Canada

Trademarks Journal

Vol. 69 No. 3538

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Providing information via a website in the field of career development, leadership skills development, business networking, professional networking, and mentorship for health care practitioners; advertising services, namely advertising events and information of the goods and services of others on a website; Association services for promoting the interests of healthcare professionals, healthcare administrators and nursing students in the fields of patient care, career development, leadership skills development, professional and business networking, professional and business mentorship, and financial management of healthcare facilities; consulting services in the field of career development, leadership skills development, business networking, professional networking for healthcare practitioners.

Class 36

(2) Financial management of healthcare facilities; educational services, namely the provision of scholarships, bursaries, awards, and grants; consulting services in the field of financial management.

(3) Providing information via a website in the field of financial management of healthcare facilities.

Class 41

(4) Organization and conducting conferences, webinars, seminars, meetings, networking events, and classes in the field of patient care, career development, leadership skills development, business networking, professional networking, mentorship of healthcare practitioners, and financial management of healthcare facilities; educational services, namely, awards and fellowships in the field of patient care, career development, leadership skills development, business networking, professional networking, mentorship of healthcare practitioners, and financial management of healthcare facilities.

(5) Providing information via a website in the field of mentorship for health care practitioners; consulting services in the field of mentorship of healthcare practitioners.

Class 44

(6) Consulting services in the field of patient care; providing information in the field of patient care via a website.

Class 45

(7) Organization and conducting conferences, webinars, seminars, meetings, networking events, and classes in the field of social networking; educational services, namely, awards and fellowships in the field of social networking.; Providing information via a website in the field of social networking.

(8) Providing information via a website in the field of social networking.

Class 09

Computer software for e-commerce, namely e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software for online retail services, namely software for operating an online shop; computer software for collecting data relating to consumers' buying habits; computer software for the administrative processing of orders, namely, software to allow users to electronically process orders in an online shop; computer software for inventory control; computer software for supply chain management, namely, computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software relating to the handling of financial transactions, namely software to allow users to perform financial transactions via a global computer network; computer software for online merchandising, namely software for the presentation of goods and services of others via a global computer network for retail purposes; computer software for the promotion of goods and services of others, namely, computer software for promoting the goods and services of others through advertisements on Internet websites or advertisements provided via a global computer network; computer search engine software; computer software used for providing search engine services; computer e-commerce software for accessing, browsing and searching electronic databases; computer software for creating dynamic websites; computer software for website content management; computer software for website navigation; computer software for testing website performance; computer software for the analysis of business data in the field of e-commerce, online retail stores and merchandising; downloadable computer software for use as an application programming interface (API) in the field of ecommerce, online retail stores and merchandising; computer software for on-line advertising the goods and services of others via electronic media and specifically the internet; computer software for embedding online advertising on websites; computer software for embedding personalized advertising on websites; computer software for designing online advertising on websites; computer software for on-line marketing the goods and services of others; computer software for online price comparison services; computer software for providing online product recommendations, namely,

software for providing online information to users relating to products; applications for mobile devices in the field of e-commerce, namely e-commerce software applications to allow users to perform electronic business transactions via a global computer network.

Services

Class 35

(1) Business merchandising display services for others; online merchandising, namely the presentation of goods and services of others via a global communications network for retail purposes; promotion of goods and services of others on the Internet, namely, promoting the goods and services of others through advertisements on Internet websites or advertisements provided via a global computer network; providing advertising services, namely advertising the goods and services of others; online advertising services, namely advertising the goods and services of others online; provision of space on websites for advertising goods and services; promoting the goods and services of others through advertisements on Internet websites; direct marketing of the goods and services of others; online price comparison services; retail services for computer software, namely, retail sale for computer software; statistical analysis and reporting services for business purposes; advertising and business management consultancy; consultancy services relating to the administrative processing of orders; consultancy services relating to supply chain management; consultancy services relating to e-commerce, namely, provision of information and advisory services relating to e-commerce.

Class 41

(2) Training services in the field of computer software, web design or web development, design and development of dynamic websites, design of search engines, or databases; training services in the field of ecommerce, namely, training services for merchants to utilize e-commerce software applications to allow users to perform electronic business transactions via a global computer network; training services in the field of merchandising, namely, training services for merchants to present their goods and services via a global communications network for retail purposes; training services in strategic planning relating to advertising, promotion, marketing and business; arranging and conducting webinars in the field of computer software, web design or web development, design and development of dynamic websites, design of search engines, or databases; arranging and conducting webinars in the field of e-commerce, namely, arranging and conducting webinars for merchants to utilize e-commerce software applications to allow users to perform electronic business transactions via a global computer network; arranging and conducting webinars in the field of merchandising, namely, training services for merchants to present their goods and services via a global communications network for retail purposes; arranging and conducting webinars in the field of strategic planning relating to advertising, promotion, marketing and business.

Class 42

(3) SaaS for e-commerce, namely e-commerce software as a service to allow users to perform electronic business transactions via a global computer network; SaaS for online retail services, namely software as a service for operating an online shop; providing online non-downloadable software for e-commerce, namely ecommerce online non-downloadable software to allow users to perform electronic business transactions via a global computer network; providing online non-downloadable software for online retail services, namely online non-downloadable software and business management of retail and online retail stores; SaaS for collecting data relating to consumer buying habits; providing online non-downloadable software for collecting data relating to consumer buying habits; SaaS for the administrative processing of orders, namely, software as a service to allow users to electronically process orders in an online shop; SaaS for inventory control; SaaS for supply chain management, namely, software as a service for use in managing

and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; SaaS relating to the handling of financial transactions, namely software as a service to allow users to perform financial transactions via a global computer network; providing online non-downloadable software for the administrative processing of orders, namely, online non-downloadable software to allow users to electronically process orders in an online shop; providing online non-downloadable software for inventory control; providing online non-downloadable software for supply chain management, namely, providing online non-downloadable software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; providing online non-downloadable software relating to the handling of financial transactions, namely online non-downloadable software to allow users to perform financial transactions via a global computer network; SaaS for online merchandising, namely SaaS for the presentation of goods and services of others via a global communications network for retail purposes; SaaS for the promotion of goods and services of others, namely, software as a service for promoting the goods and services of others through advertisements on Internet websites or advertisements provided via a global computer network; providing online non-downloadable software for online merchandising, namely, providing online non-downloadable software for the presentation of goods and services of others on communications media via a global communications network for retail purposes; providing online non-downloadable software for the promotion of goods and services of others namely, providing online non-downloadable software for promoting the goods and services of others through advertisements on Internet websites or advertisements provided via a global computer network; SaaS for providing search engine services; SaaS for accessing, browsing and searching electronic databases; providing online non-downloadable software used for providing search engine services; providing online non-downloadable software for accessing, browsing and searching electronic databases; SaaS for creating dynamic websites; SaaS for website content management; SaaS for website navigation; SaaS for testing website performance; providing online non-downloadable software for creating dynamic websites; providing online non-downloadable software for website content management; providing online non-downloadable software for website navigation; providing online non-downloadable software for testing website performance; SaaS for use as an application programming interface (API) in the field of e-commerce, online retail stores and merchandising; providing online non-downloadable software for use as an application programming interface (API) in the field of e-commerce, online retail stores and merchandising; SaaS for advertising the goods and services of others; SaaS for embedding online advertising on websites; SaaS for designing online advertising on websites; online non-downloadable software for advertising the goods and services of others via electronic media and specifically the internet; providing online non-downloadable software for embedding online advertising on websites; providing online non-downloadable software for embedding personalized advertising on websites; providing online non-downloadable software for designing online advertising on websites; SaaS for online price comparison services; providing online non-downloadable software for online price comparison services; design and development of computer software; design and development of computer software for e-commerce; design and development of computer software for merchandising; design and development of computer software for online retail services; design and development of computer software for providing personalized online retail services; design and development of computer software for collecting data relating to consumers in order to provide personalized online retail services; design and development of computer software for optimizing or personalizing customer e-commerce experiences; design and development of computer software for use in communication; design and development of computer software for searching the internet or databases; design and development of computer software for creating, maintaining or testing websites; design and development of computer software for analysis of data; design and

development of computer software for advertising or marketing; design and development of computer software for online price comparison or product recommendation services; hosting e-commerce platforms on the internet; programming of software for e-commerce platforms; search engine design services; providing search engines for the Internet; providing search engines for obtaining data via communications networks; providing search engines for obtaining data from online databases; design and construction of websites; hosting of websites; maintaining websites for others; updating websites for others; providing website content management services for others; consultancy relating to the creation and design of websites for e-commerce; consultancy relating to web content management; consultancy services relating to software used in the field of e-commerce; consultancy relating to software installation and configuration; consultancy relating to software integration; consultancy relating to the integration of software with software for product information management, customer relationship management, enterprise resource planning, web content management, and ecommerce.

Goods

Class 01

(1) Chemicals used in industry namely olefins, polymers, monomers, aromatics, alcohols, glycols, ethylene oxide, alkylene oxides, isocyanates, amines, anhydrides, hydrochloric acid, hydrofluoric acid, glycolic acid, acetic acid, formic acid, potassium chloride, sodium chloride, biochemicals for use in the oil and gas, as well as the paper and pulp industries, and facility gases being argon, helium, hydrogen, ethylene oxide, carbon dioxide, oxygen, breathing air, compressed air, acetylene, silane, and waste treatment chemicals for the treatment of biological liquid waste, chemical waste and toxic waste; unprocessed artificial resins; unprocessed plastics; fire extinguishing compositions; tempering and soldering chemicals; preparations for softening and soldering metals; fluids for drilling; chemical additives to drilling muds

Class 06

(2) Common metals and their alloys; metal building materials namely boards, panels, cladding, flashing, partitions, pillars, linings, handrails, slabs, wall tiles, floor tiles, and trims, as well as reinforcing materials of metal for buildings, and specially adapted parts and fittings therefor; transportable buildings of metal namely portable metal office buildings for construction sites, portable levees, portable storage sheds, and specially adapted parts and fittings therefor; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery namely small items of metal hardware being screws, nails, nuts, bolts, door and window handles, door and window knobs, door and window pulls, door and window hinges, pipe muffs, fittings of metal for pipes, expansion joints for walls and floors, expansion joints for pipes and ducts; pipes and tubes of metal namely water pipes, sewer pipes, pipes for liquid and gas transfer, pipes for central heating installations, penstock pipes, gutter pipes, drainage pipes, branding tubes for pipelines, and ground tubes; ores; barrels of metal; metal mooring buoys, and specially adapted parts and fittings therefor; capsules of metal for compressed gas, and specially adapted parts and fittings

therefor; metal plates enamelled for coatings; rolled and cast metal building materials namely hot-rolled steel bars, rolled steel, rolled ground tubes of steel, rolled and cast steel, cast iron; rails of metal and other metal materials for railroad, and specially adapted parts and fittings therefor; chains (except driving chains for land vehicles); non electric metal cables and wire; balls of steel; spikes and screws of metal; expansion couplings of metal for pipes and ducts, as well as for walls and floors; drainage fittings for drainage pipes of metal; metal expansion clutches, pipes and cables; draining systems being sewer and discharging pipes and tubes of metal, and specially adapted parts and fittings therefor

Class 07

(3) Machinery and apparatus for generating steam namely industrial steam generators, steam engines for industrial machinery, machine bellows, steam turbines, and specially adapted parts and fittings therefor; machinery and apparatus for use in nuclear power stations namely electricity generators, and specially adapted parts and fittings therefor; machinery and apparatus for the processing of oils, fats or of petroleum and for use in the chemical industry namely agitators, blending machines, calcining machines, disintegrators, emulsifying machines, extracting machines, separating machines, and specially adapted parts and fittings therefor; motors and engines used in industrial applications and specially adapted parts and fittings therefor; valves being parts of machines; machine coupling and transmission components and specially adapted parts and fittings therefor; machines and machine equipment for industry namely generators, steam jet air ejectors, and specially adapted parts and fittings therefor; machine tools namely, rock crushers, impact mills, coal breakers, pulverizers, conveyers, conveyer belts, centrifuges, coalescers being parts of machines, compressors for machines, mixers and blenders and parts therefor, all being for industrial and commercial mining applications; machines and machine equipment for refining petroleum, and specially adapted parts and fittings therefor; machines and machine equipment for processing lubricating oils, and specially adapted parts and fittings therefor; steam condensers, and specially adapted parts and fittings therefor; machines and machine equipment for industrial use, namely centrifugal pumps and vacuum pumps, and specially adapted parts and fittings therefor; machines and machine equipment for industrial use, namely the production of electricity and for the cleaning of flue gas, and specially adapted parts and fittings therefor; machines and machine equipment for generating electricity as a by-product from the incineration of waste, and specially adapted parts and fittings therefor; parts and fitting for industrial installations and apparatus for the processing of oils, fats and petroleum; heat recovery ventilation valves for motors and engines, and specially adapted parts and fittings therefor; industrial hydraulic pressing, rending and solvent extraction installations and apparatus for the processing and recovery of oils, fats and of petroleum, petroleum products and of petroleum derivatives, and specially adapted parts and fittings therefor

Class 09

(4) Scientific, nautical, surveying, telegraphic, photographic, cinematographic and optical instruments namely laboratory flow loop instruments, hydrogen probes, electrical resistance probes, telegraph wires, electrical and optical cables, fibre optic periscopes, fibre optic gas sensors, fibre optic humidity sensors, fibre optic liquid level sensors, fibre optic thermal sensors, fibre optic vibration sensors and specially adapted parts and fittings therefor; weighing, signalling and measuring instruments namely concentration meters, electricity meters, viscosity-gel meters, magnetometers, shearometers, borehole gravity meters, flowmeters, dynamometers, inclinometers, gas meters, water meters, vibration meters, viscometers, porosimeters, gamma ray densitometers, nuclear fluid densimeters, tensiometers, magnetometers, industrial weighing scales for the mining, as well as the oil and gas industries, biofuel chemical weighing scales, luminous beacons for safety or warning purposes, instrumented pigs to record pipeline corrosion, and

pecially adapted parts and fittings therefor; electrical instruments, namely control apparatus being thermostats, electric control panels, electrical control systems for heating and air conditioning systems, electrical controllers for industrial machinery engines and motors, electrical controls for emergency sprinkler systems, electrodynamic apparatus for the remote control of railway points, and parts and fittings therefor; clothing for protection against fire, injury, accident and irradiation; equipment for protection against fire, injury, accident and irradiation, namely fire alarm boxes, fire alarm control panels, fire alarm systems, fire blankets, fire boats, fire buckets, fire escapes, fire hose, fire hose nozzles, fire sprinklers, nets for protection against accidents, and specially adapted parts and fittings therefor; safety clothing for protection against accident and injury; fire extinguishers, and specially adapted parts and fittings therefor; fire detectors and parts and fittings therefor; smoke detectors and parts and fittings therefor; combustion control systems namely pressure, temperature, flame and gas sensors, gaseous analysers, valve configurations; computer software for the operation of reservoir modelling for oil and gas and mining engineering, for oil and gas production support, and for reporting on the maintenance, management and overhaul of industrial gas turbines for the operation of repair services in the field of oil and gas; downloadable electronic periodical publications in the nature of engineering, production support, maintenance management and industrial gas turbine overhaul and repair services in the field of oil and gas; telecommunications apparatus namely power grids, power line carrier terminals, automatic transfer switches, change-over switches for telecommunication apparatus, computer network hubs, switches and routers, masts for wireless aerials, automatic telephone exchangers, two-way radios, telephone sets, headsets, telephone switchboards, telephone terminals, telephone wires, VoIP telephones, and parts and fittings therefor; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information and reports for the business management of the mining, gas and oil industries; electrical power supplies and electrical power supply apparatus namely distribution boxes and blocks both for electrical power, electric power converters, power distribution panels, power transformers, power wires, voltage regulators, and parts and fittings therefor; fire and gas detection systems namely fire detectors, alarms for the detection of inflammable gases, carbon dioxide detectors, carbon monoxide detectors, fire and smoke detectors, gas alarms, gas leak detection systems, and parts and fittings therefor; navigation aids, apparatus, instrumentation and systems namely navigation apparatus for marine and land vehicles in the form of on-board computers, gyrocompass, sextants, radars, bearing compass, magnetic compass, beacon lights, speedometers, and parts and fittings therefor; remote monitoring systems and instrumentation namely downloadable software for the management, monitoring, and measurement of oil and gas processing and the management of oil and gas operations and performance, for the monitoring of mineral rights assets for the oil and gas industry, for monitoring the production and flows for gas and oil processing, for the management of environmental information and compliance in the field of national pollutant release obligations, greenhouse gas emissions, and incident management, and for its related analysis and reporting; page party alarm systems being an emergency paging system; oil level sensors; capacitors; artificial intelligence apparatus namely downloadable software for automatic performance analysis, statistical analysis, data analytics and prediction in the field of oil and gas exploration and environmental impact; marking and signaling buoys, navigational buoys, and specially adapted parts and fittings therefor; apparatus for use in nuclear power stations namely cameras and computer operating systems for nuclear power stations, and specially adapted parts and fittings therefor

Class 11

(5) Apparatus for heating, steam generating, refrigerating, drying, ventilating, water supply and sanitary purposes namely boilers for heating installations, boilers for electricity-generating

installations, heating boilers, industrial boilers, waste heat boilers, pipes for heating boilers, heat recovery steam generators, gas, petroleum, biomass and solid-fuel fired heaters, feed water heaters, and steam condensers as part of heating installations, HVAC units, drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems, water treatment equipment, namely, reverse osmosis and desalination units, and specially adapted parts and fittings therefor; air heat recovery ventilation installations, and specially adapted parts and fittings therefor; counterflow furnace for use in the treatment of waste material, and specially adapted parts and fittings therefor; installations for generating steam and nuclear energy namely nuclear generators, and specially adapted parts and fittings therefor; industrial chemical refining tower installations for the oil and gas industry, and specially adapted parts and fittings therefor; steam generators, and specially adapted parts and fittings therefor; ventilators for heat exchangers, and specially adapted parts and fittings therefor; heat recovery ventilators, and specially adapted parts and fittings therefor; vaporiser recovery units for the oil and gas industry; water heaters; fired heaters, and specially adapted parts and fittings therefor; industrial heaters, and specially adapted parts and fittings therefor; kilns, and specially adapted parts and fittings therefor; rotary kilns (for industrial purposes), and specially adapted parts and fittings therefor; gas condensers other than parts of machines; steam super heaters, and specially adapted parts and fittings therefor; desuperheaters, and specially adapted parts and fittings therefor; desalinators, and specially adapted parts and fittings therefor; air heaters, and specially adapted parts and fittings therefor; warming heaters for feed water for heating boilers, and specially adapted parts and fittings therefor; refrigerating plants for the oil and gas industry; steam generating and condensing columns for the oil and gas industry; desalination units, desalination plants; refuse disposal installations specifically waste-to-energy waste disposal installations namely waste disposal incinerators; air purification installations and equipment namely scrubbers and flue gas cleaning apparatus; heating and cooling apparatus namely feedwater heaters; heat exchangers for the removal of flue gases; burners and boilers namely acid gas burners, thermal incinerators, combustion furnaces, combustion chambers, steam reforming furnaces, waste disposal furnaces, waste disposal incinerators, combustion furnaces for waste fuels, ovens for the treatment of waste; heaters for use in the treatment of waste fuels; chemical, petrochemical, gas and oil fired heaters for industrial purposes; chemical flue gas scrubbing apparatus, and parts and fittings therefor; apparatus for use in nuclear power stations namely nuclear reactors, and specially adapted parts and fittings therefor; heat recovery ventilation units, and specially adapted parts and fittings therefor

Class 12

(6) Unmanned aerial vehicles, unmanned submersible vehicles, autonomous vehicles for seabed inspections; Apparatus for locomotion by land, air or water namely marine vessels in the form of ships, helicopters, photography drones, locomotives, automobiles, trucks

Class 14

(7) Precious metals and their alloys

Class 16

(8) Paper; cardboard; plastic film and containers for packaging; printed instructions manuals for computer software for industrial process design and simulation

Class 17

(9) Crude rubber; gutta-percha; raw and unprocessed gum; asbestos; mica; plastics in extruded form for use in manufacture; insulating materials namely electric, thermal and acoustic insulators, electrical insulation, fibreglass, foam insulation for use in building and construction, foils of metal for building insulation; flexible plastic pipes for conveying natural gas; centrifugal pumps; expansion joints

Class 21

(10) Scouring sponges; articles for cleaning purposes namely brushes for cleaning tanks and containers, cleaning and polishing cloths, pads of metal for cleaning, plastic buckets; steelwool; unworked and semi-worked glass (except glass used in building)

Class 22

(11) Ropes, string, commercial nets, glass fiber netting, polyester plastic netting for packaging goods, awnings, tarpaulins, sails; artificial animal hair for padding and stuffing purposes

Services**Class 35**

(1) Business and management consultancy services in the fields of mechanical and civil engineering, procurement, construction management, business operational support and facility management; business management services for the development of projects from concept to realisation, commissioning and operation, and information and advice in the field of business management for the development of projects from concept to realisation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer goods, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals, and information and advice in the field of commissioning of projects in the oil and gas industries, automotive industries, consumer goods, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to facilitate turnkey operations, and information and advice in the field of business management services to facilitate turnkey operations; business services and business management of facilities for processing of oil and gas, and for industrial plants, and information and advice in the field of business services and business management of facilities for processing of oil and gas and for industrial plants; provision of business efficiency techniques relating to processes and industrial plants, and information and advice in the field of business efficiency techniques relating to processes and industrial plants; provision of business feasibility studies namely studies relating to the connection of facilities to electricity networks, and information and advice in the field of business feasibility studies related to the connection of facilities to electricity networks; supply and demand forecasting and analysis and assessment of product distribution processes for others, and information and advice in the field of supply and demand forecasting and analysis and assessment of product distribution processes for others; purchasing and procurement services in the form of purchasing heavy equipment, and information and advice in the field of purchasing and procurement in the form of purchasing heavy equipment; business administration, and information and advice in the field of business administration; construction cost management, and information and advice in the field of construction cost estimation; cost analysis; strategic business planning, and providing information and advice in the field of strategic business planning; business risk analysis, and providing information and advice in the field of business risk analysis; business advice relating to financial planning and to risk management; business contractor management, business planning, business project scheduling, and providing information and advice in the field of business contractor management, business planning, and business project scheduling; personnel management, and providing information and advice in the field of personnel management; personnel administration support services, and providing information and advice in the field of personnel administration support services; personnel recruitment, screening and placement, and providing information and advice in the field of personnel recruitment, screening and placement; undertaking personnel competence programmes, and providing information and advice in the field of undertaking personnel competence programmes; payroll administration services for others; preparation of payrolls (for others); providing information and advice in the field of payroll

administration and payroll preparation for others; visa permit and work permit administration services, and providing information and advice in the field of visa permit and work permit administration; supply chain management, and providing information and advice in the field of supply chain management; business services relating to technology assessment, business asset optimization and business resource planning, and providing information and advice in the field of business technology assessment, business asset optimization and business resource planning; document preparation and document management namely copying of documents for others, document reproduction, indexing of documents for others, and providing information and advice in the field of business management in the field of documents, and providing information and advice in the field of business management in the field of documents; data management namely business management services relating to information and data compiling and analyzing, and providing information and advice in the field of business management services relating to information and data compiling and analyzing; commissioning of business project feasibility studies, and providing information and advice in the field of commissioning of business project feasibility studies; advisory services relating to business management and business operations; efficiency expert services, namely business management optimisation of plant operations, and providing information and advice in the field of business management optimisation of plant operations; operational business assistance to enterprises, and providing information and advice in the field of operational business assistance to enterprises; business operations management services for logistic services, and providing information and advice in the field of business operations management services for logistic services; document control services, and providing information and advice in the field of document control services; provision of emergency management services, and providing information and advice in the field of provision of emergency management services; taxation consultation advice and consultancy services; provision of business management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives, and providing information and advice in the field of business management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; survey services, and providing information and advice in the field of survey services; financial cost analysis services; project cost control; business appraisal and selection of licensors and licensor coordination; project validation services namely pre-project business strategic planning

Class 36

(2) Financial feasibility studies, and consulting in the field of financial feasibility studies; financial asset management services, and consulting in the field of financial asset management services; project financing and finance package services namely financial risk management, and consulting in the field of financial risk management; financial investment analysis, and consulting in the field of financial investment analysis; consultancy services relating to finance, namely in relation to the buying and selling of businesses; financial consultancy in the energy sector; financing of energy and engineering projects (other than debt financing), and consulting in the field of financing of energy and engineering projects; funding of projects, and consulting in the field of funding of projects; financial planning of projects, and consulting in the field of financial planning of projects; financial value management, and consulting in the field of financial value management; vendor management services namely brokerage of real estate and consulting in the field of vendor management services namely brokerage of real estate; construction cost estimation services; construction cost estimation services

Class 37

(3) Building, construction, installation, maintenance, repair, cleaning, commissioning being the checking and testing of all industrial plant functions before operations begin, decommissioning

services being the deconstruction of industrial plants at end of lifecycle, all for the oil and gas and renewable energy industries, automotive industry, third-party consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries, in nuclear power plants, in biofuel plants and installations, in renewable energy projects, in industrial facilities namely industrial processing plants and industrial processing plant equipment, and in petrochemical plants and installations, and information, advisory and consultancy services in the field of building, construction, installation, maintenance, repair, cleaning, commissioning being the checking and testing of all industrial plant functions before operations begin, decommissioning services being the deconstruction of industrial plants at end of lifecycle, all for the oil and gas and renewable energy industries, automotive industry, third-party consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries, in nuclear power plants, in biofuel plants and installations, in renewable energy projects, in industrial facilities including namely industrial processing plants and industrial processing plant equipment, and in petrochemical plants and installations; engineering project management relating to the construction, commissioning of industrial and process plants, and information, advisory and consultancy services in the field of engineering project management relating to the construction, commissioning of industrial and process plants; construction project supervision, and information, advisory and consultancy services in the field of construction project supervision; plant and engineering construction supervision services, and information, advisory and consultancy services in the field of plant and engineering construction supervision services; construction of industrial facilities namely gas and oil processing plants and equipment for the production and treatment of gas and oil refinery being sliding vane petroleum pumps, energy facilities for the production of coal, nuclear energy, renewable energy, pharmaceutical products, steam, electricity, flue gas, chemicals, metals, petrochemicals, and natural gas, and information, advisory and consultancy services in the field of construction of industrial facilities namely gas and oil processing plants and equipment for the production and treatment of gas and oil refinery being sliding vane petroleum pumps, energy facilities for the production of coal, nuclear energy, renewable energy, pharmaceutical products, steam, electricity, flue gas, chemicals, metals, petrochemicals, and natural gas; project management relating to the repair of oil and gas exploration, extraction and production installations; construction supervision and building construction supervision services, and information, advisory and consultancy services in the field of construction supervision and building construction supervision services; retrofitting of industrial plants and facilities, and information, advisory and consultancy services in the field of retrofitting of industrial plants and facilities; gas and oil drilling, and information, advisory and consultancy services in the field of gas and oil drilling; mining, and information, advisory and consultancy services in the field of mining; civil engineering construction consultancy, and information, advisory and consultancy services in the field of civil engineering construction consultancy; civil engineering underwater construction services, and information, advisory and consultancy services in the field of civil engineering underwater construction services; installation of oil production apparatus, and information, advisory and consultancy services in the field of installation of oil production apparatus; installation of oil exploration apparatus, and information, advisory and consultancy services in the field of installation of oil exploration apparatus; oil and water well construction completion and oil and water well environmental remediation services, and information, advisory and consultancy services in the field of oil and water well construction completion and oil and water well environmental remediation services; cleaning of buildings and industrial premises, and information, advisory and consultancy services in the field of cleaning of buildings and industrial premises; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; pipeline repair services, and information, advisory and consultancy services in the field of pipeline repair services; civil engineering maintenance services for construction projects, and

information, advisory and consultancy services in the field of civil engineering maintenance for construction projects; repair, maintenance, cleaning and installation services relating to industrial facilities such as upstream oil and gas facilities as well as processing plants and equipment, namely those used in the production and treatment of refinery sliding vane petroleum pumps, energy facilities for the production of coal, nuclear energy, renewable energy, pharmaceutical products, steam, electricity, flue gas, chemicals, metals, petrochemicals and natural gas, and oil and gas exploration and extraction equipment, tools and apparatus; construction maintenance planning, reliability, building optimisation and building construction supervision management services, information, advisory and consultancy services in the field of repair, maintenance, cleaning and installation services relating to industrial facilities such as upstream oil and gas facilities as well as processing plants and equipment, namely those used in the production and treatment of refinery sliding vane petroleum pumps, energy facilities for the production of coal, nuclear energy, renewable energy, pharmaceutical products, steam, electricity, flue gas, chemicals, metals, petrochemicals and natural gas, and oil and gas exploration and extraction equipment, tools and apparatus; construction maintenance planning, reliability, building optimisation and building construction supervision management services; decommissioning services being the deconstruction of industrial plants at end of lifecycle associated with buildings, structures, installations and projects, and information, advisory and consultancy services in the field of decommissioning services being the deconstruction of industrial plants at the end of lifecycle associated with buildings, structures, installations and projects; electrical appliance installation, maintenance and repair services, and information, advisory and consultancy services in the field of electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire and gas detection and alarm systems and fire protection apparatus, and information, advisory and consultancy services in the field of installation, maintenance and repair of fire and gas detection and alarm systems and fire protection apparatus; oil and gas well pump installation, maintenance and repair services, and information, advisory and consultancy services in the field of oil and gas well pump installation, maintenance and repair services; maintenance, repair, upgrade and overhaul of oil and gas well compressors, pumps, generators and rotating equipment, and information, advisory and consultancy services in the field of maintenance, repair, upgrade and overhaul of oil and gas well compressors, pumps, generators and rotating equipment; underwater repair services of oil and gas rigs, and information, advisory and consultancy services in the field of underwater repair services of oil and gas rigs; rental of industrial plant and industrial plant equipment for repair purposes, and information, advisory and consultancy services in the field of rental of industrial plant and industrial plant equipment for repair purposes; installation, construction, maintenance, servicing and repair of energy and power generating apparatus equipment and installations, and information, advisory and consultancy services in the field of installation, construction, maintenance, servicing and repair of energy and power generating apparatus equipment and installations; rental, hiring and leasing of equipment and apparatus for use in the oil and gas industries; dismantling and installation of construction engineering projects and plants

Class 38

(4) Telecommunications namely personal communication services (PCS) and communication by telephone communication, and VoIP telephones, and providing consultancy in the field of personal communication services (PCS) and communication by telephone communication, and VoIP telephones; telecommunications namely the operation of telephone switchboards, telephone terminals, providing access to a global computer network, and consultancy services in the field of the operation of telephone switchboards, telephone terminals, and providing access to a global computer network; site communication services namely in-vehicle communication by providing

wireless vehicle navigation and tracking, two-way radio communication, and providing consultancy services in the field of in-vehicle communication by providing wireless vehicle navigation and tracking, and two-way radio communication; radio spectrum management being the management of radio frequencies for radio broadcasting, and consultancy in the field of managing radio frequencies of radio broadcasting

Class 39

(5) Transportation services namely helicopter transport, and providing information advisory and consultancy in the field of helicopter transport; transportation of oil and gas, equipment, machinery and personnel by air, sea, road and rail, and providing information advisory and consultancy in the field of transportation of oil and gas, equipment, machinery and personnel by air, sea, road and rail; packaging of articles for transportation and warehouse storage of goods, and providing information advisory and consultancy in the field of packaging of articles for transportation and warehouse storage of goods; delivery of goods by rail, air, truck, ship, and providing information advisory and consultancy in the field of delivery of goods by rail, air, truck, ship; logistics services namely supply chain logistics and reverse logistics services consisting of the transportation of goods for others by air, rail, ship or truck, and providing information advisory and consultancy in the field of supply chain logistics and reverse logistics services consisting of the transportation of goods for others by air, rails, ship or truck; transport of oil and gas by pipeline, and providing information advisory and consultancy in the field of transport of oil and gas by pipeline; warehouse storage services namely planning and management logistics, and providing information advisory and consultancy in the field of warehouse storage services namely planning and management logistics; containerisation and freight transportation by truck, rail, boat, air, and information, advisory and consultancy in the field of containerisation and freight transportation by truck, rail boat and air

Class 40

(6) Refinery services namely the filtration and purification of gases, and consultancy in the field of refinery filtration and purification of gases; custom manufacture of steam generators, and consultancy in the field of custom manufacture of steam generators; custom manufacture of equipment for utility power and industrial facilities, namely steam generators and parts thereof, condensers, heaters, acid gas burners, rotary kilns, coal pulverizers and gasifiers and flue gas cleaning equipment, and consultancy in the field of custom manufacture of equipment for utility power and industrial facilities being steam generators and parts thereof, condensers, heaters, acid gas burners, rotary kilns, coal pulverizers and gasifiers and flue gas cleaning equipment; custom manufacture of equipment for industrial facilities, namely material handling systems for use in mines, and consultancy in the field of custom manufacture of equipment for industrial facilities, namely material handling systems for use in mines; custom manufacture of replacement parts for steam generators, condensers, heaters (including fired heaters), coal pulverizers, gasifiers, and consultancy in the field of custom manufacture of replacement parts for steam generators, condensers, heaters (including fired heaters), coal pulverizers, gasifiers; thermal processing of materials namely incineration of gases and waste incineration, and consultancy in the field of incineration of gases and waste incineration; oil and gas well treatment, and consultancy in the field of oil and gas well treatment; processing of oil and gas, and consultancy in the field of processing of oil and gas; energy production being electricity generation and oil and gas generation, and consultancy in the field of electricity generation and oil and gas generation; welding for repair purposes; operation and control of oil and gas production

Class 41

(7) Training services in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of training services in the fields of oil and gas exploration and oil and gas extraction and production; provision of training programmes in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of training programmes in the fields of oil and gas exploration and oil and gas extraction and production; operational training and qualification in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of operational training and qualification services in the fields of oil and gas exploration and oil and gas extraction and production; training services relating to safety and to safety apparatus in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of training services relating to safety and to safety apparatus in the fields of oil and gas exploration and oil and gas extraction and production; training services relating to the installation and maintenance of safety apparatus, and consultancy in the field of training services relating to the installation and maintenance of safety apparatus; training services for maintenance planning and scheduling in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of training for maintenance planning and scheduling in the fields of oil and gas exploration and oil and gas extraction and production; arranging and conducting conferences, seminars and exhibitions in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of arranging and conducting conferences, seminars and exhibitions in the fields of oil and gas exploration and oil and gas extraction and production; publication of technical operating manuals, and consultancy in the field of publication of technical operating manuals; publication of books and manuals, printed matter in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of publication of books and manuals, printed matter in the fields of oil and gas exploration and oil and gas extraction and production; production of training videos and recordings in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of production of training videos and recordings in the fields of oil and gas exploration and oil and gas extraction and production; information relating to training and education in the fields of oil and gas exploration and oil and gas extraction and production provided online from a computer database or the internet, and consultancy in the field of information relating to training and education in the fields of oil and gas exploration and oil and gas extraction and production; providing online electronic publications (not downloadable) online from databases or the internet in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of providing online electronic publications from a database or the internet in the fields of oil and gas exploration and oil and gas extraction and production; publication of multi-media websites online in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of publication of multi-media websites online in the fields of oil and gas exploration and oil and gas extraction and production; editing, proof reading and quality control of written educational documents in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of editing, proof reading and quality control in the fields of oil and gas exploration and oil and gas extraction and production; training document specification development in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of training document specification development in the fields of oil and gas exploration and oil and gas extraction and production; educational document review and collation in the fields of oil and gas exploration and oil and gas extraction and production, and consultancy in the field of educational document review and collation in the fields of oil and gas exploration and oil and gas extraction and production; document formatting, amendment and updating, electronic publishing and formatting of electronic

publications for publication, and consultancy services in relation to document formatting, amendment and updating, electronic publishing and formatting of electronic publications for publication

Class 42

(8) Mechanical engineering services, and technical consultancy in the field of mechanical engineering services; engineering services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of engineering services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; engineering services relating to the extraction, processing, treatment and utilisation of oils sands, and technical consultancy in the field of engineering services relating to extraction, processing, treatment and utilisation of oils sands; scientific and technological services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of scientific and technological services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; research and design services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of research and design services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; industrial analysis and research services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of scientific and technological services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; nuclear and energy production engineering design services, and technical consultancy in the field of nuclear and energy production engineering design services; concept and realisation design services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of concept and realisation design in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; civil engineering drawing services and conducting feasibility studies, and technical consultancy in the field of civil engineering drawing and conducting feasibility studies; concept development and design evaluation services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of development and design evaluation in relation to biofuel plants and installations, nuclear power plants, renewable energy

projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; engineering services in the fields of structural engineering, industrial process engineering for the production of petrochemicals, industrial design in the field of instrumentation, telecommunications, electrical and electronics, mechanical engineering, piping layout, power generation and industrial plants, and technical consultancy in the field of engineering services in the fields of structural engineering, industrial process engineering for the production of petrochemicals, industrial design in the field of instrumentation, telecommunications, electrical and electronics, mechanical engineering, piping layout, power generation and industrial plants; design and development of computer hardware and software, and technical consultancy in the field of design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching, and technical consultancy in the field of design and development of computer hardware and software for use in the oil and gas industries and for oil field explorations and searching; oil and gas exploration and production services, and technical consultancy services in the field of oil and gas exploration and production services; provision of technical research and support for the oil and gas industries, and technical consultancy services in the field of technical research and support for the oil and gas industries; provision of civil engineering drawing workshop facilities, and technical consultancy in the provision of civil engineering drawing workshop facilities; calibration of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; measurement evaluations services in the field of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of measurement evaluation of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; provision of quality control services of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy of quality control of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; certification services namely testing, analysis and evaluation of the services of others to determine conformity with certification standards of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy testing, analysis and evaluation of the services of others to determine conformity with certification standards of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; computer system integration testing, and technical consultancy in the field of computer system integration testing; authentication testing of data in the field of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of

authentication testing of data in the field of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; testing of apparatus and equipment of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consultancy in the field of testing of apparatus and equipment of biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; consumer product safety testing of products and apparatus, and technical consulting in the field of consumer product safety testing of products and apparatus; provision of testing and inspection facilities for oil and gas equipment and apparatus, and technical consultancy in the field of testing and inspection facilities for oil and gas equipment and apparatus; material testing services, and technical consulting services in the field of material testing services; laboratory testing of materials , and technical consulting in the field of laboratory testing of materials; industrial material and chemical testing of engineering projects, and industrial material and chemical testing of engineering projects; welding research services; engineering surveying, land surveying, oil field surveying, and technical consultancy in the field of engineering surveying, land surveying, and oil field surveying; provision of analysis, testing and research facilities for engineering projects of new products for others, and technical consulting in the field of analysis, testing and research facilities for engineering projects of new products for others; research in the field of environmental protection services, and technical consulting in the field of research in the field of environmental protection services; environmental planning services in the field of audits and risk assessments for engineering projects in the oil and gas industry, nuclear energy industry and the mining industry, and technical consultancy in the field of environmental planning audits and risk assessments for engineering projects in the oil and gas industry, nuclear energy industry and the mining industry; environmental design services in the field of mining and oil and gas, and technical consulting in the field of environmental design in the field of mining and oil and gas; concept design services for others, and technical consultancy in the field of concept design services for others; geological research and exploration services, and technical consultancy in the field of geological research and exploration services; operation and control of oil and gas exploration; computer aided design CAD services in the field of construction, and technical consultancy in the field of computer aided design for construction; technical documentation and reports for engineering projects, and technical consultancy in the field of technical documentation and reports for engineering projects; graphic design services and computer graphic services for technical and engineering drawing, and technical consultancy in the field of graphic design services and computer graphic services for technical and engineering drawing; civil engineering design, research and development services for others, and technical consultancy in the field of engineering design, research and development services for others; technical chemical research for others, and technical consultancy in the field of chemical research for others; civil engineering design services, and technical consultancy in the field of civil engineering design services; technical validation services in the field of energy auditing, and technical consultancy in the field of technical validation for energy auditing; engineering design services relating to construction planning, architecture, civil engineering, mechanical engineering, civil design engineering, fire prevention engineering, petrochemical engineering and industrial plants, and technical consultancy in the field of engineering design services relating to construction planning, architecture, civil engineering, mechanical engineering, civil design engineering, fire prevention engineering, petrochemical engineering and industrial plants; mechanical engineering systems design services, and technical consulting in the field of mechanical engineering system design; provision of safety

advice in relation to construction engineering and production projects and industrial plants and processes; provision of hazard and operability studies relating to hazardous materials management, and technical consulting in the field of hazardous material management and operability studies; software engineering services; design of computer network systems, and technical consultancy in the field of computer network systems design; design and planning services associated with oil and gas well equipment and plant layout; engineering and technological assistance for procurement of environmental permits; geotechnical engineering services; oil and gas piping systems design and layout services, and technical consultancy in the field of oil and gas piping systems design and layout services; design of ventilation, heating and air conditioning systems and apparatus; civil engineering design and coordination and consultancy services; computer engineering modelling and computer process modelling services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations, and technical consulting in the field of computer engineering modelling and process modelling for use in mining and the oil and gas industry; computer modelling services; finite element modelling; finite element analysis services; thermodynamic modelling; process simulation and optimisation of industrial plants and projects; computer process troubleshooting services; hazard identification services provided by means of computer modelling; computational fluid dynamics engineering services; computer engineering and computer technological services for the automation of computer systems and industrial plants operations; energy auditing services; seismic analysis services; product design services for others; industrial plant and construction site safety and safety management services; environmental due diligence services; industrial plant, oil fields, oil burners, and pipeline equipment inspection and testing; consultancy services relating to environmental issues; technical writing of technical and engineering operating manuals; remote oil well control system design services, and technical consultancy in the field of remote oil well control system design services; computer and oil and gas system engineering services; project certification services, and technical consultancy in the field of project certification services; technical handover services of industrial plants in the oil and gas industry, and technical consultancy in the field of technical handover industrial plants in the oil and gas industry; construction engineering permit to work coordination; construction engineering audit reviews for integrity process status; technical writing and illustration; civil infrastructure engineering and construction; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems relating to business management; 3D laser scanning services of oil and gas facilities, and technical consultancy in the field of 3D laser scanning of oil and gas facilities; industrial plant and installation engineering surveying services, and technical consultancy in the field of industrial plant and installation engineering surveying services; civil engineering plant design management systems; development of interactive multi-media software, and technical consulting in the field of development of interactive multi-media software; software design services for the design and data management of subsea systems, pipelines and risers; valve design services; development of computerised construction engineering management systems, and technical consultancy in the field of development of computerised construction engineering management systems; technical software authoring in the field of engineering design services relating to construction planning, architecture, civil engineering, mechanical engineering, civil design engineering, fire prevention engineering, petrochemical engineering and industrial plants, and technical consultancy in the field of technical software authoring in the field of engineering design services relating to construction planning, architecture, civil engineering, mechanical engineering, civil design engineering, fire prevention engineering, petrochemical engineering and industrial plants; editing of computer programmes; engineering lifecycle integrity services of oil and gas wells, pipelines, plants, rigs and mines, and

technical consultancy in the field of engineering lifecycle integrity of oil and gas wells, pipelines, plants, and rigs; Technical and engineering advice relating to fire safety engineering services; engineering project management relating to the design and chemical engineering operations for industrial and oil and gas process plants, and technical consultancy in the field of engineering project management relating to the design and chemical engineering operations for industrial and oil and gas process plants; design and development of lifecycle management software, and technical consultancy in the field of design and development of lifecycle management software; inspection and calibration of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries, and technical consultancy in the field of inspection and calibration of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; technical project studies and construction design engineering relating to construction planning, architecture, mechanical engineering, fire prevention engineering, petrochemical engineering and industrial plants; design engineering in relation to material handling systems for use in mines, and technical consulting in the field of design engineering material handling systems for use in mines; electrical engineering services; mechanical engineering; geotechnical engineering; thermal engineering; technical consulting in the fields of electrical engineering, mechanical engineering and thermal engineering; instrument control engineering for use in the mining and oil and gas industries, and technical consulting in the field of mining and oil and gas; energy and flare gas surveys, and technical consulting in the field of energy and flare gas surveys; mechanical engineering systems design, and technical consultancy in the field of mechanical engineering systems design; electrical systems design for energy distribution; packaging container systems design, and technical consultancy in the field of packing design; oil and gas piping systems design and water piping systems design, and technical consultancy in the field of oil and gas piping systems design and water piping systems design; materials handling systems design for the mining industry, and technical consultancy in the field of materials handling systems design for the mining industry; heating, ventilating and air conditioning systems design, and technical consultancy in the field of heating, ventilating and air conditioning systems design; software engineering, and technical consulting in the field of software engineering; data analysis services for mining and oil field exploration, and technical consultancy in the field of data analysis for mining and oil field exploration; conversion of data from physical to electronic media and from one media to another, technical consultancy in the field of the conversion of data from physical to electronic media and from one media to another; data mining in the field of mining and oil and gas, as well as in the energy sector, and technical consultancy in the field of data mining for use in mining and oil and gas, as well as for the energy sector; computer design and development services, and technical consultancy in the field of computer design and development; providing non-downloadable software for data mining in the field of mining and oil and gas, as well as in the energy sector, and technical consultancy in the field of non-downloadable software for data mining used in the mining, oil and gas, as well as for the energy sectors; technological studies and technical studies relating to projects, products and industrial processes, namely industrial process development; technological and technical studies, namely studies relating to electricity grid codes and the connection of facilities to electricity networks; technological services for the computer automation of systems in the mining, oil and gas, and energy generation industries; preparing, designing and conducting energy studies, and technical consulting in the field of preparing, designing and conducting energy studies; preparing, designing and conducting audits specifically audits in the field of mining reserves and in the field of energy, and technical consulting in the field of preparing, designing and conducting audits in the field of mining reserves and in the field of

energy; preparing, designing and conducting energy surveys; conducting of technical feasibility studies; technical consultation in the field of delayed coking; technical consultation in the field of energy and emissions management, as well as solvent deasphalting, visbreaking, hydrogen production and sulphur/tail gas treatment; seismic analysis services, and technical consultancy in the field of seismic analysis; architectural services, and technical consultancy in the field of architectural and structural design in the field of civil engineering; structural design services in the field of civil engineering; building condition surveys, and technical consultancy in the field of building condition surveys; surveying services namely the surveying of land, quantity surveying of the lifecycle of an oil and gas and mining facility, conducting engineering surveys, conducting geological surveys and oil and gas field surveys, and technical consulting in the field of surveying of land, quantity surveying of the lifecycle of an oil and gas and mining facility, conducting engineering surveys, conducting geological surveys and oil and gas field surveys; yield improvement services for use in the mining and oil and gas industries, technical consultancy in the field of yield improvement for the mining and oil and gas industries; computer system integration services, and technical consultancy in the field of computer system integration services; industrial plant energy audits and surveys; fire safety equipment inspection and assessment, as well as safety assessment of an industrial plant and related machinery, and technical consultancy in the field of fire safety equipment inspection and assessment, as well as safety assessment of an industrial plant and related machinery; consumer product quality assessment services, and technical consultancy in the field of consumer product quality assessment services; materials testing services, namely consumer product testing for others; industrial process evaluation, simulation and modelling in the field of mining and oil and gas; industrial process troubleshooting and optimisation in the field of mining and oil and gas; safety advice in relation to engineering and production projects and processes, hazard and operability studies; oil and gas exploration services, and technical consultancy in the field of oil and gas exploration; building, construction and engineering project management; conducting engineering feasibility studies relating to building and construction; civil engineering drawing services; civil engineering design consultancy in relation to plumbing and gas and water installations; computer network traffic management

Class 44

(9) Landscape maintenance and design

Class 45

(10) Consultancy services relating to occupational health and safety, and providing information in the field of occupational health and safety; risk management consultancy relating to occupational health and safety; occupational health and safety program development, management and consultation; occupational hazard and operability studies, and occupational hazard identification procedures, and providing information, advisory and consultancy in the field of occupational hazard operability studies and occupational hazard identification; facility and onsite audits and third party inspections in the field of occupational health and safety, and providing information, advisory and consultancy services in the field of facility and onsite audits in the field of occupational health and safety; site safety and safety management to meet the needs of commercial and industrial companies, and providing information, advisory and consultancy services in the field of site safety and safety management of commercial and industrial companies; advisory services in the field of regulatory affairs and compliance on safety at work; regulatory compliance audits on occupational health and safety, and providing information, advisory and consultancy services in the field of regulatory compliance audits for occupational health and safety; reviewing standards and practices to assure compliance with laws and regulations on safety at work, and providing information, advisory and consultancy services in the field of reviewing standards and practices to assure compliance with laws and regulations on safety at work; rental of safety equipment being

protective clothing, and providing information, advisory and consultancy services in the field of protective clothing rental; fire and burglar alarm monitoring services; monitoring of security systems; and information, advisory and consultancy services in the field of fire and burglar alarm monitoring, and monitoring of security systems; fire protection and detection services

Goods

Class 06

(1) Metal portable stairs; Metal stairs; Metal modular entry ramps for doorways, sliding glass doors, and raised landings; Occupational Safety and Health Administration (OSHA) compliant products for use in temporary construction sites in the mobile modular industry, namely, metal portable stairs; Portable metal ramps namely curb ramps, threshold ramps, vehicle entry ramps, vehicle loading ramps, loading dock ramps, entry ramps for residential, commercial and industrial buildings and walkway ramps; Multipurpose metal ramps for commercial and industrial use, namely curb ramps, threshold ramps, vehicle entry ramps, vehicle loading ramps, loading dock ramps, building entry ramps and walkway ramps; Metal platforms used to build modular walkways and multi-level modular walkways; metal work platforms and building platforms used for construction and industrial work sites;

Class 07

(2) Electric door openers; raiseable work platforms, raiseable building platforms and mechanical lift platforms for loading and unloading cargo, and for wheelchair entry into vehicles and residential, commercial and industrial buildings;

Class 09

(3) Battery packs for powering wheelchairs, door openers, toilet seat openers, patient lifts and for powering platform lifts for wheelchair entry into vehicles and residential, commercial and industrial buildings;

Class 10

(4) Toilet accessories, namely, toilet lifts; toilet lifts, namely, attachable lifts for lifting and lowering toilet seats; toilet seat risers; Toilet accessories, namely, toilet lifts incorporating a safety frame and seat riser, all the aforesaid goods adapted for medical patients or for use by disabled persons; toilet lifts, namely, toilet seats adapted for use by medical patients and disabled persons; adjustable toilet seats adapted for use by medical patients and disabled persons; Patient transfer lifts, namely, mobility devices used to assist in the movement of patients from one place or one

position to another; Pivot transfer lifts, namely wall-to-floor or floor-to-ceiling mounted articulating arms for attaching a sling and motor lift assembly for use in transferring patients from one place or position to another;

Class 11

(5) Portable showers, Inflatable bathtubs; inflatable sinks;

Trademark Type

Three-dimensional (3-D)

Visual Representation

Trademark Description

Color is not claimed as a feature of the mark. The mark consists of a three-dimensional configuration of an adapter in the shape of a cube having four sides with rounded corners, a flat front and flat back surface. The broken lines depicting a electrical prongs indicate placement of the mark on the goods and are not part of the mark.

Registrability Recognized

Registrability recognized under the Trademarks Act.

Goods

Class 09

Adapters for use with computers, computer peripherals and consumer electronics namely portable and handheld digital electronic devices namely, handheld computers, tablet computers, mobile phones, electronic book readers and notepads, electronic personal organizer, personal digital assistant, electronic calendar, global positioning system (GPS) devices, cameras, electronic handheld game units, and digital format media players namely, MP3 players

Class 09

Downloadable mobile applications for providing consumers with real-time recommendations, demographics, and location data regarding local businesses and leisure activities using natural language processing and artificial intelligence; computer software for providing for interaction of a user with a conversational user interface for the distribution of consumer information in the field of real estate; computer software for retrieving information from a user and delivering to the user context-sensitive information and user-specific information in the field of consumer information in connection with real estate; computer software for transmitting information to a user from an adaptive, artificially intelligent software agent in the field of consumer information in connection with real estate; computer software in the field of artificial intelligence, namely, software for converting natural language voice and text into machine executable commands; computer software, namely, an interpretive interface for facilitating interaction between humans and computers and mobile phones via voice and text message-enabled conversational agents and chat bots; computer software used to process natural language voice and text commands, and create natural language voice and text responses to voice and text commands; computer software for providing purchase information in response to voice and text data; computer software for providing information on home-buying process and purchase information in response to voice and text data; computer software, namely, an interactive interface for receiving consumer preference information and providing information about real estate available for sale; computer software, namely, an interactive interface for receiving consumer preference information and providing information about real estate available for sale; computer application software for mobile phones, portable media players, and handheld computers, namely, artificial intelligence and natural language processing software for providing instructional data and information for searching, locating, rating, evaluating and providing directions for the purchase of real estate and consumer products and services; computer application software for mobile phones, portable media players, and handheld computers, namely, artificial intelligence and natural language processing software for providing instructional data and information for searching, locating, rating, evaluating and providing directions for the home-buying process; computer software for providing information relating to the home-buying process; computer software for use in finding services providers in the

fields of real estate, mortgages, moving services, home services, title services and insurance; computer software that functions as a virtual personal assistant for users of computers and mobile phones; computer application software for mobile phones, namely, software for use in finding services providers in the fields of real estate and mortgages; computer software for use in finding services providers for use in the fields of real estate and mortgages; computer software for providing information to consumers in the fields of mortgages, moving services, home services, title services.

Services

Class 35

(1) Providing consumer product and related service information in the field of real estate via the Internet and text messaging.

Class 36

(2) Providing information to consumers in the fields of real estate, mortgage financing, real estate title insurance underwriting services and insurance; providing real estate listings via the Internet and text messaging.

Class 37

(3) Providing information to consumers in the field of home repair services.

Class 39

(4) Providing information to consumers in the field of moving services.

Class 42

(5) Providing on-line, non-downloadable software for identifying preferences of consumers and matching preferences to consumer products and services in the marketplace; providing on-line, non-downloadable software for identifying preferences of consumers and matching preferences to available real estate in the marketplace; providing on-line, non-downloadable survey software which can produce real estate matching reports and individualized real estate preference reports and identify best match candidates for real estate purchase; providing temporary use of on-line non-downloadable computer software for retrieving information from a user and delivering to the user context-sensitive information and user-specific information in the fields of real estate, mortgage financing, and mortgage insurance; providing temporary use of on-line nondownloadable computer software for transmitting information in the fields of real estate, mortgage financing, and mortgage insurance to a user from an adaptive, artificially intelligent software agent; providing temporary use of on-line non-downloadable computer software for providing consumer products and services features and purchase information in response to voice and text data; providing temporary use of on-line non-downloadable computer software for providing real estate market and purchase information in response to voice and text data; providing temporary use of on-line non-downloadable computer software featuring an interactive interface for receiving consumer preference information and providing information about real estate, mortgages, moving services, home services, title services and insurance.

Class 45

(6) Providing information to consumers in the field of title searching services.

Trademark Type

Word

Goods

Class 01

(1) Chemicals used in the composition of, and constituting, neutron resins, namely industrial chemicals for the power industries for the manufacture of synthetic rubber and polymer products, ion-exchange resin membranes in the form of chemicals, chemicals for use in the nuclear fuel cycle, in the form of nuclear materials, namely uranium ore, uranium, plutonium in all chemical forms and isotope compounds; nuclear fuels.

Class 04

(2) Fuels, namely oils, greases and lubricants for use in the nuclear power industries.

Class 05

(3) Pharmaceutical preparations for nuclear medicine, namely isotopes for medical use, radioactive indicators for therapeutic use and for medical imaging; diagnostic products for medical use, in particular for locating cancerous tumours in the human body, namely radioactive indicators for diagnostic use, reactive preparations for medical diagnostic use, radioactive pharmaceutical preparations for in-vivo diagnostics.

Class 06

(4) Unwrought and semi-wrought common metals and their alloys, for use in the nuclear power industries, plants and centres for the storage, warehousing, isotope separation, processing, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; metal materials for building and construction and transportable buildings of metal for nuclear power plants, nuclear reactors and water reactors; metal cables and wires, metal hardware, namely hardware nails, rods of metal for brazing and welding, screws of metal, metal nuts and metal pipes and tubes for nuclear power plants, for nuclear reactors.

Class 07

(5) Machine tools for metalworking; motors and engines, except motors and engines for land vehicles, namely motors and engines and power units for the generation of electricity, diesel engines for industrial machinery, electric motors for machines; non-electric couplings other than for land vehicles, namely couplings for machines, hydraulic couplings as machine parts; transmission

assemblies and belts, other than those for land vehicles, namely shaft couplings and transmission components, transmissions for industrial machinery; machines, namely pumps, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, machines, namely pumping motor units; machines, namely mechanical equipment, namely power operated jacks, turbine generators, turbines for thermal power plants, used for and in the nuclear field, machines, namely industrial robots, pressurizers, namely tanks for regulating the pressure in the primary coolant system used in the nuclear field, turbochargers, control rod drive mechanisms, as well as all their replacement parts; electrically and electronically operated hand tools, namely electric generators, drills, steel and diamond wire saws, circular saws, laser cutting tools and routers; machine tools, machines and apparatus used in the nuclear power industry for the manufacture, handling, processing, warehousing, isotope separation and storage of ores, metals, nuclear fuels, nuclear materials, plutonium, uranium and nuclear waste, namely machines for loading and unloading nuclear fuel, motorized devices for controlling valves and fittings used in nuclear reactors, motorized, robotic and remotely operated tools for the checking (supervision), repair and replacement of components in nuclear reactors, nuclear facilities and nuclear fuels, namely robot arms, telescopic arms, remotely operated arms, their components and replacement parts, namely manipulator arms, telescopic arms and remotely operated arms for industrial robots, as well as their components and replacement parts; robots for work, checking, measuring, collection, sampling and supervision efforts in contaminated areas, namely industrial robots, camera drones and autonomous underwater industrial robots; power generators; engine starters; engine control centres; rotating and stationary electric machines, namely pneumatic and hydraulic jacks and speed governors for machines, engines and motors, electronic speed controllers for electric motors, electric motors for machines, their variable speed drive combinations, namely speed governors, machines, and motors and engines; machine tools for the design, manufacture and testing of electric and electronic components.

Class 09

(6) Scientific, surveying, electric, electronic, optical, weighing, measuring, signalling, checking, supervision, life-saving and rescue apparatus and instruments, all used in the nuclear power industries, namely monitoring instruments and physicochemical analysis instruments intended for nuclear power plants, for nuclear reactors, laser measuring tapes, instruments for monitoring and analyzing radioactivity, namely nuclear radiation detectors; apparatus, instruments and devices for the checking and monitoring of industrial facilities in the field of nuclear power, namely cameras, video surveillance installations; radioactivity detection apparatus, namely Geiger counters; computer programs, namely software packages, software and alarms for the checking and monitoring of industrial facilities; computer programs, namely information technology programs in the form of computer operating programs, namely software for controlling and managing access server applications, database management software used in the nuclear power industries, search engine and information indexing software, monitoring, management software related to nuclear activities, criticality and process supervision software, software packages, namely information technology programs in the form of computer operating programs for operational and safety control (core criticality) for the generation of electricity derived from nuclear facilities; electric and electronic components, namely semiconductors, semiconductor devices, namely semiconductor chips, semiconductor integrated circuits, electronic cards, electronic microcircuits and circuits, integrated circuits, namely chips, microprocessors, microcontrollers, integrated circuits composed of a network of programmable cells and units containing the above components; topographic apparatus and instruments, namely 3D scanners; masks for protection against radiation; flash memory cards, random access memory cards; electric couplings; rotating and stationary electric machines, namely voltage regulators; electronic speed controllers for electric motors; electronic

speed controllers for electric motors, electric motors for machines, their variable speed drive combinations, namely speed governors, machines, and motors and engines; machine tools for the design, manufacture and testing of electric and electronic components.

Class 11

(7) Heating, steam generating, heat exchange apparatus, namely steam generating installations, steam generators and accumulators, heat exchangers, heat exchangers for chemical processing, heat accumulators, steam and temperature regulators for industrial heating installations intended for power generation, refrigerated cabinets, refrigerating chambers, refrigeration condensers, refrigerated transport containers, chemical fibre drying machines, rotary dryers for industrial use, air impellers for ventilation, wind turbine ventilators intended for nuclear power plants, for nuclear reactors, for plants and centres for the storage, warehousing, isotope separation, processing, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; steam generators; industrial steam boilers for power generation for machinery, industrial boilers, heating boilers; nuclear islands, nuclear facilities and assemblies for processing nuclear moderating materials and fuels, namely nuclear reactors, nuclear generators; gas generators, in particular those using electrolysis, reforming, gasification, water decomposition.

Class 19

(8) Materials, not of metal, for building and construction and transportable buildings, not of metal, namely reinforcement materials, namely insulating glass for construction, glass for construction, cement mixes, cement aggregates, filling cement, roofing cement, concrete and bitumen for nuclear power plants, for nuclear reactors, for uranium mines, plants and centres for the storage, warehousing, isotope separation, processing, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; materials, not of metal, for building and construction and transportable buildings, not of metal, namely non-metal rigid pipes and ducts for non-nuclear boilers, namely rigid PVC pipes and ducts for construction, plastic drain pipes, fibreglass drainage pipes; non-metal rigid pipes and ducts, namely non-metal downspouts, non-metal drain pipes, for nuclear power plants, for nuclear reactors, for uranium mines, plants and centres for the storage, warehousing, isotope separation, processing, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; non-metal rigid pipes and ducts for non-nuclear boilers, namely non-metal downspouts, non-metal drain pipes.

Services

Class 35

(1) Advertising and business in the field of nuclear power, namely advertising related to the goods and services of others conducted through all public communication means, strategic business analysis in the field of nuclear power; business management assistance in the field of nuclear power; business management assistance for subsidiaries; administrative management of subsidiaries; administrative management of shares and stocks held in third-party companies; business organization and management advice for subsidiaries; advice and consulting about, strategy planning, organization and management related to businesses and personnel; market research and studies related to equity participation in third-party businesses; accounting, income tax return preparation, drafting of statements of accounts, account auditing; economic forecasting; promotional and commercial sponsorship and patronage, namely development of advertising campaigns for others, mediation of advertising for others; analysis, design, development and management of computer systems and information technology systems, namely provision of business information directories on the Internet, general information clearing house, collection of market research information. .

Class 37

(2) Construction, installation, operation and maintenance of infrastructure, plants, facilities, equipment and apparatus in the fields of energy, namely renewable energies, climate change and global warming, and electronics, namely combination carbon monoxide and smoke detectors, radon detectors, gamma radiation detectors, thermal sensors; construction, installation and maintenance of plants and centres for the storage, processing, reprocessing and recycling of fuels, ores, nuclear materials, uranium and plutonium; construction, installation and maintenance of nuclear power plants, nuclear reactors, non-nuclear boilers, research and engineering facilities and equipment in the fields of energy, renewable energies, and climate change and global warming; construction, installation and maintenance of facilities, equipment used in the transport of materials in the field of nuclear power; construction supervision, information related to construction in the fields of nuclear power, renewable energies, and climate change and global warming; cleaning, decontamination, sanitation, maintenance and renovation, of nuclear facilities, and of equipment and apparatus in the nuclear field.

Class 38

(3) Electronic messaging and mail services; communication via computer terminals and transmission of information in the fields of nuclear power and electronics through websites and secure electronic mail services; remote communication, namely provision of access to a computer network for the remote control and operation of equipment from generator facilities and nuclear reactors, namely for the checking, regulating, measuring, signalling, regulation, control, operation, protection, and monitoring of the said facilities; dissemination and transmission of messages, information and data via extranet, Internet and intranet networks in the fields of nuclear power and electronics; wired and wireless data and information transmission network services, namely provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information.

Class 40

(4) Energy generation and storage, namely generation of electricity derived from nuclear power, storage of nuclear fuel; nuclear power production; generation, conversion and storage of energy derived from hydrogen; custom material assembly services for others in the form of the custom manufacture of equipment for nuclear power plants, transportable buildings, machines for nuclear reactors; treatment of materials in the field of nuclear power; cleaning, decontamination, sanitation, maintenance and renovation, of nuclear facilities, and of equipment and apparatus nuclear field.

Class 41

(5) Training, education, instruction, teaching in the field of energy; organization and conduct of colloquia, conventions, seminars, conferences in the field of energy; organization and conduct of training workshops in the field of energy; editing and publishing of books, journals, printed matter, newspapers, magazines, CD-ROMs in the field of energy; correspondence courses in the field of energy; educational institutions and services, namely for continuing education and academic education and further training in the field of energy, namely training, education for the staff and operators of nuclear infrastructure, mining sites, facilities, plants and centres.

Class 42

(6) Engineering, namely engineering work in the fields of nuclear power and climate change; laboratory work, namely laboratory research in the field of chemistry, management of scientific and technological projects, namely engineering work in the fields of energy and electronics; engineering work, namely technical advice in the field of pollution detection, technical advice in the field of environmental science, technical surveying, laboratory work and management of scientific

and technological projects, namely engineering work in the field of energy; engineering work, in the nature of research, development, analysis, study and design work in the field of energy; engineering work, namely advice, assessment and testing of materials in the field of energy; engineering work, namely control and simulation services in the field of energy; engineering work, namely scientific and industrial research, design, study, assessment, advisory and information services related to environmental protection, sustainable development, renewable energies and the fight against climate change; environmental auditing services for sites, installations and equipment in the fields of energy and electronics; design, programming, updating, maintenance and rental of software applied to the field of energy, namely in the fields of renewable energies and the fight against climate change, electronics and cybersecurity; chemistry services, namely chemistry laboratory research in the fields of nuclear power and electronics; engineering work, namely pollution risk prevention services related to activities developed in the fields of energy and electronics; services provided by engineers, namely monitoring of nuclear materials, monitoring services for nuclear equipment and facilities; engineering work, namely monitoring services for plants and centres for the warehousing, storage, processing, isotope separation, reprocessing and recycling of fuels, ores, materials used in the nuclear field, nuclear materials, uranium, plutonium and nuclear waste, and for nuclear power plants, nuclear reactors; computer systems design and security; safety inspection of construction sites; studies related to energy mix projects and their impact on smart electrical power transmission and distribution networks; computer security services for networks and streamed data.

Class 45

(7) Security services, namely monitoring services and security guard services for plants and centres for the warehousing, storage, processing, isotope separation, reprocessing and recycling of fuels, ores, materials used in the nuclear field, nuclear materials, uranium, plutonium and nuclear waste, nuclear power plants, nuclear reactors; inspection of construction sites, namely safety auditing for improving the safety of construction workers on commercial, industrial and institutional construction sites.

(3) Hand held cutting tools; punch pliers; hand tool punches; crimping tools

Class 09

(4) Electric cables; electric wires; electrical extension cords; insulated copper wire; electrical conductors, namely, electric heaters printed using conductive inks onto flexible films; capacitors; electric accumulators for vehicles; general purpose batteries; solar batteries; photovoltaic cells; piezoelectric cells; thermoelectric cells; precision measuring apparatuses, namely, calipers, micrometers, depth gauges, thickness gauges, and level gauges; printed circuits; sheaths for electric cables; sheaths for electric appliances; clothing, headwear, face-shields, footwear and gloves for protection against accidents; ground-fault protection devices; circuit breakers; electrically controlled contactors; electric relays; electric limiters; distribution boards; distribution consoles; electrical switch panels; electric transformers; electric power converters; DC/AC inverters; distribution boxes; branch boxes; junction boxes; covers for electric outlets; battery boxes; electric battery chargers for use with planar power distribution cables; electric battery chargers for use with planar generation apparatuses; electric batteries, planar; automotive batteries; capacitors; electrical adapters, namely, for use with planar electric distribution cables; heat regulators; electric current switches; electric plugs; current rectifiers; electric ducts; cathodes; electric cables; insulated copper wire; electrical conductors, namely, for assembly of planar power

distribution systems; electrical conductors, namely, for assembly of planar generation apparatuses; terminals for interfacing with conductors; electricity conduits connectors; connections for electric lines couplings; electrical connectors; mechanical wire connectors; junction sleeves for electric cables; electric sockets identification threads for electric wires; identification sheaths for electric wires; electric installations for remote control of power generation, distribution and storage operations, namely, in-line conductors and over-air radio receivers and transceivers; control panels for measurement, temperature and power regulation, protection, and metering; meters for monitoring electrical consumption; climate control digital thermostats; electric monitoring apparatus, namely, voltage and current monitoring units, energy meters for tracking and monitoring energy usage; measuring devices, namely, electromagnetic measuring detectors, meters for measuring electric current; electric ohmmeters; ammeters; thermostats; digital thermometers, not for medical purposes; temperature indicators; temperature indicator labels, not for medical purposes; rheostats; hydrometers; water level indicators; piezoelectric sensors; time switches; electronic weighing scales for personal use; photovoltaic cells; fluorescent screens; flashing safety lights; luminous or mechanical signals; organic light-emitting diodes [OLED]; quantum dot light-emitting diodes [QLED]; apparatus light-emitting diodes [LED]; GPS receivers; GPS transmitters; radio signal antennas; theft alarms; anti-theft alarms, other than for vehicles; filters for radio interference suppression; solenoid valves [electromagnetic switches]; integrated circuits; integrated chips; integrated circuit cards; computer operating programs; computer monitors; computer display screens; video screens; computer programs for controlling human input/output interfaces, namely, electronic display interfaces and control panels; electronic tags for goods; fire blankets; traffic cones; printers for use with computers.

Class 17

(5) Foils of metal for insulating; plastic films for electrical insulation; polymer films for use in manufacture; semi-processed plastic substances; paper for electrical capacitors; adhesive tapes for assembly of electric power distribution apparatuses; adhesive tapes for assembly of electric power generation apparatuses; selfadhesive tapes for sealing, mounting, and assembly of power generation, distribution, storage, sensing, heating, and lighting apparatuses, namely solar panels, power cables, batteries, temperature sensors, heaters, and lights; electrical insulation; insulating refractory materials; insulators for electric mains; fiberglass for insulation; fiberglass fabrics for insulation; soldering threads of plastic; insulating tapes; insulating paper; insulating felt; insulating plaster; insulating fabrics; insulating varnish; insulating paints; carbon fibers; mica; non-metal pipe jackets; insulating waterproof membranes; padding materials of rubber or plastics; rubber solutions; weatherstripping compositions; metal gaskets; synthetic rubber; shockabsorbing buffers of rubber; latex rubber; liquid rubber; caulking materials; expansion joint fillers; vulcanized fiber; rubber thread and covered rubber yarn; carbon fibers; sealant compounds for joints; semi-processed synthetic resins; semi-processed plastic substances; semi-processed acrylic resins; plastic filaments for 3D printing.

Class 19

(6) Fireproof cement coatings, binding material for road repair, road marking sheets and strips of synthetic material, gypsum.

Services

Class 37

(1) Construction and repair of buildings; building construction supervision; services of electricians; installation of utilities in construction sites; rental of construction equipment; assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals.

Class 40

(2) Screen printing; flexographic printing; offset printing; silkscreen printing; inkjet printing, laminating; custom manufacturing of mouldings of concrete and metal; rental of electricity generators; window tinting treatment; surface coating, namely, coating and surface treatments for assembly of electric planar apparatuses; surface coating, namely, coating and surface treatments for assembly of electric planar solar photo-voltaic, wire, capacitor, heating, and lighting elements electroplating; silver plating; cadmium plating; chromium plating; tin plating; nickel plating; gold plating; metal casting; laser scribing of plastic, metals and ceramics; sandblasting services, galvanization, magnetization, welding services, soldering, custom 3D printing for others.

Class 41

(3) Publishing of books, magazines, reviews, textbooks, instruction manuals, and technical documentation; providing training in the fields of building and construction materials.

Class 42

(4) Industrial design; engineering in the field of materials science; construction drafting; scientific research in the field of materials science; technological research in the field of materials science; product design consulting services; construction project engineering; research and development for new products for others; research in the field of building construction; providing quality assurance in the construction industry; calibration of electronic equipment; material testing; textile testing; laboratory research in the field of chemistry; chemical research; chemical analysis; laboratory testing of materials; scientific and technological research relating to patent mapping; consultancy in the field of energy-saving; research in the field of environmental protection; urban planning; advice and consultancy in relation to carbon offsetting; energy auditing; research in the field of telecommunications technology; consultancy in the design and development of computer hardware; computer programming; computer software design; installation of computer software; rental of computer software; maintenance of computer software; updating of computer software; monitoring of computer systems by remote access; off-site data backup; cloud computing provider services for general storage of data; hosting web sites; server hosting; creating and designing website-based indexes of information for others; packaging design; graphic design of promotional materials.

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours grey, black, gold and white are claimed. The broken leaf design is grey. The swoosh that runs from the bottom of the leaf and under the words NEW HOLLAND consists of dark and light shades of gold. The words NEW HOLLAND are white outlined in black.

Goods

Class 07

(1) Agricultural and earth working machinery and implements therefor, namely agricultural harvesting machines, agricultural baling machines, combine harvesters, bale stacking wagons, combine headers, forage harvesters, forage blowers, feed grinders and mixers, mowers, namely, lawn and garden tractors, mower-conditioners, side delivery rakes, rotary rakes and tedders, windrowers, windrow inverters, manure spreaders, bale movers and carriers, tractor loaders, tillage and seeding equipment, sprayers and parts and fittings for all the aforesaid goods; Material handling equipment, namely grapples, forks, lifts, booms, backhoe buckets, telescopic handlers and parts and fittings for all the aforesaid goods

Goods

Class 07

(1) motors for aeration machines for industrial furnaces; drive chains for conveyors for moving goods through in industrial furnaces; transmission shafts for machines for moving goods through in industrial furnaces; machine parts, namely bearings, hydraulic intensifiers, hydraulic accumulators, reduction gears, speed change gears; machine parts, namely pumps and compressors, fans and fan belts for motors and engines; automatic door and window openers; hydraulic door and window openers, pneumatic door and window openers; electric, hydraulic and pneumatic hoists, wire hoists, hydraulic lift tables, cables for lifts; conveyors and conveyor belts; direct current motors, alternating current servo motors, electric motors for machines, winch motors, power tool motors; generators for industrial machinery, catalytic converters for motors and engines, connecting rods for machines, motors and engines, cooling radiators for machines, motors and engines, cylinders for motors and engines; thermostatic control valves for machines; fuel dispensing pumps for service stations; flues for engine boilers; safety valves; ceramic rollers for roller hearth furnaces; parts and fittings of motors for aeration machines for industrial furnaces, drive chains for machines for moving goods through in industrial furnaces, transmission shafts for machines for moving goods through in industrial furnaces, machine parts, namely bearings, hydraulic intensifiers, hydraulic accumulators, reduction gears, speed change gears; machine parts, namely pumps and compressors, fans and fan belts for motors and engines, automatic door and window openers, hydraulic door and window openers, pneumatic door and window openers, electric, hydraulic and pneumatic hoists, wire hoists, hydraulic lift tables, cables for lifts, conveyors and conveyor belts, direct current motors, alternating current servo motors, electric motors for machines, winch motors, power tool motors, generators for industrial machinery, catalytic converters for motors and engines, connecting rods for machines, motors and engines, cooling radiators for machines, motors and engines, cylinders for motors and engines, thermostatic control valves for machines, and fuel dispensing pumps for service stations, flues for engine boilers, safety valves, and ceramic rollers for roller hearth furnaces

Class 11

(2) Industrial furnaces, furnace boilers, heating furnace burners for industrial purposes, gas burners, automatic air dryers for use in cooling industrial furnaces, industrial refrigerators, cooling

evaporators, cooling vats, and electric fans with evaporative cooling devices for use with industrial furnaces, coolers for industrial furnaces; industrial treatment installations, namely, gas filters for engines and motors, gas purification machines, gas scrubbers; kilns, blast furnaces, gas generating furnaces for industrial purposes; flues for heating boilers, exhaust fans for industrial furnaces; gas burners, oil burners, oven burners, oxyhydrogen burners, petrol burners, electric boilers, furnace boilers, heating boilers, water heaters, gas water heaters, immersion heaters, heaters for vehicles; fireplaces; air filtering units for removing dust, smoke and allergens from the air for industrial use, water filtering units for industrial use; drying ovens; safety lamps, for gas installations; parts and fittings of industrial furnaces, furnace boilers, heating furnace burners for industrial purposes, gas burners, automatic air dryers for use in cooling industrial furnaces, industrial refrigerators, cooling evaporators, cooling vats, and electric fans with evaporative cooling devices for use with industrial furnaces, coolers for industrial furnaces, industrial treatment installations, namely, gas filters for engines and motors, gas purification machines, gas scrubbers, kilns, blast furnaces, gas generating furnaces for industrial purposes, flues for heating boilers, exhaust fans for industrial furnaces, gas burners, oil burners, oven burners, oxyhydrogen burners, petrol burners, electric boilers, furnace boilers, heating boilers, water heaters, gas water heaters, immersion heaters, heaters for vehicles, fireplaces, air filtering units for removing dust, smoke and allergens from the air for industrial use, water filtering units for industrial use, drying ovens, safety lamps, for gas installations

Class 19

(3) non-metal refractory furnace linings, non-metal linings for industrial furnaces, and parts and fittings thereof; refractory ceramic parts, namely kiln fittings for industrial furnaces; non-metal building materials and elements, construction materials and elements, refractory building materials and elements, namely, refractory bricks, refractory castable mixes, refractory concrete, refractory mortars, cement for blast furnaces, cement for furnaces, ceramic water pipe valves, cement blocks, cement chimneys, cement mixes, cement mortar pipes, cement partitions for buildings, cement sewer pipes, cement slabs, fireproof cement coatings, and joining cement; ceramic monuments for use in industrial furnaces; ceramic drain pipes, clay pipes and conduits, concrete pipes, fiberglass drainage pipes, non-metal drain pipes, plastic branching pipes, plastic storm sewer pipes for constructions, plastic water pipes, PVC conduit pipes of building, PVC rigid pipes for construction purposes, PVC sewer pipes, PVC water pipes, sandstone pipes; parts and fittings of refractory ceramic parts, namely kiln fittings for industrial furnaces, non-metal building materials and elements, construction materials and elements, refractory building materials and elements, namely, refractory bricks, refractory castable mixes, refractory concrete, refractory mortars, cement for blast furnaces, cement for furnaces, ceramic water pipe valves, cement blocks, cement chimneys, cement mixes, cement mortar pipes, cement partitions for buildings, cement sewer pipes, cement slabs, fireproof cement coatings, and joining cement, ceramic monuments for use in industrial furnaces, ceramic drain pipes, clay pipes and conduits, concrete pipes, fiberglass drainage pipes, non-metal drain pipes, plastic branching pipes, plastic storm sewer pipes for constructions, plastic water pipes, PVC conduit pipes of building, PVC rigid pipes for construction purposes, PVC sewer pipes, PVC water pipes, and sandstone pipes

Services

Class 37

(1) advisory services relating to the construction of buildings; building construction; building construction and repair; building construction contracting services; building construction services; building construction supervision; building demolition; building disinfecting; building inspection; building insulating; building maintenance and repair; building of shops; building reinforcing;

building restoration; cleaning of building exterior surfaces; cleaning of buildings; construction and renovation of buildings; construction and repair of buildings; consultation in building construction supervision; information concerning rental of equipment for building construction; installation of building insulation; maintenance and repair of buildings; refurbishment of buildings; repair and maintenance of buildings in case of demolition; repair of buildings; repair work on buildings; burner maintenance and repair; furniture maintenance; electrical repair and installation of air conditioners; electrical repair and installation of electrical motors; electrical repair and installation of heaters; electrical repair and installation of lighting; fire alarm installation and repair; furnace installation and repair; heating equipment installation and repair; installation and repair of air conditioners; installation of electrical and generating machinery; construction, installation, building, maintenance and repair of machines and plants, especially of machines and plants for the production of refractory products, anodes, cathodes and electrodes as well as of ceramic products, particularly of ceramic products in the form of technical ceramics, sanitaryware, tableware, and ceramic parts and fittings for industrial furnaces; construction, installation, building, maintenance and repair of machines and plants, especially of furnaces, particularly of furnaces for the production of refractory products, anodes, cathodes and electrodes as well as of ceramic products, particularly of ceramic products in the form of technical ceramics, sanitaryware, tableware, and ceramic parts and fittings for industrial furnaces

Class 42

(2) Planning of buildings and infrastructure systems for buildings; research in the field of building construction; research on building construction; residential and commercial building design service; biochemical research; chemical research; physics research; pollution prevention research; research and development of new products for others; research in the field of environmental protection; research pertaining to mechanical engineering; providing technology information in the oil and gas industry; industrial design; product design consulting services; tool design; design and development of machines and plants, especially of machines and plants for the production of refractory products, anodes, cathodes and electrodes as well as of ceramic products, particularly of ceramic products in the form of technical ceramics, sanitaryware, tableware, and ceramic parts and fittings for industrial furnaces; design and development of machines and plants, especially of furnaces, particularly of furnaces for the production of refractory products, anodes, cathodes and electrodes as well as of ceramic products, particularly of ceramic products in the form of technical ceramics, sanitaryware, tableware and ceramic parts and fittings for industrial furnaces; research, development, and design in the field of industrial furnaces and parts and fittings for industrial furnaces; engineering services in the field of industrial furnaces and parts and fittings for industrial furnaces

Goods

Class 12

(1) Vehicles, namely all-terrain vehicles, sport utility vehicles, trucks, motor cars, electric cars, two-wheeled motor vehicles, namely motor scooters, electric scooters, motorcycles; apparatus for locomotion by land, air or water, namely airplanes, boats, trains; surface material for lining vehicle interiors, namely clutch linings for land vehicles, interior trim parts of automobiles; vehicle interior linings, namely interior trim for automobile; interior panels for vehicles; seat covers for vehicles; seat covers (shaped) for use in automobiles; automobile running boards of rubber; fitted seat covers of rubber for vehicles; seat covers of rubber for use in motor vehicles; motor vehicle seats and motor vehicle seat head-rests of rubber; automobile dashboards of rubber; doors and side panels of rubber, namely door panels of rubber for vehicles, automotive interior paneling of rubber, motor vehicle center consoles of rubber, sun visors of rubber for automobiles; self-adhesive plastic foamed webs for lining pedestals, walls and vehicle interiors, namely pedestal linings for land vehicles, interior trim for automobiles; plastic webs for use as safety nets specially adapted for and affixed to off-road recreational and racing vehicles and for use as luggage nets for vehicles; fitted stroller mosquito nets; trunk covers; goods of leather and imitations of leather, namely cushions, boards of leather and imitation of leather, wall coverings, seat covers, vehicle seats and vehicle seat headrests, dashboards, doors and side panels, center consoles, sun visors, all for car interior.

Class 17

(2) Rubber sheets, rubber bars and rods, rubber for use in manufacture, raw rubber, silicone rubber, liquid rubber, semi-worked rubber, foam rubber, natural rubber, synthetic rubber, gutta-percha, raw gum, semiworked gum, asbestos, mica; goods made from these materials, namely cushioning materials of rubber; plastics in extruded form for use in manufacture; packing, stopping and insulating materials, namely rubber packing for shipping container, rubber sheets for packing purposes, joint packing for pipes, graphite packing for gaskets and valves, packing materials of plastic for shipping containers, low-density polyurethane foam for packing, stops of rubber, insulating tape, rubber sheets for insulating purposes, insulating felt, insulating fabrics; surface material of plastic (PVC), namely plastic sheeting for general industrial or manufacturing use, tinted plastic film for use on windows; sound-insulation wall coverings of plastic; rubber and plastic

foils for use in manufacture ; reflective and non-reflective plastic films for use in vehicle windows, laminated plastic films for use on vehicle windows, tinted plastic films for use on vehicle windows.

Class 18

(3) Leather and imitations of leather; animal skins, hides; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery; leather and imitations of leather for decoration.

Class 24

(4) Mosquito nets.

Class 27

(5) Walls covering of rubber.

Colour Claim

Colour is claimed as a feature of the trademark. The colours red, blue, and white are claimed as features of the trademark. Red (PANTONE* Bright Red C, Hex #F93822 RGB: (249,56,34)) is the claimed colour of the middle rectangle (the middle bar of the stylized "E") on the left side of the mark. Blue (PANTONE* 647C, Hex #236192 RGB (35,97,146)) is the claimed colour of the bottom rectangle on the left (the lowest bar of the stylized "E") side of the mark. White is the colour claimed for the uppermost rectangle on the left (the top bar of the stylized "E") and the stylized "D" on the right side of the mark, and the word "EURODESIGN". The background may be any colour other than the claimed colours, and is depicted in black for illustration purposes only. *PANTONE is a registered trademark.

Goods

Class 12

Vehicle wheels; rims for vehicle wheels.

Services

Class 35

(1) Wholesale sale of vehicle tires, rims and wheels.

Class 37

(2) Vehicle tire, rim and wheel installation, repair, rotating and balancing services.

Class 39

(3) Distribution, namely delivery and transport by truck of vehicle tires, rims and wheels.

Scientific, surveying, signalling, checking, monitoring and measuring apparatus and instruments, namely analysis instruments for photogrammetry, calibration instruments for hygrometers, surveying instruments for measuring distance, height, amplitude, depth, for surveying, for monitoring civil engineering structures and lands in the fields of construction, engineering, geology, geolocation and soil analysis, measuring sensors, namely distance sensors, height sensors, depth sensors and amplitude sensors, precision measuring apparatus, namely level measuring machines for surveying, apparatus for measuring soil humidity, namely hygrometers, positioning apparatus and instruments, namely global positioning systems [GPSs] consisting of computers, software, transmitters, receivers and network interface units, geolocation apparatus and instruments, namely satellite global positioning system [GPS] receivers, global positioning system [GPS] transmitters, mapping devices, in the nature of measuring and modelling apparatus and instruments for mapping the condition of lands, downloadable software applications for portable computers, smart phones and tablets for managing databases, analyzing geolocation data, analyzing soil, analyzing soil data and viewing data in 3D in the fields of construction, engineering, geology, geolocation and soil analysis, interface software for designing and editing graphics, downloadable computer graphics, computer programs and software for construction and civil engineering for managing databases and analyzing geolocation data, analyzing soil, analyzing soil data and viewing data in 3D in the fields of construction, engineering, geology, geolocation and soil analysis, computer programs and software for analyzing soil, computer programs and software for analyzing building structures and civil engineering structures, decision-making software, namely software for managing databases and analyzing geolocation data, analyzing soil, analyzing soil data and viewing data in 3D in the fields of construction, engineering, geology, geolocation and soil analysis, computer programs and software for managing risks in the construction sector, computer software for assessing and managing geotechnical, environmental and structural risks, mapping software, computer software and programs for geolocation systems, 3D animation software, 3D scanners, 3D viewers, 3D graphics software, 3D image manipulators, namely 3D simulation software for designing and developing industrial products in the fields of construction, engineering, geology, geolocation and soil analysis, computer software for 3D modelling and viewing of data collected

from analyzing soil and building and engineering structures, computer programs (CAD/CAM) recorded on software and designed for use in computer-assisted construction and manufacturing, namely the creation, downloading, transmission, reception, editing of geolocation data, soil analysis, soil data analysis and 3D data viewing in the fields of construction, engineering, geology, geolocation and soil analysis, databases, data processing, transmission, conversion, communication, recording and storage apparatus and equipment, namely computers for recording, storing, managing, transmitting and archiving data related to construction, management of data and computer hardware for network attached storage [NAS], wireless telecommunications devices for the transmission of data, for accessing a navigation service and for downloading data, namely computer hardware for telecommunications, all the aforesaid goods being solely in relation to the fields of construction, engineering, geology, geolocation and soil analysis.

Services

Class 37

(1) Construction services for foundations, buildings and civil engineering structures; construction and demolition of foundations, buildings and civil engineering structures; servicing, repair and maintenance of foundations, buildings and civil engineering structures; construction supervision; advice and provision of information in the field of construction; stabilization, drainage, reclamation and maintenance of soil and subsoil; ground and underground erosion control; well drilling, excavation of trenches and walls in the ground; injection of products in the ground, in particular for stabilization and sealing purposes; installation of frames and tie rods for soil stabilization; earthworks; restoration and rehabilitation of derelict sites.

Class 42

(2) Engineering services in the field of construction, scientific research and analysis in the field of construction, technical advice (engineering) and technical assistance (engineering) for carrying out construction work, drafting of construction plans, advice regarding the safety of foundations, buildings and civil engineering structures, design of buildings and civil engineering structures, building inspection [expert assessments], technical project studies and analysis of technical data in the field of construction, analysis of the structural behaviour of building materials, soil analysis services, chemical analysis of soil, soil sampling for analysis purposes, soil sample measurement, geological sample analysis, conduct of geological tests on developable land, soil testing, monitoring and analysis of the behaviour of building structures, creation of control programs for automatic measurement, assembly, adjustment and viewing activities related thereto in the fields of construction, engineering, geology, geolocation and soil analysis, geotechnical tests, geotechnical, geological and geophysical research, seismographic research, topographic research, topographic surveying services, land exploration and surveying services, mapping services, digital mapping services, surveillance services for contaminated land, design, installation, update, maintenance, rental of computer software in the field of construction, development and design of computer programs for processing geolocation data, analyzing soil, analyzing soil data and viewing data in 3D in the fields of construction, engineering, geology, geolocation and soil analysis, exploration, retrieval, migration, securing, decoding, backup, storage and digital compression of data, hosting of data and databases, maintenance of databases, data conversion of electronic information, computer programming services related to equipment for processing geolocation data, analyzing soil, analyzing soil data and viewing data in 3D in the fields of construction, engineering, geology, geolocation and soil analysis, technical advisory services related to processing geolocation data, analyzing soil, analyzing soil data and viewing data in 3D in

the fields of construction, engineering, geology, geolocation and soil analysis, all the aforementioned services being solely in relation to the fields of construction, engineering, geology, geolocation and soil analysis.

Class 07

(1) Valves being parts of machines; valves being parts of pumps; valves for industrial machinery; valves for pumps; valves as machine components; control valves for regulating the flow of gases and liquids; automatic inlet control valves for reciprocating air compressors; pneumatic valves being parts of machines; hydraulic valves being parts of machines; check valves; actuators for valves, namely, hydraulic and pneumatic actuators; hydraulic linear actuators, other than for land vehicles; pneumatic linear actuators, other than for land vehicles; pneumatic rotary actuators being parts of machines; pneumatically and hydraulically controlled devices being grippers for use in pneumatic and hydraulic devices for the purposes of picking up and placing objects, transferring material, clamping objects, and indexing objects; vacuum robotics and tools, namely, vacuum cups and reciprocating vacuum pumps as parts of machines; vacuum pumps; pumps namely, compressed air pumps, hydraulic pumps, lubricating pumps; pneumatic fluid filters being parts of pneumatic or hydraulic machines; air filters being parts of pneumatic or hydraulic machines; filters for cleaning air, being parts of pneumatic or hydraulic machines; Lubricators for lubricating pneumatic or hydraulic machines; pressure switches being parts of machines for monitoring, controlling and switching pneumatic or hydraulic systems; positioners in the nature of pneumatic and hydraulic controller devices for controlling movement of automated production machinery; miniature pneumatic components, namely, pneumatic manifolds; silencers, mufflers and noise reduction devices for machines and parts of machines; cylinders for machines; cylinders for industrial machinery; pressure regulating valves being parts of machines; air compressors; pistons for cylinders; air preparation devices, namely, pneumatic filters, regulators, lubricators, and parts thereof for use in pneumatic machinery for conditioning compressed air; pneumatic tubing accessories, namely accessories for tubes used in machines to convey material via compressed air or vacuum; pneumatic tubing namely tubes used in machines to convey material via compressed air or vacuum; safety valves; replacement parts for all the following: valves being parts of machines, valves being parts of pumps, valves for industrial machinery, valves for pumps, valves as machine components, control valves for regulating the flow of gases and liquids, automatic inlet control valves for reciprocating air compressors, pneumatic valves being parts of machines, hydraulic valves being parts of machine, check valves, actuators for valves, namely, hydraulic and pneumatic actuators, hydraulic linear actuators, other than for land vehicles,

pneumatic linear actuators, other than for land vehicles, pneumatic rotary actuators being parts of machines, Pneumatically and hydraulically controlled devices being grippers for use in pneumatic and hydraulic devices for the purposes of picking up and placing objects, transferring material, clamping objects, and indexing objects, vacuums robotics and tools, namely, vacuum cups and reciprocating vacuum pumps as parts of machines, vacuum pumps, pumps namely, compressed air pumps, hydraulic pumps, lubricating pumps, pneumatic fluid filters being parts of pneumatic or hydraulic machines, air filters being parts of pneumatic or hydraulic machines, filters for cleaning air, being parts of pneumatic or hydraulic machines, Lubricators for lubricating pneumatic or hydraulic machines, pressure switches being parts of machines for monitoring, controlling and switching pneumatic or hydraulic system, positioners in the nature of pneumatic and hydraulic controller devices for controlling movement of automated production machinery, miniature pneumatic components, namely, pneumatic manifolds, silencers, mufflers and noise reduction devices for machines and parts of machines, cylinders for machines, cylinders for industrial machinery, pressure regulating valves being parts of machines, air compressors, pistons for cylinders, air preparation devices, namely, pneumatic filters, regulators, lubricators, and parts thereof for use in pneumatic machinery for conditioning compressed air, pneumatic tubing accessories, namely, accessories for tubes used in machines to convey material via compressed air or vacuum, pneumatic tubing namely tubes used in machines to convey material via compressed air or vacuum, and safety valves

Class 09

(2) Valves for controlling and regulating the flow of gases and liquids; manual/mechanical valves; pneumatically operated valves; time delay control valves; solenoid valves; valve manifolds for control systems; control valve mounting manifolds; electric actuators; automatic time switches; automatic transfer switches; current switches; cut-out switches; differential switches; diode AC switches; diode alternating current switches; electric current switches; electric flasher switches; electric rotary switches; electric tactile switches; electric toggle switches; electromagnetic switches; electronic motion sensitive switches; fault current switches; mercury switches; power switches; pressure switches; rocker switches; smart tactile switches; time switches; timer switches; touch sensitive switches; downloadable software for machine control; software for managing fluid powered systems and machines involved in factory automation; electronic control apparatus and instruments for controlling pneumatic and hydraulic systems in the nature of pneumatic and hydraulic machines; temperature sensors for managing fluid power systems and machines involved in factory automation; pressure sensors for managing fluid power systems and machines involved in factory automation; vacuum sensors for managing fluid power systems and machines involved in factory automation; electronic positioners for use with machines; Flow controls for fluid handling machines and equipment in the nature of automatic liquid flow control machines; cylinders being automatic liquid-flow control machines; regulators and flow rate and pressure indicators in the nature of pressure gauges, pressure indicators and measuring apparatus for the production, processing or treatment of compressed air or other compressed gases; flow gauges; replacement parts for all the following: Valves for controlling and regulating the flow of gases and liquids, manual/mechanical valves, pneumatically operated valves, time delay control valves, solenoid valves, valve manifolds for control systems, control valve mounting manifolds, electric actuators, automatic time switches, automatic transfer switches, current switches, cut-out switches, differential switches, diode AC switches, diode alternating current switches, electric current switches, electric flasher switches, electric rotary switches, electric tactile switches, electric toggle switches, electromagnetic switches, electronic motion sensitive switches, fault current switches, mercury switches, power switches, pressure switches, rocker switches, smart tactile switches, time switches, timer switches, touch sensitive switches, downloadable software for

machine control, software for managing fluid powered systems and machines involved in factory automation, electronic control apparatus and instruments for controlling pneumatic and hydraulic systems in the nature of pneumatic and hydraulic machines, temperature sensors for managing fluid power systems and machines involved in factory automation, pressure sensors for managing fluid power systems and machines involved in factory automation, vacuum sensors for managing fluid power systems and machines involved in factory automation, electronic positioners for use with machines, digital positioners for use with machines, Flow controls for fluid handling machines and equipment in the nature of automatic liquid flow control machines, cylinders being automatic liquid-flow control machines, pressure regulators and flow rate and pressure indicators in the nature of pressure gauges, pressure indicators and measuring apparatus for the production, processing or treatment of compressed air or other compressed gases, and flow gauges

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of a two cables shown in gold connecting at the top to a white circle containing a red swirl on the left and a blue swirl on the right and at the bottom to two white cloud formations outlined in gold. Directly above the white cloud formation on each side are six gold stars. The shield inside the two cables is shown in white with the words 'SINCE 1899' shown in black. Directly under the word 'SINCE 1899' is a Korean Character that transliterates to 'cheong kwan jang' shown in black and a non-Latin character that translates to red ginseng shown in red. Below the shield and between the two cloud formations is the number '6' with a non-Latin character that translates to 'year old roots' shown in white. Below the number six is a red banner with gold trim featuring the words KOREAN RED GINSENG in white. The mark is shown on a red and black rectangular background.

Foreign Character Translation

The term 'cheong kwan jang' has no particular meaning and is a coined term. The English translation of the term 'hongsam' is 'red ginseng'. The English translation of the term 'nyeongeun' is 'year old roots'.

Foreign Character Transliteration

From top to bottom, the transliteration for the non-Latin characters are 'cheong kwan jang' 'hongsam' and 'nyeongeun'.

Goods**Class 29**

Frozen red ginseng for use as a vegetable; canned, pickled and steamed red ginseng for use as a vegetable; preserved red ginseng for use as a vegetable; red ginseng processed food products, namely, steamed and dried red ginseng for use as a vegetable; processed vegetable products containing red ginseng, namely, canned vegetables and pickled vegetables; vegetable juices for cooking; powdered eggs containing red ginseng; dairy-based food beverages, namely milk beverages containing fruits and red ginseng; dried edible seaweed containing red ginseng; preserved, frozen and dried fruits and vegetables containing red ginseng; prepared meals primarily consisting of cooked fruits and vegetables containing red ginseng

Visual Representation

The image shows a stylized, bold, black text logo. The letters are thick and blocky, with a slightly irregular, hand-drawn appearance. The word 'Kaidvll' is written in a single line. The 'K' is the largest and most prominent letter, followed by 'a', 'i', 'd', 'v', 'l', and 'l'. The 'i' has a small dot above it. The 'v' is a simple, downward-pointing shape. The two 'l's are vertical bars with a small hook at the bottom.

THE OLIVE JUNCTION

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of a circular outer border in olive green (hex code #808437), within which are the words "THE OLIVE JUNCTION" in white. Inside the olive green circle, there is a white circle. Within the white circle, there is a "J" in dark charcoal grey (hex code #292A24) to the right, and an olive green (hex code #808437) star to the left. Underneath the olive green circle are the words "THE OLIVE JUNCTION." The words "THE" and "JUNCTION" are in dark charcoal grey (hex code #292A24) and the word "OLIVE" is in olive green (hex code #808437).

Colour Claim

Colour is claimed as a feature of the trademark. The arched rectangle with rounded edges containing the word FROMAGERIE and the cheese wheel with a portion cut out of it (1/4), both of which are contained in a black circle located at the top of the mark, are red (Pantone* PMS 186). The line around the edge of the black circle at the top of the mark containing the words FROMAGERIE BERGERON is yellow (Pantone* PMS 136). The circle in the upper half of the ellipse, and inside which is written the word PREMIUM, is yellow (Pantone* PMS 136). The words LOUIS CYR in the ellipse at the bottom of the mark are yellow (Pantone* PMS 136). The fine line at the outer edge of the circle bounding the mark is red (Pantone* PMS 186). The other elements, including the background and the lettering, are white or black (Pantone * PMS black). * Pantone is a registered trademark.

Disclaimer

The right to the exclusive use of the words "FROMAGE À PÂTE FERME AFFINÉ" and "RIPENED FIRM CHEESE" is disclaimed apart from the trademark.
