Trademarks Journal

2021-09-29 — Vol. 68 No. 3492

Trademarks Journal

Vol. 68 No. 3492

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The colours grey, green and white are claimed as features of the mark. The letters NOTICO are grey. The dot on the "i" in the word NOTICO is green. The letters of the word DELIV', appearing under the letters CO in the word NOTICO, are white on a green rectangular background placed next to the design of a green mobile device, whose screen, button and rectangle in the top section are all white.

Goods

Class 09

Computer hardware and software for secure remote access to computer networks and communications networks; devices, namely computers, computer software, transmitters, receivers and network interface devices for storing and archiving data and content; navigation, guiding, tracking, marking and cartography devices in the nature of geolocation apparatus and instruments, namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers and network interface devices; satellite geolocation apparatus and instruments and apparatus for global positioning systems (GPSs), namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers and network interface devices; navigation apparatus and instruments, namely on-board navigation computers; satellite navigation apparatus, namely apparatus for global positioning systems (GPSs), namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers, and network interface devices; apparatus for measuring and recording distances, namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers and network interface devices; remote control apparatus, namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers and network interface devices; electronic apparatus for processing data in real time, namely data

processing hardware, namely computer programs for connecting to remote computers and computer networks, for remotely searching content on computers and computer networks, for using the Internet and the web, for browsing the content of computers and computer networks via remote control, for processing data, computers, mobile telephones and digital tablets and global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers, and network interface devices in the fields of procurement and deliveries; audio, video, telephone and digital transmitters for transmitting geolocation (GPS) data, namely global positioning system (GPS) transmitters; data transmitters using global positioning systems (GPSs); computerized solutions, namely computers, transmitters, receivers and network interface devices, computer software for transmitting electrical and electronic signals, namely transmission of geolocation data, through any means of telecommunications, for tracking deliveries in real time; transmitters and receivers for global positioning systems [GPSs]; satellite receivers; electronic identification cards; electronic smart cards for locating and tracking goods, vehicles and people; geolocation software; navigation software, namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers, and network interface devices; itinerary planning software for route and stop optimization, namely using a global positioning system (GPS); computer programs for calculating travel time, namely using a global positioning system (GPS); mobile team management software using a global positioning system (GPS); software for collecting information, namely text data and digital images containing the geographic location of goods and people and the geolocation of deliveries and delivery people in real time; computer software for collecting geolocation data, comments, notices, links, photographs, texts and videos, through a user network; computer software enabling users to receive personalized, configurable notifications in relation to the location, progress and status of deliveries and in relation to the location and movement of delivery people; computer software enabling users to receive personalized, configurable notifications in relation to civil security; computer software enabling users to receive personalized, configurable notifications in relation to the location and movement of other users; computer software for receiving personalized, configurable notifications regarding the operation of public services, in particular public transit such as subways, buses, commuter trains, streetcars, docks, stations and railway tracks enabling the transport of several individuals going on the same route; computer software enabling users to receive personalized, configurable notifications regarding the state of public infrastructure, in particular buildings, equipment and civil engineering structures; computer software enabling users to receive personalized, configurable notifications in relation to the movement of vehicles travelling in a traffic corridor; computer software enabling users to receive personalized, configurable advertising notifications; computer software for automatically collecting, processing and analyzing digital and computer data, namely computer software enabling users to determine the status and progress of deliveries, enabling carriers to group deliveries, track deliveries and enabling recipients to gain information about deliveries and geolocate the delivery person; computer software for managing transport professionals for collecting information related to the geographical position and movement of people and goods; geolocation software applications, namely global positioning systems (GPSs) consisting of computers, computer software, transmitters, receivers, and network interface devices for smart telephones, portable telephones and digital tablets; software applications for smart telephones, portable telephones and digital tablets enabling users to configure their permissions to be geolocated by others; software applications for smart telephones and digital tablets for transmitting personalized information to users who have accepted to be geolocated; software applications for smart telephones and digital tablets enabling users to receive personalized, configurable notifications in relation to civil security; software applications for smart telephones and digital tablets enabling users to receive personalized, configurable notifications in relation to the location and movement of other users; software applications for smart telephones and digital tablets

enabling users to receive personalized, configurable notifications regarding the operation of public services, in particular public transit such as subways, buses, commuter trains, streetcars, docks, stations and railway tracks enabling the transport of several individuals going on the same route; software applications for smart telephones and digital tablets enabling users to receive personalized, configurable notifications regarding the state of public infrastructures, in particular buildings, equipment and civil engineering structures; software applications for smart telephones and digital tablets enabling users to receive personalized, configurable notifications in relation to the movement of vehicles travelling in a traffic corridor; software applications for smart telephones and digital tablets enabling users to receive personalized, configurable notifications; mobile software applications for collecting information, namely for collecting text data and digital images related to the geographical position and movement of people; software applications for collecting information, namely for collecting text data and digital images related to the movement of people and goods, in particular the delivery carrier, the deliveries themselves and the delivery person, in real time; software applications for collecting information, namely for collecting text data and digital images related to the movement of deliveries, carriers and delivery people, through user network; geolocation and notification reception software applications for ensuring the security of goods, people and the State; computer networking hardware for communicating geolocation and navigation data; portable personal computers (hand-held computers); personal digital assistants; electronic display boards; electronic databases recorded on computer media via a mobile software application containing information related to a given geographic location, namely containing text data and digital images related to the location of goods and people; fire detection apparatus; videophones.

Services

Class 35

(1) Consulting services for business management and organization; business advice related to the geolocation of teams, goods and equipment; subscriptions to geolocation services; business administration of telecommunications networks in relation to geolocation; collection, processing and analysis of data in a central file, namely computerized central file management via a digitalization platform; business studies in the nature of statistical studies related to the movement of individuals; retrieval of information in computer files for others, namely market research in the fields of geolocation and navigation, marketing research in the fields of geolocation and navigation, research in the fields of supply chains and return on investment; management of databases containing information related to the geographic position and movement of people; management of electronic databases containing information related to a given geographic location; advertising, namely dissemination of advertisements for the promotion of the goods and services of others through a mobile phone application; business information services for consumers in relation to geolocation; business appraisals; market intelligence agency services, namely business information agency providing information in the field of geolocation and navigation software; business intermediation services, namely mediation in relation to the sale and purchase of goods and services for others, business mediation for others in the fields of geolocation and navigation; information services related to business and commercial contacts via a mobile application; services for connecting professionals with customers via websites, namely provision of services and advice related to business management, logistics management and customer satisfaction; marketing advice, namely advice related to social media marketing strategies, development of marketing strategies and concepts for others, development of marketing strategies and concepts for others; marketing, namely analysis of market research data and statistics, market analysis, collection of market research information, design of market surveys and advice in the field of business management and marketing; publishing of online advertisements for promoting the goods

and services of others on a computer network; telemarketing services; dissemination of personalized advertisements for promoting the goods and services of others through a software application for smart telephones; display of targeted advertisements for the benefit of advertisers through a software application for smart telephones; promotion of the brand and goods and services of others through a real-time geolocated notification system on smart telephones; placement of targeted advertisements for the benefit of advertisers through a software application for smart telephones; business advice related to the geolocation of their customers, for advertising purposes; business advice for choosing a software application to promote their goods and services .

Class 38

(2) Telecommunication routing and junction services, namely via smartphones, portable telephones and digital tablets, for connecting people to ensure the pickup of goods, the tracking of their delivery and their reception by the client; wireless mobile telephony services; telecommunication services for geolocation and navigation purposes, namely global positioning systems (GPSs) consisting of mobile telephone software; provision of access to the telecommunication infrastructure required for geolocation services, namely computers, web platform, hub with application software integration, computer software, software applications, transmitters, receivers and network interface devices, enabling users to transmit, record and receive geolocation data via a mobile software application; transmission of digital data, namely text messages, audio and video by any telecommunication means, namely via Hertzian waves, radio waves, telephone, electrical signals, satellite, and fibre optic networks, for geolocation and navigation purposes; transmission, dissemination and reception of audio content, visual content, still and animated images, text messages and digital data, in real time, namely user-based transmission, recording and reception of geolocation data, via mobile telephone, digital tablets, computers, digital platform, software application, text, audio and video messages, namely voice mail, short text messages (SMSs) and digital images related to vehicle traffic, itineraries, the movement and geolocation of deliveries, as well as the geographic position of people; wireless data transmission, namely unbundled telecommunication services enabling the use of cellular telephones, voice messaging and call forwarding between wireless and wired services; transmission of data obtained using a global positioning system (GPS), namely consent to follow people's movements; computer-assisted transmission of messages and images for geolocation purposes; sending of messages through computer networks, namely electronic exchange of messages via short text messages (SMSs), digital meetings, chat lines, chat rooms and Internet forums for social networks, provision of online chat rooms and electronic bulletin boards for the transmission of messages among users; communication of digital data through computer terminals, namely of text, audio and video messages, namely voice mail, short text messages (SMSs) and digital images related to vehicle traffic, itineraries, the movement and geolocation of deliveries, as well as the geographic position of people, via networks, by cable, via satellite, through software application; telecommunications, namely electronic display of messages transmitted to multiple users via a global computer network; provision of access to global computer networks; rental of access time to global computer networks; connection to a global computer network via telecommunications, namely via Internet and satellite routing and junction services, enabling communication of geolocation and navigation data; mobile radiotelephony services; provision of online discussion forums related to geolocation and navigation; provision of access to electronic databases in the fields of geolocation and navigation; provision of access to databases containing information related to the position and movement of individuals; provision of access to electronic databases containing information related to a given geographic location; live sharing and transmission of digital data, text, images, audio and video (digital and computerized), namely text

messages, voice mail and digital images related to vehicle traffic, itineraries, the movement and geolocation of deliveries, as well as the geographic position of people, via a global positioning system (GPS), computers, computer software, transmitters, receivers and network interface units for smart telephones, portable telephones, digital tablets and computers.

Class 39

(3) Information related to transport, namely by the transmission of itineraries and plans; information related to the transport of goods, namely by locating the flow of goods; information related to the transport of people, namely by locating individuals (tracking and locating individuals); transmission of information to users of public transit such as subways, buses, commuter trains, streetcars, docks, stations and railway tracks; information related to road traffic; advice given to business in relation to the geolocation of their personnel, their customers and their users; advice given to businesses in relation to choosing a geolocation solution; monitoring and tracking of shipments via geolocation; information services regarding the location of goods via geolocation.

Class 41

(4) Training and education in the field of geolocation system design and development; practical training and demonstrations, namely hands-on workshops for professionals for the installation, programming and operation of geolocation systems; training services for businesses in relation to logistics; advice related to training, namely advice on choosing classes in the field of geolocation; training related to technical information, namely in relation to automatic information processing, computer design, programming, operation and use; training services in the fields of computer software development and data processing; organization of training sessions for the installation, programming and operation of geolocation and navigation systems; organization of training workshops for businesses in relation to ethical and privacy issues regarding geolocation; technical training related to the security of goods and people; in-person training centre on professional competencies in the field of the design and development of geolocation and navigation systems; training and advice for businesses in the professional field in relation to ethical and privacy issues regarding geolocation; provision of electronic publications (online, non-downloadable) in the fields of geolocation and navigation; desktop publishing; demonstration of products, namely hands-on workshops for the installation, programming and operation of geolocation and navigation systems.

Class 42

(5) Analysis and design of computer geolocation and navigation systems; computer software consulting; computer software development (design); installation, maintenance and updating of computer software; computer programming; design and development of computer software enabling users to receive personalized, configurable notifications; design and development of computer software for providing information related to the position and movement of people; design and development of itinerary planning software; design and development of geolocation software applications for smart telephones, portable telephones and digital tablets; design and development of software applications for smart telephones and digital tablets, for transmitting personalized information to users who have accepted to be geolocated; encryption, decryption and authentication (checking) of information, messages, data transmitted by means of telecommunications; design and development of computer hardware, namely electronic cards; remote monitoring of computer geolocation systems; expert assessment of engineering work related to geolocation and navigation systems, namely computer engineering; research and development of new products for others; temporary use of non-downloadable software for tracking people, vehicles and property through a computer network and for sharing such information; electronic digital data storage services, namely cloud computing storage service provider; development services for global positioning system (GPS) and satellite navigation applications;

computer information archiving services provided by a cloud computing service provider enabling the archiving of files containing text data and digital images for geolocation and navigation purposes.

Class 45

(6) Consultant services and transmission of information in the fields of emergency procedures for the community, namely relating to the use of navigation, guiding, tracking, marking and cartography devices; real-time notification service, for crisis management, communication in a emergency area, crisis and emergency messaging, facilitation of communication between public authorities and the population; monitoring of telephone calls from subscribers and activation of emergency services; consulting services related to individual health and safety, namely prevention of health and safety risks via the transmission of notifications and by facilitating communication between populations in at-risk areas and the appropriate authorities; safety risk assessment; safety services for protecting goods and people, namely location and traceability of property, vehicles and people for security purposes; safety services for protecting goods and people, namely sending of notifications to users for safety and public interest purposes; remote monitoring services for the safety of goods, people and states; monitoring and location services for isolated or vulnerable people; remote surveillance and remote assistance services for the safety of goods, people and states; safety services, namely remote intervention services for the safety of goods and people; monitoring of fire alarms; information for users in relation to the operation of public services; communication service, provided via any means of communication, for the delivery of emergency alert messages sent by public authorities, namely emergency alert services.

Colour Claim

Colour is claimed as a feature of the trade-mark. The word AutoStore is in black and the six dots are in red.

Goods

Class 06

(1) Grids, frameworks and structures of metal or predominantly made of metal, such as structural beams and poles for construction of warehouse storage systems, grids, frameworks and structures of metal or predominantly made of metal, namely, rail structures for robotic transportation machines and robotic transportation vehicles, conveying machines and roller conveyors for conveying goods for storage and retrieval, for use in warehousing, plus bins, boxes and containers of metal or predominantly made of metal for storing and transportation of goods, as well as parts and fittings for all the aforementioned goods.

Class 07

(2) Conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing, electronically controlled robotic conveyance machines and conveyance vehicles for transportation, storage and retrieval of boxes and containers with goods in warehouses, storage facilities and distribution centers, transport machines for use for storage and retrieval of goods in warehouses, storage facilities and distribution centers, electronically controlled machines, apparatus and installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval systems comprised primarily of carts with lifting function and continuous tracks therefor for repositioning

storage bins or boxes from one location to another location, plus boxes and containers especially adapted for use with the aforementioned machines and apparatus, as well as parts and fittings for all the aforementioned goods.

Class 09

(3) Electronically controlled apparatus and instruments, namely, operational controllers and computer hardware and parts thereof for robots, carts and vehicles for use in the warehousing of goods, plus electronically controlled apparatus and instruments, namely, computerized electronic observation, management and operation controllers and computer hardware for storage and retrieval machines and systems for use in the warehousing of goods, plus computers, computer hardware and computer firmware for management of storage depots and warehouses, plus recorded computer programs and software for management and operation of storage depots and warehouses, plus electrical and electronic measuring, monitoring and checking controllers and distance sensors of the operation of computerized conveying, storage and retrieval machines, apparatus, instruments and installations, as well as replacement and structural parts and fittings for all the aforementioned goods.

Class 20

(4) Boxes made of plastic or predominantly made of plastic and parts and fittings therefor; bins, boxes and containers made of plastic or predominantly made of plastic for storage and retrieval by conveying machines in warehousing, and parts and fittings therefor.

Services

Class 35

(1) Retail and wholesale store services in the field of conveying machines, and robotic transportation carts and vehicles for use in warehousing, and parts and fittings for the aforementioned goods, plus retail and wholesale store services in the field of conveyors, roller conveyors and transportation machines for conveying goods for storage and retrieval, retail and wholesale store services in respect of electronically controlled machines, apparatus and instruments, namely, computerized storage and retrieval machines, and operating units for controlling transportation robots and transportation vehicles for use in warehousing, and parts and fittings for the aforementioned goods, plus retail and wholesale store services in the field of computer software for management and operation of warehouses and storage depots, plus retail and wholesale store services in the field of computer programs and software for management and operation of machines, apparatus and installations for storage and retrieval of goods, plus retail and wholesale store services in the field of grids, frameworks and structures of metal or predominantly made of metal, namely girders, structural beams and rail structures for robotic transportation carts and vehicles, conveying machines and roller conveyors for conveying goods for storage and retrieval, plus retail and wholesale store services in respect of boxes, as well as retail and wholesale store services in the field of bins, boxes and containers for use in warehousing, customized for use with machines and apparatus for conveying goods for storage and retrieval.

Class 37

(2) Installation, maintenance and repair of storing depots and of robotic machines and robotic carts and vehicles for storage and retrieval of goods, plus installation and maintenance services related to electrical and electronic transportation machines and transportation vehicles, plus installation, maintenance and repair of conveying machines, apparatus and installations, namely, conveyors and roller conveyors for conveying goods, installation, maintenance and repair of grids, frameworks and rail structures for conveying machines and roller conveyors for conveying goods

for use in warehousing, plus installation, maintenance and repair of electronic control stations for observation, management and operation of storage and retrieval machines and systems for use in warehousing, as well as information and consultancy related to all the aforementioned services.

Class 42

(3) Preparation, design, updating, maintenance and rental of computer programs and software for operation of warehouses and storage depots, preparation, design, updating, maintenance and rental of computer programs and software for operation of conveying machines, apparatus and systems for storage and retrieval of goods in warehouses, as well as information and consultancy related to all the aforementioned services.

Standard Characters

Goods

Class 01

(1) Chemical products for scientific purposes, namely reagents for isolation and purification of nucleic acids and in vitro diagnostic test reagents and control standards for medical or scientific research use; diagnostic reagents for use in identifying pathogens for scientific and research use; and diagnostic screening kits consisting primarily of diagnostic reagents for use in identifying pathogens for scientific and research use; biological substances, namely reagents for isolation and purification of nucleic acids, in-vitro diagnostic test reagents, and control standards for scientific research use purposes.

Class 05

(2) In-vitro diagnostic for medical purposes and in-vitro diagnostic test reagents and control standards for medical diagnostic use or veterinary use; diagnostic preparations for clinical laboratory use; diagnostic preparations for medical laboratory use; diagnostic reagents for use in identifying pathogens for clinical and medical use; and diagnostic screening kits consisting primarily of diagnostic reagents for use in identifying pathogens for clinical and medical use.

Class 09

(3) Scientific apparatus and instruments for laboratory use and for the conducting and examination for medical purposes, namely, pipetting workstation, and PCR thermal cyclers; medical laboratory research instruments for DNA analysis, RNA analysis; computer software programs for medical and scientific purposes, namely, for set up, programming and running laboratory equipment for the isolation and purification of nucleic acids and for the amplification, detection and quantification of nucleic acids; apparatus and instruments, kits and components for, in-vitro diagnostic or scientific research use, namely, electronic systems comprising fluid handlers, plate readers, vial readers, control software, designed for isolation and purification of nucleic acids, set up reaction mixes for PCR and PCR thermal cyclers.

Services

Class 42

Scientific and technological services, namely, technical research and scientific research in the field of molecular biology; development of computer hardware and software; technological consultancy services for scientific, technological laboratory and research purposes; technical support relating to laboratory instruments and equipment in the field of laboratory testing and research, namely troubleshooting to diagnose problems relating to in-vitro diagnostic test reagents, nucleic acid isolation and purification reagents; consultancy services in the field of laboratory testing and research; clinical and medical laboratory services; medical research services.

Foreign Character Translation

As provided by the applicant, the English translation of the 4 smaller Chinese characters reading from left to right is: China Shaolin, Shaolin is the name of a famous temple in China. The English translation of the 7 larger Chinese characters reading from left to right is: Shaolin Temple Martial Arts Institute.

Foreign Character Transliteration

As provided by the applicant, the transliteration of the 4 smaller Chinese characters reading from left to right is: ZHONG, GUO, SHAO, LIN. The transliteration of the 7 larger Chinese characters reading from left to right is: SHAO, LIN, SI, QUAN, FA, XUE, YUAN.

Goods

Class 03

(1) Lip balms; lotions for the body

Class 09

(2) Boxing gear, namely boxing helmets, boxing head protection pads, boxing protective vests; protective helmets used for martial arts; empty USB drives

Class 14

(3) Key chains

Class 16

(4) Stationery, namely, pens, pencils, paper, notebooks, folders, receipt books, business cards, flyers, posters, monthly calendars, pencil cases, stickers

Class 18

(5) Sports bags, backpacks, umbrellas

Class 20

(6) Cushions used for meditation; coasters, namely, furniture coasters used for protecting furniture surfaces; wood tea boxes

Class 21

(7) Glassware, namely beverage glassware used for drinking beverages; water bottles, tea cups, tea saucers, tea sets, plastic and stoneware food containers

Class 24

(8) Tea towels and tea cloths, table napkins made of textile, towels, namely bath towels, beach towels, towels made of textile

Class 25

(9) Clothing, namely, jackets, overcoats, hoodies, T-shirts, pants, raincoats, sweaters, head scarf, neck scarf, socks, clothing and costumes used when performing martial arts and for meditation; Headwear, namely, hats, caps; Footwear, namely, shoes used for martial arts, shoes used for meditation

Class 28

(10) Training equipment, namely, boxing gloves, kicking pads, punching pads, boxing sandbag, training belts, training weaponry, namely, swords, cudgel, staff, weapon stick fan

Class 30

(11) Tea, teacakes

Services

Class 41

Providing in-class instructions in the field of martial arts, self-defense, fitness and Chinese Qigong; operating a martial arts school and providing instructions via in-class and on the internet; Providing meditation training services

Trademark Description

The mark consists of stylized large, bold capital letters DRV and smaller stylized capital letters DRVLINE directly below the three letters.

Goods

Class 09

Microprocessors and semi-conductors; optical switches; power switches; electrical cables; electrical circuits; electrical converters; electrical relays; integrated circuits; integrated circuit modules; camcorders; motion sensors; optical sensors; proximity sensors; radar detectors; radar receivers; velocity sensors; acceleration sensors; distance sensors; timing sensors; magnetic data carriers, namely blank magnetic discs; recording discs, namely blank hard discs, blank laser discs, blank discs for computers; blank compact discs, blank DVDs; coin-operated mechanisms for electronic control apparatus for autonomous driving of vehicles; Coin-operated mechanisms for computer hardware for controlling the operation of vehicles; cash registers, calculating machines, namely calculators, data processing equipment, namely digital signal processors, signal processors, video processors, computers; computer software, namely computer software for autonomous driving of motor vehicles; fire-extinguishing apparatus, namely fire extinguishers; computer software and computer hardware platform, namely computer software and computer hardware platform for advanced safety and driver assistance systems for vehicles; sensors, namely sensors for use in the control of vehicle steering, braking, acceleration; electronic imaging modules, namely cameras and digital photo-optical systems electronic control apparatus, namely electronic control apparatus for autonomous driving of vehicles; computer hardware; cameras, laser devices for sensing distance to objects, laser measuring systems; computer software and computer hardware for a cloud-based platform, namely computer software and computer hardware

for transmission of data within a vehicle and for communications between and among vehicles and a cloud-based platform; computer software and computer hardware for controlling communications networks, namely computer software and computer hardware for controlling vehicle communications networks; computer software and computer hardware for collecting and analyzing data, namely computer software and computer hardware for collecting and analyzing data generated by vehicle sensors and external sources, namely, aggregated data relating to driving conditions, weather, other vehicles, obstacles, routing information, position data, GPS data, vehicle speed, vehicle acceleration, tire pressure, mileage, fuel consumption, fuel level, oil level, engine status, battery charge status, steering angle, internal temperature, external temperature; computer software and computer hardware for controlling the operation of vehicles, sensors, cameras, radar apparatus, laser devices for sensing distance to objects, laser measuring systems, and LiDAR (light detection and ranging apparatus)

Services

Class 42

Scientific and technological services and research, namely scientific and technological research services in the fields of automotive vehicles, autonomous driving and safety and driver assistance systems; industrial design services in the fields of automotive vehicles, autonomous driving and safety and driver assistance systems; industrial analysis and research services in the fields of automotive vehicles, autonomous driving and safety and driver assistance systems; design and development of computer hardware and software; software as a service featuring computer software for processing infrastructure data and for providing updates into systems, namely software as a service featuring computer software that enables connected automotive features for autonomous driving, for processing vehicle to infrastructure data and for providing updates to advanced safety and driver assistance systems; services regarding weather conditions and data collected, namely providing data aggregated from external services regarding driving conditions, weather, other vehicles, obstacles, routing information, and points of interest

Trademark Description

The mark represents the "Le Tiers Lieu" logo with only its initials featured. The letter "L", which represents the word "Le", is right below the bottom-left edge of the square. The letter "t", which represents the word "Tiers", is located in the left part of the square. It is separated from the second letter "L", which represents the word "lieu", by a slash. The said letter "L" is located in the right part of the square.

Colour Claim

Colour is claimed as a feature of the trademark. The colors blue, black, and white are claimed as a feature of the mark. The mark consists the stylized black wording "THE ORIGINAL" above the stylized wording "OAT-LY!" written over two lines, with the wording "OAT-" in white and the wording "LY!" in black wherein the center of the "A" consists a stalk of grain. Below this wording appears a large white, downward-pointing arrow pointing to a black and blue drinking glass next to a white thought bubble. All of the above is placed on a blue background.

Goods

Class 29

Dairy substitutes; milk substitutes; butter substitutes; margarine substitutes; oat-based drinks for use as milk substitute; milk substitutes containing oats; cream and crème fraiche substitutes containing oats; sour milk, sour cream and yoghurt substitutes containing oats.

The logo for 'LEGEND FORCE' features the word 'LEGEND' in white, bold, sans-serif capital letters on a black rectangular background. To the right of 'LEGEND', the word 'FORCE' is written in red, bold, sans-serif capital letters. The 'F' in 'FORCE' is partially overlapping the black background of 'LEGEND'.

Colour Claim

Colour is claimed as a feature of the trademark. The colours white and red are claimed as a feature of the mark. The mark consists of the text 'LEGEND FORCE'. The word "LEGEND" is in white and the word FORCE is in red. The black background does not form part of the trademark as it is only to offset the white lettering.
