Trademarks Journal

Vol. 69 No. 3535

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 01

(1) Chemical materials used in the nuclear fuel cycle and nuclear materials, namely uranium oxide nitrate, uranium nitrate, uranium oxides, uranium oxide, uranium, plutonium, isotopes for industrial use, fuels for nuclear reactors, uranium, plutonium, thorium, actinides and lanthanides, namely actinium, lanthanum, americium, curium, berkelium, californium, thorium nitrate, thorium, in all chemical forms and isotope compositions; chemicals for use in the extraction and separation of actinides and lanthanides from aqueous and organic solutions and suspensions and gas; chemicals obtained from nuclear fission, namely isotopes for industrial use; chemicals derived from treatments conducted in the nuclear fuel cycle, namely xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum; chemicals in the nature of neutron resins, namely ion-exchange resins in the form of chemical preparations, chemicals in the nature of materials for protection against ionizing radiation, namely lead sulfate, lead oxide, lead nitrate, lead (II) chromate, lead (II) carbonate, trilead bis (arsenate), lead acetate, neutron shielding materials, namely armour plating made up of boron and cadmium, corrosion-resistant materials, namely chemical preservatives for use as corrosion inhibitors for door shielding, aluminum acetate, steel, compounds for immobilizing radioactive materials and nuclear waste, in particular cement compounds and concretes, glass and ceramic compounds for immobilizing radioactive materials and nuclear waste; fuels for nuclear reactors; fuels, namely fuels for atomic piles, fuels for nuclear reactors; fuels, namely combustible fuel compounds, in particular in the form of nuclear fuel assemblies, namely pencil beams comprising a zirconium tube in which uranium oxide or depleted uranium and plutonium fuel [MOX] pellets are stacked.

Class 05

(2) Pharmaceutical and radiopharmaceutical preparations for medical imaging, nuclear medicine and cancer treatment, namely contrast media used with medical imaging equipment, barium for use in radiology, radiological contrast substances for medical use; diagnostic products for medical use, in particular for locating cancerous tumours, namely radioactive indicators for diagnosis, reagents for medical diagnosis, radioactive pharmaceutical preparations for in vivo diagnosis.

Class 06

(3) Unwrought and semi-wrought common metals and their alloys, for further processing, for use in the nuclear energy industries, all machined, rolled, foundry, shaped, worked and semi-worked goods, all made from steel, aluminum, copper, lead, tin, zirconium and their alloys, for the processing industry; materials, namely stainless steels, metal formwork for concrete pouring, metal vessels and containers for the packaging, transport, storage, warehousing and handling radioactive products, radiopharmaceuticals, components for radiopharmaceutical products and chemical and nuclear products, namely drilling muds, ion-exchange resins in the form of chemical preparations and alkaline-earth metals; metal materials for building and construction and transportable buildings of metal, namely metal formwork for concrete and transport containers of metal for nuclear reactors and plants, uranium mines, storage, warehousing and conversion plants and installations, namely uranium ore scrubbing and transformation, isotope separation, processing, reprocessing and recycling in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, for construction, servicing and dismantling; uranium ore, namely uraninite.

Class 07

(4) Couplings and non-electric couplings, other than those for land vehicles, namely couplings for machines, hydraulic couplings as machine parts; transmission assemblies and belts, other than those for land vehicles, namely shaft couplings and transmission components, transmissions for industrial machinery; machines, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps; machines, namely hydraulic turbines used for and in the nuclear field and in the field of the fight against climate change; machines, namely industrial robots, as well as all their replacement parts; robot arms, telescopic arms, remotely operated arms, their components and replacement parts, namely manipulator arms, telescopic arms and remote-operated arms for industrial robots, as well as their components and replacement parts; robots for work, checking, measuring, collection, sampling and inspection purposes in contaminated areas, in particular land robots, namely industrial robots, and autonomous underwater industrial robots; electrically and electronically controlled hand tools, namely power tools, radial drills; electrically and electronically controlled cutting machines, namely gas-operated cutting torches, cutting machines for commercial use, punching presses; machine tools for metalworking; machines, machine tools and apparatus, namely mine borers for extracting metals, ores, machine tools for removing waste used in the nuclear energy industry for the generation of nuclear electric power and radioactive isotopes, for land surveying, drilling, mining, manufacturing, handling, processing, warehousing, isotope separation, immobilization and storage purposes in relation to ores, metals, nuclear materials, nuclear fuels, plutonium, uranium, thorium, actinides, lanthanides, xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum, and nuclear waste; motor control centres, namely motor control panels for industrial machinery; rotating and stationary electric machines, namely turbines for thermal power plants, pump impellers, turbines for the generation of electricity, hydraulic turbines, jacks, in particular pneumatic and hydraulic jacks, machine parts, namely speed regulators for machines and motors and engines; machines, namely electric motors; machines, machine tools, industrial robots and remotely controlled machines, namely autonomous and remotely operated industrial cobots, for carrying out measurements, inspections, samples and tests, for the collection, processing, recycling of nuclear materials, used nuclear fuels, nuclear waste, and for the purification and dismantling of nuclear facilities and sites; industrial robots for the manufacture and preparation of radiopharmaceutical products.

Class 09

(5) Optical and electro-optical materials, namely optical amplifiers, optical sensors, optical switches, optical condensers, light pens, optical scanners, optical profilers; luminous, mechanical,

acoustic and optical signalling devices, namely luminous safety or signalling beacons, marking and signalling buoys, signal bells, traffic cones, rotating signalling lights, flashing safety lights for traffic cones, laser-based warning and signalling lights, digital signage monitors, digital signage panels, signalling whistles, emergency warning lights, warning triangles; data processing equipment, namely data processing hardware; computers, computer peripherals, namely earphones computers, computer keyboards, computer mice, modems, computer printers, computer screens, computer scanners; scientific, surveying, optical, weighing, measuring, signalling, checking, supervision, monitoring, calculating, life-saving, rescue and teaching apparatus, instruments, mechanisms and devices, all used in the energy industry, namely glassware for scientific experiments in laboratories, scientific prisms, satellites for scientific purposes, nucleic acid sequencers for scientific purposes, namely laboratory thermometers, laboratory scales and balances, microscopes, reflectors for microscopes, lenses for microscopes, microscope lamps, cameras, range finders for cameras, movie projectors, optical scanners, optical multiplexers, magnetic compasses for surveying, levelling rods for surveying, transits for surveying, cameras for monitoring and inspecting equipment in a nuclear power station, inspection mirrors; land surveying apparatus, namely extruding machines for soil analysis, penetrometers for measuring soil resistance; cartographic apparatus, namely apparatus used for performing real-time radiological and topographic measurements at nuclear sites; apparatus for the recording, transmission, reception, storage, reproduction and processing of sound, images and data, namely speakers, magnetic tape recorders, video players and recorders, digital voice recorders, programmable digital television recorders, earphones and headphones, microphones, transceivers, video transmitters, television transmitters, radios, projection screens, touch screens, video screens, video display terminals; topographic apparatus and instruments, namely three-dimensional scanners; computer interfaces, namely computer interface cards; computer programs, computer software and software packages, namely computer software for controlling and managing access server applications, database management software, facilities management software for controlling access to buildings and security systems, software for data storage automation, alarms used in the field of energy, namely electronic burglar alarms, intruder alarms, electronic door alarms, security and fire alarms, fire alarms; radioactivity detection apparatus, namely Geiger counters; masks for protection against radiation, clothing and footwear for protection against nuclear radiation and fire, used for work conducted in hostile environments; electric couplings, namely electric cable connectors; machines, namely voltage stabilizers, namely voltage regulators; machines, machine tools and apparatus used in the nuclear energy and radioisotope generation industries, for land surveying.

Class 11

(6) Apparatus for heating, steam generating, heat exchange, heat and steam accumulation, heat and steam regulation, cooking, refrigeration, drying and ventilating, namely steam generating installations, steam generators and accumulators, heat exchangers, heat exchangers for chemical processing, heat accumulators, automatic temperature regulators for central heating radiators, heat reclaimers, baking ovens for commercial use, refrigerated cabinets, refrigerating chambers, refrigeration condensers, refrigerated transport containers, chemical fibre drying machines, rotary dryers for industrial use, ventilation hoods for laboratories, air impellers for ventilation, wind turbine ventilators, intended namely for nuclear reactors and plants, for storage, warehousing and conversion plants and installations, namely nuclear fuel defluoridation and denitration, isotope separation, processing, reprocessing and recycling purposes in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, for construction, servicing and dismantling; heating apparatus using solid, liquid and gas fuels, namely heat treating furnaces; decentralized power generation stations, in the nature of nuclear power plant facilities; apparatus for lighting,

heating and ventilating mines, namely lighting diffusers, unit heaters, air impellers for ventilation; apparatus, machines and installations for air purification and treatment, namely industrial air purifiers, water purification and treatment, namely chlorination apparatus, and gas purification and treatment; apparatus for generating power, namely thermal and electric power, using nuclear materials such as actinides, namely nuclear generators.

Class 12

(7) Robots for work, checking, measuring, collection, sampling or inspection purposes in contaminated areas, namely underwater camera drones and robots, namely autonomous underwater vehicles for seabed inspections; remote-controlled machines, namely camera drones.

Class 13

(8) Luminous, mechanical, acoustic and optical signalling devices, namely signal rockets.

Class 19

(9) Materials, not of metal, for building and construction, namely non-metallic minerals for construction, fibreglass insulation materials for use in construction, foam glass for use in the construction field, asphalt, pitch, bitumen, polymeric bitumen emulsions for waterproofing buildings, transportable buildings, not of metal, namely concrete poles used as building materials, concrete building partitions, concrete panels, concrete slabs for construction, concrete walls for construction, for nuclear power plants, nuclear reactors, uranium mines, storage, warehousing and conversion plants and installations, isotope separation, processing, reprocessing and recycling purposes in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, for construction, servicing and dismantling.

Services

Class 37

(1) Construction, maintenance, installation of infrastructure, plants, equipment and apparatus, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, metal formwork for concrete, nuclear generators, in the fields of energy and the fight against climate change; construction, installation and maintenance of mines, plants and installations for storage, warehousing, conversion, namely the purification and processing of mineral ores, nuclear materials, uranium, plutonium and nuclear waste, isotope separation, processing, reprocessing and recycling purposes in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; sanitation, dismantling, maintenance, reconditioning, destruction and reclamation of soil, namely decontamination of soil, and mining sites, sites contaminated with radionuclides, nuclear facilities, equipment and apparatus in the nuclear field, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, metal formwork for concrete and transport containers of metal, nuclear generators; construction, installation and maintenance of nuclear power plants, nuclear reactors, research and engineering installations and equipment, namely laboratory robots, photographic machines for laboratories, machines for optical laboratories, in the fields of nuclear energy and the fight against climate change; construction, installation and maintenance of facilities and equipment used for the transport of materials in the field of nuclear energy, namely transport containers of metal; operation of uranium deposits, mining extraction, namely mining, uranium extraction, nuclear material extraction, mining drilling, namely for nuclear materials; construction site inspection, construction supervision, information related to construction in the fields of nuclear energy and climate change.

Class 38

(2) Provision of user access to global computer networks via computer terminals, namely transmission of information via websites in the fields of nuclear energy and climate change; remote communication, namely provision of access to a network of computers for the remote control of computer hardware, relating to the checking, regulating, measuring, signalling, regulation, control, operation, protection and monitoring of plants and installations, namely nuclear reactors and generators, in the fields of nuclear energy and climate change; dissemination and transmission of messages, information and data via extranet networks, the Internet and intranet networks in the fields of nuclear energy and climate change, through a computer database; online information data transmission network services, namely provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information.

Class 39

(3) Collection, grouping, conditioning in transport containers of metal, packaging, ground transport, namely via rail, road, namely truck, water and air, warehousing and storage of nuclear fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; collection, grouping, conditioning in transport containers of metal, packaging, ground transport, namely via rail, road, namely truck, water and air, warehousing and storage of radiopharmaceutical products, components for radiopharmaceutical products and chemical and nuclear products, namely drilling muds, ion-exchange resins in the form of chemical preparations and alkaline-earth metals.

Class 40

(4) Custom 3D printing services for others; treatment of nuclear fuel cycle materials, namely heat treatment of sludge, nuclear waste treatment, waste water treatment; conversion services, namely uranium ore scrubbing and transformation, heat treatment of sludge, nuclear waste treatment, waste water treatment, reprocessing, isotope separation, recycling and processing of mineral ores, nuclear materials, uranium, plutonium, thorium, actinides and lanthanides, nuclear fuels, materials used in the field of nuclear energy and derived from treatments conducted as part of the nuclear fuel cycle, namely xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum, and nuclear waste; treatment of solid, liquid and gaseous materials containing radioelements; treatment of liquid and gaseous nuclear waste; treatment of solid nuclear waste; destruction, incineration, vitrification, disposal, immobilization and conditioning of nuclear industry waste and nuclear waste; custom assembly of materials for others, namely metal formwork for concrete and transport containers of metal.

Class 41

(5) Training and education services in the fields of nuclear energy and climate change; training, education and assistance services, namely training, teaching of personnel and operators of mine sites, nuclear facilities, plants, centres and infrastructure; organization and holding of colloquia, conferences, conventions, exhibitions, forums, seminars, symposia, teleconferences, video conferences in the fields of nuclear energy and climate change.

Class 42

(6) Engineering, engineering work, laboratory work and scientific and technological project management in the fields of nuclear energy and climate change; research, development, analysis, studies and designs in the fields of nuclear energy and climate change; research and development, analysis, studies and designs in the fields of pharmaceutical preparations, radiopharmaceutical preparations and components for pharmaceutical preparations and radiopharmaceutical preparations; advice, expert assessments and testing of materials in the fields of nuclear energy and climate change; simulation and testing services in the fields of nuclear energy and climate change, namely development of programs for simulating experiments or series

of experiments in a virtual optical laboratory, technical control of metal formwork for concrete and transport containers of metal; scientific, technological and industrial research services, for designs, studies, expert assessments, advice and information in the fields of environmental protection, sustainable development and the fight against climate change; pollution risk prevention services in the field of activities developed in the field of energy, namely testing related to pollution prevention and research related to pollution prevention; environmental auditing services for sites, installations and equipment, namely nuclear energy auditing; design, programming, updating, maintenance and rental of computer software used in the fields of nuclear energy and climate change; analysis, design, development and management of information systems and computer technology, namely computer systems design, design and development of electronic data security systems, computer systems integration services, computer systems monitoring services; professional consultations and preparation of plans not related to the conduct of business in the fields of nuclear energy and climate change; mineral exploration, in particular for nuclear materials; testing of nuclear materials and testing of nuclear installations and equipment, namely provision of quality control for the nuclear industry of isotopes for industrial use, metal formwork for concrete and transport containers of metal, centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, turbines for thermal power plants and nuclear reactors; monitoring, namely technical surveying, and inspection services for mines, nuclear power plants, nuclear reactors, plants and facilities for the warehousing, storage, conversion, namely uranium ore scrubbing and transformation, processing, isotope separation, reprocessing, recycling and conditioning of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels, materials used in the nuclear field.

Class 45

(7) Consulting services related to security in the field of nuclear energy; security and surveillance services for mines, nuclear power plants, nuclear reactors, plants and facilities for the warehousing, storage, conversion, processing, isotope separation, reprocessing, recycling and conditioning of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels and materials used in the nuclear field, namely uranium oxide nitrate, uranium nitrate, uranium oxides, uranium oxide, uranium, plutonium, isotopes for industrial use, fuels for nuclear reactors; monitoring services for nuclear facilities and equipment, namely monitoring of metal formwork for concrete and transport containers of metal, centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, turbines for thermal power plants and nuclear reactors.

(2) sunglasses, mobile phone cases; multi-functional electronic devices, namely, wireless fitness activity trackers for displaying, measuring, and uploading to the Internet information, namely, distance, steps taken, calories burned, activity level, calories burned, global positioning and navigational information; pre-recorded cds, video discs and dvds, all featuring topics relating to sports instruction, sports philosophy, exercise and healthy living

Services

Class 38

(1) providing access to a website featuring blogs providing information on topics relating to outdoors, sports, exercise and healthy living namely general health and well-being

Class 41

(2) providing information on topics relating to outdoors, sports, exercise and healthy living, via a website featuring blogs; educational services, namely, life coaching, counselling and mentorship in the fields of fitness, professional development and personal development; provision of courses and classes on the topics of outdoor sports and recreation, sports, exercise, mental health, general health and well-being, physical fitness, professional development and personal development; arrangement and provision of tours and excursions relating to athletic sports, exercise, swimming, and maintenance and promotion of physical health, and physical activity; arrangement and provision of excursions featuring topics relating to outdoors, exercise training services for cycling,

hiking, swimming and watersports; educational services, namely, life coaching in the field of mental health; educational services, namely, life coaching in the fields of general health and wellness advice; educational services, namely, life coaching in the field of spirituality

Class 42

(3) hosting a website featuring blogs providing information on topics relating to outdoors, sports, exercise and healthy living

Class 44

(4) educational services, namely, counselling and mentorship in the field of mental health; educational services, namely, counselling and mentorship in the fields of general health and wellness advice

Class 45

(5) educational services, namely, counselling and mentorship in the field of spirituality

Radio signal antennas, microwave antennas, satellite antennas, audio and video transmitters, audio and video receivers, computer modems, digital signal processors, packet assemblers and disassemblers, very small aperture terminals and telephone handsets sold individually and together in a wireless communications network that enables voice, data and video transmission; apparatus for recording, transmission or reproduction of sound or images, namely, remote satellite terminals, fiber-optic and microwave connectors, standard a, b, e1, e3 and g steerable antenna systems, integrated gyro and rate sensor high-performance sight and digital marine matrix DMX; broadband wireless equipment, namely, broadband radios for cellular and fixed networking and communications applications; computer hardware for privacy protection; privacy protection computer hardware; computer software for creating searchable databases of information and data related to commercial aviation; computer software for delivery and use of literary content, namely, computer software for in-transit entertainment systems, wireless handheld devices, smart phones, mobile phones for accessing, viewing, and interacting with electronic publications; computer software for managing, monitoring, and reporting operations, connectivity, access, content, and capability of computer hardware for telecommunications; computer software for payroll and for managing information related to human resource management, electronic mail processing and routing, remote airline ticketing, real-time cruise booking and ticketing, automated financial teller services, real-time credit verification, electronic funds transfer by telecommunications; computer software for use in the field of aviation for transmitting information regarding the number of passengers checking into a flight, boarding an airplane, leaving an airplane, when flights leave, when flights arrive at a gate, take off and land at a destination, and for transmitting information regarding passenger manifests, baggage or fuel information, routing information and for tracking the movement of flights through the air or ships through the ocean, and for guiding airline and seafaring personnel in the management and guidance of airlines and ships; computer software for providing an online database in the field of commercial aviation, including information obtained as a result of tracking and analyzing information such as flight schedule data, flight performance data, historical airline data, and historical airport data; computer software for providing information on available food and beverages on public, private and commercial transportation; computer software

for providing information on available products and purchase thereof on public, private and commercial transportation; computer software for providing operations and passenger data to operators of public, private, and commercial airline transportation and commercial ship transportation; computer software for temporarily delivering content, namely, voice, data, namely movies, music, television shows, videos of sporting events, videos of music concerts, website content namely web pages and television commercials, graphics, images, namely photographs, drawings, radio, software applications for downloading and playing computer games, software applications for allowing users to connect to the internet, chat software, browser software, social networking software, music, motion pictures, television programs and games, to users on a timed basis; computer software for the collection and compilation of information into computer databases in the field of commercial aviation, including information obtained as a result of tracking and analyzing information such as flight schedule data, flight performance data, historical airline data, and historical airport data; computer software to manage a wireless communications network comprising antennae, transmitters, receivers, modems, processors, assemblers, disassemblers, very small aperture terminals and handsets; display hardware for use in airplanes comprised of a monitor, cables, operating software, emergency battery back-up power pack, interface connectors, all for use with the monitor by airplane pilots, for use in navigation systems; downloadable content in the nature of graphics, data, namely movies, music, television shows, videos of sporting events, videos of music concerts, website content, namely web pages and television commercials, motion pictures, television programs, games; electronic database in the field of commercial aviation for tracking and analyzing information such as flight schedule data, flight performance data, historical airline data, and historical airport data recorded on computer media; equipment for broadband connectivity aboard commercial aircraft, namely, an aircraft satellite antenna system comprising satellite dishes and amplifiers, computer server management unit in the nature of a computer, satellite modem, flight attendant control panel, Wi-Fi router(s) and network operations center computer servers, switches and routers; thin film transistor (TFT) liquid crystal display (LCD) touch screen comprised of monitor hardware and operating software for navigation use by airplane pilots.

Services

Class 38

(1) Business telecommunication services, namely, transmission of voice, data, namely movies, news programs, music, television shows, videos of sporting events, videos of music concerts, website content namely web pages and television commercials, graphics, images, namely photographs and drawings, broadcasting of radio and television programmes by satellite, fiber optic networks, wireless communication networks, satellite transmissions, radio waves, and the internet; electronic delivery of music, interactive games, films, television, radio, digital books, periodicals, photographs, podcasts, webcasts, newspapers, comics and software applications via intranets for commercial transportation; electronic delivery of television programs for commercial transportation; internet broadcasting of motion picture films, television shows, music concerts and radio features; on demand videoconferencing services via satellite; providing access to databases in a cloud computing based network in the field of airline and cruise ship administrative information, ship board or plane in-flight entertainment provided to video screens, mobile computers and smart phones, ship board and in flight food and beverage ordering; providing internet access; providing multiple user access to a global computer information networks for the transfer and dissemination of a wide range of information; providing temporary access to a supercomputer for the purpose of running software programs in a cloud computing based network; providing user access to computer programs in a cloud computing based network; Satellite telecommunications services namely, satellite internet services which provide connectivity to broadband service providers through the delivery of high bandwidth data over long-haul

communication trunking; providing ship-to-shore satellite communication links for merchant, cruise and government ships, providing in-flight satellite communication links for manned and unmanned aircraft, providing satellite communication links for trains and railroad networks; services for broadband connectivity aboard commercial aircraft, namely, providing electronic telecommunication connections; ship to land wireless telephone and radio communications services; telecommunication services, namely, transmission of voice, data, namely movies, music, television shows, videos of sporting events, videos of music concerts, website content, namely web pages and television commercials, graphics, images, namely photographs and drawings, music, satellite images, radio, software applications, motion pictures, television programs, games via wireless communication networks, and the internet; telecommunication services, namely, transmission of voice, data, namely movies, music, television shows, videos of sporting events, videos of music concerts, website content, namely web pages and television commercials, graphics, images, namely photographs and drawings by means of telephone lines, local area networks, fiber optic networks, wireless communication networks, satellite transmissions, radio waves, and the internet; telecommunication services, namely, transmission of voice, data namely movies, music, television shows, videos of sporting events, videos of music concerts, website content, namely web pages and television commercials, graphics, images namely photographs and drawings, by means of telephone lines, local area networks, fiber optic networks, wireless communication networks, satellite transmissions, radio waves, and the internet; transmission of data namely movies, music, television shows, videos of sporting events, videos of music concerts, website content, namely web pages and television commercials, sound, and images namely photographs and drawings by satellite; video on demand transmission services for commercial transportation; Computer services, namely, providing multiple user access to virtual and non-virtual application servers, web servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers and database servers to third party computing and data storage facilities.

Class 41

(2) Entertainment information namely movies, news programs, music, television shows, videos of sporting events, videos of music concerts, website content namely web pages and television commercials; entertainment services, namely, providing temporary use of non-downloadable games; entertainment services, namely, provision of non-downloadable audio programs, videos, and multimedia programs featuring music, television programs, movies, and interactive games via an inflight entertainment system; motion picture, television, radio, and music editing and dubbing services; multimedia entertainment services, namely, motion picture, television, radio, and music post production services; providing information relating to news and current events relating to books, business, celebrity gossip news, comedy, online education providing information about degree credit courses and online education; providing information in the field of early childhood education via an interactive website, providing news regarding environmentally conscious and green issues, fashion, fine arts, food, humor, movies, television, music, performing arts, personal beauty, politics, popular culture, religion, sports, technology, travel, weather, and general health and well-being; providing information relating to news and current events relating to books, sports, comedy shows, movies, television, music, performing arts.

Class 42

(3) Graphic design; hosting the software, websites and other computer applications, namely computer game applications, business computer software applications, applications to enable the streaming of movies, music and television shows of others on a virtual private server; software as a service (SAAS) services, namely, software for web browsing, email, enterprising resource planning (ERP), and customer relationship management (CRM); development of privacy protection

software; web site design services; installation and maintenance of privacy protection software; providing information, news and current events relating to medical technology, consumer product purchase preference assessment technology in the computer and electronics industries, and weather; providing information in the fields of computer technology for privacy protection and software development for privacy protection via a global computer network; software as a service (SAAS) services, namely, software for use in network performance management, network traffic management, network traffic monitoring, network traffic shaping, network optimization, network troubleshooting, and network security; computer services, namely, providing temporary use of on-line computer software for use in network performance management, network traffic management, network traffic monitoring, network traffic shaping, network optimization, network troubleshooting, and network security; consulting services in the fields of network performance management, network traffic management, network traffic monitoring, network traffic shaping, network optimization, network troubleshooting, and network security; technical and customer support services in the fields of network performance management, network traffic management, network traffic monitoring, network traffic shaping, network optimization, network troubleshooting, and network security; cloud computing provider services for general storage of users' private data; providing private cloud computing web hosting services.

Goods

Class 01

(1) Chemical materials usable in the nuclear fuel cycle and nuclear materials, namely uranium oxide nitrate, uranium nitrate, uranium oxides, uranium oxide, uranium, plutonium, isotopes for industrial use, fuels for nuclear reactors, uranium, plutonium, thorium, actinides and lanthanides, namely actinium, lanthanum, americium, curium, berkelium, californium, thorium nitrate, thorium, in all chemical forms and isotope compounds; chemicals for use in the extraction and separation of actinides and lanthanides from aqueous and organic solutions and suspensions and gas; chemicals resulting from nuclear fission, namely isotopes for industrial use; chemicals derived from treatments conducted in the nuclear fuel cycle, namely xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum; chemicals in the nature of neutron resins, namely ion-exchange resins in the form of chemical preparations, chemicals in the nature of materials for protection against ionizing radiation, namely lead sulfate, lead oxide, lead nitrate, lead (II) chromate, lead (II) carbonate, trilead bis (arsenate), lead acetate, neutron shielding materials, namely armour plating consisting of boron and cadmium, corrosion-resistant materials, namely chemical preservatives for use as corrosion inhibitors for door shielding, aluminum acetate, steel, compounds for immobilizing radioactive materials and nuclear waste, in particular cement

compounds and concretes, glass and ceramic compounds for immobilizing radioactive materials and nuclear waste; fuel for nuclear reactors; combustible fuels, namely fuel for atomic piles, fuel for nuclear reactors.

Class 04

(2) Combustible fuels, namely fuel compounds, in particular in the form of nuclear fuel assemblies, namely pencil beams comprising a zirconium tube in which uranium oxide or depleted uranium and plutonium fuel [MOX] pellets are stacked.

Class 05

(3) Pharmaceutical and radiopharmaceutical preparations for medical imaging, nuclear medicine and cancer treatment, namely contrast media used with medical imaging equipment, barium for use in radiology, radiological contrast substances for medical use; diagnostic products for medical use, in particular for locating cancerous tumours, namely radioactive indicators for diagnosis, reagents for medical diagnosis, radioactive pharmaceutical preparations for in vivo diagnosis.

Class 06

(4) Unwrought and semi-wrought common metals and their alloys, for further processing, for use in the nuclear energy industries, all machined, rolled, foundry, shaped, worked and semi-worked goods, all made from steel, aluminum, copper, lead, tin, zirconium and their alloys, for the processing industry; materials, namely stainless steels, metal formwork for concrete pouring, metal vessels and containers for the packaging, transport, storage, warehousing and handling radioactive products, radiopharmaceuticals, components for radiopharmaceutical products and chemical and nuclear products, namely drilling muds, ion-exchange resins in the form of chemical preparations and alkaline-earth metals; metal materials for building and construction and transportable buildings of metal, namely metal formwork for concrete and transport containers of metal for nuclear reactors and plants, uranium mines, storage, warehousing and conversion plants and installations, namely uranium ore scrubbing and transformation, isotope separation, processing, reprocessing and recycling in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, for construction, servicing and dismantling; uranium ore.

Class 07

(5) Couplings and non-electric couplings, other than those for land vehicles, namely couplings for machines, hydraulic couplings as machine parts; transmission assemblies and belts, other than those for land vehicles, namely shaft couplings and transmission components, transmissions for industrial machinery; machines, namely pumps, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps; machines, namely hydraulic turbines used for and in the nuclear field and in the field of the fight against climate change; machines, namely industrial robots, as well as all their replacement parts; robot arms, telescopic arms, remotely operated arms, their components and replacement parts, namely manipulator arms, telescopic arms and remote-operated arms for industrial robots, as well as their components and replacement parts; robots for work, checking, measuring, collection, sampling and inspection purposes in contaminated areas, in particular land robots, namely industrial robots, camera drones and autonomous underwater industrial robots; electrically and electronically controlled hand tools, namely power tools, radial drills; electrically and electronically controlled cutting machines, namely gas-operated cutting torches, cutting machines for commercial use, punching presses; machine tools for metalworking; machines, machine tools and apparatus, namely mine borers for extracting metals, ores, machine tools for removing waste used in the nuclear energy industry for the generation of nuclear electric power and radioactive isotopes, for land surveying, drilling, mining, manufacturing, handling, processing, warehousing, isotope separation, immobilization and storage purposes in relation to ores, metals, nuclear materials,

nuclear fuels, plutonium, uranium, thorium, actinides, lanthanides, xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum, and nuclear waste; motor control centres, namely motor control panels for industrial machinery; rotating and stationary electric machines, namely turbines for thermal power plants, pump impellers, turbines for the generation of electricity, hydraulic turbines, jacks, in particular pneumatic and hydraulic jacks, machine parts, namely speed regulators for machines and motors and engines; machines, namely electric motors; machines, machine tools, industrial robots and remotely controlled machines, namely camera drones, and autonomous and remotely operated industrial cobots, for carrying out measurements, inspections, samples and tests, for the collection, processing, recycling of nuclear materials, used nuclear fuels, nuclear waste, and for the purification and dismantling of nuclear facilities and sites; industrial robots for the manufacture and preparation of radiopharmaceutical products.

Class 09

(6) Optical and electro-optical materials, namely optical amplifiers, optical sensors, optical switches, optical condensers, light pens, optical scanners, optical profilers; luminous, mechanical, acoustic and optical signalling devices, namely luminous safety or signalling beacons, marking and signalling buoys, signal bells, traffic cones, rotating signalling lights, flashing safety lights for traffic cones, laser-based warning and signalling lights, digital signage monitors, digital signage panels, signalling whistles, emergency warning lights, warning triangles; data processing equipment, namely data processing hardware; computers, computer peripherals, namely earphones computers, computer keyboards, computer mice, modems, computer printers, computer screens, computer scanners; scientific, surveying, optical, weighing, measuring, signalling, checking, supervision, monitoring, calculating, life-saving, rescue and teaching apparatus, instruments, mechanisms and devices, all used in the energy industry, namely glassware for scientific experiments in laboratories, scientific prisms, satellites for scientific purposes, nucleic acid sequencers for scientific purposes, namely laboratory thermometers, laboratory scales and balances, microscopes, reflectors for microscopes, lenses for microscopes, microscope lamps, cameras, range finders for cameras, movie projectors, optical scanners, optical multiplexers, magnetic compasses for surveying, levelling rods for surveying, transits for surveying, cameras for monitoring and inspecting equipment in a nuclear power station, inspection mirrors; land surveying apparatus, namely extruding machines for soil analysis, penetrometers for measuring soil resistance; cartographic apparatus, namely apparatus used for performing real-time radiological and topographic measurements at nuclear sites; apparatus for the recording, transmission, reception, storage, reproduction and processing of sound, images and data, namely speakers, magnetic tape recorders, video players and recorders, digital voice recorders, programmable digital television recorders, earphones and headphones, microphones, transceivers, video transmitters, television transmitters, radios, projection screens, touch screens, video screens, video display terminals; topographic apparatus and instruments, namely three-dimensional scanners; computer interfaces, namely computer interface cards; computer programs, computer software and software packages, namely computer software for controlling and managing access server applications, database management software, facilities management software for controlling access to buildings and security systems, software for data storage automation, alarms used in the field of energy, namely electronic burglar alarms, intruder alarms, electronic door alarms, security and fire alarms, fire alarms; radioactivity detection apparatus, namely Geiger counters; masks for protection against radiation, clothing and footwear for protection against nuclear radiation and fire, used for work conducted in hostile environments; electric couplings, namely electric cable connectors; machines, namely voltage stabilizers, namely voltage regulators; machines, machine tools and apparatus used in the nuclear energy and radioisotope generation industries, for land surveying.

Class 11

(7) Apparatus for heating, steam generating, heat exchange, heat and steam accumulation, heat and steam regulation, cooking, refrigeration, drying and ventilating, namely steam generating installations, steam generators and accumulators, heat exchangers, heat exchangers for chemical processing, heat accumulators, automatic temperature regulators for central heating radiators, heat reclaimers, baking ovens for commercial use, refrigerated cabinets, refrigerating chambers, refrigeration condensers, refrigerated transport containers, chemical fibre drying machines, rotary dryers for industrial use, ventilation hoods for laboratories, air impellers for ventilation, wind turbine ventilators, intended namely for nuclear reactors and plants, for storage, warehousing and conversion plants and installations, namely nuclear fuel defluoridation and denitration, isotope separation, processing, reprocessing and recycling purposes in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, for construction, servicing and dismantling; heating apparatus using solid, liquid and gas fuels, namely heat treating furnaces; decentralized power generation stations, in the nature of nuclear power plant facilities; apparatus for lighting, heating and ventilating mines, namely lighting diffusers, unit heaters, air impellers for ventilation; apparatus, machines and installations for air purification and treatment, namely industrial air purifiers, water purification and treatment, namely chlorination apparatus, and gas purification and treatment; apparatus for generating power, namely thermal and electric power, using nuclear materials such as actinides, namely nuclear generators.

Class 13

(8) Luminous, mechanical, acoustic and optical signalling devices, namely signal rockets.

Class 17

(9) Materials, not of metal, for building and construction, namely fibreglass insulation materials for use in construction.

Class 19

(10) Materials, not of metal, for building and construction, namely non-metallic minerals for construction, foam glass for use in the construction field, asphalt, pitch, bitumen, polymeric bitumen emulsions for waterproofing buildings, transportable buildings, not of metal, namely concrete poles used as building materials, concrete building partitions, concrete panels, concrete slabs for construction, concrete walls for construction, for nuclear power plants, nuclear reactors, uranium mines, storage, warehousing and conversion plants and installations, isotope separation, processing, reprocessing and recycling purposes in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, for construction, servicing and dismantling.

Services**Class 37**

(1) Construction, maintenance, installation of infrastructure, plants, equipment and apparatus, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, metal formwork for concrete, nuclear generators, in the fields of energy and the fight against climate change; construction, installation and maintenance of mines, plants and installations for storage, warehousing, conversion, namely the purification and processing of mineral ores, nuclear materials, uranium, plutonium and nuclear waste, isotope separation, processing, reprocessing and recycling purposes in relation to fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; sanitation, dismantling, maintenance, reconditioning, destruction and reclamation of soil, namely decontamination of soil, and mining sites, sites contaminated with radionuclides, nuclear facilities, equipment and apparatus in the nuclear field, namely centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and

engines, hydraulic pumps, metal formwork for concrete and transport containers of metal, nuclear generators; construction, installation and maintenance of nuclear power plants, nuclear reactors, research and engineering installations and equipment, namely laboratory robots, photographic machines for laboratories, machines for optical laboratories, in the fields of nuclear energy and the fight against climate change; construction, installation and maintenance of facilities and equipment used for the transport of materials in the field of nuclear energy, namely transport containers of metal; operation of uranium deposits, mining extraction, namely mining, uranium extraction, nuclear material extraction, mining drilling, namely for nuclear materials; construction site inspection, construction supervision, information related to construction in the fields of nuclear energy and climate change.

Class 38

(2) Provision of user access to global computer networks via computer terminals, namely transmission of information via websites in the fields of nuclear energy and climate change; remote communication, namely provision of access to a network of computers for the remote control of computer hardware, relating to the checking, regulating, measuring, signalling, regulation, control, operation, protection and monitoring of plants and installations, namely nuclear reactors and generators, in the fields of nuclear energy and climate change; dissemination and transmission of messages, information and data via extranet networks, the Internet and intranet networks in the fields of nuclear energy and climate change, through a computer database; online information data transmission network services, namely provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information.

Class 39

(3) Collection, grouping, conditioning in transport containers of metal, packaging, ground transport, namely via rail, road, namely truck, water and air, warehousing and storage of nuclear fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; collection, grouping, conditioning in transport containers of metal, packaging, ground transport, namely via rail, road, namely truck, water and air, warehousing and storage of radiopharmaceutical products, components for radiopharmaceutical products and chemical and nuclear products, namely drilling muds, ion-exchange resins in the form of chemical preparations and alkaline-earth metals.

Class 40

(4) Custom 3D printing services for others; treatment of nuclear fuel cycle materials, namely heat treatment of sludge, nuclear waste treatment, waste water treatment; conversion services, namely uranium ore scrubbing and transformation, heat treatment of sludge, nuclear waste treatment, waste water treatment, reprocessing, isotope separation, recycling and processing of mineral ores, nuclear materials, uranium, plutonium, thorium, actinides and lanthanides, nuclear fuels, materials used in the field of nuclear energy and derived from treatments conducted as part of the nuclear fuel cycle, namely xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum, and nuclear waste; treatment of solid, liquid and gaseous materials containing radioelements; treatment of liquid and gaseous nuclear waste; treatment of solid nuclear waste; destruction, incineration, vitrification, disposal, immobilization and conditioning of nuclear industry waste and nuclear waste; custom assembly of materials for others, namely metal formwork for concrete and transport containers of metal.

Class 41

(5) Training and education services in the fields of nuclear energy and climate change; training, education and assistance services, namely training, teaching of personnel and operators of mine

sites, nuclear facilities, plants, centres and infrastructure; organization and holding of colloquia, conferences, conventions, exhibitions, forums, seminars, symposia, teleconferences, video conferences in the fields of nuclear energy and climate change.

Class 42

(6) Engineering, engineering work, laboratory work and scientific and technological project management in the fields of nuclear energy and climate change; research, development, analysis, studies and designs in the fields of nuclear energy and climate change; research and development, analysis, studies and designs in the fields of pharmaceutical preparations, radiopharmaceutical preparations and components for pharmaceutical preparations and radiopharmaceutical preparations; advice, expert assessments and testing of materials in the fields of nuclear energy and climate change; simulation and testing services in the fields of nuclear energy and climate change, namely development of programs for simulating experiments or series of experiments in a virtual optical laboratory, technical control of metal formwork for concrete and transport containers of metal; scientific, technological and industrial research services, for designs, studies, expert assessments, advice and information in the fields of environmental protection, sustainable development and the fight against climate change; pollution risk prevention services in the field of activities developed in the field of energy, namely testing related to pollution prevention and research related to pollution prevention; environmental auditing services for sites, installations and equipment, namely nuclear energy auditing; design, programming, updating, maintenance and rental of computer software used in the fields of nuclear energy and climate change; analysis, design, development and management of information systems and computer technology, namely computer systems design, design and development of electronic data security systems, computer systems integration services, computer systems monitoring services; professional consultations and preparation of plans not related to the conduct of business in the fields of nuclear energy and climate change; mineral exploration, in particular for nuclear materials; testing of nuclear materials and testing of nuclear installations and equipment, namely provision of quality control for the nuclear industry of isotopes for industrial use, metal formwork for concrete and transport containers of metal, centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, turbines for thermal power plants and nuclear reactors; monitoring, namely technical surveying, and inspection services for mines, nuclear power plants, nuclear reactors, plants and facilities for the warehousing, storage, conversion, namely uranium ore scrubbing and transformation, processing, isotope separation, reprocessing, recycling and conditioning of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels, materials used in the nuclear field.

Class 45

(7) Consulting services related to security in the field of nuclear energy; security and surveillance services for mines, nuclear power plants, nuclear reactors, plants and facilities for the warehousing, storage, conversion, processing, isotope separation, reprocessing, recycling and conditioning of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels and materials used in the nuclear field, namely uranium oxide nitrate, uranium nitrate, uranium oxides, uranium oxide, uranium, plutonium, isotopes for industrial use, fuels for nuclear reactors; monitoring services for nuclear facilities and equipment, namely monitoring of metal formwork for concrete and transport containers of metal, centrifugal pumps, self-regulating fuel pumps, pumps as parts of machines, motors and engines, hydraulic pumps, turbines for thermal power plants and nuclear reactors.

Certification Mark Standard

Use of the certification mark indicates that a seniors independent and assisted living organization has met or exceeded (and continues to meet and exceed) the specific service standards of excellence and organizational practices as set by the BC Seniors Living Association's ('BCSLA') Seal of Approval program. The following core standards are assessed every two years for compliance: (1) governance, (2) safety, (3) risk management, (4) infection prevention and control, (5) medication management, (6) resident services, and (7) staff training. To be accredited to use the certification mark, an organization must meet the required organizational practices as identified in the standard. The standards of excellence and required organizational practices for achieving certification are set out in detail in the Seal of Approval Introductory Package on file in the Canadian Intellectual Property Office and may also be obtained by the public from the Applicant

Goods

Class 06

(1) Common metals and their alloys; Building materials of metal, namely building panels of metal, metal pillars for building, soffits, fascia, ceiling boards, wall boards, floor boards, facade parts, sidings of metal, claddings, frames of metal for building, metallic framed glazing panels for use in construction, metal trims for buildings, metal linings for buildings, metal brackets for mounting glass, refractory building materials of metal, spacer brackets of metal; building materials of metal in the form of sheets, panels, slabs, boards; metal building materials, namely building panels of metal, metal pillars for building, soffits, fascia, ceiling boards, wall boards, floor boards, facade parts, sidings of metal claddings, metallic framed glazing panels for use in construction, metal trims for buildings, metal linings for buildings, refractory building materials of metal; reinforcing materials of metal for building; metal construction materials, namely cladding of metal for construction and building of metal, metal columns, metal pillars, metal beams, metal piles, metal

toilet partitions, refractory construction materials of metal; windows of metal; aluminium windows; metal alloys for further manufacturing; common metals, unwrought and semi-worked, for use in further manufacturing; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of aluminium or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of copper or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of lead or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of nickel or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of tin or its alloys; transportable buildings or structures of metal, namely portable mobile metal office buildings, metal brackets for mounting glass, metal roofing incorporating solar panels, frames of metal for building, metal shelter structures; doors of metal; double glazing panels of metal incorporating insulating glass.

Class 11

(2) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely heating, ventilation and air conditioning (HVAC) systems for commercial and residential buildings; air conditioners for vehicles; air conditioners; air conditioner installations, in particular for cars; air cooling apparatus, namely cooling domes, cooling evaporators; air filtering installations, namely air filtering units for removing dust, smoke and allergens from the air, air filters for air conditioning units; air purifying units and machines; flue gas air reheaters and preheaters; cooling appliances and installations, namely refrigerators, air conditioners, milk cooling installations, cooling installations for tobacco; cooling installations and machines, namely gas refrigerators, cooling installations for water, refrigerators for chemical processing; evaporators, namely evaporators for chemical processing, evaporators for air conditioners, cooling evaporators; fans for air conditioners; fans being parts of air-conditioning installations; filters for air conditioning; gas condensers, other than parts of machines, namely air condensers, condensate separators, condensation-preventing chemicals; desalination plants; desalination apparatus, namely desalination units, desalination plants; desalination installations, namely desalination units, desalination plants; desalination units; water desalination plants; heat accumulators; heat exchangers, other than parts of machines; heat exchangers for chemical processing; underfloor heating installations, heaters for vehicles; heating apparatus for chemical processing, for use in cleanrooms, laboratories, operating rooms, patient rooms, hospital isolation rooms; heating boilers; heating installations, namely central heating radiators, space heaters for household use, automatic temperature regulators for central heating radiators; heat regenerators; steam boilers, other than parts of machines; steam generating installations; water filtering apparatus, namely water purification machines for domestic use, municipal water purification machines, reverse osmosis water purification units; water purification installations, namely water purification machines for domestic use, municipal water purification machines, reverse osmosis water purification units; water purifying apparatus and machines, namely water purification machines for domestic use, municipal water purification machines, reverse osmosis water purification units.

Class 17

(3) Insulators, namely electrical insulators, thermal insulation, acoustical insulators, extruded plastics for insulation, sound-absorbing metal discs, sound-absorbing metal panels, insulating glass for building; insulators for electricity, heat, sound, namely electrical, thermal and acoustic insulators, extruded plastics for insulation, insulators for cables, insulating spacers, namely insulating bands; electrical insulators; plastic dielectrics for insulators; insulating materials, namely acoustical insulating materials; insulating fabrics; substances for insulating buildings against moisture, made of polyurethane; fiberglass for insulation; boiler composition to prevent the radiation of heat; soundproofing materials, namely soundproofing batting, soundproofing ceiling

coverings, soundproofing double face glass, soundproofing foam, soundproofing materials made of wool; sound absorbing structures not of metal for buildings, namely sound-absorbing ceiling coverings, sound-absorbing wall coverings; insulating materials for building, namely electrical insulating materials for building, thermal insulating materials for building, acoustical insulating materials for building; foam glass for use as an insulating material; foam insulation materials for use in building and construction; glass fiber insulation materials for use in construction; insulating foam for use in building and construction; insulating materials made of polyethylene foam; insulating materials made of polyurethane foam; low-density polyurethane foam for insulation; low-density polyurethane foam for packing; insulation and barrier articles and materials, namely acoustical insulation barrier panels, acoustical insulation barrier profiles, extruded plastics for use as water barrier and heat barrier; non-metal seals for use in plumbing, construction, buildings, vehicles, aircrafts; sealants and fillers, namely adhesive sealants, silicone sealants, sealants for driveways, water proof packing for camera case, waterproof packing for shipping container, plastic junctions for pipes, polyurethane sealants, polyamide sealants, polypropylene sealants, polyphenylenesulphide sealants, polybutylene terephthalate sealants, acrylonitrile butadiene styrene copolymer sealants, acrylonitrile styrene acrylate sealants, polyethylene sealants, polyether ether ketone sealants, polyetherimide sealants, polyetherterephthalate sealants, polyoxymethylene sealants, polyphthalamide sealants, polystyrene sealants, polyketone sealants, polyvinyl chloride sealants, styrene acrylonitrile resin sealants, wood-plastic composite sealants, sealants for buildings, sealants for vehicles, sealants for aircrafts, sealants for industrial plants, expansion joint fillers, mica for use as a filler in plastics; electrical, thermal and acoustic insulators made of rubber; insulating bands; acoustic insulating materials; insulating materials for construction, namely electrical insulating materials for construction, thermal insulating materials for construction, acoustical insulating materials for construction; thermal insulating materials; insulation materials for aircraft; water proof packing for camera case, waterproof packing for shipping container; weatherstripping; weatherstripping compositions; non-metallic weatherstripping for buildings; weatherstripping for use in automobiles; weatherstripping for use in homes; weatherstripping, not of metal, for buildings; threads of plastic materials, other than for textile use, namely plastic soldering threads; flexible tubes, not of metal, namely air hoses, garden hoses; artificial resins in the form of tubes for use in manufacture of semi-finished products; flexible plastic hoses for use with heat exchangers, air conditioners, corrosive fluids, flue gas; hoses of rubber for use with heat exchangers, air conditioners, corrosive fluids and flue gas transfer; air hoses, not of metal; gum, raw or semi-worked; plastic substances, semi-processed, namely polyamide, low lambda polyamide, recycled polyamide, bio polyamide, polypropylene, heat conductive polypropylene, polypropylene for warm edge solutions, polyphenylene sulfide, heat conductive polyphenylene sulfide, acrylonitrile butadiene styrenecopolymer, acrylonitrile styrene acrylate, polybutylene terephthalate, polyethylene, polyether ether ketone, polyetherimide, polyethylene terephthalate, polyoxymethylene, polyphthalamide, polystyrene, polyketone, styrene acrylonitrile resin, syndiotactic polystyrene, polyamide 66 GF25, dry impact resistant; synthetic resins, semiprocessed; cellulose acetate, semi-processed; semi-finished thermoplastic resins reinforced with natural fibers; artificial resins in extruded form for use in manufacture; artificial resins in extruded form for general industrial use; semi-finished artificial resins in the form of bars for use in manufacture ; semi-finished artificial resins in the form of blocks for use in manufacture; elastomeric polymers in the form of blocks for use in manufacture; elastomeric polymers in the form of sheets for use in manufacture; extruded plastics in the form of bars for use in manufacture; extruded plastics in the form of blocks for use in manufacture; extruded plastics in the form of pellets for use in manufacture; extruded plastics in the form of rods for use in manufacture; extruded plastics in the form of sheets for use in manufacture; extruded plastics in the form of tubes for use in manufacture; plastics and resins in extruded form for use in manufacture; plastics

in extruded form for use in further manufacturing; plastics in extruded form for use in manufacture; semiprocessed thermoplastic polymer resins for use in manufacture; thermoplastic elastomer resins in pellet form for use in manufacture; semi-processed plastics in the nature of filtering materials for the chemical filtering industry, heat regeneration, heating and cooling appliances, power generation; insulating refractory materials; spacer brackets made of rubber; shock-absorbing buffers of rubber; shock-absorbing materials, namely shock absorbing rubber buffers for industrial machinery; packing materials of rubber or plastics, namely packing foam in sheet form, plastic pellets for packing, vibration dampers, namely insulating materials, vibration damping machine parts.

Class 19

(4) Building materials, not of metal, namely heat, electric and sound insulating materials for construction purposes in the form of plastic bars for building, plastic rods for building, building strips of plastic, fibreglass drainage pipes for building, plastic conduits for drainage for use in building; building panels, not of metal, namely multiplayer panels of plastic for use in building; cladding, not of metal, for building, namely slates of roof cladding; framework, not of metal, for building, namely scaffolding of wood; construction materials of plastics, namely plastic exterior boards, plastic profiles, plastic spacers, plastic panels; construction materials, not of metal, namely panels made of concrete and glass, panels made of natural fibers and plastics, spacers made of concrete and glass, spacers made of natural fibers and plastics, concrete rails, nonmetal plastic panels, non-metal plastic profiles, non-metal plastic spacers, non-metal plastic rails; structures made of concrete, plastic and glass for building windows and facades and transportable buildings, not of metal; non-metallic structural elements in the nature of structural plastic rods, plastic bars, plastic profiles for use in building; prefabricated building components in the nature of plastic rods, plastic bars, plastic profiles, plastic panels, not of metal; non-metal framework for building, namely scaffolding of wood; sealed insulating glass and plastic units for building; expanded plastics for use in construction, namely plastic conduits for drainage and irrigation; insulating glass for building; windows, not of metal, namely fiberglass windows, plastic windows; window frames, not of metal, namely fiberglass window frames, plastic window frames; casement windows, not of metal, namely fiberglass casement windows, plastic casement windows; vinyl windows; window frames of plastic; window panes for building; window jambs, not of metal, namely fiberglass window jambs, plastic window jambs; window surrounds, not of metal, namely fiberglass window surrounds, plastic window surrounds; non-metal window casements, namely fiberglass window casements, plastic window casements; non-metal windows, namely fiberglass windows, plastic windows; window panes for buildings; window sashes of plastic; non-metal doors, namely plastic doors, wood doors; door units, not of metal, namely plastic doors units, wood door units; multilayer panels of plastic for use in building; facings, not of metal, for building, made of plastic and glass; building material, namely fascias, not of metal; building fronts, not of metal, namely wood siding, wood-plastic composite siding, plastic siding, glass siding; curtain wall profiles, pressure plates for stick curtain walls, curtain wall spacers; window facades, not of metal, namely window panes; ceilings, not of metal, namely ceilings made of concrete, ceilings made of glass, ceilings made of plastic, ceiling tiles of plastic, ceramic ceiling tiles, non-metal ceiling panels, wood ceiling tiles; roofing, not of metal, namely roofing tiles, roofing shingles, roofing boards of wood; roof coverings, not of metal, namely roof tiles, roof shingles, roof boards of wood; wall claddings, not of metal, for building, namely concrete panels, glass panels; wall linings, not of metal, for building, namely concrete panels, glass panels; wall panels, not of metal, namely concrete panels, glass panels; wall boards, not of metal, namely concrete boards, glass boards; plastic wallboards; glazing elements made from glass; window glass, other than vehicle window glass; window glass for building; building glass.

(1) Absorbents for cleaning solvents; absorption agents, namely granular absorbent mineral-based composition for absorbing spills from floors; acids derived from plant sources, namely arsenic acid, benzoic acid, fatty acids, gallic acid, gallotannic acid, glutamic acid for use in the manufacture of cosmetics, oxalic acid, palmitic acid, phenylacetic acid, pyrogallic acid, pyroligneous acid, salicylic acid, stearic acid, tannic acid, tartaric acid, and valeric acid; activated carbon; activated charcoal; chemical additives for compost; chemical additives for soil, namely soil-conditioning chemicals; chemical additives for use in fermentation for the manufacture of alcohol; adsorbents consisting of activated carbon; agar-agar; alcohol for pickling foodstuffs; alcohol for use in the manufacture of perfumes; animal manure; artificial sweeteners; artificial sweeteners for beverages; bicarbonate of soda for chemical purposes; biofertilizers; biological additives for converting crops into compost; borax; botanical extracts for use in making cosmetics; chemical agents for impregnating cut flowers to preserve freshness; chemical agents for impregnating cut Christmas trees to preserve freshness; citric acid; collagen based ingredients for cosmetic preparations; compost; compost activators; compost mixtures enriched with organic substances; compound fertilizers; diatomaceous earth; dry ice; earth for cultivation; earth for growing; enzyme preparations for the beverage industry; enzyme preparations for the bakery industry; enzyme preparations for the food industry; enzyme preparations for the alcohol industry; enzymes for use in flavoring; enzymes for use in ice cream; extracts of yucca schidigera for use in the manufacture of pharmaceuticals; fertilizer for soil and potting soil; fertilizers; fertilizers for agricultural use; fertilizers for domestic use; fertilizers for household plants; fertilizers for hydroponics; fertilizers for potting soil; fertilizers for soil; fertilizers for soil and potting soil; fertilizing preparations; fertilized bases made of mineral wool for growing plants; fertilized preparations of mineral wool for growing plants; fertilizer compositions; fertilizers; fertilizers and manures; fertilizers for agriculture made of seaweed; fibrous material for use as soil conditioning agents; fibrous material for use as manures; mineral filtering materials for the sewage treatment industry; vegetable-derived filtering materials for the treatment of household water; fining agents for beer; fining agents for cider; fining agents for wine; chemical additives to improve the flavor of coffee; chemical additives to enhance the flavor of food; chemical additives to improve the flavor of tea; flower preservatives; garden feeds, namely controlled-release fertilizers for gardening; grass fertilizers; guano; gypsum for use as a fertilizer;

humus; humus top dressing; loam; manure; manure in liquid form; manure in solid form; manures with added microorganisms; manures made from sea components; marine fertilizer; micronutrients for application to crops; microorganisms for pond maintenance; mineral fertilizers; mineral fertilizing preparations; mineral products for use in growing plants, namely artificial plant cultivation soil made of mineral materials; mixed fertilizers; multi-nutrient fertilizers; natural fertilizers; natural manure; natural microorganisms used in pond maintenance; non-chemical biofertilizers; nutrient preparations for plants; nutrients for algae; nutrients for flowers; nutrients for plants; oils for the preservation of food; topsoil; tea extracts for the food industry; tea extracts for use in the manufacture of cosmetics; synthetic fertilizers for agricultural purposes; substances for preserving cut flowers; substances for promoting plant growth; substances for soil-free growing, namely substrates for soil-free growing; substances for stabilizing the soil, namely chemical preparations for stabilizing soil, and soil stabilizers for roads, ponds and lakes; starch for the food industry; stain repellents, namely carpet stain repellents, concrete stain repellents, fabric stain repellents, and stain repellents for marble and stone; soil for growing; soil improving agents; soil improving preparations; soil additives, namely charcoal for use as a soil conditioner, organic soil enhancement powders and preparations, soil amendments for agricultural purposes, soil amendments for horticultural purposes, and soil conditioners; seaweed based compost; seaweed based compost accelerators; seaweed based soil conditioning preparations; seaweed extract for use as a growth stimulant on plants; seaweed extracts for use as a fertilizer; seaweed plant food; seaweeds, namely seaweed glue for industrial purposes; seaweeds for use as a fertilizer; sawdust fertilizers; rice bran fertilizer; solidified gases for industrial purposes; boric acid for industrial purposes; caustics for industrial purposes, namely caustic alkali, caustic potash, and caustic soda; titanium dioxide for industrial purposes; salts for industrial purposes, namely halogen acid salts, mercury salts, nickel salts, rare-earth metal salts, salts for colouring metal, salts for galvanic batteries, and sorrel salt; citric acid for industrial purposes; tartar other than for pharmaceutical purposes, namely tartar for use in the food industry, and tartar for use in the manufacture of toothpaste; camphor, for industrial purposes, namely camphor for the production of plastics; ethyl ether; phenol for industrial purposes; alkaloids for use in the manufacture of pharmaceuticals; ketones; aldehydes; glycerides; potato starch for industrial purposes; diastase for industrial purposes, namely diastase for use in the food industry; tensio-active agents, namely tensio-active agents for use in connection with agricultural pesticides, tensio-active agents for use in the manufacture of hair shampoo, and tensio-active agents for use in the manufacture of synthetic detergents; dioxide of hydrogen; distilled water; radioactive elements for scientific purposes in the oil and gas industry; radioactive elements for scientific purposes, namely uranium, polonium, radon, promethium, plutonium, radium, fluorine, and nitrogen; textile-brightening chemicals; cement-waterproofing preparations except paints; brake fluids; kaolin; anti-frothing solutions for accumulators and for batteries; gas purifying preparations; foundry molding preparations; water-purifying chemicals; preparations for preventing the tarnishing of lenses; solvents for varnishes; carbon black for industrial purposes; drilling muds; auxiliary fluids for use with adhesives; degumming preparations; animal charcoal; salt for preserving, other than for foodstuff; color brightening chemicals for industrial purposes; industrial chemicals, namely chemicals for use in the oil refining industry, industrial chemicals for use in the manufacture of polyurethane, industrial chemicals for use in the manufacture of varnish, and waste water treatment chemicals for industrial purposes; chemical preparations for scientific purposes, other than for medical or veterinary use, namely chemical preparations for use in the analysis of biological samples; cinematographic films, sensitized but not exposed; synthetic resins, unprocessed; plasticizers; fireproofing preparations; metal annealing preparations; soldering chemicals; chemical substances for preserving foodstuffs; leather-waterproofing chemicals; adhesives for industrial purposes, namely adhesives for use in the automobile industry, adhesives for use in the construction

industry, adhesives for use in the consumer packaging industry, adhesive for use in the furniture industry, adhesives for use in the manufacture of bandages, adhesives for use in the manufacture of envelopes, adhesives for use in the manufacture of paper, adhesives for use in the manufacture of plywood, adhesives for use in the manufacture of wall coverings, adhesives for use in the textile industry, and synthetic resin adhesives for industrial purposes; paper pulp; automobile tire inflator sealers, namely tire sealing compounds; automobile gasket cement; automobile cooling system rust inhibitors; automobile cooling system leak sealants; automobile brake system leak sealants; chemical preservatives for use as corrosion inhibitors on automobile exhaust systems; automobile power steering system leak sealants; automotive degreasing preparations; mordants, namely etching mordants, and mordants for metals

Class 02

(2) Automotive paints; copying inks; filled ink cartridges for printers; filled ink jet cartridges; ink jet printer ink; toner, namely printing toner, and xerographic toner; dyes, namely, acid dyes, alcohol soluble dyes, direct dyes, dye toners, dyes for wood, food dyes, inks, toners and dyes for use with or on textiles and fabrics, natural dyes, oil soluble dyes, rapid dyes, sulphur dyes, synthetic dyes; photocopier toner; photocopier toner in cartridges; filled toner cartridges; typographic ink; paints, varnishes, and lacquers for handicrafts, and arts; paints for industry, namely paints for industrial equipment and machinery, paints for use in the automobile industry, paints for use in the manufacture of ceramics, anti-corrosion paints, anti-fouling paint, antirust paints used in the merchant shipping industry, and rust-inhibiting paints used in the oil and gas drilling industries; varnishes for industry, namely bitumen varnish, floor protection varnishes, and varnishes for use in cabinet making; lacquers for industry, namely, wood lacquers; preservatives against rust and against deterioration of wood; colorants, namely colorants for concrete, colorants for the restoration of furniture in the form of markers, colorants for use in the manufacture of cosmetics, colorants for use in the manufacture of paint, colorants for use in the manufacture of paper, colorants for use in the manufacture of pharmaceuticals, colorants for use in the manufacture of plastic molding compounds, colorants for use in the manufacture of printing ink, colorants for use in the manufacture of soap, indigo as colorant, malt colorants, turmeric used as a colorant; mordants, namely leather mordants, mordants for dyeing natural fibres, mordants for the textile industry, mordants for wood; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; paints and colorants used for the protection against corrosion; preparations used for the protection against corrosion, namely anti-corrosion greases, anti-corrosion oils, anti-corrosion waxes, and corrosion inhibiting preparations for vehicles; dyestuffs for clothing; colorants for foodstuffs and beverages

Class 04

(3) Additives, non-chemical, to motor fuel; fuel, namely alcohol fuel, aviation fuel, bagasse for use as fuel, benzene fuel, biodiesel fuel, biomass fuel, butane fuel, chafing dish fuel, charcoal for fuel, coal based fuels, diesel fuel, ethanol fuel, fuel for aircraft, fuel for domestic heating, fuel for lighters, fuel for motor vehicles, fuel for ships, fuel from crude oil, fuel gas, fuel oil, fuel pellets, jet fuel, lamp fuel, methanol fuel, methylated spirits for fuel, mineral motor fuel, mixed alcohol fuel, motor fuel, peat briquettes [fuel], propane for use as fuel, solidified gas for fuel, wood chips for use as fuel, wood for use as fuel, wood heating fuel pellets, and xylene fuel; gear oils; grease for machines; industrial greases; industrial lubricants; industrial oils; lubricating grease, namely lubricating grease for use in motor vehicle engines; lubricating oils, namely colza oil for lubricating machinery, industrial lubricating oils, linseed oil for use as a lubricant, lubricating oil for motor vehicle engines, lubricating oil for sewing machines, mineral lubricating oils, rape oil for lubricating machinery, and rifle bore lubricating oil; motor oils; wax emulsions and wax powders for industrial applications; automotive engine oils, greases and lubricants; lubricants, namely all-purpose

lubricants, drilling lubricants, graphite lubricants, industrial lubricants, lubricants for aircraft engines, lubricants for bicycle chains, lubricants for machines, lubricants for musical instruments, lubricants for wakeboard bindings, oil well drilling lubricants, and solid lubricants for industrial purposes; dust absorbing, wetting and binding compositions to control dust pollution; fuels, namely motor spirit; wicks for lighting; lighter fluid; bbq lighting fuel; charcoal briquettes; firewood; candles; floating candles; christmas tree candles; wicks for candles; paraffin; beeswax; carnauba wax; industrial wax; kerosene; lamp oil; lighting fuel; firelighters; tinder; kindling; petroleum jelly for industrial purposes; raw waxes

Class 07

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. The fox is a pink, burgundy and white colour with a flower crown on top of its head. The crown is in front of the ears, placed across the span of the fox's forehead. The colours of the flower crown are pink, purple and violet with small swirls intertwined with the flowers. The logo reads PINK POSH FOX in pink lettering. The fox has its eyes closed with visibly emphasized black eyelashes and it has a fluffy white and reddish pink tail that is large in proportion to the rest of the fox. The fox has black whiskers and a black shiny nose. The fox has a white chest, white tail tip, a white face, and the inside of its ears are white. The outer perimeters of the fox's body is darker in colour (burgundy), and towards the inner parts of the fox the colour lightens into a reddish pink colour, and then eventually to a white colour. The fox is facing towards the right, and slightly on its side, where 3/4 of its body is visible to the viewer.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. The mark consists of a black circular design that is outlined along its inner and outer borders by concentric orange circles. The word DREAMFIELDS in white letters extends across the top portion of the black circular design. A blue arcuate design element extends across the bottom portion of the black circular design, and the words HEALTHY PASTA LIVING in white letters extend over the blue arcuate design. Inside the center of the circular design is a depiction of a wheat field in brown beneath a blue sky with white clouds. Superimposed over the wheat field and sky is the letter D, which is translucent such that the wheat field and sky can be seen through the D, and which has a white shadow.
