# Trademarks Journal

## Vol. 68 No. 3496

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

### Colour Claim

Colour is claimed as a feature of the trademark. The colours black and blue are claimed as a feature of the mark. The word PRESTO! is black, and the circular devices above the word PRESTO! are blue.

### Goods

#### Class 08

(1) Cutlery; cutlery for use by babies; disposable tableware [cutlery] made of plastics; table cutlery [knives, forks and spoons]

#### Class 16

(2) Trash can liners; paper coffee filters

#### Class 21

(3) Plates; paper plates; dinnerware of porcelain; table plates (disposable); disposable table plates; coffee filters, non-electric; coffee filters, not of paper, being part of non-electric coffee maker; paper cups; plastic cups

### Services

#### Class 35

Advertising the goods and services of others; business management; business administration; office functions; retail services and online retail services connected with the sale of disinfectant soap, dishwasher detergents, soap, liquid soap, hand soaps, laundry powder, laundry detergents, laundry fabric conditioner, laundry detergents for household cleaning use, glass cleaners, furniture cleaner, toilet cleaners, upholstery cleaners, spray cleaners for household use, spray cleaners for

use on textiles, natural starches for laundry purposes, shampoo, hair conditioner, hair shampoo, bath oil, hair oils, sunblock, sunscreen, waterproof sunscreen, sun-tanning gels, after sun creams, after-sun lotions, sun care lotions, SPF sun block sprays, air fragrance preparations, household bleach, fragrance for household purposes, cleaning preparations for household purposes, cleaning substances for household use, stain removing preparations for use on household goods, disinfectants, disinfecting handwash, disinfectants for household use, first aid kits, sanitizers for household use, air fresheners, air purifying preparations, preparations for deodorizing the air, all purpose deodorizing preparations for household, commercial or industrial use, cutlery, cutlery for use by babies, disposable tableware [cutlery] made of plastics, table cutlery [knives, forks and spoons], trash can liners, paper coffee filters, plates, paper plates, dinnerware of porcelain, table plates (disposable), disposable table plates, coffee filters, non-electric, coffee filters, not of paper, being part of non-electric coffee makers, paper cups and plastic cups; customer loyalty rewards program for shoppers; information, advisory and consultancy services in the field of advertising the goods and services of others, business management, business administration, office functions; information, advisory and consultancy services in the field of retail services and online retail services connected with the sale of disinfectant soap, dishwasher detergents, soap, liquid soap, hand soaps, laundry powder, laundry detergents, laundry fabric conditioner, laundry detergents for household cleaning use, glass cleaners, furniture cleaner, toilet cleaners, upholstery cleaners, spray cleaners for household use, spray cleaners for use on textiles, natural starches for laundry purposes, shampoo, hair conditioner, hair shampoo, bath oil, hair oils, sunblock, sunscreen, waterproof sunscreen, sun-tanning gels, after sun creams, after-sun lotions, sun care lotions, SPF sun block sprays, air fragrance preparations, household bleach, fragrance for household purposes, cleaning preparations for household purposes, cleaning substances for household use, stain removing preparations for use on household goods, disinfectants, disinfecting handwash, disinfectants for household use, first aid kits, sanitizers for household use, air fresheners, air purifying preparations, preparations for deodorizing the air, all purpose deodorizing preparations for household, commercial or industrial use, cutlery, cutlery for use by babies, disposable tableware [cutlery] made of plastics, table cutlery [knives, forks and spoons], trash can liners, paper coffee filters, plates, paper plates, dinnerware of porcelain, table plates (disposable), disposable table plates, coffee filters, non-electric, coffee filters, not of paper, being part of non-electric coffee makers, paper cups and plastic cups; information, advisory and consultancy services in the field of customer loyalty rewards program for shoppers

(1) Blank magnetic data carriers, namely blank magnetic discs, blank laser discs, blank optical discs, blank flash memory cards and blank USB flash drives; Blank digital recording media, namely blank CD-ROMs, blank digital audio discs, blank digital audio tapes, and blank secure digital (SD) cards; Pre-recorded magnetic data carriers, namely pre-recorded magnetic discs, pre-recorded laser discs, pre-recorded optical discs, prerecorded flash memory cards, pre-recorded USB flash drives, and pre-recorded digital audio tapes all containing software information for creating, sharing, and running engineering applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for the automated storage, analysis and reporting of engineering data related to products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft

transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published reliability prediction standards of mathematical formulas for modelling and calculating the failure rate of third-party products and components affected by environmental conditions, construction quality levels, as well as load and stress conditions in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil & gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft and aerospace industries, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for implementing a web-based access to Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for use in database management, for running development programs and application programs in a common development environment, for two and three dimensional simulation for use in design and development of products and components for

automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Blank recording discs, namely blank audio discs, blank floppy discs and blank hard discs, blank compact discs; Blank DVDs;; Pre-recorded recording discs, namely pre-recorded audio discs, pre-recorded floppy discs, and pre-recorded hard discs, pre-recorded compact discs, and pre-recorded DVDs all containing software information for creating, sharing, and miming engineering applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for the automated storage, analysis and reporting of engineering data related to products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published standards in the field of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft

transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil & gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft and aerospace industry, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for implementing a web-based access to Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for use in database management, for running development programs and application programs in a common development environment, for two and three-dimensional simulation for use in design and development of products and components for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Pre-recorded digital recording media, namely pre-recorded CD-ROMs, pre-recorded audio digital discs, pre-recorded digital audio tapes, and pre-recorded secure digital (SD) memory cards all containing software information for creating, sharing, and running engineering applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft

transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published reliability prediction standards of mathematical formulas for modelling and calculating the failure rate of third-party products and components affected by environmental conditions, construction quality levels, as well as load and stress conditions in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil and gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft and aerospace industry, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for implementing a web-based access to Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for use in database management, for running development programs and application programs in a common development environment, for two and three-dimensional simulation for use in design and development of products and components for

automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Computer software for health and usage monitoring of computer network systems, for operational usage severity and prognostics of computer network systems for use in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Computer programs [downloadable software] for creating, sharing, and running engineering applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for the automated storage, analysis and reporting of engineering data related to products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published reliability prediction standards of mathematical formulas for modelling and calculating the failure rate of third-party products and components affected by environmental conditions, construction quality levels, as well as load and stress conditions in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication

computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil and gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft and aerospace industry, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for two and three-dimensional simulation for use in design and development of products and components for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Computer software applications, downloadable, for creating, sharing, and running engineering applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for the automated storage, analysis and reporting of engineering data related to products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation,

aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published reliability prediction standards of mathematical formulas for modelling and calculating the failure rate of third-party products and components affected by environmental conditions, construction quality levels, as well as load and stress conditions in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil and gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft and aerospace industry, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for two and three-dimensional simulation for use in design and development of products and components for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network.

(2) Handbooks [manuals]

**Services****Class 41**

(1) Education services, namely providing classes, courses, seminars and workshops in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Providing training in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Practical training services, namely providing educational demonstrations in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Arranging and conducting of seminars in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace engineering, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Arranging and conducting of symposiums in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Arranging and conducting of workshops in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering, automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing.

**Class 42**

(2) Scientific and technological services, namely scientific research, technical consulting, development and testing of embedded software and electronics, and providing quality assurance all in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Software design and development; Cloud computing, namely cloud computing providing software for creating, sharing, and running engineering

applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for the automated storage, analysis and reporting of engineering data related to products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published reliability prediction standards of mathematical formulas for modelling and calculating the failure rate of third-party products and components affected by environmental conditions, construction quality levels, as well as load and stress conditions in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil & gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft

and aerospace industry, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for implementing a web-based access to Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for two and three-dimensional simulation for use in design and development of products and components automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Computer programming; Computer software design; Rental of computer software; Computer software consultancy; Computer programs and document data conversion from one media format to another; Electronic data storage, namely cloud computing provider services for general storage of data; Engineering services, namely engineering surveying services, and aerospace, chemical, civil, electrical, genetic, geotechnical, mechanical, nuclear, and sanitation engineering services; Providing information on computer technology and programming via a web site; Installation of computer software; Maintenance of computer software; Monitoring of computer systems by remote access; Off-site data backup, namely off-site data backup storage of electronic records for others; Research and development of new products for others; Outsource service providers in the field of information technology, namely outsource service providers in the fields of providing quality assurance in the field of computer software, computer software consultancy, computer hardware consultancy, and computer programming; Research and development of new products for others; Software as a service [SaaS] provider in the field of software for creating, sharing, and running engineering applications in order to analyse processes to identify critical load and stress locations and calculating realistic life expectancy of third-party products and components by performing durability analysis, as well as performing acoustics and vibration analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for the automated storage, analysis and reporting of engineering data related to products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering and information concerning the reliability life data analysis, for accelerated test planning, and for quantitative

accelerated life testing data analysis of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for system reliability, availability, maintainability and analysis for building and running complex analyses for any probabilistic and deterministic scenario related to the engineering of products and components designed for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for applying reliability growth models to analyze data from developmental testing and fielded repairable computer systems, network systems, machine systems, mechanical systems, electrical systems and electromechanical systems by observing the failures during the testing of the operation of third-party products and components for critical load and stress test to proactively find and repair durability issues in these products and components to extend their life expectancy as used in automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating reliability prediction statistical analysis based on the major published reliability prediction standards of mathematical formulas for modelling and calculating the failure rate of third-party products and components affected by environmental conditions, construction quality levels, as well as load and stress conditions in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for qualitative analysis and reporting of Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for facilitating the Reliability Centered Maintenance analysis approach for creating scheduled maintenance plans for power generation, oil and gas, chemical plants, and manufacturing, for facilitating Risk Based Inspection analysis for oil and gas, chemical and power plants, for creating Maintenance Steering Group compliant maintenance programs for the aircraft and aerospace industry, for implementing and accessing a web-based computer software for reporting failures and faults found in third-party computer systems, network systems, machine systems, mechanical systems, electrical systems, electromechanical systems, equipment, software, and processes, for performing analysis to identify the root cause of these failures and faults, and for identifying, implementing and verifying corrective actions to prevent further recurrence of these failures and faults all in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for implementing a web-based access to Failure Mode and Effects Analysis data to determine potential malfunctions and identify all possible failures in third-party architectural and industrial designs, in third-party manufacturing and assembly processes, and in third-party products and components, as used in automotive, ground

vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, for use in database management, for running development programs and application programs in a common development environment, for two and three-dimensional simulation for use in design and development of products and components for automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and for use in providing multiple user access to a global computer information network; Technical research in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of, automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Technical project studies in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering, in the fields of automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Technological consultancy in the fields of computer science, computer software, computer hardware, computer programming, computer, product and civil engineering in the fields of, automotive, ground vehicle transportation, aircraft transportation, watercraft transportation, aerospace, national military defense, telecommunication electrical engineering, telecommunication computer engineering, sound engineering, computer systems development, power generation, oil and gas, chemical and structural engineering, and material testing; Material testing; Updating of computer software.

### Goods

#### Class 06

(1) Promotional items, namely, graphic license plates of metal; metal bottle stoppers

#### Class 08

(2) Gardening tools

#### Class 09

(3) Promotional items, namely, authentic and replica football helmets, fridge magnets, sunglasses; authentic and replica helmets, namely, football helmets; lanyards for eyeglasses; computer games for use on mobile phones, cellular phones, handheld computers and personal digital assistants; applications for cellular phones, handheld computers and personal digital assistants in the form of downloadable sports games and sports fantasy games; smart phone cases; promotional items, namely, video games

#### Class 11

(4) Kitchen accessories, namely, hot water bottles; globe lights, patio lights; BBQ accessories, namely, grill covers

#### Class 12

(5) Boating accessories, namely, headrest covers, boat seats, steering wheel covers; RV and truck spare tire covers; bumper steps for vehicles; trailer hitches, trailer hitch covers

#### Class 14

(6) Promotional items, namely, key chains, pewter pins, lapel pins, pewter medallions and key chains

#### Class 16

(7) Promotional items, namely, paper flags, ballpoint pens and pencils, paper pads, pennants of paper, paper plates, table cloths of paper, table napkins of paper, printed tags, vinyl decals and bumper stickers, trading cards; lanyards for holding visitors cards; kitchen accessories, namely, placemats made of paper; document portfolios

**Class 17**

(8) Rubber bottle stoppers

**Class 18**

(9) Sports equipment, namely, golf umbrellas; tote bags; beach accessories, namely, tote bag for travel blanket, beach bag, beach umbrella; patio table umbrellas

**Class 19**

(10) Lawn ornaments of stone, marble, plastic and concrete

**Class 20**

(11) RV accessories, namely, camp chairs, picnic tables, tailgate tables, namely folding tables; beach accessories, namely, beach chair; promotional items, namely, novelty license plates of plastic

**Class 21**

(12) Promotional items, namely, plastic travel mugs and cups, acrylic drink coasters, ceramic salt and pepper shakers, collector dinner plates, glass drinking vessels, ceramic/porcelain drinking vessels, glass candy jar, glass decanter, plastic beer steins and pitchers, plastic travel mugs and cups, simulated stained glass, travel mugs, travel cups, water bottles; BBQ accessories, namely BBQ grill sets consisting of grill tongs and spatula, cooking mats for barbecues, grill tongs, utensils for barbecues, namely, spatulas; RV accessories, namely, beverage coolers; bathroom accessories, namely, toothbrushes, toothbrush holders, soap dishes, wastebaskets, soap dispensers, tissue box covers, facial tissue holders; kitchen accessories, namely, dish soap dispensers, cutting boards, oven mitts, bottle openers, coasters, namely, drink coasters, glass coasters; beach accessories, namely, cooler bags, foldable water bottle; cooking utensils; beach accessories, namely, lunch bags of textile

**Class 22**

(13) RV accessories, namely, awning covers; tents, pop up tents

**Class 24**

(14) Promotional items, namely, cloth flags, table cloths of textile, pennants of textile, table napkins of textile, banners and flags of textile; bathroom accessories, namely, shower curtains; kitchen accessories, namely, placemats of textile material; beach accessories, namely, beach towel; drapes; bedding, namely, pillow cases and bed sheets

**Class 25**

(15) Clothing, namely parkas, vests, namely, sports vests, fleece vests, fleece wear, namely, fleece jackets, fleece pants, fleece shirts, pants, shorts, golf shirts, jumpsuits, sweatshirts, t-shirts, polo shirts, wind shirts, blanket sleepers, button down shirts, jackets, replica and authentic jerseys, aprons; headwear, namely, bandannas, scarves, headbands, toques, caps; promotional items, namely bath robes

**Class 26**

(16) Promotional items, namely, novelty buttons, novelty pins, shoelaces, zipper pulls

**Class 27**

(17) RV accessories, namely, mats, namely, floor mats for automobiles, door mats; bathroom accessories, namely, bath rugs, bath mats; boating accessories, namely, decorative mat; area rugs

**Class 28**

(18) Promotional items, namely, Christmas ornaments, embossed footballs, miniature toy trophies, playing cards, plush toys; sports equipment, namely footballs, golf balls, divot tools, putters, golf club head covers, official game footballs, autographed footballs; beach accessories, namely, inflatable tube for swimming; table top games

**Class 30**

(19) Hot sauce; bottled seasoning sauces, namely, barbecue sauce, hot sauce, pepper sauce, meat sauce

**Class 34**

(20) Promotional items, namely, lighters, ceramic ashtrays

**Services**

**Class 35**

(1) Services of promoting the goods and services of others through promotional contests and the distribution of related printed material; Online retail sale of apparel, namely jackets, jerseys, sweatshirts, t-shirts, headwear, namely, caps and visors, glassware, namely mugs and glasses, and promotional items, namely helmets, mini helmets, pins and glassware, namely glasses

**Class 38**

(2) Online broadcast of football games on the Internet; providing an interactive online forum for the discussion of news, articles, photos and videos related to the game of football, professional football players and the football leagues

**Class 41**

(3) Entertainment services in the form of televised professional football exhibitions and football games; education and entertainment services, namely, organization of sports activities and sports events namely, football games, entertainment services provided during intervals at sports events namely, live entertainment shows, namely, school bands, cheerleaders, school football game demonstrations, acrobatics, gymnastics, musicals, professional musical acts, dance troupes and exhibitions displaying sports paraphernalia, arranging and organizing of competitions namely, arranging and organizing of football competitions, physical education programs; production of radio and television programs, entertainment in the form of football games; Entertainment services, namely the organization of sports events in the field of football; Providing news, articles, photos and videos related to the game of football, professional football players and the football leagues by means of an Internet website, online blog and social media; Providing news, articles, photos and videos related to the game of football, professional football players and the football leagues by means of a multimedia application for mobile phones, cellular phones, handheld computers and personal digital assistants; Online video gaming services; Entertainment services, namely, online sports games consisting of fantasy sports leagues and contests; Providing information relating to fantasy sports leagues and contests via a website; providing fantasy sports news information via a website

(3) essential oils for use as food flavourings, essential oils for flavouring beverages; bleaching preparations for laundry; starch for laundry; cosmetics; perfumery; beauty masks; adhesives for affixing wigs; cleaning preparations, namely, all-purpose cleaning preparations, ammonia for cleaning purposes, canned pressurized air for dusting and cleaning purposes, carburetor and choke cleaning preparations, carpet cleaning preparations, cleaning preparations for cleansing drains, cleaning preparations for leather, cleaning preparations for plant leaves, cleaning preparations for vehicle tires and wheels, drain cleaning preparations, dry cleaning preparations, glass cleaning preparations, hand cleaning preparations, oven cleaning preparations, wallpaper cleaning preparations, windshield cleaning preparations; beauty soap; dentifrices; shoe polish; cosmetics for animals; pre-moistened cosmetic tissues; tissues impregnated with a skin cleanser;

abrasives, namely, abrasives for preparing nail surfaces for nail polish, abrasives for re-surfacing materials before painting, general use abrasives, silicon carbide abrasives, skin abrasives; polishing preparations, namely, wood treatment preparations for polishing, polishing creams, polishing rouge, polishing wax, carnauba polishing wax for automobile use, carnauba polishing wax for marine use, chrome polish, leather polishes, nail polish, floor polish; laundry preparations, namely, laundry bleach, laundry brightener, laundry detergents, laundry fabric conditioner, laundry glaze, laundry pre-soak, laundry soap, laundry stain removers, laundry starch, laundry wax; toiletry preparations, namely, douching toiletry preparations for personal sanitary and deodorant purposes, oils for toiletry purposes; essential oils, namely, aromatic essential oils, essential oils as perfume for laundry purposes, essential oils for cosmetic purposes, essential oils for personal use, essential oils for the manufacture of perfumes, essential oils of cedarwood, essential oils of lemon; adhesive for artificial eyelashes, hair and nails; abrasive preparations, namely, scouring solutions, abrasives for re-surfacing materials before painting, general use abrasives

#### **Class 04**

(4) Industrial oils; industrial grease; dust absorbing, humidifying and adsorption agents, namely, dust binding compositions for sweeping, dust laying and absorbing compositions for use on unpaved roads, dust removing preparations, petroleum-based dust suppressing compositions; grease for footwear; leather-preserving oils and greases; Wicks for oil lamps; Solid fuels, namely, solidified gas for fuel, fuel pellets, charcoal for use as fuel, coal based fuels, bagasse for use as fuel; Gaseous fuels, namely, butane gas for use as fuel, fuel gas; Liquid fuels, namely, alcohol fuel, aviation fuel, benzene fuel, biodiesel fuel, denaturated fuel alcohols, diesel fuel, ethanol fuels, fuel for domestic heating, fuel for lighters, fuel for ships, fuel oil, fuels derived from crude oil, lamp fuels, methanol fuel, mineral motor fuel, mixed alcohol fuel, motor fuel, propane for use as fuel, xylene fuel; Industrial oil; Wax (raw material), namely, wax for industrial purposes; Nightlights [candles], namely, candles for lighting; Candles; Industrial wax; Tealights; Scented candles; Fuel for lighters; Tinder; Fuel from crude oil; Candles and wicks for lighting; Logs, namely, fireplace logs

#### **Class 05**

(5) Pharmaceutical preparations for the treatment of gastrointestinal disorders, hematological diseases and disorders, oncological diseases and disorders, inflammatory muscle diseases and disorders, respiratory diseases, disorders and infections, cancer, immunologic diseases, namely, autoimmune diseases, immunologic deficiency syndromes, hepatitis, HIV infection, arthritis, kidney diseases and disorders, antiviral pharmaceutical preparations, antifungal pharmaceutical preparations, anti-inflammatory pharmaceutical preparations, anti-infective pharmaceutical preparations, anti-fibrotic pharmaceutical preparations; Milk sugar for the treatment of gastrointestinal disorders, hematological diseases and disorders, oncological diseases and disorders, inflammatory muscle diseases and disorders, respiratory diseases, disorders and infections, cancer, immunologic diseases, namely, autoimmune diseases, immunologic deficiency syndromes, hepatitis, HIV infection, arthritis, kidney diseases and disorders; Powdered milk for babies; Allpurpose disinfectants; veterinary preparations for the treatment of gastrointestinal disorders, hematological diseases and disorders, oncological diseases and disorders, inflammatory muscle diseases and disorders, respiratory diseases, disorders and infections, cancer, immunologic diseases, namely, autoimmune diseases, immunologic deficiency syndromes, hepatitis, HIV infection, arthritis, kidney diseases and disorders; Fabric deodorizers; Microorganisms for the treatment of gastrointestinal disorders, hematological diseases and disorders, oncological diseases and disorders, inflammatory muscle diseases and disorders, respiratory diseases, disorders and infections, cancer, immunologic diseases, namely, autoimmune diseases, immunologic deficiency syndromes, hepatitis, HIV infection, arthritis, kidney diseases and disorders; First-aid boxes, filled; Bandages for dressings; Sticking plasters; Sanitary

pads; Cotton for medical purposes, namely, cotton buds for medical purposes, cotton sticks for medical purposes, cotton swabs for medical purposes; Teeth filling material; Babies' diapers (napkins); Medicated diapers, namely, medicated paper diapers, medicated textile diapers; Adult diapers; Adhesives for catching flies; Mothproofing paper; Food for babies; Medical and surgical plasters; Pollen prepared as foodstuff, namely, pollen dietary supplements; dental porcelain materials

### **Class 06**

(6) Ores of metal; Pot hooks of metal; Baskets of common metal; Signboards of metal; Memorial cups of metal; Traps for wild animals; Stakes of metal for plants and trees; Prefabricated animal houses of metal; Ladders of metal; Towel dispensers of metal; Train and bus ticket holders of metal; Casks of metal; Boxes of metal, namely, decorative metal boxes, metal lock boxes, metal cash boxes, mail boxes, metal strong boxes; Bungs of metal; Fittings of metal for furniture; Door scrapers of metal; Letter boxes of metal; Tombstone plaques of metal; Shoe pegs of metal; Ferrules of metal for canes and walking-sticks; Furnace fireguards of metal; Screws of metal; locks of metal, namely, bicycle locks of metal, locks of metal for doors, locks of metal for vehicles, locks of metal for windows, metal sash locks, spring locks, trigger locks of metal; Claws of metal for vice; Filings of scrap metal for reclaiming and refining; Steel, unwrought and semi-wrought; non-ferrous metals and their alloys; Solder; Materials of metal for exclusive use in building and construction, namely, anchor bolts of metal for use in bridge construction, cladding of metal for construction and building, drains of metal for use in the construction of basement waterproofing systems, materials of metal for railway construction, metal brackets for use in the construction and assembly of decking, metal staples for construction or industrial use, refractory construction materials of metal, steel angles for use in building construction; Tiles of metal, namely, metal ceiling tiles, metal floor tiles, metal wall tiles, roof tiles of metal, tiles of metal for building; Buildings of metal, namely, portable mobile metal office buildings; Palings of metal; Non-luminous and non-mechanical traffic signs of metal; Wire stretchers (tension links); Loading pallets of metal; Marine anchors; Foundry molds (moulds) of metal; Artificial fish reefs of metal; Booths of metal for spraying paint; Valves of metal (other than for machines), namely, water-pipe valves of metal; Rocket launch-platforms of metal; Diving boards of metal; Tent pegs of metal; Spurs; Buckles of metal, namely, metal buckles for use with strapping; Ropes of metal; Metal nets, namely, rock-slide retention wire nets, wire nets; Works of art of metal (not of precious metal); Metal pipes and tubes, namely, branching pipes of metal, drain pipes of metal, pipes of metal for central heating installations, gutter pipes of metal, metal branching pipes, metal penstock pipes, metal sewer pipes, metal water pipes, sewer pipes of metal, pipes of metal for liquid and gas transfer; Metals and metal alloys; Sleeves of metal for cable junction; Monuments of metal; germanium

### **Class 07**

(7) Aquarium pumps; Electrically operated brushes (parts of machines), namely, brushes for vacuum cleaners, dynamo brushes, rotary brushes for machines; Stamping machines; Automatic vending machines; Gas pumps (gas station equipments); Non-manual Lawnmowers (machines); Electric door opening and closing apparatus, namely electric door closers; electric door openers; elevators (lifts); Automatic grapnels for marine purposes; Excavators; Cutters (machines), namely, chaff cutters, fodder cutting machines, gear cutters for use as a machine tool, milling cutters for milling machines, rechargeable hedge cutters, tree stump cutters, trench cutters; Mining machines, namely, extractors for mines, mine borers, truck mills for mining purposes; Civil engineering machinery, namely, earth moving scrapers, road scrapers, trench cutters, coal loaders, crawler-tracked loaders, front-end loaders, graders, backhoes; Agricultural machines, namely, agricultural balers, agricultural cultivators, agricultural elevators, agricultural equipment for seeding, agricultural land fertilizing equipment, agricultural aircraft spray nozzles, agricultural plows,

agricultural reaper machines, tilling machines for agricultural purposes; Milking machines; Incubators for eggs; Fishing machines, namely, winches, pumps for removing water from boats, centrifugal pumps; Chemical machines for industrial purposes, namely, calcining machines for chemical processing, agitators for chemical processing, extracting machines for chemical processing; Waste disposal machinery, namely, waste conveying machines, waste separator machines, waste compacting machines, waste crushing machines; Textile machines, namely, machines for dyeing textiles, printing machines for textile, raising machines for textile treating, rotary presses for textiles, pray damping machines for textile treatment, textile calendering machines, textile scutching machines, textile tentering machines, textile washing machines for industrial purposes; Food and drink processing machines for industrial purposes, namely, electric food blenders, electric food choppers, electric food processors, electric food slicers, food peeling machines for commercial use, packaging machines for food, aerated beverage making machines, machines for the mineralisation of drinking water; Carpentry machines, namely, circular saws for woodworking, laser engraving machines, sanding machines for woodworking, saw-tooth setting machines for woodworking saws, woodworking dust collectors; Pulp processing machines; Printing machines, namely, embossing printing machines, flexographic printing machines, intaglio printing machines, photogravure printing presses, planographic printing machines, printing machines for textile, printing machines for use on sheet metal, printing presses, rotary printing presses, silk screen printing machines; Sewing machines; Leather processing machines, namely, leather paring machines, leather tanning machines; Tobacco processing machines; Glass processing machines, namely, waterjet cutting machines, double edging grinding machines; Painting machines; Packing machines; Motive power machines (other than for land vehicles), namely, locomotive cranes; Pumps and compressors as parts of machines, motors and engines; Power transmissions and gearings (other than for land vehicles), namely, power transmissions and gearing for machines; Shock absorbers for machine (other than for vehicles); Braking devices for machine (other than for vehicles), namely, brakes for industrial machinery; band brakes for machines; Engine bearings; Windmills, namely, wind turbines; Cleansing machines, namely, carpet cleaning machines, central vacuum cleaning installations, cleaning machines for aviation engines, cleaning machines for ponds, floor cleaning machines, sand cleaning machines, steam cleaning machines; Parking machines, namely, power-operated lifts for moving, parking and storing land vehicles; Rubber processing machines, namely, rubber forming machines; rubber mixing machines; 3D printers; Motors (except for land vehicles) , namely, hydraulic motors for excavators, linear motors, milling grinding motors, motors and engines used in industrial applications, motors for boats, outboard motors, winch motors, elevator motors, direct current motors, airplane motors, alternating current servo motors; Laundry washing machines for household use; Robots, namely, industrial robots, robotic vacuum cleaners; Electrodes for welding machines; Sericultural machines, namely, silk yarn bundling machines, silk yarn rereeling machines, silk yarn reeling machines; Sorting machines for industry, namely, rice grain sorting machines, sand sorting machines, sorting machines for chemical processing, tea leaves sorting machines; Couplings for machines and transmission gear components (except for land vehicles); Dairy machines, namely, homogenizers, milk separators, batch mixers, continuous freezers, fillers, ageing vats, batch freezers, batch pasteurisers, fruit feeders, emulsifiers, cutters, packers; Engines (except for land vehicles), namely, airplane engines, boat engines, diesel engines for concrete mixers, diesel engines for industrial machinery, engines for the generation of electricity, engines for air cushion vehicles, engines for industrial machinery, engines for model vehicles, jet engines, steam engines, rocket engines; Taps (machine, engine and motor components), namely, taps for use with machine tools; Food peeling machines for commercial use; Coffee grinders, other than hand-operated, namely, electrical coffee grinders; emergency power generators; check valves

**Class 08**

(8) Tableware, namely knives, forks and spoons; Ironwares for fireplace, namely, fireplace bellows, fireplace pokers, fireplace shovels, fireplace tongs; Flat irons; Multi-purpose office knife; Knives for processing, namely, budding knives, butcher knives, carpet knives, carving knives, ceramic knives, chef knives, dough knives, drawing knives, farriers' knives, filleting knives, fleshing knives, jack knives, linoleum knives, mincing knives, palette knives, pruning knives, razor knives, scaling knives, scoring knives for veneer sheets; Side arms, other than firearms, namely, hunting knives, Japanese swords, sword canes, sword scabbards; Hammers (hand tools), namely, claw hammers, hand operated hammers, stone hammers; Knife sharpeners; Saws (hand tools), namely, bow saws, hack saws, hand saws, jig saws, metal cutting saws, pit saws, saws for cutting branches; Money scoops, namely, coin scoops; Bars for self-protection, namely, bludgeons; Agricultural implements, hand-operated, namely, broadforks for agricultural purposes, hand-operated atomizers for agricultural purposes; Hand-operated lasts for shoe-making; Hand pumps, namely, handoperated pumps for pumping well water; Electric razors; Scrapers for skis; Mountaineering pickels (ice axes); Sand trap rakes; Scissors; Knives, namely, biodegradable knives, bread knives, butter knives, cake knives, cheese knives, compostable knives, dessert knives, disposable knives, folding knives, fruit knives, hobby knives, household knives, hunting knives, jack knives, kitchen knives, knives for hobby use, pocket knives; Shovels; Razors; Portable multi-function hand tools; Manicure sets

**Class 09**

(9) DNA chips; Processed glass (not for construction), namely, anti-glare glasses, bullet proof glass; Sliderules; Protective shoes, namely, shoes for protection against accidents; Electric locks, namely, electric locks for vehicles, electronic door locks ; Carpenters' rules; Physical and chemical laboratory apparatus and instruments, namely, chromatography apparatus for laboratory use, biological safety cabinets for laboratory use, centrifuges for laboratory use, constant humidity incubators for laboratory use, constant temperature incubators for laboratory use, disposable dispenser syringes for laboratory use, disposable gloves for laboratory use, distillation columns for laboratory use, electrodes for laboratory research, flasks for laboratory use, furnaces for laboratory use, gas mixers for laboratory use, gasifiers for laboratory use, glass driers for laboratory purposes, glassware for laboratory use, incubators for laboratory use, laboratory baths, laboratory calipers, laboratory centrifuges, laboratory furniture, laboratory ovens, laboratory pipettes, laboratory robots, laboratory scales and balances, laboratory slides, laboratory stirrers, laboratory storage tubes, laboratory swabs, laboratory test tubes, laboratory thermometers, laboratory trays, magnetic agitators for laboratory use; Optical apparatus and instruments except for glasses and photographic apparatus, namely, blank optical discs, digital photo-optical systems, electrical and optical cables, optical amplifiers, optical breadboards, optical character recognition apparatus, optical condensers, optical frequency metrology devices, optical multiplexers, optical profilers, optical reflectors, optical scanners, optical sensors, optical shutters, optical switches, optical transceivers, optical transmitters; Photographic apparatus and instruments, namely, 35mm cameras, adapter rings for camera lenses, bellows for cameras, bipods for cameras, camera flashes, camera lenses, camera shutters, cameras, cinematographic cameras, closed circuit television cameras, compact digital cameras, dashboard cameras, digital cameras, disposable cameras, helmet cameras, infrared cameras, monopods for cameras, multipurpose cameras, selfie sticks for use with digital cameras, TV cameras, video cameras, web cameras; Precision measuring apparatus, namely, wire diameter measuring devices, screw-thread measuring machines and instruments, apparatus for measuring the thickness of skins; Eyeglasses; Calculation instruments, namely, calculators, electronic calculators, handheld calculators, pocket calculators; Mechanisms for coin-operated apparatus, namely, coin-operated gates for parking

lots, coin-operated mechanisms for television sets, coin-operated mechanisms for vending machines, coin-operated musical automata; Lifesaving apparatus and equipment, namely, lifesaving rafts, life-saving capsules for natural disasters, life-saving vests for dogs; Automatic fire extinguishing apparatus, namely, fire extinguishers, fire-extinguishing blankets; Alarms, namely, alarms for the detection of inflammable gases, baby alarms, burglar alarms, door alarms, fire alarms, gas alarms, personal security alarms; Mechanical traffic signals; Divers' apparatus, namely, air tanks for scuba diving, buoyancy bladders for diving, compressed air bailout units for diving, diving boots, diving gloves, diving goggles, diving heel straps, diving helmets, diving masks, diving regulators, diving snorkels, diving suits, diving weight belts, diving weights, rebreathers for diving, wet suits for scuba diving; Life boats (rafts); Satellites; Fire engines; Electric fences; Egg-candlers; Ionization apparatus not for the treatment of air and water, namely, ionizers for laboratory use; Electrical controllers, namely, electrical controllers for diesel engines, electrical controllers for ovens, electrical controllers for traffic lights, electrical servo motor controllers, electrical speed controllers, electrical controllers for flight control systems, electrical controllers for furnaces; Neon signs; Electric batteries, namely, automotive batteries, batteries for cell phones, batteries for electronic cigarettes, batteries for hearing aids, batteries for pocket lamps, electric storage batteries; Electricity measuring apparatus and instruments, namely, ohmmeters, ammeter, voltmeter, frequency meters, luminous flux meters; Electric wires; Electric door bells; Electric audio and visual apparatus and instruments, namely, video projectors, cinematographic projectors, microphones, audio speakers, sound mixers; Ear phones; Telecommunication machines and implements, namely, telephone terminals, video display terminals, single-channel radio communication machines and apparatus for fixed stations, digital signal processors, satellite processors, video processors, computer hardware for telecommunications, multiplexers, cell phones, telephones, satellites, satellite processors, satellite receivers, satellite telephones, satellite transmitters; Wireless earset, namely, ear buds; Laboratory robots; Computer software, namely, computer fingerprint scanning software, computer screensaver software, e-commerce software to allow users to perform electronic business transactions via a global computer network; Computer hardware and computer peripheral devices, namely, computer keyboards, computer mouse, computer touchscreens, touch screen pens, computer joysticks, computer scanners, computer speakers, computer printers, digital plotters, computer screens, computer display monitors; Semi-conductors; Electric plugs; Video game cartridges and cassettes; Sports whistles; Protective gloves, namely, gloves for protection against x-rays for industrial purposes, protective metal gloves for meat cutting; Helmets, namely, sports helmets, boxing helmets, crash helmets, diving helmets, for bicycles, helmets for motorcyclists, horse riding helmets, welding helmets; Respiratory masks, other than for artificial respiration, namely, dust protection masks; Protective clothing, namely, clothing for use in welding for protection against accidents or injury, clothing for protection against biological hazards, clothing for protection against chemicals and radiation, clothing for protection against fire, articles of protective clothing for wear by motorcyclists for protection against accident or injury, insulated clothing for protection against accidents or injury, shoes for protection against accidents, shoes for protection against fire, shoes for protection against irradiation; Electronic media pre-recorded with music, namely, CD music recordings, prerecorded audio tapes featuring music, downloadable music, prerecorded DVDs featuring music, prerecorded music videotapes; Metronomes; Electronic media pre-recorded with non-music (excluding computer software), namely, video disk players, video processors, video multiplexers, wearable video display monitors; Downloadable coupon; Exposed cinematographic films; Downloadable electronic publication, namely, downloadable electronic newspapers, downloadable digital books, downloadable electronic publications in the nature of magazines; Goggles, namely, camera goggles, diving goggles, dust goggles, goggles for motorcyclists, goggles for scuba diving, goggles for skiing, goggles for sports, goggles for swimmers, night vision goggles, safety goggles, snow goggles,

welding goggles; CDs, namely, blank CDs, pre-recorded CDs containing audio and video clips; Control instruments for boiler, namely, electrical controllers for boilers; Apparatus for emergency and rescue, namely, emergency light bars for vehicles, emergency signal transmitters, emergency warning lights, electronic flashing rescue flares, rescue sleds, ring buoys for use in water rescue; Audiovisual teaching apparatus, namely, humanoid robots with artificial intelligence, resuscitation mannequins, computer programs for use in teaching children to read; Monitors, namely, baby monitors, digital signage monitors, dust emission monitors, gas flow monitors, ; Safety appliances for railway transportation, namely, railway transportation safety appliances for monitoring electronic vibration, electronic shock, motion, angle of wheels, temperature and voltage; Mounting devices for cameras and monitors, namely, helmet camera mounts, brackets for mounting computer monitors, brackets for mounting TV monitors;, namely, antireflective lenses, bifocal contact lenses, camera lenses, contact lenses, correcting lenses, eyeglass lenses, microscope lenses, lenses for monocles, lenses for telescopes, magnifying lenses, sunglass lenses; Video conference system, namely, video cameras, docking stations for laptops; Home theater system, namely, home theater projectors; Radio transceivers; Smartphones; Batteries and battery chargers, namely, general purpose batteries, automotive battery chargers, battery chargers for cell phones, battery chargers for electronic cigarettes, camera battery chargers; Buzzers, namely, electric buzzers; Downloadable multimedia file, namely, downloadable digital video recordings of television shows and movies, downloadable digital video recordings of television shows and movies; Coils (parts of distilling, heating and cooling installations), namely, electric coils; credit cards

### **Class 10**

(10) Medical apparatus and instruments for medical purposes, namely, aerosol dispensers, air cushions, air pillows, ankle supports, armchairs, atomizers sold empty, back supports, basins, beds, blood collection bags, canes, carbon arc lamps, carbon dioxide indicators, activated cold gel packs, chemically activated hot compresses, compression socks, corsets, curing lamps, thermometers, disposable gloves, hypodermic syringes, drainage tubes, droppers, plugs, elbow braces, electric blankets, electrodes, electronic muscle stimulators, electronic nerve, endoscopy cameras, enema apparatus, face shields, feeding cups, finger guards, galvanic belts, gloves, heat lamps, heating cushion, hot air vibrators, hydrostatic beds, hyperbaric oxygen chambers, ice bags, incubators, infrared thermometers, inhalers, injection needles, knives, lamps, lasers, magnetic bracelets, magnetic resonance imaging [MRI] apparatus, massage beds, maternity support belts, mittens, mouth guards, needles, oxygen concentrators, , oxygen monitors, phototherapeutic apparatus, pulse oximeters, radiological equipment, radiology screens, radium tubes, scissors, slings, spatulas, spittoons, splints, sterilization pouches, stirrups, syringes, temperature indicator labels, thermometers, tomographs, tongue depressors; Medical thermometer; Body fat measuring devices for medical use; Body rehabilitation apparatus for medical purposes, namely, medical ultrasound apparatus, wheeled walkers to aid mobility; Blood glucose meters; Portable arterial blood pressure measuring apparatus; Dental instruments; Dental apparatus, namely, abrasive wheels for dental purposes, bits for dental drills, cutoff wheels for dental purposes, dental articulators, dental bite guards, dental bite trays, dental bone screws, dental braces, dental bridges, dental broaches, dental burrs, dental caps, dental chin cups, dental clamps, dental crowns, dental drill bits, dental drills, dental excavators, dental foundation supports, dental implants, dental impression trays, dental instruments, dental lamps, dental mirrors, dental pliers, dental prostheses, dental syringes, drills for dental purposes, filling instruments for dental purposes, forceps for dental technical purposes, grinding discs for dental use, orthodontic instruments for dental purposes, polymerisation apparatus for dental purposes, prosthetic instruments for dental purposes, urgical instruments for dental use, x-ray apparatus for dental

imaging, x-ray appliances for dental and medical use; Contraceptive apparatus, namely, contraceptive coils, contraceptive diaphragms ; Electric blankets for medical purposes; Suture materials; Baby bottles; Bed pans; Electric massage apparatus for household use, namely, vibrators massagers; Clothing especially for operating rooms, namely, medical gowns, surgical gowns, surgical gloves, surgical scrub suits, surgical stockings, surgical shoe covers; Gloves for medical purposes; Masks for medical purposes, namely, oxygen masks, respiratory masks, surgical masks; Massaging apparatus for personal use, namely, facial massagers, gloves for massage, gum massagers, massage beds for medical purposes; Orthopedic articles, namely, orthopedic belts, orthopedic bone implants, orthopedic bone screws, orthopedic braces, orthopedic corsets, orthopedic footwear, orthopedic girdles, orthopedic hip prostheses, orthopedic soles, orthopedic suspenders, padding for orthopedic casts, templates for orthopedic purposes, toe separators for orthopedic purposes; Veterinary instruments; emergency pelvic clamps, blood glucose monitors, blood pressure monitors, body-fat monitors, fetal heart monitors; pulse rate monitors; heart monitors; artificial lenses for implantation in the eye

### **Class 11**

(11) Medical sterilizer; Dental ovens; Non-electric water purifiers for household purposes; Ice boxes (except for portable); Gas ranges; Sinks; Luminous house numbers; Pocket warmers; Aquarium filtration apparatus; Toilet bowls; Heaters for heating irons; Showers; Tanning apparatus (sun beds), namely, sun and tanning beds; Heating apparatus, namely, boilers for heating installations, central heating radiators, electrically heated carpets, heat accumulators, heat exchangers for chemical processing, heat regenerators, heat registers, heat treating furnaces, heating apparatus for defrosting windows of vehicles, heating boilers, heating furnaces for industrial purposes, solar collectors for heating, solar heating panels; Refrigerating apparatus and installations (other than for vehicles), namely, refrigerating cabinets, refrigerating or freezing showcases, cosmetic refrigerators, electric refrigerators for household purposes, gas refrigerators, portable refrigerators, refrigerated shipping containers, refrigerators, walk-in refrigerators, wine refrigerators; Ventilators, namely, ventilation hoods, ventilating fans, wind turbine ventilators; Non-electric lighting apparatus and devices, namely, oil lamps, gas lamps, and candle lamps; Washers for water taps; Water supply installations, namely, mixer faucets for water pipes, municipal water purification machines, pressure water tanks, sterilizers for water treatment, water conditioning units, water control valves for faucets, water distillation units, water filtering units for domestic use, water filtering units for industrial use, water heaters, water softening units, water treatment chlorinator units, water treatment plant filters; Toilets, portable; Heating apparatus and devices for laboratory use, namely, laboratory heating mantles; Heating and cooling systems for ships, namely, heating and cooling systems for ships, namely boilers, valves, pipes, coolant sources, manifolds, control panel, switches and electrical wire; Heating and cooling systems for aircrafts, namely, heating and cooling systems for aircraft, namely boilers, valves, pipes, coolant sources, manifolds, control panel, switches and electrical wire; Heating and cooling systems for railway vehicles, namely, heating and cooling systems for railway cars and locomotives, namely boilers, valves, pipes, coolant sources, manifolds, control panel, switches and electrical wire; Heating and cooling systems for motor cars, not being parts of engines and motors, namely, heaters for vehicles; air conditioners for vehicles; Lighting apparatus and devices for bicycles, namely, bicycle lights; Heat guns; Drying apparatus for agricultural use, namely, drying machines for agriculture; Air purifying apparatus and machines, namely, air purifying units, air purifiers for household purposes; Apparatus for dehydrating food waste, namely, food dehydrators; Beverage cooling apparatus, namely, beverage cooling and ice dispensing machines; Industrial furnaces; Cooling installations for tobacco, namely, cooling machines for tobacco; Safety accessories for water and gas apparatus and pipes, namely, safety accessories for water or gas apparatus and pipes,

namely, flash arrestors; Electric lighting apparatus, namely, aquarium lights, automobile lights, ceiling lights, diving lights, electric night lights, electric torches for lighting, electric track lighting units, fluorescent lighting fixtures, halogen light bulbs, incandescent light bulbs, infrared lighting fixtures, klieg lights, laser light projectors, led landscape lights, led light bulbs, light bulbs, light diffusers, lighting fixtures, lights for wall mounting, sconce lighting fixtures, street lights; Electric heating and cooling systems for household purposes, namely, air conditioners; Hair dryers for household purposes; Gas lighters; Ice-cooling refrigerators (for household purposes); Heating apparatus for vehicles, namely, heaters for vehicles; Lighting apparatus for vehicles, namely, tail lights for vehicles, vehicle brake lights, lights for vehicles; Cooking apparatus and installations, namely, commercial cooking ovens, cooking grills, electric cooking griddles, electric cooking ovens for household purposes, electric cooking pots and pans, electric cooking steamer, electric cooking stoves for household purposes, gas cooking ovens for household purposes, industrial cooking ovens, microwave ovens for cooking, oil cooking stoves for household purposes; Cookers, namely, electric bread cookers, electric rice cookers, electromagnetic induction cookers for household purposes, slow cookers, steam cookers; Foot warmers, electric and non-electric; Taps (faucets), namely, bidet taps, faucet taps, mixer taps for water pipes, taps for pipes and pipelines, taps for washstands; Whirlpool-jet apparatus, namely, whirlpool baths; Water purifiers for household purposes; Freezers; LED nail drying apparatus, namely, fastener nail drying machines

### **Class 12**

(12) Wheelchairs; Parachutes; Electric vehicles, namely, electric bicycles, electric cars, electric locomotives, electric railway cars, electric scooters, electrically powered aircraft, electrically powered buses; Parts and fittings for ships, namely, fenders for ships, funnels for ships, ship ballast tanks, ship hulls, ships' steering gears, spars for ships; Parts and fittings for aircraft, namely, airplane landing gear wheels, airplane propellers, airplane seats, airplane spinners, spoilers for airplanes, aircraft fuselages, fuel tanks for aircraft, wings for aircraft; Parts and fittings for railway vehicles, namely, bodies for railway cars, bogies for railway cars, buffers for railway rolling stock, chassis for railway cars, doors for railway cars, flanges for railway wheel tires, railway car wheels, railway carriages, railway cars, railway couplings, refrigerated railway wagons, seats for railway cars; Parts and fittings for automobiles, namely, air bags for automobiles, air pumps for automobiles, ashtrays for automobiles, automobile bodies, automobile bumpers, automobile chains, automobile chassis, automobile door handles, automobile hoods, automobile roof racks, automobile seat cushions, automobile spare wheel holders, automobile windcreens, automobile windshield sunshades, automobile windshields, automotive interior trim, axles and cardan shaft for motor vehicles, car seat covers, clutch mechanisms for motor cars, direction signals for automobiles, doors for automobiles, head rests for seats for motor cars, horns for motor cars, motor car convertible tops, motor car seats, motor car windows, mudguards for automobiles, rearview mirrors for automobiles, safety belts for vehicles for motor cars, shock absorbers for automobiles, spoilers for automotive vehicles, steering wheels for automobiles, structural parts for automobiles, torque converters for motor cars, torsion bars for motor cars, wheels for automobiles; Parts for bicycles; Fittings for bicycles, namely, bicycle bottom bracket spindle, bicycle chains, bicycle cranks, bicycle frames, bicycle handle bars, bicycle handlebar grips, bicycle mudguards, bicycle parts, bicycle pedals, bicycle rims, bicycle saddles, bicycle seats, bicycle spokes, bicycle wheel hubs, bicycle wheels, chain guards for bicycles, frames for bicycles, front forks for bicycles, gears for bicycles, shock absorbers for bicycles; Carts, namely, dump carts, go-carts, golf carts, grocery carts, handling carts, hose carts, hospital carts, shopping carts, tilting-carts; Baby carriages; Tyres for vehicle wheels, namely, tires for wheels of aircraft, automobile tires, inner tubes for automobile tires, bicycle tires; Suspension systems for vehicles, namely, automobile suspension spindle, automotive suspension springs, axles for air suspension systems, railcar

suspension spindle, suspension arms for cable cars, suspension shock absorbers for vehicles, suspension springs for motor cars; Braking devices for vehicles, namely, braking systems for motor vehicles and parts thereof, brakes for aircrafts, bicycle brake lever grips, bicycle brakes, band brakes for land vehicles, block brakes for land vehicles, brake discs for vehicles, brake drums for vehicles, brake facings for vehicles, brake linings for land vehicles, brake pads for land vehicles, brake segments for motor cars, brake segments for vehicles, brake shoes for land vehicles, cone brakes for land vehicles; Tractors for agricultural purposes; Engines for land vehicles; Power transmissions and gearings for land vehicles; Bearings for land vehicles, namely, axle bearings for motor vehicles, roller bearings for motor vehicles, wheel bearings for motor vehicles; Motors for land vehicles, namely, electric motors for motor cars, automobile engines, bicycle motors, diesel motors for land vehicles, driving motors for land vehicles, diesel engines for land vehicles, engines for land vehicles, gasoline engines for land vehicles, internal combustion engines for land vehicles, motorcycle engines, traction engines, turbojet engines for land vehicles; Upholstery for vehicles; Anti-theft devices for vehicles, namely, anti-theft devices for motor cars, anti-theft alarms for vehicles, anti-theft locks for use on automobile steering wheels; Vehicle wheels; Tailboard lifts (parts of land vehicles); Engine, motor, and rubber belt and brake for land vehicles, namely, belt pulleys for land vehicles, drive belts, transmission belts for land vehicles; Air pumps for two-wheeled motor vehicles and bicycles;; Engines for land vehicles; Land vehicles, namely, automobiles, motorcycles, bicycles, sport utility vehicles, crossovers, wagons, trucks, vans, sport utility vehicles, motor buses, recreational vehicles (RV), sports cars, racing cars, lorries, tractors, electric locomotives, steam locomotives, locomotives

### **Class 13**

(13) Tanks (weapons), namely, armoured fighting vehicle with mounter cannon in a rotating gun turret; Guns (weapons), namely, air guns, anti-aircraft guns, artillery guns, automatic guns, BB guns, field guns, firearms, fortress guns, harpoon guns, heavy guns, machine guns, naval guns, pellet guns, recoilless guns, siege guns, stun guns, submachine guns, trench guns; Artillery guns (cannons); Tear gas rifles; Air pistols (air guns); Rifles; Pistols (arms); Side arms (firearms), namely, hand guns; Bullets; Explosives; blasting agents; Gunpowder; Gas bombs (weapon); Rockets; Missiles; Sparklers (fireworks); Hand grenades; Illuminating shells, namely, fireworks in shell form; Firecrackers; bullets, air gun pellets

### **Class 14**

(14) Gemstones; Memorial cups of precious metals; Jewelry boxes; Shoe jewellery; Key rings of precious metals; Watchstraps made of leather; Watches; Horological and chronometric instruments and parts thereof, namely, sports watches, stop watches, automatic watches, clocks and watches, digital watches, diving watches, mechanical watches, pocket watches, wrist watches, watches for outdoor use, watch clasps, watch crowns, watch crystals, watch dials, watch faces, watch fobs, watch glasses, watch hands, watch parts, watch and clock springs, watch straps, watch winders, watch winding buttons, watch bands and straps, movements for watches and clocks, oscillators for watches, pendulums for watches; Precious stones; Jewellery; Paste jewelry (costume jewelry); Precious metals; Imitations of precious metal, namely, figurines made of imitation gold, imitation pearls, imitation stones for making jewellery, key chains of imitation leather, key fobs of imitation leather, key rings of imitation leather, imitation jewellery; Personal ornaments of precious metal, namely, hat ornaments of precious metal, model figures ornaments of precious metal, ornamental pins made of precious metal, shoe ornaments of precious metal; Ornaments of precious metal in the nature of jewelry, namely, cuff links of precious metal, chains of precious metal for bracelets, bracelets of precious metal, badges of precious metals, jewellery plated with precious metals, jewellery chain of precious metal for bracelets, hat ornaments of precious metal, ingots of precious metals, insignias of precious metal, earrings of precious metal,

**Visual Representation**

The logo for 'Rhungift' is rendered in a highly decorative, blackletter-style font. The letters are thick and feature intricate flourishes, particularly in the 'R' and 'g'. The 'R' has a long, sweeping tail that underlines the 'h' and 'u'. The 'g' has a similar flourish that underlines the 'i' and 'f'. The overall appearance is that of a classic, ornate typeface.
