Trademarks Journal

Vol. 69 No. 3544

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Mobile applications for use in the monitoring and treatment of central nervous system movement disorders and neurological conditions, namely, Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; movement sensors and monitors; computer hardware, software and application software for use with personal, patient, care, clinical, medical and healthcare data recording, collection, processing, reporting, analysis, integration, organisation, compilation, amalgamation, evaluation and management in the fields of neurological disorders and neurological conditions, namely, Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; electronic diaries for use with personal, patient, care, clinical, medical and healthcare data recording, collection, processing, reporting, analysis, integration, organisation, compilation, amalgamation, evaluation and management in the fields of neurological disorders and neurological conditions, namely, Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; sports performance monitoring software, hardware, apparatus and equipment, namely wearable activity trackers; computer databases and database systems in the fields of medicine and healthcare, namely for personal, patient, care, clinical, medical and healthcare data recording, collection, processing, reporting, analysis, integration, organisation, compilation, amalgamation, evaluation and management in the fields of movement disorders and neurological conditions; computer database systems of integrated applications for management of personal, patient, care, clinical, medical and healthcare data; computer software and application software for creating, organising, searching and updating databases of personal, patient, care, clinical, medical and healthcare data, information and records; movement sensors for the collection of personal, patient, care, clinical, medical and healthcare data.

Class 10

(2) Medical apparatus for the treatment of Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; electronic wearable patient medical monitors for continuous monitoring of movement disorders and neurological conditions; ECG monitors; medical monitors for recording heart activity, namely heart monitors; sensors for medical use to gather movement data from patients with Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia or stroke; medical diagnostic equipment for detecting movement disorders and neurological conditions, namely, Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; orthopedic articles, namely templates for orthopedic purposes.

Services

Class 41

(1) Training and education services, namely physician and caregiver training in the treatment of Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; sports consultation services, namely training relating to activity tracking for monitoring sports performance, movement, training and conditioning; training and education in the use of computer hardware and software for activity tracking for monitoring sports performance, movement, training and conditioning; training and education in the fields of sports performance, movement, training and conditioning; training and education in the use of wearable activity trackers to monitor sports performance.

Class 44

(2) Medical and health care services for the treatment of movement disorders and neurological conditions, namely, Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; medical consultancy services for the monitoring by wearable devices of movement disorders and neurological conditions, namely, Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; monitoring for medical purposes of patients with central nervous system movement disorders and neurological conditions; information, advisory and consultancy services in the fields of patient longevity and quality of life of patients with movement disorders and neurological conditions; medical diagnosis and treatment services for the treatment of Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke; preparation of reports on the treatment of Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke, all for medical purposes; medical testing services for diagnosis and treatment of diseases and conditions; computerised recording, collection, processing, reporting, analysis, integration, organisation, compilation, amalgamation, evaluation and management of medical and health data; medical information, advisory and consultancy services in the fields of Parkinson's disease, sclerosis, Alzheimer's, sleep disorders, insomnia and stroke.

Class 07

(1) Machines and machine tools, namely hydraulic jacks, pneumatic tire inflators and battery-operated grease guns, spark plugs for vehicles, namely spark plugs for electric-ignition engines, fuel filters, oil filters, filters for motors and engines, all of the above excluding machines and tools for buses and motor coaches, machine tools for the extrusion and moulding of plastic parts, grilles being machines.

Class 09

(2) Vehicle navigation apparatus in the form of on-board calculators, navigation apparatus for vehicles, namely car navigation computers, hands-free kits for telephones, namely desk- or car-mounted units incorporating a loudspeaker to allow a telephone handset to be used hands-free, notebook computers, computers, luminous or mechanical signalling panels, namely digital signage display panels and signal lights, computer peripherals, namely mice, cables and USB keys, automatic indicators of low pressure in vehicle tires, radars, radio apparatus for vehicles, voltage regulators for vehicles, buttons for sounds, electronic notice boards, control panels, namely electrical control panels, switchboards, namely control boards, walkie-talkies, paging apparatus, remote guidance apparatus, namely antennas, radars, lidars and beacons for the remote guidance of vehicles, portable telephones, teleprompters, temperature sensors, thermostats for vehicles, transistors [electronics], transmitters, namely radio frequency transmitters for remote controls, global positioning system (GPS) transmitters and telephone transmitters, fuses for vehicles, devices for adjusting headlights, all of the above excluding apparatus for buses and motor coaches.

Class 11

(3) Lighting installations, namely bulbs, diffusers, LED fixtures and dispersion-shifted optical fibres, heating, ventilating and air conditioning installations for vehicles, vehicle bulbs, namely turn signal light bulbs for vehicles, vehicle reflectors, electric lamps, sun lamps, energy-saving lamps, namely fluorescent lamps, and energy-saving light bulbs, dynamo lamps for vehicles, vehicle lights and headlights, all of the above excluding installations for buses and motor coaches.

Class 12

(4) Vehicles, apparatus for locomotion by land, air or water, namely automobiles, trucks, all-terrain vehicles, boats, airplanes and helicopters, auto body elements, parts and accessories for vehicles, namely windshield wiper blade wings, noise alarms, namely anti-theft alarms for vehicles and security alarms for signalling vehicle breakdown and non-use of a seat belt, roof bars, roof baskets, bicycle carriers, hitches and hitch covers for trailers, auto body mouldings, brake pads, anti-theft steering locks, anti-skid chains for vehicles, luggage nets for vehicles, can holders, hanger holders, parcel trays, rearview mirrors for automobiles, headrests, namely headrests for vehicle seats, vehicle consoles, windshield wipers, roll-up sunshades, pneumatic tires, crankcases for vehicle components, namely crankcases for gearboxes, crankcases for fuses and crankcases for batteries, mudguards, windshields, vehicle bumpers, weatherproof covers for motors and engines, roof consoles for vehicles, spoilers for vehicles, tailgate jacks, child safety seats for vehicles, suspension shock absorbers for vehicles, anti-theft devices for vehicles, shock absorbers for automobiles, solid rubber tires for automobile wheels, car bodies, automobile chains, automobile chassis, bumpers for automobiles, blinds and sun blinds for automobiles, anti-theft alarms for vehicles, reversing alarms for vehicles, horns for automobiles, luggage racks for vehicles, torsion bars for vehicles, connecting rods for land vehicles (other than parts for motors and engines), gear boxes for land vehicles, gas tank caps for vehicles, light trucks, minivans, hoods for vehicles, hoods for vehicle engines, bodies, crankcases for automobile parts, seat belts for vehicle seats, transmission chains for land vehicles, vehicle chassis, hydraulic circuits for vehicles, torque converters for land vehicles, reduction gears for land vehicles, turn signals for vehicles, electric motors for land vehicles, electric vehicles, clutches for land vehicles, speed-change gears for land vehicles, hub caps, axles for land vehicles, axle journals, windshield wipers, brake linings for vehicles, brake shoes for vehicles, brake segments for vehicles, vehicle brakes, bands for wheel hubs, elevating tailgates (land vehicle parts), covers for automobiles, covers for vehicle seats, vehicle wheel rims, air pumps for automobiles, motors and engines for land vehicles, transmissions for land vehicles, friction clutches for land vehicles, differential gears for land vehicles, trailer hitches for vehicles, shock absorbing springs for vehicles, vehicle suspension springs, rearview mirrors, vehicle seats, tractors, driveshafts for land vehicles, anti-glare devices for vehicles, namely windshield sunshades, upholstery for vehicles, pneumatic tires for vehicles, windows for vehicles, steering wheels for vehicles, air gratings for vehicles, motors and engines for land vehicles, namely thermal engines (diesel and gasoline), hybrid engines and fuel cell engines for land vehicles, shaft couplings for land vehicles, cigar lighters for automobiles, door handles for vehicles, window trims for vehicles, namely plastic jambs for vehicle windows, plastic parts for tailgates as part of land vehicles, quarter panels of plastic for vehicle windows, side members of plastic for vehicle windows and seals for vehicle windows, door trims for vehicles, all of the above excluding buses and motor coaches as well as their structural parts.

Class 17

(5) Gutta-percha, asbestos, mica and goods made from these materials (rubber, gutta-percha, gum, asbestos, mica), namely rubber rings for use as seals for pipe couplings or rubber membranes for check valves, rubber body plugs, rubber thread not for textile use, rubber seals for jars, shock-absorbing buffers of rubber, rubber or vulcanized fiber valves, seal rings for automobiles, insulating bands, weather strips, insulating gloves, packing for automobiles, seals; semi-processed plastic products, namely plastic in bars, blocks, pellets, rods, sheets, tubes or in semi-processed form; packing materials; rubber hoses; insulating and soundproofing tapes; sealing strips and seals for motors and engines.

Class 20

(6) Non-metal locks for vehicles, non-metal bolts and nuts, non-metal latches, namely plastic latches, all of the above excluding buses and motor coaches.

Services

Class 40

(1) Treatment of materials, namely processing and moulding of plastics.

Class 42

(2) Engineering services, as well as research and design services in the fields of plastic processing and manufacturing of moulded plastic parts, all of the above excluding services related to buses and motor coaches.

Class 07

(1) Sorting machines for sorting industrial products of others in accordance with the unbalance and the weight of the object to be sorted, in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; machines for the production of gypsum boards, fiber boards and particle boards; machines for storage, spreading and cooling of particles, gypsum and fiber materials; bulk solid bins with discharge machines; bulk solid feeding machines, bulk solid loss-in-weight feeding machines, bulk solid mixing and blending machines, bulk solid filling station machines, machines for the classification of bulk solids, batching machines for batching liquid and solid mixture; vibration machines for shaking, feeding, screening, compacting, and classifying bulk solids; vibrating tables, vibrating feeders, helical vibrating conveyors, vibrating screens and soil compactors all used for sorting and compaction and settling bulk solid; components for vibratory equipment, namely, directional force exciters, unbalance motors, magnetic exciters; spring elements and universal joint shafts as machine components; motor-driven transportation devices, particularly for bulk cargo, namely, screw conveyors, extractor belts, star feeders, chain conveyors, apron feeders, elevators, vibrating feeders, bucket conveyors, feeders with elevators, belt conveyors, overhead track conveyors, paternoster belts, apron conveyors and chain conveyors, conveyors for continuous operation and foundries, motor-driven conveyors, storage and sorting devices for unit loads, motor-driven conveyor and distribution units for baggage, packets and postal goods; rail-mounted trolleys for containers used for aircraft loading and unloading, namely, railway wagon lifts; motor-driven wagon unloading devices, namely, railway wagon lifts; roller conveyors; loading arms as machine parts; motor-driven lift carriages and lifting equipment, namely, mechanical railed lifting conveyors; lifting devices and lifting platforms for vehicles, namely car lifts and mechanical railed lifting conveyors; motor-driven tyre changers for vehicle tyres and tyre inflating valves; matching machines for wheels and tyres; pneumatic tyre inflating devices; power operated drilling machines and milling machines; clamping tools for balancing machines and mounting devices; mounting and demounting machines of vehicle components and assemblies; filling machines for filling fluids to vehicles; mechanical

machines for the vehicle cargo handling; Metalworking machines and machine tools; machines and machine tools for material processing and production, namely, industrial robots for shaping and working plastic and metal materials that are remotely controlled, tuned, optimized and monitored via cloud computing, cloud networks and IOT (Internet-of-things) computer communications all in the fields of automotive, medical, food, oil and gas; machines and machine tools for the preparation of materials and for production for others, namely, industrial robots for shaping and working plastic and metal materials all in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; machines for the processing of workpieces, namely machines and machines tools used for metalworking; production installations consisting of machines for material processing and production of others, namely, industrial robots for shaping and working plastic and metal materials all in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; production facilities consisting of machines for material processing and production of others, namely, industrial robots for shaping and working plastic and metal materials, which are remotely controlled, monitored and optimized via cloud computing, cloud networks and IOT (Internet-of-things) computer communications all in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; assembly line conveyor machines for use in product assembly for others in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; machinery for the handling of materials in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; machines for the handling of cargo; machines for metal processing; industrial robots [machines]; industrial robots [machines] that are remotely controlled, tuned, optimized and monitored via cloud computing, cloud networks or IOT (Internet-of-things) communications; electric drives for machines and motors; electric drives for machines; power tools for machines; hydraulic and pneumatic controls for machines; control mechanisms for machinery or engines; rotating centres being parts of machines

Class 08

(2) Manually actuated tyre changers for vehicle tyres and tyre inflating valves

Class 09

(3) Balancing and material testing machines for testing rotors and rotational machine parts in the fields of automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; mass centering machines for determining the mass axis of rotors; balancing industrial scales, non-rotating static cargo balancing machines; devices for the purpose of vibration measuring and vibration monitoring and machine monitoring, namely, vibration meters; pickups, namely, displacement transducers, vibration velocity probes and electronic sound pickups; devices and equipment for predictive maintenance, of machines, namely optical sensors, motion sensors, and velocity sensors; vibro acoustic testing devices, namely acoustic meters, transformers and conduits; weighing scales, road weighbridges, moment weighing scales, wind tunnel balances, force standard machines, namely, digital force gauges, multi-component electroacoustic transducers, belt weighers, weighing components, namely, load cells, load cell mounts, weigh beams, measuring eyes, special transducers; input and monitoring electronics for vibratory machines, namely electrotechnical vibration meters; test stands in the natures of engine testing machines for the testing of function and performance of vehicles and engines, gas exhaust emission testers, brake testers for vehicles and engines; tire pressure and balancing test stands; hydraulic dynamometers and eddy-current dynamometers, testing units, namely computer hardware; clutch test stands, gearbox test stands, power train test stands, four-square test stands, test stands for the testing of motors and shock absorbers; dynamometers with and without scales; balancing machine accessories, namely, devices for unbalance compensation consisting of computers to monitor and correct unbalance compensation, spindels, tooling for keeping rotors on

a spindle, vibration pick-ups, and once per revolution signals, and, compensation mass separation units; safety devices, namely, computer light barriers, power switches, guards with respective actuators, namely, solenoid-actuated valves; test stands for testing on vehicles and vehicle components, particularly brake testers; wheel alignment test stands, toe and camber measuring units, toe difference angle measuring units, headlamp setting devices, radial run-out measuring units, wheel alignment analysers, ball and socket joint play testers; diagnostic devices and equipment comprising such devices, namely computers and computer hardware; testing devices and equipment comprising such devices for testing on vehicle electrics and electronics, namely computers for vehicles electronic testing; electric and electronic computers for input and feedback control of the abovementioned devices and pertinent peripherals, namely, printers and instrument cabinets and remote control panels; data carrier based programs for input and feedback control of the abovementioned devices, namely computers; computer operating system software; devices for cloud computing, cloud networks or IOT (Internet of Things) for mechanical engineering, namely, computers and computer servers; Computer application software for managing and operating cloud computing servers; computer application software for the planning and control of products, production processes and machines by means of a cloud computer servers; computer application software to monitor data warehousing in a cloud; electronically stored data, namely computers; interface devices, namely computers; downloadable computer software that allows transmission of electronic computer databases in the nature of database management via internet; interactive computer software for the exchange of information in the field of quality control and industrial machinery for automotive, medical, food, oil and gas, pharmaceutical, and medical research industries; data compression software; computer software for authorizing access to databases; computer software for communication between computers over a local network namely, computer programs for connecting to remote computers and computer networks; computer software for database management; computer software for computer numerical control, namely micro-computers; computer software for the automated control of machine tools; communication software for connecting computer network users, namely, computer programs for connecting to remote computers and computer networks; communication software for connecting global computer networks; computer software for monitoring cloud computer network monitoring software; computer software for operating local computer networks; computer software and applications for mobile devices for managing, operating, tracking of machines and machine tools; computer software for industrial process control in the field of quality control; computer software for providing graphical user interfaces; software for computer-aided design (CAD); computer programs and programs for data processing, data transmission and data analysis, namely database management; computer utility programs for data compression, computer programs for accessing online databases; computer programs for browsing and searching online databases; computer programs for operating systems and network operating systems; data computer networks hardware and computer networks hardware for data transmission; computer network-attached storage [NAS] hardware, local area network [LAN] access points for connecting network computer users; computer hardware for network management control; computer hardware for access points on a local area network (LAN) for connecting network computer users; devices for computer networks and data communication, namely computer hardware; communication computer networks, namely computer hardware for telecommunications; data storage media and storage devices, namely blank hard discs; data blank CDs; data blank DVDs; recorded content (recorded data) namely downloadable digital audio and video recording featuring movies, music, films, motion pictures, news, and sports; electronic data carriers, machine readable data carriers, namely computer blank hard discs; digital storage media, namely blank compact discs, blank discs for computers; computer hardware, computing equipment and databases for computer systems, namely computer hardware; data loggers and recorders, data terminals, namely, computers;

computer database servers, data entry and data output terminals, namely computers; data storage devices, namely computers; data collection devices, namely computers; apparatus for transmitting data and data communication, namely computer hardware for telecommunication; encryption devices, namely electronic encryption units; peripheral devices for data duplication, namely computers; communication interface units, namely computer hardware for telecommunication

Services

Class 38

(1) Provision of platforms and portals on the Internet, namely providing access to the internet; renting and arranging access times to databases and clouds on the Internet, providing access to databases; provision of access to cloud computer servers, web pages and internet mail and news portal portals; provision of access to an Internet platform for the purpose of exchanging digital photographs, digital text and voice messages; electronic communications networks and services for the electronic transmission of data, namely, e-mail transmission services; provision of telecommunications connections to the internet for telephone hotlines and call centers; Data transmission, namely, electronic mail and facsimile transmission services; electrical data transmission via a worldwide remote-controlled computing network, namely, the Internet, electronic transmission of encrypted data namely, electronic exchange of encrypted messages using chat lines, chatrooms and Internet forums; electronic transmission of data and electronic data exchange services, namely, electronic exchange of messages using chat lines, chatrooms and Internet forums; provision of access to computer programs in data networks, namely, providing access to databases; provision of access to databases in computer networks, providing access to databases; provision of access to data or documents that are stored electronically in central files for remote consultation, providing access to databases; telematics services, namely electronic transmission of telematics data, namely speeds, idling time, harsh acceleration and braking, fuel consumption, and general performance of vehicles from vehicles to computer services via global computer network.

Class 42

(2) Engineering services, namely, computer hardware and computer software engineering, and mechanical engineering; construction planning of equipment for material processing and production; creation of computer software for data processing; IT services, namely, computer systems design, integration, monitoring and analysis services; Consulting in the field of computer and information technology [IT] namely, computer systems design, integration, monitoring and analysis services, project management in the field of IT, namely, computer systems design, integration, monitoring and analysis; technical services related to information technology, namely, computer systems design, integration, monitoring and analysis; Research in the field of information technology, namely, computer systems design, integration, monitoring and analysis; provision of information on information technology, namely, computer systems design, integration, monitoring and analysis; information technology support services, namely, computer systems design, integration, monitoring and analysis; consulting and information services relating to information technology, namely, computer systems design, integration, monitoring and analysis architecture and infrastructure; consultancy services in the field of data security; consultancy services in the field of data encryption; migration of data; programming software; online data storage, namely, providing cloud storage facilities for use as data center for others; services related to technical data analysis, namely, computer system analysis; IT services related to the analysis of data, namely, computer system analysis; development of data programs, namely, database development services; computer programming for data processing; development of computer equipment; maintenance of computer software; implementation, installation, maintenance and

updating of computer software; design and development of computer systems; programming of software for data processing; technical services in connection with data processing, namely, development and creation of computer programmes for data processing; research in the field of data processing; design and development of software; design and development of software for mechanical engineering and for automated production (CAD/CAM); design and development of computer hardware and software for industrial applications; monitoring of network systems, namely, monitoring of computer systems by remote access; development of computer-based networks; design and implementation of network web pages for others; programming of operating software to access and use a cloud computing network; design and development of operating software to access and use a cloud computing network; engineering and engineering services in the field of machine building and mechanics; mechanical research in the field of machine building and mechanics; technological consulting in the field of mechanical engineering analysis; services of an industrial designer, namely, industrial design; engineering services related to the design of machine tools; engineering services related to the design and development of programs and software for data processing for use on or in conjunction with numerically controlled machine tools; design and development of computer software for the control and operation of numerically controlled machine tools; design and development of computer hardware for the processing industry; consulting services in connection with human-machine interfaces and machine-machine interfaces for computer software; process monitoring for quality assurance in the field of machine building and mechanics; services related to computer-aided industrial analysis in the field of machine building and mechanics; provision of online information on industrial analysis and research in the field of machine building and mechanics; engineering-services for the analysis of machines in the field of machine building and mechanics; design of homepages and websites; design and development of computer cluster configurations; cloud hosting provider services; web hosting; web hosting of databases; web hosting of platforms on the internet; services in connection with computer programming; analysis of large amounts of data with respect to the relationships between data, targeted data search; extracting information from large data collections [data mining]; software as a service [SaaS] provider in the field of database management; infrastructure as a service [IaaS] provider in the field of database management; cloud computing providing software for database management; programming of operating software for the use of a cloud computing network and access to it; IT services related to IOT (Internet-of-things), namely computer systems integration and monitoring services; IT services related to IOT (Internet of Things) in the field of mechanical engineering), namely computer systems integration and monitoring services; services in the field or in connection with cloud computing, cloud networks or IoT (Internet of Things)), namely computer systems integration and monitoring services; provision of services in connection with cloud computing for mechanical engineering, namely, providing cloud storage facilities for use as a data center for others.

Goods

Class 01

(1) Chemical composition for preserving food and foodstuffs Chemical substances, chemical materials and chemical preparations, and natural elements, namely pulp (fruit pulp), cocoa pod husk, cocoa bean shell, cocoa shell pulp for use in the manufacture of food, drinks, pharmaceuticals, cosmetics and feed; artificial sweeteners made from cocoa shell and cocoa pod used as ingredients in the food, drinks, pharmaceutical and feed industry; ingredients, namely protein powder, carbohydrates made from cocoa shell and cocoa pod, for making essential oils for personal use; cocoa pod and cocoa bean shell extracts, namely protein, soluble fiber, polyphenols, pectin, to be used as an ingredient in the food, drink, pharmaceutical and feed manufacturing industries; Chemical and organic compositions made from cocoa shell or cocoa pod, namely cocoa pod husk, cocoa fruit pulp, cocoa beans, cocoa bean shells and cocoa bean placenta extracts used for use as an ingredient for the manufacture of food and beverages, namely for texturizing and emulsifying food and beverages; Processed, namely candied, dried, frozen and preserved cocoa pod husk, cocoa fruit pulp, cocoa beans, cocoa bean shells and cocoa placenta, to be used as an ingredient in the food, drink, pharmaceutical and feed manufacturing industries; Raw cocoa shell and cocoa pod derivatives namely cocoa pod husk, cocoa fruit pulp, cocoa beans, cocoa bean shells and cocoa bean placenta, used as ingredients in the food, drinks, pharmaceutical and feed industry;

Class 03

(2) Cosmetic preparations namely for hair care, for eyelashes, for skin care, made from cocoa bean shell, cocoa pod, placenta and cocoa fruit pulp; Essential oils, namely as fragrances for laundry use, for personal use, for cosmetic purposes, perfumery, hair lotions, soaps, namely bar soap, soap powder, dish soap, hand soap, cosmetics, bleaching preparations and other substances, namely starch, fabric softener, essential oils as fragrances for laundry use, polishing, cleaning, scouring and abrasive preparations, namely general use abrasives, dentifrices; All-purpose cleaning and air fragrancing preparations; Tailors' and cobblers' wax; Pet grooming preparations; Starch for abrasive purposes, namely skin abrasive, starch for laundry purposes; Scale removing preparations for household purposes; Industrial abrasives, namely abrasive paper, abrasive sand, skin abrasive, scouring solutions; Sandpaper; Sandpaper for sharpening drawing pencils; Diamantine [abrasive] for nail polish removers; Flexible abrasives, namely abrasive cloth, skin abrasive; Silicon Carbide abrasive; Abrasive rolls; Sanding gloves; Granular corundum; Corundum [abrasive]; General purpose scouring powder; Scouring powders; Adhesive removers; Abrasive paste; Prepared wax for polishing; Wood treatment preparations for polishing; Smoothing stones, namely pumice stone, polishing stones; Rust removing preparations; Floor finish removers; Abrasive strips; Abrasive paper; Polishing paper; Sandpaper pads for sharpening drawing pencils; Natural floor polishes; Liquid floor polishes; Glass cloth; Tripoli stone for polishing; Spray polish, namely polishes for leather, polishes for musical instruments; Furniture polish; Floor polish; Emery paper; Abrasive sand; Abrasive cloth; Emery.

Class 05

(3) Dietary supplements namely for controlling cholesterol, for general health and wellbeing, for promoting weight loss, specifically made from cocoa pods; pharmaceuticals and natural remedies, namely for the relief of pain, for the treatment of acne, for the treatment of asthma, consisting of Pectin for pharmaceutical purposes; Dietary supplements obtained from cocoa pods, namely wheat, yeast, zinc, vitamin and mineral dietary supplements, plant-based protein dietary supplements in powder form, soluble fiber, polyphenols and pectin, fiber, potassium, magnesium, manganese, calcium, phosphorus, iron, vitamin B5 and vitamin D2; dietetic sugar namely for medical purposes, dietetic sugar substitutes adapted for medical purposes as an ingredient in the manufacture of dietary supplements.

Class 29

(4) Processed namely candied, dried, frozen, preserved fruits, fungi, vegetables, nuts, pulses, fruit peel, and Pectin for culinary purposes; Preserved fruits; jellies, jams, compotes; Oils and fats for food, namely Cocoa butter.

Class 31

(5) Plant residues (raw materials), namely cocoa shell and cocoa pod; Fresh fruits and herbs, namely cocoa shell and cocoa pod (raw); Foodstuffs namely feed, food pellets and fodder for animals; Agricultural crops, horticulture and forestry products, namely horticultural mulches made from cocoa shell and cocoa pod waste.

Services

(1) Flow metering pumps; Peristaltic flow metering pumps; Diaphragm flow metering pumps, and specially adapted parts being diaphragms for use with flow metering pumps; specially adapted parts being valve strainers for use with flow metering pumps; Polyethylene liquid storage tanks for use with flow metering pumps; Specially adapted components for flow metering pumps, namely, replacement pump tube assemblies; Specially adapted fittings for use with flow metering pump tube assemblies; Specially adapted skid assemblies housing flow metering pumps;

Class 09

(2) Flowmeters;

(3) Fluid flow verification sensors for use with metering pumps, fluid flow indicators for use with metering pumps, fluid flow switches for use with metering pumps;

(4) Computer software for connecting flow instrumentation being chemical feed sensors and flow metering pumps to ensure the consistent measuring and dosing of the chemical flow by analyzing flow and providing status reports for the proper operation, control and configuration of the instrumentation;

Class 09

(1) Measuring, checking apparatus and instruments, namely, electronic and magnetic sensors for sensing a trailer coupling condition, a brake status and condition; speedometers and anemometers; speed meters; distance measuring apparatus, namely, distance sensors; electronic checking (supervision) instruments for indicating the status of vehicle trailer couplings and components therefor, in particular electronic sensors for detecting the position of components of vehicle trailer couplings and electronic display modules for indicating the status of trailer couplings and for displaying error code diagnosis; electronic checking instruments for indicating the status of vehicle trailer couplings or sensors for detecting the position of a vehicle trailer; downloadable computer software for monitoring, measuring, checking and controlling the performance and condition of land vehicles and their parts; downloadable computer software applications for smart phones, personal computers and tablets, namely, software for monitoring, measuring, checking and controlling the performance and condition of land vehicles and their parts, especially in the form of apps smartphones, personal computers and tablets; cameras.

Class 12

(2) Land vehicles, namely, trucks, lorries, trailers, namely, cargo trailers, buses and camping vehicles; electric land vehicles, namely, electric trucks, electric lorries, electric cargo trailers; electric motors for land vehicles; recuperation systems as parts of vehicles for energy recovery

mainly consisting of a recuperation brake with power storage; apparatus for locomotion by land, namely, trucks, lorries, trailers, namely, cargo trailers, buses and camping vehicles; trailers for vehicles; parts of vehicles, namely, axles and axle units for lorries, trailer vehicles, buses and camping vehicles; suspension systems for vehicles, especially for trucks, lorries and trailer vehicles, buses and camping vehicles; suspension systems, namely, slide suspensions for trucks, trailer vehicles, buses and camping vehicles consisting of brackets, bushings, radius arms, axles, axis binding elements, air springs, leaf springs and shock absorbers; mechanically and manually actuated devices for lifting and lowering trailers and semi-trailers as parts of such vehicles; leaf spring axles and leaf spring units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles; air spring axles and air suspension units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles; suspension systems for trucks and trailer vehicles, buses and camping vehicles consisting of air springs, leaf springs, guide rods, brackets, axles, axle connecting elements, bearing bushes, shock absorbers; brake systems for land vehicles; brakes for land vehicles; vehicle couplings for land vehicles, namely, trucks, lorries, trailers, namely, cargo trailers, buses and camping vehicles, in particular fifth wheel couplings, trailer couplings, towing hooks for vehicles, pintle hooks for vehicles and kingpins for vehicles, trailer supports, trailer slide supports; vehicle lifting doors; tire carriers; shock absorber tubes for vehicles; vehicle frame and chassis for trailers, namely, cargo trailers and semitrailers; wheels for vehicles, vehicle rims, wheel systems, namely, wheels for vehicles and vehicle wheel rims, components and spare parts of the aforementioned goods.

Services

Class 35

(1) Advertising the goods and services of others; presentation of goods on communication media, namely, the Internet and social media sites, for wholesale and retail purposes, namely, measuring, checking (supervision) apparatus and instruments for heavy duty commercial vehicles and parts for heavy duty commercial vehicles, speed meters, distance measuring apparatus, namely, distance sensors, electronic checking (supervision) instruments for indicating the status of vehicle trailer couplings and components therefor, in particular electronic sensors for detecting the position of components of vehicle trailer couplings and electronic display modules for indicating the status of trailer couplings and for displaying error code diagnosis, electronic instruments and sensors for detecting the position of a vehicle trailer, software and computer software for vehicles and their parts, software applications, for vehicles and their parts, especially in the form of apps smartphones, personal computers and tablets, cameras and land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, electric land vehicles, namely, electric trucks, electric lorries, electric cargo trailers, electric motors for land vehicles, recuperation systems as parts of vehicles for energy recovery mainly consisting of a recuperation brake with power storage, apparatus for locomotion by land, namely, trucks, lorries, trailers, buses and camping vehicles, trailers, parts of vehicles, namely, axles and axle units for lorries, trailer vehicles, buses and camping vehicles, suspension systems for vehicles, especially for trucks, lorries and trailer vehicles, buses and camping vehicles, suspension systems, namely, slide suspensions for trucks, trailer vehicles, buses and camping vehicles consisting of brackets, bushings, radius arms, axles, axis binding elements, air springs, leaf springs and shock absorbers, mechanically and manually actuated devices for lifting and lowering trailers and semi-trailers as parts of such vehicles, leaf spring axles and leaf spring units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, air spring axles and air suspension units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, suspension systems for trucks and trailer vehicles, buses and camping vehicles consisting of air springs, leaf springs, guide rods, brackets, axles, axle connecting elements, bearing bushes, shock absorbers, brake systems for land vehicles, brakes units for

vehicles, vehicle couplings for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, in particular fifth wheel couplings, trailer couplings, towing hooks for vehicles, pintle hooks for vehicles and kingpins for vehicles, trailer supports, trailer slide supports, vehicle lifting doors, tire carriers, shock absorber tubes, vehicle frame and chassis for trailers and semitrailers, vehicle wheels, vehicle rims, wheel systems, components and spare parts of the aforementioned goods, wholesale and retail distribution services, namely, measuring, checking (supervision) apparatus and instruments, heavy duty commercial vehicles and parts for heavy duty commercial vehicles, speed meters, distance measuring apparatus, namely, distance sensors, electronic checking (supervision) instruments for indicating the status of vehicle trailer couplings and components therefor, in particular electronic sensors for detecting the position of components of vehicle trailer couplings and electronic display modules for indicating the status of trailer couplings and for displaying error code diagnosis, electronic instruments and sensors for detecting the position of a vehicle trailer, software and computer software for vehicles and their parts, software applications, for vehicles and their parts, especially in the form of apps smartphones, personal computers and tablets, cameras and land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, electric land vehicles, namely, electric trucks, electric lorries, electric cargo trailers, electric motors for land vehicles, recuperation systems as parts of vehicles for energy recovery mainly consisting of a recuperation brake with power storage, apparatus for locomotion by land, namely, trucks, lorries, trailers, buses and camping vehicles, trailers, parts of vehicles, namely, axles and axel units for lorries, trailer vehicles, buses and camping vehicles, suspension systems for vehicles, especially for trucks, lorries and trailer vehicles, buses and camping vehicles, suspension systems, namely, slide suspensions for trucks, trailer vehicles, buses and camping vehicles consisting of brackets, bushings, radius arms, axles, axis binding elements, air springs, leaf springs and shock absorbers, mechanically and manually actuated devices for lifting and lowering trailers and semi-trailers as parts of such vehicles, leaf spring axles and leaf spring units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, air spring axles and air suspension units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, suspension systems for trucks and trailer vehicles, buses and camping vehicles consisting of air springs, leaf springs, guide rods, brackets, axles, axle connecting elements, bearing bushes, shock absorbers, brake systems for land vehicles, brakes units for vehicles, vehicle couplings for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, in particular fifth wheel couplings, trailer couplings, towing hooks for vehicles, pintle hooks for vehicles and kingpins for vehicles, trailer supports, trailer slide supports, vehicle lifting doors, tire carriers, shock absorber tubes, vehicle frame and chassis for trailers and semitrailers, vehicle wheels, vehicle rims, wheel systems, components and spare parts of the aforementioned goods, online wholesale and retail services of measuring, checking (supervision) apparatus and instruments for heavy duty commercial vehicles and parts for heavy duty commercial vehicles, speed meters, distance measuring apparatus, namely, distance sensors, electronic checking (supervision) instruments for indicating the status of vehicle trailer couplings and components therefor, in particular electronic sensors for detecting the position of components of vehicle trailer couplings and electronic display modules for indicating the status of trailer couplings and for displaying error code diagnosis, electronic instruments and sensors for detecting the position of a vehicle trailer, software and computer software for vehicles and their parts, software applications, for vehicles and their parts, especially in the form of apps smartphones, personal computers and tablets, cameras and land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, electric land vehicles, namely, electric trucks, electric lorries, electric cargo trailers, electric motors for land vehicles, recuperation systems as parts of vehicles for energy recovery mainly consisting of a recuperation brake with power storage, apparatus for locomotion by land, namely, trucks, lorries, trailers, buses and camping vehicles, trailers, parts of vehicles, namely, axles and axel units for lorries, trailer

vehicles, buses and camping vehicles, suspension systems for vehicles, especially for trucks, lorries and trailer vehicles, buses and camping vehicles, suspension systems, namely, slide suspensions for trucks, trailer vehicles, buses and camping vehicles consisting of brackets, bushings, radius arms, axles, axis binding elements, air springs, leaf springs and shock absorbers, mechanically and manually actuated devices for lifting and lowering trailers and semi-trailers as parts of such vehicles, leaf spring axles and leaf spring units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, air spring axles and air suspension units for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, suspension systems for trucks and trailer vehicles, buses and camping vehicles consisting of air springs, leaf springs, guide rods, brackets, axles, axle connecting elements, bearing bushes, shock absorbers, brake systems for land vehicles, brakes units for vehicles, vehicle couplings for land vehicles, namely, trucks, lorries, trailers, buses and camping vehicles, in particular fifth wheel couplings, trailer couplings, towing hooks for vehicles, pintle hooks for vehicles and kingpins for vehicles, trailer supports, trailer slide supports, vehicle lifting doors, tire carriers, shock absorber tubes, vehicle frame and chassis for trailers and semitrailers, vehicle wheels, vehicle rims, wheel systems, components and spare parts of the aforementioned goods.

Class 37

(2) Installation, repair and maintenance of electronic devices for motor vehicles, vehicle parts and vehicle engines.

Class 42

(3) Design, development, creation of software programs and applications in the vehicle and vehicle parts sector, in particular software in the form of apps for smartphones, tablets and personal computers; providing time-limited use of non-downloadable software programs and applications in the vehicle and vehicle parts sector, namely, software in the form of non-downloadable internet-based software applications for smartphones, tablets and personal computers for fleet management, vehicle tracking, controlling vehicle functions, and managing parts inventory; installation, maintenance, repair and rental of software and apps.
