Trademarks Journal

2022-07-20 — Vol. 69 No. 3534

Trademarks Journal

Vol. 69 No. 3534

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The Applicant claims the colours 'orange', 'black' and 'white' as essential features of the trademark. The phrase 'LOBA. ON TOP!', the bird and the outline of the circle are black; the eye, beak and breast of the bird are white. The inner circle is orange.

Goods

Class 02

(1) floor protection varnishes, waterproof lacquers, water-repellant lacquers, anti-corrosion lacquers; colourants for use in the manufacture of paint, lacquers, and varnishes; finishes, oils and waxes for sealing wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC floor, wall and ceiling coverings; waterproof floor lacquers, water-repellant floor lacquers, protective floor lacquers, preservative floor lacquers; rubbing oils for wood

(2) preservatives against deterioration of wood

(3) radiation-hardening goods, in particular radiation-hardening finishes and oils, used as coatings, as well as protective coatings for care and surface treatment of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC, in particular being floor, wall or ceiling coverings

(4) paints, namely, acrylic paints, preservative paints, polyurethane paints, line-marking paints; coatings for wood as paints

(5) wood mordants

(6) primers for paints and lacquers

(7) thinners for paints and lacquers; binding preparations for paints and lacquers; solvents in form of additives to floor wax, floor oil and floor lacquers

Class 03

(8) goods for sealing of wood, namely, parquet oils, used for cleaning and maintenance, in particular being floor, wall or ceiling coverings; floor oil

(9) floor wax removing preparations, furniture wax removing preparations, floor oil removing preparations, lacquer-removing preparations

(10) floor waxes, furniture waxes, polishing wax; combinations of wax and oil for floors; finishes, oils and waxes for sealing wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC floor, wall, and ceiling coverings; floor wax; floor polish; solvents, used as scouring preparation, for floor wax, floor oil and floor lacquer

(11) floor wax; floor polish

(12) cleaning preparations, namely, industrial cleaners, and scouring preparations for the cleaning, care, surface treatment and sealing of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC; sanitary cleaners, namely, acid cleaners; preparations for the cleaning of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC; cleaning, polishing, and scouring preparations for floors, walls, and ceilings; cleaning preparations, namely, industrial cleaners, for work apparatus for the cleaning, care, surface treatment and sealing of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC

(13) abrasive preparations, namely, sandpaper

(14) rubbing oils for wood

Class 07

(15) abrasive discs for power operated sanders, abrasive belts for power operated sanders, abrasive nets for power operated sanders, abrasive triangles for power operated sanders

Class 08

(16) hand tools and hand-operated implements for the building trade, namely, files, hammers, drills, nail pullers, saws, tile cutters, mallets, including for the care of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC, in particular being floor, wall or ceiling coverings

(17) hand tools and hand-operated implements for the building trade, namely, trowels, including for the cleaning, care, surface treatment and sealing of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC, in particular being floor, wall or ceiling coverings; spatulas for paints, coatings, varnishes, primers, oils and waxes as well as care and maintenance products, namely, hand-tools

Class 16

(18) hand tools and instruments, namely, applicators for paints, coatings, varnishes, primers, oils and waxes as well as care and maintenance products, namely hand-tools

(19) hand tools and hand-operated implements for the building trade, namely, rollers for the cleaning, care, surface treatment and sealing of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC, in particular being floor, wall or ceiling coverings; hand tools and hand-operated implements for the building trade, namely, radiator brushes and oil brushes

Class 21

(20) hand tools and hand-operated implements for the building trade, namely, brooms, mops for the cleaning of wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC, in particular being floor, wall or ceiling coverings; hand tools and instruments, namely, floor wax applicator attachments for mop handles for the application of coatings, varnishes, primers, oils and waxes to wood, cork, stone, linoleum, laminate, rubber, polyolefins and PVC, in particular being floor, wall or ceiling coverings

(1) Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides; unprocessed plastics; manures; fire extinguishing compositions; chemical substances for preserving foodstuffs; adhesives used in industry, namely adhesives for adhesive film cover, adhesives for use in the manufacture of surgical bandages, adhesives for use in the manufacture of transdermal drug delivery patches; media for use in chromatography

Class 05

(2) Pharmaceuticals, medical and veterinary preparations, namely drug delivery agent in the form of a synthetic membrane that provides controlled release of the active ingredients for a wide variety of pharmaceuticals; sanitary preparations for medical purposes, namely, sanitizing wipes, alcohol-based antibacterial skin sanitizer gels, all purpose sanitizers; dietary supplements for humans and animals, namely, dietary supplements for general health and well-being, folic acid dietary supplements, dietary supplements consisting of vitamins; medical plasters, materials for dressings being medical dressings; material for stopping teeth, dental wax; disinfectants for medical use, namely, disinfectants for medical apparatus and instruments, all-purpose disinfectants; preparations for destroying vermin; fungicides, herbicides

Class 06

(3) connectors for machines and for machine parts namely, containers of metal for chemicals, compressed gases and liquids, pressure vessels and branching pipes of metal for the chemical processing industry

Class 07

(4) Machines and machine tools, namely, filters and purifiers for separating machines for chemical processing for removing contaminants from water, fluids or liquids; liquid filling machinery, apparatus and systems, namely, bottle filling machines; liquid filling machine, namely, bottle filling machines for pharmaceutical industry, bag filling machines pharmaceutical industry, machines for filling containers for pharmaceutical industry; needle valves and pinch valves being parts of machines; liquid aseptically-filling machines which are used together with disposable tubes,

needles or containers for manufacturing pharmaceutical preparations; industrial fermentation apparatus being fermentation machines and filters for culturing of bacteria and yeast to produce industrial products, namely, proteins and peptides; apparatus for the manufacture of beer, namely, beverage processing machines for brewing and distilling beer; filtration machines, namely, beverage processing machines for beer processing; apparatus for the manufacture of wine, namely, wine presses; filtration machines, namely, beverage processing machines for wine processing; parts and fittings for machines, namely, sampling needles and valves, tube sets and collection containers for taking specimens from and inoculating media into a vessel; chemical processing machines and instruments, namely, filtering machines for chemical processing, separating machines for chemical processing, emulsifying machines for chemical processing, blending machines for chemical processing, extracting machines for chemical processing; filtering machines for chemical processing; extracting machines utilising solvents; filtration apparatus and installations for industrial use, namely, separating machines for chemical processing used for filtration in the pharmaceutical industry, the food and beverage industry, the chemical processing industry; other food or beverage processing machines and instruments, namely, beverage processing machines; other chemical processing machines and instruments, namely, separating machines for chemical processing, filtering machines for chemical processing; disposable filters, pumps, manifolds, flexible containers, tubes, connectors as parts of separating machines for chemical processing used for filtration in the pharmaceutical industry, the food and beverage industry, the chemical processing industry; filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters used for the recovery and purification of products in the food and beverage processing and preparation, chemical processing industries; machine parts, namely, industrial mixers for use in the manufacturing of pharmaceuticals and agitators for use in chemical processing; mechanical diaphragm and membrane port seals used in liquid pharmaceutical, cosmetic and foodstuff processing equipment being machine parts; valves being parts of machines; valves and flow-path connections for the process industry as machine components; valve diaphragms as machine components; single use, disposable connector being machine components for use in forming sterile connections in the scientific, laboratory, pharmaceutical and bio-pharmaceutical industries; motors and engines used in industrial applications; machine coupling and transmission components except for land vehicles; valves as parts of machines used in liquid pharmaceutical, cosmetic and foodstuff processing equipment, and structural parts therefor; non-metal valves as parts of machines used in liquid pharmaceutical, cosmetic and foodstuff processing equipment, and structural parts therefor; depth filters, pre-filters, membrane filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters for use as parts of filtering machines for chemical processing in the food and beverage industry, pharmaceutical industry, chemical processing industry

Class 09

(5) Scientific, laboratory and measuring apparatus and instruments, namely, disposable industrial bioreactors for growing cells in the pharmaceutical and chemical industries; filtering units for laboratory use for the recovery and purification of biological, pharmaceutical, food, beverage, and cosmetic samples consisting of filter holder assembly with funnel, fritted base, stopper, clamp, filtering flask, tubing, pump, manifold, depth filters, pre-filters, membrane filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters; measurement apparatus and instruments for volumetric filling of liquids for laboratory use, namely, droppers for laboratory use, disposable dispenser syringes for laboratory use, flasks for laboratory use, cylinders, pipettes, burettes; optical sensors; chromatography apparatus for laboratory use; automatic ion exchange chromatography apparatus for laboratory

use; chromatography apparatus for laboratory purposes; parts and fittings for chromatography apparatus for laboratory purposes; optical sensors for use with chromatography apparatus; physical and chemical machines and instruments relating to chromatography, namely, chromatography columns for laboratory use, automatic chromatography apparatus for laboratory use; filter integrity test machine for determining the integrity and distribution of pore size of membrane filters for use as parts of machines for use in the food and beverage processing and preparation, pharmaceutical industry, chemical processing industry, scientific and research industry; electric and magnetic measuring apparatus, namely, magnetometers, pressure gauges and sensors; electronic machines and instruments, namely, electronic and electrical testing apparatus for laboratory contaminants and clinical analysis, namely, electrophoresis separators; liquid aseptically-filling devices being laboratory machines and instruments comprising flasks for laboratory use, stills for laboratory experiments, disposable tubes, needles; glassware for scientific experiments in laboratories, porcelain ware for scientific experiments in laboratories, thermometers; liquid level sensors for measuring distance and chemical levels in aqueous solutions, not for medical use; automatic liquid-flow control machines and instruments, automatic pressure control machines and instruments including liquid-level gauges, liquid-level indicators; automatic temperature control apparatus for controlling temperature of laboratory, namely, temperature sensors, temperature gauges; apparatus for analyzing oxidizing agents, namely, metal oxide analyzers for laboratory research purposes; purifying apparatus being pre-packaged columns for purification or separation use, namely, distillation columns for laboratory use; laboratory filter cartridges and filter based ion exchange chromatography modules for biochemical separations; computer software for management, control and monitoring of laboratory processes in food and beverage processing and preparation, pharmaceutical industry, chemical processing industry, scientific and research industry; computer hardware intended for use in connection with the aforesaid software, software tools, software packages and databases; laboratory instrument for the detection and identification of microorganisms in a biological sample for research use; publications in electronic format or on CD-ROMs, namely, journals, brochures, magazines in the field of chromatography, filtration; downloadable computer software for use in the operation and control of chromatography apparatus for laboratory research use; pressure sensors; kits for analysis comprising chromatography columns and apparatus for laboratory use, as well as computer software for the operation and control of the aforementioned goods; multiple well plates for use in the sample preparation and purification of DNA samples; electronic sensors for measuring the total organic carbon content in water for use in laboratory research; fluorescence detection system for microorganisms comprising microporous membranes being filters for laboratory research use, fluorescent lighting indicator display panels, photo-optic microorganism reader for use in the detection, enumeration and identification of microorganisms for laboratory research use; laboratory glassware, pipettes and test tubes used to dilute soluble powdered products for use in sterility testing for laboratory research use; sterilizers and sterility testers, namely, for testing the sterility of laboratory filtration equipment; electronic testing devices being air analysis monitors for performing microbial analysis of the air in clean rooms; kits comprised of multiple well filtration plate for laboratory use; a laboratory testing system, sold as a unit, comprised of a microporous filter contained within a filtration funnel for the collection, isolation and counting of micro-organisms for laboratory research use, and parts and fittings of the aforesaid; filters for use with ultra-high pressure liquid chromatography systems; apparatus and instruments, namely, spectrometers, crucibles for laboratory use, funnels, microscope slides, for physical and chemical experiments and composition analysis; membranes, namely, scientific apparatus in the nature of cellulose mixed ester membranes and thermoplastic membranes for use in the science and research industry; membranes being scientific apparatus in the nature of cellulose mixed ester membranes and thermoplastic membranes for use in the science and research industry for

scientific devices; membrane separators, membrane cases, membrane ports and membrane cartridges for laboratory use; cell cultivation apparatus for laboratory use, namely, bioreactors for cell culture; disposable filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters for purification of biological and chemical samples, for use in scientific research and clinical laboratories; detection and measurement probes for measurement of liquid properties such as temperature and pressure and for measurement of chemical properties such as pH or concentration for the food and beverage processing and preparation, pharmaceutical industry, chemical processing industry, scientific and research industries; optical, weighing and measuring apparatus and instruments, namely, weighing scales; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electric storage batteries and electric current switches; testing apparatus for filtration apparatus, namely, electrophoresis separators; membrane filter testers for the purpose of determining the integrity and pore size of membrane filters for use as parts of machines; measuring apparatus and instruments, namely, radiation sensors; pressure sensors and gauges; semiconductor testers and particulate testers for the semiconductor, automotive, fuel and hydraulic fluid industries and instrumental testers for microbial testing of food processing equipment and for food safety, labelling accuracy and regulatory compliance; laboratory equipment, namely, aseptic connectors for laboratory use; laboratory filter holders for depth filters, pre-filters, membrane filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters; electronic testing device, namely, electronic cell counter; bioluminescence system comprising detectors for detecting contamination in food and beverage production process; purification units, apparatus, instruments cartridges for laboratory use, namely, laboratory apparatus in the form of liquid and gas filters; purifying apparatus being laboratory filters; computer software for operating and controlling filtering machines used in food and beverage processing and preparation, pharmaceutical industry, chemical processing industry, scientific and research industry; sterilizers for laboratory use; fluorescence, electrochemiluminescence, chemical endpoint detectors and sensors for detecting proteins, nucleic acids, peptides and genetic sequences for laboratory research use; PH electrodes for laboratory research; flow cells cytometers used in food and beverage processing and preparation, pharmaceutical industry, chemical processing industry, scientific and research industry; diaphragm valve for laboratory use; temperature sensors; depth filters, pre-filters, membrane filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters for the recovery and purification of products, namely, biopharmaceuticals including monoclonal antibodies, vaccines, whole blood, blood components, allergenics, somatic cells, gene therapies, tissues, recombinant therapeutic protein, and living medicines used in cell therapy for scientific and research purposes; cell culture apparatus being cell culture chambers used for the analysis of cell growth, structure and function; filtering devices, namely, thin film filters for removing viruses from solutions used for chemical and pharmaceutical preparation manufacturing machines; sterilizers for laboratory use; filtering unit for removing sediment and water from cellular biomass, cellular debris and colloidal particulates for use in the fields of laboratory and pharmaceutical research; chromatographic apparatus for industrial purposes, chromatography columns for industrial use; membrane filter testers for the purpose of determining the integrity and pore size of membrane filters; single use, disposable connector being machine components for use in forming sterile connections in the scientific, laboratory, pharmaceutical and bio-pharmaceutical industries; synthetic depth filters for laboratory use; filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters used for the recovery and purification of products in the scientific and research industries

Class 10

(6) medical sterility testing devices and veterinary-medical sterility tester for the detection of contaminant microorganisms via filtration as well as membranes, diaphragms and structural parts for the above-mentioned goods; bags and liners of plastic for use in collection and transfer of therapeutics, namely, blood collection bags for medical purposes and medical instrument bags; filter units for filtering and purifying pharmaceutical solutions and tissue culture media for medical use; transdermal synthetic membranes for medical and veterinary purposes for screening of active pharmaceutical ingredients, pesticides and chemicals; absorbent pads for use in lateral flow diagnostic test strip devices for medical diagnostic purposes; depth filters, pre-filters, membrane filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters for the recovery and purification of samples, products, namely, biopharmaceuticals including monoclonal antibodies, vaccines, whole blood, blood components, allergenics, somatic cells, gene therapies, tissues, recombinant therapeutic protein, and living medicines used in cell therapy for medical use; tangential flow filters for the recovery and purification of biomolecules for use in the pharmaceutical and biotechnology industries; filters, sterilizing filters, tangential flow filters, ultrafilters, vent filters, clarification filters, virus-removal filters, cartridge filters, capsule filters used for the recovery and purification of products in the pharmaceutical industry

Class 11

(7) ultrafiltration membranes and filters for water filtering units for industrial use; water filter cartridges, filters and membrane absorbers for trace contaminant removal; sterilizing grade membrane filter for endotoxin removal from pharmaceutical grade water systems; sterilizers for medical use; liquid treatment equipment being ionization apparatus for the treatment of liquids, namely, water ionizers for use in the fields of pharmaceutical and biopharmaceutical research and food and beverage manufacturing; bags and liners of plastic for use in processing, filtration, recovery and purification of products and their components for the pharmaceutical, food and beverage, and chemical processing industries; water filtering units for analyzing water quality for industrial use; water filter purifiers for laboratory or scientific use; ultrafiltration filter for water for laboratory or scientific use; disposable filtration and purification products and assemblies for the biotechnology industry, namely, reverse osmosis filters being a part of machinery for the purification of water for laboratory use

Services**Class 35**

(1) business management; business administration; data administration services and updating of databases, including online databases, namely, systematization and compilation of data in computer databases

Class 40

(2) treatment of materials such as filtration membranes and chromatography resins using chemicals for the pharmaceutical, food and beverage, and chemical processing industries; processing of chemicals, namely, customized contract production of chemical products for use in manufacture, research and science; customized manufacturing of chemical products for use in the fields of laboratory research, pharmaceutical research and food and beverage manufacturing

Class 41

(3) Education, namely providing of training in the fields of chemistry, biology, computer science, business management

Class 42

(4) Design, development and maintenance of software and databases, computer rental, rental of computer software, installation and updating of software, software tools and software packages, computer programming; providing software to customers on a short term basis and trial usage, namely, rental of computer software; design and development of computer hardware; technical and scientific consultancy in the fields of application of filters, bioreactors, chemical and pharmaceutical preparations in food and beverage processing and preparation industry, pharmaceutical industry, chemical processing industry

Class 09

(1) Time and temperature sensitive indicator labels and electronic data loggers, not for medical use, that monitor and signal time and temperature exposure of thermally sensitive products namely, foods, adhesives and flowers

(2) Smart wireless sensors and software for monitoring and communicating environmental parameters of environmentally sensitive products namely, electronic data loggers for medical use, that monitor and signal time and temperature exposure of thermally sensitive products; Software application for managing, monitoring and communicating environmentally sensitive products namely, electronic data loggers, for medical use, that monitor and signal time and temperature exposure of thermally sensitive products; Portable sensor time and temperature determining sensors for monitoring and communicating environmental data and information regarding environmentally sensitive products

Class 10

(3) Time and temperature sensitive indicator labels and electronic data loggers for medical use that monitor and signal time and temperature exposure of thermally sensitive products namely,

pharmaceuticals, biologicals, blood pressure monitors, blood, rapid diagnostic test kits, chemical reagents

Class 16

(4) Time-temperature sensitive paper labels that monitor and signal time and temperature exposure of thermally sensitive products

Goods

Class 09

Mobile computers; mobile computing and operating platforms consisting of data transceivers, wireless computer networks and gateway routers in the nature of computer networking hardware for collection and management of vehicle fleet data, namely, driver hours, vehicle ridership, driver and vehicle efficiency, vehicle inspection reports, vehicle diagnostics, over the air vehicle programming services; PC tablets; tablet computers; Hand-held computer to acquire data while conducting electronically-verified inspections; Software for conducting electronically-verified inspections using a hand-held computer in the field of vehicle fleet monitoring; Computer software for presenting information collected in the course of mandated vehicle inspections; Computer application software for mobile computing devices, namely, software for monitoring driver hours to comply with hours of service regulations; Computer software for vehicle fleet monitoring, namely for monitoring driver and vehicle fuel efficiency; Computer hardware and software to allow customers, over the internet, to determine the locations of a fleet of vehicles, in the field of vehicle fleet communication and messaging; Computer hardware and software to provide wireless connectivity via the internet between vehicles and data centres in the field of vehicle fleet communication and messaging; Computer application software for mobile telephones and tablets, namely, software for tracking vehicle ridership and for monitoring vehicle speed, vehicle location, vehicle driver data, vehicle diagnostic data, vehicle inspection data; Vehicle location and recovery device, namely, hand-held computers, smartphones, and cell phones programmed to use global positioning systems (GPS) and cellular telecommunications; Radio frequency identification (RFID) credentials, namely, RFID cards and RFID tags, and readers for radio frequency identification credentials used for qualified personnel in the field of vehicle fleet monitoring, driver monitoring, and rider monitoring; Global positioning system (GPS) receivers; GPS tracking devices, namely GPS receivers for use in determining the current location of the receiver; Computer hardware and

software system for monitoring the entry and exit of passengers on school buses and other vehicles to ensure the safety of the passengers, using RFID cards, an RFID reader, and a GPS receiver, for tracking the identity of passengers on the vehicle, date/time and location passengers entered and exited the vehicle, and speed of the vehicle, for use in monitoring; Telematics apparatus, namely, wireless Internet devices which provide telematic services and have a cellular phone function, namely GPS receiver and wireless data modem for transmitting data collected at a vehicle to a remote server; electronic vehicle on-board computers for recording commercial vehicle drivers hours of service and of other vehicle location, operation, and maintenance diagnostics data for fleet management purposes; Computer hardware for use by fleet vehicle operators for messaging, keeping driver logs, monitoring driver behaviors, and navigation; computers programmed with software for messaging, keeping driver logs, monitoring driver behaviors, and navigation

Services

Class 35

(1) Computerized database management for others in the field of inspection data

Class 38

(2) Communication services, namely, transmission of data, namely vehicle inspection data, vehicle driver hours and vehicle location by global computer networks, cellular phone networks, and the Internet; Electronic messaging, namely, wireless digital messaging services, text messaging, e-mail services, electronic exchange of messages using chat lines, providing e-mail and instant messaging services; Internet based alerting services, namely, providing access to a web site at which users can send messages to electronic receivers

Class 39

(3) vehicle fleet management services in the nature of tracking, locating, and monitoring of vehicles and their drivers and passengers in transit for commercial purposes

Class 42

(4) Design and development of a hand-held computer to acquire data while conducting electronically-verified inspections; data automation and collection service using proprietary software to evaluate analyze and collect vehicle maintenance service diagnostics data for others in the field of vehicle inspection data; database development services for others in the field of inspection data, custom design and development of computer software for others for conducting electronically-verified inspections using a hand-held computer; Providing a web site, namely, hosting websites on the internet, featuring temporary use of non-downloadable software for improving the efficiency and effectiveness of vehicle safety, security, and maintenance inspections; Providing a web site, namely, hosting websites on the internet, featuring temporary use of nondownloadable software for monitoring driver hours to comply with hours of service regulations; Providing a web site, namely, hosting websites on the internet, featuring temporary use of non-downloadable software for dispatch, route management, navigation and two-way messaging; Providing a web site, namely, hosting websites on the internet, featuring temporary use of non-downloadable software for tracking the status of a specific passenger on a vehicle; Providing a web site, namely, hosting websites on the internet, featuring temporary use of non-downloadable software for tracking vehicle ridership and for monitoring vehicle speed, vehicle location, vehicle driver data, vehicle diagnostic data, vehicle inspection data; Software as a service (SAAS) services featuring software for use in vehicle fleet management in the nature of tracking, locating, and monitoring of vehicles and their drivers and passengers in transit for commercial purposes; Computer technical customer support services, namely, in the nature of a 24/7 service

desk and help desk services in the form of troubleshooting of computer hardware and software problems for IT infrastructure, operating systems, database systems, and web applications

Class 45

(5) Web-based monitoring of passengers in the field of personal safety, namely, monitoring of passengers entering and exiting a vehicle, namely dates and times at which the passengers entered and exited, identifying passengers entering and exiting a vehicle, determining the speed of a vehicle between stops at which passengers enter or exit the vehicle, providing an on-line report identifying passengers who have entered and exited a vehicle, namely the GPS location of the vehicle and dates and times each person entered and exited the vehicle, as well as vehicle speeds, and, enabling a driver to determine that all passengers who entered a vehicle have exited the vehicle, after the vehicle has completed a designated route; Vehicle and driver telematic services in the nature of providing information concerning safety risks on driver behavior to fleet managers

Word

Goods

Class 09

(1) Computer hardware; computer hardware, namely, computers, computer servers, and storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer operating system software; computer software for linking together computers and for enabling computing across a globally accessible network; computer operating software for management hardware, software and processes that exist within an information technology environment, computer system combining hardware and software for use in management and analysis of data, instructional manuals in electronic format sold as a unit therewith. Cloud computing system, namely network integrating computer hardware and software for dynamic provisioning, virtualization, and consumption metering of computer resources and computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses.

Class 16

(2) Printed materials, namely, books, brochures, informational sheets, instructional manuals, written presentations, all in the field of computers, computer services, information technology, and electronic business transactions via a global computer network.

Services

Class 35

(1) Business management consulting services and business consulting services in the field of computers, computing services, computer software, computer hardware, computer systems, computer products and services, and electronic business transactions via a global computer network; business development services in the field of computers, computer software, computer hardware, computer systems, computer products and services, computing, and electronic business transactions via a global computer network; market research studies; business

management services relating to information and data compiling and analyzing; arranging and conducting trade show exhibitions in the field of computers, information technology and electronic business transactions via a global computer network; advertising of a computer systems that integrates Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR), and Machine Learning (ML), which is capable of understanding general human queries and formulating responses for others.

Class 41

(2) Educational services in the field of computers, computer software, computer hardware, computer systems, computing, computer products, electronic business transactions via a global computer network; educational services, namely, organization and conducting conferences, exhibitions, symposiums, presentations, technical demonstrations and training seminars in the field of computers, computing services, computer software, computer hardware, computer systems, computer products and services and electronic business transactions via a global computer network.

Class 42

(3) Computer systems integration services; computer software consultancy; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; technical support services, namely, troubleshooting of computers, servers and computer software problems (computing services); computer systems design services for others; computer systems analysis; interconnection of computer hardware and software, namely, integration of computer systems and networks; computer software and hardware testing services, namely, testing of computer software, computers and servers; installation, updating and maintenance of computer software; computer programming for others; cloud computing services, namely computing services to enable network integrating computer hardware and software for dynamic provisioning, virtualization, and consumption metering of computer resources.

(1) Duplication of library material; updating and maintenance of database systems; Maintenance of on-line databases for others.

Class 38

(2) Computer services, namely, providing access to an interactive web site featuring technology that allows users to collect, store, manage, deliver, and showcase electronic and paper-based content; Computer services, namely, providing access to an interactive web site featuring technology that allows users to consolidate and manage social networks, accounts, and connections to existing and emerging application programming interfaces (APIs); Providing access to a web site featuring technology that enables users to share, bookmark, index, store, collect, and showcase content, articles, images, calendars, products, projects, and other information resources in electronic form in the nature and field of library and archives services; Providing access to a web site featuring temporary use of non-downloadable software for library and archives services; Providing access to a web site for the electronic storage of digital photographs and videos; Providing access to a web site featuring non-downloadable software for libraries and archives; Providing access to a web site featuring on-line non-downloadable software that enables users to create item records, manage inventory, manage storage space, support circulation, and other related activity for library and archives storage facilities and service centers, to upload and modify library catalogue data, to export item record data, to generate reports on functions and operations within software, to upload offline data, to create service records for cost recovery, to create and manage users, and to configure software to unique site specifications; Providing access to a web site featuring resources, namely, non-downloadable software for libraries and archives; Providing access to a web site featuring technology that enables users to create item records, manage inventory, manage storage space, support circulation, and other related activity for library and archives storage facilities and service centers, to upload and modify library catalogue data, to export item record data, to generate reports on functions and operations within software, to upload offline data, to create service records for cost recovery, to create and manage users, and to configure software to unique site specifications; Providing access to a web site for the electronic storage of data collected by and for, and provided by, libraries and archives; Providing access to

an on-line network environment featuring technology that enables users to share data in the field of library and archives services; Providing access to an on-line network environment that features technology that enables users to share data; Providing access for temporary use to a non-downloadable web application for library and archives services.

Class 41

(3) Consulting services for others in the field of design, planning, and implementation project management of library and archives.

Class 42

(4) Application service provider featuring application programming interface (API) software for library and archives services; Business technology software consultation services; Computer programming consultancy; Computer software consultancy; Computer software consultation; Computer software consulting; Computer software design; Computer software design and updating; Computer software design, computer programming, and maintenance of computer software; Computer software development; Computer software development in the field of library and archives services; Computer software development, computer programming and maintenance of computer software for library and archives services; Computer software installation and maintenance; Computer hardware and software design; Computer programming and software design; Computer services, namely, integration of computer software into multiple systems and networks; Computer security consultancy in the field of library and archives services; Computer services, namely, hosting an interactive web site featuring technology that allows users to collect, store, manage, deliver, and showcase electronic and paper-based content; Computer services, namely, hosting an interactive web site featuring technology that allows users to consolidate and manage social networks, accounts, and connections to existing and emerging application programming interfaces (APIs); Computer technology consultancy; Computer technology consultancy in the field of library and archives services; Consultation about the maintenance and updating of computer software; Consulting in the field of information technology, namely, consulting on the architecture and design of computer software and enterprise software; Consulting in the field of computer software project management services; Consulting in the field of the design and development of virtualization technologies for enterprises and businesses; Consulting in the field of library and archives services engineering; Consulting services in the design and implementation of computer-based information systems for businesses for evaluation and assessment of business systems; Consulting in the field of configuration management for computer hardware and software; Consulting services in the field of cloud computing; Consulting services in the field of hosting computer software applications; Consulting services in the field of providing online, non-downloadable software and applications; Consulting services in the field of software as a service (SAAS); Creating, maintaining, and modernizing computer software; Customizing computer software; Data migration services; Database design and development; Database development services; Design and development of computer software; Design and development of computer hardware and software; Design and development of computer software for library and archives services; Design and development of on-line computer software systems; Design and development of software and hardware for multimedia data storing and recalling; Design and writing of computer software; Design of computer hardware, integrated circuits, communications hardware, and software and computer networks for others; Design of computer networks and software for others for the provision of library and archives services; Design of computer databases; Design, development, installation and maintenance of computer software; Design, installation, updating and maintenance of computer software; Design, maintenance, development and updating of computer software; Designing computer software for controlling self-service terminals; Developing and updating computer software; Development, updating and

maintenance of software; Digital compression of computer data collected by and for, and provided by, libraries and archives; Electronic computer data back-up services; Electronic storage of files and documents for library and archive management, electronic storage of archived e-mails; Electronic storage of electronic media, namely, archived images, text, and audio data in the field of libraries and archives; Electronic storage of files and documents; Electronic storage of data collected from libraries and archives records, namely, cloud computing provider services for general storage of data; Web hosting of computer software, websites and computer software applications of others on a virtual private server; Installation and maintenance of computer software; Installation of computer software; Installation, maintenance and repair of computer software; Installation, maintenance and repair of software for computer systems; Installation, maintenance, and updating of computer software; Installation, repair and maintenance of computer software; IT consulting services in the fields of computer software development and IT integration services for library and archives, namely, for planning and implementing automation systems to improve workflow processes, for cloud infrastructure management and automation; Maintenance and updating of computer software; Maintenance and upgrading of computer software; Maintenance of computer software; Duplication of computer programs; Outsource service provider in the field of information technology consulting, namely the development, maintenance, and use of computer systems, software, and networks for the processing and distribution of data; Preparation, update, installation and maintenance of computer software; Hosting a web site featuring technology that enables users to share, bookmark, index, store, collect, and showcase content, articles, images, calendars, products, projects, and other information resources in electronic form in the nature and field of library and archives services; Hosting a web site featuring temporary use of nondownloadable software for library and archives services; Hosting a web site for the electronic storage of digital photographs and videos; Hosting a web site featuring non-downloadable software for libraries and archives; Hosting a web site featuring on-line non-downloadable software that enables users to create item records, manage inventory, manage storage space, support circulation, and other related activity for library and archives storage facilities and service centers, to upload and modify library catalogue data, to export item record data, to generate reports on functions and operations within software, to upload offline data, to create service records for cost recovery, to create and manage users, and to configure software to unique site specifications; Hosting a web site featuring resources, namely, non downloadable software for libraries and archives; Hosting a web site featuring technology that enables users to create item records, manage inventory, manage storage space, support circulation, and other related activity for library and archives storage facilities and service centers, to upload and modify library catalogue data, to export item record data, to generate reports on functions and operations within software, to upload offline data, to create service records for cost recovery, to create and manage users, and to configure software to unique site specifications; Hosting a web site for the electronic storage of data collected by and for, and provided by, libraries and archives; Hosting an on-line network environment featuring technology that enables users to share data in the field of library and archives services; Hosting an on-line network environment that features technology that enables users to share data; Providing an online non downloadable Internet-based system application featuring technology enabling users to create item records, manage inventory, manage storage space, support circulation and other related activity for library and archives storage facilities and service centers, to upload and modify library catalogue data, to export item record data, to generate reports on functions and operations within software, to upload offline data, to create service records for cost recovery, to create and manage users, and to configure software to unique site specifications; Providing on-line nondownloadable software for off-line data collection in the field of library and archives services; Providing temporary use of non-downloadable computer software for tracking documents over computer networks, intranets and the internet in

the field of library and archives services; Hosting for temporary use of a nondownloadable web application for library and archives services; Providing temporary use of online nondownloadable middleware for providing an interface between software and an external integrated library system, interlibrary loan system, records management system, collections management system, patron request management system, homegrown request portal, and other database in the field of library and archives services; Reconstruction of database systems for others; Repair of computer software; Research and development of computer software; Research, development, design and upgrading of computer software; Services for maintenance of computer software; Software as a Service (SaaS) applications hosted on cloud platforms to support the input, storage, and retrieval of library and archives data; Software development consulting in the field of library and archives services; Technical support services in the nature of troubleshooting to diagnose computer hardware and software problems; Temporary electronic storage of information and data, namely, cloud computing provider services for general storage of data; Updating of computer software; Updating and design of computer software; Updating and maintenance of computer software; Updating of computer software.

Class 07

(1) Machines for wirelining, inspecting defects, surfaces and obstructions and welding in pipes and wellbores; Tools and devices, namely robots for measuring, characterizing, logging, imaging, and monitoring of boreholes, wells, wellbores, above-ground pipes, tubulars, and near wellbore fractures.

Class 09

(2) Software for processing data collected from a wellbore via downhole telepresence robots and inspection instruments; Downhole telepresence robots and software for measuring, characterizing, logging, imaging, locating defects, logging while drilling, and monitoring of boreholes, wells, wellbores, above-ground pipes, tubes, and near wellbore fractures; Downhole telepresence robots and software for inspecting defects, surfaces and obstructions in the field of oil, gas, hydrocarbon formations, and water infrastructure; Software for imaging wellbores, pipes, tubulars, and objects and defects therein; Cement bond logging instruments, namely wellbore downhole survey and measurement equipment; Ultrasound imaging machine to image perforations, sliding sleeves, slotted liners, fibre cable protectors, and sand screens for use with wellbores.

Services

Class 37

(1) Cement bond logging services, namely cementing services for oil and gas wells.

Class 42

(2) Engineering and consulting services in the fields of oil and gas drilling engineering, well integrity engineering, and fracturing engineering; Engineering and consulting services in the fields of oil and gas wellbore inspection, wellbore evaluation, locating obstructions, defects in pipes and tubulars, and logging while drilling; Technological services, namely providing technology information in the fields of oil and gas exploration, fracture analysis, well completion, well repair, and well production in the oil and gas industry; Wellbore operations in the fields of fishing, inspection, and welding, namely wellbore wirelining, wellbore logging and wellbore testing;

Software for visualizing wellbores, pipes, tubulars, and objects or defects therein, namely software for processing sensor data collected from wellbores, pipes, tubulars, for measuring, characterizing, logging, imaging, locating defects, and monitoring of pipes, tubulars for inspecting defects, surfaces and obstructions in the fields of oil, gas, hydrocarbon formations, and water infrastructure; Nonmedical ultrasound imaging services for oil and gas exploration, well completion and well production, namely computer aided imaging of wellbores; Cement bond logging services, namely materials testing and evaluation of wellbores.

downloadable software for the setting up, configuring and operation of home and office automation systems and home and office monitoring systems for lighting, electrical outlets, HVAC, air purifiers, humidifiers, computer network bridges, faucets, leak and flood sensors, doors, locks, security alarms, door bells, cameras, motion sensors, light sensors, sound sensors, contact sensors, air quality sensors, televisions, home theatre projectors, audio and video receivers, audio speakers, video game consoles, appliances, fans, current switches, power switches, computer network switches, thermostats, temperature sensors, humidity sensors, fire sprinklers, irrigation sprinklers, and network routers; home and office automation systems comprising wireless and wired controllers, hardware and software for lighting, electrical outlets, HVAC, air purifiers, humidifiers, computer network bridges, faucets, leak and flood sensors, doors, locks, security alarms, door bells, cameras, motion sensors, light sensors, sound sensors, contact sensors, air quality sensors, televisions, home theatre projectors, audio and video receivers, audio speakers, video game consoles, appliances, fans, current switches, power switches, computer network switches, thermostats, temperature sensors, humidity sensors, fire sprinklers, irrigation sprinklers, and network routers; software for creating customizable and interactive networks of Internet connected devices, namely lighting, electrical outlets, HVAC, air purifiers, humidifiers, computer network bridges, faucets, leak and flood sensors, doors, locks, security alarms, door bells, cameras, motion sensors, light sensors, sound sensors, contact sensors, air quality sensors, televisions, home theatre projectors, audio and video receivers, audio speakers, video game consoles, appliances, fans, current switches, power switches, computer network switches, thermostats, temperature sensors, humidity sensors, fire sprinklers, irrigation sprinklers, and network routers; software for controlling Internet connected devices, namely, lighting, electrical outlets, HVAC, air purifiers, humidifiers, computer network bridges, faucets, leak and flood sensors, doors, locks, security alarms, door bells, cameras, motion sensors, light sensors, sound sensors, contact sensors, air quality sensors, televisions, home theatre projectors, audio and video receivers, audio speakers, video game consoles, appliances, fans, current switches, power switches, computer network switches, thermostats, temperature sensors, humidity sensors, fire sprinklers, irrigation sprinklers, and network routers; software for creating, editing, and running software

command workflows to allow users to build scenes and routines that automate the sequences and combinations of commands executed by Internet connected devices in the homes and businesses of the user; software for connecting computers, computer hardware, and mobile devices, namely, cell phones, laptops, and tablet computers to third-party home and office automation software platforms and applications to remotely monitor and control lighting, electrical outlets, HVAC, air purifiers, humidifiers, computer network bridges, faucets, leak and flood sensors, doors, locks, security alarms, door bells, cameras, motion sensors, light sensors, sound sensors, contact sensors, air quality sensors, televisions, home theatre projectors, audio and video receivers, audio speakers, video game consoles, appliances, fans, current switches, power switches, computer network switches, thermostats, temperature sensors, humidity sensors, fire sprinklers, irrigation sprinklers, and network routers in the homes and businesses of the user; computer application software for mobile phones, smartphones and tablet computers for remotely controlling third-party home automation software for home monitoring and control of wired and wireless electronic devices, namely, lighting, electrical outlets, HVAC, air purifiers, humidifiers, computer network bridges, faucets, leak and flood sensors, doors, locks, security alarms, door bells, cameras, motion sensors, light sensors, sound sensors, contact sensors, air quality sensors, televisions, home theatre projectors, audio and video receivers, audio speakers, video game consoles, appliances, fans, current switches, power switches, computer network switches, thermostats, temperature sensors, humidity sensors, fire sprinklers, irrigation sprinklers, and network routers

Services

Class 35

(1) online retail store services featuring home and office automation systems and home and office monitoring systems comprising wireless and wired controllers, controlled devices, hardware and software for lighting, window treatments, electrical outlets, HVAC, doors, locks, alarms and other safety and security devices, entertainment devices, appliances, and other home and office monitoring and control applications

Class 37

(2) installation of home and office automation systems and home and office monitoring systems comprising wireless and wired controllers, controlled devices, hardware and software for lighting, window treatments, electrical outlets, HVAC, doors, locks, alarms and other safety and security devices, entertainment devices, appliances, and other home and office monitoring and control applications

Class 42

(3) providing temporary use of online, non-downloadable software for the setting up, configuring and operation of home and office automation systems and home and office monitoring systems for lighting, electrical outlets, HVAC, doors, locks, alarms and other safety and security devices, entertainment devices, appliances, and other home and office monitoring and control applications, excluding window treatments; technical support services in the form of troubleshooting to diagnose computer hardware and software problems; providing temporary use of non-downloadable computer software for users to aggregate home and office automation software applications, web-based services and Internet connected devices to allow users to build scenes and routines that automate the sequences and combinations of commands executed by Internet connected devices in the homes and businesses of the user; software as a service (SaaS) services featuring software for networking Internet connected devices and systems of devices; software as a service (SaaS) services featuring software for creating customizable and interactive networks of Internet connected devices and systems of devices; software as a service (SaaS) services featuring software for controlling Internet connected devices, excluding window treatments, by remote

control; software as a service (SaaS) services featuring software for creating, editing, and running software command workflows; software as a service (SaaS) services featuring software for users to aggregate home and office automation software applications, web-based services and Internet connected devices to allow users to build scenes and routines that automate the sequences and combinations of commands executed by Internet connected devices in the homes and businesses of the user, excluding window treatments; software as a service (SaaS) services featuring software for connecting computers, computer hardware, computer peripheral devices, and mobile devices to computer software platforms and computer services to remotely monitor and control devices and systems in the homes and businesses of the user, excluding window treatments; software as a service (SaaS) services featuring software that enables users to remotely monitor, control, and receive updates and notifications from computer hardware devices

Visual Representations

Trademark Description

The trademark is two-dimensional and consists of a patch shape with a M crest design therein, applied to a hood of outerwear as shown in the drawing. The M crest design consists of the geometric design of a diamond above the stylized letter M, with the representation of the bottom part of a fleur-de-lys at the bottom of the letter M, with the word MACKAGE appearing underneath.

The representation of the outerwear in stippled outline and the trim of the hood are shown to show the position of the trademark and do not form part of the trademark. The alternative representation of the trademark is a close-up view of the M crest design.

Goods**Class 25**

Children outerwear, namely coats and jackets; bomber jackets; capes; cloak; down jackets; fur jackets; hooded jackets; leather coats; leather jackets; outdoor winter clothing; outerwear jackets; overcoats; pea coats; rainwear; suede jackets; trench coats; waterproof jackets; winter jackets; athletic apparel; fake fur jackets; ski clothing; ski wear; snowboard jackets; sweatshirts; blazers; coats; parkas.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a circle in the colour black with a wide bar in the colour black in the center of the circle with the terms 'PUR-AIR' in the colour white in a stylized format. The letter 'U' contains a branch with three leaves in the colour black. The term 'Technology' in the colour yellow appears under the term 'PUR-AIR'. Above the term 'PUR-AIR' around the top of the circle are the terms 'Built With Premium' in white. A curved line in the colour yellow appears above the terms 'Built With Premium'. Below the term 'Technology' around the bottom of the circle are the terms 'Breathe Cleaner' in white. A curved line in the colour yellow appears below the terms 'Breathe Cleaner'. Above and below the wide bar in the center of the circle are half circles with pleated filter media in the colour white.

Trademark Description

The trademark consists of a position of two-dimensional labels that are applied to the particular threedimensional bottle shown in the design. The three-dimensional bottle shown in dashed lines in the design does not form part of the trademark but is included merely to show the positioning of the labels that form this trademark. The trademark consists of labels affixed on a three-dimensional bottle. The wording on the labels is as follows (starting from the top of the bottle design and proceeding downward): The diagonal label on the neck of the bottle: HENKELL. Small label at the base of the neck of the bottle: Vin Mousseux Plus Fin on the left side of the fleur de lys symbol, and Finest Sparkling Wine on the right side of the fleur de lys symbol. Directly above the main label ANNO 1856. Main label at the bottom part of the bottle: HENKELL, TROCKEN, Finest Sparkling Wine, DRY - SEC

Colour Claim

Colour is claimed as a feature of the trademark. Starting from the top of the bottle and moving downward: The diagonal label at the neck of the bottle is red, with gold lines at top and bottom, and the word HENKELL in chamois. The small label at the base of the neck of the bottle is a chamois background, with gold lines and a gold fleur de lis, and the wording in black. The fleur de

lis and other design elements directly above the bottom label are all in gold. The bottom (main) label is a chamois background, with gold lines at the top and bottom, and the words HENKELL TROCKEN FINEST SPARKLING WINE in black. The small oval at the bottom of the this label is red, with gold lining, and gold lines on either side of it. The words DRY SEC are chamois.

Colour is claimed as a feature of the trademark. The word COMAC is red and the line below the word is grey.

Goods

Class 07

Machines for filling bottles, cans, kegs, phials and containers in general; installations and machines for the manufacturing, processing and packaging of bottled, canned or keged beverages; machines for washing the inside and outside of bottles, cans, kegs and containers in general; brushing equipment, namely, brushes being parts of machines; bottle capping and uncapping machines, bottle stoppering and un-stoppering machines; industrial mixers, namely, industrial carbonators for mixing of gas and liquids for making sparkling beverages; industrial pre-mixers, namely, industrial pre-mixers for mixing water and syrups to make beverages; filters for aerated beverage making machines; tilters, parts of machine; apparatus for labelling and marking bottles, cans, kegs and containers in general, namely, electromechanical marking machines and automatic industrial labelling machines for applying labels to bottles, cans, kegs and containers in general; industrial bottle drying machines; lifting installations for transporting cases, cartons, bottles, clusters, pallets; rollers being parts of bottling machine; palletizing and depalletizing machines.

Services

Class 37

Building construction, installation and repair for bottling and kegging installations and lines and for container transport systems; pre- and after-sales technical assistance relating to installations and equipment for kegging, bottling, filling, cleaning, emptying and handling bottles, cans, kegs, phials and containers in general.

Goods

Class 07

(1) Machines, machine tools, apparatus, installations and production lines for the mechanical wood processing industry, namely, woodworking machines, log handling machines, veneer manufacturing machines, veneer manufacturing machines incorporating drying facilities, veneer peeling machines, veneer clipping machine, veneer stacking machines, veneer scarf-jointing machines, veneer composing machines, veneer patching machines, veneer sheet handling machines, veneer slicing machines, and parts and fittings for the aforesaid; machines, machine tools, apparatus, installations and production lines for the mechanical wood processing industry, namely, plywood manufacturing machines, plywood manufacturing machines incorporating drying facilities, and parts and fittings for the aforesaid; plywood lay-up machines, plywood prepressing machines, plywood pressing machines, laminated veneer lumber (LVL) manufacturing machines, laminated veneer lumber (LVL) billet handling machines, panel handling machines, panel trimming machines, and parts and fittings for the aforesaid; panel repairing machines, panel sawing machines, panel sanding and grading machines, panel overlaying machines, panel packaging machines, conveyers, screening machines, and parts and fittings for the aforesaid

Class 09

(2) Apparatus for analyzing moisture content, density, modulus of elasticity, ultrasonic propagation time, tensile strength, shear strength, compression strength, bending strength, deflection, grain angle, visual defects, geometric shape, orientation, surface quality, abnormalities and imperfections of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, and parts and fittings for the aforesaid; apparatus for measuring and monitoring the thickness, conductivity, resistance, electromagnetic properties, sound velocity and x-ray properties of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, apparatus for detecting the shape of blocks, holes, cracks, splits, bark, knots and other visual imperfections in veneer, plywood and laminated veneer lumber (LVL), instruments for measuring veneer thickness, electric control panels for machines and automated processes for machines in the field of wood, lumber, veneer, and laminated veneer lumber (LVL) and plywood industry, and parts and fittings for the aforesaid; quality control apparatus, namely, machinery for measuring elasticity, stiffness, compression

strength, bending strength, shear strength, tensile strength, static load limit, impact load limit and deflection of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, and parts and fittings for the aforesaid; data collecting and processing equipment, namely, computers and computer hardware, and parts and fittings for the aforesaid; computer hardware and software for wood and lumber processing purposes, and parts and fittings for the aforesaid; software for factory automation of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, optimizing efficient operations of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, managing inventory of raw materials, remotely controlling the operation of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, remote monitoring of the functioning and use of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, for quality control by tracking and monitoring selected process parameters of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, fault monitoring of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, and parts and fittings for the aforesaid; factory automation software, namely, computer programs (cad /cam) recorded on software designed for use in automated manufacturing, and parts and fittings for the aforesaid; digital moisture sensors, and parts and fittings for the aforesaid; optical sensors, and parts and fittings for the aforesaid; computer hardware and software for remote monitoring of mill production lines for the mechanical wood processing industry and plywood, veneer and laminated veneer lumber (LVL) manufacturing machinery and lumber, plywood, veneer and laminated veneer lumber (LVL) testing and grading machinery, and parts and fittings for the aforesaid; electrical control panels, and parts and fittings for the aforesaid; optical scanners, and parts and fittings for the aforesaid; calibrating machinery for calibrating wood testing and lumber grading machines, and parts and fittings for the aforesaid; moisture and strength measuring equipment for wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, namely, dry moisture analysers, moisture volume analysers, veneer testers, tension testers, rail shear testers, engineered wood panel testers, engineered wood panel bending testers, static bending testers, shear testers, and compression parallel testers, apparatus for measuring the moisture and strength of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, and parts and fittings for the aforesaid; electronic controllers for operating lumber, wood, plywood, veneer and laminated veneer lumber (LVL) testing and grading machinery and plywood, veneer and laminated veneer lumber (LVL) manufacturing machines, and parts and fittings for the aforesaid; electronic audio vibration devices for grading lumber, and parts and fittings for the aforesaid

Services

Class 37

(1) Construction of mill production lines and factories; maintenance, refurbishment, repair and installation services relating to mill production lines, machine tools and industrial machines; installation of electrical systems for factory automation equipment

Class 42

(2) Scientific analysis of industrial wood products, namely, lumber, veneer, plywood and laminated veneer lumber (LVL), industrial research in the field of mechanical wood processing industry products; design and development of computer hardware and software; testing of manufacturing machinery in the field of mechanical wood processing industry; testing of lumber, veneer, plywood and laminated veneer lumber (LVL) manufacturing machinery; monitoring lumber, veneer and plywood machines to ensure proper and efficient functioning; product testing, design and development of manufacturing machinery in the field of mechanical wood processing industry; product testing, design and development of lumber, veneer, plywood and laminated veneer lumber (LVL) manufacturing machinery; industrial design, industrial research in the field of mechanical

wood processing industry; technical research in the field of mechanical wood processing industry and lumber, veneer and plywood machinery design and development; technical consulting in the field of machinery and the mechanical wood processing industry, namely, developing industrial process technologies for fabrication manufacturing machinery of lumber, veneer, plywood and laminated veneer lumber (LVL); remote monitoring of computer systems for the functioning and use of machinery, namely, manufacturing machinery, wood, veneer, plywood and laminated veneer lumber (LVL) mill production line machinery; computer software technical support services, namely, troubleshooting in the nature of diagnosing problems with manufacturing machinery used in wood, veneer, plywood and laminated veneer lumber (LVL) mill production line machinery; development, design and programming of production and Enterprise Resource Planning (ERP) computer systems; programming and installation services for computer software; update and maintenance services for computer software; monitoring of computer systems by remote access; testing, verification and quality control services for industrial material handling machinery and factory automation machinery for use in the manufacturing of veneer, plywood, laminated veneer lumber (LVL), lumber and wood products; quality control of goods and services for others, namely, manufacturing processes of veneer, plywood, laminated veneer lumber (LVL) and lumber products; quality assurance in the field of mechanical wood processing industry; software as a service (SaaS) services featuring software for factory automation of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, optimizing efficient operations of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, managing inventory of raw materials, remotely controlling the operation of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, remote monitoring of the functioning and use of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, for quality control by tracking and monitoring selected process parameters of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, fault monitoring of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery

Visual Representation

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of a design of a deer head and antlers, with a snake that forms an infinity symbol above the head and a crown design connected to the top of the snake design, all placed over a globe design with meridians with a circular border containing the wording "THE MCKENZIE INSTITUTE INTERNATIONAL". The deer head, antlers, snake that forms an infinity symbol, and the circular border are blue. The globe design is grey and white. The words "THE MCKENZIE INSTITUTE INTERNATIONAL" are white against the blue circular border.

Services

Class 35

(1) Retail and wholesale of electronic books, DVDs, medical apparatus and instruments, orthopaedic products, medical devices, lumbar rolls, cervical rolls, night rolls, coccyx cushions, medical furniture, publications, books, instructional and teaching material, and furniture, all relating to musculoskeletal disorders and physical therapy; online retail and wholesale of electronic books,

DVDs, medical apparatus and instruments, orthopaedic products, medical devices, lumbar rolls, cervical rolls, night rolls, coccyx cushions, medical furniture, publications, books, instructional and teaching material, and furniture, all relating to musculoskeletal disorders and physical therapy; presentation of goods on communication media, for retail purposes, and demonstration of goods in the field of musculoskeletal issues and physical therapy; auction services, and provision of an online marketplace for buyers and sellers of medical goods and services; direct marketing of the goods and services of others, advertising the goods and services of others, in the field of musculoskeletal disorders and physical therapy; promoting the commercial and business interests of professionals of the healthcare industry provided by an association for its members; organisation, operation, management and supervision of customer loyalty schemes, in relation to musculoskeletal disorders and physical therapy; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from an internet website, an intranet website, from an online retail store, and by mail order in the field of electronic books, DVDs, medical apparatus and instruments, orthopaedic physical therapy products, medical devices for physical therapy, lumbar rolls, cervical rolls, night rolls, coccyx cushions, medical furniture, publications, books, instructional and teaching material, and furniture, namely, operating a marketplace; development of marketing strategies and concepts for others, in the field of musculoskeletal disorders and physical therapy; business management, business administration, and importing and exporting agency services in the field of musculoskeletal disorders and physical therapy; retail and wholesale management services in the field of musculoskeletal issues and physical therapy; advisory, consultancy and information services in the fields of advertising, marketing services

Class 41

(2) Education services namely conducting classes and seminars in the field of musculoskeletal disorders and physical therapy; provision of training in the diagnosis, assessment, and treatment of musculoskeletal disorders and physical therapy; healthcare and medical education services in the field of musculoskeletal disorders and physical therapy; publication of on-line journals in the field of healthcare; arranging and conducting of seminars, training workshops, lectures, courses of instruction in the diagnosis, assessment, and treatment of musculoskeletal disorders and physical therapy; publishing of documents, newsletters and printed matter in the field of the diagnosis, assessment, and treatment of musculoskeletal disorders and physical therapy; publication of journals, newsletters, texts, guides, training materials, visual training material and educational materials in the field of the diagnosis, assessment, and treatment of musculoskeletal disorders and physical therapy; providing online non-downloadable electronic publications in the field of medical diagnosis, medical treatment and physical therapy; advisory, consultancy and information services in the field of medical education services and physical therapy treatment education services for back, neck and extremities disorders, and medical education and training; providing medical education and training services online via a website, the Internet or other computer networks and accessible by mobile phone and other Internet-enabled devices.

Class 42

(3) Scientific and technological services and research and design in relation to the diagnosis, assessment, and treatment of musculoskeletal disorders and physical therapy; design and development of computer hardware and software for the diagnosis, assessment, and treatment of musculoskeletal disorders and physical therapy; medical research services in the field of physical therapy and orthopaedics; medical research in the field of musculoskeletal disorders and physical therapy; design services, namely design of medical products and furniture for the diagnosis, assessment and treatment of musculoskeletal disorders and physical therapy; providing temporary use of online non-downloadable software for use in the education, diagnosis, assessment and

treatment of musculoskeletal disorders and for providing instructions in physical therapy; providing temporary use of online non-downloadable software applications for the diagnosis and treatment of musculoskeletal disorders, and physical therapy; providing temporary use of online non-downloadable software for the medical diagnosis and treatment of musculoskeletal disorders and physical therapy for use in accessing, updating, manipulating, maintaining, modifying, organizing, storing, backing up, synchronizing, transmitting, and sharing data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content via global computer networks, mobile telephones, and the Internet; providing temporary use of online non-downloadable software for storing, managing, tracking, analysing, and reporting data in the field of medical treatment and physical therapy; hosting of software as a service in the field of medical software; advisory, consultancy and information services in the fields of medical research, physical therapy research, orthopaedic research, and the design of medical products, software and furniture.

Class 44

(4) Healthcare services, namely, providing medical and physical therapy treatment services for musculoskeletal disorders; musculoskeletal diagnosis and treatment services; physiotherapy services; chiropractic services; conducting of physical examinations namely, musculoskeletal, regional, chiropractic and spinal examinations and evaluations; providing health assessment services, namely, conducting physical evaluations for the treatment of musculoskeletal disorders; health advisory services namely, providing advice to clinicians in the field of physical therapy and the treatment of musculoskeletal disorders; preparation of reports relating to physiotherapy and musculoskeletal matters; provision of exercise facilities for health rehabilitation purposes for musculoskeletal disorders and physical therapy; therapeutic treatment of the body for musculoskeletal disorders; diagnosis, treatment and rehabilitation services, namely musculoskeletal, spinal, chronic injury, sports, and rehabilitation physiotherapy services; provision of massage and healthcare services, namely physical manipulation, acupuncture, dry needling, hand therapy, manual tissue techniques, hydrotherapy, and recovery programmes services for the treatment of musculoskeletal disorders and physical therapy; medical information services in the field of musculoskeletal disorders and physical therapy information services; advisory, consultancy and information services in the fields of medicine, physical therapy services, musculoskeletal treatment services; advisory, consultancy and information services in the fields of medicine, physical therapy services, and musculoskeletal treatment services online via a website, the Internet or other computer networks and accessible by mobile phone and other Internet-enabled devices

Goods

Class 09

Downloadable computer software for advertising and marketing for real estate agents and real estate listings, designing websites, customer relationship management, search engine optimizing, sales lead generation, and for providing virtual assistant services; downloadable computer application software for mobile phones, namely, software for advertising and marketing for real estate agents and real estate listings, designing websites, customer relationship management, search engine optimizing, sales lead generation, and for providing virtual assistant services; downloadable computer database software for creating searchable databases of information for consumers and for disseminating advertising for others in the fields of real estate, apartments and residential rentals, mortgages, consumer goods, and consumer services; downloadable computer software and downloadable computer application software for mobile phones and tablet computers, namely, consumer data storage software in the area of real estate, apartment and

residential rentals, household furnishings and appliances and household maintenance, repair and renovation services; downloadable computer database management software and downloadable computer application software for mobile phones and tablet computers, namely, software for use in database management featuring information in the field of real estate, apartment and residential rentals, consumer goods and consumer services; downloadable computer software and downloadable computer application software for mobile phones and tablets, namely, software for advertising, accessing and presenting information for others in the area of real estate, apartment and residential rentals, household furnishings and appliances and household maintenance, repair and renovation services; downloadable computer software, namely, application programming interface (API) for accessing and presenting information in the field of real estate, household furnishings and appliances and household maintenance, repair and renovation services; downloadable computer software and computer application software for mobile phones and tablet computers, namely, software for sharing data about real estate, apartments, and residential rentals on social networking sites; downloadable computer software and downloadable computer application software for providing mortgage information, analysis, and advice in the fields of mortgage lending and home equity lending, and for use in selecting, applying for, and securing mortgages and home loans; downloadable computer software and downloadable computer application software for mobile phones and tablet computers, namely, software for providing mortgage quotes, for confirming lender availability and interest, and for reviewing and rating lenders and mortgage professionals; downloadable computer software, namely, software widgets for creating searchable databases of information for users in the fields of real estate, apartment and residential rentals, and mortgages; downloadable computer software, namely, software widgets for creating searchable databases of information for users in the fields of real estate, apartment and residential rentals, and mortgages; downloadable computer software, namely, software plug-ins for use in social media sites for creating searchable databases of information for users in the fields of real estate, apartment and residential rentals, and mortgages; downloadable computer software and downloadable computer application software for mobile phones and tablet computers, namely, software for advertising, accessing, presenting, tagging, and sharing information in the areas of real estate, home improvement services, home renovation services, home construction services, and home repair services; downloadable computer software and downloadable computer application software for mobile phones and tablet computers, namely, software for posting ratings, reviews and recommendations in the fields of real estate, home improvement services, home renovation services, home construction services, and home repair services; downloadable computer software and downloadable computer application software for mobile phones and tablet computers, namely, software for accessing marketplaces in the fields of real estate, home improvement services, home renovation services, home construction services, and home repair services; downloadable computer software and downloadable computer application software for soliciting and selecting real estate purchase offers, managing the real estate sales process, and closing real estate sales.

Services

Class 35

(1) Advertising services, namely advertising the goods and services of others; marketing services, namely providing marketing and co-marketing strategies and video marketing services for others; analysis of public response to advertising for others; customer relationship management, namely, managing and analyzing customer interactions and customer data throughout the customer lifecycle, for the purpose of improving business relationships with customers, assisting in customer retention, and driving sales growth; Internet advertising services, namely advertising the goods and services of others on the Internet; search engine optimization for sales promotion; marketing

services namely, providing demand creation and lead generation activities and services in the field of real estate, namely, providing real estate contact information to the public; virtual assistant services, namely, business administration services and virtual telephone receptionist services; marketing services namely, providing sales leads for the real estate industry; providing business intermediary services via a website for connecting home buyers and home sellers; providing business intermediary services via a website for connecting home sellers with housing investors; providing business intermediary services for matching consumers with professionals in the field of real estate for the purposes of home valuations; providing business intermediary services for matching consumers with professionals in the field of real estate for the purposes of home inspections; providing business intermediary services via a website for connecting home buyers and sellers with real estate agents; arranging and conducting business competitions for businesses, entrepreneurs, software developers, and data scientists to compete for monetary awards and visibility to facilitate business activities; promoting the goods and services of others by providing hypertext links to the web sites of others featuring real estate, consumer goods and consumer services; advertising the goods and services of others and providing marketing strategies for others in the fields of real estate, apartments, residential rentals, retail store services, financial services, mortgage services, home equity services, insurance services, escrow services, real estate appraisal services, legal services, title services, notary services, real estate agency services, property management services, moving and relocation services, home inspection services, architectural services, landscaping services, interior design services, building contractors, home building and repair services, home renovation services, home improvement services, home construction services, painting services, plumbing services, staging services, and home furnishings; real estate sales management; real estate marketing services for others, namely online services featuring tours of real estate; providing an on-line showroom for the goods of others in the field of real estate, apartments, and residential rentals; operating on-line marketplaces for sellers and buyers of goods and services in the field of real estate, apartments, residential rentals, home improvement services, home renovation services, home construction services, and home repair services; providing an on-line commercial information directory on the Internet; providing commercial information on the Internet in the field of real estate; providing on-line trade directory services featuring hypertext links to the web sites of others; administrative services, namely providing referrals to others in in the fields of retail stores, financial management services, mortgage services, home equity services, insurance services, escrow services, appraisal services, legal services, title searching services, notary services, real estate agency services, property management services, moving services, home inspection services, architectural services, landscaping services, interior design services, building contractors, home building and repair services, home improvement services, carpentry services, construction project engineering services, engineering surveying services, painting services, plumbing services, interior design services, staging services, and home furnishings; business services, namely organizing third-party vendors, suppliers and contractors on behalf of others; copying of documents in business matters for others, all in the field of real estate; business intermediary services for matching borrowers with potential lenders in the field of mortgage lending; business intermediary services for matching consumers with real estate professionals in the field of real estate services via computer network; providing statistical information and indexes of mortgages, interests, and prices for others; providing consumer information in the field of home improvement comparisons; comparison shopping services that allow users to compare residential dwelling units and home improvements; providing via a web site product ratings of the consumer goods and service of others in the field of residential dwelling units and home improvements; promoting the goods and services of others by providing hypertext links to the web sites of others featuring apartment and residential rental listings; commercial information services, namely, providing demographic data of interest to

buyers, sellers and renters of real estate to third parties; providing via a website ratings, reviews and recommendations posted by consumers for commercial purposes in the fields of real estate agents, real estate agency services and retail store services; administrative services related to planning and implementing moves of homes for others; design of advertising materials for others; design of Internet advertising for others; on-line advertising for others via a computer communications network; providing on-line marketing services to others, namely providing marketing strategies for others; business and consumer research services in the field of real estate; providing via a website ratings, reviews and recommendations posted by consumers for commercial purposes in the fields of real estate, apartments, residential rentals, retail store services, financial services, mortgage services, home equity services, insurance services, escrow services, real estate appraisal services, legal services, title services, notary services, real estate agency services, property management services, moving and relocation services, home inspection services, architectural services, landscaping services, interior design services, building contractors, home building and repair services, home renovation services, home improvement services, home construction services, painting services, plumbing services, interior design services, staging services, home furnishings, general building contractor services, carpentry services, home building and home repair; administrative services relating to referrals in the field of home improvement services, home renovation services, home construction services, and home repair services; operating on-line marketplaces for sellers and buyers of goods and services in the field of apartments and residential rentals; providing via a website ratings, reviews and recommendations posted by consumers for commercial purposes in the fields of real estate management, real estate leasing, real estate appraisals, real estate listing, real estate agents, apartment rentals, residential rentals, financial services, mortgage lending services, home equity loan services, insurance services, real estate escrow services, real estate appraisal services, real estate title insurance underwriting services, real estate agency services, and real property management services; computer services, namely, search engine optimization for sales promotion; providing via a website ratings, reviews and recommendations posted by consumers in the fields of retail store services and moving and relocation services in the nature of planning and implementing moves of homes for others; providing via a website ratings, reviews and recommendations posted by consumers about local service providers in the fields of real estate, apartments, residential rentals, financial services, mortgage services, home equity services, insurance services, real estate escrow services, real estate appraisal services, real estate title insurance underwriting services, real estate agency services, rental property management services.

Class 36

(2) Real estate valuation services, financial valuation of real estate; providing information in the field of real estate; financial planning in the field of mortgage and home equity loans; providing mortgage and home equity loan quotations to others and providing anonymous mortgage and home equity loan quotations to others; providing information, analysis, and advice in the fields of mortgage lending and home equity lending; credit scoring services featuring an online financial calculator for estimating users' credit scores based on answers they provide; providing information in the field of credit rating, via an on-line database; providing credit scores and related information via an on-line interactive financial calculator for calculating consumers' credit scores featuring data variables to show the effect of the different variables upon the consumers' credit scores; apartment and residential rental financial valuation services; financial valuation of apartments and residential rentals; classified real estate listings of apartment rentals and housing rentals; providing real estate listings and real estate information via the Internet; real estate listing services for housing rentals and apartment rentals; financial research services in the field of real estate; providing information

in the fields of real estate, apartment rentals, and management of apartments; providing advice and financial analysis in the fields of real estate financing, real estate investment, real estate valuations, and real estate appraisals; mortgage lending; mortgage brokerage; mortgage banking; mortgage refinancing; financing of loans; home equity loans; loan origination services; mortgage origination services; financial services, namely, mortgage planning; mortgage brokerage services, namely, brokering the transfer of existing mortgage loans between servicers; real estate acquisition services, namely, purchasing residential properties from owners; estimating contracting work in the fields of real estate, home improvement services, home renovation services, home construction services, and home repair services; providing via a website featuring information about contracting cost estimates for home improvement services; real estate closing services.

Class 37

(3) Renovation and restoration of buildings; providing via a website, information about residential building renovation services, residential building construction services and home repair services.

Class 41

(4) Providing via a website non-downloadable instructional videos in the field of real estate, housing rentals, apartment rentals, home improvement, mortgages, finance, economics, news, and information about neighbourhood demographics and characteristics.

Class 42

(5) Providing temporary use of non-downloadable software that allows others to design and create websites; hosting the websites of others; hosting an online website for creating and hosting micro websites for businesses; providing temporary use of on-line non-downloadable software and applications for advertising and marketing for real estate agents and real estate listings, designing websites, client relationship management, search engine optimizing, sales lead generation, and for providing virtual assistant services; providing on-line non-downloadable computer database software for creating searchable databases of information for consumers and for disseminating advertising for others in the fields of real estate, apartments and residential rentals, mortgages, consumer goods, and consumer services; cloud computing provider services for general electronic storage of consumer data; hosting websites and digital content for others on the Internet; web site design; website development for others; providing temporary use of on-line non-downloadable computer software for creating searchable databases of information for consumers in the fields of real estate, apartments, residential rentals, mortgages, and consumer goods and consumer services; hosting a website featuring the ratings, reviews and recommendations posted by consumers about local service providers in the fields of land title surveying, architectural services, landscape architectural design, home inspection services for purposes of home repair and restoration, interior design services, home staging services for the purpose of increasing the appeal of the property to prospective buyers and/or renters; computer services in the nature of hosting a web site featuring software that enables users to bookmark and share content in the fields of real estate, apartments, residential rentals, retail store services, financial services, mortgage services, home equity services, insurance services, escrow services, real estate appraisal services, legal services, title services, notary services, real estate agency services, property management services, moving and relocation services, home inspection services, architectural services, landscaping services, interior design services, building contractors, home building and repair services, home renovation services, home improvement services, home construction services, painting services, plumbing services, interior design services, staging services, home furnishings, general building contractor services, carpentry services, home building, and home repair; providing temporary use of on-line non-downloadable software for use in soliciting and selecting real estate purchase offers, managing the real estate sales process, and

closing real estate sales; providing temporary use of on-line non-downloadable software for use in selecting, applying for, and securing mortgages and home loans.

Colour Claim

Colour is claimed as a feature of the trademark. The colours black, white, green, red, blue and orange are claimed as a feature of the trademark. In particular, the circle is black; the straight stripes, from top to bottom, are green, red, blue and orange respectively; the three curvy stripes are white.

Goods

Class 07

(1) Machines, machine tools, apparatus, installations and production lines for the mechanical wood processing industry, namely, woodworking machines, log handling machines, veneer manufacturing machines, veneer manufacturing machines incorporating drying facilities, veneer peeling machines, veneer clipping machine, veneer stacking machines, veneer scarf-jointing machines, veneer composing machines, veneer patching machines, veneer sheet handling machines, veneer slicing machines, and parts and fittings for the aforesaid; machines, machine tools, apparatus, installations and production lines for the mechanical wood processing industry, namely, plywood manufacturing machines, plywood manufacturing machines incorporating drying

facilities, and parts and fittings for the aforesaid; plywood lay-up machines, plywood prepressing machines, plywood pressing machines, laminated veneer lumber (LVL) manufacturing machines, laminated veneer lumber (LVL) billet handling machines, panel handling machines, panel trimming machines, and parts and fittings for the aforesaid; panel repairing machines, panel sawing machines, panel sanding and grading machines, panel overlaying machines, panel packaging machines, conveyers, screening machines, and parts and fittings for the aforesaid

Class 09

(2) Apparatus for analyzing moisture content, density, modulus of elasticity, ultrasonic propagation time, tensile strength, shear strength, compression strength, bending strength, deflection, grain angle, visual defects, geometric shape, orientation, surface quality, abnormalities and imperfections of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, and parts and fittings for the aforesaid; apparatus for measuring and monitoring the thickness, conductivity, resistance, electromagnetic properties, sound velocity and x-ray properties of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, apparatus for detecting the shape of blocks, holes, cracks, splits, bark, knots and other visual imperfections in veneer, plywood and laminated veneer lumber (LVL), instruments for measuring veneer thickness, electric control panels for machines and automated processes for machines in the field of wood, lumber, veneer, and laminated veneer lumber (LVL) and plywood industry, and parts and fittings for the aforesaid; quality control apparatus, namely, machinery for measuring elasticity, stiffness, compression strength, bending strength, shear strength, tensile strength, static load limit, impact load limit and deflection of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, and parts and fittings for the aforesaid; data collecting and processing equipment, namely, computers and computer hardware, and parts and fittings for the aforesaid; computer hardware and software for wood and lumber processing purposes, and parts and fittings for the aforesaid; software for factory automation of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, optimizing efficient operations of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, managing inventory of raw materials, remotely controlling the operation of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, remote monitoring of the functioning and use of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, for quality control by tracking and monitoring selected process parameters of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, fault monitoring of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, and parts and fittings for the aforesaid; factory automation software, namely, computer programs (cad /cam) recorded on software designed for use in automated manufacturing, and parts and fittings for the aforesaid; digital moisture sensors, and parts and fittings for the aforesaid; optical sensors, and parts and fittings for the aforesaid; computer hardware and software for remote monitoring of mill production lines for the mechanical wood processing industry and plywood, veneer and laminated veneer lumber (LVL) manufacturing machinery and lumber, plywood, veneer and laminated veneer lumber (LVL) testing and grading machinery, and parts and fittings for the aforesaid; electrical control panels, and parts and fittings for the aforesaid; optical scanners, and parts and fittings for the aforesaid; calibrating machinery for calibrating wood testing and lumber grading machines, and parts and fittings for the aforesaid; moisture and strength measuring equipment for wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, namely, dry moisture analysers, moisture volume analysers, veneer testers, tension testers, rail shear testers, engineered wood panel testers, engineered wood panel bending testers, static bending testers, shear testers, and compression parallel testers, apparatus for measuring the moisture and strength of wood, lumber, veneer, laminated veneer lumber (LVL) and plywood, and parts and fittings for the aforesaid; electronic controllers for operating lumber, wood, plywood, veneer and

laminated veneer lumber (LVL) testing and grading machinery and plywood, veneer and laminated veneer lumber (LVL) manufacturing machines, and parts and fittings for the aforesaid; electronic audio vibration devices for grading lumber, and parts and fittings for the aforesaid

Services

Class 37

(1) Construction of mill production lines and factories; maintenance, refurbishment, repair and installation services relating to mill production lines, machine tools and industrial machines; installation of electrical systems for factory automation equipment

Class 42

(2) Scientific analysis of industrial wood products, namely, lumber, veneer, plywood and laminated veneer lumber (LVL), industrial research in the field of mechanical wood processing industry products; design and development of computer hardware and software; testing of manufacturing machinery in the field of mechanical wood processing industry; testing of lumber, veneer, plywood and laminated veneer lumber (LVL) manufacturing machinery; monitoring lumber, veneer and plywood machines to ensure proper and efficient functioning; product testing, design and development of manufacturing machinery in the field of mechanical wood processing industry; product testing, design and development of lumber, veneer, plywood and laminated veneer lumber (LVL) manufacturing machinery; industrial design, industrial research in the field of mechanical wood processing industry; technical research in the field of mechanical wood processing industry and lumber, veneer and plywood machinery design and development; technical consulting in the field of machinery and the mechanical wood processing industry, namely, developing industrial process technologies for fabrication manufacturing machinery of lumber, veneer, plywood and laminated veneer lumber (LVL); remote monitoring of computer systems for the functioning and use of machinery, namely, manufacturing machinery, wood, veneer, plywood and laminated veneer lumber (LVL) mill production line machinery; computer software technical support services, namely, troubleshooting in the nature of diagnosing problems with manufacturing machinery used in wood, veneer, plywood and laminated veneer lumber (LVL) mill production line machinery; development, design and programming of production and Enterprise Resource Planning (ERP) computer systems; programming and installation services for computer software; update and maintenance services for computer software; monitoring of computer systems by remote access; testing, verification and quality control services for industrial material handling machinery and factory automation machinery for use in the manufacturing of veneer, plywood, laminated veneer lumber (LVL), lumber and wood products; quality control of goods and services for others, namely, manufacturing processes of veneer, plywood, laminated veneer lumber (LVL) and lumber products; quality assurance in the field of mechanical wood processing industry; software as a service (SaaS) services featuring software for factory automation of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, optimizing efficient operations of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, managing inventory of raw materials, remotely controlling the operation of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, remote monitoring of the functioning and use of veneer, laminated veneer lumber (LVL) and plywood manufacturing machinery, for quality control by tracking and monitoring selected process parameters of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery, fault monitoring of plywood, laminated veneer lumber (LVL) and veneer manufacturing machinery

Colour Claim

Colour is claimed as a feature of the trademark. The colours black, white, and red are claimed as a feature of the mark. The mark consists of a black line drawing fish on white background. Inside the fish design contains the stylized words "KOIBITO POKE RAMEN GRILL" in black font with the word "KOIBITO" on top of the words "POKE RAMEN GRILL". Abstract red heart as the Dot on the second "i" in the word "KOIBITO" protrudes through the top of the fish body. The "E" in the word "POKE" is modified to be slightly shorter in height than the rest of the letters to allow for an equal width horizontal accent line above the "E", thus making the height of the "E" with the accent line the same height as the other letters.

Foreign Character Translation

As provided by the applicant, the English translation of "KOIBITO" in the mark is "love" or "the feeling between new lovers".

Colour Claim

Colour is claimed as a feature of the trademark. The colours red, white and grey and black are claimed as a feature of the mark. The mark consists of four concentric circles, with the outermost circle being thin and coloured red, the next outermost circle being thin and coloured white, the next outermost circle being thicker, and coloured in black, and the inner circle being coloured in red. Within the black concentric circle at the top are the grey and white letters spelling the word "AMY DELUXE" and at the bottom are the grey and white letters spelling the word "HOOKAHS", with a grey star separating this curved wording on both the left and the right side of the circle. Within the red circle is a white and grey silhouette of a hookah pipe with a flame on top. Overlapping the concentric circles at the bottom is a black banner, outlined in red and white, with the stylized grey and white letters spelling the wording "EST. 2007" contained therein.

Goods

Class 34

Flavored tobacco; flavourings, other than essential oils, for tobacco; electronic hookahs; electronic smoking pipes; electronic cigarettes; articles for use with tobacco, namely, tobacco pipes, tobacco tins and tobacco humidifier; smoking tobacco; tobacco; hookahs; hookah tobacco

Colour Claim

Colour is claimed as a feature of the trademark. Pink, light pink, cream, green, peach, black, red and white are claimed as features of the mark. The mark consists of the following: there are four round and partially round pink tables. Sitting at the topmost table is a partially rendered person with cream-coloured clothing outlined in green and light pink, green shoes, pink skin and a green wine glass containing light pink liquid in their hand. This person is sitting on a pink and cream-coloured chair with a green outline. The table contains a green and white wine glass, a white bottle of wine with light pink liquid and a green label, and five playing cards outlined in green and white. Three of the cards feature a white outline of a diamond, another card features a green outline of a diamond, and the last card is white and opaque and features a pink heart. On the left of the table is a green, cream-coloured and pink design consisting of dots, circles and lines; on the left of this design is a man with cream-coloured skin outlined in green, green hair, green eyes, green eyebrows, a green moustache, a green monocle and pink lips. The top part of this man's face, his ears and his hands are outlined in pink, his bow tie is green, and his vest is pink. The man is holding a round pink plate holding a green wine bottle with a pink and white label next to a glass of wine outlined in white and green. On the right of the man is a green-outlined peacock with a pink

body and a crest of pink feathers on its head. Underneath the man is a round pink table with four chairs with a green outline and pink cushions. . Two women are sitting on the two bottommost chairs. The woman on the right has peach-coloured skin, red lips, red shoes, a red bracelet, pink cheeks, a bow with a red outline and a pink interior on her exposed shoulder, and a red- and cream-coloured bodice with red swirls. The woman has green hair and a green scarf draped around her shoulders. A white headband with a pink circle is on her head. On her right wrist, she is wearing a red bracelet, a green bracelet, and a white and pink bracelet. The woman is outlined in white and green. Her dress is cream-coloured with a pink outline. She is holding a green-outlined wine glass with light pink liquid in her right hand. The girl on the left has green hair, green eyes and eyebrows, cream-coloured skin and a green outline. She is wearing a rounded pink headband with pink and white feathers. The back of her dress features a pink-outlined bow. She is wearing a green-outlined necklace. She has a green-outlined watch on her right wrist. Her shoe is pink. The table has a wine bottle with a green outline and a white interior, a white cylinder outlined in green, a second wine bottle with a white outline and a green and white label, two cards with a white interior and a pink heart, and the third card with a diamond outlined in green and white. On the right of the women, there is half of a round pink table with two chairs outlined in green and pink and a pink cushion. Sitting on one of the chairs is another woman with cream-coloured skin and a green outline, green hair, a necklace made up of green circles, a cream-coloured hat outlined in green with green waves on the inside, a cream-coloured shirt with green oval patterns. The table has a white-outlined wine bottle with a green label containing light pink liquid, and a wine glass outlined in green and white and containing pink liquid. In the bottom-left corner of the image is a fourth round pink table with two chairs outlined in green and white. The table has a wine glass outlined in green and white and containing pink liquid, a cream-coloured wine bottle with a green outline and a label with green hatching, six playing cards outlined in white and green, including a card with a black-outlined diamond, a card with a white-outlined diamond and two cards with a white background and a pink heart, and a green birdcage containing a white-outlined bird. The background of the mark is cream-coloured. The topmost part of the mark features the words THE PALE in black.
