### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

#### Class 01

(1) Acenaphthenes, acrylic resins unprocessed, alkalies, alkaline iodides, alkaline metals, alkaline-earth metals, alumina, aluminium chloride, aluminium hydrate, aluminium silicate, ammonia for cleaning purposes, ammonia for use in drug manufacturing, ammonia for use in fertilizers, ammonia for use in plastics, ammonium sulphate, ammonium sulphate fertilizer, anhydrides, anthracene, argon, unprocessed artificial resins, auxiliary fluids for use with abrasives for cleaning and polishing silver, auxiliary fluids for use with abrasives for the oil well industry, auxiliary fluids for use with abrasives for metalworking industry, barium compounds, benzene derivatives, benzoic acid, biphenyls, bisphenol A, brazing fluxes, calcium silicate, carbazole, carbon compounds, carbon black, carbon for filters, catalysts for use in the manufacture of industrial chemicals, cement blending agents, ceramic compositions for sintering in the form of granules and powders, ceramic materials in particulate form for use as filtering media for water filtration, compositions for the manufacture of technical ceramics, coumarin, coumarone resin, cresol, cyclohexane, cyclohexene, decahydronaphthalene, dihydrocoumarin, diphenylbenzene, divinylbenzene, dry ice (carbon dioxide), unprocessed epoxy resins, fertilizers, filtering materials made from unprocessed plastics, fluorene, helium, hydrogen, indenenes, indoles, isoquinolines, krypton, lime carbonate, chemicals used in the manufacture of liquid crystal displays, magnesium carbonate, methanol, methymaphthalenes, naphthalene, neon, nitrogen, organometallic compounds, namely, tetraethyl lead for use in metal industry, oxygen, para-benzylbiphenyl, phenanthrene, phenol for industrial purposes, phenolic resins, phthalic anhydride, unprocessed plastics, polyamide resins, polypropylene resins, polystyrene resins, pyrene, pyridine, quinaldine, raw salt, salts from rare earth metals, salts of alkaline metals, salts of precious metals, silica gel, aluminum silicate, calcium silicate, silicon, skatole, soda ash, sulphuric acid, styrene monomer, unprocessed synthetic resins, terphenyl, tetrachlorophthalic anhydride, tetrahydronaphthalene, thiophene, titanium dioxide, toluene, xenon, xyleneol, zirconia; rare-earth alloys for magnets; laboratory assay kits.

**Class 02**

(2) Anti-corrosive oils; anti-rust greases; ink (toner) for photocopiers; paints; pigments for use in the manufacture of paints; printing ink; screen printable cover coat ink.

**Class 07**

(3) AC electric power generators [alternators]; AC electric motors and DC electric motors for machines not including those for land vehicles but including parts for any AC motors and DC motors; linear actuators for air vehicles; airplane engines; boat engines; airplane motors; boat motors; agricultural equipment for seeding and land fertilizing; air suction machines, all being accessories to photo-type and relief printing; ammonia production machines; anti-pollution devices for motors and engines, namely catalytic converters, exhaust pipes; asphalt finishing machines; automobile crank shafts and camshafts; axles for industrial machinery; back-hoe dragline and hydroexcavators; machine bearings, not for land vehicles; bearings for transmission shafts; speed governors for machines, engines and motors; belts for conveyors; power transmission belts for industrial machinery; power transmission belts for motors and engines; bending machines for metalworking; blow moulding machines; boiler tubes as parts for industrial machines; brakes for industrial machinery, not for land vehicles; bucket wheel reclaimers; butane carburetors; carburetor feeders; carburetors; cement manufacturing machines; centrifuges [machines]; centrifuges being centrifugal separators; chain feeders for ball mills; coal and ore dressing manufacturing machines; compressed air machines; compressed air pumps; compressors for industrial machinery; steam condensers for industrial machinery; condensing machines for chemical processing; construction machines and apparatus, namely bulldozers, cranes; continuous caster machines; continuous sintering machines; catalytic converters for motors and engines; conveyors; couplings for industrial machinery other than for land vehicles; cranes and their parts; crank shafts; cranks for industrial machines; crawler-shovel-cranes; stone crushers; crusher for mines; crushing machines for construction, loading-unloading and chemical processing; crushing rolls and roll housings; cutting machines for construction; cyclo reduction gear for industrial machinery; DC electrical power generators; die-cutting and tapping machines; digging machines, namely backhoes and excavators; dish washing machines for household purposes; drag line excavators; drainage machines for construction, namely machines for digging drainage trenches and laying drainage pipes; drilling rigs, floating and non-floating; drilling machines for metalworking; drums for industrial machines; dynamo brushes for motors and engines; industrial machines for manufacturing electric circuit boards; electric food blenders for household purposes; electric waxpolishing machines for household purposes; electric winding machines for winding wires and cables; electrical wire and cable manufacturing machines; electronic motors for industrial machines; ethane recovery machines for use in oil and gas plants; excavating machines and parts thereof; exhaust mufflers for motors; machines for feeding fuel and water to engine boilers; film laminating machines for industrial use; air filters, gas filters and oil filters for engines and motors; flotation machines for mineral recovery; sintering production machines for chemical industries; sulphuric acid manufacturing machines for chemical industries; salt manufacturing machines for chemical industries; ladder excavator for construction; mineral dressing manufacturing machines for mining; gasifiers for generating renewable energy through gasification of biomass products; gear and pinion coupler and draft gear and spare parts; gear boxes for industrial machines; electric generators; hand-held tools, namely, electric hammers, chisels for machines, electric screwdrivers, electric pliers, power-driven wrenches, power-operated socket wrenches; heat exchangers for chemical processing machines; heat exchangers being parts of machines for industrial use; helium liquefiers for industrial use; hemming machines; high pressure washers; holders for metalworking machine tools; hydraulic controller for industrial machines, motors and engines; hydraulic door openers and closers, parts of machines; hydraulic pumps; hydraulic pumps for industrial machines;

hydraulic valves as machine components; hydrogen recovery apparatus, namely air condensers, air compressors, heat exchangers being parts of machines and air filters for use as parts of machines; impeller shafts for pumps; incubators for eggs; inflation film extruding machines; injection blow moulding machines; ladder excavators; large size agricultural implements, namely, cultivators, mulch tillers, plows; land levelers for use in civil engineering and construction; link-belt truck cranes; plasma etching machines; liquid natural gas (LNG) carburetors; loading-unloading machines, namely cranes, hoists; liquefied petroleum gas (LPG) carburetors; machine couplings and transmission gears and belts for industrial machinery except for land vehicles; machine couplings and belting for industrial machinery except for vehicles; exhaust manifolds for engines; electrostatic coating machines; milling machines; concrete mixers, motors and engines for industrial machines except for land vehicles; electric motors for industrial machines other than for land vehicles; mufflers for motors and engines; boat engines; suction nozzles and blades as parts of turbines for industrial machinery; oil coolers for aeronautical engines; oil refining machines; ozone filtering machines for use in drug synthesis for creating alcohols, carboxylic acids, esters and aldehydes; parts for power engines for industrial machines; pipe mills; pistons; pneumatic transporters consisting of cylindrical containers propelled through a network of tubes by compressed air; power couplings for machines; industrial machine presses for use in chemical processing; printing machines, namely, printing presses; pump diaphragms; heat pumps, gas pumps, infusion pumps and positive displacement pumps as parts of machines, engines and motors; cooling radiators for motors and engines; ramming machines, namely earth rammers for use in civil engineering and construction; reduction gears for industrial machines other than for land vehicles; industrial machines for stabilizing road base and road surfaces, namely soil stabilizers and road recyclers; rolling mill cylinders; rolling mills and their parts and fittings; rolls for rolling mills; section rolling mills; semiconductor manufacturing machines; sewage pulverizers; sewing machines; shaft couplings and connectors for machine elements not for land vehicles; axles and spindles for industrial machinery not for land vehicles; shock absorbers for industrial machinery not for land vehicles; silencers for motors and engines; sintering processing machines; slide rests for use with lathes; springs for industrial machinery; stackers namely large industrial machines for piling bulk materials such as limestone, ores and cereals into a stockpile; stackreclaimers, namely large industrial machines to recover bulk material such as limestone, ores and cereals from a stockpile; starters for aeronautical engines; starters for motors and engines; steam engine boilers; superchargers for internal combustion engines; synthetic resin manufacturing machines; transmission shafts other than for land vehicles; transmissions for industrial machines; unloaders, namely hoists and buckets for unloading bulk material from ships; front-end loaders; vacuum cleaners for household purposes; valves for industrial machinery not for land vehicles; vibrators (machines) for industrial use, namely, concrete vibrators; washing machines; waste compacting machines; waste crushing machines; waste disposers (machines); water heaters being parts of machines; wheel cranes; wire rod mills; weaving machines; gaskets for engines, gaskets for motors; key machines; manifolds namely automotive intake and exhaust manifolds; metal machine pulleys; electric arc welders; electrodes for industrial machinery; electrodes for welding; electrical power generators; sintering machines and salt manufacturing machines for use in chemical industries; pneumatic engine starters; hydraulic valve actuators; axles for industrial machines; brakes for industrial machines not for motor vehicles; camshafts for motor vehicles; current collecting equipment for railway cars, namely, generators; electric leather belts for vehicles, namely, fan belts; piston rings for motor vehicles and rolling stock; transmission shafts for boats.

**Class 08**

(4) Vices of metal; shovels; laboratory tongs, hardware hand tools.

**Class 09**

(5) Abacuses; bar code readers; general purpose batteries; bobbin wires; calculators; central processing units (processors); computer chips for integrated circuits; cinematographic projectors, cameras and film; color filters for liquid crystal display; computer operating programs, recorded; computer peripheral devices, namely, monitors, printers, scanners, keyboards, mice; computer programs being downloadable software for steelmaking process control; computer programs being downloadable software for use in back-up of computer hard drive data, back-up of computer networks, data recovery, conversion of data and documents from physical to electronic media, data encryption, data warehousing, electronic storage of data in the sectors of manufacturing, retail, distribution, transportation, finance, telecommunication and government; computers; electric signalling buzzers; electricity meters; circuit testers; power distribution and control equipment, namely, electric reactors for industrial machinery; electronic power transformers; electrical coils; electromagnets; electronic agendas; downloadable electronic periodical publications; flexible printed electrical circuits; galvanometers; heat sinks for cooling computers; heat sinks for cooling microprocessors; heat sinks for cooling light emitting diode lamps; heat sinks for cooling integrated circuits; heat sinks for cooling semiconductor elements; induction voltage regulators; blank smart cards; integrated circuits; intercommunications apparatus, namely, intercoms; juke boxes for computers; laboratory apparatus and instruments, namely laboratory baths, laboratory calipers, laboratory glassware, laboratory flasks, laboratory incubators, laboratory ovens, laboratory robots, laboratory scales and balances, laboratory slides, laboratory stirrers, laboratory test tubes, lasers for bar code readers, lasers for compact disc players not for medical purposes; general purpose batteries, namely lithium-ion secondary batteries; magnetic cores for use in motors; blank magnetic data media, namely floppy disks, hard disks, plastic cards with a magnetic strip; magnetic encoders for encoding data on magnetic media, namely floppy disks, hard disks, plastic cards with a magnetic strip; measuring and testing machines and instruments, namely measuring tape, micrometers, bevels, rain gauges, decibel meters, gas meters, water meter; computer monitors; optical instruments and apparatus, namely, cameras and lasers for thickness measurement, optical character readers (OCR); optical data media, namely, blank optical disks; ozonisers; ozonators; phase modifiers for supplying leading and reactive volt-amperes; photocopiers, namely photographic photocopiers, electrostatic photocopiers, and thermic photocopiers; photographic instruments and apparatus, namely photographic cameras, photographic film; portable telephones; power distribution and control machines and apparatus, namely electrical power switches, electrical power connectors; printed circuits; laser printers; computer printers; readers, namely, bar code readers, electronic card readers, magnetically encoded card readers, memory card readers, smart card readers; resistance wires; rotary converters; semi-conductors; slide-rules; telecommunication devices and apparatus, namely radio transmitters, global positioning system (GPS) transmitters, video transmitters, cellular phone transmission towers, radio transmission towers, cellular television towers, telephone cables, Ethernet switches; telephones; electronic transistors; video telephones; silicon wafers; Watt hour meters; Watt meters; Smartphones; Smartwatches; antenna wire; signal bells; marking buoys; surveying chains; common metal gauges for vehicles, namely, liquid-level, pressure and temperature gauges; meteorological instruments made of metal, namely thermostats, barometers; electronic control units for metalworking machines, construction machines and loading-unloading machines; laboratory incubators; lifting magnets; lithium secondary batteries, solar batteries, automotive batteries, batteries for mobile phones; fuel cells and power inverters, DC/AC inverters; electrical power converters for motor vehicles and rolling stock.

**Class 11**

(6) Air conditioners; air deodorizing apparatus for industrial purposes, namely, industrial air cleaners; air filtering units for removing dust, smoke and allergens for industrial purposes; air purifying units for industrial purposes; air sterilizers for industrial purposes; air-conditioners for airplanes; ash pits for industrial furnaces; boiler tubes being parts of boiler; electric boilers; furnace boilers; industrial boilers; coolers for industrial furnaces; cooling vats for industrial furnaces; desalination units; water distillation units; dryers for industrial furnace; evaporative air coolers; evaporators for chemical processing; filters for air conditioners for industrial purposes; filters for garbage incinerators; filters for industrial boilers; filters for industrial furnaces; filters for water purifying apparatus; fire bars for industrial furnaces and boilers; fuel economizers for gasoline engines; furnace ash boxes; furnace grates for industrial boilers; furnace grates for industrial furnace and nuclear reactors; gas scrubbers; heat exchangers for vehicles, not parts of machines; heat exchangers not parts of machines; heat regenerators namely recuperative counter-flowing heat exchangers; wood heaters, coke heaters, gas heaters, kerosene heaters, oil heaters; heating elements for industrial purposes, namely, electrical elements for stoves; hot air space heaters; hot water heaters; industrial furnaces; level controlling valves in tanks; fuel loaders for industrial furnaces; sewage treatment plants; steam generators; ultraviolet sterilizers for water treatment; waste soil purification units; water distillation units; water filtering units for industrial use; plumbing equipment, namely water flushing installations for industrial purposes; water purification units for industrial purposes; water purifying units for industrial purposes; water sterilizers; water control valves being metal plumbing fittings; agricultural equipment for irrigating; ventilating fans; natural gas condensers other than parts of machines; separators for the cleaning and purification of air and gases; laboratory chemical fume hoods; laboratory heating mantles; heat exchangers for motor vehicles and rolling stock; air conditioning units for air planes.

## Class 12

(7) AC electric motors and DC electric motors for land vehicles not including their parts; adhesive rubber patches for repairing tubes and tires; aerial conveyors; aeronautical apparatus, namely, landing gears, airplane propellers; aeroplanes; air bags being safety devices for automobiles; aircraft and their structural parts and fittings; air-cushion vehicles; anti-theft alarms for vehicles; anti-theft devices for vehicles, namely steering wheel locks; automobiles and their structural parts and fittings; axle boxes for locomotives; axle journals; axles for motor vehicle and rolling stock wheels; baby carriages; bicycle trailers; bicycles and their parts and fittings; railway cars; bogie trucks (rolling stock parts and accessories); bogies for railway cars; brake linings for vehicles; brake segments and brake calipers for vehicles; brake shoes for vehicles; brakes for motor vehicles and rolling stock; buffers for railway rolling stock; cable cars; trailer couplings; car carrier trucks; go-carts, golf carts, grocery carts; chassis for railway cars; shaft couplings for land vehicles; coupling chains for rolling stock; draft gears being parts and fittings for rolling stock; drive shafts for motor vehicles; driving gear units for motor vehicles and rolling stock; driving gears for motor vehicles and rolling stock; flanges for railway wheel tires; fork lift trucks; drive gears for motor vehicles; gear shifts for motor vehicles; pinion coupler and draft gear for motor vehicles and rolling stock; gear boxes for motor vehicles and rolling stock; steering gears for motor vehicles and rolling stock; gears and pinions for motor vehicles and rolling stock; hand cars; hand straps for railway cars; horse-drawn carriages; hydraulic circuits for vehicles; inner tubes for tires; leaf-springs for motor vehicles and rolling stock; leather safety belts for motor vehicles; mine trolleys (carriages); motor coach buses; motorcycles; non-electric locomotives for land vehicles not including their parts; parachutes; parts and accessories for railway freight and passenger cars, namely, railway trucks, wheels, axles, and wheel-axle units; pedicabs; propeller shafts for motor vehicles; puller cars for mining; pusher cars for mining; railway couplings; railway freight cars; reduction gears for motor vehicles and rolling stock; rickshaws; ropeways for cargo and freight handling; rotative

power transmission belts connecting engines and radiator cooling fans for motor vehicles; rotor discs for brakes; seat covers for vehicles; cardan shafts for motor vehicles and rolling stock; ships; ships' hulls and parts thereof; ships' steering gears; shock absorbers and shock absorbing springs for motor vehicles and rolling stock; horse-drawn sleighs; solid rolled wheels being railway rolling stock parts; space vehicles; suspension springs for motor vehicles; air springs for rolling stocks; stern frames for boats; suspension shock absorbers for motor vehicles and rolling stock; suspension springs for motor vehicles and rolling stock; suspension systems for motor vehicles and rolling stock; tires of automobiles; tractors; trains and structural parts and fittings therefor; transmission shafts for motor vehicles and rolling stock; trucks; two-wheeled motor vehicles, namely motorcycles and their structural parts and fittings; undercarriages of railway cars; undercarriages for vehicles; unloading tipplers for tilting railway freight cars; wheels for motor vehicles; water bikes being personal watercrafts; wheel rims for bicycles and motor vehicles; wheel-axle units for bicycles, motor vehicles and rolling stock; wheelbarrows; wheelchairs; bicycle wheels; wheels for railway cars; ships made of cast iron; gear boxes for motor vehicles; ingot buddies; cement mixers; steering wheels.

**Services****Class 35**

(1) Promoting public awareness of rescue dogs and rescue dog organizations via public events; Advertising services for promoting public awareness of animal care, animal adoption, and animal rescue services; Charitable services, namely, organizing and conducting volunteer programs in the field of animal welfare; Advertising services for promoting and raising public awareness of rescue dogs, rescue dog owners, and dog rescue organizations

(2) Arranging, organizing and conducting exhibitions for promoting public awareness of rescue dogs and dog rescue organizations.

**Class 36**

(3) Operation of a non-profit organization dedicated to raising funds

**Class 38**

(4) Providing access to a website featuring animal adoption, foster care and volunteering.

(5) Entertainment services, namely, broadcasting of television shows and films. Entertainment services, namely, broadcasting of internet programming via video-sharing websites.

**Class 41**

(6) Entertainment services, namely, providing educational information in the field of rescue dogs via an online blog; Operation of a not-for-profit organization disseminating information to the public in the fields of rescue dogs, rescue dog owners, and dog rescue organizations; Providing

educational information for the public on rescue dogs, rescue dog owners, dog rescue organizations, and rescue dog stories via an internet website; Entertainment services, namely, production of online programs featuring dogs distributed via videosharing websites.

(7) Photography of rescue animals and rescue animal owners; Production of video testimonials, documentaries, video features and video editorials which can be distributed across multiple platforms, including television, radio, and internet.

(8) Entertainment services, namely, reality-based television program about the work of a dog photographer and documentation of rescue dogs, rescue dog owners, dog rescue organizations, and rescue dog stories; Providing information about a television show via the Internet; Providing television previews, highlights and clips of a television series via the Internet; Providing television previews, highlights and clips of a television series via mobile devices including telephones; Production of motion picture films relating to a dog photographer and the documentation of rescue dogs, rescue dog owners, dog rescue organizations, and rescue dog stories; A television series in the field of rescue dogs; Entertainment services, namely, development, production, and distribution of television shows and films.

(9) Entertainment services, namely, production and distribution of documentaries in the field of rescue dogs; Educational services, namely, conducting keynote speaking engagements, public presentations, classroom presentations, workshops and seminars before a live audience, all containing information on the subject of rescue dogs, rescue dog owners, dog rescue organizations and rescue dog stories.

(10) Issuing of educational awards to recognize individuals and groups who have made outstanding contributions in the fields of rescue dogs, rescue dog owners, and dog rescue organizations.

### Trademark Description

The mark consists of a design and the positioning of a sign. The design is applied to the top and four panels of a three dimensional box, as shown in the two visual representations. One of the representations shows the design as applied to the top, the front panel, and the panel to the right of the front panel of the box; the other representation shows, from a different view of the same trademark, the design as applied to the top, the back panel, and the panel to the right of the back panel of the box. The three dimensional box shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of the design. The portion of the design applied to the panel to the right and the panel to the left of the front panel are primarily black with yellow at the bottom. The portion of the design applied to the back side panel is yellow with a blank area for product information and/or identification. The portion of the design applied to the front panel is primarily green and black with yellow at the bottom divided by a thin black stripe. To the right of the design applied to the front panel is a smaller yellow colored indented panel with a stylized design of a yellowjacket. Next to the design is the word REUSABLE in light green. Below that word are the words YELLOWJACKET TRAP in white letters. The portion of the design applied to the top panel consists of a green semicircle which extends into the top panel that is primarily yellow with a circular opening for the goods. This circulate opening does not form part of the trademark and is shown in dashed lines.

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) green, light green, yellow, white and black are claimed as a feature of the mark. The mark consists of a design applied to the top and four panels of a three dimensional box. The portion of the design applied to the panel to the right and the panel to the left of the front panel are primarily black with yellow at the bottom. The portion of the design applied to the back side panel is yellow with a blank area. The portion of the design applied to the front panel is primarily green and black with yellow at the bottom divided by a thin black stripe. To the right of the design applied to the front panel is a smaller yellow colored indented panel with a stylized design of a yellowjacket. Next to the design is the word REUSABLE in light green. Below that word are the words YELLOWJACKET TRAP in white letters. The portion of the design applied to the top panel consists of a green semicircle which extends into the top panel that is primarily yellow with a circular opening.

### Trademark Description

The mark consists of a design and the positioning of a sign. The design is applied to the front of a three dimensional rectangular shaped pouch, as shown in the visual representation. The rectangular shaped pouch shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of the design. The design consists of a background that is primarily orange and light green. On that background at the top is an irregular green field extending from the edge to a little over three quarters of the top of the design ending in a straight edge and extending downward approximately one quarter the way down at its lowest point. To the

left of the green field is an irregular field of light green dots against an orange background extending from the upper edge of the design downward to about two thirds the way down the design. Below the green field is the word the word POP! in stylized black block letters outlined in light green and white. The top of the initial P overlaps the upper green field. Partially overlapping the POP! in stylized block white letters outlined in black are the words FLY TRAP. The background upon which the POP! FLY TRAP appears is orange with irregular light green dots. Beneath the words is a solid light green rectangle. Below and to the right of the rectangle is a stylized black and white image of a fly on a yellow green and white background that is a rectangle with a white arch for a left edge. At the bottom of the design is a green rectangle. To the right is a continuation of the label consisting of an irregular green top with the rest of the label being in orange. Except as otherwise noted, the color white indicates background, outlining, shading, and/or transparent areas and is not part of the mark.

### **Colour Claim**

### Trademark Description

Colour is claimed as a feature of the trademark. The color(s) green, gray, light gray, black, red, white, light green and blue are claimed as a feature of the mark. The design consists of a vertically oriented rectangle where the bottom half of the rectangle consists of a rectangle bisected by a green arch where the top half of the bisected rectangle is in gray color with a series of light gray

squares and a light gray arch superimposed on the gray background; with the wording FLY TRAP ADD WATER. SUBTRACT FLIES. appearing in black color superimposed on the light gray squares and gray background; above the "P" in "TRAP" is a stylized design of a fly in black, white and green with red eyes; the bottom half of the bisected rectangle has a light green background with evenly spaced white dots. Under the green arch and on this light green background, marked with green points are the words, all in black, FLIES FIND IT FAST LETS FLIES IN, BUT NOT OUT EASY TO REUSE, LESS WASTE. The bottom of the light green field fades away and below the fade line the evenly spaced dots fade to blue. To the left of the design is a vertically oriented blue rectangle.

### **Colour Claim**

The mark consists of a design and the positioning of a sign. The design is applied to the front of a three dimensional rectangular shaped pouch, as shown in the visual representation. The rectangular shaped pouch shown in dashed lines does not form part of the trademark, but is included merely to show the positioning of a sign. The design consists of a vertically oriented rectangle where the bottom half of the rectangle consists of a rectangle bisected by a green arch where the top half of the bisected rectangle is in gray color with a series of light gray squares and a light gray arch superimposed on the gray background; with the wording FLY TRAP ADD WATER. SUBTRACT FLIES. appearing in black color superimposed on the light gray squares and gray background; above the "P" in "TRAP" is a stylized design of a fly in black, white and green with red eyes; the bottom half of the bisected rectangle has a light green background with evenly spaced white dots. ### Visual Representations

### Trademark Description

Visual representation of trademark (Picture 1): The Bergmanis Preyra Bear is a light brown stuffed bear with a cream coloured snout and a brown nose. There is a white bandage around the head with the small ears sticking out and above. The snout of the bear has a light cream coloured crossed band aid on the right side. There is a white arm sling on the right arm that covers a paw and goes around the neck. The sling has the BP logo, the BERGMANIS PREYRA name, and the WWW.BPLAWYERS.CA website on it. The BP logo is located on the base of the left foot.

Additional visual representations of the trademark (Picture 2 and Picture 3): The additional right side view of the Bergmanis Preyra Bear in Picture 2 is necessary for the definition of the BERGMANIS PREYRA name, the WWW.BPLAWYERS.CA website, and the BP logo on the sling on the right arm, as well as the light cream coloured band aid on the bear's snout. The additional left side view of the Bergmanis Preyra Bear in Picture 3 is necessary for the definition of the BP logo on the base of the bear's left foot.

### Colour Claim

Colour is claimed as a feature of the trademark. The bear is a light brown colour, with a cream coloured snout and brown nose. The eyes are black. The bandages are white. The band aid on the right side of the snout is a light cream colour. The sling on the right arm has the word BERGMANIS in blue, the word PREYRA in grey, and the website address, WWW.BPLAWYERS.CA, in blue. The BP logo is blue and grey on both the sling on the right arm and on the foot, as the "b" portion of the logo is blue and overlaps the "p" portion of the logo, which is blue at the circle portion of the letter and grey at the stem portion of the letter.

### Goods

#### Class 01

(1) Cell culture reagents for scientific or research purposes; biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; in vitro diagnostic reagents for scientific purposes; chemicals for use in chromatography; chemical compositions for producing filtration membranes and membrane absorbers; cell growth media for growing cells for scientific, laboratory and industrial use in the biotechnological and biopharmaceutical industries; enzymes for the biotechnological and biopharmaceutical industries; enzymes for use in the manufacture of pharmaceuticals and biopharmaceuticals; enzymes for the food industry and beverage industry; enzymes for use in water treatment; enzymes for use in diagnostic tests; biochemical catalysts; chemical, biochemical, biotechnological and bacteriological products for use in industry, science, biotechnology, namely nucleases; diagnostic reagents for medical-scientific research use; diagnostic testing reagent kits consisting of diagnostic reagents for clinical purposes or medical laboratories; diagnostic preparations for use in assessment of genomic analysis for scientific use; reagent kits comprising generic DNA circle, DNA primers, polymerase and buffers for use in biotechnology fields; reagents for scientific purposes for use in nucleic acid isolation and purification; laboratory assay kits.

#### Class 05

(2) Electrophoreses gels; diagnostic test strips for medical purposes; clinical diagnostic reagents; diagnostic preparations for medical laboratory use; diagnostic chemical reagents for medical purposes; reagents for use in medical genetic testing; diagnostic test reagents for medical purposes; fermentation media, proteins, cell lines and cell expression systems for medical, diagnostic and pharmaceutical purposes; protein microarrays.

#### Class 06

(3) Metal containers for storage and transport of flexible pouches containing biological, medical and pharmaceutical liquids; metal containers for storage and transport.

#### **Class 07**

(4) Mixing machines for use in biochemistry, clinical chemistry and microbiology; agitators for chemical processing; vibrators for industrial purposes; electric welding machines; electrotechnical and electronic equipment and apparatus, namely centrifuges; liquid filter housings made of plastic and stainless steel; electric welding machines for welding plastics; electric welding machines for sterile connection of plastic tubes, pipes, bags, and containers, plastic cutting tool for sterile separation of plastic tubes, pipes, bags, containers; cultivators for micro-organisms and other biological material; filtering machines made of stainless steel for chemical processing; bioreactors for use in manufacturing biopharmaceuticals.

#### **Class 09**

(5) DNA microarrays for laboratory use; protein biochip microarrays; microarray slides; laboratory equipment; Weighing apparatus and instruments and parts therefor, namely, laboratory scales and balances, electronic scales for medical use, electronic load modules; mass comparators; load cells for use in industrial and laboratory weighing systems; mechanical, electric and electronic parts and fittings for scales and weighing installations namely, laboratory scales and balances, electronic scales for medical use, electronic scales for industrial use, electronic load modules; electric metal detectors; electronic air filter testing machines; electronic liquid filters testing machines; microscopes, spectrophotometers, fluorescence spectrometer, NIR spectrometers, and turbidity meters and parts and fittings therefor; probes for scientific purposes, namely, sensors for measuring distance, chemical concentrations in aqueous solutions and gases, turbidity, radiation, and temperature; refractometers; PH meters, moisture meters, microwave resonance spectrometer, measuring sensor for analysing enzymatic reactions, electrodes for laboratory use, conductivity meters, spectrometers for determining biomass, pressure and temperature, ultrasonic flow meters; automatic chromatography apparatus for laboratory use; chromatography columns for laboratory use; microplate readers; microplate stackers; microplate washers; surface plasmon resonance (SPR) spectrometer; spectrometer using bio-layer interferometry for determination of the affinity, kinetics, and concentration of molecules, antibodies or proteins; biosensors for analyzing chemical and biological samples for measuring the presence or absence, concentration, association, affinity, binding rates, specificity and functional properties of biomolecules, namely, chemical compounds, sugars, peptides, proteins, oligonucleotides, DNA, RNA, aptamers, cells, virus, bacteria, antibodies and antibody fragments; filters for collecting and filtering airborne germs, for use in laboratories; Air filter housings and liquid filter housings made of stainless steel; scientific apparatus, instruments and equipment for the manufacture of medical and pharmaceutical preparations and for the treatment of living organisms, in particular fermenters, mechanical vibrators, homogenisers, freeze-drying installations, electrofusion and transfection apparatus, electrophoresis apparatus, and thermostats; densimeter; testing weights; computer software, recorded for operating and controlling industrial robotic machinery, biotechnological and chemical machinery for use in industrial manufacturing processes; computer software applications, downloadable for operating and controlling laboratory devices for use in biopharmaceutical research and manufacture; computer software applications, downloadable for operating and controlling industrial robotic machinery, biotechnological and chemical machinery for use in industrial manufacturing processes; computer software, recorded, for operating and controlling fermenters, bioreactors and incubators for use in biopharmaceutical and biotechnological processes and laboratory devices; computer software for analyzing, collecting, storing, documenting and visualizing data relating to manufacturing processes for the bio-pharma, pharmaceutical, chemical, food and beverage, petrochemical, paper, steel and mining, flat panel

and fragrance industries; computer software for analyzing, collecting, storing, documenting and visualizing data related to setting up scientific experiments and analysis of the results of scientific experiments; temperature controllers for controlling the temperature of biopharmaceutical materials held in disposable containers designed for cryopreservation; Protective frames for use with disposable containers for biopharmaceutical materials; bioreactors for cell culture; disposable plastic bioreactors for cell culture; bioreactors for laboratory use; bioreactors for cultivating microorganisms; disposable plastic bioreactors for cultivating microorganisms; laboratory vessels and apparatus, namely, incubators, bioreactors, for cultivating, incubating, staining and analysing biological materials, namely, microorganisms, cells and tissue; laboratory shakers; platforms for laboratory vibrating shakers, in particular with measuring stations for collecting physical data and with interfaces for exchanging data with external apparatus; laboratory centrifuges; vessel holders for laboratory centrifuges, laboratory centrifuge beakers; laboratory centrifuge chambers; orbital laboratory shakers, rocking motion laboratory shaker, vibration laboratory shaker; dosage dispensers, and single-use dosage dispensers; liquid filter units, namely, pre-assembled filter cartridges, plastic hoses and hose connectors, sold as a set, for laboratory use; pipettes, multichannel pipettes, pipette controllers, pipette tips, filters for use in pipettes and pipette tips; pipette stands; charging stations for pipettes; pipette racks for laboratory use; needles for pipettes; disposable dispenser syringes for laboratory use; dosing dispensers, namely, pumps, drips and faucets being attachments for containers for dispensing liquids for laboratory use; laboratory incubators; microtiter plate; microtiter plate reader; laboratory live-cell monitoring, imaging and analysis apparatus and software; laboratory cell and bead analysis apparatus; laboratory virus quantification apparatus; laboratory apparatus for antibody discovery and cell line development; laboratory apparatus for patch-clamping cells; laboratory apparatus for quantifying proteins, peptides and DNA; microarray scanners.

#### **Class 10**

(6) Auxiliary medical diagnostic devices, namely electrophoresis cellulose acetate films for medical diagnostic use, cellulose nitrate filters for electro-blotting for medical diagnostic use, polyamide films for DNA bonding for medical diagnostic use, holders for nutritive media for medical diagnostic use, nutritive cardboard discs for medical diagnostic use, membranes for antibody analysis for medical diagnostic use, antigen analysis and antibody cleansing for medical diagnostic use; diagnostic membranes for medical use; syringe filters for use in the field of medicine; medical plastic bags designed to hold medical and pharmaceutical liquids.

#### **Class 11**

(7) Liquid filters in the nature of cross-flow filtration cassettes, filter capsules, filter candles, filter windings, membrane filters, membrane adsorbers, filter fleeces, and filter matting, including all of the aforesaid goods being parts of filter systems or being stand-alone filters, for processing liquids in the environmental technology, biotechnology, the pharmaceutical industry, the cosmetics industry, the chemical industry, and for the food and drinks industry; filtration installations for processing liquids in the environmental technology, biotechnology, the pharmaceutical industry, the cosmetics industry, the chemical industry, and for the food and drinks industry; separators for the cleaning and purification of liquids; fermentation installations for treatment of solutions in the pharmaceutical, medical and laboratory fields, for the production of chemical substances, pharmaceuticals and biopharmaceuticals, equipment for producing de-ionised water and ultrapure water for use in chemical and biopharmaceutical analysis as well as for laboratory purposes; filters for removing pyrogens and germicides from bioprocessing solutions, for use in the analysis and manufacture of pharmaceuticals and biopharmaceuticals; refrigerating containers for biopharmaceutical materials; thermally insulated storage units for disposable containers for cryopreserving biopharmaceutical materials.

**Class 12**

(8) Mobile storage cart for transporting disposable containers for chilling biopharmaceutical materials.

**Class 20**

(9) Packaging containers of plastic.

**Services****Class 37**

(1) Maintenance, repair and servicing of laboratory apparatus, mechanical equipment and devices, weighing apparatus and instruments, electronic precision balances, scientific apparatus and instruments, laboratory equipment, electronic filter testing apparatus, water treatment apparatus and apparatus for treating aqueous solutions in laboratories, equipment for deionising water, equipment for depyrogenating aqueous solutions, filter equipment, filter installations, filter modules, fermenters, bioreactors.

**Class 41**

(2) Arranging and conducting seminars, workshops, conferences, symposiums, and panel discussions for groups in the field of product development management and business project management; conducting training and seminar programs for groups in the pharmaceutical industry, and the food and drink industries in the field of quality control systems, validation of products and processes.

**Class 42**

(3) Calibration of laboratory equipment; quality control testing of filter systems, bioreactors and fermenters and biosensors for others for scientific laboratories and manufacturers of pharmaceutical products; testing of filters; testing of cell banks, virus banks, raw materials of animal origin, bulk harvest and clinical batches for contaminants, namely bacteria, fungi, yeasts, mycoplasma, and adventitious viruses; advisory and consultancy services in the field of quality control testing and filter testing; advisory and consultancy services in the field of pharmacology and biopharmacology; scientific and technological research in the field of biopharmaceuticals and biochemistry, and design relating thereto; scientific research in the field of production of recombinant protein; biosafety testing services; biosafety testing services for the pharmaceutical, biotech and vaccine sectors; performing chemical analysis and research services; performing biological and chemical analysis of amino acids in protein samples; biological and chemical laboratory research services for others, in the nature of providing support for production processes relating to pharmaceuticals and biopharmaceuticals; creation of computer programs for operating and controlling industrial robotic machinery, biotechnological and chemical machinery for use in industrial manufacturing processes; creation of computer programs for operating and controlling bioreactors, fermenters and incubators; creation of computer programs for operating and controlling laboratory devices for use in biopharmaceutical research and manufacture; computer network design for others; systems consultancy for others, namely computer systems analysis, filter systems analysis and bioreactor analysis and consultancy with regard to manufacture and scale alteration of systems from computer, filter and/or bioreactor installations with regard to the inter-compatibility of these installations; technical design for others, technical surveying for others, technical testing and technical project planning for others for validation of research and manufacturing processes for the pharmaceutical industry, and for the food and drink industries; auditing, namely checking the conformity of goods, installations and processes of others with regulatory and statutory provisions and guidelines, support for manufacturers of pharmaceutical products and food and drink manufacturers with regard to auditing, namely with regard to checking

the conformity of goods, installations and processes for others with regulatory and statutory provisions and guidelines; software development; software installation; software consultancy services; computer software maintenance; computer software technical support services; chemical research and analysis, medical research and analysis; cell line development; consultancy with regard to the development of processes for the production of proteins and the development of cell lines; cell line and cell bank design and development; biosimilar analysis and testing services; cell bank characterization for science and research.

### Colour Claim

Colour is claimed as a feature of the trademark. The logo consists of two elements, those two elements being the three-dimensionally designed word, EVOPOLIS, and the bed of leaves that the word sits upon. The word EVOPOLIS, is surrounded by a brown outline. The forward facing letters of the word EVOPOLIS feature an orange to yellow color gradient. The letters feature claw marks that are red when facing forward and brown when turned inwards onto faces that aren't directly facing the viewer. Both letter O's in the word EVOPOLIS feature a brown dinosaur print. As a result of the three-dimensional nature of the word EVOPOLIS, inward facing letter faces feature a brown or orange shadow. The bed of leaves that the word EVOPOLIS sits upon features a black outline. The bed of leaves features a dark-green to light-green color gradient.
