fire security, access control, energy management and process control applications, all for building and building automation systems; remote circuit breaker control switch operators; electrical apparatus, namely, charging stations for charging electric vehicles; motion detectors; apparatus for converting electronic radiation to electrical energy, namely, photovoltaic solar modules; programmable controllers and actuators that track the sun enabling concentrating optics to maximize solar energy input; security systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; electrical and electronic burglar alarms; electronic door alarms; security products, namely, door entry systems comprising touch pads and security doors, security cameras, and recorders; fire alarm and emergency evacuation devices, namely, fire alarm control panels, smoke detectors, heat detectors, and audible and visible notification appliances; timers for controlling lighting; television antennas; dish antennas; computer network adapters, switches, routers and hubs; cable connectors; telephone and computer network outlets; computer networking hardware; electronic monitors and monitor modules for monitoring electricity consumption and greenhouse gas emission; electronic audio components for use in buildings and homes, namely, surround sound systems, speakers, receivers, tuners, amplifiers, pre-amplifiers, equalizers, turntables, CD players, digital-to-analog converters, and networked digital audio players;; building control, management and command electric apparatus for the analysis, protection, inspection, measurement, signaling, regulation, setting, monitoring, maintaining, supervision, design, management, control and remote control of lighting, heating, cooling, humidifying, ventilating, air-conditioning, energy consumption, fire safety, access control and energy management systems, namely, software-based server for database management, electric relays, differential relays, protection relays, pilot and measuring relays, electronic controllers, programmable controllers, electric sensors namely thermal sensors, motion sensors, timing sensors, all for building and building automation systems; electric or electronic apparatus and instruments, namely, telemeters for the control and remote control of operating motors used for blinds, screens, curtains, shutters, windows, doors, garage doors, gates and grills; electric actuating devices containing a motor, namely, automatic valve actuators ; electrical conductors for electric motors namely electric drives containing a motor, namely, electric drives for managing industrial operations and applications of utilities, plants and buildings; remote control devices, namely, remote controls, programmable electrical and electronic controllers, programmable logic modules, programmable logic controllers all for the inspection, measuring, signaling, regulating, adjusting, control, maintenance, supervision, design, management of lighting, heating, cooling, humidification, ventilation, air conditioning equipment, energy consumption, fire security, access control, energy management and process control applications, all for building and building automation systems; detectors, namely motion detectors, fire and smoke detectors; sensors, namely motion sensors, proximity

sensors, temperature sensors, coolant-temperature sensors, timing sensors, air flow sensors, air quality sensors, humidity sensors, light sensors, pressure sensors, air pressure sensors; electric motor speed controls ; computer communication bus namely USB (universal serial bus) operating software, computer interface card and computer cables, computer network server, radio transceivers; electric apparatus featuring a communications interface for a link to a wired or wireless communications network, or to a communication bus, namely, an Ethernet controller, a wireless network router; programmable controllers, programmable logic modules, programmable logic controllers all for the inspection, measuring, signaling, regulating, adjusting, control, maintenance, supervision, design, management of lighting, heating, cooling, humidification, ventilation, air conditioning equipment, energy consumption, fire security, access control, energy management and process control applications, all for building and building automation systems; communication cables and wires, namely, electric wires and cables, audio/video cables, electronic cables, fibre optic cables; receiving units, namely, audio-video receivers, radio receivers, television receivers, telephone receivers; data processing apparatus, namely, computers; electronic circuits, chips (integrated circuits), microcontrollers; electronic printed circuit cards, electronic microcircuits, execution and operation software for microcircuits or electronic cards or components; microprocessors; cards with microprocessors; electronic tags and memory cards containing data or programs used for authenticating and/or access control and/or for transmitting parameters to systems in buildings; computers, software, microprocessors, microcommands for the analysis, protection, inspection, measurement, signaling, regulation, setting, monitoring, maintaining, supervision, design, management, control and remote control of lighting, heating, cooling, humidifying, ventilating, air-conditioning, energy consumption, fire safety, access control and energy management systems, all for building and building automation systems; computer software used for the protection, control, management, surveillance and supervision of computer systems for the remote control of lighting, heating, cooling, humidifying, ventilating, air-conditioning, energy consumption, fire safety, access control and energy management systems, all for building and building automation systems; programming, operating and supervision software for automated processes, namely, computer operating recorded programs; software for remote configuration functions, namely, user-programmable software installed in computers for remote controlling of lighting, heating, cooling, humidification, ventilation, air conditioning, energy consumption, fire security, access control, and energy management equipment, all for building and building automation systems.

### **Class 11**

(3) Sockets for electric lights; LED lighting systems comprised of LED light bars, lighting fixtures, power supplies, namely, electric power generators, and wiring, namely, electrical wire; parabolic mirrors designed for the collection of solar energy; solar energy based cooling and heating apparatus, namely, solar furnaces, solar heating panels, solar water heaters; solar energy receivers, namely, solar collectors; accent lights for indoor use; ceiling lights; wall lights; solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; light diffusers; light bulbs; light fixtures; electric radiant heaters for buildings; water heaters; ventilation exhaust fans, namely, exhaust fans for buildings; bathroom exhaust fans; ceiling fans; electric heating fans, namely, ventilating fans. Apparatus for lighting, heating, steam generating, cooling, refrigerating, drying, ventilating and air-conditioning buildings, namely, ceiling lights, light bulbs, light diffusers, central heating radiators, electric radiators for heating buildings, gas water heaters, heat accumulators, steam accumulators, steam generating installations, cooling evaporators, humidifiers, dehumidifiers, coolers for furnaces, water coolers, air conditioning installations for

buildings, electrical control systems for heating and air conditioning systems, air dryers, air purifying units, air filtering units for removing dust, smoke and allergens from the air, ventilating fans, electric fans for commercial and industrial use, ceiling fans, ventilation hoods.

## **Services**

### **Class 37**

(1) Installation, repair and maintenance of computer systems, electrical systems and telecommunication equipment; installation and maintenance services of electronic surveillance apparatus, home automation and computer networking equipment; Installation, maintenance and repair of lighting, heating, cooling, humidifying, ventilation and air-conditioning apparatus and installations for homes and buildings; information and consulting regarding the installation, maintenance and repair of lighting, heating, cooling, humidifying, ventilation and air-conditioning apparatus and installations for homes and buildings; installation and maintenance services for security installations, including via a telecommunications network, namely, installation and maintenance of security alarms, detectors, motion sensors and security software; installation and maintenance of software to control building access and security systems; installation and maintenance of home and building automation installations and programmable automations and installations for technical management of homes and buildings; technical services for the installation, maintenance and repair of computers and computer peripheral equipment; consulting and information in the field of building construction; construction consulting, namely, consultation in building construction supervision.

### **Class 38**

(2) Providing access to a website featuring information in the field of electricity distribution and generation.

### **Class 39**

(3) Distribution and transmission of electricity; electricity distribution; water distribution and supply services, namely, public utility services in the form of water distribution and supply; management of vehicular traffic flow through advanced communications network and technology, namely, monitoring of vehicle traffic flow through video cameras and speed sensors and providing road and traffic information.

### **Class 40**

(4) Distribution of energy, namely, generation of electricity from solar energy.

### **Class 42**

(5) Computer networking of building and home controls, namely, programming of wireless and wired lighting controls, thermostat and heating controls, rolling shutters and door controls, appliance controls, namely, oven, washer, dryer, refrigerator, dishwasher, building and home audio and video controls; technology planning and consulting in the field of solar energy; design and inspection of fire alarm, detection and suppression systems; maintenance assessment of the performance and reliability of alarm systems; integration of computer systems and networks, namely, computer systems integration services; design and development of wired and wireless computer networks; property management consultation services enabling users to remotely view, monitor, program, operate and control electrical control systems for heating and air conditioning systems, electronic surveillance apparatus and security systems in buildings and homes; building and home connectivity services, namely, design and development of wired and wireless computer networks for buildings and homes. Mechanical engineering services, laboratory work namely laboratory testing of materials, engineering work (not for construction) in the fields of electricity and building management, namely electrical engineering in the field of electricity generation, electricity

distribution, technical consulting in the field of mechanical engineering; research and development work and study of technical projects and new products in the fields of electricity, building management and home automation for environmental protection purposes namely conducting feasibility studies; consulting, expert reports, namely, energy sufficiency consultation, and materials testing in the fields of electricity and building management; building control services (surveillance, technical control, quality control), namely, computer systems monitoring services, technical surveying; quality and compliance certification, namely, providing quality assurance in the construction industry and in the field of computer software; computer programming, software development and database design in the fields of electricity and building management; monitoring (supervision) of energy consumption; technical studies and advice on energy consumption distribution, namely, conducting feasibility studies in the field of electricity; technical evaluations and appraisals of energy consumption; Design of computer systems, electrical systems and telecommunication equipment; design of electronic surveillance apparatus, home automation and computer networking equipment.

**Class 45**

(6) Monitoring of burglar and security alarms, namely, monitoring and control services of electronic surveillance apparatus and computer networking equipment for buildings and homes.

**Claims**

Priority Filing Date: July 07, 2015, Country or Office: FRANCE, Application No: 15 / 4195231 in association with the same kind of goods and in association with the same kind of services

#### Class 35

(1) Cost analyses; Consultancy relating to demographics for marketing purposes; marketing studies; Economic feasibility studies; Business organization and management, business administration, and business marketing consulting services in the fields of transportation, infrastructure, environment, energy and aviation; Business efficiency expert services; Estimating construction duration; Professional business consulting, namely business organization and management, business administration, and business marketing consulting services; Economic consulting and information for economic forecasting and analysis in the field of urban planning, including development of real estate, tourism, and environmentally sustainable buildings; Business consulting and advisory services in the fields of energy efficiency, renewable energy, mining, and logistics, namely inventory management, freight logistics management, freight transportation by air, rail, truck and boat, and warehousing; Consultancy services regarding business strategies in the field of wastewater liquids and solids treatment, specifically related to the commercial, industrial and municipal uses; Business management services of supply chain logistics and reverse logistics services consisting of the transportation, delivery and storage of goods for others by air, rail, ship or truck, supply chain services, supply and demand forecasting and products distribution processes for others; Business services, namely, recruiting qualified and credential third-party experts and contractors for others; Business services, namely, providing computer databases regarding the purchase and sale of a wide variety of products and services of others; Business services, namely, registering, screening, credentialing, organizing third-party vendors, suppliers and contractors, providing information to others on third-party vendors, suppliers and contractors; Compilation and systemization of information into computer databases; Computerized database management; Database management; Business services namely, integrated tracking and management, negotiation and conclusion of commercial transactions for third parties on a global computer network; Inventory control; Inventory control in the field of database management; Inventory management; Inventory management in the field of database management; Management and compilation of computerized databases; Records management services, namely, document indexing for others; Business administration services, namely, management of human resources and office and facility equipment, and materials; Business management

services, namely, management of military equipment and materials; Business advisory and consultancy services in relation to defense systems and facilities management and commercial assistance relating to defense system implementation and defense system integration, namely analysis of antiterrorism protection, base alignment and closure, emergency preparedness, environmental restoration, namely restoration of excavation sites, reduction of global military threats, installations management, logistics management, namely transportation, storage and delivery of goods by air, rail, ship and truck, aviation consulting, namely, consulting in the field of military aviation system, ground military weapons, military flight training, disposal of nuclear, chemical and biological weapons, modifying nuclear, chemical and biological weapons for other uses; Management of industrial installations and configurations, namely, operation of manufacturing, processing and assembly plants, processing and refining facilities, distribution centers, power plants, transportation infrastructure for airports, car parking facilities, hubs, shelters and stations for buses, subway trains, streetcars and commuter trains, traffic management and port and ship terminals, power energy, namely, power lines and power stations, and mining operations, namely mining drills, conveyors and mining machines; Business consulting services in the fields of business acquisition planning and technology assessment, namely business risk assessment; Business management consulting services in the fields of business internal process optimization and on the job business process hazards analysis; Business acquisition and merger consultation; Corporate governance consulting services, namely, business strategic planning, budgeting, business planning, business succession planning, and business risk assessment in the field of social risks; Business services, namely, construction project management, namely, cost and schedule control, document management, arranging for utilities in buildings, contract administration, contractor coordination and change order control, namely managing changes to construction projects; Management and business consulting services in the fields of transportation and aviation; Design of marketing surveys and conducting market research surveys for others; Human resources management, namely, personnel recruitment and placement services for specific projects.

### **Class 36**

(2) Business consulting services in the field financial asset management; Estimating construction costs.

### **Class 37**

(3) Building construction supervision services for the energy, transportation, pollution, abatement, water resources and health care structures and facilities; Building construction supervision; Construction management of tunnels and underground structures; Consultancy in the field of building construction and building construction management; Consulting in the fields of building construction and building construction supervision; Consulting in the field of hospital construction; Inspection services in the course of construction of airports, highways and bridges; Residential and building construction consulting; Residential and commercial building construction; Technical consultation in the field of building construction; Technical consultation in the field of building materials, namely, cementitious materials, asphalt and aggregates; House, building and public or industrial structure demolition services; Building construction services; Building construction, remodeling, inspection, maintenance, reinforcing, restoration and repair; Construction of tunnels and underground structures; Construction and renovation of buildings; Construction grading services; Construction of airports, buildings, medical establishments, roads, underground utilities, housing pads, highways and bridges; Construction, maintenance and renovation of residential, commercial and industrial properties; Consulting services for repair and restoration of historic buildings and structures; Electrical contracting; Erecting of commercial centers, housing areas and manufacturing plants; Pipeline construction, maintenance, installation and repair; Providing

information on repair services in the aviation sector; Refurbishment of buildings; Renovation and restoration of buildings; Repair of buildings; Repair work on buildings; Road construction; Steel erector, namely installation of building scaffolds, working and building platforms; Steel structure construction works; Street construction; Construction project management services; Construction of entertainment, commercial, sports, data centers, disaster recovery, government, healthcare, education, hospitality, transportation, residential and retail facilities, namely building construction services and construction of residential and commercial properties; Construction project management services in the field of construction of oil and gas facilities; Technical consulting related to the installation of oil and gas facilities; Construction of aquatics facilities; Construction of water treatment facilities; Consulting services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; Environmental remediation services, namely, waste disposal; Marine construction, namely, custom shipbuilding, shipbuilding, harbour construction, construction of vessel mooring facilities; Pump repair; Repair and maintenance of water pollution control equipment and water purifying apparatus; Consulting services for sanitation facilities construction; Underwater building, construction, dredging, and repair; Industrial contracting services, namely, construction of manufacturing plants, bulk storage facilities and specialized structures for manufacturing and storage and installation of industrial equipment for use in the mining, forestry, food processing, power generation, petrochemical, manufacturing and materials handling industries; Construction supervision services, namely, construction project management, construction program management and construction management, all for creation, demolition, and decommissioning of facilities and sites; Construction administration, namely, construction consultation, and construction of government, commercial and industrial properties, and inspections during building construction; Construction program management and construction management services and maintenance services, namely business project management services for construction projects to build, maintain and improve healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, interchanges, tunnels, intelligent transportation systems (ITS), mass transit systems, airports, port and harbor facilities, and water supply, and water and waste treatment and distribution systems; Maintenance and improvement, namely, repair of public buildings, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, and airports; Business consulting services in the field of risk management for construction projects; Construction services, namely custom construction of commercial buildings.

### **Class 38**

(4) Providing access to a secured access database via the internet through which documents and images can be viewed, copied and printed for the negotiation and conclusion of corporate transactions for others; Providing access to an on-line computer database in the fields of locating products, describing products, rating products, pricing products and comparing prices of products; Providing access to a secured-access website that gives registered Internet networked institutions the ability to upload, view, copy, print, download and share documents and photographic images for the purposes of conducting consumer-driven commercial transactions.

### **Class 40**

(5) Environmental remediation services, namely, waste disposal.

### **Class 42**

(6) Engineering and architectural analysis, planning and design services for energy, transportation, pollution abatement, water resources and health care facilities construction, namely architectural

services, construction planning, civil engineering drawing services; Architectural and engineering services; Architectural consultancy; Architectural design; Civil engineering; Conducting engineering surveys; Conducting feasibility studies; Consulting in the field of structural engineering; Consulting in the fields of civil engineering for building construction and architecture; Design for others in the field of engineering, namely architectural design; Design of tunnels and underground structures; Civil engineering drawing services, namely drawing up of plans and engineering drawings; Engineering services for building and property condition assessment, facility management, repair and restoration, building instrumentation and monitoring, and environmental consulting; Engineering services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; Engineering services in the field of environmental compliance; Engineering services, namely, engineering for the construction of airports, highways and bridges; Land use planning services; Landscape architectural design; Planning and layout design for the interior space of retail business establishments; Planning of buildings and infrastructure systems for buildings; Providing quality assurance services in the field of civil engineering; Quality control in the field of civil engineering for others; Civil engineering for the design of building structures; Urban planning; Architectural design and research relating to office and retail buildings, schools, hospitals, stadiums and arenas, courthouses, hotels, museums, resorts and government facilities; Civil engineering for the design of airports, highways and bridges; Computer aided design in the field of building construction and urban planning for others; Conducting chemical surveys, namely, strength and chemical testing of cementitious materials, asphalt and aggregates; Construction drafting; Consulting services in the field of architectural design; Drafting; Drafting of construction plans for recreation premises; Graphic illustration and drawing services, namely, providing graphic illustrations and drawings of commercial and industrial building designs, and converting building designs or markups to electronic CAD drawings; Inspection, quantity and quality control, supervision and verification of the quality and quantity of raw materials, manufactured, semimanufactured and transformed goods and their conformity with national and international norms, laws, rules, practice and standards and with clients' contractual requirements; Inspections of airports, highways and bridges; Marine, aerial and land surveying; Materials testing, analysis and evaluation; Mechanical engineering and research; Monitoring of commercial and industrial sites for detection of volatile and non-volatile organic compounds; Monitoring of erosion and sedimentation; Pipeline inspection services; Planning and layout design services of cleanrooms for use in product manufacturing and scientific research; Product development and civil engineering services for others; Providing design services for others in the fields of theme parks, museums, and miniature golf courses; Providing graphic and multimedia design services for the purpose of promoting the goods and services of others; Research and development and consultation related thereto in the field of civil engineering; Research and development of technology in the field of civil engineering; Research on building construction and city planning; Research relating to mechanical engineering; Research, development, engineering and testing services in the fields of welding and material joining; Engineering surveying services; Technical consultancy regarding the field of road cutting technology; Technical surveying namely, land surveying; Testing pertaining to civil engineering, namely material testing services; research pertaining to civil engineering; Testing, analysis and evaluation of the goods and services of others for the purpose of certification; Testing, analyzing and evaluating the structural properties of masonry and concrete structures; Architectural consultation; Civil engineering relating to water irrigation; Engineering and hydrological design of restoration of stream channels, marshes, estuaries, and wetlands; Civil engineering services in the fields of reduction of operating costs, fuel blending, waste handling, quality performance of chemical products and chemical by products, and chemical product distribution; Environmental services namely, technical consultation in the fields of environmental science, engineering

services, design of new products for others in the fields of energy saving, energy preservation, and designing and testing of energy products for others, namely research and development of new products for others; Environmental services, namely, technical consultation in the fields of environmental science, engineering services, namely, designing and testing of new environmentally friendly chemical products for others; Hydraulic pumps and systems engineering and design; Hydrologic and engineering modeling and design of measures to protect areas likely to be inundated by storm-water and flood-waters; Architectural design services in the fields of civic, corporate, education, healthcare, justice, leisure, sports venues, transportation, government, and utilities; Civil engineering design services; Spatial planning for buildings; Climate and resource planning for buildings namely, planning of buildings and infrastructure systems for buildings; Community planning, namely, urban planning services; Urban redevelopment and regeneration planning; Infrastructure and public facilities planning; Planning project management, namely, project management in the field of building construction; Consulting in the fields of sustainable community planning and sustainable business design; Application service provider (ASP) featuring software for use in accounting, for use in financial management, for use in recruiting and personnel management, for use in property and inventory control management, for use in planning of product production for use in quality assurance in the construction industry, for use in account and business auditing, for use in construction site safety auditing, for use in environment monitoring of construction sites, for use in supply chain management, for use in construction planning, indexing of documents, and for use in earned value management, namely project management in the field of building construction; Application service provider featuring software providing access to an on-line database in the field of negotiation and conclusion of commercial transactions for third parties, providing statistical analysis, namely financial analysis and providing notifications and reports, namely financial reports; Application service provider, namely, providing, hosting, managing, developing, researching, and maintaining computer software and software applications for use in administration of health care plans and group benefits programs, for monitoring and managing employee productivity and for business risk management; Application service provider, namely, providing, hosting, managing, developing, researching, analyzing, reporting, and maintaining web sites and databases of others in the fields of administration of health care plans and group benefits programs, monitoring and managing employee productivity and business risk management; Computer service, namely, acting as an application service provider in the field of knowledge management, namely, hosting computer application software for use in databases to allow users to perform, on-line, the collecting and analyzing of different types of opinion surveys; Computer service, namely, acting as an application service provider in the field of knowledge management to host computer application software for creating searchable databases of information and data; Computer service, namely, acting as an application service provider in the field of knowledge management to host computer application software for searching and retrieving information from databases and computer networks; Computer services, namely, providing a web-based system and online portal for customers to remotely manage, administer, modify and control their end user computer devices, data and software applications; Computer systems integration services; Database development services; Integration of computer systems and networks; IT integration services, namely, computer system integration services; Software as a service (SAAS) services, namely, hosting software for use by others for use in financial management, for use in recruiting and personnel management, for use in property and inventory control management, for use in planning of product production schedule, for use in quality assurance in the construction industry, for use in account and business auditing, for use in construction site safety auditing, for use in environment monitoring of construction sites, for use in supply chain management, for use in construction planning, indexing of documents, and for use in earned value management, namely project management in the field of building construction; Analysis of stream water quality;

Bacteriological consultation, research and testing; Calculating and simulating flood flows, modeling of areas likely to be inundated, and preparing related reports and technical documentation; Chemical, biochemical, biological and bacteriological research and analysis; Civil engineering for the design of wastewater treatment facilities; Civil engineering relating to water irrigation; Consultation services in the field of hydrological research; Consulting services in the field of urban planning and constructions planning, namely environmental planning; Consulting services in the fields of water distribution systems and wastewater systems; Environmental services, namely, detection of contaminants in water; Environmental testing and inspection services, namely, evaluating and testing of soil, groundwater and surface water for environmental hazards and pollutants; Hydrologic and hydraulic modeling and design of storm drainage infrastructure; Hydrologic study of surface and ground water; Hydrological calculations and simulations of flood flows in streams, marshes, and wetlands; Hydrological research; Inspections of water treatment facilities; Mapping services; Materials testing, analyzing, and evaluation; Monitoring of stream water quality; Planning and designing aquatics facilities, namely, public pools and saunas; Providing environmentally friendly automation solutions, namely, evaluation of buildings, residential and commercial properties for environmental hazards and pollutants; Providing environmentally friendly automation solutions, namely, installation of monitoring systems to monitor soil, groundwater and surface water conditions for environmental hazards and pollutants; Providing quality assurance services in the field of wastewater treatment; Providing reagent sample testing and diagnostic services for others in the fields of science and research related thereto, namely providing medical testing and medical diagnostic services; Providing technological and scientific information about environmentally-conscious and green innovations; Research in the field of hydrogeology; Scientific research and development, namely research and development of new products for others; Sewer overflow monitoring services; Sewer system monitoring services; Technical consultancy in the field of environmental science; Technical monitoring services for conditions of water; Technology consultation and research in the field of water resources; Technology supervision and inspection of water quality; Testing of domestic and industrial water filtering units; Testing of raw materials; Underwater structural inspection services; Water quality control services; Consultation and engineering services in the field of mining, land surveys, mapping and geological surveying, transportation of goods by rail, truck, air and ship, water quality control and management of water sources in construction projects, environmental engineering, urban economic and development planning, and urban development engineering; Engineering and architectural design, namely, creating plans, specification and preliminary and final designs for others for large and complex engineering projects to build, maintain and improve healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Systems engineering for large and complex engineering projects to build, maintain and improve public buildings, power plants, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Technical assistance in the establishment and operation of large and complex engineering projects to build, maintain and improve healthcare complexes, public buildings, commercial, industrial and manufacturing facilities, power plants, and federal, state and municipal infrastructure, namely, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Technical planning and design services for others, namely construction planning services in the field of airports, car parking facilities, railway stations and ship terminals, manufacturing, sewer waste, electrical power plants, industrial processes, petroleum gas liquefaction processes, telecommunications network

hazardous waste, defense and security, education, retail, government, manufacturing, industrial, commercial, transportation, transportation security, pollution abatement, air, water, and soil resources and health care facility construction; Design services for others in the field of defense systems, namely civil engineering for the development of aviation and ground defense systems, vehicles, shelters and ground support equipment, namely tanks, armoured vehicles, military drones, military shelters of fabric and metal; Design services for other in the fields of engineering for air emission control, and flood control, namely, designing of air filtration system and water drainage system for buildings; Civil and environmental engineering services, namely, preparing environmental impact assessment in the fields of climate change, impact on bio-diversity and energy conservation, earthquakes studies and preparing environmental compliance reports, namely reports on compliance with environmental regulations and standards; Computer consultation in the field of computer security; Computer network security service namely, restricting access to and by computer networks to and of undesired web sites, media, and individuals and facilities; Design and development of computer networks; Civil engineering services for construction of government properties, commercial properties, and industrial properties, namely factories; Architectural Design of government, commercial and industrial properties for others; Computer and computer network design and engineering, in the fields of geographic information services combining software and information technology to produce visual representations of topographies; Computer application software development for others for simulation and imaging services, Integration of computer systems and networks; Updating and maintenance of databases; Engineering, namely, computer network design for others, and database design and development; Operation of computer systems and computer networks, namely computer hardware and computer network design for others, computer application development, computer application integration, development, updating and maintenance of databases, computer network integration, and computer systems integration services for large and complex engineering projects; Project management services for others for business purposes in the fields of architecture, interior design, and urban planning design; value engineering, namely, cost analysis; Advisory services for others for business purposes in the fields of architecture, interior design and urban planning design; Business advisory and consultancy services in relation to military facilities design, the design and manufacture of computer hardware and software, including computer hardware and software for providing logistics support for aviation and ground defense systems; Business management services, namely, management for corporate operations, management of buildings in the fields of aviation, government, energy and power facilities, industrial and manufacturing facilities, office buildings, research and development facilities, and business management consultancy and cost management in the fields of airports, car parking facilities, railway stations and ship terminals and transportation schedule monitoring, construction and renovation monitoring, technical operations of facilities in the fields of aviation, corporate operations, government, energy, industrial and manufacturing facilities, office buildings, research and development facilities, interior design; Military weapon development and design, computer systems modification, namely, upgrading and updating computer hardware and software, installation of new computer systems and computer peripheral equipment; Energy efficiency consultation services, namely developing sustainable work systems for conserving water and renewing energy; Business management, namely, computer security consultancy in the field of secure information distribution on global computer information networks and on local computer networks; Construction planning; Construction services, namely planning and laying out of commercial buildings; Planning and laying out of factory buildings and production facilities, namely planning of buildings and infrastructure systems for buildings; Industrial contracting services, namely, design of manufacturing plants, bulk storage facilities and specialized structures for manufacturing and storage; Construction administration, namely, construction planning of

government, commercial and industrial properties, and inspections during building construction.

**Class 44**

(7) Consulting services in the field of environmental risk assessment.

**Class 45**

(8) Reviewing standards and practices to assure compliance with environmental zoning laws and regulations; reviewing standards and practices to assure compliance with environmental and radiological laws and regulations; Business consulting services in the fields of applicable statutes, regulations, directives and instructions, due diligence, environmental regulations compliance assessments, safety and health regulations compliance assessments, and technology assessment, namely intellectual property and software licensing; Providing public policy analysis for the energy, transportation, pollution abatement, water resources and health care industries; Consulting services in the field of compliance with environmental regulations.

### Goods

#### Class 03

(1) Cosmetics; fragrances, perfumery, colognes; anti-perspirants; cosmetic creams and cosmetic lotions; nonmedicated hand soaps and shampoos; liquid soaps for the face; shaving and after-shave preparations; preparations and substances for the conditioning, care and appearance of the skin, body, face, hair and scalp; shower and bath preparations; shower gel; moisturisers.

#### Class 09

(2) Apparatus for recording, transmission or reproduction of sound and music, namely audio speakers, audio receivers, audio mixers, audio amplifiers and software to control and improve audio equipment sound quality, CD-ROMs containing music, CD-ROMs containing computer games, DVDs containing movie recordings, digital music downloadable from internet, protective clothing, footwear and headgear for racing drivers and mechanics, protective helmets for racing drivers and mechanics, helmets for motorcyclists, articles of protective clothing for wear by motorcyclists for protection against accident or injury, telephones, mobile telephones and cases thereof, computer software for digital animation and special effects of images, computer software to enhance the audio visual capabilities of multimedia applications for the integration of text, audio, graphics, still images and moving pictures, head phones, ear phones, computer hardware, computer chips, computer games, video games, electronic and digital books, magazines, journals, newspapers and newsletters, spectacles, sunglasses, computer games hardware, parts and fittings for all the aforesaid goods.

#### Class 14

(3) Jewellery, wrist watches, key rings and fobs, trophies and medals in precious metals, parts and fittings for all the aforesaid goods.

#### Class 16

(4) Photographs, writing instruments and cases, therefor, note books, cardboard packing boxes, cardboard packing cartons, prints of photographs, posters, greetings cards, calendars, diaries,

books, magazines, journals, periodical publications, newspapers, newsletters, decalcomanias, pressure sensitive stickers, promotional leaflets and flyers, parts and fittings for all the aforesaid goods.

### **Class 18**

(5) Leather and imitations of leather, trunks and travelling bags, backpacks, wallets, parts and fittings for all the aforesaid goods.

### **Class 25**

(6) Clothing, namely t-shirts, shirts, jackets, overcoats, shorts, jeans, trousers, hooded tops, hooded jackets, knitted jumpers, underwear, socks, scarves, gloves, belts, formal wear, casual clothing, training suits, footwear, namely training shoes, casual shoes, sandals and beach shoes, dress shoes, ankle boots, hiking boots and motorcyclist boots, headgear, namely hats, baseball caps, knitted caps, parts and fittings for all the aforesaid goods listed in this class.

### **Class 28**

(7) Games, namely game consoles, board games, word games, card games, counters and marbles for games, dice games, party games, educational games for children, small toys, toy cars and vehicles, model cars and vehicles, toy helmets, toy figurines, bags, cases and carriers for sporting, motor racing, fitness and gymnastic equipment, adapted/shaped to carry such equipment, parts and fittings for all the aforesaid goods.

## **Services**

### **Class 35**

(1) Public relations, endorsement and publicity services, namely developing promotional campaigns for others, modelling services for advertising or sales promotion, producing promotional videotapes, video discs, and audio visual recordings for others and promoting the sale of wares and services through promotional contests and the distribution of related printed material, advertising the wares and services of others, retail services connected with the sale of perfumery, colognes, anti-perspirants, shaving and after-shave preparations, cosmetic creams and cosmetic lotions, liquid soaps for the face, shower and bath preparations, shower gel, moisturisers, fuels, cosmetic oils, apparatus for recording, transmission or reproduction of sound and music, namely audio speakers, audio receivers, audio mixers, audio amplifiers and software to control and improve audio equipment sound quality, protective clothing, footwear and headgear for racing drivers and mechanics, protective helmets for racing drivers and mechanics, helmets for motorcyclists, articles of protective clothing for wear by motorcyclists, telephones, mobile telephones and cases therefor, software applications (apps), including apps for installation on telephones, mobile telephones and communications and wireless communication devices, head phones, ear phones, films, animations, cartoons, computer games, computer games software, electronic and digital publications, sunglasses, cases for spectacles and/or sunglasses, vehicles, jewellery, wrist watches, watch straps, key rings and fobs, trophies and medals in precious metals, photographs, writing instruments and cases therefor, prints of photographs, posters, greetings cards, calendars, diaries, books, magazines, journals, periodical publications, newspapers, newsletters, decalcomanias, pressure sensitive stickers, leather and imitations of leather, travelling bags, backpacks, wallets, belt clasps, clothing, footwear, hats, caps, games, small toys, toy cars and vehicles, model cars and vehicles, toy helmets, toy figurines, fitness articles and equipment, bags, cases and carriers for sporting, motor racing, fitness and gymnastic equipment, adapted /shaped to carry such equipment, computer games hardware, alcoholic and non-alcoholic drinks, energy drinks, and parts and fittings for all the aforesaid goods, provision of information and advice to consumers regarding the selection of products and items to be purchased, providing information

in the fields of all of the aforementioned via blogs, web sites and web pages, information and advice relating to all the aforesaid services.

**Class 41**

(2) Entertainment in the form of personal appearances by a sports celebrity; providing information in the field of entertainment relating to a recording artist via an online network; performances featuring live music; providing publications, online publications, web sites, information, news, and blogs in the fields of sports, motor racing, music, youth training and youth support, popular culture, literature, fashion, style, fashion design, celebrities, athletes and other persons of interests, health, well-being, film, art and photography; music publishing; production of music and films providing information in the field of sports, motor racing, entertainment or education via a global computer network, namely information in the field of sports, motor racing and music.

#### Class 05

Pharmaceutical preparations and substances used for the treatment of bone, joint, vertebral column, intestine, colorectal cancer, colonic polyps, ulcerative colitis, diverticulitis, irritable bowel syndrome, colon cancer, skin and skin structure infections namely, bacterial skin infections, fungal skin infections, viral skin infections and parasitic skin infections, psoriasis, eczema, dermatitis, bullous skin disorder, skin pigmentation diseases, skin cancer, psoriasis, lung asthma, asthma, refractory asthma, lung cancer, retinal vascular disorders, uveitis, choroidal neovascularization, pharmaceutical preparations for use in ophthalmology, pharmaceutical preparations for use in ocular disorders, breast cancer, ovarian cancer, cervical cancer, gastric cancer, interstitial cystitis, kidney failure, graft-versus-host disease following kidney transplant, pharmaceutical preparations for the treatment of headaches and migraine headaches, brain, neck, and blood diseases and disorders; Pharmaceutical preparations and substances for the treatment of autoimmune, autoimmune diseases, immunologic deficiency syndromes, rheumatoid arthritis, lymphoma, leukemia, inflammatory connective tissue, inflammatory bowel, gastrointestinal, sexually transmitted diseases, urological diseases, infertility, inflammatory pelvic diseases, connective tissue diseases, osteoporosis, spinal diseases, back pain, gout, fractures, sprains, sports injuries, osteogenesis imperfecta, muscle wasting (cachexia), renal osteodystrophy, cartilage injuries, joint replacement, osteoarthritis, bone cancer, bone density deficiency, psoriatic arthritis, arthritis, dermatitis, skin pigmentation diseases, skin cancer, respiratory diseases, respiratory infections,

pharmaceutical preparations for the treatment of the respiratory system, respiratory, oncological, hepatological, lymphomas, leukemias, ophthalmic, transplant rejection, cardiovascular, growth and thyroid diseases, hormone deficiency, Parkinson's disease, Alzheimer's Disease, Huntington's Disease, dementia, migraine, cerebral palsy, brain injury, spinal cord injury, seizure disorders, epilepsy, restless legs syndrome, pain, neuropathic pain, inflammatory-related pain, fibromyalgia, stroke, multiple sclerosis, insomnia, sleep, muscular dystrophy and atrophy, brain cancer, sleep, muscular, and psychiatric diseases namely, mood, anxiety, cognitive, and schizophrenia, diseases and disorders; Pharmaceutical preparations and substances used for the treatment of arthritis, rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, axial spondyloarthritis, juvenile idiopathic arthritis, enthesitis related arthritis, osteoarthritis, peripheral spondyloarthritis, polymyalgia rheumatic, spondyloarthropathies, acute disc prolapse, inflammatory bowel disease, crohn's disease, ulcerative colitis, intestinal behçet's disease, chronic pouchitis, small bowel lesions, hermansky-pudlak syndrome, autoimmune pancreatitis, multiple myeloma, multiple sclerosis, systemic lupus erythematosus, lupus nephritis, chronic inflammatory demyelinating polyneuropathy, autoimmune anemia, autoimmune hemolytic anemia, pure red cell aplasia, idiopathic thrombocytopenic purpura, evans syndrome, type 1 diabetes mellitus, sjogren's syndrome, encephalitis, igg4-related disease, devic's disease, myositis, psoriasis, psoriasis vulgaris, psoriasis arthropica, plaque psoriasis, palmoplantar psoriasis, hidradenitis suppurativa, bullous skin disorder, pemphigus, pemphigoid, kawasaki disease, interstitial cystitis, sleep apnea, sarcoidosis, retinal vascular disorders, agerelated macular degeneration, refractory diabetic macular edema, uveitis, childhood uveitis, uveitic macular edema, choroidal neovascularization, graves' ophthalmopathy, pyoderma gangrenosum, giant cell arteritis, netherton syndrome, anaplastic thyroid cancer, breast cancer, ovarian cancer, cervical cancer, gastric cancer, colorectal cancer, non-squamous non-small cell lung cancer, glioblastoma, renal cell carcinoma, head and neck cancer, non-hodgkin's lymphoma, chronic lymphocytic leukemia, lymphocyte predominant subtype of hodgkin's lymphoma, vasculitis, granulomatosis with polyangiitis, microscopic polyangiitis, graft-versushost disease, graft-versus-host disease following allogenic hematopoietic stem cell transplantation, graftversus- host disease following keratoprosthesis, kidney transplant, asthma, chronic fatigue syndrome, major depression, and bipolar depression.

## **Services**

### **Class 41**

(1) Providing online publications in the nature of brochures and newsletters in the fields of pharmaceuticals, biosimilars, medicines and health; Arranging and conducting classes, seminars and workshops in the fields of pharmaceuticals, biosimilars and medicines; Educational services, namely, programs about pharmaceuticals, biosimilars and medicines accessible by means of audio, video, web-based applications, mobile phone applications, and computer networks; Educational services, namely, conducting programs in the fields of pharmaceuticals, biosimilars and medicines.

### **Class 42**

(2) Research and development of pharmaceutical preparations and biosimilars; Research and development in the pharmaceutical and biotechnology fields; Medical and scientific research information in the fields of pharmaceutical preparations, biosimilars and clinical trials; Providing online non-downloadable computer software used to access, manage, update and display electronic databases in the fields of pharmaceutical preparations and biosimilars; Computer software used to access, manage, update and display online electronic databases in the fields of pharmaceutical preparations and biosimilars.

### **Class 44**

(3) Providing information about pharmaceutical preparations and biosimilars via a website;  
Pharmaceutical and biosimilar support services, namely, help desk services.

### Goods

#### Class 09

(1) Downloadable electronic publications, namely, magazines, newspapers, newsletters, periodicals, and books in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; recordings news programs, TV shows, movies, and music stored on USB flash drives, DVDs, compact discs, magnetic disks; prerecorded video and audio tapes; Blank DVDs; blank compact disks; blank cassette tapes; blank magnetic disks; Pre-recorded DVDs, compact disks, cassette tapes containing music, audio and video clips, films, animated films; video disks and video tapes with recorded animated cartoons; binoculars; cameras; credit cards, debit cards; DVDs containing movie recordings and downloadable movie recordings; compasses; Computer software, namely downloadable computer software in the nature of an application featuring information about current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Computer application software for mobile phones and tablet computers in the nature of an application featuring information about current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Computer games downloadable from a global computer

network; Computer games for use on mobile and cellular phones; mouse mats; portable telephones; phonograph records; Drafting rulers; drawing rulers; photographic slides; Identification smart cards; spectacle frames; sunglasses; cases for spectacles and sunglasses; video cassettes; video games cartridges; screensavers; Downloadable computer wallpaper; downloadable digital images, namely photographs, pictures and clip art for display by electronic apparatus, namely, computers and mobile telephones; Downloadable multimedia news webcasts, podcasts, and weblogs; downloadable digital files, namely movies, films, audio and video clips, and music for use by electronic apparatus such as computers and mobile telephones.

### **Class 16**

(2) Magazines, newspapers, newsletters, periodicals, books, Printed publications namely magazines, newspapers, newsletters, periodicals, and books in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Drawing paper; drawing pens and pencils' drawing pads; memo pads; loose-leaf pads; note paper; office paper stationery; graphic prints; pens, pencils; pen cases, pencil cases; photographs; place mats; posters; postcards; decalcomanias; erasers, rulers; albums; bags of paper or plastics; loose-leaf binders; bookends; bookmarkers; calendars; greeting cards; comic books; passport holders; paper knives; beer mats; paper napkins; note books; writing paper; paperweights; pictures; stencils; table cloths of paper; wrapping paper; Cartoon strips.

### **Class 24**

(3) Flags of textile; cloth flags.

### **Services**

#### **Class 35**

(1) Education club services, namely mail-order book clubs.

#### **Class 38**

(2) Providing online chat rooms for social networking; providing voice chat services; Providing an online interactive bulletin board in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Providing online facilities namely chat rooms, blogs, and bulletin boards for real-time interaction between and among users of computers, mobile and handheld computers; Transfer services of electronic information and data, namely uploading and downloading of music, audio and video clips, and, newscasts, via the internet; Streaming of audio and video via the Internet featuring music, movies, news, and sports.

#### **Class 41**

(3) Entertainment in the form of live concerts and theatre shows, award ceremonies, concerts, quizzes, game shows; Publishing of electronic publications, web magazines; organization of trivia competitions in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Publications of magazines, newspapers, newsletters, periodicals, books; providing on-line electronic publications, namely, magazines, newspapers, newsletters, periodicals, and books (not downloadable); Arranging and conducting of colloquiums, conferences, congresses, exhibitions, seminars, symposiums, workshops in the fields of current events, news reporting, entertainment, education, current domestic and international events,

political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer product research, fitness and hobby activities, works of art, performance arts, cultural, travel, history, film and television, music, real estate and general interest; providing casino facilities; Film rentals; Online video gaming services; providing a web site featuring online computer games; presentation of live performances in the form of opera, live musical concerts, live dance concerts, plays, music recitals, poetry recitals; production of radio and television programs; production of theatre and musical shows; Film production; radio and television entertainment programming in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Rental of entertainment media in the nature of movies and films on DVDs; rental of entertainment media in the nature of music on compact discs; publication of electronic magazines, newspapers, newsletters, periodicals and books on-line.

### **Class 42**

(4) Hosting a blog in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, travel, history, film and television, music, real estate and general interest; Hosting a website in the field of current affairs, news, entertainment, education, current domestic and international events, political, scientific, financial and economic developments, cultural and sports stories and reviews, consumer products, leisure activities, art, history, travel, film and television, music, real estate and general interest; Hosting a website for streaming audio and video such as movies, music, television shows, music videos, news and sports web casts, documentaries, interview and films.

### **Claims**

(1) Business networking services, namely business consulting in the field of business networking for personal and business use, and facilitating face-to-face interaction between individuals to form business relationships, to recognize, develop and act upon business opportunities, to share information, and to generate new business; Providing a database of available internship, job and project opportunities; Operation of an on-line computer database in the field of business information and business and personal contacts; Provision of commercial and business contact information; Providing career information; Providing business information in the field of job opportunities; Providing an on-line searchable database featuring information relating to strategic business analysis and planning, business marketing and business contact information and business contacts.

#### Class 41

(2) Providing educational mentoring services and programs in the field of business and personal development, namely, career development, networking, management of finance, personal health, personal relationship management, business management and leadership development; Organizing seminars, courses, conferences, and networking events in the field of personal and professional development, namely career development, networking, management of finance, personal health and business and personal relationship management; Providing information about courses, seminars and online education in the fields of career development, networking, management of finance, personal health, personal relationship management, business management and leadership development; Arranging and conducting of seminars in the field of education, namely, seminars in the fields of career development, networking, management of finance, personal health, personal relationship management, business management and leadership development; Vocational guidance, namely, providing educational mentoring services in the fields of business and personal development, namely, career development, networking, management of finance, personal health, personal relationship management, business management and leadership development; Career counseling, namely, providing advice concerning education options to pursue career opportunities; Educational services, namely, conducting classes, seminars, conferences, and programs in the fields of business networking and

distributing course materials in connection therewith; Education services, namely, mentoring in the field of business; Business training in the field of leadership development.

## TRADEMARK DETAILS

# ABB ABILITY

### Trademark Type

Word

### Goods

#### Class 06

(1) Materials for use in the manufacturing of electric cables and wires, namely, copper, silver, tin, aluminum

#### Class 07

(2) Machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, drive gears, drives for machines, namely, electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and gas turbines for industrial machines, turbochargers for internal combustion engines, electricity generators, axles for machines, axles for industrial machinery, high frequency motor spindles as parts of machines and pumps with high frequency electric converters and power supply units; Engines, namely, aeronautic engines, boat engines, diesel airplane engines, electric motors for machines, internal combustion engines for boats, jet engines, linear motors; Couplings and devices for power transmission, namely, machine couplings, machine couplings and transmission components, fluid couplings being parts of machines; Agricultural implements, namely, agricultural aircraft spray nozzles, agricultural balers, agricultural plows, agricultural reaper machines, agricultural seed planting machines; Power generators, namely, gas operated power generators, emergency power generators, electrostatic generators, generators for motor vehicles, generators for boats; conveying and transporting apparatus and equipment, namely, conveyer belts, waste material conveying machines, pneumatic tube conveyors; Conveyors and conveyor belts; Pneumatic conveyors; Transport and carriers, namely, pneumatic transporters; Control devices for machines and engines, namely, mechanical and electronic control mechanisms for machines, engines and motors, namely, pneumatic and hydraulic controls for ship motors, in the nature of valves, oil brake cylinders, pressure switches, and electro-pneumatic controllers; pneumatic drives for machines and engines, namely, pneumatic drives for industrial machinery; Drives, namely, electric drives for electric motors for machines, drives for vacuum pumps, drives for machines, namely, electric drives for industrial machinery; Engines other than for land vehicles, in particular ship propulsion; hydraulic drives for machines and engines, namely,

hydraulic drives for industrial machinery; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; Industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps, electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines, motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind operated generators, namely, electric generators, electricity generators, turbine generators; Floating and non-floating drilling rigs; Vending machines; Elevator controls, namely, parts of elevators, elevator motors, elevator lifts, elevator gears, elevator belts; fans for motors and engines; lasers, not for medical purposes, namely, laser welding machines; drives, namely, drive gears for industrial machinery

### **Class 09**

(3) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; Apparatus and instruments for the management, distribution, conversion, storage, regulation and control of electricity including parts for all the aforesaid goods, namely, electrical circuit boards, electrical cables, distribution boxes for electrical power, electrical conductors for electric motors, electrical converters, electrical controllers for diesel engines; Compact discs, namely, blank compact discs, compact discs containing music, compact discs containing computer games; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; Apparatus for the recording, transmission and reproduction of sound and image, namely, digital voice recorders, computers, laptop computers, tablet computers, car video recorders, airplane cock pit recorders, personal video recorders, telephone recorders, DVD recorders; Microprocessors; computer software for developing, integrating and managing Internet of Things (IoT) devices, systems and applications for use in residential and industrial settings, namely, mechanical and electronic control mechanisms for machines, engines and motors, namely, pneumatic and hydraulic controls and regulating elements for ship motors; remote control apparatus, namely, remote controls for operating process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous and mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; Chargers for electric batteries, namely, general purpose batteries, electric storage batteries, electric batteries for vehicles, cell phone batteries, camera batteries; Timers, not for clocks, namely, kitchen timers, self-timers for cameras, time and date stamping machines, chronographs for use as specialized time recording apparatus; Electrical capacitors; Electrical collectors, namely, electrical storage batteries, electric capacitors, electric capacitors for telecommunication apparatus, electric accumulators for vehicles; electrical terminals, namely, splices for electrical transmission lines, electric cable connectors, connectors for electronic circuits; electric cables, electric wires; Battery boxes and junction boxes; Identification sheaths for electric wires and cable identification threads for electric wires; Cable channels, namely, sheaths for electric cables, rubber covered electrical wires; Electrical coils; Magnetic data carriers, namely, blank floppy discs, blank hard discs, magnetic tape drives, magnetic tape units for computers,

magnetic identifying cards; Semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely, electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; Fuel cells; Records, namely, blank record disks; Mechanisms for coin-operated apparatus, namely, coin-operated mechanisms for operating gates for car parking lots, coin-operated mechanisms for vending machines, coin-operated mechanisms for television sets; Cash registers; Computers; Data processing equipment, namely, calculators, computer programmes for document management, electronic tags for goods; Fire extinguishers; blank floppy disks, magnetic disks and optical disks for electronic, magnetic and optical storage; Data backup devices, namely, hard disk drives, external hard drives, and magnetic tape units for computers; Computer peripherals, namely, computer printers, computer keyboards, computer monitors, computer mouse; Power inverters, namely, inverters for power supply; Current rectifiers; Power converters, namely, electric power converters; Electrical power connectors; Connection sleeves for electric cables; electrical transistors, Thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; Electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; Batteries, namely, general purpose batteries, solar batteries, electric storage batteries; integrated circuits (chips); Printed circuit boards; Computer operating programs; Diagnostic apparatus, namely, computer software and databases for providing diagnostic details on devices installed in a computer system, namely, computer utility programs for providing diagnostic details on devices installed in a computer system for environmental monitoring, environmental control, and energy management, namely, monitoring and control of heating, air conditioning, and lighting systems in buildings; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous and mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; Electric control panels and electricity distribution consoles; Power switches; electrical relays; Modems; electrical ducts; Connectors for electric cables; electrical measuring and regulating devices in the form of voltage regulators; power semiconductor devices, namely, current sensors; Electrical fuses; electric and electronic installations for remote control of industrial process automation systems, namely, power distribution panels, circuit breaker panels, and electric control panels; Voltage meters; Electricity meters; Circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dosage dispensers, not for medical use; and electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; circuit breakers and circuit closers, cut-out switches; Electric and electronic installations for remote control of industrial process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, power distribution panels, circuit breaker panels, and electric control panels, control panels, distribution consoles; automatic control systems for vehicles, namely, automatic indicators of low pressure in tires, cruise controls for motor vehicles, fuel level indicators for vehicles; electronic systems for monitoring, protection, regulation and control of power utility

assets, namely, electric current, electric power transmission and distribution network and parts thereof, in particular high-voltage, medium voltage and low-voltage switchgear, namely, circuit breakers and circuit closers, cut-out switches and high voltage DC power transmission systems; High-voltage cables; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; Distribution transformers; Circuit breakers; Electrical sockets; Solar cells; Electronic control panels for industrial machines and diesel engines; automated process control systems in the field of electricity generating power plants; electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; facilities management control system products, namely, electronic controllers for heating systems, namely, furnaces, air conditioners, ventilating fans, solar energy panels for production of electricity, lighting, fire alarm, and security access systems; facilities management control system products, namely, electrical control devices for the management of heating and energy, lighting controls, fire alarms, namely, thermostats, electromechanical controls for room thermostats, light switches, dimmer switches, fire alarm control panels; security access controls in the nature of control panels for security alarms, and climate control systems consisting of digital thermostats and electronic control systems for heating and air conditioning systems; controllers for ventilating, air-conditioning and cooling systems (HVAC controllers) for controlling, gauging and monitoring climate control, air flow, heating, ventilating and air conditioning equipment; home security and automation systems, namely, programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, and automation of lighting, audio, namely, automated play of music, HVAC, security alarms, home appliances, network devices, namely, routers, internet of things applications and other home and office monitoring and control applications, namely, motion detectors, smoke detectors, carbon monoxide detectors, security alarms, video cameras and computer software that allows the sharing and transmission of said data and information in the field of personal emergencies, security alarms, home surveillance systems, lighting controls, HVAC controls, and sprinkler systems for fire protection between networked devices for the purposes of facilitating environmental monitoring, control, and automation in residential and commercial settings, namely, motion detectors, smoke detectors, carbon monoxide detectors, security alarms, video cameras, remotely controlled video camera for recording audio, video and image capture, motion sensors, temperature detectors, water detectors, heat detectors, freeze sensors, flood sensors, light sensors, remotely controlled doorlocks, remotely controlled thermostats, remotely controlled appliance electrical switches; downloadable mobile application for remotely managing, administering, modifying, and controlling home security and automation devices, namely, programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, and automation of lighting, remotely controlled digital audio recorder for audio capture, HVAC, security alarms, home appliances, network devices, internet of things applications and other home and office monitoring and control applications, namely, motion detectors, smoke detectors, carbon monoxide detectors, security alarms, video cameras, remotely controlled video camera for recording audio, video and image capture, motion sensors, temperature detectors, water detectors, heat detectors, freeze sensors, flood sensors, light sensors, remotely controlled doorlocks, remotely controlled thermostats, remotely controlled appliance electrical switches; building automation systems, namely, programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, and automation of heating, air conditioning, ventilating, energy, lighting, fire alarm, and security access controls and software for building automation systems, namely, software for integrating heating, air conditioning, and

lighting systems in buildings to optimize the environment for inhabitants and ensure lower energy consumption; Building automation equipment, namely, electric linear actuators for machines, electric linear actuators for industrial applications, electric control panels, electrical control systems for heating and air conditioning systems, electrical controllers for diesel engines, control circuit boards and control supervisory systems consisting primarily of electrical actuators for use in environmental monitoring, environmental control, and energy management, namely, linear actuators, air regulating valves, air damper actuators and exhaust gas recirculation valves; Computer software and hardware for enabling wireless connections of electronic devices, namely, smartphones, tablet computers, electronic access control systems for interlocking doors and household appliances, namely, for enabling connection and the sharing and transmission of data and information in the field of personal emergencies, security alarms, home surveillance systems, lighting controls, HVAC controls, and sprinkler systems for fire protection between networked smart-devices, namely, motion detectors, smoke detectors, carbon monoxide detectors, security alarms, video cameras, remotely controlled video camera for recording audio, video and image capture, motion sensors, temperature detectors, water detectors, heat detectors, freeze sensors, flood sensors, light sensors, remotely controlled door-locks, remotely controlled thermostats, remotely controlled appliance electrical switches for remote monitoring and control; computer software platform for the management of assets of others, namely, data analytics software for optimization of administrative processes by collecting, contextualizing, and converting business data into actionable insights that help businesses to improve operations in the fields of industrial automation, mining, health services, manufacturing, energy production, transportation of goods by land, rail, water and air and water purification; computer software for database management, namely, for collecting and distributing personal, commercial, industrial, municipal and financial data within computer networks, including the internet for use in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure, namely, energy, transportation, water purification, management processes, and enabling data communication among application programs, consumer and industrial devices, namely, mobile phones, electronic tablets and computers; downloadable cloud computing software for database management, namely, for information management, data collection and data analysis for use in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure, namely, energy, transportation, water purification, management processes; Downloadable computer software for database management, namely, for information management, data collection and data analysis for use in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure, namely, energy, transportation, water purification, management processes; Downloadable computer software application for database management, namely, for information management, data collection and data analysis for use in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure, namely, energy, transportation, water purification, management processes; temperature, pressure and liquid level sensors, computer hardware and software programs for use in automated process control systems, namely, computer hardware and software for data collection and hardware setup for use in the field of automated process control systems, facilities management and distribution control systems to enable remote monitoring and operation of residential climate control and security systems, to control building environmental access and security systems, to control electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; internet of things applications and other monitoring and control applications, namely, programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, and energy management, monitoring and inspecting equipment in a nuclear

power station, electrical industrial controls for monitoring waste water treatment, electrodynamic apparatus for the remote control of railway points, firmware for remote monitoring of hardware, voltage monitor modules; remote monitoring apparatus, namely, acceleration sensors, pressure sensors, temperature sensors, humidity sensors, electric sensors, timing sensors and optical sensors; computer software for database management, namely, for recording data in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure, namely, energy, transportation, water purification, management processes from audio and video recordings generated by machines and human beings; computer communications software for use in the remote control and monitoring of industrial automation of industrial machinery of others and machine diagnostics of the machine systems in the manufacturing, and oil and gas industry; downloadable cloud computer software for use in automated process control systems, namely, computer hardware and software for data collection and hardware setup for use in the field of automated process control systems, facilities management and distribution control systems to enable remote monitoring and operation of residential climate control and security systems, to control building environmental access and security systems, to control electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; downloadable application software for use in automated process control systems, namely, computer hardware and software for data collection and hardware setup for use in the field of automated process control systems, facilities management and distribution control systems to enable remote monitoring and operation of residential climate control and security systems, to control building environmental access and security systems, to control electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; emergency warning lights for power plants

#### **Class 11**

(4) Apparatus for lighting, heating, cooling and ventilation, namely fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans and water conditioning units; air conditioners, air purifying units, cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans and water conditioning units; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves; Furnaces, namely, residential furnaces and electric furnaces for industrial purposes

#### **Class 12**

(5) Vehicles, namely, cars, cable cars, trucks, buses; Apparatus for transport on the land, in the air or on the water, namely, cars, airplanes, boats; Ship control devices, namely, steering gears for ships; Devices and equipment for the aviation industry, namely, aircraft and parts thereof; Engines for land vehicles, in particular for rail vehicles; electric drives for vehicles; pneumatic drives for machines and engines, namely, pneumatic drives for vehicles; drives, namely, drive gears for industrial machinery; hydraulic drives for machines and engines, namely, hydraulic drives for vehicles

#### **Services**

#### **Class 37**

(1) Building construction services, including consultation in the field of business construction services; repair services, namely, repair of construction machines, repair of chemical processing machines, repair of semiconductor manufacturing machines, electrical repair of electrical motors, repair of power generators, electrical repair of lighting, repair of heating installations, repair of computer hardware, repair of office equipment, repair of hardware for computer networks and consultancy in the field of all the aforementioned services; installation services, including advice relating thereto, namely, installation of electrical systems, solar energy based power plants, heating, ventilating and air conditioning systems, as well as installation of hardware for computer networks and computer systems, including consultation in the field of installation of hardware for computer networks and computer systems; maintenance and installation services for industrial installations, namely, installation and maintenance of electrical and generating machinery; installation, maintenance and repair of office machines and office equipment and consultancy in the field of all the aforementioned services; Maintenance of computer hardware, especially of computers and computer network systems and consultancy in the field of all the aforementioned services; Installation, maintenance, repair and disassembly of machines and electrical apparatus and equipment, namely, electrical and generating machinery and consultancy in the field of all the aforementioned services; Installation and maintenance of pipelines and consultancy in the field of all the aforementioned services; underwater building and construction and consultancy in the field of all the aforementioned services; advisory services relating to the construction of buildings

#### **Class 42**

(2) Scientific and industrial research in the field of mechanical engineering, machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, drive gears, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and gas turbines for industrial machines, turbochargers for internal combustion engines, electricity generators, axles for machines, axles for industrial machinery, high frequency motor spindles as parts of machines and pumps with high frequency electric converters and power supply units, solar energy based power plants, electricity generation, energy efficiency, energy saving, environmental protection and data processing, namely, development and creation of computer programs for data processing; creation of data processing computer software programs; providing information on computer technology and programming via a web site, namely, providing technical information in the field of computers, computer hardware, software and networks online via a computer data bank and via computer networks; Material testing; Services of an industrial designer; Services of a packaging Designer; quality assessment, namely, materials testing, analyzing and evaluation; underwater research in the field of underwater building and construction; environmental consulting services in the field of final design and construction services, namely, conducting safety investigations of power generation facilities, conducting technical feasibility studies, and facilities planning, namely, construction of water treatment and purification plants, solid waste treatment plants and municipal infrastructure facilities; environmental consulting services, namely, research in the field of environmental protection; environmental consulting services in the field of renewable energy production; Design of computer software, in particular in the field of computer security; rental of a database server to third parties; network engineer services, namely, computer security consulting and computer network security services; scientific and industrial research in the field of software and networks online via a computer data bank and via computer networks; Updating of computer software; Carrying out chemical analysis; Petroleum exploration; Monitoring of oil drilling; Creating analysis for oil drilling;

Draw up reports on petroleum; Architect services; services provided by a physicist, namely, research in the field of physics; Research in the field of chemistry; Services of a physicist; Computer consulting services, particularly in the field of technical security; Recovery of computer data; Maintenance of computer software; Computer system analysis; Development and research services for new products; Research in the field of computer technology and mechanical engineering; Creating technical opinions, namely, drafting services; Construction planning; technical project planning, namely, technical consulting in the fields of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineer, computer engineering, automated process control systems, namely, computer hardware and software for data collection and hardware setup for use in the field of automated process control systems, computer networks and computer systems; rental of software for data processing; Software development; engineering surveying services, civil engineering drawing services, mechanical engineering, chemical engineering; Technical project planning, namely, development of computer software for internet of things applications; technological monitoring and control of mechanical and computer systems, namely, heating, ventilation and air conditioning mechanical systems and control systems to ensure proper functioning in the fields of electric distribution services, machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, drive gears, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and gas turbines for industrial machines, turbochargers for internal combustion engines, electricity generators, axles for machines, axles for industrial machinery, high frequency motor spindles as parts of machines and pumps with high frequency electric converters and power supply units; measuring and monitoring electricity consumption for electric power providers, and measuring and monitoring electricity consumption of machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, drive gears, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and gas turbines for industrial machines, turbochargers for internal combustion engines, electricity generators, axles for machines, axles for industrial machinery, high frequency motor spindles as parts of machines and pumps with high frequency electric converters and power supply units; monitoring, diagnostic and inspection services for fault detection in electricity production, transmission and distribution systems and in machines and machine tools, namely, electrical and generating machinery; computer programming; analysis of computer software; Computer programming consultancy; analysis and design of computer systems and networks; providing online, non-downloadable software to enable customers to remotely manage, administer, modify and control home security and automation devices, namely, lighting, remotely controlled digital audio recorder for audio capture, HVAC, security alarms, home appliances, network devices, internet of things applications and other home and office monitoring and control applications, namely, motion detectors, smoke detectors, carbon monoxide detectors, security alarms, video cameras, remotely controlled video camera for audio, video and image capture, motion sensors, temperature detectors, water detectors, heat detectors, freeze sensors, flood sensors, light sensors, remotely controlled door-locks, remotely controlled thermostats, remotely controlled appliance electrical switches; information technology services, namely, providing a webbased system and online portal (software), offering technology that enables customers to remotely manage, administer, modify

and control home security and automation devices, namely, lighting, remotely controlled audio recorder for audio capture, HVAC, security alarms, home appliances, network devices, internet of things applications and other home and office monitoring and control applications, namely, motion detectors, smoke detectors, carbon monoxide detectors, security alarms, video cameras, remotely controlled video camera for audio, video and image capture, motion sensors, temperature detectors, water detectors, heat detectors, freeze sensors, flood sensors, light sensors, remotely controlled door-locks, remotely controlled thermostats, remotely controlled appliance electrical switches; platform as a service (PAAS) offering computer software platforms for the management of industrial automation of industrial machinery of others; platform as a service (PAAS) offering computer software platforms for the management of industrial automation of industrial machinery of others; Platform as a service (PAAS) offering computer software platform for the management and optimization of administrative processes by collecting, contextualizing, and converting business data into actionable insights that help businesses to improve operations, for use in the field of hospital administration, manufacturing, mining, oil and gas industries; software as a service (SAAS) provider for use in the management of industrial automation of industrial machinery of others; software as a service (SAAS) provider for use in the management and optimization of administrative processes by collecting, contextualizing, and converting business data into actionable insights that help businesses to improve operations in the fields of hospital administration, health services, manufacturing, mining, oil and gas exploration; cloud computing providing software featuring cloud-based software-as-a-service (SAAS) for computer software platforms for the management of industrial automation of industrial machinery of others; cloud computing providing software featuring cloud-based software-as-a-service (SAAS) for computer software platforms for the management and optimization of administrative processes by collecting, contextualizing, and converting business data into actionable insights that help businesses to improve operations, for use in the fields of health services, manufacturing, mining, oil and gas exploration; Providing temporary use of online, non-downloadable computer software platforms for the management of industrial automation of industrial machinery of others; Providing temporary use of online, non-downloadable computer software platforms for the management and optimization of administrative processes by collecting, contextualizing, and converting business data into actionable insights that help businesses to improve operations, for use in the fields of hospital administration, manufacturing, mining, oil and gas exploration; technological consultancy services in the field of the optimization of electric power stations; engineering services in the field of the optimization of electric power stations; engineering services and technical consultancy services relating thereto in the field of energy-saving for owners and operators of industrial, commercial and governmental facilities; diagnostic services in the field of testing electricity generation and distribution, diagnostic services for fault detection in production, transmission and electricity distribution systems and in machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, drive gears, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and gas turbines for industrial machines, turbochargers for internal combustion engines, electricity generators, axles for machines, axles for industrial machinery, high frequency motor spindles as parts of machines and pumps with high frequency electric converters and power supply units; analyses for oil extraction; performance of exploratory drilling operations for oil; monitoring of oil wells; production of analyses for oil extraction, drawing up of experts reports about oil presence; computer support services, particularly in the field of technical security; computer data recovery; software maintenance; computer systems analyses; installation and maintenance of computer software and

technical consultancy relating thereto; consultancy services in the field of process control programs for automated measurement, assembly, adjustment and related visualization and control programs for electric operation control, dealing with the control of electricity generating power plants, industrial nuclear power plants, power distributing boxes, gas and oil pipelines, industrial robotics, electricity generation, construction, solar energy based power plants, heating, ventilating and air conditioning systems, and systems for heating, ventilation, air-conditioning, production and distribution of electricity and computer hardware and computer software; providing temporary use of non-downloadable software applications for accessing and using cloud computing provider services for general storage of data; monitoring of computer systems by remote access for detecting unauthorized access and data breach; consultancy in the field of energy-saving and computer software, namely, consultancy services in the field of automated process control systems, namely, computer hardware and software for data collection and hardware setup for use in the field of automated process control systems, industrial robotics, electricity generation, building construction, solar energy based power plants, heating, ventilating and air conditioning systems, and systems for heating, ventilation, air-conditioning, production and distribution of electricity and computer hardware and computer software; installation, maintenance and repair of computer software and consultancy in the field of all aforementioned services; providing temporary use of online non-downloadable Internet-based computer software for providing user access to collaborative computer programs in data networks, namely, software for task and project management, project tracking, document management, business knowledge management, and general work management via the Internet

**Claims**

Priority Filing Date: October 04, 2016, Country or Office: SWITZERLAND, Application No: 62207 /2016 in association with the same kind of goods and in association with the same kind of services

**Application Number** 1,827,813  
**Language of Application** English

**Filing Date** 2017-03-16

#108-19100 AIRPORT WAY  
PITT MEADOWS  
BRITISH COLUMBIA  
V3Y0E2

### Agent

ACCUPRO TRADEMARK SERVICES LLP  
SUITE 702 - 401 WEST GEORGIA STREET,  
VANCOUVER, BRITISH COLUMBIA, V6B5A1

## TRADEMARK DETAILS

# CHII

### Trademark Type

Word

### Goods

#### Class 01

(1) Extracts and emulsions derived from botanicals, herb and plants other than essential oils, for use in manufacturing of and an ingredient in food, beverages, nutraceuticals, cosmetics, foods for pets and feeds for livestock.

#### Class 03

(2) Cosmetics; skin and body lotions; shampoo; conditioner; non-medicated pet care and grooming preparations for pets and animals, namely, balms, creams and cleansing creams, essential oils, powders, shampoos, wipes, cleansers, conditioners, dentifrices, lotions, ointments and sprays;

#### Class 05

(3) Hemp protein powder.

(4) Nutritional supplements for general health and wellbeing; dietary supplements for general health and wellbeing; food supplements for general health and wellbeing; herbal supplements for general health and wellbeing; mineral supplements; vitamin supplements; homeopathic supplements for general health and wellbeing; nutritional supplement energy bars; protein supplements; protein supplement shakes; anti-itch and sore skin ointments for pets.

#### Class 29

(5) Prepared edible seeds namely hemp, flax, sesame, chia, pumpkin and sunflower; hemp seeds; hemp oil; hemp powder; powdered hemp oil; hemp flour.

#### Class 30

(6) Food and beverage flavourings, other than essential oils, and seasonings; salad dressings; cookies; salsa; tortilla chips; bread; pesto; mayonnaise; coffee; food products namely sweet baked desserts; bakery products, namely, bread, buns, rolls, cakes, muffins, pastries, pies, pie crusts, pie shells, croissants, squares, danish, bagels, biscuits, flans, tortilla shells, dough, flour, doughnuts, tarts, cookies, cake mixes, icing mixes and muffin mixes.

#### Class 31

(7) Pet food; animal feed; fish feed; unprocessed edible seeds namely hemp, flax, sesame, chia, pumpkin and sunflower sold alone or as an ingredient in the food, beverage, nutraceutical, cosmetic, pet food and livestock feed manufacturing industries.

**Application Number** 1,829,588

### Goods

#### Class 03

(1) Bleaching preparations for use with tires and wheels for industrial purposes; cleaning, polishing preparations for use with tires and wheels for industrial purposes, scouring and abrasive preparations for use with tires and wheels for industrial purposes; wheel rim cleaning preparations.

#### Class 04

(2) Industrial oils and greases; industrial lubricants; lubricating pastes, namely tire assembly paste and tire assembly lubricating pastes.

#### Class 06

(3) Common metals and their alloys; non-electric lifting cables and single and multi-strand wires of common metal; small items of metal hardware, namely, metal bolts, screws and nuts, metal clamps; pipes and tubes of metal for liquid and gas transfer.

#### Class 07

(4) Machines for manufacturing and assembling vehicle components, namely, for balancing weights and wheels and machine tools for use with balance weight for vehicle tires; motors and engines used in industrial applications; automatic vending machines; hand-held tools, namely, hand-held electric and pneumatic drills, hand-held electric and pneumatic hammers, hand-held tools namely tensioners, hand-held power screwdrivers, hand-held impact wrenches.

#### Class 08

(5) Hand tools and hand-operated instruments for outputting and assembling vehicle components, namely, wheels and balancing weights; spatulas being hand tools; hand-operated hand tools, namely, hammers, wrenches, torque wrenches, screwdrivers, grippers; hand-operated assembly and disassembly tools for balancing weights for vehicle wheels.

#### Class 09

(6) Electrical measuring, sensors and display interfaces for electrical, physical and mechanical parameters of vehicles and vehicle parts; pre-recorded compact discs, DVDs and other digital recording media in the nature of digital semi-conductor memory units and downloadable software, audio and video files featuring operating application software and drivers for vehicle related tools,

sensors and instruments and instructions for operating tools and machinery; data processing computers; computers; computer software, namely, operating application software and drivers for controlling vehicle related tools namely mechanics' tools; fire-extinguishers; galvanic batteries; automotive batteries; battery terminals; tire-pressure measurers; vehicle safety equipment, namely, electronic tire pressure monitors and computer operating software and computer hardware for vehicles and tire pressure monitoring systems (tpms) therefor; tire pressure sensors for vehicle wheels; calipers.

**Class 12**

(7) Vehicles, namely, cars and trucks; tires and wheels for land vehicles; hub caps; balance weights for vehicle wheels; balancing powder namely weights for vehicle wheels; valves for vehicle tires; balancing weights for vehicle gears and vehicle couplings.

**Class 17**

(8) Rubber, gutta-percha, semiworked gum, asbestos, mica in the form of profiles, panels, bands, sheets, plastics in extruded form for use in manufacture, packing and insulating low density polyurethane foam for use in the transportation of vehicle parts, adhesive tapes, in particular self-adhesive tape for balancing weights, all aforementioned goods only for use in manufacturing, repair and maintenance of vehicles.

**Class 25**

(9) Work clothes, namely, pants, shirts, shorts, jeans, overalls, jackets, underwear, shirts, t-shirts, blouses, sweaters, dresses, skirts, pants, jumpsuits; work shoes.

**Services****Class 35**

Retail store services and wholesale ordering services, featuring car accessories, car parts, wheels and tires.

#### Class 07

(1) Hand-held vacuum cleaners; cordless vacuum cleaners; electric coffee grinders; electric milk frothers; electric food blenders; electric egg-beaters; electric mixers for household purposes; electric crushers and grinders for kitchen use, namely electric food processors; fruit presses, electric, for household purposes; dishwashers; fruit washing machines; washing installations for vehicles; electrical ultrasonic cleaning units for make-up brushes.

#### Class 09

(2) Scales, namely bathroom scales, electronic weighing scales for kitchen use, and electronic weighing scales for personal use; scales with body mass analyzers; stands adapted for mobile phones; selfie sticks [handheld monopods]; bar code readers; barcode scanners; electrical plugs and sockets; plug adaptors; electrical adapters, namely computer card adapters, computer network adapters, electric adapter cables, ethernet adapters, flash memory card adapters, and video cable adapters; wireless network adapters for computers; cameras; video recorders, namely camcorders, car video recorders, combination video players and recorders, personal video recorders, television and video recorders; wireless headsets for smartphone; headphones; earphones; earphone accessories, namely, earphone cushions, earphone pads, earphone cord management systems, namely sheaths for electric cables, earphone cases, and earphone extension cords; headsets for virtual reality games; computer peripheral devices, namely computer cables, computer monitors, computer keyboards, wireless computer keyboards, computer mice, wireless computer mice, computer mouse pads, computer printers, computer scanners, computer speakers, computer styluses, external computer hard drives; data processing apparatus, namely computer network hubs, switches, and routers for streaming data over wired and wireless computer networks; transmitters of electronic signals, namely cable television transmitters, emergency signal transmitters, GPS transmitters, optical transmitters, radar transmitters, radio transmitters, satellite transmitters, telephone transmitters, and video transmitters; data processing equipment, namely, couplers; loudspeakers; portable media players, namely portable digital audio players and portable digital video players; sound bars; meat thermometers; thermometers, not for medical purposes, namely infra-red thermometers and laboratory thermometers; microphones; photographic filters; photographic viewfinders; optical lenses; bags adapted for laptops; covers for

tablet computers; protective films adapted for smartphones; protective helmets for sports; bicycle helmets; microphone stands; tripods for cameras; stands for photographic apparatus, namely stands for cameras and lighting equipment for use in photography; tire pressure gauges; bicycle speedometers; teeth protectors, namely mouth guards; ear plugs for divers; ski goggles; swimming goggles; projection screens; computer printers for printing documents; bar code printers; calculators; cordless telephones; computer software applications, downloadable, namely downloadable computer software and mobile applications for controlling and operating scales with body mass analyzers, cameras, video recorders, namely camcorders, car video recorders, combination video players and recorders, personal video recorders, television and video recorders, wireless headsets for smartphones, computer peripheral devices, namely computer printers, computer scanners, and external computer hard drives, computer network hubs and switches, portable media players, namely portable digital audio players and portable digital video players, sound bars and loudspeakers, microphones, video baby monitors, IP cameras, webcams, multimedia projectors, televisions, dashboard cameras, and facial recognition equipment; toner cartridges, unfilled, for printers and photocopiers; photo printers; radio transceivers; cable television converters; stands adapted for tablet computers; video baby monitors; IP (internet protocol) cameras; webcams; sunglasses; virtual reality glasses; set-top boxes; multimedia projectors; picture projectors; televisions; television apparatus for projection purposes, namely video projectors; dashboard cameras; USB hubs, computer network hubs, switches and routers; alarm sensors, namely motion sensors for use with security alarms; electric door bells; face recognition equipment, namely cameras, web cameras, and video cameras for use with facial analysis and facial recognition software; fire and smoke detectors; smartwatches; smart rings; wrist rests for use with computers; 3D spectacles; Global Positioning System [GPS] apparatus, namely global position system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; cell phone straps; spectacle frames; safety restraints, other than for vehicle seats and sports equipment, namely safety harnesses and lanyards for safety purposes for fall protection; dust masks; armbands specially adapted for personal electronic devices, namely, mobile phones and mp3 players [excluding gaming apparatus].

### **Class 11**

(3) Light bulbs; light-emitting diodes [LED] lighting fixtures; LED lighting fixtures for indoor and outdoor lighting applications; desk lamps; table lamps; safety lamps; fairy lights for festive decoration; string lights for festive decoration; searchlights; solar powered lamps; light diffusers; arc lamps [lighting fixtures]; candle Lamps; oil lamps; lights for use in growing plants, namely light bulbs and lighting fixtures for indoor use; bicycle lamps; electric flashlights; overhead lamps; hanging lamps; barbecue grills; fabric steamers; portable refrigerators; lamp bases; lamps for tents; sterilizers, namely water sterilizers; water filtering apparatus, namely filters for drinking water, household tap-water filters, and water filtering units for household use; facial saunas; electronic facial steamers; heating apparatus, namely electric space heaters; electric night lights; LED mood lights; air purifying apparatus and machines, namely air cleaning units, air deodorizing apparatus, and air diffusers; air purifiers; humidifiers; floor lamps; coffee machines, electric; bread baking machines; cooking ovens; dehumidifiers; multicookers; portable electric fans; electric waffle maker; air fryers; kettles, electric; electric appliances for making yogurt; immersion heaters; electric hair dryers; water purifying apparatus and machines, namely electric water purifiers for household purposes and tap-water purifying apparatus; ultraviolet ray lamps, not for medical purposes; nail drying machines for beauty salons; hydromassage bath apparatus; infrared lamp fixtures.

(4) Grill supports, namely stands for electric cooking grills; grills, namely electric cooking grills; electric cooking griddles.

### **Class 16**

(5) Plastic bags for pet waste disposal; garbage bags of paper or of plastics; ball-point pens; marking pens; paintbrushes; penholders; chalk boards for school and home use; staples for offices; document files; folders for papers; document file trays; office requisites, except furniture, namely office binders, office glues, office hole punchers, office paper stationery, office rubber stamps, staplers, paper clips, and file tabs; writing or drawing books; note books; paper shredders for office use; paper knives [cutters] [office requisites]; bookends; passport holders.

#### **Class 18**

(6) Dog leashes; leather leads; collars for animals; harness for animals; covers for animals, namely jackets and clothing for pets; backpacks; business card cases; card cases [notecases]; pocket wallets; travelling bags; handbags; umbrellas; parasols; pet accessories, namely, specially designed canvas, vinyl or leather bags attached to animal leashes.

#### **Class 20**

(7) Pet cushions; beds for household pets; kennels for household pets; fodder racks; computer furniture; office furniture; office tables; standing desks; bag hangers, not of metal; containers, not of metal [storage, transport], namely plastic shipping and storage boxes and wooden shipping and storage boxes; writing desks; seats, namely benches; mirrors [looking glasses]; picture frames; clothes hangers; bed bases; deck chairs; chairs; rocking chairs; sofas; stools; costume stands; flower-stands [furniture]; shelves for storage; jewellery organizer displays; shoe racks; slatted indoor blinds; moses baskets; cots for babies; dispensers for dog waste bags, fixed, not of metal, namely wall units for storing and dispensing plastic bags for pet waste disposal.

#### **Class 21**

(8) Electric devices for attracting and killing insects; cleaning brushes for barbecue grills; feeding troughs; drinking troughs; combs for animals; toothbrushes for pets; litter boxes for pets; heat-insulated containers for food and beverage; vacuum bottles; plug-in diffusers for mosquito repellents; barbecue mitts; kitchen mitts; cloths for cleaning; rags for cleaning; cleaning mitts of fabric; fitted vanity cases; water apparatus for cleaning teeth and gums for home use; electrical toothbrushes; drying racks for laundry; gloves for household purposes; lunch boxes; flower pots; isothermic bags; laundry baskets; portable cool boxes, non-electric.

(9) Aromatherapy oil diffusers.

#### Class 09

Business management software namely computer programs that automate the management of businesses namely, accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; financial management software namely software that automates management activities namely double entry bookkeeping, journal entries, profit and loss calculations, vendor invoices, customer payments, inventory receipts, revenue recognition, assess depreciation, electronic document storage, generation of financial reports; accounting software; payroll software; payment software, namely computer programs for the automation of issuing and tracking invoices, customers payments, inventory receipts, journal entries, bank transactions, credit notes, customer and vendor statements, making, recording and receiving payments, receiving transactions from multiple banking feeds, synchronization of invoices with customer contracts, aging customer and vendor accounts, banking software namely financial transaction reconciliation software which enables the reconciliation of internal financial and payment transaction data against the data provided by banks and customers and vendors and reconciles those for which payment has been received, and flagging those which are overdue, reconciliation of inventory balances; software for the management of human resources, namely computer programs for use in the field of personnel recruitment and management of employees, candidates and applicant, collecting, organizing and analyzing employee data and information in the fields of recruiting, human resources, employee retention and talent management, employee performance evaluation and reviews, assessment and modification, management of employee behavior, measuring employee knowledge, skill and development, employee monitoring, time-tracking, absence management, employee assessment and survey tools, benefits and compensation administration and calculation of applicable taxes pertaining to employees and employers, tax filings, system to provide employees with a self-service capabilities in the human resource context namely viewing payslips, updating personal information, time-sheet submissions and requesting and approving leave of absences, identity management and authentication;

enterprise resource planning software, namely computer programs providing in real-time and integrated information enabling organizations to plan, track, predict, model, manage, forecast and generate reports with respect to their resources such as cashflow, raw materials, production capacity, customer orders, purchase orders, payroll, accounts receivables, accounts payable, inventory, customers, and human resources; client relationship management software; contact management software; e-commerce software to allow users to perform electronic business transactions via a global computer network; software namely, project management software for management of sales, customer service, distribution, inventory, order processing, project accounting and production capacity; computer software that is able to take data generated by users of business management software and through predictive and corrective problem solving perform and generate predictive analytics and enabling business collective intelligence; business management software namely computer mobile application software that automate the management of businesses namely, accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics, all available for use on mobile phones, smart phones, smart watches and tablet computers; downloadable computer software for providing a cloud platform offering business management software namely software on a cloud platform that automates the management of businesses namely, accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; computer software that provides real-time, integrated business management intelligence by combining information from various databases in the business management software and presenting it in an easy-to-understand user interface; downloadable computer software that enables the integration of various applications in the field of business management, available through business management software and adapted for use on other platforms namely social media platforms, the cloud and mobile phones, smart phones, smart watches and tablet computers; character recognition software; voice recognition software; speech to text conversion software; global positioning software; computer software with character recognition, voice recognition, speech to text conversion, global positioning and travel directions to facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, chatbots, voice assistants and virtual agents; computer software using artificial intelligence namely automative, predictive and corrective problem-solving computerized applications, for information generated through the use of business management software; downloadable computer software that provides a cloud environment platform enabling users to design and computer software and mobile applications to automate the management of businesses namely, accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; downloadable computer software using blockchain technology, namely collaboration computer program using a peer-to-peer network for document, transaction and information sharing for use in business management; computer hardware sold in connection with business management software namely computer software that automate the management of businesses namely, accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics

**Services****Class 35**

(1) Business management; business management services provided through computer software, computer software for mobile phones, smart phones, smart watches and tablet computers and computer software for cloud platform; business consulting in the field of business networking and subscription management services of business management software to receive updates, instruction, software licenses; business consulting in the field of business networking and subscription management services provided via a computer-based networking web site that facilitate a secure method for the interaction, communication and sharing of information between users of business management software and AI (artificial intelligence) platforms, namely, chat bots, voice assistants and virtual agents; subscription management services that enable users of the business management software to streamline business workflows and business administration; office functions, namely providing accounting, payroll preparation, human resources management, client relationship management, contract management, product and services purchasing, order processing, inventory management, project accounting, expense reporting; business management and organization consultancy; book-keeping; computerized file management; on-line advertising for others on a computer network; rental of advertising time on communication media, namely the Internet, television and radio; publication of publicity texts; rental of advertising space; dissemination of advertising matter for others; public relations services; business management assistance; invoicing; compilation and systemization of information into computer databases; sales demonstration for others on an Internet website; electronic shopping retail services connected with financial management software, business management software and information management software and hardware; operating an electronic marketplace for business management software applications on a global computer network; providing business information in the field of human resources, enterprise resource planning, and client relationship management

**Class 36**

(2) Financial affairs, namely providing financial analysis, financial planning and investment advisory services and financial evaluation services via business management software; office functions, namely, electronic processing of bill payments, cash and foreign exchange transactions, credit card transaction processing services, budgeting services and financial planning services, financial analysis services, cash management; payment processing services, namely processing of credit card and debit card payments and bank account debits and credits via a software for business accounting and payments; electronic payment processing services, namely processing electronic payments made through credit cards and debit cards and bank account debits and credits via a software for business accounting and payments; providing information in the field of financial analysis from a computer database

**Class 38**

(3) Providing access to a computer database in the field of financial analysis, human resources, enterprise resource planning, and client relationship management

**Class 42**

(4) Computer programming; computer programming for mobile phones, smart phones, smart watches and tablet computers; providing temporary use of non-downloadable software in the field of accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; provision of software services from a computer database or the

Internet in the field of accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; provision of online software services in the field of accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; Software-as-a-Service (SaaS) provider in the field of accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; Software-as-a-Service (SaaS) services featuring software platform for business email and instant messaging and execution of business processes in the field of accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; hosting platforms in the Internet; hosting online web facilities for others for sharing online content; hosting a website for businesses that enables collaboration, message control, and bots, to provide a secure method for persons to communicate and share information with others; cloud computing providing software for business accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; design, analysis, installation, configuration, maintenance, upkeep, updating, development and providing temporary use of non-downloadable computer software for business accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; design, analysis, installation, configuration, maintenance, upkeep, updating, development and providing temporary use of non-downloadable computer software for use on mobile phones, smart phones, smart watches and tablet computers in the field of business accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; design, analysis, installation, configuration, maintenance, upkeep, updating, development and provision of a cloud platform in the field of business accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; computer software consultancy, design, programming and development relating to artificial intelligence for business data processing; providing temporary use of non-downloadable computer software in the nature of a collaboration platform for business intelligence and predictive analytics in the field of business accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; providing temporary use of on-line non-downloadable computer software application development tools, and data processing systems; cloud computing provider services for the general storage of data; rental of computers, software for data processing apparatus, software and computer time

sharing services for business accounting, payroll, payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; leasing of computers and computer programs for business accounting, payroll, payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; website hosting services; website maintenance; computerized analysis of data and information in the field of accounting, payroll, electronic bill payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and financial planning, financial analytics; providing scientific and technological research, consultancy and information services in relation to computer software, data processing programs, computer databases, Internet websites, information technology and computer software project management services for business accounting, payroll, payments, financial transactions, human resources, cash and resource management, client relationship management, contract management, purchasing, order processing, inventory management, project accounting, expense reporting, budgeting and planning, financial analytics; data conversion of computer programs and data (not physical conversion); conversion of data or documents from physical to electronic media; computer systems analysis; recovery of computer data; duplication of computer programs; technical consultation on software; technical support to the detection of software defects and correction of said defects; support line namely support to the use, detection and correction of software defects.

### Goods

#### Class 01

(1) Ion exchange resins, compounds and compositions; reagent grade water, namely, pure water; ultrapure water; distilled water; distilled water for reagents; chemicals, namely, water purifying chemicals used in biochemical kits, namely, PCR kits, immunoassay kits and genomic sample preparation kits; purification preparations, namely, chemicals for the purification of water; chemicals for water purification; reagent for water quality; chemical preparations for water purification; buffering agent for bio-chemical experiments and purification (chemical preparations not for medical or veterinary purposes); chemical preparations for biochemical experiments and purification (chemical preparations not for medical or veterinary purposes); chemicals for scientific analysis, namely fluorescent compounds and markers; affinity chromatography media (not medical); cell reagents for laboratory purposes; microorganism media for incubating cells, which are used for research; serum reagents for incubating cells, which are used for research; reagents for incubating cells, which are used for research.

#### Class 07

(2) Machines for removing contaminants from water and liquid, namely, from tap and groundwater; filters, namely, depth filters, absolute filters, ultrafiltration filters, reverse osmosis filters; cartridges for filtering machines for water purification; pumps, namely, distribution pumps, reverse osmosis pumps, booster pumps; liquid dispensers; mechanical pressure adjusting valves; pressure valves (parts of machines); pumps for filtering machines (parts of machines); apparatus and instruments for laboratories, namely, water monitoring instruments, total organic carbon monitors, resistivity monitors, water storage tanks.

#### Class 09

(3) Scientific apparatus and instruments, laboratory apparatus and instruments, measuring apparatus and instruments for laboratory use, namely, machines and equipment for production of pure and ultrapure water for laboratory and scientific use; ultrafiltration membranes for removing contaminants from water and liquids; ion exchange instruments; total organic carbon monitor for water; electronic monitor for determining the total organic content in water; water quality analyzing apparatus, namely, water monitoring instruments, total organic carbon monitors, resistivity

monitors, water storage tanks; purifying apparatus, namely, water and air purifying installations for laboratory use; water purification installations for laboratory use; devices, namely, water purification installations for making pure-water from tap water which are used for biochemical analysis; water purification units; filters and filtering units for laboratory use, namely, depth filters, absolute filters, ultrafiltration filters, reverse osmosis filters; filter cartridges for the removal of particulates, bacteria, colloids and microorganisms from gases and liquids for laboratory use; charcoal filters; filter used to remove endocrine disrupter molecules from water; purification units for laboratory use for removing contaminants from liquids; leak detector; filter used to remove endocrine disrupter molecules from water; filters for filtering solutions used in the semiconductor industry; compact ultrapure water manufacturing machines and equipment used for laboratory purposes; pure water and ultrapure water production machines and equipment for laboratory use; reverse osmosis instruments for laboratory use; all being for scientific use; installations and machines for filtering and purifying water and their components for scientific use; filters for removing RNase and DNase from liquids; kits for use in genomic research; immunoassay test kits for research, investigational and diagnostic use; software, namely, asset management software, remote diagnostic support software, monitoring software, maintenance software; ultrafiltration filters for laboratory use; computer software for remote diagnosis of water purification equipment; ultraviolet sterilizers for filter holder between filtrations and for water supplies for laboratory and scientific use; membrane filters for laboratory and scientific use; water quality analyzer; purification cartridge comprised of ion exchange resin, for laboratory use in removing contaminants from water; effluent treatment apparatus and instruments for neutralization of effluents produced by lab equipment; filters for filtering solutions used to plate semiconductors with copper.

#### **Class 10**

(4) Pure water and ultrapure water production units for medical use; filtration instruments all for removing RNase and DNase from liquids; ultrafiltration membranes, samplers, for use in medical treatment, namely, dialysis and vaccines; filter cartridges for the removal of particulates, bacteria, colloids and microorganisms from gases and liquids for medical use; cartridge filters of medical machines for destroying microorganisms, bacteria in the air and the liquid; filtration instruments and cartridges for the preparation of biological samples, parts and fittings of the aforesaid goods.

#### **Class 11**

(5) RO water purifiers; cartridges for RO water purification apparatus and water filtering apparatus; water purification apparatus; water filtering apparatus, and a holder therefor sold as a unit; regulating and safety accessories for water apparatus, namely, leak detectors, alarm systems, storage tanks, electrical shut off boxes, water purification valves; water purifiers for clinical analyzers; cartridges for water purification apparatus and water filtration apparatus; water and liquid purification units, systems, and instruments; filters, filter cartridges, filter housings and parts thereof; ultrafiltration membranes and filters to remove biological material, RNase, DNase, enzymes and peptides from water; cartridges for removal of contaminants from water and liquids; filters and membrane absorbers for trace contaminant removal; filtration and purification devices, namely, industrial air purifiers, reverse osmosis water purification units, ultraviolet light (UV) water purification device, water filtering units for industrial use; filters for removing contaminants from water; filters and membrane absorbers for filtering solutions used in clinics; water purification units; sterilizing grade filter cartridge unit for use in the pharmaceutical, biopharmaceutical and food and beverage industries; apparatus for sterilizing and purifying, namely, sterilizers for water treatment; water purification systems; regulating accessories for water apparatus, namely, leak detectors, alarm systems, storage tanks, electrical shut off boxes; filters to remove biological material, RNase, DNase, enzymes and peptides from water; ultra-filtration water filter used to remove RNase, DNase and pyrogens from water for use by scientist in laboratories to prevent any

interference in experiments using such water; pretreatment packs, namely, filter cartridges for the removal of particulates, bacteria, colloids and microorganisms from gases and liquids for laboratory use; reverse osmosis pure water machine; cartridges for reverse osmosis pure water machine; filters used for removing endocrine disrupting molecules from water; filters used for water purification devices; water sterilizers; filtering units for laboratory use; water purification installations; point of use purified water dispenser; filters for filtering solutions used in the semiconductor industry; pure water manufacturing devices and their filters; water conditioning units; water purification equipment for analytical grade water; ultraviolet ray lamps, not for medical purposes; ultraviolet sterilization water dispenser; water supply pipes and parts and fittings for the aforesaid goods

**Services****Class 35**

(1) Management, administration and update of databases, including online databases; systemization and compilation of information into computer databases.

**Class 41**

(2) Teaching and educational services on water purification technologies.

**Class 42**

(3) Design, development and maintenance of software, software tools, software packages and databases, installation and updating of software, software tools and software packages, computer programming; design and development of computer hardware.

**Application Number** 1,866,786  
**Language of Application** English

#### Class 10

(1) Medical and veterinary devices, namely magnetic bracelets.

#### Class 14

(2) Cuckoo clocks, pendulum clocks, wall clocks.

#### Class 15

(3) Musical instruments, namely music boxes.

#### Class 16

(4) Paper and printed goods, namely address labels, announcement cards, baby books, birthday books, birthday cards, book plates, business cards, calendars, cheques, books, Christmas cards, planners, writing stationery, art pictures, art pictures on canvas, art prints, art prints on canvas, framed graphic art reproductions, lithographic prints, lithographic works of art, lithographs, printed art reproductions, framed art pictures, framed art prints, graphic art prints, and graphic fine art prints.

#### Class 17

(5) Rubber and rubber goods, namely rubber figurines.

#### Class 18

(6) Leather and artificial leather goods, namely wallets, handbags, luggage, tote bags, bags, purses, and boxes made of imitation leather.

#### Class 19

(7) Non-metallic building materials, namely garden ornaments.

#### Class 20

(8) Furniture, namely wall plaques made of wood composite or resin, display cases, bedroom furniture, birdhouses, book cases, book stands, bookrests, boxes of wood and plastic, bulletin boards, cabinet work, coffee tables, console tables, dining room furniture parts, end tables, stuffed

animals, tables, tea carts, toy chests, tray tables, wood carvings, hanging wall art, figurines made of resin, architectural models, and leather and artificial leather goods, namely display cases; wooden address and welcome plaques, and resin address and welcome plaques.

**Class 21**

(9) Household goods and glass, namely bird cages, bird feeders, boxes of glass or ceramic, ceramic mugs or steins, cookware, decorative figurines of glass or ceramic, decorative plates, diffused reflection glass, dinnerware, food storage containers, incense burners, painted glassware, signboards of porcelain or glass, teapots, boxes of glass, glass or ceramic tankards, stained glass figurines, porcelain eggs, porcelain figurines; resin figurines; framed decorative glass.

**Class 24**

(10) Textiles and textile goods, namely banners, flags, place mats, table cloths, table runners.

**Class 25**

(11) Clothing, footwear, headgear, namely socks, athletic apparel, athletic footwear, shoes, boots, baby clothing, baby shoes, casual clothing, casual leather clothing; casual footwear, hats, jackets, shirts, and pants; leather and artificial leather goods, namely casual clothing and accessories, namely, belts, shoes, and gloves.

**Class 26**

(12) Artificial Christmas wreaths.

**Class 27**

(13) Floor coverings and wall hangings, namely decorative wall hangings not of textile, tapestries, textile wallpaper.

**Class 28**

(14) Games, toys, playthings, and sporting articles, namely Christmas tree ornaments and decorations, artificial Christmas trees, snow globes, toy trains, toy train sets and accessories, model toy vehicles and related accessories, toy replica football and racing helmets, action figure play sets, action figures and accessories, board games, dolls and doll accessories, doll clothing, doll furniture, doll houses, Easter eggs, footballs, Halloween play sets, mechanical toys, model airplanes, plush dolls, plush toys, plush animals, toy model kits, toy models, and toys for pets; musical decorations for Christmas.

**Class 34**

(15) Smoker's articles, namely cigar and cigarette lighters; tobacco; matches.

#### Class 09

(1) Software and computer network and telecommunications hardware providing wireless high speed internet access for receiving, processing, and transmitting voice messages and phone calls, video chat, user generated videos, streaming audio and video such as music, movies, television shows, music videos, news and sports webcasts and wireless signals, satellite and computers, namely, antennas, transceivers, modems, routers, wireless routers, digital signal processors, integrated circuits, very small aperture terminals (VSAT), computer operating hardware and software used to operate computer network and telecommunications hardware providing wireless high-speed internet access, for receiving, processing, and transmitting voice messages and phone calls, video chat, user generated videos, streaming audio and video such as music, movies, television shows, music videos, news and sports webcasts, wireless signals, satellite and computers, namely, antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, call processors, integrated circuits, very small aperture terminals (VSAT), computer operating hardware, satellite dishes, broadband wireless access points.

(2) Software applications for providing streaming capabilities on portable MP4 players, MP3 players, portable DVD players, tablet computers, portable laptop computers, smart phones and mobile phones; cameras; telecommunications equipment namely antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, satellite dishes, computer networks, call processors, telephones, smart phones, cellular telephones, computers, laptop computers, tablet computers, broadband wireless access points, computer network switches, digital voice signal processors, smart terminals, audio speakers, computer speakers, loud speakers, speakers for computers; portable media players, namely portable MP4 players, MP3 players, portable DVD players, tablet computers, portable laptop computers, smart phones and mobile phones, earbuds, smart watches, wearable activity trackers, smartglasses, wearable video display monitors; handheld computers; mobile telephones; cellular telephones; accessories for portable media players and mobile devices namely headphones, earbuds with microphones, battery chargers for portable media players, and mobile

devices namely portable mp4 players, mp3 players, portable dvd players, tablet computers, portable laptop computers, smart phones and mobile phones, electric storage batteries, bags and cases specially adapted for holding or carrying portable media players and mobile devices namely portable mp4 players, mp3 players, portable dvd players, tablet computers, portable laptop computers, smart phones and mobile phones.

## **Services**

### **Class 35**

(1) Retail and online store services featuring cameras and telecommunications and information technology goods namely antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, satellite dishes, computer networks, call processors, telephones, smart phones, cellular telephones, computers, laptop computers, tablet computers, broadband wireless access points, computer network switches, digital voice signal processors, smart terminals, audio speakers, computer speakers, loud speakers, speakers for computers.

### **Class 36**

(2) Financial services, namely financial exchange of data between financial institutions and their customers provided by mobile telephone connections; online financial services, namely financial exchange of data between financial institutions and their customers accessible by means of downloadable mobile applications; financial transaction services, namely, providing secure commercial transactions and payment options using a mobile device at a point of sale.

(8) Providing extended warranties on computer and Internet equipment and cameras and telecommunications equipment namely antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, satellite dishes, computer networks, call processors, telephones, smart phones, cellular telephones, computers, laptop computers, tablet computers, broadband wireless access points, computer network switches, digital voice signal processors, smart terminals, audio speakers, computer speakers, loud speakers, speakers for computers.

### **Class 37**

(9) Repair of computer systems, computer peripherals, Internet access hardware equipment, namely cameras and telecommunications equipment namely antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, satellite dishes, computer networks, call processors, telephones, smart phones, cellular telephones, computers, laptop computers, tablet computers, broadband wireless access points, computer network switches, digital voice signal processors, smart terminals, audio speakers, computer speakers, loud speakers, speakers for computers.

### **Class 38**

(3) Wireless high speed internet access services; telecommunications services, namely, providing voice over Internet protocol telephone services, teleconferencing services, telecommunications gateway services, namely providing multiple user access to a broadband Internet network, and secure transmission of encrypted computer files via the Internet and telephone lines.

(4) Telecommunications gateway services, namely providing multiple user access to a broadband Internet network; Telecommunications network management services, namely, the operation and administration of telephone networks, Internet networks, and broadband computer networks for others; Rental of telecommunications equipment namely antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, satellite dishes, computer networks, call processors, telephones, smart phones, cellular

telephones, broadband wireless access points, computer network switches, digital voice signal processors, smart terminals; Leasing of telecommunications equipment namely antennas, transceivers, modems, routers, wireless routers, digital signal processors, computer network processors, satellite processors, satellite dishes, computer networks, call processors, telephones, smart phones, cellular telephones, broadband wireless access points, computer network switches, digital voice signal processors, smart terminals; Telecommunication services, namely, providing wireless telephone services, voice messaging services, voice mail services, voice over Internet Protocol services, Internet telephony services, local telephone service, long distance telephone services, advanced calling features, call waiting, call identification, call forwarding, and message waiting features; Telecommunication services, namely, providing Internet access via fibre optic broadband networks, wireless broadband networks or satellite, including transmission of video chat, user generated videos, and streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts, electronic mail and text messaging services and electronic voice messaging services; streaming of audio and video via the internet featuring music, movies, news, and sports; Internet of things telecommunication services, namely the interconnection via the Internet of computing devices embedded in everyday objects, enabling them to send and receive data, through an Internet Protocol network.

**Class 41**

(5) Rental of cameras; rental of audio speakers, computer speakers, loud speakers, speakers for computers; leasing of cameras; leasing of audio speakers, computer speakers, loud speakers, speakers for computers; entertainment services, namely, the provision of non-downloadable ringtones, pre-recorded music, and graphical images through a smart phone or tablet computer via a global computer network and wireless broadband networks.

**Class 42**

(6) Installation and maintenance of software and hardware providing wireless high speed internet access; web-site hosting services, namely, acquisition of domain name, housing, servicing and maintenance of files for web-sites; electronic mail hosting services, namely, e-mail account set-up, anti-virus scanning, message management, e-mail retrieval and support; repair of Internet access software.

(7) Computer software development in the field of mobile applications; Rental of computers, laptop computers, tablet computers; leasing of computers, laptop computers, tablet computers.

### Goods

#### Class 03

(1) Hair care preparations, beauty care cosmetics, cosmetic skin care preparations, nail care preparations, pre-shave and after shave preparations, cosmetics, makeup remover, all-purpose cotton buds, swabs and sticks for personal use, sunscreen, fragrances, disposable wipes impregnated with cleansing compounds for use on the face

#### Class 05

(2) Protein powders for meal replacement as a dietary supplement, vitamin and mineral dietary supplements, adhesive bandages

#### Class 06

(3) Metal bicycle locks, metal locks for lockers

#### Class 08

(4) Disposable razors and electrics; electric hair curling iron, electric hair straightening iron

#### Class 09

(5) Sunglasses, sunglasses cases, cords and chains for sunglasses, battery chargers for mobile phones, carrying cases for cell phones, laptop bags and laptop sleeves, earphones and headphones, pedometers, wearable activity trackers

#### Class 10

(6) Heart rate monitors

#### Class 11

(7) Electric hair dryers

#### Class 12

(8) Panniers and saddle bags for bicycles

#### Class 18

(9) All purpose sport bags; all-purpose carrying bags; athletic bags; backpacks, book bags, sports bags, bum bags, wallets and handbags; bags for sports; carry-all bags; duffle bags for travel; gym bags; kit bags; gym bag and sports bag packing organizers

**Class 21**

(10) Water bottles, makeup and bath sponges, loofahs for bathing, hair brushes

**Class 22**

(11) Laundry bags

**Class 24**

(12) Bath towels, sport towels, cloth towels

**Class 25**

(13) Athletic clothing, casual clothing, footwear namely athletic shoes, casual shoes, boots, sandals, slippers and thongs, headwear namely hats, caps, visors, headbands and toques, underwear, gloves, socks

**Class 26**

(14) Hair elastics, hair scrunchies, hair clips, hair ties, hair wraps

**Class 27**

(15) Yoga mats

**Class 28**

(16) Skipping ropes, resistance bands, yoga blocks, bags adapted for use with sports equipment

**Class 29**

(17) Milk based and fortified soy and other milk substitute beverages namely protein shakes, soy-based beverage for use as a milk substitute; oat milk, nut based snack food, fruit and nut snack bars

**Class 30**

(18) Teas, energy bars, granola, rice, corn and oat based snack food, energy bars containing protein, granola bars, fruit gels and edible fruit pulps for energy

**Class 32**

(19) Nonalcoholic beverages namely, smoothies, nonalcoholic beverages namely, flavored water and fruit flavoured carbonated drinks, energy drinks, soft drinks, fruit juices, drinking water with vitamins; bottled water

**Services****Class 35**

Retail store services, both online and direct, in the field of clothing, footwear, headwear, sporting goods, cosmetics, skin and hair care products, sports bags, and sports nutrition; retail store reward programs

**Application Number** 1,903,702  
**Language of Application** English

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The design is in a gradient of blue (from 10276 C to 2197 CP).

### Goods

#### Class 09

Scientific apparatus and instruments, namely portable monitoring and traceability devices for the wireless collection, transmission and storage on remote servers of data, measurements and events, including heart rate, breathing, liquid retention in lungs, body temperature, number of movements and body position.

### Services

#### Class 42

(1) Scientific and technological services, namely scientific research, analysis and testing in the field of portable monitoring devices for the wireless collection, transmission and storage on remote servers of data flows, medical measures and clinical events for the display, measure and uploading to the Internet of information, , including heart rate, breathing, liquid retention in lungs, body temperature, number of movements and body position; industrial analysis and research services in the field of chronic pathologies; scientific and medical research and development in the

field of portable monitoring devices for the wireless collection, transmission and storage on remote servers of data flows, physiological parameters, medical measurements and clinical events for the display, measure and uploading to the Internet of information, , from heart rate, breathing, liquid retention in lungs, body temperature, number of movements and body position; provision of information and data related to research and development in the field of chronic pathologies; research and development of new products for others.

**Class 44**

(2) Medical services, namely medical diagnostic services; medical assistance, namely remote medical assistance services; hospital services, provision of medical information in the field of chronic pathologies; remote assessment and monitoring services related to the health condition of a patient, namely telemedicine services; health assessments, namely medical testing for diagnostic or treatment purposes.

**Class 45**

(3) Security services for the protection of property and individuals.

#### Class 09

(1) Computer hardware; computer software for operating an autonomous car; computer software for vehicle navigation, namely, positioning software and equipment and global positioning systems for autonomous car navigation; computer software for vehicle fleet management; computer software for coordinating, scheduling, booking, and dispatching vehicles for passenger and freight transport; computer software for managing freight transportation by truck and autonomous cars; navigation apparatus for vehicles in the form of vehicle sensors and onboard computers; electric and optical navigational instruments, namely, cameras, sensors, namely, distance sensors, proximity sensors, LiDAR sensors, radar sensors, and sensors for determining the presence, location, speed, and heading of objects, and ultrasonic detectors; steering apparatus, automatic, for vehicles, namely, computer hardware and operational software for steering autonomous cars; radar apparatus, namely, radar antennas, radar receivers, radar detectors, and radar transmitters; laser device for sensing distance to objects, namely, laser rangefinders; laser measuring systems consisting of electronic distance measuring equipment, namely, rangefinders and optical equipment, namely, optical distance meters, optical rangefinders, cameras, and video displays to measure light reflectivity, generate global positioning system (GPS) data points, and detect distance to objects; laser object detectors for use on vehicles; lasers for measuring purposes consisting of electronic distance measuring equipment, namely, rangefinders and optical rangefinders; lidar apparatus integrating GPS and geographical maps, triangulation systems, on-line communications networks on the Internet, inertial measurement unit systems, scanning lasers, and cameras and video recorders; sensors, namely, temperature and environmental sensors for determining the presence of objects in the environment and the speed, trajectory, and heading of objects; vehicle sensors in the nature of sensors for determining the presence of objects in the environment and the speed, trajectory, and heading of objects; sensors for determining position, velocity, direction, and acceleration of land vehicles, namely, automobiles, trucks, freight vehicles in the nature of automobiles, and mass transit vehicles in the nature of buses; downloadable mobile applications for coordinating passenger transportation services; downloadable mobile applications for coordinating, scheduling, booking, and dispatching vehicles for delivering passengers and freight transport; computer software and hardware for vehicle fleet launching, coordinating, calibrating, directing, and managing fleets of autonomous land vehicles; cameras;

cameras for use with vehicles; computer hardware and software for operating vehicle cameras; computer software, namely, software for implementing a computer programming language and computer software development tools, namely, computer software code for performing numerical computation using data flow graphs, for use in the fields of artificial intelligence, machine learning, and deep learning; computer programs and software for data management using artificial intelligence, machine learning, and deep learning; computer operating recorded programs and software for analyzing and predicting contextual prediction and personalization for use in the fields of artificial intelligence, machine learning, and deep learning; computer software libraries for building graphbased models for use in general purpose computation of large datasets for use in the fields of artificial intelligence, machine learning, and deep learning; computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, and deep learning; software development kits comprised of computer software for developing computer software and application programming interfaces software (API), namely, for use in developing applications and programs for use in managing, controlling and tracking fleets of autonomous land vehicles; computer software and hardware for use on computers and mobile devices for use in operating fleets of autonomous land vehicle systems

### **Class 12**

(2) Land vehicles, namely, automobiles, trucks, freight vehicles in the nature of automobiles, and mass transit vehicles in the nature of buses; autonomous cars; autonomous vehicles, namely, automobiles, trucks, freight vehicles in the nature of automobiles, and mass transit vehicles in the nature of buses; vehicle parts and fittings, namely, structural parts for automobiles, steering wheels for land vehicles, and steering parts thereof; vehicle equipment and hardware, namely, roof boxes for vehicles; vehicle safety detection equipment and hardware, namely, cellular radio modules, sensor covers, indicator lights for indicating speed, objects, and the speed, trajectory, and heading of objects, transmitters and receivers of electronic signals, and brake controllers; vehicle anti-theft and security equipment, namely, anti-theft alarms for vehicles

### **Services**

#### **Class 37**

(1) Installation, updating, and maintenance of computer hardware for use with vehicle on-board computers for monitoring and controlling motor vehicle operation

#### **Class 39**

(2) Transportation services, namely, making reservations and bookings for passenger transportation; transportation of passengers by autonomous automobiles; transportation services, namely, providing temporary use of vehicles, namely, automobiles; transportation services, namely, providing vehicle fleet management in the nature of fuel management services for vehicles, autonomous vehicle management, business management for autonomous vehicles, and tracking, locating, and monitoring services for autonomous vehicles; passenger transportation services, namely, travel by autonomous vehicles, namely, automobiles, trucks, freight vehicles in the nature of autonomous automobiles, and mass transit vehicles in the nature of autonomous buses; car rental services; passenger transportation reservation services, namely, reservation and booking of seats for travel; freighting services, namely, freight brokerage, freight forwarding by autonomous vehicles, and freight loading services; freight transportation by autonomous trucks and autonomous vehicles, namely, autonomous cars, trucks, and freight vehicles in the nature of autonomous automobiles; transportation of passengers and freight by autonomous automobiles, trucks, freight vehicles in the nature of autonomous automobiles, and mass transit vehicles in the nature of autonomous buses; passenger transport by autonomous automobiles, trucks, and mass transit vehicles in the nature of autonomous buses; providing a website, namely, information

regarding autonomous car transportation services and scheduling transportation services; freight logistics management consisting of the storage and transportation of goods and others by autonomous vehicles, namely, autonomous automobiles, trucks, freight vehicles in the nature of autonomous automobiles, and mass transit vehicles in the nature of autonomous buses; leasing of automobiles; transport and delivery of goods by autonomous automobiles, trucks, freight vehicles in the nature of autonomous automobiles, and mass transit vehicles in the nature of autonomous buses; supply chain logistics and reverse logistic services, namely, storage, transportation, and delivery of goods for others via autonomous land vehicles; transportation services, namely, coordinating the pickup and dropoff of passengers at designated or directed locations by autonomous vehicle

#### **Class 42**

(3) Providing online non-downloadable software for transportation services, namely, coordinating, booking, and dispatching autonomous vehicles, namely, automobiles, trucks, freight vehicles in the nature of automobiles, and mass transit vehicles in the nature of buses; providing online non-downloadable software for coordinating freight transportation by truck and autonomous vehicles, namely, cars, trucks, and freight vehicles in the nature of automobiles; research and development into autonomous cars; research, design, and development of computer hardware and software for use with autonomous land vehicles' on-board computers for monitoring and controlling motor vehicle operation; research, design, and development of computer hardware and software for autonomous land vehicles' coordination, navigation, calibrating, direction, and management; installation, updating, and maintenance of computer software for use with vehicle on-board computers for monitoring and controlling motor vehicle operation; research, design, and development of new products consisting of sensors, namely, distance sensors, infrared sensors, optical sensors, proximity sensors, LiDAR sensors, radar sensors, temperature sensors, sensors for determining the presence, location, speed, and heading of objects and structural parts therefor; software as a service (SaaS) services featuring computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, and deep learning; advanced product research, design, and development in the field of artificial intelligence for autonomous land vehicles

# NUVIATECH

### Trademark Type

Word

### Foreign Character Translation

NUVIATECH is a coined term.

### Goods

#### Class 09

(1) Protective and safety equipment, namely fire protective clothing, clothing for protection against chemicals and radiation, insulated clothing for protection against accidents and injuries; security alert apparatus, namely security and fire alarms, fire alarms, alarms for the detection of inflammable gases, seismic detectors, carbon monoxide and dioxide detectors, fire and smoke detectors, gamma radiation detectors; measuring apparatus and instruments, namely particle counters for measuring air quality, electromagnetic measuring detectors, gas flow monitors, water level indicators; signalling apparatus and instruments, namely signalling apparatus to monitor risks of seismic disturbances, floods, gas leaks, fire and smoke, of high levels of radioactivity in the air, namely signal lights, digital signage monitors, alarms for the detection of inflammable gases and fire alarms; monitoring apparatus and instruments, namely monitors to measure radioactive contamination and radioactive waste, monitors for waste water, monitors for seismic activities, monitors to measure air quality; apparatus and instruments for checking and inspection, namely cameras for monitoring and inspecting equipment in a nuclear power station, optical sensors for inspecting and measuring industrial components, electronic sensors for controlling radioactivity levels, water levels, air quality and soil movement; fire detectors; fire suppression systems, namely fire sprinklers; fire alarms; fire sensors; fire sprinklers; water-level detectors; alarms for detecting water leaks; seismic detectors; nuclear detectors for radiation particles, namely gamma radiation detectors; spectrometers with nuclear resonance other than for medical use; Geiger counters.

#### Class 11

(2) Nuclear installations being nuclear reactors and parts for nuclear reactors, namely nuclear generators, steam generators, pressure water tanks, heat pumps, water filters for industrial use, air filters for air conditioning units, water heaters, wind turbine ventilators, barometric condensers to condensate vapours by contact with liquids, refrigeration condensers; installations for processing nuclear moderators and fuels being nuclear reactors and parts for nuclear reactors, namely

nuclear generators, steam generators, pressure water tanks, heat pumps, water filters for industrial use, air filters for air conditioning units, water heaters, wind turbine ventilators, barometric condensers to condensate vapours by contact with liquids, refrigeration condensers; apparatus for heating nuclear power plants, namely industrial boilers and automatic temperature regulators for radiators for central heating, for steam generation, for heat exchange, heat and steam accumulation, heat and steam regulation and ventilation intended for nuclear plants and reactors, for electric biomass plants, for storage, isotope fractionation, treatment, reprocessing and recycling plants and centres for combustible fuels, ores, nuclear materials, uranium, plutonium and nuclear waste.

### **Class 17**

(3) Packing materials; stopping materials; insulation and protection goods and materials, namely insulating refractory materials, mineral wool for building insulation; fire resistance and protection goods and materials, namely mineral wool for building insulation, fireproof insulating fabrics; fireproof fabrics for building insulation and fire protection; mineral wool for insulation and protection against fire; goods and materials for insulation against water and humidity, namely fibreglass insulation materials for buildings, electrical insulation, thermal insulation, insulating varnishes; insulators for the production, the transport and the distribution of nuclear power.

### **Services**

#### **Class 37**

(1) Building construction services; rental of construction equipment; construction, reparation and reinforcement of civil engineering works and of buildings; repair and maintenance of construction and civil engineering structures; installation, repair, servicing and maintenance of security alarms and fire alarms; installation of fire detection systems; advisory services related to the installation of fire prevention equipment; application of flame retardants; installation of systems for the drainage of rain water; construction, namely sealing services; application of waterproofing floor coverings on buildings; waterproofing and reinforcement of structures in the field of buildings and public works; repair and maintenance of nuclear power plants; installation, repair, servicing and maintenance of equipment and apparatus in the field of nuclear power, namely nuclear generators, steam generators, pressure water tanks, heat pumps, water filters for industrial use, air filters for air conditioning units, water heaters, wind turbine ventilators, barometric condensers to condensate vapours by contact with liquids, refrigeration condensers.

#### **Class 42**

(2) Technical design services, namely civil engineering drawing services; drafting of construction plans; technical project studies, namely engineering services in the form of engineering and design of power plants and industrial sites; technical advice regarding fire prevention; design of engineering works for the prevention of floods; recording of seismic data; monitoring of quality control of seismic procedures; monitoring, control and inspection, namely topographical survey services in radiation zones; advice regarding the security of nuclear facilities; nuclear engineering services; nuclear engineering advisory services; testing of nuclear materials; performance of appraisals, reports, studies, analyses, design of engineering concepts and preliminary designs, in particular in the field of nuclear, energetic, environmental and security technologies, namely technical consulting in the nuclear field; quality control and supervision in the nuclear field; implementation of measures for protection against radiation, namely measurement services for nuclear radiation; measure and assessment of the contamination state of installations, buildings and open spaces, namely technical consulting in the field of the detection of pollution in soil, waste, water, air, and building walls, floors and roofs; research and development, for others, related to new measuring, control and inspection apparatus and instruments in the nuclear field;

advice, expertise and testing related to materials in the field of nuclear power; pollution risk prevention services related to activities in the field of nuclear power; environmental studies, namely research related to pollution prevention, research in the field of environmental protection; design of buildings in a controlled environment; monitoring and control services for nuclear installations; civil engineering related to prevention of floods in buildings during high water episodes; civil engineering related to prevention of floods in land during high water episodes.

### Trademark Type

Design

### Visual Representation

### Trademark Description

The trademark consists of a bottle having an entirely black surface. The expression RARE CHAMPAGNE is black. The term RARE, the patterns below it and the capsule of the bottle are golden, as shown on the design. The trademark is a two-dimensional mark. The representation of the bottle in dotted lines is not part of the trademark and is only included to indicate where the trademark is located on the bottle. The trademark consists of the term RARE and of patterns in the bottom part of the bottle, and of the expression RARE CHAMPAGNE which is set at the very bottom of the bottle.

### Colour Claim

Colour is claimed as a feature of the trademark. The capsule is golden. The term RARE and the patterns in the bottom part of the bottle are golden on a black background.

### Goods

(1) anti-glare filters for computer monitors; anti-glare filters for televisions and computer monitors; arm rests for use with computers; augmented reality software for creating maps; BIOS [basic input/output system] software; black box data recorders for airplanes; blank computer discs; blank discs for computers; blank floppy computer discs; blank hard disks for computers; car navigation computers; card punching and sorting machines for data processing; carrying cases adapted for computers; carrying cases for notebook computers; carrying cases specially adapted for computer printers; cases adapted for computers; cases adapted for netbook computers; cases adapted for notebook computers; CD drives for computers; CD-ROMs containing computer games; clock generators for computers; communications computers; compact disc drives for computers; compact discs containing computer games; computer accelerator boards; computer bags; computer buffers; computer cables; computer card adapters; computer carrying cases; computer cases; computer central processing units; computer chassis; computer chips; computer chipsets; computer chipsets for use in transmitting data to and from a central processing unit; computer communications software to allow customers to access bank account information and transact bank business; computer daughterboards; computer disc drives; computer disk/disc drives; computer display monitors; computer display screens; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer expansion boards; computer fax modem cards; computer fingerprint imaging software; computer fingerprint scanning software; computer game cartridges; computer game cassettes; computer game tapes; computer games; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer graphics boards; computer graphics cards; computer hardware; computer hardware and computer software for database management; computer hardware and software for database management; computer hardware and software for setting up and configuring local area networks; computer hardware for network access servers; computer hardware for telecommunications; computer heat sinks; computer interface boards; computer interface cards; computer joysticks; computer keyboards; computer keypads; computer memory expansion modules; computer mice; computer monitor frames; computer monitors; computer motherboards; computer motherboards and daughterboards;

computer mouse; computer mouse mats; computer mouse pads; computer network adapters; computer network adaptors; computer network bridges; computer network hubs; computer network hubs, switches and routers; computer network routers; computer network server; computer network switches; computer network-attached storage [NAS] hardware; computer networking hardware; computer operating programmes; computer operating programs; computer operating recorded programs; computer operating system software; computer operating systems; computer parallel ports; computer power supplies; computer printers; computer programmes for document management; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer programs for connecting to remote computers and computer networks; computer programs for processing digital music files; computer programs for searching remotely for content on computers and computer networks; computer programs for searching the contents of computers and computer networks by remote control; computer programs for using the Internet and the World Wide Web; computer programs used for electronic cash register systems; computer scanners; computer screen filters; computer screen saver software; computer screen saver software, recorded or downloadable; computer screens; computer screensaver software; computer search engine software; computer serial ports; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for administration of computer local area networks; computer software for assisting developers in creating program code for use in multiple application programs; computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for converting document images into electronic formats; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating searchable databases; computer software for creating, sending and receiving e-mail; computer software for creating video games; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for global positioning systems; computer software for image processing; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in

processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer speakers; computer stands; computer stands specially designed for holding a computer, printer and accessories; computer styluses; computer terminals; computer touch screens; computer touchscreens; computer user manuals in electronic format; computer user manuals in the form of downloadable electronic publications; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for data compression; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers and instructional manuals in electronic format sold as a unit; computers for managing control devices for aircraft; computers for use in data management; covers for tablet computers; credit screening software; data cables; desktop computers; desktop publishing software; disk drives for computers; display screen filters adapted for use with computer monitors; display screen filters adapted for use with tablet computers; dive computers; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to take and edit photographs; downloadable applications for tablet computers to download music, movie and television graphics; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows;; downloadable applications for tablet computers to enable the streaming of music; downloadable applications for tablet computers to read periodicals; downloadable applications for tablet computers to take and edit photographs; downloadable computer desktop wallpaper; downloadable computer games; downloadable computer graphics; downloadable electronic games for use with mobile telephones, handheld computers and tablet computers; downloadable metronome software applications; downloadable music for mobile telephones, handheld computers and tablet computers; downloadable ring tones and graphics for hand-held computers; downloadable ring tones and graphics for tablet computers; downloadable wallpaper for handheld computers; downloadable wallpaper for tablet computers; dust covers for computers; e-commerce software to allow users to perform electronic business transactions via a global computer network; educational software containing topics of instruction in astronomy; educational software containing topics of instruction in math; educational software containing topics of instruction in nutrition; educational software for children; electronic computers; electronic databases containing information in the field of allergies recorded on computer media; electronic databases containing topics related to financial planning recorded on computer media;

electronic databases in the field of dentistry recorded on computer media; electronic databases in the field of financial planning recorded on computer media; electronic databases in the field of language training recorded on computer media; encoded electronic chip cards for identifying particular users of computers and cell phones; encoded electronic chip cards for identifying particular users of computers and mobile phones; expansion boards for computers; external computer hard drives; facial analysis software; facial recognition software; facilities management software to control building environmental access and security systems; fax modem cards for computers; filters for computer screens; firmware for controlling printer ink and data integrity in a printer; flexible flat panel displays for computers; floppy discs drives for computers; gesture recognition software; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; hand-held computers; handheld computers; hand-held personal computers; hard drives for computers; headsets for use with computers; heat sinks for use in computers; instructional software for language training; interactive multimedia computer games; interface boards for computers; interface cards for computers; interface cards for data processing equipment in the form of printed circuits; internal cooling fans for computers; Internet access software; juke boxes for computers; keyboards for computers; lan [local area network] computer cards for connecting portable computer devices to computer networks; LAN (local area network) operating software; LAN [local area network] operating software; laptop computers; lasers to store and retrieve data from CDs and DVDs; local area network [LAN] operating software; local area network operating software; magnetic tape units for computers; microchips for computer hardware; micro-computers; mobile computers; mounting racks adapted for computer hardware; mounting racks for computer hardware; multifunction computer keyboards; multimedia software for teaching language training; multimedia software for teaching piano; music composition software; music-composition software; navigation apparatus for vehicles in the form of on-board computers; navigation computers for cars; netbook computers; network access server operating software; notebook and laptop computers; notebook computer carrying cases; notebook computer cooling pads; notebook computers; operating and user instructions for computers stored in digital form; operating and user instructions for computers stored in digital form on CD-ROM; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; operating software for network access servers; palmtop computers; PDF creation and conversion software; personal computers; pocket computers for note-taking; portable computers; pre-recorded compact discs containing computer games; pre-recorded floppy discs containing spreadsheet software; pre-recorded floppy discs containing word processing software; print heads for computer printers; printers for computers; printers for use with computers; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; protective cases for tablet computers; protective covers for tablet computers; protective films adapted for computer screens; protective films adapted for screens for tablet computers; protective films adapted for tablet computer screens; recorded computer operating programs; screen filters for computers and televisions; security software; smartglasses; software for computer aided design CAD; software for computer aided mechanical design; software for creating photo slide shows; software for creating virtual picture frames; software for creating virtual reality games; software for dosimetry purposes in the field of radiotherapy; software for ensuring the security of electronic mail; software for operating laser altimeters; software for optical character recognition; software to control and improve audio equipment sound quality; speakers for computers; speech analytics software; speech recognition software; stands adapted for tablet computers; tablet computer; tablet computers; thin client computers; touchpads for computers; USB (universal serial bus) operating software; virtual reality software for doctors to perform test surgery; virtual reality

software for movie special effects; virtual reality software for simulating golf game; voice recognition software; VPN (virtual private network) operating software; wan (wide area network) operating software; wireless computer mice; wireless computer mouses; wrist rests for use with computer keyboards; wrist rests for use with computers

### **Class 16**

(2) computer game instruction manuals; computer manuals; computer manuals featuring software encryption algorithms; computer printer ribbons; computer user manuals; inking ribbons for computer printers; paper tapes and cards for the recordal of computer programmes

### **Class 20**

(3) computer furniture; computer furniture parts

### **Class 28**

(4) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; battery-powered computer game with LCD screen; battery-powered computer games with LCD screens; computer game consoles; computer video game joysticks; joysticks for computer games

## **Services**

### **Class 35**

(1) analysis of market research data and statistics; business management services relating to information and data compiling and analyzing; collection of market research information; computer database management services; computer file management; computerised market research services; computerized market research services; conducting business and market research surveys for others; consumer research; consumer research services; customer service in the field of computer servicing; market analysis and research; market analysis and research services; market research by means of a computer database; market research services; market research studies; marketing research; marketing research in the fields of cosmetics, perfumery and beauty products; on-line advertising for others on computer networks; online advertising for others via a computer communications network; on-line advertising the goods and services of others on computer communications networks; operation of a computer database containing job postings; operation of computer equipment store; procurement services in the form of purchasing computer hardware; provision of market research information; public policy research services; retail computer equipment store services; retail sale of computer software; retail services for computer hardware; retail services for computer software; sale of computer software; sales demonstrations of computer hardware; statistical evaluation of data from market studies; statistical evaluation of market research data; statistical evaluations of marketing data; updating and maintenance of data in computer databases

### **Class 36**

(2) computer analyses of stock exchange information; debit account services using a computer readable card; electronic banking via a global computer network; electronic Internet banking via a global computer network; electronic processing and transmission of bill payment data; financial analysis and research services; financial exchange of data between financial institutions and their customers; financial investment analysis and stock research; insurance premium rate computing; processing of insurance claims and payment data; providing extended warranties on computer equipment; venture capital funding services for research institutions

### **Class 37**

(3) computer repair services; installation and repair of computer hardware; installation, maintenance and repair of computer hardware; installation, repair and maintenance of computers; maintenance and repair of hardware for computer networks; maintenance of computer hardware; remanufacture of computers; repair and maintenance of computers; repair of computer hardware; repair of damaged computers

### **Class 38**

(4) leasing access time to a computer database containing legal information; leasing access time to a computer database in the field of community social events; leasing access time to a computer database in the field of cooking; leasing access time to a computer database in the field of job postings; leasing access time to a computer database in the field of university courses; news agency services via a global computer network; providing access to a computer database in the field of cooking; providing access to a global computer network; providing access to a worldwide computer network; providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; providing high speed access to a global computer information network; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple-user access to a global computer information network; providing multiple-user access to a global computer network; providing multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; providing on-line chat rooms and electronic bulletin boards for transmission of messages among computer users; providing online chat rooms and electronic bulletin boards for transmission of messages among computer users; providing on-line chatrooms and electronic bulletin boards for transmission of messages among computer users; providing online chatrooms for transmission of messages among computer users; providing on-line electronic bulletin boards for transmission of messages among computer users; providing user access to a global computer network; providing user access to global computer networks; provision of access to a global computer network; rental of access time to global computer networks; simulcasting broadcast television over global computer networks and the Internet

### **Class 39**

(5) physical storage of electronically stored data or documents; physical storage of electronically-stored data or documents

### **Class 40**

(6) providing custom-built computer workstations

### **Class 41**

(7) analyzing educational tests scores and data for others; computer training; educational research services; entertainment services in the nature of non-downloadable videos and images featuring television shows and movies transmitted via wireless computer networks; operation of a computer database containing movie reviews; operation of a computer database in the field of community social events; organization of seminars, working groups, research groups and conventions, in the field of medicine; photographic computer imaging; providing a web site featuring on-line computer games and information about computer games; providing non-downloadable casino games and video games via wireless computer networks; providing on-line computer games; providing wrestling news and information via a global computer network; publication of electronic newspapers accessible via a global computer network; publication of the editorial content of sites accessible via a global computer network; teaching computer programming; training in the use and operation of computer equipment; vocational education in the field of computers

**Class 42**

(8) advisory services in the field of product development and quality improvement of software; cloud computing enabling file storage of payroll data; cloud computing photo sharing services; cloud computing provider services for general storage of data; cloud computing providing software for database management; cloud computing video hosting web sites; cloud computing web hosting services; computer aided graphic design; computer aided imaging; computer animation production services; computer anti-virus protection services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer hardware design; computer leasing; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming of computer games; computer programming of video games; computer programming services; computer programming services for commercial analysis and reporting; computer rental; computer security consultancy; computer services in the form of filtering unwanted e-mails; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer system design; computer systems design; computer systems integration services; computer systems monitoring services; computer time sharing; computer virus protection services; computer website design; configuration of computer networks; consultancy in the design and development of computer hardware; consultancy in the field of software design; consultation services relating to computer software; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; data decryption services; data encryption and decoding services; data encryption services; data migration services; debugging computer software for others; design and development of computer game software; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computer software for supply chain logistics; design and development of computers; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of virtual reality software; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, development and implementation of software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer databases; design of computer hardware; design of computer programs and software for aircraft dashboards; design of computer sites; design of computers; design of computers for others; design, updating and rental of computer software; design, upgrading and rental of computer software; designing computer software for controlling self-service terminals; designing of computer hardware; developing and updating computer software; developing computer programs for electronic cash register systems; developing computer software; development and creation of computer programmes for data processing; development of computer games; development of computer hardware for computer games; development of computer programs recorded on software designed for use in construction and

automated manufacturing (cad/cam); development of data processing programs by order of third parties; development of software for secure network operations; digital compression of computer data; document data transfer and conversion from one media to another.; document data transfer from one computer format to another; duplication of computer programs; electronic digitizing of photographs into a computer readable media; image processing software design; information on the subject of scientific research in the field of biochemistry and biotechnology; installation and maintenance of computer software; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; installation of computer software; installation, repair and maintenance of computer software; installing computer programs; leasing of computer programs; leasing of computers; maintenance and updating of computer software; maintenance and upgrading of computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; monitoring of computer systems by remote access; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; physics research; platform as a service (PAAS) featuring computer software platforms for use in the field of financial services for trading derivatives; preparation, update, installation and maintenance of computer software; providing information on computer technology and programming via a web site; providing quality assurance in the field of computer software; rental and updating of software for data processing; rental of computer games; rental of computer hardware and computer peripherals; rental of computer software; rental of computers; rental of software for data processing; repair of damaged computer programs; research and development of new products for others; research in the area of semiconductor processing technology; research in the field of physics; research on building construction; research on city planning; research pertaining to mechanical engineering; software as a service (SAAS) provider in the field of providing customer relations management; software as a service (SAAS) provider in the field of software for small business accounting; software design and development; software development in the framework of software publishing; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; testing of computer software; testing of computers; updating and rental of software for data processing; updating of computer programs for third parties; updating of computer software; updating of software for data processing; upgrading of computer software; writing and updating computer software

### **Class 43**

(9) operation of a computer database featuring cooking; operation of a computer database in the field of cooking; providing information in the field of recipes and cooking from a computer database

### **Class 45**

(10) computer assisted litigation support; computer dating services; computer software licensing; consultancy relating to computer software licensing; consultancy relating to the licensing of computer software; consultation in the field of data theft and identity theft; granting of software licences; granting of software licences and granting of licences for industrial property rights; granting of software licenses and granting of licenses for industrial property rights; intellectual property consultancy services for universities and research institutions; legal and judicial research services in the field of intellectual property; legal document preparation and research services for attorneys; legal research; legal research relating to business mergers; legal research relating to intellectual property rights; legal research relating to real estate transactions; legal research services; licensing of computer programmes; licensing of computer programs; licensing of

computer software; licensing of computer software and industrial property rights; licensing of software; providing horoscope information via computer networks; providing information from a computer database about investigation services relating to lost or stolen vehicles; providing information on the development of privacy, security and data governance law from a website; registration of domain names for identification of users on a global computer network; software licensing
