Vol. 71 No. 3652

General Information

The *Trademarks Journal* (the "*Journal*") is published on the website of the Canadian Intellectual Property Office (http://cipo.gc.ca). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the "*Act*"), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 01

(1) Chemicals used to identify pathogens, infections and infectious diseases for industrial and scientific purposes; chemical reagents for genetic identity testing; antibody reagents for scientific purposes; cell culture reagents for scientific or research purposes; cell culture reagents for laboratory use; diagnostic reagents for medical-scientific research use; chemical solutions and preparations consisting of pre-mixed reactants and reagents for scientific and research use in connection with amplification, analysis or labeling of nucleic acid; enzymes for use in the biotechnology industry; nucleic acid enzymes for laboratory use, namely, for research, medical laboratory and clinical laboratory use; nucleic recombinant acids being for vitro use in biochemistry, clinical chemistry, microbiology and for diagnostic testing purposes for use in the diagnosis of diseases or detection or identification of pathogens; acids being inorganic and organic acids being for vitro use in biochemistry, clinical chemistry, microbiology and diagnostic testing purposes for use in the diagnosis of diseases or detection or identification of pathogens; acids, namely, nucleic acids and nucleic acid sequences for industrial purposes; DNA polymerase and RNA polymerase used to assemble DNA and RNA molecules; chemicals used in food processing and screening

Class 05

(2) pharmaceutical and veterinary preparations and substances for the diagnosis of disease and detection and identification of pathogens; diagnostic reagents for medical diagnostic use;

diagnostic reagents for veterinary diagnostic use; diagnostic reagents for medical laboratory use; nucleic acid amplification reagents for medical use for diagnosis of diseases, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolite expression, inflammation, and immune-suppression and immune disorders, for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis of epigenetic alterations, analysis of response to therapy; nucleic acid sequencing programs for medical use for diagnosis of diseases, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolite expression, inflammation, and immune-suppression and immune disorders, for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis of epigenetic alterations, analysis of response to therapy; chemical preparations containing enzymes for medical purposes for use in analysis of gene expression, protein expression, metabolite expression, inflammation, immune-suppression, immune disorders; chemical preparations containing enzymes for pharmaceutical, veterinary and medical purposes for use in analysis of gene expression, protein expression, metabolite expression, inflammation, immune-suppression, immune disorders; enzymes for pharmaceutical, veterinary and medical purposes for use in analysis of gene expression, protein expression, metabolite expression, inflammation, immune-suppression, immune disorders; medical kits in this class namely biological chemical test kits for medical laboratory use in analysis of gene expression, protein expression, metabolite expression, inflammation, immune-suppression, immune disorders; clinical diagnostic preparations and reagents for medical and veterinary use; biological chemical test kits for medical laboratory use in analysis of gene expression, protein expression, metabolite expression, inflammation, immune-suppression, immune disorders

Class 10

(3) surgical, medical and veterinary apparatus and instruments, diagnostic testing kits in this class, point of care medical devices namely apparatus, diagnostic testing kits and point of care medical devices for the diagnosis of disease, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolite expression, inflammation, and immune-suppression and immune disorder, for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis and epigenetic alterations, analysis and response to therapy; screening kits in this class for the diagnosis of disease, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolic expression, inflammation, and immune-suppression and immune disorders for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis of epigenetic alterations, analysis of response to therapy for treatment of infectious diseases, immunological diseases and autoimmune diseases

Services

Class 42

(1) scientific and technological services and research and design relating thereto, namely, DNA analysis services for scientific research purposes and scientific research consulting in the field of genetics; genetic research; genetic engineering services; scientific research in the field of genetics and genetic engineering; scientific research relating to genetics; chemistry services, namely, chemistry research services; research relating to chemistry; scientific research relating to chemistry; research in the field of chemistry; laboratory analysis in the field of chemistry; development of medical diagnostic apparatus in the fields of genetics and genetic engineering, sexually transmitted infections and respiratory infections, specifically excluding diagnostic

apparatus pertaining to artificial limbs and orthopaedic articles; design of medical diagnostic apparatus in the fields of genetics and genetic engineering, sexually transmitted infections and respiratory infections, specifically excluding diagnostic apparatus pertaining to artificial limbs and orthopaedic articles; research relating to molecular sciences; analysis of data generated by scientific and medical experiments and tests; biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis and evaluation services for scientific testing and scientific research purposes; DNA and RNA and polynucleic acid and protein sequencing, analysis and evaluation services for scientific testing and scientific research purposes; genome sequencing services and the analysis and evaluation of data resulting therefrom for scientific testing and scientific research purposes; provision of scientific reports relating to scientific and medical experiments, the results of scientific and medical experiments and tests, the analysis and evaluation of scientific and medical data, and data generated by scientific and medical experiments and tests; scientific and medical research and development services in the fields of genetics and genetic engineering, sexually transmitted infections and respiratory infections; custom design and development of biochemical assays;

Class 44

(2) medical services in the fields of genetics and genetic engineering, diagnosis of disease, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolite expression, inflammation, and immune-suppression and immune disorder, for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis and epigenetic alterations, analysis and response to therapy for treatment of infectious diseases, immunological diseases and autoimmune diseases; human health care services in the fields of genetics and genetic engineering, diagnosis of disease, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolite expression, inflammation, and immune-suppression and immune disorder, for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis and epigenetic alterations, analysis and response to therapy for treatment of infectious diseases, immunological diseases and autoimmune diseases; medical testing services relating to the diagnosis and treatment of disease; genetic testing for medical purposes; medical and health services relating to DNA, genetics and genetic testing, namely, DNA screening for medical purposes and genetic testing for medical purposes; medical diagnostic testing, monitoring and reporting services; providing collected and analysed medical information in the field of genetics and genetic engineering, and diagnosis of disease, detection and identification of pathogens, for the detection of antibiotic resistance, for the analysis of gene expression, protein expression, metabolite expression, inflammation, and immune-suppression and immune disorder, for genotyping, analysis of polymorphisms, detection of acquired and inherited genetic mutations, detection and analysis and epigenetic alterations, analysis and response to therapy, treatment information for diseases and disorders for diagnostic and treatment purposes; molecular diagnostics testing; medical diagnostic imaging and molecular medicine services;

Colour Claim

Colour is claimed as a feature of the trademark. Beginning with the outside rings: Four half circles, one black, one white, one grey, last one is black All half circles lead down to the company name of Growling Gourmets in block letters, consisting of stark white and gradating into grey. Under the company name of "Growling Gourmets" is the company's profession in dark green stating "Premium All Natural Dog Food". The main part of the picture is three live pictures of dogs, all with brown faces, black noses and brown eyes. The dog on the right has a light brown paw and the dog on the left has a dark brown paw, both are resting on the Company's name Growling Gourmets. They are all dressed in chef's coats, with dark green outlines and dark green buttons on the coats . Their chef's caps are white gradating with white and grey with "GG" in purple on them. There are three muffins in front of the dogs, which are brown with white paper around them. In the background is a kitchen, with a hood fan, microwave oven, an oven beneath that, and kitchen cupboards, all in light brown and darker brown. Beneath that is a backsplash with light green and darker green. Beneath that is a kitchen counter that is a light brown, with two white mugs on top of

it. There is a plug in, two pots, and a sink tap all in silver. Beneath that are kitchen drawers that are dark brown, with silver handles, beside the drawers is a kitchen stove top with one dial showing in light brown. Directly behind the dogs are cupboards that are dark brown.

Colour Claim
Colour is claimed as a feature of the trademark. The innermost circle is red and contains the image of the face of a king with a crown in a gold colour and outlined in black. The king's beard and face have yellow highlighting. The circular image of the king sits within a circle containing a gold outer ring, followed by a red ring and then a circle filled in with gold and yellow stripes. The four pointed ellipse shapes are placed at the outermost section of the design and form a circle. The ellipse shapes are outlined in gold and filled in maroon colour.

tools, namely incorporators, seed drills and coulters, and parts and fittings for such goods; incubators for eggs, and parts and fittings for such goods; automatic vending machines, and parts and fittings for such goods; diesel engines for industrial machinery, electric power equipment and for generation of electricity, diesel marine engines, and parts and fittings for such goods; gas engines for industrial machinery, electric power equipment and for generation of electricity, gas marine engines, and parts and fittings for such goods; electrical engines other than for land vehicles, namely electrical engines for industrial machinery, electric power equipment and for generation of electricity, electrical marine engines, and parts and fittings for such goods; internal combustion engines for industrial machinery, electric power equipment and for generation of electricity, and parts and fittings for such goods; marine engines, and parts and fittings for such goods; generators of electricity, and parts and fittings for such goods; current generators, and parts and fittings for such goods; alternators for industrial machinery, and parts and fittings for such goods; electric starters and recoil starters for engines and motors, and parts and fittings for such goods; exhaust pipes, muffler and systems for motors and engines, and parts and fittings for such goods; power transmissions except for land vehicles, namely power transmissions for machines, and parts and fittings for such goods; vehicle pneumatic and hydraulic compressors being superchargers, and parts and fittings for such goods; ignition devices, fueling injection devices and hydraulic and pneumatic controls for internal combustion engines, and parts and fittings for such goods; lubricating apparatus, and parts and fittings for such goods; cooling radiators for engines and motors, and parts and fittings for such goods; air filters being parts of engines, and parts and fittings for such goods; oil filters being parts of engines, and parts and fittings for such goods; filters for cleaning cooling air for engines, and parts and fittings for such goods; air filters for industrial machines, and parts and fittings for such goods; air filters for industrial machines, and parts and fittings for such goods; filters for cleaning cooling air, for engines, and parts and fittings for such goods; bearings being parts of machines, and parts and fittings for such goods; cylinders for motors and engines, and parts and fittings for such goods; cylinder heads for engines, and parts and fittings for such goods; camshafts for vehicle engines, and parts and fittings for such goods; connecting rods for machines, motors and engines, and parts and fittings for such goods; crank shafts, and parts and fittings for such goods; gaskets for internal combustion engines, and parts and fittings for such goods; sealing joints being parts of engines, and parts and fittings for such goods; gear box assemblies being parts of machines, and parts and fittings for such goods; gear couplings for machines, and parts and fittings for such goods; automotive engine blocks, and parts and fittings for such goods; exhaust manifold for engines, and parts and fittings for such goods; pistons [parts of machines or engines], and parts and fittings for such goods; pistons for engines, and parts and fittings for such goods; piston rings, and parts and fittings for such goods; rocker arms for engines, and parts and fittings for such goods; pumps as parts of machines, motors and engines, and parts and fittings therefor; timing belt pulleys as parts of engines for land vehicles, and parts and fittings therefor; valves being parts of machines, and parts and fittings for such goods; injectors for engines, and parts and fittings for such goods; control mechanisms for machines, engines and motors namely hydraulic control valves and pneumatic control valves and parts and fittings therefor; crankcases for machines, motors and engines, and parts and fittings for such goods; fuel economisers for motors and engines, and parts and fittings for such goods; igniting devices for internal combustion engines namely, ignition devices for motors of land vehicles, and parts and fittings for such goods; silencers for motors and engines, and parts and fittings for such goods; petrol pumps, and parts and fittings for such goods; welding apparatus, namely electric welding machines, and parts and fittings for such goods; control mechanisms for engines, namely hydraulic control valves and pneumatic control valves and parts and fittings therefor.

Class 12

(2) Vehicles, namely off-highway trucks, dump trucks, trucks, agricultural tractors, vehicles, namely vocational trucks for construction, earth moving, agriculture, logging, mining, oil and gas, quarry, paving, transportation, and waste management applications, vehicles, namely vehicles for earth moving, earth conditioning, and material handling, namely articulated trucks, underground mining trucks, off-highway tractors, and parts and fittings for such goods; apparatus for locomotion by land, air and water, namely trucks, boats, and aircraft; parts of vehicles, namely engines for land vehicles and replacement parts and parts and fittings therefor; sports utility vehicles, and parts and fittings for such goods; boats, and parts and fittings for such goods; tractors, and parts and fittings for such goods; engines and motors for land vehicles, and parts and fittings for such goods; power transmissions for land vehicles, and parts and fittings for such goods; transmissions for land vehicles, and parts and fittings for such goods; gear boxes for land vehicles, and parts and fittings for such goods; drive gears for land vehicles, and parts and fittings for such goods; propulsion mechanisms for land vehicles, namely rocket engines for land vehicles, and parts and fittings for such goods; axles for land vehicles, and parts and fittings for such goods; brakes for land vehicles, and parts and fittings for such goods; cardan shafts for vehicles, and parts and fittings for such goods; clutch mechanisms for land vehicles, and parts and fittings for such goods; couplings for land vehicles, and parts and fittings for such goods; drive shafts for land vehicles, and parts and fittings for such goods; shaft couplings for land vehicles, and parts and fittings for such goods; steering wheels, gears and brakes for land vehicles, and parts and fittings for such goods; suspension systems for land vehicles, and parts and fittings for such goods; universal joints for land vehicles, and parts and fittings for such goods.

Services

Class 37

(1) Building construction; repair and maintenance of vehicles, agricultural, construction, material handling, power generation and marine equipment, machines, engines and motors, generators, machine tools, and parts therefor; installation of engines and motors, of starting devices for engines and motors, of exhaust fittings, of power transmission systems, of compressors and exhausters, of ignition devices, of fueling devices, of controlling devices for engines and motors, of lubricating apparatus, of cooling apparatus and electric generators in vehicles, agricultural, construction, material handling, power generation and marine equipment, machines, engines and motors, generators, machine tools, and parts therefor; rental of equipment, machines, and machine tools for use in compaction, construction, demolition, earth conditioning, earth contouring, earth moving, lifting, marine propulsion, mining extraction, oil well drilling, oil and gas exploration, oil and gas drilling, paving, pipelaying, road building and repair, sweeping, site preparation and remediation, tunnel boring, waste disposal; repair, installation, maintenance and servicing of parts, fittings and components for vehicles, agricultural, construction, material handling, power generation and marine equipment, machines, engines, motors and generators; reconditioning being repair and maintenance of industrial machinery and engines; repair, installation, maintenance and servicing of parts, fittings or components for vehicles, agricultural, construction, material handling, power generation and marine equipment, machines, engines, motors and generators; rental, maintenance and repair of construction machinery and engines therefor; maintenance and repair of agricultural machinery and engines therefore; reconditioning being repair and maintenance of industrial machinery and engines; retrofitting and conversion of engines and motors, of starting devices for engines and motors, of exhaust fittings, of power transmission systems, of compressors and exhausters, of ignition devices, of fueling devices, of controlling devices for engines and motors, of lubricating apparatus, of cooling apparatus and electric generators in vehicles, agricultural, construction, material handling, power generation and marine

equipment, machines, engines and motors, generators, machine tools, and parts therefor; overhaul of engines; tuning of engines; remanufacturing of engines; rebuilding engines; maintenance, servicing, tuning and repair of motors; advisory services relating to the installation of engines; rental of equipment, machines, and machine tools for use in oil and gas drilling.

Class 40

(2) Energy production; generation of power; consultancy services relating to the generation of electrical power; rental of equipment for the treatment and transformation of industrial materials, for power generation, and generation of gas and electricity namely rental of power generation equipment; rental of power-generating equipment; rental of electric, gas-powered and diesel generators; rental store services, namely rental of electric and gas-powered generators, material handling machines and equipment and parts, namely machines for use in agriculture, compaction, construction, defence, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lawn care, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, sweeping, site preparation and remediation, tunnel boring, vegetation and waste management, namely asphalt pavers, backhoe loaders, cold planers, trash compactors, compact track and multi terrain loaders, bulldozers, dragline excavators, drill excavators, electric rope shovels, excavators, freight forwarders, harvesters for agricultural and forestry use, highwall miners, hydraulic mining shovels, material handling buckets, motor graders, pipelayers, road reclaimers, skidders, skid steer loaders, surface mining conveyor systems, telehandler lifts, track loaders, underground hard rock mining machines, underground longwall mining machines, underground room and pillar mining systems, wheel bulldozers, wheel excavators, wheel loaders, wheel tractor scrapers, log loaders, backhoe loaders and structural fittings and components for the aforesaid; rental of equipment for waste material treatment and waste management, namely waste crushing and compacting machines.
