Mr. K. E. Newbold, P.Eng.
Asea Brown Boveri Inc.
249 Dufferin St. S., P.O. Box 1600
Alliston, Ontario
L0M 1A0

Dear Mr. Newbold:

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notices of Approval E-82, E-122, E-133, E-149, E-154, E-160, E-194, E-195, E-211, E-212, E-243, E-257, E-258, E-262, E-263, E-264 and E-270, and all revisions and addenda thereto.

It is noted that these devices are to be modified as follows:

- Nameplates and register dial plates may be made of pre-anodized material rather than painted aluminium stock;
- Most parts of mechanical registers (except gears, shafts and dial plates) may be made of bare aluminium without chromate finish.
-
-

I am advised by the Electrical Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

W.R. Virtue, Chief
Legal Metrology Laboratories
