Trademarks Journal

2021-05-19 — Vol. 68 No. 3473

# Trademarks Journal

## Vol. 68 No. 3473

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

**Goods****Class 09**

computer software, downloadable mobile application software and computer hardware, all for providing instant messaging and search engine services; computer software, downloadable mobile application software, and hardware for digital and electronic transmission via the Internet, intranets, extranets and telephonically of, computer generated graphics, art pictures, photographs, digital videos, namely, e-mails and text messages; computer software, downloadable mobile application software, and hardware to enhance the capabilities of text messaging and instant messaging applications, namely, for the integration of text, audio, computer generated graphics, art pictures, photographs, and digital videos, namely, within text messages and instant messages; computer software, downloadable mobile application software, and hardware for providing an interactive website featuring chat, forums, messaging and social networking; application programming interface (API) for computer software which facilitates online services for social networking and building social networking applications; computer software and hardware to enable users to upload, download, access, post, display, tag, blog, stream, link and share text messages, computer generated graphics, art pictures, photographs, digital video recordings providing information in the field of finance via the Internet and wired and wireless communication networks; and computer software and hardware that provides web-based access to applications and services through a web operating system and portal interface

**Services****Class 38**

(1) providing e-mail, text messaging, web messaging, search engine, instant messaging and social networking services; operating an interactive website featuring chat, messaging and social

networking; peerto- peer data sharing services, namely, electronic transmission of text messages and text documents, computer generated graphics, art pictures, photographs, e-mails and digital video recordings providing information in the field of finance among internet users through the Internet, wired and wireless networks; providing access to computer, electronic and online databases; providing online chat rooms and electronic bulletin boards in fields of interest defined by the user for transmission of text messages and text documents, computer generated graphics, photographs, e-mails and digital video recordings providing information in the field of finance among users through the Internet, wired and wireless networks; broadcast communication services, namely, transmitting e-mails and text messages to designated recipients for others; digital and electronic transmission of data, namely, computer generated graphics, art pictures, photographs and text messages, via the Internet, intranets and extranets and telephonically; and providing online communications links which transfer web site users to other local and global web pages

### **Class 42**

(2) providing online search engines; computer services, namely, creating on-line virtual communities for registered users to organize groups and events, participate in discussions, and engage in social, business and community networking; computer services, namely, hosting on-line web facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; application service provider (ASP) featuring software to enable users to the upload, download, stream, post, display, blog, link, share photographic images, e-mails, text messages and text documents, through the Internet, wired and wireless networks; providing online network services that enable users to transfer and share text messages and text documents, art pictures, and photographs, with and among multiple websites through the Internet, wired and wireless networks; hosting a web site featuring technology that enables online users to create personal profiles featuring social networking information and to transfer and share such information; and hosting a web site featuring technology that enables users to upload and share live streaming videos, pre-recorded video files, photos, text messages and text documents, e-mails and graphics

### **Claims**

Priority Filing Date: June 18, 2013, Country or Office: UNITED STATES OF AMERICA, Application No: 85/962,476 in association with the same kind of goods and in association with the same kind of services

**Application Number** 1,668,658  
**Language of Application** English

**Filing Date** 2014-03-19

### Trademark Type

Word

### Goods

#### Class 04

(1) Oil for industrial purposes, namely compressor oils, gear oils and motor oils, oils for technical purposes, namely compressors oil, engine oil, heavy oil, penetrating oil, motor oil, industrial oil, oil for lubricating industrial machinery, moistening oil, combustible oil, crank case oil and oils for air compressors, blowers and vacuum pumps, industrial greases, paraffin, all aforesaid goods used exclusively for and in connection with compressed air generation, compressed air distribution and compressed air treatment and parts for all the aforesaid goods.

#### Class 06

(2) Metal pipes, namely metal pressure pipes, pipe spigots of metal, collars of metal for fastening pipes, junctions of metal for pipes, elbows of metal for pipes, common metals and their alloys, cables and wires of metal, not for electric purposes, ironmongery and small items of metal hardware, namely metal screws, metal nuts, metal washers and metal bolts, branching pipes of metal, fittings of metal for compressed air ducts, and clips of metal for cables and pipes, metal containers for air, metal containers for compressed gas and metal containers for liquid air, closures of metal for containers, metal sheets, metal flanges, metal pipe collars, masts of metal, grease nipples, door fittings of metal, all aforesaid goods used exclusively for and in connection with compressed air generation, compressed air distribution and compressed air treatment and parts for all the aforesaid goods;

#### Class 07

(3) Machine tools and mechanical apparatus for the generation of compressed air, vacuum pressure and air flow, namely, compressed air pumps, coupling valves, hoses and filters and replacement parts for all the aforesaid goods; power operated compressors for the compression of air and replacement parts for all the aforesaid goods; power operated blowers for the compression, exhaustion and transport of air and replacement parts for all the aforesaid goods; power operated blowing machines for blowing air and replacement parts for all the aforesaid goods; air suction machines, namely power operated air blowers and power operated vacuum pumps and replacement parts for all the aforesaid goods; vacuum pumps being machines and replacement parts for all the aforesaid goods; machines for the generation of compressed air, namely air

compressors; pneumatic transporters, consisting of air blowers and tubes for transporting bulk material; motors used in machines for the generation of compressed air; compressed air pumps; compressed air vessels being parts of machines; compressed air pressure tanks used in machines and installations which generate and regulate compressed air; pumps being parts of air compressor for industrial machinery, vacuums, motors and engines; turbines for use in the generation and regulation of compressed air; machine tools for the compression, exhaustion and transport of gases; pneumatic hammers, pneumatic chisels, pneumatic drills; filters, used in machines, motors and engines for the generation of compressed air; air filters for motors and compressors; catalytic converters for the adsorption of hydrocarbon vapors, namely gas catalytic converters; activated carbon absorbers machines and activated carbon absorber for machines, and catalytic converters, being parts of machines; activated carbon filters for use in compressed air systems, being parts of machines; high pressure filters used in machines for the generation of compressed air; condensate separators being parts of machines, namely centrifugal separators; automatic vacuum cleaners; cooling devices, namely cooling radiators for compressors, motors and blowers; cooling radiators for motors, compressors machines, vacuum pumps, air suction machines and blowers; air condensers to condense contaminants arising from the action of compressors for industrial machinery; condenser installations, namely, air condensers and air-cooled condensers to condense contaminants arising from the action of compressors for industrial machinery; de-aerators being parts of machines; oil-separators and de-oilers for separating oil from air being parts of machines; fittings for compressors and machines, namely, condensation separators, drain taps, valves, air receivers, dryers, coolers, anti-vibration mountings, controls, pumps, starter and protection panels, electric motors and pipes; taps being parts of machines and motors; mechanical seals being parts of machines; compressed air main charging systems comprised of controllers and regulators for the control and regulation of compressed air pressure, being parts of machines; regulators being parts of machines for compressors and for vacuum pumps; speed governors for compressed air machines and motors; pressure regulators being parts of machines, namely compensation tanks; valves being parts of machines; pressure reduction valves being parts of machines; pneumatic controls to regulate and control the operation of industrial machines and motors; motors for air compressors, blowers, air suction machines, vacuum pumps; electric motors namely general purpose electric motors for machines; generators of electricity; machine housings, namely housings for compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines; leveling mounts for machines; stands for machines, namely stands specifically designed to support powered machinery; tables for machines, namely tables specifically designed to support powered machinery; couplings and driving belts for machines for industrial use, other than for land vehicles; gear boxes, for industrial machinery ; ball-bearings for use in compressed air machines; shaft couplings being machines; crankshaft for industrial machinery ; machine wheels being parts of compressed air machines, air suction machines, blowers and vacuum pumps; axles for machines; pump diaphragms; superchargers for compressed air machines; turbo compressors being parts of machines to compress air; fans for motors; antipollution controllers and regulators for use in motors and compressors which are parts of machines and motors; heat exchangers being parts of machines; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; remote controllers and regulators for compressors, blowers, and vacuum pumps, being parts of machines; apparatus and devices for machine control, namely, pneumatic, hydraulic and mechanical controls and pneumatic and hydraulic and mechanical regulators, all being parts of machines, compressors, blowers and vacuum pumps; air cooling devices, namely cooling radiators for compressors, motors, blowers and vacuum pumps; air coolers, namely compressed air coolers being parts of machines;

**Class 09**

(4) Electric and electronic controls for air compressors, air blowers, vacuum pumps and electric and electronic controls for air treatment apparatus and air treatment devices, namely for, air dryers, air filters, air purifiers, air coolers, condensate drains and oil mist eliminators; electric and electronic regulating devices for regulating gas flow of compressors, blowers, vacuum pumps, and electric and electronic regulating devices for regulating gas flow of air treatment apparatus and air treatment devices, namely for, air dryers, air filters except those for installation in vehicles and caravans, yet not except for those for installation in portable compressors, air coolers, condensate drains and oil mist eliminators; electric and electronic controllers and regulators for process control and machine control and remote control of industrial processes for the generation, distribution and treatment of compressed air; electronic control devices, namely, compressed air main charging systems comprised of controllers for the regulation of compressed air; integrated circuits; pressure, temperature, voltage, power, humidity, amplitude of vibration, acceleration, time of operation and flow measuring devices for use in the generation, distribution and treatment of compressed air and as parts of machines for use in the generation, distribution and treatment of compressed air; programmable electronic data processors and data acquisition apparatus to manage, monitor and optimize the generation of compressed air, vacuum and air flow and for the treatment of compressed air; computer programs recorded on data carriers and in data memories, namely software for industrial automation and for operating, controlling, monitoring, sequencing, protecting and maintaining air compressors, air blowers, air dryers, air filters except those for installation in vehicles and caravans, yet not except those for installation in portable compressors, air purifiers, air coolers, condensate drains and oil mist eliminators; computers, computer installations, namely computer hardware, for the control of machines and mechanical units for the generation of compressed air, vacuum and air flow and for the treatment of compressed air; computer output equipment, namely, printers, recorders for data capture, plotters, terminals, screens, and visual displays solely as peripheral devices for the control of machines and mechanical devices for the generation of compressed air, vacuum and air flow and for the treatment of compressed air; apparatus and devices for data transmission namely, controllers to enable the operation of machines and mechanical units for the generation of compressed air, vacuum and air flow, and for the treatment of compressed air, vacuum and air flow, and for the treatment of compressed air; electrotechnical and electronic user interface apparatus and devices, namely electric control panels for use in the generation and regulation of compressed air; sensors for the acquisition of physical quantities, namely for the acquisition of pressure, of temperature, of voltage, of power consumption, of the amplitude of vibration, of operation time, of humidity and of the flow rate of air and other gases; parts of electric control devices, namely electric circuits; regulators for use in gas equipment for the regulation of gas taps for pipes; safety accessories for compressors, namely protective switches, pressure switches; controllers and regulators for air treatment apparatus and air treatment devices, namely controllers and regulators for controlling the flow of gases;

**Class 11**

(5) Apparatus, devices and machines for air treatment namely, controllers for compressed air conditioning for the separation and deposition of solid and liquid contamination of the compressed air, namely drying, air cooling, air conditioning and air cleaning units; air filtering units to remove contaminants arising from the action of controllers effecting compressed air conditioning; industrial air purifiers; air dryers for the removal of moisture and water vapor from compressed air and gases; desiccating dryer units to remove water from the air in compressors for industrial machinery; refrigeration dryer units to remove water from the air in compressors for industrial machinery; membrane dryers units to remove water from the air in compressors for industrial machinery; desiccant and adsorption dryers for the removal of moisture and water vapor from

compressed air and gases; air dryers for use in air conditioning systems;; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers; condensate water purifiers and filtrators; air filters for air conditioning; compressed air filters being parts of household and industrial installations, namely filters for compressed air conditioners, compressed air coolers, compressed air dryers for compressed air treatment apparatus for the separation and deposition of solid contamination of compressed air; air filtering units to remove contaminants arising from the action of compressor installations; compressed air filters being parts of industrial installations, namely filters for compressed air conditioners, compressed air coolers, compressed air dryers for compressed air treatment and apparatus for the separation and deposition of solid, liquid and aerosolic contamination of compressed air; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; machines for the sterilization of air in air treatment units, namely air sterilizers.

### **Class 16**

(6) Manuals; paper, cardboard and goods made from these materials, namely paper boxes, boxes of cardboard and boxes of paper, brand labels of paper, adhesive brand labels made of paper; printed matter, namely, books, magazines, written articles, technical bulletins, data sheets and brochures in the field of compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines; photographs; computer programs in printed form for use in the operation of compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines to enable the compression, generation and purification of air and water.

### **Services**

#### **Class 37**

(1) Leasing of machines and equipment for the generation, conducting, storing, release and treatment of compressed air; installation and repair of machines for the generation and distribution of compressed air, and for compressed air treatment, compressed air installations, compressors and compressor installations; installation of compressed air generators in third party facilities to enable compressed air generation, distribution and treatment; installation and repair of third party air compressors and gas compressors; installation and repair of facilities used to generate compressed air, namely buildings, machines and equipment for the generation, conducting, storing, release and treatment of compressed air; plumbing; installation, maintenance and repair of machines for and in compressed air generation, compressed air distribution and compressed air treatment; cleaning of air compressors, gas compressors and compressed air installations, namely buildings, machines and equipment for the generation, conducting, storing, release and treatment of compressed air; installation and repair of pipes, namely of pressure pipes; rental of air compressors and gas compressors; rental and leasing of installations serving the generation and supply of energy and of compressed air, namely buildings, machines and equipment for the generation and supply of energy and compressed air.

#### **Class 39**

(2) Contracting, namely provision of compressed air for third parties in terms of delivery.

#### **Class 40**

(3) Generation of compressed air and inert gases for others; consultancy services for third parties in the field of generation of compressed air and inert gases; contracting, namely the generation of compressed air for third parties.

#### **Class 41**

(4) Training and further training of engineers, in the field of compressed air, compressors and compressed air applications; education of third parties in the field of compressed air, compressors, blowers, vacuum pumps and compressed air applications; providing of training to third parties in the use, operation and maintenance of compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines; film production; arranging and conducting of conferences and seminars in the field of compressed air machines, air suction machines, vacuum pump machines, compressors and blowing machines.

#### **Class 42**

(5) Technical support regarding the management of installations serving the generation, conduction, storing, release and treatment of compressed air; technical consultancy services for third parties in the fields of procurement, generation and utilization of compressed air; scientific and industrial research in the field of compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines; computer programming; engineering services in the field of compressed air machines, vacuum air pumps, air suction machines, compressors and blowing machines; construction drafting; technical project studies, namely technological planning and consulting in the field of air compression, compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines; quality control on behalf of third parties exclusively in the fields of compressed air generation, compressed air distribution and compressed air treatment; providing of expert opinions in the field of air compression, compressed air machines, vacuum pump machines, air suction machines, compressors and blowing machines; material testing; technical consultancy services in the fields of compressed air generation, compressed air treatment and compressed air distribution; research in the fields of compressed air generation, compressed air treatment and compressed air distribution.

#### **Claims**

#### Class 09

(1) Portable and handheld electronic devices for transmitting, storing, manipulating, recording, and reviewing text, images, audio, video and data, including via global communications networks, wireless networks, and electronic communications networks, namely electronic book readers, CD players, MP3 players, DVD players, laptops, tablet computers, smart phones, digital cameras, and personal digital assistants (PDAs); computer hardware and software for broadcasting and facilitating access to interactive television (TV) programming and facilitating access to online social networking services; computers; tablet computers, electronic book readers, CD players, MP3 players, DVD players; computer game machines fitted with a camera function adapted for use with external display screen and monitor; remote controls for computers, set-top boxes, television (TV) tuners, televisions (TVs), TV receivers, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, digital cameras, and personal digital assistants (PDAs); set-top boxes, namely audio, video, and media receivers and decoders, cable television converters, and Ethernet streaming media converters; television (TV) tuners; wireless controller to monitor and control the functioning of other electronic devices, namely computers, set-top boxes, television (TV) tuners, televisions (TVs), TV receivers, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, digital cameras, and personal digital assistants (PDAs); set-top boxes; batteries for computers, set-top boxes, television (TV) tuners, televisions (TVs), TV receivers, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); universal power adapters; software for playing computer and electronic games; downloadable pre-recorded audio files, visual files, audiovisual files and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; parental control software to allow parents to control and limit the use of computers, set-top boxes, television (TV) tuners, televisions (TVs), TV receivers, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); voice recognition software; character recognition software; application development computer software programs; computer software development

kit consisting of computer software code that can be used to support the development and electronic distribution of third-party software, music, audio books, movies, television shows, and video games, and for the related technical support thereof, in the fields of education and entertainment across global computer networks, wireless networks, and electronic communications networks; software for developing and publishing applications for interactive video streaming to any device having a video decoder and an upstream signal; software used to interact with an application for interactive video streaming to devices that have a video decoder and an upstream signal; computer software for transmitting, sharing, receiving, downloading, displaying, recording, transmitting, manipulating, transferring, and optimizing text messages, photographs, digital still images and moving pictures, music, audio books, movies, television shows, video games, books, magazines, periodicals, comic books, journals, graphics, electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, electronic catalogues, and computer games via computers, televisions (TVs), TV receivers, set-top boxes, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); computer software enabling text, photographs, digital still images and moving pictures, music, audio books, movies, television shows, video games, books, magazines, periodicals, comic books, journals, graphics, files, documents and electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, electronic catalogues to be downloaded to and accessed on a computer, television (TV), TV receiver, set-top boxes, computer game machine, and portable electronic device; computer hardware and software for controlling the operation of audio and video devices, namely set-top boxes, television (TV) tuners, televisions (TVs), TV receivers, computer game machines, and for viewing, searching and playing pre-recorded audio files, pre-recorded video files, television, movies, photographs and other digital images, and other multimedia content, namely video games; computer software for formatting and converting text, pre-recorded visual files, pre-recorded audio files, pre-recorded audiovisual files, literary works, graphics, files, documents and electronic works (namely periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues) into a format compatible with computers, televisions (TVs), TV receivers, set-top boxes, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); computer software to receive, transport, encode, decode, decrypt, encrypt, transmit, multiplex, demultiplex, and manipulate video, audio, and text in digital format to deliver television and other video programming to appropriate video devices for distribution of television programming for viewing on TVs, monitors, computers, tablet computers, computer game machine and portable electronic devices; electronic publishing software; tablet computer operating system software; computer software for controlling television (TVs), TV receiver, set-top boxes, computer game machines by voice commands; computer software for controlling remote controls for computers, set-top boxes, television (TV) tuners, televisions (TVs), TV receivers, computer game machines, and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs) by voice commands; computer software for controlling portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, digital cameras, and personal digital assistants (PDAs) by voice commands

**Class 16**

(2) Printed publications, namely, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals, and catalogues on a variety of topics

**Class 28**

(3) Electronic game controllers; video game controllers

## **Services**

### **Class 35**

(1) On-line retail store services featuring books, downloadable music, audio books, photographs, digital still images and moving pictures, movies, television shows, video games, computer software, music, movies, periodicals, toys, and games for use on computers, televisions (TVs), TV receivers, set-top boxes, computer game machines, and portable electronic devices, namely electronic book readers, CD players, MP3 players, DVD players, laptops, tablet computers, smart phones, digital cameras, and personal digital assistants (PDAs); on-line retail store services featuring electronic publications, namely, books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; providing an on-line searchable database featuring consumer product information regarding music, audio books, photographs, digital still images and moving pictures, movies, television shows, video games, computer software, computer hardware, consumer electronics, games, toys, and electronic publications; providing an on-line commercial information directory; dissemination of advertising for others via an on-line electronic communications network on the Internet; providing a searchable on-line advertising guide featuring the goods and services of other on-line vendors; computerized database management services; providing online newsletters and blogs featuring information in the field of entertainment, namely promotional contests of others

### **Class 37**

(2) Maintenance and updating of hardware relating to computer, Internet and password security

### **Class 38**

(3) Communication services, namely, facilitating the transmitting, receiving, downloading, streaming, and broadcasting of text messages, digital still images and moving pictures, music, audio books, movies, television shows, video games and graphics via Ethernet and wireless local and wide area networks to users of e-readers, portable electronic devices, portable digital devices, tablets, computers, TVs, TV receivers, and set-top boxes; streaming of music, audio books, photographs, digital still images and moving pictures, movies, television shows, and video games via the Internet and global computer and communications network; online chat rooms and online communities for the transmission of messages among computer users concerning topics of general interest; providing access to online commercial information directories, third party databases, current events websites and blogs, and on-line third party reference materials via Ethernet and wireless local and wide area networks; providing telecommunications connections to the Internet for the transfer of images, text messages, music, audio books, photographs, digital still images and moving pictures, movies, television shows, and video games among e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices (namely electronic book readers, digital audio and video players, laptops, tablet computers, and personal digital assistants (PDAs)), tablets, computers, TVs, TV receivers, set-top boxes, and computer game machines; electronic transmission of third-party podcasts in the field of general interest via the Internet; electronic transmission of third-party webcasts in the field of general interest via the Internet; television broadcasting services; non-downloadable video streaming services, namely streaming third party videos to users of electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, digital cameras, and personal digital assistants (PDAs); video-on demand transmission services; education and entertainment services, namely, providing access to on-line portals and a website in the field of educational and entertainment content, namely, movies, television shows, music, audio books, books, theatrical performances, books, magazines, periodicals, comic books, journals, hockey games, soccer games, football games,

lacrosse games, basketball games, baseball games, rugby games, volleyball games, golf games, swimming competitions, diving competitions, gymnastics competitions, track and field competitions, martial arts competitions, weightlifting competitions, ice skating competitions, boxing matches, wrestling matches, hiking, skiing, bicycling, backpacking, climbing, camping, mountaineering, boating, arts and crafts, gardening, cooking, hockey tournaments, golf tournaments, volleyball tournaments, basketball tournaments, art, dance, musicals, popular culture, sports trade show exhibitions and current event exhibitions, martial arts instruction, physical fitness instruction, tennis instruction, yoga instruction, ski instruction, golf instruction, social clubs, health clubs, night clubs, travel clubs, mail order book clubs, country clubs, radio programs, comedy performances, dramatic performances, promotional contests of others, art prints, art pictures, photographs, video games, video gaming, ethnic festivals, wine festivals, dance festivals, food festivals, museums, theme parks, amusement parks, zoo parks, aquatic parks, public parks, music concerts, desktop publishing, animation, current events, fashion shows, and downloadable and non-downloadable multimedia presentations combining video clips, animation and sound clips in the field of literature, history, language, math, business, physics, chemistry, geology, biology, social science, computer technology, hobbies, popular culture, sports, fine arts, psychology and philosophy

#### **Class 41**

(4) Entertainment services, namely, providing, via the Internet, temporary use of non-downloadable video games, music, user-generated and user-selected videos, television programming, photographs, movies, and text messages for use with computers, televisions (TVs), TV receivers, set-top boxes, computer game machines, electronic book readers, digital audio and video players, laptops, tablet computers, personal digital assistants (PDAs) and global computer and communications networks; providing pre-recorded audio, audiovisual, and multimedia works, namely music, audio books, spoken word recordings, movies, television shows, video games and videos in the field of entertainment, namely movies, television, music, audio books, books, theatre performances, magazines, periodicals, comic books, journals, hockey games, soccer games, football games, lacrosse games, basketball games, baseball games, rugby games, volleyball games, golf games, swimming competitions, diving competitions, gymnastics competitions, track and field competitions, martial arts competitions, weightlifting competitions, ice skating competitions, boxing matches, wrestling matches, hiking, skiing, bicycling, backpacking, climbing, camping, mountaineering, boating, arts and crafts, gardening, cooking, hockey tournaments, golf tournaments, volleyball tournaments, basketball tournaments, art, dance, musicals, sports trade show exhibitions, book trade fairs, art exhibitions, animal exhibitions, automobile trade show exhibitions, craft trade show exhibitions, figure skating exhibitions, martial arts instruction, physical fitness instruction, tennis instruction, yoga instruction, ski instruction, golf instruction, social clubs, health clubs, night clubs, travel clubs, mail order book clubs, country clubs, radio programs, comedy shows, promotional contests of others, photographs, digital still images and moving pictures, video games, video gaming, ethnic festivals, wine festivals, dance festivals, food festivals, museums, theme parks, amusement parks, zoo parks, aquatic parks, public parks, music concerts, desktop publishing, computer animation, current events, fashion shows, and educational downloadable and non-downloadable multimedia presentations combining video clips, animation and sound clips in the field of literature, history, language, math, business, physics, chemistry, geology, biology, social science, computer technology, hobbies, popular culture, sports, fine arts, psychology and philosophy via the internet, and global computer and communications networks; publishing of books, magazines, periodicals, literary works, photographs, digital still images and moving pictures, music, audio books, movies, television shows, and video games; publishing of online works of others featuring user-generated text messages, music, audio books, movies,

television shows, video games, and computer graphics; providing on-line computer and educational games and on-line interactive children's stories; providing online newsletters and blogs featuring information in the fields of entertainment, namely movies, television shows, music, audio books, books, theatrical performances, books, magazines, periodicals, comic books, journals, sporting events, hiking, skiing, bicycling, backpacking, climbing, camping, mountaineering, boating, arts and crafts, gardening, cooking, sports tournaments, art, dance, musicals, sports trade show exhibitions, book trade fairs, art exhibitions, animal exhibitions, automobile trade show exhibitions, craft trade show exhibitions, figure skating exhibitions, sports instruction, social clubs, health clubs, night clubs, travel clubs, mail order book clubs, country clubs, radio programs, comedy performances, dramatic performances, photographs, digital still images and moving pictures, video games, video gaming, ethnic festivals, wine festivals, dance festivals, food festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, fashion, and downloadable and non-downloadable multimedia presentations combining video clips, animation and sound clips in the field of literature, history, language, math, business, physics, chemistry, geology, biology, social science, computer technology, hobbies, popular culture, sports, fine arts, psychology and philosophy; publication of excerpts from books, periodicals, and literary works; publication of electronic books featuring video, games, text, photos and illustrations via computers, televisions (TVs), TV receivers, set-top boxes, computer game machines, and portable electronic devices, and global computer and communications networks; providing information, news and commentary in the field of current events relating to topics of general interest; providing online publications in the field of news articles for children via a website; educational services, namely classroom instruction and on-line distance learning instruction in the fields of current events, early-childhood through post-secondary education, history, language, literature, math, business marketing, accounting, physics, chemistry, geology, biology, social science, arts and crafts, gardening, cooking, computer hardware and servers, computer software, movies, television shows, celebrities, video games, hockey, soccer, football, lacrosse, basketball, baseball, rugby, volleyball, golf, swimming, diving, gymnastics, track and field, martial arts, weightlifting, ice skating, boxing, wrestling, fine arts, psychology, and philosophy; interactive educational services namely computer-based and computer-assisted instruction in the fields of current events, early-childhood through post-secondary education, history, language, literature, math, business marketing, accounting, physics, chemistry, geology, biology, social science, arts and crafts, gardening, cooking, computer hardware and servers, computer software, movies, television shows, celebrities, hockey, soccer, football, lacrosse, basketball, baseball, rugby, volleyball, golf, swimming, diving, gymnastics, track and field, martial arts, weightlifting, ice skating, boxing, wrestling, fine arts, psychology, and philosophy; educational and entertainment services, namely, the provision of podcasts, webcasts, and serialized radio and television programs accessible via the internet and other computer and communications networks featuring news and commentary in the fields of movies, television programs, music, audio books, books, theatrical works, books, magazines, periodicals, comic books, journals, sporting events, recreational activities, leisure activities, sports tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, social clubs, radio programs, comedy performances, dramatic performances, promotional contests of others, photographs, digital still images and moving pictures, video games, video gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, fashion industry, and downloadable and non-downloadable multimedia presentations combining video clips, animation and sound clips in the field of literature, history, language, math, business, physics, chemistry, geology, biology, social science, computer technology, hobbies, popular culture, sports, fine arts, psychology and philosophy, accessible via the internet and global computer and communications networks; providing online non-downloadable interactive resource guides and programming guides on the subjects of motion

pictures, television programming, user-generated and user-selected videos, music videos, and music tailored to viewer's programming preferences; production and rental of audio-visual works for streaming and downloading, specifically, motion pictures, television programs, videos, and music videos in the fields of news, the entertainment industry, sports, comedy, drama, and music

#### **Class 42**

(5) Application service provider (ASP), namely, online hosting computer software applications of others via wired and wireless networks; online hosting of third party digital content, photos, videos, text, graphics, images, web sites and other electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues; web hosting of third party digital content on global computer networks, wireless networks, and electronic communications networks; Software as a Service (SaaS) featuring software for use in connection with subscription services for third party music, audio books, movies, television shows, books, magazines, periodicals, comic books, newspapers, graphics, animations, and images, namely, software allowing users to pay for and create music, audio books, movies, television shows, books, magazines, periodicals, comic books, newspapers, graphics, animations, and images, and for use in connection with one-time purchases thereof; hosting a website that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share text messages, photographs, digital still images and moving pictures, music, audio books, movies, television shows, video games, books, magazines, periodicals, comic books, journals, computer graphics, electronic publications, electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, electronic catalogues; providing Internet search engines; providing search engines for the Internet to allow users to request and receive user-generated content, namely text messages, photographs, digital images and moving pictures, music, audio books, movies, television shows, video games, books, magazines, periodicals, comic books, journals, computer graphics, electronic publications, electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, electronic catalogues; document data transfer from one computer format to another; providing temporary use of non-downloadable computer software that enables users to access and download other computer software; providing temporary use of on-line non-downloadable software, namely, software for parental control of access to obscene and inappropriate websites and digital content; providing temporary use of online non-downloadable software, namely, software for filtering internet searches that separates desired results from unwanted and inappropriate websites, and software that allows parental control of obscene and inappropriate websites, emails, and other digital content; providing temporary use of online non-downloadable computer software that generates customized recommendations of software applications based on user preferences; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of electronic media, namely images, text, video, and audio data; maintenance and updating of software relating to computer, Internet and password security; design and development of computer software; computer software installation and maintenance for third parties; computer software, application, and network consulting services; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; providing technical information relating to computer software and hardware via a website; computer software, application, and network consulting services, and consulting in the design and configuration of computer hardware; computer consulting in the field of configuration management for portable and handheld electronic devices; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; computer programming

#### **Class 45**

(6) Monitoring of data and computer systems and networks for security purposes; social networking services via a website featuring online virtual communities in which users can interact with each other for recreational, leisure, and entertainment purposes

#### Class 09

Monitors, testers, and systems used for measuring and/or recording and/or transmitting data, namely, airflow monitors, air quality monitors, temperature monitors, stress factor and vibration monitors; air quality monitors, namely, a wireless system for measuring air pollution levels comprised of an air pollution monitor that records and retains air pollution data, and software that enables the monitor to communicate such data to a smartphone, portable digital electronic device, tablet computer or computer; a wireless system for measuring air pollution levels comprised of an air pollution monitor that records and retains pollution data and software that enables the monitor to communicate such data to a smartphone, portable digital electronic device, tablet computer or computer; computer software for measuring air pollution, air flow, air quality, air temperature, stress factors and vibration; computer software for measuring the presence of electro-magnetic radiation and converting same into electricity; data processing equipment, namely, computer hardware and computer software for data management and analysis, central processing units for processing information, data, sound or images; telephone-based information retrieval software and hardware for measuring air pollution, air flow, air quality, air temperature and stress factor and vibration and measuring the presence of electro-magnetic radiation and converting same into electricity; electronic equipment and instruments for communication, namely, beacon instruments, air flow sensors, temperature sensors, vibration sensors, motion sensors, sensors for building stress factors, air quality sensors, air pollution sensors; telecommunications apparatus and instruments, namely, smartphones and tablet computers; computer hardware and computer software for data management and analysis, for processing of information, for storage of data, for transmitting and receiving data, for transmitting data between computers, display screens for portable computer devices, and software related thereto, namely, software for measuring air pollution, air flow, air quality, air temperature, stress factors and vibration, electro-magnetic radiation and converting the same into electricity; downloadable publications in the nature of books, magazines and newsletters in the field of environmental pollution and electro-magnetic radiation and the conversion of such radiation into electricity; RFID tags and associated software, namely, software that permits computers, portable digital electronic devices, tablet computers and smartphones to communicate with the RFID tags and receive location data from such tags;

electronic apparatus, namely beacons and sensors for wireless reception, storage and transmission of data being concerned with the measurement of air pollution, air flow, air quality, air temperature and stress factors and vibration; wireless local area network devices, namely, hardware that monitors and detects the presence of electro-magnetic radiation and converts such radiation into electricity; apparatus for wirelessly charging batteries; wireless energy scavenging apparatus and devices, namely, wireless power receivers; wireless energy transfer device, namely electric conductors; wireless device, namely an air quality sensor for recording and sharing real time data; computer application software for creating databases and managing data in the field of air quality for customer reward and incentive programmes, databases and data related to customer reward and incentive programmes in the field of air quality; computers, computer terminals, and computer software used for authentication, authorization, clearing, and settlement of financial transactions; e-commerce software to allow users to perform electronic business transactions via a global computer network; Wearable computers that are internet-connected, namely, glasses, watches, wristbands, armbands, patches, and badges, and mobile applications for the wearable computer that are internet-connected; Wearable computer that is internetconnected, embedded in footwear, namely shoes, sneakers, cycling shoes, headwear, namely, hats, beanies, caps and visors, belts, gloves, and clothing, namely pants, tracksuits, shorts, t-shirts, vests, sleeved tops, pullovers, jackets, windcheaters, anoraks wherein said wearable computer system is internet-connected, consisting of hardware, software, antenna, a rectifier, a power module, circuitry and a housing, for monitoring the environment and collecting environmental data, namely, air pollution monitoring; wireless energy transfer devices consisting of an antenna, a rectifier, a power module, circuitry and a housing enabling wireless electronic services, namely, financial transactions in the field of customer reward programmes, and for use in enabling data collection and storage, data retrieval, location and time monitoring, and for use in creating promotional material and advertising for customer reward programmes; computers, computer software, and wireless electronic devices comprised of an antenna, rectifier, a power module, electronic circuits and a housing integrated in a global computer network enabling customer reward programme members to accumulate reward points as a function of the distance and time travelled by the member, dependent on the emissions produced by the member's selected mode of transportation

## **Services**

### **Class 35**

(1) Organisation, management, operation and supervision of promotional incentive schemes; management, operation and supervision of customer reward schemes; provision of business information in the field of air quality, air pollution, air temperature, air flow, and building stress factors and vibration; conducting market surveys and issuing reports; on-line administration and supervision of a discount, special offer and gift voucher scheme; organisation, operation and supervision of reward and incentive schemes via the internet and mobile devices; business consultancy in the field of air quality, air pollution, air temperature, air flow and building stress factors and vibration; management of computer databases; compilation of information onto computer databases; organisation of exhibitions or trade fairs for commercial advertising purposes in the health and wellness sectors and in relation to building facilities issues, air quality, air pollution, air temperature, air flow and building stress factors and vibration; creating indexes of online information, sites and other resources available on global computer networks for others; providing business and commercial information over computer networks and global communication networks; business services, namely, providing computer databases regarding the purchase and sale of a wide variety of products and services of others; business services, namely, dissemination

of advertising for others via computer networks and global communication networks; electronic commerce services, namely providing information about products via the Internet or telecommunication networks for advertising, promotional, and sales purposes

### **Class 36**

(2) Issuance of electronic and print tokens and vouchers of value in relation to customer reward schemes operating in the health and wellness sector associated with a members selected mode of transportation and the impact such travel has on air quality; the issuance of electronic and print vouchers including for restaurants and cafés, entertainment events, cinema, television, on-demand television, online media, online content, hotels, accommodation, flights, travel, holidays, theatre, theme parks and activity days; providing, transmitting, processing, facilitating, verifying, and authenticating mobile payments, and contactless transactions with retailers, merchants, and vendors via mobile devices; providing electronic access to credit and debit card information; processing and administration of mobile payments and contactless transactions with retailers, merchants, and vendors; all via mobile devices; providing information relating to financial and monetary affairs; electronic payment services, namely electronic processing and transmission of payment data; mobile and internet payment services, namely, providing payment processing services, namely credit card, debit card and card payment transaction processing services, and managing electronic payment information; all via mobile phones and an internet-based system; Sale of virtual currency that can be used and exchanged for products and services; financing services, namely financing of automobiles, financing of industrial activities, financing of loans, discounting of bills, financing of purchases; credit card services; payment and receipt of money as agents; transaction authorization and settlement services; all via mobile devices; currency exchange services; currency trading; currency transfer services; electronic financial transaction processing for customer reward programme members and participating merchants, namely, electronic funds transfer, electronic cash transactions, electronic debit transactions, and assisting others with the completion of financial transactions in the field of customer reward programmes

### **Class 37**

(3) Installation of electronic wireless communication devices in the form of receivers, transmitters and beacons employing energy harvesting and wireless energy transfer devices enabling the provision of wireless electronic services, namely financial transactions in the field of customer reward programmes, data collection and storage, data retrieval, location and time monitoring, air pollution monitoring, and promotional and advertising services in the field of customer reward programmes

### **Class 38**

(4) Telecommunication services, namely, electronic transmission, namely, the wired and wireless transmission of messages in the field of air quality and air pollution, air temperature, air flow and building stress factors including vibration; communication and telecommunication services, namely, transmission of voice, audio, visual images and data in the field of air quality, air pollution, air temperature, air flow, building stress factors and health and wellness via wireless communication networks, the internet, information services networks, and data networks, wireless digital messaging services; providing a website in the field of air quality, air pollution, air temperature, air flow, building stress factors and health and wellness information; multiple-user access to a global computer information network; providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the field of health and wellness, air quality, air pollution, air temperature, air flow and building stress factors including vibration; providing on-line communications links which transfer the web site user to other local and global web pages; electronic sending of data pertaining to air quality, air pollution, air temperature, air

flow and building stress factors and documentation via the Internet or other databases; electronic transmission of health and wellness news; providing Internet access to a platform for a customer reward programme on a computer network; provision of online chat room for social networking services

### **Class 39**

(5) Advisory and consultancy services in relation to transport, namely low-carbon or zero-emission means of transportation

### **Class 42**

(6) Scientific and technological services, namely, research services in the field of air quality, air pollution, air temperature, air flow and building stress factors including vibration technical consultancy information, and consultancy and advisory services for said services; design services in the field of goods using as their power source the conversion of electro-magnetic radiation into electricity and goods for use in connection with sensing and monitoring air quality, air pollution, air temperature, air flow and building stress factors including vibration and technical consultancy information and, consultancy and advisory services for said services; industrial analysis and research services, namely, the research of products using as their power source the conversion of electro-magnetic radiation into electricity; design and development of computer hardware and software technical consultancy information and, consultancy and advisory services for said services; software as a service (SAAS) services featuring software for the operation of products using as their power source the conversion of electro-magnetic radiation into electricity technical consultancy information and, consultancy and advisory services for said services; software as a service (SAAS) services featuring software for the operation of products which sense and monitor air quality, air pollution, air temperature, air flow and building stress factors including vibration technical consultancy information and, consultancy and advisory services for said services; maintaining websites for others; application service provider (ASP) featuring software for the operation of products using as their power source the conversion of electro-magnetic radiation into electricity; application service provider (ASP) featuring software for receiving, transmitting and displaying vouchers for the discounted purchase of goods and services as part of customer reward programmes and promotions and for the purchase of goods and services; application service provider (ASP) featuring software for providing consumers with information regarding discounts, vouchers and special offers for the goods or services of others; application service provider featuring software for social networking, namely, designing, developing, maintaining and hosting of a website for social networking services technical consultancy information and, consultancy and advisory services for said services; provision of an Internet platform for social networking services, designing, developing, maintaining and hosting of a website for social networking services technical consultancy information, consultancy and advisory services for said services; hosting and providing a website that features technology that enables the donation of money and gifts to charitable organisations technical consultancy information, and consultancy and advisory services for said services; environmental surveys, namely, environmental impact surveys, air quality and air pollution surveys technical consultancy information, and consultancy and advisory services for said services; environmental advisory services, namely, technical consultation in the field of environmental science and pollution technical consultancy information, and consultancy and advisory services for said services; environmental research in the field of air pollution and air quality and environmental protection and technical consultancy information, and consultancy and advisory services for said services; research, development, and design of an Internet platform for customer reward programmes and electronic commerce using a virtual currency for use by programme members and participating merchants of an on-line community via a global computer network

**Class 44**

(7) The provision of healthcare and wellness information services in particular, healthcare and wellness information services based upon location and environmental data; the provision of healthcare and wellness information targeted to individuals based upon their location and associated environmental data

**Class 45**

(8) Licensing of Internet platforms for customer reward programmes and electronic commerce using a virtual currency for use by programme members and participating merchants of an on-line community via a global computer network

**Claims**

Priority Filing Date: February 20, 2015, Country or Office: EUIPO (EU), Application No: 013758801 in association with the same kind of goods and in association with the same kind of services

(1) Calculators, including calculators in coin-operated machines, namely calculators in coin-operated amusement electronic games, and parts for the aforesaid goods; Musical jukeboxes; Automated cash machines, automatic money counting and sorting machines; Computer video games; Computer games; Video games; Computer games provided through a global computer network, multi-media electronic broadcast, wireless transmission, and the Internet; Online computer games; Computer games accessed via web browser, gaming console, cellular phone and tablet computer; Computer hardware and software for operating casino and amusement arcade games, gaming machines, slot machines, video lottery gaming machines, and betting games via the Internet; Coin and banknote authenticating machines and machines for authenticating identification cards and credit cards; Electric wiring harnesses for computers; Circuit boards, printed circuit board assemblies

#### Class 28

(2) Gaming machines, namely coin-operated gaming machines, networked and unnetworked; Arcade games; Coin-operated video gaming machines, networked and unnetworked; Video games adapted for use with external screens or monitors only; Casino fittings, namely roulette tables, roulette wheels; Coin-operated automatic gaming machines and gaming machines for amusement arcades, with and without a prize payout; Electronic gaming machines, games machines and slot machines, networked and unnetworked, operated by coins, tokens, banknotes, tickets and encoded smart cards, for use in casinos and amusement arcades, with and without a prize payout; Automatic gaming machines and gaming machines for commercial use in casinos and amusement arcades, with and without a prize payout; Coin-operated gaming machines and electronic money-based gaming machines, with or without prizes; Housings for gaming machines and automatic gaming machines; Video output game machines; Machines, networked and unnetworked, for drawing winners in prize games, lotteries, and raffles; Gaming tables for table football, billiards, shuffleboard; Quoits and darts; Electric, electronic and electromechanical bingo machines, lottery machines and video lottery games for betting establishments, networked and unnetworked; LCD games consoles; Automatic gaming machines; Coin and bill mechanisms for gaming machines;

Coin-operated amusement electronic games, freestanding arcade electronic games and video games; Automatic lottery drawing machines.

**Services****Class 41**

Rental of automatic slot machines and gaming machines for casinos; Gambling provided through casino establishments; Operating of lotteries; Providing online computer games over the Internet for cellular phones; Providing online computer games over the Internet; Conducting quizzes by means of cellular phone applications; Operating casinos, amusement arcades and online Internet casinos; Gambling services via the Internet.

#### Class 01

(1) Chemicals for use in industry and science, namely, chemicals for use in the manufacturing of adhesives, enamel-staining chemicals, welding chemicals, chemical preparations for preventing pathogenic infections in plants, and antibody-based chemicals, namely, monoclonal antibodies for scientific purposes; Chemical reagents, namely, diagnostic reagents for medical-scientific research use, reagents for testing the sterility of medical equipment, reagents used for analytical moisture determinations, diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; Chemical preparations for analysis in laboratories, namely, chemical preparations for preventing pathogenic infections in plants, reagents for medical-scientific research use, reagents used for analytical moisture determinations, reagents for in vitro use in biochemistry, clinical chemistry and microbiology; Chemicals used in science; Diagnostic substances and diagnostic preparations, other than for medical use and for scientific purposes, namely, diagnostic preparations for clinical laboratory use, diagnostic preparations for scientific research use testing for contaminants in food, diagnostic preparations for scientific research use testing for residual pesticides in grain, diagnostic preparations for the extraction of nucleic acids, immunoassay test kits consisting primarily of in vitro reagents for the diagnosis and monitoring of conditions of physiological significance, all for laboratory, biotechnology, and bio research use; chemical test paper; Wafers for the manufacture of electronic components; Tempering and soldering preparations, namely, metal tempering chemicals, metal tempering preparations, tempering chemicals, soldering chemicals, soldering fluxes; Artificial resins, unprocessed plastics (in the form of powders, liquids, pastes and granules); Plastics and elastomeric compounds for processing by means of compression moulding, injection moulding or extrusion; Powdered or fibrous filling materials for plastics and elastomeric compounds; Plastic binding agents; Adhesives used in industry; Chemicals for heat-shrinking products, namely, heat-shrink plastic tubing; Fertile material, breeder elements, and breeder and absorber parts for nuclear reactors; Radioactive elements for scientific purposes, namely, Uranium, Polonium, Radon, Promethium, Plutonium, Radium, Fluorine, Nitrogen; Catalysts for flue gas decontamination and exhaust gas/exhaust air purification; Catalysts of metal, namely, catalysts for use in the manufacture of industrial chemicals, catalysts

for use in oil processing, catalysts for use in the manufacture of synthetics, rubbers and polymers, catalysts of metal for use in the manufacture of biochemicals, catalysts of metal for chemical and biochemical processing

### **Class 05**

(2) Chemical preparations for medicinal, pharmaceutical or veterinary purposes, namely, chemical preparations for the diagnosis of pregnancy, assays for medical research purposes; Chemical preparations for diagnostic purposes, chemical substances for analyses in laboratories, for medical purposes and chemical reagents for medical or veterinary purposes, namely, diagnostic preparations for medical laboratory use, diagnostic reagents for clinical laboratory use, diagnostic reagents for medical diagnostic use, diagnostic reagents for medical laboratory use, in-vitro ovulation prediction kits, paper chemically treated for diagnostic use in the detection of fecal occult blood, chemical preparations in the nature of medical diagnostic reagents and assays for testing bodily fluids, chemical preparations for medicinal, pharmaceutical or veterinary purposes, namely, for use in the diagnosis of a disease or disease-related conditions, the determination of the state of health, the monitoring of a therapy, genetic analyses, forensic analyses, the determination of one or more compounds in a sample, the determination of the activity of one or more compounds in a sample, antibody-based chemicals and reagents for medical use, namely, monoclonal antibodies, diagnostic assay test kits consisting of medical diagnostic chemicals and reagents, and immunoassay test kits consisting primarily of in vitro reagents for the diagnosis and monitoring of physiological significance; Serums, namely, medicated hair serums, medicated serums for the treatment of cancer and for use with oncology and immunotherapy patients, blood grouping and typing serums, serums for use as controls, standards and assay components for use in medical laboratory testing, serums for use in medical diagnostic testing; Clinical diagnostic reagents; Medical diagnostic test strips, namely, blood glucose test strips, blood analysis test strips, urine analysis test strips, saliva analysis test strips, liquor analysis test strips, stool sample analysis test strips, analysis of bodily fluids test strips, analysis of tissue samples test strips, analysis of cell suspensions test strips, pregnancy testing test strips, fertility testing test strips, infectious disease testing test strips, testing of hemostasis disorders test strips, therapeutic drug monitoring test strips, drug abuse testing test strips; Disinfectants; Products for dental use, namely dental ceramic blanks, material for adhesively bonding ceramic parts and teeth, material for stopping teeth, and matt paints for optically matching teeth

### **Class 07**

(3) Catalytic converters for internal combustion engines; Catalytic converters for drives for land, air and water vehicles

### **Class 09**

(7) Apparatus for navigation, namely, directional compasses, navigation apparatus for vehicles in the form of on-board computers and parts and fittings for the aforesaid apparatus, equipment and instruments; Aerials and aerial installations, radar apparatus, namely, aerial cables for heavy currents, car aerials, masts for wireless aerials, radio and television aerials, satellite aerials, radar detectors, radars and parts and fittings for the aforesaid apparatus, equipment and instruments ; Short-wave transmitter and receiver stations and parts and fittings for the aforesaid apparatus, equipment and instruments; Selector radio apparatus, namely, radios, radio transmitters and receivers, radio frequency connectors and parts and fittings for the aforesaid apparatus, equipment and instruments; Microwave radios and parts and fittings for the aforesaid apparatus, equipment and instruments; Satellite radio equipment, namely, satellite radios, satellite transmitters and receivers , satellite aerials, satellite dishes, satellite processors and parts and fittings for the aforesaid apparatus, equipment and instruments; Encoding apparatus, namely, magnetic encoded

card readers and parts and fittings for the aforesaid apparatus, equipment and instruments; Thermal imaging equipment, namely, thermal sensors, thermal printers, thermal imaging cameras and parts and fittings for the aforesaid apparatus, equipment and instruments; Laser for measuring distance and parts and fittings for the aforesaid apparatus, equipment and instruments; Inquiry and response apparatus for aircraft identification, namely, air traffic control radio equipment and parts and fittings for the aforesaid apparatus, equipment and instruments; Equipment for receiving, locating and classifying electromagnetic signals, namely, electromagnetic coils, electromagnets, transmitters and receivers of electromagnetic signals and parts and fittings for the aforesaid apparatus, equipment and instruments; Equipment for traffic navigation on land, water and in the air, namely, electrical controllers for traffic lights, flashing safety lights for traffic cones, traffic control lights, traffic-light signaling devices and parts and fittings for the aforesaid apparatus, equipment and instruments; Traffic decoders and parts and fittings for the aforesaid apparatus, equipment and instruments; Pilot computers and parts and fittings for the aforesaid apparatus, equipment and instruments; On-board computers and parts and fittings for the aforesaid apparatus, equipment and instruments; Airbag and tyre diagnosis apparatus, namely, automatic indicators of low pressure in vehicle tyres, vehicle occupant position detector for airbag deployment and parts and fittings for the aforesaid apparatus, equipment and instruments; Vehicle fleet management apparatus, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices and parts and fittings for the aforesaid apparatus, equipment and instruments; Temperature probes and parts and fittings for the aforesaid apparatus, equipment and instruments; Cable harnesses and parts and fittings for the aforesaid apparatus, equipment and instruments; On-board electrical systems and parts and fittings for the aforesaid apparatus, equipment and instruments; Motor and engine control devices, namely, cruise control for motor vehicles, starter cables for motors, electrical conductors for electric motors, electrical controllers for diesel engines, regulators for use in turbo engines in vehicles and parts and fittings for the aforesaid apparatus, equipment and instruments; Ignition, control and switching equipment, namely, electronic controls for operating vehicle ignitions and parts and fittings for the aforesaid apparatus, equipment and instruments; Electric fuel regulating apparatus for fuel injection apparatus and parts and fittings for the aforesaid apparatus, equipment and instruments; Resonators for automotive engineering and parts and fittings for the aforesaid apparatus, equipment and instruments; Electronic apparatus, namely, differential pressure regulators for vehicle tires, automatic steering wheels for vehicles for gear, drive, differential, braking, antiskid, four-wheel steering, damping, level regulating and clutch control and parts and fittings for the aforesaid apparatus, equipment and instruments; Diagnostic apparatus for motor vehicles, namely, automobile diagnostic computer software, automobile diagnostic equipment, namely, automobile diagnostic computer software, coolant-temperature sensors, motion sensors, sensors for determining acceleration, sensors for determining velocity, digital input and output scanners, laser scanners, gas meters, vibration meters, flow meters, pressure gauges, tire pressure gauges, gasoline gauges, petrol gauges, tire tread depth gauges and parts and fittings for the aforesaid apparatus, equipment and instruments; Acoustic and optical signalling devices, namely, acoustic conduits, acoustic speakers, audio amplifiers, optical glass, optical amplifiers, optical condensers, digital signal processors and signalling panels and parts and fittings for the aforesaid apparatus, equipment and instruments; Railway signalling apparatus and installations constructed therefrom, namely, railway signals, emergency warning lights, signalling whistles, signal bells and parts and fittings for the aforesaid apparatus, equipment and instruments; Electric positioners and parts therefor and parts and fittings for the aforesaid apparatus, equipment and instruments; Electroacoustic apparatus, for conferences, for sound and video studios and parts and fittings for the aforesaid apparatus, equipment and instruments; Sound and video sending and control installations and parts and fittings for the aforesaid apparatus,

equipment and instruments; Apparatus and equipment for cable television, and devices constructed therefrom and parts and fittings for the aforesaid apparatus, equipment and instrument; Photographic and cinematographic apparatus, including video cameras and parts and fittings for the aforesaid apparatus, equipment and instruments; Loudspeakers and parts and fittings for the aforesaid apparatus, equipment and instruments; Speaker enclosures, Microphones, Headphones, Electronic amplifiers and parts and fittings for the aforesaid apparatus, equipment and instruments; Wafers for the manufacture of electronic components and parts and fittings for the aforesaid apparatus, equipment and instruments; Catalyst carriers for combustion engines and parts and fittings for the aforesaid apparatus, equipment and instruments; Equipment for digital image recording, for contrast medium analysis with real time image reproduction and parts and fittings for the aforesaid apparatus, equipment and instruments; equipment for the recording, processing, storage and reproduction of radiological information, namely, x-ray apparatus not for medical purposes, computer hardware for use in connection with radiological devices, computer software for use in connection with radiological devices to record, process, and analyze imaging data, apparatus and equipment for the recording, processing, storage and reproduction of radiological information, namely, computer hardware and software for recording, processing, storage and reproduction of radiological information for medical and non-medical purposes and parts and fittings for the aforesaid apparatus, equipment and instruments; vibrotactile communication equipment, namely, electronic components, namely, touch screens for use in applying tactile stimulation to a person for providing tactile, touch, haptic and force feedback sensations to the skin surface, namely, electronic vibrotactile stimulators for transmission of communication for use with remote vehicle control or medical procedures and parts and fittings for the aforesaid apparatus, equipment and instruments; Catalyst carriers for drives for land, air and water vehicles and parts and fittings for the aforesaid apparatus, equipment and instruments; electric current collectors and parts and fittings for the aforesaid apparatus, equipment and instruments; Lambda probes and parts and fittings for the aforesaid apparatus, equipment and instruments; Scientific research and laboratory apparatus, educational apparatus and simulators, namely, clinical chemistry analyzer for measuring, testing, and analyzing blood, urine, liquor and other bodily fluids, tissue slides and other tissue samples, clinical enzyme immunoassay analyzer for medical purposes, audio and visual teaching apparatus in the nature of an emulator and medical diagnostic simulators for use as teaching aids in clinical decision, diagnostic, therapy procedures, educational computer software and computer applications for mobile phones, smart phones, and tablet computers, namely, computer programs providing medical information, parts and fittings for all the aforesaid goods; Scientific apparatus, equipment and instruments for performing analyses in laboratories, namely, research laboratory analyzers for measuring, testing and analyzing blood, urine, liquor and other bodily fluids, tissue slides and other tissue samples, namely, laboratory assay kits, chromatography apparatus for laboratory use, apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein, medical laboratory research instruments for detecting pathogens, measuring compounds in samples, determining the activity of compounds in samples, DNA or RNA analysis, determination of nucleic acid or peptide sequences, gas absorption analyzers, UV/visible spectrophotometers, liquid chromatography test strips and parts for all of the above, namely, centrifuge rotors and canister assemblies and parts and fittings for the aforesaid apparatus, equipment and instruments; Laboratory apparatus, namely, laboratory filters, laboratory trays, reagents for use in medical genetic testing, diagnostic reagents for medical laboratory use, bioreactors for laboratory use, laboratory calipers, micrometers, liquid-level gauges, tachometers, pipetting instruments, centrifuges, tube racks, test tubes, pipette tips, Laboratory filters, Laboratory trays and parts and fittings for the aforesaid apparatus, equipment and instruments; Recorded content, namely, computer software for recording and analyzing lab results and parts and fittings for the aforesaid apparatus, equipment and instruments; Devices for

treatment using electricity, namely, medical diagnostic laboratory instruments for treatment of human tissue cells using electricity and parts and fittings for the aforesaid apparatus, equipment and instruments; Information technology and audiovisual equipment, namely, audio receivers, computer terminals, computer hardware, computers and parts and fittings for the aforesaid apparatus, equipment and instruments; Magnets, magnetizers and demagnetizers and parts and fittings for the aforesaid apparatus, equipment and instruments; Measuring, detecting and monitoring instruments, indicators and controllers, namely, electronic controllers for control of imaging, therapy and laboratory apparatus and components, namely, test tubes, glassware, trays, slides, scales and balances, laboratory filters, reagents for in vitro use in biochemistry, clinical chemistry and microbiology, laboratory calipers, micrometers, liquid-level gauges, tachometers, bioreactors for laboratory use, pipettes, centrifuges, temperature gauges, temperature sensors and parts and fittings for the aforesaid apparatus, equipment and instruments; Optical devices, enhancers and correctors, namely, optical amplifiers, optical condensers, optical disk drives, optical disk readers, optical fibres and parts and fittings for the aforesaid apparatus, equipment and instruments; Safety, security, protection and signalling devices, namely, mobile image projection device for displaying retinal images, namely, biometric retinal scanners, signaling whistles, security alarms and parts and fittings for the aforesaid apparatus, equipment and instruments; Electrical power adapters, general purpose batteries, Electric security and fire alarm bells, Electric control panels for the remote control of industrial operations, Electrical power connectors, Electric storage batteries, Electric acoustic and fibre optic couplings, Electrical conductors for electric motors and transformers, Electric conduits, Relays, electric, Electronic locks, Coils, electric, Electricity transformers, electric resistors and parts and fittings for the aforesaid apparatus, equipment and instruments; Electric signalling, measuring, checking (supervision), counting, registering, monitoring, control, regulating and switching apparatus, namely, power switches, electric control panels, radio signal transmitters and receivers and parts and fittings for the aforesaid apparatus, equipment and instruments; Electrical devices for input, processing, transmission, storage and output of data, namely, digital input and output scanners, digital signal processors, digital voice signal processors, computers for use in data management, computer servers, computers and computer hardware and parts and fittings for the aforesaid apparatus, equipment and instruments; Data processing equipment, namely, computers and peripheral devices therefor, namely, computer mice, keyboards, computer cables, computer bags, computer monitors, printers, computer hardware for setting up and configuring local area networks, network routers including the aforesaid goods for data communications via cable and wireless telecommunications networks, for remote data transmission and for data transmission on local networks and parts and fittings for the aforesaid apparatus, equipment and instruments; Electricity transformers and parts and fittings for the aforesaid apparatus, equipment and instruments; Computer programmes for data processing, namely, computer programs for document management, computer utility file, storage and compression programs, computer software for database management, computer software for medical imaging, computer software for monitoring, analyzing, generating, reporting, comparing, referencing and interpreting of medical data and information used in clinical routine, clinical decision, diagnosis and therapy, computer software for genetic testing, computer software for genetic analysis, on-premise or cloud based software for use in the collection, integration, curation, evaluation, and analysis of health-related data utilizing natural language processing, computational linguistics, information retrieval, data analytics, or machine learning, computer software for creating, managing and playing laboratory and medical procedures with virtual reality, computer software for creating, managing and playing laboratory and medical procedures with augmented reality, computer programs for processing communication, namely, communications software for transmitting documents, photographs, graphic still images, sound recordings, motion pictures via computer networks, wireless networks,

and global communication networks in hospitals and other medical institutions; Software for electromedical apparatus, namely, computer software for medical imaging, software for controlling and operating imaging and x-ray machines, software for hearing aids, software for navigation apparatus for vehicles in the form of on-board computers, software for thermal sensors and thermal printers, software for motor and engine control devices, namely, cruise control for motor vehicles; Monitors, namely, led monitors, lcd monitors, computer monitors, baby monitors, TV monitors, video monitors; X-ray tubes not for medical purposes; Detectors, namely, carbon dioxide detectors, carbon monoxide detectors, fire and smoke detectors, metal detectors, motion detectors, radar detectors, photometers, nephelometers, detectors measuring fluorescent or chemiluminescent signals, radiation detectors; Sensors, namely, motion sensors, liquid level sensors, oil level sensors, pressure sensors, proximity sensors, temperature sensors, timing sensors, thermal sensors; Devices, namely, gloves and screens for protecting against X-rays, not for medical use, for industrial purposes; Equipment for digital image recording, for contrast medium analysis with real time image reproduction, namely, computer software for medical imaging; Apparatus for ECG long-term storage and computerised ECG evaluation, namely, computer software incorporated into electrocardiograph apparatus to record, process and analyze ECG data; Protective devices, namely, protective clothing, namely, radiation protective clothing; Laboratory robots for medical purposes

### **Class 10**

(4) Apparatus and equipment for recording, processing, storing and reproducing medical images, namely, magnetic resonance imaging (MRI) diagnostic apparatus, medical image processors, x-ray apparatus for dental imaging; Electromedical apparatus and equipment, installations consisting thereof and parts therefor, for x-ray diagnostics and x-ray therapy, namely, medical x-ray apparatus, x-ray apparatus for dental imaging, x-ray apparatus for medical use, x-ray apparatus for dental use, x-ray scanners for medical use, x-ray negative mounts, x-ray tubes for medical purposes; Apparatus and equipment for angiography, cardiography, neuroradiology and subtraction angiography (DSA), namely, x-ray apparatus for medical purposes, radiological equipment for medical purposes, robotic gantry for medical purposes; Equipment for digital image recording, for contrast medium analysis with real time image reproduction, namely, medical image processors, namely, x-ray scanners, magnetic resonance apparatus, fluoroscopes, ultrasound apparatus, CT scanners; Instruments and apparatus for endourological radiology, functional diagnostics and instrumental urology and for extracorporeal destruction of urinary and biliary calculus, namely, radiological equipment for medical purposes, radiology screens for medical purposes, radium tubes for medical purposes, cystoscope, ureteric balloon catheter, urethral probes, ultrasonic stone disintegration apparatus; Devices for treating bone, muscle and tendon disorders, namely, bone retractors, bone scrapers, bone setting machines and instruments, orthopedic bone screws, curettes, muscle stimulators, ultrasound devices for treating bone, tendon and muscle disorders, pelvic and cervical traction devices for heating bone disorders, short wave diathermy devices for treating bone, muscle and tendon disorders; Apparatus and equipment for recording, processing, storing and reproducing radiological information, namely, radiological equipment for medical purposes, radiology screens for medical purposes; Medical and electromedical apparatus and equipment for computed tomography, magnetic resonance tomography, magnetic resonance imaging, ultrasound diagnostics, nuclear medicine, radiotherapy, positron emission tomography (PET), namely, cat scanners, Computed Tomography CT apparatus, x-ray Angiography apparatus, magnetic resonance imaging (MRI) apparatus, medical ultrasound apparatus, ultrasonic medical diagnostic apparatus, nuclear medicine tomographic scanners, positron emission tomography (PET) cameras and scanners, single photon emission computed tomography (SPECT) and parts and fittings thereof; Cyclotrons for the production and

processing of positron-emitting radionuclides; Apparatus for ECG long-term storage and computerised ECG evaluation, namely, electroencephalographs, electrocardiographs, electrocardiograph recorders; Equipment for highfrequency heat treatment, electrosurgery, diagnostics and therapy, namely, high frequency electromagnetic therapy apparatus; Measuring apparatus for cardiac catheterisation for measuring intracardiac blood pressure, intravascular blood pressure, blood flow in the heart, the presence of an intracardiac shunt, the shape of the heart vessels and chambers, how the shape of the heart vessels and chambers changes as the heart beats; Apparatus for monitoring patients and analysing arrhythmias, namely, heart monitors, heart rate monitors, pulse rate monitors; Apparatus for polygraphy and electrophysiological examinations, namely, heart rate monitors, pulse measuring devices, heartbeat measuring apparatus; Measuring stations for medical functional analyses, namely, arterial blood pressure measuring apparatus, blood pressure measuring apparatus, devices for measuring blood sugar, devices for measuring intracranial pressure, heartbeat measuring apparatus, pulse measuring devices; Cardiac pacemakers and defibrillators; Telemetry apparatus for medical use, namely, medical telemetry using computer network, optical link or wired communications networks, transmitters, antennas and receivers all for monitoring, obtaining, displaying, transmitting and storing patient information, photographic images and physiological parameters from patients such as heart rate, body temperature, level of consciousness, cardiovascular status, ventilation, spirometry, blood gas, capnography, respiration, electrocardiography, electroencephalography, electromyography, hemodynamics, drug doses, blood pressure, and blood oxygen saturation; Equipment for respiratory technology, namely, apparatus for artificial respiration, cardiopulmonary resuscitation masks, medical respirators, respirators, respiration monitors, Nebulizers for respiration therapy; Lasers for medical purposes; Catheters; Linear accelerators for tumour radiotherapy; Equipment for the localisation of tumours, namely, mammography apparatus, linear accelerators for tumor radiotherapy, tumor localization devices, dosage planning devices for tumor radiotherapy; Apparatus for dosage planning and the documentation of tumour radiotherapy, namely, medical devices for dosimetry purposes in the field of radiotherapy; Dental treatment apparatus and lights for working areas, namely, dental drills, dental excavators, dental implants, dentists' chairs, dental mirrors, dental lamps, filing instruments for dental purposes, x-ray apparatus for dental imaging; Drilling apparatus for use in preparation technology, namely, dental drills, surgical drills, drilling jigs for surgical and dental applications; Dental turbines; Ultrasonic equipment, namely, ultrasonic scalers for removing tartar for dental applications; Diagnostic equipment for analysis of the paradontium, namely, endoscopic equipment, xray appliances for dental and medical use, plaque detection dyes, diagnostic lights; Apparatus for the computer-aided manufacture of ceramic fillings, namely, filling instruments for dental purposes; Equipment for the hard of hearing, for diagnosis, therapy and teaching purposes, namely, medical hearing aids, hearing aid spectacles, audiometers, hearing testing cubicles, ear trumpets, wireless transmitters and receivers for use with hearing aids, medical hearing instruments and parts of such devices, digital sound processors adapted for use with prosthetic hearing devices, cerumen protection systems; Medical hearing aids, hearing aid spectacles, audiometers and hearing testing cubicles; Hearing and speaking equipment and special equipment for hearing-impaired children; Medical furniture, namely, patient positioning tables, examination and operating tables, cerumen filters for medical hearing aids; Electric apparatus for cosmetic purposes, namely massage apparatus, radiation apparatus, electrically operated apparatus for diffusing inhalants, namely, facial massagers, gloves for massaging, gum massagers, massage beds for medical purposes, infrared radiator units for therapeutic purposes, ultraviolet radiator units for therapeutic purposes, nebulizers for respiration therapy; Light screens for medical purposes; Radiography apparatus for imaging plate technology, namely, radiological equipment for medical purposes, medical devices for dosimetry purposes in the field of radiotherapy, radiology screens for medical purposes; X-ray

tubes for medical purposes; Sources of electromagnetic fields for use in medical diagnosis; Tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, magnetic resonance imaging (MRI) diagnostic apparatus, ultrasonic medical diagnostic apparatus, equipment for testing blood alcohol levels, namely, blood alcohol analyzers, in vitro diagnostic analyzers for pregnancy testing, in vitro diagnostic analyzers for diabetes testing, in vitro diagnostic analyzers for testing of drug abuse, in vitro diagnostic analyzers for cardiac testing, in vitro diagnostic analyzers for nutritional deficiencies testing, in vitro diagnostic analyzers for thyroid function testing, in vitro diagnostic analyzers for testing hormonal disorders or changes, in vitro diagnostic analyzers for testing allergies, in vitro diagnostic analyzers for testing electrolytes, in vitro diagnostic analyzers for testing blood gas level; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, apparatus for taking stool samples; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, centrifuges, spectrometers, chromatographs, refractometers, rheometers, viscometers, evaporators, thermal analyzers, calorimeters, cooled and heated incubators, heating chambers and chiller units used as laboratory apparatus for analyzing blood, urine and saliva samples, apparatus for taking blood samples, apparatus for taking urine samples, apparatus for taking saliva samples, apparatus for taking tissue samples, in vitro diagnostic analyzers for the analysis of bodily fluids; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, apparatus for the extraction of DNA and RNA from body tissue for the purposes of gene testing and testing for cancer, in vitro diagnostic analyzers for the analysis of tissue samples; tools for medical diagnostics and medical diagnostic apparatus and equipment namely, centrifuges, spectrometers, chromatographs, refractometers, rheometers, viscometers, evaporators, thermal analyzers, calorimeters, cooled and heated incubators, heating chambers and chiller units for instrumental analysis of cell suspensions, in vitro diagnostic analyzers for the analysis of cell suspensions, particle and cell analyzers; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, assays for testing bodily fluid, namely, blood, urine, saliva, and blood, spermatozoa and ova in the field of fertility and reproductive endocrinology, in vitro diagnostic analyzers for fertility testing; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, apparatus for analyzing blood samples, apparatus for analyzing urine samples, apparatus for analyzing saliva samples and, apparatus for analyzing tissue samples, in the field of cardiovascular diseases, oncological diseases and disorders, bone diseases, infectious diseases, namely, Hepatitis, Hepatitis C, Toxoplasmosis, Rubella, Cytomegalovirus, immunologic diseases, namely, autoimmune diseases, Acquired Immune Deficiency Syndrome (AIDS), immunologic deficiency syndromes, inflammatory diseases, namely, inflammatory bowel diseases, inflammatory connective tissue diseases, inflammatory muscle diseases and disorders and metabolic diseases and disorders, namely diabetes, hypoglycaemia, gout, osteoarthritis, anemia, neurological diseases, namely, epilepsy, neuromuscular diseases and disorders, namely, cerebrovascular accident (stroke), Parkinson's disease, multiple sclerosis, myasthenia gravis, Huntington's disease, disorders and infections of the spinal cord systems and related cartilage, tissue and genito-urinary and pelvic diseases, disorders and infections, namely infertility, sexually transmitted diseases, and sexual dysfunction, in vitro diagnostic analyzers for infectious disease testing; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, immunoassays to measure microscopic amounts of psychoactive drugs and drug metabolites in human biological fluids, in vitro diagnostic analyzers for the testing and monitoring of therapeutic drugs; tools for medical diagnostics and medical diagnostic apparatus and equipment, namely, immunoassays to measure microscopic amounts of psychoactive drugs and drug metabolites in human biological fluids, in vitro diagnostic analyzers for the testing of drug abuse; Tools for veterinary diagnostics, namely, magnetic resonance imaging (MRI) diagnostic apparatus, ultrasonic medical diagnostic apparatus, in vitro diagnostic analyzers; Furniture adapted for medical use and furniture especially made for

medical examinations and treatments, namely, tables for medical use, beds for medical use, seats for medical purposes;, beds adapted for medical use; Blood testing apparatus, namely, arterial blood pressure measuring apparatus, blood pressure measuring apparatus, devices for measuring blood sugar, devices for measuring intracranial pressure; Protective devices, namely, protective screens for protecting against exposure to Xrays for medical purposes, protective gloves for medical use; Clothing especially for operating rooms; Cases and bags especially for medical apparatus, equipment and instruments; Instrument cases for use by surgeons and doctors; Medical functional and work clothing; Scientific apparatus, equipment and instruments for performing analyses in laboratories, namely, diabetes monitoring equipment for sampling and analyzing blood and body tissue, test strips for detecting blood in urine, test strips for measuring blood glucose levels

#### **Class 16**

(5) Stationery and educational supplies, namely, writing stationery, paper stationery; Printed matter, namely, books, magazines, pamphlets, brochures, newspapers, manuals, newsletters, file cards, index cards, medical identification cards, postcards and greeting cards, journals; Medical journals; Medical books

#### **Class 25**

(6) Headgear, namely, headbands, head scarves, hats, caps and parts and fittings for all the aforesaid goods; Clothing, namely, athletic clothing, business clothing, casual clothing, shirts, pants, sweaters, dresses, jackets, coats, skirts, halter tops, knit tops, tank tops, pajama bottoms, swimming suit bottoms, jeans, trousers, shorts and parts and fittings for all the aforesaid goods; Footwear, namely, athletic footwear, casual footwear, evening footwear, beach footwear, shoes, boots, sandals and parts and fittings for all the aforesaid goods

#### **Services**

#### **Class 35**

(1) Business consultancy and advisory services in the field of business management; business consultancy and advisory services in the field of business management; Business management; Business planning services; Business management, business planning and business strategic planning services and business strategy development services, for others; Business consultancy for medical facilities and clinics, namely, business administration consultancy, business management consultancy, business organisation consultancy, human resources consultancy; Management of health care clinics for others; Provision of business statistical information relating to medical matters; Medical billing; Creation of medical examination reports; Compilation of statistical data relating to medical research; Advertising for others in the field of electrical engineering, electronics, information technology and medical technology; Office machines and equipment rental

#### **Class 36**

(2) Credit agencies; Real estate management, renting of flats, for others; Financial management services relating to medical institutions; Finance services, namely, financial analysis and research services, financial forecasting services, financial management services, financial planning services, providing educational scholarships in the field of medicine and science; Insurance underwriting

#### **Class 37**

(3) Construction of medical establishments; Maintenance, servicing, repair and installation of medical instruments, apparatus and equipment; Maintenance, servicing, repair and installation of diagnostic instruments, apparatus and equipment; Providing information relating to the repair or maintenance of medical machines and apparatus

### **Class 38**

(4) Providing of internet forums and internet chat lines; Access to content, websites and portals, namely, providing access to an Internet discussion website, providing access to a news portal featuring links to news agency service, providing access to online chatrooms, providing multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; providing access to databases, websites and web portals containing medical information in the nature of medical clinic services, medical diagnostic services, physician services, emergency health information, consultancy and information services relating to pharmaceutical products, veterinary information services and telemedicine services; Wireless transfer of data, namely, medical information, namely, health information relating to patient health care records, veterinary information in the nature of animal and pet health, medical research data, photographs, video clips, text messages and movies via the Internet; Transmission of radio and television programs via computer networks, online audio and video streaming services and the internet; online services, namely, transmission of medical information, namely, health information relating to patient health care records, veterinary information in the nature of animal and pet health, medical research data, photographs, video clips, text messages and movies via computer networks and the Internet

### **Class 41**

(5) Education, instruction, providing of training and further training, for others, namely, education and instruction namely arranging and conducting courses, conferences, workshops and seminars in the medical field, medical training in the fields of surgery, neurosurgery, neuroradiology, neurorehabilitation, ear, nose and throat medicine, orthopaedics, oral and maxillofacial surgery, ophthalmology, vascular surgery, vascular diseases, spinal surgery, restorative and plastic surgery, training in the field of science and technology, namely, computer training, training for handling scientific instruments and apparatus for research in laboratories, medical training in the fields of healthcare and operation of medical equipment and devices; Publication of periodicals and books; Training and tuition relating to medical and medical technology instruments, apparatus and equipment; Organisation of conferences in the field of medical science; Publishing of medical publications; Publication of medical periodicals, books and manuals (handbooks); Projection of cine-films for medical purposes

### **Class 42**

(6) Research and development, for others, in the field of electrical engineering, electronics, information technology, medical technology, physics, chemistry and mechanical engineering, as well as planning, consultancy, engineering and technical monitoring services in these fields; Construction and design planning and consultancy, namely, construction planning, architectural design, computer software design, planning of building and infrastructure systems for buildings, architectural consultancy, computer software consultancy, planning of technical equipment; Computer programming; Rental of electrical engineering, electronics and information technology products and installations; Material testing; Computer programming in the medical field; Writing of computer programs for medical applications; Medical research; Technical consultancy for medical facilities and clinics, namely, planning of infrastructure systems for buildings, planning of technical equipment; Planning, namely, planning and optimizing of processes for medical facilities and clinics; Leasing of electrotechnical and electronic installations, products, facilities and goods in the

field of information technology, namely, leasing computer facilities, apparatus and program, rental of network server space, rental of web servers

#### **Class 44**

(7) Medical services, namely, medical clinics, physician services, emergency medical assistance, medical equipment rental, medical imaging, addiction treatment services, human fertility treatment services, nursing care, nursing services; Hygienic and beauty care, namely, dental hygienist services, public baths for hygiene purposes, beauty salons, advisory services relating to beauty treatment; Medical diagnostics services; Nursing homes; Medical clinic services; Medical examinations and tests, namely, medical testing services, drug testing of persons, genetic testing for medical purposes, genetic testing of animals, psychiatric testing, psychological testing services, physical examination services; Medical imaging services; Medical care, medical counseling and medical treatments, namely, psychological counselling, genetic counselling, medical counselling relating to stress, counselling relating to occupational therapy, public health counselling; Medical equipment rental; Medical information services provided via the Internet and medical services provided via the internet, namely, medical clinic services provided via the internet, medical diagnostic services provided via the internet, physician services provided via the internet, providing emergency health information via the internet, consultancy and information services provided via the internet relating to pharmaceutical products, veterinary information services provided via the internet; Therapy services, namely, anti-smoking therapy, bodywork therapy, gene therapy services, physical therapy services, occupational therapy services, speech therapy services, respiratory therapy services, rehabilitative therapy services, psychological therapy services; Telemedicine services; Leasing of medical technology installations, products and facilities; Leasing and rental of medical facilities; Leasing and rental of medical apparatus and equipment; Rental of medical technology products and installations

#### **Claims**

Priority Filing Date: September 18, 2015, Country or Office: EUIPO (EU), Application No: 014581391 in association with the same kind of goods (1), (2), (3), (4), (5), (6) and in association with the same kind of services

**Application Number** 1,798,016  
**Language of Application** English

**Filing Date** 2016-08-29

## APPLICANT AND AGENT DETAILS

### Applicant

Karl Dungs GmbH & Co. KG  
Siemensstr. 6-10  
73660 Urbach  
GERMANY

### Agent

PAULA CLANCY  
(CLANCY PROFESSIONAL CORPORATION),  
28 Deakin Street, Suite 201, Ottawa,  
ONTARIO, K2E8B7

## TRADEMARK DETAILS

# DUNGS

### Trademark Type

Standard Characters

### Goods

#### Class 06

(1) pipes and tubes of metal for heating installations; non-electric cables and wires of common metal, namely metal cable wire; valves of metal, other than parts of machines, namely metal valves for gaseous or liquid media

#### Class 07

(2) valves (parts of machines), namely electrically operated valves for use as parts of machines and in industrial, commercial and domestic machine installations; pressure valves (parts of machines); hydraulic valves; pressure regulating valves; ball valves (parts of machines); hydraulic filters (parts of machines or engines)

#### Class 09

(3) gas and air pressure switches, valve proving systems, namely gas line leakage testers; parts and accessories for the aforesaid goods, namely, gas flow controls, valve position indicators, valve switch indicators, ignition transformers, butterfly valves, pressure gauges, pressure gauge shut off valves, gas orifices, gas meters, visual indicators for gas valves, high voltage igniters and electronic controls therefore; solenoid valves (electromagnetic switches); electric switches for heating and air-conditioning installations, industrial heating installations, furnace installations, gas motors and engines and turbine installations; electric regulating apparatus, namely gas and air valves and modulating valves; automatic time switches; thermal sensors; sensors for determining velocity for heating and air-conditioning installations, industrial heating installations, furnace installations, gas motors and engines and turbine installations; gas and air pressure switches

#### Class 11

(4) gas valves, air valves, ball valves, stepper motor valves, solenoid valves for steam, oil and water heating installations; automatic burner controls; gas filters for heating installations; spring-loaded pressure regulator being parts of heating installations; burners, namely gas and oil burners for industrial, commercial and domestic use; gas valves, namely dosing and safety valves being parts of heating and gas installations; level controlling valves in tanks; dosing and safety valves being parts of heating and gas installations; automatic burner controls; thermostatic valves (parts of heating installations); gas regulators being parts of heating installations

**Services****Class 37**

(1) repair services and installation services, namely repair and maintenance services for heating and air conditioning installations, industrial heating installations, furnace installations, gas motors and engines and turbine installations; heating equipment installation and repair

**Class 42**

(2) technical research and development of apparatus for heating and air conditioning installations, industrial installations, furnace installations, gas motors and engines and turbine installations, namely new products for others; engineering of switching, regulating, measuring, control and safety apparatus for heating and air-conditioning installations, industrial installations, furnace installations, gas motors and engines and turbine installations; surveying, namely technical surveys; consultancy in the field of technology, namely technical consultancy relating to the development of technologies, namely in the field of heating, process heat installations and air-conditioning installations; technical project planning, namely technical project studies, namely engineering services, particularly technical project planning; materials testing services

**Claims**

Priority Filing Date: August 23, 2016, Country or Office: GERMANY, Application No: 302016107621.6 in association with the same kind of goods and in association with the same kind of services

**Application Number** 1,801,605  
**Language of Application** English

**Filing Date** 2016-09-22

### Goods

#### Class 09

(1) Pre-recorded CDs and DVDs containing audio and video clips; Pre-recorded DVDs containing music; Prerecorded CDs and DVDs containing information in the field of diet, health and well-being, language, music, history, computers, computer software, leadership, project management; Digital files, namely, downloadable educational workbooks, downloadable curriculum; Digital music downloadable from internet; Educational software containing topics of instruction in the fields of diet, general health and well-being, language, music, history, computers, computer software, leadership, project management.

#### Class 14

(3) Lanyards for holding keys; Key chains; Key rings; Lapel pins.

**Class 16**

(2) Books, namely, educational books and workbooks; Stationery, namely, notepads, folders, booklets, calendars, student agendas, pens, and pencils; Magazines; Training manuals; Lanyards for holding visiting cards; Bookmarks; Stickers; Photographs; Stationery, namely, paper weights, book ends, and pen holders; Bumper stickers.

**Class 18**

(4) Bags, namely, tote bags, knapsacks, gym bags; Briefcases.

**Class 21**

(5) Drinking glasses; Mugs.

**Class 25**

(6) Clothing, namely, t-shirts, dress shirts, polo shirts, vests, blazers, jackets, socks, sweatshirts, sweaters, shorts, sports jerseys, track suits; Scarves.

**Class 26**

(7) Embroidered badges for clothing; Ornamental novelty badges.

**Class 28**

(8) Stuffed toys

**Services****Class 41**

(6) Design and development of computer hardware and software; consulting in the fields of computer system design and computer security; providing technical advice relating to computer hardware and software; design, testing, installation, integration, hosting, and updating of software

and computer programs; Providing online non-downloadable software for administration of insurance policies and claims, reinsurance policies and claims, and annuity investment accounts and contracts; Providing online non-downloadable software for detection and handling of insurance claims fraud; Providing online non-downloadable software for developing and marketing insurance and reinsurance policies, and developing annuity investment accounts and contacts; Providing online non-downloadable software for creating insurance policy and claim rates and commissions; Providing online non-downloadable software for insurance claims processing and management; Providing online non-downloadable software for insurance underwriting; Providing online non-downloadable software for insurance billing; Providing online non-downloadable software for insurance customer engagement, generation of marketing materials providing information as to insurance policies, services and pricing of same; Providing online non-downloadable software for analyzing insurance data; Providing online non-downloadable software for operating customer information systems that allow insurance companies to engage with their customers for performing financial and non-financial administrative transaction processing functions for financial institutions, card and merchant processing companies, third-party processors, and other financial services organizations for the administration, management and operation of customer accounts, deposits, loans credit, debit and other payment cards, and merchant accounts, and for creating and managing customer loyalty programs; Providing online non-downloadable software for use in the debt collection field which enables users to generate reports on debt collection activities, to record interactions with customers, to create debt recovery correspondence and legal documentation, to track debtor addresses and employment, and to monitor customer debts; Providing online non-downloadable software for archiving, retrieving, and electronically delivering images of checks, financial statements, financial transaction reports, and financial transaction data; Providing online non-downloadable software for use by financial institutions and in the financial services industries, namely, software for encrypting and decrypting financial information; Providing online non-downloadable software in the nature of customer relationship management (CRM) software for customer data analytics for use by financial institutions, and in the financial services and insurance industries and business process management (BPM) software; Providing online, non-downloadable software for use by loan servicers for default management, debt collection, loan workouts, loss mitigation, and regulatory compliance; Providing online, non-downloadable software for use by loan borrowers that enables borrowers to upload loan-related documents, review delinquent loan workout options, and to track the status of loan delinquent loan workouts; Providing online, non-downloadable software for processing payment transactions; Providing online, non-downloadable software for secure payment and financial transaction processing; Providing online, non-downloadable software for cloud management, namely, software for management and monitoring of cloud computing resources, for software application and software platform deployment to clouds, for software application and cloud provisioning of cloud resources and services to third parties, for cloud security and cloud firewall configurations, for creating and managing policies and access controls for cloud governance, for software release automation, and for enabling software development in the cloud; Providing online, non-downloadable software for electronic document management, namely, for automating and streamlining document collaboration, document workflow, document processes, document management and data capture; Providing online, non-downloadable software for compiling, viewing, managing and publishing electronic common technical documents (eCTDs) for drug product applications and submissions to regulatory agencies by users in the pharmaceutical and biotechnology industries; Providing online, non-downloadable software for simplifying production of PDF documents, for creating hyperlinks in PDF documents, and for publishing composite documents from electronic document collections; Providing online, non-downloadable software for tracking, mapping, routing, controlling, monitoring, dispatching, alerting, and providing status reports and performance information on

people, equipment, vehicles, assets, and infrastructure; Providing online, non-downloadable software for performing identity authentications and verification of individuals and systems for transactions on computing devices and systems, namely, software that uses a combination of passwords, personal identification numbers (PINs), public key infrastructure (PKI) security architecture, biometric information, and a person's location in order to verify such person's identity and allow such person to access computer systems and perform electronic financial transactions; Providing online, non-downloadable software for biometric identity authentications and verification of individuals, namely, software that confirms a person's identity and allows a person to access computer systems and perform electronic financial transactions by comparing such person's physiological characteristics with stored biometric data; Providing online, non-downloadable software for securely collecting, integrating and accessing healthcare data; Providing online, non-downloadable software for analyzing health data and generating risk-based healthcare management analyses; Providing online, non-downloadable software for healthcare point-of-care (POC) patient data management of on-site patient testing results; Providing online, non-downloadable software for tracking, aggregating, and analyzing healthcare patient data records for population health management; Providing online, non-downloadable software for creating alerts for use by healthcare professionals in coordinating and delivering targeted healthcare to patients; Providing online, non-downloadable software for generating, sharing, and accessing integrated care records for healthcare patients; Providing online, non-downloadable software for reducing healthcare costs and improving patient care by automating administrative tasks to free up healthcare professionals to spend more time with patients; Providing online, non-downloadable software for governing and controlling access to healthcare patient data; Providing online, non-downloadable software for creating software applications for use by healthcare organizations, namely hospitals and health clinics in providing and analyzing patient care; Providing online, non-downloadable customer relationship management (CRM) software; Providing online, non-downloadable software for analysis of legal expenses and law firm performance, case management and legal matter planning and management; Providing online, non-downloadable software for initiating, modifying and managing purchase requisitions for a business enterprise; Providing online, non-downloadable software for enterprise asset management (EAM), namely for identifying the need for, tracking, recording and scheduling maintenance and repair of an enterprise's physical assets; Providing online non-downloadable software for deploying, managing, and accessing cloud-based software applications and virtualized software applications that allow running of multiple operating systems from a single computer; Providing online non-downloadable software that enables users on different computing devices to share virtual desktops, software applications, electronic documents, and electronic data via a global computer network; Providing online non-downloadable software that enables users to collaborate on document creation, and to share, manage, synchronize, and access electronic files and documents; Providing online non-downloadable software for web-based video and audio conferencing collaboration, and video and audio communication for social collaboration, and project management; Providing online non-downloadable software and online non-downloadable internet of things (IoT) software platforms all for deploying and managing smart connected smartphones and computer tablets; Providing online non-downloadable software for the corporate learning environment that enables organizations to provide employees with unified access to learning content from a range of resources and an activity tracking platform; Providing online non-downloadable enterprise resource planning (ERP) software; Providing online non-downloadable software featuring artificial intelligence for performing data analytics and intelligent automation to improve, automate, and accelerate business processes; Providing online non-downloadable software for use by professionals in the healthcare industry for electronic medical record management and sharing, for capturing healthcare patient information, for managing and documenting medical procedures, for prescribing of medications,

and for creating patient care plans; Platform as a service (PAAS) featuring computer software platforms for enterprise resource planning (ERP); computer security consultancy and assessments; computer anti-virus protection services; provision of security services for computer software, computer networks, and computer systems; research in the fields of computer security; cybersecurity services; Infrastructure as a Service [IaaS] in the nature of providing computer networking and storage equipment, and virtual firewalls through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; computer and technical support services, namely, troubleshooting of computer software problems; recovery of computer data; outsourcing of information technology services for others namely, provision of assistance with the management, use and access to computer software applications and computer networks; outsourcing of data center management; computer services, namely, computer system administration for others; development, maintenance, and hosting of databases; design, development, configuration, and integration of computer systems and networks; monitoring of computer systems to ensure proper functioning; cloud hosting provider services; cloud migration services in the nature of migration of computer software to the cloud for others; cloud computing in the nature of management services for monitoring, administration and management of public, hybrid and private cloud computing IT and application systems; cloud computing services, namely, integration of private and public cloud computer systems; computer services, namely, hosting online portals that enable employees of an enterprise to access and install computer software applications from such enterprise's online software application store; hosting a web-based system and online portal for users to remotely manage, lock, unlock, wipe data on, and locate mobile and wireless devices; research in the field of computer security; data security services; data migration services; electronic data storage, namely, computer services providing general back up of electronic data, documents, and secure online file storage; remote computer backup services; encryption, decryption and authentication of information, messages and data; computer disaster recovery services; product research, design, and development; Security consultancy in the field of field information technology;

**Class 44**

(7) Telemedicine services.

**Class 45**

(8) Issuance and management of digital certificates for authentication and encryption of digital communications; providing authentication of personal identification information [identification verification services]; advisory services relating to regulatory affairs, namely, advice and consultancy on life sciences regulations and laws, insurance regulatory matters, financial services regulations and laws, and Internet regulations and laws; administration of user rights in computer networks.

### Class 09

(1) Computer software for administration of insurance policies and claims, reinsurance policies and claims, and annuity investment accounts and contracts; Computer software for detection and handling of insurance claims fraud; Computer software for developing and marketing insurance and reinsurance policies, and developing annuity investment accounts and contracts; Computer software for creating insurance policy and claim rates and commissions; Computer software for insurance claims processing and management; Computer software for insurance underwriting; Computer software for insurance billing; Computer software for insurance customer engagement, namely for generation of marketing materials providing information as to insurance policies, services and pricing of same; Computer software for analyzing insurance data; Computer software for operating customer information systems that allow insurance companies to engage with their customers and for performing financial and non-financial administrative transaction processing functions for financial institutions, card and merchant processing companies, third-party processors, and other financial services organizations for the administration, management and operation of customer accounts, deposits, loans credit, debit and other payment cards, and merchant accounts, and for creating and managing customer loyalty programs; Computer software for use in the debt collection field which enables users to generate reports on debt collection

activities, to record interactions with customers, to create debt recovery correspondence and legal documentation, to track debtor addresses and employment, and to monitor customer debts; Computer software for archiving, retrieving, and electronically delivering images of checks, financial statements, financial transaction reports, and financial transaction data; Computer software for use by financial institutions and in the financial services industries, namely, software for encrypting and decrypting financial information; Computer software in the nature of customer relationship management (CRM) software for customer data analytics for use by financial institutions, and in the financial services and insurance industries and business process management (BPM) software; Computer software for cloud management, namely, software for management and monitoring of cloud computing resources, for software application and software platform deployment to clouds, for software application and cloud provisioning of cloud resources and services to third parties, for cloud security and cloud firewall configuration, for creating and managing policies and access controls for cloud governance, for software release automation, and for software development in the cloud; Computer software for electronic document management, namely, for automating and streamlining document collaboration, document workflow, document processes, document management and data capture; Computer software for use in compiling, viewing, managing and publishing electronic common technical documents (eCTDs) for drug product applications and submissions to regulatory agencies by users in the pharmaceutical and biotechnology industries; Computer software for simplifying production of PDF documents, for creating hyperlinks in PDF documents, and for publishing composite documents from electronic document collections; Computer software for tracking, mapping, routing, controlling, monitoring, dispatching, alerting, and providing status reports and performance information on people, equipment, vehicles, assets, and infrastructure; Computer software for performing identity authentications and verification of individuals and systems for transactions on computing devices and systems, namely, software that uses a combination of passwords, personal identification numbers (PINs), public key infrastructure (PKI) security architecture, biometric information, and a person's location in order to verify such person's identity and allow such person to access computer systems and perform electronic transactions; Computer software for biometric identity authentications and verification of individuals, namely, software that confirms a person's identity and allows a person to access computer systems and perform electronic financial transactions by comparing such person's physiological characteristics with stored biometric data; Computer software for securely collecting, integrating and accessing healthcare patient data records; Computer software for analyzing health data and generating riskbased healthcare management analyses; Computer software for healthcare point-of-care (POC) patient data management of on-site patient testing results; Computer software for tracking, aggregating, and analyzing healthcare patient data records for population health management; Computer software for creating alerts for use by healthcare professionals in coordinating and delivering targeted healthcare to patients; Computer software for generating, sharing, and accessing integrated care records for healthcare patients; Computer software for reducing healthcare costs and improving patient care by automating administrative tasks to free up healthcare professionals to spend more time with patients; Computer software for governing and controlling access to healthcare patient data; Computer software for creating software applications for use by healthcare organizations, namely hospitals and health clinics in providing and analyzing patient care; Customer relationship management (CRM) computer software; Computer software for analysis of legal expenses and law firm performance, case management and legal matter planning and management; Computer software for initiating, modifying and managing purchase requisitions for a business enterprise; Computer software for enterprise asset management (EAM), namely for identifying the need for, tracking, recording and scheduling maintenance and repair of an enterprise's physical assets; computer hardware; biometric capture and verification devices, namely fingerprint readers, retinal

scanners, facial and voice recognition systems; Downloadable electronic publications in the nature of magazines, white papers, articles, and informational brochures in the fields of information technology, technology, software, business, financial services, banking, capital markets, media, aerospace and defense, insurance, annuities and pensions, healthcare, life sciences, energy, manufacturing, the automotive industry, security, travel, and transportation.

### **Class 16**

(2) Printed publications, namely, magazines, white papers, articles, and informational brochures in the fields of information technology, technology, software, business, financial services, banking, capital markets, media, aerospace and defense, insurance, annuities and pensions, healthcare, life sciences, energy, manufacturing, the automotive industry, security, travel, and transportation;

### **Services**

### **Class 35**

(1) Business development consulting; business management consulting; business information, namely providing advice regarding business management; business strategy development services; business development research services; business management and business operation research services; business administration assistance, namely outsourcing services; business process management consultancy; outsourcing in the field of information technology, namely, services in the field of arranging service contracts for others in the field of information technology; outsourcing of telephone call centers and data center computer operations; business management data analysis; business development consulting in the field of big data; business management services relating to data compiling and analyzing; database management; auditing of legal bills; consulting to review business efficiency of legal service providers; consultancy relating to business efficiency; supply chain consulting and management services; business consultancy services relating to disaster planning and recovery.

### **Class 36**

(2) Insurance services; reinsurance services; consulting and information concerning insurance and reinsurance; insurance claims processing; financial services, namely, providing consulting and information in the fields of finance and financial services, namely exchanging of money, loans, investments, insurances, annuities and pensions, loan and mortgage administration, debt collection, and banking; information services, namely, providing information on how to manage financial transactions; financial consultancy services, namely, providing information on financial loans.

### **Class 37**

(3) Installation, maintenance and repair of computer hardware; installation, maintenance and repair of computer systems; installation, maintenance and repair of computer networks; installation, maintenance and repair of computer networking hardware and computer networks.

### **Class 38**

(4) Telecommunications, namely, providing information in the field of providing access to the Internet; Electronic transmission of voice and digital files, namely, computer files, voice messages, text messages via a global communication network and wireless communication networks; providing internet access; unified communications as a service (UCaaS), namely, providing telecommunications services in the nature of instant messaging, voice transmission, text messaging, audio and video calling applications, and video conferencing; email services; transmission of messages, namely, electronic messaging services.

### **Class 41**

(5) Training in the fields of computer system design, computer security, computer software development, business processes, careers, and life sciences regulatory submissions; arranging and conducting educational conferences, classes and seminars in the fields of computer system design, computer security, software, business, and insurance; providing non-downloadable electronic publications in the nature of articles and blogs in the fields of information technology, technology, software, business, financial services, banking, capital markets, media, aerospace and defense, insurance, annuities and pensions, healthcare, life sciences, energy, manufacturing, the automotive industry, security, travel, and transportation.

#### **Class 42**

(6) Design and development of computer hardware and software; consulting in the fields of computer system design and computer security; providing technical advice relating to computer hardware and software; design, testing, installation, integration, hosting, and updating of software and computer programs; Providing online non-downloadable software for administration of insurance policies and claims, reinsurance policies and claims, and annuity investment accounts and contracts; Providing online non-downloadable software for detection and handling of insurance claims fraud; Providing online non-downloadable software for developing and marketing insurance and reinsurance policies, and developing annuity investment accounts and contacts; Providing online non-downloadable software for creating insurance policy and claim rates and commissions; Providing online non-downloadable software for insurance claims processing and management; Providing online non-downloadable software for insurance underwriting; Providing online non-downloadable software for insurance billing; Providing online non-downloadable software for insurance customer engagement, generation of marketing materials providing information as to insurance policies, services and pricing of same; Providing online non-downloadable software for analyzing insurance data; Providing online non-downloadable software for operating customer information systems that allow insurance companies to engage with their customers for performing financial and non-financial administrative transaction processing functions for financial institutions, card and merchant processing companies, third-party processors, and other financial services organizations for the administration, management and operation of customer accounts, deposits, loans credit, debit and other payment cards, and merchant accounts, and for creating and managing customer loyalty programs; Providing online non-downloadable software for use in the debt collection field which enables users to generate reports on debt collection activities, to record interactions with customers, to create debt recovery correspondence and legal documentation, to track debtor addresses and employment, and to monitor customer debts; Providing online non-downloadable software for archiving, retrieving, and electronically delivering images of checks, financial statements, financial transaction reports, and financial transaction data; Providing online non-downloadable software for use by financial institutions and in the financial services industries, namely, software for encrypting and decrypting financial information; Providing online non-downloadable software in the nature of customer relationship management (CRM) software for customer data analytics for use by financial institutions, and in the financial services and insurance industries and business process management (BPM) software; Providing online, non-downloadable software for use by loan servicers for default management, debt collection, loan workouts, loss mitigation, and regulatory compliance; Providing online, non-downloadable software for use by loan borrowers that enables borrowers to upload loan-related documents, review delinquent loan workout options, and to track the status of loan delinquent loan workouts; Providing online, non-downloadable software for processing payment transactions; Providing online, non-downloadable software for secure payment and financial transaction processing; Providing online, non-downloadable software for cloud management, namely, software for management and monitoring of cloud computing resources, for software application and software

platform deployment to clouds, for software application and cloud provisioning of cloud resources and services to third parties, for cloud security and cloud firewall configurations, for creating and managing policies and access controls for cloud governance, for software release automation, and for enabling software development in the cloud; Providing online, non-downloadable software for electronic document management, namely, for automating and streamlining document collaboration, document workflow, document processes, document management and data capture; Providing online, non-downloadable software for compiling, viewing, managing and publishing electronic common technical documents (eCTDs) for drug product applications and submissions to regulatory agencies by users in the pharmaceutical and biotechnology industries; Providing online, non-downloadable software for simplifying production of PDF documents, for creating hyperlinks in PDF documents, and for publishing composite documents from electronic document collections; Providing online, non-downloadable software for tracking, mapping, routing, controlling, monitoring, dispatching, alerting, and providing status reports and performance information on people, equipment, vehicles, assets, and infrastructure; Providing online, non-downloadable software for performing identity authentications and verification of individuals and systems for transactions on computing devices and systems, namely, software that uses a combination of passwords, personal identification numbers (PINs), public key infrastructure (PKI) security architecture, biometric information, and a person's location in order to verify such person's identity and allow such person to access computer systems and perform electronic financial transactions; Providing online, non-downloadable software for biometric identity authentications and verification of individuals, namely, software that confirms a person's identity and allows a person to access computer systems and perform electronic financial transactions by comparing such person's physiological characteristics with stored biometric data; Providing online, non-downloadable software for securely collecting, integrating and accessing healthcare data; Providing online, non-downloadable software for analyzing health data and generating risk-based healthcare management analyses; Providing online, non-downloadable software for healthcare point-of-care (POC) patient data management of on-site patient testing results; Providing online, non-downloadable software for tracking, aggregating, and analyzing healthcare patient data records for population health management; Providing online, non-downloadable software for creating alerts for use by healthcare professionals in coordinating and delivering targeted healthcare to patients; Providing online, non-downloadable software for generating, sharing, and accessing integrated care records for healthcare patients; Providing online, non-downloadable software for reducing healthcare costs and improving patient care by automating administrative tasks to free up healthcare professionals to spend more time with patients; Providing online, non-downloadable software for governing and controlling access to healthcare patient data; Providing online, non-downloadable software for creating software applications for use by healthcare organizations, namely hospitals and health clinics in providing and analyzing patient care; Providing online, non-downloadable customer relationship management (CRM) software; Providing online, non-downloadable software for analysis of legal expenses and law firm performance, case management and legal matter planning and management; Providing online, non-downloadable software for initiating, modifying and managing purchase requisitions for a business enterprise; Providing online, non-downloadable software for enterprise asset management (EAM), namely for identifying the need for, tracking, recording and scheduling maintenance and repair of an enterprise's physical assets; Providing online non-downloadable software for deploying, managing, and accessing cloud-based software applications and virtualized software applications that allow running of multiple operating systems from a single computer; Providing online non-downloadable software that enables users on different computing devices to share virtual desktops, software applications, electronic documents, and electronic data via a global computer network; Providing online non-downloadable software that enables users to collaborate on document creation, and to

share, manage, synchronize, and access electronic files and documents; Providing online non-downloadable software for web-based video and audio conferencing collaboration, and video and audio communication for social collaboration, and project management; Providing online non-downloadable software and online non-downloadable internet of things (IoT) software platforms all for deploying and managing smart connected smartphones and computer tablets; Providing online non-downloadable software for the corporate learning environment that enables organizations to provide employees with unified access to learning content from a range of resources and an activity tracking platform; Providing online non-downloadable enterprise resource planning (ERP) software; Providing online non-downloadable software featuring artificial intelligence for performing data analytics and intelligent automation to improve, automate, and accelerate business processes; Providing online non-downloadable software for use by professionals in the healthcare industry for electronic medical record management and sharing, for capturing healthcare patient information, for managing and documenting medical procedures, for prescribing of medications, and for creating patient care plans; Platform as a service (PAAS) featuring computer software platforms for enterprise resource planning (ERP); computer security consultancy and assessments; computer anti-virus protection services; provision of security services for computer software, computer networks, and computer systems; research in the fields of computer security; cybersecurity services; Infrastructure as a Service [IaaS] in the nature of providing computer networking and storage equipment, and virtual firewalls through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; computer and technical support services, namely, troubleshooting of computer software problems; recovery of computer data; outsourcing of information technology services for others namely, provision of assistance with the management, use and access to computer software applications and computer networks; outsourcing of data center management; computer services, namely, computer system administration for others; development, maintenance, and hosting of databases; design, development, configuration, and integration of computer systems and networks; monitoring of computer systems to ensure proper functioning; cloud hosting provider services; cloud migration services in the nature of migration of computer software to the cloud for others; cloud computing in the nature of management services for monitoring, administration and management of public, hybrid and private cloud computing IT and application systems; cloud computing services, namely, integration of private and public cloud computer systems; computer services, namely, hosting online portals that enable employees of an enterprise to access and install computer software applications from such enterprise's online software application store; hosting a web-based system and online portal for users to remotely manage, lock, unlock, wipe data on, and locate mobile and wireless devices; research in the field of computer security; data security services; data migration services; electronic data storage, namely, computer services providing general back up of electronic data, documents, and secure online file storage; remote computer backup services; encryption, decryption and authentication of information, messages and data; computer disaster recovery services; product research, design, and development; Security consultancy in the field of field information technology;

**Class 44**

(7) Telemedicine services.

**Class 45**

(8) Issuance and management of digital certificates for authentication and encryption of digital communications; providing authentication of personal identification information [identification verification services]; advisory services relating to regulatory affairs, namely, advice and

consultancy on life sciences regulations and laws, insurance regulatory matters, financial services regulations and laws, and Internet regulations and laws; administration of user rights in computer networks.

### Goods

#### Class 11

(1) Heating apparatus and installations, namely heating elements; heat accumulators; heat reclaimers; lighting apparatus and installations, namely lanterns, lamps, projectors, LEDs, light bulbs, halogen lights and light bulbs, tubes, namely electric discharge tubes for lighting, lamp tubes, flashlights, lamp reflectors, neon light bulbs, diffusers and light fixtures; lighting lamps, namely lamps embedded in ceilings and canvases; chandeliers; ceiling lights; lamp reflectors; lamp tubes; lampshades; diffusers [lighting]; louvre grids for lights; luminous tubes for lighting; lighting panels, namely light fixtures, light box frames for lighting, namely LED light fixtures; luminous ceilings (non-metallic), namely woven textile canvases integrating a light system in the nature of LEDs.

#### Class 17

(2) Soundproofing material, namely plastic drop cloths, electrical, thermal and sound insulation and stretched canvases for soundproofing purposes; soundproofing panels, namely electrical, thermal and sound insulation panels and stretched canvases for soundproofing purposes; soundproofing plates, namely acoustic baffles for soundproofing purposes; soundproofing wall coverings, namely electrical, thermal and sound insulation canvases and stretched canvases for soundproofing purposes; soundproofing ceiling coverings, namely soundproofing batting and stretched fabric for soundproofing purposes; soundproofing material, namely soundproofing fabric and soundproofing batting; items and materials for sound insulation, namely barks for sound insulation and electrical, thermal and sound insulation canvases and stretched canvases made of soundproofing fabric; insulating floor coverings, namely soundproofing foam and insulating bands; acoustic baffles for soundproofing purposes and stretched canvases for soundproofing purposes; plastic canvases (fabric substitutes), namely plastic drop cloths; stretched canvases made of woven fabric integrating a light system in the nature of LEDs and featuring soundproofing properties.

#### Class 19

(3) Non-metallic rigid pipes for use in construction, namely rigid pipes made of PVC; non-metal partitions, namely canvas partitions for use in construction, non-metallic angle bars, namely profiles for ceilings, door frames (non-metal); panels for use in construction, namely panels made

of woven fibres; non-metallic ceilings, namely construction panels made of woven textile fabrics and construction panels made of woven textile stretched canvases featuring soundproofing properties; non-metallic false ceilings, namely construction panels made of woven textile fabrics and construction panels made of woven textile stretched canvases featuring soundproofing properties.

**Class 20**

(6) Non-metallic transportable structures, namely display counters, sales counters and display stands.

**Class 24**

(4) Plastics (fabric substitutes), namely sailcloth and PVC canvases; plastic furniture coverings; non-woven textile; fabrics with elastic yarns or threads; fabric ceiling and wall draperies.

**Class 27**

(5) Plastic ceiling draperies (non-textile); non-textile canvases for false ceilings and false walls, namely PVC canvases and stretched fabric; non-textile ceiling and wall coverings, namely vinyl coverings and canvases made of stretched fabric and PVC; doormats, cane mats, straw mats, linoleum; non-textile wall hangings; non-metal wall coverings, namely vinyl wall coverings and fabric wall coverings.

#### Class 09

(1) Computer software for administration of insurance policies and claims, reinsurance policies and claims, and annuity investment accounts and contracts; Computer software for detection and handling of insurance claims fraud; Computer software for developing and marketing insurance and reinsurance policies, and developing annuity investment accounts and contracts; Computer software for creating insurance policy and claim rates and commissions; Computer software for insurance claims processing and management; Computer software for insurance underwriting; Computer software for insurance billing; Computer software for insurance customer engagement, namely for generation of marketing materials providing information as to insurance policies, services and pricing of same; Computer software for analyzing insurance data; Computer software for operating customer information systems that allow insurance companies to engage with their customers and for performing financial and non-financial administrative transaction processing functions for financial institutions, card and merchant processing companies, third-party processors, and other financial services organizations for the administration, management and operation of customer accounts, deposits, loans credit, debit and other payment cards, and merchant accounts, and for creating and managing customer loyalty programs; Computer software for use in the debt collection field which enables users to generate reports on debt collection activities, to record interactions with customers, to create debt recovery correspondence and legal documentation, to track debtor addresses and employment, and to monitor customer debts; Computer software for archiving, retrieving, and electronically delivering images of checks, financial statements, financial transaction reports, and financial transaction data; Computer software for use by financial institutions and in the financial services industries, namely, software for encrypting and decrypting financial information; Computer software in the nature of customer relationship management (CRM) software for customer data analytics for use by financial institutions, and in the financial services and insurance industries and business process management (BPM) software; Computer software for cloud management, namely, software for management and monitoring of cloud computing resources, for software application and software

platform deployment to clouds, for software application and cloud provisioning of cloud resources and services to third parties, for cloud security and cloud firewall configuration, for creating and managing policies and access controls for cloud governance, for software release automation, and for software development in the cloud; Computer software for electronic document management, namely, for automating and streamlining document collaboration, document workflow, document processes, document management and data capture; Computer software for use in compiling, viewing, managing and publishing electronic common technical documents (eCTDs) for drug product applications and submissions to regulatory agencies by users in the pharmaceutical and biotechnology industries; Computer software for simplifying production of PDF documents, for creating hyperlinks in PDF documents, and for publishing composite documents from electronic document collections; Computer software for tracking, mapping, routing, controlling, monitoring, dispatching, alerting, and providing status reports and performance information on people, equipment, vehicles, assets, and infrastructure; Computer software for performing identity authentications and verification of individuals and systems for transactions on computing devices and systems, namely, software that uses a combination of passwords, personal identification numbers (PINs), public key infrastructure (PKI) security architecture, biometric information, and a person's location in order to verify such person's identity and allow such person to access computer systems and perform electronic transactions; Computer software for biometric identity authentications and verification of individuals, namely, software that confirms a person's identity and allows a person to access computer systems and perform electronic financial transactions by comparing such person's physiological characteristics with stored biometric data; Computer software for securely collecting, integrating and accessing healthcare patient data records; Computer software for analyzing health data and generating riskbased healthcare management analyses; Computer software for healthcare point-of-care (POC) patient data management of on-site patient testing results; Computer software for tracking, aggregating, and analyzing healthcare patient data records for population health management; Computer software for creating alerts for use by healthcare professionals in coordinating and delivering targeted healthcare to patients; Computer software for generating, sharing, and accessing integrated care records for healthcare patients; Computer software for reducing healthcare costs and improving patient care by automating administrative tasks to free up healthcare professionals to spend more time with patients; Computer software for governing and controlling access to healthcare patient data; Computer software for creating software applications for use by healthcare organizations, namely hospitals and health clinics in providing and analyzing patient care; Customer relationship management (CRM) computer software; Computer software for analysis of legal expenses and law firm performance, case management and legal matter planning and management; Computer software for initiating, modifying and managing purchase requisitions for a business enterprise; Computer software for enterprise asset management (EAM), namely for identifying the need for, tracking, recording and scheduling maintenance and repair of an enterprise's physical assets; computer hardware; biometric capture and verification devices, namely fingerprint readers, retinal scanners, facial and voice recognition systems; Downloadable electronic publications in the nature of magazines, white papers, articles, and informational brochures in the fields of information technology, technology, software, business, financial services, banking, capital markets, media, aerospace and defense, insurance, annuities and pensions, healthcare, life sciences, energy, manufacturing, the automotive industry, security, travel, and transportation.

**Class 16**

(2) Printed publications, namely, magazines, white papers, articles, and informational brochures in the fields of information technology, technology, software, business, financial services, banking, capital markets, media, aerospace and defense, insurance, annuities and pensions, healthcare, life sciences, energy, manufacturing, the automotive industry, security, travel, and transportation.

## **Services**

### **Class 35**

(1) Business development consulting; business management consulting; business information, namely providing advice regarding business management; business strategy development services; business development research services; business management and business operation research services; business administration assistance, namely outsourcing services; business process management consultancy; outsourcing in the field of information technology, namely, services in the field of arranging service contracts for others in the field of information technology; outsourcing of telephone call centers and data center computer operations; business management data analysis; business development consulting in the field of big data; business management services relating to data compiling and analyzing; database management; auditing of legal bills; consulting to review business efficiency of legal service providers; consultancy relating to business efficiency; supply chain consulting and management services; business consultancy services relating to disaster planning and recovery.

### **Class 36**

(2) Insurance services; reinsurance services; consulting and information concerning insurance and reinsurance; insurance claims processing; financial services, namely, providing consulting and information in the fields of finance and financial services, namely exchanging of money, loans, investments, insurances, annuities and pensions, loan and mortgage administration, debt collection, and banking; information services, namely, providing information on how to manage financial transactions; financial consultancy services, namely, providing information on financial loans.

### **Class 37**

(3) Installation, maintenance and repair of computer hardware; installation, maintenance and repair of computer systems; installation, maintenance and repair of computer networks; installation, maintenance and repair of computer networking hardware and computer networks.

### **Class 38**

(4) Telecommunications, namely, providing information in the field of providing access to the Internet; Electronic transmission of voice and digital files, namely, computer files, voice messages, text messages via a global communication network and wireless communication networks; providing internet access; unified communications as a service (UCaaS), namely, providing telecommunications services in the nature of instant messaging, voice transmission, text messaging, audio and video calling applications, and video conferencing; email services; transmission of messages, namely, electronic messaging services.

### **Class 41**

(5) Training in the fields of computer system design, computer security, computer software development, business processes, careers, and life sciences regulatory submissions; arranging and conducting educational conferences, classes and seminars in the fields of computer system design, computer security, software, business, and insurance; providing non-downloadable electronic publications in the nature of articles and blogs in the fields of information technology, technology, software, business, financial services, banking, capital markets, media, aerospace and

defense, insurance, annuities and pensions, healthcare, life sciences, energy, manufacturing, the automotive industry, security, travel, and transportation.

### **Class 42**

(6) Design and development of computer hardware and software; consulting in the fields of computer system design and computer security; providing technical advice relating to computer hardware and software; design, testing, installation, integration, hosting, and updating of software and computer programs; Providing online non-downloadable software for administration of insurance policies and claims, reinsurance policies and claims, and annuity investment accounts and contracts; Providing online non-downloadable software for detection and handling of insurance claims fraud; Providing online non-downloadable software for developing and marketing insurance and reinsurance policies, and developing annuity investment accounts and contacts; Providing online non-downloadable software for creating insurance policy and claim rates and commissions; Providing online non-downloadable software for insurance claims processing and management; Providing online non-downloadable software for insurance underwriting; Providing online non-downloadable software for insurance billing; Providing online non-downloadable software for insurance customer engagement, generation of marketing materials providing information as to insurance policies, services and pricing of same; Providing online non-downloadable software for analyzing insurance data; Providing online non-downloadable software for operating customer information systems that allow insurance companies to engage with their customers for performing financial and non-financial administrative transaction processing functions for financial institutions, card and merchant processing companies, third-party processors, and other financial services organizations for the administration, management and operation of customer accounts, deposits, loans credit, debit and other payment cards, and merchant accounts, and for creating and managing customer loyalty programs; Providing online non-downloadable software for use in the debt collection field which enables users to generate reports on debt collection activities, to record interactions with customers, to create debt recovery correspondence and legal documentation, to track debtor addresses and employment, and to monitor customer debts; Providing online non-downloadable software for archiving, retrieving, and electronically delivering images of checks, financial statements, financial transaction reports, and financial transaction data; Providing online non-downloadable software for use by financial institutions and in the financial services industries, namely, software for encrypting and decrypting financial information; Providing online non-downloadable software in the nature of customer relationship management (CRM) software for customer data analytics for use by financial institutions, and in the financial services and insurance industries and business process management (BPM) software; Providing online, non-downloadable software for use by loan servicers for default management, debt collection, loan workouts, loss mitigation, and regulatory compliance; Providing online, non-downloadable software for use by loan borrowers that enables borrowers to upload loan-related documents, review delinquent loan workout options, and to track the status of loan delinquent loan workouts; Providing online, non-downloadable software for processing payment transactions; Providing online, non-downloadable software for secure payment and financial transaction processing; Providing online, non-downloadable software for cloud management, namely, software for management and monitoring of cloud computing resources, for software application and software platform deployment to clouds, for software application and cloud provisioning of cloud resources and services to third parties, for cloud security and cloud firewall configurations, for creating and managing policies and access controls for cloud governance, for software release automation, and for enabling software development in the cloud; Providing online, non-downloadable software for electronic document management, namely, for automating and streamlining document collaboration, document workflow, document processes, document management and data capture;

Providing online, non-downloadable software for compiling, viewing, managing and publishing electronic common technical documents (eCTDs) for drug product applications and submissions to regulatory agencies by users in the pharmaceutical and biotechnology industries; Providing online, non-downloadable software for simplifying production of PDF documents, for creating hyperlinks in PDF documents, and for publishing composite documents from electronic document collections; Providing online, non-downloadable software for tracking, mapping, routing, controlling, monitoring, dispatching, alerting, and providing status reports and performance information on people, equipment, vehicles, assets, and infrastructure; Providing online, non-downloadable software for performing identity authentications and verification of individuals and systems for transactions on computing devices and systems, namely, software that uses a combination of passwords, personal identification numbers (PINs), public key infrastructure (PKI) security architecture, biometric information, and a person's location in order to verify such person's identity and allow such person to access computer systems and perform electronic financial transactions; Providing online, non-downloadable software for biometric identity authentications and verification of individuals, namely, software that confirms a person's identity and allows a person to access computer systems and perform electronic financial transactions by comparing such person's physiological characteristics with stored biometric data; Providing online, non-downloadable software for securely collecting, integrating and accessing healthcare data; Providing online, non-downloadable software for analyzing health data and generating risk-based healthcare management analyses; Providing online, non-downloadable software for healthcare point-of-care (POC) patient data management of on-site patient testing results; Providing online, non-downloadable software for tracking, aggregating, and analyzing healthcare patient data records for population health management; Providing online, non-downloadable software for creating alerts for use by healthcare professionals in coordinating and delivering targeted healthcare to patients; Providing online, non-downloadable software for generating, sharing, and accessing integrated care records for healthcare patients; Providing online, non-downloadable software for reducing healthcare costs and improving patient care by automating administrative tasks to free up healthcare professionals to spend more time with patients; Providing online, non-downloadable software for governing and controlling access to healthcare patient data; Providing online, non-downloadable software for creating software applications for use by healthcare organizations, namely hospitals and health clinics in providing and analyzing patient care; Providing online, non-downloadable customer relationship management (CRM) software; Providing online, non-downloadable software for analysis of legal expenses and law firm performance, case management and legal matter planning and management; Providing online, non-downloadable software for initiating, modifying and managing purchase requisitions for a business enterprise; Providing online, non-downloadable software for enterprise asset management (EAM), namely for identifying the need for, tracking, recording and scheduling maintenance and repair of an enterprise's physical assets; Providing online non-downloadable software for deploying, managing, and accessing cloud-based software applications and virtualized software applications that allow running of multiple operating systems from a single computer; Providing online non-downloadable software that enables users on different computing devices to share virtual desktops, software applications, electronic documents, and electronic data via a global computer network; Providing online non-downloadable software that enables users to collaborate on document creation, and to share, manage, synchronize, and access electronic files and documents; Providing online non-downloadable software for web-based video and audio conferencing collaboration, and video and audio communication for social collaboration, and project management; Providing online non-downloadable software and online non-downloadable internet of things (IoT) software platforms all for deploying and managing smart connected smartphones and computer tablets; Providing online non-downloadable software for the corporate learning environment that enables organizations to

provide employees with unified access to learning content from a range of resources and an activity tracking platform; Providing online non-downloadable enterprise resource planning (ERP) software; Providing online non-downloadable software featuring artificial intelligence for performing data analytics and intelligent automation to improve, automate, and accelerate business processes; Providing online non-downloadable software for use by professionals in the healthcare industry for electronic medical record management and sharing, for capturing healthcare patient information, for managing and documenting medical procedures, for prescribing of medications, and for creating patient care plans; Platform as a service (PAAS) featuring computer software platforms for enterprise resource planning (ERP); computer security consultancy and assessments; computer anti-virus protection services; provision of security services for computer software, computer networks, and computer systems; research in the fields of computer security; cybersecurity services; Infrastructure as a Service [IaaS] in the nature of providing computer networking and storage equipment, and virtual firewalls through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; computer and technical support services, namely, troubleshooting of computer software problems; recovery of computer data; outsourcing of information technology services for others namely, provision of assistance with the management, use and access to computer software applications and computer networks; outsourcing of data center management; computer services, namely, computer system administration for others; development, maintenance, and hosting of databases; design, development, configuration, and integration of computer systems and networks; monitoring of computer systems to ensure proper functioning; cloud hosting provider services; cloud migration services in the nature of migration of computer software to the cloud for others; cloud computing in the nature of management services for monitoring, administration and management of public, hybrid and private cloud computing IT and application systems; cloud computing services, namely, integration of private and public cloud computer systems; computer services, namely, hosting online portals that enable employees of an enterprise to access and install computer software applications from such enterprise's online software application store; hosting a web-based system and online portal for users to remotely manage, lock, unlock, wipe data on, and locate mobile and wireless devices; research in the field of computer security; data security services; data migration services; electronic data storage, namely, computer services providing general back up of electronic data, documents, and secure online file storage; remote computer backup services; encryption, decryption and authentication of information, messages and data; computer disaster recovery services; product research, design, and development; Security consultancy in the field of field information technology;

#### **Class 44**

(7) Telemedicine services.

#### **Class 45**

(8) Issuance and management of digital certificates for authentication and encryption of digital communications; providing authentication of personal identification information [identification verification services]; advisory services relating to regulatory affairs, namely, advice and consultancy on life sciences regulations and laws, insurance regulatory matters, financial services regulations and laws, and Internet regulations and laws; administration of user rights in computer networks.

### Colour Claim

Colour is claimed as a feature of the trademark. The logo consists of a right-to-left gradient starting at blue, transitioning to turquoise, and ending at green.

### Goods

#### Class 01

(1) Chemicals, biochemicals, biotechnological products, namely molecules, nucleotides, proteins, plasmids, and bacteriological products for use in the manufacture of pharmaceutical preparations; chemicals for use in the manufacture of gene and cell therapies; preservatives for use in the pharmaceutical industry; vitamins and antioxidants for the manufacture of pharmaceutical preparations and dietary supplements; enzymatic preparations for medical, pharmaceutical and veterinary use for the manufacture of pharmaceutical preparations; cultures of microorganisms for medical, pharmaceutical and veterinary use, namely bacteria for the manufacture of pharmaceutical preparations; chemical preparations for medical, pharmaceutical and veterinary use, namely chemical active ingredients, namely molecules, antioxidant enzymes, digestive enzymes for use in the manufacture of animal feed, enzymes for use in the manufacture of functional food, enzymes for use in the manufacture of animal feed; kits for preparing cells and for

selecting active biological compounds, namely laboratory assay kits; active chemical compounds for genetic and non-genetic pathologies, for humans and animals, namely chemical compounds for the manufacture of pharmaceutical preparations.

### **Class 05**

(2) Pharmaceutical preparations, medical and veterinary preparations, namely pharmaceutical preparations for the treatment of bone diseases, pharmaceutical preparations for the treatment of the diseases, disorders and infections of the central nervous system, namely in relation to the brain, movement, ocular motility and spinal cord diseases, pharmaceutical preparations for the treatment of autoimmune diseases, pharmaceutical preparations for the treatment of inflammatory diseases and disorders of the muscles, pharmaceutical preparations for the treatment of myopathies, veterinary pharmaceutical preparations for the treatment of vitamin deficiencies, veterinary pharmaceutical preparations for the treatment of myopathies, veterinary pharmaceutical preparations for the treatment of arthritis, muscle soreness and sprains, veterinary pharmaceutical preparations for the treatment of nutritional muscular dystrophy; sanitary preparations for medical purposes, namely pharmaceutical astringents, disinfectants for medical instruments, disinfectant soaps, dressings; dietetic food and substances adapted for medical and veterinary use, namely vitamin and mineral bars for medical use, dietetic supplements for medical use consisting of trace elements, dietary supplements for medical use consisting of amino acids, pet food additives in the form of vitamin and mineral supplements for veterinary use, food for babies; dietary supplements for humans and animals, namely vitamin and mineral supplements for human use, animal feed supplements for veterinary purposes; biotechnological, biological, bacterial, bacteriological and pharmacological preparations for medical, pharmaceutical and veterinary use, namely antibiotics, synthetic peptides for pharmaceutical use, antigens, nucleic acids for medical and veterinary use, stem cells for medical purposes; vitamins; preparations made from vitamins, namely vitamin preparations; dietetic beverages for medical use, namely diabetic fruit juice beverages adapted for medical purposes; wafer for pharmaceutical use, namely appetite suppressant pills and capsules, allergy capsules; chemical preparations for medical, pharmaceutical and veterinary use, namely chemical active ingredients, namely organic molecules, reagents, namely diagnostic biomarker reagents for medical purposes, diagnostic reagents for veterinary use, clinical diagnostic reagents, medical diagnostic reagents, reagents for use in medical genetic testing, reagents for use in veterinary genetic testing; medicated candy, namely gummy vitamins; stem cells for medical purposes; chemico-pharmaceutical preparations for the treatment of myopathies; diagnostic preparations for medical use, namely diagnostic preparations for medical laboratory use, in vitro diagnostic preparations for medical purposes; medicinal herbs for general health and well-being and for the treatment of pain; oils for medical use, namely almond oils for pharmaceutical purposes, castor oil for medical purposes, cod liver oil; lotions for pharmaceutical use, namely antibiotics in the form of lotions, massage lotions for pain relief; medicinal drugs for humans, namely analgesic drugs, pain relief medication, cardiotonics; micro-organism preparations for medical use for the diagnosis of autoimmune disease and inflammatory muscle diseases and disorders; chemical reagents for medical and veterinary use, namely diagnostic reagents for veterinary purposes and medical diagnostic reagents; diagnostic biomarker reagents for medical purposes; towelettes impregnated with pharmaceutical lotions for pain relief; human vaccines, veterinary vaccines; bacteriological culture media; nutrients for micro-organisms, namely yeasts, ferments, namely biological fermenting agents; preparations of micro-organisms, genetically modified organisms and cells for medical, pharmaceutical and veterinary use, in particular for gene therapy and cell therapy, namely preparations for detecting genetic predispositions for medical purposes, reagents for use in medical and veterinary genetic testing; kits for preparing cells and for selecting active biological compounds for medical use.

**Class 09**

(3) Scientific research apparatus and instruments for laboratory use, namely laboratory stirrers, automatic chromatography apparatus for laboratory use, laboratory baths, Petri dishes for laboratory use, laboratory centrifuges, incubators for laboratory use, laboratory test tubes, laboratory flasks, laboratory ovens, laboratory incubators, laboratory instrument sterilizers; photographic, cinematographic, optical, weighing, measuring, signalling, checking, supervision, life-saving, rescue and teaching apparatus and instruments, namely laboratory thermometers, laboratory scales and balances, microscopes, reflectors for microscopes, lenses for microscopes, microscope lamps, cameras, range finders for cameras, movie projectors, optical scanners, optical multiplexers, life jackets; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely electric accumulators, electric cables and wires, electrical circuits, electric current converters, electrical fuses, electric control panels, electric transformers; apparatus and media for recording, storing, disseminating, retrieving, transmitting and reproducing sounds, images, text, information, data and computer code, namely DVD recorders, video tape recorders, CD-ROM players, compact disc players, USB card readers, DVD players, hard drives for computers; apparatus for recording, transmitting, reproducing sound and images, namely video tape recorders, compact disc players, optical disc players, intelligent video disc players; magnetic data carriers, namely blank magnetic discs, blank magnetic tapes for tape recorders, recording discs; exposed film, blank video tapes and pre-recorded video tapes featuring music, video game cartridges, blank audio and video cassettes, blank audio-video compact discs, blank CD-ROMs, blank DVD-ROMs, audio and video cassettes, audio/video compact discs, CD-ROMs and DVD-ROMs, all pre-recorded with films, documentaries, reports and images, namely photographs, related to genetic and cellular diseases, the treatment thereof, research and manufacture relating to drugs for fighting these diseases; music, sounds, images, texts, signals, information, data provided by telecommunications network via online dissemination through the Internet, namely downloadable music, downloadable video recordings featuring music, sounds, namely downloadable podcast files featuring radio programs, images, namely downloadable images for mobile telephones, text, namely downloadable electronic newspapers, downloadable e-books, signals, namely radio signal tuners, information in the field of myopathy; data processing equipment, namely speakers, computer printers, computer scanners, mobile telephones and smart phones, keyboards and computer screens and computers, computer software for use in the health field, namely medical imaging software, software for dosimetry purposes in the field of radiotherapy, cancer screening software, database management software, virtual reality software for doctors to perform test surgery; apparatus for non-medical analysis, namely chromatography apparatus for laboratory use.

**Class 10**

(4) Surgical, medical, dental and veterinary apparatus and instruments, namely dental and medical X-ray apparatus, medical and surgical knives and cutters for cutting human or animal tissue and organs, surgical catheters, surgical clamps, surgical instruments for dentistry, medical and surgical laparoscopes, surgical perforators, medical, surgical and orthopedic implants made of artificial materials, medical apparatus for facilitating the inhalation of pharmaceutical preparations, rigid and flexible medical endoscopes, medical instruments for general examination, lasers for medical use, thermometers for medical use; orthopedic articles, namely orthoses for the hands and foot, orthotic inserts for footwear, orthopedic braces, orthopedic joint bandages, orthopedic belts, orthopedic corsets, templates for orthopedic purposes, orthopedic screws, orthopedic bone implants, orthopedic hip prostheses, orthopedic soles; artificial limbs, eyes and teeth; suture materials;

diagnostic and monitoring apparatus and devices for medical use, namely magnetic resonance imaging (MRI) diagnostic apparatus, ultrasonic medical diagnostic apparatus, X-ray apparatus; bracelets for medical use, namely magnetic bracelets for medical use, anti-rheumatism bracelets.

### **Class 16**

(5) Printed matter, namely flyers, catalogues, brochures; personal planners; posters; albums; almanacs; stationery, namely notebooks, drawing pads, pencils, pens, stationery stickers, office stationery, stationery sleeves, document portfolios; notepads; stationery, namely pads; paper boxes; purchase orders; brochures; advertising brochures; workbooks; calendars; notebooks; business cards; greeting cards; postcards; cartons, namely boxes; catalogues; calendars; printed certificates; document folders; circulars; office requisites, namely binders; cardboard packaging; pamphlets; plastic packaging; printed emblems; paper and cardboard signboards; stationery, namely envelopes; paper labels; stationery, namely note cards; forms; erasers; printed guides; writing instruments; newspapers; newsletters; books; booklets; manuals; instructional manuals for teaching; operation manuals; instructional and teaching materials, except apparatus, namely manuals and books; magazines; printed matter, namely photographs; paper and plastic sleeves for packaging; directories; periodicals, namely journals; paper and plastic bags for packaging; admissions, namely tickets; desk pads.

### **Services**

#### **Class 35**

(1) Advertising, namely advertising services for the goods and services of others, advertising for others on the Internet; business management; business administration; office functions, namely secretarial and clerical services; medical and pharmaceutical advice and information in the fields of business and business management; business management consulting; market studies; sales promotion for others in the medical and pharmaceutical fields, namely promotion of the sale of goods and services through the distribution of advertising materials and promotional contests, promotion of goods and services through the distribution of discount cards, sales promotion for others through the distribution and administration of privileged user cards; organization of exhibitions for commercial and advertising purposes in the medical and pharmaceutical fields; product demonstration, namely sales demonstration for others; dissemination of advertisements for others; dissemination and distribution of samples; computer file management; business information and consulting provided to consumers on the topic of customer service as well as management and prizes related to pharmaceutical and veterinary preparations; presentation of goods for others on any means of communication, namely via the Internet, for the retail of pharmaceutical preparations, products and goods; publishing of advertising copy; online advertising for others on a computer network, namely the Internet; preparation of statistics; retail and wholesale services for pharmaceutical, veterinary and hygienic preparations and products as well as medical supplies; business administration of licences for the goods and services of others.

#### **Class 38**

(2) Broadcasting of television programs; broadcasting of radio programs; broadcasting and transmission of television programs and radio programs; digital audio broadcasting, namely broadcasting of television and radio programs; transmission and dissemination of audiovisual and multimedia content, namely music, films, news, video clips, via the Internet; telecommunications, namely bundled telecommunications services enabling the use of cellular telephones, voice mail, and call forwarding between wired and wireless services, operation of a wide area network (WAN) for telecommunications; electronic messaging, namely electronic mail and messaging services; communication services through computer terminals, namely personal communication services, video conferencing services; computer-assisted transmission of text messages and still and

animated images, namely digital photographs, documentaries, via the Internet; news agencies; transmission of information in the field of pharmaceutical preparations via computer, namely through global computer networks and the Internet; provision of user access to information on the Internet, namely provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; provision of access to electronic transaction, communication and information platforms on the Internet as well as on mobile Internet, namely electronic transmission of credit card transaction data and electronic payment data via a global computer network; transfer, dissemination and transmission of data and information about pharmaceutical products through global computer networks and the Internet; teleconferencing and videoconferencing services; telecommunications, namely electronic display services, namely provision of online electronic bulletin boards for the transmission of messages among computer users; provision of access to Internet platforms for sharing information among users in the fields of imaging and physiology; sending, receiving and forwarding of electronic messages, namely text messages, via telephone and electronic mail; provision of access to Internet platforms for the sharing of information between users in the field of myopathy; provision of access to electronic medical publications via the Internet; provision of chat rooms and discussion forums on the Internet; text and voice messaging services, wireless digital messaging services, messaging services provided via radio and television and electronic mail; transmission of multimedia content, namely music, video clips, still and animated images, namely digital photographs, documentaries, via the Internet; transmission of data, namely text messages, multimedia files, namely video clips and audio clips containing music, namely downloadable and streamed files provided on a global computer network containing information in the medical, pharmaceutical and veterinary fields; transmission of images, namely digital photographs, and information on pharmaceutical products, in the field of medicine for the treatment of myopathies and in the field of hygiene for the health sector through computer database and via the Internet.

### **Class 39**

(3) Collection, storage and delivery of medical samples; loading, packaging, storage, transport of goods by airplane, by train, by boat, by truck and unloading of pharmaceutical, medical and veterinary preparations; shipment of goods, namely freight forwarding services; delivery of goods by airplane, by truck, by train; handling of goods, namely cargo handling, import-export freight handling services; logistic services consisting of services for the transport of goods by airplane, by train, by boat, by truck, and for the packaging and storage of goods; private messaging services.

### **Class 40**

(4) Processing and transformation of products in the medical, pharmaceutical and veterinary fields, namely heat treatment of surgical instruments, retrieval of expired drugs; manufacture, for others, of pharmaceuticals, products in the medical field, veterinary preparations and hygienic products.

### **Class 41**

(5) Education and training services in the field of health, namely classes, seminars, professional training in the medical, pharmaceutical and veterinary fields with respect to gene and cell therapy; organization of seminars, conventions and conferences in the health sector, namely in the medical, pharmaceutical and veterinary fields with respect to gene and cell therapy; publishing of clinical trial results for pharmaceutical preparations; publishing of journals, books and guides in the field of health; online provision of non-downloadable videos in the medical, pharmaceutical and veterinary fields with respect to gene and cell therapy; organization of cultural or educational exhibitions in the field of health, namely in the medical, pharmaceutical and veterinary fields with respect to gene and cell therapy; online publishing of electronic books and journals in the field of general health.

### **Class 42**

(6) Scientific and technological services as well as research and design services related thereto, namely research and development of pharmaceutical preparations, research and development of vaccines and medicines, development of pharmaceutical preparations and medicines, evaluation of new inventions, pharmaceutical product evaluation; industrial analysis and research services in the health sector, namely bacteriological research and analysis, biochemical research and analysis; scientific evaluation, estimation and research services, namely in the medical, pharmaceutical and veterinary fields with respect to gene and cell therapy; scientific study of pharmaceutical and medical data, namely scientific research in the fields of genetics and genetic engineering; scientific laboratory services, namely chemical laboratories; consultant services in the field of pharmaceutical research; services research and development of pharmaceutical, veterinary and hygienic preparations for others; quality control of pharmaceutical preparations with respect to gene and cell therapy; conduct of early evaluations in the field of new pharmaceuticals; provision of information related to medical and scientific research; basic and applied research in the medical and pharmaceutical fields, namely medical research, pharmaceutical research services, research related to pharmaceutical preparations; technical research, namely biomedical research services, physics research, research in the field of biochemistry and chemistry, bacteriological research; molecule sorting and selection, namely for the development and manufacture of AAV (Adeno-Associated Virus) vectors and lentiviral vectors; development and validation of bioassays, cellular assays and genetic assays; functional genomics research services, for identifying, characterizing, validating and developing biologically active molecules; expert assessments, namely engineering work related to chemical engineering and genetic engineering; technical project study in the field of pharmaceutical research regarding gene and cell therapy; design and development of computers and computer software; development, design, installation, maintenance, updating and rental of computer software; computer programming; computer consulting, namely consultant services related to computer hardware design and development; conversion of computer programs and data (other than physical conversion); conversion of documents from physical to electronic media; electronic data storage, namely provision of cloud computing for data storage; clinical analyses and studies; clinical trials; pharmaceutical engineering work.

#### **Class 44**

(7) Medical and pharmaceutical information services, namely provision of information related to health emergencies by telephone, provision of information to patients in the field of administering medications, provision of information related to nursing services; provision of pharmaceutical information; health services, namely mental health services, physiotherapy, dispensing of advice related to nutrition, psychologist services, massage therapy; medical services, namely medical laboratory services, medical clinics, medical care and analysis services relating to patient treatment, nursing services, medical home care services, medical testing, medical testing for diagnostic or treatment purposes, hospital services; veterinary services; hygienic and beauty care for humans and animals, namely beauty salons, animal grooming services; medical assistance, namely emergency medical assistance; cosmetic surgery; hospital services; pharmaceutical and health consulting in the field of gene and cell therapy; telemedicine services; therapeutic services, namely bodywork therapy, psychotherapy; professional consultations unrelated to the conduct of business in the field of scientific research and therapies, namely consulting in the fields of biochemistry, biotechnology and bacteriology.

#### Class 09

(1) Spectacles and spectacle frames; optical glasses; sun glasses; earphones; headphones; audio speakers; handheld computers; tablet computers; laptop computers; personal digital assistants; electronic organizers; electronic note pads; cameras; USB flash drives; stylus pens for use with touch screens; binoculars; operaglasses; multifunctional electronic devices that enable the user to measure, track, analyze, display, upload and transmit data related to physical activity, fitness, general health, exercise and wellness, namely smartwatches; electronic clothing accessories that enable the user to measure, track, analyze, display, upload and transmit data related to physical activity, fitness, general health, exercise and wellness, namely wearable activity trackers; wearable electronic accessories namely, smartwatches, smart glasses, smart rings, wearable computers and electronic bracelets that enable the user to measure, track, analyze, display, upload and transmit data related to physical activity, fitness, general health, exercise and wellness; multifunctional electronic devices, namely, computers, and digital tablets, for receiving, storing and /or transmitting of data and messages via the Internet; multifunctional electronic devices that enable the user to keep track of or manage personal information, namely electronic agendas; wearable devices, namely wearable computers and wearable video display monitors; global positioning system (GPS) devices, namely, global positioning system (GPS) receivers, satellites, and transmitters; wearable activity trackers; smartwatches; electronic watchbands that communicate data to other electronic devices, namely, smartwatches, handheld computers, computers, laptop computers, tablet computers, personal digital assistants, electronic organizers, electronic note pads, cameras, smart glasses, wearable activity trackers; smart glasses; smartbands, namely, wearable computers for your wrist; smart bracelets, namely, electronic bracelets used as wearable activity trackers; connected bracelets (measuring instruments), namely, measuring tapes; calorie meters, namely, software for calculating, recording, and measuring meals, food and caloric intake; electronic heart rate recorders (other than for medical use); pedometers; altimeters; USBcompatible data storage devices, namely, blank USB cards, blank USB flash drives; battery chargers, namely, battery chargers for cell phones, handheld computers, laptop computers, tablet computers, personal digital assistants, electronic organizers, electronic note pads, cameras, smart glasses, and wearable activity trackers; external batteries for use with cell phones, handheld computers, laptop computers, tablet computers, personal digital

assistants, electronic organizers, electronic note pads, cameras, smart glasses, and wearable activity trackers; bags, cases and covers for spectacles, optical glasses, sunglasses, earphones, headphones, handheld computers, tablet computers, laptop computers, personal digital assistants, electronic organizers, electronic note pads, USB flash drives, stylus pens for use with touch screens, binoculars, operaglasses, smart glasses, and wearable activity trackers; cases especially made for photographic apparatus and instruments, namely bags for cameras and photographic equipment; cell phone straps; eyeglass chains; downloadable electronic publications in the nature of magazines, electronic newsletters, electronic newspapers; downloadable music files; audio and video recordings featuring music and artistic performances, namely, music clips, films, video clips, music videos, movies; television apparatus, namely, televisions

#### **Class 14**

(2) Jewellery made of precious metal or coated therewith; natural and synthetic precious stones; gemstones; horological and chronometric instruments, namely, clock and watch hands, faces for watches; genuine and costume jewellery; ornaments (jewelry), namely, ornamental pins; necklaces; earrings; bracelets; jewelry rings; brooches; bangles; charms for jewelry; pendants; chains of precious metals; locket; cuff links; medallions; key chains of precious metal; small items of jewellery of glass, natural or artificial precious stones, plastic, common or precious metal for personal use; watches and clocks and their parts; jewelry travel rolls; jewelry pouches

#### **Class 18**

(3) Trunks and travelling bags; umbrellas; parasols; walking sticks; bags, namely, baby changing bags, clutch bags, canvas bags for shopping, drawstring bags, duffel bags; handbags; suitcases; purses; sponge bags; pouches, namely, waist pouches, drawstring pouches; wallets; cases, namely, beauty cases, business card cases, key cases, cosmetic cases; key chains, namely, wallet fobs; book bags; athletic bags; bags for manicure sets sold empty; tote bags; toiletry bags sold empty; jewelry pouches; felt pouches; pouches for holding keys; attache cases; clothing for animals; pet collars, covers for animals, namely, saddle covers, bags for carrying animals; muzzles, namely animal muzzles; all of the aforementioned goods also made from leather and imitation of leather, namely, leather and imitation of leather trunks and travelling bags, umbrellas, parasols, walking sticks, bags, namely, baby changing bags, clutch bags, canvas bags for shopping, drawstring bags, duffel bags, handbags, suitcases, purses, sponge bags, pouches, namely, waist pouches, drawstring pouches, wallets, cases, namely, beauty cases, business card cases, key cases, cosmetic cases, key chains, namely, wallet fobs, book bags, athletic bags, bags for manicure sets sold empty, tote bags, toiletry bags sold empty, felt pouches, pouches for holding keys, attache cases, clothing for animals, collars for animals, dog collars, covers for animals, namely, saddle covers, bags for carrying animals, muzzles, namely animal muzzles

#### **Class 25**

(4) Clothing, namely business clothing, children's clothing, baby clothing, dress clothing; footwear, namely, casual footwear, evening footwear, beach footwear, children's footwear, athletic footwear; headgear, namely, hats; trousers; jumpers; knitwear, namely, knit hats, knit jackets, knit shirts, knit skirts, knit tops, knitted gloves, knitted sweaters; shirts; T-shirts; scarves; belts; muffs, namely fur muffs; gloves; stockings, namely, nylon stockings, knee-high stockings, body stockings, socks and stockings; neckerchiefs; ties; jackets; blazers; coats; hats; caps (headwear); headbands (clothing); jeans; blouses; women's clothing, namely, women's blouses, bathing costumes for women, coats for women, women's lingerie, women's shirts, women's suits, women's pants; pullovers; knit jackets; knit dresses; knit shirts; shawls; tights; neckties; parkas; ear muffs; dresses; lingerie; socks; skirts; dancewear, namely, tutus, dresses, hot pants, athletic tights; leotards; dancing shoes; dancing dresses and dance costumes, namely, folk costumes, latex costumes,

masquerade costumes, theatrical costumes; swimwear; aprons; braces for clothing (suspenders); collars (clothing); dress gowns; saris; sarongs; slippers; vests; waistcoats

## Services

### Class 35

(1) Services related to e-commerce, namely, online sales through a website on which the user can see, search and buy different types of products, services for third parties involving the bringing together of different types of products enabling the consumers to conveniently view and purchase those goods online, namely, promoting the goods and services of others through advertisements on Internet websites and online department store services, online wholesale and retail store services, all the aforementioned services featuring jewellery, watches, clothing, clothing accessories, namely ties, belts, suspenders, shawls, muffers, gloves, scarves, headgear, footwear, fashion accessories, namely sunglasses, hand bags, purses, hair bands, hair ornaments, umbrellas and parasols, textiles, cosmetics, perfumery, hygiene and beauty products, namely, dentifrices, lens cleaner solution for optical lenses and eyewear, deodorants for personal use, toilet soaps, shower gels and shampoos, hair lotions, makeup, cosmetic cleansing creams and lotions, nail care preparations, spectacles and spectacle frames, optical glasses, sun glasses, earphones, headphones, consumer electronics, namely handheld game consoles and portable loudspeakers, audio speakers, handheld computers, tablet computers, laptop computers, personal digital assistants, electronic organizers, electronic note pads, cameras, USB flash drives, stylus pens for use with touch screens, binoculars, opera-glasses, wearable digital electronic communication devices, global positioning system (GPS) devices, wearable activity trackers, smartwatches, watchbands that communicate data to other electronic devices, smart glasses, smartbands, smart bracelets, connected bracelets (measuring instruments), calorie meters, electronic heart rate recorders [other than for medical use], pedometers, altimeters, blank USB flash drives, blank USB cards, battery chargers, electrical storage batteries, cellular phone batteries, cellular phone chargers, and bags, cases and covers for all of the foregoing goods, cases especially made for photographic apparatus and instruments, carrying cases, leather goods, handbags and all manner of bags, trunks and suitcases, umbrellas, products and accessories for animals and for their transportation namely, animal halters, animal bedding, animal leashes, animal muzzles, harnesses for animals, bags for carrying animals, clothing for animals, collars for animals, covers for animals, decorative objects, namely figurines, vases, candelabra, hollow bodies of plastics, in particular bottles, crockery, dishes and napkin rings, flasks, knives, knife rests, tableware, table utensils of glass, mugs, bottles, glasses, fruit cups, soap holders, basting ladles and glass jars, combs and bath sponges, hair brushes, make-up brushes and nail brushes, glassware, glass candle holders, candlesticks, candle rings, glass animals figures, boxes of glass, salt and pepper shakers decorated with glass, teapots, coffee pots, and cake stands, decorative craft objects, namely ceramic figurines, figurines of crystal, earthenware, glass or porcelain, hollow body statues of earthenware, crockery, pots, dishes, drinking cups and saucers, bowls, serving bowls and trays, dishes and serving platters, goblets, perfume vaporizers sold empty, chopsticks, clothes-pegs, coasters, cocktail stirrers, cookie jars, corkscrews, decanters, dish covers, flower pots, ice buckets, napkin holders, napkin rings, piggy banks, towel rails and rings, trays for domestic purposes, mirrors, picture frames, furniture, tablecloths and tableware, bedding, pillows, carpets, fabrics, blankets, shower curtains, chandeliers, chandelier decorations, lighting units, light installations, articles for the sport, namely sports clothing, sports headgear [other than helmets], helmets, sports footwear, eye protection wear for sports, body protectors for sports use, writing instruments, books, diaries, exercise books, magazines, calendars, stationery, photographs, articles for the interior decoration, namely interior decoration fabrics, board games, computer games, card games, toys, Christmas decorations, holiday decorations, festive decorations, works of art, cars,

bicycles, downloadable music files, audio and video recordings featuring music and artistic performances, printed publications in the field of jewelry, beauty, gemstones, crystal glass, fashion, the arts, architecture, lighting, furniture, and interior decor, printed publications in the fields of optical lenses and optical glass, downloadable electronic publications in the field of jewelry, beauty, gemstones, crystal glass, fashion, the arts, architecture, lighting, furniture, and interior decor, downloadable electronic publications in the fields of optical lenses and optical glass; provision of an on-line marketplace for buyers and sellers of goods and services, namely, operating marketplaces; presentation of goods on communication media, for retail purposes, namely, providing a searchable online advertising guide featuring the goods and services of other online vendors on the Internet; sales promotion for others, namely, promoting the goods and services of others through advertisements on Internet websites, infomercials, and promotional contests; organization of fashion shows for promotional purposes; the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), to enable consumers to conveniently view and purchase those goods, namely, advertising the goods and services of others; organization and administration of customer loyalty and sales promotion incentive award programs; sponsorship (promotion and marketing services), namely promoting the goods and services of others by arranging for sponsors to affiliate their goods and services with community social events; provision of information and advisory services related to e-commerce

**Class 40**

(2) Decoration services (treatment of materials), namely decorating objects made of metal, stone, plastic, glass, semi-precious stones or textile with glass gemstones

Software to allow users to perform electronic business transactions via a global computer network; software for use in development of multichannel marketing strategies and concepts for others; software for website development, billing and payment processing systems, database management, customer relations management, sales and customer tracking, mobile app development, booking and reservation systems all for restaurant reservations, hotel, campground, vacation, boarding house, serviced apartment, and vacation apartment reservations, concert bookings, booking of seats for shows, theater tickets, sports events, water parks, orchestra, opera, ballet, amusement parks, automobile races, beauty pageants, fireworks displays, live theatrical and musical performances, seats for travel, massage appointments, beauty salon appointments, appointments with lawyers, accountants, financial advisors, marketing advisors, sales advisors, organization process advisors, real estate advisors, sports advisors, energy saving advisors and security advisors, video conferencing appointments, and in the medical field for scheduling patient appointments, patient tracking, record keeping and for multichannel office communications, namely text messages, voice messages, email, app push notifications, web push notifications, social channels, conference calls, polls and custom channels; application programming interface (API) software that enables developers to build software applications for use in the retail and e-commerce industry; computer software for assisting developers in creating program code for use in multiple application programs for designing, creating hosting, modifying, maintaining and updating websites and webpages for others; computer hardware and computer operating systems for designing, creating, hosting, modifying, maintaining and updating websites and web pages for others, and interactive computer software applications to communicate via text, voice, email, app push notifications, web push notifications, social channels, conference calls, polls, and custom channels, mobile devices, namely, mobile phones, cellphones, laptop computers, tablet computers, and social media sites; computer software for use in online managing and scheduling of appointments, events, and reservations

**Services****Class 35**

(1) Business marketing consultation; business management and marketing consultation; business management services for online stores; business management services relating to information and data compiling and analyzing

**Class 42**

(2) Consulting services in the field of cloud computing; consulting services in the field of software development tools and applications for designing and creating websites, web pages and interactive applications; providing consultation services in the field of website development; consulting services in the fields of implementation and use of computer software systems for web-based customer relationship management software; providing software for use by others to customize, design, edit, modify, maintain and update websites, web pages and interactive computer software applications, on a global computer network, mobile devices, namely, mobile phones, cellphones, laptop computers, tablet computers, and social media sites; providing cloud based platforms in the field of electronic business transactions, providing multichannel marketing strategies and concepts for others, website development, database management, customer relations management, sales and customer tracking, mobile app development, booking and reservation systems for restaurant reservations, hotel, campground, vacation, boarding house, serviced apartment, and vacation apartment reservations, concert bookings, booking of seats for shows, theater tickets, sports events, water parks, orchestra, opera, ballet, amusement parks, automobile races, beauty pageants, fireworks displays, live theatrical and musical performances, seats for travel, massage appointments, beauty salon appointments, appointments with lawyers, accountants, financial advisors, marketing advisors, sales advisors, organization process advisors, real estate advisors, sports advisors, energy saving advisors and security advisors, video conferencing appointments, and in the medical field for scheduling patient appointments, patient tracking, record keeping and multichannel office communications, namely, text messages, voice messages, email, app push notifications, web push notifications, social channels, conference calls, polls, and custom channels; software as a service provider in the field of database management, sales and customer tracking and customer relations management; hosting a website for managing and scheduling online appointments

#### Class 09

Computer hardware; data processing computer software for developers and data scientists to use in executing their machine learning and artificial intelligence applications; computer software for cloud computing, namely computer operating software for accessing and using a cloud computer network; computer software for virtualization, namely software for creating and providing access to virtual computer desktops; computer software for managing and deploying virtual machines, namely virtual computers, to a cloud computing platform; computer software for cloud infrastructure management and automation; computer software facilitating the execution of cloud computing based applications; computer software for hosting cloud computing networks and applications; computer software that provides third-party access to cloud-based scalable computing resources and electronic data storage; computer software for monitoring cloud and application performance, namely software that gathers and analyses performance metrics of cloud computing networks and applications based on responses to periodic status requests; computer software for event logging, reporting, analysis and alert generation to provide information about computer network traffic and usage; computer software for enabling businesses to collect, edit, modify, organize, synchronize, integrate, monitor, transmit, store and share business-related and scientific data and information generated and selected by its users; computer software that enables users to stream data, desktops and applications from and to a cloud computing network via the Internet; computer software for data backup, recovery and archiving; computer software for data transfer and migration; computer software for data protection and data security; computer software for data warehousing; database management software; computer software for creating, configuring, provisioning and scaling databases; computer software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to user-generated and user-selected data stored within the cloud; computer software for logging changes within a database; computer software for improving database performance; computer software for configuring, provisioning and scaling data cache storage for databases; computer software for computer network management, and for the automation of storage, retrieval, caching, extraction, formatting, structuring, systematizing, organization, indexing, processing, querying, analysis, replication, and access control to user-generated and user-selected data stored within the cloud; computer software for monitoring of

suspicious and abnormal patterns of computer network access and activity; computer user authentication software, namely computer software that facilitates multi-factor authentication to manage user access to computers and computer networks; cryptography software, namely software for encrypting or decrypting data for the purpose of preventing third party access; computer software for monitoring, tracking, logging, analyzing, auditing and reporting of data gathered by businesses to ensure their compliance with regulatory standards and information security requirements; computer software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; computer network security software; network threat detection software; network access management and monitoring software; computer search engine software; computer software for searching third party databases; computer software for creating searchable databases of information and data; business intelligence software, namely software for collecting and analyzing business data and preparing business intelligence reports therefrom; computer software that provides real-time, integrated business management intelligence reports by combining information from various databases as defined by the user; business analytics software for collecting and analyzing business-specified data to facilitate business decision making; computer software for use in big data analysis, namely software for enabling users to examine their large and varied data sets to uncover patterns, correlations, market trends, and customer preferences; computer software that automates the processing of un-structured, semi-structured and structured user-generated and user-selected information and data gathered from the web, business-specific software applications, and IoT operating systems, and stored on computer networks and the Internet to enable users to gain insight into their applications, their users, and their businesses; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software for operating and managing call centers and contact centers, namely software that enables users to view and customize real-time and historical operational data of customer calls and customer interactions for the purpose of increasing productivity, reducing wait time, and identifying trends; computer software platform for providing customer service and customer support, namely software that enables users to create contact flows for customer interactions, incorporate intelligent conversational bots into contact flows, record and transcribe customer interactions, route customer inquiries according to agent skill set, and schedule and make automated outbound calls; computer software for speech, facial and optical character recognition; computer software for converting text to speech; computer software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; computer software that enables users to securely stream videos to the cloud and for high-speed formatting and processing of user-generated and user-selected audio and video streams; computer software that enables users to deploy their own live and on-demand video content; computer software for provisioning and dynamically scaling video processing, delivery, and storage services, to enable users to create video-on-demand content for broadcast and multiscreen delivery at scale; computer software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate user-generated and user-selected digital video, image and audio files; computer software for inserting and removing advertisements into video streams; computer software for digital rights management, namely software that encrypts copyrighted works, encodes them with additional information about ownership and permitted use, and secures the copyrighted works from tampering and unauthorized use by third parties; computer software for time-shifted television viewing; game software, namely computer software for creating computer and video games; game engine software for video game development and operation; computer software to manage, connect, and operate internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles,

home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, consumer appliances, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; computer software that enables users to configure different types of cloud-connected electronic devices, to enable them to operate and communicate with one another locally while retaining the benefits of analytics and high-level services in the cloud, namely computer software that enables users to program cloud-connected electronic devices to run local compute, messaging, data caching, sync and machine learning inference capabilities securely, and enabling users to create software for the electronic devices within the cloud, deploy the software to the cloud-connected electronic devices, and to filter local data gathered by the electronic devices and transmit only necessary information to the cloud; computer software development tools for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; software development kits (SDK) for developing software for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; computer software for assisting software developers in creating program code to develop, test, deploy and manage computer software applications; computer software for managing software development projects and teams, namely software that enables users to manage access to the software development team and to add owners, contributors, and viewers to the project

## **Services**

### **Class 35**

(1) Business management consulting; business consulting services in the field of computer technology and cloud computing; business consulting services in the field of enterprise architecture; business risk management consultation; compilation and systemization of information into computer databases; database management services; business records management; business data analysis, namely statistical analysis and reporting services for business purposes; data processing services, namely, providing managed database services, data migration services, data warehousing services, and an in-memory caching system; trade show management services, namely managing educational trade shows featuring product and service information pertaining to the web services industry and the cloud computing industry; conducting and arranging educational trade show exhibitions for developers in the fields of computer technology, cloud computing, web services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); computerized on-line ordering featuring computer software developer tools and cloud computing software and services; providing an on-line marketplace for buyers and sellers of goods and services; domain name directory services; message and conference call transcription services

### **Class 38**

(2) Streaming of data, namely streaming desktop applications from the cloud to a computer; streaming of software applications; providing data streaming capacity to others; streaming of user-

generated and user-selected audio and video material on the Internet; video-on-demand transmission; providing access to telecommunication networks, namely a global computer network and the Internet; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to computer software in global computer networks; providing access to remotely hosted operating systems and computer applications through the internet; providing multiple user access to cloud based computing resources and storage; providing access to user-generated and user-selected databases; providing virtual private network (VPN) services; telephone communications, namely communication by telephone, video telephone services, and cellular telephone communication; long distance telephone communication services; voice over Internet protocol (VOIP) services; web conferencing services; call routing services; providing voice chat services; providing internet chat rooms; transmission of text messages; providing on-line forums for transmission of messages among computer users; call recording services; telecommunications consultation, namely consultation in the field of the provision of telecommunication services for others

#### **Class 41**

(3) Education services, namely, conducting educational seminars, classes, workshops and conferences for developers in the fields of computer technology, cloud computing, web services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); online journals, namely, blogs featuring educational information for developers in the fields of computer technology, cloud computing, web services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); providing online computer games; providing educational information for developers in the fields of information technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT)

#### **Class 42**

(4) Cloud computing web hosting services; computer services, namely, cloud hosting provider services; web hosting of digital content on the Internet; cloud hosting of electronic databases and virtual computing environments; server hosting, namely providing remote access to computer server resources; computer time-sharing services; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, providing virtual application, web, file, database and storage servers of variable capacity to others; scaling services, namely, providing variable computing and electronic storage capacity to others; administering and maintaining databases and virtual computing environments for others; electronic data storage, namely cloud computing provider services for general storage of data; rental of space in a computer co-location facility for containerized data centers of others; Application service provider (ASP), namely, hosting computer software applications and databases of others; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases and cloud computing environments for others; computer software rental; consulting for developers in the fields of computer technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer

networking, mobile computing, and the Internet of Things (IoT); planning, design and implementation of computer software and cloud computing services for others; design and development of software, databases, web services and cloud computing infrastructure; software configuration management services; data and application migration services; data mining services; data backup and data restoration services; remote online backup of computer data; data encryption and decryption services; data warehousing; technical support services, namely, troubleshooting of computer software problems; computer services, namely, monitoring the web sites of others to improve their scalability and performance; computer services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; providing search engines for the internet and private computer networks for obtaining data via communications networks; computer services, namely, creating indexes of computer network-based third party information, sites, and other third party information resources available on global computer networks for others; dedicated IP address hosting for others; domain name server (DNS) services for others, namely, providing access to computer servers for electronic storage of domain name addresses and resolution of domain name address requests; computer network security services, namely intrusion detection and protection; computer services, namely, web traffic filtering; computer services, namely, providing virtual data storage and caching to others; computer services, namely cloud hosting of virtual desktops and applications; cross-platform conversion of digital content into other forms of digital content, namely document data conversion from one media to another; digital compression of computer data; hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); software as a service (SaaS), namely data processing software for developers and data scientists to use in executing their machine learning and artificial intelligence applications; software as a service (SaaS) featuring software for cloud computing, namely computer operating software for accessing and using a cloud computer network; software as a service (SaaS) featuring software for virtualization, namely software for creating and providing access to virtual computer desktops; software as a service (SaaS) featuring software for managing and deploying virtual machines, namely virtual computers, to a cloud computing platform; software as a service (SaaS) featuring software for cloud infrastructure management and automation; software as a service (SaaS) featuring software facilitating the execution of cloud computing based applications; software as a service (SaaS) featuring software platforms for cloud computing networks and applications; software as a service (SaaS) featuring software that provides access to cloud-based scalable computing resources and data storage; software as a service (SaaS) featuring software for monitoring cloud and application performance, namely software that gathers and analyses performance metrics of cloud computing networks and applications based on responses to periodic status requests; software as a service (SaaS) featuring software for event logging, reporting, analysis and alert generation to provide information about computer network traffic and usage; software as a service (SaaS) featuring software for enabling businesses to collect, edit, modify, organize, synchronize, integrate, monitor, transmit, store and share business-related and scientific data and information generated and selected by its users; software as a service (SaaS) featuring software that enables users to stream data, desktops and applications from and to a cloud computing network via the Internet; software as a service (SaaS) featuring software for data backup, recovery and archiving; software as a service (SaaS) featuring software for data transfer and migration; software as a service (SaaS) featuring software for data protection and data security; software as a service (SaaS) featuring software for data warehousing; software as a service (SaaS) featuring database management software; software as a service (SaaS)

featuring software for creating, configuring, provisioning and scaling databases; software as a service (SaaS) featuring software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to user-generated and user-selected data stored within the cloud; software as a service (SaaS) featuring software for logging changes within a database; software as a service (SaaS) featuring software for improving database performance; software as a service (SaaS) featuring software for configuring, provisioning and scaling data cache storage for databases; software as a service (SaaS) featuring software for computer network management, and for the automation of storage, retrieval, caching, extraction, formatting, structuring, systematizing, organization, indexing, processing, querying, analysis, replication, and access control to user-generated and user-selected data stored within the cloud; software as a service (SaaS) featuring software for monitoring computer network access and activity; software as a service (SaaS) featuring user authentication software, namely software that facilitates multi-factor authentication to manage user access to computers and computer networks; software as a service (SaaS) featuring cryptography software, namely software for encrypting or decrypting data for the purpose of preventing third party access; software as a service (SaaS) featuring software for monitoring, tracking, logging, analyzing, auditing and reporting of data gathered by businesses to ensure their compliance with regulatory standards and information security requirements; software as a service (SaaS) featuring software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; software as a service (SaaS) featuring network security software; software as a service (SaaS) featuring network threat detection software; software as a service (SaaS) featuring network access management and monitoring software; software as a service (SaaS) featuring search engine software; software as a service (SaaS) featuring software for searching databases; software as a service (SaaS) featuring software for creating searchable databases of information and data; software as a service (SaaS) featuring business intelligence software, namely software for collecting and analyzing business data and preparing business intelligence reports therefrom; software as a service (SaaS) featuring software that provides real-time, integrated business management intelligence reports by combining information from various databases as defined by the user; software as a service (SaaS) featuring business analytics software for collecting and analyzing business-specified data to facilitate business decision making; software as a service (SaaS) featuring software for use in big data analysis, namely software for enabling users to examine their large and varied data sets to uncover patterns, correlations, market trends, and customer preferences; software as a service (SaaS) featuring software that automates the processing of un-structured, semi-structured and structured user-generated and user-selected information and data gathered from the web, business-specific software applications, and IoT operating systems, and stored on computer networks and the Internet to enable users to gain insight into their applications, their users, and their businesses; software as a service (SaaS) featuring e-commerce software to allow users to perform electronic business transactions via a global computer network; software as a service (SaaS) featuring software for operating and managing call centers and contact centers, namely software that enables users to view and customize real-time and historical operational data of customer calls and customer interactions for the purpose of increasing productivity, reducing wait time, and identifying trends; software as a service (SaaS) featuring software platforms for providing customer service and customer support, namely software that enables users to create contact flows for customer interactions, incorporate intelligent conversational bots into contact flows, record and transcribe customer interactions, route customer inquiries according to agent skill set, and schedule and make automated outbound calls; software as a service (SaaS) featuring software for speech, facial and optical character recognition; software as a service (SaaS) featuring software for converting text to speech; software as a service (SaaS) featuring software

for image analysis, identification, processing, conversion, cropping, resizing and enhancement; software as a service (SaaS) featuring software that enables users to securely stream videos to the cloud and for high-speed formatting and processing of user-generated and user-selected audio and video streams; software as a service (SaaS) featuring software that enables users to deploy their own live and on-demand video content; software as a service (SaaS) featuring software for provisioning and dynamically scaling video processing, delivery, and storage services, to enable users to create video-on-demand content for broadcast and multiscreen delivery at scale; software as a service (SaaS) featuring software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate user-generated and user-selected digital video, image and audio files; software as a service (SaaS) featuring software for inserting and removing advertisements into video streams; software as a service (SaaS) featuring software for digital rights management, namely software that encrypts copyrighted works, encodes them with additional information about ownership and permitted use, and secures the copyrighted works from tampering and unauthorized use by third parties; software as a service (SaaS) featuring software for time-shifted television viewing; software as a service (SaaS) featuring game software, namely computer software for creating computer and video games; software as a service (SaaS) featuring game engine software for video game development and operation; software as a service (SaaS) featuring software to manage, connect, and operate internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, consumer appliances, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; software as a service (SaaS) featuring software that enables users to configure different types of cloud-connected electronic devices, to enable them to operate and communicate with one another locally while retaining the benefits of analytics and high-level services in the cloud, namely computer software that enables users to program cloud-connected electronic devices to run local compute, messaging, data caching, sync and machine learning inference capabilities securely, and enabling users to create software for the electronic devices within the cloud, deploy the software to the cloud-connected electronic devices, and to filter local data gathered by the electronic devices and transmit only necessary information to the cloud; software as a service (SaaS) featuring software development tools for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; software as a service (SaaS) featuring software development kits (SDK) for developing software for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; software as a service (SaaS) featuring software for assisting software developers in creating program code to develop, test, deploy and manage computer software applications; software as a service (SaaS) featuring software for managing software development projects and teams, namely software that enables users to manage access to the software development team and to add owners, contributors, and viewers to the project

**Class 45**

(5) Monitoring of computer systems and databases for security purposes; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access and activity; providing user authentication services for accessing a secure virtual computing environment; domain name registry services, namely, coordinating the registration of domain names for identification of users and internet protocol addresses on the internet; providing an online computer database in the field of domain name registration information; providing authentication services via online non-downloadable software for establishing and transmitting security credentials for domain name services

Computer hardware; data processing computer software for developers and data scientists to use in executing their machine learning and artificial intelligence applications; computer software for cloud computing, namely computer operating software for accessing and using a cloud computer network; computer software for virtualization, namely software for creating and providing access to virtual computer desktops; computer software for managing and deploying virtual machines, namely virtual computers, to a cloud computing platform; computer software for cloud infrastructure management and automation; computer software facilitating the execution of cloud computing based applications; computer software for hosting cloud computing networks and applications; computer software that provides third-party access to cloud-based scalable computing resources and electronic data storage; computer software for monitoring cloud and application performance, namely software that gathers and analyses performance metrics of cloud computing networks and applications based on responses to periodic status requests; computer software for event logging, reporting, analysis and alert generation to provide information about computer network traffic and usage; computer software for enabling businesses to collect, edit, modify, organize, synchronize, integrate, monitor, transmit, store and share business-related and scientific data and information generated and selected by its users; computer software that enables users to stream data, desktops and applications from and to a cloud computing network via the Internet; computer software for data backup, recovery and archiving; computer software for data transfer and migration; computer software for data protection and data security; computer software for data warehousing; database management software; computer software for creating, configuring, provisioning and scaling databases; computer software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to user-generated and user-selected data stored within the cloud; computer software for logging changes within a database; computer software for improving database performance; computer software for configuring, provisioning and scaling data cache storage for databases; computer software for computer network management, and for the automation of storage, retrieval, caching, extraction, formatting, structuring, systematizing, organization, indexing, processing, querying, analysis, replication, and access control to user-generated and user-selected data stored within the cloud; computer software for monitoring of

suspicious and abnormal patterns of computer network access and activity; computer user authentication software, namely computer software that facilitates multi-factor authentication to manage user access to computers and computer networks; cryptography software, namely software for encrypting or decrypting data for the purpose of preventing third party access; computer software for monitoring, tracking, logging, analyzing, auditing and reporting of data gathered by businesses to ensure their compliance with regulatory standards and information security requirements; computer software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; computer network security software; network threat detection software; network access management and monitoring software; computer search engine software; computer software for searching third party databases; computer software for creating searchable databases of information and data; business intelligence software, namely software for collecting and analyzing business data and preparing business intelligence reports therefrom; computer software that provides real-time, integrated business management intelligence reports by combining information from various databases as defined by the user; business analytics software for collecting and analyzing business-specified data to facilitate business decision making; computer software for use in big data analysis, namely software for enabling users to examine their large and varied data sets to uncover patterns, correlations, market trends, and customer preferences; computer software that automates the processing of un-structured, semi-structured and structured user-generated and user-selected information and data gathered from the web, business-specific software applications, and IoT operating systems, and stored on computer networks and the Internet to enable users to gain insight into their applications, their users, and their businesses; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software for operating and managing call centers and contact centers, namely software that enables users to view and customize real-time and historical operational data of customer calls and customer interactions for the purpose of increasing productivity, reducing wait time, and identifying trends; computer software platform for providing customer service and customer support, namely software that enables users to create contact flows for customer interactions, incorporate intelligent conversational bots into contact flows, record and transcribe customer interactions, route customer inquiries according to agent skill set, and schedule and make automated outbound calls; computer software for speech, facial and optical character recognition; computer software for converting text to speech; computer software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; computer software that enables users to securely stream videos to the cloud and for high-speed formatting and processing of user-generated and user-selected audio and video streams; computer software that enables users to deploy their own live and on-demand video content; computer software for provisioning and dynamically scaling video processing, delivery, and storage services, to enable users to create video-on-demand content for broadcast and multiscreen delivery at scale; computer software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate user-generated and user-selected digital video, image and audio files; computer software for inserting and removing advertisements into video streams; computer software for digital rights management, namely software that encrypts copyrighted works, encodes them with additional information about ownership and permitted use, and secures the copyrighted works from tampering and unauthorized use by third parties; computer software for time-shifted television viewing; game software, namely computer software for creating computer and video games; game engine software for video game development and operation; computer software to manage, connect, and operate internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles,

home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, consumer appliances, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; computer software that enables users to configure different types of cloud-connected electronic devices, to enable them to operate and communicate with one another locally while retaining the benefits of analytics and high-level services in the cloud, namely computer software that enables users to program cloud-connected electronic devices to run local compute, messaging, data caching, sync and machine learning inference capabilities securely, and enabling users to create software for the electronic devices within the cloud, deploy the software to the cloud-connected electronic devices, and to filter local data gathered by the electronic devices and transmit only necessary information to the cloud; computer software development tools for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; software development kits (SDK) for developing software for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; computer software for assisting software developers in creating program code to develop, test, deploy and manage computer software applications; computer software for managing software development projects and teams, namely software that enables users to manage access to the software development team and to add owners, contributors, and viewers to the project

## **Services**

### **Class 35**

(1) Business management consulting; business consulting services in the field of computer technology and cloud computing; business consulting services in the field of enterprise architecture; business risk management consultation; compilation and systemization of information into computer databases; database management services; business records management; business data analysis, namely statistical analysis and reporting services for business purposes; data processing services, namely, providing managed database services, data migration services, data warehousing services, and an in-memory caching system; trade show management services, namely managing educational trade shows featuring product and service information pertaining to the web services industry and the cloud computing industry; conducting and arranging educational trade show exhibitions for developers in the fields of computer technology, cloud computing, web services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); computerized on-line ordering featuring computer software developer tools and cloud computing software and services; providing an on-line marketplace for buyers and sellers of goods and services; domain name directory services; message and conference call transcription services

### **Class 38**

(2) Streaming of data, namely streaming desktop applications from the cloud to a computer; streaming of software applications; providing data streaming capacity to others; streaming of user-

generated and user-selected audio and video material on the Internet; video-on-demand transmission; providing access to telecommunication networks, namely a global computer network and the Internet; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to computer software in global computer networks; providing access to remotely hosted operating systems and computer applications through the internet; providing multiple user access to cloud based computing resources and storage; providing access to user-generated and user-selected databases; providing virtual private network (VPN) services; telephone communications, namely communication by telephone, video telephone services, and cellular telephone communication; long distance telephone communication services; voice over Internet protocol (VOIP) services; web conferencing services; call routing services; providing voice chat services; providing internet chat rooms; transmission of text messages; providing on-line forums for transmission of messages among computer users; call recording services; telecommunications consultation, namely consultation in the field of the provision of telecommunication services for others

#### **Class 41**

(3) Education services, namely, conducting educational seminars, classes, workshops and conferences for developers in the fields of computer technology, cloud computing, web services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); online journals, namely, blogs featuring educational information for developers in the fields of computer technology, cloud computing, web services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); providing online computer games; providing educational information for developers in the fields of information technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT)

#### **Class 42**

(4) Cloud computing web hosting services; computer services, namely, cloud hosting provider services; web hosting of digital content on the Internet; cloud hosting of electronic databases and virtual computing environments; server hosting, namely providing remote access to computer server resources; computer time-sharing services; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, providing virtual application, web, file, database and storage servers of variable capacity to others; scaling services, namely, providing variable computing and electronic storage capacity to others; administering and maintaining databases and virtual computing environments for others; electronic data storage, namely cloud computing provider services for general storage of data; rental of space in a computer co-location facility for containerized data centers of others; Application service provider (ASP), namely, hosting computer software applications and databases of others; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases and cloud computing environments for others; computer software rental; consulting for developers in the fields of computer technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, computer

networking, mobile computing, and the Internet of Things (IoT); planning, design and implementation of computer software and cloud computing services for others; design and development of software, databases, web services and cloud computing infrastructure; software configuration management services; data and application migration services; data mining services; data backup and data restoration services; remote online backup of computer data; data encryption and decryption services; data warehousing; technical support services, namely, troubleshooting of computer software problems; computer services, namely, monitoring the web sites of others to improve their scalability and performance; computer services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; providing search engines for the internet and private computer networks for obtaining data via communications networks; computer services, namely, creating indexes of computer network-based third party information, sites, and other third party information resources available on global computer networks for others; dedicated IP address hosting for others; domain name server (DNS) services for others, namely, providing access to computer servers for electronic storage of domain name addresses and resolution of domain name address requests; computer network security services, namely intrusion detection and protection; computer services, namely, web traffic filtering; computer services, namely, providing virtual data storage and caching to others; computer services, namely cloud hosting of virtual desktops and applications; cross-platform conversion of digital content into other forms of digital content, namely document data conversion from one media to another; digital compression of computer data; hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); software as a service (SaaS), namely data processing software for developers and data scientists to use in executing their machine learning and artificial intelligence applications; software as a service (SaaS) featuring software for cloud computing, namely computer operating software for accessing and using a cloud computer network; software as a service (SaaS) featuring software for virtualization, namely software for creating and providing access to virtual computer desktops; software as a service (SaaS) featuring software for managing and deploying virtual machines, namely virtual computers, to a cloud computing platform; software as a service (SaaS) featuring software for cloud infrastructure management and automation; software as a service (SaaS) featuring software facilitating the execution of cloud computing based applications; software as a service (SaaS) featuring software platforms for cloud computing networks and applications; software as a service (SaaS) featuring software that provides access to cloud-based scalable computing resources and data storage; software as a service (SaaS) featuring software for monitoring cloud and application performance, namely software that gathers and analyses performance metrics of cloud computing networks and applications based on responses to periodic status requests; software as a service (SaaS) featuring software for event logging, reporting, analysis and alert generation to provide information about computer network traffic and usage; software as a service (SaaS) featuring software for enabling businesses to collect, edit, modify, organize, synchronize, integrate, monitor, transmit, store and share business-related and scientific data and information generated and selected by its users; software as a service (SaaS) featuring software that enables users to stream data, desktops and applications from and to a cloud computing network via the Internet; software as a service (SaaS) featuring software for data backup, recovery and archiving; software as a service (SaaS) featuring software for data transfer and migration; software as a service (SaaS) featuring software for data protection and data security; software as a service (SaaS) featuring software for data warehousing; software as a service (SaaS) featuring database management software; software as a service (SaaS)

featuring software for creating, configuring, provisioning and scaling databases; software as a service (SaaS) featuring software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to user-generated and user-selected data stored within the cloud; software as a service (SaaS) featuring software for logging changes within a database; software as a service (SaaS) featuring software for improving database performance; software as a service (SaaS) featuring software for configuring, provisioning and scaling data cache storage for databases; software as a service (SaaS) featuring software for computer network management, and for the automation of storage, retrieval, caching, extraction, formatting, structuring, systematizing, organization, indexing, processing, querying, analysis, replication, and access control to user-generated and user-selected data stored within the cloud; software as a service (SaaS) featuring software for monitoring computer network access and activity; software as a service (SaaS) featuring user authentication software, namely software that facilitates multi-factor authentication to manage user access to computers and computer networks; software as a service (SaaS) featuring cryptography software, namely software for encrypting or decrypting data for the purpose of preventing third party access; software as a service (SaaS) featuring software for monitoring, tracking, logging, analyzing, auditing and reporting of data gathered by businesses to ensure their compliance with regulatory standards and information security requirements; software as a service (SaaS) featuring software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; software as a service (SaaS) featuring network security software; software as a service (SaaS) featuring network threat detection software; software as a service (SaaS) featuring network access management and monitoring software; software as a service (SaaS) featuring search engine software; software as a service (SaaS) featuring software for searching databases; software as a service (SaaS) featuring software for creating searchable databases of information and data; software as a service (SaaS) featuring business intelligence software, namely software for collecting and analyzing business data and preparing business intelligence reports therefrom; software as a service (SaaS) featuring software that provides real-time, integrated business management intelligence reports by combining information from various databases as defined by the user; software as a service (SaaS) featuring business analytics software for collecting and analyzing business-specified data to facilitate business decision making; software as a service (SaaS) featuring software for use in big data analysis, namely software for enabling users to examine their large and varied data sets to uncover patterns, correlations, market trends, and customer preferences; software as a service (SaaS) featuring software that automates the processing of un-structured, semi-structured and structured user-generated and user-selected information and data gathered from the web, business-specific software applications, and IoT operating systems, and stored on computer networks and the Internet to enable users to gain insight into their applications, their users, and their businesses; software as a service (SaaS) featuring e-commerce software to allow users to perform electronic business transactions via a global computer network; software as a service (SaaS) featuring software for operating and managing call centers and contact centers, namely software that enables users to view and customize real-time and historical operational data of customer calls and customer interactions for the purpose of increasing productivity, reducing wait time, and identifying trends; software as a service (SaaS) featuring software platforms for providing customer service and customer support, namely software that enables users to create contact flows for customer interactions, incorporate intelligent conversational bots into contact flows, record and transcribe customer interactions, route customer inquiries according to agent skill set, and schedule and make automated outbound calls; software as a service (SaaS) featuring software for speech, facial and optical character recognition; software as a service (SaaS) featuring software for converting text to speech; software as a service (SaaS) featuring software

for image analysis, identification, processing, conversion, cropping, resizing and enhancement; software as a service (SaaS) featuring software that enables users to securely stream videos to the cloud and for high-speed formatting and processing of user-generated and user-selected audio and video streams; software as a service (SaaS) featuring software that enables users to deploy their own live and on-demand video content; software as a service (SaaS) featuring software for provisioning and dynamically scaling video processing, delivery, and storage services, to enable users to create video-on-demand content for broadcast and multiscreen delivery at scale; software as a service (SaaS) featuring software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate user-generated and user-selected digital video, image and audio files; software as a service (SaaS) featuring software for inserting and removing advertisements into video streams; software as a service (SaaS) featuring software for digital rights management, namely software that encrypts copyrighted works, encodes them with additional information about ownership and permitted use, and secures the copyrighted works from tampering and unauthorized use by third parties; software as a service (SaaS) featuring software for time-shifted television viewing; software as a service (SaaS) featuring game software, namely computer software for creating computer and video games; software as a service (SaaS) featuring game engine software for video game development and operation; software as a service (SaaS) featuring software to manage, connect, and operate internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, consumer appliances, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; software as a service (SaaS) featuring software that enables users to configure different types of cloud-connected electronic devices, to enable them to operate and communicate with one another locally while retaining the benefits of analytics and high-level services in the cloud, namely computer software that enables users to program cloud-connected electronic devices to run local compute, messaging, data caching, sync and machine learning inference capabilities securely, and enabling users to create software for the electronic devices within the cloud, deploy the software to the cloud-connected electronic devices, and to filter local data gathered by the electronic devices and transmit only necessary information to the cloud; software as a service (SaaS) featuring software development tools for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; software as a service (SaaS) featuring software development kits (SDK) for developing software for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; software as a service (SaaS) featuring software for assisting software developers in creating program code to develop, test, deploy and manage computer software applications; software as a service (SaaS) featuring software for managing software development projects and teams, namely software that enables users to manage access to the software development team and to add owners, contributors, and viewers to the project

**Class 45**

(5) Monitoring of computer systems and databases for security purposes; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access and activity; providing user authentication services for accessing a secure virtual computing environment; domain name registry services, namely, coordinating the registration of domain names for identification of users and internet protocol addresses on the internet; providing an online computer database in the field of domain name registration information; providing authentication services via online non-downloadable software for establishing and transmitting security credentials for domain name services

### Trademark Type

Word

### Goods

#### Class 09

(1) Computer software for use in on-line, real time communications that permit others the delivery of educational courses at the preschool, primary and elementary levels and tutoring.

#### Class 21

(2) Lunch buckets;

### Services

#### Class 35

(1) Business management of summer camps

#### Class 41

(2) Educational services, namely, providing primary and elementary education to children; Operation of a kindergarten; Education services, namely, providing seminars, classes and workshops in the field of parenting, child development and special needs education; Providing entertainment and educational day camp services; Organization of educational activities for summer camps; Providing entertainment services at holiday camps; Educational programs in the fields of dance, music, storytelling and puppet shows; Tutoring services, namely, providing assistance to children to enhance educational skills in the areas of reading, writing, mathematics, test preparation, homework and studying; Providing information relating to childhood education programs, namely, programs providing assistance to children to enhance educational skills in the areas of reading, writing, mathematics, test preparation, homework and studying, via a website; Operation of schools, namely, a community based early learning and care facility with an age appropriate curriculum in each classroom, nutritionally certified menus, fully qualified staff and advanced learning options for children ages six to twelve years;

#### Class 42

(3) Providing temporary use of online nondownloadable software for the delivery of educational courses at the preschool, primary and elementary levels and tutoring; Hosting a website providing information relating to childhood educational programs, namely, programs providing assistance to

children to enhance educational skills in the area of reading, writing, mathematics, test preparation, homework and studying, via a website; Maintenance of a website; Providing temporary use of online nondownloadable software for the delivery of educational courses at the preschool, primary and elementary levels and tutoring

**Class 43**

(4) Providing temporary lodging at holiday camps; Day care and child care centres; Family support services in the area of providing emotional support and assistance to parents in the areas of social, emotional, cognitive and physical development of children with disabilities; Corporate partnership services for child care centres, namely, providing employers with programs for child care centres for employees;

### Trademark Type

Standard Characters

### Goods

#### Class 01

(1) chemical additives for lubricants and fuels; chemical additives for enhancing the performance of lubricating oils, greases and internal combustion engine fuels; artificial resins and degreasing solvents for use on lubricants for motorcycles, bicycles, automotive vehicles, boats and caravans; anti-mist preparations, namely, anti-fog spray; liquid tyre puncture sealants; spray fabric protectors, namely, waterproofing chemical composition for articles of fabric

(2) anti-fog and anti-mist sprays for eyewear

#### Class 03

(3) non-medicated preparations for care of the hair, conditioners for use on the hair, antiperspirants, sunscreen preparations, essential oils for personal use, cosmetic sunscreen preparations for use on the skin, the foregoing excluding perfumes, cosmetics and make-up

(4) fabric protectant for vehicle leather and upholstery; massage oils; chamois creams; shaving creams; lip balms; waxes for motorcycles, bicycles, automotive vehicles, boats and caravans

#### Class 04

(5) industrial oils and greases; lubricants for motorcycles, bicycles, automotive vehicles, boats and caravans; lubricants in the form of oils and greases, in liquid and viscous form, for lubricating and protecting motorcycles, bicycles, automotive vehicles, boats and caravans; fuels and motor spirits, namely, motor oils, non-chemical motor oil additives, non-chemical gasoline additives, non-chemical additives for fuels, lubricants and greases for application in the bicycle market, motorcycle market, motor vehicle market, horticulture market, marine market, building and allied trades, engineering and allied trades, electronic and allied trades and the leisure market

#### Class 05

(6) adhesive plasters, bandages for dressings, all-purpose disinfectants; all-purpose disinfectants, namely antibacterial sprays; preparations for relieving insect bites and insect stings

#### Class 07

(7) pressure washers

**Class 08**

(8) tools, namely, hand tools for bicycle repair

**Class 21**

(9) food storage containers; containers for household use, namely, bowls; waste disposal bins, bowls, pots and lunch boxes; chamois leather for cleaning; cloths for cleaning; steel wool; dusters; polishing gloves

(10) cooking utensils; steelwool; unworked and semi-worked glass excluding building glass; beverage glassware, chinaware and earthenware

(11) water bottles

**Class 25**

(12) articles of clothing, namely, shirts, jumpers, skirts, blouses, coats, jackets, wind resistant jackets, tracksuits, slacks, trousers, jeans, shorts, overalls, dungarees, sweaters, T-shirts, sweatshirts, base layers, blousons, jeans, belts, gloves, mittens, articles of headgear, namely, headbands, berets, caps, hats, hoods as clothing; articles of footwear, namely, shoes, boots, sandals, slippers, athletic footwear, sports shoes, hosiery, tights, socks and stockings

**Application Number** 1,862,134

### Goods

#### Class 01

(1) chemicals used in industry, namely, for use in the manufacture of chemicals for use with internal combustion engine fuels, synthetic resins used in in the manufacture of plastic moulding compounds, engine-decarbonizing chemicals, chemical preparations for decarbonizing engines, radiator flushing chemicals, anti- boil preparations for engine coolants, fillers for car bodies, chemicals for producing metals and their alloys; chemical preparations for facilitating the alloying of metals; chemical additives for use in the casting of metals

#### Class 06

(2) ores; common metals and their alloys, namely, unwrought and semi-wrought common metals and their alloys; unwrought and semi-wrought common metals and their alloys and products made therefrom, namely, rods, panels, bands, sheets and plates, tailored blanks, pipes and fittings for pipes used in the field of construction, tinplate and black-plate, sleepers; unwrought and semi-wrought common metals and their alloys and products made therefrom, namely, rails and other track parts for rail-bound vehicles, namely, side guide rails and glide strips for magnetic suspension trains, special and specialty profiles, stair crossbeams of metal, door crossbeams of metal, roof crossbeams of metal, flood sheet pilings of metal, box sheet pilings with metal

structure, steel poles for setting lamps, staves of metal, flat building panels of metal, shipbuilding profiles of metal, corrosion-resistant, acid-resistant and heat-resistant flat stainless steel products, namely heavy plates and hot-rolled wide strips, nickel-based stainless steel alloys, titanium and titanium alloys, magnetic electrical sheets, laminated, wound and punched grain-oriented electrical steel sheets for large power transformers, distribution transformers, small transformers, current transformers, shunt reactors, wound cores and power generators, metal work platform lifts, temporary steel passenger bridges, scaffolding of metal, concrete formwork and metal parts therefor, namely, props and beams used in concrete construction, non-electric wires of common metal, namely, wires and ropes and wire mesh, metal building materials, namely, metal sheets, non-electric cables and wires of common metal, namely, soldering wire, welding rods and cored wires used as weld filler materials, metal building materials, namely, metal storage tanks and metal storage pallets used in building construction, prefabricated and collapsible transportable buildings of metal, namely, container offices and workshops, houses and garages; metal building materials, namely, door fittings of metal, metal window fittings, fittings of metal for furniture, fittings of metal for compressed air ducts in the nature of roof panels, facade panels, springs, windows, windowsills, window frames, dies, fabrics, grilles, hooks, cramps, bearings, runners, nails, profiles, space trusses, rings, loops, locks, screws, silos, pins, gate and door frames, gates and doors, supporting structures, staircases, door panels, door handles, screw-connection parts, wall panels, brackets, fences and parts and fittings thereof; metal building materials, namely, prefabricated sandwich components consisting predominantly of sheet metal for the construction of industrial buildings, halls and homes, ironmongery, namely, iron door handles, iron door knobs, iron door knockers, iron letter plates, iron locks, iron hinges, iron hooks, iron cabinet fittings and iron window furniture, small items of metal hardware, namely, metal-threaded fasteners, stainless steel sheets, nickel wires, metal sheets covered with nickel, titanium and titanium alloys, window bolts of metal, grilles of metal, hooks of metal for hanging clothes, hooks of metal for attaching wall, door hooks of metal, window hooks of metal, nails, loops of steel, locks of metal, screws of metal, silos of metal, pins of metal, angle bars used in construction, steel rods used in construction, pipes and tubes of metal used in construction, namely, drain pipes, plumbing pipes and gutter pipes, pipes and tubes of metal used in the manufacture of machine parts, hydraulic cylinders, the exchange of pressurized and heated fluids and steam, pressure vessels, oil pipelines, water supply, drainage of water, the chemical industry and refineries; non- electric lifting cables of common metal, transportable buildings of metal, namely, prefabricated buildings and structures which can be dismantled for transportation, namely, offices and workshops, houses, sheds, garages, bridges; metal building materials and reinforced building materials of metal, namely, anchor drilling piles, anchors, angle irons of metal, armouring blinds, canal braces, canal sheeting, casings, ceiling- and roof- construction-elements in the nature of supports, beams, panels and shores, ceiling- and roof-panels, chamber plates, coils and slitted strips, covers, cramp, edge connectors, flat profiles, gutter and drain tubes, hooks, light profiles, nails, pins, plates, plumbing nails, press piles, profiles, ram piles, ram profiles, ramtubes, revetments, screw nails, screws, sealings, shaped pins, sheet piles, sheeting plates, sheetings, sheets, shields, strips, tube ceilings, tubes, wainscots, wall anchors, wall combinations made of ram profiles, wall- panels, wire, wire loops, shuttering of metal for concrete, scaffolding and concrete formwork elements and parts therefor of metal for concrete, metal platform lifts used in construction, bridges of metal, concrete formworks of metal, formworks of metal used in concrete construction, wires of copper, wires of nickel, wires of stainless steel, wires of aluminum, readymade steel structures for construction of offices, readymade steel structures for construction of workshops, readymade steel structures for construction of houses, readymade steel structures for construction of garages, readymade steel structures for construction of bridges, readymade steel structures for construction of windows, readymade steel structures for construction of doors and gates, readymade steel structures for construction of roofs,

readymade steel structures for construction of ceilings, readymade steel structures for construction of walls, metal sheets for roofing, façade panels of metal, window frames of metal, windows of metal, door frames of metal, doors of metal, door bolts of metal, door handles of metal, staircase of metal, wall panels of metal, fences of metal, tiles of metal used in construction, metal sheets used in construction, iron sheets used in construction, aluminum sheets used in construction; reinforced metal building materials used in construction, namely, anchor drilling piles, anchors, angle irons of metal, armouring blinds, canal braces, canal sheeting, casings, ceiling- and roof-construction-elements in the nature of supports, beams, panels and shores, ceiling- and roof-panels, chamber plates, coils and slitted strips, covers, cramp, edge connectors, flat profiles, gutter and drain tubes, hooks, light profiles, nails, pins, plates, plumbing nails, press piles, profiles, ram piles, ram profiles, ram tubes, revetments, screw nails, screws, sealings, shaped pins, sheet piles, sheeting plates, sheetings, sheets, shields, strips, tube ceilings, tubes, wainscots, wall anchors, wall combinations made of ram profiles, wall-panels, wire, wire loops; welding wires

### **Class 07**

(3) drives for machines, namely, drive belts; transmission shafts, other than for land vehicles, namely, for water and wind power plants, for industrial machines, for construction machines, for industrial machines, for industrial engines and for ship and submarine engines; construction machinery, namely, bulldozers, steam shovels, dump trucks, graders, excavators and steam rollers; installations for the manufacture of chemical products consisting of steam reforming machines for the chemical industry; manure making machines; machines for producing energy, namely, hydraulic pressure intensifier machines; elevators, mechanical escalators and moving walkways, platform lift equipment, namely wheelchair lifts, truck lifts, wagon lifts, cargo lifting derricks, car lifts, mechanical railed lifting conveyors, passenger boarding bridges, moving staircases, stair lifts for level to level transfers in a residential home, residential elevators and lifts both interior and exterior for people confined to a wheelchair; installations consisting of machines for the chemical industry for steam reforming; installations consisting of machines for the chemical industry for producing manures; elevators, mechanical escalators and moving walkways, platform lifts used in construction, lifting platforms for people, passenger bridges, moving staircases, stair lifts; generators for generating energy to drive machines, namely, electric power generators for industrial machinery; steam operated power generators, gas operated power generators, generators for electricity, electric generators; industrial robots (machines); machines for producing energy, namely, generators of electricity, in particular for use in coal- fired power plants, hydroelectric power plants, nuclear power plants, wind power plants, photovoltaic systems, steam turbine plants; machines for the textile industry, namely, textile printing machines for industrial use, textile weaving machines for industrial use, textile embroidering machines for industrial use, textile sewing machines for industrial use, textile ironing machines for industrial use, textile washing machines for industrial use, textile dyeing machines for industrial use; machines for processing metal, wood and plastics, namely continuous metal casting machines, cutting machines for metalworking, drilling machines for metalworking, extruding machines for metals, extrusion machines for plastic, forging machines, honing machines for metalworking, metal forming machines, metal working machines, milling machines for metalworking, perforating machines for metalworking, planing machines for metalworking, plastics molding machines, rolling machines for rolling metals, slotting machines for metalworking, wood chipping machines, wood cutting machines, wood drilling machines, wood grinding machines, wood milling machines, wood planing machines, wood sawing machines; machine tools for the metalworking industry, machine tools for the cutting and forming of metals and plastics; electrical welding machines, namely arc-welding and laser welding machines and their welding electrodes; welding electrodes; flaming machines for flaming cold and warm metal materials, metal work pieces and semi-finished metal products,

namely, blocks, bars, coils and slabs; gas-operated cutting blow pipes; asphalt mixers, concrete mixers; mill machines, namely, steel mills, hammer mills and colloid mills for milling and wet grinding of solids; industrial machine presses; pump machines, namely, water pumps, key pumps, concrete pumps, air pumps, plastic pumps for use in the construction field, turbines other than for land vehicles, namely, for the generation of electricity; machine tools for the metalworking industry, construction industry, plastics industry, ore and coal mining industries, cement industry, namely, metal-cutting machine tools, metal compressing machine tools, metal polishing machine tools, metal welding machine tools, metal lathing machine tools, metal cutting machine tools, metal ironing machine tools, wood lumbering machine tools, wood drilling machine tools, wood cutting machine tools, wood shaving machine tools, plastic welding machine tools, plastic pouring machine tools, plastic molding machine tools, plastic imprinting machine tools, plastic ironing machine tools, plastic compressing machine tools; machine tools for removing waste material; railroad constructing machines, namely, stone compressing machines, stone spreading machines; ship and airplane engines and parts therefor; welding apparatus, namely, rods for welding by gas, rods for welding by electricity; machines for producing solid fuels, namely, coke and fittings therefor; exhaust systems for automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons; mechanical synthetic gas producers, namely, mechanical synthetic gasifiers for use in the manufacture of fuels, chemicals and fertilizers; machines for thermal treatment of residues, namely, plastic extrusion machines and fittings therefor, namely, extruder gearboxes; steam generating installations, namely, engine boiler fittings

#### **Class 09**

(4) apparatus for physical measurements and physical material testing and control of materials, namely, electronic controllers for furnaces, diesel engines, computer hardware, electronic agendas; optical and electronic apparatus, namely, optical condensers, optical data media, namely, optical lenses, optical range finders, computer hardware, electronic agendas; checking apparatus and instruments for nautical purposes, namely, magnetic compasses and signal lamps for naval ships, signaling whistles, level measuring machines for surveying, lasers for surveying, magnetic compasses for surveying, surveying instruments, wind-direction indicators, anemometers; computer operational software for use in construction and automated manufacturing, metalworking, in the field of transport and delivery, in the fields of automobile parts, energy, building construction, waste management, in the field of welding, in the field of mechanics, oil field exploration, in the field of chemistry, industrial robots, mechanical engineering, ore and coal mining industries, cement industry; material checking apparatus and instruments, namely, carbon monoxide detectors; industrial magnets; measuring apparatus and instruments, namely, mass spectrometer for testing gas leaks, vibrating sample magnetometer for detecting the polarization of magnets, diagnostic software for evaluating and determining errors during operation of elevators, escalators, passenger conveyors, moving sidewalks, inclined platforms, vertical platforms, stairway lifts, boarding bridges; photovoltaic elements, namely, solar collectors for generating electricity; computer games, video games

#### **Class 11**

(5) steam generating installations, including fittings; water distillation units and fittings therefor; drying installations and machines, namely, industrial dryers for dehumidifying; machines for the thermal treatment of waste materials and fittings therefor, namely, furnaces for refuse and sludge incineration; furnaces for continuous metal casting machines, furnaces used in secondary metallurgy to treat molten steel; solar collectors for heating and fittings therefor

#### **Class 12**

(6) vehicles for land, air and water transportation, namely automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons; parts for vehicles for land, air and water transportation, namely engines, gears, clutches, body components in the form of prefabricated metal blanks, chassis and running gears, bogies, components for wheel suspension and steering, axles, wheels and wheelsets, brake systems, chains, all the foregoing for automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons; bodies of metal for vehicles and apparatus for locomotion by land, air and water, namely, automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons and transportable metal shipping containers; engines for land vehicles

#### **Class 17**

(7) semi-finished products of plastic and plastic mouldings for vehicle construction and house building, in particular for touch protection, spray guard, dust protection, noise protection, housing and encapsulation, and for building roofing, building facades, building partition walls, building protection; plastics in extruded form for use in manufacture, in particular plastic mouldings for vehicle construction and house building; packing, stopping and insulating materials, namely, gaskets and sealing for use in doors, windows, sealing compounds for masonry and wood, joint packing for pipes, gaskets and valves, plastic packing for shipping containers, rubber packing for shipping containers, waterproof packing for shipping containers, insulating fabrics, insulating oils, insulating paints, insulating paper, insulating plaster, insulating refractory materials, insulating sleeves for power lines, insulating tape and bands, insulating varnish, insulating washers

#### **Class 19**

(8) asphalt, coal tar, pitch and bitumen; building materials not of metal, namely, wall hardwood, decking, wood, particle boards and other non-metal building material, namely, angles, blocks, bolts, ceiling- and roof- construction-elements, namely, supports, beams, panels and shores, cramp, doors, fasteners for fastening rails, fittings, frameworks, gates, hooks, light cup glass, nails, panels, pins, plates, plumbing nails, profiles, rail clips, rods, screw nails, screws, shaped pins, shields, spring washers, trussed structures, tubes, wainscots, wall-, ceiling- and roof-panels, walls for building, windows, wire; scaffolding and formwork and parts therefor, not of metal; cast, pressed, drawn and machined mouldings, not of metal, for building, namely, plastic components for plastic injection moulding and resin transfer moulding; non-metal cast, pressed, drawn and machined mouldings, namely, rings, sprockets, toothed wheels, worm wheel sets used in building construction

#### **Class 28**

(9) games and toys, namely, board games, dice games, playing cards, construction kits, puzzles; model toys, namely, model trains, model trucks, model cars; models of toy vehicles for locomotion by land, air and water, namely, model toy cars, model cars, toy trucks, model railways, scale model vehicles, scale model cars, miniature car models

#### **Services**

#### **Class 35**

(1) media consultancy, namely, consultancy and technical research in the field of information technology, namely, organizational consultancy in the field of press and public relations

#### **Class 37**

(2) building construction; road building construction rental of scaffolding, formwork, work platforms and construction equipment for earthworks, namely, sheet piling, construction machines for anchoring, drilling, pressing, vibrating, pile driving and drawing techniques and flood protection systems; interior and exterior painting and lacquering of land vehicles, air vehicles, ships,

submarines and industrial machines; rental of construction equipment and industrial machines for earthworks, namely, sheet piling, construction machines for anchoring, drilling, pressing, vibrating, pile driving; assembly, maintenance and repair of elevators, escalators, moving walkways, platform lifts, lifting platforms for people, passenger bridges, moving staircases, stair lifts; assembly, maintenance and repair of equipment and machines for use in mining, open- cast mining, quarrying, ore and coal mining, demolition and road building; assembly, maintenance and repair of buildings; assembly, maintenance and repair of industrial machines and manufacturing installations, namely, of lifts, escalators, moving walkways, platform lifts, lifting platform for people, passenger bridges, moving staircases, stair lifts, of equipment and machines for use in mining, open-cast mining, quarrying, ore and coal mining, demolition and road building assembly, of buildings, of modules and of transportable buildings; facility management in the field of technical facilities, namely, repair, maintenance and servicing of real estate, namely, fence and gate installations; assembly, maintenance and repair of machines for use in mining; assembly, maintenance and repair of modules and systems for the power train and undercarriage parts of vehicles and apparatus for locomotion by land, air or water, namely, automobiles, fork stackers, locomotives, ships, mobile cranes, trucks, wagons

### **Class 42**

(3) architecture and architecture consultancy services; urban planning; engineering services, namely, research, construction of prototypes for research purposes and for technical product development; technical engineering in the field of technology for construction of industrial production and power plants, cement production plants, mining plants and machinery, elevators and escalators, land vehicles, air vehicles, water vehicles, for material testing, technical consultancy in the field of computing installation and maintenance of computer software; technological engineering analysis in the fields of mechanical engineering, material development and structural engineering stress analysis of wind turbine bearings, and the digitalization and reverse engineering relating thereto; structural engineering; mining engineering; chemistry services, namely, laboratory development and research in the fields of chemistry, material science, metal and steel production, composite material production of plated, clad and coated metals, fertilizer production, petroleum refining processes; engineering in the field of computer science; physics research; software programming; stress analysis in the field of bridge construction, building construction, industrial plant construction, production plant construction, production plant construction, power plant construction and technical drawing in the foregoing fields; surveying, namely, land and road surveying, geological surveying, land surveying, engineering surveying service, 3D laser scanning services; research, construction of ship and submarine prototypes for research purposes and for technical product development, and research in the field of technology for ships; material testing; technical consultancy in the field of computing installations and maintenance of computer software; installation and maintenance of computer software; contaminated site management, namely, technical design of property decontamination projects in the fields of industrial production plants and facilities, chemical production plants and facilities, cement production plants and facilities, mining and mineral processing plants and facilities, steel production plants and facilities, steel mills, coke from coal production plants and facilities, power plants and facilities, process water and waste water facilities; computer rental

#### Class 09

(1) Audio tape recordings and video tape recordings, audio discs, video discs, computer laser discs, pre-recorded audio and video cassettes, pre-recorded audio and video tapes, pre-recorded compact discs, pre-recorded audio discs, pre-recorded video discs, pre-recorded computer laser discs, computer multimedia software for viewing information, statistics and trivia, all featuring entertainment media in the form of videos, movies, music, photographs, digital images and information in the field of basketball, electronic games, electronic sports and virtual sports; downloadable multimedia news webcasts, downloadable television shows and movies, downloadable radio podcasts, downloadable computer software for organizing and viewing databases of basketball information, statistical information, trivia, polling information, and interactive polling, all provided over the Internet and featuring entertainment media in the form of videos, movies, music, photographs, digital images and information in the field of basketball, electronic games, electronic sports and virtual sports; computer software, namely screen savers and downloadable catalogs provided over the Internet featuring an array of products, all featuring themes in the nature of basketball, electronic games, electronic sports and virtual sports; computer games in the field of basketball; electronic game cartridges in the field of basketball; video games

in the field of basketball; computer accessories, namely blank USB flash drives in the field of basketball, electronic games, electronic sports and virtual sports; stands adapted for computers, laptops and tablet computers in the field of basketball, electronic games, electronic sports and virtual sports; computer keyboards, mouse pads, computer mice, computer styli, compact disc cases, computer carrying cases, protective sleeves for laptop and tablet computers, wrist rests for use with computers, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; battery chargers for mobile phones in the field of basketball, electronic games, electronic sports and virtual sports; USB charging ports in the field of basketball, electronic games, electronic sports and virtual sports; computer software to access and view computer wallpaper in the field of basketball, electronic games, electronic sports and virtual sports; computer skins, namely, fitted plastic film for covering and providing a scratch proof barrier for portable computers and laptops in the field of basketball, electronic games, electronic sports and virtual sports; video game cartridges in the field of basketball; radios, electronic audio speakers, headphones and ear buds, wireless telephones, telephones, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; cell phone accessories, namely headsets, straps for cell phones, fitted plastic films known as skins for covering and protecting cell phones, face plates and cell phone covers, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; electronics accessories, namely fitted plastic films known as skins in the field of basketball, electronic games, electronic sports and virtual sports for covering and protecting electronic apparatus, namely MP3 players, electronic tablets and personal digital assistants, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; covers and stands for MP3 players, electronic tablets and portable digital assistants, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; decorative switch plate covers, video monitors, computer monitors, binoculars, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; sunglasses in the field of basketball, electronic games, electronic sports and virtual sports; eyeglass frames in the field of basketball, electronic games, electronic sports and virtual sports; eyewear accessories, namely, eyeglass and sunglass straps and chains which restrain eyewear from movement on wearer, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; eyeglass and sunglass cases, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; magnets in the field of basketball, electronic games, electronic sports and virtual sports; disposable cameras in the field of basketball, electronic games, electronic sports and virtual sports; credit cards, debit cards, encoded gift cards, electronic identification cards, magnetically encoded hotel room key cards and pre-paid telephone calling cards magnetically encoded, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; downloadable electronic games in the field of basketball; downloadable video games in the field of basketball; downloadable computer games in the field of basketball; downloadable interactive video games and downloadable trivia games in the field of basketball, provided over the internet; downloadable computer software for use as screensavers and wallpaper, to access and display computer browsers, for use in viewing websites on the Internet, for use in creating avatars for playing electronic games, electronic sports and virtual sports over the Internet; downloadable electronic publications in the nature of magazines, newsletters, coloring books, game schedules all provided over the Internet, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; downloadable greeting cards in the field of basketball, electronic games, electronic sports and virtual sports, provided over the Internet; downloadable virtual goods, namely, computer software for sending and displaying emojis, stickers, badges, characters, clothes and accessories in association with virtual avatars for use in electronic games, electronic sports and virtual sports; mouth guards for sports in the field of basketball, electronic games,

electronic sports and virtual sports.

### **Class 25**

(2) Clothing, namely hosiery, athletic footwear, casual footwear, children's footwear, sports footwear, boots, basketball shoes, basketball sneakers, T-shirts, shirts, polo shirts, sweatshirts, sweatpants, pants, tank tops, basketball jerseys, sports jerseys, team jerseys, shorts, pajamas, sport shirts, rugby shirts, sweaters, belts, ties, nightshirts, hats, caps being headwear, visors being headwear, beanies, warm-up suits, warm-up pants, warm-up tops, shooting shirts, jackets, wind resistant jackets, parkas, coats, cloth baby bibs, plastic baby bibs, head bands, wrist bands, aprons, undergarments, boxer shorts, slacks, ear muffs, gloves, mittens, scarves, woven and knit shirts, jersey dresses, dresses, cheerleading dresses and uniforms, swim wear, bathing suits, swimsuits, bikinis, tankinis, swim trunks, bathing trunks, board shorts, wet suits, beach cover-ups, bathing suit cover-ups, bathing suit wraps, sandals, beach sandals, beach hats, sun visors being headwear, swim caps, bathing caps, novelty caps and sun visors with attached wigs, all of the foregoing in connection with the field of basketball, electronic games, electronic sports and virtual sports.

### **Services**

#### **Class 38**

(1) Broadcast and streaming of radio and television programs featuring electronic game play and electronic game competitions over global communications networks, the Internet and wireless networks; audio broadcasting of electronic game play and electronic game competitions in the field of basketball, electronic games, electronic sports and virtual sports; cable television broadcasting in the field of basketball, electronic games, electronic sports and virtual sports; radio broadcasting in the field of basketball, electronic games, electronic sports and virtual sports; subscription television broadcasting in the field of basketball, electronic games, electronic sports and virtual sports; television broadcasting in the field of basketball, electronic games, electronic sports and virtual sports; video broadcasting of television programs featuring electronic game play and electronic game competitions in the field of basketball, electronic games, electronic sports and virtual sports; video-on-demand transmission in the field of basketball, electronic games, electronic sports and virtual sports; web-casting services in the nature of providing on-line chat rooms and interactive discussion forums among participants in and players or fans of electronic games; providing on-line electronic bulletin boards in the field of basketball, electronic games, electronic sports and virtual sports for transmission of messages among computer users; providing multiple-user access to a global computer information network for the purpose of participating in interactive polling in the field of basketball, electronic games, electronic sports and virtual sports; wireless communications services, namely, transmission of photographs and digital images related to the field of basketball, electronic games, electronic sports and virtual sports to mobile telephones; wireless electronic transmission of voice messages, facsimiles, text messages, streaming video, movies, music, photographs, digital images and information in the field of basketball, electronic games, electronic sports and virtual sports over the Internet and via wireless and cellular networks; wireless broadband communications services, namely the broadband transmission of live broadcasts of electronic game play and electronic game competitions in the field of basketball, electronic games, electronic sports and virtual sports.

#### **Class 41**

(2) Entertainment and educational services in the nature of arranging, organizing and conducting electronic game competitions, electronic game contests, electronic game tournaments, electronic game exhibitions, electronic sports competitions, basketball competitions, basketball contests, competitive and professional basketball and video gaming leagues, touring basketball and

electronic sports competitions, basketball and video gaming skills clinics, and basketball and video game events consisting of appearances by electronic games athletes, electronic sports athletes, and virtual sports athletes, interactive displays, participatory electronic sports activities and promotional contests in the field of basketball, video games, electronic sports and virtual sports; the production and distribution of radio, television, cable television, satellite television, webcasts, social media webcasts and Internet television shows featuring electronic game competitions, electronic game contests, electronic game tournaments, electronic game exhibitions, electronic sports competitions, basketball competitions, basketball contests, competitive and professional basketball and video gaming leagues, touring basketball and electronic sports competitions, basketball and video gaming skills clinics, and basketball and video game entertainment, sporting and cultural events; online video gaming services for customers to participate in on-line electronic games; operation and coordination of electronic game tournaments, basketball competitions, basketball contests, competitive and professional basketball and video gaming leagues, and touring basketball and electronic sports competitions for recreational and competitive purposes; providing temporary use of online, non-downloadable software for users to create, upload, share, preview and publish videos, movies, music, artwork, photographs, digital images, text messages, news and information, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; production and distribution of radio, television, cable television, satellite television, webcasts, podcasts, blogs, social media webcasts and television Internet shows featuring news highlights, video recordings and video stream recordings of electronic game contests, electronic game tournaments, electronic game exhibitions, basketball competitions, basketball contests, competitive and professional basketball and video gaming leagues, touring basketball and electronic sports competitions, basketball and video gaming skills clinics, and basketball and video game entertainment, sporting and cultural events; providing news, information, commentary and strategy in the field of basketball, electronic games, electronic sports and virtual sports via a website; providing entertainment news and information in the form of statistics and trivia in the field of basketball, electronic games, electronic sports and virtual sports; conducting and arranging competitive and professional basketball and video gaming leagues, basketball and video gaming skills clinics, basketball and sports camps; on-line video gaming services in the form of providing tracking of users' statistics and rankings in on-line interactive electronic gaming, electronic sports and virtual sports services and matching on-line game players with other players of all skill levels; entertainment services in the nature of personal appearances by a costumed mascot at games, exhibitions, clinics, camps, promotions, and other events, special events and parties in the field of basketball, electronic games, electronic sports and virtual sports; entertainment services in the nature of personal appearances by a dance team at games, exhibitions, clinics, camps, promotions, and other events, special events and parties in the field of basketball, electronic games, electronic sports and virtual sports; fan club services in the field of basketball, electronic games, electronic sports and virtual sports; on-line non-downloadable games, namely, computer games, electronic games, video games, interactive computer games, interactive electronic games, interactive video games, action skill games, arcade games, adults' and children's party games, board games, puzzles, and trivia games, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; electronic publishing services, namely, publication of magazines, guides, newsletters, coloring books, and game schedules of others on-line through the Internet, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports; operation of a computer database containing information in the field of basketball, electronic games, electronic sports and virtual sports entertainment; entertainment services, namely, providing non-downloadable video games and computer games on-line from a computer network, all of the foregoing in the field of basketball, electronic games, electronic sports and virtual sports.

# SIGMA-ALDRICH

### Trademark Type

Word

### Goods

#### Class 01

(1) chemical filtering materials for use in laboratory research; chemical substances, chemical materials and chemical preparations, and natural elements being acids, salts, caustic alkalis, bases, metals, solvents, drying agents, cleaning detergents, indicators and auxiliaries, stable isotopes, adsorbents for laboratory and research use; biological tissue specimens for use in scientific research; monoclonal antibody reagents for scientific purposes; chromatography chemicals; media for cell culture for use in biotechnological industry; chemical reagents for use in antibody research

#### Class 03

(2) Cotton swabs

#### Class 05

(3) Diagnostic reagents and diagnostic preparations for medical-scientific research use; diagnostic reagents for embryonic stem cells, stem cells and embryos for in-vitro use; mouse embryonic stem cells for medical, pharmaceutical and veterinary use; diagnostic test kits consisting of reagents; fluorometric assays and assay kits for medical use; staining agents used to stain reagents, blood, germs (used for medical or veterinary purposes); proteinaceous preparations for medical research; biological diagnostic reagents for in vitro use in embryology and molecular biology; preparations for maintaining embryos in culture; pharmaceutical preparations and substances, namely leukaemia inhibitory factor; analytical reagents for use in the pharmaceutical and medical field; Reagents for sample digestion for use in the pharmaceutical field and medical; Reagents for sample extraction for use in the pharmaceutical and medical field; medical diagnostic reagents for use for biomolecule detection, optical imaging, cell suspension, and calibration; reagents for blood grouping for medical purposes

#### Class 07

(4) Purifying machines for removing contaminants from water and liquid for medical-scientific research use, the aforesaid goods excluding machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, machines for pre-printing, printing or type-setting purposes, papermaking machines, shredders (electrical), electric ice cream makers and

other electric machines for household purposes, electric machines for cutting, breaking, crushing, ceramic, crumbling stones and other stony materials, motors and engines (except for land vehicles); filter support disc for laboratory and scientific use, filter housing for liquid and gas purification filters for laboratory purposes, filtering bottle flask, solvent filtering dispenser for laboratory and scientific use, vacuum filtering flask for laboratory and scientific use, vacuum filtration adapter for laboratory and scientific use, pressure filter funnel for laboratory and scientific use, filtration adapter, pressure filter, for filtration of aqueous, organic and biological samples, syringe filter, membrane filters for laboratory and scientific use, glass fiber filter for laboratory and scientific use, nano filter for laboratory and scientific use, phase separator filtering paper for laboratory and scientific use, laboratory ultrafiltration filter membranes as part of scientific apparatus, the aforesaid goods excluding machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, machines for pre-printing, printing or type-setting purposes, papermaking machines, shredders (electrical), electric ice cream makers and other electric machines for household purposes, electric machines for cutting, breaking, crushing, ceramic, crumbling stones and other stony materials, motors and engines (except for land vehicles); mixing machines for preparation of biological samples, the aforesaid goods excluding machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, machines for pre-printing, printing or type-setting purposes, papermaking machines, shredders (electrical), electric ice cream makers and other electric machines for household purposes, electric machines for cutting, breaking, crushing, ceramic, crumbling stones and other stony materials, motors and engines (except for land vehicles); filling machines for filling bottles, vials and syringes and single use disposable non-metal connectors; power-operated crimping tool for sealing and cutting tubing; hand-held crimping machine for sealing, cutting and tubing, for laboratory, medical, pharmaceutical, biological, microbiological applications and for applications for the scientific and laboratorial manufacture and processing of foodstuffs, and for the industrial microbiological testing of liquids, the aforesaid goods excluding machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, machines for pre-printing, printing or type-setting purposes, papermaking machines, shredders (electrical), electric ice cream makers and other electric machines for household purposes, electric machines for cutting, breaking, crushing, ceramic, crumbling stones and other stony materials, motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); incubators for eggs; automatic vending machines; laboratory filter cartridges, filtration plates for laboratory use, laboratory filter carrier racks and trays for laboratory equipment, column loaders, vials for laboratory samples and vacuum manifolds for laboratory use; filter punches assay apparatus and instruments

### **Class 09**

(5) mass flow controllers; pressure sensors; electronic sterility testing machines for laboratory and scientific use; air monitors; chromatographic apparatus; computer software for management of biopharmaceutical purification processes; laboratory test units for determining the integrity and pore-size distribution of membrane filters; laboratory sample concentrator unit; laboratory apparatus, namely, centrifuges for laboratory use, chromatography apparatus and columns for laboratory use, laboratory baths, laboratory calipers, glassware for laboratory use, flasks, pipettes, laboratory furniture, laboratory thermometers, petri dishes; tissue arrayers; inserts for culture plates for laboratory use; clinical and laboratory sample concentrator unit; electronic and electrical testing apparatus for laboratory contaminants and clinical analysis, electrophoresis separators, namely, pre-packed columns for use in separation; incubators for microbiological samples on filters; ultraviolet sterilizers for filter holder between filtrations and for water supplies for laboratory and scientific use, namely, water sterilizers; pressure sensors, temperature sensors and gas

sensors; membrane filters for laboratory or scientific use; membrane filters used in dialysis, reverse osmosis and ultrafiltration for laboratory and scientific use; bioreactors for laboratory and research use; spectrometers used for the detection and quantification of proteins; stands, test tube and vial stand Kits for incubating venous endothelial cells; stands for fixing the laboratory apparatus, namely, support stand and rod; test kits, namely microscope slides for different colorings for positive controls; microscope slides and liquid cover glass; kits for extraction of nucleic acid; Polymerase chain reaction (PCR) kits; quantitative polymerase chain reaction kits, and enrichment kits; Antibody specificity array scanners, readers and image analyzers for detecting chemiluminescent signals in antibody specificity array experiments in drug development and pharmaceutical research; antibody specificity array scanners, readers and image analyzers for use in antibody specificity array experiments in drug development and pharmaceutical research; computer software for use with antibody specificity array scanners, readers and image analyzers for analysis and quantification of specificity and reactivity of biological molecules; histone antibody specificity arrays comprised of microarray membranes, computer software for use with antibody specificity array scanners, readers and image analyzers for analysis and quantification of specificity and reactivity of biological molecules, all for use in drug development and pharmaceutical research; Scientific instruments all for use in cytology, namely, microscopes and parts thereof; cell culture apparatus for use in laboratories, namely culture dishes, culture flasks, culture tubes, vials; blood cell analyzing instruments (other than for medical use); automated microbiology and hematology staining instruments, replacement vessels and lids and recirculation, and electronic water bath units used as laboratory equipment; electrical analyzer for the evaluation of enzymatic activity; Chromatography apparatus for laboratory purposes; chromatography columns for measuring purposes; chromatography apparatus for measuring purposes and fittings therefor, chromatography columns for laboratory use and fittings therefor, chromatography columns for use in purification in the laboratory and fittings therefor; meters for concentrating and purifying samples as pretreatment of quantitative analysis; solid phase extraction cartridges for laboratory use; solid phase micro extraction fibers, fiber holders, and fiber assemblies for concentrating and purifying samples as pretreatment of quantitative analysis; Computer software for management of biopharmaceutical purification processes; apparatus for the synthesis of peptides, namely, laboratory flasks, funnels, vessels and vessel adapters, laboratory glassware; disposable reusable dispenser syringes for laboratory use; electrodes for laboratory research; laboratory consumables, namely, pipette tips; laboratory equipment, namely, funnels, calipers, pipette racks, test tube racks, pipettes, and microarrays; laboratory glassware, namely burettes, pipettes, test tubes, beakers, flasks, measuring glassware and graduated glassware; magnetic stir bars; nano tubes, namely, tubular carbon molecules used in extremely small scale electronic and mechanical applications; glass slides and chips having multi-well arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use; pipettes; special clothing for use in laboratories; beads used for calibration and quality control in the analysis, diagnosis, and testing of biological samples

### **Class 10**

(6) Medical syringes, Forceps, Teats, Ice bags, Material for artificial tympanic membrane; apparatus for mixing a pharmaceutical and diluents for patient use, namely, dropper bottles for administering medication, sold empty

### **Services**

#### **Class 35**

(1) Electronic commerce services, namely, providing information about products for others via telecommunication networks for advertising for others and sales purposes in the academic

research, agriculture, assay development and screening, biotechnology, chemical research and development, clinical testing, cosmetics and personal care, diagnostic manufacturing, environmental and industrial hygiene, flavors and fragrances, food and beverage, forensic testing, medical materials, and pharmaceutical industries; procurement, namely, purchasing chemicals for others

**Class 40**

(2) lab water treatment; lab water purification; customized production of chemicals for use in manufacture, research and science; customized production of pharmaceuticals; research and laboratory filtration services; pharmaceutical filtration service; custom synthesis of chemicals; Custom peptide manufacturing using a high throughput parallel system for servicing life science researchers

**Class 42**

(3) Medical and pharmacological research services; testing, authentication and quality control in the medical and pharmacological research industries; Pharmaceutical research services; compliance services relating to pharmaceutical manufacturing processes; Platform as a Service [PaaS] featuring software platform in the field of scientific industries for data processing of scientific information; Hosting of e-commerce platforms on the Internet; Hosting of transaction platforms on the internet; Constructing an internet platform for electronic commerce; Custom weighing of chemicals and pharmaceuticals; Scientific research services in the fields of molecular and cell biology including custom-made cell lines and development and implementation of associated assays, protocols or kits for scientific, diagnostic, industrial or research use

#### Class 09

(1) Computer hardware; computer software for social networking for interacting and messaging others; computer software development tools, namely, tools for creating, designing, developing, testing, debugging, configuring and optimizing computer software; computer software for use as an application programming interface (API); computer software for use as an application programming interface (API) for use in building software applications; computer software for use as an application programming interface (API) for use in computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; computer software for creating, managing, and interacting with an online community, namely, for social networking; computer software for mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers for organizing, searching for and managing social events; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, sharing, searching, or otherwise providing or interacting with electronic media, namely, user-uploaded content in the form of text, graphics, images, and video and audiovisual content in the nature of graphics, photographic images, video messages and user-uploaded video clips, text messages via computer networks and communication global computer networks; computer software for modifying and enabling transmission of photographic images, audio, audio visual and video content and data in the nature of emails, downloadable music, audio books, games, podcasts, video and text messages, movies, television programs, music videos and user uploaded video clips; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information in the nature of emails, downloadable music, audio books, games, podcasts, video and text messages, movies, television programs, music videos and user uploaded video clips; computer software for sending and receiving electronic messages, notification alerts and reminders; magnetically encoded gift cards; virtual reality game software, namely, virtual reality games, software for creating virtual reality games; augmented reality game software, namely, augmented reality games, software for designing augmented reality games; mixed reality game software, namely, mixed reality games, software for creating mixed reality games; virtual reality game computer hardware; augmented reality game computer hardware;

mixed reality game computer hardware; computer peripheral devices, namely, computer keyboards, computer mice, computer monitors and computer scanners; virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide users the ability to experience and interact with computer simulated environments for realistic virtual reality experiences; downloadable electronic game software for use with mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers; electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; virtual reality software, namely, virtual reality games, software for designing virtual reality games; augmented reality software, namely, augmented reality games, software for designing augmented reality games; mixed reality software, namely, mixed reality games where users interact virtually and within the real world, software for creating and playing mixed reality games; video game software, namely, video games, computer software for creating video games; interactive multimedia computer games; downloadable electronic games; computer games; headsets for use with computers; laser equipment for non-medical purposes, namely, lasers for use as visual effects, laser pointers, laser scanners, lasers to store and retrieve data from CDs and DVDs; software for integrating electronic data, namely, computer simulated environments and 3D images with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for converting natural language voice and text into computer executable commands; software, namely, an interpretive interface for facilitating interaction between humans and machines, namely, mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers; personal assistant software, namely, voice recognition software and voice-enabled software applications in the nature of computer software applications activated by voice commands to create, download, wirelessly transmit, send and receive, play, edit, store, schedule and organize text messages, electronic mail, music files, voice messages, video clips and images, personal reminders, calendar information, contact information, telephone calls, meetings, maps and directions; software for planning activities with other users, making recommendations, namely, software for the electronic exchange of messages via chat lines, chatrooms and Internet forums; software for social and destination mapping, namely, software for tagging images, audio-visual and video content in the nature of photographic images, video and text messages and user uploaded video clips with data indicating date, location, people and subject matter; computer software for ordering and purchasing goods and services of others via the Internet, a global communications network and wireless communication networks; computer software for wireless content, data and information delivery, namely, computer software to facilitate the delivery of photographic images, computer graphics, text and voice messages, music videos, podcasts, games, movies and television programs over wireless telecommunication networks; software for creating, managing and accessing groups within virtual communities; virtual reality computer hardware; virtual reality game computer hardware; virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide users the ability to experience and interact with computer simulated environments for realistic virtual reality experiences; computer games for home video game consoles; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; headsets for use with video game console; augmented reality computer hardware; virtual reality headsets; augmented reality headsets; virtual reality glasses; augmented reality glasses; virtual reality software for navigating a virtual reality environment in which users can interact for recreational, leisure, education and entertainment purposes with a computer simulated environment, imagery and 3D objects;

augmented reality software for navigating an augmented reality environment in which users can interact for recreational, leisure, education and entertainment purposes with a computer simulated environment, imagery and 3D objects; augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, namely, smart phones, mobile phones and mobile telephones to provide users the ability to experience and interact with computer simulated environments for realistic augmented reality experiences; headsets for virtual reality games; headsets for augmented reality games; video and computer games; interactive entertainment software for playing video games, computer games, interactive multimedia games, virtual reality games, augmented reality games, mixed reality games, interactive motion pictures, interactive videos and interactive television; gesture recognition software; motion tracking sensors for virtual reality technology; motion tracking sensors for augmented reality technology; computer software for controlling the operation of audio and video devices, namely, mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles, computers, MP3 players, DVD players and CD players; digital media streaming devices, namely, smart phones, mobile phones, handheld computers, tablet computers, portable audio and video players, personal digital assistants, MP3 players, MP4 players, digital video recorders, DVD and high definition video disc players; earphones; headphones; video display computer software for use in enabling video game consoles, handheld video game consoles, and tablet computers to provide virtual and augmented reality experiences; video display hardware, namely, video driver interface circuits for digital video eyewear; virtual reality software for use in virtual reality headsets, virtual reality glasses and controllers for object tracking, motion control and content visualization; augmented reality software for use in virtual reality headsets, virtual reality glasses and controllers for object tracking, motion control and content visualization; virtual reality software for users to experience virtual reality visualization, manipulation of 3D images and immersion; augmented reality software for users to experience augmented reality visualization, manipulation of 3D images and immersion; virtual reality software for operating virtual reality headsets; augmented reality software for operating augmented reality headsets; downloadable virtual reality software for interactive entertainment, namely, multimedia applications for head-mounted displays, mobile phones, smart phones and tablet computers in the form of interactive games, interactive video, and interactive film; downloadable augmented reality software for interactive entertainment, namely, multimedia applications for head-mounted displays, mobile phones, smart phones and tablet computers in the form of interactive games, interactive video, and interactive film; headsets; computer software for recording, storing, transmitting, receiving, displaying and analyzing data, namely, photographic images, computer graphics and sound from wearable computer hardware; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable users to experience and interact with computer simulated environments for realistic virtual reality and augmented reality world experiences; virtual reality goggles for enabling users to experience virtual reality visualization, augmented reality world experiences; software for use in creating and designing virtual reality and augmented reality software; application programming interface (API) for computer software for developing computer simulated environments for realistic virtual reality and augmented reality experiences; software and firmware for operating system programs; computer operating systems; augmented reality software and virtual reality software, namely, software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented reality and virtual reality experiences; computer firmware for use in facial, speech, motion, and gesture tracking and recognition systems; computer hardware and software for operating sensor devices, namely, motion tracking sensors for virtual, augmented and mixed reality technology; electronic sensor devices namely, cameras, video and sound projectors, and microphones for capturing gesture, facial, and voice recognition;

computer hardware and software for detecting objects in virtual reality and physical objects, user gestures and voice commands; software and firmware for controlling, configuring and managing virtual reality and augmented reality video game controllers; computer software and firmware for enabling electronic devices, namely, mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers to share data and communicate with each other; computer operating system software; computer software drivers for enabling computer hardware and electronic devices, namely, computers, computer mice, computer keyboards, computer keypads, computer and video game controllers, mobile phones, smart phones, personal digital assistants (PDAs), tablet computers, video game consoles, handheld video game consoles and computers to communicate with each other; cameras; batteries, namely, batteries for cell phones, batteries for mobile phones, camera batteries, general purpose batteries, nickel-cadmium storage batteries, solar batteries; battery chargers, namely, battery chargers for cell phones, battery chargers for mobile phones, battery chargers for use with telephones, camera battery chargers, general purpose battery chargers; battery cases; battery packs for mobile devices namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; power charging and power management devices, namely, charging stations and docks for mobile electronic devices in the nature of computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; charging appliances for rechargeable equipment, namely, charging docks for head-mounted displays, mobile phones, smart phones, tablet computers, cameras and digital music players; charging appliances for rechargeable equipment, namely, charging stands for mobile electronic devices in the nature of head-mounted displays, mobile phones, smart phones, tablet computers, cameras and digital music players; charging appliances for rechargeable equipment, namely, base chargers for mobile electronic devices in the nature of head-mounted displays, mobile phones, smart phones, tablet computers, cameras and digital music players; battery charge devices, namely, power banks for head-mounted displays, mobile phones, smart phones, tablet computers, cameras and digital music players; external battery chargers for computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; wireless battery charging cases for mobile electronic devices in the nature of head-mounted displays, mobile phones, smart phones, tablet computers, cameras and digital music players; rechargeable external battery packs for use with mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; power adapters for computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; electrical and electric connectors; bags and cases specially adapted for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; briefcases, backpacks and cases specially adapted for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; cases specially adapted for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; faceplates for mobile electronic devices, namely, hand-held units for playing electronic, computer, interactive, and video

games; protective covers and cases specially adapted for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; protective sleeves specially adapted for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; holders, armbands, clips and carrying cases specially adapted for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; wall mounts for mounting mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; stands for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; holders for mounting mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; remote controls for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; audio speakers; docking stations for mobile electronic devices, namely, computers, laptop computers, handheld computers, tablet computers, electronic book readers, smart phones, game consoles and wearable computer peripherals, namely virtual reality headsets and glasses; loudspeakers; microphones; audio receivers; audio transmitters; wireless computer peripherals, namely, smart glasses, wireless headsets for smartphones, audiovisual headsets for playing video games; head-mounted video displays in the nature of virtual, augmented and mixed reality headsets and wearable video display monitors; receivers of electronic signals, namely, audio receivers, audio-video receivers, cable television receivers, namely, radar receivers, radio receivers, telephone receivers, stereo receivers; audio and video receivers; wireless transmitters and receivers for reproduction of sound and signals, namely, radio receivers and transmitters, satellite transmitters and receivers, telephone transmitters and receivers, television transmitters and receivers, video transmitters and receivers, GPS transmitters and receivers, radar transmitters and receivers; electric sensors, namely, distance sensors, infrared sensors, optical sensors, proximity sensors, temperature sensors, timing sensors; sensors for monitoring physical movements; software in the nature of a mobile application featuring augmented reality and virtual reality technology for head-mounted displays, mobile phones, smart phones and tablet computers to enable the streaming of video games, movies and television programs; SIM cards; computer software for processing photographic images, computer graphics, audio and video content in the nature of movies, television programs, music videos and user uploaded video clips and text messages on smartphones, mobile phones, tablet computers, personal computers, gaming consoles, personal digital assistants and MP3 players; electronic messaging software; software for facilitating and arranging for the financing and distribution of fundraising and donations, namely, software for processing electronic payments and transferring funds to and from others for charitable fundraising purposes; virtual, augmented and mixed reality headsets and helmets adapted for use in playing video games; virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in order to enable virtual reality experiences; audio and visual headsets for use in playing video games; games adapted for use with television receivers; game controllers in the nature of keyboards for computer games; headsets adapted for

video game machines; gaming headsets adapted for use in playing video games

### **Class 25**

(2) Clothing for men, women and children, namely, shirts, t-shirts, jackets, tops, sweat shirts, belts not of leather, coats, vests, blouses, jerseys, bottoms, namely, shorts, pants, trousers, boxer shorts, dresses, skirts, neckties, scarves, bandannas, pajamas, loungewear, socks, sweaters, sweat pants, aprons, sun visors, slippers, headwear, namely, hats, caps; footwear, namely, slippers, waterproof footwear in the nature of waterproof shoes, and tennis shoes

### **Class 28**

(3) video game consoles; video game interactive controllers; wearable peripherals for playing video games in the nature of head-mounted displays specially adapted for computers, tablet computers, mobile devices, and mobile telephones; controllers for computer games; hand-held units for playing electronic, computer, interactive, and video games; gaming devices, namely, gaming machines with or without video output for playing computer games and video games; mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; computer game consoles for use with an external display screen or monitor; apparatus for electronic games other than those adapted for use with an external display screen or monitor, namely, gaming machines with or without video output for playing computer games and video games; apparatus for electronic games adapted for use with an external display screen or monitor, namely, gaming machines with or without video output for playing computer games and video games; bags specially adapted for handheld video games and video game consoles; computer and video game joysticks; computer gaming consoles for recreational game playing; fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and handheld video game units; hand held joy stick units for playing video games; handheld game consoles; hand-held electronic games adapted for use with television receivers only; hand-held games with liquid crystal displays; hand-held units for playing electronic games for use with external display screen or monitor; video game machines; LCD game machines; player-operated electronic controllers for electronic video game machines; protective carrying cases specially adapted for handheld video games and video game consoles; standalone video game machine; stands for electronic game playing apparatus, namely, video game consoles and handheld video game units; tabletop electronic devices for playing games, other than in conjunction with a television or computer; video game interactive hand held remote controls for playing electronic games; controllers for game consoles; arcade video game machines; handheld virtual reality controllers; handheld augmented reality controllers; digital media streaming devices, namely, game consoles

### **Services**

#### **Class 35**

(1) Marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; provision of market research information; promoting the goods and services of others via computer and communication networks; business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; providing an online marketplace for buyers and sellers of goods and services for facilitating the exchange and sale of services and products of third parties via computer and communication networks; providing online marketplaces for sellers of goods and services; operating an online marketplace for connecting sellers with buyers; business networking; employment and recruiting services; advertising and information distribution services, namely,

providing classified advertising space via the internet and communications networks; charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; organizing exhibitions and trade shows in the field of software and hardware development for commercial or advertising purposes; association services that promote the interests of professionals and businesses in the field of mobile software application development; online advertising and promoting the goods and services of others via the internet; business marketing consulting services; press advertising consultancy; providing marketing and advertising consultation services, namely business marketing consulting services, press advertising consultancy, providing marketing and advertising consultancy in the field of social media; arranging and conducting special events, namely, exhibitions, expositions and conferences for commercial, promotional or advertising purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; advertising the goods and services of others via electronic media; organizing, promoting and conducting exhibitions, tradeshow and events for others for business purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; online retail store services featuring virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; dissemination of advertising for others via the internet and communication networks; promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; advertising services, namely, targeting and optimization of online advertising for others; business management; business administration and office functions in the field of marketing, advertising, telecommunications and technology development, namely, conducting marketing studies, developing marketing strategies and marketing concepts for others, creating and updating advertising materials for others, updating and maintenance of data in computer databases; brand consulting, namely, brand imagery consulting services; design of advertising materials for others; providing online business directories featuring the businesses, products and services of others

### **Class 36**

(2) pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services.

### **Class 38**

(3) Photosharing and video sharing services, namely, electronic transmission via a peer-to-peer network of digital photo files, videos and audio visual content in the nature of music, movies, television shows, music videos, news and sports webcasts among internet users; providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; telecommunications services, namely, electronic transmission via global computer networks and the Internet of data, namely, messages, computer graphics, digital images, audio, video and information in the nature of downloadable games, music, audio books, podcasts, voice messages, movies, television programs, music videos, video messages, text messages, photographs, user uploaded video clips and video chat in the field of virtual reality, augmented reality and social networking; providing online forums for communication on topics in the field of entertainment, education, social media, politics, technology, culture and finance; providing access to online communications links via an Internet website portal which transfers mobile device users and Internet users to other local and global online sites that feature entertainment in the field of computer games, social introduction and networking services, entertainment services, namely, online photo sharing, video sharing and text message sharing services, entertainment, namely, live comedic performances, live dance performances, live musical performances, live theatrical performances, film screenings and sporting events and online social networking, entertainment,

namely, books, films, music, news, periodicals, sports, television and video games, and technology and software development; facilitating access to third party websites and to other electronic third party content, namely, digital media content in the nature of music, films, television shows and computer games, via a universal login; providing online chat rooms, email and instant messaging services, and electronic bulletin boards for transmission of messages among computer users; audio, text and video broadcasting services, namely, broadcasting of television programs, radio programs, movies over the internet and other communication networks, namely, global communication networks and wireless networks; voice over internet protocol (VOIP) services; telephony communication services, namely, internet telephony services, fixed and mobile telephony services, wireless telephone services; providing access to computer databases in the fields of social networking, social introduction and dating; electronic transmission of digital photo files, video files in the nature of movies, films and television programs, graphics and audio content in the nature of digital music among internet users; telecommunications and peer-to-peer network computer services, namely, electronic transmission via the Internet, global communication networks and wireless networks of digital images, audio-visual and video content in the nature of music, audio books, podcasts and voice messages, movies, television programs, clips of movies and television programs, music videos, video messages and user uploaded video clips, photographs, video messages, emails, text messages, and advertisements, media advertising communications and information relating to the goods and services of third parties; streaming and live streaming of video, audiovisual, and interactive audiovisual content in the nature of music, movies, television shows, music videos, games, news and sports webcasts via the internet; telecommunications services, namely, electronic transmission via the Internet, global communication networks and wireless networks of virtual and augmented reality content and data, namely, virtual and augmented reality games; providing electronic bulletin boards for transmission of messages among users in the field of general interest; video conferencing services; providing network conferencing services and equipment for video conferencing; teleconferencing; providing online forums for users to share as well as stream information, audio and video files, real-time news, entertainment content, or information, for the purpose of forming virtual communities and engaging in social networking; communication services regarding electronic exchange of voice messages, data, namely, audio data, video data, text data and graphical data in the nature of downloadable games, music, audio books, podcasts, voice messages, movies, television programs, music videos, video messages, text messages, photographs, user uploaded video clips and video chat, via the Internet and other telecommunications networks, namely, global communication networks and wireless networks; photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content in the nature of movies, television programs, music videos, video messages, user uploaded video clips, and video chat among internet users

#### **Class 41**

(4) Entertainment services, namely, providing an online forum for the dissemination of content, data, and information in the field of video games, computer games, interactive multimedia games, virtual reality games, augmented reality games, mixed reality games, interactive motion pictures, interactive videos and interactive television for entertainment and social and business networking purposes; electronic publishing services for others, namely, electronic desktop publishing, on-line electronic publishing of books and periodicals and publishing of electronic publications; entertainment services, namely, providing interactive and multiplayer and single player video and computer games played via the internet and computer communications networks; providing information about video games, electronic and interactive multimedia games via the internet and communications networks; arranging and conducting competitions and facilitating events in the

nature of tournaments and exhibitions for players of electronic and interactive multimedia games; organizing video and computer gaming contest and incentive award programs for software developers to demonstrate excellence in the field of software development; publication of educational materials, namely, publishing of books, journals, newsletters, and electronic publications; entertainment services, namely, providing online virtual reality games, interactive entertainment and virtual reality content in the nature of interactive multimedia games, interactive motion pictures, interactive videos, interactive television and interactive digital multimedia content for use in virtual environments created for entertainment and social and business networking purposes; entertainment services, namely, providing online augmented reality games, interactive entertainment and augmented reality content in the nature of interactive multimedia games, interactive motion pictures, interactive videos, interactive television and interactive digital multimedia content for use in augmented environments created for entertainment and social and business networking purposes; entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content; providing non-downloadable video games via wireless computer networks; providing online computer games; providing non-downloadable online virtual reality games; providing non-downloadable online augmented reality games; providing non-downloadable online mixed reality games; entertainment services, namely, providing online non-downloadable video games; organizing exhibitions and events in the nature of workshops and seminars in the field of interactive entertainment, namely, interactive multimedia computer and video games, virtual reality, and augmented reality, consumer electronics, namely, game consoles, virtual reality headsets and glasses and video game entertainment industries for cultural or educational purposes; arranging and conducting educational conferences in the fields of interactive entertainment, namely, interactive multimedia computer and video games, virtual reality, and augmented reality, consumer electronics, namely, game consoles, virtual reality headsets and glasses and video game entertainment industries; organizing exhibitions and events in the nature of workshops and seminars in the field of software development for educational purposes; educational services, namely, organizing and conducting conferences and seminars in the fields of virtual reality, augmented reality, artificial intelligence and the internet of things hardware and software; providing computer, electronic and online databases in the field of entertainment, namely, virtual reality games, augmented reality games and mixed reality games; rental of photography and videography kiosks for capturing, uploading, editing and sharing of pictures and videos; entertainment services, namely, streaming entertainment content in the nature of games, movies, television programs and films and live streaming video of entertainment events in the nature of live comedic performances, live dance performances, live musical performances, live theatrical performances, film screenings and sporting events via the Internet and other electronic communications networks, namely, global communication networks and wireless networks; providing online computer and video games; entertainment services, namely, arranging and conducting of video and computer gaming competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, consumer electronics, and video game entertainment software and hardware; production of video and computer game; virtual reality arcade services; augmented reality arcade services; online virtual reality gaming services; online augmented reality gaming services; providing online computer games and interactive games; augmented reality video production; virtual reality video production; digital video, audio and multimedia entertainment publishing services, namely, selecting, editing and publication of user-created digital videos on a global computer network; entertainment services, namely, providing online virtual reality environments in which users can interact for recreational and business purposes; entertainment services, namely, providing online augmented reality environments in which users can interact for recreational and business purposes; providing information about online computer games and video games via computer and communication

networks; arranging and conducting competitions for video gamers and computer game players in the field of video and computer games; facilitating events for video gamers and computer game players, namely, organization of video and computer game competitions; providing information relating to education services, namely, education courses in the field of computers, technology, game development, software development, mobile application development, artificial intelligence, virtual reality and augmented reality; providing of training in the fields of computer hardware and software, gaming, and virtual reality and augmented reality technologies; organization, arranging and conducting of sports competitions in the field of video game competitions; organizing and conducting of sporting and cultural events, namely, video game competitions

### **Class 42**

(5) Design and development of computer hardware and software; computer services, namely, hosting virtual communities for registered users in order to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; computer services in the nature of creating virtual communities for registered users to customize electronic personal and group profiles and webpages featuring user-defined and specified information, namely, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data on the internet and communication networks; hosting online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio and video content in the nature of downloadable games, music, audio books, podcasts, voice messages, movies, television programs, music videos, video messages and user uploaded video clips, photographic images, text messages, computer graphics and video chat; application service provider (ASP) services, namely, hosting computer software applications of others; hosting online web facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online web facilities; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information in the field of computer and virtual reality and augmented reality technology by means of computer and communication networks; providing non-downloadable e-commerce software to allow users to perform electronic business transactions, namely, secure financial and commercial transactions and to facilitate payment options for users, via a global computer and communication network; software as a service (SaaS) services featuring software for sending electronic message, and for sending electronic message notification alerts and reminders via a global computer network; development of hardware for use in connection with electronic and interactive multimedia games; electronic and interactive multimedia game development services; hosting online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data in the nature of virtual reality games, photographic images, music, audio books, podcasts and voice messages, movies, television programs, clips of movies and television programs, music videos, video messages and user uploaded video clips, text messages; hosting online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data in the nature of augmented reality games, photographic images, music, audio books, podcasts and voice messages, movies, television programs, clips of movies and television programs, music videos, video messages and user uploaded video clips, text messages; hosting online sites that give users

the ability to upload, modify and share mixed reality content, information, experiences and data in the nature of mixed reality games, photographic images, music, audio books, podcasts and voice messages, movies, television programs, clips of movies and television programs, music videos, video messages and user uploaded video clips, text messages; providing temporary use of non-downloadable software for processing electronic payments for online and in-app purchases; platform as a service (PAAS) services, namely computer software to allow users to perform electronic business and e-commerce transactions; providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data in the nature of virtual reality games, photographic images, music, audio books, podcasts and voice messages, movies, television programs, clips of movies and television programs, music videos, video messages and user uploaded video clips, text messages; software for electronic messaging; providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations through the uploading, downloading, posting and tagging of audio, video and text messages, comments, user uploaded video clips, movies, films, photos, music, podcasts, and recorded commentary, animation, pictures, digital images; application service provider (ASP) featuring software to enable the sharing and displaying a user's location, planning activities with other users and making recommendations through the uploading, downloading, posting and tagging of audio, video and text messages, comments, user uploaded video clips, movies, films, photos, music, podcasts, and recorded commentary, animation, pictures, digital images; providing temporary use of non-downloadable computer software for social and destination mapping, namely, software for tagging images, audio-visual and video content in the nature of photographic images, video and text messages and user uploaded video clips with data indicating date, location, people and subject matter; application service provider (ASP) featuring software to enable social and destination mapping, namely, software for tagging images, audio-visual and video content in the nature of photographic images, video and text messages and user uploaded video clips with data indicating date, location, people and subject matter; providing temporary use of non-downloadable software for ordering and purchasing goods and services of others via the Internet, a global communications network and wireless communication networks; application service provider (ASP) featuring software to enable the ordering and purchasing of goods and services of others via the Internet, a global communications network and wireless communication networks; providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; providing temporary use of non-downloadable software for providing a virtual marketplace; providing temporary use of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, voice and text message-enabled conversational bots, virtual agents and virtual assistants; application service provider (ASP) featuring software to enable interaction and communication between humans and AI (artificial intelligence) platforms, namely, voice and text message-enabled conversational bots, virtual agents and virtual assistants; platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages in the nature of photographs, virtual reality games, music, audio books, podcasts, voice and text messages, movies, television programs, clips of movies and television programs, music videos and user uploaded video clips; providing temporary use of non-downloadable software for streaming multimedia entertainment content in the nature of photographs, virtual reality games, music, audio books, podcasts, voice and text messages, movies, television programs, clips of movies and television programs, music videos and user uploaded video clips; providing computer software with personal assistant functionalities; providing computer software with social assistant functionalities; design and development of computer game hardware and software; design and development of virtual reality

hardware and software; design and development of augmented reality hardware and software; design and development of mixed reality hardware and software; design and development of video game hardware and software; computer services in the nature of providing customized online pages featuring user-defined and specified information, personal profiles, virtual reality, and augmented reality content and data in the nature of virtual and augmented reality games, photographic images, music, audio books, podcasts and voice messages, movies, television programs, clips of movies and television programs, music videos, video messages and user uploaded video clips, text message; software development; design and development of interactive multimedia software; maintenance and repair of computer software; providing non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring multimedia entertainment content in the nature of text, visual materials, audio materials and audiovisual materials, namely, movies, television programs, clips of movies and television programs, music videos and user uploaded video clips, literary works, music files, digital documents and electronic materials, namely, electronic books and electronic periodicals; computer services, namely, providing information in the fields of technology regarding software development via the internet; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer services, namely, cloud hosting provider services, namely, cloud computing video hosting web sites, cloud computing web hosting services; online non-downloadable cloud computing software for use in electronic storage of data; online non-downloadable cloud computing software for virtual, augmented reality applications and environments, namely, virtual reality experiences, augmented reality experiences, mixed reality experiences and interactive multimedia experiences; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files in the nature of downloadable games, music, audio books, podcasts, voice messages, movies, television programs, music videos, video messages, text messages, digital images, photographs and user uploaded video clips, via the internet and other electronic communication networks; hosting digital virtual reality and augmented reality content, namely, virtual reality games and augmented reality games on the internet; scientific and technological services and research and design relating to software applications and digital content; industrial analysis and research services relating to computer hardware and software, gaming, and virtual reality and augmented reality technologies; computer services, namely, providing remote management of devices, namely, computers, wearable computers, mobile phones, smart phones, televisions, and game consoles, via computer networks, wireless networks and the internet; providing software for facilitating and arranging for the financing and distribution of fundraising and donations; providing software on a global computer network for facilitating and arranging for the financing and distribution of fundraising and donations; providing online resources for software developers, namely, blogs featuring software and game development information, non-downloadable tutorial videos, non-downloadable informational videos, electronic assets in the nature of non-downloadable digital documents, non-downloadable audio content, and non-downloadable motion pictures, online publications in the nature of guide books featuring software development information, and online publications in the nature of e-books and educational articles featuring software and game development information; creating and maintaining online journals, namely, blogs for others in the fields of virtual reality, augmented reality, mixed reality, video games, computer games, interactive multimedia games, interactive motion pictures, interactive videos, interactive television and interactive digital multimedia content, software development, social networking; hosting a website featuring online computer games; providing information concerning design and development of computer game software and virtual reality game software from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information by means of computer and

communication networks

**Class 45**

(6) online social introduction, networking and dating services; online social networking services; user verification services, namely, providing an authentication of personal identification information; identification verification services, namely, providing authentication of personal identification information; business identification verification services, namely, providing an authentication of personal identification information.

### Trademark Description

The trademark consists of the position of two semicircular designs applied to a three dimensional plastic flip top pack. The upper semi-circle overlaps the top portion of the bottom semi-circle and features the term KLEENEX. The bottom semi-circle features horizontal rows of droplets and partial droplets. The flip top lid and the rectangular shaped flip top pack shown in dashed lines do not form part of the trademark, but are included merely to show the positioning of a sign.

### Colour Claim

Colour is claimed as a feature of the trademark. The upper semicircular area of the trademark appears in shades of blue which overlaps the lower semicircular area and features the white word "Kleenex" in stylized font; the lower white semicircular area features horizontal rows of blue, gray and white shaded droplets and partial droplets.

### Goods

#### Class 03

### Goods

#### Class 16

(1) Gift cards.

#### Class 29

(2) Frozen vegetables; prepared meals consisting primarily of potatoes, eggs and cheese; bacon; preserved meats and sausages; smoothie mixes consisting of frozen fruits and frozen yogurt cubes.

#### Class 30

(3) Instant pancake and waffle mixes; hollandaise sauce; bread and pastry.

### Services

#### Class 35

(1) Offering advice and consultation with respect to the franchising, establishment and operation of restaurants, cafes, food catering, take-out and delivery of food and meals services, and the business management of restaurants, cafes, food catering, take-out and delivery of food and meals services.

#### Class 43

(2) Operation of restaurants, cafes, bars, and food catering featuring take-out and delivery of food and meals services.

#### Class 45

(3) Issuing licences for franchising concepts of restaurants, cafes, take-out and delivery of food and meals services.

### Goods

#### Class 01

(1) adhesives for use in the construction industry; artificial plant cultivation soil made of mineral materials; artificial plant cultivation soil made of plastic materials; artificial plant-cultivation soil made of mineral materials; artificial plant-cultivation soil made of plastic materials; artificial soil for plant cultivation made from mineral materials; artificial soil for plant cultivation made from plastic materials; chemical preparations which penetrate through walls, floors and ceilings used for fire prevention in buildings; chemical source material for the deposition of thin films upon semiconductor wafers for the manufacture of semiconductors; construction industry adhesives; glutamic acid as raw materials for use in the manufacture of cosmetics; mineral filtering materials for the sewage treatment industry; soil stabilizers for road construction; soil stabilizers for use in road construction; tea extracts for use in the manufacture of cosmetics; unprocessed artificial resins as raw materials in the form of powders, liquids or pastes; unprocessed plastic materials in powder, liquid or paste form; unprocessed plastics materials in powder, liquid or paste form; waterproofing chemical compositions for wood and other building construction surfaces;

#### Class 03

(2) abrasives for re-surfacing materials before painting; aromatic cedar planking for construction purposes

#### Class 04

(3) wax for use in coating food packaging materials

#### Class 05

(4) algacides being chemicals for swimming pool maintenance; bonding and primer materials for dental purposes; bone fillers consisting of living materials; bone graft materials derived from human tissue; bone growth media consisting of biological materials for medical purposes; bone void fillers consisting of biological materials; bone void fillers consisting of natural materials; ceramic materials for dental use for fillings; composite materials for dental and dental technical purposes; composite materials for dental purposes; dental composite materials; dental impression materials; dental porcelain materials; dental restoration material; embedding material for dental

and dental technical purposes; embedding material for dental purposes; fixing materials for dental purposes; lining materials for dental purposes; material for dental bridges; material for dental crowns; material for dental prostheses; material for filling teeth; material for repairing teeth and for dental crowns and bridges; material for stopping teeth; material for stopping teeth and dental wax; material for tooth crowns and tooth bridges for dental and dental technical purposes; materials for artificial teeth; materials for crowns and bridges for dental use and for oral prophylaxis; materials for dental fillings; materials for dental fillings and for sealing purposes; materials for dental sealing purposes; materials for making dental impressions; materials for oral prophylaxis; materials for repairing dental bridges; materials for repairing dental crowns; materials for repairing teeth; materials for repairing teeth and dental prostheses; materials for tooth restoration; nutritional supplements for building body mass; orthodontic alginate impression materials; porcelain materials for use in dentistry; synthetic materials for dental use for fillings; synthetic materials for use as dental fillings; teeth filling material

### **Class 06**

(5) anchor bolts of metal for use in bridge construction; building boards of metal; building panels of metal; cast iron for use in hydraulics, sanitation, road systems and buildings; cast iron material for railroad tracks; cast iron material for railway tracks; cladding of metal for building; cladding of metal for construction and building; drains of metal for use in the construction of basement waterproofing systems; flashing of metal for building; handrails of metal for use in buildings; linings of metal for building purposes; materials of metal for funicular railway permanent ways; materials of metal for funicular railways; materials of metal for railway construction; materials of metal for scaffolds; metal brackets for use in the construction and assembly of decking; metal building flashing; metal drains for use in the construction of basement waterproofing systems; metal partitions for building; metal pillars for building; metal reinforcement materials for building; metal reinforcing materials for concrete; metal slabs for building; metal staples for construction or industrial use; metal trim for buildings; metal trims for buildings; metallic materials for railway tracks; moulds of metal for casting ceramic materials; partitions of metal for building; pillars of metal for building; porches of metal for building; portable mobile metal office buildings; refractory construction materials of metal; reinforcing materials of metal for building; reinforcing materials of metal for machine belts; reinforcing materials of metal for pipes; roof vents of metal for residential and commercial buildings; slabs of metal for building; staples for construction or industrial use; steel angles for use in building construction; steel frames for building; tiles of metal for building; wall claddings of metal for building; wall linings of metal for building; wall tiles of metal for building

### **Class 07**

(6) concrete construction machines; construction rammers; machine tools for breaking up road surface material; machine tools for removing waste material; machines for separating recyclable materials; material handling buckets; mechanical winders and machines for forming coils with pipes made of plastic materials; printing presses for ceramic material; road scrapers; rubber tracks being parts of crawlers on construction machines; waste material conveying machines

### **Class 08**

(7) hand tools for repair and maintenance of bicycles

### **Class 09**

(8) cellular telephone covers made of cloth or textile materials; computer hardware and computer software for database management; computer hardware and software for database management; computer programmes for document management; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer software for controlling and managing access server applications; computer software for database

management; computer software for managing retail store customer accounts; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computers for managing control devices for aircraft; computers for use in data management; facilities management software to control building environmental access and security systems; mobile telephone covers made of cloth or textile materials; multimedia CD-ROMs containing information in the field of tax management; point-of-sale [POS] terminals; point-of-sale terminals; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; x-ray apparatus for detecting moisture in building material

### **Class 10**

(9) bone implants made from artificial materials; bone void fillers consisting of artificial materials; cochlear implants made from artificial materials; cotyloid implants made from artificial materials; intravascular implant medical devices made of artificial material; medical devices, namely, intravascular implants comprised of artificial material; medical, surgical and orthopaedic implants made of artificial materials; orthopaedic joint implants made from artificial materials; osseous implants made of artificial materials; spinal implants composed of artificial material; spinal implants made from artificial materials; subcutaneous valves comprised of artificial materials for implantation; surgical mesh comprised primarily of artificial materials; suture materials

### **Class 11**

(10) electric radiators for heating buildings; radiators for heating buildings

### **Class 12**

(11) automatically guided driverless material handling tractors; automatically guided material handling trucks; boat building kits; construction tractors; driverless material handling trucks

### **Class 16**

(12) artists' material molds for modeling clays; artists' materials in the form of moulds for modeling clays; binding materials for books and papers; book binding materials; bookbinding material; bookbinding materials; packaging material made of starches; padding materials of paper or cardboard; paper; paper for use as material of stock certificates [shokenshi]; printed material in the nature of color samples; rubbish bags made of paper or plastic materials; tissue paper for use as material of stencil paper [ganpishi]

### **Class 17**

(13) caulking materials; cellulose acetate film used as packing material; cushioning materials of rubber or plastics; electrical insulators made of ceramic materials; fiberglass insulation for buildings; fibreglass fabrics for building insulation; fibreglass insulation materials for buildings; foam glass for use as an insulating material; foam glass for use as an insulating material for buildings; foam insulation materials for use in building and construction; foam sheeting for use as building insulation; foils of metal for building insulation; gasket material in sheet form for automobiles; gasket material in sheet form for switching gear; glass fibers for use in the manufacture of building insulation; glass fibre filtering materials; glass fibre insulation materials for use in construction; glass fibres for use in the manufacture of building insulation materials; glass wool for building insulation; insulating foam for use in building and construction; insulating materials made of polyethylene foam; insulating materials made of polyurethane foam; insulating refractory materials; insulation materials for aircraft; insulation materials for pipes; insulation

materials for underground pipes and tanks; metal foil for building insulation; mineral wool for building insulation; mulch mats made of plastic sheet materials for use in suppressing weeds; packing material for forming seals for candy packaging; packing material for forming seals for medical and pharmaceutical packaging; packing materials of plastic for shipping containers; packing materials of rubber for shipping containers; padding material made of plastic; padding materials of plastic for shipping containers; padding materials of plastics; padding materials of rubber; padding materials of rubber for shipping containers; pipe insulation materials; plastic material in extruded form for use in production; plastic sheet materials for use in manufacture; plastic sheet materials for use in the manufacture of countertops; plastic sheeting used in the construction industry as a vapour barrier; polyurethane film for use as building insulation; polyurethane films for use in sealing and insulating buildings; polyurethane foam sheeting for use as building insulation; quay wall-mounted rubber cushioning materials for the prevention of damage to docks, ships and vessels; rubber material for recapping tyres; semi-processed brake lining materials; slag wool for building insulation; stuffing material of plastic and glass beads; vulcanized fibre for use in the manufacture of building insulation materials; vulcanized fibre for use in the manufacture of electrical insulation materials;

**Class 18**

(14) jewellery bags of textile material sold empty

**Class 19**

(15) adhesive mortar for building purposes; agalmatolite for use in building; agglomerated cork for building; amphibole for use as building materials; asphalt felt for building purposes; asphalt for building purposes; binding material for road repair; bitumen paper for building; bonding mortar for building purposes; building cardboard; building construction materials in the nature of aromatic cedar planking; building glass; building paper; building sand; building stone; building stones for building; building timber; caissons for construction work under water; cement partitions for buildings; clay for use as building material; coloured sheet glass for building; common sheet glass for building; concrete partitions for buildings; concrete poles for use as building materials; concrete slabs for building; concrete walls for building; construction timber; decorative glass for building; felt for building; figured plate glass for building; foam glass for building; glass slabs for use in building; gravel; grout; infrared-ray absorbing glass for building; insulating glass for building; insulating glass for construction purposes; laminated flat glass for building; logs used as building material; lumber; luminous glass for building; marble used as building material; mineral pellets for use in the building industry; mortar for building; mosaics for building; multilayer panels of plastic for use in building; non-metallic minerals for building; non-metallic minerals for construction; non-woven textiles made of synthetic fibres for use in the building industry; olivine for building; paperboard for building; planks of wood for building; plaster for use in building; plaster used for building purposes; plastic storm sewer pipes for construction; polymeric bitumen emulsion for waterproofing buildings; pvc conduit pipes for building; PVC drains for construction of basement waterproofing systems; PVC porches for buildings; PVC rigid pipes for construction purposes; reeds for building; reinforced glass for building; road marking sheets and strips of synthetic material; rock crystal for use as building materials; rubber bearings for seismic isolation of buildings; sandstone for building; serpentine building materials; serpentine for use as building materials; stone veneer building material; structural timber; tar; tempered glass for building; terra cotta for building purposes; terra cotta for use as building material; trestles for use in construction; tuff for use as building materials; vinyl siding; window glass for building; window panes for buildings; wired plate glass for building; wood porches for buildings; wood pulp board for building; wooden partitions for building

**Class 20**

(16) sales counters; unworked or partly worked material shells

#### **Class 21**

(17) bird baths; glass incorporating fine electrical conductors; modified sheet glass

#### **Class 22**

(18) awnings of synthetic materials; bags for dirty laundry; bags for the transport and storage of materials in bulk; canvas bags for the transport and storage of materials in bulk; chemical fibre bags for the transport and storage of materials in bulk; cloth bags for the transport and storage of materials in bulk; cotton bags for the transport and storage of materials in bulk; down feathers for stuffing material; jute bags for the transport and storage of materials in bulk; lashing straps made of synthetic textile materials; laundry bags; packaging bags of textile material; quick-release tie-down straps made of synthetic textile materials; ratchet tie-down straps made of synthetic textile materials; tarp straps made of synthetic textile materials; tarpaulin straps made of synthetic textile materials; tarpaulins made from plastic-coated materials; tarpaulins made from plastics coated materials; tie-down straps made of synthetic textile materials; tow straps made of synthetic textile materials

#### **Class 23**

(19) threads of plastic materials for textile use; yarn of plastic materials for textile use

#### **Class 24**

(20) curtain holders of textile material; curtain loops of textile material; fabrics made of synthetic materials; face towels made of textile materials; furniture coverings made of plastic materials; hand towels made of textile materials; place mats of textile material; small curtains made of textile materials; textile substitute materials made from synthetic materials; towels made of textile materials

#### **Class 25**

(21) embossed soles and heels of rubber or of plastic materials

#### **Class 26**

(22) ribbons

#### **Class 28**

(23) building games; Christmas trees of synthetic material; construction toys; material for assembly of fishing streamer flies; modular construction toys; playset buildings; toy blocks; toy building blocks; toy building blocks capable of interconnection; toy building bricks; toy building structures; toy building structures and toy vehicle tracks; toy buildings; toy construction blocks; toy construction sets; toy construction vehicles

#### **Class 29**

(24) salted eggs; sausage skins made of synthetic materials

#### **Class 30**

(25) batter mixes for okonomiyaki [Japanese savory pancakes]; batter mixes for okonomiyaki [Japanese savoury pancakes]; kettle corn; okonomiyaki [Japanese savoury pancakes]; salted biscuits; saltine crackers; savoury and salted biscuits

#### **Services**

#### **Class 35**

(1) administration of incentive award programmes to promote the sale of the goods and services of others; administrative hotel management; administrative management of health care clinics;

administrative management of hospitals; advertising and business management consultancy; advice and information about customer services and product management and prices on Internet sites in connection with purchases made over the Internet; advice and information concerning commercial business management; advice in the field of business management and marketing; advice relating to the organisation and management of business; advisory services for business management; advisory services relating to business management; advisory services relating to business management and business operations; airport management; arranging and conducting of auction sales; auctioneering of property; business administration and management; business management; business management advice; business management advisory services relating to franchising; business management analysis; business management and advice; business management and enterprise organization consultancy; business management and organization consultancy; business management assistance; business management assistance and particularly carrying out tasks necessary for the smooth conduct of sales by auction; business management assistance for industrial and commercial companies; business management assistance for industrial or commercial companies; business management consultancy; business management consultancy and advisory services; business management consultancy as well as development of processes for the analysis and the implementation of strategy plans and management projects; business management consultancy in the field of transport and delivery; business management consultancy services; business management consultancy via the Internet; business management consultation; business management consulting; business management consulting with relation to strategy, marketing, production, personnel and retail sale matters; business management for a trade company and for a service company; business management for freelance service providers; business management for shops; business management in the field of transport and delivery; business management of hotels; business management of hotels for others; business management of performing artists; business management of reimbursement programmes for others; business management of reimbursement programs for others; business management of sports people; business management planning; business management services; business management services relating to information and data compiling and analyzing; business management supervision; business organisation and management consulting services; business organization and management consultancy including personnel management; business organization and management consulting; business project management services for construction projects; business risk management services; carrying out auction sales; commercial assistance in business management; commercial business management; commercial business management services; computer database management services; computer file management; computerised database management; computerised file management; computerized business file management; computerized central file management; computerized database management; computerized file management; conducting of auction sales; consignment sale of art; consignment sale of clothing; consignment sale of jewellery; consignment sale of sporting goods; construction cost management; consultancy relating to personnel management; consulting in the fields of business organization and management; consulting services in business organization and management; cost management in the field of health care; creating and updating advertising material for others; database management; development of hospital management systems; distribution of advertising materials for others; duplication of library material; employment management agencies; forestry management; forestry management consulting services; hospital management; hotel management; hotel management for others; human resources management; interim business management; inventory management in the field of auto parts; leasing of advertising space on the Internet for employment advertising; leasing of office equipment; management and compilation of computerised databases; management and compilation of computerized databases; management and operation assistance to commercial businesses; management of an airline company;

management of computerized databases; management of health care clinics for others; management of performing artists; management of professional athletes; mediation of agreements for others for the sale and purchase of goods; mediation of contracts for purchase and sale of products; medical cost management; modeling services for advertising or sales promotion; modelling for advertising or sales promotion; online sales of arts and crafts; online sales of automobile parts; online sales of body care products; online sales of car audio electronics; online sales of clothing; online sales of cosmetics; online sales of downloadable pre-recorded music; online sales of downloadable ring tones; online sales of food items; online sales of footwear; online sales of headwear; online sales of home entertainment electronics; online sales of housewares; online sales of lingerie; online sales of photographic equipment; online sales of sporting goods; online sales of toys; organisation and management of customer loyalty programs; personnel management; personnel management and employment consultancy; personnel management assistance services; personnel management consultancy; personnel management consultation; personnel management consulting; planning concerning business management, namely, searching for partners for amalgamations and business take-overs as well as for business establishments; procurement of contracts for the purchase and sale of goods; procurement of contracts for the purchase and sale of goods and services; procuring of contracts for the purchase and sale of goods of others; production of advertising materials for others; professional consultancy relating to personnel management; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; promoting the sale of credit card accounts through the administration of incentive award programs; promoting the sale of goods and services by awarding purchase points for credit card use; promoting the sale of goods and services of others by awarding purchase points for credit card use; promoting the sale of goods and services through a consumer loyalty program; promoting the sale of goods and services through promotional contests and the distribution of related printed material; promotional management for sports personalities; providing administrative assistance to pharmacies for managing drug inventories; providing advice and information relating to commercial business management; providing advice in the field of business management and marketing; providing assistance in the field of business management within the framework of a franchise contract; providing business management start-up support for other businesses; providing human resources management and recruitment services for others; providing information in the field of time management; providing quality management systems auditing; public utilities cost management; real estate sales management services; recruitment of high-level management personnel; rental of sales stands; restaurant management for others; retail sale of audio equipment; retail sale of automobile parts; retail sale of clothing; retail sale of computer software; retail sale of cosmetics; retail sale of food; retail sale of jewellery; retail sale of lingerie; retail sale of photographic equipment; retail sale of sporting goods; retail sale of toys; sale of cars; sale of clothing; sale of computer software; sale of customized gift baskets; sale of flowers; sale of motor vehicles; sales demonstration for others; sales demonstrations of computer hardware; sales demonstrations of kitchen appliances; sales demonstrations of surgical instruments; sales promotion for others by means of privileged user cards; sales promotion for others provided through the distribution and the administration of privileged user cards; sales promotion for others through trading stamp schemes; sales volume tracking for others; sales volume tracking services; supply chain management services; talent agency services in the nature of business management of performing artists; talent management agencies; travel management; updating and maintenance of data in computer databases; wholesale sales of auto parts; wholesale sales of clothing; wholesale sales of cosmetics; wholesale sales of home entertainment electronics; wholesale sales of sporting goods

**Class 36**

(2) agencies for leasing of land; agencies for renting of buildings; apartment house management; apartment management services; appraisal of intellectual property; appraisals for insurance claims of personal property; arranging finance for construction projects; arranging of leases and rental agreements for real estate; assessment and management of real estate; automobile lease financing; brokerage for renting of buildings; brokerages for leasing of land; building leasing; building management; cash management; debt management services; estate trust management; estimating construction costs; evaluation of real property; financial asset management; financial management; financial management of employee pension plans; financial management of reimbursement payments for others; financial management via the internet; financial valuation of personal property and real estate; formation, offering and management of limited partnerships; intellectual property valuation services; investment management; land leasing; lease of real estate; lease-purchase financing; lease-purchase financing services; lease-purchase of buildings; leasing of apartments; leasing of buildings; leasing of farms; leasing of land; leasing of office space; leasing of real estate; leasing of residential condominiums located within hotel developments; leasing of shopping mall space; management of a capital investment fund; management of apartment houses; management of apartments; management of office buildings; management of portfolios comprising securities; management of portfolios of transferable securities; property evaluation; property management; property management consulting services; real estate management; real estate management services; rental of buildings; renting of buildings; risk management services; venture capital fund management

**Class 37**

(3) advisory services relating to the construction of buildings; aircraft maintenance; aircraft repair and maintenance; airplane maintenance and repair; automobile repair and maintenance; bridge construction services; building caulking services; building construction contracting services; building construction services; building construction supervision; building damp-proofing; building demolition; building disinfecting; building inspection; building insulating; building maintenance and repair; building of fair stalls and shops; building of shops; building reinforcing; building restoration; burner maintenance and repair; cellular tower maintenance; cleaning of building exterior surfaces; cleaning of buildings; cleaning of external surfaces of buildings; clock and watch maintenance; clock and watch repair and maintenance; clock repair and maintenance; construction and renovation of buildings; construction and repair of buildings; construction of airports; construction of buildings; construction of fair stalls and shops; construction of medical establishments; construction of pipelines; construction of residential and commercial properties; construction of trade fair and exhibition stands; construction of wave energy power plants; construction of wind power plants; consultation in building construction supervision; consulting services for offshore oil and gas facility construction; custom shipbuilding; demolition of buildings; development of residential and commercial properties; factory construction; film projector repair and maintenance; furniture maintenance; general building contractor services; harbour construction; harbour construction services; house building and repair; information concerning rental of equipment for building construction; information pertaining to aircraft construction, repair and maintenance; installation and maintenance of photovoltaic installations; installation and maintenance of solar thermal installations; installation, maintenance and repair of computer hardware; installation, maintenance and repair of office machines and equipment; installation of building insulation; installation of building scaffolds; installation of working and building platforms; installation, repair and maintenance of computers; installation services of building scaffolds, working and building platforms; laying and construction of pipelines; leasing of construction equipment; leasing of heavy equipment; maintenance and repair of aeroplanes; maintenance and repair of bicycles;

maintenance and repair of boats; maintenance and repair of buildings; maintenance and repair of hardware for computer networks; maintenance and repair of heating installations; maintenance and repair of land vehicles; maintenance and repair of motor vehicles; maintenance and repair of pipelines; maintenance and repair of railway vehicles; maintenance and repair of vehicles; maintenance and restoration of works of art; maintenance of computer hardware; maintenance of motor vehicles; maintenance of non-electric cooking heaters; maintenance of safes; maintenance of septic systems; maintenance of 3D printers; motor vehicle maintenance; motor vehicle maintenance and repair; municipal road and sidewalk maintenance services; naval shipbuilding; office machines and equipment installation, maintenance and repair; oil pipeline construction; pier breakwater building; pipeline construction; pipeline construction and maintenance; pipeline construction services; plastering and painting of building interiors; plastering services; plumbing maintenance advisory services; project management in the field of building construction; providing aircraft construction, repair and maintenance information; refuelling and maintenance vehicle service stations; refurbishment of buildings; renovation and restoration of buildings; renovation of buildings; rental of building scaffolds, working and building platforms; repair and maintenance of agricultural machines; repair and maintenance of agricultural machines and implements; repair and maintenance of air-conditioning apparatus for industrial purposes; repair and maintenance of aircraft; repair and maintenance of airplanes; repair and maintenance of automobiles; repair and maintenance of bicycles and motorcycles; repair and maintenance of boilers; repair and maintenance of booster pumps; repair and maintenance of building scaffolds, working and building platforms; repair and maintenance of buildings in case of demolition; repair and maintenance of chemical plants; repair and maintenance of chemical processing machines; repair and maintenance of chick brooders; repair and maintenance of cinematographic machines; repair and maintenance of computers; repair and maintenance of construction machines; repair and maintenance of conveyors; repair and maintenance of cooking pots and pans; repair and maintenance of cultivating machines and implements; repair and maintenance of egg incubators; repair and maintenance of electric motors; repair and maintenance of elevators lifts; repair and maintenance of feed pumps; repair and maintenance of fire alarms; repair and maintenance of firearms; repair and maintenance of fodder cutters; repair and maintenance of fodder mills; repair and maintenance of fodder mixers; repair and maintenance of fodder presses; repair and maintenance of gas water heaters; repair and maintenance of gasoline station equipment; repair and maintenance of glassware manufacturing machines and apparatus; repair and maintenance of harvesting machines and implements; repair and maintenance of household water purifiers; repair and maintenance of industrial air-conditioners; repair and maintenance of industrial dish washing machines; repair and maintenance of industrial furnaces; repair and maintenance of industrial washing machines; repair and maintenance of integrated circuits manufacturing machines and systems; repair and maintenance of machines for processing foods or beverages; repair and maintenance of machines for use in beauty salons or barbers' shops; repair and maintenance of medical machines; repair and maintenance of metalworking machines and tools; repair and maintenance of milking machines; repair and maintenance of mining machines; repair and maintenance of motor vehicles; repair and maintenance of movie projectors; repair and maintenance of musical instruments; repair and maintenance of nuclear power plants; repair and maintenance of optical laboratory machines; repair and maintenance of overhead projectors; repair and maintenance of plant fiber processing machines and implements; repair and maintenance of plastic processing machines; repair and maintenance of power generators; repair and maintenance of power-driven floor cleaning machines; repair and maintenance of printing or bookbinding machines; repair and maintenance of railway rolling stock; repair and maintenance of semiconductor manufacturing machines; repair and maintenance of sericultural machines and implements; repair and maintenance of sewing machines; repair and maintenance of shoe making

machines and instruments; repair and maintenance of storage tanks; repair and maintenance of textile machines; repair and maintenance of tobacco processing machines; repair and maintenance of vehicle washing installation; repair and maintenance of vehicles; repair and maintenance of vending machines; repair and maintenance of waste compacting machines and apparatus; repair and maintenance of water pollution control equipment; repair and maintenance of 3D printers; repair of buildings; repair or maintenance of photographic laboratory machines; repair or maintenance of video frequency machines and apparatus; repair or maintenance of waste crushing machines and apparatus; repair work on buildings; restoration of buildings; road construction services; safe maintenance and repair; scaffolding construction; shipbuilding; shipbuilding and providing information relating thereto; street construction; strong-room maintenance and repair; supervision of building construction; supervision of building demolition; swimming pool maintenance; swimming-pool maintenance; underwater building and construction; vehicle maintenance; vehicle maintenance and repair; warehouse construction and repair; watch maintenance services; yacht building

### **Class 38**

(4) leasing access time to a computer database containing legal information; leasing access time to a computer database in the field of community social events; leasing access time to a computer database in the field of cooking; leasing access time to a computer database in the field of job postings; leasing access time to a computer database in the field of university courses; leasing access time to an electronic bulletin board in the field of community social events; leasing access time to an electronic bulletin board in the field of cooking; leasing access time to an electronic bulletin board in the field of job postings; leasing access time to an electronic bulletin board in the field of university courses; leasing of modems; leasing of telephone booths; leasing of telephones; leasing of video conferencing equipment; leasing satellite transmission capacity

### **Class 39**

(5) hazardous materials warehousing; leasing of automobiles; leasing of garage space; leasing of motor vehicles; leasing of storage space; leasing of trucks; sale of airline tickets

### **Class 40**

(6) decontamination of hazardous materials; detoxification of hazardous materials; hazardous waste management; leasing of sewing machines; sorting of waste and recyclable material; technical consulting in the field of waste management; treatment of materials for the manufacture of ceramic goods; waste management contracting services; waste management services; water and sewer management

### **Class 41**

(7) leasing of cameras; leasing of ice skates; leasing of roller skates; leasing of ski equipment; leasing of skin diving equipment; leasing of skis; leasing of snowboarding equipment; leasing of snowboards; leasing of stock photography; providing courses in the field of water management; sale of concert tickets; sale of lottery tickets; theatre management

### **Class 42**

(8) building and maintaining websites; cloud computing providing software for database management; computer leasing; computer programming and maintenance of computer programs; computer software installation and maintenance; computer software project management services; construction drafting; construction planning; creating and maintaining blogs for others; creating and maintaining weblogs for others; creation and maintenance of web sites for others; creation, design, development and maintenance of web sites for third parties; design and maintenance of computer sites for third parties; design and maintenance of web sites for others; design, creation, hosting

and maintenance of internet sites for third parties; design, creation, hosting, maintenance of websites for others; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; designing of packaging and wrapping materials; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); drafting of construction plans for recreation premises; elaboration and maintenance of web sites for third parties; installation and maintenance of computer software; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; installation, repair and maintenance of computer software; laboratory testing of materials; leasing of computer programs; leasing of computers; maintenance and updating of computer software; maintenance and upgrading of computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; maintenance of websites for others; managing web sites for others; material testing; material testing services; materials testing and analysing; materials testing and evaluation; planning of buildings and infrastructure systems for buildings; preparation, update, installation and maintenance of computer software; providing quality assurance in the construction industry; research on building construction; software as a service (SAAS) provider in the field of providing customer relations management

#### **Class 43**

(9) leasing of kitchen worktops; leasing of water dispensers; rental and leasing of lighting apparatus and lighting systems for use in municipality lighting and public events

#### **Class 44**

### Goods

#### Class 09

Computer software allowing aircraft owners and operators to view the professional profiles and availabilities for contract work of aircraft pilots, flight crews and aircraft engineers and to coordinate the hiring of such persons; computer software for aircraft pilots, flight crews and aircraft engineers to create and share their professional profiles and availabilities for contract work, to view contract opportunities with aircraft owners and operators; computer software that allows aircraft pilots, flight crews, and aircraft engineers to share professional profile documents with potential employers for the purposes of finding jobs and to allow employers to post job openings for positions for aircraft pilots, flight crews and aircraft engineers and to connect with aircraft pilots, flight crews and aircraft engineers to fill open positions; computer software for aircraft pilots, flight crews, and aircraft engineers for storing, managing and sharing documentation required for purposes of performing contract work for aircraft owners and operators; computer software for business networking amongst aircraft pilots, flight crews and aircraft engineers, aircraft owners and operators; downloadable publications, videos and podcasts in the field of career management for aircraft pilots, flight crews and aircraft engineers; downloadable publications, videos and podcasts for aircraft owners and operators pertaining to the recruitment and hiring of aircraft pilots, flight crews and aircraft engineers.

### Services

#### Class 35

(1) Providing an online marketplace for allowing aircraft owners and operators to retain aircraft pilots, flight crews and aircraft engineers for contract work; Providing an online marketplace for aircraft pilots, flight crews and aircraft engineers to create and share their professional profiles and availabilities for contract work, to view contract opportunities with aircraft owners and operators.

#### **Class 41**

(3) Providing non downloadable publications, videos and podcasts in the field of career management for aircraft pilots, flight crews and aircraft engineers via a website; providing non downloadable publications, videos and podcasts pertaining to the recruitment and hiring of aircraft pilots, flight crews and aircraft engineers via a website.

#### **Class 42**

(2) Providing the temporary use of on-line non-downloadable cloud-based software for aircraft owners and operators to view the professional profiles and availabilities for contract work of aircraft pilots, flight crews and aircraft engineers and to coordinate the hiring of such persons; providing the temporary use of on-line non-downloadable cloud-based software for aircraft pilots, flight crews and aircraft engineers to create and share their professional profiles and availabilities for contract work, to view contract opportunities with aircraft owners and operators; providing the temporary use of on-line non-downloadable cloud-based software enabling aircraft pilots, flight crews, and aircraft engineers to share professional profile documents with potential employers for the purposes of finding jobs, enabling employers to post job openings for positions for aircraft pilots, flight crews and aircraft engineers and to connect with aircraft pilots, flight crews and aircraft engineers to fill the open positions; providing the temporary use of online non-downloadable computer software for aircraft pilots, flight crews and aircraft engineers for storing, managing and sharing documentation required for purposes of performing contract work for aircraft owners and operators; providing the temporary use of on-line non-downloadable cloud-based software for business networking amongst aircraft pilots, flight crews and aircraft engineers, aircraft owners and operators.

### Colour Claim

Colour is claimed as a feature of the trade-mark. In the trademark, all of the words are entirely in red except for the letter 'A' at the beginning of the word 'AMPLIFON' which is red with wavy white stripes.

### Goods

#### Class 03

(1) Cleaners for hearing aids; Cleaning wipes and cleaning preparations for hearing aids

#### Class 09

(2) Hearing aids for the hearing impaired; Accessories for hearing aids, namely, connecting cables for receivers and amplifiers, small connectors, adapters for separate batteries; Batteries for hearing aids; Connections and connecting cables for amplifiers and batteries; Hearing aid power supplies, Magnetic field generators (fittings) designed for aural prostheses, other than for the deaf; Mobile telephones designed for the hearing impaired; Amplifying headsets for the hearing impaired; Apparatus producing oscillations, in particular, oscillators; Software for hearing-impaired people to manage and configure hearing aids

#### Class 10

(3) Acoustic apparatus for the hard of hearing, in particular: Hearing implants; Air-conduction and bone-conduction receivers for hearing aids; Headbands for bone-conduction receivers for hearing aids; Earmoulds being parts of hearing aids

### Services

#### Class 35

(1) Retail services featuring hearing aids, said services allowing customers to view and purchase hearing aids; Retailing, including by mail order or online, of hearing aids, sound amplifiers, mobile telephones, headsets, hearing aid batteries

**Class 37**

(2) Maintenance and repair of hearing aids

**Class 42**

(3) Design and development of aural prostheses and aids emitting lights, sounds or vibrations for the hearing impaired; Design of software applications intended for the hearing impaired

**Class 44**

(4) Medical and paramedical assistance provided for the deaf; Professional services provided for the treatment of deafness, in particular medical services, services for assessing levels of deafness and the conformation of the inner ear; Mapping of the ear canal for the installation of hearing aids

#### Class 01

(1) Chemical preparations, namely, urethane coating for waterproofing protection on roof systems; chemical preparations, namely, urethane, liquid waterproofing membrane to maintain, restore and upgrade the performance of roof systems; chemical preparations, namely, urethane coating for waterproofing protection on roof systems and provide a white reflective surface.

#### Class 06

(2) Metal roof flashing; detail metal flashing for use in roof systems; galvanized steel sheet with a laminate of flashing for use in roof systems; metal building products, namely, roof boots; metal roof drains; metal roof vents and breathers; metal roof clamps; metal building materials, namely, roof termination and anchor bars.

#### Class 17

(3) Styrene-butadiene-styrene (SBS) rubber modified base sheet for use as an underlayment layer in a built-up roof system; styrene-butadiene-styrene (SBS) rubber coated with asphalt; liquid rubber composition used to form a synthetic rubber roofing membrane; urethane sealants for

waterproofing protection on roof systems; urethane sealants for waterproofing protection on roof systems and provide a white reflective surface.

### **Class 19**

(4) Rubber modified roofing membrane for use as the waterproofing and reinforcement layer; roofing membrane formed of polyester reinforcing fabric reinforcement, rubber and asphalt; roofing coal tar pitch for use in waterproofing; polyester reinforcing fabric for use in roofing; polyester mat for use in roofing; roof coating formed primarily of asphalt, with light oil and polyurethane resin; roof coating formed primarily of asphalt, with petroleum distillate and polyurethane resin; roof coating formed primarily of asphalt, with light oil and epoxy resin; roof coating formed primarily of asphalt, with petroleum distillate and epoxy resin; roof coating formed primarily of asphalt, with light oil and polyamide resin; roof coating formed primarily of asphalt, with petroleum distillate and polyamide resin; roof coating formed primarily of asphalt, with light oil and polyethylene resin; roof coating formed primarily of asphalt, with petroleum distillate and polyethylene resin; roof coating formed primarily of asphalt, with light oil and acrylic resin; roof coating formed primarily of asphalt, with petroleum distillate and acrylic resin; roof coating formed primarily of asphalt, with light oil and polyester resin; roof coating formed primarily of asphalt, with petroleum distillate and polyester resin; roof coating formed primarily of asphalt, with light oil and polystyrene resin; roof coating formed primarily of asphalt, with petroleum distillate and polystyrene resin; roof coating formed primarily of asphalt, with light oil and polypropylene resin; roof coating formed primarily of asphalt, with petroleum distillate and polypropylene resin; waterproofing asphalt based coating for roofing; non-aluminized reflective waterproofing asphalt based coating for roofing; coal tar impregnated fiberglass mats used in the construction of a coal tar built-up roof, not for use as load support surfaces; restoration coatings, namely, asphalt-based coatings to weatherproof, preserve and protect metal, modified bitumen and coal tar pitch roofs; roof coating for waterproofing formed of asphalt, refined coal tar pitch, aromatic solvents and thermoplastic polymers; urethane coating for waterproofing protection on roof systems sold as an integral part of roofing; urethane, liquid waterproofing membrane to maintain, restore and upgrade the performance of roof systems; urethane coating for waterproofing protection on roof systems and provide a white reflective surface sold as an integral part of roofing; modified bitumen reinforced sheet for roofing systems; modified bitumen reinforced sheet for weatherproofing roofing systems; modified bitumen sheet formed of a polymer mat impregnated with modified asphalt; modified bitumen sheet formed of a polymer mat impregnated with modified asphalt and a mineral top coating; modified bitumen sheet formed of a polyester mat impregnated with modified asphalt; modified bitumen sheet formed of a polyester mat impregnated with modified asphalt and a mineral top coating; modified bitumen sheet formed of a fiberglass mat impregnated with modified asphalt; modified bitumen sheet formed of a fiberglass mat impregnated with modified asphalt and rubber; modified bitumen sheet formed of a fiberglass mat impregnated with modified asphalt and rubber and a mineral top coating; modified fiberglass base sheet for use as an underlayment layer in a built-up roof system, not for use as load support surfaces; fiberglass mat impregnated with bitumen and rubber for use in roofing systems, not for use as load support surfaces; single-ply synthetic rubber roofing membrane; uncured neoprene sheet used in construction of flashing, gutter lining, waterproofing; ethylene propylene diene monomer (EDPM) rubber roofing membrane; non-metal roof flashing; detail non-metal flashing for use in roof systems; roofing membrane formed of reinforced polyester knit fabric coated with a polymer compound; non-metal pre-molded and sheet form non-reinforced boots, corner flashing for use in roof systems; vinyl formulated sheet having a ribbed texture for use in roof systems; thermoplastic roofing membrane; polyester reinforced thermoplastic roofing membrane; non-metal trim strips for use in roof systems; non-reinforced thermoplastic polyvinyl chloride based membrane for use in roof systems; PVC roof flashing; reinforced PVC membrane

for use in roof systems; non-reinforced thermoplastic polyolefin membrane for use in roof systems; multilayer roof membrane formed of a thermoplastic polyolefin base; polyester-reinforced fabric center, and a thermoplastic polyolefin compounded top layer for use in roofing systems, building construction; thermoplastic polyolefin pressure-sensitive membrane for use in roof systems; non-metal roof drains; non-metal roof vents and breathers; non-metal building materials, namely, roof termination and anchor bars; non-metal weather strips for buildings; non-metal building products, namely, asphalt roof coatings; bituminous roof coatings; non-metal roof coverings containing acrylic; rubberized asphalt-based roofing primers; roofing base sheets in the nature of roofing fabrics; building material, namely, plastic webbing material used to reinforce bituminous waterproofing sheets, non-metal building flashing; non-metallic roofing base sheets, namely, natural fiber roofing fabrics, synthetic fiber roofing fabrics, namely, aramid fibers, polyester fibers, fiberglass fibers, nylon fibers, acrylic fibers, polypropylene fibers, PVC fibers, polyurethane fibers, polyethylene fibers, and carbon fibers, building material, namely, plastic webbing material used to reinforce bituminous waterproofing sheets, non-metal building flashing, non-metallic roofing shingles, non-metallic roofing underlayment membrane, non-metal roofing material, namely, a cap sheet and a modified cap sheet with woven and non-woven synthetic fiber reinforcement roofing fabrics, namely, aramid fibers, polyester fibers, fiberglass fibers, nylon fibers, acrylic fibers, polypropylene fibers, PVC fibers, polyurethane fibers, polyethylene fibers, and carbon fibers; Roof coating formed primarily of polyurethane resin, with light oil and asphalt; roof coating formed primarily of polyurethane resin, with petroleum distillate and asphalt; roof coating formed primarily of epoxy resin, with light oil and asphalt; roof coating formed primarily of epoxy resin, with petroleum distillate and asphalt; roof coating formed primarily of polyamide resin, with light oil and asphalt; roof coating formed primarily of polyamide resin, with petroleum distillate and asphalt; roof coating formed primarily of polyethylene resin, with light oil and asphalt; roof coating formed primarily of polyethylene resin, with petroleum distillate and asphalt; roof coating formed primarily of acrylic resin, with light oil and asphalt; roof coating formed primarily of acrylic resin, with petroleum distillate and asphalt; roof coating formed primarily of polyester resin, with light oil and asphalt; roof coating formed primarily of polyester resin, with petroleum distillate and asphalt; roof coating formed primarily of polystyrene resin, with light oil and asphalt; roof coating formed primarily of polystyrene resin, with petroleum distillate and asphalt; roof coating formed primarily of polypropylene resin, with light oil and asphalt; roof coating formed primarily of polypropylene resin, with petroleum distillate and asphalt; acrylic roofing coatings; water-based, pure acrylic, self-curing latex polymer roof coating; liquid coating formed of elastomer for use on roofs, walls, floors, ceilings, walkways, walls, stairs, steps, doors, and decks; solvent-based primer for use in roof systems; polymer and copolymer coating that can be applied to latex paints, oil-based paints, ceramic paints, concrete, wood, fabric, bricks, composite panels, and woven and non-woven materials on a wall, floor and ceiling and which coating functions as a gas barrier and enables water vapor to pass through the coating; polymer and copolymer coating that can be applied to latex paints, oil-based paints, ceramic paints, concrete, wood, fabric, bricks, composite panels, and woven and non-woven materials on a wall, floor and ceiling and which coating functions as an air barrier; elastomeric roof coatings, acrylic roof coatings; urethane roof coatings; Coal tar impregnated fiberglass mats used in the construction of a coal tar built-up roof, for use as load supports surfaces.

#### Class 07

(1) Machines, namely, blending machines for use with sludge, wastewater, solid waste, kitchen waste, food waste, and garbage, in industrial and commercial applications; Machine tools, namely, blending machines for use with sludge, wastewater, solid waste, kitchen waste, food waste, and garbage, in industrial and commercial applications; motors and engines used in industrial applications, except for land vehicles, namely motors and engines for use in blending machines for use with sludge, wastewater, solid waste, kitchen waste, food waste, and garbage; motors and engines, except for land vehicles, namely equipment for processing chemicals used in the manufacture of pulp, paper, and paperboard, namely, extracting machines for chemical processing; machine coupling and transmission components, except for land vehicles; agricultural implements, other than hand-operated hand tools namely, air-cooled condensers, water separators, garbage disposals, air filter for mechanical purposes, incubators for eggs; automatic vending machines

#### Class 09

(2) Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments namely, microscope and cameras; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity namely, transformers, voltage regulators, and pulse generators for testing electric current; apparatus and instruments for recording, transmitting, reproducing and processing sound, images or data, namely cameras and videorecorders; downloadable software for remotely controlling and monitoring industrial machinery; blank USB flash drives; blank recordable DVDs; blank recordable optical discs; blank CD-ROMs for sound or video recording; cash registers; computers and computer peripheral devices, namely, computer hardware; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus, namely fire blankets, fire extinguishers, fire buckets

#### Class 11

(3) apparatuses for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes, namely, separators for the cleaning and purification of water, water purification machines for domestic use, water purification machines for industrial use, water filtering units for domestic use, water filtering units for industrial use, sewage purification machines for domestic use, sewage purification machines for industrial use, water purification tanks for domestic use, water purification tanks for industrial use, water softening units, magnetic water treatment units for the cleaning and purification of water, and sewage treatment plants

## **Services**

### **Class 37**

(1) Building construction; repair of buildings; installation of installation insulation

### **Class 42**

(2) Scientific and technological services, namely, research, design and testing for new product development in the field of commercial and industrial manufactured products, parts, and components, and information technology systems for manufacturing industries; industrial analysis and industrial research services in the field of environmental protection, ecology, and sanitation, drinking water safety; design and development of computer hardware and software

### Services

#### Class 35

(1) Incubation services, namely, providing business management start-up support for other businesses; business operation of commercial real estate, offices and office space; business operation of commercial real estate, offices and office space, namely, shared office venues with conference facilities.

(2) business information services in the field of business management, business operations, co-working services, entrepreneurship, computer technology, start-ups, temporary accommodation and real estate services; business development services in the nature of providing start-up support for businesses of others; providing office support staff services, namely, staff recruitment services, mailroom services, receptionist, billing services, photocopying services, secretarial services, namely, providing appointment scheduling services and appointment reminder services, transcription of communications, namely, stenographic transcription and conference call transcription services, typing, word processing, telephone answering for unavailable subscribers; online business networking services; business negotiation with providers of insurance, banking, credit card processing, travel and transportation services, to enable participant members of a business community to obtain discounts on the purchase of those services from others; computer assisted business information and research services in the field of business management, business operations, co-working services, entrepreneurship, computer technology, start-ups, temporary accommodation and real estate services; assistance and advice regarding business location; arranging and conducting community social events, business events, parties, camps in the nature of workplace retreats, camps to maintain and improve employee engagement and morale, and music concerts for advertising and promotional purposes; job listing services, career placement services, providing on-line employment information in the field of careers, job listings, job resources and resumes; job placement; personnel placement and recruitment; providing on-line employment placement services in the nature of matching resumes and potential employers;

providing on-line employment information in the field of careers, job listings, job resources and resumes; providing career information in the fields of career placement, career planning, job placement, resume preparation, employment recruiting services; business networking services.

(3) Business consultation services in the nature of office space design; business management and organization consultancy; real estate marketing analysis; providing electronic tracking of real estate assets to others for business purposes; business planning of real estate construction projects for third parties; providing office support staff services; business project management services for others; business consulting services in the fields of spatial layout and infrastructure architecture and interior design; consulting services in the field of spatial management to optimize business process efficiency and decision-making; computer-aided website optimization and business organization management, namely, managing logistics and physical spaces; convenience stores, on-line convenience stores, providing an on-line searchable database for the sale of goods and services of others; providing an on-line searchable ordering guide for locating, organizing and presenting goods and services of other on-line vendors; retail store services featuring gifts and sundries, namely, food and beverages, toiletries for personal use, apparel, office requisites and office supplies, stationery supplies, and personal electronic devices and electronic device accessories.

### **Class 36**

(4) Real estate services, namely, real estate agency services, leasing of real estate, rental of real estate, real estate consultancy, real estate management; real estate services, namely, leasing of real property and apartments; leasing of office space; leasing or renting of buildings; real estate brokerage; rental of office space; rental of temporary and shared office spaces and offices; incubation services, namely, rental and leasing of office space to emerging, start-up and existing companies; business services, namely, providing rental of offices for co-working.

(5) Commercial real estate brokerage; leasing of real estate; management, ownership, and franchise of condominiums, apartments, office facilities; providing co-working facilities equipped with private offices, office equipment, mailroom, printing center, receptionist, kitchen, meeting rooms, telecommunications equipment and other office amenities; incubation services, namely, providing work space containing business equipment and other amenities to emerging, start-up and existing companies.

(6) financial planning of real estate construction projects for third parties

### **Class 37**

(7) Real estate development services; real estate construction services, namely, construction of office space and office facilities.

(8) Building construction; building repair and maintenance; installation services, namely, installation of lighting apparatus, security systems, doors, HVAC (Heating, ventilation and air conditioning), flooring, electrical wiring, office machinery, audiovisual equipment, fixtures and fittings for buildings, and computer hardware and telecommunication apparatus, namely, mobile phones, cellular phones, smartphones, and mobile handheld devices in the nature of PC tablets; business construction consultancy and supervision; construction project management services; development, maintenance and tracking of real estate construction projects for third parties.

### **Class 42**

(9) Architectural design; interior design services; design of specialty interior and exterior environment settings; graphic design services; industrial design services; engineering services for building and property condition assessment, facility management, repair and restoration and building instrumentation; information and data analysis relating to planning and laying out design

for the interior space and fixtures of buildings and offices; planning of buildings and infrastructure systems for buildings; platform as a service (PAAS) featuring a non-downloadable computer software platform for the purposes of monitoring, analyzing and controlling environmental conditions and devices within a building, facility, grounds of designated spatial area and providing information to manage activities in the area; platform as a service (PAAS) featuring a non-downloadable computer software platform for the purposes of facilities management to control building environment, access and security systems; software as a service (SAAS) featuring a non-downloadable computer software platform for the purposes of spatial mapping of floor plans and fixtures; software as a service (SAAS) featuring a non-downloadable computer software platform for the purposes of management of spatial information for the purpose of space optimization within a building or other facility; software as a service (SAAS) featuring a non-downloadable computer software platform for the purposes of visualization, animation and analytics of spatial data; software as a service (SAAS) featuring a non-downloadable software platform that manages a pipeline of real estate deals and assets of others; software as a service (SAAS) featuring a non-downloadable software platform for administering leases, tracking lease negotiations and tracking lease documentation; software as a service (SAAS) featuring a non-downloadable software platform for administering and managing co-working facilities; software as a service (SAAS) featuring a non-downloadable software platform enabling users to remotely view, monitor, program, operate and control electrical systems and security systems in offices; planning and layout design services for interior space of business establishments; software as a service (SAAS) featuring software for data mining; hosting a website featuring online non-downloadable software that enables users to remotely view, monitor, program, operate and control electrical systems and security systems in offices; software as a service (SAAS) featuring non-downloadable visitor registration computer software that records entry and exit of visitors and collects visitor information; software as a service (SAAS) featuring non-downloadable visitor registration computer software that enables preparation and distribution of signed electronic visitor registration documents; software as a service (SAAS) featuring non-downloadable visitor registration computer software that enables the printing of visitor badges with photos; software as a service (SAAS) featuring non-downloadable visitor registration computer software that notifies others of the arrival of a visitor; software as a service (SAAS) featuring non-downloadable visitor registration computer software that prepares reports of visitors; design of real estate construction projects for third parties.

### **Class 43**

(10) Hospitality reservation services, namely, making reservations and bookings for temporary use of meeting rooms, co-working spaces and special event spaces; services for providing food and drink, namely, cafeterias, bar services, coffee shop services, food and drink catering, restaurant services; providing meeting room space; restaurant and cocktail lounge services; providing facilities for business meetings and business events.

### Goods

#### Class 07

(1) Pumps, compressors and fans as parts of machines, motors and engines; mechanical railed lifting conveyors; agricultural plowers; earth moving scrapers; extractors for mines; machinery for construction, namely, drilling machines, hydraulic hammers, drilling rigs, pile drivers, tunnel boring machines, excavators, and concrete mixers, and machinery for oil and gas extraction and mining, namely, crushing machines and wheel loaders; motors and engines used in industrial applications; automatic pallet dispensing machines; commercial and industrial vacuum cleaners; floor cleaning machines; machines and machine tools for the cutting and forming of materials and manufacturing rubber, veneer, and glassware; industrial robots; generators of electricity; wind-powered electricity generators; wind turbines; generators for wind turbines; turbines for power generation; turbine blades for power generation; hydraulic turbines; conveyors and drum separating machines for use in waste treatment and recycling; sewage pulverisers; electrical generators using solar cells; reverse osmosis pumps; power generating plants, namely, electricity generators; water pumps, water removal pumps, machines for aerating water

#### Class 09

(2) apparatus and instruments for navigation, orientation, tracking and mapping, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; magnifying lenses; magnifying glasses; correcting lenses; corrective glasses; marking and signalling buoys; luminous safety beacons; reflective safety vests; safety

harnesses; safety goggles; safety boots; safety helmets; safety markers; life saving rafts; lifejackets; life buoys; audiovisual and information technology equipment, namely, audiovisual receivers, computer hardware; scuba diving compressed-air tanks; magnets for industrial purposes; magnetizers; demagnetizers; measuring, detection and monitoring instruments, indicators and controllers, namely, electrical energy controllers; electrical industrial controls for monitoring waste water treatment; power connectors; power distributing boxes; power switches; power transformers; power cables; voltage regulators; electricity distribution consoles; electric plugs; electric sockets; electricity meters; electrical distribution boxes; electric control panels; electric adapter cables; plug adapters; current converters; current transformers; photovoltaic cells; photovoltaic panels; solar panels for the production of electricity; solar cells; solar batteries; photovoltaic solar panels; water pollution level indicators; radio frequency repeaters; electrical signal attenuators; radio receivers and transmitters; computer screens; loudspeakers; computers; software for management of generation and transmission of electricity; fire extinguishers; fire extinguishing blankets; water level indicators; water leak detection alarms; scientific apparatus for determining water content in petroleum products; water meters; water temperature indicators; regulating and safety devices for water and gas installations, namely, gas pressure regulators and water pressure regulators

#### **Class 11**

(3) air conditioners; electric space heaters; industrial air purifiers; separators for the cleaning and purification of air; air purifying units; filters for air conditioners; municipal water purification machines; rainwater purification installations; reverse osmosis water purification units; sterilizers for water treatment; water filtering units for domestic and industrial use; desalination apparatus; desalination units; desalination plants; sewage treatment plants; sterilizers for waste treatment; industrial sewage purification plants; sewage purification units; filters for water purification of household purposes; filters for water purification for industrial purposes; filters for purifying water for household purposes; filters for purifying water for industrial purposes; apparatus for desalinating water using reverse osmosis; solar energy collectors for heating; water treatment equipment, namely, reverse osmosis filtration units; machines for purifying water

#### **Class 16**

(4) Computer paper; magnetic paper; typewriter paper; writing paper; cardboard; cardboard boxes; cardboard containers; cardboard tubes; publications and printed matter, namely, newspapers, magazines, newsletters, brochures, pamphlets, books and journals all dealing with designing, building, financing and maintaining infrastructures, environmental protection, urban services renewable energies, social amenities, passenger and freight transport, logistics and distribution; book binding materials; photographs; paper stationery; adhesives for stationery or household purposes; sketch pads; poster board; paintings; easels; pens and pastels; paintbrushes; typewriters; typewriter ribbons; typewriter type balls and typewriter typing elements; manuals; printers' type and printing blocks; plastic film for packaging

#### **Services**

##### **Class 35**

(1) advertising and business management consultancy; import-export agency services; exclusive sales and agency services for construction materials, tools, machinery and vehicles; retail sales businesses for construction materials, tools, machinery and vehicles; retail sales through worldwide computer networks for construction materials, tools, machinery and vehicles; wholesale of water supply equipment; airport management

##### **Class 37**

(2) installation, namely construction, and demolition of building, structures, roads, bridges, parking structures, airports, oil pipelines, gas pipelines and water canals; construction management, maintenance and repair of buildings, structures, roads, bridges, parking structures, airports, oil pipelines, gas pipelines and water canals; service stations; service station repair and maintenance; construction, construction management, maintenance and repair of bridges, tunnels and underground structures, namely, metro stations; construction, maintenance and repair of airports and ports; construction, repair and maintenance of roads and streets; services for the management and supervision of building construction works and project; drilling of water and oil wells; prospecting for water wells; installation, namely construction, of underground water supply systems; installation of rainwater tanks; installation of water softening devices; installation of systems for the catchment, drainage and collection of rainwater; installation of water pipes; cleaning of water tanks and pipes; maintenance of water purification apparatus; maintenance of equipment for controlling water pollution; repair and maintenance of apparatus and installations for the supply of water; repair and maintenance of equipment for controlling water pollution; repair and maintenance of water purification equipment; installation of gas pipelines and aqueducts; installation of system of pipes for conducting gases; drilling of gas and oil wells; repair of system for the supply of gas; installation, namely construction of gas, water and electricity supply systems

### **Class 39**

(3) transportation and storage of goods by air, rail, ship or truck; packaging of goods; organisation of trips; escorting of travellers; rental car reservations; vehicle rental; reservation and booking of seats for travel; travel arrangement; airport baggage check-in services; operation of toll roads and operation of bridges; airport and port operations services; maritime navigation services; maritime freighting and brokering; rental of railways and rail cars; rental of parking spaces; supply chain logistics and reverse logistics services consisting of transportation and storage of goods for others by air, rail, ship or truck; transfer and transport of waste; organisation of transport of passengers and goods by railway, truck, sea and air; airport ground handling of passengers and cargo; ambulance services; energy distribution, namely electricity distribution; renewable energy distribution, namely renewable electricity distribution; electricity distribution consulting services; services for the storage and distribution of electricity; storage of water in tanks; distribution and supply of water; distribution of water as a public utility service; collection of sewage by means of a public sewage system; transport of waste; transports of water through an oil pipelines; disposal of sewage waste

### **Class 40**

(4) generation and production of energy, namely generation of electricity; generation of energy from renewable energy sources, namely generation of energy from wind energy, solar energy and hydroelectric energy; consultancy services in the field of electricity generation; treatment of waste water; leasing of water purification apparatus; leasing of waste water treatment equipment; water pollution control through the capture of microbeads; water purification; desalination of water; demineralisation of water; regeneration of water, namely, softening of hard water; water conditioning and purification; custom manufacture of and assembly services relating to electricity generation and water treatment systems; air purification; recycling of waste and trash

### **Class 42**

(5) technological consulting services in the field of alternative energy generation and the oil, gas and mining industries; analysis for oil research; design and development of computer hardware and software; computer system analysis; analysis and control of water quality; analysis for oil-field exploitation; chemical analysis; architecture; calibration of electronic equipment; construction drafting; consultancy in the field of energysaving; architectural consultancy; consultancy in the

design and development of computer hardware; computer software consultancy; monitoring of computer systems by remote access; testing of computers and computer software; oil well testing; creating and maintaining websites for others; design of interior décor; computer system design; computer software design; industrial design; design and development of renewable energy generation systems, namely generation of energy from wind energy, solar energy and hydroelectric energy; material testing; conducting technical project studies; project planning for wind and photovoltaic farms; underwater exploration services in the field of the oil, gas and mining industries; weather reporting; vehicle roadworthiness inspection; installation of computer software; bacteriological research; biochemical research; physics research; research in the field of environmental protection; mechanical engineering; geological research; chemical research; research and development of new products for others; land surveying; maintenance of computer software; oil-field surveys; geological surveys; engineering surveying services; urban planning; geological prospecting; oil prospecting; chemistry research; provision of scientific information, advice and consultancy in relation to carbon offsetting; scientific laboratory services; technical design and planning of pipelines for gas, water and waste water; technical design and planning of water purification plants; technical design services relating to water supply systems; environmental testing services to detect contaminants in water; civil engineering in relation to water irrigation

(2) Grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods

**Class 07**

(3) conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; electronically controlled robotic machines for transportation, storage and retrieval of boxes and containers with goods; electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; machine coupling and transmission components, except for land vehicles; parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for machine coupling and transmission components, except for land vehicles

(4) conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; electronically controlled robotic machines for transportation, storage and retrieval of boxes and containers with goods; electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning

storage bins or boxes from one location to another location; machine coupling and transmission components, except for land vehicles; parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for machine coupling and transmission components, except for land vehicles

## **Services**

### **Class 42**

(1) research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to machine coupling and transmission components, except for land vehicles; research and design relating to parts and fittings for conveying machines, apparatus and

installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to parts and fittings for machine coupling and transmission components, except for land vehicles; research and design relating to automated and robotic warehousing; industrial analysis and research services related to robotics and automated storage; design and development of computer hardware and software; preparation, design, updating, maintenance and rental of computer programs and software for management of storage depots and warehouses; preparation, design, updating, maintenance and rental of computer programs and software for operating conveying machines, apparatus and systems for storage and retrieval of goods; rental of computers and computer peripherals; information and consultancy in respect of research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; information and consultancy in respect of research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; information and consultancy in respect of research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; information and consultancy in respect of research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; information and consultancy in respect of research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with

goods; information and consultancy in respect of research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to machine coupling and transmission components, except for land vehicles; information and consultancy in respect of research and design relating to parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to parts and fittings for machine coupling and transmission components, except for land vehicles

(2) research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks

therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to machine coupling and transmission components, except for land vehicles; research and design relating to parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to parts and fittings for machine coupling and transmission components, except for land vehicles; research and design relating to automated and robotic warehousing; industrial analysis and research services related to robotics and automated storage; design and development of computer hardware and software; preparation, design, updating, maintenance and rental of computer programs and software for management of storage depots and warehouses; preparation, design, updating, maintenance and rental of computer programs and software for operating conveying machines, apparatus and systems for storage and retrieval of goods; rental of computers and computer peripherals; information and consultancy in respect of research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; information and consultancy in respect of research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; information and consultancy in respect of research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; information and consultancy in respect of research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; information and consultancy in respect of research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval,

for use in warehousing and storage depots; information and consultancy in respect of research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to machine coupling and transmission components, except for land vehicles; information and consultancy in respect of research and design relating to parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to parts and fittings for machine coupling and transmission components, except for land vehicles

#### Class 06

(1) Grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods

(2) Grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods

**Class 07**

(3) conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; electronically controlled robotic machines for transportation, storage and retrieval of boxes and containers with goods; electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; machine coupling and transmission components, except for land vehicles; parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for machine coupling and transmission components, except for land vehicles

(4) conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; electronically controlled robotic machines for transportation, storage and retrieval of boxes and containers with goods; electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning

storage bins or boxes from one location to another location; machine coupling and transmission components, except for land vehicles; parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; parts and fittings for machine coupling and transmission components, except for land vehicles

## **Services**

### **Class 42**

(1) research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to machine coupling and transmission components, except for land vehicles; research and design relating to parts and fittings for conveying machines, apparatus and

installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts

(2) research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to machine coupling and transmission components, except for land vehicles; research and design relating to parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to parts and fittings for electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; research and design relating to parts and fittings for machine coupling and transmission components, except for land vehicles; research and design relating to automated and robotic warehousing; industrial analysis and research services related to robotics and automated

storage; design and development of computer hardware and software; preparation, design, updating, maintenance and rental of computer programs and software for management of storage depots and warehouses; preparation, design, updating, maintenance and rental of computer programs and software for operating conveying machines, apparatus and systems for storage and retrieval of goods; rental of computers and computer peripherals; information and consultancy in respect of research and design relating to grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; information and consultancy in respect of research and design relating to bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; information and consultancy in respect of research and design relating to parts and fittings for grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; information and consultancy in respect of research and design relating to parts and fittings for bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; information and consultancy in respect of research and design relating to conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to boxes and containers adapted for use with electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to machine coupling and transmission components, except for land vehicles; information and consultancy in respect of research and design relating to parts and fittings for conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to parts and fittings for electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled robotic machines and vehicles for transportation, storage and retrieval of boxes and containers with goods; information and consultancy in respect of research and design relating to parts and fittings for boxes and containers adapted for use with electronically controlled machines, apparatus

and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; information and consultancy in respect of research and design relating to parts and fittings for machine coupling and transmission components, except for land vehicles
