P.PH. MTR

Attn: Mr. V.E. Dickson, P. Eng.

Dear Mr. Dickson:

This is in response to your letter of January 4, 1984 regarding the modification to the meter bases of types KYS, KYWS and KYLS polyphase meters, previously approved under Notices of Approval E-60, E-65 and E-66 respectively. I am advised that the Electrical Laboratory has evaluated the re-location of the filter from the back of the base to the bottom of the meter rim below the gasket and has concluded that it may be regarded as insignificant in relation to the approval provisions of the Electricity Inspection Act.

Accordingly, pursuant to the authority delegated to me under the said Act:

- 1) Your letter and sample is hereby acknowledged as satisfying the notification requirements of subsection 6(4)(a) of the Electricity Meter Regulations C.R.C. 1978, chapter 561; and
- 2) The proposed alteration is hereby accepted, in accordance with the aforementioned subsection as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Electricity Inspection Act are being informed of this decision by a copy of this letter.

Yours truly,

W.R. Virtue

Chief.
