Trademarks Journal

2021-11-24 — Vol. 68 No. 3500

Trademarks Journal

Vol. 68 No. 3500

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

چای دوغزال

DO GHAZAL

Foreign Character Translation

As provided by the applicant, the English translation of the words DO GHAZAL is TWO DEER.

Foreign Character Transliteration

As provided by the applicant, the transliteration of the Persian characters are CHAI DO GHAZAL which means TWO DEER TEA.

Computers; tablet computers; handheld computers; computer hardware; computer software for formatting and converting text, photos, images, music, audio books, movies, television shows, video games, literary works, graphics, files, documents and electronic publications, electronic periodicals, electronic books, electronic magazines, electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, electronic journals and electronic catalogues into a format compatible with computers and portable electronic devices, namely electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); computer software, namely computer games and downloadable electronic games; computer software, namely parental control software; application programming interface for computer software which facilitates access to online social networking services; computer software, namely software programs for the development of computer software applications; computer software, namely computer software development kit consisting of computer software code that can be used to support the development and electronic distribution of third party software, music, audio books, movies, television shows, and video games, and for the related technical support thereof, across global computer networks, wireless networks, and electronic communications networks; computer software, namely software for developing and publishing applications for interactive video streaming to any device having a video decoder and an upstream signal; computer software, namely voice recognition software; computer software, namely character recognition software; computer software, namely software for transmitting, sharing, receiving, downloading, displaying, recording, manipulating, transferring, and optimizing text, photos, images, music, audio books, movies, television shows, video games, literary works, graphics, electronic publications, electronic periodicals, electronic books, electronic magazines, electronic newsletters, electronic brochures, electronic booklets, electronic pamphlets, electronic manuals, electronic journals and electronic catalogues, and computer game programs via computers, televisions (TVs), TV receivers, set top boxes, computer game machines, or portable electronic devices, namely, electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); computer software, namely software to receive, transport, encode, decode, decrypt, encrypt, transmit, multiplex, de-multiplex, and manipulate, video, audio and text in digital format to deliver television and other video

programming to video players and recorders for distribution of television programming for viewing on TVs, monitors, computers, tablet computers and portable electronic devices, namely, electronic book readers, digital audio and video players, laptops, tablet computers, smart phones, and personal digital assistants (PDAs); computer software, namely publishing software; computer operating system software; mobile phone software for enhancing uploading and downloading capabilities on computers, mobile computers, electronic book readers, digital audio and video players, smart phones, and personal digital assistants (PDAs); mobile telephones; smartphones; television set top boxes; touchscreens; telephones; personal digital assistants; televisions; digital audio players and recorders; audio amplifiers; cameras; structural parts and structural fittings for computers, tablet computers, handheld computers, computer hardware, mobile telephones, smart phones, television set top boxes, touchscreens, telephones, personal digital assistants, televisions, digital audio players and recorders, audio amplifiers, and cameras

Services

Class 42

Design and development of computer hardware and software; technical support, maintenance and consulting services pertaining to computer software; technical support and consulting services pertaining to consumer electronics, namely electronic book readers, tablet computers, smart phones, and personal digital assistants (PDAs) in the nature of diagnosing problems with consumer electronics; computer diagnostic services; installation of computer software; updating of computer software; maintenance of computer software; computer hardware and software development; computer systems integration services, namely, integration of computer systems and networks for third parties; monitoring the computer systems of others for technical purposes and providing back up computer programs and facilities; computer consultation, design and testing services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; computer data recovery; computer programming for others; maintenance, installation and repair of computer software; updating of computer software; computer data recovery; providing search engines for searching databases for obtaining data via global communications networks and computer networks; providing temporary use of online non-downloadable software to enable access to a website featuring audio, video, text, digital images and animation, all in the field of entertainment, namely music, concerts, videos, radio, television, news, sports, games, and cultural events; hosting the web sites of others; providing temporary use of online non-downloadable software for electronic mail, for voice mail, for games, for instant messaging, for chat rooms, for access to and management of contact information, for access to and management of electronic personal calendars, for access to and management of web browser bookmark lists, for web site design, creation and publishing, and for creating and delivering electronic greeting cards; providing temporary use of online non-downloadable software for peer-to-peer sharing of digital music files, digital photo files, digital images and movies on the Internet; providing temporary use of online non-downloadable software for technical training in the operation of computers, tablet computers, handheld computers, computer hardware, mobile telephones, smart phones, television set top boxes, touchscreens, telephones, personal digital assistants, televisions, digital audio players and recorders, audio amplifiers, and cameras

Colour Claim

Colour is claimed as a feature of the trademark. The word 'imagine' is grey. The word 'pools' is blue. Both words are surrounded by an oval outline which is orange, with grey tips with blue fading to grey from right to left from the orange. The ball displayed above the words features swirling lines which, from bottom to top, are sequentially coloured green, blue, orange, green, blue and is partially reflected below the ball in muted green and blue.

Goods

Class 19

Non-metal swimming pools.

Goods

Class 01

(1) chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, namely, chemicals for medical-scientific research use, medical-scientific research laboratory use and for use in the pharmaceutical industry, namely, chemical and diagnostic reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in pharmaceutical research laboratories; chemicals for use in the pharmaceutical industry namely chlorine for use in the manufacture of pharmaceuticals, emulsifiers for the manufacture of pharmaceuticals, preservatives for pharmaceutical preparations, additives for use in the manufacture of pharmaceuticals, alcohol for use in manufacturing pharmaceuticals, chemical additives for use in the manufacture of pharmaceuticals, active chemical ingredients for use in the manufacture of pharmaceuticals; chemicals for use in the manufacture of industrial chemicals, namely catalysts for use in the manufacture of industrial chemicals, descaling preparations for industrial purposes, detergents for industrial use, natural graphite for industrial purposes, unprocessed plastics for industrial use, waste water treatment chemicals for industrial use; additives for use in the manufacture of paints, coatings, films sheets, foils, molded products, casted blocks and panels, namely chemical additives for use in the manufacture of paints, anti-slip floor coatings, coatings for wood as paints, coatings for automotive, aerospace and architecture sectors, coil and extrusion coatings, general industrial coatings, leather coatings, plastic coatings, powder coatings, anti-dazzle tinted films sheets for windows, masking film, foils of lead alloys for painters, decorators, printers and artists, synthetic resins used in the manufacture of plastic molding compounds for molded products, namely, casted blocks and panels; agricultural chemicals; horticultural chemicals; forestry chemicals; photographic chemicals; chemicals for scientific research use, namely, chemical and diagnostic reagents for analysis, quality control,

production, sample preparation, sample digestion and extraction for use in scientific research laboratories; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering chemicals; chemical substances for preserving foodstuffs; tanning substances, namely, leather tanning agents, oils for tanning leather, sumac for use in tanning, tannic acid, tannin; adhesives used in industry, namely, adhesives for use in the automotive industry, adhesives for use in the consumer packaging industry, adhesives for use in the manufacture of furniture, adhesives for use in the manufacture of plywood, adhesives for use in the textile industry, chemicals for use in the manufacture of adhesives, general use adhesives, wall covering adhesives; etching mordants; enzymes, namely enzyme stabilizers, enzyme substrates and enzymes for use as an antioxidant; chemical products in the nature of chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, namely, chemicals for medical-scientific research use, medical-scientific research laboratory use and for use in the pharmaceutical industry, namely, chemical and diagnostic reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in pharmaceutical research laboratories, chemicals for use in the pharmaceutical industry namely chlorine for use in the manufacture of pharmaceuticals, emulsifiers for the manufacture of pharmaceuticals, preservatives for pharmaceutical preparations, additives for use in the manufacture of pharmaceuticals, alcohol for use in manufacturing pharmaceuticals, chemical additives for use in the manufacture of pharmaceuticals, active chemical ingredients for use in the manufacture of pharmaceuticals, chemicals for use in the manufacture of industrial chemicals, namely catalysts for use in the manufacture of industrial chemicals, descaling preparations for industrial purposes, detergents for industrial use, natural graphite for industrial purposes, unprocessed plastics for industrial use, waste water treatment chemicals for industrial use, additives for use in the manufacture of paints, coatings, films sheets, foils, molded products, casted blocks and panels, namely chemical additives for use in the manufacture of paints, anti-slip floor coatings, coatings for wood as paints, coatings for automotive, aerospace and architecture sectors, coil and extrusion coatings, general industrial coatings, leather coatings, plastic coatings, powder coatings, anti-dazzle tinted films sheets for windows, masking film, foils of lead alloys for painters, decorators, printers and artists, synthetic resins used in the manufacture of plastic molding compounds for molded products, namely, casted blocks and panels, agricultural chemicals, horticultural chemicals, forestry chemicals, photographic chemicals, chemicals for scientific research use, namely, chemical reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in scientific research laboratories, unprocessed artificial resins, unprocessed plastics, manures, fire extinguishing compositions, tempering and soldering chemicals, chemical substances for preserving foodstuffs, tanning substances, namely, leather tanning agents, oils for tanning leather, sumac for use in tanning, tannic acid, tannin, adhesives used in industry, namely, adhesives for use in the automotive industry, adhesives for use in the consumer packaging industry, adhesives for use in the manufacture of furniture, adhesives for use in the manufacture of plywood, adhesives for use in the textile industry, chemicals for use in the manufacture of adhesives, general use adhesives, wall covering adhesives; etching mordants, enzymes, namely enzyme stabilizers, enzyme substrates and enzymes for use as an antioxidant

Class 02

(2) paints, varnishes, lacquers, namely, ceramic paints, enamel paints, floor paints, fluorescent paints, insulating paints, luminous paints, oil paints, fireproof paints, anti-corrosive paints, anti-fouling paints, bactericidal paints, agglutinants for paints, aluminium paints, binding preparations for paints, artists' paints, dispersion paints for use in interior décor and the design of building facades in the graphic arts industry, fixatives, namely, varnishes, for acrylic paints, polymer paints,

watercolor paints, bitumen varnish, copal varnish, insulating varnishes, floor protection varnishes, bronzing lacquers, lacquers for coating papers, thinners for lacquers, paint and lacquer glazes, pigments for paints, namely, aluminum paint pigment, metallic paint pigments, inorganic pigments, carbon black as pigment, organic pigments, ultramarine blue as pigment, colorants for use in the manufacture of paints, conductive pigments protecting against electrostatic discharge, aerospace coatings, namely, coatings containing weatherproof and UV-resistant aluminum paint pigments, metallic paint pigments and enduring brilliance coatings, automotive coatings, namely, automotive paints, aluminum paints, anti-corrosive paint, anti-rust preparations for preservation, automobile finishing coatings, UV-resistant aluminum paint pigments, corrosion inhibiting paint type coatings, paint for use in the manufacture of automobiles, undercoating for chassis of vehicles, undersealing for chassis of vehicles, enduring brilliance and color constancy coatings, weather-resistant pigments; preservatives against rust and against deterioration of wood; colorants for use in the manufacture of beverages, cosmetics, pharmaceuticals, food, paints, coatings; mordants, namely, mordant dyes, mordants for dyeing natural fibres, mordants for the textile industry, mordants for leather, mordants for metals; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists

Class 03

(3) laundry detergents; bleaching preparations for laundry use; bleaching preparations for cosmetic purposes; bleaching preparations, namely, bleaching salts for the hair; cleaning, polishing, scouring and abrasive preparations, namely, all purpose cleaning preparations, general use abrasives, all purpose scouring liquids and powders, scouring solutions, all purpose polishing preparations, namely automobile polish, boot polish, chrome polish, floor, polish, leather polishes, polishing creams, polishing paper, polishing wax; soaps, namely, hand soap, antibacterial soap, deodorant soaps, bath soap, dish soap, laundry soap, beauty soap, body soap, cosmetic soap, industrial soap, liquid soap; perfumery, essential oils for personal use, essential oils for aromatherapy, essential oils as perfume for laundry purposes, essential oils for food flavouring, essential oils for cosmetic and skin care purposes, essential oils for perfumes and scents, cosmetics, hair lotions; dentifrices

Class 05

(4) pharmaceutical preparations for the treatment of allergies; pharmaceutical preparations for the treatment of cardiovascular diseases and disorders; anti-diabetic pharmaceuticals; pharmaceutical preparations for use in dermatology, namely, dermatitis, skin pigmentation diseases, sexually transmitted diseases, acne, bacterial skin infections, hair disorders, hypersensitivity and inflammatory skin disorders, psoriasis disorders; pharmaceutical preparations for use in gastroenterology; pharmaceutical preparations for the treatment of genetic diseases and disorders, namely endocrine, neurological, namely, Alzheimer's, Huntington's Disease and cerebral palsy, oncological and infertility; pharmaceutical hormonal preparations, namely endocrine; pharmaceutical preparations for the treatment of immunological diseases, namely, autoimmune diseases, immunologic deficiency syndromes; anti-inflammatory preparations; pharmaceutical preparations for the treatment of metabolic diseases and disorders, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity and hypothyroidism; pharmaceutical preparations for the treatment of musculo-skeletal diseases and disorders, namely, multiple sclerosis treatment, rheumatoid arthritis and autoimmune diseases; pharmaceutical preparations for the treatment of neurological diseases, namely, Alzheimer's, Huntington's Disease, cerebral palsy, central nervous system infections, brain diseases, central nervous system movement disorders, ocular motility disorders, spinal cord diseases, encephalitis, epilepsy, Parkinson's disease, multiple sclerosis; pharmaceutical preparations for the treatment of oncological diseases and disorders; pharmaceutical preparations

for the treatment of ophthalmic diseases and disorders; pharmaceutical preparations for the treatment of psychiatric and other brain diseases and disorders, namely, anxiety, mood disorders, schizophrenia, cognitive and bipolar disorders, epilepsy, Alzheimer's, cerebral palsy, Parkinson's disease, multiple sclerosis; pharmaceutical preparations for reproductive health diseases and disorders, namely pharmaceutical hormonal preparations, namely, corticosteroids, hormone replacement therapy preparations, oral contraceptives, thyroid hormone preparations; pharmaceutical preparations for the treatment of pulmonary hypertension; pharmaceutical preparations for the treatment of pulmonary diseases and disorders, namely, lung cancer; pharmaceutical preparations for the treatment of respiratory diseases and disorders; pharmaceutical preparations for the treatment of rheumatological diseases and disorders, namely, rheumatoid arthritis and auto-immune diseases; pharmaceutical preparations for the treatment of viral diseases, namely Immuno-oncology; pharmaceutical preparations for the treatment of diseases, disorders and infections of the endocrine system, namely growth and thyroid disorders; sanitary preparations for medical purposes, namely, sanitizing sprays and aerosols for the skin, antiseptics for the skin, bactericidal skin cleansing preparations, skin-care preparations for disinfecting purpose, hand sanitizers; dietetic food and substances adapted for medical use, namely, vitamins, minerals, trace elements namely, iron, iodine, fluoride, copper, zinc, chromium, selenium, manganese and molybdenum, amino acids, cod liver oil, plant and fish edible oils and edible fats, lactic acid bacteria, probiotic stems and medicinal herbs, folates, probiotics, omega-3, organic iron, folic acids, sulfates, herbal supplements for general health and well being; dietary supplements for humans, namely, dietary supplements for general health and well being; plasters and dressings for medical and surgical procedures; material for stopping teeth, dental wax; all purpose disinfectants; preparations for destroying vermin; fungicides, herbicides; dental adhesives; surgical adhesives; disinfectant soap; pre-filled pens and syringes, namely injection instruments without needles containing pharmaceutical preparations for the treatment of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies

Class 07

(5) mixers, namely industrial mixers for mixing liquids for use in the agricultural, beverage, pharmaceutical and chemical industries, mixers for liquids and for liquids and solids for use in the agricultural, beverage, pharmaceutical and chemical industries and disposable industrial mixers for mixing liquids for use in the agricultural, beverage, pharmaceutical and chemical industries; disposable manufacturing apparatus and instruments, namely filling machines and disposable filling machines for use in the agricultural, beverage, pharmaceutical and chemical industries for filling bottles, vials and syringes, single use disposable non-metal connectors for use in forming sterile connections with filling machines used in the agricultural, beverage, pharmaceutical and chemical industries, disposable industrial mixers for mixing liquids for use in the agricultural, beverage, pharmaceutical and chemical industries; filling machines, namely, disposable filling assemblies and liquid filtration manifolds for use in the pharmaceuticals manufacturing industry and research and scientific laboratories; power-operated hand-held crimping tool for sealing and cutting tubing; agitators for chemical processing; blending machines for chemical processing; filter presses for chemical processing; separating machines for chemical processing; emulsifying machines for chemical processing; dissolving machines for chemical processing; industrial machine presses; motors and engines, other than for land vehicles, namely, engine motors for industrial machinery, electric motors for machines, driving motors for industrial machinery, motors and engines, namely, electric motors for industrial machinery, engine motors, for industrial machinery; engines for industrial machinery; engines and motors for the generation of electricity;

pumps as parts of machines, motors and engines; machine coupling and transmission components (except for land vehicles); incubators for eggs; automatic vending machines

Class 09

(6) scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, disposable industrial bioreactors for growing cells in the pharmaceutical and chemical industries, laboratory filters, namely, tangential flow filter machines for preparation of biological samples, laboratory filters, namely, liquid filtration, purification and concentration machines for ultrapure solvent and water based pharmaceutical preparations, laboratory filters for liquids, housing for laboratory filters for liquids, and instruments for detection of filter condition, namely, filter integrity testers, analysers and analysis apparatus, namely, sensors for detection of temperature, oxygen, pH levels and other parameters in the nature of carbon dioxide, laboratory filters, namely, liquid and gas purification filters, filter holders and housings for liquid and gas purification filters for laboratory purposes, ion exchange apparatus and instruments, namely, liquid and gas purification filters for laboratory purposes, testing apparatus, namely, liquid and gas purity testing units, pressure sensors, ultrafiltration filters, namely, liquid filters for laboratory purposes, kits for analysis, determination and identification of biological and chemical molecules and species in the field of reaction containers in the nature of beakers, reagents, and instructions, sterility testing devices, namely, electronic machines for testing the sterility of filtration equipment, ultrafiltration membranes, namely, scientific apparatus in the nature of cellulose mixed ester membranes and thermoplastic membranes for use in the science and research industry, fluorescence, electrochemiluminescence and bioluminescence system, namely, detectors for indicating the presence of one of fluorescence, electrochemiluminescence and bioluminescence signals, an image devices in the nature of a camera and microscope to show the detected signal, a filter for capturing the contamination from the liquid to be detected and reagents to label the contamination for detection and imaging by the system for detecting contamination in liquids, apparatus for performing chromatographic separations and parts thereof, namely, chromatography columns for laboratory use and controllers for liquid filtration machines for laboratory purposes, purification units, instruments and cartridges for laboratory use, namely, laboratory apparatus in the form of liquid and gas filters, test units for determining the integrity and pore-size distribution of membrane filters, namely, testing equipment for measuring the integrity, temperature, pressure, position and form of workpieces in a machine tool, temperature sensors and other sensors for temperature, oxygen, pH and other parameters in the nature of carbon dioxide, pH electrodes for laboratory research, membrane filters for laboratory and scientific use for removing impurities and contaminants from water and liquids, for gas and solvent filtration, for sterilizing filtration of solutions, for sensitive air monitoring, laboratory filters, namely, membranes used in dialysis, reverse osmosis and ultrafiltration for laboratory and scientific use, laboratory filters, namely, liquid filtration, purification and concentration devices for laboratory use, bioreactors for cell culturing for industrial use, parts and fittings for all the aforesaid goods, namely, liquid dispense nozzles in the nature of automatic liquid dispense nozzles, liquid tubes in the nature of laboratory storage tubes, laboratory test tubes, liquid pumps in the nature of pumps for laboratory testing purposes, connectors for water purification units, nozzles for water purification units, tubes being parts of water purification units and pumps, all of the foregoing connectors, nozzles, tubes, and pumps, being component parts of and sold as a unit with the water purification devices, incubators and parts and fittings therefor used to support development of human embryos, human reproductive tissue, human sperm, human blastocysts and human oocytes, all being for scientific and laboratory use, instruments and equipment and parts and fittings therefor for identifying, separating, extracting and processing human sperm and human oocytes, all being for scientific and laboratory

use, equipment for monitoring the development, vitrification, cultivation, cryopreservation, warming and thawing of human, embryos, human reproductive tissue, human sperm, human blastocysts and human oocytes, all being for scientific and laboratory use, equipment for storing and preserving human embryos, human reproductive tissue, human sperm, human blastocysts and human oocytes, all being for scientific and laboratory use, tangential flow fluid filtration system comprising water filters, scientific apparatus for use with membrane filtration, namely, water filter controllers, housings and holders specially adapted for water filters, pretreatment packs, namely, water filters and water treatment equipment in the nature of absorber devices in the nature of membrane based ion exchange filter for removal of large contaminants for scientific and research laboratories and for pharmaceutical manufacturing, apparatus for testing gas, liquids and solids, laboratory filters, namely, ultrafiltration filter for water, sterility monitoring and testing equipment for testing the sterility of liquid preparations by filtration and incubation, fluorescence detection system for microorganisms comprised primarily of filters, namely microporous membranes, fluorescent indicator panel displays, and photo-optic readers for use in the detection, enumeration and identification of microorganisms, apparatus for performing chromatographic separations and parts thereof, namely, chromatography columns for laboratory use and apparatus for performing chromatographic separations and parts thereof for industrial and laboratory use, namely, chromatographic columns and control skids, water purification units for laboratory use, apparatus used in dialysis, reverse osmosis and ultrafiltration for industrial use, namely, water treatment equipment in the nature of reverse osmosis units; computer software for monitoring liquid and gas filtration, computer software for management of biopharmaceutical purification processes, computer software, namely, database management software for the administration, management, collection, storage and use of information and data in the field of life science; computer software in the field of life science for management of biopharmaceutical purification processes; downloadable computer software in the nature of a mobile application that enables users to access personal healthcare information in the field of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, cardiovascular diseases and disorders, diabetes, dermatology, gastroenterology, endocrine diseases and disorders, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, musculo skeletal diseases and disorders, oncology, ophthalmic diseases and disorders, psychiatric diseases and disorders, respiratory diseases and disorders, rheumatological diseases and disorders; computer software for detecting and measuring water quality for use in biopharmaceutical purification processes; downloadable publications in electronic format and on CD-ROMs, namely, manuals and technical documentation featuring information on liquid and gas filtration; tangential flow filter machines for preparation of biological samples; disposable manufacturing apparatus and instruments, namely, disposable industrial bioreactors for growing cells in the pharmaceutical and chemical industries

Class 10

(7) surgical, medical, dental and veterinary apparatus and instruments, namely, physical therapy equipment, namely, massage apparatus, namely, gloves for massage and vibrator massagers, physiotherapy and rehabilitation equipment, namely, cardiac electrodes and electronic muscle stimulators, acupuncture instruments, back supports for medical purposes, hearing protection headsets, feeding aids and pacifiers, namely feeding bottle teats, feeding bottle valves, feeding bottles, feeding cups for medical purposes, intravenous feeding bottles, medical feeding tubes and baby pacifiers; contraceptive devices, namely, contraceptive coils, contraceptive diaphragms, diagnostic, examination, and monitoring equipment, namely, magnetic resonance imaging (MRI)

diagnostic apparatus, ultrasonic medical diagnostic apparatus, medical examination tables, medical instruments for general examination, diabetes monitoring equipment for sampling and analyzing blood and body tissue, surgical and wound treating equipment and instruments, namely, bone substitutes for surgical use, dressing forceps for surgical use, wound suction apparatus and cutting and dental equipment, namely, grinding discs for dental applications, equipment for moving patients, namely armchairs for medical and dental purposes, birthing chairs, dental chairs, stretchers for patient transport, medical clothing, namely surgical scrub suits, medical gowns and surgical gowns, prosthetics and artificial implants, namely artificial organs and implants, hearing aids, dental prostheses, needles, namely acupuncture needles, injection needles, needle sheathes, suture needles, needles for medical purposes, injection needles for medical use, injection syringes, injection syringes, injection pens, syringes for medical purposes and for injections, needle-free device, devices for measuring blood insulin, devices for measuring blood sugar, electronic auto-injection device, namely, needles for medical use, injection needles, single-use disposable injection pen, autoinjector pens, surgical instruments, incubators for medical use and parts and fittings of all the aforesaid goods; artificial limbs, eyes and teeth; orthopedic articles, namely, orthopaedic and mobility aids namely orthopaedic belts, orthopaedic footwear, orthopaedic inserts for footwear, toe separators for orthopaedic purposes, invalid walkers, quad canes for medical purposes, plaster bandages for orthopedic purposes; suture materials

Class 11

(8) apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, sun tanning appliances, namely sun and tanning beds and sun lamps, sanitary installations, water supply and sanitation equipment, namely, water purification, desalination and conditioning installations, in the nature of, water, liquid, gas and air sterilizers; sterilization, disinfection and decontamination equipment and sanitary and bathroom installations, namely, plumbing fixtures, decorative fountains, steam baths, saunas and spas, burners, boilers and heaters, namely laboratory burners, electric boilers, heating boilers, industrial boilers, Gas and water heaters, lighting and lighting reflectors, namely, vehicle lighting and lighting reflectors, fireplaces, filters for industrial and household use, namely filters for purifying water, water filtering units for industrial use, gas purification machines, industrial ovens and furnaces (not for food and beverages) for chemical processing, chemical processing equipment namely industrial installations for filtering liquids, installations for the collection of gases, installations for the collection of liquids, launders for trapping impurities in molten metal, biological reactors for clarifying industrial effluents, food waste dehydrators, heating, ventilating, and air conditioning and purification equipment (ambient), namely, air cleaning units, air deodorizing apparatus, air humidifiers, air purifying units, heating, ventilating and air-conditioning (HVAC) systems, namely, air conditioners, chillers, heaters, heat exchangers, ventilating fans, oven gas igniters and parts and fittings of all the aforesaid goods; disposable filtration and purification apparatus and instruments, namely, water filtering and purifying units for household use; machines for metal, wood and plastic processing industries, the chemical and pharmaceutical industries, agriculture and the beverage industry, mining, the textile, construction and packaging industries, namely, water purifying machines and units, water filtration and purification units and replacement cartridges and filters therefor, laboratory machines for use in manufacturing of pharmaceuticals, namely, filtration, purification and concentration machines of pharmaceutical ingredients, compounds, solvents and water, machine tools for the aforesaid machines; laboratory machines for use in manufacturing pharmaceuticals, namely, purifying machines for removing contaminants and impurities from pharmaceutical ingredients, compounds, solvents and water; water and wastewater filtration, purification and concentration machines for use in the chemical processing industry

Class 16

(9) paper and cardboard; printed matter, namely, books, manuals, leaflets, pamphlets, brochures and magazines, pictures, cardboard, greetings cards and postcards, newsletters and printed periodicals; bookbinding material; photographs; adhesives for stationery or household purposes; paint brushes; instructional and teaching material, namely, books, manuals and workbooks in the fields of chemical processing, pharmaceuticals, medical research, medical laboratories, healthcare and life science; plastic materials for packaging, namely, plastic bags for packaging and plastic film for packaging; printers' type; printing blocks

Class 17

(10) gutta-percha, asbestos, mica; plastic materials (semi-processed), namely, semi-processed plastics

Class 29

(11) meat; fish; poultry; game; meat extracts; jams; compotes; eggs; milk; dairy products; edible oils and fats

Class 30

(12) coffee; tea; cocoa; coffee alternatives; rice; tapioca; sago; flour; bread; pastries; ice creams; sugar; honey; treacle; yeast, baking-powder; salt; mustard; vinegar; spices; ice

Class 31

(13) algae, namely unprocessed algae for human consumption and unprocessed brown algae for human consumption [Hijiki seaweed]

Class 32

(14) beers; mineral water; carbonated water; non-alcoholic beverages, namely, herbal tea beverages, isotonic beverages and fruit-flavored beverages; fruit beverages; fruit juices; syrups and flavoured powders for making beverages

Services**Class 40**

(1) treatment of materials with biochemical, biological and pharmaceutical materials, namely, treatment of materials for others for the manufacture of chemical and pharmaceutical goods; treatment of wastewater and water demineralisation; heat treatment of metals; cloth dyeing; customized contract production of industrial chemicals and reagents, namely diagnostic reagents for clinical laboratory use and diagnostic reagents for medical-scientific research use, additives for use in the manufacture of pharmaceuticals, chemicals for use in the pharmaceutical industry, chemicals for use in the manufacture of industrial chemicals, agricultural chemical, horticultural chemicals, forestry chemicals, photographic chemicals products for use in manufacture, research and science; customized contract production of mixtures, namely, active chemical ingredients and excipients for use in the manufacture of pharmaceuticals

Class 41

(2) education services, namely, courses and demonstrations in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular

diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development; providing of training via a website, namely, arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars and webinars in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development; entertainment, namely, organization of exhibitions, namely receptions, community seminars and festivals, live musical concerts and art exhibitions, for cultural and educational purposes in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development

Class 42

(3) scientific and technological research services in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development and scientific research and design services relating thereto; industrial analysis and research services in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology,

chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing; design and development of computer hardware and software

Class 44

(4) medical clinic services; medical services in the fields of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies; veterinary services; health and beauty care for human beings, namely, providing medical information in the fields of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, consultancy and advisory services in the fields of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, consulting services rendered in the field of health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies and pharmaceuticals

Goods

Class 01

(1) chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, namely, chemicals for medical-scientific research use, medical-scientific research laboratory use and for use in the pharmaceutical industry, namely, chemical and diagnostic reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in pharmaceutical research laboratories; chemicals for use in the pharmaceutical industry namely chlorine for use in the manufacture of pharmaceuticals, emulsifiers for the manufacture of pharmaceuticals, preservatives for pharmaceutical preparations, additives for use in the manufacture of pharmaceuticals, alcohol for use in manufacturing pharmaceuticals, chemical additives for use in the manufacture of pharmaceuticals, active chemical ingredients for use in the manufacture of pharmaceuticals; chemicals for use in the manufacture of industrial chemicals, namely catalysts for use in the manufacture of industrial chemicals, descaling preparations for industrial purposes, detergents for industrial use, natural graphite for industrial purposes, unprocessed plastics for industrial use, waste water treatment chemicals for industrial use; additives for use in the manufacture of paints, coatings, films sheets, foils, molded products, casted blocks and panels, namely chemical additives for use in the manufacture of paints, anti-slip floor coatings, coatings for wood as paints, coatings for automotive, aerospace and architecture sectors, coil and extrusion coatings, general industrial coatings, leather coatings, plastic coatings, powder coatings, anti-dazzle tinted films sheets for windows, masking film, foils of lead alloys for painters, decorators, printers and artists, synthetic resins used in the manufacture of plastic molding compounds for molded products, namely, casted blocks and panels; agricultural chemicals; horticultural chemicals; forestry chemicals; photographic chemicals; chemicals for

scientific research use, namely, chemical and diagnostic reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in scientific research laboratories; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering chemicals; chemical substances for preserving foodstuffs; tanning substances, namely, leather tanning agents, oils for tanning leather, sumac for use in tanning, tannic acid, tannin; adhesives used in industry, namely, adhesives for use in the automotive industry, adhesives for use in the consumer packaging industry, adhesives for use in the manufacture of furniture, adhesives for use in the manufacture of plywood, adhesives for use in the textile industry, chemicals for use in the manufacture of adhesives, general use adhesives, wall covering adhesives; etching mordants; enzymes, namely enzyme stabilizers, enzyme substrates and enzymes for use as an antioxidant; chemical products in the nature of chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, namely, chemicals for medical-scientific research use, medical-scientific research laboratory use and for use in the pharmaceutical industry, namely, chemical and diagnostic reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in pharmaceutical research laboratories, chemicals for use in the pharmaceutical industry namely chlorine for use in the manufacture of pharmaceuticals, emulsifiers for the manufacture of pharmaceuticals, preservatives for pharmaceutical preparations, additives for use in the manufacture of pharmaceuticals, alcohol for use in manufacturing pharmaceuticals, chemical additives for use in the manufacture of pharmaceuticals, active chemical ingredients for use in the manufacture of pharmaceuticals, chemicals for use in the manufacture of industrial chemicals, namely catalysts for use in the manufacture of industrial chemicals, descaling preparations for industrial purposes, detergents for industrial use, natural graphite for industrial purposes, unprocessed plastics for industrial use, waste water treatment chemicals for industrial use, additives for use in the manufacture of paints, coatings, films sheets, foils, molded products, casted blocks and panels, namely chemical additives for use in the manufacture of paints, anti-slip floor coatings, coatings for wood as paints, coatings for automotive, aerospace and architecture sectors, coil and extrusion coatings, general industrial coatings, leather coatings, plastic coatings, powder coatings, anti-dazzle tinted films sheets for windows, masking film, foils of lead alloys for painters, decorators, printers and artists, synthetic resins used in the manufacture of plastic molding compounds for molded products, namely, casted blocks and panels, agricultural chemicals, horticultural chemicals, forestry chemicals, photographic chemicals, chemicals for scientific research use, namely, chemical reagents for analysis, quality control, production, sample preparation, sample digestion and extraction for use in scientific research laboratories, unprocessed artificial resins, unprocessed plastics, manures, fire extinguishing compositions, tempering and soldering chemicals, chemical substances for preserving foodstuffs, tanning substances, namely, leather tanning agents, oils for tanning leather, sumac for use in tanning, tannic acid, tannin, adhesives used in industry, namely, adhesives for use in the automotive industry, adhesives for use in the consumer packaging industry, adhesives for use in the manufacture of furniture, adhesives for use in the manufacture of plywood, adhesives for use in the textile industry, chemicals for use in the manufacture of adhesives, general use adhesives, wall covering adhesives; etching mordants, enzymes, namely enzyme stabilizers, enzyme substrates and enzymes for use as an antioxidant

Class 02

(2) paints, varnishes, lacquers, namely, ceramic paints, enamel paints, floor paints, fluorescent paints, insulating paints, luminous paints, oil paints, fireproof paints, anti-corrosive paints, anti-fouling paints, bactericidal paints, agglutinants for paints, aluminium paints, binding preparations for paints, artists' paints, dispersion paints for use in interior décor and the design of building

facades in the graphic arts industry, fixatives, namely, varnishes, for acrylic paints, polymer paints, watercolor paints, bitumen varnish, copal varnish, insulating varnishes, floor protection varnishes, bronzing lacquers, lacquers for coating papers, thinners for lacquers, paint and lacquer glazes, pigments for paints, namely, aluminum paint pigment, metallic paint pigments, inorganic pigments, carbon black as pigment, organic pigments, ultramarine blue as pigment, colorants for use in the manufacture of paints, conductive pigments protecting against electrostatic discharge, aerospace coatings, namely, coatings containing weatherproof and UV-resistant aluminum paint pigments, metallic paint pigments and enduring brilliance coatings, automotive coatings, namely, automotive paints, aluminum paints, anti-corrosive paint, anti-rust preparations for preservation, automobile finishing coatings, UV-resistant aluminum paint pigments, corrosion inhibiting paint type coatings, paint for use in the manufacture of automobiles, undercoating for chassis of vehicles, undersealing for chassis of vehicles, enduring brilliance and color constancy coatings, weather-resistant pigments; preservatives against rust and against deterioration of wood; colorants for use in the manufacture of beverages, cosmetics, pharmaceuticals, food, paints, coatings; mordants, namely, mordant dyes, mordants for dyeing natural fibres, mordants for the textile industry, mordants for leather, mordants for metals; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists

Class 03

(3) laundry detergents; bleaching preparations for laundry use; bleaching preparations for cosmetic purposes; bleaching preparations, namely, bleaching salts for the hair; cleaning, polishing, scouring and abrasive preparations, namely, all purpose cleaning preparations, general use abrasives, all purpose scouring liquids and powders, scouring solutions, all purpose polishing preparations, namely automobile polish, boot polish, chrome polish, floor, polish, leather polishes, polishing creams, polishing paper, polishing wax; soaps, namely, hand soap, antibacterial soap, deodorant soaps, bath soap, dish soap, laundry soap, beauty soap, body soap, cosmetic soap, industrial soap, liquid soap; perfumery, essential oils for personal use, essential oils for aromatherapy, essential oils as perfume for laundry purposes, essential oils for food flavouring, essential oils for cosmetic and skin care purposes, essential oils for perfumes and scents, cosmetics, hair lotions; dentifrices

Class 05

(4) pharmaceutical preparations for the treatment of allergies; pharmaceutical preparations for the treatment of cardiovascular diseases and disorders; anti-diabetic pharmaceuticals; pharmaceutical preparations for use in dermatology, namely, dermatitis, skin pigmentation diseases, sexually transmitted diseases, acne, bacterial skin infections, hair disorders, hypersensitivity and inflammatory skin disorders, psoriasis disorders; pharmaceutical preparations for use in gastroenterology; pharmaceutical preparations for the treatment of genetic diseases and disorders, namely endocrine, neurological, namely, Alzheimer's, Huntington's Disease and cerebral palsy, oncological and infertility; pharmaceutical hormonal preparations, namely endocrine; pharmaceutical preparations for the treatment of immunological diseases, namely, autoimmune diseases, immunologic deficiency syndromes; anti-inflammatory preparations; pharmaceutical preparations for the treatment of metabolic diseases and disorders, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity and hypothyroidism; pharmaceutical preparations for the treatment of musculo-skeletal diseases and disorders, namely, multiple sclerosis treatment, rheumatoid arthritis and autoimmune diseases; pharmaceutical preparations for the treatment of neurological diseases, namely, Alzheimer's, Huntington's Disease, cerebral palsy, central nervous system infections, brain diseases, central nervous system movement disorders, ocular motility disorders, spinal cord diseases, encephalitis, epilepsy, Parkinson's disease, multiple sclerosis; pharmaceutical

preparations for the treatment of oncological diseases and disorders; pharmaceutical preparations for the treatment of ophthalmic diseases and disorders; pharmaceutical preparations for the treatment of psychiatric and other brain diseases and disorders, namely, anxiety, mood disorders, schizophrenia, cognitive and bipolar disorders, epilepsy, Alzheimer's, cerebral palsy, Parkinson's disease, multiple sclerosis; pharmaceutical preparations for reproductive health diseases and disorders, namely pharmaceutical hormonal preparations, namely, corticosteroids, hormone replacement therapy preparations, oral contraceptives, thyroid hormone preparations; pharmaceutical preparations for the treatment of pulmonary hypertension; pharmaceutical preparations for the treatment of pulmonary diseases and disorders, namely, lung cancer; pharmaceutical preparations for the treatment of respiratory diseases and disorders; pharmaceutical preparations for the treatment of rheumatological diseases and disorders, namely, rheumatoid arthritis and auto-immune diseases; pharmaceutical preparations for the treatment of viral diseases, namely Immuno-oncology; pharmaceutical preparations for the treatment of diseases, disorders and infections of the endocrine system, namely growth and thyroid disorders; sanitary preparations for medical purposes, namely, sanitizing sprays and aerosols for the skin, antiseptics for the skin, bactericidal skin cleansing preparations, skin-care preparations for disinfecting purpose, hand sanitizers; dietetic food and substances adapted for medical use, namely, vitamins, minerals, trace elements namely, iron, iodine, fluoride, copper, zinc, chromium, selenium, manganese and molybdenum, amino acids, cod liver oil, plant and fish edible oils and edible fats, lactic acid bacteria, probiotic stems and medicinal herbs, folates, probiotics, omega-3, organic iron, folic acids, sulfates, herbal supplements for general health and well being; dietary supplements for humans, namely, dietary supplements for general health and well being; plasters and dressings for medical and surgical procedures; material for stopping teeth, dental wax; all purpose disinfectants; preparations for destroying vermin; fungicides, herbicides; dental adhesives; surgical adhesives; disinfectant soap; pre-filled pens and syringes, namely injection instruments without needles containing pharmaceutical preparations for the treatment of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies

Class 07

(5) mixers, namely industrial mixers for mixing liquids for use in the agricultural, beverage, pharmaceutical and chemical industries, mixers for liquids and for liquids and solids for use in the agricultural, beverage, pharmaceutical and chemical industries and disposable industrial mixers for mixing liquids for use in the agricultural, beverage, pharmaceutical and chemical industries; disposable manufacturing apparatus and instruments, namely filling machines and disposable filling machines for use in the agricultural, beverage, pharmaceutical and chemical industries for filling bottles, vials and syringes, single use disposable non-metal connectors for use in forming sterile connections with filling machines used in the agricultural, beverage, pharmaceutical and chemical industries, disposable industrial mixers for mixing liquids for use in the agricultural, beverage, pharmaceutical and chemical industries; filling machines, namely, disposable filling assemblies and liquid filtration manifolds for use in the pharmaceuticals manufacturing industry and research and scientific laboratories; power-operated hand-held crimping tool for sealing and cutting tubing; agitators for chemical processing; blending machines for chemical processing; filter presses for chemical processing; separating machines for chemical processing; emulsifying machines for chemical processing; dissolving machines for chemical processing; industrial machine presses; motors and engines, other than for land vehicles, namely, engine motors for industrial machinery, electric motors for machines, driving motors for industrial machinery, motors and engines, namely, electric motors for industrial machinery, engine motors, for industrial

machinery; engines for industrial machinery; engines and motors for the generation of electricity; pumps as parts of machines, motors and engines; machine coupling and transmission components (except for land vehicles); incubators for eggs; automatic vending machines

Class 09

(6) scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, disposable industrial bioreactors for growing cells in the pharmaceutical and chemical industries, laboratory filters, namely, tangential flow filter machines for preparation of biological samples, laboratory filters, namely, liquid filtration, purification and concentration machines for ultrapure solvent and water based pharmaceutical preparations, laboratory filters for liquids, housing for laboratory filters for liquids, and instruments for detection of filter condition, namely, filter integrity testers, analysers and analysis apparatus, namely, sensors for detection of temperature, oxygen, pH levels and other parameters in the nature of carbon dioxide, laboratory filters, namely, liquid and gas purification filters, filter holders and housings for liquid and gas purification filters for laboratory purposes, ion exchange apparatus and instruments, namely, liquid and gas purification filters for laboratory purposes, testing apparatus, namely, liquid and gas purity testing units, pressure sensors, ultrafiltration filters, namely, liquid filters for laboratory purposes, kits for analysis, determination and identification of biological and chemical molecules and species in the field of reaction containers in the nature of beakers, reagents, and instructions, sterility testing devices, namely, electronic machines for testing the sterility of filtration equipment, ultrafiltration membranes, namely, scientific apparatus in the nature of cellulose mixed ester membranes and thermoplastic membranes for use in the science and research industry, fluorescence, electrochemiluminescence and bioluminescence system, namely, detectors for indicating the presence of one of fluorescence, electrochemiluminescence and bioluminescence signals, an image devices in the nature of a camera and microscope to show the detected signal, a filter for capturing the contamination from the liquid to be detected and reagents to label the contamination for detection and imaging by the system for detecting contamination in liquids, apparatus for performing chromatographic separations and parts thereof, namely, chromatography columns for laboratory use and controllers for liquid filtration machines for laboratory purposes, purification units, instruments and cartridges for laboratory use, namely, laboratory apparatus in the form of liquid and gas filters, test units for determining the integrity and pore-size distribution of membrane filters, namely, testing equipment for measuring the integrity, temperature, pressure, position and form of workpieces in a machine tool, temperature sensors and other sensors for temperature, oxygen, pH and other parameters in the nature of carbon dioxide, pH electrodes for laboratory research, membrane filters for laboratory and scientific use for removing impurities and contaminants from water and liquids, for gas and solvent filtration, for sterilizing filtration of solutions, for sensitive air monitoring, laboratory filters, namely, membranes used in dialysis, reverse osmosis and ultrafiltration for laboratory and scientific use, laboratory filters, namely, liquid filtration, purification and concentration devices for laboratory use, bioreactors for cell culturing for industrial use, parts and fittings for all the aforesaid goods, namely, liquid dispense nozzles in the nature of automatic liquid dispense nozzles, liquid tubes in the nature of laboratory storage tubes, laboratory test tubes, liquid pumps in the nature of pumps for laboratory testing purposes, connectors for water purification units, nozzles for water purification units, tubes being parts of water purification units and pumps, all of the foregoing connectors, nozzles, tubes, and pumps, being component parts of and sold as a unit with the water purification devices, incubators and parts and fittings therefor used to support development of human embryos, human reproductive tissue, human sperm, human blastocysts and human oocytes, all being for scientific and laboratory use, instruments and equipment and parts and fittings therefor for identifying, separating,

extracting and processing human sperm and human oocytes, all being for scientific and laboratory use, equipment for monitoring the development, vitrification, cultivation, cryopreservation, warming and thawing of human, embryos, human reproductive tissue, human sperm, human blastocysts and human oocytes, all being for scientific and laboratory use, equipment for storing and preserving human embryos, human reproductive tissue, human sperm, human blastocysts and human oocytes, all being for scientific and laboratory use, tangential flow fluid filtration system comprising water filters, scientific apparatus for use with membrane filtration, namely, water filter controllers, housings and holders specially adapted for water filters, pretreatment packs, namely, water filters and water treatment equipment in the nature of absorber devices in the nature of membrane based ion exchange filter for removal of large contaminants for scientific and research laboratories and for pharmaceutical manufacturing, apparatus for testing gas, liquids and solids, laboratory filters, namely, ultrafiltration filter for water, sterility monitoring and testing equipment for testing the sterility of liquid preparations by filtration and incubation, fluorescence detection system for microorganisms comprised primarily of filters, namely microporous membranes, fluorescent indicator panel displays, and photo-optic readers for use in the detection, enumeration and identification of microorganisms, apparatus for performing chromatographic separations and parts thereof, namely, chromatography columns for laboratory use and apparatus for performing chromatographic separations and parts thereof for industrial and laboratory use, namely, chromatographic columns and control skids, water purification units for laboratory use, apparatus used in dialysis, reverse osmosis and ultrafiltration for industrial use, namely, water treatment equipment in the nature of reverse osmosis units; computer software for monitoring liquid and gas filtration, computer software for management of biopharmaceutical purification processes, computer software, namely, database management software for the administration, management, collection, storage and use of information and data in the field of life science; computer software in the field of life science for management of biopharmaceutical purification processes; downloadable computer software in the nature of a mobile application that enables users to access personal healthcare information in the field of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, cardiovascular diseases and disorders, diabetes, dermatology, gastroenterology, endocrine diseases and disorders, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, musculo skeletal diseases and disorders, oncology, ophthalmic diseases and disorders, psychiatric diseases and disorders, respiratory diseases and disorders, rheumatological diseases and disorders; computer software for detecting and measuring water quality for use in biopharmaceutical purification processes; downloadable publications in electronic format and on CD-ROMs, namely, manuals and technical documentation featuring information on liquid and gas filtration; tangential flow filter machines for preparation of biological samples; disposable manufacturing apparatus and instruments, namely, disposable industrial bioreactors for growing cells in the pharmaceutical and chemical industries

Class 10

(7) surgical, medical, dental and veterinary apparatus and instruments, namely, physical therapy equipment, namely, massage apparatus, namely, gloves for massage and vibrator massagers, physiotherapy and rehabilitation equipment, namely, cardiac electrodes and electronic muscle stimulators, acupuncture instruments, back supports for medical purposes, hearing protection headsets, feeding aids and pacifiers, namely feeding bottle teats, feeding bottle valves, feeding bottles, feeding cups for medical purposes, intravenous feeding bottles, medical feeding tubes and baby pacifiers; contraceptive devices, namely, contraceptive coils, contraceptive diaphragms,

diagnostic, examination, and monitoring equipment, namely, magnetic resonance imaging (MRI) diagnostic apparatus, ultrasonic medical diagnostic apparatus, medical examination tables, medical instruments for general examination, diabetes monitoring equipment for sampling and analyzing blood and body tissue, surgical and wound treating equipment and instruments, namely, bone substitutes for surgical use, dressing forceps for surgical use, wound suction apparatus and cutting and dental equipment, namely, grinding discs for dental applications, equipment for moving patients, namely armchairs for medical and dental purposes, birthing chairs, dental chairs, stretchers for patient transport, medical clothing, namely surgical scrub suits, medical gowns and surgical gowns, prosthetics and artificial implants, namely artificial organs and implants, hearing aids, dental prostheses, needles, namely acupuncture needles, injection needles, needle sheathes, suture needles, needles for medical purposes, injection needles for medical use, injection syringes, injection syringes, injection pens, syringes for medical purposes and for injections, needle-free device, devices for measuring blood insulin, devices for measuring blood sugar, electronic auto-injection device, namely, needles for medical use, injection needles, single-use disposable injection pen, autoinjector pens, surgical instruments, incubators for medical use and parts and fittings of all the aforesaid goods; artificial limbs, eyes and teeth; orthopedic articles, namely, orthopaedic and mobility aids namely orthopaedic belts, orthopaedic footwear, orthopaedic inserts for footwear, toe separators for orthopaedic purposes, invalid walkers, quad canes for medical purposes, plaster bandages for orthopedic purposes; suture materials

Class 11

(8) apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, sun tanning appliances, namely sun and tanning beds and sun lamps, sanitary installations, water supply and sanitation equipment, namely, water purification, desalination and conditioning installations, in the nature of, water, liquid, gas and air sterilizers; sterilization, disinfection and decontamination equipment and sanitary and bathroom installations, namely, plumbing fixtures, decorative fountains, steam baths, saunas and spas, burners, boilers and heaters, namely laboratory burners, electric boilers, heating boilers, industrial boilers, Gas and water heaters, lighting and lighting reflectors, namely, vehicle lighting and lighting reflectors, fireplaces, filters for industrial and household use, namely filters for purifying water, water filtering units for industrial use, gas purification machines, industrial ovens and furnaces (not for food and beverages) for chemical processing, chemical processing equipment namely industrial installations for filtering liquids, installations for the collection of gases, installations for the collection of liquids, launders for trapping impurities in molten metal, biological reactors for clarifying industrial effluents, food waste dehydrators, heating, ventilating, and air conditioning and purification equipment (ambient), namely, air cleaning units, air deodorizing apparatus, air humidifiers, air purifying units, heating, ventilating and air-conditioning (HVAC) systems, namely, air conditioners, chillers, heaters, heat exchangers, ventilating fans, oven gas igniters and parts and fittings of all the aforesaid goods; disposable filtration and purification apparatus and instruments, namely, water filtering and purifying units for household use; machines for metal, wood and plastic processing industries, the chemical and pharmaceutical industries, agriculture and the beverage industry, mining, the textile, construction and packaging industries, namely, water purifying machines and units, water filtration and purification units and replacement cartridges and filters therefor, laboratory machines for use in manufacturing of pharmaceuticals, namely, filtration, purification and concentration machines of pharmaceutical ingredients, compounds, solvents and water, machine tools for the aforesaid machines; laboratory machines for use in manufacturing pharmaceuticals, namely, purifying machines for removing contaminants

and impurities from pharmaceutical ingredients, compounds, solvents and water; water and wastewater filtration, purification and concentration machines for use in the chemical processing industry

Class 16

(9) paper and cardboard; printed matter, namely, books, manuals, leaflets, pamphlets, brochures and magazines, pictures, cardboard, greetings cards and postcards, newsletters and printed periodicals; bookbinding material; photographs; adhesives for stationery or household purposes; paint brushes; instructional and teaching material, namely, books, manuals and workbooks in the fields of chemical processing, pharmaceuticals, medical research, medical laboratories, healthcare and life science; plastic materials for packaging, namely, plastic bags for packaging and plastic film for packaging; printers' type; printing blocks

Class 17

(10) gutta-percha, asbestos, mica; plastic materials (semi-processed), namely, semi-processed plastics

Class 29

(11) meat; fish; poultry; game; meat extracts; jams; compotes; eggs; milk; dairy products; edible oils and fats

Class 30

(12) coffee; tea; cocoa; coffee alternatives; rice; tapioca; sago; flour; bread; pastries; ice creams; sugar; honey; treacle; yeast, baking-powder; salt; mustard; vinegar; spices; ice

Class 31

(13) algae, namely unprocessed algae for human consumption and unprocessed brown algae for human consumption [Hijiki seaweed]

Class 32

(14) beers; mineral water; carbonated water; non-alcoholic beverages, namely, herbal tea beverages, isotonic beverages and fruit-flavored beverages; fruit beverages; fruit juices; syrups and flavoured powders for making beverages

Services

Class 40

(1) treatment of materials with biochemical, biological and pharmaceutical materials, namely, treatment of materials for others for the manufacture of chemical and pharmaceutical goods; treatment of wastewater and water demineralisation; heat treatment of metals; cloth dyeing; customized contract production of industrial chemicals and reagents, namely diagnostic reagents for clinical laboratory use and diagnostic reagents for medical-scientific research use, additives for use in the manufacture of pharmaceuticals, chemicals for use in the pharmaceutical industry, chemicals for use in the manufacture of industrial chemicals, agricultural chemical, horticultural chemicals, forestry chemicals, photographic chemicals products for use in manufacture, research and science; customized contract production of mixtures, namely, active chemical ingredients and excipients for use in the manufacture of pharmaceuticals

Class 41

(2) education services, namely, courses and demonstrations in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records,

laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development; providing of training via a website, namely, arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars and webinars in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development; entertainment, namely, organization of exhibitions, namely receptions, community seminars and festivals, live musical concerts and art exhibitions, for cultural and educational purposes in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development

Class 42

(3) scientific and technological research services in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing and performance materials in the nature of chemicals used to drive new pharmaceutical, biopharmaceutical and electronics development and scientific research and design services relating thereto; industrial analysis and research services in the fields of chemical processing, chemical engineering, pharmaceutical preparations for human use, pharmaceutical drug development, namely, selecting biomarkers for use in testing drugs, medical diagnostics, namely, laboratory test and collection kits used in connection with in vitro diagnostics, medical records, laboratory management and operations, health care, namely, neurological diseases and disorders,

immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, life sciences research in the fields of biology, chemistry, medical laboratories, biotechnology and biopharmaceutical manufacturing; design and development of computer hardware and software

Class 44

(4) medical clinic services; medical services in the fields of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies; veterinary services; health and beauty care for human beings, namely, providing medical information in the fields of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, consultancy and advisory services in the fields of neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies, consulting services rendered in the field of health care, namely, neurological diseases and disorders, immunological diseases and disorders, metabolic diseases and disorders, namely diabetes, endocrine diseases and disorders, infertility diseases and disorders, oncology, cardiovascular diseases and disorders, dermatology, allergies and pharmaceuticals

(1) Body and beauty care toiletries namely body care soap, body cleansers, body cream soap, body creams, body deodorants, body emulsions for cosmetic use, body lotions, body moisturizers, body powders, body wash, body and beauty care cosmetics, colognes, perfumes and cosmetics, cosmetic creams for skin care, hair care preparations, hair shampoos and conditioners, body oils; Cosmetics; Perfumery; Fragrances; Bath and shower gels, not for medical purposes; Aftershave creams; Shaving lotion; Perfumed creams; Hand creams; Shaving cream; Face creams for cosmetic use; Skin cream; Hair care creams; Haircare preparations, including hair lotions; Scented body lotions and creams; Beauty lotions; Lotions for face and body care;

Class 09

(2) Apparatus for recording, transmission and reproduction of sounds and images, namely, computers, portable computers, tablet computers, and mobile phones; Data processing apparatus, namely, downloadable applications for tablet computers and mobile phones to enable the streaming of fitness instruction videos and for providing access to fitness class schedules and information on eating healthy, stress management information, self-esteem and emotional wellness information, information on spiritual balance, and work-life balance information; Computers; Computer software applications for personal computers, tablet computers and mobile phones to enable the streaming of fitness, physical training and sports psychology instruction videos and for providing access to fitness, physical training and sports psychology class schedules and information on eating healthy, stress management information, self-esteem and emotional wellness information, information on spiritual balance, and work-life balance information; digital music downloadable via the internet; downloadable video recordings in the field of fitness training provided via the internet; Downloadable video recordings featuring sports and fitness exercises and instructions for physical training and sports psychology exercise, and featuring sporting events, musical events and community social events provided via the internet; image and sound carriers, namely, CDs, DVDs, and CD-ROMs featuring videos in the field of physical fitness, information on eating healthy, stress management information, self-esteem and emotional wellness information, information on spiritual balance, and work-life balance information, and

sports psychology exercises; Electronic notice boards; Headphones; Electronic audio and video signal transmitters, namely, television and radio transmitters of audio- and video signals in the field of physical fitness, sports, health and mental training; Audio- and video- receivers; Audio transmitters, namely, radio transmitters of audio signals in the field of physical fitness, sports, health and mental training; Computer display screens; Computer software to enable the downloading and streaming of instruction videos in the field of physical fitness exercises and sports psychology exercises; Computer software to enable the downloading and streaming of instruction videos in the field of physical fitness exercises and sports psychology exercises featuring computer-animated instructors; Computer software for playing video games; software for tracking of physical activities in video games; Bracelets with integrated altimeters, compasses, pedometers, speed measuring apparatus and telemeters with speed sensors and heart rate monitors; video game apparatus for fitness training, namely screens and displays; downloadable videos in the field of physical fitness exercises, physical training, sports psychology exercises, sporting events, musical events and community social events on-line by means of the Internet;

Class 14

(3) Electric clocks and watches; Chronographs for use as watches; Stopwatches

Class 20

(4) Furniture, namely, wall shelves, beds, furniture chairs, tables, room dividers, counters [furniture], indoor window blinds [shades] [furniture], lockers, mirrors, cupboards;

Class 25

(5) Clothing, namely, shirts, shorts, pants, jackets, socks, belts, long-sleeved shirts, sweatshirts; footwear, namely shoes; headgear, namely caps, hats, hairbands;

Class 27

(6) Gymnastic equipment, namely, gymnastic mats;

Class 28

(7) Gymnastic equipment, namely, balance beams, weights, kettlebells, resistance bands for strength training, dumbbells, jump ropes, battle ropes, ropes for rhythmic gymnastics, aerobics step machines, stationary exercise bicycles; Sporting equipment, namely, rowing machines, treadmills, stair stepping machines, stationary exercise bicycles, barbells for weight lifting; Video game apparatus for fitness training, namely, consoles, handheld consoles, terminals, controllers, joysticks, gamepads, remotes, step boards and balance boards;

Services

Class 35

(1) Advertising for others, rental of advertising space; Business management; Business administration; Arranging of contracts, for others, for the purchase and sale of films, video and audio recordings

Class 38

(2) Radio, television and internet broadcasting of films, video recordings and audio recordings in the field of physical fitness exercises, physical training, sports psychology exercises, sporting events, musical events and community social events; Radio, television and internet broadcasting of live of sporting events and community social events in the field of physical fitness exercises and sports psychology exercises, and of entertainment in the nature of live dramatic and musical performances; Video-on-demand transmission; Provision of telecommunication access to video and audio recordings in the field of fitness, mental and physical training, provided via an online

video-on-demand service; Provision of telecommunication access to films and television programs provided via a video-on-demand service; Provision of access to an Internet portal featuring video-on-demand programs; Providing access to and broadcasting of videos, films and television programmes using video-on-demand and Pay TV services; Streaming of audio and video recordings via the internet in the field of physical fitness exercises, sports and fitness instructions and sports psychology exercises and of sporting events, musical events and community social events; Streaming of audio and video recordings via screens in gyms, spas, hotels, clubs, workplaces or and residential buildings in the field of physical fitness exercises, sports and fitness instructions and sports psychology exercises and of sporting events, musical events and community social events; Transmission of video and audio recordings in the field of physical fitness exercises, sports and fitness instruction and sports psychology exercises and providing of access to telecommunications, in particular through video-on-demand transmission via the Internet; Providing on-line chat rooms for social networking; On-line social networking services; Providing on-line chat rooms for social networking; Providing access to discussion forums, namely internet chat rooms, and social networking forums to share information in the fields of fitness, physical fitness exercises, sports and fitness instructions, sports psychology, exercises and nutrition; providing access to websites in the field of fitness instruction and eating healthy, stress management, self-esteem and emotional wellness, spiritual balance, and work-life balance on the Internet; Streaming of music via the Internet; Streaming of video recordings in the field of fitness, and of sporting events; streaming of television shows and movies via the Internet; Videoon-demand transmission for presenting television shows and movies via a computer database;

Class 41

(3) Providing gym facilities for physical training, fitness training and sports psychology exercises; Providing sport camp; Operation of health and wellness clubs for physical training, fitness training and sports psychology exercise; Rental of sports equipment; Choreography of physical fitness exercises and sports psychology exercises; production and rental of films, audio recordings and video recordings in the field of physical fitness exercises and sports psychology exercises, sports and fitness instruction and of sporting events, musical events and community social events; event planning in the field of sporting events, musical events and community social events; audio and video recording services, namely, recording audio and video onto hard drives, USB Sticks, CDs, DVDs, HD DVDs, and Blue Ray Discs; Presentation of television shows and movies in sports and recreational facilities; ; Provision of on-line computer games; On-line gaming services; Organization, management and arrangement of gymnastics, fitness and sports psychology competitions; Arranging, organising and conducting of cultural and sports events, namely music festivals, concerts, live theatrical productions, group exercise activities, gymnastic classes, sports competitions, non-downloadable webinars, group runs and group bicycle activities; Entertainment, namely, presentation of videos in the field of physical fitness exercises, physical training, sports psychology exercises, sporting events, musical events and community social events on locations at gyms, spas, hotels, clubs, workplaces and residential buildings; Entertainment, namely, cultural, musical and sporting events, namely, organization and presentation of music festivals and concerts, live theatrical productions, group exercise activities, gymnastic classes, sports competitions in the fields yoga, aerobics, Latin dance, and weight-lifting, group runs and group bicycle activities; Entertainment, namely, educational webinars in the field of physical fitness exercises, physical training, sports psychology exercises, group exercise activities, gymnastic classes, sports competitions, group runs and group bicycle activities; Sports instruction in the field of gymnastics; Music composition services; sporting activities, namely, providing fitness training classes with and without fitness equipment for others, namely exercises for groups, personal training, body sculpting classes, fitness classes and fitness competitions; cultural activities,

namely, organizing musical and sporting events, namely, music festivals, concerts, live theatrical productions, group fitness classes, group runs, bicycle competitions, outdoor gymnastic classes, soccer competitions, baseball competitions, basketball competitions; organizing, arranging and conducting of seminars for educational purposes in the field of physical and mental fitness, fitness, physical fitness exercises, sports psychology exercises, nutrition, eating healthy, stress management, self-esteem, spiritual balance, work-life balance, mental wellbeing, music, languages and popular culture; organizing, arranging and conducting of seminars for educational purposes in the field of physical and mental fitness, fitness, physical fitness exercises, sports psychology exercises, nutrition, eating healthy, stress management, self-esteem, spiritual balance, work-life balance, mental wellbeing, music, languages and popular culture; Organisation, arranging and conducting of exhibitions for cultural or educational purposes in the field of physical fitness training and sports psychology exercises; Organisation, arranging and conducting of concerts; arranging and organizing sporting events in the nature of providing of fitness and exercise facilities for others, and arranging and organizing conventions for sports trainers and physical fitness enthusiasts; Providing information in the field of fitness, physical fitness exercises, sports and fitness instruction on the Internet;

Class 42

(4) Design and development of computer hardware and software

Class 43

(5) Providing Pubs; Providing Restaurants; Providing music clubs; Providing Bars; Providing Cafés; services of pubs; services of restaurants; services of clubs, namely music club services; services of bars; services of cafés; Food and drink catering

Class 45

(6) Issuing licences for franchising concepts; Providing film, television and video licensing services; Licensing of industrial property rights; Licensing the rights of films, video and audio recordings; Online services provided by social networks (Acquaintance mediation);

Goods

Class 07

(1) Drilling rig equipment, namely, top drives, automated floor wrenches, and drawworks; automated casing running tools; automated catwalks

Class 09

(2) information systems comprising computer hardware, computer software and electronic controls and alarms used to monitor, display, relay and archive drilling information and to control the functions, processes and operations of oil and gas drilling rig equipment, sold as a component part of said oil and gas drilling rig equipment; Oil and gas well downhole survey and measurement equipment; measuring tools for use in the oil and gas industry, namely, tools used to perform downhole surveys, surveying instruments and electronic sensors for drilling oil and gas wells and parts and fittings therefor; gas leak alarms; residual gas analyzers; downloadable computer databases for use in the field of oil and gas well drilling for collecting, storing, analyzing, exporting and the digital presentation of well site drilling information; database management computer software for the collection, storage, export and digital presentation of mudlogging and engineering data in the oil and gas industry; computer software and hardware for operating, monitoring, organizing, and analyzing oil and gas well site data and systems, and equipment in the field of oil and gas drilling and production; computer hardware and software equipment for automated control of drilling for use in oil and gas well construction; information system, comprising computer hardware, computer software and electrical control systems, used to monitor, display, relay and archive drilling information and to control the functions, processes, and operations of oil and gas drilling rigs; computer system comprised of hardware, software, and electronic sensors for tracking, compiling, reporting, and analyzing mud logging, drilling and well site information and data; computer software and hardware for reading, recording, and presenting survey data gathered in oil and gas drilling; computer software for directional steering of oil and gas well equipment; computer software for integrating, organizing, analyzing, reporting and presenting all wellsite log data and wireline electric logs, along with mudlogging and drilling parameter data in the field of oil and gas drilling; computer hardware and software for controlling and operating oil and

gas drilling rigs, computer hardware and software for oil and gas well drilling analysis, computer hardware and software for the collection of statistical production data for oil and gas field operations

Services

Class 35

(1) Procuring of business contracts in the field of oil and gas drilling and exploitation; data instrumentation services, namely, business data acquisition and analysis in the field of oil and gas drilling and exploitation to assist in the discovery, recovery and production of oil and gas; logistics management services for the oilfield industry and in the field of oil and gas well drilling; business management services, namely, project management in the field of oil and gas well drilling; oil and gas well planning, reporting and analytics, namely, aggregation of well drilling data for statistical analysis and reporting services for business purposes; oil and gas well planning data management, namely, aggregation of communications, scheduling, and status updates between and among various groups within the exploration and production departments of an oil and gas company

Class 37

(2) Consulting services in the field of offshore oil and gas facility construction; construction project management services in the field of construction of offshore oil and gas facilities; onshore and offshore oil and gas well drilling services; rental and contracting of onshore and offshore oil and gas drilling rigs and parts and fittings therefor; installation, construction, maintenance and repair of oil and gas well drilling rigs and parts and fittings therefor; providing information via the Internet about maintenance of oil and gas drilling rigs and parts and fittings therefor; construction and repair services, namely, erecting and operating modular platform drilling rigs for drilling and workover of oil and gas wells; installation, maintenance and repair of computer hardware systems and computer hardware for monitoring the operation and performance of drilling rigs for oil and gas wells

Class 38

(3) Providing access to an online searchable database featuring business data and information in the field of oil and gas, namely, completion and production information, well conditions and locations, downhole consumables, proppant consumption, fluid usage, and well services providers; providing access to nondownloadable online computer software for monitoring the operation and performance of drilling rigs for oil and gas wells and oil well logging and testing technical analysis of data from oil and gas drilling operations for scientific and research purposes

Class 40

(4) Technical consulting related to the installation and manufacturing of oil and gas drilling rigs and downhole survey and measurement equipment and parts and fittings therefor; technical consulting related to the manufacturing of oil and gas equipment, control systems, and machinery; assembly of oil and gas well drilling rigs, downhole survey and measurement equipment, and parts and fittings therefor for others; oil and gas completion services, namely, assembly of tubulars and equipment to enable safe and efficient production from an oil and gas well for others; manufacturing onshore and offshore drilling rigs, alternating current drives for the purpose of variable speed control, and control equipment, namely, drawworks, mud pumps, shale shakers, rad fans, top drives, catwalks, crown savers, winches, and circulation pumps to order and specification of others

Class 42

(5) Providing temporary use of on-line non-downloadable cloud computing software for oil and gas well planning; software as a service featuring software for oil and gas well planning; cloud computing web hosting services computer services, namely, cloud hosting provider services and the management of cloud computing systems and applications for others; software as a service (SAAS) services for hosting computer software applications of others in the oil and gas industry from a cloud server; platform as a service (PAAS) featuring computer software and computer hardware platforms for hosting computer software applications of others in the oil and gas industry; computer services, namely, computer aided imaging; onshore and offshore oil and gas well drilling services, namely, providing measurements and downhole telemetry while drilling; engineering services, namely, core sampling and analysis, logging of mud and cuttings, fluid sampling and analysis, coordination of downhole data, and development of analytical equipment, procedures and programs for others in the field of oil and gas well drilling; providing cloud based software namely, consulting in connection with cloud computing applications and networks used in connection with drilling rig equipment; engineering services in the field of oil and gas well drilling; oil well logging and testing; integration of computer software used to track oil and gas well drilling; electronic storage of oil and gas drilling records; onshore and offshore oil and gas well drilling services, namely oil and gas well treatment services; Oil and gas well drilling services, namely, providing measurements and downhole telemetry while drilling; oil and gas field exploration services; technical support services in the nature of troubleshooting computer software incorporated in drilling equipment used in the oil and gas industry; computer services, namely, consultation services and customization, updating, development, installation, repair, and maintenance of computer software for monitoring the operation and performance of drilling rigs for oil and gas wells; monitoring services, namely, monitoring the operation and performance of drilling rigs using software, hardware, instrumentation, and sensors; installation, maintenance and repair of computer software for monitoring the operation and performance of drilling rigs for oil and gas wells

Class 45

(6) Licensing of non-downloadable online computer software for monitoring the operation and performance of drilling rigs for oil and gas wells and oil well logging and testing technical analysis of data from oil and gas drilling operations for scientific and research purposes; licensing of on-line non-downloadable cloud computing software for use in oil and gas exploration, drilling and production operations

Class 09

(1) Downloadable computer software and mobile software applications for cloud computing provider services for general storage of data, database management, network functions virtualization, desktop virtualization, network conferencing, document collaboration, work collaboration among the users, remote access to computer operating programs and systems, remote operation of computer systems and software of third party users by technicians or support representatives, cloud computing web hosting services, uploading, posting, displaying, encrypting, sharing, and transmission of electronic data namely, digital images, photographs, movies, television programs and shows, music, and text messages, newsletters, brochures, security and protection of electronic data, providing access to a global computer network, access to a computer database containing electronically stored data, administration and management of computer applications and computer hardware, distributed computing, and for searching remotely for content on computers and computer networks, online project management, hosting online web facilities for conducting online conferences, meetings, demonstrations, presentations, and interactive discussions; website development software; computer programs for connecting computers to one another; computer programs that provide web-based access to web applications, chat room programs, Internet of Things (IoT) software, cloud software, analytics dashboards and internet-based software; computer programs for managing and monitoring existing networks, software,

computer servers, network servers, web servers and databases; computer software for cloud application monitoring; database management software

(2) Computer hardware

Services

Class 35

(1) Online marketplace services, namely, operating an online marketplace for buyers and sellers of goods and services; computerized on-line ordering services for cloud computing software; database management services; administrative processing of purchase orders; business management; computer services, namely, providing online business administration of accounts for others in the field of web hosting; computer database management services

Class 38

(2) Electronic data transmission services, namely, streaming of movies, films, television programs, news, sports, graphics, digital images, photographs via cloud-based computer networks; video-on-demand transmission services; telecommunications and information technology services, namely, transmission of movies, films, television programs, news, sports, graphics, digital images via personal computing devices and networks; providing access to hosted operating systems and computer applications through the Internet; providing virtual private network (VPN) services; providing access to remotely hosted computer software applications through the Internet; voice over internet protocol (VOIP) services

Class 41

(3) Education services, namely conducting seminars, classes, workshops, online courses, and conferences in the fields of computer technology, cloud computing provider services for general storage of data, cloud computing web hosting services, software as a service (SaaS) featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services, platform as a service (PaaS) featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services, mobilebackend as a service (MBaaS) featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services, artificial intelligence software and hardware, software development, computer programming of video games, computerized database management, software for use in electronic devices using the Internet of Things [IoT], and recording, transmission, processing and reproduction of movies, films, television programs, news, sports, graphics, digital images using mobile computers, smartphones, and tablets

Class 42

(4) Consulting services in the field of software-as-a-service (SaaS) cloud computing technology; cloud computing and data center services for data backup and disaster recovery purposes, namely, cloud computing provider services for general storage and archival of data in the field of managed cloud infrastructure services, database management, managing data for virtualization and enterprise cloud computing, document collaboration, workplace collaboration, remote access to computer operating programs and systems, remote operation of computer systems and software of third party users by technicians or support representatives, cloud computing web hosting services, uploading, posting, displaying, encrypting, sharing, and transmission of electronic data namely, digital images, photographs, audio and video clips, and text files, security and protection of electronic data, providing access to a global computer network, access to a computer database containing electronically stored data, administration and management of computer applications and computer hardware, distributed computing, and for database design and development, creating web applications, cloud computing provider services for general storage

and archival of data; software as a service (SaaS) services featuring software for use in connection with searching, reviewing, purchasing, and downloading software applications

(5) Computer services, namely, cloud hosting provider services; computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud resources based on assigned credentials; computer services, namely, integration of private and public cloud computing environments; consulting services in the field of cloud computing technology, infrastructure-as-a-service (IaaS) cloud computing technology, platform-as-a-service (PaaS), and mobile-backend-as-a-service (MbaaS) cloud computing technology; design and development of virtual computer systems and virtual computer environments; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing application systems; application service provider (ASP), namely, hosting computer software applications of others; design and development of software for use in creating, managing, and deploying cloud computing infrastructure services, database design and development, creating web applications, cloud computing provider services for general storage and archival of data; design and development of computer software for conducting online conferences, meetings, demonstrations, presentations, and interactive discussions; providing information technology services over the cloud, namely, infrastructure as a service (IaaS) services featuring computer hardware and software platforms for creating, managing and deploying cloud computing infrastructure services, platform as a service (PaaS) services featuring computer software platforms for managing hybrid cloud, public cloud, private cloud and community cloud-based services, software as a service (SaaS) services featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services and mobile backend-as-a-service (MbaaS) services in the nature of providing web-based use of virtualized computer hardware, computer networks, and electronic storage of computer data; computer services, namely, cloud computing enabling development and creation of computer programmes for data processing; providing non-downloadable computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, collection, integration, curation, evaluation and analysis of big data by means of Natural Language Processing (NLP), computational linguistics, information retrieval, data analytics, and machine learning, image content analysis, speech recognition, processing raw data, network functions virtualization, desktop virtualization, enterprise computing, cluster computing; design of developer tools for providing access to non-downloadable software used for creating, storing, synchronizing, transmitting, sharing and encrypting electronic data namely, digital images, photographs, audio and video clips, and text files namely, text messages, electronic documents and electronic document excerpts via the internet and cloud computing networks; computer program and computer hardware testing services, namely, software, computer and server testing and diagnosis; providing use of non-downloadable computer software for security, creating and managing policies and access controls for cloud governance, cloud computing provider services for access to and general storage of data to mobile devices, namely mobile computers, smartphones, and tablets; providing computer and information technology services, namely, technical and support services for computer software for security, management, creating and managing policies and access controls for cloud governance, cloud computing provider services for access to and general storage of data to mobile devices, namely mobile computers, smartphones, and tablets; designing websites featuring computer software that allows users to search and access business information about software; design and development in the field of network security management, namely enforcing, restricting and controlling access privileges to users of computing resources for cloud, mobile and network resources; consulting services related to the use of the software for managing electronic data in the field of Internet of Things (IoT) computer technology; programming of operation software for the access and use of cloud computing networks; computer network

security services; providing technical support concerning the use of electronic devices for communications, namely, telephones, handsets, headsets, speakers, microphones, earphones, webcams and video cameras; consulting services in the fields of information technology and telecommunications, namely cloud computing, mobile computing, digital security technologies, wireless network infrastructure, wearable computers, computer networking technologies, cloud-based network services, enterprise cloud storage; providing information in the fields of computer technology, cloud computing provider services for general storage of data, cloud computing web hosting services, software as a service (SaaS) featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services, platform as a service (PaaS) featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services, mobile-backend as a service (MBaaS) featuring software for managing hybrid cloud, public cloud, private cloud and community cloud-based services, artificial intelligence software and hardware, software development, computer programming of video games, computerized database management, software for use in electronic devices using the Internet of Things [IoT], and recording, transmission, processing and reproduction of movies, films, television programs, news, sports, graphics, digital images using mobile computers, smartphones, and tablets

Class 09

(2) scientific apparatus and instruments for measuring electric, electronic, optical and acoustic signals, namely, pressure sensors, force sensors, strain sensors, torque sensors, acceleration sensors, vibration sensors, acoustic emission sensors, temperature sensors, optical sensors, cameras, photodiodes, CCD sensors, piezoelectric sensors, piezoresistive sensors, optical sensors, strain gauges, velocity sensors, distance sensors, voltmeters, ampere meters, electrometers, ohmmeters; scientific apparatus and instruments for recording, transmitting, transforming electric, electronic, optical and acoustic signals, namely, data loggers, analog-to-digital converters, digital-to-analog converters, charge amplifiers, voltage amplifiers, current amplifiers, measuring signal amplifiers, charge converters, voltage converters, current converters, measuring signal converters, electrical signal attenuators, electrical power supplies, couplers for the supply and decoupling of integrated electronics piezo-electric sensors, signal conditioners, charge calibrators, voltage calibrators, current calibrators, calibration capacitors, signal transmission cables, optical cables, electrical cables, optical fibers, digital storage media, namely, hard drives, digital memory cards, computer servers; scientific apparatus and instruments, namely, computers, software and sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals in industrial work process control systems used in the food and beverage fields, oil and gas fields, pharmaceutical field, personal care and cosmetics fields, plastics manufacturing and metals manufacturing fields; scientific apparatus and instruments, namely, computers, software, and sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring athletic performance data and sensor signals obtained from non-medical body rehabilitation analysis systems in the field of sports biomechanics; scientific apparatus and instruments, namely, computers, software, and sensors for monitoring, documenting, evaluating and reproducing

electric, electronic, optical and acoustic signals for measuring athletic performance data and sensor signals from non-medical sport training performance analysis systems in the field of sports biomechanics; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from vehicle crash testing; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from vehicle performance and diagnostic testing; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from weigh in motion systems used in the transport and logistics field; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from rail traffic performance and diagnostic testing; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from road traffic performance and diagnostic testing; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from industrial fastening operations, namely, the monitoring of bolt and screw assemblies, the quality of bolted joints, torque tool testing and calibration and the monitoring of threaded fastener tightening processes; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals, namely, digital signal processors, digital signal monitors, analog signal monitors, voltage monitors, current monitors, comparing elements for digital quantities, digital storage media, hard drives, digital memory cards, digital signal processors, digital data processors, computers, computer servers, electrical signal generators, waveform generators, electric power supplies, all the foregoing for providing, evaluating and saving data from research and development testing solutions, industrial process systems and traffic solutions; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from torque and angle of screwing operations performed with industrial fastening operations, namely, the monitoring of bolt and screw assemblies, the quality of bolted joints, torque tool testing and calibration and the monitoring of threaded fastener tightening processes; scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from the force and momentum of vehicle wheels on the road and from industrial process control systems for the purposes of quality control from forces and movements of vehicle wheels on the road and on environmental work testing benches; data processing apparatus and data processing equipment for the aforementioned scientific apparatus and instruments, namely, digital data processors, computers, computer servers, decision circuits, comparing circuits, integrated circuits, circuits for arithmetic processing of data; parts and fittings, electric and electronic components for scientific apparatus and instruments, namely, computers, software, sensors for monitoring, documenting, evaluating and reproducing electric, electronic, optical and acoustic signals for measuring data and sensor signals from non-medical body rehabilitation digital and analog values, from non-medical sport training digital and analog values, from vehicle crash testing, from vehicle performance and diagnostic testing, from weigh in motion systems used in the transport and logistics field, from rail traffic performance and diagnostic testing, from road traffic performance and diagnostic testing, from industrial fastening operations, namely, the monitoring of bolt and screw assemblies, the

quality of bolted joints, torque tool testing and calibration and the monitoring of threaded fastener tightening processes; parts and fittings, electric and electronic components for scientific apparatus and instruments for measuring of electric, electronic optical and acoustic signals, namely, pressure sensors, force sensors, strain sensors, torque sensors, acceleration sensors, vibration sensors, acoustic emission sensors, temperature sensors, optical sensors, cameras, photodiodes, CCD sensors, piezoelectric sensors, piezoresistive sensors, optical sensors, strain gauges, velocity sensors, distance sensors, voltmeters, ampere meters, electrometers, ohmmeters; parts and fittings, electric and electronic components for scientific apparatus and instruments for recording, transmitting, transforming of electric, electronic, optical and acoustic signals, namely, data loggers, analog-to-digital converters, digital-to-analog converters, charge amplifiers, voltage amplifiers, current amplifiers, measuring signal amplifiers, charge converters, voltage converters, current converters, measuring signal converters, electrical signal attenuators, electrical power supplies, couplers for the supply and decoupling of integrated electronics piezo-electric sensors, signal conditioners, charge calibrators, voltage calibrators, calibration capacitors, signal transmission cables, optical cables, electrical cables, optical fibers, digital storage media, namely, hard drives, digital memory cards, computer servers; monitors, namely, LCD monitors, tablet monitors, computer display monitors, computer monitors; pressure measuring apparatus, namely, piezoelectric pressure sensors and piezoresistive pressure sensors; force measuring apparatus, namely, piezoelectric force sensors and piezoresistive force sensors; torque measuring apparatus, namely, piezoelectric torque sensors and strain gauge torque sensors; acceleration measuring apparatus, namely, piezoelectric accelerometer sensors, piezoresistive accelerometer sensors and capacitive accelerometer sensors; scientific measuring and control instruments, athlete body rehabilitation and sport training performance analysis apparatus, pressure measuring apparatus, namely, charge calibrators, force calibrators, piezoelectric pressure sensors, piezoresistive pressure transmitters, cylinder pressure sensors for combustion engines, low pressure and temperature measuring chains, melt pressure measuring chains, cylinder pressure measuring instruments for gas and diesel engines, quartz measuring tongue for measuring cavity pressure in injection molding of plastics and die casting of metals, industrial work process control systems, force presses, peak-pressure measuring instruments for measuring the cylinder pressure of internal combustion engines, torque tool measuring and testing apparatus for monitoring bolt and screw assemblies, the quality of bolted joints and threaded fastener tightening processes, acceleration measuring apparatus, weigh-in-motion sensors and crash test dummies, weigh in motion systems used in the transport and logistics field, in rail traffic performance and diagnostic testing, in road traffic performance and diagnostic testing, and in industrial fastening operations; data processing apparatus and data processing equipment, namely, digital data processors, computers, computer servers for scientific measuring and control apparatus, scientific measuring and control instruments, analysis apparatus, pressure measuring apparatus, force measuring apparatus, torque measuring apparatus, acceleration measuring apparatus, weigh-in motion sensors and crash test dummies, parts and fittings, namely caps, coupling elements, electric and electronic components namely, signal transmission cables adapters, batteries, accelerometers, measurement modules, for the aforementioned scientific measuring and control apparatus, scientific measuring and control instruments, analysis apparatus, pressure measuring apparatus, force measuring apparatus, acceleration measuring apparatus, namely, accelerometers, weigh-in motion sensors and crash test dummies; digital signal monitors, analog signal monitors, voltage monitors, current monitors, computers, computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals

Services

Class 42

scientific and technology services, namely research and development services and calibration services for measuring, recording, transmitting, transforming, monitoring, documenting, valuating and reproduction of electric, electronic, optical and acoustic signals; scientific and technology services, namely, the research, development and calibration services that measure, record, transmit, transform, monitor, document, evaluate and reproduce performance and measurement data and operational diagnostics in the fields of industrial production processes and injection molding processes to enhance product quality and increased cost efficiency, and in the fields of road traffic, rail traffic, air traffic, vehicle crash tests and crash simulation tests to increase vehicle mobility and vehicle safety, reduce vehicle emissions, increase road safety and reduce damage to road infrastructures; scientific and technology services, namely the research, development and calibration services that measure, record, transmit, transform, monitor, document, evaluate and reproduce performance and measurement data in the field of sports performance and body rehabilitation, not for medical purposes; scientific and technology services, namely the research, development and calibration services that monitor the performance of machine tools; scientific and technology services, namely the research, development and calibration services that measure, record, transmit, transform, monitor, document, evaluate and reproduce inspection data in the field of screw fastening assemblies; scientific and technology services, namely, the research, development and calibration services that measure, record, transmit, transform, monitor, document, evaluate and reproduce torque and angle data in the field of screw fastening assemblies; scientific and technology services, namely the research, development and calibration services that measure, record, transmit, transform, monitor, document, evaluate and reproduce the forces and movements of vehicle wheels on the road and on test benches; scientific and technology services, namely, the research, development and calibration services for pressure measuring apparatus, force measuring apparatus, torque measuring apparatus, acceleration measuring apparatus, weigh-in-motion sensors and crash test dummies, namely, pressure sensors, force sensors, strain sensors, torque sensors, acceleration sensors, vibration sensors, acoustic emission sensors, temperature sensors, optical sensors, cameras, photodiodes, CCD sensors, piezoelectric sensors, piezoresistive sensors, optical sensors, strain gauges, velocity sensors, distance sensors, voltmeters, ampere meters, electrometers, ohmmeters, data loggers, analog-to-digital converters, digital-to-analog converters, charge amplifiers, voltage amplifiers, current amplifiers, measuring signal amplifiers, charge converters, voltage converters, current converters, measuring signal converters, electrical signal attenuators, electrical power supplies, couplers for the supply and decoupling of integrated electronics piezo-electric sensors, signal conditioners, charge calibrators, voltage calibrators, current calibrators, calibration capacitors, cables, optical cables, electrical cables, optical fibers, digital storage media, hard drives, digital memory cards, computer servers; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of data from industrial work processes, industrial production processes, injection molding processes, road traffic, rail traffic, air traffic, crash tests and crash simulation tests; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of data from sports and body rehabilitation, not for medical purposes; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical

and acoustic signals for monitoring machine tools; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of screwing operations performed with screwing devices and of screwing connections tightened with screwing devices; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of torque and angle of screwing operations performed with screwing devices and of screwing connections tightened with screwing devices; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of forces and moments at vehicle wheels on the road and on test benches; design and development of computer hardware and computer software for measuring, recording, transmitting, transforming, monitoring, documenting, evaluating and reproduction of electric, electronic, optical and acoustic signals for pressure measuring apparatus, force measuring apparatus, torque measuring apparatus, acceleration measuring apparatus, weigh-in-motion sensors and crash test dummies

Colour Claim

Colour is claimed as a feature of the trademark. The letter "D" is orange (PANTONE* P 27-7 C). The letter "C" is pink (PANTONE* P 80-12 C). The words "délices complices" are blue (PANTONE* P 121-5 C). The horizontal line separating the letters "DC" and the words "délices complices" is green (PANTONE* P 160-8 C). The background of the circle around the letters "DC", the horizontal line and the words "délices complices" is black. * PANTONE is a registered trademark.

Goods

Class 09

(1) Pre-recorded compact discs containing children's entertainment, namely computer and video games and movies; blank magnetic disks; computer software containing children's programs, namely computer and video games and movies; Pre-recorded DVDs, namely, motion picture films featuring children's entertainment; electronic databases in the field of children's entertainment recorded on computer media; blank optical discs; downloadable electronic publications in the field of children's entertainment; downloadable computer software in the field of children's entertainment, namely software for creating video and computer games; Computer game programs; Downloadable graphics for mobile phones; Phonograph records; blank audio-video compact discs; downloadable software using artificial intelligence for enabling machine learning for facial and speech recognition in children's education; interactive electronic books; Animated cartoons; Cinematographic film, exposed; Films, exposed; children's eyeglasses; sunglasses; Kids sports helmets;

Class 16

(2) Paper products, namely, storybooks, coloring books, greetings cards, stationery, namely, writing paper, stationery-type portfolios, notebooks and binders, erasers, sharpeners, pencils, pencil sets, namely, pens, pencils and pencil cases, pencil boxes, ruler pencil pouches, stickers;

Class 18

(3) Book bags; backpacks; school bags; school satchels; umbrellas and parasols;

Class 25

(4) Clothing, namely kids wear, layettes; boots; hats; hosiery, pantyhose; gloves; neckties; scarves; girdles; apparel, namely, T-shirts and shoes; clothing, namely footwear, namely sport shoes, sneakers, slippers, sandals, rubber boots; underclothing; socks; pyjamas; scarfs; dresses;

Class 28

(5) Gaming machines; toys, namely playing balls; bite sensors (fishing tackle); toy vehicles; ornaments for Christmas trees, except illumination articles and confectionery; chess; playing cards; body-building apparatus, namely resistance machines for exercise; parlor games; games utensil, namely electronic targets for games and sports; roller skates; plastic toy racing car track; Intelligent toy, namely electronic action toys, electronic educational game machines designed for children; scale model vehicles; magnetic dart; puzzle; playing dough; surprise eggs; toy scooters; building blocks; toys, namely, dolls, stuffed toys, board games and card games;

Services**Class 35**

(1) The bringing together, for the benefit of others, of a variety of goods excluding the transport thereof, enabling customers to conveniently view and purchase those goods, namely, on-line and retail sale of Compact discs (read-only memory, disks, magnetic, pre-recorded DVDs, namely, motion picture films featuring children's entertainment, data media (Optical), discs (Optical), Compact discs (audio-video), films, exposed, children's eyeglasses, sunglasses, clothing, kids wear, boots, footwear, hats, kids helmet, hosiery, pantyhose, gloves [clothing], neckties, scarves, girdles, game machines, toys, playing balls, toy vehicles, chess, Playing cards, parlor games, games utensil, roller skates, plastic track, intelligent toy, Scale model vehicles, Magnetic dart, Puzzle, Playing dough, Surprise eggs, Scooter, Building blocks, paper products, namely, storybooks, coloring books, greetings cards, stationery, namely, writing paper, stationery-type portfolios, notebooks and binders, book bags, erasers, sharpeners, pencils, pencil sets, namely, pens, pencils and pencil cases, pencil boxes, ruler pencil pouches, stickers, backpacks, apparel, namely, T-shirts and shoes, toys, namely, dolls, stuffed toys, board games and card games, School bags, school satchels, bed covers, bed linen, towels of textile, bed blankets, clothing, namely footwear, namely sport shoes, sneakers, slippers, sandals, rubber boots, underclothing, socks, pajamas, scarfs, dresses;

Class 41

(2) Teaching and educational services, namely providing education day camp services and providing online courses in the field of music and art; organization of math and spelling competitions; organization of live musical concerts and theatre shows; cinema presentations, namely providing cinema facilities; publication of books; on-line publication of electronic books and journals; publishing of online electronic publications, not downloadable; film production, other than advertising films; production of radio and television programmes; production of puppet and magic shows; entertainment in the form of television shows; providing amusement arcade services; online video gaming services provided on-line from a computer network; Script writing services; distribution of videotapes; distribution of cinematographic films; Amusement parks; games equipment rental; entertainer services, namely entertainment in the form of circus performances and live comedy shows; dubbing services.

Goods

Class 01

(1) Fertilizer

Class 07

(2) Equipment for making fertilizer and fertilizer products, namely chemical additives for fertilizers; waste, sludge and digestate separators ; equipment for producing, storing and processing biogas; ammonia concentration, reduction and recovery equipment; thermal dryers for sewage, sludge, organic slurries and digestate solids volume reduction; pyrolyzers for chemical processes in wastewater treatment; waste feeders and conveyors for sorting recyclable material and for use in waste water treatment installations; waste, sludge and digestate separators; solid waste and food waste processing equipment to feed and convey waste, sort and separate recyclables and recover materials for thermal processing and to recover organics; equipment to remove physical contaminants to produce suitable feedstock for anaerobic digestion; equipment to condition fibres in waste to produce suitable feedstock for anaerobic digestion; substrate mixers, namely, submersible mixers for mixing slurries in anaerobic digesters; anaerobic digester service devices for servicing anaerobic digesters and components thereof; machines and equipment for automatically opening bags containing waste; industrial scrubbers for removing particulate matter from the air during industrial processing, namely, venturi scrubbers, impingement scrubbers, dynamic scrubbers; anaerobic digesters, namely, apparatus for anaerobic decomposition of waste; membrane filtration equipment, namely, membrane barriers for solids and liquids separation and liquid and gas separation

Class 09

(3) Computer hardware and software to control, monitor and operate municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste

sludge from industrial processes and waste sludge from municipal water, industrial water and wastewater treatment equipment; computer hardware and software to control, monitor and operate anaerobic digesters for decomposing waste; equipment software to control, monitor, operate municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment equipment; equipment software to control, monitor and operate anaerobic digesters for decomposing waste

Class 11

(4) Municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment equipment; apparatus for treating municipal water, industrial water, wastewater, agricultural and food processing waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment plants; bioreactors for use in the treatment of water, wastewater, and waste; equipment for handling and processing sludge from wastewater treatment plants; equipment hardware to control, monitor, operate municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment equipment; equipment hardware to control, monitor and operate anaerobic digesters for decomposing waste; evaporators to reduce volume for filtrate and reverse osmosis concentrates; reverse osmosis filters; biomethane upgrading systems comprised of gas purification machines; biogas conditioning equipment, namely, gas-permeable membrane separators for the cleaning and purification of liquid, gas and air used for renewable natural gas production

Services

Class 37

(1) Construction of water, wastewater and waste treatment facilities with municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment systems, namely, anaerobic digestion systems, water filtration systems, biogas production, biogas storing and processing systems and fertilizer production systems; construction of equipment and facilities in the field of municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment, anaerobic digestion systems, water filtration, biogas production, biogas storing and processing and fertilizer production; construction of biomethane upgrading systems comprised of gas purification machines; construction of biogas conditioning equipment, namely, gas-permeable membrane separators for the cleaning and purification of liquid, gas and air used for renewable natural gas production, industrial scrubbers for removing particulate matter from the air during industrial processing, namely, venturi scrubbers, impingement scrubbers, dynamic scrubbers; construction of systems in the field of processing solid waste and food waste to recover materials for thermal processing and organics and recyclables; construction of systems to produce suitable feedstock for anaerobic digestion

Class 40

(2) Municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment services; operation of equipment and treatment plant facilities in the field of municipal water, industrial water, wastewater, agricultural and food

processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater, namely, anaerobic digestion systems, water filtration, biogas production, biogas storage and processing, fertilizer production for third parties; operation of equipment and treatment plant facilities to upgrade biomethane; operation of equipment and facilities to condition biogas; operation of equipment and waste treatment plant facilities, namely, storage and processing of solid waste and food waste to recover materials for thermal processing, organics and recyclables; operation of equipment and wastewater treatment plant facilities for producing suitable feedstock for anaerobic digestion

Class 42

(3) Systems design engineering services for design of municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment systems; systems design engineering services for design of equipment and facilities in the field of municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water, industrial water and wastewater treatment, anaerobic digestion systems, water filtration, bio-gas production, biogas storing and processing, fertilizer production; systems design engineering services in the field of municipal water, industrial water, wastewater, agricultural and food processing waste, solid waste and food waste, waste sludge from industrial processes, and waste sludge from municipal water and wastewater treatment, anaerobic digestion systems, water filtration, biogas production, biogas storing and processing, fertilizer production; systems design engineering services for design of biomethane upgrading systems comprised of gas purification machines; systems design engineering services for design of biogas conditioning equipment, namely, gas-permeable membrane separators for the cleaning and purification of liquid, gas and air used in the chemical and bioethanol industry, industrial scrubbers for removing particulate matter from the air during industrial processing, namely, venturi scrubbers, impingement scrubbers, dynamic scrubbers; design of systems to process solid waste and food waste to recover materials for thermal processing, organics and recyclables; design of systems to produce suitable feedstock for anaerobic digestion

Class 09

Application software for running application programs for use with smartphones, mobile devices, namely mobile computers, laptops and tablets, and computers to allow electronic sharing, sending, receiving, uploading, downloading and streaming of messages, photographs, text, video clips, audio clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages, via a global computer network; downloadable computer software applications for use with smartphones, mobile devices, namely mobile computers, laptops and tablets, and computers to allow modification and electronic sharing, sending, receiving, uploading, downloading and streaming of messages, photographs, text, video clips, audio clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages, via a global computer network; computer software for the collection, editing, organizing, modifying, transmission, storage and sharing of data and information, namely, downloadable video sharing software; downloadable computer software for viewing and interacting with a feed of video clips, audio clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages, and associated text; downloadable computer software for searching and locating video clips, audio clips, movies, films, television shows, music, music videos, streaming of audio and video at live events in real-time, those who publish any of the foregoing, and for subscribing for the provision of further content by those who publish any of the foregoing; computer software for tagging audio-visual and video content with data indicating date, location, people and subject matter; computer search engine software; downloadable software in the nature of a mobile application for internet-based social networking and group messaging; computer software for creating, managing, and interacting with an online community; computer software for creating, organizing, storing, editing and posting content for social media, namely messages, text, video clips, audio clips, images, photographs, music and music videos, for instant messaging in virtual communities, and transmission of photographs, video clips, audio clips, movies, films, television shows, live video, live audio, live events, namely, live musical shows, live speaker events, and live performing artist shows, music, music videos, text, messages, comments, advertisements and media advertising communications, namely online

banners, billboards, television advertisements or in print media ads, namely newspapers; computer software for creating, editing, uploading, downloading, accessing, viewing, positing, displaying, tagging, blogging about, streaming, linking, annotating, indicating sentiment about, commenting on, embedding in websites, transmitting, sharing, searching, and providing access to electronic media, namely messages, photographs, text video clips, audio clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages on an online social networking portal; software for providing electronic mail and instant messaging services; computer software for use in generating advertisements on web sites for others; computer software in the nature of application programming interfaces (APIs) which facilitate online services for social networking, developing software applications, and purchasing and disseminating advertising

Services

Class 38

(1) Providing access to a global computer network for communication among computers, laptops, mobile phones, smart phones, tablet computers, and personal digital assistants; SMS message sending services via electronic communications networks; providing access to a wireless computer network for communications among computers, laptops, mobile phones, smart phones, tablet computers, and personal digital assistants; providing virtual private network (VPN) communications services; providing access to a virtual private network (VPN) for communication among computers, laptops, mobile phones, smart phones, tablet computers, and personal digital assistants; electronic delivery of images and photographs via a global computer network; data transmission and telecommunications services, namely providing access to an online portal for sharing, sending, receiving, uploading, downloading and streaming of messages, photographs, text, audio and video clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages, advertisements and media advertisement for others; Electronic transmission of messages, photographs, text, audio and video clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages via a peer-to-peer network; peer-to-peer (P2P) sharing services, namely electronic transmission of digital videos, photographs, video clips, audio clips, movies, films, television shows, and live streaming of user-generated audio and video messages, music, music videos, messages and text among internet users; providing access to a video sharing portal; streaming of music videos on the Internet; providing access to non-downloadable electronic publications in the nature of books, magazines, periodicals, articles, and short stories of others via mobile devices, namely mobile computers, laptops and tablets; providing access to users who establish user accounts to an online social networking platform which enables the sharing of personal biographical information, messages, photographs, text, video clips, audio clips, movies, films, television shows, music, music videos, and live streaming of user-generated audio and video messages, via the Internet;

Class 41

(2) Entertainment services in the nature of non-downloadable music videos transmitted via the Internet; online publication of electronic books, short stories, articles, magazines, and periodicals of others via mobile devices, namely mobile computers, laptops and tablets; publication of printed matter, namely books, magazines, journals, newspapers, newsletters, tutorials, maps, and photographs;

Class 42

(3) Design and development of computer software; software as a service (SaaS) featuring software which enables sharing of messages, photographs, text, audio and video clips, movies,

Goods

Class 07

(1) Goods and articles of plastic in the nature of machine parts, namely, hoods, sieves, bearings, cylinders, linear shaft supports and spacers, threaded engine rods and nuts therefor, composite fasteners in the nature of threaded nuts for use in generators, refrigeration and air conditioning systems, O-rings being machine parts, pressure rings for pistons, slot wedges for electric motors, insulating clamps used for holding piece parts on machine tool tables, bus bar supports, cable crane supports, lead-through insulating boards for maintaining temperature in machine piping systems sold as integral components of finished machines, couplings for machines, shaft couplings, and power transmissions and gearing for machines, all for use in conjunction with electric generators and transformers, mineworking machines, laundry machines, washing machines, dishwashers, road sweeping machines, welding machines, packaging machines, filling machines, sifters, selecting and sorting machines, paper machines, construction equipment, presses, textile machines, dairy machines, brewing machines, butchers' machines, printing machines, foundry machines, electromechanical machines for the chemical industry, loading and unloading machines for onshore/offshore technologies, electrostatic powder coating installations and galvanization plants, and large agricultural implements and conveyors; Plastic parts of winding machines, namely, O-rings, cylinders and bearings; connecting rods and threaded rods of plastic for machines; machine couplings of plastic; parts of machines, motors and engines other than for land vehicles, namely, slot wedges, mounting hangers adapted for exhaust systems for internal combustion engines, and bearing inserts of plastic.

Class 09

(2) Goods and articles of plastic that are parts of high-voltage transformers, namely, lead supports for furnace transformers; parts of plastic for switching installations, measuring apparatus, high-frequency installations, traffic-light apparatus and electrical ducts, namely, plastic housings for switching apparatus; plastic parts for electric transformers, namely, thermistors; Parts of plastic for traffic engineering, cable ducts.

Class 12

(3) Slot wedges for automobile motors; plastic engine mounts, shaft couplings, and transmissions all for land vehicles.

Class 17

(4) Films, sheets and rods of plastics in extruded form for use in manufacture; Packing materials; stopping and insulating materials, not cementitious based; Semi-worked plastic substances; Profiles of plastic; Solder masks; Rods and pipes of plastic; o-rings; Connecting elements, namely, threaded rods and nuts of plastic; Fastening elements of plastic, namely, hexagon socket head cap screws and hexagon head bolts; Slot wedges, insulating frames for doors, groove base and head inserts of plastic for dishwashers, road sweeping machines, welding machines, packaging machines.

Colour Claim

Colour is claimed as a feature of the trademark. The logo consists of a circle made up of regular dotted lines in Pantone* dark blue 7546 CP (* Pantone is a registered trademark). Inside the dotted circle is a solid circle in Pantone* dark blue 7546 CP (* Pantone is a registered trademark). The topmost part of this circle features the word "NATURAL" written in white and curved along the circle; the bottommost part features the word "COSMETICS", which is also white and curved along the circle. Both words are capitalized. Below the word "NATURAL" are two lines separated by a stylized double-leaf design; all these elements are white. Underneath this is the word "Loulou" in white, with the first letter capitalized and the rest in lower case. Below that are the words "BATH & BODY" written in upper case white letters. A white line appears right below.

Goods

Goods

Class 09

(1) Audio visual remote control systems comprising slide projectors, microprocessor control units, and wireless remote control transmitters, receivers, and interface modules; industrial electronic controllers, comprising computers and electronic servo motor control units, for operation and control of electrical control panels, audiovisual equipment, lighting, shade systems, security systems, and heating, ventilating, and air conditioning equipment use with electrical and scientific apparatus and environmental control apparatus; integrated industrial systems for the control and automation of electronic, audio, video, lighting, security, and environmental equipment, comprising various combinations of integrated electric control panels, electric control panel interfaces, flip top electric control panels, touch panels, touch panel accessories, namely, PC pen tablets, power supplies, audio, video and electric control panel interface cables, communications receivers and transceivers for wireless controls, battery chargers and rechargeable battery packs for wireless controls, table top and wall-mounted electronic docking stations for modules and panels, engravable control buttons for the foregoing electric control panels and touch panels, decorative faceplates for the foregoing electric control panels and touch panels, and water-resistant covers for the foregoing electric control panels and touch panels; keypads for use with electric control panels and touch panels, keypad accessories for electric control panels and touch panels, namely, mounting brackets, engravable control buttons, decorative faceplates, and water-resistant covers

specifically adapted for the panels; button panels, namely, electric control panels; processor control units, namely, electronic controllers to monitor and control the functioning of other electronic devices, namely audiovisual equipment, lighting, shade system, security systems, heating ventilating, and air conditioning equipment, and household appliances; multimedia distribution equipment and accessories, namely, wireless and network signal routers and amplifiers, audio, video and electric control panel interface modules and electric control panels, audio, video and electric control panel interface cables, signal power wire, signal processors, and signal converters; wireless remote control electronic signal transmitters and wired and wireless signal receivers for use with audiovisual equipment, lighting, shading systems, security systems, heating, ventilating, and air conditioning equipment, and household appliances; wired and wireless receivers; electric switch wall plates, electric control button panel wall plates, and electrical outlet wall plates; switch boxes; dimmers in the nature of electric light dimmers; audio, video, data and control electrical wires, computer data cables; automation control cabinets specifically adapted for lighting control equipment, and mounting plates, amplifiers, camera controllers, namely, electronic controls for pan/tilts and electronic controllers, all of the foregoing specifically adapted for foregoing automation control cabinets; intercoms, window shade and window drape electronic controllers, radio signal tuners, television tuners, and digital surround sound equipment, namely, audio signal processors, amplifiers, and audio receivers; electrical networking systems for use with audiovisual equipment, lighting, shade systems, security systems, and heating, ventilating, and air conditioning equipment, namely, various combinations of computer mainframe, electronic servo motor controllers, wired and wireless transmitters, wired and wireless receivers, electric control panel interface modules and microprocessor power and signal control units; computer software for the design, integration, installation, and management of audio and video equipment, lighting systems, security systems, and heating, ventilation, and air conditioning systems; computer software for designing touch panel and web site interfaces; multimedia interactive electric controls and remote controls for use with personal and commercial security alarms, sound mixers and audio speakers, video monitors, personal computer non-game software applications, lighting, climate control units, computer screens, touch screens, and video screens and intercom systems; automated window shade power controls, automated lighting controls, window shade systems, comprised of electromechanical power controls, electric control panels and computer hardware and computer software for adjusting window coverings; computerized window shading management and control apparatuses for electronic adjustment of window shades; building management systems for controlling light comprised primarily of computer hardware and software for remotely controlling lighting devices within a building; electronic window shading control apparatuses for electronic two way communication with building subsystems, building management systems, and lighting control systems; electronic communication devices for controlling window coverings and motors in the nature of wired computer networking hardware and wireless computer networking hardware; software applications for mobile devices for the remote management and control of audio, video, environmental, data, and security devices, namely, audiovisual equipment, lighting, shade systems, security systems, and heating, ventilating, and air conditioning equipment; near field communication (NFC) technology enabled devices and systems, namely, active tag readers, passive tags, smart phones, touch screens, and computers for transmitting and receiving digital data which trigger personal settings for lighting, temperature, window shades, entertainment systems, audio/video systems, security systems, or any other devices connected to the control system; computer hardware and computer software for configuring and controlling digital data transmission and digital data reception by near field communication (NFC) technology enabled devices and systems which allows for triggering personal settings for lighting, temperature, window shades, entertainment systems, audio/video systems, security systems, or any other devices connected to the control system; computer

software for dynamic configuration of building control systems, building automation systems, and interfaces for building systems, namely, digital or analog multimedia presentation systems, conferencing systems, collaboration systems, lighting systems, window shading systems, HVAC systems, energy management systems, voice/data systems, and scheduling systems; hardware, namely, wired and wireless transceivers, computer network bridges, and control microprocessors, and software for configuring, controlling, and automating systems in a building or home, namely, lighting, window shades, locks, HVAC, audio/video, computers, energy, voice/data, appliances, water, and security; electronic docking stations for electronic devices, namely laptop computers, tablet computers, mobile phones, portable music devices, touch screens, and keypads, and computer network graphical user interface devices; electronic docking stations for electronic devices, namely laptop computers, tablet computers, mobile phones, portable music devices, touch screens, and keypads, that include protective covers, auxiliary controls, processing components, and communication components for the electronic devices connected thereto; electrical wall switches, wall-mounted keypads, wall-mounted touchpads, and wall-mounted touch screens; covers specifically adapted for electrical devices, namely, thermostats, smoke detectors, carbon monoxide detectors, security alarm system control boxes, and intercoms; wireless indoor and outdoor speakers; indoor and outdoor audio speakers; commercial loudspeakers; in-wall audio speakers; bass speakers; audio electronics components, namely, surround sound systems; wireless electronic locking systems consisting of wireless electronic door locks; photoelectric sensors, daylight sensors, occupancy sensors; network audio/video encoders and decoders; computer hardware and software for configuration, control, and management of network audio /video encoders and decoders; audio digital signal processors; audio amplifiers; computer software for configuring and controlling audio digital signal processors and audio amplifiers; multifunction electronic devices for use in capturing and streaming images, video, and data from whiteboards; audio-visual equipment, namely, video cameras, microphones, and video displays; audio-visual devices for measuring, detecting, capturing, streaming and monitoring, namely, devices allowing optical image-capture and streaming from computer whiteboards; computer whiteboards; computer software for management of images, video, and data streamed and captured from computer whiteboards, all of the foregoing for use in the image, video, and data streaming and capture from whiteboards and management of those images, video, and data; computer hardware and software for voice and video conferencing and collaboration; computer hardware and software for telecommunications, namely, computer hardware and software for transmitting and receiving audio and video data, control data, and still image data; speakerphones; microphones; computer hardware for communicating audio, video, and data between computers via a global computer network, wide-area computer networks, local-area computer networks, and peer-to-peer computer networks; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols, namely network switchers, repeaters, transmitters, receivers, routers, audio and video encoders and decoders, audio and video transmitters and receivers, signal processors, and amplifiers; audio and video hardware, namely, streaming audio and video transmitters and receivers; data networking hardware and software for establishing communication between multiple video displays via wired and wireless communication links; software for controlling video projectors; software for controlling video displays; computer hardware and software for reproducing audio and video content from one audio/video display on one or more other audio/video displays; software for controlling conference room lighting; software for controlling conference room temperature; software for monitoring and scheduling of conference rooms; software for managing and monitoring wired and wirelessly connected devices and systems, namely, audiovisual transmitters and receivers, HVAC equipment, video displays and projectors, window blinds and shades, lighting equipment, computers, control processors,

computer mice, keyboards, printers, cameras, speakers and monitors, building access security and home security equipment, computer network hubs, switchers, repeaters, and routers, optical, infrared, radio, and satellite transmitters and receivers, tablet computers, smart phones, laptops, touch panels, touch screens, control panels, occupancy and proximity sensors, household appliances; lighting system control components, namely, energy load electricity controllers, computer network bridges, occupancy sensors, daylight sensors, dimmers, keypads and wireless gateways in the nature of computer hardware and network communication hubs; lighting control system management software; wired and wireless in-wall electric light dimmers, keypads, touch panels, button electric control panels, and power and electric switches, all for use with home and building automation electronic devices, audio and video devices, lighting, security devices and detectors, thermostats, and window shades; wired and wireless in-wall thermostats; in-wall electrical outlets; devices for wireless radio transmission, namely radio transmitters; wireless controller to monitor and control the functioning of, HVAC equipment, lighting equipment, audiovisual transmitters and receivers, video displays and projectors, window blinds and shades, computer network hubs, network switchers, repeaters, and routers, optical, infrared, radio, and satellite transmitters and receivers, computers, control processors, computer mice, keyboards, printers, cameras, speakers and monitors, touch panels, touch screens, control panels, building access security and home security equipment, occupancy and proximity sensors, tablet computers, smart phones, laptops, household appliances; software for controlling and monitoring audio-visual equipment, environmental control systems, home theater, home automation systems, lighting systems, and residential security systems; system comprised of computer software for designing and configuring a lighting control system, and interactive worksheets; touch screens, computers, and mobile control devices for configuring and controlling home and building automation devices and components; transport system for delivery of high definition digital video, digital audio, streaming audio, and high speed control comprised of digital media receivers, Ethernet repeaters, wired and wireless transmitters and electric cables; electric wire and cable for audio, video, home automation and control systems; software to prevent audio speakers from being overdriven and clipping audio output, sold as a feature of audio devices; software for custom programming of audio-visual remote controls; power line conditioners; power converters; downloadable computer software for accessing, operating, and using cloud computing networks and applications, namely, cloud-computing software for storing, managing, and accessing electronic data stored on cloud computing environments and accessing and using software stored on cloud computing environments; downloadable computer software that provides web-based access to applications and services through a web operating system or portal interface, namely, software to access other software applications for controlling, managing, and configuring remote devices and systems, namely, building control systems, building automation systems, digital and analog multimedia presentation systems, conferencing systems, collaboration systems, lighting systems, security systems, window shading systems, HVAC systems, energy management systems, voice and data systems, and scheduling systems; electronic conference room signs; electronic conference room LED signs; computer software for the centralized control, monitoring, and management of environmental control systems, energy resources and consumption, and lighting allowing for the operation of audio, video, lighting, security and environmental equipment from a central device in corporate boardrooms, training and conference rooms, and high technology residential homes; computer software for the centralized control, monitoring, management and scheduling of conference rooms, classrooms, lecture halls, and presentation and video conferencing equipment; computer software for recording, processing, and distributing presentations and lectures.
