Trademarks Journal

2024-05-22 — Vol. 71 No. 3630

Trademarks Journal

Vol. 71 No. 3630

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 09

Computer hardware; computer software for data backup, recovery and archiving; computer software for data protection and data security; computer software for data warehousing; database management software; computer software for creating, configuring, provisioning and scaling databases; computer software for logging changes within a database; computer software for configuring, provisioning and scaling data cache storage for databases; computer software for computer network management and automation; computer software for monitoring computer network access and activity; computer user authentication software; cryptography software; computer software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance; computer software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; computer network security software; network threat detection software; network access management and monitoring software; computer search engine software; computer software for searching databases; computer software for creating searchable databases of information and data; computer software that provides real-time, integrated business management intelligence by combining information from various databases; business analytics software for collecting and analyzing data to facilitate business decision making; computer software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software for speech, facial and optical character recognition; computer software for converting text to speech; computer software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; computer software for video streaming and for high-speed formatting and processing of audio and video streams; computer software for deploying live and on-demand video content; computer software for provisioning and dynamically scaling video processing, delivery, and storage services; computer software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate digital video, image and audio files; computer software for digital rights management; computer software for time-shifted television viewing; game software; game engine software; computer software for application development, testing, deployment and management.

Services**Class 35**

(1) Business risk management consultation; database management services; business records management; providing an on-line marketplace for buyers and sellers of goods and services; message and conference call transcription services.

Class 38

(2) Streaming of data, namely streaming desktop applications from the cloud to a computer; providing data streaming capacity to others, namely, providing others with access to their remotely stored data and software; streaming of audio and video content via the Internet; video-on-demand transmission; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing user access to computer software in global computer networks; providing others with access to their remotely hosted operating systems and computer applications through the internet; providing multiple user access to cloud based computing resources and storage; providing access to databases; providing virtual private network (VPN) services; long distance telephone communication services; voice over Internet protocol (VOIP) services; web conferencing services; providing voice chat services; providing internet chat rooms; call recording services.

Class 42

(3) Computer services, namely, cloud hosting provider services; hosting of digital content on the Internet, namely web hosting of digital content on the Internet, cloud computing web hosting services, and hosting computer databases; cloud hosting of electronic databases and virtual computing environments; server hosting; computer time-sharing services; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, rental of virtual application servers, web servers, file servers, database servers and storage servers of variable capacity to others; scaling services, namely, providing variable computing and electronic storage capacity to others; administering and maintaining databases and virtual computing environments for others; electronic data storage, namely cloud computing provider services for general storage of data; rental of space in a computer co-location facility for containerized data centers of others, namely rental of cloud storage; Application service provider (ASP), namely, hosting computer software applications and databases of others; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases and cloud computing environments for others; planning, design and implementation of computer technologies for others; software configuration management services; data and application migration services; data mining services; data backup and data restoration services; remote online backup of computer data; data encryption and decryption services; data warehousing; technical support services, namely, troubleshooting of computer software problems; computer services, namely, monitoring the web sites of others to improve their scalability and performance; computer services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; dedicated IP address hosting for others; computer services, namely, intrusion detection and protection; computer services, namely, web traffic filtering; computer services, namely, providing virtual data storage and caching to others; cross-platform conversion of digital content into other forms of digital content; digital compression of computer data; software as a service (SaaS) featuring software for cloud computing, namely computer operating software for accessing and using a cloud computer network; software as a service (SaaS) featuring software for virtualization, namely software for creating and providing access to virtual computers and virtual computer servers; software as a service (SaaS) featuring software for managing and

deploying virtual machines, namely virtual computers, to a cloud computing platform; software as a service (SaaS) featuring software for use in cloud infrastructure management and automation; software as a service (SaaS) featuring software for running cloud computing based applications; software as a service (SaaS) featuring software platforms for users to create, manage, and access their cloud computing networks and applications; software as a service (SaaS) featuring software that provides access to cloud-based scalable computing resources and data storage; software as a service (SaaS) featuring software for monitoring cloud and application performance; software as a service (SaaS) featuring software that enables users to stream data, desktops and applications from and to a cloud computing network via the Internet; software as a service (SaaS) featuring software for data backup, recovery and archiving; software as a service (SaaS) featuring software for data transfer and migration; software as a service (SaaS) featuring software for data protection and data security; software as a service (SaaS) featuring software for data warehousing; software as a service (SaaS) featuring database management software; software as a service (SaaS) featuring software for creating, configuring, provisioning and scaling databases; software as a service (SaaS) featuring software for logging changes within a database; software as a service (SaaS) featuring software for configuring, provisioning and scaling data cache storage for databases; software as a service (SaaS) featuring software for computer network management and automation; software as a service (SaaS) featuring software for monitoring computer network access and activity; software as a service (SaaS) featuring user authentication software; software as a service (SaaS) featuring cryptography software; software as a service (SaaS) featuring software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance; software as a service (SaaS) featuring software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; software as a service (SaaS) featuring network security software; software as a service (SaaS) featuring network threat detection software; software as a service (SaaS) featuring network access management and monitoring software; software as a service (SaaS) featuring search engine software; software as a service (SaaS) featuring software for searching databases; software as a service (SaaS) featuring software for creating searchable databases of information and data; software as a service (SaaS) featuring business intelligence software, namely software for collecting and analyzing business data and preparing business intelligence reports therefrom; software as a service (SaaS) featuring software that provides real-time, integrated business management intelligence by combining information from various databases; software as a service (SaaS) featuring business analytics software for collecting and analyzing data to facilitate business decision making; software as a service (SaaS) featuring software for use in big data analysis, namely software for enabling users to examine their large and varied data sets to uncover patterns, correlations, market trends, and customer preferences; software as a service (SaaS) featuring software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; software as a service (SaaS) featuring e-commerce software to allow users to perform electronic business transactions via a global computer network; software as a service (SaaS) featuring software for operating and managing call centers and contact centers; software as a service (SaaS) featuring software for speech, facial and optical character recognition; software as a service (SaaS) featuring software for converting text to speech; software as a service (SaaS) featuring software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; software as a service (SaaS) featuring software for video streaming and for high-speed formatting and processing of audio and video streams; software as a service (SaaS) featuring software for deploying live and on-demand video content; software as a service (SaaS) featuring software for provisioning and dynamically scaling video processing, delivery, and storage services; software as a service (SaaS) featuring software used to process, convert, transcode,

encode, decode, encrypt, decrypt, distribute and manipulate digital video, image and audio files; software as a service (SaaS) featuring software for digital rights management; software as a service (SaaS) featuring software for time-shifted television viewing; software as a service (SaaS) featuring game software; software as a service (SaaS) featuring game engine software; software as a service (SaaS) featuring software to manage, connect, and operate internet of things (IOT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, consumer appliances, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; software as a service (SaaS) featuring software for application development, testing, deployment and management; monitoring of computer systems and databases for security purposes in the nature of protecting data and information from unauthorized access; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access or activity in the nature of protecting data and information from unauthorized access; providing user authentication services for accessing a secure virtual computing environment; providing authentication services via online non-downloadable software for establishing and transmitting security credentials for domain name services.

Class 45

(4) Domain name registry services, namely, coordinating the registration of domain names for identification of users and internet protocol addresses on the internet.

Colour Claim

Colour is claimed as a feature of the trademark. The rectangle is dark green and contains the words ETHNIC DELIGHTS in light beige. A narrow gold band highlights the upper and lower edges of the rectangle. The rectangle is topped with a dark green ellipse in which there are five stylized leaves depicted in varying shades of green. Underneath the rectangle appears a beige half sun on a red background, and a gold border highlights the upper edge of the half sun. The edges of the half sun and of the gold border are black. Underneath the half sun appears a frieze, which consists of a mosaic on a black background composed of blue tiles of different shades and green tiles of different shades. A black border highlights the upper and lower edges of the frieze.

Goods

Class 29

(1) Pickles; preserved olives; preserved onions; dried and preserved tomatoes; preserved garlic; preserved peppers; preserved mushrooms; processed sweet corn, namely sweet corn in oil, sweet corn in vinegar, pickled sweet corn; preserved artichokes; guacamole; preserved, frozen, dried fruits and vegetables; juliennes; pickles; vegetable preserves; fruit preserves; eggplant paste; fruit and vegetable spreads; tomato purée; vegetable purée; olive purée; pepper purée; vegetable

Goods

Class 09

(1) Software being recorded computer programs for accessing and viewing legal information stored in electronic databases in the fields of law and jurisprudence, electronic databases in the fields of law and jurisprudence; downloadable electronic publications in the fields of law and jurisprudence; apparatus and instruments, namely software for the integration of applications and databases used, for storing, viewing, recording, capturing, printing, viewing and transmitting information and data in the fields of law and jurisprudence; recorded information media in the form of CD-ROMs, DVDs, discs, floppy discs, magnetic tapes, audio cassettes and video cassettes, cartridges, digital discs, magnetic discs, optical discs in the fields of law and jurisprudence.

Class 16

(2) Printed matter, namely printed publications and printed research papers in the fields of law and jurisprudence; manuals; school books and textbooks; brochures; journals; news magazines; periodicals; books; newspapers; magazines; catalogues; newsletters; pencils; pens; calendars; flyers; legal publications; tags for index cards (stationery); cards, namely index cards, flash cards, note cards, blank cards, file cards; paper, cardboard; photographs; graphic reproductions, namely graphic prints, drawings; stationery; plastic materials for packaging, namely bags, pouches, films and sheets; wrapping paper; pouches and bags, envelopes, sleeves for packaging, made of paper and plastic; paper and cardboard signboards.

Services

Class 35

(1) Advertising services for the goods and services of others; dissemination of advertisements and classified advertisements in connection with job postings for others, on the Internet; promotion of the goods and services of others through the publishing of texts and promotional pictures on websites and in printed publications; mail advertising for others, radio advertising for others, television advertising for others, online advertising for others on a computer network; dissemination of advertisements by mail, namely mail advertising for others; services for the organization of exhibitions, fairs, trade shows and commercial events for advertising and

promotional purposes for others; presentation and demonstration of goods and services for promotional purposes for others; organization of promotional activities to foster customer loyalty, namely promotion of the goods and services of others by means of customer loyalty programs; organization of regional and national promotional campaigns for the goods and services of others; newspaper subscription services for others; subscriptions to the publications of others, namely publications related to information, texts, sound and images, in the form of printed, electronic and digital publications in the fields of law and jurisprudence; retail services, online retail on an Internet site, catalogue sale and television sale, excluding the transport thereof, of electronic publications, CD-ROMs, DVDs, digital discs, magnetic discs, optical discs, compact discs (audio-video), electronic databases, printed matter, brochures, journals, periodicals, books, newspapers, publications, school books and textbooks in the fields of law and jurisprudence.

Class 38

(2) Communications through computer terminals, namely provision of chat rooms and online forums for the transmission of messages among computer users; electronic mail, electronic messaging, in particular via global communication (the Internet) and private-access (intranet) networks; specialized technical information transmission services via telematics, namely provision of multiple-user access to a global computer information network in the fields of law and jurisprudence; forwarding and transmission of computerized documents, namely provision of access to databases, provision of multi-user access to global information networks for the transfer and dissemination of information and files; rental of access time to global computer networks and to a computerized database containing legal information; data downloading services, namely provision of access to databases providing users with remote access to information, images, sound, and texts via a global computer network, via computers connected by a network and via a computer site on communication networks; provision of access to a global computer network; electronic display services, namely provision of electronic notice boards for the transmission of general interest messages among users; transmission of information accessible by access codes to computer databases and to computer and telematic database server centres, namely provision of multiple-user access to global computer information networks for the transmission of a wide range of information in the fields of law and jurisprudence; provision of online forums; provision of discussion forums on the Internet; online electronic publication transmission in the nature of downloading services, namely provision of access to online databases containing electronic publications that can be downloaded; electronic transmission (dissemination) of streaming and downloadable audio and video content, namely provision of access to a file sharing portal for streaming and uploading audio and video files providing information in the legal field, accessible through computer networks and via the Internet; provision of access to Internet platforms for the dissemination of digital audio, video and multimedia content through a global computer network.

Class 41

(3) Editing and publishing of printed matter, newspapers, magazines, journals, periodicals, books, note cards, manuals, catalogues and brochures, posters, school books and textbooks, on all media and on electronic media, in the fields of law and jurisprudence; publishing of texts and books other than for advertising purposes, on all media, in the fields of law and jurisprudence; training and teaching services in the fields of law and jurisprudence, in particular by mail order, via a computer network and online through an Internet site (e-learning); design and dissemination of training modules, namely provision of online and in-person instructional courses in the fields of law and jurisprudence, and distribution of training materials related thereto; provision of online electronic publications, namely publishing of non-downloadable electronic publications; education, namely provision of educational information and general advice about training related to the fields of law and jurisprudence; desktop publishing; online electronic publishing of books and periodicals

in the fields of law and jurisprudence; organization and holding of events for cultural and educational purposes in the form of exhibitions related to the fields of law and jurisprudence; organization and conduct of colloquia, conferences, conventions, seminars, and symposia in the fields of law and jurisprudence; club services, namely event planning for entertainment and educational purposes for professional groups in the field of law.

Class 42

(4) Computer services, namely online hosting of web infrastructure for the benefit of others for organizing and conducting interactive discussions, gatherings and meetings online; computer programming services in the form of personalized web pages featuring information user-defined information, profiles and personal information; computer programming services, computer and database programming services; rental of programs on computer media and by means of telecommunications; website creation and maintenance for others; hosting services for computer data and sites on a global and local computer network; provision of information related to computer technology and programming through websites and via a global computer network; development, programming, installation, management and hosting of computer sites intended for computer communication networks.

Class 35

(1) Sale of materials, equipment and accessories used in deck and patio construction, renovation and maintenance, namely, deck footings and supports, deck pedestals, flooring underlayment, flooring, subflooring, deck connectors, joists, metal brackets, frames, water-proofing membranes, deck boards, railings, tiles, lattices, stairs, posts, post caps, deck lights; Sale of paving stone, patio stone, cobbles, stone paving blocks, paving slabs, patio blocks, paving tiles and patio tiles; Sale of adhesives for paving; Retail sale of materials, equipment and accessories used in deck and patio construction, renovation and maintenance, namely, deck footings and supports, deck pedestals, flooring underlayment, flooring, subflooring, deck connectors, joists, metal brackets, frames, water-proofing membranes, deck boards, railings, tiles, lattices, stairs, posts, post caps, deck lights; Retail sale of paving stone, patio stone, cobbles, stone paving blocks, paving slabs, patio blocks, paving tiles and patio tiles; Retail sale of adhesives for paving.

Class 37

(2) Consulting services, namely, consulting in the field of deck and patio construction, renovation, repair and maintenance; project management in the field of deck and patio construction, renovation, repair and maintenance; providing advice relating to deck and patio construction, renovation, repair and maintenance, and deck accessories; construction, renovation, repair and maintenance of decks and patios; providing information in the field of deck and patio construction, renovation, repair and maintenance, and deck accessories via a website; providing information about materials, equipment and accessories used in the field of deck and patio construction, renovation, repair and maintenance, and deck accessories via a website.

Class 42

(3) Consulting services, namely, consulting in the field of deck and patio design; project management in the field of deck and patio design; providing advice relating to deck and patio design; deck and patio design; deck and patio construction planning; drafting of deck and patio construction plans for residential and commercial premises; providing advice relating to roof-top design, balcony design, gazebo design, outside fireplace and fire bowl design, landscape lighting

design; providing information in the field of deck and patio design via a website; providing information about materials, equipment and accessories used in the field of deck and patio design via a website.

Class 44

(4) Landscape design and gardening services; Consulting services, namely, consulting in the field of landscape design, construction, renovation, installation and maintenance; Providing advice relating to landscaping; providing information in the field of landscaping, via a website; providing information about materials, equipment and accessories used in the field of landscaping via a website

Goods

Class 09

Data processing equipment, namely central processing units, graphics cards for computers, expansion boards for computers, circuit boards, cables for electrical and optical signal transmission, modems, computer hardware, digital signal processors, graphics processing units, sound processors; integrated computer operating software using artificial intelligence to enable communication between application programs for the operation of building technology for heating, ventilation and air conditioning, refrigeration, security, fire protection, detection and suppression, access control, video surveillance, loss prevention and energy management; downloadable computer software for the operation of smart home hubs for connecting, integrating and controlling networked consumer electronic devices, home devices and temperature controls via a wireless computer network; downloadable computer security computer software; security control computer software, namely downloadable facilities management computer software for controlling the environment, access and security systems of buildings; computer software for the operation of a data centre network; control, measuring, tracking and supervision apparatus and instruments for improving energy efficiency and sustainability in industrial, tertiary and residential buildings, data centres and infrastructure, machines, facilities, electrical networks and industrial processes, namely, energy meters for tracking and controlling energy consumption, electrical control systems for heating and air conditioning systems, meters for measuring electrical resistance, meters for measuring gas flow, measuring apparatus for humidity control, particle counters for measuring air quality, multimeters, fire sensors, flame sensors, pollutant sensors, temperature sensors, digital door locks; control, measuring, tracking and supervision apparatus and instruments for process management, security management, access control and video surveillance in industrial, tertiary and residential buildings, data centres and infrastructure, machines, facilities, electrical networks and industrial processes, namely digital cameras, security cameras, biometric sensors for access control systems, infrared sensors, optical sensors, position sensors, pressure sensors, remote controls for projectors, control panels for security alarms; software platform (online) for tracking energy management, equipment management and asset maintenance (work order management system) in buildings; software platform (online) for controlling the conformity of assets and the

prevention of security risks; software platform (online) for analyzing data from retail, energy, security and fire systems; software platform (online) for connecting to security applications, smart equipment applications, business control applications, for awareness to risks and for the optimization of power plants; digital photographic cameras; digital optical transmitters, digital video transmitters; digital indicators; digital multimeters; digital signage display panels; digital humidity sensors, digital temperature sensors, digital pressure sensors, digital carbon dioxide sensors, digital gas detection sensors; digital video projectors; digital signal processors; digital door locks; digital video players; digital sensory devices; electronic digital controllers; software platform for use in commercial buildings to enter data from HVAC units, lighting, thermostats and other Internet of Things (IoT) devices; computer software for operating system programs used in the collection and distribution of data within computer networks, including the Internet, and enabling the communication of data between application programs, consumer devices and industrial apparatus, in the fields of building technology, fire protection, security, loss prevention and energy management; software used for data integration, data warehousing, data processing, the monitoring and management of data performance, data sharing, data collection, data interpretation, data queries and data analysis, in the fields of building automation systems and the Internet of Things (IoT) devices, for enabling clients to make business decisions in the fields of commercial and retail building management, namely facility operation and energy management, security and access control systems, fire and hazard alarm systems, heating, ventilation and air conditioning (HVAC) systems, inventory management and loss prevention; cloud computing software for analyzing, viewing and modelling data in the field of management systems for commercial and retail buildings, namely facility operation and energy management, security and access control systems, fire and hazard alarm systems, heating, ventilation and air conditioning (HVAC) systems, inventory management and loss prevention; cloud computing software for analyzing, viewing and modelling data in the field of building automation systems; Internet and intranet servers for the provision of data and software regarding energy efficiency, energy management and energy optimization; building and home automation systems comprising wireless and wired controllers, touch screens, electrical control systems and software for lighting, heating, ventilation and air conditioning in buildings and homes, security applications and applications for controlling and monitoring electricity in buildings and homes; computer software, computers, microprocessors, microcontrollers for the analysis, protection, measurement, inspection, signalling, control, regulation, monitoring, maintenance, supervision, management, design, control and remote control of lighting, heating, cooling, humidifying, ventilation, air conditioning, energy consumption, fire security, access control and energy management systems; computer software for the collection and distribution of data on computer networks, including the Internet, and enabling the communication of data between application programs, consumer devices and industrial apparatus; downloadable software for connecting to, operating and managing heating, ventilation, air conditioning (HVAC) systems, building automation systems and control systems in the Internet of Things (IoT); building automation control systems consisting of voice-activated speakers, computer hardware and downloadable or recorded software for controlling devices networked in the Internet of Things (IoT) and for operating systems and apparatus for lighting, heating, ventilation, air conditioning and security in homes and buildings that are connected to the Internet; building automation control systems using artificial intelligence consisting of voice-activated speakers, computer hardware and downloadable or recorded software for controlling devices networked in the Internet of Things (IoT) and operating systems and apparatus for lighting, heating, ventilation, air conditioning and security in homes and buildings that are connected to the Internet.

Services

Class 35

(1) Inventory management and loss prevention services through data analysis; services related to inventory management; computerized inventory control; business tracking services by means of data analysis, namely analysis of market research data and statistics; tracking and monitoring of business transactions through data analysis for business purposes; sales volume tracking by means of data analysis for others; inventory control services; provision of business advice and information in the fields of cloud-based and non-cloud-based inventory management services; provision of business advice and information in the field of asset tracking through cloud-based and non-cloud-based data; business analysis, research and information services in the fields of business management and business administration; compilation and systemization of business data into computer databases; provision of business intelligence services; compilation and provision of statistical information, namely statistical analysis and reporting services for business purposes; preparation of business reports; provision of information and advice in the fields of business management and business administration; business consulting services in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for industrial, tertiary and residential buildings, data centres and infrastructure, industrial machines and facilities; business management in the field of energy management services; collection of electronic data for business purposes for others in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for industrial, tertiary and residential buildings, data centres and infrastructure, industrial machines and facilities; provision of business information by means of data analysis on the movements of people in retail establishments via a computer network; provision of statistical data contained in a computer database in the fields of attendance trends and customer traffic patterns in public places, for business purposes; statistical analysis of store attendance; statistical information services relating to the pedestrian movements and counts, for business purposes; business intelligence services, namely business information services via the Internet for business partners and suppliers; online data processing services in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for industrial, tertiary and residential buildings, data centres and infrastructure, industrial machines and facilities; business networking services; advisory and consulting services in the fields of the business assessment of energy consumption, sustainability and energy efficiency; business advisory and consulting services in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for industrial, tertiary and residential buildings, data centres and infrastructure, industrial machines and facilities; business advisory and consulting services in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for building automation facilities and equipment and automated systems; systematization of data into computer databases; compilation and analysis of information and data related to energy efficiency, sustainability, building management and building automation.

Class 37

(2) Installation, maintenance and repair of closed-circuit television (CCTV) systems and security equipment; installation, maintenance and repair of smoke detectors; installation, maintenance and repair of fire-extinguishing apparatus; installation, maintenance and repair of intrusion detection systems; installation, maintenance and repair of automatic sprinklers; installation, maintenance and repair of emergency lighting; installation, maintenance and repair of access control systems; installation, maintenance and repair of theft prevention devices and surveillance systems; installation, repair and maintenance of inventory control systems; installation, repair and maintenance of electronic video surveillance cameras; installation, repair and maintenance of personnel and assets tracking devices; installation, repair and maintenance of fire protection systems; installation, repair and maintenance of alarm, security and access control systems;

installation, repair and maintenance of electronic surveillance equipment and devices; installation, maintenance and repair of heating, ventilation, air conditioning, refrigeration, energy, lighting, fire alarm and access security systems for industrial, commercial, residential or government facilities; installation, repair and maintenance of fire detection systems and sprinkler systems, piping systems and alert systems for specific risks; maintenance and repair of buildings; technical advisory services related to the installation of fire prevention equipment; provision of information related to the repair or maintenance of fire alarm systems; advisory services related to the installation of safety and security equipment; advisory services in the fields of the installation and maintenance of alarm verification and response services; construction, installation, repair and maintenance services for computer hardware infrastructure and data centres; construction, installation and maintenance services for the facilities and equipment used for research and engineering in the fields of energy efficiency, home and building automation and automated systems; construction, installation and maintenance services for surveillance and security equipment and for facilities in the fields of energy efficiency, home and building automation and automated systems; construction, installation and maintenance services for surveillance and security equipment and for facilities in the field of data centre architecture; installation, maintenance and repair of lighting, heating, cooling, humidifying, ventilation and air conditioning apparatus and facilities for homes and buildings; information and advice regarding the installation, maintenance and repair of lighting, heating, cooling, humidifying, ventilation and air conditioning apparatus and facilities for homes and buildings; installation and maintenance services for security facilities, including by means of a telecommunication network; installation and maintenance of smart systems for buildings and homes; installation and maintenance of automation facilities and programmable automation systems and technical management facilities for homes and buildings; advice and information related to building construction; installation and repair services for electronic data processing apparatus of a data centre, namely, routers, switches, servers, cables, modems, hard drives, tape players and cooling fans; computer installation and repair; construction and installation of data centres; consultant services in the field of data centre construction; consultant services related to construction and to the provision of information regarding building construction; construction advisory services in the fields of the planning, integration and maintenance of HVAC and cooling equipment for the optimization of energy efficiency in refrigeration facilities; consultant services in the fields of the installation, maintenance and repair of heating, ventilation and air conditioning, security, safety, energy management, lighting apparatus and building automation systems.

Class 42

(3) Design and development of computer hardware and software; design, development and scientific analysis in the fields of heating, ventilation and air conditioning, security, safety, fire detection and suppression, access control, intrusion, loss prevention, inventory, performance of retail businesses and establishments, customer traffic, environment, energy management, lighting apparatus and building automation systems; design, development, technical analysis and advice in computer technologies, regarding software that collects, measures and distributes data within computer networks, including the Internet, and enables the communication of data between application programs, consumer devices and industrial apparatus in the fields of building technology, heating, ventilation and air conditioning, fire protection, detection and suppression, access control, video surveillance, loss prevention and energy management; computer network configuration of automated building and home control systems, namely wireless and wired lighting controls, thermostats and controls for heating, ventilation and air conditioning, doors and window controls, audio and video controls of buildings and homes; integration of computer systems and networks; design and development of wired and wireless computer networks; technological

consulting in the field of home and industrial automation for enabling users to view, monitor, program, operate and remotely control small and major appliances, electrical systems and security systems in buildings and homes; design, development and advice related to cloud computing software for data analysis, data visualization and modelling in the field of building automation systems; design, development and advice related to computer software, computers, microprocessors, microcontrollers for the analysis, protection, measurement, inspection, signalling, control, regulation, monitoring, maintenance, supervision, management, design, control and remote control of lighting, heating, cooling, humidifying, ventilation, air conditioning, energy consumption, fire security, access control and energy management systems; provision of the temporary use of non-downloadable software for monitoring and controlling electric home automation as well as automated equipment systems and facilities; provision of the temporary use of non-downloadable software for building control services, namely surveillance, security and technical control; research and development of new products for others in the fields of energy management, energy efficiency and sustainability, building management and home automation for environmental protection purposes; programming of home automation facilities as well as programmable automated systems and technical management facilities for buildings; energy consulting audit services, namely energy consumption tracking and controlling services; technical advisory services in the field of data centre computer architecture; provision of search engines for online searchable databases in the field of electronic building control in industrial, tertiary and residential buildings, in data centres and infrastructure, in machines, facilities, electrical networks and industrial processes, and maintenance assessment of the performance and reliability of alarm systems; industrial research and analysis services in the fields of computer security, home and commercial security systems, safety and health, namely by fire detection and suppression, access control, intrusion, customer care, loss prevention, inventory, performance of retail businesses and establishments, customer traffic, environment, energy management, lighting apparatus and home automation; design and inspection (quality control) of fire extinguishing, alarm, detection and suppression systems; design of burglar alarms, keyboards for burglar alarms and control panels for burglar alarms, magnetic and electromagnetic object detectors, and electronic item detection equipment; design of apparatus for tracking and monitoring client security systems; design of security systems and surveillance systems; design of computer software for security systems and fire alarm, detection and extinguishing systems; computer software maintenance services relating to fire protection and extinguishing systems and security and surveillance systems, and to apparatus for such systems; design and engineering of heating, ventilation, air conditioning and refrigeration systems; engineering and design services for the benefit of others in the fields of heating, ventilation, air conditioning, refrigeration, energy, lighting, fire alarms and security access systems; computer programming relating to image control, monitoring and processing; computer services, namely online system management services enabling users to remotely monitor heating, ventilation, air conditioning, refrigeration, energy, lighting, fire alarm and security access systems; technology information update services for home security systems via a global computer network; provision of software as a service (SaaS) featuring non-downloadable security software; provision of software as a service (SaaS) featuring non-downloadable software for controlling the environment, access and security systems of buildings; technological advisory and information services in the fields of cloud-based and non-cloud-based energy management systems (software); advisory services related to the design and development of online computer software systems and to the integration of building automation and computer systems, information technology for buildings, environmental health and security in buildings, environment in buildings and environmental quality of buildings; design of software systems for facility management control; engineering, design and development of control systems, control devices, apparatus and systems for buildings, facilities and plants, and of control, automation and optimization software, devices,

apparatus and systems for use in buildings, facilities, and plants; computer services, namely to enable the monitoring and controlling of data for reporting to others about the performance of control systems, devices, apparatus and systems for controlling buildings, facilities and plants, as well as devices, apparatus and systems for the automation and optimization of buildings, facilities and plants using the electronic formatting, analysis and collection of data; provision of a web platform for monitoring and controlling the energy efficiency of HVAC and cooling equipment in refrigeration facilities; provision of advisory and management services for the planning, integration and maintenance of HVAC and cooling equipment for the optimization of energy efficiency in refrigeration facilities; rental of software for video surveillance, security surveillance, security management, theft control and prevention; rental of computers and computer software; design and development of an online platform for tracking energy management, equipment management and asset maintenance (work order management system) in buildings; design and development of an online platform for controlling the conformity of assets and preventing security risks; design and development of an online platform for analyzing data from retail, energy, security and fire systems; design and development of an online platform for connecting to security applications, smart equipment applications, business control applications, for awareness to risks and for the optimization of central facilities; platform as a service (PaaS) featuring software used for data integration, data storage, data processing, the monitoring and management of data performance, data sharing, data collection, data interpretation, data queries and data analysis in the field of building automation and security systems and controls, namely heating, ventilation, air conditioning, refrigeration, fire protection, detection and extinguishing, access control, security, video surveillance, theft prevention systems; computer software design and development for the storage of data in the cloud in the field of building technology; computer network and software design for others in the field of building automation and security systems and controls; technical information updating services on industrial process control software via a global computer network; design of computer hardware, integrated circuits, hardware and software for communications and computer networks for others; design and development of online computer software systems; provision of temporary use of software in cloud not downloadable in the Internet of Things (IoT) for connecting to, operating and managing networked building technology systems, namely heating, ventilation, air conditioning, refrigeration, fire protection, detection and extinguishing, access control, security, video surveillance, theft prevention systems; hosted application service provider (ASP) featuring software using artificial intelligence for collecting, measuring and distributing data within computer networks, including the Internet, and enabling the communication of data between application programs, consumer devices and industrial apparatus in the fields of building technology, heating, ventilation and air conditioning, refrigeration, security, fire protection, detection and extinguishing, access control, video surveillance, loss prevention and energy management; provision of online non-downloadable software using artificial intelligence for collecting, measuring and distributing data in computer networks, including the Internet, and enabling the communication of data between application programs, consumer devices and industrial apparatus in the fields of building technology, heating, ventilation and air conditioning, refrigeration, security, fire protection, detection and suppression, access control, video surveillance, loss prevention and energy management; software as a service (SaaS) featuring software using artificial intelligence for collecting, measuring and distributing data within computer networks, including the Internet, and enabling the communication of data between application programs, consumer devices and industrial apparatus in the fields of building technology, heating, ventilation and air conditioning, refrigeration, security, fire protection, detection and suppression, access control, video surveillance, loss prevention and energy management; creation and maintenance of websites and wireless electronic communication networks; computer services, namely technical assistance for the installation, maintenance and repair of computers and

peripherals; computer services, namely technical assistance for data centre operations, namely maintenance of electronic media and electrical equipment.

Trademark Description

The light word and device mark located on a dark background consists of graphic part as a stylised image of lion with a paw heaved up and verbal part as a word "WOLVER", carried out by a standard type by the Roman alphabet.

Goods

Class 01

(1) Gas propellents for aerosols; chemical preparations for decarbonising engines; acidulated water for recharging accumulators; galvanizing baths; brake fluid; anti-knock substances for internal combustion engines; coolants for vehicle engines; anti-boil preparations for engine coolants; detergents for industrial use as part of manufacturing operations; petroleum dispersants; chemical additives to oils; detergent additives to gasoline (petrol); chemical additives to motor fuel; opacifiers for enamel; chemical preparations, except pigments, for the manufacture of enamel; emulsifiers for the manufacture of oils and motor fuel; glaziers' putty; tree cavity fillers (forestry); degreasing preparations for use in manufacturing processes; catalysts for use in oil processing; gum solvents; cement for shoes; adhesive cements; leather glues; adhesives for wall tiles; mastic

for tires; adhesives for wallpaper; fabric glue for industrial purposes; glues for use in the automobile industry; flocculants; industrial silicon; car body fillers; tire repairing compositions; foundry sand; oil dispersants; oil-bleaching chemicals; oil-separating chemicals; oil-purifying chemicals; oils for tanning leather; oils for currying leather; oils for the preservation of food; oils for preparing leather in the course of manufacture; oil cement (putty); plastisols; plasticizers; dispersions of plastics for use in the manufacture of oils and motor fuel; plastics, unprocessed; surface-active chemical agents for use in the manufacture of synthetic detergents; anti-frothing solutions for accumulators; radiator flushing chemicals; power steering fluid; fluids for hydraulic circuits; auxiliary fluids for use with abrasives for the oil well industry; transmission fluid; drilling muds; chemical additives to drilling muds; solvents for varnishes; chemical preparations for the manufacture of paints; chemical intensifiers for rubber; finishing preparations for use in the manufacture of steel; volatile alkali (ammonia) for industrial purposes.

Class 02

(2) Asbestos paints; fixatives for watercolors (watercolours); alizarine dyes; aluminium paints; aniline dyes; black Japan; auramine; bactericidal paints; Canada balsam; dyes for use on plastic; dyestuffs; wood stains; colorants for butter; dyewood; white lead; white pigment; bitumen varnish; bronze powder; bronzing lacquers; lime wash; shoe dyes; fireproof paints; litharge; undercoating for vehicle chassis; dyewood extracts; preservative oils for wood; wood coatings, namely paints; wood preservatives; wood mordants; titanium dioxide being pigment; printing ink; enamels for painting; silver emulsions as pigment; anti-tarnishing preparations for metals; thickeners for paints; carbonyl as a wood preservative; ceramic paints; agglutinants for paints; badigeon; cobalt oxide for use as a colorant; creosote for wood preservation; lacquers for finishing; thinners for lacquers; colorants for liqueurs; glossy platinum paint for ceramics; gold paint for ceramics; mastic (natural resin) as a sealant; anti-rust greases; zinc oxide as a pigment; anti-rust oils; silver paste; paints, namely, coatings for roofing felt; coatings, namely, paints for automobiles; varnishes bitumen; aluminium powder for painting; silvering powders; metals in powder form for painters, decorators, printers and artists; anti-fouling paints; anti-rust preparations for preservation; anti-corrosive greases, anti-corrosive oils, anti-corrosive paints, anti-corrosive papers, anti-corrosive waxes; anti-tarnishing preparations for metals; mordants for leather; thinners for paints; whitewash; red lead; siccatives (drying agents) for paints; silver paint for ceramics; oil paints; heat resistant paints; marking ink for animals; resin fixatives; metal foil for painters, decorators, printers and artists; silver foil (leaf); black pigment.

Class 03

(3) Abrasives for re-surfacing materials before painting; abrasive cloth; glass cloth; abrasive paper; diamantine used as an abrasive; alum stones for use as an astringent; antistatic spray for clothing; laundry blueing; colour-brightening chemicals for household purposes, namely, laundry; preparations to make shiny the leaves of plants; laundry glaze; shining preparations for vehicles; bleaching soda; liquid for laundry; tailors' wax; polishing wax; cobblers' wax; windscreen cleaning liquids; cloths impregnated with a detergent for cleaning; laundry pre-soaking preparations; degreasing preparations for household use; scale removing preparations for household purposes; rust removing preparations; silicon carbide abrasive; carbides of metal used as abrasives; corundum (abrasive); parquet floor wax; non-slipping wax for floors; car wash detergents, industrial detergents for cleaning purposes, other than for use in manufacturing operations; bleaching preparations for laundry; soap for brightening textile; oils for floors; oil of turpentine for degreasing; laundry wax; parquet floor wax; non-slipping liquids for floors; floor wax removers (scouring preparations); fabric stain removers; varnish-removing preparations; laundry bleach; soda for laundry; laundry starch; dry-cleaning preparations; turpentine, for degreasing; soda lye; canned pressurized air for cleaning and dusting purposes; preparations for cleaning waste pipes.

Class 04

(4) Anthracite; perfumed candles; beeswax; benzene; benzine; benzol; wood briquettes; combustible briquettes; lignite; automotive petroleum jelly; grease for boots; raw wax; industrial wax; wool grease; producer gas; fuel gas for lighting; solidified gases being fuel for motor; diesel oil; gasoline; kerosene; lubricating graphite; lamp wicks; wicks for candles; methylated spirits for fuel; wood spills for lighting; charcoal for use as fuel; diesel oil; additives, non-chemical, to motor-fuel; firewood; electrical energy for use as fuel, motor oils, engine oils, fuel oil and gas oil, greases and lubricants for electric vehicles; petroleum ether; grease for leather; tallow; oils for the preservation of masonry and leather; oil for the preservation of masonry; grease for arms (weapons); coal; coal naphtha; coal tar oil; coal dust (fuel); coal briquettes; carnauba wax; castor oil for technical purposes; bone oil for industrial purposes; coke; xylene; xylol; wool grease; ligroin; mazut; grease for belts; lubricating grease for automobile, industrial lubricating grease; all purpose lubricants, automobile lubricants, industrial lubricants; all purpose lubricating oil, automobile lubricating oil, industrial lubricating oil; cutting fluids for metalworking; mineral motor fuel; motor fuel; motor oil; naphtha; petroleum, raw and refined; ozocerite (ozokerite); lubricant oleine; oils for releasing form work (building); oil for the preservation of leather; oils for paints; fuel gas; motor fuel; fuel with an alcoholic base; paper spills for lighting; paraffin; belting wax; non-slipping preparations for vehicle belts; dust laying compositions for vehicle engines; dust removing preparations; dust binding compositions for sweeping; fish oils for industrial purposes; rape oil for industrial purposes; firelighters; lighting fuel; candles; Christmas tree candles; soya bean oil preparations for non-stick treatment of cooking utensils; sunflower oil for industrial purposes; alcohol for use as fuel; stearine; textile oil; industrial wax; industrial grease for all purpose; industrial oil for all purpose; peat for use as fuel; peat briquettes (fuel); ceresine.

Colour is claimed as a feature of the trademark. The term "iQ" is dark blue and the word "blue" is medium blue. The squares starting from the top and moving in a clockwise direction are dark blue, light blue, very light blue and medium blue.

Goods

Class 07

(1) Agricultural machinery and equipment, in particular machinery and equipment for soil cultivation, machinery and equipment for sowing, machinery and equipment for fertilising, machinery and equipment for plant protection and machinery and equipment for crop care; parts and/or accessories of the above goods.

Class 09

(2) Electronic control, regulation and monitoring units, in particular Global Positioning System [GPS] transmitters and receivers, data processing apparatus, namely computers apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, namely cameras, measuring sensors for machine data, plant sensors in the nature of bio sensors, infrared

sensors, measuring sensors, odor sensors, soil data sensors in the nature of bio sensors, infrared sensors, measuring sensors, moisture sensors, odor sensors, application data sensors being measuring sensors, harvest data sensors being measuring sensors and climatic data sensors in the nature of thermal sensors, humidity sensors, pollutant sensors, dewing sensors, computer operating systems and electronic displays, namely computer display monitors, mobile data terminals, mobile computers and communication instruments and communication apparatus, namely, radio transmitters and receivers, mobile data transmitters and receivers, the aforesaid goods for agricultural purposes or for use with agricultural machines and implements; computer software, communication software, utility software, and sensory software for operating and controlling agricultural machinery and equipment, in particular machinery and equipment for soil cultivation, machinery and equipment for sowing, machinery and equipment for fertilising, machinery and equipment for plant protection and machinery and equipment for crop care, the aforesaid goods for agricultural purposes or for use with agricultural machines and implements

Services

Class 35

(1) Collating, systematisation and compilation of data in computer databases in connection with agricultural crop production, in particular for soil cultivation data, sowing data, fertilisation data, plant protection data, weather data and climate data as well as crop care data on agricultural lands.

Class 38

(2) Provision of access to data and transfer of data to and from computer databases, namely, providing access to databases, in connection with agricultural crop production, in particular for soil cultivation data, sowing data, fertilisation data, plant protection data and crop care data, soil property data, machine data, process data, application data, harvest data, plant data, weather data and climate data on agricultural land and in its surroundings.

Class 42

(3) Scientific and technological research in the field of agriculture and horticulture, industrial analysis and research services in the field of agriculture and horticulture, design and development of computer hardware and software, preparation of technical or agronomic analyses, namely technical project studies in the field of agricultural crops, soil cultivation, seeding, weeding, cropcare, installation and maintenance of database software, providing technological agronomic information and advice as well as computer technology consultancy services, also provided on-line; the aforementioned services relating to agricultural plant production, in particular for soil preparation services, sowing services, fertilisation services, plant protection services and crop care services on agricultural land and in the surroundings thereof; maintenance services, updating services, upgrading and parameterisation services of software and computer programs in the field of agricultural crop production; storage of data in computer databases in connection with agricultural crop production, in particular for soil cultivation data, sowing data, fertilisation data, plant protection data and crop care data, soil property data, machine data, process data, application data, harvest data, plant data, weather data and climate data on agricultural land and in its surroundings.

Colour Claim

Colour is claimed as a feature of the trademark. The African face mask is brown colour based, with different colours of vegetables and fruits on top of the face mask symbolizes the hair. The yellow colour will be printed in metallic gold. Text under the face mask uses Anchorage font describes our trademark in text "MomoFood+Design", also reflect the owner of the trademark:

MomoFood+Design Inc. I also want to specify the colour design for the fruits and vegetables on the top of the African mask. The banana is yellow colour, the grapes are in purple colour, the carrots are in orange and purple colours, the pear is gold colour, various vegetables are mostly in green colours, as well as radish is in dark pink colours. As for the details on the African face mask, the eyes are in green (right) and blue (left) colours, while there are shapes of circle and lines to outline the African face, for example, dots on the forehead, lines on nose and frontal hairline, and curve lines on the eyebrows and lips, while there are two rectangle lines on each of the cheeks. The red colour reddishes (one short on the right side, and one long on the left side) are on right top of the African face mask. The yellow colour of the pear is on the left top of the African face mask. The purple eggplant with green stem on top of the African mask face is situated in the middle of the vegetables and fruits group. The orange colour of three carrots are situated behind the

eggplant, pears and radishes on the left side. The light purple colour of flower and leaves are behind the eggplant and radishes on the right side. The rest of the green vegetable leaves are situated on the left and right sides of the whole group. There is one red strawberries located on the top of the yellow pear while the other red strawberry situated on the left lower side of the same yellow pear. There is one red cherry with a green stem situated on the left top of the green stem of the purple eggplant. There is a small red flower situated between the lower bottom of the same yellow pear and the same purple eggplant.

Class 09

(1) Speedometers; milometers; safety helmets; sports glasses; helmets for bicycles; helmets for two-wheelers; GPS transmitters, GPS software, GPS receivers for vehicles, except for trucks; electric locks for vehicles, other than trucks; motor vehicle power locks, except for trucks; electronic keys for vehicles, except for trucks; audio speakers for vehicles, except for trucks; multimedia connectors for vehicles, except for trucks; on-board computers for vehicles, except for trucks; computers for autonomous-driving vehicles, except for trucks; charging stations for electric vehicles, except trucks; electric batteries for powering electric vehicles, except trucks; locks (electric) for bicycles; computers for use with bicycles; intelligent gateways for real-time data analysis on vehicles, except trucks; odometers; electric batteries for vehicles, except for trucks; electric batteries for electric vehicles, other than trucks; electric batteries for two-wheeled vehicles, cycles, bicycles, electric bicycles, transport bicycles and pedelecs; helmets in the nature of crash helmets and protective helmets for motorists, cyclists, and motorcyclists; protective eyeglasses; gloves for use in welding for protection against accidents; organic light-emitting diode display panels for vehicles; speed checking apparatus for vehicles in the nature of radars, except for trucks; speed measuring apparatus for vehicles, namely, speedometers for vehicles, except for trucks; downloadable applications for mobile phone to enable users to remotely unlock bicycle locks and start the engine; satellite navigational system for bicycles consisting of a satellite receiver and satellite phone; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices for use with bicycles; maintenance software for vehicles other than trucks, namely, software that notifies users of required maintenance in vehicles, other than trucks; reflective clothing for the prevention of accidents, namely, reflective safety vests; bicycle speedometers; helmets for bicycles; cruise controls for electric bicycles, pedal-operated transport vehicles; electric accumulators for electric bicycles, electric accumulators for pedal-operated transport vehicles; electric batteries for electric bicycles; electric locks for electric bicycles; kilometer recorders for vehicles, other than trucks; speedometers for vehicles, other than trucks; crash helmets for motorcyclists; helmets for

motorcyclists; helmets for cyclists; electric battery chargers for vehicles with motorized pedal assistance; electric battery chargers for electric bicycles; electric battery chargers for pedal-operated transport vehicles; control apparatus for the energy management of electric batteries for vehicles with motorized pedal assistance; control apparatus for the energy management of electric batteries for electric bicycles; control apparatus for the energy management of electric batteries for pedal-operated transport vehicles.

Class 12

(2) Vehicles for use on land, namely, mopeds, motorcycles, push scooters, electrically powered motor scooters and tricycles; cycles, namely, unicycles; trailers for vehicles, especially for two-wheeled vehicles, namely, bicycle trailers; mobility vehicles, namely, automobiles for the physically handicapped and those of reduced mobility; bicycles and parts thereof; luggage bags, saddlebags, handlebar bags and panniers adapted for two-wheelers; panniers adapted for cycles and bicycles; bags and transport cases adapted for bicycles, cycles and motorcycles; saddlebags adapted for bicycles, cycles and motorcycles; engines and motors for land vehicles and two-wheeled vehicles, namely, motor vehicle engines and motorcycle engines; electric motors for two-wheeled vehicles, namely, scooters and bicycles; baskets, boxes, luggage boxes and transport boxes specially adapted for attachment to vehicles; saddle bags, seat bags, bicycle frame bags, handlebar bags and bicycle baskets, all adapted for attachment to bicycles, scooters, and motorcycles; air pumps for inflating tires of bicycles, two-wheeled motor vehicles, and automobiles; electric motors for two-wheeled vehicles, namely, scooters, bicycles and parts thereof; bags adapted for city scooters and street scooters; bicycles; electric bicycles; pedelecs; electric bikes; bikes; folding bikes; mini-bikes; racing bicycles; road racing bicycles; touring bicycles; cars; trucks; collapsible bicycles; delivery bicycles; motor scooters; motorized bicycles; motorized golf trolleys; non-motorized push scooters; trailers for transporting bicycles; wheel hubs of two-wheeled motor vehicles or bicycles; inner tubes for bicycles; luggage racks for bicycles; mudguards of two-wheeled motor vehicles or bicycles; bicycle parts; bicycle tires; bicycle trailers; bicycle wheel rims; bicycle wheels; chain guards for bicycles; direction indicators for bicycles; frames for bicycles; freewheels for bicycles; front forks for cycles; gears for bicycles; bicycle bells; bicycle bottom bracket spindles; bicycle brakes; bicycle carriers; bicycle frames; bicycle frames and bicycle handlebar grips; bicycle handlebar grips; bicycle handles; bicycle kickstands; bicycle motors; bicycle mudguards; bicycle pedals; bicycle rims; bicycle saddles; bicycle seats; bicycle stands; air pumps for two-wheeled motor vehicles and bicycles; baskets adapted for bicycles; cranks for cycles; panniers adapted for cycles; brake pads for bicycle, electric bicycles, transport bicycles and delivery bicycles; brake shoes for bicycles, electric bicycles, transport bicycles and delivery bicycles; brakes for bicycles, electric bicycles, transport bicycles and delivery bicycles; children's safety seats for bicycles, electric bicycles, transport bicycles and delivery bicycles; direction signals for bicycles, electric bicycles, transport bicycles and delivery bicycles; electric drives for bicycles, electric bicycles, transport bicycles and delivery bicycles; electrically powered bicycles, electrically powered transport bicycles; electrically powered delivery bicycles; engine mounts for bicycles, electric bicycles, transport bicycles and delivery bicycles; hoods for vehicle engines of bicycles, electric bicycles, transport bicycles and delivery bicycles; hoods for bicycles, electric bicycles, transport bicycles and delivery bicycles; motorcycle frames; security alarms for bicycles, electric bicycles, transport bicycles and delivery bicycles; speed change gears for bicycles, electric bicycles, transport bicycles and delivery bicycles; spokes for two-wheeled motor vehicles; tires for two-wheeled motor vehicles or bicycles; valves for vehicle tires; vehicle covers; wheel rims for bicycles, electric bicycles, transport bicycles and delivery bicycles; anti-theft alarms for bicycles, electric bicycles, transport bicycles and delivery bicycles; transport bicycles; delivery motorcycles; motorized delivery bicycles; fitted covers for bicycles, electric bicycles, transport bicycles and delivery bicycles; transport bicycles and

delivery bicycles; delivery bicycles and structural parts therefor, transport bicycles and structural parts therefor

Computers and data storage media for collection, processing and transmission of machine data and work data for railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains; computers and data storage media for collection, processing and transmission of data for carrying out maintenance work in the field of railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains; downloadable computer programs stored on data storage media and online computer programs stored on data storage media for use in the field of railway measuring procedures, railway maintenance procedures and railway maintenance works; downloadable computer programs stored on data storage media and online computer programs stored on data storage media for use in the field of monitoring procedures and fault diagnosis procedures for railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains; downloadable computer programs stored on data storage media and online computer programs stored on data storage media, all for use for the operation of railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains; downloadable computer programs stored on data storage media and online computer programs stored on data storage media, all for management of documents in the field of the maintenance of railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains.

Services

Class 35

(1) Database management and data processing (office functions) for evaluating, forecasting and optimising of railway infrastructures for railroad construction tools and rail vehicles, namely for locomotives, railway carriages, passenger carriages, track recording cars, railroad construction machines and track-laying and maintenance trains.

Class 42

(2) Design and development of computer hardware and programs (software), all relating to railway measuring procedures and maintenance procedures; design and development of computer hardware and programs (software) for monitoring, fault diagnosis and control of railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains; design and development of computer hardware and programs (software) for documents in relation to the maintenance of railroad construction machines, railroad construction tools, railway measuring vehicles, bulk material handling railway vehicles and track-laying and maintenance trains.

Class 09

(1) Apparatus and instruments for scientific or research purposes, namely electron paramagnetic resonance (EPR) spectrometers, mass spectrometers, near infrared (NIR) spectrometers, infrared sensors, silicon chips, pattern recognition systems composed of computer chips, computer hardware and software, chip carriers, namely semiconductor chip housing, hand-held device comprised of infrared sensors for measuring radiation to monitor a burner flame, for preventive fire protection, to detect sparks, for gas sensing detection, for moisture monitoring in food, for face authentication, for biometric face security, for measuring body hydration level, body lactate level and blood glucose, for analyzing the composition of plastics, for analyzing the composition of PV backsheets and encapsulations for photovoltaic modules, for analyzing skin and hair conditions, for analyzing blood samples and analyzing biological assay samples for medical research, for measuring caffeine and moisture levels in coffee beans, for measuring moisture, protein, starch, fat, energy content, dry matter sugar, and decimal reduction time in poultry, pork and cattle, in poultry, pork and cattle feed ingredients, in grain and grass silage, hay and fresh grass; audiovisual and information technology equipment, as well as safety and life-saving equipment, namely near field communication [NFC] technology enabled readers, audiovisual receivers, cameras for monitoring and inspecting equipment in a nuclear power station, vehicle safety equipment, namely, an on-board vehicular surveillance system comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, stereoscopic equipment for 3D viewing, vehicle safety equipment, namely, back-up sensors and cameras, photo electron spectroscopy analyzers, not for medical purposes, three-dimensional scanners; apparatus for recording, transmission or reproduction of images, namely spectroscopy hardware, cloud-based chemometric analytics, computer and smart phone downloadable application to show measurement results regarding radiation and gas detection, moisture in food, face authentication, body hydration level, body lactate level, blood glucose level, the composition of plastics, the composition of PV backsheets and encapsulations of photovoltaic modules, skin and hair conditions, blood samples and biological assay samples for medical research composition, caffeine and moisture levels in coffee beans, moisture, protein, starch, fat, energy content, dry

matter sugar, and decimal reduction time in poultry, pork and cattle, poultry, pork and cattle feed ingredients, grain and grass silage, hay and fresh grass, computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity, for use in measuring radiation to monitor a burner flame and to prevent fire, for use to detect sparks, for use in gas sensing detection, for use in moisture monitoring in food, for use in face authentication, for use in biometric face authentication security, for use in measuring body hydration level, body lactate level and blood glucose level, for use in analyzing the composition of plastics, analyzing the composition of PV backsheets and encapsulations for photovoltaic modules, analyzing skin and hair conditions, and analyzing blood samples and biological assay samples for medical research, for use in measuring caffeine and moisture levels in coffee beans, for use in measuring moisture, protein, starch, fat, energy content, dry matter sugar, and decimal reduction time in poultry, pork and cattle, in poultry, pork and cattle feed ingredients, grain and grass silage, hay and fresh grass; apparatus and instruments for scientific research in laboratories, namely laboratory instruments for the detection of pathogens and toxins in a biological sample for research use, spectrometers for use in research, humanoid robots with artificial intelligence for use in scientific research; electronic apparatus and instruments for controlling and monitoring aircraft, watercraft and autonomous vehicles, in particular, navigational instruments, automatic steering apparatus for vehicles; safety and security apparatus and instruments, in particular, security tokens being encryption devices; optical apparatus and instruments, namely optical amplifiers, optical semiconductor amplifiers, optical inspection apparatus for inspection of food, optical sensors, optical transmitters, optical transceivers, optical multiplexers, optical receivers, optical reflectors, optical scanners; smartwatches, wearable activity trackers; virtual reality headsets, smartglasses; automated teller machines, invoicing machines, namely currency counting machines, adding machines, automatic money counting and money changing machines, automatic cash sorting and counting machines, coin counting machines, currency recognition machines, electronic machines for recording financial operations; material testing instruments and machines, namely test adapters for testing printed circuit boards, meters for testing humidity, plastic testing machines, probes for testing integrated circuits; laboratory robots, teaching robots, namely medical teaching robots, infrared spectroscopy teaching robots, security surveillance robots, humanoid robots with artificial intelligence.

Class 10

(2) Medical apparatus and instruments used for the diagnosis of function and condition of persons and animals, in particular for menstruation, contraception and childbirth, namely apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein, high density lipoprotein cholesterol testing apparatus for medical diagnostic purposes, ultrasonic medical diagnostic apparatus, magnetic resonance imaging (MRI) diagnostic apparatus, X-ray diagnostic apparatus.

Services

Class 42

(1) Scientific and technological services and research and design relating thereto, namely scientific research in infrared sensor technologies and 3D technologies, computer design of graphic representation programs, design of optical and micro optical components, design and development of software and hardware for producing, recording and processing chip infrared detectors; industrial analysis, namely chemical analysis, providing tailored technical scientific agricultural production analysis, industrial analysis services in the field of agriculture and horticulture, blood analysis services, testing, analysis and evaluation of leaf and petiole samples; quality control and authentication services, namely providing quality control for the food industry, providing

certification for quality assurance of the services of others in the field of computer security; design and development of computer software, in particular services of engineers and scientists who undertake evaluations, estimates, research and reports in the scientific and technological fields, including technological consultancy; computer and technology services for securing computer data, personal and financial information, and for the detection of unauthorized access to data and information, namely, electronic monitoring of personally identifying information, and biometric face authentication for computer security; software as a service (SaaS) provider for tracking, recording, processing, storing, monitoring, and analyzing agricultural, horticultural, and agronomic information, software as a service (SAAS) services featuring non downloadable software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity, software as a service (SAAS) featuring software for running cloud computing based applications, software as a service (SaaS) for searching structured and unstructured data for healthcare data analytics, software as a service (SAAS) namely software for speech, facial and optical character recognition, software as a service (SaaS) provider to track and monitor agricultural and horticultural crop yield, software as a service (SAAS) services featuring non-downloadable software for computer network security, software as a service (SAAS) services featuring non-downloadable software for data security, software as a Service (Saas) provider providing software for cloud Network Attached Storage facilities for use with a datastore for the general storage of data for others; platform as a service (PaaS), namely platform as a service (PaaS) for searching structured and unstructured data for healthcare data analytics, platform as a service (PaaS) featuring computer software platforms for collecting, managing and analyzing data obtained from vehicles, providing a platform-as-a-service (PaaS) infrastructure for searching structured and unstructured data in the field of data analytics in agriculture, livestock, poultry, cybersecurity, fire protection, gas sensing detection, coffee, food, health, skin and hair condition; scientific research services for medical purposes, namely analysis of human tissues and stem cells for scientific research purposes, research in the field of bacteriology, drug screening for scientific research purposes, drug, alcohol and DNA screening for forensic research purposes, alcohol screening for scientific research purposes, testing of human tissues and stem cells for scientific research purposes, testing and analysis of blood plasma, red blood cells, white blood cells, and blood platelets for scientific research purposes, providing medical and scientific research information in the field of pharmaceuticals and clinical trials; oil, gas and mining exploration services.

Class 44

(2) Medical care, including hygienic and beauty care, namely providing information relating to the skin and hair condition, providing information relating to body hydration level, body lactate levels, and blood glucose level, providing medical advice in the field of dermatology; services relating to the fields of agriculture, aquaculture, horticulture and forestry, namely providing information in the field of sustainable agriculture, providing tailored agricultural and horticultural advice in the field of cultivation management, agricultural production, cattle, pork, and poultry breeding; medical analysis services for diagnostic and treatment purposes, namely medical testing services, analyzing body composition of humans or animals for medical or veterinary purposes, analysis and processing of blood plasma and stem cells being medical services, providing information concerning the use of medical diagnostic imaging equipment by means of a web site, medical imaging, medical diagnostic testing, monitoring and reporting services; medical testing for diagnostic or treatment purposes; dietary and nutritional advice; health spa services; animal breeding, namely poultry, pork and cattle breeding; gardening, in particular, plant nursery services, landscape design, landscape gardening, lawn care.

Trademark Description

The trademark consists of the following elements appearing on a three-dimensional bottle with round shoulders leading to a flat base. There is a geometric sun design at the base of the neck where the rounded shoulders become the sides of the bottle. The dashed lines in the drawing do not form part of the trademark but are included merely to show the positioning of the sign.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark utilizes specific colors being different shades of yellow, to enhance its distinctive features. The claimed colors and their respective parts of the trademark are as follows: Yellow Sunshine (#F2E205): Yellow Sunshine having the color scheme code #F2E205 is used as the lightest shade in the lower parts of the letters "Z" and "S." Amber Yellow (#F2CB05): Amber Yellow having the color scheme code #F2CB05 is used in the midsections of the letters "Z" and "S." Tangerine (#F2B807): Tangerine having the color scheme code #F2B807 is used in the upper sections of the letters "Z" and "S." Sunset Orange (#F29F05): Sunset Orange having the color scheme code #F29F05 is used as the darkest shade in the uppermost parts of the letters "Z" and "S." Black (#0D0D0D): Black having the color scheme code #0D0D0D is used in the trademark name "ZP Solution" at the bottom of the trademark logo. The trademark consists of the letters "Z" and "S" intertwined with each other, with the letter "S" wrapping itself around the letter "Z" and the letter Z is at the top whereas the letter S is wrapping itself around the letter Z in the middle and is positioned in the middle, along with the trademark name "ZP SOLUTION" written at the bottom. The color scheme within the letters "Z" and "S" progresses from lighter shades to darker shades and the colors used in the logo of the

trademark are different shades of yellow being Yellow Sunshine (#F2E205), Amber Yellow (#F2CB05), Tangerine (#F2B807), Sunset Orange (#F29F05), and at the bottom, the trademark name "ZP Solution" is mentioned in the color Black (#0D0D0D). All of the colors, letters and characters existing in the trademark logo are an integral and distinctive part of the trademark and are used in a specific manner to identify and distinguish Ningbo Zhenpin Network Technology Co. Ltd.'s goods, categorized under class 14, in the marketplace. Hence, Ningbo Zhenpin Network Technology Co., Ltd. reserves all rights in the claimed colors, as all of them apply to the trademark.

The logo for MIXUPMIX features the word "MIXUPMIX" in a bold, sans-serif font. The letter "M" is rendered in a vibrant indigo blue, while the remaining letters "IXUPMIX" are in a solid black. The letters are closely spaced and have a clean, modern appearance.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the wording "MIXUPMIX" in stylized black font, except the "M" which is indigo blue. The white in the mark is background only and is not claimed as a feature of the mark.
