Attn: Mr. Jean-Pierre Leduc
Product Engineer

Dear Mr. Leduc:

This letter is in response to your letter dated October 29, 1985, regarding the modification to the type I-70, A & S base single phase meters by superseding the present aluminum frame with one painted grey and weighing slightly less, which are currently approved in Notices of Approval E-88 to E-88-10 inclusive. I am advised that the Electrical Laboratory has evaluated this modification and concluded that it may be regarded as insignificant, in relation to the approval provisions of the Electricity Inspection Act.

Accordingly, pursuant to the authority delegated to me under the said Act;

1. your letter is hereby acknowledged as satisfying the notification requirements of subsection 6(4)(a) of the Electricity Meter Regulations C.R.C. 1978, chapter 561, and
2. the proposed alteration is hereby accepted, in accordance with the aforementioned subsection, as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Electricity Inspection Act are being informed of this decision by copy of this letter.

Yours truly,

W.R. Virtue
Chief
